Telegraphic Tidings

WASHINGTON MATTERS.

POSTAL AND TELEGRAPH CONFERENCE.

WASHINGTON, Sept. 2.—Postmaster General Wainwright and President Norvin Green had a consultation Saturday regarding the telegraph service furnished the government by the Western Union Telegraph company. While details of the plan have not been arranged, it is understood that satisfactory progress is being made toward an agreement upon the line laid down by the postmaster general. The question of rates to be paid for telegraph service is the point at issue, but by no means the principal question, as Postmaster General Wainwright's plan contemplates a considerable enlargement of the functions of the postoffice department in the direction of co-operation with the telegraph companies to secure cheaper and better service. The possibility of a postal telegraph is being renewed, but no confirmation of it is obtainable.

OUR FINANCES.

It is estimated at the treasury department that owing to large pension payments, amounting to nearly \$18,000,000 in July, the debt statement will show the public debt increased about \$7,500,000 in August.

The Chicago Annexation Trouble.

CHICAGO, Sept. 2.—Proceedings tending to test the validity of the recent election by which the surrounding suburbs were annexed to Chicago, were had in the circuit court Saturday. Treasurer True, of the annexed town of Lake View, has been sent to compel the county treasurer to turn over to him, as treasurer of Lake View, the taxes collected up to that date in New Chicago, on the theory that the recent annexation was unconstitutional. Arguments were heard to-day on that point and the court decided against Mr. True. An appeal was taken to the supreme court of the state and will come before that tribunal in October next. In the meantime the annexation is declared unconstitutional, the decision will apply to all the other suburbs recently annexed.

A Dead Philanthropist.

St. Louis, Sept. 2.—The late Henry Shaw, of Botanical Garden fame, was buried Saturday afternoon from Christ church, 13th and Locust streets. There was a tremendous crush of people to witness the venerable philanthropist's funeral. Bishop Tuttle conducted the services. The honorary pall bearers included Gov. Francis, Mayor Noonan and many other distinguished citizens of the city and state. The remains were deposited in a mausoleum in the gardens, which Mr. Shaw had built as his last resting place.

Another English Syndicate.

Boston, Sept. 2.—Ferdinand A. Wyman, financier, and Banker Walter Potter, of England, yesterday, having secured control for an English syndicate of all the tanneries in New England and New York. For this purpose \$10,000,000 has been pledged. It is intended to invest \$50,000,000 more and take in all the tanneries in the country and will be operated as one concern. It is said the saving to be made under this system will revolutionize the tanning trade.

Grand Army.

MILWAUKEE, Sept. 2.—The new grand army council of administration has been announced. Among the members are the following: Arizona, not represented; California, R. N. Triet, Los Angeles; Colorado and Wyoming, M. J. Bragery, Greeley, Colo.; Idaho, George L. Shout, Boise City; Montana, not represented; New Mexico, James H. Purdy, Santa Fe; Oregon, not represented; Washington territory and Alaska, J. R. C. McCoy, Tacoma.

The Senatorial Committee.

LATHROP, Cal., Aug. 31.—The special train with the members of the senate committee on irrigation, arrived here for Bakersfield at 10:14 o'clock this morning, having to make brief stops at Merced, Fresno and Tulare.

Fresno, Cal.—The arid land committee arrived here by a special train this afternoon about 3 o'clock. They were driven over the city and left at 5 o'clock for Tulare, where they will spend the night.

California Vintners.

SAN FRANCISCO, Sept. 2.—The Merchant and Vintners' association here, that the wine product of California will not exceed 12,000,000 gallons this year. This is a reduction of 8,000,000 gallons from early estimates. The reduction is due partly to damage by sunburn and mildew. The same paper estimates that the state will produce 1,000,000 gallons of brandy this year.

THE PACIFIC COAST.

The People Wide Awake to the Interests of the Far West.

SAN FRANCISCO, Aug. 31.—At the commercial conference on Saturday the committee having in charge the report on the encouragement of maritime commerce, reported an amendment striking out all reference to free ships, and inserting in its stead a clause for the establishment of a permanent bureau of navigation, and urging congress to provide for the payment of bounty to all builders of vessels to be engaged in foreign trade. This was followed by a long debate and the report as thus amended, with alternate suggestions suggesting the adoption of the French bounty system, was unanimously adopted. The report favoring the Pacific ocean cable was also adopted, and the report on coast defense was submitted with resolutions urging congress to purchase a fleet of ships on the Pacific coast in a thorough condition of defense and to establish an additional navy yard on the northern coast. The report favoring the Nicaragua canal was adopted. The next subject under consideration was the railroad traffic, and the committee appointed to obtain the views of Chairman Cooley of the interstate commerce commission made their report, in which Chairman Cooley stated the custom of allowing the transit of bonded cars into foreign territory was permitted by the treasury department but was not authorized by statute. He agreed there was an inequality in the policy which places the American railroad at a disadvantage in competition with Canadian roads.

The committee appointed to consider the application of the interstate commerce law to the carrying trade of Canadian Pacific railway or the abolition of the bonding system, presented the majority and minority reports. The majority reports deem it unwise at this time to urge congressional action against the Canadian road, while the minority favors the abolition of the law granting to foreign railroads the privilege of carrying domestic goods through the domestic posts. Resolutions looking to the abolition of the clause in the interstate commerce law relating to the bond and short hauls were presented. W. B. Harrington, on behalf of the chamber of commerce, presented a series of resolutions thanking the visiting delegates for their attendance and active work, and the delegates responded with thanks for the courteous treatment and consideration which they had enjoyed. E. W. Jones introduced a series of resolutions calling on congress to adopt a liberal policy relative to the Pacific coast, in the matter of river and harbor improvements. This concluded the business of the conference, although a special committee on permanent organizations will meet to-morrow.

ive, prompt and aggressive, is here to attend the convention. He has made a first-class presiding officer for several territorial councils, and may be president of the territorial convention. Valencia county under Col. Chavez' leadership did nobly in the election of delegates to the convention.

ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain yet tempt you to change your base of operations farther west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a landable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

The Mesilla Valley?

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It is merely a question of choice—and money—although the latter does not cut much a figure as one might suppose in these days of boom; and our "long term" payment and low interest plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriages or other necessities within our power to give.
