WHITELOW IS ARRESTED FOR KILLING OF MISS SAPP

He Declared That She Committed Suicide Because He Would Not Elope With Her.

DOCTORS DECLARE SHE WAS MURDERED

She Was Found in Dying Condition in Rear of Her Home With Throat Cut—Alleged Assassin Has a Family.

Iola, Kan., Oct. 11.—Samuel F. Whitlow was formally placed under arrest here today on a warrant charging him with the murder of Miss May Sapp, whose dead body was found in Moran, on the night of September 29. The coroner's jury found that Miss Sapp's death was due to wounds in the neck inflicted by a "person other than Miss Sapp." Whitlow says that the girl committed suicide because he refused to elope with her.

Whitlow made a confession that the girl committed suicide because of love for him, but after her body was found, he is a resident of Moran and lives some distance from her home. He also has a wife and family and is much older than the pretty young dead woman.

Could Not Have Succeeded.

Physicians, who examined the wounds in Miss Sapp's throat, which were inflicted with a razor, said she could not have killed herself. A bright razor, which had not been bloody, was found near her body, but her father testified that it was not the property of his daughter and did not belong in their house. Other wounds on her body were bloodless, leading the physicians to state that they were inflicted a moment after her death, which was caused by a severed jugular vein.

A neighbor, who bought milk from the Sapp family, who conducted a private dairy, testified that she was at Miss Sapp's home talking to her not five minutes before the body was found. She had passed out the rear way to her own home across the alley and had scarcely entered when she heard a scream and a few moments later, a man's voice called for help and a doctor.

Miss Sapp's mother, who also heard the scream, rushed from the front of their residence to the rear and found her daughter lying against a fence, dead. She called a passerby who in turn called for a doctor, but the girl was dead within a few seconds after she was hurt. Other witnesses told the scene of the crime, footprints running through the alley behind the Sapp home just after they heard the first scream, which was evidently uttered by Miss Sapp when she was attacked.

May Have Been Whitlow.

One witness told of having seen a man, running away from the place by way of the alley, whose general figure corresponds with that of Whitlow. The witness had not seen him when he described the man in question. Whitlow appeared very much excited when he visited the scene of the murder and asked fearfully whether a murder was suspected.

Told His Story.

Later he went forward with a story of the girl's having killed herself because of love for him, but the detectives who have worked on the case and are such thet. They believe that Whitlow was enamored of her and killed her because she refused his attentions.

He also stated that she frequently met him and quarreled with him because he refused to return her affections. Her parents state that to their knowledge she never talked with him for more than a moment or two at a time and despite the fact that he frequently spoke to her, she had nothing to do with him. She seldom left her home unless accompanied by her mother, being of a very retiring disposition.

The officials here believe that Whitlow is guilty and they hope to secure a confession from him later as he is much wrought up over his arrest.

CANNIBALISM IS OPENLY PRACTICED

Winnipeg, Manitoba, Oct. 11.—Tales of famine and cannibalism among the natives in northeastern Canada were brought here today by J. A. Osborne, an explorer who just completed a trip of exploration of that desolate country. At Moose Factory he met a young man who had fled there in terror. His uncle, he said, had killed and eaten eight human beings, and he also saw a woman who last winter, during a famine, killed and ate her two children. Osborne concluded that cannibalism is practiced openly among the Indians and half breeds.

GROVER CLEVELAND IS AGING RAPIDLY

New York, Oct. 11.—For the first time since his recent illness, ex-President Grover Cleveland is in town. When he arrived he walked with a cane upon which he leaned heavily and appeared to have aged perceptibly. His visit is understood to be in relation to the affairs of the association of life insurance presidents, of which he is chairman.

Governor Curry Says That New Mexico Is Roosevelt's

Executive Denies That President Discussed Third Term With Him But Thinks People of Whole Country and New Mexico in Particular Are For Him First and His Standard Bearer Next.

DEMOCRATS WILLING TO WORK FOR STATEHOOD ENABLING ACT

"The statehood campaign will be conducted to win if there is any possible show for our admission and I have practically been assured of the co-operation of the leading men in the republican and democratic parties and of the leading people of New Mexico as well as the delegate to congress, W. H. Andrews, who is already at work."

This statement was made by Governor Curry today to a reporter for The Citizen who called upon him at the Alvarado. The governor had spent a strenuous week, besides attending the big fair, making several dozen addresses and occupying the position of guest of honor at a number of functions. Governor Curry has also attended to the duties of executive and has met and talked with several thousand people. He has also spent considerable time conferring with the republican leaders. The governor said today that he had not yet talked with A. A. Jones, of Las Vegas, the chairman of the democratic territorial central committee, but that he would do so at his first opportunity.

"Other democratic leaders, however, have assured me that there will be no friction in the effort to secure an enabling act for statehood," said the governor. "As to the control of the new state, if we are admitted to the union—that will be a matter to be fought out later. The thing we all want to do now is to get down to work for statehood and I believe we can secure statehood in a very short time."

The governor was shown an interview in an eastern paper quoting him as authority for the statement that President Roosevelt would be a candidate for a third term and had so announced himself, while on the Mississippi river trip.

The governor dictated the following regarding the interview:

Albuquerque, N. M., Oct. 11, 1907.

Dispatches referred to do not quote me exactly correct. My mission to the president was in regard to statehood and other matters of interest to New Mexico. I took occasion to tell the president that the people of New Mexico feel very kindly to him and appreciate what he is doing for the west. The president did not discuss his candidacy or anything relating to the presidential election with me.

In my opinion the delegation to the republican national convention from New Mexico will be instructed for the renomination of President Roosevelt, and his own friends here could not prevent it if they desired, as the feeling is strong here that he could succeed himself in order that he may carry to a successful conclusion the policies that he has inaugurated. Should President Roosevelt refuse to accept the nomination the people of New Mexico will support whomever they believe will come nearest to carrying out the policies of President Roosevelt.

GEORGE CURRY.

GOVERNOR CURRY GUEST AT FERGUSSON HOME

Reception Held Last Evening In Honor of Chief Executive.

Governor George Curry was a guest last evening at a six o'clock dinner at the home of Mr. and Mrs. H. B. Fergusson in old Albuquerque, a few other guests also being present. From 8:30 until 11 a reception in honor of the governor was held at the Fergusson home. Mr. and Mrs. Fergusson and Miss Fergusson were assisted in receiving and serving by several well known Albuquerque ladies.

The pretty home was beautifully decorated in honor of its honored guest and the evening was spent in a most pleasant manner. A large number of prominent people were present during the evening, including many from the business community. Governor Curry's well known popularity was attested by the heartiness with which he was greeted by his friends, and with Mr. and Mrs. Fergusson and daughter as hosts there was nothing left to be desired.

SILVER CITY NO SNAP FOR SOCORRO

The Silver City amateurs are giving the Socorro baseball team the game of its life this afternoon. At the close of the fourth inning, the score was 4 to 4. Hagerman, who started in to pitch for the Gem City bunch, was taken out in the third inning and pitched steady ball for the amateurs. One run was made off him in the first inning and one in the fourth, and then there followed three innings with nothing doing for Socorro. The outs were being made in one, two, three order, and at the sixth inning when the Citizens went to press, both teams were playing steadily.

FEW COMPLAINTS OF EXORBITANT PRICES

But few complaints and these of minor importance, have been heard during the week of exorbitant prices being charged fair visitors. Though the crowds have taxed the facilities of the city in various lines, they have been taken care of with uniform fairness and satisfaction. The restaurants have done a rushing business during the whole week, but prices have been maintained at practically the regular standard, and the barber shops, where petty graft has so often been claimed in larger cities, have held to the regular price schedule. In some quarters a scarcity of rooms has led to some increase in charge through voluntary offers, one rooming house on the highlands reporting an offer of \$2.50 per night for a bed.

Surpassing both in point of attendance and general interest all previous Albuquerque day records, the scene at the fair grounds yesterday afternoon reflected in no uncertain manner, the rapid strides taken by New Mexico during the past year not only in increasing population but in material resources. No event of previous history has ever drawn together in any one place in this territory such a multitude of people as did the fair grounds yesterday. THEY ARE HERE FROM EVERYWHERE

One of the interesting features of fair attendance this year is the widely scattered area from which the throngs of visitors have been drawn. A glance over the list of arrivals during the past five days demonstrates the fact that this year's fair has drawn not only a bigger, noisier and more liberal crowd of sightseers, but that the attractions of the big carnival reached out to a larger territory than ever before, and that people are finding the Albuquerque fair worth coming to from adjoining states. A large number of friends by easterners until fair week is becoming a common practice, and adding materially to the total attendance figures.

Exchange Prices Drop.

New York, Oct. 11.—A heavy outpouring of stocks sent prices on exchange tumbling today. Unfavorable rumors regarding the forthcoming annual meeting of the Amalgamated Copper company were responsible.

DAILY TRAIN SERVICE FROM HERE TO ROSWELL

Santa Fe Will Put on Through Passenger Service On November 1 Via Belen Cut-off.

WILL OPEN GREAT TRADE TERRITORY

Albuquerque Will Receive Business From Vast Section Which Was Heretofore Practically Closed to Duke City People.

It is reported on what is considered excellent authority that through daily passenger service will be established between Albuquerque and Roswell on the Santa Fe via the Belen cut-off and Texico on November 1, and that a train will run each way between the two cities, one leaving here at 7 a. m. and arriving at Roswell in the evening and the other leaving Roswell at 7 a. m. and arriving here in the evening. The trains will run over the main line from here to Belen and thence over the Eastern Railway of New Mexico, or as it is commonly called, "The Belen Cut-off," to Texico, here it will pass the train coming this way and proceeded hence to Roswell.

Of Vast Benefit.

The benefit of this service to Albuquerque is limitless, since it will give direct daily service with Roswell and a large number of towns which have heretofore had practically no communication with the metropolitan city of New Mexico. The entire Pecos valley will be opened to this city's trade and business which has gone to El Paso and other southern and eastern points will come this way.

Beside Belen and the towns on the main line, Mountainair, Willard and other towns on the cut-off, Texico, Portales, Keams, Lordsburg and others to the south will also have first class connections with this city.

Shows Railroad's Friendliness.

The service not only opens the big trade territory to Albuquerque but it also shows this city the friendliness of the Santa Fe railway and its principal officials toward this city. It was on a recent visit of the general officials to this city that the train service to Roswell was discussed and arrangements made for its operation.

Fare Will Be Reasonable.

At present a trip to Roswell is an expensive matter, just a shade better than a trip to Chicago. In fact, the fare as now concerned, and so far the best route is over the Santa Fe Central to Torrance and thence by auto to Roswell, a trip that has many great drawbacks.

Under the new system, the fare will be reasonable and a trip to Roswell will not be expensive. The new train will also be of much benefit to Roswell, in that it will give that city many connections which it has not had before and enable its local business men to enter a new territory.

VALUABLE HORSE IS SACRIFICED

Kiowa, the handsome bay pacer owned by E. G. Peck of Pueblo, and one of the favorites in the first two heats of yesterday's 2:13 pace at the fair grounds track, was shot by his owner last night at the grounds' stables. The horse, which showed up strongly in the initial heats suddenly went lame just as he came under the wire the second time, and a hasty examination showed that the ankle bone of the left hind leg had snapped short off. The plucky little animal walked to the stable a quarter of a mile away but it was found that the fracture was too complicated to offer any hope of a successful recovery and last night the horse, which is the only one entered here by Mr. Peck, was put out of its misery with a bullet.

PICK POCKET TOUCHES J. W. DEXTER FOR \$300

George W. Dexter, of the firm of Looney & Dexter, 612 North Fifth street, had his pocket picked while on a car coming back to the city yesterday afternoon during the crush for \$300 in cash and checks. The money was in a sack, which the thief slipped from Mr. Dexter's hip pocket. The thief threw the checks away and they were found and turned over to the police, who returned them to Mr. Dexter this morning. The cash lost was between \$50 and \$75.

TRAVELING MEN ELECT OFFICERS AND ADJOURN

"Southwestern Traveler's Association Permanently Organized at Their Last Session."

WILL MEET HERE THANKSGIVING DAY

Thirty-Eight Charter Members Form Organization With E. L. Collins as President, L. A. Galles Vice President, and R. H. Lester, Treasurer.

The traveling men of New Mexico held a meeting last night in the Zeigler building at which they permanently organized as the Southwestern Commercial Travelers' association.

E. L. Collins was elected president, L. W. Galles, vice president; Dick Dillon, secretary, and R. H. Lester, treasurer. A committee on emblem was appointed consisting of Ed. Harsch, Louis Collins, and M. L. Stern.

Governor Curry was made an honorary member of the association and a committee was appointed to notify him of the fact.

A committee on constitution and by-laws was selected consisting of M. L. Stern, J. H. O'Reilly, George D. Stetson, Leo Gale, of El Paso, and Seymour Lewinson.

The association will be given to the member who secures the largest number of new members before the next meeting, which will be held in Albuquerque on the morning of next Thanksgiving day.

Thirty-eight charter members enrolled themselves and paid the initiation fee. They are as follows: Ed. Grunfeld, George P. Leonard, R. H. Lester, Seymour Lewinson, George S. Ramsey, William Jeffrey, A. J. Coleman, Ben Spitz, R. C. Dillon, Francis J. Lee, W. E. Betts, Louis Rosenbach, Edward T. Phelan, C. W. Kuntz, M. R. Devine, L. L. O'Rear, Lewis Cohen, James P. Lunt, H. W. Klein, L. Lowenthal, J. W. Galles, William Hayward, F. E. Blinham, Ben Weiler, C. H. Comstock, P. E. Gledhill, William A. Laue, E. Jellinek, E. L. Collins, Tom D. Collins, John Clapper, E. B. Harsch, M. L. Stern, C. O. Rucker, Eugene Kempenich and Leo Gale.

Had a Good Time.

The traveling men took the city by storm. They came for a good time and they will be satisfied. They enjoyed all the good things of life from the moment they hit the pavement at the station until they again took up their grips and hiked for more business, and some of them have not yet quit the city but will remain until the close of the fair.

They welcomed the governor to their midst and in return got his warmest thanks and they participated in the big parade, later meeting at their headquarters and handling considerable business. Their "female" ball game was a feature of Albuquerque day at the fair grounds, and they wound it all up by their organization and election of officers.

They will come again on Thanksgiving day when it is believed the membership will be doubled.

CHAMPIONSHIP GAME IN DETROIT TODAY

Detroit, Mich., Oct. 11.—The Chicago and Detroit ball teams arrived from Chicago on the early morning trains and will play the fourth game of the world championship series here today. The sale of seats for the games here has been heavy. While Detroit's two defeats by Chicago have changed the betting on the series to two to one in Chicago's favor, local enthusiasts remain hopeful that their favorite will yet win the championship.

The final score was Chicago 6, Detroit 1.

MARKED INTEREST IN FAIR EXHIBITS

"Farmers and ranchmen from all over the territory and a number from surrounding states and Arizona, are taking a marked interest in the agricultural and live stock exhibits of the territory. To examine some of our exhibits—which would prove prize winners in any state in the union—rather makes one wonder if our geographers aren't a little out of log in marking New Mexico under the great American desert area."

MRS. CHADWICK DEAD IN PENITENTIARY.

Columbus, Ohio, Oct. 11.—Mrs. Chadwick, wrecker of the Oberlin bank, died in the penitentiary last night. Her death was caused by a disease contracted from eating rich foods.

WEATHER FORECAST

Denver, Colorado, October 11.—Partly cloudy tonight and Saturday; probably rain in the north portion of the territory with rising temperature.

NUMBER 247

IMMIGRATION BUREAU IN STATE FIGHT

Governor Curry Called Meeting Today to Arrange For Much Descriptive Literature.

MEMBERS AUTHORIZED ISSUE OF PAMPHLETS

He Will Use Every Possible Effort in the Fight Which Will Result in New Mexico's Entering Union of States.

Governor Curry called a meeting of the Bureau of Immigration at 10 o'clock this morning in his apartments at the Alvarado hotel for the purpose of discussing the work of the bureau and to prepare matter for a statehood campaign.

D. A. Macpherson, of this city, G. A. Fleming, of Las Vegas, and John Haley, of Capitan, were the only members of the board present. H. H. Hening, secretary of the bureau, was in attendance and remained after adjournment for a conference with the governor regarding his work.

Must Get Busy.

The governor told the bureau members that he expected them to "get busy" or words to that effect, and to aid in the fight for statehood by the publication and circulation of proper literature for the advertising of the territory and its people and natural resources.

The governor talked to the point. He told the members that the statehood campaign was on the earnest and that he expected the territorial officials to back up the movement to its utmost.

Will Advertise Territory.

It was decided to issue as soon as practicable a large number of small booklets, circulars and other advertising matter as cheaply as possible in order to get the name and the opportunities of New Mexico before the public. This matter will also be the subject of a descriptive bulletin.

The lettiargic condition of the bureau during the past months will not be allowed to continue further and the members pledged to work hard and to work hard toward the statehood goal.

Secretary Hening will at once set about the preparation of the advertising matter which will be sent to press just as soon as possible.

Governor's Suggestions.

The subjects upon which Mr. Hening will write were suggested by the governor during a conference and they will be suitable for statehood campaign purposes as well as the encouragement of immigration and development.

The board authorized the publication of five bulletins on the counties of Chaves, Eddy, Union, Colfax and Grant, and the counties in the southern portion of New Mexico in particular. The bulletins will also form the subject of a descriptive bulletin.

Will Fight for Statehood.

Governor Curry told the bureau members that he intended to conduct the statehood fight clear down the line. In other words, he proposed to establish a competent press bureau and by publicity to batter down the false impression that New Mexico is not a law abiding, industrious, developing community with wonderful resources, developed and undeveloped. Matter descriptive of the territory will be circulated in the east and in fact all over the United States.

Will Go to Washington.

When congress assemblies, Governor Curry together with members of his administration and prominent citizens of New Mexico, will go to the nation's capital to work for might and main for the new state. Governor Curry is not optimistic but he has every assurance that he will succeed if properly supported by the people of New Mexico.

A Busy Morning.

Previously to meeting the members of the bureau, the governor spent a busy morning in conversation with leading members of the republican and the democratic parties. They have assured him of their co-operation in every way to secure another enabling act for statehood for New Mexico without the addition of Arizona or any other territory.

To that end both parties will bury the hatchet, and pressure will be brought to bear on the representatives of both parties in congress to give favorable consideration to the admission of New Mexico to the union.

MEMBERS OF THE LAW REVISION COMMISSION

Governor Curry today announced the following as members of the law revision commission: A. B. Fall, attorney general; W. B. Childers, of Albuquerque; H. M. Dougherty, of Socorro; Benjamin M. Post, of Santa Fe; and Louis A. Dield, of Las Vegas. Frank Springer, of Las Vegas, was offered an appointment on this board but he declined to accept it because of private business. The commission named by the legislature will meet in a short time at the capital and organize preparatory to beginning work.

\$90,000 HOTEL FOR LAMY JUNCTION

In railway circles it is reported
that the management of the Santa
Fe railway system is seriously con-
sidering the project of the construc-
tion of a new and modern depot and
a Harvey hotel at Lamy Junction. It
is understood that plans for the
structure are now in process of prepa-
ration. If the project is put
through, the buildings will be of very
handsome design, the Mission style,
something on the order of the Alva-
rado hotel in Albuquerque and the
Castaneda at Las Vegas and are to
cost in the neighborhood of \$90,000.
While the report can not be fully
substantiated at this time, it is be-
lieved to have good foundation.

SOCORRO LOSES TO BROWNS 6 TO 1

Game Prettiest of the Tournament—Cinches Money For Albuquerque.

Hard hitting won the Albuquerque-Socorro game for the locals, and cinched the first money in the baseball tournament.

Dick, the long burr-head who goes to Pittsburgh next year, had the Browns on his hip for five innings but in the sixth they got on to him. Up until this stage of the game, and even till the eighth, it was a toss up who would win it. The final score was 6 to 1.

Socorro made it's one and only run in the third inning. Durham put one straight over to Rhoades and the little giant connected with it for three bases. There was no one out but it is doubtful if Rhoades would have tallied had Frantz not erred in a throw to the plate. Dick, following Rhoades to the bat, struck out but Brierly failed to catch the third strike. Dick ran for the base and while Brierly passed the ball to Frantz, Rhoades came in. Frantz put Dick out but threw wild in passing the ball back to Brierly.

The game ran along 1 to 0 till the sixth inning, with nothing more doing on either side. The Browns advanced men as far as second and third in the second and fourth innings, but the needed hit to score was not forthcoming.

The Browns' first score came in the sixth as a result of D. Anderson missing Frantz's long fly into left field and a two base hit by Brierly. The browns drew another blank in the seventh but in the eighth they landed on Dick for a total of three hits, one by Corhan for two bases, which assisted by an error by Rathburn in a throw to first, resulted in three runs. Three more singles in the ninth resulted in two more runs. Durham let down for two hits in the sixth and Socorro got runners on first and third, with two outs and with Rhoades to the bat, but lost their advantage by Rathburn trying to steal home on the third strike, which, however, wasn't a strike but a ball. The signal was for Rhoades to hit the ball, but he let it go by. Given confidence by the tying of the score by the Browns, Durham tightened up in the seventh and the best the Gem City could do in the remaining innings was to get a man to first base.

There were no spectacular plays but the score sheet shows that the game was hotly contested from start to finish and was won by hard and timely hitting. Dick's support was even better than the support given Durham, but the errors proved more costly by being followed by hits. Brierly led in the hitting with a double and two singles.

Afflicted With Sore Eyes for 33 Years
I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back. P. C. Earls, Cynthia, Ky. S.S.S. KILLS THE GERMS OF SCROFULA

Through the blood, diseases are carried from one generation to another. Parents transmit them to their children, and so it goes on down the family line for years and years unless the taint is removed from the blood. Especially is this true of Scrofula, for it is a disease that is "bred in the bone," and unless the blood is purified and every trace of the trouble removed the miserable disease will finally undermine the entire health and wreck the life of its victim. The usual symptoms of Scrofula are enlarged glands or tumors about the neck, which often burst and become discharging ulcers, weak eyes, Catarrh of the head and throat, skin diseases, etc. The trouble being so firmly entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, while a waxy, pallid appearance of the skin, loss of strength and energy, and often lung affections, show that the disease is entirely destroying the bright red corpuscles and rich, nutritive qualities of the blood. Scrofula being a constitutional disease, one affecting the entire circulation, must be treated with a remedy that builds up and strengthens every part of the system, which has so long been denied the strength and nourishment it should have received from the blood. S. S. S. is the best of all blood purifiers and the greatest of all tonics, and is therefore the ideal remedy for Scrofula. S. S. S. searches out and destroys all germs, taints and poisons, gives strength, richness and vigor to the blood and cures Scrofula permanently. It so thoroughly removes the trouble from the blood that no signs of it are ever seen again, and posterity is started out in life with a clean, pure blood supply, which is their rightful inheritance. S. S. S. while thorough, is gentle in its action, and the healing vegetable ingredients which compose it build up every part of the system. Book on the blood and medical advice free. M'INTOSH'S BROWNIES ALL RECORDS BROKEN HAVE DISBANDED THURSDAY

Yesterday closed the season for the McIntosh Brownies. Out of some thirty games, the Browns lost but four. One of these went to Clifton and the other three went to Trinidad. Santa Fe was beaten ten successive games and tied for one. Howell was beaten three times, Clifton, Ariz., twice and El Paso five out of five played. Estancia, the home of William McIntosh, "Daddy" of the Brownies, however, claim one victory over the Browns.

William McIntosh, "Daddy" of the Brownies.

The team will disband tonight. Green, Neiforth and Briery will return to Trinidad. Lurham will leave this evening for his home at Douglas, Kan., and Prantz will leave for his home in Kansas City Sunday. The prospect is that none of them will wear the brownies next season. Corhan will go back to Pueblo and Clancy has a chance to try out with the Indians next season if he wants to. Kunz is probably the only one in the line up yesterday that will remain in the city and be ready to put the brown on again next season. Cap McDonald has served his time. Cap says that he is through. Galgan's goes to Pueblo and Crable has been offered a try-out with Sioux City.

SWEETHEART WON ALBUQUERQUE DERBY

Brewer's Kid Took First Money in 2:13 Pace—Joe T. First in Running Race.

The Derby Day racing program was the best of the week. Sweetheart, a Colorado filly, won the derby by two lengths, from Susie Christian. The bobbet third. Time 2:01 1-2. The distance was a mile and an eighth. The 2:13 pace, \$1,000 stake race, went to Brewer's Kid, first; Danie J. second; Clara B. third, and Chilly the Clipper, fourth. Kiowa, owned by F. G. Peck of Pueblo, had this race practically won when accident put him out of the going and subsequently cost the horse its life. Kiowa had won the first two heats and was turning into the stretch on the last lap going strong and in the lead when his left hind leg snapped off between the hoof and the knee. T. Joe won the four and one-half furlongs running race.

INDIAN SCHOOL CLAIMS SMALLEST MUSICIAN

Albuquerque has always claimed the distinction of the largest number of good brass band players of any city in the southwest. With a half dozen organized bands the city has always been supplied with first class music for every occasion, but a new claim to eminence is now believed due to the Albuquerque Indian school in having the smallest individual player in the southwest. This is Louis Tiner, a full blooded Shawnee Indian whose native tribe reside in Indian Territory, where he was born. His age is believed by Superintendent Custer to be between 9 and 11, though he is rather small of stature for these years. A large number of people remarked the little fellow marching manfully in step with his fellows in the parade Thursday. He has been in the local school several years, and in addition to being a proficient clarinet player, is said to be one of the brightest students in the institution.

WHAT DOES IT COST YOU TO LIVE?

Fifty dollars a month if you don't want much—\$100 a month if you want comfort. There is a place in New Mexico where you couldn't spend more than \$9 a week or \$26 a month if you tried, and yet you live better than you're living now. If you've come west for the winter, don't stay in town. Get out where the air is fresh and pure and the sun shines bright all day long so where you can have eggs fresh laid every day, milk right from the cow and a big pitcher of it in your room when you want it. Live in a place where they kill their own beefs right off the range, where you can walk a rod from the house and catch all the trout you can eat. Big airy ranch rooms as comfortable as "back home," a cabin in the woods or a tent house if you want them, see a genuine western ranch. Watch the boys breaking horses, see the round-up and enjoy life as you never did before. Easy access to a railroad with a daily stage line. This is no tourist resort but a genuine western ranch. Inquire this office or address The Valley Ranch, Pecos, N. M.

PULLMAN CAR IN THE BIG PARADE

"The exhibit of a life size Pullman coach by the Traveling Men's association in the big industrial parade seems to be peculiarly appropriate," said an Albuquerque traveling man today. "Probably no class of men have a more highly developed sense of humor than the knights of the grip and I imagine there may be just a bit of grim irony in the choosing of this emblem for the parade as well as a clever piece of work. If there is any institution on the face of the earth to which the traveling man bows down in humble deference it is the Pullman company. Night after night he pays its exorbitant fares, is held up by the black faced boy and inconvenienced by incompetent conductors, yet he comes through it all smiling, for your traveling man is before all else a philosopher. There was just one thing lacking in that Pullman car exhibit. Some time ago I saw a picture in a cigar store labeled 'The Pullman Porter.' At a distance it looked like the ordinary colored knight of the whisk broom, but on closer inspection it developed that the face was painted with coal soot, the eyes were made of silver quarters, and the mouth was a lemon. I think that was needed to round out the exhibit."

BUCKING BULL WAS REAL ARTICLE

The antics of the bucking bull at the fair grounds yesterday afternoon reminded one of the walking beam on a Mississippi steamboat. Only the speed was greater. The bull looked gentle enough before he was saddled, but as soon as the cinch was tightened about his body and the maddened animal charged the leather, he showed the tough material of which he was made. He charged across the ball grounds with his human burden and though he bucked enough to make a broncho smile with approval, the rider kept his seat and merited the enthusiastic applause of the spectators. The broncho busting events were also a great success. Every horse entered in the contest proved a bad actor and on several occasions the maddened animal charged the crowd and how an accident was averted is a mystery. Mr. O'Brien, who has charge of the cowboy events, is to be praised for providing so excellent a wild west program.

CHARLIE M BELONGS IN ALBUQUERQUE

Charlie M., the horse which won the \$1,000 Denver Post stake race yesterday, is strictly an Albuquerque care. He belongs to E. J. Collins, a well known traveling shoe salesman, who lives in this city, and he was trained by M. J. Donohue and handled on the track yesterday by Arlie Frost, both of this city. This horse was taken out of a survey only a short time since and put in training. He lowered his own record yesterday from 2:22 1-4 to 2:20 1-2. Taken altogether, the five heats of yesterday's race are said to have been the fastest ever run on the local track.

ABOUT TOWN

Mr. and Mrs. George Page, of Gallup, are in the city.

A. J. Spear, a sheep man of Las Animas, is in the city.

R. W. Cassidy, of Laguna, is transacting business in the city.

Ben J. Minot, a cattleman of Winslow, Ariz., is here seeing the fair.

Judge John R. McPhee and wife were in the city yesterday from Santa Fe.

E. A. Sawyer, a well known stock man of Winslow, Ariz., is a visitor to the fair.

Mr. and Mrs. P. M. Gravin, of Reno, N. M., are registered at the Savoy hotel.

Joe Wolff, of Socorro, was among the arrivals from the Gem City this morning.

C. W. Fairfield is among the prominent Santa Fe people in the city taking in the sights.

Frank Maxwell, proprietor of the Lamar Flour mills, of Lamar, Colo., is here attending the fair.

Grady's Albuquerque band gave concerts in a number of places around the city this morning.

S. A. McCoy, construction engineer for the Santa Fe at Vaughn, N. M., on the Santa Fe cut-off, is in the city taking in the fair.

M. W. Porterfield, prominent druggist and one of the industrial mining men of Silver City, was among this morning's arrivals from the south.

Guy Newell and Harmon Richie, of Tucson, are in the city taking in the fair and visiting Miss Ethel Benton and Miss Ethel House, former Kansas friends.

Mrs. James McQuade and children, of Gallup, are in the city the guests of Mr. and Mrs. E. S. Shepard, of 713 South First street. Chas. Doyle, of Winslow, Ariz., is also a guest at the Shepard home.

The ball given by the Spanish-American Alliance of Albuquerque last night at Colombo hall proved to be a very pleasing affair. The attendance was large and the music the best. This was the annual ball of the Alliance.

Elke's hall was crowded last night when the local lodge held open house in honor of their visiting brethren who are attending the fair. The evening was spent in social jollity. Many members of the Fifth cavalry were present in uniform.

The many friends in Albuquerque will learn with regret the death of Mrs. W. E. Dame, which took place in a sanitarium in Michigan. Though the details have not been received here, it is believed that death came as a result of an operation.

Mr. and Mrs. C. A. Ammet, prominent people of Luna county, are among the fair visitors in the city. Mr. Ammet is a prosperous stock raiser. He says that his cattle are looking fine. The range in southern Luna county, where he is raising his cattle, is very good.

T. W. Hanna and Robert Sayles, of Lamy, arrived in the city Wednesday evening after a very interesting and successful trip through Tlaxcala and handed on the road yesterday by Arlie Frost, both of this city.

This horse was taken out of a survey only a short time since and put in training. He lowered his own record yesterday from 2:22 1-4 to 2:20 1-2. Taken altogether, the five heats of yesterday's race are said to have been the fastest ever run on the local track.

The Great Western View company yesterday made a complete set of negatives of the floats in the parade. Excellent pictures were secured. The proofs are now ready and can be seen at their offices over the cafe. A complete circle picture of the grand stand at the fair grounds was also taken yesterday. All those who have placed orders for panoramic views, or wish pictures, are requested to call at once, as the company's representatives will be here only a few days longer.

Ten doleful specimens of humanity set on the mooners' bench in police court this morning charged with such petty crimes as drunkenness, street fighting and vagrancy. One man was minus a handful of hair as the result of a fight, another had a bloody ear and all bore the effects of too much booze. Police Judge Craig disposed of the cases in rapid succession and imparted the usual sentences of fine or imprisonment. One of the prisoners had a bad attack of delirium tremens last night and a physician had to be called to attend him. He was feeling better this morning, but still in a shaky condition.

**AMOLE SOAP MAN SAYS
ALBUQUERQUE IS
ALL RIGHT**

"You Albuquerque people are altogether too modest, you don't half appreciate what a flourishing community this is and what a splendid city you have here. Everywhere I go in the southwest I hear Albuquerque spoken of in the most glowing terms of praise—that is, everywhere but right here in the city itself," remarked Francis L. Lee, the general representative of the Mexican Amole Soap company of Peoria, Ill., who is a frequent visitor to the city.

"Naturally I like this place because my house does a good business here, but even sold a dollar's worth of goods I would stick up for Albuquerque! It is really a beautiful place and progressive in a degree all out of proportion to its size. It is the most metropolitan city of its size in the whole country, I believe, without a doubt."

Mr. Lee is en route for the City of Mexico after having recently completed a trip through Virginia, Kentucky, Tennessee and Colorado. He is well known in this section of the country as "Amole Soap Man" and the volume of business he daily transacts for his house caused many a "knight of the road" at the traveling men's convention, held here yesterday, to turn an envious eye with envy. Mr. Lee is here on business, but he timed his trip so as to be present at the traveling men's convention where he could meet the boys, many of whom he has known for years.

Amole soap, such as is manufactured by the Mexican Amole Soap company, is made of the roots of the yucca plant in combination with pure vegetable oils. By reason of the excellent quality of the goods it has attained an enormous popularity throughout this and foreign countries and has taken the highest premiums at various international exhibitions. From a small beginning at Las Cruces—for the firm started up its business in this territory—the business has increased many hundred fold. In the past two years the business of the firm has doubled and the factory has been taxed to the utmost to fill its orders.

It is perhaps not generally known that Amole soap is used exclusively on the Santa Fe railroad on all its lines from Galveston, Tex., to Point Richmond, Cal.; from Chicago to El Paso. Thousands of gross of the soap is used by this one railroad alone. The principal product of the company is toilet soaps of many kinds, but shampoo and shaving soaps are also manufactured and sold in enormous quantities.

Hard Times in Kansas.
The old days of grasshoppers and drought are almost forgotten in the prosperous Kansas of today, although a citizen of Codell, Earl Shamburg, has not forgotten the hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough cure and lung and throat healer ever discovered. Guaranteed by all dealers. 50c and \$1.00. Trial bottle free.

"FEMALE" BALL TEAM CONTESTED FOR SUPREMACY

Traveling Men Revolutionized
Matters at Fair Grounds
Thursday Afternoon.

Not content with crowding two ordinarily strenuous days' work into the short space of a couple of hours yesterday morning, when they escorted Governor Curry to their headquarters, organized their association, footed across lots to join the big parade and indulged in a big dinner, the ubiquitous traveling men, pluming for relief from threatened ennui, yesterday afternoon added to the gaiety of the nation with a baseball game at the fair grounds which, while not on the official program, took the grand stand by storm and drew the undivided attention of the crowds to the other events.

Revolutionizing all rules and precedents of baseball, at one fell swoop, the game was started with Louis Molivane, a blue blooded blue grass knight as umpire and no star of the big leagues ever crowded into so few short innings many unique and interesting decisions. Clad in a lady's shirt waist once white and a glaring red skirt and shouldering an immensely heavy bat, he bid defiance to the fans, and when he announced a man safe who had been caught in the field and beaten to first the silence of the lookers on the bleachers was oppressive.

They Were "Females."
The competing teams which had been picked with an eye to special fitness in being absolutely innocent of ball playing training, were garbed in alleged female habiliments of all the variegated hues of the rainbow. Some of the hip lines did not show very careful work on the part of the modiste who modeled the costumes, but the effect was stunning and moreover "stylish" and but for the weakness of some of the players in indulging in long black perfectos during the game the illusion would have been declared almost perfect—by a blind man. The tendency of the daily little toque hats to dangle under the players' chins caused some embarrassment and the hot afternoon sun soon lent a rosy hue to some of the craniums more than was desired with hirsute coverings.

While the game was at its height and the umpire was loyally endeavoring to fill all bases by giving bases on error, the megaphone from the judge's stand started the grand stand with the announcement that the game was called "on account of darkness." The audience blinked and looked again, but the announcement was final—and the traveling men were skidding for down town to join in a caucus to plan a few little stunts for today.

KIDS HAVE BIG FAIR OF THEIR OWN

Down in the south end of the Highlands is a neighborhood where the stork has "race suicide" beat so bad that on Saturday's and after school hours the vacant lots fairly sprout young hopefuls. During fair week some of the various mammas have formed a compact and the edict has gone forth that there is to be no loitering on the way home from school, with possible opportunity to spend a furtive half hour among the delights of the carnival and crowds down town. Consequently it has been a somewhat successful battle that has gathered at the usual rendezvous the last few evenings. Yesterday one of the lads was smitten with an inspiration, and inspirations in the south end are transmitted into action with startling quickness. Two burros and a decrepit family nag were the first requisitions. A number of Navajo blankets and some cockerel feathers came next. Next a half dozen gunny sacks then the family lawn sprinkling hose. In thirty minutes a rival twenty-seventh annual New Mexico fair was in progress. The family nag was forced to accept a handicap from the burros in the 2:20 trot, but the sack race, the square race and the superb production of fighting the flames in a defunct dry goods box came off without a hitch. A Citizen reporter, who was passing, stopped to watch the exciting events.

"Aw, go on," commented a tow-headed ten-year-old, "yuh ain't got no ticket to this fair."

"If I'm a reporter," weakly responded the young man.

"Well, yuh can stay if yuh'll be sure to give us a good write up."

LOCAL NAVAJOS ARE DOING THE HONORS

Tom and Elie of Ganado, and the other members of the Navajo contingent at the Harvey curio rooms are busy people these days. According to Navajo etiquette, as permanent citizens of metropolitan Albuquerque, it is up to them to do the glad host act to the big bunch of Navajo ethnologists, and the management for the Indian events—and Tom and Elie and the rest are doing it. The Montezuma ball and the dozen other functions of the week have exhibited the palatial idea of social eclat, but the Navajos minus the hamperings of full dress—are having a few little fiestas of their own.

CAVALRYMEN DELIGHT IN THURSDAY'S MANEUVERS THEY EXCELLED ANYTHING HERETO- FORE SEEN.

The feats of K and I troops at the fair grounds eclipsed all previous events of the week. The thousands of people gathered to witness the races, base ball games, bronco busting and cavalry maneuvers, were simply astounded at the daring exhibitions of horsemanship given by the boys on the war horses.

The Roman race, in which one trooper rides two horses, one foot on each, was the most exciting event of the day. There were six entries in this race and several heats were run before the race was won by Michael Burkhardt, who bears the reputation of being one of the best horsemen in the regiment. The distance run in this event was a quarter of a mile and in the half minute and less that it took the contestants to cover the ground, the spectators gazed with wonder upon the fearless riders on the plunging animals. Had a rider lost his footing on a horse's back he would have fallen between his team and have been trampled to death in an instant, but no rider lost his footing and no one was injured.

Jack Overman came in second in the Roman race. The other contestants were Robert Payne, Frantz, Henry and McClain. The mounted tug-of-war between picked teams of the two troops was the next military event and was won by the K troop team in less than two minutes.

BETTER THAN A CIRCUS.

The riding school exhibition of the troops was another surprise. A troop mounted on barback horses appeared before the grand stand. First in single file they executed a number of beautiful figures and then the modiste who modeled the costumes, while the horses were on the run began. Next the troop gave an exhibition of acrobatic stunts on and off the animals, who stood still through it all. The nimble troopers turned somersaults over the horses' heads, mounted and dismounted in a dozen difficult and different ways and did it as easily as rolling off a log. Not a trooper took part in the events but could easily give a better performance than the average circus rider.

THE HOLLINGSWORTH TWINS

The next attraction at the Elks' theater is the Hollingsworth Twins Own company, which commences a week's engagement Monday night, October 14th.

The Twins are at the head of their own company this time and they are presenting an entire line of new comedies and dramas.

The supporting company is stronger than ever. Mr. Lawrence Peyton is the new leading man and Wallie Sene, the comedian, is as good now, if not better than before.

The opening play Monday night is "La Belle Marie," with Maud Hollingsworth playing the double character of Jess Ingledale and La Belle Marie. Myrtle Hollingsworth has the part of Stubbs, the office boy, the comedy part of the piece.

"La Belle Marie" Monday night, October 14th, Elks' theater.

SERGEANT CARTER OF FORT BAYARD HERE

First Sergeant Dick Carter, of Fort Bayard, N. M., arrived in the city last night and will spend the remainder of the week taking in the fair and visiting friends. Sergeant Carter, who has been an inmate of the Fort Bayard sanitarium for the past eight years under the treatment of Major Bushner, was formerly with the Sixth U. S. Infantry, located for a number of years at Fort Thomas, Kentucky. Sergeant Carter was with his regiment through the Spanish-American war and participated in the fierce fighting from the landing point at El Caney and all through the siege and fall of Santiago. His regiment was one of those that braved the brunt of the fighting in the trenches before the beleaguered city and the men saw much hardship and exposure.

After his return to the states, Sergeant Carter was stricken with a severe case of sickness which necessitated his being detailed to Fort Bayard for treatment.

CONVICT BEGINS HIS LIFE TERM

Santa Fe, N. M., Oct. 11.—Elmer L. Price, of Roosevelt county, who was tried, convicted and sentenced on indictment for murder in the district court of that county one year and a half ago, by Associate Justice W. H. Pope, and who was then brought to the territorial penitentiary for safe keeping pending the result of an appeal in his case to the territorial supreme court, has commenced the serving of a life sentence, the territorial supreme court having affirmed the decision of the lower court in his case.

SHE WANTED TO RIDE IN THE BIG GAS BALLOON

Gets Orthography Little Mixed.
But Had the Nerve and
the Money.

"Aint dat b'loon gwine to descend today?"

For half an hour yesterday a middle aged colored woman, clad in faded blue calico, sidled about the crowd which gathered to watch the inflating of Aeronaut Blondin's big balloon near the gas works at the foot of East Silver avenue yesterday. Her impatience at the delay in starting the big airship heavenward was manifested by sundry remarks, much to the amusement of the bystanders. Finally Manager Hubbs appeared on the scene, and she overheard his remark that the balloon would not be ready to "descend" until today. With a disappointed countenance she turned away, exhibiting a 50 cent piece tightly clutched in her palm.

"I suah did want to make dat descent."

She was told to come back today.

BLONDIN WILL MAKE ASCENSION SATURDAY

Tomorrow at noon Aeronaut Blondin will give an exhibition flight in his balloon from the premises of the Albuquerque gas plant on East Silver avenue. Owing to the small lifting power of illuminating gas with which the balloon is filled, it has been found impossible to carry passengers. By reason of the breakdown of the hydrogen gas generating plant at the fair grounds Aeronaut Blondin was compelled to complete the inflation of the big bag at the city gas works. On account of the quality of gas he will not attempt to break any balloon flight records, but will merely give an exhibition flight. The ascension will be made promptly at 12 o'clock.

From 1:30 until 3:30 tomorrow afternoon all cars will run from First street to Traction park only.

FIGHTING THE FLAMES ATTRACTS BIG CROWDS

Price Reduced to 25 Cents
For the Remainder of
the Week.

"Fighting the Flames" will be seen at 7:30 tonight in the big enclosure at First and Central, and four times during the evening the city will "burn up" for the pleasure of the big audiences which flock to see the spectacle of a reproduction of a city street with its usual evening attractions including "the little Gorman band" and the shooting of a policeman and other incidents of like nature. The price has been reduced to 25 cents for the rest of the week. The rub with his comical proclivities and the Irish policeman get in their work until the fire is discovered and the subsequent explosions make things exciting. The speeding engines and other fire equipment, shrill whistles and other features keep things on the move until the fire is declared "out."

The whole scene is striking and as near a reproduction of a real city blaze as could be arranged. There is the element of excitement, engendered by the sweeping flames and the heavy explosions, that accompany the ordinary fire.

The work of the prize winning fire team, Pat and Con, in making hitches and running through loops of fire is commendable.
