BUTTER TRUST CHARGES ALL PEOPLE WILL STAND

President Rueb, of Board
Which Controls Chicago
Prices, Tells How
Market Is Fixed.

SUPPLY AND DEMAND ARE NOT CONSIDERED

This Exchange Practically Rules
East and West as Far as Farm
Products are Concerned.
"Charge All They'll
Pay" the Motto.

Chicago, Ill., Oct. 24.—In making its investigation of prices of commodities and the usual price of labor in this city, the bureau of statistics of the department of agriculture has uncovered the fact that the prices paid by the people for butter and eggs are based, not on competitive values, nor upon market conditions, nor the laws of supply and demand, but upon the arbitrary ruling of a few men who merely estimate how much the consumer can be forced to pay. One of the inspectors who is making this investigation, said:

Food Trust.
"There is a food trust in Chicago which, broadly speaking, fixes the price each morning that all America must pay for butter and eggs, as well as many other commodities. Underlying this trust is an organization known as the Chicago butter and egg board. This is composed of less than 100 Chicago butter and egg commission merchants. Despatch Transportation Co., Missouri River Despatch, New York Despatch Refrigerator line, and a number of quotation publishers.
"This board is a duly incorporated body, the purpose of which, according to its bylaws, is to establish, for the benefit of its members, daily market quotations and prices on butter and eggs."

Chicago Rules Market.
"There are other butter and egg boards in the country which are not supposed to be affiliated with this, but in the last analysis it is found that the Chicago first price rule the markets of the nation. The prices made today in Chicago are usually merely reflected in the markets of Philadelphia, Boston and New York.
"In the shabby exchange of the Chicago butter and egg board, in the Marine building, this morning, perhaps fifty men were gathered in a room before a blackboard on which were chalked such items as receipts, weather conditions, previous prices and market reports from other cities. In the rear of the room was a dark little committee room, with nine chairs drawn around a long black table. At 9 o'clock nine members of the board, duly elected for the purpose, composed the committee. The committee, after a brief discussion, filed into the little black room and locked the door.
"Five minutes of discussion and then the committee communicated by telephone with a secretary who marked upon a blackboard the following:

Prices "Fixed."
"Extra Creamery butter 27 1/2 @ 28c; firsts 25 1/2 @ 26 1/2c, seconds 23 1/2 @ 25c, and so on through a list of grades.
"These prices were instantly telegraphed to all parts of the country. These figures formed the base of the price buyers paid."

"In the same manner another committee of nine, a few minutes later, retired to the room and fixed the prices of eggs. The secretary marked up: Prime first 24c, firsts 23c, seconds 21 1/2c, dirties 19 1/2c.
"On the surface this seems all right. But there is no buying or selling on the floor of the exchange. The price is simply fixed arbitrarily by the ruling majority of each committee."

"As the food trust, which is another name for Armour, Swift and other great packers of the middle west, really dominates the markets, it is reasonable to suppose that they dominate the spirit of the price committees. The transportation and refrigerator lines, privileged members of the board, are the great shippers and the tentacles of the trust."

Charge All They'll Pay.
"The milk and cream of the farmer goes to the creamery buyer, who in turn sells his product to the same branch of the trust. The small merchant buys eggs from the farmer and in turn sells them to other agents of the trust. Thus are the two great commodities of this consumption turned into the hands of a few men. The pressure brought upon the farmer and small dealer to effect this corner can easily be surmised."

"Prices fixed by the committees are the prices the trust agrees to pay the shipper or jobber. If they name 24 cents as the egg price, out of that must come the profit to the farmer, the egg gatherer, the country merchant, and sometimes other middle men. Each profit reduces the return to the producer, the farmer.
"When extra creamy butter was quoted wholesale at 27 1/2 to 28c, Chicago retailers were selling it to the consumer at 32 to 36 cents a pound. In fashionable districts of the city this grade of butter selling at 36 cents, while in the poorer districts it sold at 32 cents. The retailer has his own little system of

FINANCIAL SITUATION SH BRIGHTER TODAY

Secretary Cortelyou Makes
Deposits of Twenty-Five
Million Dollars in New
York Institutions.

MEN OF MONEY ARE GIVING AID

Most Acute Local Crisis Since
1884 Is Fast Passing Away in
Empire City and Confidence
Is Resuming Sway
Rapidly.

New York, Oct. 24.—A series of conferences last night participated in by Secretary Cortelyou, J. Pierpont Morgan, John A. Stewart, James Stillman, and other representative men of affairs, disclosed an agreement in opinion that the banking situation is well in hand and that with government deposits to be made by Secretary Cortelyou today, there will not only be enough cash on hand, but even more than might be needed safely in any emergency. Early this morning Secretary Cortelyou said he had directed deposits in this city of twenty-five million dollars and predicted a speedy return of confidence, which circumstances, he declared, warranted.

Factors in Improvement.
The run on the Trust Company of America was continued this morning. The determination of other trust companies to aid the Trust Company of America, Mr. Morgan's pronounced part in the efforts to stay the panic, and the reassuring statements by John D. Rockefeller and other men of money, it is believed, cannot fail to help what is in some respects, the most acute money crisis New York has seen since the Grant-Ward failure in 1884.

Governor Hughes' prompt appointment of a new superintendent of banks in the person of Clarke Williams, a prominent banker here, to fill the vacancy created this week, and steps to have the Knickerbocker Trust Company resume business, are other satisfactory signs.

Temporarily Suspended.
The Hamilton bank on West 125th street, and the 12th Ward bank today suspended payments to depositors. The banks claim to be solvent and propose to reopen when public confidence is restored.
The Empire City Savings bank, also posted a suspension for thirty days under the banking laws. Its officers feared a run, they said, because of the suspension of the Hamilton and Twelfth Ward banks, which are in the same neighborhood. The Empire City Savings bank owes depositors about three millions of dollars.

Small Institutions.
The Hamilton bank was not a large institution but had deposits of about seven millions. E. R. Thomas, who was associated with Heinze and Morse in several financial ventures, resigned as president after the break in United Copper, and William R. Montgomery was elected president of this bank.

No Trading Today.
Pittsburg, Pa., Oct. 24.—At a meeting today of the members of the Pittsburg stock exchange it was decided not to re-open for business today.

CHINATOWN CLEANED BY BUBONIC PLAGUE FIGHTERS

Inspectors at Work Eradicating Disease From Frisco's Oriental Quarter.

Seattle, Wash., Oct. 24.—Dr. A. S. Oliver, special medical inspector, who is directing the campaign here for the eradication of the bubonic plague started out with a force of sub-inspectors today to clean up the Oriental quarter. No new cases of the plague have developed.
The plague situation is much improved and there seems reason to believe that the efforts of the inspectors will be rewarded by the disease being eradicated. The theory that rats aided in spreading the germ and the destruction of a tenable one, and the rats of the city doubtless aided in the work of sanitation.

The disease, which is the genuine bubonic plague of the Orient, was brought here by Asiatics, and was allowed to spread by them before they notified the white officials of their plight. There have been 76 cases to date with a mortality of 82 per cent, and of the remainder, 18 are still ill, though improving. Ten are still confined in the detention camp, though none of these were afflicted, having only been exposed to the contagion.

MINING BOSS KILLED BY AN EXPLOSION.
Tucson, Ariz., Oct. 24.—Y. Ocha, night shift boss at the Old Pueblo mine near here, was instantly killed by the explosion of a "missed" shot early today, and C. A. Holguin, a miner, was badly hurt.

Dr. Samuel Blair, Superintendent of the English Mission
of the Methodist Episcopal Church in New Mexico

SECOND DAY SESSION OF NEW MEXICO M. E. CONFERENCE

First Day's Attendance Doubled By Last Night's Arrivals.

SUPERINTENDENT BLAIR'S
REPORT IN FULL

The second day of the twenty-third annual conference of the Methodist Episcopal church of New Mexico opened at the First Methodist church this afternoon at 3 o'clock with a business session.

The attendance of yesterday was doubled today by new arrivals, though there are some churches in the territory not yet represented.

The arrivals last night were as follows:
Rev. M. A. Hoag, of the Silver City circuit, which includes congregations in mining camps and small towns in Grant county.

Rev. William Reese, pastor of the First Methodist church at Raton.

Rev. J. M. Jackson, pastor of the First Methodist church of Silver City.

Rev. A. J. Steel, pastor of the First Methodist church of Santa Rosa.

Rev. W. A. Pratt, pastor of the new First Methodist church of Escondido.

From all parts of the territory the ministers are reporting prosperity in church work, as well as in industrial lines.
The conference promises to be one of the most profitable ever held in New Mexico. Bishop Earl Cranston is present and has infused much enthusiasm into the work in hand. Though the reports are not all in as yet it is already evident that the membership of the church has been materially increased during the past year. The various churches of the territory are in very good financial condition. The congregation at Escondido has just dedicated a new edifice costing over \$3,000.

The report of Rev. Samuel Blair, superintendent of the Methodist missions of the territory, which is published herewith, shows the condition of the Methodist church in New Mexico to be particularly prosperous. This report is a very intelligible resume of the year's work and contains much interesting and valuable information as well as a history of the church in New Mexico.

The conference will continue in session until Sunday. The appointments will probably be made Sunday.
The program tonight includes a song and praise service at 7:30 o'clock and an address by Bishop Cranston at 8 o'clock.
Superintendent Blair's report follows:

MASONIC GRAND LODGE TO MEET HERE IN 1908

Officers Chosen by Order of
New Mexico at Meeting
at Carlsbad.

KNIGHTS TEMPLAR ARE
HOLDING SESSION TODAY

Carlsbad, N. M., Oct. 24.—After electing officers and selecting Albuquerque as the place for meeting next year, the grand lodge of New Mexico Free and Accepted Masons adjourned Wednesday night, and the Royal Arch Masons' grand chapter, which had been in session during the day, followed suit in adjourning last night. Today the grand commandery of Knights Templar of New Mexico is in session. It will adjourn tonight and tomorrow and Saturday will be devoted to the meeting of the Eastern Star of New Mexico.

The Officers.
The officers elected by the grand lodge of New Mexico are as follows: Grand master, Colonel James W. Wilton; deputy grand master, Chester D. Stephens, Gate City Lodge No. 11; Raton; senior grand warden, Frank Johnson, Hiram Lodge No. 13, San Marcial; junior grand warden, Edward L. Medler, Temple Lodge No. 9, Albuquerque; grand treasurer, A. Maloy, Temple Lodge No. 6, Albuquerque; grand secretary, A. A. Keen, Temple Lodge No. 6, Albuquerque; grand senior deacon, M. R. Williams, Chapman Lodge No. 2, East Las Vegas; grand junior deacon, William B. Walton, Silver City Lodge No. 8, Silver City; grand chaplain, Rev. E. McQueen Gray, Eddy Lodge No. 21, Carlsbad; grand sword bearer, J. P. McNulty, Cerrillos Lodge No. 19, Cerrillos; senior grand steward, H. H. Majors, Sacramento Lodge No. 24, Alamogordo; junior grand steward, B. W. Randall, Lordsburg Lodge No. 20; grand tyler, A. M. Whitcomb, Temple Lodge No. 6, Albuquerque.

Knights' Officers.
The present officers of the grand commandery of Knights Templar are as follows:
Arthur Everitt, Albuquerque; R. E. grand commander, J. C. Slack, Clayton; V. E. deputy grand commander, D. L. Gremp, East Las Vegas; E. grand generalissimo, J. H. Wroth, Albuquerque; E. grand captain general, George Shepard, Domingue; E. grand senior warden, Frank Henning, Raton; E. junior warden, C. D. Stevens, Raton; E. grand prelate, A. J. Maloy, Albuquerque; E. grand treasurer, A. A. Keen, Albuquerque; E. grand recorder, C. D. Boucher, East Las Vegas; E. grand standard bearer, W. P. Fox, Albuquerque; E. grand sword bearer, John W. Poe, Roswell; E. grand warden, A. M. Whitcomb, Albuquerque; E. grand captain of guard.

GOV. CURRY WORKING FOR TERRITORIAL ORGANIZATION

People of Pecos Valley Enthusiastic for Statehood--Off
for Otero and Lincoln.

RETURNS TO CAPITAL
DURING COMING WEEK

Roswell, N. M., Oct. 24.—"The people of the Pecos valley are for statehood unanimously. I will leave today for Lincoln and Otero counties."

The above telegram was received by the Citizens' office, which will illustrate the system by which the new governor does things. Governor Curry as a man of action, is making a trip through the territory and will visit as many counties as possible for the purpose of interesting the people in the organization of statehood leagues. He is well aware that many districts do not have to be visited by himself or any one else for the people are alive to the work before them just as in Bernalillo county.

In other districts, while every one is for statehood, some do not realize that an organization, which will present the solid front of every party and faction, is required.
As a result of the governor's work, statehood leagues will be organized in the counties of the Pecos valley and the people will co-operate with him in the statehood fight.
Governor Curry desires to first organize the territory thoroughly and he will then carry the fight to Washington, leaving behind him the solid vote of the territory and the support of all her people regardless of party or of party beliefs.
The governor was scarcely in office until he opened the statehood campaign and he has prosecuted it vigorously ever since with the aid of the party leaders and county chairmen.

TWENTY INJURED IN STREET CAR WRECK

Chicago, Ill., Oct. 24.—Over twenty persons were injured in a collision last night between Madison street and Western avenue cars at a crossing. Robert E. Smith was so severely crushed that he will die. The crash was due to wet rails which thwarted the efforts of the motormen to stop the cars.

**BUTTE UNION DECLARES
WHITE STRIKE OFF**
Helena, Mont., Oct. 24.—Ten operators are working in the Western Union office here, having been reinstated, following a resolution of the local union which declared the strike off. The postal force has also been reinstated.

LEADERS IN RACE WERE ONLY FIVE MILES APART

French Balloon Traveled
Nearly as Far as German
Winner of Bennett
Cup Yesterday.

IT HOLDS RECORD FOR ENDURANCE

"L'Isle de France" Remained in
Air Many Hours Longer Than
Any Competitor--All Traveled
Many Miles From
Straight Course.

New York, Oct. 24.—Alfred LeBlanc, pilot of the French balloon, L'Isle de France, and E. W. Nix, his assistant, who landed at Herbertville, N. J., last evening, finishing second in the great race from St. Louis, which was won by the German balloon, Pommerin, arrived in this city today. They reached here cold and hungry but aside from minor discomforts had a fine trip.

Nix was born in Franklin county, Ohio, and recognized familiar scenes when passing over that neighborhood in the balloon.
Pleased With Races.
St. Louis, Mo., Oct. 24.—The officers of the St. Louis Aero club received many telegrams of congratulation over the success of aeronautics week. There seems to be little doubt that a determined effort will be made next year by American aeronauts to regain possession of the Bennett cup, won this year by the German. The race next year goes to Germany.

Brigadier General James Allen, chief officer of the signal corps of the United States army, who witnessed all the ascents made here this week, was much impressed by the performance of some of the balloons yesterday, and declared that he would recommend in his next report to the secretary of war that several balloons of dirigible quality be bought as an experimental work.

Order of Landing.
The victorious German balloon, the Pommerin, which landed at Asbury Park by slightly more than five miles the advantage of the French contestant, L'Isle de France, second in the race, which descended at Herbertville, N. J., a few miles from the Atlantic coast, and slightly north of Point Pleasant. Another German balloon, the Dusseldorf, stands third in the race. American entries are fourth and fifth, a third German team is sixth, a French team seventh, an American eighth, and the English ninth.

The Distance.
The unofficial estimated airline flight of the Pommerin is 880 miles and that of the L'Isle de France is 875 miles. The Dusseldorf, third, which landed near Dover, Del., is estimated to have covered 790 miles. The official measurements will be completed at the geological survey of the United States government at Washington. Only the proximity of the Atlantic ocean kept the wonderful flight of the Pommerin. The balloon could have remained in the air many hours longer, and undoubtedly had it done so, it would have made a new record but for the expense of water ahead.

Record for Endurance.
While losing the record and possession of the cup, the French team, which sailed L'Isle de France gained the honor of the record for duration. Starting from St. Louis at 4:10 p. m., central time, they landed yesterday at 1:10 p. m., eastern time, making their time in the air just forty-four hours. The previous record was forty-one hours and five minutes, made by Count de la Vaux of France. The record for the international race set by the balloon United States in the flight from Paris last year was 42 hours, 45 minutes, and 30 seconds. The record was more than doubled by the German and French balloons, Pommerin and L'Isle de France. In fact, but one of the nine contestants in this year's race failed to exceed the 1906 record.

Results Excellent.
The result of the race, the first of its character ever held in this country, has qualified the United States, in the opinion of all balloon experts gathered here, as the most favorable aeronautic grounds in the world and many regions were expressed that the race of next year could not be fought out over the same territory. Germany has obtained possession of the trophy presented by Count de la Vaux of France, and the race next year will be at the home of the German holders.
Final possession of the trophy rests with the club which wins it three times. The Alton United States, which finished eighth in this year's contest, was the winner in 1906, gaining a claim on the cup for the Aero club of America.

Won \$2,500 and Cup.
Aside from possession of the cup, the Germans won a cash prize of \$2,500, also offered by Mr. Bennett. Although the world's record for distance, known as 1,200 miles, is held by Count Henry de la Vaux, there is some doubt as to whether this distance means a measured air line flight or the total number of miles traveled in drifting currents.
All of the balloons in this year's race traveled many more miles than the figures with which they are accredited show, but only the air line measurements are considered in the award of the prizes.

Badly Hurt by Mine Explosion.
Phoenix, Ariz., Oct. 24.—Fred Anderson was stricken blind and badly burned, and his partner, William Sayre, is dying as the result of injuries received by a premature blast on one of the Harcuvar copper properties near here yesterday.

DAWESSAYS BONAPARTE IS GRAND STAND PLAYER

Ex-Comptroller of Currency Arraigns Department of Justice Before Civic Federation Members.

SAYS DEFENDANTS ARE SINGLED OUT

He Concluded Address by Defense
of New York Financiers Whom
He Declares Benefit the
Whole Country in Inestimable Measure.

Chicago, Oct. 24.—Delegates to the National Civic Federation today were eagerly discussing remarks made at the meeting last night by Charles G. Dawes, ex-comptroller of the currency. Dawes made a sharp attack upon the federal department of justice, virtually charging the officers of the attorney general's department, with making "gallery plays."

He said in part:
"I cannot say that it is intentional on the part of the department of justice, but some of its actions look remarkably as if favoritism was being displayed in the selection of combinations to be investigated, and in the manner of attack. It is remarkable that cases handled by the department of justice always are tried in the newspapers before they get into the courts."

Defends Financiers.
He then entered upon a defense of the financiers of New York, asserting that they are doing good work for the whole country, the value of which is hard to estimate. "They are seeking," he said, "to uphold the credit upon which prosperity rests."

In conclusion he urged an amendment to the Sherman anti-trust law so as to avoid the implication that all combines are of criminal character, and then more specifically indicate which are criminal.

Address Much Discussed.
Dawes' address today was the chief topic of discussion, and while several papers on topics of considerable interest were read before the federation by leading men of the nation, the remarks of the ex-comptroller took precedence over all else, and overshadowed all other expressions.

Just what was Dawes' idea at this time in taking up such a procedure, is not known, nor did he give any reason, further than his desire to show that the department of justice is "making a farce" of itself. He arranged Attorney General Bonaparte in no uncertain terms both during his address and in discussion afterward.
The general trend of the meeting of the federation has been toward the idea that most trusts and combinations are "criminal," hence Dawes' speech was somewhat different from the usual order.

Village Destroyed by Fire.
Rome, Italy, Oct. 24.—Earth shocks throughout Calabria yesterday caused considerable damage, destroying two villages. Out so far as known only ten lives were lost. The cathedral at Torre di Gerace was thrown down, as was an ancient tower which has withstood the earthquakes for centuries.

CHINESE MAKE VICIOUS ATTACK ON CREW OF SHIP

Were Angered Because Countrymen Were Held By Quarantine Officials.

Santa Cruz, Me., Oct. 24.—Because two hundred of their countrymen were delayed on board ship by sanitary inspectors at this port, four hundred Chinese, who had just landed, made a murderous assault last night on the English ship Woolwich and her crew. Many of the white men were seriously injured. Five may die of the wounds. The Chinese would have swept all before them but for the timely aid brought by a large force of federal troops and gendarmes.

The orientals were enraged beyond measure when the sanitary inspectors refused to permit all the passengers to disembark. Sections of the stevedores on the Woolwich to land, many of those who did land being related to those who were detained.
A plot was arranged during the early evening and as soon as darkness came, the Chinese on shore scrambled over wharf boats and by other means to the ship where their countrymen were confined. Their attack nearly released the imprisoned men.

NITRO MILL BLOWS UP, KILLING FOUR
Ashland, Wis., Oct. 24.—Two mixing mills of the Atlantic Dynamite company's factory, six miles from here, blew up today killing Arnold Husland, Ole Wickes, Peter Wickes and an unidentified man. Two hundred pounds of nitro-glycerine exploded. The cause is unknown.

RAILROAD DEPARTMENT

BEECH TIMBER
FOR CROSS
TIES

Expert Recently Sold Here
That It Is Nearly Equal
To Oak.

An expert who recently visited the city to examine the Santa Fe's big tie preserving plant, said in regard to the tie timber storage:

"Experts in wood preservation in this and other countries have discovered that the beech makes a most lasting and durable cross-tie when properly treated. In the search for railroad tie timber to fill the wide gaps made by the dwindling supply of white oak, lumber manufacturers have been compelled to turn to many woods which were once considered inferior, but which under creosote or other chemical treatment have been found to furnish excellent substitutes for the oak."

Hitherto Rejected.

"Railroad builders have rejected beech heretofore because it decays quickly in damp places. They wanted oak, and when that could not be had they took other decay-resisting woods, but in most cases they did not consider beech at any price, except as a temporary makeshift. Yet it has been proved by actual tests of long duration that a beech tie may be given a preservative treatment which will make it outlast white oak. It is possible to turn this knowledge to great practical use in relieving the enormous demand upon the limited supply of good tie timber."

Grows in Profusion.

"The beech is found widely distributed throughout the eastern portion of the United States, and in the lower Ohio river, and on the slopes of the Allegheny mountains. It grows to an average height of 70 to 80 feet, but occasionally reaches 120 feet in height are found. The diameter of mature trees is often three or four feet. In the forest, the beech forms a comparatively slender stem clear of branches for more than half its length. The wood is hard, strong, tough, and very close grained. Its use is largely limited to the manufacture of chairs, shoe lasts, plane-stocks, handles, and for fuel."

White Oak the Best.

"The ideal timber used for cross-ties is white oak. This combines all of the good qualities of the beech and in addition is very durable. Consequently it has been widely employed by the railroads for tie purposes. It not only is an excellent wood for ties but is widely used in ship building, for construction, and in cooperage, the manufacture of carriages, agricultural implements, the interior finish of houses, and for furniture. On account of its extensive use the supply has been greatly reduced, and a great many railroads are now forced to pay almost prohibitive prices for white oak ties or to substitute other and cheaper woods to replace the white oak ties rapidly disappearing from their lines. Michigan cedar or arbutus has been extensively used to take the place of white oak."

WHOLE WORLD SUPPLIES
MEXICAN COAST LINE.

Mexico City, Mex., Oct. 24.—The railroads which E. H. Harriman and associates are building down the Pacific slope of Mexico has more cosmopolitan, or world-wide features, in its construction than any railroad in the world, it is said. The ties for the road are being brought from Japan; the steel rails come from Bilbao, Spain; the locomotives, the coal that is used in the locomotives is brought all the way from Australia; the grading machinery is from Germany, and the laborers have been imported in ship loads from Russia, Japan and China. These foreigners work side by side with Yaqui Indians in the construction of the line.

Comparatively little of the material used in the construction of this new road has been brought from the United States. The whole world has been searched over in an effort to find the cheapest country and place in which to buy the various kinds of material necessary for the construction of the line, and it is always purchased where it can be had at the lowest cost.

The distance from Guaymas to Guadalupe, or to Orendain, a point twenty-five miles west of Guadalupe, where the new road will connect with the Mexican Central, is about 850 miles. It is understood, however, that it is planned to extend the road all the way down the Pacific coast to the Isthmus of Tehuantepec, a total distance of about 1,500 miles. It will connect with the National Tehuantepec line on the Isthmus of Tehuantepec. It is claimed that the completed portion is the best built road in Mexico.

WORK ON TANK FOR
SANTA FE IS BEGUN.

El Paso, Texas, Oct. 24.—The foundation for the new steel tank that is to be erected just east of the old one in the Santa Fe reservation has been completed, and the work of putting the steel into position has begun. The tank will not be placed on supports as is the usual practice in tank building, but will rest on a solid concrete foundation. All of the material for the water retainer has arrived and as soon as it is completed it will be put into commission and the old wooden one torn down. It will require two weeks to finish the job and the Santa Fe tank crew is doing the work.

MEXICAN LINES SHORT
ON PASSENGER EQUIPMENT.

Mexico City, Mex., Oct. 24.—The question of cars is again occupying the attention of railway officials, as the cars now being constructed in the United States and the various shops of the republic will be totally inadequate to handle the passenger-traffic. This is not only on account of the increased traveling, but on account of abolishing second-class

PERSONAL
Paragraphs

Frank Zumach is in Las Vegas from Rosamunda.

Raymond Ramage, of Shoemaker, is in Las Vegas today on business.

Mrs. Manuel Baca left Las Vegas yesterday for a visit from Santa Fe.

H. J. Bryant arrived in Las Vegas yesterday from his home at Springfield, N. M.

Juan Pedro Crespin was in Las Vegas yesterday from his home at Chaparral.

Miss Blanche Story, of St. Louis, is in Santa Fe, the guest of Mr. and Mrs. William Vaughn.

Mrs. Charles Heinlan and two babies arrived in Las Vegas yesterday afternoon from Beulah.

Edward Stern, of Las Vegas, traveling salesman for the Chas. Hilfeld Co., was in Santa Fe today.

J. E. Sheridan, of Silver City, U. S. coal mine inspector for New Mexico, was in Santa Fe on official business.

Mrs. Leo Hersch returned to Santa Fe last evening after a visit to relatives and friends at Alcalá and Santa Cruz.

P. L. Sanchez and family returned to their home at Walsenburg, Colo., today after spending a few days in Las Vegas.

W. C. Sargent, territorial auditor, has returned to Santa Fe from Chama, where he has been on business several days.

T. J. Butler, of Washington, D. C., connected with the United States secret service, left Santa Fe last night for the east.

G. W. and E. Griggs, of St. Paul, Minn., who have been in Watrous on land business, returned to Las Vegas last evening.

Prof. H. W. Campbell left Las Vegas yesterday for the Estancia valley after spending three or four days in Las Vegas.

Gerson Gudorf, of Taos, member of the firm of Bond, Gudorf & McCarty, merchants of northern New Mexico, is in Santa Fe.

Juan Gallegos and wife have returned to Las Vegas from Dawson, where the former has been employed for the past six months.

County School Superintendent Porfirio Gallardo has returned to Las Vegas after spending a couple of days at his ranch at La Cuesta.

Mrs. Martha J. Curry and son, Jim, have returned to Las Vegas after spending several days visiting friends and relatives in the east.

W. A. Hawkins, general attorney of the El Paso & Southwestern railway system, who has been in Santa Fe looking after legal business, went to El Paso last night.

Mrs. Ed. Sporleder has left Las Vegas for Kansas City, where she will make a short visit with her sister before joining her husband at Tucson to make her future home.

James A. Felt, division superintendent of the Santa Fe railway at Las Vegas and Mrs. Kurn, have returned to the Meadow City from Topeka, Kan., where Mr. Kurn has been on business.

Julian Trujillo, of Chihuahua, Rio Arriba county, who was a member of the thirty-seventh legislative assembly from his county, is in Las Vegas, where he went to place his son, Cuto Trujillo, in the normal university.

Charles A. Spies, of Las Vegas, solicitor for the St. Louis, Rocky Mountain & Pacific railroad, who has been in Santa Fe for the past ten days on legal business, returned this forenoon to his home in the Meadow City.

Nathan Jaffa, territorial secretary, and Mrs. Jaffa, accompanied by their two youngest children, have returned to Santa Fe from Roswell. Mr. Jaffa having joined his family there a few days ago. Mrs. Jaffa and the children have been in Roswell for several weeks having been summoned there by the critical illness and subsequent death of her father.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, runny children, too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all dealers.

\$3,000,000 COPPER COMPANY INCORPORATES

Wellington Copper Mining Company has filed its papers at Santa Fe with Secretary.

Santa Fe, N. M., Oct. 24.—Articles of incorporation have been filed in the office of Nathan Jaffa, territorial secretary, for the Wellington Copper Mining company. Principal place of business in New Mexico at Cutter, Sierra county. Territorial agent, Wallace H. Weston, at Cutter. Capital stock, \$3,000,000, divided into three million shares of the par value of \$1 each. Object, mining and other business. Period of existence, 25 years. Incorporators, James M. Kindale, Edward F. Curtis and J. A. Sherman, all of New York City.

NATIVE KILLS ANOTHER OVER FORMER'S WIFE

Tragedy at Solomonville Ends in Death of One and Arrest of Other Participant.

Solomonville, Ariz., Oct. 24.—Florantino Villa is in jail here charged with killing Jose Arias in a dispute over the former's wife. It appears that the woman had left Villa's home and taken refuge at the home of a neighbor. Villa appeared suddenly at the open door and fired into the crowded room, killing Arias. The slayer fled to his home, but when a friend represented to him that he would be exonerated he walked into Solomonville and gave himself up.

Hard Times in Kansas.

The old days of grasshoppers and drought are almost forgotten in the prosperous Kansas of today; but though a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough cure and lung and throat healer ever discovered. Guaranteed by all dealers. Price, 50c and \$1.00. Trial bottle free.

HAIR DRESSER AND CHIROPRACTOR.

Mrs. Bambini, at her parlor opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Massage treatment by vibrator machine. For any blemish of the face, call and consult Mrs. Bambini.

DeWitt's Kidney and Bladder Pills relieve backache, weak kidneys, and inflammation of the bladder. Sold

Stomach troubles, Heart and Kidney ailments can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc. Sold by all dealers.

A Criminal Attack.

on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c at all dealers.

NITRO CLUB SHOT SHELLS

START your hunt right by first buying U. M. C. smokeless powder shells. Any standard smokeless powder will answer if loaded in U. M. C. Nitro Club shells. They insure quick, sure kills with little recoil, smoke or noise. U. M. C. Nitro Clubs won the Grand American Handicap at Chicago. They will win in the game field.

SECOND DAY SESSION OF NEW MEXICO M. E. CONFERENCE

(Continued From Page One.)

New Mexico boasts of the oldest civilization in the United States. It is certain that Marcos de Niza explored this country in 1539, and in 1540 Coronado, the famous explorer, with a band of brave soldiers penetrated into the wilds of New Mexico in search of gold. In this he was disappointed, for even to this day no large deposits of gold have ever been found in the territory. Numerous priests accompanied Coronado and his band. While the soldiers were bent on the quest for gold, the priests were prompted by nobler motives—they hoped to convert the Indians to Christianity.

Soon a chain of mission churches had been erected by the Jesuit and San Francisco Fathers; the oldest of these churches, erected in Santa Fe, in the year 1541, is still in a remarkable state of preservation. Thus, it can be seen that the civilization of New Mexico is older than Virginia. Santa Fe, our present capital, was founded before Jamestown, and the difference between New Mexico and Virginia is simply the difference between Latin and English civilization. Roman Catholic and Protestant Christianity. At first those who came to populate this great country were of Spanish descent—Mexicans, and they brought with them the customs, religion and bigotry of Roman Catholicism. This has made the progress of Protestantism slow in this territory. The last few years have witnessed a great change in this respect. A different class of settlers are coming into this country of magnificent future, boundless resources, and unexampled prospects this country that is destined to repay the perseverance and toil of its settlers with a life of comfort and many of the luxuries of life.

It is worthy of note that many of the men and women, who are coming into our midst at the present time, are Christians. They belong to the same class as those who came to populate our eastern shores in the beginning, and they are coming in great numbers. It has been conservatively estimated that \$9,000,000 home seekers settled within the boundary of New Mexico last year. For the most part these settlers are poor; they are neither able to support ministers, nor to build churches. For the benefit of these people the Missionary Society must send and support consecrated ministers, and Church Extension Society must assist in the erection of suitable houses of worship.

Methodism was introduced into this territory in the year 1867, by Rev. J. D. Dyer, a member of the Colorado Conference. He first unfurled the flag of the church at Elizabeth, and here he attempted to erect a suitable place of worship. Lumber was pilfered and carried upon the ground, but before it could be fashioned into a building it was unlawfully appropriated and used for other purposes by those who are opposed to our cause.

In the year 1868 Dr. Dyer was returned to the field as Presiding Elder, and established his headquarters at Santa Fe. Here he was joined in the same year by Rev. J. D. Thomas Harwood, a member of the Wisconsin Conference. Dr. Harwood has remained in the field now for nearly forty years, faithfully toiling, heroically achieving glorious victories for God and the Church.

This sketch of the pioneers of the church in this field would not be complete if I failed to mention the Rev. J. F. Tolby—New Mexico's first minister to the cause of Methodism. He was appointed to Cimarron in the year of 1873, and continued to work successfully until the 14th of September, 1875, when, coming from one of his preaching places, he was deliberately shot to death. On the banks of a creek, which bears his name, this martyred hero sleeps, awaiting the resurrection summons, which shall bring him to his reward. It does not seem to me that if the great territory in which he toiled could show its appreciation of his untiring labor by naming a creek in his honor, the greater Methodism, in whose service he died, should, at least, erect a much needed church in Cimarron as a memorial which shall speak to the people of New Mexico for years to come of her appreciation of his labors and love, and the blood of this martyr be the seed of the church.

If I had time I might write extensively of Rev. Dr. Charles L. Board, who, for six years, as superintendent of the New Mexico English mission, toiled in laying foundations upon which a great Methodism has been erected. Dr. A. F. Morrison, who gave nine of the best years of his life in strengthening the walls of Zion. Both of these names are linked imperishably with New Mexico Methodism. They accomplished great things for God and the church. They sought neither fame nor riches; love for the Master, love for his church was the motive power which sent them into all parts of this hard field, with the story of the cross. Surely in their Master's kingdom they will have both fame and riches. We can say of the pioneers of the church in this field what Paul has said of the heroes of faith: "And what shall I more say, for time would fail me to tell." * * * These prophets who through faith subdued kingdoms, wrought righteousness, obtained promises * * * escaped the edge of the sword, out of weakness were made strong, * * * to fight the armies of the aliens * * * These

Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The kidneys, the filters of the blood, and their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is cloudy, or if you have a constant feeling of dizziness or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tables or Liquid—and see what it can do and what it will do for you. Druggists recommend and sell.

Dr. Shoop's Restorative

all having obtained a good report through faith will for years to come be revered by those for whom they toiled and sacrificed.

From the day of the standard of Methodism was first unfurled above New Mexico soil, the church has been steadily growing. At the last session of the New Mexico English Mission, held at Roswell, New Mexico, Bishop David H. Moore assigned to the care of the pastors and superintendents of this mission thirteen charges, nineteen churches, twelve parsonages, seventy-four probationers, fourteen hundred and thirty-seven full members. After a year of toil and sacrifice on the part of faithful a band of Methodist preachers as can be found on the American continent, I am more happy to report that none of our property has been lost; all that was committed to our trust has been kept, and this year's statistics will show a healthy increase both in church property and membership.

Eleven regularly ordained ministers received appointments from the hand of Bishop Moore, who exacted a promise from each one to remain during the entire year unless otherwise relieved by the presiding bishop. Without a single exception every man has been true to his promise. Nearly all are here today to render an account of their stewardship.

Estancia and Silver City circuits were left to be supplied when available men could be found to fill these appointments. Estancia during the first quarter was supplied by Rev. J. E. Ruoff, who succeeded in enlisting the people of this growing town in a new church enterprise. During the last three quarters of the year the work has been filled by Rev. A. Pratt, under whose excellent leadership the church enterprises—begun by Brother Ruoff—have been completed.

Silver City circuit was supplied shortly after conference by the Rev. E. H. Florence, who came to us with splendid recommendations, but in a very short time Brother Florence grew weary, and returned to his home in Tennessee. Then the work was supplied by the Rev. E. L. Jones, a member of the Kansas conference, who, after having secured with the permission of the superintendent, Rev. J. F. Tolby, as his successor in consequence of the numerous changes in this appointment has severely suffered during the year. Mogollon, a growing town in the rich mining district, was also left to be supplied, and as no missionary money was available, nothing has been done with this appointment.

Last year's minutes showed that H. D. Boddington was appointed to supply Chihuahua, Mexico, and J. E. Ruoff was appointed to Moriarty and McIntosh; both of these were nominal appointments. These brethren were to receive no compensation for their labors, and were only expected to give what time they could to these charges, without interfering with their regular employment. After a year of experiment I doubt the advisability of attempting to establish a permanent work without permanent pastors.

About three months ago Rev. A. M. Haines, after two years of very acceptable work at Santa Fe, was compelled on account of his wife's health to seek a change to a lower altitude, and was transferred by Bishop Moore to one of the Kansas conferences. Since his departure the work has been supplied by Rev. A. N. Steel, a local preacher, a member of the El Paso quarterly conference.

Perhaps we can form a better idea of the progress of the work within the bounds of the mission if we take a passing glance at the individual charges.

Albuquerque. Rev. Dr. J. C. Rollins has just closed the second year of what perhaps has been the most successful pastorates in the history of this successful church. Two years ago, on coming to this charge, Dr. Rollins found an indebtedness of nearly \$10,000.00. During the first year of his pastorate he reduced this to \$2,500.00. During the conference year he has just drawn to a close, he has been hammering away, until less than \$4,000.00 of a debt remains upon this charge. In addition to this, Dr. Rollins has built a magnificent parsonage, which will for years stand as a monument of his untiring energy and zeal in this place.

Alamogordo. Rev. Charles M. Lucas has served this charge one year, with credit to himself and honor to the church. When appointed to this work last October, there was little left in the way of an organization. The people were discouraged and felt unable to support a pastor. But Brother Lucas entered upon the work with zeal and energy. His labors have been crowned with success. The membership has been more than doubled; the church building renovated; two additional rooms have been added to the parsonage, and both pastor and people are encouraged and hopeful for the future.

Clayton. has enjoyed a year of prosperity under the able leadership of Rev. H. C. Grimmel. Here a new church has been erected, which, today, stands as a monument to the efficiency of the pastor and the liberality of his people. It was dedicated on Easter Sunday. In the dedicatory services the pastor was assisted by the superintendent.

El Paso. Last October Rev. James Allen Geisner was transferred from Oxford, Ohio, and stationed in this growing city. His work has been highly satisfactory. Every interest of the church has been diligently looked after, extensive pastoral work has been done, and the pulpit ably filled. Brother Geisner is a careful and conser-

vative leader, and our church here is rapidly taking its proper rank and station in this the greatest city in the great southwest.

Kenton. Rev. J. L. Freeman has served this charge for three years, and no previous year has been better than the last. After nearly half century of faithful service in the church, Brother Freeman desires a year of rest. The scripture promises, "they shall bring forth fruit in old age," finds fulfillment in the good work of this faithful pioneer and Methodist preacher.

Las Vegas. The pastor, Rev. K. Van Valkenburg, is sustaining the reputation he has made in other places for efficiency in every department of the church work. All of the interests of the church have been carefully guarded. The membership has been greatly strengthened. The parsonage debt has been reduced, and notwithstanding the liberal contributions this people have made for the benevolence in the past, inspired by the enthusiasm of the pastor, this charge has broken all previous records, and stands first among the charges of the New Mexico English Mission in its contributions to the benevolences of our church.

Raton. Rev. William Reace is closing the first year of what promises to be one of his most successful pastorates. He has enlisted his people in a new church enterprise. The old stone church, which for twenty-five years had been the home of Raton Methodism, has been torn down and the foundations of the new church have been laid. This church, when completed, will cost in the neighborhood of \$25,000. More than one-half of the amount needed has already been subscribed, and by the time Brother Reace has completed his systematic canvass of the town, the full benevolence necessary for the completion of the building will have been secured. Brother Reace is always successful.

Roswell. Here the Rev. John H. Murray, who came to us last year from the Colorado conference, has been pastor. His year's work speaks success. The debt on the church has been greatly reduced, and a new commodious parsonage has been erected, and is now occupied by the pastor and his family.

Santa Fe. Methodism, under the leadership of the Rev. E. C. Anderson, is each year becoming more and more firmly rooted in this Roman Catholic stronghold. Brother Anderson is a good preacher, a faithful pastor, and has accomplished much for God and the church in this place.

Silver City, New Mexico. is situated in the heart of the richest mining district in this territory. Here we have a beautiful church and a growing congregation. Rev. J. M. Jackson has served this charge in a very creditable manner, and by his good preaching, and under his ministry the membership of the church has nearly doubled.

Salaries. Four of our charges are self-sustaining, viz: Albuquerque, Las Vegas, Raton and El Paso. The latter named appointment entered the self-sustaining list this year. The \$200 missionary appropriation, voted by El Paso at the last session of the Mission, was given by this people to the strengthening of the work in other places.

Four charges have increased the salary this year: Albuquerque, \$300; Roswell, \$250; Raton, \$200; El Paso, \$200; making a net gain for pastoral support of \$550. The New Mexico English Mission is moving as rapidly as possible towards self-support.

Material Improvements. There has been increase in the actual value of church and parsonage property. Our pastors' reports will show two churches and two parsonages completed; one church in the course of erection, and other churches and parsonages improved; debts reduced and canceled; all of which speak of the permanence of this work, and of the desire of our people to keep step with the growth of this rapidly developing territory.

Benevolences. Careful attention has been given to all the benevolences. They have been faithfully presented by our pastors and the liberal responses on the part of the people to these appeals, give evidence of the fact that the Methodist people in New Mexico have "seen the world's need and have heard the world's cry." Last year special contributions were made by all of our charges to the Church Extension Society for the aid of our stricken churches in San Francisco. As a result, the collections for the cause of home missions and church extension were in advance of the highest figures ever reached by the New Mexico English Mission. We scarcely hoped to reach this mark within this year, but through the persistent efforts and liberal contributions of pastors and lay men, we believe that all of our benevolent collections will be equal to and some of them in advance of, last year's offerings.

In closing this, my first annual report to the New Mexico English Mission, I ask "What of the future?" All that is of the past is now a matter of history. What we shall do this coming year will help to make the history of the future.

Last year our charges paid nearly \$12,000 for pastoral support, and more than \$3,000 for benevolences. When I think of the progress of the work within the boundaries of the New Mexico English Mission of the humble beginning and steady growth, I feel like crying, "Behold what God hath wrought," working through his consecrated servants.

In this report I have taken a retrospective view of the past, for the

past offers an illustration of what yet may be accomplished in this great and fast developing country, into which a perfect stream of home seekers is constantly flowing. We can form some idea of the possibilities of the future by taking into account the extent of this territory. The New Mexico English Mission embraces all of New Mexico, with an area of 122,444 square miles; El Paso county, Texas, with an area of 10,000 square miles, a small slice of Oklahoma, and all of the state of Chihuahua, in Old Mexico. Within this district are found vast upland plains of exceeding fertility, where the rainfall is sufficient to assure the successful growing of crops, the fertile soil, the new methods of dry farming, and the numerous irrigation projects have brought into this territory thousands and thousands of home seekers. In fact, the whole territory is being rapidly settled. Numerous towns are springing into existence as if by magic and these towns are not of the mushroom growth, for behind them are rich agricultural districts, which are being rapidly developed. Of the thousands who are turning away from the overcrowded east and setting their faces toward the west, many are finding permanent homes within the boundaries of the New Mexico English Mission. Nearly every mail brings some call for help. Hardly a week passes by but that some band of Methodist settlers are asking for a preacher. These men and women are not able to support a preacher of themselves. The Home Missionary Society, the organized agent of the Methodist Episcopal church, must give the needed assistance, for it is utterly impossible to put a man in charge of the new work in this mission, where living is exceedingly high, without giving him enough help from the Missionary Society to guarantee a living while he is organizing the work. With increased missionary appropriation to this growing field, the future historian will be able to record more numerous victories and greater achievements for the church than have ever been written concerning her in the past.

The Methodist Episcopal church does not have a monopoly on this field—other denominations, other societies are doing their best to make this territory a Christian one in deed and in truth. I simply say that others must not outstrip us in the race for the prize. Our church has always kept step with the nations; it has gone forward with our starry flag; our ministers have always stood on the frontiers of civilization, triumphantly waving the banner of their King. They have never retreated or surrendered an inch of ground once taken, and the Methodist settlers in this territory only ask that the church remain true to her traditions, and they have a right to expect that she will do her full duty toward them.

Many Serious Cases Relieved
With This Simple Home
Made Mixture.

WORST KIDNEY AND BLADDER TROUBLE

Many Serious Cases Relieved
With This Simple Home
Made Mixture.

Here is a prescription that any one can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive. Best of all it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaint, and by its direct action upon the eliminative tissue of the kidneys makes these most vital organs rid the blood and system of waste matter and uric acid which causes rheumatism.

Here it is: try it if you suffer: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

A well known local druggist is authority for the statement that one week's use shows good results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

A weak stomach, causing dyspepsia, a weak heart with palpitation or intermittent pulse, always means weak stomach nerves or weak heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail sample free. Write for them. A card signed "Wm. for Rent," "Board," etc. for sale at the office of The Evening Citizen.

The American Way

The people of the United States have shown a wide awake interest in the most famous balloon race ever held in the world, and the newspaper offices, in cities and towns, have been besieged early and late for news of the balloons.

It is the American way. The people of the United States feel that this great race heralds the approach of aerial navigation along practical lines and the great American public is always looking ahead for the very latest in everything.

All records were broken in the big race and the indications are that aerial navigation has advanced considerably as a result of the demonstrations made of the ability of the inventors of various air crafts to successful travel long distances at a high speed.

While the race was much a matter of luck and of success in finding the proper air currents, still the ability to make a trip of over eight hundred long miles in a given direction is something no aeronaut has ever before achieved. Other balloons traveled even further, one going 1100 miles, but the aeronaut in charge could not keep the air ship to one line of travel and doubled back over his track because of adverse air currents.

It is generally believed by authorities on the subject that as soon as the aerial navigators understand how to control their crafts against opposing winds, they will have eventually solved the question of aerial navigation.

The American public was therefore deeply interested in its American way. It was anxiously inquiring whether or not an aeronaut had succeeded in piloting his balloon against the elements and if so, it was anxious to be the first to welcome successful aerial navigation, just as it was the first to welcome nearly all of the modern inventions of recent years. While records have been broken it does not appear that any particularly new and original ideas have been advanced in aerial navigation, but one can never tell.

The experiences obtained by aeronauts and designers of air ships in that great race, may result in the building within a year of the first real air craft, which will have the power to defy the elements. It is to be hoped such a result will obtain.

A Leak Somewhere

In speaking of the recent grand jury in that city, the New Mexican of yesterday calls attention to the fact that there was apparently a leak somewhere besides in the grand jury room as certain government officials charged.

It appears that someone evidently having considerable interest in advertising the details of the grand jury, made public the list of names of persons indicted within a few hours after the true bills were returned, which has been contrary to the practice in this territory. The clerk of the court, Mr. Wilson, stated that he did not make the names public and would not have done so.

The question naturally arises as to who did. Not all the papers of the territory and not all the newspaper correspondents in the capital were allowed to have the list. In fact, only one man received the information and since he is anything but an enterprising correspondent, it is not likely that he put up late at night and "pulled off a newspaper scoop." If he did, it is the first time he ever did such a thing and he should be duly honored. But even if it were a legitimate newspaper beat, which it was not by any means, somebody gave the information contrary to the orders of the court and the laws of New Mexico.

If the government officials who are so quick to charge dishonesty in grand jurors, desire to be fair and impartial, it would be a good idea to investigate this matter and let the public know just where the leak is. The New Mexican is right in calling attention to such a condition. Neither the New Mexican nor this paper would object to a fair and square news beat as both papers have demonstrated their ability to get there first in an open break. But if there is a leak in the grand jury room or anywhere else, the government officials will be remiss in their duty, if they do not investigate it and let the public know how it comes that one lone manana correspondent, secures such information under such conditions. Or can it be possible that an investigation would prove embarrassing?

Curry Does Things

"The people of the Pecos Valley are unanimous for statehood. I will leave today for Lincoln and Otero counties,"—George Curry.

The above very received by The Citizen office today is a sample of the way our new governor does things. He is a man of action and when he told the people of New Mexico that he was for statehood and the sooner the better, he meant just that.

Governor Curry no sooner hung up his hat in the executive office, than he put it on again and started out to get statehood. He has done more in the few months he has been our executive towards securing our admission to the union than any governor we ever had.

He did not sit down and wait for some one else to get the people together. He packed a few feds in a grip and bought a ticket for all over New Mexico. In other words Governor Curry did just what President Roosevelt did, he went out to see the people and didn't wait for them to come and see him.

Being a soldier and a good one, Governor Curry is naturally a man of action. He knows the only way to get statehood is to work for it and he is the first to put his hand to the plow.

Governor Curry is the kind of man this territory needs at its head and if he secures statehood, which The Citizen believes he will, backed by the people, he is entitled to other honors, which no doubt he will receive. But the governor has the right idea and the people are with him regardless of party.

Fred Magill, who was just acquitted of murdering his first wife, probably escaped conviction because he did not say his second wife was his affinity. That affinity gag won't work with the average American jury any more.

A California professor says ten cents worth of peanuts contains more food than a big porterhouse steak. An Arizona paper says that may be true, but look at the energy wasted in shucking them.

The Arizona girl, who fearlessly faced a big bob cat and killed the animal with a single shot from a Colt's .45, is said to be deathly afraid of a mouse. Such is heroism in the wild and woolly.

A well known Arizona citizen has just died and a paper says he was a native of Tennessee, an attorney by profession and a good fellow. The question now is, where is said citizen?

The price of chocolate has gone up. This is a real hardship on the young fellow who has to buy at least a pound of bon-bons every Sunday night.

Livestock requires plenty of water, but Harriman seems to think all stock needs as much. Fish needs water too, but that's only natural.

Lillian Russell says a divorce is a blessing. She ought to know if any one does for she's had enough of them.

Just because a man walks out in the middle of the Sunday sermon doesn't exactly mean that he is a somnambulist.

They want a "blue Sunday closing law" in Missouri. Sundays in Missouri are generally blue enough without that.

Wall street has one satisfaction anyhow—it can certainly scare Wall street.

WHAT DOES IT COST YOU TO LIVE?

Pitchers full of rich creamy milk—dozens of freshly laid eggs—beef killed on the range. Fish and game and pure mountain air. A genuine old ranch house nestled in the prettiest valley in New Mexico. The Pecos river filled with mountain trout right at the door. Saddle horses, guns, fishing tackle, traps and dogs at your service. There is not a more ideal place to rest, recuperate and see the real life of the west anywhere in the world.

The round up is now on and the horses from the range will be broken in a few weeks. Every minute teems with a new and wholesome interest for you if you have never lived on a ranch.

Daily stage to the railway station.
YOU COULDN'T SPEND MORE THAN NINE DOLLARS A WEEK IF YOU TRIED.

If you have come west to spend the winter, don't stay in town. Inquire this office or address The Valley Ranch, Pecos, New Mexico.

Farm Sausage.

Our own make, 20c per lb. Give this a trial, if you want something really good.

New Goods Received This week:

Ementhaler Imported Swiss, Roquefort, Gorgonzola, Neuchatel, Miniature Cream, Crawford Cream Cheese, Bismarck Kraut, New Almonds, Pop Corn, Fresh Frog Legs, etc., etc.

San Jose Mkt

Pure Lard.

Are you looking for an absolutely pure, fresh lard, something that you know is clean and sweet?

We have the best and only pure lard on the market. Made by ourselves in our own sausage rooms. Open Kettle Rendered, nothing but the pure hog fat boiled down. Give it a trial.

Jose Felipe Armijo and wife to Felipe Barajas, see record for description, \$100.

Jose Felipe Armijo and wife to Rafael Apodaca y Gutierrez, see record for description, \$100.

Oct. 23.—Marion L. Ives to Mrs. Orpha Ives, lot block 40, Huning's Highland addition.

E. W. Crosby to Mrs. Sarah Jackson, east 1/2 of lots 5 and 6, block 42, Huning's Highland addition.

Oct. 23. John M. Moore Realty Co. to the territory of New Mexico, lots 13, 14 and 15, block 26, original townsite.

Twenty couples attended the dance at the Commercial club last night and a most enjoyable time was had.

George Jocul, yardmaster of the Santa Fe, who was operated on at St. Joseph's hospital for appendicitis recently, is rapidly recovering his health.

Lieutenant F. W. Ball, in charge of the Albuquerque recruiting station for the United States army, returned last night from Socorro, where he established a branch recruiting office.

The public is invited to attend the evening addresses delivered during the conference now in session at the First Methodist church. Bishop Earl Cranston will deliver an address this evening.

In police court this morning William Shoat was fined \$5 for being drunk on the streets. S. T. Wrenn was fined \$5 for committing a nuisance and Pat Caray was fined \$10 for disorderly conduct.

Mrs. Chas. Mainz, wife of the Santa Fe's special officer at Ashfork, Ariz., is at St. Joseph's hospital suffering from a severe attack of inflammatory rheumatism. Mr. Mainz is in the city at his wife's bedside.

Juan Armijo, who had his back broken by a falling log in the Co-chiti mountains recently and was a patient at St. Joseph's hospital, has been taken to his home at Domingo. His life hangs by the merest thread.

It is reported on good authority that H. L. Droppelman, who proposes to start a brewery and ice plant in this city, has taken an option on the plant of the Crystal Ice company located on North First street. The site would be an ideal one for a brewery.

George B. Hammond, the carpenter who fell from a scaffold while at work on one of the new buildings going up at the Indian school, is resting easy today and will recover from his injuries. Mr. Hammond resides at 1305 West Fruit avenue. The accident occurred yesterday morning.

The Tuesday games in the baseball tournament at Tucson resulted in victories for Bisbee and Douglas, the former defeating Phoenix by a score of 4 to 1, and the latter taking a 1 to 0 game away from Hermosillo. Cy Young, of Wichita, Kan., made Phoenix's only run—a home run—and collected \$100 for it.

The heavy rain which fell here last night extended south to El Paso and west as far as the Arizona line, according to passengers arriving on the morning trains.

Mr. and Mrs. Otto J. Kramer, of 714 East Iron avenue, entertained a number of friends last night in honor of Mrs. James Mitchell, of St. Louis, who is a guest at the Kramer home. Games were played and the guests were otherwise entertained in a very original manner by Tina and Mitze, two hired comedians. Those present were: Misses Laura and Selma Kramer, C. Jones, J. Carroll, H. Smith, A. Schaefer, C. Spieglhalter, Messrs. Geo. O'Brien, Armin Kramer, T. Jones, H. Smith, W. Nye, R. Miller, E. Stollie.

BUTTER TRUST CHARGES ALL PEOPLE WILL STAND

(Continued From Page One.)

imposition, patterned after the idea of the trust. It is: "Charge the consumer just as much as he will pay."

"This was admitted by Edward Rueb, president of the Chicago butter and egg board. In a remarkably candid statement he said:

"The average daily receipt of butter in Chicago is 7,000 tubs, or 420,000 pounds. Egg receipts average 8,000 cases, or 2,800,000 eggs daily. Prices in the other primary butter and egg markets of the country—Boston, New York and Philadelphia—may vary slightly, but the prices made here usually prevail elsewhere. New York is the biggest consumer, and the price made there is generally the price of this market plus the freight."

"High prices are in the very air. In this great season of prosperity everybody has money and everybody can afford to buy butter and eggs at good prices."

"The labor problem enters into the situation somewhat, for people like to live in the cities, and the farmer is hard pressed to get help. I think this is the reason that production is not increased. But prices are high because the public can and will pay high prices."

"There is of course a limit. The other day we had the wholesale price of butter up to 30 cents, which might mean about 40 cents retail. The result was a falling off in sales. Many people refused to buy. Then we reduced butter to 27 cents."

Millions of Pounds Stored.
Amazed by this declaration I asked:

"Was there any other condition taken into consideration other than the willingness of the public to pay?"

A great light seemed to draw upon Mr. Rueb. He evaded the question.

"Supply and demand did not make the 30-cent price," I remarked.

"The price," he said, "was what we believed the public would pay."

"How much butter was in cold storage when your board forced the price up 3 cents?"

"I do not know."

"Millions of pounds?"

"Yes, millions."

"And who stores this butter?"

"It is stored by the packers and other refrigerating companies."

"Then the fact is that these millions of pounds are held by the packers' trust while the price is arbitrarily increased to the consumer without regard to the laws of supply and demand?"

When the people of Chicago were paying 32 cents retail a pound for first creamery grades, Boston paid 42, New York 40, Cincinnati 38 and 40 and San Francisco, with big freight charges added, paid 50 cents a pound.

The trust controlling the refrigerator car lines controls the supply absolutely. They gather in the produce during the summer time and store it out by arbitrary rule and price the year around.

You need a pair of our felt slippers or Juliette in order to enjoy your evenings at home to the fullest extent. They have flexible, belting leather soles, look dainty and wear well. Black, red, green or brown, plain or with fur trimming, for men, women and children. Prices range from \$5c to \$15.00. C. May's Shoe Store, 214 West Central avenue.

The Missionary society of the Presbyterian church will meet at the home of Mrs. J. G. Wagner, West Fruit avenue, on Friday afternoon at 2:30 o'clock.

FOR SALE OR RENT, FURNISHED OR UNFURNISHED RESIDENCE AT 202 NORTH EDITH. APPLY ON PREMISES OR OLD TOWN POSTOFFICE.

CHARGE CONVICT
WITH MANY
CRIMESEvidence That He Has Killed
Four People Coming
To Light.Yuma, Ariz., Oct. 24.—During the
term in Yuma, presided over by
Judge Campbell a Mexican by the
name of Murillo was found guilty
of murder and shortly after sentence
had been pronounced, it was dis-
covered that Murillo is also accused
of killing a woman in Monrovia, Cal-
ifornia.An investigation was at once
started by the authorities, and as
time went on, four or five other kill-
ings were brought to light, all of
which Murillo is accused of commit-
ting.Some time ago Murillo killed a
man in Yuma, by stabbing him to
death. The fight started in a saloon
during a drunken brawl, and later
on Murillo found his man alone in
the yard behind the bar and jump-
ed him. Before anyone could inter-
fere, Murillo had stabbed the other
to death. It was this crime for
which he was tried in Yuma and
found guilty of murder in the first
degree. Judge Campbell
sentenced him to twenty years' im-
prisonment in Yuma.Other Crimes Alleged.
It was brought to light that Mur-
illo is accused of the killing of a
woman in Monrovia, and the farther
the investigation that was being pur-
sued by the authorities went, the
blacker became the record of the
man. It is now thought that he is
guilty of at least five other killings,
besides the one that he committed
in Yuma and the one that he is ac-
cused of having committed in Mon-
rovia.PRIMROSE MILSTRELS

Reasons Why You Should Buy Our Shoes:

THEY ARE STYLISH.

No matter whether you select the most extreme models or buy the more conservative styles, they have the snap and finish that made your feet look dainty and single you out as being well dressed.

THEY FIT.

Snug around the ankle and over the instep to hold the foot in place, close under the arch to give the proper support to this delicate part of the body, roomy enough for the toes without any surplus leather to form unsightly wrinkles. Easy from the start till they are worn out.

THEY WEAR.

Only solid leather and first class findings go into our shoes and they are put together by skilled workmen. That's the reason they last so long and hold their shape.

THEY ARE CLOSELY PRICED.

We not only want to hold, but we want to increase our trade and therefore in our own interest we invariably make the lowest price possible.

E. L. WASHBURN CO.

PERSONAL PARAGRAPHS

Rev. W. A. Pratt, of Estancia, is registered at the Savoy hotel.

C. A. Wright left this morning on a business trip to Taos county.

Rev. McQueen Gray, of Carlsbad, N. M., is registered at the Alvarado.

E. E. Olaker, of Estancia, is in the city for a few days on business.

G. F. Murray, of the territorial mounted police, is in the city on official business.

Bob Bibb, general merchant at Bibb, N. M., was an Albuquerque visitor yesterday.

According to the weather bureau of the University, the rainfall last night was 1.13 inches.

J. V. Key, superintendent of construction for the Santa Fe at Belen, is registered at the Alvarado.

B. G. Wilson, of the Continental Oil company, returned to the city on the limited today from a visit to Santa Fe.

A marriage license was granted yesterday afternoon to Delifonsa Armijo and Margarito G. Baca, both of Albuquerque.

Grover Strong, of Denver, is in the city on a visit to relatives. Mr. Strong has been spending the summer in Los Angeles.

Frank Doherty, official of the Santa Fe Central railway, with headquarters at Santa Fe, was an Albuquerque visitor yesterday.

Mrs. R. B. Thomas and daughter passed through the city this morning en route to their home at Santa Fe from a pleasure trip to California.

E. E. Oldaker, inspector of the bureau of animal industry, from Torrance county, is in the city conferring with Chief Inspector Dr. Marion James.

J. E. Ward, one of the leading contractors of Winslow, Ariz., returned home last night after a short visit here to his many Albuquerque friends.

Mrs. E. N. Peden, wife of Master Mechanic Peden of the Santa Fe Central railway, with headquarters at Estancia, was among last night's arrivals in the city.

Marriage licenses were granted today to Prudentia Baca and Prapides Chavez, both of Albuquerque, and to Conrada Auaya and Alejandro Marquez, both of Martinez, N. M.

The closing out sale of Whitney Company's retail hardware stock is now in progress at from 25 to 75 per cent reduction from regular prices. You can't afford to miss it.

W. S. Fullerton, of Socorro, arrived from the south this morning and left on the California limited for San Diego, Cal., where he is called by the serious illness of his father.

Henry Gerphide, manager of the Belen Mercantile company, one of the large general merchandise companies of the cut-off town, registered at Sturges' European hotel this morning.

Privates Buck and Messamy, who have been stationed at the local U. S. recruiting office, left last night for Socorro, where they will do duty at the new branch recruiting office at that place.

Twelve hundred sheep are being shipped today from this city by Victor Sals. The stock is sold to a Mr. Spear of Las Animas, Colo., and came from the sheep ranch of Mr. Sals in Valencia county.

Dr. B. F. Romero, surgeon for the Santa Fe Central at Estancia, returned to his home today after a visit of several days in the city. Dr. Romero was called here as a witness in the district court.

Miss Ethel Rose left last night for Willard, N. M., to accept a position with the John Becker company at that place as stenographer. Miss Rose was stenographer for the twenty-seventh annual territorial fair association.

The parties in charge of the money collected for the tie treating plant yesterday paid for a site for the proposed armory. The price paid was \$2,500. The site is located on West Silver avenue. The J. M. Moore Realty company made the sale.

Mark Thompson, district attorney for Dona Ana county, passed through the city this morning en route to Chicago, where he is called on law business. Mr. Thompson expects to be absent from the territory several weeks.

George Primrose, owner of the Primrose minstrel troupe which comes to the Elks' opera house tomorrow evening for three performances, registered at the Alvarado last night. Mr. Primrose is accompanied by Mrs. Primrose.

The death of Mrs. Annie Alt, aged 34 years, occurred at her rooms on north Arno street Tuesday afternoon. The deceased has been in Albuquerque seven weeks, having come here from St. Louis, where the remains will be taken for burial. She leaves a husband and one son.

J. G. Mace, contractor, has purchased the carpenter shop on Broadway and East Central avenue from Contractor J. W. McQuade who, with his family, has moved to San Diego, Cal. Mr. Mace will still retain his office at the corner of West Central avenue and Fifth street.

Superintendents Etter and Myers returned to the city this morning from a trip over the Rio Grande division. Frank Myers, the new superintendent, will take official charge of the division tomorrow. Mr. Etter, accompanied by his family, will probably leave for their new home at Arkansas City tomorrow night.

Mr. Etter will assume the superintendency of the Panhandle division on his arrival at Arkansas City.

ALBUQUERQUE

Deslined to Become a Second
Denver--Gained 3,000

Population in the
Last Year.

People from the overcrowded east who have been dealing in watered stocks and wild cat securities, have found that it does not pay, and as a consequence are flocking to this section for legitimate industrial and real estate investments. It means Albuquerque will grow faster than ever.

Two years ago outside residence lots sold at from \$150 to \$175 a lot. Now the same lots are reselling at from \$300 to \$500 a lot. There is no safer speculation or savings proposition than an investment in a few building lots here at the bargain prices we will offer for a short time.

While another big proposition is maturing, we have decided to clean up a few choice odds and ends at sure enough bargain prices, and which will enable every one who has a little money saved up to make a very profitable and safe investment by selecting something from the following list:

One-half cash, balance within a year or discount of 5 per cent for all cash. Five to 20 acre tracts of splendid garden, truck or orchard lands, under good ditches, not over mile and a half from city, only \$50 to \$60 per acre. Similar land elsewhere in the territory is selling at from \$125 to \$225 per acre.

Twenty-two choice 50-foot lots in University Heights from \$35 to \$100 each.

Sixteen choice 50-foot lots in Eastern Addition from \$150 to \$200 each.

Eleven choice "close in" lots in Perena Addition from \$150 to \$250 each.

Six choice "close in" lots in Grant Tract from \$150 to \$200 each.

Seven choice residence lots in Honeymoon Row, Central avenue, from \$150 to \$250 each.

Three lots in Duran & Alexander Addition from \$100 to \$150 each.

Four semi-business lots on First street, from \$400 to \$500 each.

Seven business lots on Copper avenue including corner 3900 up.

One extra choice business lot on Central avenue \$1,000.

One good brick residence and three 50-foot lots in Eastern Addition only \$1,250.

One small brick house and two 50 foot lots in Eastern Addition, only \$750.

We are the Owners. Perfect Titles. If you wish we will call and show you around in our automobile.
