"WE GET THE NEWS FIRST"

ALBUQUERQUE, NEW MEXICO, MONDAY EVENING, OCTOBER 21, 1907.

WEATHER FORECAST

Denver Colorado, October 21.—Fair tonight and Tuesday except for rain and colder in the extreme east and south portion of the territory tonight; warmer Tuesday.

NUMBER 255

VOLUME 22.

FONTANET MAY NEVER RECOVER FROM HORROR

Awfulness of Explosion of Powder Plant in Indiana Is Becoming More Apparent Daily.

SMOKING RUINS MARK SITE OF DISASTER

Bodies Were Blown Completely Out of Existence and Tales of Suffering are Heard in Every Direction—Miraculous Escapes.

Fontanet, Ind., Oct. 21.—Still a mass of smoking ruins, the great mills of the Dupont Powder company lie amid the shattered trees and houses surrounding what was once one of the most peaceful country regions in Indiana. In Fontanet, a mile away, the scene is almost as desolate, though a number of the wrecked houses here have been made habitable and communication has again been restored with the outer world. Fontanet may never recover from this explosion.

Dante's Inferno is a faint effort compared to the horrors which one can see by a visit to Fontanet and the entire valley in which the great powder mills stood a week ago. Sights which even the most hardened of the grim horror of blood stains and particles of mangled flesh have been removed, are too much for even the strongest nerves.

Over 1,000,000 Pounds of Powder. Over 1,000,000 pounds of giant powder, or the unmix ingredients of that explosive, together with 10,000 pounds of dynamite were the means which caused the disaster.

The greater part of this powder was stored in the magazine, some distance from the plant, but a great amount was in the mills.

How It Happened. Louis Mack, a survivor of the disaster, says that for several days he and others about the mills, including the superintendent of the imperfect room was not working just right, and that he and others had warned the superintendent of the imperfect room was not working just right, and that he and others had warned the superintendent of the imperfect room was not working just right.

A workman saw a spark of fire from this journal into a keg of powder in the glazing room. He grasped at it, but a second later the room was filled with a purple flame, and then only by one of the big buildings of the plant blew up.

Terrible Heat. Out of the terrible explosions and heat staggered men bearing bodies of mangled and broken comrades, and in this way many reached comparative safety, though the employees of the plant, with three exceptions, these three having been outside the work were all badly hurt.

The heat from the burning powder and buildings was intense, and despite the efforts of the town people, many of them ran to the mill, after the explosion, nothing could be done to save the place.

Magazine Did the Damage. Forty-five minutes after the first explosion, the big magazine with its million pounds of dynamite and giant powder, some distance from the mills exploded because of the great heat. This explosion killed many of the rescuers who had come to the Fontanet and on the big Four train from Terre Haute. It also ruined every house in Fontanet and for many miles around.

The Awful Results. Forty were dead—hideously killed. Eight hundred were in suffering and distress. A town had been razed. A baby in its crib six miles away from the scene of this disaster died under the falling timbers of its home.

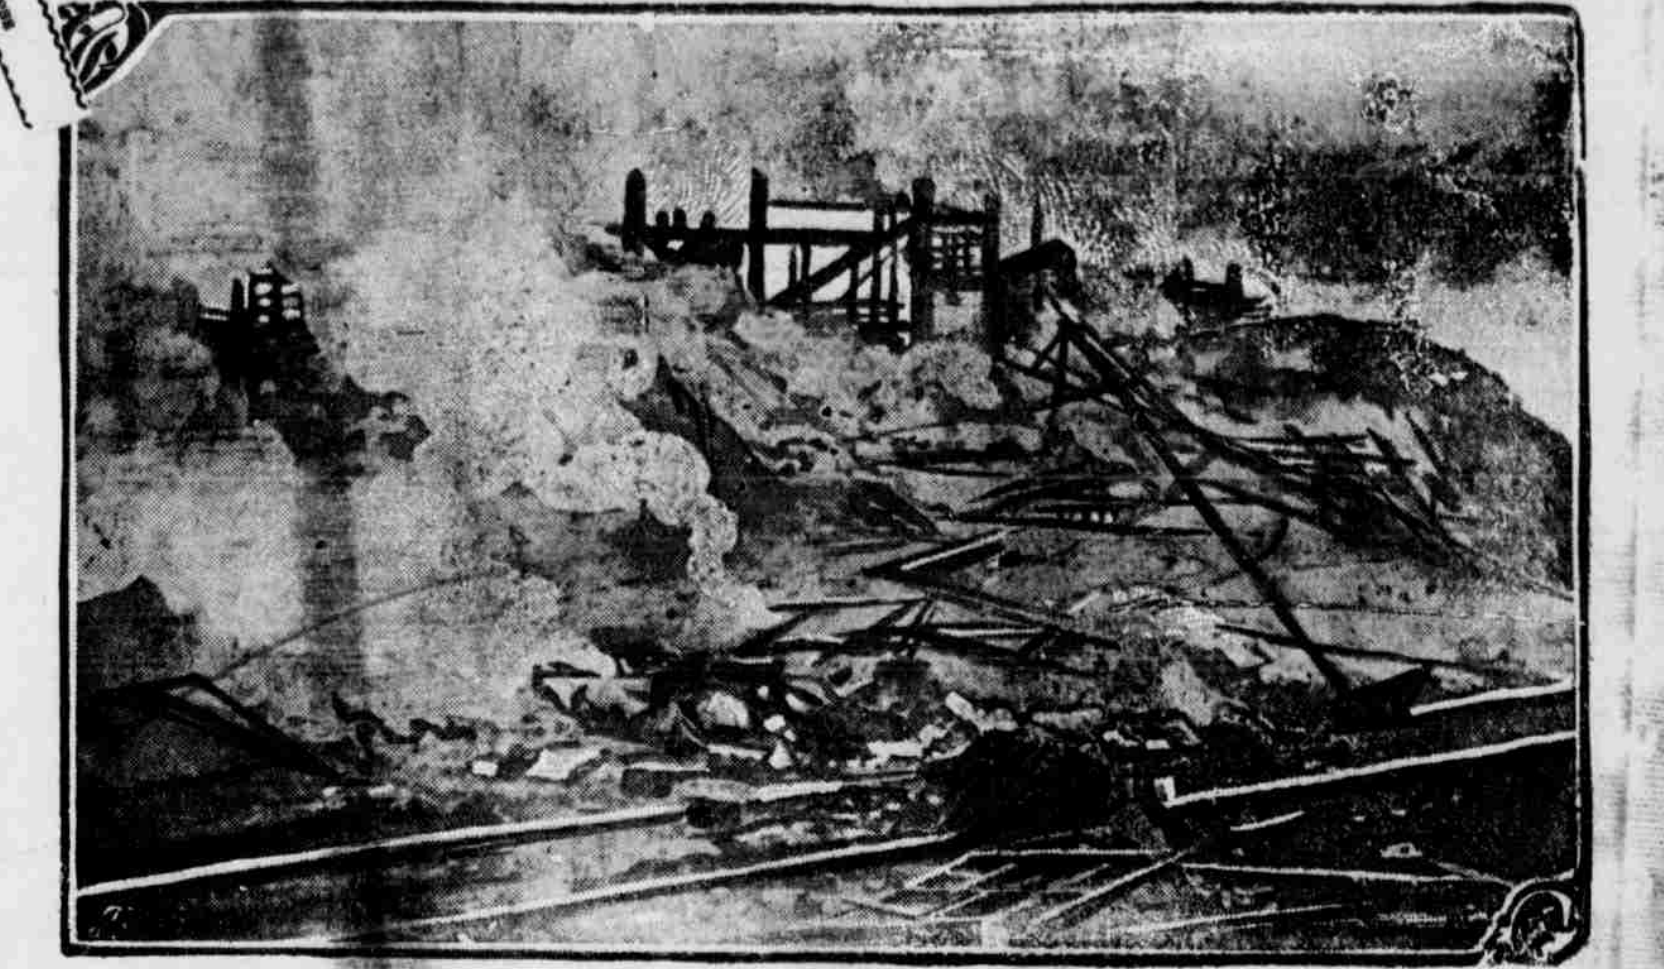

A quarter of a mile away the home of Supt. Monahan, of the Dupont mill, caved under the shock took fire, and miraculously not one was killed. The walls fell out and the roof sagged down, but the warning had come in time and the children fell under their stout oak desks and were saved from being crushed under the timbers.

The bell in the tower, crashing down, struck the desk of the teacher, Miss Susan Bishop. She was badly hurt.

Bodies Vanished. The bodies of those men who received the full shock of the force vanished like swirls of mist. Piles of human flesh were found three miles distant from the mill site.

A tremendous heat blast spread from the explosion. One woman, who was passing a hundred rods from the mill at the time, fell under this blast, and when she was picked up it was found that both eyes had been burned out. Many others were blinded in a similar way. Most of the bodies found were burned to charcoal. Following the calamity were the usual distressful scenes, with the usual widows and the usual orphans.

FONTANET POWDER MILL EXPLOSION CONTINUES TO ADD TO ITS HORRORS AS RUINS OF STILL SMOKING PLANTS AND MILLS ARE UNCOVERED DAILY

THE MASS OF SMOKING DEBRIS, ALL THAT REMAINS OF DUPONT POWDER MILLS WHERE FRIGHTFUL EXPLOSION OCCURRED.

BIG FINE CASE WILL BE FOUGHT IN HIGH COURTS

Standard's Attorneys Will Claim Prosecution Was Not Legally Conducted.

TWENTY-FIVE POINTS IN MAIN CONTENTION

Chicago, Ill., Oct. 21.—Plans for a strenuous effort that will be made by the attorneys for the Standard Oil company to have the \$22,240,000 fine imposed by Judge Landis, wiped out by the United States circuit court of appeals, were disclosed yesterday. Twenty-five main points, each of which the attorneys will argue, is sufficient to have the record breaking fine declared void, will be advanced when the case comes to trial in January.

Among these points are that government failed to inform the defense of the Alton immunity agreement; that the Elkins act, under which the conviction was secured, was unconstitutional; that as the Hepburn act was passed before the indictments were returned, the prosecution under the provisions of the Elkins law was illegal.

The Standard's attorneys have completed their appeal and are now preparing for the big fight which is inevitable when the case is called in the upper court. The legal questions will be submitted by brief, but it is probable that oral arguments will also be heard.

The Standard's appeal brief is one of the largest in the history of the court, and embraces a great number of pages. In addition to the immunity and Elkins law questions, it goes into the testimony, endeavoring to show that error was made by the presiding judge in permitting certain evidence to be introduced.

The great plea, however, will be that the Standard Oil company of Indiana, the defendant in this case, has a capital of only \$1,000,000, while the fine imposed is nearly thirty times that amount, and an effort will be made to have the fine set aside as too great. Judge Landis, however, found that this concern is a branch of the New Jersey company, hence the big penalty he imposed.

ALLEGED PLOTTERS WELL KNOWN HERE

San Francisco, Colo., Oct. 21.—As Anna Stankov, author, poet, writer and member of the artist Bohemian club of San Francisco, Mrs. William English Walling, who was arrested with her husband and sister, Rose, yesterday at St. Petersburg, was widely known in this city, which she left last year to take up the work of socialistic propaganda in Europe. Anna was born in Russia of Jewish parentage and was educated at Stanford University.

The arrest at St. Petersburg was because of alleged association with the Finnish progressive society. The American consul is working for their release.

COOL HEADS PREVENT PANIC AT THEATRE

St. Louis, Mo., Oct. 21.—During a performance here last night at the Columbia theatre fire broke out in the roof. The audience was requested to pass out without delay, but to do so without disorder. The surprised people obeyed and the theatre was soon cleared. On the outside those who had come out of the theatre saw flames extinguishing the latter a mining expert, who were

PRESSMEN ENJOINED FROM GOING ON STRIKE

Court Holds That They Must Carry Out Existing Contract.

UNION WILL NOT ISSUE ORDER TO MEN NOW

Cincinnati, O., Oct. 21.—A temporary injunction against inciting a strike by the International Pressmen's union for an eight hour day was made permanent today by United States Judge Thompson, who held that such action on the part of the union officers would be breaking a valid contract.

According to the contract, the pressmen were to have a nine hour day until the expiration of this contract on January 1, 1909, when the eight hour day was to go into effect, but the union demanded the immediate acceptance of the eight hour day.

The court held that this demand prior to the date agreed upon was a violation of the contract, but said the men as individuals, could not be enjoined from striking.

No Strike Now. It is unlikely that any strike will be called now, as the union will have no power, under the court's order, to issue a call, without being guilty of contempt, and the individuals could accomplish little by striking.

The president of the local union said today that he did not think the proposed strike would be called, as the union officials had no desire to be in contempt of court.

The injunction was secured by the employers with whom the union had the contract, and in their petition, they stated that they would grant the eight hour day on January 1, 1909.

St. Louis, Oct. 21.—Spelter lower, \$5.30.

SUPREME COURT AND PACKERS' CASE

Washington, D. C., Oct. 21.—The supreme court of the United States today took jurisdiction of the meat packers' case, wherein the Armour, Swift, Morris and Cudahy packing companies were fined \$15,000 for accepting a preferential from the Burlington railroad on shipments of meat for export from Mississippi river points to the Atlantic seaboard. A motion for a writ of certiorari was granted.

WILL FIX DATE FOR NATIONAL CONVENTION

Washington, Oct. 21.—A formal call for a meeting of the Republican national committee, to be held at Washington on December 6, was issued today. This meeting is called to fix the time and place of holding the next Republican national convention.

Several cities are bidding for the honor of the next convention among the principal ones being Denver, Chicago, St. Louis and Cleveland, O. There is no certainty as to which will secure the big meeting but it is believed that Chicago will win out.

The convention will undoubtedly be held about July 4 next year.

CONFIDENCE RESTORED IN NEW YORK FINANCES

Another Scare Quickly Sent to Woods by Clearing House Today.

ALL STOCKS TOOK STRONG UPWARD RISE

New York, Oct. 21.—A most favorable sentiment in business and banking circles, resultant from Saturday's changes in various bank managements and promises of support made by the clearing house association, resulted something of a setback today when it became known that the debit of the Mercantile National bank at the clearing house was \$1,900,000. The debit balance of the National Bank of North America was \$550,000. These figures indicated that heavy withdrawals from the two banks were being made and the totals were referred to by one member of the clearing house as "unexpectedly large but not disconcerting."

Everything Brighter. It was announced in a short time, however, that the clearing house association would extend assistance to the Mercantile and National Bank of North America. Seth M. Milliken, the newly elected president of the Mercantile National, said today that the assets of the bank are one dollar and forty cents for every dollar of liabilities, and the loans in questions are of good value.

Stocks today opened strong and higher, all market leaders participating in the rise.

LONG STREET RAILWAY STRIKE MAY BE ENDED

International President of Union in San Francisco For That Purpose.

NEW SUPERINTENDENT OF TRANSPORTATION

San Francisco, Cal., Oct. 21.—W. D. Mahen, international president of the Amalgamated Association of Street Railway Employees of America, arrived in San Francisco yesterday. Although he would not talk for publication last night except to say that he was here to look over the local situation, it was freely rumored in labor circles that his object is to terminate the long drawn out street car strike.

Mahen has been appealed to by both sides, and appealed by members of the union, to end the strike and it is believed that he will take steps, with the consent of the local union, to bring about a settlement, whereby the men can return to work, and the rioting which has been a feature of this strike, be stopped.

Mahen has freely expressed himself on the subject of rioting, it being his principle that a man guilty of rioting should be expelled from the union. Just what his course in disposing of the tangle here will be, is not known and will probably not be announced for several days.

Silver Makes Big Advance

London, Oct. 21.—Silver market today advanced 9-16 d to 23 3/4 d per ounce on buying orders on behalf of Indian bazarars.

VICKSBURG WELCOMED THE PRESIDENT TODAY

Roosevelt Arrived by Water and Addressed Crowd of 50,000.

WELL PLEASED WITH HIS CANEBRAKE HUNT

Vicksburg, Miss., Oct. 21.—President Roosevelt arrived at 1 p. m. and his approach was heralded by the blowing of the whistles of all the craft on the river and of the factories in that vicinity. He landed soon after noon and proceeded to the court house where he delivered an address to a very large audience. His trip will be continued this evening.

Vicksburg's Welcome. Excursion trains on all railroads arrived here today with crowds of visitors, who will join in Vicksburg's welcome to President Roosevelt this afternoon. The streets are decorated with flags and bunting and everywhere large pictures of the president are in evidence. The river parade this evening will be the most picturesque of its kind ever seen here. The president will be driven around the city and will visit the national cemetery this afternoon.

Pleased With Hunt. The president stated that he was well pleased with his hunt in the Louisiana canebrakes and much disliked to be obliged to break camp to return to Washington. He declared that he was in no way discomfited by the few setbacks his hunting trip has received, because he knew enough to expect that sort of thing. He refused to describe the shooting of the black bear.

The full text of the agreement between Fish and Harriman, through the attorneys, is not given out, but it is evident that it covers every point of the difference, and that when the factions meet on December 18, it will be on the same ground that they now stand, with the exception that the injunction against the voting of the Pacific stock will be fully settled.

TWO SUBURBAN TRAINS COLLIDE IN CHICAGO

Chicago, Ill., Oct. 21.—Harry Larson, fireman, was killed and 19 other persons were injured in a head-on collision between two suburban passenger trains on the Chicago & Northwestern railroad near Grand avenue, this city, yesterday. Walter Cushing, engineer of the northbound train, was arrested and is being held pending an investigation of the accident.

The train crews tell conflicting stories of the cause of the wreck, each engineer asserting that he had the right of way. Comparatively few passengers were hurt, and most of the injuries consisted of cuts and bruises.

JURY EXONERATES BOY WHO KILLED HIS MOTHER

Kansas City, Mo., Oct. 21.—A coroner's jury here today exonerated George Smiley, the boy who early Tuesday shot and killed his mother, Mrs. Lizzie Shuffer, in defending her from the attack of a burglar. Leo Shuffer, the second husband of the woman, took the stand and denied that he and his wife had had any trouble. Shuffer arrived here late last night from Minneapolis. He had been under suspicion and immediately surrendered. After being questioned he was released.

COLORADO WINS OLD KANSAS CASE

Washington, D. C., Oct. 21.—The supreme court of the United States today declined to allow the Kansas vs. Colorado case to be re-opened by denying a petition for a rehearing, submitted by Kansas. The case, which was an attempt on the part of Kansas to prevent Colorado from using for irrigation the waters of the Arkansas river, was decided by the supreme court last spring in favor of Colorado.

ANOTHER EARTHQUAKE SHOCK IS RECORDED

Washington, D. C., Oct. 21.—The weather bureau today announced that its instruments registered an earthquake beginning at 11 o'clock last night and lasting until early this morning, and its origin may be at a point west of Australia in the southern Indian ocean. It is believed to have been of considerable intensity at its origin.

DIRECTORS' ELECTION ADJOURNED TO DEC. 18

Fish Secured Passage of a Motion to That Effect at Session Held Early Today.

HE CONTROLS BIG MAJORITY OF VOTES

Postponement Will Permit the Court to Pass on Injunction Restraining Harriman From Voting Shares Held by Pacific Interests.

Chicago, Oct. 21.—Stuyvesant Fish today secured the postponement of the Illinois Central stockholders' meeting until December 18. The Harriman people agreed to the adjournment, although they previously had been anxious to push matters as soon as possible. The decision to adjourn the meeting was the result of a conference held at 3 o'clock this morning between William Nelson, Fish, Harriman, and Judge J. W. Warrar for Fish.

This postponement will give the court a chance to determine the right to vote the 285,718 shares, against which a temporary injunction was issued last week.

Fish Has Upper Hand. The proxy committee has nearly finished its work. It is believed that the total number of votes to be reported will not be far from 460,000. Of these, Fish, according to excellent authority, controls about 250,000 and Harriman 210,000.

Judge Warrar stated that Fish was willing to grant the time requested by certain stockholders until Dec. 18, because he feels perfectly assured that the shares now held by the Pacific interests will not be permitted to vote, and that the ownership of those shares by another corporation, under the law of Illinois, will be declared void. He was willing to permit the other side to have all necessary time to secure the decision of the court, hence he asked for the continuance.

Was a Surprise. The request of Fish for a postponement today was a matter of considerable surprise to both sides of the controversy, as it had become so well known that he controlled a majority of the stock that a meeting was expected to be held this afternoon, at which the election company of his held the election.

The proxy committee would have completed its work by 2 p. m., and it was understood among the minor stockholders up to a late hour last night that there would be no election. Fish would dominate the election in all respects. His actions in asking that the election be continued until December 18, is a decidedly unwise move.

May Transfer Stock. It was hinted to his attorney, Judge Warrar, that Harriman and his friends might undertake to transfer the shares now held by Pacific interests as a corporation to some private individual and thus avoid Fish's injunction which prevents them from voting those shares, but Judge Warrar stated that the matter had been attended to and any such attempt would result in more court action and trouble for the Harriman interests far in excess of any in which they are now involved.

The full text of the agreement between Fish and Harriman, through the attorneys, is not given out, but it is evident that it covers every point of the difference, and that when the factions meet on December 18, it will be on the same ground that they now stand, with the exception that the injunction against the voting of the Pacific stock will be fully settled.

BOULDER PRISONERS MUST STAND TRIAL

Boulder, Colo., Oct. 21.—The motion for a change of venue in the case of Reeve and Kiser, accused of murder, was argued in the district court this morning. The motion was heard on the allegation of the defendants that they could not get a fair trial here because of the alleged prejudice. About 10 affidavits were presented on behalf of the defendants and some 50 on behalf of the prosecution.

Judge Gamble overruled the motion, holding that the trial should be had here. The date of trial has not been fixed.

Reeve and Kiser are accused of setting the fire to a Threshing machine and causing the deaths of three people.

STATE DEPARTMENT INTERESTED IN CASE

Washington, D. C., Oct. 21.—Secretary Root cabled to Schuyler, in charge of the American embassy at St. Petersburg, regarding the case of William English Walling, the American, today, who was arrested yesterday with members of his family for association with the Finnish progressive party.

The message contained instructions to act for the relief of the persons arrested so far as seemed proper.

FARMERS ADOPT STRONG RESOLUTIONS

Oklahoma City, Okla., Oct. 21.—The first work of the Farmers' National congress today was the adoption of resolutions favoring reciprocity with foreign nations, thereby enlarging the market for American products, the initiative and referendum, prohibition of dealing in futures in agricultural products, improvement of all waterways and good roads. They oppose indiscriminate free seed distribution by congressmen.

GREAT BALLOON RACES ARE ON TODAY AT ST. LOUIS

Nine Mammoth Airships Will Start to Break the World's Record Late This Afternoon.

FOUR NATIONS ARE INCLUDED IN LIST

Germany Will be First to Start With United States, France and England Following With Five Minute Intervals Between.

St. Louis, Mo., Oct. 21.—With a brilliant autumn day and snappy racing currents in the blue depths of the sky, nine mammoth balloons, representing four of the great nations of the world will start this afternoon on a journey which should add an important chapter to the history of aerial navigation. The contest is officially known as "the second international aeronautic cup contest" and the prize, a massive silver trophy and \$2,000 in cash, will be awarded the pilot whose skill and daring lands his car farthest from the starting point.

Start Up at 4 P. M.

Aeronautic interest centers chiefly on the international balloon race. According to the announcement of the Aero club, the first balloon, the Pomern, will be sent up at 4 p. m. and others will follow at not less than five minute intervals. The balloons entered in the race, the pilot and the companion who will accompany each pilot, the country represented, and the cubic feet of gas capacity of each balloon are as follows, given in the order in which they will start:

The Contestants

Pomern, Germany; Oscar Erlsloeh, A. Lawrence; 71,000.
United States; Major H. B. Hersey, T. Arthur; 55,250.
L'Esle de France; France; Alfred Le Blanc, E. W. Mix; 77,000.
Duesseldorf, Germany; Captain Hugo von Abercron, H. Heldemann; 77,000.
Lotus H. England; G. Brewer, Le Brabazon; 75,500.
America, America; J. C. McCoy, Captain De F. Chandler; 77,000.
Anjou, France; Rene Gasnier, Charles Levee; 75,500.
Abercron, Germany; Paul Meckel; Her Polanz; 50,000.
St. Louis, America; Alan R. Hawley, August Post; 77,000.

Other Events

All the details of the race are in charge of a commission appointed by the Aero club of America.

Next in importance in the features of the program is the competition by aerial vehicles of every kind, which are divided into classes as follows:

First—Dirigible airships which are lighter than air, being made so that the bag or envelope contains a gas lighter than air.

Second—Machines heavier than air, which are designed to be lifted from the ground and propelled by the pressure of planes or extensive surfaces of some light or material against the air.

RAILROAD DEPARTMENT

MUDGE BELIEVES NEW TRAIN TO ROSWELL IS RIGHT

Santa Fe Official Talks In New Superintendent Has Arrived to Take Charge of Division.

Topeka, Kan., Oct. 21.—"Retrenchment in business is advisable, and it is already being done. I do not want to seem pessimistic, but confidence is shaken in the financial world, money is either hard to get, or to obtain, it means the payment of an almost prohibitive rate of interest. I agree with what President Ripley of the Santa Fe recently said in the newspapers about conditions."

H. U. Mudge, vice president of the Rock Island railroad, while here on his return from a southern and southwestern trip of inspection gave this reply to a question regarding present disturbed financial affairs.

Turning to the railroad side of the matter specifically, he said: "The railroads fear what may come in the future. We can weather what has been done in the past, but things are threatening that may undo hardship. It is the state legislation that is doing the harm, not the federal legislation. Laws are passed concerning our affairs—well, not for any assigned reason—but—well, just simply because the legislatures want to."

"People Own the Roads." "Members of legislatures have told me themselves that they are not in sympathy with measures for which they have voted. But they declare that an agitation for them has been started, and they are practically compelled to support them. I believe that the sentiment will swing back again, and that people will come to see things in the true light. They pay money into life insurance companies, into banks and saving concerns, that must loan out the money again, in order to carry on their business."

"I sometimes wish that the people would be able to invest their money directly into the railroads. They would get a bigger return for their investment. But it would be difficult to make them see and believe that statement."

Will Lose Money. Mr. Mudge pointed out that the railroads are not buying any cars this year. "Last year," he said, "a great many thousands of dollars of lumber was used in making cars. This year the railroads can not make investments in cars. That hits the saw mills, of course. And then others are affected and it all goes around in an endless chain."

"What will be the effect of the 2-cent passenger rate?" "It will lose us money," said Mr. Mudge. "In some states, where the population is more sparse than in others the effect, of course, won't be so marked. I can't tell about the result concerning the rate being confiscatory. The difficulty on that point is just how to separate the passenger and freight operating and maintenance expenses. What are you going to charge the salary of a station operator, and the cost of maintaining the station, to freight or passenger expenses? A railroad man can follow out this one item with others like it, until it will make one wonder just where the dividing line is to be drawn."

EIGHT SPECIAL EXAMINERS TO ADJUDICATE. Washington, Oct. 21.—With about 300 complaints on its docket for hearing the Interstate Commerce commission could not possibly hear all these cases at its headquarters in Washington, and advantage is to be taken of the authorization of congress to appoint special examiners to travel about and conduct hearings in commercial and railroad centers throughout the country. It is expected that possibly eight of such appointments will be made. Lawyers in some instances, or practical railroad men, will be selected for these positions.

The commission now has four special examiners on duty traveling about the country, and the plan has proven satisfactory. The special examiners get about \$2,000 a year. The commission is understood now to have under consideration a number of applications for the new jobs, but no appointments have been announced.

MANY CHANGES ON SANTA FE LINES. The following changes on the Santa Fe will go into effect October 25:

W. K. Etter, superintendent, from Rio Grande to Oklahoma division; headquarters at Oklahoma City, Kan.

Frank L. Myers, prominent superintendent of Rio Grande division from trainmaster Panhandle division, Wellington, Kan.

Payson Ripley, trainmaster, from Rio Grande to Panhandle division; headquarters at Wellington, Kan.

D. E. Orr, general roadmaster, to trainmaster of Rio Grande division; headquarters at San Marcial.

H. A. Tice, superintendent, from Oklahoma to Western division, with headquarters at Dodge City, Kan.

G. E. Ayer, superintendent, from western division to middle division, with headquarters at Newton, Kan.

WRECK CAUSED BY BROKEN TANK CAR. East Las Vegas, N. M., Oct. 21.—Division Superintendent Kurn makes the following official statement of the wreck of the California limited No. 4 near Trinidad Friday morning:

"The wreck was caused by the breaking of an arch bar on the tender of the head engine. The second engine, composite car and diner, turned over. Engineer John Thomas of Raton was killed and Fireman E. Boynton seriously wounded. Dining Car Conductor D. R. Stahl, Cooks Kasper and Faber and Barber James Hilsdal were bruised, not seriously."

Superintendent Kurn obtained from every passenger on the train the statement, signed by himself, requested by the Interstate Commerce commission, that he was not injured.

to sell. He wired to Atlanta to know what it was worth. Pretty soon he was deluged with replies. It is reported that he was offered as high as \$200,000 for one share. It is understood that brokers have been out men looking for these lost shares for a long time, and the fellow who finds that he has any of them in his trunk is going to wake up rich, it is understood.

Nearly 100 men have been laid off at the Southern Pacific round house at Tucson, Ariz., and the working day of the remainder reduced from 10 to 8 hours. The reduction is not expected to continue long, but it is believed that a full force will soon be put to work.

A force of 150 men is at work constructing the new round house for the Globe, Gila Valley & Northern railroad at Globe, Ariz. The foundation work has been completed. Extensive yards will also be constructed there.

A. J. Delaney, stenographer to Acting Chief Clerk H. H. Ripstick, at San Marcial, left yesterday for Denver and Chicago for a two weeks' vacation. During his absence he will be relieved by C. A. Peils.

A night clerkship in Agent Vencill's office at San Marcial is now filled by George Yont, formerly of Memphis, Tenn., son of G. W. R. Yost, of the dispatcher's office.

Chief Dispatcher J. P. Finan and wife and child of San Marcial, are in Payson Hot Springs, where he will leave his family for a time for the benefit of Mrs. Finan's health.

Z. R. Stocker, until a couple of weeks ago in the division superintendent's office, is now in the general office of the Santa Fe at Topeka.

PERSONAL Paragraphs

Hon. T. B. Catron, of Santa Fe, is in Tierra Amarilla to attend to professional business.

U. S. District Attorney W. H. H. Llewellyn has gone to Roswell to be present at the term of U. S. district court which opens there today.

Miss Christine Johnson has returned to Santa Fe after an absence of several months during which time she visited Boston, where she formerly lived, and other New England points.

Rev. and Mrs. W. R. Dye, of Santa Fe, who are in the east, were in Richmond, Virginia during the present week and Rev. Dye attended the triennial Episcopal convocation in session there.

Hon. W. A. Hawkins, general attorney for the El Paso & Southwestern railway, spent the past week in Santa Fe on business for his road. Mr. Hawkins has many clients who have litigation in New Mexico courts.

E. A. Cahoon, cashier of the First National bank at Roswell, is in Roswell to be present at the Masonic lodge there this week. Mr. Cahoon is past grand master, past grand high priest and past grand commander of the second degree Scottish Rite Mason.

James P. McNulty, of Cerrillos, superintendent of the American Turquoise company, is in Carlsbad to attend the thirtieth annual communication of the grand lodge of Free Masons of New Mexico, as a representative from Cerrillos Lodge No. 19, at Cerrillos. Mr. McNulty is senior warden of the lodge.

Hon. and Mrs. James W. Reynolds who spent the past four weeks at Omaha, Neb., guests at the home of the father of Mrs. Reynolds, visited New York City during the past week and will start from there on their Canadian trip about the 24th instant. During their sojourn in New York they were guests at the Waldorf-Astoria.

Mrs. Frank F. Jennings, of Willard, left yesterday for Enid, Okla., her former home, where she will visit for some time. Mrs. Jennings was a member of the woman's federation while a resident of that city and she will read a paper while there having for its subject the work of woman's club in New Mexico.

Governor Curry has appointed John S. Clark of Las Vegas, as a member of the board of county commissioners of San Miguel county, filling a vacancy in the third district there which was caused by the resignation of R. C. Rankin, who has removed to California. Mr. Clark qualified for the position, so as to be able to participate in the deliberations of the board at its meeting today.

Nathan Jaffa, territorial secretary, is in Carlsbad to attend the sessions of the Masonic grand bodies which will meet there this week. Thereafter he will go to Roswell and return to Santa Fe with Mrs. Jaffa and their two younger children. They expect to reach Santa Fe about the latter part of the coming week and will then take up their abode in the residence on upper Palace avenue, which they have rented.

Mrs. E. A. Fluke and little daughter, Norma, of Santa Fe, left this morning for Las Vegas, and from there will go to Chicago, where they will visit for some time. Mrs. Fluke was joined at the Meadow City by her mother, Mrs. E. Franz, who has been visiting there for some time and

to sell. He wired to Atlanta to know what it was worth. Pretty soon he was deluged with replies. It is reported that he was offered as high as \$200,000 for one share. It is understood that brokers have been out men looking for these lost shares for a long time, and the fellow who finds that he has any of them in his trunk is going to wake up rich, it is understood.

Nearly 100 men have been laid off at the Southern Pacific round house at Tucson, Ariz., and the working day of the remainder reduced from 10 to 8 hours. The reduction is not expected to continue long, but it is believed that a full force will soon be put to work.

A force of 150 men is at work constructing the new round house for the Globe, Gila Valley & Northern railroad at Globe, Ariz. The foundation work has been completed. Extensive yards will also be constructed there.

A. J. Delaney, stenographer to Acting Chief Clerk H. H. Ripstick, at San Marcial, left yesterday for Denver and Chicago for a two weeks' vacation. During his absence he will be relieved by C. A. Peils.

A night clerkship in Agent Vencill's office at San Marcial is now filled by George Yont, formerly of Memphis, Tenn., son of G. W. R. Yost, of the dispatcher's office.

Chief Dispatcher J. P. Finan and wife and child of San Marcial, are in Payson Hot Springs, where he will leave his family for a time for the benefit of Mrs. Finan's health.

Z. R. Stocker, until a couple of weeks ago in the division superintendent's office, is now in the general office of the Santa Fe at Topeka.

Hon. T. B. Catron, of Santa Fe, is in Tierra Amarilla to attend to professional business.

U. S. District Attorney W. H. H. Llewellyn has gone to Roswell to be present at the term of U. S. district court which opens there today.

Miss Christine Johnson has returned to Santa Fe after an absence of several months during which time she visited Boston, where she formerly lived, and other New England points.

Rev. and Mrs. W. R. Dye, of Santa Fe, who are in the east, were in Richmond, Virginia during the present week and Rev. Dye attended the triennial Episcopal convocation in session there.

Hon. W. A. Hawkins, general attorney for the El Paso & Southwestern railway, spent the past week in Santa Fe on business for his road. Mr. Hawkins has many clients who have litigation in New Mexico courts.

For a Warm Bath Room

A bath in a cold room is a shivery operation and is extremely liable to cause colds. The bathroom above all should be kept warm. This is easy and the bath is a comfort if you have a

PERFECTION Oil Heater

(Equipped with Smokeless Device)

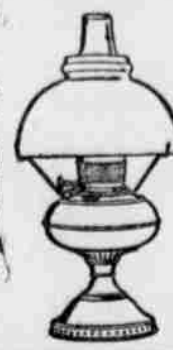

It may be carried from any other room to the bath room, which it will heat while you are preparing for the bath. Impossible to turn it too high or too low. The most economical heater you can buy—intense heat for 9 hours with one filling.

The Rayo Lamp is the best lamp for all-round household purposes. Gives a clear, steady light. Made of brass throughout and nickel plated. Equipped with the latest improved central draft burner. Handsome—simple—satisfactory. Every lamp guaranteed.

If you cannot get heater or lamp at your dealer's, write our nearest agency for descriptive circular.

CONTINENTAL OIL CO.

(Incorporated)

together they will proceed to Chicago, where Mrs. Franz will make her home in the future. Miss Adelaide Franz, a sister of Mrs. Fluke, who has also been visiting in Las Vegas for some time, is now in Chicago.

Major R. C. Van Vleet, 10th U. S. Infantry, stationed for some time at Camp McKinley, near Honolulu, Hawaiian Islands, and for the past year at Fort Liscomb, Alaska, has returned to the United States and will visit Santa Fe at an early date. Major Van Vleet was stationed in that city as a lieutenant in the Tenth U. S. Infantry for several years in the late eighties and early nineties. His

son, Stewart Van Vleet, has been in Santa Fe and in the Pecos national forest for the past six months and has recently made the purchase of the John C. Lewis ranch property on the upper Pecos.

Mrs. S. Spitz is expected to return to Santa Fe during this week. She is at present in Denver, where she is the guest of her brothers and sisters there. Mrs. Spitz has been absent from the capital for some time, having gone first to South Bend, Indiana, where she placed her daughter, Miss Florence, in St. Mary's institute at Notre Dame, and from there went to Chicago and thence to Denver.

GIVE US A CHANCE

To figure on that bill of lumber. Our lumber comes from our own mills located in the best body of timber in New Mexico.

A large stock of dry spruce dimension on hand. Why not buy the best when it is just as cheap? It will pay you to look into this.

SHEEPMEN ARE BUSY THIS YEAR

Big Sales of Wool and Mutton Occupy Their Attention.

George Keeline of Wyoming, who is converting his range from a cattle to a sheep run, went to Chicago the other day with a big string of late lambs with a mutton top which were sold to feeders at \$6.85 to \$7.10. The Wood Livestock company of Idaho also had on an initial run of lambs which sold at \$7.50 to \$7.65 which is certainly good money.

Big Sales.
Big sales of Wyoming wool were made last week in Boston at twenty-three to twenty-four cents for fine and fine medium and twenty-six to twenty-seven for medium in the grease. The scoured basis of these transactions was largely seventy-two to seventy-three cents for fine staple, although in exceptional cases it ran up to seventy-six cents.

He Branched Out.
A foothill farmer who thought to branch out a trifle took up with a few sheep a year ago. He bought forty head which sheared ten pounds of wool last spring and brought \$1.80 each. His flock has increased this season by thirty-six head. He is selling his wethers to the local butchers for \$6 and his February lambs commanded a still better price for mutton. The profits do not stop here. They excel as weed exterminators. They easily do this in a short time and do it more effectively than a six horse team and a disc harrow. The sheep require a small amount of feed in the winter and their cost of keeping is nominal when the profits are taken into consideration.

Fixing Wool Values.
Wools are most frequently quoted on the markets according to their clean or their scoured value, even though they are not scoured. This is because the basis of all wool values is its scoured condition. The value of the clean pound of a given clip fixes its grease value, depending upon how much it will shrink in scouring and how it will develop in sorting. The wool only is worth something, the grease and dirt must be extracted, and this percentage of loss, varying greatly according to the condition of the wool, which gives rise to so many estimates and guesses, makes the real value of the clip a matter of much uncertainty and speculation. Its accurate value cannot be ascertained unless it is sorted and scoured. Then and then only is it reduced by a mechanical and mathematical process to a basis of exact value.

Strange Cause of Death.
Theodore Trogioning of Laramie, Wyoming, who owns a large band of sheep which have been ranging in the Medicine Bow mountains during the summer, started to Rock River a few days ago with a bunch which was expected to fill seven double-deck cars for shipment to market. One morning, when the sheep moved early, a heavy dew had fallen on the greasewood growing on the range. The sheep ate heartily of this and before the day was done about 500 of them died. The sheep began to froth at the mouth, their stomachs swelled and death came suddenly, no doubt from aneurism of the heart. The bureau of animal industry made a post mortem diagnosis but was unable to return a comprehensive report. From microscopic examination and the condition of the spinal cord it was surmised that death was due to the absorption of some toxic principle as ptomaine from the intestines which circulated in the blood, although no poison was found in the stomach. The active healthy condition of the brain showed conclusively that death was the result of a sudden and acute

"UNIVERSITY OF HUMANITY" IS GEN. BOOTH'S GREATEST PLAN

Salvation Army's Commander, on His Last Visit to America, Tells of His Idea and Its Benefits.

Gen. Wm. Booth as he looks today.

Bramwell Booth, who will probably succeed Gen. Booth.

Chicago, Oct. 21.—Seated at his breakfast table, his patriarchal head thrown back that his fine eyes, glistening with enthusiasm, might look up and into the beyond, Gen. Wm. Booth, founder of the Salvation Army, dictated his "farewell message to the American people." The message dealt with what he called his "University of Humanity." Gen. Booth, who is now on his last visit to America, does not hope for the accomplishment of his "university" during his own life because he is nearing the 79th milestone, but he leaves the idea and its fulfillment to the Salvation Army, and the leaders he has trained during half a century of work for the poor, the downcast and the lost.

His Message.
"In my campaign of the 'University of Humanity' I stand on a three-plank platform.
The first is scientific emigration. I take a man from a condition of semi-starvation, where he is in the way, and transfer him to a place where he is not only needed, but clamored for. If there is no work for him in the old country, I take him to the new, and in a way that benefits both countries.
My 'second plank is home colonization. There are 40 new cottages being erected on my 300-acre estate in Essex. When the land is prepared and stocked, I will put poor, industrious families in possession of five acres each. They will come from the class that left the soil for the city and failed. They will have the chance to make an honest living and eventually become proprietors of the land.

"We shall provide them with supervision, direction and vehicles to transfer their produce to market. I am told that such a scheme is Utopian. We shall see.
"My third plank for solving the problems of the oppressed is an over-sea colony. I hope to see this materialize in the highlands of Rhodesia before I take my departure for the heavenly city. To the end of making this dream a reality the South African company has offered me 2,000 acres for nothing. I am looking for capital to develop the colony plan.
I cannot refrain from speaking here on the terrible fact that drunkenness and other vices are on the increase among women, not in their old forms, I admit, but equally degrading, demoralizing and damaging.
"Perhaps the chief cause is the absence in our educational and religious system of the inoculation and instilling upon a definite and useful purpose in life. Hence many women seek recreation and 'tonics' the intangible something which they can only find in a noble life work.
"They convert innocent games into gambling, abuse social pleasures and form unwomanly habits.
"Look at the women of the Salvation Army. They are the happiest in the world, because they live for a purpose.
"In my University of Humanity I shall teach religion freed from dogma and instill faith into students that will give them power to alleviate the sufferings of mankind, and teach the vain seekers the life that is good to live."

PANAMA CANAL REPORT INTERESTS UNIONS.
President Roosevelt's Order of a Universal Eight Hour Day is a Pleasing Fact.

Washington, D. C., Oct. 21.—The official report of Miss Gertrude Beeks, secretary of the welfare department of the National Civic Federation to Secretary of War Taft, recently made public, showing the result of her thorough investigation of conditions of the Isthmus of Panama, has proven of more than passing interest to organized labor. Miss Beeks' report, wherein it is shown that there is no general discrimination against unions, is gratifying; but her opinion that there is a strong anti-union sentiment among the officials, and an unwillingness to treat with labor union committees which has caused so much friction and dissatisfaction, is no surprise.
The fact that President Roosevelt has ordered the universal eight-hour day is looked upon as long delayed justice and a signal victory for the organized labor movement.

BETTER ROADS FOR GRANT COUNTY PEOPLE.
Subscription Being Taken to Aid County Commissioners to Better Facilities.

Silver City, N. M., Oct. 21.—Quite a large sum of money has been raised among the business men of Silver City and the county commissioners to construct a road from the Papeho river up through Copper canyon and thereby shorten the distance between this city and the upper Gila from 65 miles to about 40.
At the present time it is necessary for residents of the upper Gila and Black Range sections to drive around by Georgetown and in by Ferro, which is almost a half circle. The new road will be almost a direct route and go by the way of Pinos Altos.

Quincy Sprains and Swellings Cured.
"In November, 1901, I caught cold and had the quincy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

IT PAYS TO ADVERTISE

Good Beer and Good Health

Dr. Ashbell Parmelee Grinnell, First-Vice President New York Medico-Legal society, states that the drinking of good beer promotes health. The reason is simple.

Pabst Blue Ribbon

The Beer of Quality

is made from Pabst Eight-Day Malt that is matured by a special process which follows Nature closely and retains in the malt all of the wholesome, healthful food properties of the barley-grain.

The Pabst Perfect Brewing Process transmits these qualities, together with the invigorating properties of the choicest hops, to Pabst Blue Ribbon Beer in predigested form, ready for immediate assimilation by the system.

When ordering beer, ask for Pabst Blue Ribbon.

"STATEHOOD FOR NEW MEXICO"

The Statehood League

There will be a meeting this evening over Zeiger's Cafe which is of deep interest to the people of Albuquerque and of Bernalillo county. The Citizen has called the attention of the public to this meeting before, but a final word is to be added and that is—be sure and attend.

The meeting is for the purpose of forming a statehood league regardless of politics and regardless of party or personal lines.

The one object is to work for the cause of statehood and to aid the governor by enlisting the people of this county in a non-partisan campaign for the admission of New Mexico to the union.

The promotion of this meeting was purely a patriotic move, and has no political significance for any party or any person.

It is to be hoped that the citizens of Albuquerque will see fit to enlist themselves for this work and to give the territorial administration their hearty support, regardless of party lines so that they can push the statehood fight in Washington, backed by the people of New Mexico.

Unfortunately, Governor Curry had accepted invitations to attend similar meetings in the Pecos valley before he knew that the present meeting was proposed, and consequently he can not attend. He has, however, expressed himself as greatly pleased that the people have shown the interest they have in this matter and to get together for statehood.

Every one should attend the meeting tonight, aid in forming the statehood league and do all possible to help the cause. As soon as the governor returns from the Pecos valley he will visit this city and will meet with the league. In the meantime, the people should do all in their power to get together for the greatest cause in New Mexico.

Up in the Air

The people of Albuquerque who saw the big balloon operated by Aero-naut Blondin, sail majestically over the city a few days ago, are now talking about the days when aerial navigation will be a common means of transportation. In St. Louis, where the great contest of dirigible balloons is being held, the interest centers on the subject.

There is little use in denying that aerial navigation will eventually come. Nothing can seem strange after the inventions of the past fifty years—even the past twenty-five years. The telephone, the wireless telegraph, the phonograph and talking machine were thought impossible not so long ago. Now they are common—even commonplace. The automobile is in the same category. Aerial navigation may come today or tomorrow—hundreds of the brightest inventors are at work solving the mysteries of the air. They will undoubtedly succeed.

The St. Louis Globe-Democrat as well as other papers in the middle west gives the subject of aerial navigation serious consideration. The Globe-Democrat even goes so far as to say aerial navigation is already at hand. Speaking thereon, that paper says:

"Balloons are getting to be a common sight in St. Louis. As they drift gently along with their passengers two feelings are excited, one of surprise that such a method of travel should have remained but a matter of curiosity for more than a century, and the other a doubt if it can ever be a practical utility. Aeronautics have been dangerous beyond a doubt, and most of those whom it fascinated have perished in its pursuit. The parachute jumping of the show business can not be legitimately included, for often the appliances are poor and the men who go up with them are of a reckless class. Yet a majority of the most experienced balloonists have been lost or injured. Some were drowned and others floated off to be heard of no more. Landing is the chief peril and a high wind is a force hard to deal with. Dirigible is an unsettled point, though the weight of evidence of late has been on the affirmative side.

"No doubt remains that balloons are valuable for army observation. But what about their services for carrying passengers from place to place, and how far can they be sustained by motors and definitely guided? Many of the best veteran inventors believe that power can be applied to keep them in the air and propelled along a regulated course. Danger can not be eliminated entirely. Thousands of ships are lost every year and casualties on railroads are heavy. A person who never leaves the house may fall down stairs. A question not determined is whether properly constructed and operated balloons are more dangerous than the accepted forms of locomotion. The subject is tentative. The only way to reach sure conclusions is by systematic scientific tests backed by sufficient means. In this respect the program arranged here for next week is by far the most important of its kind yet undertaken, and it will probably be marked by results of world-wide and permanent interest."

Las Vegas Optic: A reading of an editorial in yesterday's Albuquerque Journal leaves us in some doubt as to the position of that paper on the statehood question, but the article strikes us as a rather excellent example of what Pope called damning with faint praise. The writer with one breath tells us that we must rise superior to party and faction and stand together as one man in favor of statehood, and then proceeds to take a shot at everyone prominently connected with the movement. Yes, says the Journal, statehood is a fine thing, but it is too bad that all those in favor of it are thieves and grafters, except, of course, ourselves. It strikes us that this is a strange way of promoting that harmony that the Journal professes to favor. Calling Governor Curry a democrat, attacking the motives of all those prominently connected with the present movement, saying that we must hunt the "little joker" hidden in the present plans, these things hardly seem consistent with the plea that we must all "rise superior to party and faction." Evidently the Journal cannot take its own medicine. It has become so used to gazing down a tar barrel and thinking it heaven that it has come to believe the sky is black. As an exponent of the "I am holier than thou" method it has the ancient Pharisee left at the post. Really, if that paper would forget some of its old animosities, realize for a moment that not all the honesty in New Mexico is confined within its editorial walls, and try for a while sincerity instead of hypocrisy, it could improve in the public estimation and do much good for the territory. Up in this part of New Mexico we really want statehood. We see no reason to doubt the motives of those who are willing to help get it, and even if we did we would welcome their aid. Wrangling and backbiting never accomplished anything in this world and never will.

The following from the Socorro Chieftain appears to be the consensus of opinion among the republican weekly papers of New Mexico. Governor Curry has the happy faculty of saying the right thing at the right time. The Chieftain comments as follows:

The earnestness and sincerity of Governor Curry's advocacy of statehood may be judged from the emphatic language he made use of in his address to the organizers of the statehood league in Santa Fe Tuesday. Said the governor: "Any man with political ambition who works against the securing of statehood for New Mexico at this time will be relegated to the rear by the people. I know that there are a few men in each county ready to play the dog in the manger, but the people will not forget them and will never permit their heads to rise again above political waters. I agree perfectly with Mr. Bursum when he says that this movement must come from the people, that therein lies its strength, and I believe that the advice he has given to that effect is good."

There is something in poetry after all. The Citizen calls it poetry because that's what it really is—not meaningless verse. It says a whole lot, these two short lines, even though the expression may be somewhat crude. The Citizen does not know the author. Perhaps he slumbers unheeded in an unmarked grave. It is sad to think about. But think he what he left behind him and The Citizen gives him this claim upon immortality. Read it:

"The rich man with his golden store,
Can not buy the poor man's snore."

After all, what a fleckle jade dame fortune is!

WHAT DOES IT COST YOU TO LIVE?

Pitchers full of rich creamy milk—dozens of freshly laid eggs—beef killed on the range. Fish and game and pure mountain air. A genuine old ranch house nestled in the prettiest valley in New Mexico. The Pecos river filled with mountain trout right at the door. Saddle horses, guns, fishing tackle, traps and dogs at your service. There is not a more ideal place to rest, recuperate and see the real life of the west anywhere in the world.

The round up is now on and the horses from the range will be broken in a few weeks. Every minute teems with a new and wholesome interest for you if you have never lived on a ranch.

Daily stage to the railway station.
YOU COULDN'T SPEND MORE THAN NINE DOLLARS A WEEK IF YOU TRIED.

If you have come west to spend the winter, don't stay in town. Inquire this office or address The Valley Ranch, Pecos, New Mexico.

TURKEYS

For Sunday we have a few choice, fat turkeys. Order early, they will not last long.

Young Ducks, Springs and Hens

A good supply of choice fancy stock. Call and inspect before buying elsewhere.

Bismarck Kraut

New shipment, just opened up. Bismarck Kraut is the finest in the market. 15c per quart.

OYSTERS

Are now arriving daily, and supply is more plentiful. Our N. Y. Counts and Blue Points come to us in Sealship Carriers direct from the packer on Long Island Sound from Great South Bay, N. Y. This bay has long been famous for producing the finest flavored and fattest oysters in the world.

San Jose Mkt

ABOUT TOWN

"MORNING JOURNALISM" IN ALBUQUERQUE

When you get "scouted" on a story, One course you can always take, It sounds pretty small, And it takes some gall, But you can always cry "It's a fake!"

When you get hopelessly beaten, Don't try to apologize, It looks pretty cheap, But it may save you sleep, Just say, "It's all lies, lies, lies!"

For Journalism, you know, Must be kept on a lofty plane, And it would really look queer, In a slug head to appear, THE "TWILIGHT SQUEAK" SKINNED US AGAIN.

Don't forget the statehood meeting tonight over Zeiger's cafe. New City Directories may be had at The Citizen office at \$1 each.

The Woodmen Circle will meet tomorrow afternoon at 2:30 o'clock in Odd Fellows' hall.

A marriage license was issued this morning by Probate Clerk Walker to Agnes Mary Sewell and John Percy Woodward, both of Albuquerque.

A regular meeting of the Fraternal Brotherhood will be held Oct. 21, 1907. Refreshments will be served after lodge. Elks' room, 8 o'clock. Stated convocation of Pilgrim Commandery No. 3, K. T. this evening at 8 o'clock. By order of Em. Commander, Harry Braun, recorder.

The territorial grand jury reconvened this morning at the county court house and one indictment was returned today, charging Juan Hernandez, alias Benjamin Lopez, with murdering one Luis Padilla in 1904.

The new telephone line from Albuquerque to Los Duranes was completed last Saturday and is now ready for business. It is expected that some time in the near future this line will be extended to Candalaria.

The office of the Estancia Automobile company has been moved from the office in the rear of the Alvarado Pharmacy to the building at the corner of Gold avenue and the alley between First and Second streets.

At 5 a. m. Sunday occurred the death of Mrs. Bessie Kurr, aged 22 years, at 218 North Walter street. The deceased leaves a husband and a one-year-old child. The remains will be taken to Kansas City for burial.

Died, Fred Padilla, aged 24 years, this morning at 1515 South Second street. The deceased leaves a wife and one child. The funeral will be held Tuesday morning at 9 o'clock at the Sacred Heart church. Interment will be in San Jose cemetery.

D. E. Hawkins and C. Vigil both plead guilty to being drunk on the streets when they were arraigned before Judge Craig this morning and were given the choice of paying five dollar fines or going to jail for five days. A man named George Benson plead guilty to vagrancy and was given ten days in jail.

C. W. Wilson and the members of his family desire to thank all those who befriended them during the illness and at the time of the death of his sister, Miss Clara A. Wilson. Mr. Wilson resides at 418 West Hazeldine avenue. Miss Wilson passed away and was buried last week.

Saturday night three Chinamen, who were confined in the jail at Las Cruces, made their escape and no trace of them has yet been found. The Chinamen were United States prisoners who were arrested for violating the Chinese exclusion law. All had been tried and were up for deportation.

The lobby saloon is closed again. W. D. Alexander, the proprietor left the city several weeks ago and Mrs. Alexander, who was left in charge of the place, left several days ago. The place is now in the hands of the civil court, what there is left of it. The Household Loan company has a mortgage on the glass ware and some of the minor fixtures of the place and confiscated the goods Saturday night to protect its loan. The Southwestern Brewery and Ice company owned the larger part of the fixtures and several liquor houses made claim to the liquor left in the place.

In the case of the territory vs. Carlos Apodaca, which was commenced in the district court this morning, O. N. Marron and A. B. Ship appear as attorneys for the defendant and District Attorney Clancy is conducting the prosecution. The

defendant is charged with the seduction of a native girl, Natividad Chavez, who, on January 27, 1907, gave birth to a child. At 4 o'clock this afternoon the examining of witnesses had not been completed.

CHECK FOUND ON BURGLARS TRACED TO OWNERS

If Elwood and Cordy Are Convicted Case Will Break Record for Dispatch.

A check on a Pueblo bank for \$100 was found on George Elwood and Will Cordy when they were arrested last week by Patrolman High-barn and later arrested by Chief McMillin and Lieut. Kennedy for the robbery of the New York and Manhattan saloons and Yanow's pawnshop, which robberies Elwood confessed. He said he had been given the check by a friend, but Chief McMillin wrote to the chief at Pueblo concerning the check and today received a message that the check with \$115 in cash and a lot of clothing was stolen from the Arcade hotel there recently. He asks that the men be held here pending inquiry.

It is reported that both men confessed to the grand jury this morning that they committed the burglaries they are charged with and they will be taken before Judge Abbott in the district court before the week is out. If they plead guilty to the charges made against them in court, it is very likely that they will have been sentenced before the week is out. Should this be done the handling of their case from the time the burglary was committed to the time sentence will be pronounced will have been less than ten days and a record breaker for the dispatch of criminal justice in New Mexico.

The burglaries were committed on Wednesday night. Thursday morning the suspects are in custody, by Thursday afternoon one of them has confessed and part of the stolen goods recovered. Monday they are before the grand jury and Tuesday, if the court should so choose, they could be given trial.

The handling of such cases as this is one of the reasons why the grand jury was held over until after fair weather had blown away before the fair that some other acts might be committed or arrests be made which would call for the attention of the grand jury.

FERGUSON SAYS THAT CALDWELL MEANS BUSINESS

Hillsboro-Kingston Road Will
Be Built by Pittsburg and
Wheeling Capitalists.

Harvey B. Ferguson, the attorney, who was mentioned on Friday in The Citizen as being New Mexico counsel for the Pittsburg interests that are backing the railroad project of Frank G. Caldwell, said this morning that he believed that Caldwell meant business.

Mr. Caldwell's proposition is to build an electric road from Lake Valley to Kingston, N. M., via Hillsboro. According to Mr. Caldwell an agreement has been reached with the Santa Fe to operate the Lake Valley branch of the Santa Fe as well as the proposed twenty-five miles of road and to use Santa Fe cars.

Mr. Ferguson says that Mr. Caldwell represents some of the strongest financial interests in Pittsburg, Pa., and Wheeling, W. Va. Considerable money has already been advanced toward the project by The Westinghouse Air Brake company and other interests and much of the preliminary work has been done. According to the surveys already made Lake Valley will not be on the main line of the road. The survey of the new line taps the Lake Valley branch near Osceola and reaches Hillsboro by a shorter and easier grade than can be obtained from Lake Valley. The power, as stated in The Citizen on Friday of last week, will be electric and furnished from a power plant on one of the mountain streams in the vicinity of Hillsboro.

His Dear Old Mother.
"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all dealers, 59c.

Burdette is coming. When he was made there was no more like him and there can never be another Bob Burdette. Hear him Tuesday night.

MITCHELL WINS OUT BEFORE BOARD OF HEALTH SHERIFF ARMJO BACK FROM EVENTFUL TRIP TO ESTANCIA

City Council Will Be Asked
To Revise Garbage
Ordinance.

Saturday afternoon at 4 o'clock in the office of City Physician Caras, the board of health held an important meeting, in which the matter of disposing of the city refuse was considered. City Scavenger Mitchell was present at the meeting and when he was asked why he had not performed the duties of scavenger as prescribed in his contract with the city, stated that there was no money in the job as matters stood now and that if he erected a crematory to burn the refuse he would be the loser. He said he desired the city council to amend his contract so that he would have a fair chance to render the city efficient service and still be able to make a profit for himself. He said he would be willing to purchase land for a new city dumping ground across the Rio Grande below the Barajas bridge, where it would not be a nuisance and he asked that the people be compelled to obey the city garbage ordinance.

The board listened to what Mr. Mitchell had to say and then decided to recommend that the city council amend the contract as requested. Those present at the meeting were Aldermen Neustadt, Harrison; City Attorney Hickey, Dr. Pierce, county physician; Mayor McKee, and Dr. Caras, secretary.

CORHAN CLAIMED BY BOTH TUCSON AND PHOENIX

Tucson Tournament Opened
Yesterday With Crable In
Box For Town Boys.

The Tucson baseball tournament opened yesterday afternoon with the Tucson and Phoenix teams facing each other. There are six teams entered and considering the number of imported players with each of them, it promises to be a hot one. According to the Tucson Citizen, the Douglas-Blabee game followed the first game and Yuma and Hermosilla are playing this afternoon.

Roy Corhan arrived in Tucson Saturday and there was a lively fight between the management of the Tucson and Phoenix teams as to who would secure his services. The management of both teams had telegraphed him, both claimed him. Crable pitched for Tucson yesterday and pitched against the Browns' erstwhile southpaw was Young of Wichita, Kan. Frantz played third base for Tucson and Tarr was playing second. The following line-ups taken from the Tucson Citizen show Corhan to be playing on the teams of both Tucson and Phoenix.

Tucson—Sullinger, left field; Long, right field; Frantz, third base; Redford, center field; Tarr, second base; Corhan or Redman, shortstop; White, first base; Allen, catcher; Crable, Reese, Cole, Woods, pitchers; Drachman, utility catcher.

Phoenix—Bayless, catcher; Clark, Young, Speer, Barnett, pitchers; Duran, first base; Corhan, second base; Warner, shortstop; Halley, third base; Becker, Wyatt, McClellan, outfielders.

WORKMEN HAD GOOD TIME WHILE HERE

Jack Dufton, E. J. Trippell, Dr. Odermatt, R. J. Harrell and Grand Recorder Harwick of the district of New York, arrived in Tucson this morning from Albuquerque, where they have been for the past few days attending the meeting of the grand lodge of the A. O. U. W. of Arizona and New Mexico, which was held in that city, says the Tucson (Arizona) Citizen.

The grand lodge was in session last Tuesday and Wednesday, and Wednesday evening at the Elks' hall in Albuquerque a most elaborate banquet was given in honor of the visitors.

There were forty delegates present at the meeting of the grand lodge and Mr. Dufton this morning, "about twenty-five of whom were from this territory. We received the finest treatment imaginable, and the banquet that was served in honor of the visiting delegates could not be surpassed anywhere."

The Tucson delegates missed the New Mexico fair, but they stated this morning that when they were there they were still crowded with fair visitors, and that everything appeared to be lively in the city.

Mr. Harwick, who is past supreme master workman of the order, will be here for a day or two, and on next Tuesday will make a visit to the Blabee lodge, after which he will return to Tucson, where he will spend some time before returning to his home in the east.

If you want anything on earth, you can get it through the want columns of The Evening Citizen. We get results.

Sheriff Perfecto Armijo is back in the city after a very eventful trip to Estancia and return over the automobile line.

"We made the return trip like coasting down hill," said the sheriff. "But the trip going was full of accidents and adventure. The first thing that happened to us was that we ran out of fuel. The road was slippery and the driver miscalculated on how much gasoline the machine would use in going over the mountain and when we got nearly to the divide, he discovered that we did not have enough to finish the trip. However, the discovery was made before the supply was entirely exhausted and there was still enough to carry us back down the mountain to Tijeras. At Tijeras a new supply of oil was obtained and the trip resumed."

"Going through the canyon is a little slow on account of the rough nature of the road but over the mesa on this city and the prairie land on the eastern side of the mountain the machines go like the wind."

"The second adventure we met with was near Moriarty. We met another machine there and exactly where we met there was a man walking along the road. Instead of getting out of the road, he walked along the middle and the machine came so close to him on either side that they brushed his clothes. He had to turn sideways to avoid being hit. It looked like the driver was trying to see how close they could come to him and not hit him. It is needless to say that the man was badly frightened."

"A little further down the road close to Moriarty, our machine collided with a bunch of swine, killing three of them. However, we arrived in Estancia safe and sound and little the worse for the trip."

"Coming back we left Estancia at 2 o'clock in the afternoon and landed here at 7 o'clock that evening."

All persons holding Brotherhood Lecture course tickets should see that they are settled for before Tuesday evening.

MAY MEAN FURTHER DE- VELOPMENT OF PROPERTY

Senator C. A. Hall and C. A. Knapp, the former administrator for the estate of C. P. Copeland and the latter a mining expert, who were here several days looking after the interests of the Copeland estate, left this morning for their homes at Leavenworth, Kan. The Star mine in Hell canyon is an asset of the Copeland estate, and accompanied by F. H. Kent, of this city, Mr. Hall and Mr. Knapp visited the property on Saturday to determine its value.

Neither Mr. Knapp or Mr. Hall made any statement on their return to the city yesterday as to what disposition would be made of the property, but it is believed that Mr. Knapp will recommend further development of it.

The advance sale of seats for the Bob Burdette lecture, tomorrow night, would indicate that the Brotherhood lecture course will be a great success financially.

WINSLOW MAN GOES INSANE

Al Springer Believes That He is the Richest Man in Arizona.

Al Springer, of the firm of Kelly & Springer, of Winslow, Ariz., passed through Albuquerque on Saturday, accompanied by a brother, en route east. Mr. Springer was suffering from an aberration of the mind, and it is feared by his many friends that he has become permanently insane. He believes that he is the richest man in Arizona and talks of his own private train.

Springer has been in business for a number of years and is quite well to do, having several thousand dollars in the bank and a part owner in a profitable saloon business.

FOR VIOLATION OF THE SUNDAY LAW

Kansas City, Mo., Oct. 21.—A list containing the names of several hundred persons, who yesterday violated the law against working on Sunday is being prepared for presentation tomorrow to the grand jury. **INJURED FIREMAN
IS RECOVERING RAPIDLY**
Trinidad, Colo., Oct. 21.—Fireman Al Boynton, the fireman injured in the wreck of Santa Fe train No. 4 Friday, is much better today and there is hope for his recovery. His suffering has ceased and he is no longer being kept under the influence of opiates.

BROTHERS ARE UNITED AFTER 25 YEARS SEPARATION

Separate in Germany. And
Meet Again in Al-
buquerque.

Central avenue was the scene of a touching meeting Saturday afternoon, a meeting of two brothers who had not seen each other for twenty-eight years. The two long-separated brothers are Otto and Frank Kleinwort, the former well known in this city as a test organizer. The ancestral home of the Kleinworts is in the fair city of Hamburg, in Germany and it is just twenty-eight years ago that Frank Kleinwort, then a young man, left the paternal roof and crossed the seas to seek his fortune in America. Otto was but eight months old at that time and so does not remember how his brother looked at the time he left Germany. When Otto grew up, he too came to America. In the years that have passed since the younger brother came to this country, he and Frank have crossed each other's trail many times; each has ever had the other in mind and endeavored to affect a meeting, but always something interfered with their plans. Both men have traveled extensively about the world; unknowingly they may have seen each other a dozen times in out-of-the-way corners of the earth, but they did not meet as brothers until Saturday afternoon when Frank came to Albuquerque from California and was introduced to Otto by a mutual friend. The two brothers looked at each other unbelievably for a moment and then went off by themselves where they became acquainted and exchanged experiences. Both had been soldiers in the United States army; both had been in the Philippines at the same time and both had been in the same places in California at the same time. Frank Kleinwort is broken in health and he came to Albuquerque to take a course of medical treatment. When his health improves it is the plan of the two brothers to settle here permanently, form a partnership and engage in some business enterprise.

OPERATORS RETURN TO THEIR OLD POSITIONS

Kansas City, Mo., Oct. 21.—Five striking operators made application for their old positions in the local office of the Western Union today. Three were taken back and the applications of two were taken under advisement.

DENVER & RIO GRANDE MAY AVERT WIRE STRIKE

Man Whose Discharge Caused
Trouble May Be Reinstat-
ed by Road.

Denver, Colo., Oct. 21.—Operator R. H. Skeggs, of Grand Junction, who was discharged from the position of wire chief of the Denver and Rio Grande at that place, has been called to Denver to confer with President Perham of the order of Railway Telegraphers. This is a move in the direction of peace and it is believed that the officials of the road, rather than incur a strike, will make some discharge of the Skeggs case that will be satisfactory to both sides.

Skeggs was discharged, according to the union men, because of his refusal to accept a Western Union wire. He refused to make the test because the Western Union's employees are on strike and he could not well afford to make the test.

All persons interested in high class entertainments should secure season tickets to the Brotherhood Lecture course, and hear Bob Burdette tomorrow night. Season tickets \$2, single admission 75 cents.

FUTURE HOUSES TO BE CAST IN MOLD

Edison Will Build Them in First Methodist Edifice Formerly opened to Its Congregation.

New York, Oct. 21.—To build a three-story house in one solid piece at a cost of only \$1,000 and to finish the job in 12 hours—that is the problem which Thomas A. Edison told the members of the American Electro-Chemical society he had solved, and he showed them the model to prove it.

Incidentally he expressed the opinion that theoretically the house will disappear from Manhattan island some time next December when his new storage battery for automobile propulsion is placed on the market. Two carloads of members of the society, which is holding its twelfth annual meeting in this city, went out to Orange to look over the Edison works and meet the inventor.

According to Mr. Edison, the house of the future will be cast from iron moulds in one solid piece, including stairs and bath tub. It will be fire-proof and indestructible and from one set of moulds an infinite number of exactly identical houses can be made.

Poor Construction.

And for protection against poor construction he intends to restrict the use of his patents to contractors of responsibility, who will agree to follow his formula for making concrete.

Some of the best architects in New York have contributed their ideas to the model, which Mr. Edison showed today. It is of a house that, in full size, will be three stories high, 25 feet frontage and 45 feet from front to rear. The style is a combination of colonial and Queen Anne, and it does not look at all like any concrete house that any one ever saw.

"There is no reason," said Mr. Edison, as he stood before his model, "why a concrete house shouldn't be as pretty as any other kind. The house of the future will be artistically attractive as well as practically a perfect dwelling. Now that my model is completed, I am having a full-sized house on this plan, and set of moulds made for the construction. I shall build the first one from these moulds next summer."

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Santa Fe, N. M., Sept. 23, 1907.

Notice is hereby given that Thos. J. McNeill, heir of Mary J. McNeill of Bluewater, N. M., has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead Entry No. 7161 made Aug. 4, 1907, for the NE 1/4 NW 1/4, Section 22, Township 12N, Range 11W, and that said proof will be made before Silvestre Mirabal, U. S. court commissioner, at San Rafael, N. M., on November 6, 1907. He names the following witnesses to prove his continuous residence upon, and cultivation of, the land, viz:

Hiram Chapman, Samuel C. Young, Eugene T. Chapman, Ernest A. Tietjen, all of Bluewater, N. M.
MANUEL R. OTERO, Register.

For upholding see Charles L. Kappeler, 317-19 South Second.

ELEPHANTS FROM INDIA LABOR ON HEAVY WORK IN AMERICA

Reconstruction of Famous Hotel and Board Walk at Atlantic City Calls For Use of Big Animals.

Snapshots Taken at Long Beach Showing Elephants Taking Place of Locomotive and Pulling Down Old Houses.

New York, Oct. 21.—Elephant power is being utilized in building a great seaside resort at Long Beach, which is on the south shore of Long Island, 24 miles from New York.

A large hotel at the beach was burned last summer. In its place is being constructed a resort that is to be one of the largest on the Atlantic Coast. A million-dollar hotel and a boardwalk 5 miles long will be two of the features. In order to have everything ready next June the work

DEDICATION OF ESTANCIA CHURCH

First Methodist Edifice Formerly opened to Its Congregation.

Estancia, N. M., Oct. 21.—The First Methodist Episcopal church of Estancia, the first protestant church to be built in the Estancia valley, was dedicated yesterday by Rev. Samuel Blair, D. D., superintendent of English mission in New Mexico for the Methodist Episcopal church. People from all parts of the Estancia valley and many Methodists from the neighboring towns and villages were present at the dedication services. The splendid new building was scarcely large enough to hold the crowd.

Church History.

The First Methodist church of Estancia was organized in 1904 by the few Methodists living in the town, which was then in its infancy, and in the short time which has elapsed, has grown to a healthy congregation. Rev. A. M. Harkness took an active part in the organization and for a while was the pastor. The first meetings were held at the residences of the members and in halls of the town. Rev. Harkness preached in Estancia every other Sunday when the church was first organized without remuneration. The Estancia school house was used as a meeting house for a time.

The first conference to recognize the Estancia congregation appointed Rev. Harkness its pastor and placed Estancia on a circuit with Santa Rosa, with services every other week. At once steps were taken toward securing a building. Funds were solicited and lots were secured from the New Mexico Fuel & Iron company, owners of the townsite of Estancia. The larger part of the funds was solicited and subscribed during the pastorate of Mr. Harkness.

The conference of 1905 created the Estancia circuit, placing Rev. J. G. Ruoff in charge. Mr. Ruoff accepted the charge only on the condition that he be allowed to work at his trade a portion of the time to augment the salary, which was none too large. The foundation of the building was laid. Mr. Ruoff doing most of the work himself. The corner stone was laid on Dec. 5, 1905.

He Worked With His Hands.

Six days a week Rev. Ruoff worked on the foundation of the rising new house of worship and on the seventh day he laid down his trowel and took up the Bible. The summer of 1905, had been dry in the Estancia valley and the winter was a severe one. Money was scarce and times were hard, but with the perseverance that conquers, the newly born congregation and its courageous pastor struggled heroically with the problem of building for themselves a house of worship. Frequently work on the house had to be stopped for lack of funds, and then when a windfall sent something toward the building of the

new house, the work would begin again. It is not wholly completed yet, but the end is in sight. When the new pews are in, it will be a church complimentary to a town several times the size of Estancia, and a monument of a worthy work.

The Structure. The building is of frame, the auditorium being 30x40 feet, with class room 18x24, adjoining and connected by folding doors. The interior is finished in hard pine, natural finish. The foundation is of cement blocks on solid cement footing. A tower and belfry add much to the appearance of the building.

One of the greatest difficulties experienced in the building of the new church or the preparation for the building was the securing of a clear title to the lots, which had been donated to the congregation by the New Mexico Fuel & Iron company. This was not secured until last year, and as a matter of fact little work was done on the superstructure of the new edifice until last year.

Frank J. Dye was given a contract for the superstructure on December 17, 1906.

Rev. W. A. Pratt, of Hydro, Oklahoma, followed Mr. Ruoff, who by the way, was not an ordained minister, to the pastorate of the Estancia congregation. Mr. Ruoff asked to be relieved as his work as a mason demanded all of his time.

The new church cost \$3,500. All of this has been paid with the exception of about \$300 outstanding indebtedness. The only other churches in the Estancia valley is a small Catholic church at Chilli, on the eastern slope of the Manzano mountains and the ancient Catholic church of Manzano.

COOKING SCHOOL FOR NAVY IS NEW DEPARTURE FOR JACK TAR

Sailors Kicked About Meals But Establishment of Culinary Course Has Cured Them.

Commissary Room at U. S. Navy Cooking School. Jack Tar Potato-Peeling Squad at Work.

Newport, R. I., Oct. 21.—Uncle Sam has craftily planned to reduce desertions and generally increase the efficiency of the navy by establishing a cooking school at the naval training station in this city. Admiral "Bob" Evans suggested the thing when he found that complaints regarding food were well founded.

The provisions purchased for the navy are of the best and the officers figure that with good cooking the men will be made happy.

Baked beans is the favorite breakfast food in the navy. At this station it is served on at least three mornings every week.

This is the official United States government receipt for preparing the great American dish.

After the beans have soaked over

night, lay slices of salt pork on the bottom of the bean pot and on these small onions. Then pour in the beans. Put in a large piece of salt pork with the rind scored, arranging it so that the top shall be even with the top of the beans. If the pork is very well salted or partially lean, very little salt will be required. Put in some mustard.

Before the school was established the 2000 boys at the training station complained that the beans were "all dried up or else burned up," but under the new order their complaints have given place to paeans of joy.

In addition to cooking there is instruction in the art of creating bread, doughnuts, rolls and biscuits. A student becomes in turn a striker, kitchen hand, assistant cook and cook.

Nothing New Under the Sun

Solomon says there is nothing new under the sun, and Solomon is an authority. He may have done some things that were somewhat shoddy, but it has never been satisfactorily proven that he ever misrepresented.

Conceded, then, that he knew what he was talking about when he made that statement, how do you account for the queer things that bob up now and then that nobody ever saw before?

My dear Sir, they are all merely new combinations of old things. You can't even think of a really new thing. Try to think of a new animal. To save your soul, you can't help thinking of legs and eyes and teeth and tails, which are all old and well known things. Try something else.

The Albuquerque Citizen doesn't claim to have discovered something elementally new, but they have some fellows around the place who are mighty slick at hanging the old things together in new and taking ways. They'd fix you up an ad that would make even Solomon himself have some doubts about the old proverb.

WM. CHAPLIN
121 Railroad AvenueA Quick and Safe Remedy for Bowel
Complaints.Twenty years ago Mr. Geo. W.
Brook discovered that Chamberlain's
Colic, Cholera and Diarrhoea Rem-
edy was a quick and safe cure for
bowel complaints. "During all of
these years," he says, "I have used
it and recommended it many times
and the results have never yet dis-
appointed me." Mr. Brook is publisher
of the Aberdeen, Md., Enterprise.Mineral water cures and
tipitation. Ask your gro-GEORGE PRIMROSE MIN-
STRELS OCTOBER
25 AND 26Minstrelsy of the genuine, joyful
sort, brought up to date as to elab-
orateness of production and artistic
arrangement. will be the attraction
at the Elks' opera house Friday and
Saturday nights. It will signify the
engagement of George Primrose and
his big, black-face minstrel company
in a program that contains every-
thing pertaining to negro life on a
southern plantation, interspersed
with clever vaudeville. The scenic
investiture has been elevated to a
degree of artistic importance not
found in the old traditional minstrel

Primrose, Himself.

shows. The singing of principals and
chorus, as well as the playing of the
orchestra, is far superior, it is claim-
ed, to anything ever before heard in
minstrelsy. Among the soloists are
such favorites as Dave Irwin, Walter
Van Allen, Sam Harris, Sam Bennett,
Joe Mager, Art Lendrum, Eddie Mar-
tinez and Ed Davis.There is also a chorus of twenty
trained male voices. The fun will be
supplied chiefly by George Primrose,
Neal Abel, Harry (Turkey) Boyd,
John Burke.In the second part will be found
a long list of clever song and wooden
shoe dancers, who led by Mr. Prim-
rose himself, will revive his famous
"Silver Shower" clog. Another fea-
ture will be a negro sketch wherein
all the comedians will take part, af-
ter which Mr. Primrose will be seen
in a new and original dancing num-
ber, entitled the Watermelon Coons,
assisted by a score of wonderful
dancers exactly the same act as play-
ed by Mr. Primrose for ten weeks in
the Keith and Proctor houses, New
York, on the past summer, received
\$1,000 for ten weeks or \$1,000 per
week, one of the biggest known salar-
ies ever paid to a male star in
vaudeville. Not a few other pleasing
novelties will be seen during the per-
formance.In fact the name of Primrose never
headed such a splendid show.

POSITIVE PROOF.

Should Convince the Greatest Skeptic
in Albuquerque.Because it's the evidence of an Al-
buquerque citizen.
Testimony easily investigated.
The strongest endorsement of
merit.The best proof. Read it:
J. M. Parker, living at 817 South
Fourth street, Albuquerque, N. M.,
says: "Doan's Kidney Pills are en-
titled to the strongest praise I can
give them. I never placed much
faith in patent medicines, but I can
say I have derived more good from
Doan's Kidney Pills than I supposed
it would be possible for me to get
from any kind of medicine or treat-
ment. Several years ago I began to
notice indications of kidney com-
plaint. A year ago my condition
reached the state where I was an al-
most constant sufferer from pain in
my back and trouble of an alarming
nature existed with the kidney secre-
tions. On one occasion the kidney
secretions stopped altogether and I
had to have a physician draw it from
me. At that time I was employed as
a journeyman engineer and had to
quit this work, as the far of the engine
made the pain in my back beyond en-
durance. I suffered from pain across
my loins and in both sides over my
hips that I would have to sit down
and lean my back against
something to support it. At night
after I would retire I would not sleep
any more than an hour before the
pain would wake me; then I would
have to sit up in bed and bend over
in order to get relief. The kidney
secretions were very profuse, and
what added to my misery was a
burning, scalding sensation which ac-
companied the secretions. About
three months ago I learned of Doan's
Kidney Pills and procured a supply.
In a short time every difficulty was
corrected and I have no trouble at all
with my back and kidneys now.
I am as well and strong as ever and
am certain that I could take up the
work that I had to give up, and could
do it without any trouble. On occa-
sion without number I have recom-
mended Doan's Kidney Pills, and
whatever I can say for them will al-
ways afford me pleasure." For sale
by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.Remember the name—Doan's—
and take no other. No. 24HAIR DRESSER and CHIROP-
DIST.Mrs. Bambini, at her parlors oppo-
site the Alvarado and next door to
Sturges' cafe, is prepared to give

IT'S Recognized Style—prestige has done much to make the Regal the best known shoe in the world. You cannot obtain better or more correct styles at any price—not even if you have your shoes made to order—and cannot approach the style—excellence of Regals in other shoes at the Regal prices. Prove this to yourself by examining our stock. It takes the very best grade of leathers and other materials to make Regal Shoes. That's why they hold their shape so permanently and give you the maximum of comfort and long wear. It takes also the highest grade of workmanship to put these materials together. Hand workmanship enters into the making of every pair of Regals, except in those parts where perfect machine work is actually better and more finished.

Van P. Crim, dealer in securities, left last night on a business trip to Belen.

DOCTOR MCCORMICK CURES THE LIQUOR HABIT.

ROBBER ATTACKS WOMEN AT SILVER CITY

Looting of Houses Stopped but Thief is Now Trying to Work a Hold-up Game.

Silver City, N. M., Oct. 21.—The thieves who have robbed a large number of Silver City homes in the past few months, have now turned their attention to the hold-up line and as a result two attempts to rob women have already come to light.

Miss Myrtle Fleming, while returning home at an early hour, was stopped by a man with a revolver, but she ran into a neighbor's yard and her screams scared the burglar away.

An hour after this attempt the same robber stopped a young woman who was on her way home from a visit to her brother at St. Joseph's sanitarium, and with his revolver at her head, demanded her money and rings. As she handed him the valuable stones, she managed to drop them to the ground and at the same time screamed. The man ran and a half hour later her rings were found where she dropped them.

The man with the merry heart—Bob Hardette is coming. He brings his own medicine with him and prescribes for the heavy heart. Hear him Tuesday evening at the opera house on "Handies."

SANCHES CONFESSES TO MURDER OF MACOMBER

Crime Committed in November, 1904.—Co-Defendant Tried in April, 1908

The murder of William Macomber, the stock raiser, whose remains were found withering away behind a log on the Manzano mountains in November, 1904, will be avenged. Zenobia Sanches, the man arrested by Sheriff Armijo, in the mountains in southeastern New Mexico, has pleaded guilty to the crime, on the advice of his attorney throwing himself on the mercy of the court with a plea of murder in the second degree. Sanches stoutly denied his guilt at the time of his arrest and after being indicted and brought before the court, made a plea of not guilty. He today withdrew his original plea and asks for mercy at the hands of the court on a plea of guilty of murder in the second degree.

The story of the finding of the moulding remains of William Macomber reads like a tragedy of the yellow black novel brand. Neighbors passing the Macomber house, which was a hut in a lonely place in the Manzano mountains, found the door of the place open. Dogs and cats around the house were starved and cattle in the corral gave evidence of not having had water or feed for several days. The search for Macomber continued several days without success. Parties went out from this city to join in the search, which was finally given up. The man's horse, with a saddle and bridle on it, was found and this confirmed the belief that Macomber had met with foul play. Some time after the search had been given up a native riding through the woods found the body beside a log. Suspicion fell upon Sanches because he and Macomber had had some trouble about the ownership of some cattle. It is thought that Macomber accused Sanches of stealing some cattle. Sanches was not arrested until over two years after the murder.

Natividad Gutierrez, who was indicted jointly with Sanches will be tried April 13, 1908, unless the case should be further delayed. Gutierrez is supposed to have been associated with Sanches in the crime.

GLOBE SKUNK PUT AUDIENCE TO FLIGHT.

Death of Animal in Summer Theatre Caused Hasty Flight of All Concerned.

Globe, Ariz., Oct. 21.—A Globe skunk wandered into the auditorium of the summer garden theater the other night, a woman screamed and the eight hundred persons in the audience leaped from their seats. Women joined men in clambering over a high railing. Policeman M. J. Kelly, unfamiliar with skunks, attempted to catch the animal but retreated, and standing at a safe distance, opened fire with his revolver. He emptied it, but none of the shots took effect. Frank McNabb, one of the spectators, cornered the skunk and killed it with a club. Then he went home by the circuitous route. The management announced to vacate chairs that the performance was called off.
