WASHINGTON MATTERS.

BUREAU OF ANIMAL INDUSTRY.

WASHINGTON, Sept. 16.—The annual report of the bureau of animal industry for 1887-88 will soon be issued. With regard to the beef supply the report says: "During the past year, in response to the widespread demand on the part of those interested, the bureau made special efforts to obtain reliable data as to the number of cattle in this country. Trustworthy agents familiar with the range cattle industry, were sent into various territories to gather the most accurate figures obtainable, in addition to figures already so collected. A close comparison of the number of steers in Chicago per 100 pounds with the exports of cattle and beef products carried through a series of years clearly indicates that beef prices are affected by other conditions than those of supply, that is, the number in proportion to population and of exports."

Estimates of the statistical division as to the number of cattle in the states have been carefully gone over and revised in accordance with the latest information obtainable. A comparison of the figures so compiled with the population since 1850 shows an increase of population from 23,191,876 in 1850 to 38,064,501 in 1888, while the number of cattle has increased in the same period from 17,778,937 to 48,925,886. There was a steady increase in the number of milch cows, and a steady decline in the number per thousand of population from 275 in 1850 to 236 in 1882, since when the proportion has hardly varied.

APPOINTMENT.—The president has made the following appointments: Richard C. Kerr, of Mississippi, to be register of the land office at Jackson, Miss.; Joseph W. McClurg, of Missouri, to be register of the land office at Springfield, Mo.; Scott Swetland, of Washington, to be register of the public money at Vancouver, Wash. T.; Walter L. Stobies, of Washington, to be agent for the Indians of the Yakima agency in Washington; Warren D. Dobbins, of Idaho, to be agent for the Indians of the Nez Perces agency in Idaho; Charles S. Johnson, of Nebraska, United States attorney for Alaska.

MR. MESERVE'S APPOINTMENT.—Mr. W. H. Meserve has been designated by the department of the interior as distributing officer of the Haskell Indian institute, Kansas, and will take charge of the school as soon as he files his bond. Mr. Meserve was some time ago appointed superintendent of the institution, but owing to some opposition to him on the commission has been held up. The action of the department yesterday, it is understood, settles the matter and his appointment as superintendent is now assured.

NOTES.—Commissioner Tanner did not appear at the pension office yesterday. Deputy Commissioner Smith, acting commissioner, believed that the commissioner had taken leave of absence until the time for him to turn over the office formally to his successor. Sec. Noble refused to say anything regarding the report that Hon. Wm. H. Warner will be in Washington to-day in response to a telegram sent him in regard to his taking the office of commissioner of pensions.

The controller of currency has declared the second dividend of 10 cents in favor of the creditors of the California bank, of San Francisco, making in all 70 per cent on the claims proved, amounting to \$451,827. In this month's crop report, the department of agriculture makes the general average of corn 91, a reduction of nearly 3 points; winter wheat when harvested 80.4; spring wheat 83.2. This makes the general average of all wheat 87.6; general condition of oats is 90, rye 91.6, barley 82.9, buckwheat 92.

A Constitutional Convention.—CHEYENNE, Wyo., Sept. 16.—A resolution was introduced in the constitutional convention Saturday establishing the office of state examiner, whose duty it shall be to examine the state treasury, supreme district court clerks, county clerks and treasurers at such offices as the legislature may direct, also a resolution that no witness in a criminal case shall be imprisoned until the case is awaiting trial for a longer time than necessary to take depositions. A substitute for the bill was introduced making the term of governor four years instead of two. The convention will probably be in session two weeks longer.

Gaudauer Backs Down.—PITTSBURG, Sept. 16.—John Pringle, referee in the Gaudauer-Teemer boat race, decided that Friday's race was a draw and ordered the men to row over again to-day on Woodrun course in the Ohio river. Gaudauer's backer positively refused to agree to this and the money was returned. Teemer offered to increase the stakes to \$2,500 and row again within ten days at Woodrun or on any course in New York, lake or river. But Gaudauer's backers still persisted in refusing. The referee in giving his decision stated there were no foul ball Hanin had violated the articles of agreement in pulling in front of Teemer, and that he had no business on the course.

Favor Annexation.—BOSTON, Sept. 16.—The closing session of the United States senate committee hearing on our relations with Canada was held here Saturday. Representatives of our city's commercial interests were examined and they favored either annexation or commercial union with Canada.

SNOW AND RAIN.

DENVER, Sept. 14.—Specials from most of the Montana districts show that for this season of the year, it has been snowing unusually hard all day, and in most places it is still falling to-night. The storm is driving eastern tourists down to a lower altitude, and all incoming trains to-night were loaded down, even to standing room, with tourists bound for eastern cities.

Huron, S. D.—It has been raining here since Thursday night, over three inches of water having fallen. A like report comes from all points in South Dakota. The result is believed to be a great corn crop next year, it being the wettest September for fifteen years.

Valley Falls, Kan.—The heaviest rainfall in years occurred here to-day. Roadbeds and roads are badly damaged and the Delaware river is even with its banks and the water is rising. Three people are reported to have been drowned in the river.

Levellville.—The first snow of the season fell early this morning. It was quite light and had disappeared by 9 o'clock, except in the surrounding mountains, which still remain white.

Laramie, Wyo.—Laramie is experiencing to-day her first snow of the season.

The storm has lasted all the forenoon and seems to extend over a large portion of the Laramie plains.

Denver.—The weather here to-day is exceedingly cold and rainy, with prospects of snow before morning.

A Panic.—CHICAGO, Sept. 16.—Between 8,000 and 10,000 people rushed from the exposition building Saturday night, falling over each other down stairs and from the gallery, and many jumping through windows in their hurry to escape. A fire had started in one of the big booths near the center of the huge structure and the glare of the flames and the crash of plate glass caused a panic. Men, women and children, joined in the mad rush for the exits which were fortunately numerous enough to prevent fatal crushing. Within five minutes the excited thousands of people were safe outside the structure, and a few minutes thereafter the flames were extinguished. One-fourth of the interior of the exposition is in ruins. Damage to the building itself was slight and the art gallery wholly escaped. Loss of exhibitors will reach \$1,500. No persons are reported seriously injured. The fire was caused by the lighter carbon falling from the electric lights in a pile of ribbons.

LEAVENWORTH'S PRIDE.

Ceremonies Attending the Unveiling of the Grant Monument.

FORT LEAVENWORTH, Kan., Sept. 16.—The statue of Gen. Grant was unveiled Saturday. The ceremony was impressive. Thousands of visitors came in on excursions from Missouri and Nebraska, at 1 o'clock in the afternoon the troops from Fort Leavenworth, under command of Gen. A. McD. Cook, formed for the part they were to take in the ceremonies, and consisted of five companies of infantry, four troops of cavalry, and one battery of light artillery. In the city the procession formed at the same hour, composed of the G. A. R. post, civic societies, city officials, etc. They marched to the depot and went by train to the fort, where they were joined by the troops and marched to the site of the monument.

The ceremony of unveiling was performed by Gen. Wesley Merritt, United States army, commanding the department of the Missouri. The statue is a bronze military figure nine feet high, upon a polished granite pedestal of equal height. The left foot is slightly advanced and the right hand holds a paper to which point the right forefinger. A sword but covered the head. The figure is draped in a lion's military coat, with cape thrown back over the shoulders. Orations were delivered by Senator Ingalls and others.

A Pastoral Letter.—BALTIMORE, Md., Sept. 15.—Cardinal Gibbons has issued a pastoral letter calling attention to the allocation of Pope Leo on the unveiling recently of a monument in Rome to the memory of Bruno. The letter was read in the Catholic church yesterday.

The cardinal says: "A mingled feeling of rapturous joy and deep sympathy was bred in every Catholic heart when the news came that upon a public square in Rome impious men dared to unveil the statue of a apostate monk. Dragging the memory of a will theorizer, a shameless writer and a traitor of the divinity of Christ, from the precincts of a great hall, which for centuries closed upon its disgrace, they men, backed by brute force, have soaped a pedestal in the holy city the statue of the infamous Bruno."

Such a proceeding is a palpable and flagrant outrage, not alone upon the Catholic, but upon the whole Christian world. Theirs is not the action of decent or honorable, but of misguided men, calmly and with due regard to the feelings of other-practicing a new belief, or introducing a new cult. Their attempt is not so much to honor Bruno as to insult and vilify the vicar of Christ and his devoted children throughout Christendom. Indeed, their aim is higher still; they defy and insult not alone His vicar, but our divine Lord Himself. From every land they have chosen as the committee to further the movement the champions of Atheism, the would-be destroyers of the very foundations of Christianity.

It is proper that the Christian world and especially this portion, where the term "religious freedom" is understood in a sober, Christian sense, should brand with their indignation and scorn action such as this. We are not yet ready for processions in which the red and the black flags of revolutionists and anarchists are defiantly flaunted."

TANNER'S PLACE.

Major Warner, of Kansas City, Prety Sure of It.

WASHINGTON, Sept. 16.—Hon. Wm. Warner, of Missouri, had another long interview with the secretary of the interior Saturday, and afterward, in company with the secretary, called on the president. Sec. Noble said he had no desire either to suppress or make public the report of the commission which in investigated the affairs of the pension office. It is understood the report was delivered to him to-day.

The Star Saturday says: "The president tendered the pension commissioner ship to Major Warner and the latter has taken the matter under consideration with the chance in favor of his declining it or the ground that he can not afford to surrender his present business engagements in conversation with the secretary. Major Warner intimated that he had reached a conclusion in the matter. The impression in Washington is that the matter will be settled by the president during the week and that the appointment when decided upon will be first announced at Deer Park."

A Deep Water Call.—TOKPES KAN, Sept. 16.—The following circular is sent out to-day: "By authority of a majority of the deep water interstate central committee, the call for representation in the October convention is hereby extended so that the majority of every city west of the Mississippi river is designated as a delegate, and empowered to appoint an additional delegate for every 10,000 of population or fraction thereof in this city. Prompt replies should be made to this call, and names of delegates sent to the secretary. That the may be enrolled prior to this meeting. [Signed] 'F. L. DANA, Secretary.'

The Damages.—New York, Sept. 16.—Flooded roughly fully \$1,250,000 damage has been done by the wind and sea. The number of vessels known to have been wrecked greatly exceeds the first expectations of the shipping men, and many more vessels are yet to be heard from.

Try the NEW MEXICAN'S new outfit of material and machinery when you want fine job printing or blank book work.

RIOTS REPORTED.

Serious Trouble on the A. & P. Road—Judge Hazledine Gone to the Scene.

The Atlantic & Pacific strike at Winslow thus far shows no signs of abatement but instead is becoming more complicated. At Albuquerque 330 men employed at the shops are laid off, evidently with a view to forcing an issue. All is quiet there, but at Winslow affairs are said to have taken a very serious turn within the past forty-eight hours. Attempts have been made to extend the strike so that it should affect not only the movement of perishable goods and live stock, but all other freight traffic and the passenger train service also. Several riots at Winslow occurred yesterday or were threatened. Hon. Wm. E. Hazledine, member of the state constitutional convention from Bernalillo county, is the A. & P. company's general officer. Yesterday he received dispatches stating that affairs at Winslow were such as to render his presence necessary, and it was intimated that he would likely have to call upon the governor of Arizona for militia to quell the disturbance and protect the company's property. Judge Hazledine left for Albuquerque yesterday morning, where he carried a special train for Winslow.

The explanation now given of the strike is even less favorable to the employees than that heretofore presented. The story now is that the paymaster gave wrong checks to two men by which one received \$20 more than his due and the other \$20 less. The man who got more, a freight conductor, refused to refund the money to its rightful owner, and was discharged. The second refused to do a certain piece of work required of him and he too was let out. The strike is to compel the company to take these men back.

The Wallace Blaze.—Capt. John Gray returned Saturday night from Wallace, where he went to investigate the fire. He says that many rumors are afloat as to the origin of the blaze and that a killing there about the fire need not surprise anybody. He mentions no names but says it looks bad. The fire was of incendiary origin and several gallons of kerosene are said to have been consumed in starting it. The losses are as follows: P. J. & M. J. Conick, saloon, contents and fixtures, \$500; Frank L. Buile, saloon, \$800; Chas. Lee, Calvernia restaurant, \$250; Sing Lee, laundry, \$150; J. R. Hawley, buildings, \$2,000; enj. Barker, house and personal property, \$350; Luteria Leybe, building, \$200; W. Motron, house damaged about 150; and Wilder Bros., of Lawrence, Kas., Headquarters saloon building, \$700.

ABSOLUTE INSTRUCTIONS.

We Write of Wadsworth Relating to the County Board Held by Coler & Co.

J. H. Knaebel, esq., of the law firm of Knaebel & Clancy, returned from Terra Amarilla on Saturday night. In his hands there he appeared before Judge Whitman on behalf of W. N. Coler & Co., of New York, and made application for two writs of mandamus—one to compel the Santa Fe county board of commissioners to make a levy on the taxable property of the county to satisfy a judgment of \$73,000 secured by Coler & Co. against the county, growing out of the failure to pay the interest on the N. M. & P. railroad bonds; and another writ compelling the board to make a tax levy to meet the interest on these bonds for the coming year of 1890. District Attorney W. H. Vail presented an appearance of behalf of the county board. The court granted both writs. The one first referred to directs that the county board meet on Saturday next and make these writs. The orders are absolute in their nature and must be obeyed, else the members of the board will bring themselves into clear contempt of court.

The Land Districts.

The local land office is constantly in receipt of inquiries which properly should be to the Colfax land district at Folsom. The Santa Fe and Colfax districts are divided by the range line between range 4 and 25, beginning at the Colorado boundary and running south to the New Mexico base line which penetrates Lincoln county some six miles. All territory north of this base line and east of the line described as running south from the Colorado boundary is included in the Colfax district. Parties having business with the Folsom land office should govern themselves accordingly.

The London Strike Settled.

LONDON, Sept. 16.—Master lightermen have conceded the terms demanded by their men and removed the last obstacle to a full resumption of work. The men resumed work to-day.

Old papers, clean and whole, for carsets, at this office.

Take Hood's Sarsaparilla

100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given it to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes that Third Feeling, creates an appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists, \$1; six for \$5. Prepared by C. L. Hood & Co., Apothecaries, Lowell, Mass.

CLOSING-OUT SALE

Owing to ill health we have decided to discontinue our Santa Fe store, and to that end will offer our stock at 10 PER CENT above actual cost from now until disposed of. FIXTURES will also be for sale and STORE FOR RENT.

Geo. W. Hickox & Co
ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPLY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term" payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plats and circulars. Command us for carriages or other courtesies within our power to give.

Entered as second class matter at the Santa Fe Post Office.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south west.

CITY SUBSCRIBERS.

Mr. H. O. Ladd has sole charge of the city circulation of the New Mexican, and all subscriptions must be paid to him or at this office. City subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

MONDAY, SEPTEMBER 16.

The policy that protects American manufacturers and American working-men is good enough for us.

If you want anything ask for it. That is the reason Chicago is making such a racket to get the world's fair in 1892.

It is a cause for regret that there will be no extra session of congress. The first six weeks of the regular session will be frittered away in organization and talk.

This statehood convention is moving along with its work ably and well, in spite of Democratic slanders. The constitution will be a credit to our people and to the whole country. Mark the prediction.

As far as the people of New Mexico are concerned, there is no doubt but that the good work done and being done by the constitutional convention is gaining friends among them for and disarming opposition to the statehood movement. Again, let the good work go on.

The blackmailing and boodle sheet are calling the New Mexican the organ of the Republican party. For once, the New Mexican is compelled to thank them. We are proud of being the organ of the party of honest government, progress and liberal and just principles. Come again.

Gen. Leggett takes with him to Paris the snug little sum of \$600,000. Being president of the Haytian republic for a year pays much better than being president of the United States. We should also conclude that when Gen. Hypolite entered Port au Prince he found the public treasury empty.

The net output of ore from Kingston mines has been over \$4,000,000. The Lake Valley mines have produced over \$5,000,000. How is this for only two camps of Sierra county?—Kingston shaft.

It is a very fine showing and we hope the output will be doubled in the near future. Whatever helps Kingston and Lake Valley helps the entire territory.

The Chloride Black Range is of the opinion that Register E. G. Shields, of the Las Cruces land office, should be removed, vide the following from its columns:

E. G. Shields is still register of the land office at Las Cruces. However, it is conceding to know that if the present administration has not the moral courage to pluck Mr. Shields' official plum, the frosts of time will, in October, certainly do the job.

The Santa Fe New Mexican is sound on the school question, and has been doing excellent work in that cause.—Gallup News-Register.

Thank you. The New Mexican is doing its duty by the people of New Mexico in that matter, as it is in every other matter of interest or benefit to the people of New Mexico. The New Mexican can always be found in the front rank, true to its connections, its friends, its party and the people.

The Rio Arriba county delegation to the constitutional convention is one of the best in that body. The members of it are Hon. Pedro Y. Jaramillo and Messrs. W. F. Burns, J. M. C. Chavez, A. E. Caldwell and W. D. Lee. They are plain, unostentatious men, not saying very much, but doing a large amount of thinking and solid work and voting independently and as they see fit. They are men of the people and for the people. The citizens of Rio Arriba county are to be congratulated upon having such excellent representatives in the convention.

The first issue of the Deming Headlight, under the editorial management of ex-Gov. E. G. Ross, is at hand. Its pages are overflowing with rampant democracy and evident desire to "get even" personally on various citizens of the territory who have in time past shown up the shortcomings of the editor and his nephew and partner, S. M. Ashenfelter.—Rio Grande Republican.

Both Editor Ross and Publisher Ashenfelter are men with large sized grievances. Uncle Ross has some cause for grievance, as he was deservedly kicked until he was kicked out of office, but Nephew Ash went out unwhipped of justice and with a considerable pile of boodle. He ought, for the sake of decency, to keep quiet.

CORPORAL TANNER'S honesty is undoubted, but he would not consent to manage the pension bureau in accordance with the wishes of Sec. Noble he was very justly asked to resign and take a place he could fill with better satisfaction. Sec. Noble is responsible for the administration of the affairs of the interior department as long as he remains at its head, and very naturally objects to subordinates who are not in accord with his policy. President Harrison would doubtless give Mr. Tanner a place as good, and probably better, so far as the pay is concerned, as of right he should. Mr. Tanner deserves well of the Republican party and of the whole country, but he is much inclined to talk.

The New Mexican speaks of "the boodle Ross regime." There is one thing, at least, that will be placed to the credit of that administration, whatever may have been its short comings in other respects. It stopped the appropriation of \$15,000 of the public funds (boodle) for the benefit of the New Mexican, made by the boodle legislature of last winter under the cloak of an appropriation in aid of immigration.—Deming Headlight.

As usual no reliance can be placed in the statements of a boodle sheet run by boodlers, such as the Deming Headlight has become. The appropriation for the bureau of immigration was to have been 5,000 per year, a ridiculously small sum when compared with the money stolen from the territorial treasury and the citizens of New Mexico by some of Ross' appointees to office. Be that as it may, Ross did not kill the bill for any but the lowest personal motives. Had a bargain been made concerning the secretary's salary, the bill would have been law today. The New Mexican has in its possession today an affidavit taken by a citizen of this territory, a Democrat, and once upon a time a strong supporter, to his sorrow, of the aforesaid Ross, charging that the salary of the secretary of the bureau of immigration, during the corrupt days of the Ross administration, went partly to one of the members of the family of the alleged reform governor. This man's word is better than Ross' affidavit, and his affidavit is better than 2,500 of Ross' affidavits. This paper fought the corrupt and thieving territorial administration of the Democratic officials during the past four years with vigor, vim, energy and success and for the good of the people. When Ross was removed on serious charges we left him alone. But the man can not understand, comprehend or appreciate decent or gentlemanly treatment. Hence his record must be shown up in the future as it has in the past.

The Gallup Gleaner, which is evidently not a civil service reform Democratic paper, reprints the following from the New Mexican with the appended comment:

C. E. Vandever, the agent at the Navajo agency, was formerly a farmer at the agency under Indian Agent Patterson. In December last Patterson resigned and Vandever was appointed mainly through the influence of Senator Voorhees, of Indiana. Vandever claims to be a Republican.—New Mexican.

Yes, Vandever claims to be a Republican now, because it is the party of the leaves and fishes, but when appointed under Cleveland, he was a Democrat, boasted of it, and reviled Harrison and all other Republicans, yet he wants to keep his present position. The New Mexican knows well enough that a man who, to continue in office changes his politics, is unworthy the scorn of the party he repudiates or the recognition of the party he joins. It is not customary to retain a new convert in office, and the people down this way would like to see a change. Now, if that law line is all right, New Mexico, here is a chance to use it. We will be happy to furnish material that will be instrumental in securing the end in view.

The New Mexican has no sort of use for the men who have changed their politics in order to cling to their offices, and its tow line will always be found in readiness to yank them out. That our tow line is all right is shown by the work it has done and is doing. Ask Julian how it works.

The discussion of the public school question in the newspapers is not likely to rebound to the interest of the opponents of free non-sectarian schools, so far as the constitution now in process of incubation is concerned. We believe the convention contains friends enough of an enlightened public school system to give us a provision in our constitution that will equal in this respect that of the most progressive states of the union. This should be done by all means.

Epithet.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the great alterative and tonic. If you are troubled with any disease of kidneys, liver or stomach, of long or short standing, you will surely find relief by the use of Electric Bitters. Sold at 50 cents and \$1. per bottle at C. M. Creamer's drug store.

An Investigation of Labor.

New York, Sept. 14.—Fifty American working men and women who went to Europe to investigate the condition of European workmen have returned. A reporter asked Mr. Thompson, manager of the party, as to the condition of workmen there.

"Well, they are not to be compared to ours," he said. "Almost every trade was represented in our party, and they examined carefully the products and machinery of the old country. It was observed that the machinery is cumbersome and lacks the completeness seen in our country. We have had remarkable success from the time we started. We were met fully everywhere by committees and treated in the best possible manner. It was found that wages were on the average 23 per cent lower than in this country."

P. M. O'Brien, of Cincinnati, went with the party and investigated the printing trades. He said in Europe they are about where printers in this country were twenty years ago.

Joseph Thorpe, of Murreysboro, Ill., looked into engineering work in Europe. They are not organized. Their wages are about 50 per cent lower than in this country.

Job Printing.

Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town could come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

THIS PAPER is kept on file at E. C. Duke's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, where contracts for advertising can be made for it.

Try the New Mexican's new outfit of material and machinery when you want fine job printing or black book work.

"AGE CANNOT WITHER ME."

remarked an old gentleman, as he gazed fondly upon the comely little woman by his side. "But frankly," he continued, "the one time I was afraid of old age. I was a little fellow, in order to appear youthful, plastered my face with different varieties of 'whitener,' 'roses,' 'baume,' 'creams,' 'lotions,' etc." "Yes," interrupted the little woman, "I did, until my skin became so cracked and so pimply and coarse." "Well," said the old man, "what do you use now?" "I use Dr. Pierce's Golden Medical Discovery. Common sense told me that if my blood was pure, liver active, appetite and digestion good, that the outward woman would take on the face of health. The 'Discovery' did all those things and actually rejuvenated me. If you would possess a clear, beautiful complexion, free from blotches, pimples, eruptions, yellow spots and roughness, use the 'Golden Medical Discovery.' It is guaranteed to do that if it is claimed to. 'Money paid for it will be promptly refunded.'

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A., T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroad, and will have a rebate also on the same if they should buy 100 acres or more of land.

Warranty Deeds Given.

SCHOOL QUESTION.

It is now Fairly Before the Convention in the Shape of Two Reports.

Investigating the Optic and its Local Correspondent—Gross Misrepresentation.

In the state constitutional convention the entire time during the sessions of Saturday, morning and afternoon, was consumed in discussing the report of the committee on judicial department. The members hope to conclude debate on this article before noon to-morrow, after which the report of the committee on education will probably come forward for consideration. Following is the article submitted by the committee on educational department:

ARTICLE—

EDUCATION.

SECTION 1. A general diffusion of knowledge and intelligence being essential to stability of government and the liberties of the people, the legislature shall as soon as practicable provide by law for the establishment and maintenance of a thorough and uniform system of common schools throughout the state, wherein all the residents of the state between the ages of 6 and 21 years may be educated gratuitously. One or more public schools shall be maintained in each school district at least three months in each year; no school district shall be entitled to receive any portion of the general school fund for that year. The public school system in addition to the common schools shall include such high schools, normal schools and technical schools as may hereafter be established by law.

Sec. 2. The legislature shall by law provide for the organization of school districts of convenient size, in each of which shall be established a board of education of three or more directors, who shall be citizens and have such control of the affairs of the district as shall be authorized by law.

Sec. 3. The legislature shall provide by law for levying and collecting taxes variously from the state, county and school districts, to the end: First, that the annual three months' school provided for in section 1 shall be paid for by the county; second, an annual tax of 2 1/2 mills on the dollar of assessed valuation from the state for the general common school fund for annual disbursement; third, that school districts municipalities may at option levy such additional school tax as shall be necessary to maintain their schools during the school year. Also, taxes not exceeding 2 1/2 mills on the dollar of assessed valuation in any one year, for the purpose of erecting school buildings.

Sec. 4. Each county collector of taxes shall collect all school funds, general or special, belonging to the county and to the several school districts therein, and pay the same over without delay to the county treasurer, who shall disburse the same to the proper school districts upon warrants drawn by the district superintendent, or by the proper school district authorities, as may be provided by law.

Sec. 5. A superintendent of public instruction shall be appointed by the governor biennially, by and with the advice and consent of the senate, a majority of all the members elected concurring. He shall reside and keep his office at the capital, and shall have the general supervision of public education. There shall, in like manner, be appointed and confirmed a district superintendent of schools for each judicial district; such appointee shall be a resident of the district. The terms of office of the several officers provided for in this section shall terminate with the sitting of the legislature, or such time as their respective successors shall be appointed and qualify. Their duties shall be designated by law.

Sec. 6. The governor, superintendent of public instruction, secretary of state and attorney general shall constitute the state board of land commissioners, who shall have the direction, control and disposition of the public school lands under such regulations as may be prescribed by law. They shall likewise make an investment of the perpetual school fund as hereinafter prescribed.

Sec. 7. The perpetual public school fund of the state shall consist of all proceeds from the sale of public lands granted by the United States for educational purposes; the net proceeds of all sales of lands and other property and effects that may come to the state by escheat; from unclaimed dividends of all corporations doing business under the laws of the state; unclaimed distributive shares of estates of deceased persons; all donations and bequests; per cent as may be granted or may have been granted by congress to the state on the sale of lands in this state, and all other money coming to or appropriated for educational purposes, the disposition of which shall not otherwise be provided for, shall be made a perpetual fund, to be paid into the state treasury and sacredly preserved as a public school fund. The investment of said perpetual fund shall be as follows: In bonds of the United States and the state of New Mexico, or school district bonds in a sum not exceeding \$1,000, for the purpose of building a school house in the district issuing the same, provided that no other bonded indebtedness shall exist or be incurred until said bonds shall be paid. Provided further, that the assessed valuation of the school district in which said bonds shall be issued be not less than \$30,000. Loans or investments of such funds in other than United States bonds shall draw interest at a rate not less than 8 per cent annum. After fifteen years a longer period of time shall be fixed by law. No devise, bequest, gift, grant of money or other property for the support of sectarian or church schools of any degree shall ever be received by or disbursed under the direction of the state or by any public corporation under the state, where the several purposes for which they were granted or used, or appropriated, except for public schools. The state shall supply all losses thereof that in any manner occur. The state treasurer shall be the custodian of all educational funds. The treasurer shall credit said funds to the several purposes for which they were granted or donated, or as shall be determined by this constitution or by law. The county treasurer of each county shall be the custodian of all public school funds to be disbursed in his county. He shall credit all said deposits to the proper fund, keeping a separate account of the same.

Sec. 8. No religious test shall ever be required of any person as a condition of admission into any public educational institution of the state, either as a teacher or student; and no teacher or student of such institution shall ever be required to attend or participate in any religious service whatever; nor shall any distinction or classification of pupils be made on account of race or color. Teachers of the English and Spanish languages shall be citizens well disposed toward the

institutions of the state and of the United States. All teachers in the public schools shall be properly qualified, and persons of good moral character. The state shall encourage the establishment of the United States and the state shall be taught. Scientific instruction on the injurious effects of alcohol shall also be taught.

Sec. 10. The English language shall be taught in all the public schools. The Spanish language may also be taught. Provisions shall be made by law for teaching the principles of the constitution of the United States and of the state in the common schools.

Sec. 11.—All common schools, and all other educational institutions receiving support from any public fund, shall be under the absolute and unconditional control and management of the state.

Sec. 12.—Neither the legislature, nor any county, city, town, township, precinct, school district, or other public corporation, shall ever make any appropriation or pay from any public fund or money, whatever, anything in aid of any church or sectarian society, or for any sectarian purpose, or to help support or sustain any school, academy, seminary, college, university or other literary or scientific institution controlled by any church or sectarian denomination whatever; and shall not grant or donation of land, money or other personal property ever be made by the state, or any such public corporation to any church or for any sectarian purpose. No sectarian tenet, creed or church doctrine shall ever be taught in the public schools. This section is hereby declared to be irrevocable without the consent of the United States and the people of this state.

TO-DAY'S FORENOON SESSION.

When the state constitutional convention had assembled this morning Hon. Frank Springer arose to a question of privilege and sent to the clerk's desk and had read several extracts from the editorial and telegraphic news pages of the Las Vegas Optic. The statements therein made contained about as much misrepresentation as it is possible to crowd into so many lines, and Mr. Springer proceeded to characterize them as they deserved. Col. Kynerson, Gov. Ritch, Col. Heenan, Mr. Jaramillo and others spoke to the same question, and for an hour the stenographer listened with almost rapt attention to the speeches of the speakers here, W. B. Sloan, who sat at the reporters' table and took it all in. A stenographic report of the speeches on this subject was secured for the NEW MEXICAN and will be given the public in to-morrow's issue.

A special committee composed of Messrs. Springer, Ritch, Heenan, Jaramillo and Kynerson was appointed to investigate the matter. Judge Sloan claims that his telegraphic reports concerning the convention have been garbled and doctored by the Optic people, while the editor of the Optic is reported to have said that many of the false and misleading statements appearing on the editorial page of that paper came direct from Judge Sloan's pen and were published precisely as written.

The special committee to investigate the subject held its first session this morning and put the Optic's local representative through a right examination. It will hold another session tonight and will present its report to the convention to-morrow.

The convention then went into committee of the whole and resumed consideration of the report of the article on judicial department.

There remained seven sections more of the committee's report to be acted upon when the noon recess was taken. The contest over the question as to whether the supreme court judges shall be elected by the people or appointed by the governor is still on. The appointive plan was carried by a vote of 24 to 20, but when the article comes up on its third reading and for final adoption in open session there may be a modification of this action. It is probable also that the probate courts will be given limited jurisdiction to the extent of causes involving less than \$500—probate causes, county courts recommended by the committee, only under another name. It was decided that the district judges and the clerk of the supreme court shall be elected.

Just prior to the noon recess Hon. Frank Springer by unanimous consent presented a minority report from the committee on educational department, which was received and placed on the calendar to come up with the majority report, above printed, which was presented by ex-Secretary Ritch. The report offered by Mr. Springer is as follows:

MINORITY REPORT OF THE COMMITTEE ON EDUCATION.

Section 1. Provision shall be made by law for the establishment and maintenance of a thorough and uniform system of public schools, which shall be open to, and sufficient for the education of all the children in the state, and shall be under the absolute control of the state and free from sectarian control; and no other or different schools shall ever receive any aid or support from the state, or from any county, creed or church doctrine shall be taught in the public schools.

Sec. 2. The principal of all funds arising from the sale or other disposal of lands or other property granted, donated or intrusted to this state for educational purposes shall constitute a permanent school fund, and shall be forever preserved inviolate and undiminished, and the income therefrom shall be faithfully applied to the objects of the original grants, donations or trusts, subject to the provisions and restrictions of this constitution. The principal of such fund, or of any other fund created by law for educational purposes, shall ever be applied toward the maintenance, support or aid of any school or other institution in the management of which any religious or other sect has any part, or which is not under absolute control of the state. The provisions of this and the preceding section are hereby declared to be irrevocable without the consent of congress and the people of the state.

Sec. 3. The control, management and direction of all public schools and of all educational and school funds, land and other property belonging to the state, or any municipality, or district thereof, or at its disposal, shall, under such regulations as may be prescribed by law, be vested in the state board of education, of at least five members, and until otherwise provided by law, such board shall consist of the governor, secretary of state, auditor of public accounts, attorney general and superintendent of public instruction. The legislature may provide for district or other school officers subordinate to said board. The state treasurer shall be the custodian of all educational and school funds, except those arising at a rate of interest not less than 8 per cent annum. But the legislature, by a vote of three-fourths of the members elected to each house, may change the rate of interest or the mode of investing

said fund. All losses from such fund shall be reinstated by the state.

Sec. 5. The legislature shall provide by law for levying and collecting taxes for school purposes, as follows: First, An annual tax of not less than 2 1/2 mills on the dollar of assessed valuation of all the property in each county, to be distributed throughout the county in proportion to the number of children for the maintenance of schools and the construction of school houses. Second, An annual tax not exceeding 2 1/2 mills on the dollar of assessed valuation upon all the property in any incorporated town, city or independent school district having not less than 2,000 inhabitants, to be levied according to the vote of a majority of the tax payers therein, for the maintenance of schools and the construction of school houses within such town, city or district.

Are you weak and weary, overworked and tired? Hood's Sarsaparilla is just the medicine to purify your blood and give you strength.

ROUND ABOUT TOWN.

The opera house project is beginning to assume an encouraging status.

At the government Indian school work began to-day on the second story walls. The mason work will be completed in three weeks.

A man from Tesuque had a fine fat deer in town for sale to-day. He killed the animal in a corn field at Tesuque, not far from Major Breeden's farm.

Robt. Helwig, the truck gardener, calls to say that while he was standing on his porch last Friday evening some one fired a shot at him. He can't imagine who it would be assassin.

The twilight hour is getting a little chilly for the plaza concerts, and the hour has been changed to 4 p. m., except on Sunday, when 6:30 to 7:30 will be the hour till the weather grows cooler.

It is said that the D. & R. G. will soon put in a stream hoisting plant at Cucua junction, whereby the transfers of freight destined for this city over the Santa Fe Southern will be greatly facilitated.

Somebody gave Monte Sloan another dose of cold poison yesterday. It took two hours of earnest attention to save the bright dog from the jaws of death.

Messrs. C. M. Creamer and Clark H. Gregg are interesting themselves in bringing here the famous Gilmore and his orchestra this fall. They have secured the hall of representatives in which to give the concert and have written Gilmore to come.

A little fire was right comfortable in Santa Fe this morning. Although not a particle of snow has fallen on the mountain tops, and the fruit frost is yet to come. The present chilly spell probably results from the northern breeze, snow having fallen in Colorado on Saturday.

Hon. T. B. Catron, County Clerk Garcia and Probate Judge Luciano Baca, have ordered a wind mill and pump each from Elder Bros., of Lamy junction. They have the contract for putting the towers up also, and placing the plants in perfect operation. Mr. Garcia completed his well to-day at his home, west of Guadalupe church, and at sixteen feet depth he struck a magnificent body of water.

Six representative Mennonites left to-day for the Santa Fe valley and Galisteo region to look out a location for a big colony of farmers from Kansas. Now, if Santa Feans had only gone ahead and developed artesian water in the valley what a bonanza could be had in locating these thrifty people within a few miles of the city. The day that artesian water is developed here that day will find hundreds of Mennonite farmers ready to jump in here.

A subscription has been prepared and will to-day be presented to citizens with a view to raising a fund to jerk the plaza out of the slough of despond and make it a credit instead of a disgrace to the capital city. The subscription paper is headed thus: "We the undersigned subscribe the amount opposite our respective names toward the improvement of the plaza in Santa Fe, such subscription to become binding when \$100 are subscribed, and the amount so subscribed to be disbursed by a committee of three to be elected by the subscribers at a meeting after at least \$100 is subscribed. Gov. Prince heads the list with a \$5 donation.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleanses the system, dispelling colds and headaches, and curing habitual constipation.

PERSONAL.

Mr. E. D. Franz is here from St. Louis. Ernest Dougherty leaves in a few days for Richmond, Mo., to attend school.

Col. F. A. Blake, of San Pedro, is in the city en route to Las Vegas on a big mining deal.

Capt. H. F. Grierson, of the immigration department of the A. T. & S. F., is in the city.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can not be sold in competition with the multitude of low test short weight, alum or phosphate powders. Sold only in cans. Royal Baking Powder Co., Inc. Wall Street, N. Y.

Their Business Booming.
Probably no one thing has caused such a general revival of trade at C. M. Creamer's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free; large size \$1. Every bottle warranted.

Auction.
On the plaza, at 9:30 Monday morning, I will sell a fine lot of household furniture of all kinds. Bargains assured to early bidders. CHAS. WAGNER, Auctioneer.

Startling Evidence

Of the Cure of Skin Diseases when all Other Remedies Fail.

Psoriasis 5 years, covering face, head and entire body with white scales. Skin red, itchy, and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies. My disease (psoriasis) first broke out on my head, spreading from my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were all raw, and my body was covered with a thick, scaly, and itchy eruption. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles of Cuticura, I was cured. I was cured of the dreadful disease from which I had suffered for five years. I bought the Cuticura Remedies cured it without any scars. I can not express to you what a burden before using the Cuticura Remedies. They saved my eyesight. I know of a number of different persons who have used the Cuticura Remedies, and all have received great benefit from their use. J. G. SCHUMANN'S.

Cuticura Remedies.
Cure every species of agonizing, humbling, itching, bleeding, burning, scaly, blotchy and simply diseases of the skin, scalp and blood, with loss of hair, from pimples to scrofula, except possibly ichthyosis.
