NUMBER 256

## GRAND JURY RETURNS ALLEGED FRAUD INDICTMENTS

Phelps-Dodge Company. Officials and Employees With Two New Mexicans Asked to Account.

## FEDERAL OFFICIAL CALLED TO WASHINGTON IS REPORT

Defendants Say There is No Truth in Charges Against Them—Easy to Indict But Prosecutors Will Have to Prove Assertions.

Santa Fe, N. M., Oct. 22.—(Special.)—The grand jury, which on yesterday returned indictments against nineteen persons, nearly all of whom were non-residents of New Mexico, and not connected with territorial affairs except in a business way, is still at work. The indictments are for alleged frauds in securing coal lands in San Juan county.

These indictments, which were returned yesterday afternoon were not made public until after the evening papers of the territory had gone to press, for some unexplained reason.

Today four new jurymen were added to the grand jury and it is understood that an effort is being made to have a fifth juror discharged.

Charles A. Spies, of Las Vegas, and David M. White, of this city, who were among those indicted yesterday, have furnished bond in the sum of \$5,000.

### Melting to Washington.

It is probable that proceedings will be brought to a sudden stop as it is understood here that Ormsby McHarg, assistant U. S. attorney general, has received a telegram directing him to come at once to Washington, and that he will leave tonight. The reasons for this sudden summons is not known here. Just when Mr. McHarg will return to continue his operations against alleged land frauds is not known.

### Others Indicted by the grand jury are:

Phelps, Dodge & Co., New York, of the Phelps-Dodge mining and smelting interests in New Mexico and Arizona.

James McLean, Cleveland H. Dodge & Co., Curtis James and James Douglas, members of the firm of Phelps-Dodge & Co., of New York.

Charles A. Spies, an attorney of Las Vegas.

Thomas H. O'Brien, coal land locating agent for Phelps, Dodge & Co., of El Paso, N. M.

Louis D. Ricketts, geologist and mining expert, now of Cananea, Mex.

Henrietta E. Ricketts, of Princeton, N. J., sister of Louis D. Ricketts, and Maggie A. Vann, colored, and cook for the Ricketts.

David M. White, of Santa Fe.

Granville Pendleton, of San Juan county.

Robert B. Hegardt, superintendent of the Globe mines of Phelps, Dodge & Co., and the following residents of Arizona: Edwin T. Stewart, Robert T. Reed, N. E. Barry, Arthur S. Moore, Emil R. Stahl, Angus McAlpine and Arthur E. Tovey.

The returning of indictments by the grand jury was not unexpected since it is understood certain officials of the government have been quietly boasting that they would succeed in indicting a number of persons sooner or later.

The action of the grand jury was in keeping with that of most grand juries in New Mexico to return indictments and let the cases get into court if there appears to be anything like a doubt as to one side or the other. This seems to be the light in which the matter is viewed here by those indicted and by the people generally.

One of the men against whom an indictment was returned said today: "It is a simple matter to procure an indictment against any man, but it is another thing to go into court and prove charges of as grave a nature as those with which I am charged. There is nothing whatever in the charges against me and I do not fear them if the matter ever reaches court. I am able to prove my innocence of any wrong doing and while the returning of an indictment generally reflects more or less on a man's honor yet it should not until after he has been tried and found guilty."

Most of the persons indicted are practically non-residents of New Mexico and are known here only in a business way—some of them not to that extent. The Phelps-Dodge company is one of the largest corporations in the country and has done much towards developing the coal industry in this territory, spending large sums of money annually in New Mexico coal mines and employing hundreds of miners. It was chiefly instrumental in developing the great copper resources of Arizona and had begun to branch out in copper mining in New Mexico. It operates at present a large number of rich mines in Arizona, the Dawson coal mines in this territory and the El Paso and southwestern railroad in New Mexico. This is the reason it has ever been charged by the government with anything illegal, although it has operated for years in several states and territories.

An employee of the company said today that other employees of the Phelps-Dodge company may have taken land claims on their own accord under the law for their own purposes, but if such was the case it was done without the knowledge of the company at the time and was purely a personal matter. However, it will be impossible to learn the real facts in the affair until the matter gets into court at which time the defendants say they will be able to show the matter up in its true light.

## One of the Skycraft Which Will Sail at St. Louis Today in Aerial Contests

Captain Thos. S. Baldwin's airship in flight. Captain Baldwin represents the Pacific coast where his efforts to solve the aerial navigation problem have attracted great attention.

## PRESIDENT IS FIRM IN GAS PLANT OWNER SHOT STAND AGAINST DISHONESTY

Tells Tennesseans That Regardless of Panics He Will Not Falter.

POLICY WILL NOT BE ALTERED IN LEAST.

Nashville, Tenn., Oct. 22.—President Roosevelt in his address at the Auditorium today, said:

"There has been trouble in the stock market for the high financial world during the last few months. The statement has frequently been made that the policies which I stand for, legislative and executive, are responsible for the trouble. Now these policies of mine can be summed up in a brief sentence. I want to punish successful dishonesty. I doubt if these policies have any material effect in bringing about the present trouble, but if they have, it will not alter in the slightest degree my determination that for the remaining sixteen months of my term, these policies shall be persevered in unswervingly."

The president made this forcible statement to one of the biggest audiences that ever gathered in Nashville, and he was roundly cheered. For five minutes the applause continued and it was with difficulty that he was able to continue his speech. He made a strong address here and afterward was taken for a brief drive over the city and an informal reception at the Planters' hotel.

The president arrived from Mississippi early this morning via a special train, and his entrance to the city was greeted by one of the noisiest demonstrations ever accorded an executive of any nation. Whistles, bells and all other kinds of noise makers were called into requisition for the purpose of welcoming him.

He left for Washington this afternoon, and will reach the capital tomorrow after several brief stops.

## BAPTISTS WILL MEET HERE NOVEMBER 14

The New Mexico Baptist college at El Paso will meet the Baptist church at Albuquerque on Thursday, November 14.

Each Baptist church is expected to send three messengers and, if the membership of a church exceeds fifty, it is entitled to one additional messenger for each twenty-five members, or fraction thereof, above fifty. If a church has one hundred members, it is entitled to five messengers, and so on.

This has been a very prosperous year for the Baptists of the territory and a large attendance of messengers is expected. There will be also a number of distinguished visitors to the convention.

Twenty-five missionaries have been employed this year and over \$10,000 has been expended on missionary work. An active campaign is now on to raise sufficient church to wind up the year's work without a debt.

New Mexico Baptist college at Alamogordo belongs to the convention and a girls' dormitory costing \$4,000 is now in process of erection.

Committed Suicide.

Dallas, Texas, Oct. 22.—Charles Hamilton committed suicide today because of ill health.

## IT COULD NOT SECURE CURRENCY FAST ENOUGH

Knickerbocker Trust Company in New York Obligated To Temporarily Suspend.

## OUTSIDE CITIES ARE NOT AFFECTED

Wall Street Badly Scared By Big Slump In Many Stocks and On Account of General Situation But Soon Recovered.

New York, Oct. 22.—The Knickerbocker Trust company, on which run started this morning, owing to of C. T. Barney as president of the Commerce to act as clearing house agent for it, and to the resignation of Charles T. Barney as president of trust company, stopped paying depositors at 12:30, the statement being made that the company could not obtain currency rapidly enough to pay all demands.

The company declared that its suspension is only temporary and that it will soon be open as it is solvent.

This concern did a general trust company business, financing railroads and other like institutions, and was not engaged in the general banking business.

At 12:35 there was another violent slump on Wall street Union Pacific selling 1:10, loss of 7 1/2, and other stocks with nearly as big a loss. At that hour call money was at 50 per cent.

Effect Purely Local.

Washington, D. C., Oct. 22.—Dispatches from Chicago, Kansas City, San Francisco and other large cities say that the panic in Wall street, New York, has not affected the situation in those cities.

Excitement on Wall Street.

Excitement amounting almost to alarm marked the opening of business today in Wall street. The stock market opened demoralized under heavy selling by brokers in all departments of the exchange and a run of considerable proportions was being made at the various offices of the Knickerbocker Trust company. At the main office on Fifth avenue and 34th street, more than 150 persons were in line at 10:30 and a line of carriages in waiting extended more than a block.

The stock market's opening showed severely the effect of the renewed shock to confidence caused by the Knickerbocker Trust company, but the published details of the affairs of the Knickerbocker Trust company, prices broke widely in opening transactions, but almost immediately rallied.

The rebound approximated from one-fourth to one-half of the first break, but was followed by a second break which in turn was succeeded by good rally, the decline having been arrested before the previous low record was broken through. With this demonstration of effectiveness of the support for the market, a somewhat more tranquil feeling ensued.

### Nervousness Apparent.

Bankers, brokers and business men generally came down to their offices early today to prepare for whatever further developments there might be in the financial situation. There was considerable nervousness as a result of the developments concerning the Knickerbocker Trust company.

The news printed today that the National Bank of Commerce yesterday gave notice that it would decline longer to act as clearing house agent for the Knickerbocker Trust company and the resignation of Charles T. Barney as president of the trust company, served to unsettle the sentiment more than the Morse-Helms developments of last week.

### Financiers Confer.

The magnitude of the business transacted by the Knickerbocker Trust company, with deposits amounting to more than sixty million dollars, gave a much more serious aspect to the changes made in its management than did the changes in the relatively smaller Morse-Helms concern.

The sequence of the announcement of Barney's resignation was followed by a series of conferences of financial men which continued until 2 o'clock morning. Among those present were J. Pierpont Morgan and his partners.

### Their Statement.

After these meetings a statement was given out by the directors of the Knickerbocker Trust company to the effect that it had been decided in view of Barney's relations with the Morse-Helms interests, that all interest in the company be sold by its resignation as president and director, also as director of the Bank of Commerce, that as the Knickerbocker Trust company has met clear by itself, guarantees of additional cash, should it be needed, have been obtained, and the Knickerbocker company is fully prepared to meet emergencies that may grow out of the change in the method of clearing; that the Knickerbocker has more than eight million dollars cash in its vaults, and that the members of the trust company presidents last night was largely for the purpose of outlining a plan for a clearing house of trust companies similar to that of the banks.

### STEAMER WENT ASHORE

Malmö, Sweden, Oct. 22.—The Russian steamer Lituania, from Libau for Copenhagen and New York and having aboard about 500 passengers, went ashore off Skillingen today during a thick fog.

## Ascension of Balloon Which Sailed From St. Louis in Effort to Win Championship

Snapshot taken at the moment of ascent from ground, showing Major Hersey of the United States balloon, and A. T. Arthur in the car of the balloon.

## D. & R. G. OPERATORS WILL STRIKE TONIGHT

Road Must Reinstate Discharged Wire Chief Or Be Tied Up.

WALKOUT ORDER WILL BE ISSUED AT 8.

Denver, Colo., Oct. 22.—Unless the Denver and Rio Grande railroad agrees to reinstate R. H. Skeggs, wire chief at Grand Junction, at once, 400 telegraph operators will desert their keys at 8 o'clock tonight. This is the announcement made from the operators' headquarters. An ultimatum was sent to the railroad officials by the operators this morning. Skeggs arrived from Grand Junction last night and held a conference with President Perham and the officials of the Rio Grande until a late hour. This conference was unsatisfactory and this morning the ultimatum was prepared and sent to the railroad officials.

### Cause of Proposed Strike.

When the Western Union operators went on strike, the members of the Order of Railway Telegraphers decided that they would not send any messages or test any wires for the telegraph company. This decision was generally adhered to and no trouble resulted until Perham, who was then wire chief at Grand Junction, refused to test out a wire for the Western Union some days since. For this refusal, the Denver and Rio Grande discharged him. The D. & R. G. officials took the matter up with the road and after repeated unsuccessful conferences, took a vote of the railway telegraphers as to calling a strike, resulting in a unanimous vote for the strike, which will be called tonight unless Skeggs is reinstated, which is not likely, as the railroad officials are firm.

## MODERN WOODMEN OF AMERICA LODGE ASSURED

C. F. Palmer, who is at the head of the movement to organize a good fellowship camp of Modern Woodmen of America in this city, is meeting with good success. The necessary petition required by the head camp, which Mr. Palmer is circulating, has been signed by nearly every Woodman whom he has met. There are nearly sixty Woodmen in the city whose addresses he has, and there is no doubt that the required number of forty will soon be listed on the petition.

### SHIP CONTESTS

St. Louis, Oct. 22.—The dirigible balloon or airship races, scheduled for today as part of the week's nautical carnival, have been postponed until tomorrow afternoon because of the inability of some of the contestants to get their machines in shape for the races. The international cup balloon race, however, will go on as scheduled. Several motor propelled vehicles, however, will make exhibition flights today.

## MASONIC GRAND LODGE IN SESSION AT CARLSBAD

Eastern Star Will Also Meet At That Place During This Week.

CITY THROWN OPEN TO HUNDREDS OF VISITORS

Carlsbad, N. M., Oct. 22.—This is Masons week in this city and a large number of members of the Masonic order of New Mexico are here for the grand lodge meeting. Yesterday and today were devoted to the reception of Masons and their wives, and the opening of the grand lodge, and this evening the real business program will begin. The grand lodge meeting will continue until Thursday night, after which it will give place to the grand lodge of the Order of Eastern Star, which will meet for two days.

### A Reception and Banquet Will be served to the members of the grand lodge and their wives this evening by the Carlsbad lodge, and tomorrow will be devoted to the work and initiation rites of the Royal Arch Masons. The Knights Templar will have charge of affairs Thursday and there is a considerable class for them to initiate.

### Eastern Star.

Friday morning the grand lodge of the Eastern Star of New Mexico will be called into session and for two days the ladies, with the assistance of their husbands, will look after business transactions which concern that order and also initiate several new members. The latter feature being put on for the entertainment of the visitors by a local team.

The attendance is large and the town is full of Masons. They are being royally entertained and made with a Masonic look or badge is not permitted to spend money that did not come from Carlsbad. As a consequence, the local business is very quiet. In addition to the program of the local lodge for the entertainment of the visitors, a number of private receptions and dinners have been arranged.

### Governor Present.

Governor Curry is in attendance at the grand lodge meeting, the first he has attended since becoming governor, and he is not only an interested spectator at the lodge meetings, but a much sought guest in Carlsbad.

### Epidemic of Crime AND SELF MURDER

Denver, Colo., Oct. 22.—Murder and suicide were in the air yesterday and today. Whether the weather or some psychological reason is responsible for the epidemic of attempted violence and crime, a curious system of violence is hanging over Denver.

John White, clerk in Inland Inn, took poison because he was in ill health.

John W. Burke tried the gas route, leaving note accusing wife and W. G. Carter, his landlord. After his release from jail this morning Burke returned home and almost killed his wife with his bare fists.

Miss Lena Stevenson, 1353 Jason street, tried to starve herself to death because of poverty.

Mrs. Lena Ellinger, 1370 Hooker street, attempted to throw herself in front of a moving engine because she was deserted by invalid husband.

## PEOPLE JOINED HANDS FOR STATEHOOD

Enthusiastic Meeting of Representative Men Formed Bernalillo County League Last Night.

## ALL PARTY LINES AND FACTIONS FORGOTTEN

Entire County to be Organized by Precincts and Governor Curry To Be Asked to Attend Big Mass Meeting in Near Future.

A representative gathering of business men and citizens of this city and county, met last evening at 8 o'clock in the apartments on the second floor of the Zeiger block, and formed the Bernalillo County Statehood league, a non-partisan organization, which will work without regard to party lines for the cause of statehood.

The meeting was an enthusiastic one. There was little oratory, little discussion but an earnest business-like way of doing things, which went further to show the sentiment in this county than any meeting that could have been assembled.

The people of this county are for statehood. As Chairman Childers stated, there is considerable doubt if a man, woman or child could be found who would not sign a petition or register a vote for statehood for New Mexico. The meeting in every way was a representative one and all parties and factions in this county were represented.

Speeches, short and straight to the point, devoid of flowery sentiment, were made by republicans, democrats and others scarcely identified with either party.

It was a citizens' meeting and it had but one object—the forwarding of the statehood movement.

Large Attendance.

The spacious room over Zeiger's cafe was crowded to its capacity and many were standing.

Gov. E. S. Stover called the meeting to order and gave an address for his intuitive movement that he was probably the oldest in the room and had probably attended more or less equally many statehood meetings as any other man in the room. The speaker nominated W. B. Childers, whom he introduced as another tireless worker for statehood, for temporary secretary of the league.

Nestor Armijo was made temporary secretary. The chairman selected two committees, one on resolutions and the other on permanent organization.

Permanent Organization.

Permanent organization was finally effected with officers as follows: President—William B. Childers. First Vice President—Harvey B. Ferguson. Second Vice President—Sheriff Perfecto Armijo. Treasurer—Mayor Frank McKee. Recording Secretary—Jay A. Hubbs. Corresponding Secretary—P. F. McAnana.

In addition to the above officers there will be an executive committee, on which every precinct in the county will be represented. The members of this committee are to be appointed by the president as soon as the names of the logical persons can be obtained, and through these committees the league, as the organization is to be known, hopes to have meetings held in each precinct in the county. The committeemen will act as delegates to the meetings of the league to be held in the future.

### Gov. Curry Will Attend

Col. W. S. Hopewell, one of the prominent democrats at the meeting, suggested that the next meeting of the league be held at the Elks' opera house at a time suitable to Governor Curry, who will be invited to attend. The governor was called to Roswell where he had an engagement and as he was compelled to leave the capital a day earlier than anticipated, he was unable to write a letter, which he had promised to have read before the next league meeting. He would meet with the league just as soon as possible and address the members upon the statehood question. Governor Curry originated the statehood league idea and he made the request that every county form such an association in order to unite the people of the whole territory into a working organization.

### Territorial Organization.

A territorial organization will later be formed and the county leagues will co-operate with this central body, of which they will form the nucleus. The league last evening adjourned until early in November, at which time the officers will range with the governor for a meeting at which he can be present.

The following committees were appointed: Resolutions—T. N. Wilkerson, E. S. Stover, W. S. Hopewell and G. W. Harrison.

On resolutions, F. W. Clancy, chairman; P. Hanley, W. W. McCellan, A. B. Stroup, Frank H. Moore.

Mayor Frank McKee said that if the next meeting was in the afternoon the Elks' would donate free of charge their opera house for the use of the league.

This was a sample of the "get together" spirit manifested throughout.

(Continued on Page Five)

## RAILROAD DEPARTMENT

### FAST FREIGHT MOVEMENT A TASK

This Feature of Railroad Has Become a Business In Itself.

The systematic movement of fast freight is less spectacular than the flight of luxurious passenger trains, but, nevertheless, it is one of the significant achievements of modern railroading, and is really a greater monument to the ingenuity and far-reaching organization of the great transportation experts than is the wonderful service of the dazzling limiteds.

A regular schedule, as definite and fixed as the passenger schedule, is the perfecting step in the rapid movement of preference freight. A short while ago five carloads of silk were carried in a single train across the continent, from San Francisco to New York.

The contents of each train were worth about one hundred thousand dollars, so that both speed and safety were needed in moving this investment of half a million. The train went from the Pacific coast to Chicago in six days, and was pulled by the Pennsylvania on their regular fast freight schedule from Chicago to New York in sixty hours.

As another example, a train of berries leaves Richmond or Cape Charles, Va., at 2:30 in the morning and is in New York the same evening. Cattle are carried through from Pittsburgh to the docks in Philadelphia in less than twenty-four hours.

The pioneer fast freight organization of America is the Union Star line, which now carries through freight traffic over the Pennsylvania system. Seventy years ago this business was established by Leach & Co., of Philadelphia, and Clark & Co., of Pittsburgh, as an adjunct of their commerce.

**How It Works.**  
In 1863 it was organized as an independent freight line, operating over a number of railroads between the Atlantic coast and the Mississippi. Ten years later the Pennsylvania Railroad company purchased the Union line and since that time its function has been that of the fast freight line for the company's through traffic—that is, a traffic passing over the lines east and west of Pittsburgh.

With the local traffic beginning or ending on the eastern or western lines it has nothing to do; that is of a distinctly separate class, cared for by the local organization itself. The equipment used in handling the preference freight is selected with extra care, and these trains have special track rights.

**EMPLOYEES CHARGED WITH STUFFING ROLLS.**  
Sacramento, Cal., Oct. 22.—Four well known employees of the Southern Pacific station at Sacramento were arrested at 2 o'clock this morning in this city charged with stuffing the monthly payrolls of the company. They are William Tobin, a Southern Pacific roadmaster between this city and Benicia; Louis Choate, his bookkeeper; M. Prendergast and "Buck" Wilson, foreman in charge of working crews. While the full extent of the thefts of the quarter has not been determined, a shortage of \$4,000 has already been found in the books.

Tobin has been in charge of the division for the past 15 months and was considered one of the most efficient and capable of the employees. Several months ago he took Choate in his employ and a few weeks later the two foremen were given their positions. The four then began a systematic plan to defraud the company. Dumbs' names were placed on the payroll and every month the men had their salaries fattened a few hundred dollars.

A. G. Wells, general manager of the Santa Fe coast lines, with his family, has gone to New York for a long rest. Mr. Wells has been ill for some time, having undergone an operation for appendicitis in Los Angeles. No date is fixed for his return to his duties, but it will not be until he has thoroughly recovered his health.

Fred Jacobson, gang foreman at the roundhouse, has resigned and he and Mrs. Jacobson will return to their former home in Chicago.

G. Yates, a boilermaker, was seriously injured yesterday by a heavy piece of steel falling on his foot. He is in the company hospital.

The Santa Fe has a force at work excavating for the new storehouse. A long basement will be constructed beneath the building.

Bruce Browning and bride have returned from a six weeks' trip in the east. He is distribution clerk at the local shops.

James Kurn, of Las Vegas, superintendent of the New Mexico division, was in the city today on an inspection trip.

Paul Scott, who has been ill at his former home in Indiana, has returned to this city and resumed his position as clerk to the general foreman.

C. Betson, division engineer, was ice of the Santa Fe, left last night for Los Angeles on business.

C. Betson's division engineer, was here from San Marcel yesterday.

O. F. Higginson, trainmaster at Winslow, is in the city.

Stomach troubles, heart and kidney ailments can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its restorative action upon the controlling nerves of the stomach, etc. Sold by all dealers.

### Territorial Topics

Herbert Brown, grand master of the grand lodge of Arizona, has been invited by the Tucson board of school trustees to lay the corner stone of the Tucson high school building on Sunday afternoon, October 27.

Losing his balance while at work on the new store house building of the Copper Queen, immediately behind the store at Bisbee, Ariz., Horace Anderson, a carpenter, plunged to the ground, a distance of twenty-five feet, and was seriously injured.

During the past week the most important event at the smelters in Douglas, Ariz., was the starting of the reverberatory furnace at the Copper Queen plant. This furnace is a new smelting process which has been installed for the more economical handling of the very fine ores and the fine dust which is saved from the converters.

With a string of eighty-five quail and a number of ducks, Dick Goodwin and Charley Shollander, both well known young men of Bisbee, Ariz., returned from the vicinity of San Pedro after a hunt of one day. Goodwin stated that the game in that section is in abundance this year and that the birds are in the finest condition for eating.

A pomegranate, weighing a pound and a half and measuring fourteen inches in circumference, has been grown by a raisher near Tempe, Ariz.

The Arizona Teachers' association will meet in Phoenix during the dates of the territorial fair, November 11th to 16th, inclusive.

The coal mines near Pinedale, Navajo county, are to be opened and a large force of men will be employed. Graham and Pima county capital is behind the enterprise.

With a force of men, aggregating fully 150, employed in the roundhouse construction and the general yard improvements and extensions at Globe, Ariz., the Valley railroad properties present a scene of wonderful activity at present.

**HOTEL ARRIVALS.**

**Alvarado.**  
W. S. Fraser, Chicago; J. H. Gillett, New York; L. M. Lyon, New York; Mrs. R. S. Phelps, Oakland, Cal.; E. J. Marshall, Gail B. Johnson, Los Angeles; Emma Johnson, Salem, Ore.; Otto A. Mayer, St. Joseph, Mo.; Ed. Gumburg, New York; D. W. Halsted, Wisconsin; R. S. Smith, Los Angeles; F. C. Smalley, Chicago; Z. A. Oppenheimer, New York; B. A. Bogg, Los Angeles; C. H. Hall, Chicago; J. G. Best, Kansas City.

**Sturges.**  
Mrs. J. J. White, Los Lunas; Thos. F. Jones, Cerrillos; H. Pennypacker, C. A. McKnight, Chicago; F. Palmer, Cerrillos; N. H. Pramer, Las Vegas; William N. Berger, Belen; F. Flatz, Las Vegas; Jack Ryan, San Francisco; E. E. Whitney, Chicago; J. D. Waterman, San Francisco.

**Grand Central.**  
Prof. F. J. Emmett and wife, Chicago; A. E. Jeffries, L. Maxwell, H. L. Creswick, J. A. Dickson, I. A. Hamilton, Las Vegas; A. Nathan, New York; C. Betson, San Francisco; H. D. Allen, O. C. Leach, E. W. McMahon, E. A. West, P. Stuart, J. J. Gangan, F. C. Edwards, Las Vegas, Craig.

**Savoy.**  
J. L. Young, Belen; J. S. Jones, Las Vegas; Chas. E. Smith, Aztec; H. P. Runkler, Richland Center, Pa.; F. W. McClelland, New Orleans; Rev. Albert Murphy, Cincinnati; S. R. Russell, Ogden, Utah.

**Jews Can Observe Sabbath on Saturday**

New York Judge Decides That They Do Not Break Sabbath Law by Working Sunday.

New York, Oct. 22.—Three pauper hangers who were arrested last Sunday for breaking the sabbath law were discharged in the Butler Street court this morning by Magistrate Tighe. They were orthodox Jews, and observed their Sabbath, and, according to the law, were free to work on Sunday. The decision is an important one, inasmuch as there are 400,000 orthodox Jews in Greater New York. The Jewish merchants on the east side assert that the decision also authorizes them to keep open shop Sundays. It is probable that serious complications will arise as a result of the decision.

**HUMBOLDT SMELTER WILL NOT SHUT DOWN NOW.**

All Immediate Danger of the Closing Down of the Big Plant is Said To Be Passed.

Prescott, Ariz., Oct. 22.—That there is no immediate danger of the Humboldt smelting plant shutting down, despite all rumors to the contrary, that have been afloat in different parts of the country during the past month, will be pleasant news to the mining interests of the country.

General Manager T. H. Oxnam, of the Consolidated Arizona Smelting company, stated that there was not one word of truth in the report that operations would be discontinued at the plant, but on the other hand he is of the opinion that its capacity may be increased.

"I have definite instructions to keep the plant running," he said, "and there is absolutely no truth in the report that operations will be suspended here. The reverberatory and blast furnaces are running full capacity and there are ample funds on hand to meet all the company's obligations."

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are given to the people without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by all dealers.

### PERSONAL Paragraphs

Porfirio Abreu, ranchman near Pecos, Taos county, was in Santa Fe today on business.

W. L. Corbett, the civil engineer, left Santa Fe overland yesterday for Taos, where he has been engaged to make a mineral survey.

Captain Fred Fornot of the territorial mounted police, left Santa Fe yesterday afternoon for Roswell and other points in southeastern New Mexico.

Francisco Sandoval, Lamico Sandoval and Felix Sandoval, residents of Pecos, are in Santa Fe on a visit to relatives and friends.

Professor J. D. Tinsley, of the New Mexico College of Agriculture and Mechanic Arts, spent part of the last week in Las Vegas attending the farmers' convention there.

Alfredo M. Sanchez, assistant superintendent of public instruction at Santa Fe, left today for El Paso, where he will deliver an address at the teachers' institute of Rio Arriba county.

Meyer Friedman, for many years a merchant in Las Vegas, of late a resident of San Francisco, where he is in the real estate business, is in the Meadow City on a visit to relatives and friends.

Miss Blanch Story, of St. Louis, Missouri, is expected to arrive at Santa Fe today and will be a house guest of Mr. and Mrs. William Vaughn during the winter. She is a cousin of Mrs. Vaughn.

H. W. Campbell, of Lincoln, Neb., superintendent of the farm department of the Santa Fe railway and an authority on the Campbell system of soil treatment, was among those who attended the farmers' convention in Las Vegas.

George M. Chase, a mining engineer from South Dakota, is in the Cochiti mining district making an examination of mining properties there. If his reports are favorable it is likely that some renewed mining activities may result in the district.

Governor George Curry and son, Charles Curry, are in Roswell, where the boy will be placed in the New Mexico military institute as a cadet. Governor Curry will swing around the circle in eastern and southeastern New Mexico and will return to Santa Fe in about a week.

Charles A. Haynes left Santa Fe this morning on an eastern vacation trip, the principal objective points of which will be Chicago and Syracuse, N. Y. At the latter place he will visit a sister whom he has seen but once since they were children, fifty years ago. He will be the guest of a brother in Chicago.

The following have been appointed notaries public by Governor Curry: Katherine Fountain, of Las Cruces; Dona Ana county; B. H. Moeller, of Lincoln, Lincoln county; L. B. Reynolds, of Springer, Colfax county; Charles W. DeFreest, of Roswell, Chaves county; Sophia E. Johnson, of Albuquerque, Bernalillo county; A. Wallace, of Plainville, Chaves county; Thomas K. D. Maddison, of Albuquerque, Bernalillo county.

A marriage license was issued this morning to Miss Leonor Rivera, aged 18, of Nambé, and Salvador Perez, aged 25, of Cochiti. They will be married in the Catholic church at Santa Cruz. The bride-elect is an Indian maiden and the prospective groom an Indian youth and a touch of romance attaches to their wedding. They were both students at the Indian industrial school in Santa Fe and it was while attending the institution that the acquaintance began which culminates in their marriage.

### DONA ANA COUNTY SHOWS INCREASE

Santa Fe, N. M., Oct. 22.—According to the abstract of the tax rolls of Dona Ana county this year, filed in the office of Traveling Auditor Charles V. Stafford the net increase over the previous year is \$43,297. The total assessed valuation for 1907 is \$2,573,983 as compared with \$2,531,366 in 1906, and minus the exemptions allowed as heads of families the total amount this year actually subject to taxation is \$2,497,386.

The largest individual increase shown in the classified items is in city or town lots in which an advance is indicated of \$72,935. This more than offsets the decrease in agricultural lands, a decline in which appears amounting to \$717. There is an increase in grazing lands of \$30,573.

**Out of Sight.**  
"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that has been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chibblains disappear under its healing influence. Guaranteed by all dealers. 50c.

## STEEPLE JACK SWUNG 42 STORIES ABOVE STREET PAINTING DOME

The Slinger Skyscraper, Ernest Capelle, and Snapshot Taken From the Roof of the Great Building, Showing the Steeple Jack at Work at Top of Flag Pole.

New York, Oct. 22.—One man high in the air, blocked traffic hundreds of feet below and necessitated a police detail, which, stopping to gaze, forgot its purpose and watched with the thrilled thousands.

The man was Ernest Capelle, a steeple jack, and he swung 700 feet over Broadway in a ho'ans chair, gliding the giant ball on the flag pole at the top of the tower of the new 42-story Slinger building, the tallest skyscraper in the world.

Capelle was working higher than any steeple jack ever worked before, but he didn't seem to mind it. He was as cool as if shingling the old

red barn. Although the welded steel shaft that holds the ball is 10 1/2 inches in diameter at its base and 5 1/2 inches at the top, it swayed gently as Capelle was hoisted to the peak by several workmen.

On the street, 42 stories below, Broadway was crowded with humanity which blocked the street cars. Thousands choked the narrow thoroughfare to watch the man.

Below Capelle, some 400 feet, steel workers, 300 feet from the pavement, stopped their work to show a professional interest in this man's thrilling stunt. Capelle's contract calls for gliding the dome and adding five coats of paint. He gets \$1,000 for the job.

## FEVERISH WEEK IN MARKET AFFAIRS

Conditions Improving Now  
However and Brighter  
Time Is In Sight.

New York, Oct. 22.—The week has been a period of feverishness and the settlement in the stock market. At times the street was full of disturbing rumors, and the embarrassment of one important operator in copper added to the prevailing demoralization. This continued liquidation was, of course, a part of the general reaction which began with contraction in the money market, was accelerated by various exposures and legislative attacks, and is now causing a wholesale and somewhat radical financial house-cleaning. How far the decline will go, it is beyond human knowledge to predict; but it is safe to say that many of the rumors in circulation were gross exaggerations, and that there is no need for any repetition of the financial hysteria which marked the August break in the stock market.

Since January first we have had a shrinkage in securities of fully, if not over, \$3,500,000,000. Many good railroad shares have had their values cut in half during that period. The industrialists have suffered even more drastic declines, being cut not only into halves, but into thirds and quarters. After such a tremendous shrinkage, it is almost folly to talk of panic. Violent breaks may be possible, but the chances of a genuine panic with all the disaster and derangement which that means are exceedingly remote. Had the developments which have recently taken place occurred on the high level of a year ago, we might, indeed, have had to face a cataclysm. As it is, the stock market has endured one of the greatest declines in history; a decline equivalent to that of a great panic—but in an orderly and well distributed fashion. Losses have been enormous, but they have been admirably met, and considering their extent, the disasters following have been remarkably few.

**Too Soon to Predict.**  
It is yet too soon to take a very reassuring view of the future; for it is by no means certain that the house-cleaning process is complete. There are still points of weakness in the market, and no permanent recovery eliminated. Many good securities are today selling at exceedingly attractive prices; but buyers will not take them until doubt has been removed, and this continued withholding of genuine buying has much to do with general weakness.

Moreover, buyers are becoming exceedingly discriminating, investors showing a marked preference for securities with management of high reputation. About the only buying element, however, at present is the short interest. This has been greatly extended, and purchases to cover are pronounced. Reactions appear to be the main support to the market for the time being. The number of bears has materially increased, and that element is conspicuously lacking in leadership. In previous years the big life insurance companies have often been large purchasers of stocks in times of panic or great weakness; likewise the individuals more or less connected with the management of these great institutions. The law, however, now prevents such operations, and the market is deprived of that element of support in cases of emergency.

**Little Change.**  
The monetary situation shows little change. High rates are still in force and bankers are discriminating sharply as to collateral and names. While firm rates are anticipated during the remainder of the year, there is little fear now of extreme stringency. The demands of the interior for crop moving purposes have about reached their height. Very soon funds should begin to return to the interior. Secretary Cortes has not entirely exhausted his resources, and in case of emergency it is confidently believed he would afford further assistance. The proceeds of gold exports have also been modified by an increased supply of commercial bills afforded by the outward movement of wheat and cotton. Europe is taking our wheat much more freely, and at present high prices this adds materially to the supply of exchange.

Our foreign trade also makes more favorable returns, since exports are increasing and imports decreasing; thus permitting a better balance of trade than was experienced during the summer months. In September our merchandise exports were valued at \$135,300,000, our imports at \$106,290,000, leaving the excess of exports for the month at \$29,000,000. A year ago the excess of exports was \$85,800,000, and in 1905 the excess was \$34,000,000. For some time past the tendency has been toward a diminishing balance of trade, the high prices prevalent in the United States tending to restrain exports and stimulate imports.

**Momentous Question.**  
The question now of greatest moment to business men is: Are we entering a business reaction? Every indication points to an affirmative answer. Wall street being the financial nerve center of the country is the first to feel a setback. From hence the wave of depression will

## Stop That Cold

To check early colds or grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the stage when the body is chilled by these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child; there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 16 boxes for the pocket, also in 250 boxes of 48 Preventics. Insist on your druggists giving you

## TEDDY, JR., TRIES HARD FOR PLACE ON HARVARD VARSITY THIS FALL

Cambridge, Mass., Oct. 21.—Theodore Roosevelt, Jr., is trying hard for the varsity eleven at Harvard. So are three score other husky young fellows. And as each has an even chance to make good, Teddy, Jr., may be booting the platoon in one of the big games this fall for the alma mater of his dad.

Teddy, Jr., gets no more consideration from the coaches than the son of a Vermont farmer. He is but one of many. If he is "there" he will be among the chosen few. If not, he will be among the majority.

Young Roosevelt is a well built youngster. He has taken a preliminary course in athletics until he is as muscular, in comparison, as his strenuous father.

Every day at 3 he trots out on the field and works out as hard as if his future depended upon making the eleven. Just now he is in the second squad. Some day this fall he may do something that will attract the attention of the coaches, and then he will be given an opportunity on the varsity.

Cooper Fought to Retain Formula Which Has Made a Fortune.

L. T. Cooper, the man who believes that 99 per cent of all ill health of this generation is caused by stomach trouble, is fast winning a national faith in his theory. His claim is now admitted by a surprising number of people throughout the country, and he is gaining new adherents every day.

While speaking of his success in a recent interview, Mr. Cooper said: "I believed ten years ago that any one who could produce a formula that would thoroughly regulate the stomach would have a fortune. When I got hold of this formula I knew within six months that I was right, and that my fortune was made. I called the medicine Cooper's New Discovery, although I did not get up the formula. I have owned it, however, for over three years. I have had one lawsuit over it, which I won in the courts. When it was settled, The Cooper Medicine company became the only firm in the world that can prepare the medicine. The preparation has sold like wildfire wherever introduced. As I have said before, it is successful simply because it puts the stomach in perfect shape then nature does the rest. There are any number of complaints never before associated with stomach trouble that the medicine has alleviated in thousands of cases."

Among statements obtained recently from users of this medicine is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.

"STATEHOOD FOR NEW MEXICO"

## A New System

The following from the St. Louis Globe-Democrat of a few days ago, tells in brutal truth of a state of affairs which we of the west can scarcely realize exists. It illustrates the system by which our "high financiers" do business. The comments of the St. Louis paper make bitter reading to the average honest American, but the conditions exist and the men who made them flourish. The Globe-Democrat says:

It is only since people have begun to know high financiers as well as high financiers have long known one another that high financiers insist that there is a woeful want of confidence in the country. Mr. Harriman, at Chicago, told the reporters of the vital necessity of confidence as a business asset, but after the impounded shares of Illinois Central stock had been locked in a safe deposit vault he appointed his own private watchman to see that the safe was not blown open by the interests which are trying to put him out of control of that property. These interests, led by Stuyvesant Fish of New York, another high financier who believes in the absolute necessity of confidence, but who evidently suspected Mr. Harriman of hiring a crackman, also placed a watchman in front of the vault. When perfect confidence was in this way restored and maintained, both Mr. Harriman and Mr. Fish expressed perfect confidence in the result of the forthcoming election of directors.

Let the unthinking laugh, but let the wise take heed. Neither Mr. Harriman nor Mr. Fish has made himself ridiculous. Neither of them is inconsistent. Confidence is necessary to business transactions. It always has been necessary. It always will be necessary. But what is confidence? It is not credulity. It is not gullibility. It is not a belief in magic, nor is it, above all, that simple, childlike faith in human nature which leaves a game wholly in the hands of men who are confidently expected to be proof against the temptation of using their opportunities for all they are worth. Confidence is that feeling of security which a capable business man always insists upon before investing his money, and which is the result of such checks and balances, and such watchfulness to see that nothing is led into temptation, that the money risk of an investment is reduced to the minimum arising out of market fluctuations or losses through the calamities of nature.

Shrewd men of the world, who know themselves and their fellows, will have no confidence until everything is nailed down so tight that nothing but earthquakes or cyclones in the business world can rip them up. This is the only real confidence. What is called confidence by dishonest promoters, aiming to serve dishonest ends, is the weakness which has enriched the get-rich-quick men. The professional gamster is believed to be a man without confidence, but few men have as much, since he plays the game strictly according to those rules of Hoyte, expressing the accumulated wisdom and experience of years, which make deceit impossible when a player uses his senses to enforce them against high financiers. The confidence of the professional who bets high stakes is not his confidence in the honesty or philanthropy of the dealer, or in that of any of the players around the board, but his confidence in himself, and in the sense and sand he uses to force square dealing, to rule out marked cards, detect flashes, and watch the whole run of a game. This is the degree of confidence which must have been felt by both Mr. Harriman and Mr. Fish, when, after the contested shares of stock, the voting of which had been enjoined by order of court, were under lock and key, each of them had taken the additional precaution of posting his own armed representative at the doors of the vault to keep the other from breaking in, violating the order of the court and putting the disputed shares to his own best use. Mr. Harriman could not have any confidence in a mere order of court, so long as he felt it possible for his opponents to get the shares and conceal them, in order to provide against a court decision in his favor, and his opponents were evidently fearful that Mr. Harriman might defy the court and produce the shares, if he could get them, as many ballots at the election. Neither Mr. Harriman nor Mr. Fish could have a reasonable degree of confidence until each of them had posted an armed man in front of the vault to prevent the other from violating the order of the court if he got a chance. The ordinary man of the sort who has the kind of confidence Mr. Harriman would have all of us cultivate, would assume that no man would violate the order of a court. He would leave the court and its officers to enforce its decrees, in perfect confidence that the law would take its course. It is the high financiers, who know one another, who give us a fine illustration of what intelligent confidence is by showing us that supreme confidence in themselves which is the only confidence worth having. It will be money in the pockets of the country to learn the lesson.

## Our Statehood League

The people of Albuquerque as well as a number of representative people from other parts of Bernalillo county, united last evening to form a non-partisan statehood league, and the success of the meeting is shown by the absolute harmony which prevailed.

The lion and the lamb laid down together and those who attended that meeting, republicans, democrats, socialists, etc., united on a common platform, pledged themselves to aid Governor Curry and his administration in the statehood fight and to work together for the common good of the state. The Citizen compliments the men who attended that meeting as well as the many citizens who signed the petition calling the meeting, but who were unable to attend.

Those men showed the right spirit—the true patriotism. There were men there whose gray hairs told that they had seen New Mexico grow from a struggling desert to its present prosperous condition. There were young men there who had only lately cast their first vote. They were all for statehood because they were Americans who realized the importance of the greatest American birthright—the government of the people by the people and for the people at the polls.

Albuquerque and Bernalillo county has reason to feel proud of such a representative gathering. There was no oratory, little discussion, only statehood. Every one was in earnest and every one wanted statehood—the quicker the better.

It is this spirit manifested all over New Mexico which leads our government and our delegate to congress to believe that New Mexico can obtain statehood at the hands of the next congress.

Certain it is, that if congress denies New Mexico admission at this time, it will do so against the will of practically every man, woman and child in this whole wide territory—embracing more acreage than two or three of the states, and containing as intelligent and as honorable a population as any state in the union.

The Citizen has carried statehood at the head of its editorial column ever since the present agitation was begun, and this paper will be found ready and willing at any and all times to sink every other issue, to forward this cause.

Statehood is all this territory needs to become one of the most thickly populated districts in the west and statehood is all that is needed to develop the greatest natural resources of any section of the United States. The immigration that has poured into New Mexico in the past five years has nearly doubled our population and with statehood we will more than double it again in two years.

The citizens of Bernalillo county could not have united to a more worthy end than the formation of the statehood league of last evening and The Citizen congratulates them for the patriotism they have displayed.

Let us all work in harmony to the one great end. It is named at the head of this column.

Eminent German scientist claims to have a remedy for the sleeping sickness, but District Attorney Jerome hasn't applied for treatment yet.

A prize ear of Indiana corn brought \$250 at an auction. The food stringency seems to be felt under the literary belt.

If messages continue to be sent flawlessly across the Atlantic by wireless, the cables are likely to become worthless.

## WHAT DOES IT COST YOU TO LIVE?

Pitchers full of rich creamy milk—dozens of freshly laid eggs—beef killed on the range. Fish and game and pure mountain air. A genuine old ranch house nestling in the prettiest valley in New Mexico. The Pecos river filled with mountain trout right at the door. Saddle horses, guns, fishing tackle, traps and dogs at your service. There is not a more ideal place to rest, recuperate and see the real life of the west anywhere in the world.

The round up is now on and the horses from the range will be broken in a few weeks. Every minute teems with a new and wholesome interest for you if you have never lived on a ranch.

Daily stage to the railway station.  
YOU COULDN'T SPEND MORE THAN NINE DOLLARS A WEEK IF YOU TRIED.

If you have come west to spend the winter, don't stay in town. Inquire this office or address The Valley Ranch, Pecos, New Mexico.

### Farm Sausage.

Our own make, 20c per lb. Give this a trial, if you want something really good.

### New Goods Received This week:

Ementhaler Imported Swiss, Roquefort, Gorgonzola, Neuchatel, Miniature Cream, Crawford Cream Cheese, Bismarck Kraut, New Almonds, Pop Corn, Fresh Frog Legs, etc., etc.

### Pure Lard.

Are you looking for an absolutely pure, fresh lard, something that you know is clean and sweet?

We have the best and only pure lard on the market. Made by ourselves in our own sausage rooms. Open Kettle Rendered, nothing but the pure hog fat boiled down. Give it a trial.

San Jose Mks

## THE CUB'S CORNER

"INTERVIEWING" BOB BURDETTE.

I was up rather late last night and when I got to the office I found all the good assignments taken as usual, and all I got was to copy the hotel registers. I sat down to think it over and to wonder if I dared to ask the editor for a pass to Bob Burdette's lecture tonight. Then it occurred to me that I would just so happen to be in the office when he came from Bob and maybe he would give me a ticket himself, so I flew over to the Alvarado.

"That's him right over there," motioned the clerk. A rotund little man, with close cropped mustache and snappy black eyes that twinkled with just a hint of worldly wisdom as well as misanthropic levity, stepped forward with a glad smile and outstretched hand.

"I am very glad indeed to see you this nice warm, sunny, chilly morning," he began. "One of my duties in every town is to meet the representatives of the press—and I am always glad to have it over as early as possible." I stopped to cogitate a while over that, but he went right on. "Now, you are the 'green man' on the evening paper here; I know that because, in the first place, you haven't an idea of what you want to ask me, and secondly, the reporters for morning papers never get up until 11 o'clock and invariably come in just in time to be invited to lunch with me."

"I might come later," I ventured, but the humorist carefully ignored the interruption.

"Now, I know how valuable your time is. What you want to ask me is, first, about my first visit to your city. All interviewers begin with that. It would make a pretty good story except for the fact that I got through Albuquerque the first time in the night, and all I remember is that they held the train ten minutes while the porter woke us all up getting a large party (female) off the car.

"Second, you would like to know all about my first funny story. That was a good while ago, when I usually mentioned a few circumstances to father, which I later found it necessary to modify in the woodshed by acknowledging I was only 'joking'."

"Then you would like to know about my first newspaper venture—rather a painful experience financially for my partner and I, though in the end we got hold of a man who literally turned things into money."

"Who was he? His name was Smith or Ringenshelter, or some such name as that, and he had run ahead of his ticket for county sheriff for twenty years."

"Speaking of tickets—" I ventured, but the painful remembrance of the sheriff only started me and I turned the humorist on a new reminiscent track.

"You would also like to know why I quit newspaper writing. Well, there got to be so many would-be funny men springing up that it spoiled the business. I venture to say that even in Albuquerque you have some misguided soul who occasionally tries to get funny with a typewriter. So I passed it up."

"Speaking of passes—" I began hopefully, but it was too late.

"Now, I have a warm place in my heart for the newspaper reporter. I know what he has to contend with. He must tell people every day all about things concerning which he knows absolutely nothing. My managing editor used to say that a good reporter can write a complete story with only half the facts, but that it takes a star man to turn out copy without any facts. However, I do not encourage that sort of journalism. I would advise you young men, never to write up, say a murder or a wedding, without at least making sure that the hapless victim was the dupe of a deep laid plot. A vivid imagination is also a great help, and especially valued by the business manager of all newspapers. If you learn that Mr. Montgomery Bonez-Jones had a slight domestic altercation resulting in a blackened eye, you must tell with vivid detail just how the 40-horsepower struck the telephone pole."

"Now, I realize it is no fun interviewing a funny man. Any other individual, I know from experience, cannot possibly give an interview without saying something ridiculous, but the professional humorist who gives lectures, always talks dry facts. What he wants is a lot of people to come to his lecture and pay their way in—"

"You don't think you could—" I began hastily.

"What's that? Well, I might tell you a little story about a friend of

mine in California. He is the father of several small girls, and all his life he has had a consuming ambition to be father of a boy. His wife, however, for some reason, prefers only girls. The other day I heard there was a new baby at his house. I rushed to the telephone.

"Who won out?" I asked breathlessly.

"H-hub-both," he stammered. "It's twins." Just then I heard a verbal commotion that I knew could never emanate from a man with "Rev." before his name. It was the editor. "You've been up here asleep half an hour. Hike now, and get those hotel registers copied."

## ABOUT TOWN

The exterior wood work of The Bank of Commerce is being painted today.

All members of the degree team of Triple Link Lodge D. of R. are requested to be present at their regular meeting tonight.

Mrs. W. R. Forbes, 184 North Eighth street, has issued cards for a number of card parties, which will begin October 31.

Dr. D. C. Labbe, representing the Occidental Life Insurance company, left yesterday for Phoenix, Ariz., on a policy selling trip.

D. D. Bronson, chief inspector in the forest service for the department of New Mexico and Arizona, has gone to Taos on forest business.

Lieutenant F. W. Ball, in charge of the local U. S. army recruiting office, has gone to Socorro to open a branch recruiting station at that place.

A regular meeting of the degree team of Triple Link Lodge Daughters of Rebekah, will be held tonight and all members are requested to attend.

Private Orville W. Beard, of the local U. S. recruiting station, left last night for Gallup, where he will be stationed in the recruiting office to be opened there.

A force of men was engaged today in filling in the tracks at the Central avenue railroad crossing. Several car loads of cinders were placed on the street and the crossing will be greatly improved for travel.

The ladies of St. John's Guild will give a reception on Wednesday evening, October 23, from 8 to 11 o'clock, at the residence of Mr. and Mrs. W. B. Childers in honor of Mr. and Mrs. Fletcher Cook. Mr. Cook is the new rector of St. John's Episcopal church and all friends and members of the congregation are invited to attend.

Invitations have been issued for a piano recital to be given by Miss Eliza Yrisarri at the Woman's Club building to-morrow afternoon at 3 o'clock. Miss Yrisarri is a pupil of Miss Menaul and is said to possess unusual musical talent and to have made much progress in her studies under the competent direction of Miss Menaul. She will be assisted by Mrs. Roy McDonald, contralto.

## JUDGE CRAIG GIVES

WAYLE TWENTY-FIVE DAYS

Fifteen Days for Striking a Woman and Ten for Fighting—Police Court News.

A native, Jose Moya by name, was arraigned before Police Judge Craig this morning and pleaded guilty to two charges, one for assaulting a woman and another for fighting with a man named Carlos Lopez. He was given fifteen days on the first count and ten on the second. While engaged in a quarrel with a native woman by the name of Penavilla Apodaca in the neighborhood of the Grande saloon on North Broadway last evening, Moya struck her on the body and pulled her hair. The woman then swore out a complaint against Moya and when the police went to arrest him he was found fighting with Lopez. Moya maintained that he was justified in defending himself from violence in both cases.

A native named Jesus Avila was fined \$5 in police court this morning for being drunk on the streets.

Henry Campbell, colored, was sent to jail for ten days for committing a nuisance on the streets. He pleaded guilty to the charge in police court this morning.

New York, Oct. 22—Lead easy.

\$4.45 @ 4.75; copper weak 12 1/2 @ 14; silver 61 1/2 c.

## PEOPLE JOINED HANDS FOR STATEHOOD

When W. B. Childers was made permanent chairman of the league he said that he had been so closely identified with political affairs in the county and territory that he did not think it best for him to accept the honor.

"That's all right—go ahead—there isn't any politics or personality in this," was heard from half a dozen.

Everybody forgot political lines and Albuquerque has never seen a more harmonious meeting in its history than the one last evening. Owing to the fact that the room was crowded, being too small to accommodate all who came, it was impossible to secure a complete list of those who took part in the organization.

**Leading Men There.**  
The following, however, were some of those who helped form the Berillo county statehood league, and took an active part in the proceedings:  
W. B. Childers, E. S. Stover, W. S. Burke, F. G. Pratt, Colonel A. H. Harris, General John Borradaile, C. A. Frank, W. S. Strickler, W. S. Howell, George S. Klock, D. K. Kellers, T. K. D. Madison, L. W. Galles, Felix Baca, Nestor Montoya, W. V. McClellan, Charles Mellett, J. K. K. A. Huels, R. W. Hopkins, M. Ortiz, Dr. Beber, F. R. Coe, J. A. Madril, J. P. Jones, G. W. Harrison, F. V. Clancy, J. H. Kaufman, Frank McKee, A. B. Stroup, W. F. Brogan, J. Grunfeld, H. B. Henning, M. Romero, J. S. Heaton, T. S. Hubbard, Dr. G. Hope, Dr. D. H. Carns, Frank L. Moore, W. P. Metcalf, E. W. Robinson, S. Neustadt, P. Hanley, Melville Summers, H. Cooper, A. W. Ireland, William Baer, T. N. Wilkerson, Fred Fisher, Harry P. Lee.

## THE ROLLICKING GIRL" OCTOBER 29TH

Charles Frohman's production of the merry musical comedy "The Rollicking Girl," which is announced to play at the Herald Square theatre, New York, for two hundred and fifty nights last season, is headed by that ever young German comedian, J. H. Edwards, in the always laughable character part of "Schmidt," the wigmaker. Mr. Edwards is ably assisted by Lila Blaw.

## HELL CANYON MAY COUNCIL TURNS DOWN BECOME LEAD DISTRICT BOARD OF HEALTH RECOMMENDATION

Much Development Work Is  
Being Done With Satisfactory Results.

At last it begins to look as though the Manzano mountains will be given a chance to show what is in them. Between Coyote and Hell canyons is a new mining camp in which eight miners are at work. The double shifts seven days in the week. This is the camp of Colonel A. P. Hunter, who recently purchased the Highland Mary lead mine of L. Graham of this city. The camp has been established under its present management only six weeks and a trail half mile long has been built up the mountain side to the Highland Mary mine, besides considerable work done in the diggings. A seventy foot shaft was already sunk before Colonel Hunter took hold of the property, but work on this has been temporarily abandoned in order to prospect a lead on the lode at a depth of thirty feet from the surface. A tunnel twenty feet in length has been driven thus far and is still going in at the rate of seven or eight feet a day. From faint indications of lead ore at the surface the vein has been continually widened and at present in the breast of the tunnel, it is over two feet in width. The ore, which is crystals of lime and feldspar containing sulphides of lead—cubes of galena, comes in streaks and pockets in the vein, but the indications are that a solid ore body will be encountered before long. The ore is 95 per cent lead and contains sulphur.

Before operating on any one part of the claim on a larger scale it is the intention of Colonel Hunter to thoroughly prospect the entire property in order to determine the most advantageous point from which to develop the lode, which is undoubtedly one of the most promising lead veins yet discovered in the Sandias.

**Discovered by Miner's Wife.**  
Beside the Highland Mary claim there are a number of other good claims located in the vicinity which will be thoroughly prospected. On the same lode as the Highland Mary are located the Blue Bell and Chisago claims and near by are the Mildred and Pearl claims. Half a mile distant to the east three new claims have been located which are splendid surface showings. The outcrop, on which these three claims are located, is the Bertha and the Engineer—was discovered by accident by Mrs. Charles A. Lucy, who is the owner of the claim.

It is the opinion of Colonel Hunter that the region between Coyote and Hell canyons will turn out to be a rich lead country and the many Albuquerque people who have claims in that vicinity are watching the operations with the keenest interest.

Colonel Hunter has thus far expended several thousand dollars on the camp and will continue to put money into the diggings until he is assured of its real value. The deep mine in the whole district does not exceed two hundred feet and this is the best of satisfaction. The boys are always sure of their share of applause and more so than ever when they present their negro turn. Stanton must be seen to be appreciated in his wooden shoe dancing. Rully Behan and Co. extracted several laughs with a tag chewing match over a lump of other object. Behan is a clever Irish comedian. His specialty with the concertina is a feature. The usual comic moving pictures close the performance and round out the character of the show. Every act changes specialty Thursday.

## CRYSTAL PRESENTS ACCEPTABLE SHOW

Headed by William G. Rogers, the phenomenal baritone, who sings the Crystal last night presented an excellent bill of vaudeville specialties as one would care to see. Mr. Rogers is a decided musical talent and will attract all the music lovers in the city toward the little show shop on Gold avenue. His vehicle for the first half of the week is "Dear Old Dixie," a ballad with sentiments for all Americans which only a powerful dramatic singing like his can bring out. The Wags, a new team in a laughable comedy, hit called "The Unexpected" or "Mistakes Will Happen," which pleases everyone. Stanton and Sandberg are doing black face this week, and doing it to the satisfaction of the boys. They are always sure of their share of applause and more so than ever when they present their negro turn. Stanton must be seen to be appreciated in his wooden shoe dancing. Rully Behan and Co. extracted several laughs with a tag chewing match over a lump of other object. Behan is a clever Irish comedian. His specialty with the concertina is a feature. The usual comic moving pictures close the performance and round out the character of the show. Every act changes specialty Thursday.

## ANNUAL CONFERENCE OF METHODISTS OPENS HERE TOMORROW

Sessions Will Continue From  
Wednesday Until Sunday—  
Many Visitors Expected.

The twenty-third annual conference of the Methodist Episcopal church of New Mexico will meet at the First Methodist Episcopal church in this city tomorrow morning. A large number of out of town clergymen will attend and a very enthusiastic meeting is anticipated. The congregation of the Lead avenue church is making elaborate preparations for the entertainment of the visitors. The conference will continue in session until Sunday. Visiting ministers will fill the pulpit at the church at the regular services on Sunday.

The program to be followed by the conference is as follows:  
**Wednesday, October 23—Morning.**  
9:00—Devotional Service. The Rev. J. H. Murray.  
9:30—Educational Session. Conducted by Bishop Cranston.  
10:00—Organization.  
10:30—Business Session.  
**Evening Session.**  
7:30—Praise Service.  
7:45—Educational Address. Educational and Freedmen's Societies. The Rev. J. A. Gelsinger, D. D., The Rev. H. C. Grinnell, Presiding.  
**Thursday, October 24—Morning.**  
9:00—Devotional Service. The Rev. F. E. Finley.  
9:30—Business Session.  
10:00—Praise and Devotional Service. Missionary Address. Bishop Earl Cranston. The Rev. C. F. Lucas, Presiding.  
**Friday, October 25—Morning.**  
9:00—Devotional Service. The Rev. J. M. Jackson.  
9:30—Business Session.  
10:00—Praise and Devotional Service. Reception to Bishop Cranston by the Brotherhood of St. Paul. Men only.  
**Sunday, October 27—Morning.**  
9:00—Love Feast. The Rev. J. L. Freeman.  
10:00—Sunday School.  
11:00—Public Worship. Sermon by Bishop Cranston.  
**Evening Session.**  
6:30—Epworth League.  
7:30—Public Worship. Home Missions and Church Extension.  
**Prayer Meeting.**  
Addresses by the Rev. S. J. Rogers, D. D., superintendent of the Arizona mission; Rev. E. C. Anderson and the Rev. H. Van Valkenburg.

## LITTLE EFFECT PREFERS DEATH IN COPPER CAMPS TO PRISON TERM

Fact That Work is Mostly  
Development Causes  
That Result.

Orogrande, N. M., Oct. 22.—The fact that this camp is practically only in the development period seems to account for the little effect the big slump in the price of copper is having here. The Southwest Smelting & Refining Co. is steadily and persistently pushing the completion of all necessary work preparatory to blowing in its new plant. A large force of men in all departments are now employed. Ten new houses have just been completed for the use of employees, which, with a number of others available, will take care of the workmen being imported.

The tunnel through the Lucky hill is now almost completed and the big ore bins at the railroad track are ready for the ore. The railroad company now has a few men at work putting the 2-mile spur running up to the mines in order, and as soon as the switch can be laid to the ore-bins everything will be in readiness for the transfer of ore from the mines to the smelter by rail. This will very materially facilitate the delivery of ore to the smelter and will be a saving of probably \$1 a ton in hauling the ore from the mines to the smelter. At the reduced price of copper this will be of considerable importance to the producers.

### Developing Prospects.

The main work of the camp at this time is being directed towards the development of ore, though a number of properties are producing good quantities of ore and others are blocking out large bodies. The Turquoise Copper Co. is probably the leader in production at the present time and is at the same time opening up very large bodies of a good grade sulphide.

The Electric Mining Co. is now at work on the erection of a 200-ton plant and expects to get it in operation by the first of the year at the latest. This company has splendid values and will undoubtedly make good.

### Testing Processes.

The First National Co. is now at work making tests of different placer processes and expects to erect a large extraction plant. A test of placer dirt taken from the property of this company just made showed an average value of \$2.55 per yard. Much of the ground, however, will run above this figure, some of it running to \$30 or \$40 a yard.

The Monte Carlo Co. is pushing the work on its big 3-compartment shaft and reports good values with the vein matter widening out. Two shifts are making good headway.

E. D. Baker has just opened up a new claim which is showing values in copper and gold of exceptional quality. Mr. Baker is firm in the belief that he has a large body of high-grade ore which will net him a good price even at the present copper quotations.

Convict at Yuma, Arizona.  
Suicides Rather Than  
Serve Sentence.

Yuma, Ariz., Oct. 22.—When the name of John Smith was called in court Monday morning for sentence a piece of gruesome humor was perpetrated in the name of the law, as all present knew that John Smith was dead, and therefore beyond the jurisdiction of earthly courts, and could not be present, even had he so desired. Evidently John had no consuming desire to be there for he hung himself Saturday night.

Smith plead guilty last week to having assaulted D. E. Ellsworth, another convict, and was cited to appear in court for sentence Monday. He was returned to the incorrigible cell at the prison and was then noticeably despondent. Sometime Saturday night he hanged himself with the sheet that was on his cot and Sunday morning his lifeless body was found.

John Smith was sent up from Pima county for burglary and this sentence would have expired February 15, 1908, but John went into the experimenting business himself, and it was all off with the sentence.

**Assaulted Fellow Convict.**  
The assault on his fellow convict was committed last August and was a most brutal one. He struck Ellsworth on the head several times with a heavy file, fracturing his skull, and he is still confined in the hospital from the injuries inflicted. Smith evidently preferred death to suffering the penalty for this crime, and so took the short cut for eternity.

John Smith was a single man, 45 years old and a Scotchman. He had been a sailor and had traveled all over the world. When he entered the prison, like many others who find their way there, he was an opium "fiend" and this habit may have helped him then by subverting his moral nature and inclining to crime.

**Afflicted With Sore Eyes for 23 Years**  
I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors, Mr. Salve, gave me half a box of it. To my surprise it healed my eyes and my sight came back.

Chas. L. Keppeler, 317-19 South Second.  
I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors, Mr. Salve, gave me half a box of it. To my surprise it healed my eyes and my sight came back.

**A Criminal Attack.**  
on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c at all dealers.

## NEW COMPANIES FILE THEIR PAPERS

Charters and Fourth  
Files Amendment.

Santa Fe, N. M., Oct. 22.—The following articles of incorporation have been filed in the office of Territorial Secretary Nathan Jaffa:

Roswell and Eastern Development Company. Principal place of business at Roswell, Chaves county, Territorial agent, Charles W. DeForest, at Roswell. Capital stock, \$50,000 divided into one thousand shares of the par value of \$50 each, commencing business with \$11,500. Object, constructing railroads and other kindred business. Period of existence twenty years. Incorporators, Richard F. Barnett, Charles W. DeForest, Kirby S. Woodruff, George T. Veal, and William T. Wells, all of Roswell.

The New Mexico Cottage Sanatorium. Principal place of business at Silver City, Grant county, Territorial agent, Wayne MacVeagh Wilson, at Silver City. Capital stock, \$50,000 divided into five hundred shares of the par value of \$100 each, commencing business with \$2,000. Object, conducting closed sanatorium for tubercular patients. Period of existence fifty years. Incorporators, Wayne MacVeagh Wilson, Earl S. Bullock, Julia E. Wilson, and Nina R. Bullock, all of Silver City.

The Pollock Sheep Company. Principal place of business in New Mexico at Albuquerque, Bernalillo county. Territorial agent, Charles Chadwick, at Albuquerque. Capital stock, \$50,000, divided into five hundred shares of the par value of \$100 each. Period of existence twenty-five years. Incorporators, T. E. Pollock, R. R. Pollock, and C. O. Robinson, all of Flagstaff, Arizona. The company was incorporated first in Arizona.

The Ramon Land and Lumber company has filed a certificate of amendment to its articles of incorporation in the territorial secretary's office, changing its principal place of business from Santa Fe to Buchanan. B. S. Phillips is the president and general manager of the company and is also designated as the territorial agent.

**Hard Times in Kansas.**  
The old days of grasshoppers and drouth are almost forgotten in the prosperous Kansas of today; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough cure and lung and throat healer ever discovered. Guaranteed by all dealers. 50c and \$1.00. Trial bottle free.

**Furniture repairs.** Chas. L. Keppeler, 317-19 South Second.

**A Criminal Attack.**  
on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c at all dealers.

**The "Yale"** **Avoid "Common," "Ordinary" Clothes**

IN most Young Men's Clothes the same common, ordinary look is always evident. They're unattractive.

—Not so with the "Yale."

It's refreshing to see a young fellow dressed in this Ederheimer-Stein suit, the newest, neatest, most distinctive style of the season.

There's better tailoring, better style, better fabrics; a garment that represents our high standard as merchants; one that indicates good judgment and good taste on the part of the wearer.

Sizes 30 to 38  
Prices \$18 to \$35

## M. MANDELL, Fine Clothing & Furnishings

### DR. ALGER MEMBER OF DENTAL BOARD.

Governor Curry Appointed Him to Succeed Dr. C. N. Lord, of Santa Fe, Resigned.

Santa Fe, N. M., Oct. 22.—Dr. Edmund J. Alger, of Albuquerque, has been appointed by Governor Curry as a member of the New Mexico Board of Dental Examiners filling the vacancy caused by the resignation of Dr. C. N. Lord of this city, who will remove shortly to Schenectady, N. Y. Dr. Lord was secretary of the board to which office Dr. M. J. Moran, of Deming, was elected at the recent meeting in Roswell.

Dr. Alger is one of the leading dentists of New Mexico and his appointment is a worthy one.

**DeWitt's Carbolic Witch Hazel**  
Salve is good for little burns and big burns, small scratches or bruises and big ones. Sold by J. H. O'Reilly.

If real coffee disturbs your stomach, your heart or kidneys, then try this clever Coffee imitation—Dr. Shoop's Health Coffee. Dr. Shoop has closely matched old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in one minute. No tedious long wait. You will surely like it. Get a free sample at our store. C. N. Brigham.

## LAND RISES WHEN WATER IS ASSURED

Hope Vicinity Prospers Because of Completion of Big Reservoir near Penasco River.

Hope, N. M., Oct. 22.—(Special)—Since the near completion of the reservoir, which is to be supplied with water from the Penasco river, farm land has taken a considerable rise in this vicinity. Land which two years ago could not attract the home-headers is today selling at twenty to thirty dollars an acre, with no government land left.

The reservoir is an extensive proposition. George Frisk is the engineer in charge of the construction of the dam, and the name of the big lake is the Cat Claw Reservoir.

About five thousand acres of land will be watered by this reclamation scheme and the land affected is scattered down the valley from Hope as far as Artesia.

Hope has been settled for many years. Some of the finest fruit farms in the Pecos valley are to be found here, and the orchards have in previous years furnished Roswell, Carlsbad and Artesia with peaches and apples. Fruit was otherwise not to be obtained at those places.

For upholstering see Charles L. Keppeler, 317-19 South Second.

## GEORGE PRIMROSE AS HE WILL BE SEEN IN THE PERFORMANCE

George Primrose and his all star minstrel company will be the attraction at the Elks' opera house on Friday and Saturday evenings. This engagement will emphasize the fact that negro minstrelsy is not dead, as this form of entertainment is entirely an American feature which has gradually drifted away from the ideas of its originators. One of the surest signs of its popularity is that every writer of comic opera and musical comedy introduces negro songs, melodies and dances in all their works, and invariably their biggest hits have been made with these numbers. There was a time when the public would stand for a so-called minstrel show to appear in Louis XIV costumes, powdered wigs, and painted faces, which was rather charming to look upon, because it was new and in some degree true to the troubadour style of the orient.

Are you looking for something? Remember the want columns of The Evening Citizen are for your especial benefit. It talks to the people and they talk to you.

## Nothing New Under the Sun

Solomon says there is nothing new under the sun, and Solomon is an authority. He may have done some things that were somewhat shoddy, but it has never been satisfactorily proven that he ever misrepresented.

Conceded, then, that he knew what he was talking about when he made that statement, how do you account for the queer things that bob up now and then that nobody ever saw before?

My dear Sir, they are all merely new combinations of old things. You can't even think of a really new thing. Try to think of a new animal. To save your soul, you can't help thinking of legs and eyes and teeth and tails, which are all old and well known things. Try something else.

The Albuquerque Citizen doesn't claim to have discovered something elementally new, but they have some fellows around the place who are mighty slick at hanging the old things together in new and taking ways. They'd fix you up an ad that would make even Solomon himself have some doubts about the old proverb.

IN COPPER'S  
LOSSDecrease in Price Estimated  
To Have Caused That  
Reduction.Boston, Mass., Oct. 22.—We have  
prepared some figures which reveal  
the astounding fact that in the prices  
of forty-six copper stocks there has  
been a stock market loss from the  
high point of last January of no less  
than \$526,000,000, says the Boston  
News Bureau.Never before in the history of the  
industry can such an exhibit be par-  
alleled either in point of severity or  
the brief period in which the loss  
has taken place.The high prices were, of course,  
made during the reign last spring of  
the eagerness with which the buyers  
scrambled and pleaded for their sup-  
plies at this level. It seemed as  
though a veritable copper famine  
must surely overtake the industry  
by midsummer.Demand Satisfied.  
By the end of March, however,  
there were very plain evidences that  
the "insatiable" demand from the  
consumers had been satisfied and a  
little more than satisfied, as just at  
this time orders for finished goods  
were suddenly cut in halves while the  
demand for wire disappeared en-  
tirely. The right about face devel-  
opment was as great a surprise to the  
copper buyers as to the copper  
sellers; all were fooled.The producers were loath to be-  
lieve that this condition was more  
than a temporary "spasm" and were  
disposed to hold tight to the high  
quotations which had been ruling  
since January 1.Much Accumulated Metal.  
Calumet & Hecla, however, was  
quick to note the turn in the tide,  
and as soon as the foreign represen-  
tatives cabled that concessions were  
being made in Europe, it met the  
cuts and supplied the best grade of  
lake at quotations which others were  
making for electrolytic. Calumet &  
Hecla has been a free seller of cop-  
per since the first of August and it is  
understood that the company sold  
two months output in September, or  
between 15,000,000 and 20,000,000  
pounds. Most of this was for export.Today there is an accumulation of  
200,000,000 pounds and the price has  
dropped from 25 1/2 cents to 14, with  
the market slow at the present  
figure. To the high cost producers, a  
14-cent selling price means no divid-  
ends, while to the others, of course,  
heavy reductions are in order all  
along the line.What perhaps is more striking  
than any other one development in  
connection with the stock market  
depression since the March 14  
break, is that a shrinkage of \$226-  
000,000 could have taken place with-  
out the assignment of a single Boston  
stock exchange house, a great tribute  
to the financial resources of the city.To check a cold quickly, get from  
your druggist some little Candy Cold  
Tablets called Preventives. Druggists  
everywhere are now displaying Pre-  
ventives, for they are not only safe,  
but decidedly certain and prompt.  
Preventives contain no Quinine, no  
lexative, nothing harsh or sickening.  
Taken at the "sneeze stage" Preven-  
tives will prevent Pneumonia, Bron-  
chitis, La Grippe, etc. Hence the  
name, Preventives. Good for feverish  
children. Preventives 25 cents.  
Trial boxes 5 cents. Sold by all  
dealers.

## NOTICE FOR PUBLICATION.

Department of the Interior, Land

Office at Santa Fe, N. M., Sept. 22,

1907.

Notice is hereby given that Thos.  
J. McNeill, heir of Mary J. McNeill  
of Bluewater, N. M., has filed notice  
of his intention to make final five-  
year proof in support of his claim,  
viz: Homestead Entry No. 7161  
made Aug. 1, 1907, for the NE 1/4  
NW 1/4, Section 22, Township 12N,  
Range 11W, and that said proof will  
be made before Silvestre Mirabal, U.  
S. court commissioner, at San Ra-  
fael, N. M., on November 5, 1907.He names the following witnesses  
to prove his continuous residence  
upon, and cultivation of, the land,  
viz:Hiram Chapman, Samuel C.  
Young Eugene T. Chapman, Ernest  
A. Tietjen, all of Bluewater, N. M.  
MANUEL R. OTERO,  
Register.They Make You Feel Good.  
The pleasant purgative effect ex-  
perienced by all who use Chamber-  
lain's Stomach and Liver Tablets, and  
the healthy condition of the body  
and mind which they create makes  
one feel joyful. Price, 25 cents. Sam-  
ples free at all drug stores.HAIR DRESSER and CHIROP-  
DIST.Mrs. Bambini, at her parlors oppo-  
site the Alvarado and next door to  
Sturges' cafe, is prepared to give  
thorough scalp treatment, do hair  
dressing, treat corns, bunions and in-  
growing nails. She gives massage  
treatment and manicuring. Mrs.  
Bambini's own preparation of com-  
plexion cream builds up the skin and  
improves the complexion, and is  
guaranteed not to be injurious. She  
also prepares a hair tonic that cures  
and prevents dandruff and hair fall-  
ing out; restores life to dead hair;  
removes moles, warts and superfluous  
hair. Massage treatment by vibrator  
machines. For any blemish of the  
face, call and consult Mrs. Bambini.MEN AND WOMEN.  
Use Big 44 for unnatural  
discharge, inflammation,  
irritation or ulceration of  
the mucous membrane.  
Prevents gonorrhea, and  
restores health and vigor.  
Sold by Druggists,  
or sent in plain wrapper,  
by mail, for \$1.00, or 3 bottles \$2.75.  
Circular sent on request.

### Reasons Why You Should Buy Our Shoes:

#### THEY ARE STYLISH.

No matter whether you select the most extreme models or buy the more conservative styles, they have the snap and finish that made your feet look dainty and single you out as being well dressed.

#### THEY FIT.

Snug around the ankle and over the instep to hold the foot in place, close under the arch to give the proper support to this delicate part of the body, roomy enough for the toes without any surplus leather to form unsightly wrinkles. Easy from the start till they are worn out.

#### THEY WEAR.

Only solid leather and first class findings go into our shoes and they are put together by skilled workmen. That's the reason they last so long and hold their shape.

#### THEY ARE CLOSELY PRICED.

We not only want to hold, but we want to increase our trade and therefore in our own interest we invariably make the lowest price possible.

Regular semi-monthly dance at the Commercial club tomorrow evening.

Jack Fenner returned to the city this morning from a business trip south.

E. H. Dunbar, the real estate agent returned home today from a business trip to Denver.

Frank Owen, manager for the Santa Fe Water and Electric Light company, is in the city on business.

J. H. Thatcher, of the firm of Paul Molock & Co., Gallup, N. M., is in the city to buy goods for his company.

C. A. Wright, formerly of the Alvarado curio store, but now a merchant at Canyonito, N. M., is in the city on business.

Mr. and Mrs. Seymour Lewinson were passengers for Santa Fe this morning. Mr. Lewinson to sell goods for L. B. Putney & Co., of this city, and Mrs. Lewinson to visit friends.

The closing out sale of Whitney Company's retail hardware stock is now in progress at from 35 to 75 percent reduction from regular prices. You can't afford to miss it.

Mrs. Jessie Miller left this morning for Carlsbad, N. M., to attend grand lodge of the Eastern Star, which will be in session there following the sessions of the Masons.

Henry Pennypacker, advance agent for "The Rollicking Girl," which comes to the Elks' opera house, October 29th, is spending the day in the city.

Dr. W. E. Sunderland, who was recently admitted to practice in New Mexico by the Territorial Board of Pharmacy, was a passenger to Estancia yesterday over the automobile line.

Local Presbyterians are all enthusiastic over the anticipated visit to the city next Sunday of Joseph Ernest McAfee, secretary of the home board of missions of the Presbyterian church, who is in the southwest attending conferences. Mr. McAfee will be at Tucson tomorrow and at Phoenix on Thursday. He will spend Friday at the grand canyon and arrive here Saturday evening on the limited. He will preside at the Presbyterian church at the morning services on Sunday. Monday he will deliver an address at Santa Fe. Mr. McAfee is the youngest secretary on the board, and one of the ablest speakers in the clergy of the Presbyterian church.

Lomori & Co., at 323 South Second street, engaged in the grocery business, have decided to enlarge their facilities and are now installing a big meat market outfit, with which they will supply their customers with the best of meats. The firm is doing an excellent business.

Tonight at the Elks' opera house Robert J. Burdette, the famous humorist, will deliver the first lecture of the Brotherhood lecture course. This course promises to be very popular judging by the large number of tickets already sold.

The film of a moving picture machine in the Dreamland theatre, in the Stamm building on South Second street, caught fire last evening at 8 o'clock during an intermission in the second performance of the evening and started a blaze, which came near resulting in a costly conflagration, both in the loss of life and the loss of property.

Fortunately the theatre was only lightly attended and the ten or fifteen people in it escaped, and, besides, the fire cut off the street entrances. The loss to Joe Scotti and William Merna, owners of the theatre, is not yet known. Two films, 16 feet long, owned by a leasing company at El Paso, were burned and the moving picture machine is a total loss. The walls of the building are badly burned and a number of chairs in the rear end of the theatre were scorched. The flames did not reach the stage but smoke and gas stains on the curtain showed that had the spectators not escaped before the street entrance exits were cut off they would have lost their lives by suffocation. Mr. Merna, who was operating the machine at the time of the accident, has his hair singed. Mr. Merna says that he has no idea how the film caught fire. He had just changed the moving film and was preparing the light and was prepared to use plates for the illustrated pictures, when the thing burst forth in a flame. It was all ablaze before he could escape and the gas was choking. Mr. Scotti, who was playing the piano near the north entrance, saw the blaze start and after giving the alarm to the people in the theatre, telephoned the fire department. The spectators had little trouble getting out before the flames reached the walls of the foyer, but the flames had covered the whole front of the place when the department arrived.

There was no insurance on the moving picture machine as they are considered combustible goods and are not insurable.

## ALBUQUERQUE BROWNS FAILED TO WIN FOR TUCSON.

First Games Result In Shut-Outs For Tucson and Douglas.

That some red hot base ball is taking place at Tucson is evident from the scores of the games played on Sunday. Phoenix won the initial game of the tournament from Tucson by a score of 4 to 0, and Bisbee took the second game from Douglas by a score of 5 to 0.

The Albuquerque boys playing with Tucson failed to connect with the ball. Tarr, of Estancia, playing with Tucson, got one of the four hits made by Tucson. Crable and Corban are credited with one error each. Crable pitched the game and allowed but three hits. Speer pitched for Phoenix and had thirteen strike-outs upon said promissory note secured by Crable. Nobody walked in the game and but one man was given a base by being hit—Edmunds. The Phoenix team gave Speer all edge support, while Crable had four errors behind him, all were costly.

Playing two games a day the Tucson tournament will continue for eight days.

## BERNALILLO COUNTY DISTRICT COURT

A suit entitled Mrs. E. Teutsch vs. Martha H. Alexander and William D. Alexander, her husband, was filed in the district court yesterday afternoon by S. Burkhardt, the attorney for the plaintiff. The plaintiff prays that an account may be taken of the amount due—\$249.34, amount of promissory note, secured by a chattel mortgage on household goods—upon said promissory note and secured by said chattel mortgage, including attorneys' fees and costs of suit, and that judgment may be entered against said defendants therefor; that said defendants be decreed to pay the same by a time to be fixed by the court and that in default of such payment, said property may be sold and the proceeds applied to the satisfaction of said indebtedness. The date of the note is Dec. 31, 1906, and at the present time Martha H. Alexander resides in Cherokee, Okla., and William D. Alexander at Nome, Alaska.

Drew Check on Wrong Bank.

This morning in the district court commenced the trial of Alberto Luna, indicted for obtaining money on a worthless check, alleged to have been signed with the forged signature of Andres Romero. In the month of December Luna cashed a check for \$75 at the Graham Bros. saloon, which check was drawn on the First National bank of this city. The check was returned to Warren Graham by the bank as being worthless and Mr. Graham then notified the father of Alberto Luna, who made good the amount obtained by his son.

The defense takes the stand that the defendant by mistake drew a check on the First National bank whereas he intended to draw on the Bank of Commerce where he had an account. It is also maintained that the defendant had been drinking and was in condition to make such a mistake.

At 4 o'clock the case had not gone to the jury. M. C. Ortiz is the attorney for the defense and Julius Staab appears for the plaintiff.

Suit on Account.

In the case of Bertold Spitz and Bernard Hfeld, partners, doing business under the firm name and style of B. Hfeld & Co. vs. Roberto J. Chavez, which was filed in the district court yesterday afternoon, the plaintiffs pray judgement against the defendant for \$130.50, alleged to be due for value received, and interest and costs of suit. Felix H. Lester is the attorney for the plaintiff.

For household goods, call on Chas. L. Keppeler, 317-19 South Second.

Take DeWitt's Little Early Pills. Sold by J. H. O'Reilly.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all dealers, 50c.
