Telegraphic Tidings

WASHINGTON MATTERS.

WASHINGTON, July 29.—Charles Gee, a prominent Republican of Virginia, has been appointed general agent of the general land office, and has been assigned to Sitka, Alaska.

The secretary of war has granted the request of Capt. Ames, retired, to go beyond the bounds to which he is sentenced for a limited period of two months, commencing August 1 next, so as to enable him to look after certain real estate interests near El Paso, Texas. Under the terms of his sentence Capt. Ames was denied the privilege of going anywhere outside of the fifty mile limit from Washington.

THE WESTERN UNION KICKS.

President Norvin Green, of the Western Union Telegraph company, has sent a letter to Postmaster General Wanamaker protesting against the rate of 1 mill per word fixed by the latter as compensation to the former for sending government messages. He declares that aside from the press associations and certain railroads from which it receives benefits in transportation, etc., the Western Union makes no special rates to anybody. He asserts that the rates fixed are practically tantamount to exact free service, and intimates that the government can be compelled to pay equitable rates.

The Eleventh Census.

WASHINGTON, July 27.—Frank Williams, the expert in charge of the work of collecting statistics for the eleventh census, has returned from a trip through the manufacturing centers of the east. During his absence he consulted with leading manufacturers, political economists and representatives of labor organizations relative to the scope of inquiry to be made. He will now prepare a schedule for the recording of the statistics of the census. During his absence he consulted with leading manufacturers, political economists and representatives of labor organizations relative to the scope of inquiry to be made. He will now prepare a schedule for the recording of the statistics of the census.

Mr. Porter will also appoint Charles W. Smiley and J. W. Collins, of the United States fish commission, as experts to assist in the collection of statistics. He has also designated John S. Lord, of Illinois; Fred W. Krouse, of New York; and George H. Holmes, of Massachusetts, to make tests in their respective localities with the view of ascertaining the best method of collecting the statistics of the recorded indebtedness. The difficulties in the way of obtaining reliable data on this subject are so great that Mr. Porter says he will not undertake it at all unless he can see his way clear to reaching some satisfactory results. These gentlemen will see what can be done in a small district, such as a county, and in case they are unable to report upon an effective plan, Mr. Porter will ask the repeal of that portion of the law which makes the gathering of these statistics mandatory upon the superintendent of census.

Rocky Mountain Elks.

DENVER, July 29.—A handsome pair of Rocky mountain elks, resplendent with antlers that were the admiration of all, with two companions, were today purchased by Mr. L. E. Cooke, agent for animal supplies for Barnum, Bailey & Hutchinson, who paid \$2,000 for the four. The elks will accompany Barnum's big show across the water in September. These elks are all bucks and are handsome specimens of their race. During the three years ago they were captured in their mountain fastness by Henry W. Wilson, an old scout, once with Buffalo Bill and Custer. They are the only elks known to have ever been tamed for such a purpose. Their complete subjugation was only accomplished after months of the most careful labor. The four were so thoroughly broken that they could be all driven together.

Royal Marriage.

LONDON, July 28.—The Princess Louise, the eldest daughter of the Prince of Wales, was married at noon on Saturday to the earl of Eife. The ceremony took place in the private chapel of Buckingham palace. This is the first marriage that ever took place in the chapel, which is small, and the number of guests was therefore limited.

The bride and groom arrived privately. The earl of Eife, was dressed in full Highland costume and wore the garter of the Duffs. He was accompanied by his groomsmen, Horace Arkhauer. The bride wore a duchesse dress of white satin, with flowing train trimmed with orange blossoms, a wreath of orange blossoms and a point-de-gauze veil.

The Cherokee Strip.

TOKPRA, Kas., July 29.—Ex-Gov. Samuel J. Crawford, attorney for the Cheyenne and Arapahoe Indians, and Mayor Dyer, of Guthrie, appeared before the United States commissioners who are negotiating for the Cherokee strip. Mr. Crawford presented the claims of these two tribes to 4,000,000 acres of land, which is also claimed by the Cheyennes. He argued that the land was conveyed to the Cheyennes and Arapahoes in 1866, and that their title has never been relinquished. He declared that the Cheyennes had no authority to lease their lands to the cattlemen and that the two tribes represented were entitled to the whole amount received from the cattlemen.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years standing. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have handled in my twenty years experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters cures all diseases of the liver, kidneys or blood. Only 50 cents a bottle at C. M. Creamer's drug store.

Bad Indians.

WASHINGTON, July 29.—B. A. N. Harvey, chairman of the citizens' committee, through Indian Agent Cole, at Colville agency, Stevens county, W. T., has received a telegram saying that the Indians had attacked Colville agency and burnt eight square miles of hay land. Settlers were killed, many of whom were guarding their dwellings and hay stacks. The settlers have signed a petition requesting that a company of soldiers be sent them to protect their property and perhaps their lives. Agent Cole informs the committee in asking that immediate action be taken.

The telegram has been referred to the secretary of war with the request that military officers nearest the seat of trouble be directed promptly to investigate the matter and take such action as may be deemed necessary.

Silver's Future.

NEW YORK, July 29.—Will gold be demonetized, is a question that can now well be asked. The discoverers which have been made of the yellow metal in the Transvaal region in south Africa are something heretofore unheard of. Great reefs of quartz stand out for a distance of many miles, and the moment stamps become to every pound it pays a handsome profit to the miner. Should such authentic information of the discovery of a vast body of silver bearing ore be made public, the white metal would depreciate in value within a week. There was a hint in the history of this government when silver was king. Indications are all tend to show that it will soon regain its proud position. The product of gold today is every mining camp in the world is sold to be preceptibly larger than heretofore, while only in Colorado does the annual product of silver hold its own.

MORE SALT.

The Kansas Salt People Making a Kick Against the Trust.

TOKPRA, July 29.—The American salt trust, recently organized in London by Michigan and New York parties, has already indicated its purpose to crush all salt works which refused to come into its scheme. The first blow has been struck at this gigantic trust, however, by Kansas operators, who at the last minute refused to dispose of their plants, and who applied for and will obtain rates to the Missouri river that will give the packing houses cheaper salt and the salt field at Hutchinson a sure market.

The action of the Hutchinson salt producers in going before the inter-state commerce commission, where they will demand proportional relief rates under the law, will bring the trust to its knees, especially as the Santa Fe, Rock Island, and probably the Missouri Pacific will give aid, encouragement and rates to the Kansas producers.

Heretofore Michigan salt has been laid down in towns forty miles from Hutchinson for practically the same rate as given that city. There being an even rate over this state and Nebraska, with the enforcement of the inter-state law, Kansas salt fields can supply Missouri, Nebraska, Kansas, Texas, Indian Territory, New Mexico, Colorado and all west of that state, and can defy the combined action of the alien trust, which seeks to use the profits from several fields to crush opposition and competition in this state.

The closure of the Hutchinson works would be an injury to all Kansas as well as the river towns. Proportionate freight rates mean a volume of money flowing this way, that will make live cities in the salt territory, and better profits to the great packing houses. The present rate, fixed by an association of freight men, of 10 cents from Hutchinson to Kansas City, in order to equalize the Michigan rates, is most unjust to the people and ruinous to great interests. But little over one-third the distance from Kansas City, Hutchinson is compelled by the equal rates to add in finding a market for Michigan salt. From the rate, 7½ cents, promised by President Strong, of the Santa Fe, Kansas salt, either from Hutchinson or the neighboring towns, will only have the new salt find about Oswatomie to contend against, a fair and just competition.

Virginia Floods Again.

PARKERSBURG, W. V., July 26.—News received yesterday for the first time since the flood from West Fork and Henry House, gives a sad story of wreck and ruin. Houses, fences and crops have been washed away, and several lives were lost. Cattle have arrived from Taggart, bringing long lists of houses and property, bridges and culverts gone. The list embraces every farm on the creek and it is too long to enumerate. The story, briefly as it can be stated, is that not a single farmer or resident escaped damage. Hundreds are bankrupt and will have to be supported temporarily by the county. The commissioners estimate the loss in Lee, Taggart, Slater and Steel counties at \$500,000. Several single houses and a bridge stands on its foundation, and many people are in the woods. The mayor issued orders for a meeting of the citizens to-day to render assistance to the homeless.

A Rico Road.

MONTROSE, Colo., July 29.—Within the past few days a project has been consummated for the building of a narrow gauge road between Dallas and Rico, a distance of sixty miles. The incorporation papers have been made out under the corporate name of the San Juan & Southern railroad and with Judge M. B. Gerry, David Wood, E. L. Davis, T. B. Townsend and C. E. McConnell as incorporators, who are also the board of directors.

An Underground Den.

CHICAGO, July 29.—The police raided an alleged laundry last night. The interior was fixed up with costly divans, silk hangings, etc., concealed a trap door which led to an underground apartment, in which four Chinamen and three whites were found smoking opium. They were taken out and were fined \$5 each this morning.

FLETCHER COURT MARTIAL

An Affair that Has Created Great Excitement in Army Circles.

OMAHA, July 29.—A court martial convened at Fort Omaha to-day for the trial of Lieut. Col. Fletcher, of the 24th infantry, for conduct unbecoming an officer and a gentleman. Last June while Col. Fletcher was acting commandant at Fort Omaha his wife left him, and it was announced that she would sue for divorce on the ground of cruelty. Shortly afterward a story was circulated, said to have been set afloat by the colonel, touching his wife's honor and implicating Assistant Surgeon Henderson and Capt. Charles A. Dempsey. The latter upon hearing the report called on Col. Fletcher and gave him a severe dressing. Later Dr. Henderson called in company with Lieut. Wright, and in spite of the fact that an order was patrolling in front of the colonel's door, gave that gentleman a chastising that he will not soon forget. Henderson was arrested, but was immediately released. The affair is causing great excitement in army circles and leads to the present court martial proceedings.

The evils resulting from habitual continence are many and serious; but the use of harsh, drastic purgatives is quite as dangerous. In Ayer's pills, however, the patient has a mild but effective aperient superior to all others, especially for family use.

Try the NEW MEXICAN'S new outfit of material and machinery when you want fine job printing or blank book work.

TERRIBLE FIRES.

Millions of Dollars Going up in Smoke in Montana.

HELENA, Mont., July 29. Helena has been enveloped in a cloud of smoke during several days past, and at this time covers the entire city and the Prickly Pear valley, and follows the circle formed by the mountains that surround the city, but it is not offensive on the streets. The sky has been hazy, changing to a dull red, and at one time casting a green reflection on the house and the ground.

There are reports of fires from Elk Lake, Rimini and Missoula. There is no reliable information except regarding the one at Elk Lake, on the Montana Central.

Near Colvin the flames are raging furiously, running to the head of Eureka gulch. This is a heavily timbered country. Keeffe & Kirkendall and other parties of Helena have 150,000 cords of wood on the ground.

The indications are that several large fires are raging in different sections. These fires have broken out almost every year during the dry season, and if they continue the important forests of Montana will be completely wiped out.

The New York Exposition.

NEW YORK, July 26.—In response to invitations extended by Mayor Grant the representative business men generally of the city assembled in the governor's office, city hall, yesterday afternoon to consider the project for holding an international exposition in New York in 1892. The mayor presided. Mayor Grant was named permanent chairman of the committee. The appointment of four committees, one on permanent organization, one on finance, one on legislation, and the other on site and buildings. It was decided by the chamber of commerce this afternoon to appoint a committee of sixty of the most prominent citizens to cooperate with the national, state and city authorities in promoting and making a success of the exposition.

P. J. Flynn's Transfer.

DENVER, July 19.—The official announcement of the appointment of Mr. P. J. Flynn as general western freight and passenger agent of the Missouri Pacific road, with headquarters in this city was received yesterday. A cordial to its terms Mr. Flynn will have immediate charge of freight and passenger traffic in Colorado, Wyoming, Utah and northern New Mexico. He will assume the duties of the position August 1. No intimation as to who will be successor to Mr. P. J. Flynn in the freight department of the Santa Fe in this city has yet been received by officials here.

The Dorsey Case.

NEW YORK, July 27.—Stephen W. Dorsey was in court yesterday afternoon surrounded by counsel and friends. At noon Dorsey was taken to the private chambers of Judge O'Brien. His lawyer was also present and assured the judge that his client had no intention of wilfully refusing to comply with the order of the court, that his neglect to attend the preliminary proceedings was due entirely to illness. Several affidavits were submitted in support of this statement. Whereupon the judge paroled Dorsey until Monday.

Relief for the Starving.

CHICAGO, July 29.—A relief committee left here with eighty tons of provisions and supplies for the starving locked out coal miners of Coal valley, Ill. There are about 2,000 idle miners in the district, making, with their families, about 6,000 souls. The arrival of the train there this afternoon was greeted with demonstrations of joy. Everywhere were evidences of the most pining poverty and destitution.

Gladstone's Golden Wedding.

LONDON, July 26.—Yesterday was the golden wedding of Mr. and Mrs. Gladstone. The queen telegraphed a congratulatory message. The prince and princess of Wales and other members of the royal family sent letters. Very many presents were received.

A FRAUD EXPOSED.

A Swindle Started Under Democratic Rule Checked by the Republicans.

WASHINGTON, July 29.—A large business has sprung up in the importation of so-called garnet wool waste, which has been let in as dutiable at 10 cents a pound. In the first three months of this year 2,229,936 pounds of bogus waste was imported from Bradford, England, where a regular business of manufacturing it was started while the Democrats were in power. Garnet wool waste is practically unmanufactured scoured wool. They are used for identically the same purpose and are dutiable at 20 cents a pound.

The fraud was exposed soon after the Republicans got control of the treasury department and means taken to check the importation of bogus waste at 10 cents a pound duty when it should pay 30 and 60 cents, according to quality.

The appraisers unanimously decided at their meeting the other day in New York to impose these higher rates, and now in the first case that has come before him on appeal the acting secretary of the treasury has affirmed that decision.

Take Hood's Sarsaparilla

100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public.

Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Stomachic Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System.

Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

GEORGE W. HICKOX & CO

Filigree Jewelers

OF NEW MEXICO.

Carry the largest and richest assortment of goods to be found at any point in the southwest. Native Opals, Navajo Garnets and Turquoise in great variety. We employ only native workmen, and invite strangers to our workshops. Diamonds, American Watches, Silverware, Clocks and Optical Goods also a specialty. The only place in Santa Fe where a fine watch can be repaired properly.

PALACE AVE., Opp. Gov. Prince's

SANTA FE, New Mexico

ARE YOU LOOKING

For a place you can call home? You are that, perhaps, of "quarter-section farming," even though broad acres of the finest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and valuable arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results undeniably satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COM'Y

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty-acre blocks from which homes can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states, and all within a radius of one and one-half miles of the railroad depots.

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has laid out a garden. It is merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of boom and our "long term" payment and low interest plan often affords a little space to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriages or other courtesies within our power to give.

CITY SUBSCRIBERS.

St. Louis has sole charge of the city and county of Santa Fe, N. M., and all other business connected with the city and county of Santa Fe, N. M., and all other business connected with the city and county of Santa Fe, N. M.

MONDAY, JULY 29.

The city is trying to keep up the spirit of the city.

Most men seem to have a pretty hot head, especially in the city.

A reporter is reported from Manitoba. Anything for an advertisement.

The election for delegates to the constitutional convention takes place on August 1st. Do not forget it.

Every county in this territory except Taos has placed a ticket for the constitutional convention in the field. What is the matter with Taos?

Zola is writing a new novel. It will contain five murders, besides a great many assassinations of all degrees. We predict it will sell well.

For the benefit of our esteemed contemporaries the New Mexican desires to say that it is on hand and all right and in excellent spirits this fine July afternoon.

The use of slang says the Buffalo Courier, shows poverty of vocabulary and weakness of invention. That may be, but slang is very expressive, nevertheless.

It behooves all good citizens and especially all Republicans to vote on the 31st of August next for delegates to the constitutional convention. The larger the vote the better.

The St. Louis Republic is "having fits" because the noble is still secretary of the interior. The Republic might just as well get used to it. There is no use kicking against the pricks.

A New York dispatch says, whisky is going up in New York. Quite a difference between New York and New Mexico. In this section of country whisky invariably goes down.

Hansen testified that electricity would kill, and invited those skeptics who did not believe it to come to his laboratory and try it. So far there have been no takers of his invitation.

As a rule there are several "nice" warm blankets in this section of the country. Santa Fe does not happen to be one of them. For a very nice, cool, expensively comfortable summer climate this city is going ahead. We don't care who knows it.

The United States grand jury might investigate that little story of the issuance of bank commissions for deputy marshals at the last general election in this territory, namely in November last. There might be something very interesting about that direction.

The wedding of Princess Louise and the Earl of Liverpool took place last Saturday. We repeat at the fact that another one of the numerous progeny of our esteemed friend Victoria R. I. is safely married. We are over the worry in Louise's case and, as said before, we are glad of it.

The Memphis Appeal says "The Grand Army of the Republic has come to be nothing more than an association of pension grabbers." The Appeal and its ilk like the Grand Army of the Republic no more than it liked the grand army of loyal men from 1861 to 1865. Best in the line.

The Washington Post comes to hand in an extremely neat and beautiful dress. The Post today is one of the brightest and best of journals in the country, and since it adopted new clothes, it almost perfect. Its influence is spreading and its circulation is steadily on the increase. So much for it.

There are a lot of unpaid bills against the Democratic national committee and creditors therefore will bring suit. Probably that committee was run on the same principle as the Democratic territorial central committee of the territory of New Mexico, namely, principally for the members of the committee.

The grand jury will do well to investigate the reasons why the county commissioners of Santa Fe county have not complied with the law and publish the information of the people the statement required, showing the receipts and expenditures of the county during the year 1888, why taxes collected for the benefit of this county have been paid out in defiance of law. The grand jury will also do well to investigate the outrageous and unlawful conduct of U. S. deputy marshals and deputy sheriffs at the last election; it should look carefully and diligently into the actions of the county officials of Santa Fe county for the past four years. There is plenty of work to be done and all of it in the cause of good government and a pure administration of public affairs.

FARMERS' FAVORITE.
 During the session of the late congressional committee on the subject of the admission of New Mexico into the Union, the report, which was signed by four members of the committee, was based upon the statements, reports and newspaper articles of Democratic federal officials who gave New Mexico for partisan and selfish and sometimes corrupt motives as a "black eye" to the Union. Since this occurred the prominent Republicans of this territory have labored very hard to convince the Republican members of the house committee on territories that the minority report alluded to was unfair and unjust to New Mexico. This work is bearing fruit and will doubtless prove very successful. In evidence thereof we publish herewith a letter addressed by Congressman Stroble to Col. J. Frank Chaves.

New Haven, Conn., July 8, 1889.—My dear Sir: I am up in this part of the country on business, but having received, while in New York last week, your favor of 25th instant and the copy of a letter referred to, can not but feel a brief note in acknowledgment of your kindness and attention in receiving the same. On my return home I shall have pleasure in examining the statement issued by your legislative body and in noting what I find of anti-party feeling, viz: A certain evidence of the advancement of your people along the line of intelligent legislative action. You are pardonable, certainly, in not testing deep interest in your people and territory, and in expressing a feeling of unity and patriotic pride in what you regard as a reputation of the change made by myself (and shared by others) on the basis of what I regarded indisputable evidence of fact that the people of New Mexico had not yet established such capacity for self-government as, at the time of your speech, was shown in Congress last winter. I have indulged the hope that, during the vacation, I could make a visit to New Mexico, see your people, know your country, etc., and thus know by actual contact some of the facts pertinent to the question of your early admission into the Union.

I will hold with profound satisfaction every indication of the sure advancement of your people. With kind personal regards, believe me, yours very truly, J. S. Stroble, of Lohans, Iowa.

The Raton Range talks out in meeting as follows:

To the casual observer, he, the Democrat or Republican, it would seem just and proper that the offices of surveyor general, chief justice, collector of internal revenue and United States marshal in New Mexico should be filled by members of the party in power. In many instances the officers filling these positions by virtue of a Republican administration, are objectionable to the Democrats and intelligent Republicans of this territory. During the late campaign our people were assured of a speedy change in these offices in the event of Republican success. The Republican party was successful but the change has not yet been made. We know the best interests of the territory and the wishes of the Republican party demand that Republican should fill these positions. Personal or private preferences ought not to be considered by President Harrison. He was elected to administer the affairs of this great nation as a Republican and he considers that this territory possesses sufficient talent among its Republicans to fill these offices in the event of a change in the office named, adding to it the one of United States attorney. The cause of a decent and fair administration of affairs demand such action. Further, why should our people be compelled to have officers very obnoxious to them in their midst? There can be no good reason for this and there is no good reason for it. The administration should heed the overwhelming sentiment of the people of this territory, make the desired changes and give us fair, honest, competent and just men in the offices named.

There is not much doing in Chicago at present in the matter of the Cronin murder. In fact, it is becoming very evident that the big fish of the Cronin conspiracy have so far escaped the clasp of the prosecution, and that, if full justice is ever to be done, the most interesting developments of the case are still to come. The punishment of the actual murderers is greatly to be desired, but the main endeavor of the prosecuting officers should be the conviction of the men who stood in the shadow and directed the work of assassination.

Among Errors Relating to Health. One of the most mischievous and most common is the habit of eating too frequently of purgatives. Such medicines, if well chosen and judiciously resorted to, are certainly useful, but many persons resort to them at the wrong time, or in the wrong way, or use them too often, and thus do more harm than good. It is better to eat and drink in moderation, and to keep the bowels in a regular state of action, than to resort to purgatives. A person who is in a regular state of action, and who is not troubled with constipation, will find that he can eat and drink in moderation, and that he will not need to resort to purgatives.

Commencing Monday, October 15, 1888, the Western Route, in connection with the Union Pacific railway, Kansas division, will run new and elegant Buffet Pullman cars daily between Cheyenne, Denver and St. Louis, via Kansas City without change of cars. This makes the shortest route between those points from 120 to 130 miles. Only one change of cars between Cheyenne, Denver and Cincinnati, Louisville and all points south, Chicago, Detroit, Niagara Falls, Buffalo, Rochester, Albany, New York, Boston and points east. In Minneapolis, Akron, Columbus, Pittsburg, Baltimore, Baltimore, Washington and all middle and seaboard states points. This makes the shortest, fastest and most complete route in all respects between the west and the east. The Pullmans are fresh from the shop and are of the most elegant and modern design. All connections at St. Louis are made in the Union Depot. The official schedule will be published later.

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.
 Choice Mountain Valley and Lands near the Foot Hills
FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroad, and will have a rebate also on the same if they should buy 100 acres or more of land.

Warranty Deeds Given.

THE MINES AND THE MINES.

The Mytic Placer and San Pedro. More Characteristic News from Camp.

At the present day there are thousands of people, says the Silver City Enterprise, many of them well informed, who are firmly believe in the controlling influence of figures as they believe in their own identity; nor will they be convinced to the contrary, preferring to let the delusion rather than submit to a too searching investigation. In many respects the figure nine has apparently borne out the theory, as it is a well established fact among the mining class that years ending with "9" have been singularly productive of grand results.

The year 1890 was among the noted years, as it gave birth to a new empire on the shores of the Pacific, built upon prosperous and added millions to the circulating medium of the country.

In 1891 occurred the stampede to Walla, as the Virgin district in Nevada was then called. Eight hundred miners would be a fair estimate to place upon the output of the Comstock and contiguous lodes.

In 1893 the White Pine excitement roused the minds of our homelike population, and caused a rise in the price of the dollar. The population of the district, including all the settlements within a radius of ten miles, was estimated at 40,000 souls when the excitement was at its height.

The year 1879 is principally referred to as the year which made Tombstone and Leadville famous as mining centers, and, indeed, indirectly the discovery of numerous rich mines of gold, silver and copper in the southwest.

What grand future is in store for the year 1890, it is as yet too soon to divine, as the year is but half spent, but with a little knowledge there is at hand it may not be so difficult to determine. As coming events cast their shadows before, and reasoning by analogy, we have greatly missed our guess if New Mexico does not prove the Mexico toward which pilgrims will turn their attention, and the San Pedro mines prove the shrine at which they will worship. Present indications tend to point in that direction, and there is every reason to believe that the camp will prove to be a second Leadville.

CAMP CHIMES.

Mr. Philo Ramsey, of the Palace hotel, has purchased \$300 worth of property in the new San Pedro town site.

And since the placer locations are in demand, surely there is something important on the line of placer mining.

Capt. T. B. Lane, of Katon, is in the city today en route to San Pedro on a tour of inspection. He represents New York capital in search of mines.

Col. Johnson and Mr. Reynolds have left at the New Mexican office a superior chunk of galena ore from their Bolton claim. It has been admired greatly by old miners.

Gov. Prince set home from Cerrillos and San Pedro yesterday night. He says the consolidation of the Lucky and Lincoln will have the effect of stimulating every interest about San Pedro.

When a man buys a San Pedro town lot at a nominal figure, washes out about \$1,000 in placer gold in his back yard and strikes a lead in his cellar he isn't taking long chances—Golden Nine.

John Gray returned from Cerrillos yesterday, bringing up a fine lot of samples from the Chester, showing oxides and native silver. He has thirty-one sacks of the high grade ore now ready for shipment, and work is steadily progressing at the mine.

Every visitor from the south end of the county is enthusiastic over the prospect for securing the early extension of the Santa Fe Southern. It is universally conceded that the locating engineer can not but make a highly favorable report on the business to be had from such a road.

Patterson returned on Saturday night, having made the most successful stage trip since the Reaser line was put on. A relay team will be located at Cerrillos this week, enabling him to make better time. On Friday Patterson bought two lots at San Pedro and ordered 2,000 feet of lumber with which to build a stage line office and stable.

John King, manager of the Lucky, is here to confer with the officers of the Lucky Consolidated company today with reference to increasing shipments and starting new shipments. The Lucky vein, near the Lincoln's side line has dipped downward and now stands nearly perpendicular, showing a large body of ore running at right angles with the vein they have been working. Mr. King thinks this is the most important strike yet made in the property.

What is more attractive than a pretty face with a fresh, bright complexion? For it use Pizzoni's Powder.

IN NEW QUARTERS.

The U. S. Officials Assigned to their Homes in the Federal Building.

Col. J. P. McGorty, custodian of Santa Fe's handsome U. S. building, on Saturday received instructions from Washington to assign the federal officials here to their new quarters in the building. Accordingly the local land office began moving in today and the surveyor general's office will follow in a few days. It is fairly probable that the offices of the U. S. district attorney and U. S. marshal will be changed until successors to the present occupants of the office are named, and the U. S. court room and offices will not be ready for use until the new furniture for all the offices comes to hand October 1.

MOUNTAINS ABLAZE.

The Dense Haze Prevailing Here To-day—Its Origin—Punk Fires.

The sun went down last evening in the shape of fiery red ball floating in a sea of azure. It was an unusual sight, commented on by many. For several days white-winged flying ants had been as numerous as they were before the great rain in the summer of '81, and everybody predicted that to-day would find us enveloped in a great rain storm.

However, the prediction has failed up to the present writing, but the blue haze that has filled the atmosphere for twenty-four hours continues to increase, until the mountains have been completely shut from the view of city dwellers and only a dim outline of the nearest foothills is to be seen. What is the cause of it? Some people pretend to have heard stories of the breaking forth of a volcano somewhere in the Jemez country, and others suggest that great forest fires are raging in the adjacent mountains.

This latter surmise is probably the true cause of the haze, but nothing can be learned as to the location of the blaze. It is probably in the Valle mountains or in the Santa Fe range toward Baldy, for fires in the Monument rock say no fire has occurred there. It is said the origin of these forest fires in summer may be traced to the fact that the sun's rays ignite the punk or the rotted wood of the pine tree that

has dried out and cured till it easily takes fire from the natural heat of the sun. An old timer says this is the origin of nearly all the fires at this season of the year in the mountains, which many people ascribe to lightning and to careless sheep herders.

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such affections.

ROUND ABOUT TOWN.

Statehood meeting at the court house to-night.

Bishop Kendrick is ill at Las Vegas. Dr. Meany officiated at the Episcopal church there yesterday in his stead.

Homer Tinsley, one of the members of the Colfax county, board having resigned, Gov. Prince to-day appointed Col. J. W. Dwyer to fill the place.

Attend the statehood meeting at the court house at 8 o'clock to-night. Many prominent speakers will be present to discuss the wisdom of statehood for New Mexico.

W. M. Makin, a Trinidad man, is said to have bought the Pecos grant of 20,000 acres lying in the eastern part of this county and extending over in San Miguel. Particulars later.

The A. T. & S. F. will soon have on sale tickets to the G. A. R. encampment for "one lowest first-class fare for the round trip." If you intend going see Agent Smith about it.

The territorial board of equalization composed of Gov. Prince, Auditor Alarid and Acting Solicitor General Twitwell, is in session at the executive office this afternoon. This is the last sitting of the board.

Gov. Prince has been notified of the following postal appointments: Miss Flora M. George, postmistress at Elkins, Colfax county; Jose A. Valasquez, at El Rito, Rio Arriba county; Don H. Kedzie, at Lordsburg, Grant county. The latter is editor of the Lordsburg Liberal.

Charlie Lippincott, of Trinidad, has come to make his home here and becomes assistant at Geo. Blunt's. He says Trinidad is extremely dull and that Fred Baxter and several gentlemen members of the sporting fraternity are booked for a change of their address to Santa Fe shortly.

By far the finest lot of cherries yet grown in this city were shown to-day on the plaza. They are of the Belle Magique variety; rich in color and flavor and of enormous size. This ought to be a popular class of fruit with Santa Fe horticulturists.

The W. C. T. U. will hold a special meeting to-morrow, Tuesday, afternoon, at 4 o'clock, at the house of Mr. Harvey, on Johnson street, to make arrangements for the observance of "Flower day" at the penitentiary, next Sunday, and to complete preparations for a union gospel tent night at the Methodist church.

Mariano Larragante came in from the upper Rio Grande yesterday. His home is at La Joya, Rio Arriba county, a sheltered place where fruits attain enormous size and rare flavor. On his mother's place are 1,000 grape vines which are loaded with fruit. He says the cereal crop is good and fruits of all sorts plentiful along that favored strip of the Rio Grande valley lying between San Ildefonso and Embudo.

The grand jury will be in session in a few days and people who have been telling such big fish stories lately will be given a chance to prove up their statements. It is probable that the grand jury will find indictments in a large number of cases where the parties have caught more than enough to supply their own immediate wants. The law says that no fish shall be caught beyond those sufficient to serve the immediate wants of the people who catch them; that is, no wholesale catch of fish to be given away to friends is lawful.

The townspeople have scarcely recovered from a domestic scandal wherein the woman knocked the man down with a stick of stove wood and left his house with the avowed intention of getting a divorce, before another scandal in low life comes upon them. The latter case has nearly had the effect of breaking up a circus. It appears the clown who has been doing funny business at the Mexican circus fell in love with a sister of one of the helpers the other day and afterward transferred his affections to the wife of the shoemaker. Together they skipped the tra-la-las, the wife and the clown, and eloped by walking out of town.

PERSONAL.

A. C. de Baca is up from Pena Blanca to-day.

W. E. Gortner, stenographer, is here from Las Vegas.

H. L. Warren and Neil B. Field are here from Albuquerque.

Judge H. L. Waldo, returned last night from Las Vegas for springing.

Alexander Read, esq., the painstaking county clerk for Rio Arriba, is on a visit to the capital.

Judge Vincent and Agent London, of the Scottish Mortgage Loan, Las Vegas, are visitors here.

Alcario Valasquez, Luis M. Garcia and Placido Garcia, are down from Rio Arriba county on court business.

Hon. Arado Chavez spent yesterday with friends in the capital city and left last night for his Valencia county home.

Hon. Juan Santistevan, merchant, banker and farmer in Taos valley, is in the city for a stay of several weeks. Abundant rains and good crops are reported in his valley.

Hon. Pedro Y. Jaramillo, one of Rio Arriba's substantial citizens and a delegate to the state constitutional convention, is here on court duty. He is always a welcome visitor in Santa Fe.

At the Exchange: W. H. Roberts, Espanola; M. Henderson, Cerrillos; F. B. Lane, Raton; R. Shanney, Cerrillos; Juan Santistevan, Taos; Alexander Read, Tierra Amarilla; M. O'Neill, Cerrillos; J. Crocker, Denver; Jose Salazar y Ortiz, Plaza Alcade.

At the Palace: Mrs. Clara Walton, Chicago, Ill.; Dr. Clifford Dock, Philadelphia; E. J. Crocker, Denver; S. M. Folson, J. E. Saint, Albuquerque; Wm. A. Vincent, Las Vegas; Hugh Loudon, Nevada; W. E. Gortner, Las Vegas; H. L. Warner, Albuquerque; Simon Dahn, New York; S. M. Rieser, Chicago; J. Raymond, Las Vegas.

DISTRICT COURT.

Opened To-day—Jury Commissioners—The New Law—District Attorney's Hearing.

The midsummer term of the U. S. and territorial district court for the counties of Santa Fe, Taos, Rio Arriba and San Juan convened at the court house at 10 o'clock this morning, Hon. W. H. Whitman presiding. This is Judge Whitman's first regular term in the district, and this, together with the fact that this is the first term here under the new law, combines to excite much public attention and bring together an unusually large number of citizens from all parts of the district. Under the new law the double jury system heretofore in vogue is done away with, and one grand jury of twenty-one members will have charge of both the U. S. and territorial district business, while a single petit jury of twenty-four members will serve in each of the four counties of the U. S. and the territory as heretofore.

By the enactment of this law it is said a yearly saving of fully \$50,000 in the court expenses of the territory will be made. The new law authorizes the district judge to name three commissioners who shall select the jurors. To-day Judge Whitman named as such jury commissioners Messrs. W. W. Griffin, Juan Santistevan and Cosme Alarid. These commissioners will conclude their labors this afternoon probably and report the list of jurors to-morrow morning.

There is very little criminal business of moment on the docket for this term, but there is a large civil docket, many of the cases having been continued in February by agreement, owing to Judge Reeves' poor health. The total docket comprises about 200 cases, thirty-five of which are new ones.

As court halliffs Pedro Delgado, John Donoghue, Joseph Ortiz and Thos. Hovey were named and sworn in. The court appointed as interpreters in the court room Larkin G. Read for the territory and Major Senna for the United States, and in the grand jury room James L. Johnson for the United States and Jose B. Ortiz for the territorial business. These appointments took the oath of office before Clerk Walker. Judge Whitman spoke of the contest over the district judgeship, the contest between R. E. Twitwell, commissioned by the legislative senate and also holding a commission from Gov. Prince, and J. P. Victory, commissioned while Gov. Ross was yet in the executive chair. The court said the matter was one requiring early attention, as the grand jury would soon meet and the services of the prosecuting officer. Neil B. Field appeared for Mr. Victory and asked that the matter be set for hearing on Thursday next. John H. Knaebel, Mr. Twitwell's counsel stated that his side was prepared to go into the case as soon as it suited the court to call it up. The court said that in order to save time and get the machinery of the court in operation as soon as possible, it would not be feasible to delay the case till Thursday, and was accordingly decided to call up the district attorneys' contest at 2 o'clock this afternoon.

Strip of Figs.
Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the bowels, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

A Sad Death.
A dispatch from San Antonio, Texas, announces the death there of Mrs. Price Cross under the most heart rending circumstances. While bathing she was taken with a paroxysm of pain occasioned by a chronic affection of the liver, from which she had suffered for the past year, and strangled to death. Her husband was absent at the time traveling through the interior of the state, and had no knowledge of his wife's demise until several days thereafter. The remains were shipped to Galveston, their former home, for interment. Mr. and Mrs. Cross were visitors here in May last, and made a trip through Colorado in hopes that the climatic change would result beneficially to Mrs. Cross. She was a young and beautiful woman, as good as she was true, and her death is a lasting blow to the young husband to whom she was all in all. That full sympathy which only a brotherly love can inspire goes out to him in his sad affliction.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Ayer's Sarsaparilla. The use of this medicine, by giving tone and strength to the assimilative organs, has made innumerable cures of chronic dyspepsia. Price \$1. Worth \$5 a bottle.

Administrator's Notice.
In the matter of the estate of Andrew McGregor, deceased, notice of appointment as administrator.

Notice is hereby given that letters of administration were issued to the undersigned as administrators of the estate of Andrew McGregor, deceased, on the 20th day of July, A. D. 1889. All persons having claims against the estate of the deceased are hereby notified to present the same for allowance, within the time provided by law, or they will be barred. All persons indebted to said estate are hereby notified to settle the same without delay.

ANDREW W. CLELAND, JR., Administrator.
Santa Fe, N. M., July 24, 1889.

Assignee's Sale.
I will, until the 5th day of August, 1889, dispose of at private sale the engine, horse power, boiler, 30-horse power, and all tools and piping connected therewith, belonging to the Artesian Well Co. If not sold before above said date (15th August, 1889), I will place and sell same at public auction to highest bidder for cash, in front of the court house at Santa Fe, N. M. Sol. SPIEGELBERG, Assignee.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can not be sold in cheap imitation with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. Royal Baking Powder Co., 106 Wall Street, N. Y.

A Woman's Discovery.
"Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at C. M. Creamer's drug store.

Everywhere Popular

Ayer's Pills take the lead. Physicians prescribe them as the best remedy for Indigestion, Tapped Liver, Sick Headache, Rheumatism, and Constipation. They contain no calomel, and being sugar-coated, are pleasant to take.

"One of my customers has been greatly benefited by the use of Ayer's Pills. He was troubled with indigestion, the liver and bowels in failing health for several months. Since he began using Ayer's Pills he has wonderfully improved, gaining rapidly in flesh and strength."—W. S. McCullough, Druggist, Wheeling, W. Va.

"Ayer's Pills are in general demand among our customers. Our sales of them exceed those of all other pills combined. We have never known them fail to give entire satisfaction."—Wright & Hannelly, San Diego, Texas.

"Two boxes of Ayer's Pills cured me of severe headache."—Emma Keyes, Hubbardston, Mass.

"After much suffering from dyspepsia and constipation, I have finally been restored to health by taking Ayer's Pills."—J. L. Frye, Saco, Me.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
