## Telegraphic Tidings

## A PLUCKY FIGHT.

Two West Point Cadets Resort to the Prize Ring to Settle a Misunderstanding.

WEST POINT, N. Y., Aug. 23.—Cadet Corporal Dixon, of Texas, and Private Stetson, of New York, met in a prize ring within the ramparts of old Fort Clinton, early this morning. Both boys are members of the third class, and the fight was the result of some quarrel round after round. Queensbury rules, was fought without decisive result. After the ninth, however, it was quite exciting. In the twelfth Stetson found an opening and landed a blow on the right eye of Dixon, which caused the fight to follow it with another blow which dazed his opponent. When time was called again Dixon's eyes were in mourning, but he was still game, and nothing occurred worthy of notice until the thirty-fifth round, when Stetson failed again, smashing Dixon between the eyes. Although both men now began to show signs of exhaustion, they pluckily continued. Dixon had been quite severely punished but Stetson had few marks. Five more rounds were productive of no result, although Stetson continued to pound Dixon with a club in a way that made the latter wince. The fight kept up until the reveille sounded, when the referee declared it a draw, and all flew for camp. As soon as Dixon had marshaled his company and reported to the officer in charge he had to report himself sick and has been in the hospital ever since, getting his eyes and chest doctor.

## The Tournament at Denver.

DENVER, Aug. 23.—The second day of the Colorado & Wyoming State Firemen's tournament was a great success. The weather was fine, and the attendance large. The annual parade occurred in the afternoon, and after an inspection of the companies they went to the Broadway park to engage in the contests. First was the ladder climbing contest, the climber to run 5 feet to the top of a 24 foot ladder. There were twelve entries. H. Sarash, of Denver, won the first prize in 3 3/4 seconds; Charles Cousins, of Greeley, second in 3 3/4; and Charles Mott, of Kearney, and M. Reed, of Aspen, were tied for third money in 4 1/4. Reed won the tie. The money was \$50, \$25 and \$10.

A hurdle race of 120 yards over ten 3 1/2 feet hurdles was run in 10 seconds. James Collins, of Denver, won the gold medal as first and E. W. Roberts the silver medal as second. The champion, Pollard, was a strong third. The state house coupling contest had eight entries, and was won by Herold and Fanning, of Anthony, Kas., in an average of 8 1/4 seconds, in three trials; second Warren and Bader, of Dodge City, Kas., average time 9 1/4; third, Sanger and Carroll, of Aspen, time 10 1/4.

DENVER, Aug. 24.—The fair weather and good program attracted another large crowd to the state firemen's tournament yesterday. The features of the races were the wet hose test, in which the Aspen hose company No. 1 won the first prize and \$500 by covering the distance of 500 feet and laying 200 feet of hose in 35 seconds. Loveland won second and Aspen No. 2 third.

The 100-yard amateur foot race was won by A. J. Clark, of Dodge City, Kas., in 10 seconds. Scofield, of Council Bluffs, second, and H. Hanson, of Anthony, Kas., third. The hub and hub race was won by the All American professional team in 1 1/2 seconds, beating the record of 2 1/4 made in 1886. The distance was 200 yards. In the hose coupling contest for the championship of the world, Cornelius and Mott, of Kearney, Neb., won; Ebb and Hughes, of Anthony, Kas., second; Breet and Hanch, of Highland, Colo., third; and Hatfield and Sullivan, of Red Cloud, Neb., fourth. The best time was 4 seconds and the lowest 5.

## Whisky Gets a Smart Man.

DENVER, Aug. 24.—James F. Wilber, perhaps the most important witness in the government's suit against the Bell telephone company, was found dead in bed yesterday. Death was evidently the result of hard drinking. Wilber was chief clerk in the electrical department of the patent office at the time Bell's telephone was patented and the patent applied for. Subsequently Wilber acknowledged having been bribed by the Bell people, but denied this on the witness stand, causing the government a setback in its presentation of the case. Pending the trial of the Bell case Wilber placed in charge of a secret service officer, who brought him to Colorado in hope of breaking him of the drinking habit. In this the officer was successful for a time. For a year Wilber has been conducting the patent office in this city. He was a cousin of Ex-President Hayes, and was considered one of the best electricians in the country.

## Serrano for Lead Ores.

LARDO, TEXAS, Aug. 24.—For some months past the Omaha & Grant Smelting & Refining company have been purchasing ores in Mexico and shipping them to their works in Omaha to be smelted. It seems that the ores go direct through this city after inspection. Mr. James Matthews, the senior proprietor of the company, arrived in this city last night and immediately sequestered seventeen carloads of ore which was standing on the side tracks here. The ore was valued at \$17,000, and Mr. Matthews gave bond in the sum of \$40,000. It seems that he has received an inkling that some chicanery was in progress, and that this shipment of ore was to be forwarded from this city to some other smelting company in the north.

## Nicaragua Irrigation.

DENVER, Aug. 24.—Certificates of incorporation have been filed with the secretary of state of Colorado and the recorder of Arapahoe county of the Nicaragua Mail Steam Navigation & Trading company. Its capital stock is \$500,000. Its object among other things is the establishment and operation of a steamship line on the river San Juan, the lake of Nicaragua, the port of San Juan del Norte, and all the inland waters of the republic of Nicaragua and elsewhere. Its board of directors for the first year are George H. Robinson, Jose S. M. Munoz, Albert O. Cheney, Charles N. Vilas and John T. Spruill.

## A Strike of Coal Miners.

DENVER, Aug. 24.—A special from Boulder says: Between thirty and forty coal diggers at the Lafayette mine went on strike yesterday. One of the men refused to pay his assessment to the miners' confederation to keep other strikers in idleness, and the diggers in the mine demanded of the company that the man be discharged. This the company

refused, and hence the strike afterward. The strikers wanted to go back, but the company refused. The mine is now being worked with a reduced force.

## The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed to cure, or your money refunded. Trial bottles free at C. M. Creamer's drug store.

## Worrying the Fighters.

PERVIS, Miss., Aug. 23.—A disposing of the case against Remond (the special term of the court adjourned). The regular term commences the second Monday in December, when Kilrain will be tried. Remond gave \$500 bail for his appearance then, as the district attorney wanted him to testify. Then, before court adjourned, Kilrain's friends arranged for a bond, which was fixed at \$2,000.

## THE UTES.

Gen. Crook Ordered to Look After Them a Little.

WASHINGTON, Aug. 24.—The following telegram was sent this morning from the war department to Gen. Crook, commanding the division of the Missouri, at Chicago:

"The interior department furnishes the secretary of war the following information, taken from the public press, but reports no official information received to that effect:

"Glenwood Springs, Colo., Aug. 15.—It is reported that the Indians are moving east and were seen at the head of Elk creek Tuesday. From the reports it is believed their objective point is their old hunting grounds near the head of White river, and that no steps are taken to head them off and send them back where they belong is wondered at, and if the red men are not stopped by the officials private parties are planning a raid on them and a lively skirmish will ensue.

"In view of the above the major general commanding directs that you take such precautionary steps as may be deemed proper to prevent trouble between the Indians and whites in western Colorado. The Indians are Utes and were formerly a part of Colorado's band."

## The G. A. R. Program.

MILWAUKEE, Wis., Aug. 24.—Manager Chapman has prepared the official program for the encampment. Next Monday evening the veterans will hold a camp fire at the West Side Turner hall. Commander in Chief Warner, of the Grand Army, will preside. The parade will be held on Tuesday afternoon. On Tuesday evening the visiting members of the Woman's Relief corps will be tendered a reception at the high school building. The Grand Army men will hold camp fires on the same evening at the West Side Turner hall and at the army cantine. Commander Weissert will preside at the camp fire at the West Side Turner hall. Addresses of welcome will be delivered by Gov. Hoard, Mayor Brown and Department Commander Weissert. Commander in Chief Warner and Pension Commissioner Farney will respond. Gen. Fairchild will preside at the army cantine. Gen. Sherman, it is expected, will attend both camp fires.

The post war concert will be given Tuesday evening. A reunion of the Sons of Veterans will be given Tuesday evening at the Plymouth church. The business session of the grand army camp will be held on Wednesday morning. The women's relief corps will begin Wednesday morning, the former at the West Side Turner hall and the latter at Immanuel church, and continue during the rest of the week.

The reunion of regiments, brigades and divisions will be inaugurated Wednesday. On Wednesday afternoon Sherman will visit the soldier's home, where he will be formally received by the veterans and a salute fired in his honor. The second and final war concert will be given Wednesday evening.

Thursday afternoon a party of specially invited guests will be taken out by the entertainment committee for a drive around the city. The party will visit a number of the leading manufacturing establishments and an elaborate lunch will be served to them on the route. The naval battle will occur on Thursday evening.

## Effect of the Reservoir Act.

SALT LAKE, Aug. 24.—The United States senate committee on irrigation are inclined to accept the threat of congress authorizing the reservation of sites for reservoirs and withdrawing from entry all lands susceptible of irrigation from such reservoirs as practically a repeal of the desert land act. The main object of this repeal is to prevent reservoir sites from being filed upon for purposes of speculation.

## Couldn't Break the Scott Act.

SAN FRANCISCO, Aug. 24.—Chun Chang Pung, the first of the Chinese laborers to test the validity of the Scott law by attempting to land in this country, and whose case was decided adversely by the United States supreme court, has been ordered returned to China by the United States circuit court.

## A Question of Jurisdiction.

SAN FRANCISCO, Aug. 24.—The hearing of a petition for habeas corpus in the case of Justice Stephen J. Field, of the United States supreme court, has been postponed until next Thursday, when the question as to the jurisdiction of the federal and state courts will be argued.

## The Seizure of Sealers.

LONDON, Aug. 24.—Sir James Ferguson, under foreign secretary, informed Mr. Gourley in the house of commons last evening that communications are passing between the British and United States governments in regard to the seizure of sealers in the Behring sea.

## Montana Republicans.

ANACONDA, Aug. 24.—The Republican state convention, after long and careful deliberations, nominated for congress J. H. Carter, of Helena, and for governor T. C. Powers, of Helena; for lieutenant governor, J. E. Richards, of Butte, was nominated.

## Little Children Dying.

CHARLESTON, W. Va., Aug. 24.—An epidemic of flux has prevailed in this city and county during the last thirty days. The disease is virulent and has proved fatal in about fifty cases. The deaths are generally among young children.

## Parnell Coming Over.

LONDON, Aug. 24.—It is reported that Parnell will shortly make a tour of America for the benefit of his health.

## TERRITORIAL TOPICS.

Raton holds a meeting to-night to organize a building and loan association.

Rains visited the central and lower Rio Grande yesterday and the day before.

The A. T. & S. F. company gives notice that the Raton shops will not be removed to Trinidad.

A Chicago land agent in company with a party of northwestern farmers is looking at lands on the New Mexico side.

Notwithstanding the lack of rain early in the season, cattle and horses on the range are in splendid condition. Recent rains will make plenty of good grass for winter feed.

Burglars entered a place in Albuquerque last Saturday and stole a pan of milk and an auget. We presume the auget was used to bore a hole into the water to get at the milk.—Ex.

Clunk of wisdom in the Optic: "The best way to keep out of debt is not to get into debt. Little accounts run along and you forget about the various items, and when the time to pay them comes you make a great big roar and feel sure that you have been overcharged. You are generally wrong in this conclusion, and consequently you had better keep out of debt by not getting in debt."

If the man who causes two blades of grass to grow where only one grew before may be called a benefactor, how much more may be said of a company like the Pecos Irrigation & Investment company, who is reclaiming thousands of acres of arid lands, and is making fine crops of alfalfa grass, grain where none grew before; where orchards and vineyards will take the place of sagebrush and mesquite, and peace and plenty reign instead of silence and waste.

Albuquerque note: "It is suggested that now while so many are putting down driven wells they should remember that though water can be had near the surface, it is necessary to penetrate to the fountains of the city. Every well should go to the third stratum of water. This in the flats is between fifty and sixty feet. If the well is put down to that depth the water will be found as cold as ice water, perfectly clear and delightfully destitute of flavor."

Grant county jail birds: Ada Humes, for the killing of Jack Brown; Frank Lewis, for the killing of Fitzgerald; Carlisle, James Reynolds, for the killing of Irwin Moore, on the Mimbres; Thornton Williams (colored), for the shooting of a colored soldier at Fort Bayard; Frank Hellin, for shooting at different persons, Silver City; Macloya Aguirre, for placing obstructions on the S. P. R. R., for the purpose of wrecking trains; Peter Riggs, for cutting a man at Deming; Maud Williams, charged with stealing.

The United States senate committee on irrigation will be in New Mexico about the 20th of September, and an effort should be made at once to give these distinguished gentlemen the proper reception and furnish them the necessary information. We must not permit this committee to leave New Mexico impressed with the idea that our people are lacking in enterprise. Irrigation is the great problem and now is the time to see the matter properly before congress. A meeting should be held to select representatives to meet the committee.—Raton Range.

Capt. Grierson, who knows probably as much about the vital question of water storage as any man in this section, went out this morning with Surveyor Gen. Hobart to the ranch of the latter gentleman on the Mora road, to consider the question of constructing a large reservoir there for the storage of water, and after a thorough inspection and discussion Mr. Hobart concluded to build such reservoir, of capacity sufficient to furnish all the farms and families in the neighborhood. The water will be brought from the Gallinas through an aqueduct that will tap the river near the hot springs.

## Whisky and Indians.

ELLENBURG, W. T., Aug. 24.—Five hundred Cheilon Indians passed through the city yesterday on their way to the Snyallup hot fields. While in the city they secured whisky, and four began firing promiscuously in the streets. When two deputy sheriffs attempted to arrest them a running fight took place, the deputies following them into the country. One Indian was dangerously wounded, but the deputies were uninjured. These Indians have been very peaceful and industrious, but the fault of this affair lies with the men who sold them the whisky. The band continued on its way to the Cascade mountains.

## Be Merciful to Yourself

And heed the appeals for assistance put forth by your liver, when the organ is out of order. Among these are: distress in the right side, and through the right shoulder blade, yellowness of the skin and eyeballs, furred tongue, sour breath, sick headache, and above all, irregularity of the bowels. The remedy you extend to the afflicted organ is wisely shown in a prompt course of medicine with Hood's Sarsaparilla, most efficient of alteratives, and the best giant early reciprocates the desired attention by resuming its secretory functions actively and regularly. Among the accompanying good results are renewed digestion, freedom from headache and a resumption of activity of the bowels. All bilious symptoms, constipation, and appetite and sleep improve. Relieve the effects of the bilious in malarial disease, kidney disorder, rheumatic ailments and nervousness.

The Chief Remedy for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier for before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes that Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

THE

Filigree Jewelers

OF NEW MEXICO.

Carry the largest and richest assortment of goods to be found at any point in the southwest. Native Opals, Navajo Garnets and Turquoise in great variety. We employ only native workmen, and invite strangers in-

to our workshops. Diamond, American Watches, Silverware, Clocks and Optical Goods also a specialty. The only place in Santa Fe where a fine watch can be repaired properly.

PALACE AVE.,

Opp. Gov. Prince's

SANTA FE, New Mexico

ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term" payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriages or other courtesies within our power to give.
