RAILROAD DEPARTMENT

MAY ESTABLISH TRAINMEN'S SCHOOL.

Santa Fe Said to Be Considering Affairs to That End.

"I believe the Santa Fe will establish a school for trainmen, such as one as it now has for telegraphers and also for machinists, at some convenient point, and I believe it will be in Albuquerque, for the mountain divisions of the road, and especially the Rio Grande division, offer first class opportunities for training men to handle the locomotives and long strings of cars which are being handled these days," said a well known official of the Santa Fe recently. He continued:

"There is a shortage of competent trainmen all over the country, just the same as there is a shortage of competent men in every line of railroading. True the roads have a sufficient number of employees, but many of them are grossly incompetent and merely hired to attempt to do the work. It is necessary to have a certain amount of labor performed and as a consequence, the railroads must have men, but they are having a hard time in getting the right kind.

School Would Be Large. "In establishing these schools, trainmen of the greatest experience and ability are to be put in charge and the raw recruit will be first taught the rules and everything pertaining to the business. Then he will be put on a train and worked as a 'dead head' in order to test him by actual experience. The need of such a school is so apparent that I am certain the officials are considering the establishment of a large one."

"It is the usual rule, I believe, to make a nominal charge, say \$5 per month, at these schools, in order that the student, feeling that he is working for his tuition, will work faithfully. The graduates who go to work for the railroad will be refunded this tuition as soon as they have worked six months. This makes an incentive for them to work for the road owning the school.

"I cannot say authoritatively that the Santa Fe is figuring on putting a school here, but she will undoubtedly establish one shortly at some convenient point."

WRECK INJURIES FATAL.
TO SANTA FE FIREMAN
Trinidad, Colo., Oct. 25.—Alfred E. Boynton, the Santa Fe passenger fireman who was injured in the wreck at Earl, Colo., Friday morning, succumbed to his injuries shortly before midnight tonight. Hopes were held out for his recovery until this afternoon, when he suddenly grew worse. Boynton was 21 years of age and is survived by his parents and one sister. The young man's mother is prostrated by his death and grave fears are entertained for her.

Robert Kennish, station agent of the Atchison, Topeka and Santa Fe railroad at Cummings, Kan., has been retired on pension after thirty-four years of continuous service. Mr. Kennish built the house in Cummings, kept a general store, bought grain and made his own way bills for freight forwarded over the Santa Fe. Cummings was one of the first stations on the road, being on the line between Atchison and Topeka. Kennish was made agent when the station was built. He says that for a number of years after he began service at Cummings, carload after carload of buffalo meat passed his station on the way to eastern markets. At that time ten tons made a carload. Mr. Kennish is 75 years old, having been born in Manghold, Isle of Man, July 22, 1832.

Old time Santa Fe railroad men will be interested to know that William Hixon, one of the oldest conductors on the Santa Fe system, has left the road and has accepted the position of depot master in Los Angeles. Mr. Hixon is hale and hearty despite his seventy years and long service on the road.

G. H. Wood, road foreman of engines at Raton, who has been taking care of both the second and third districts of the New Mexico division for some time, will hereafter handle the second district exclusively. A. E. Amas, of Las Vegas, has been appointed road foreman of engines for the district, Las Vegas to Albuquerque.

Superintendent W. K. Etter left this morning on train No. 10 with Mrs. Etter for Las Vegas to visit a sister a couple of weeks, and Mr. Etter for his new appointment at Arkansas City. Mr. Etter has been transferred from the Rio Grande division to the second district, with headquarters at Arkansas City.

While unloading timbers at the Raton tunnel, J. R. Davis was struck by a flying pole and seriously hurt, being hurled down an incline a distance of nearly 50 feet, alighting on his head and shoulders. He is badly bruised and it is said his spine is injured.

C. N. Patterson, who has been with the Santa Fe in Las Vegas, will fill the place made vacant by the promotion of Charles Edgington, round house foreman, who is in charge of the Santa Fe shops at Las Vegas.

All work along the Santa Fe lines except what is absolutely necessary in the way of improvements and to keep the road in condition for traffic will be postponed until the financial situation improves.

Charles McReynolds, night ticket clerk, and Charles Alsdorf, baggage master, both of the Santa Fe, at Raton, have gone to Tucumcari to take up homesteads.

The heavy rains of Wednesday night and Thursday did little damage to the Santa Fe tracks and few trains

LAS CRUCES DOCKET PROVED TO BE LIGHT

Criminal Affairs Were So Few That Many Civil Cases Might Have Been Tried.

Las Cruces, N. M., Oct. 25.—(Special.)—Mark Thompson, district attorney for the third judicial district, left last night for Chicago, Ill. The criminal cases have all been disposed of for Dona Ana county and only a few minor civil cases remain before the adjournment of court. Many of the civil cases which should have been tried at this term were allowed to go over for lack of funds, it being supposed that the criminal docket would exhaust the court fund. The criminal docket has been so light, however, that had the bar been ready many of the cases might have been disposed of at this session.

Capt. S. F. Woodhull, vice president of the First National bank of this city, has purchased the Park hotel and has leased the building to Grace Thompson, who will conduct an up to date hotel.

James McKenzie, a newspaper correspondent and explorer, who has been in Las Cruces some months for his health, having contracted fever in South America, while acting as correspondent for the New York Herald, is lying critically ill at this place. Of four companions who contracted the fever with Mr. McKenzie he is the only survivor.

Gray Dunlap has resigned his position at the Santa Fe railway office and has accepted a position with the Burton Lumber and Hardware company of this place.

The marriage of Rev. George W. Dunlap, pastor of the Presbyterian church of this place, and Mrs. Katherine Moore, has been announced to take place in November.

NEW BANK BUILDING FOR TUCUMCARI

Trust and Savings Bank Will Erect Structure Costing \$22,500 for Office and Business Purposes.

Tucumcari, N. M., Oct. 25.—(Special.)—Wm. Schubel, a contractor of Texhoma, Okla., was the successful bidder on the Trust and Savings bank building. The building will be erected on the southwest corner of Second and Third streets. There will be five business rooms in this large structure which will accommodate not only the bank, but will be rented to business men of the city. The second story will be used for office rooms. The structure will cost \$22,500 besides the furnishings.

The Southwestern shops and round house are now completed and the round house, which has fifteen stalls, is in use. The coal chute is also completed and the water tank and turn table will be in use in a few days. The building of the El Paso and Southwestern shops here means much to the city.

A large hotel is one of the prospects of this place. F. E. Record, an Amarillo hotel keeper, has been figuring on a proposition for Tucumcari and has been in the city arranging for the purchase of sites. The building is to be of about sixty rooms, and will be of brick.

S. H. Hancock has in process of construction a fine business block. The building is of pink sandstone and is a two-story structure.

Elwood Heman, son of Col. T. W. Heman, has arrived in the city from Atlanta, Georgia. Col. Heman has taken his son into partnership and the firm will be T. W. Heman and Son, one of the leading real estate firms of the city. Thomas W. Pierce accompanied Elwood Heman from Atlanta to accept a position as bookkeeper for the new firm.

Dr. J. E. Manney has just completed a splendid twelve-room residence in the McGee addition. The house is modern and is a credit to the residence section.

Rev. John R. Gass, of Albuquerque, N. M., is a recent investor in Tucumcari real estate, having bought a business lot of Dr. H. D. Nichols. The Tucumcari steam laundry has been compelled to close down for repairs. It is expected that the laundry will be able to open in the near future.

Dr. C. M. Stanfill, of Centerville, Tenn., will open a dental office in this city.

WORK GOES ON AT SILVER CITY

Success Attending Efforts of
Mining Prospectors In
That Vicinity.

Silver City, N. M., Oct. 25.—Reports show that the activity prevailing in this vicinity is apparently contagious, for much good work is being done hereabouts.

Of no small importance is the unwatering of the Gillette shaft of the Pacific mine, at Pinos Altos. Per- sistent pumping has lowered the water to a considerable distance below the 400-foot level. When the remaining 250 feet has been pumped out the Comanche company, which now owns the property, will have a splendid field for exploration, as the vein is very strong at the bottom of the shaft, while the values run equally as well in gold, silver, copper and zinc, as they do at the 400-foot level. The ore now being extracted carries excellent values in gold and copper, and the present force of fifty men will be largely increased when the shaft is dry.

The success attending the operation of the diamond drill on the Emerald claim of the Azure Mining company, will induce others who own property in the Burro mountains, to adopt this cheap and efficient method of prospecting. At 146 feet an ore body was encountered at the Emerald, which so far is over thirty feet thick with no sign of a lower boundary yet in evidence. The ore is a black oxide of copper, assaying thirty per cent.

Force at Work.
Judge Deming is working a small force on the Arizona at Pinos Altos, developing that ground with encouraging results.

In the Central mining district, the exploration of the Lucky Bill which has recently been optioned to Parvin & Co., the work of unwatering will soon commence. The past record of the property as a producer of carload lots of lead ore bids fair to be eclipsed as a result of the energetic work that will soon be started. The Homestead property, lying to the west of the San Jose fraction will also be developed by the parties operating the Lucky Bill. A new engine and pump have been put in place and the shaft will be quickly sunk to 200 feet.

New Mill.
The new 1,200 ton mill that will soon be constructed by the Chemung Copper company will be situated near Boston Gulch to expedite the handling of the ores from the No. 2 and No. 3 shafts. The latter workings at least enough ore is blocked out to run the mill a year without considering new reserves at all, and without encroaching upon the 100,000 tons or thereabouts of ore in other workings. The work of blocking out new ground proceeds steadily.

The ore bodies of the Sampson mine, owned by the Burro Mountain company, are so vast that the caving system is best adapted to their extraction. This property may justly be classed as one of the greatest copper mines in the west. The present available tonnage is estimated to last for years, even allowing a daily consumption of 300 tons. While the work done on this property has been practically all in the nature of development, it has not hindered the owners from placing a couple of million to its credit from ore shipments.

IMPORTANT TO YOUNG MEN AND WOMEN

Are you satisfied with your salary? Are you satisfied with your present employment? Had it occurred to you that if you continue to plod along as you are, you will always be what you are, no richer, no wiser, no better? Suppose you were to lose your present position—what then? Yet, you may be able to make a bare living for yourself without special training while you are young and in robust health, but in old age, sickness, or when you have the increased burden of others helpless and dependent upon you, how about it then? Nobody ever saw an advertisement for an old man or an old woman wanted in a clerical position. Young man, young woman, isn't this enough to open your eyes and suggest most forcibly to you that you should at once prepare yourself with a thorough practical knowledge of bookkeeping, business training, shorthand, and typewriting, that you may be a success in life and lay up a comfortable living for old age? The famous Byrne Simplified Shorthand and Practical Bookkeeping can be had at the Tyler Commercial College, Tyler, Texas, in almost half the time and at half the usual cost of less modern systems taught in other schools. Take the advice of the editor, and write this excellent college that is doing so much for our young people of today, for catalog, and don't delay this important training.

Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organs itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone is futile. It is a waste of time, and of money as well. If your back aches or is weak, if the urine smells, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative. Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

WILL REDEEM MINE SOLD BY LAW

Cochise Consolidated Will
Raise Cash Within the
Required Period.

Phoenix, Ariz., Oct. 25.—It is very authoritatively stated and believed that Cochise Consolidated Copper company, of Tombstone, whose property was recently sold for debts, will redeem it in the time required by law. The property was sold at auction to satisfy a judgment held against it by Madison F. Larkin, of Scranton, Pa., being due on a note and trust deed given to Mr. Larkin by the company last March. The property was bid in for the sum of \$23,350, which covers the amount of the judgment, clerk costs, attorney's fees, trustee's fees and the cost of advertising the sale.

The property can be redeemed within six months by the company if it so desires. Any other judgment creditor of the company has the privilege of redeeming the property within three months after the six months' time is up, so that a deed for the property can not be given to Mr. Larkin until the end of nine months. The property is in one of the best groups of mines in the Chihuahuas mountains and is in the heart of the Paradise mining district and consists of a group of thirteen claims.

Mr. Larkin was a stockholder in the company at the time he advanced the loan of \$23,000 to the company. The auction took place at the front door of the court house in Tucson and the sale was conducted by Col. Thomas Pitch.

Yuma County Mines.
Five carloads of hoists and other machinery was unloaded at Wickenburg last week en route for the new copper mines in Yuma county. New arrivals from that section bring news of a glowing and flattering character of the promises held out for mining when once work and machinery are in operation. At the Harqua Hada mine the mill is running day and night on ore from the Golden Eagle mine. This is regarded by mining men to be the greatest gold property in Yuma county outside of the Bonanza, which has a production record of over \$5,000,000 in gold.

The Big O'Brien is another one of the great gold properties of the section. The mine is being opened extensively and the ore bodies are showing better than in any previous record of work. F. X. O'Brien is the owner and the original locator of the claim, and from his efforts alone the mine has developed to its present stage and production.

The news brought into Phoenix also confirms the report of a new and rich discovery of gold ore on the 600-foot level of the King Solomon mine, in the same district, and very contiguous situated to both the above. The ore body is even better than at first represented by published reports, and the management is pushing work in the mine steadily.

DON'T WAIT.

Take Advantage of Albuquerque Citizen's Experience Before It's Too Late.

When the back begins to ache, Don't wait until backache becomes chronic. Till serious kidney troubles develop. Till urinary troubles destroy night's rest.

Profit by an Albuquerque citizen's experience. Mrs. L. A. Benson, of 208 Baca avenue, Albuquerque, N. M., says: "I never had backache to speak of until I came here five months ago when it set in and became an almost continual annoyance. If I would stand long, and when I would wash my back was so painful as it seemed to kill me. The persistent aching made me so nervous at times that I could hardly control myself. A friend and neighbor recommended Doan's Kidney Pills to me so I procured a box. I had not used more than half of them before the distress in my back had ended and I was relieved of headache, an annoyance which had distressed me a great deal. Now, if I notice any sign of backache, I immediately appeal to Doan's Kidney Pills and a few doses suffice to dispel every indication of the trouble."

For sale by all dealers. Price 50c. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

SPARKS WOULD ARREST STEP FATHER

Went From Oklahoma to Arizona For Purpose of
Finding Relative.

With the purpose in view of inducing his stepfather, C. H. Clark, to return to Oklahoma with him where he may be arrested and prosecuted for obtaining money under false pretenses, J. C. Sparks arrived in Tucson this morning from Mangum, a small town located at the end of a Rock Island branch line in Oklahoma.

Sparks stated this morning that his stepfather was a contractor in Mangum and that he had left owing a number of bills. The family received a letter from him dated Tucson, October 13, which was written upon the Roma hotel stationery, requesting him to send his tools out to him. Instead of doing this, Sparks, his stepson, came out himself, bringing a warrant for the arrest of Clark.

Want Case Settled.
The Oklahoma authorities told Mr. Sparks when he left that they could not extradite Clark on a charge of obtaining money under false pretenses but they thought probably his son could induce him to return home with him. Their idea is that as soon as Clark gets within the bounds of Oklahoma Sparks can serve the warrant and force him to continue on to Mangum where he will be tried.

Sparks himself is not a regular officer of the law but has been deputized by the sheriff of the county to make this one arrest. He stated this morning that it was the wish of the entire family that Clark be arrested and brought back. His family lives in Mangum and they wish to have the case against Clark settled one way or the other. They dislike the disgrace of having a charge of this kind hanging over the head of the family indefinitely.

Missed Him.
Sparks upon arriving in Tucson this morning went at once to the Ramona from whence Clark's letter had come and found him registered on October 12. He had only remained one night and had left the next morning, nothing having been heard of him since.

Sparks is working the matter alone and will continue the search until Clark is found. It is his idea that Clark left for Phoenix and is now in that city.

The
Coat
that Wins
Enthusiastic
Praise

A VERY strong feature of Ederheimer-Stein clothes is the enthusiastic approval they inspire—first, from those who wear them—second, from all who see them on others.

That fact, and the actually greater value and better style, explains why we sell this brand and why it's a mistake on your part when you permit any pressure or influence or inducement to lead you to take ordinary kinds.

No garment within the range of our experience represents so many desirable features as this "Standard" Overcoat. It is stylish, roomy, durable. Sizes 30 to 38. Prices \$15 to \$30.

Not Roosevelt's Say

The sentiment among the people is growing stronger every day for Theodore Roosevelt as the next president.

The fact that the president has stated that he does not intend to run again and will not accept the nomination at the hands of the republican party, apparently is not being considered by the people.

They want Roosevelt and it will take a great deal to convince them that Roosevelt can refuse to run in the face of their determination to see that he does.

The president in refusing to accept the nomination were it tendered to him, places himself in a peculiar position—one in which few men have been placed.

While keeping his word and undoubtedly trying to do what he believes for his best interest, he at the same time shirks a public duty—something Roosevelt has never done before.

The Washington Herald in commenting upon this new phase of the Roosevelt boom, brings out a few points that sooner or later the president will have to consider most seriously.

The Herald says that the president has not the right to name his successor or in a sense to shrink the responsibility of an American citizen. That phase of the political situation should be and undoubtedly is, in the hands of the people.

The Herald's editorial is as follows:
"It is quite evident that Oregon's new senator, the Hon. Jonathan Bourne, Jr., is a man of action and of courageous convictions. Boldly challenging the right of Theodore Roosevelt, the individual and public servant, to name his successor, he asserts today that 'barring death or serious illness,' the president 'must and will be selected and elected for a second elective term.'"

"Personal desires or egotistical opinions are of inconsequential importance, and Roosevelt cannot shirk his patriotic duty without making self greater than country and forfeiting the respect and public confidence he now holds."

"This in a nutshell is the proposition presented by the Oregon senator for the avowed purpose of securing discussion and agitation on the presidential situation."

"It is not a zycophantic political play, this. Flattering to the president in one phase, it nevertheless forces home to him the indisputable fact that not he, Theodore Roosevelt, but the sovereign people, will decide who shall succeed him. A clearing of the political atmosphere is altogether desirable, and this discussion and agitation which the Oregon senator invites will make for the public good. It is far-reaching and full of meaning. A removal of uncertainty as to the president's position is needed now."

"Assuming that the popular view is correct, that the people want four years more of Roosevelt and that his hold upon the country is such that his nomination in 1908 would be equivalent to election—and this newspaper, at this time, does so assume—then a definite and final knowledge, at the earliest possible day, that there is to be no reversal, but a continuation, of the Rooseveltian policies must assuredly, as the senator says, be conducive to business success."

"There is not only much to be gained from discussion and agitation, but more by thus setting the country to thinking on a subject fraught with such a deep and widespread public importance."

"For the brief passing period, however, pending a demonstration from the country as to whether the Hon. Jonathan Bourne, Jr., in his premises, is esteemed to be right or wrong, the public will wait with chief interest a further word from the White House—a supplemental word to that spoken with such impetuous candor on election night, 1904."

Artesia Advocate: Did you ever go out into the timber after frost has come in the fall and the trees have dropped their leaves and seen the red-headed wood pecker as he knocks and knocks against the trunk of the forest giant? And did you stop to think that every knock drove his bill a little further into the body of the sturdy oak and a little nearer the seat of life? And then did you come back a few years later and see the result of that constant knocking? The tree that shaded you in the summer and furnished a home for the birds and squirrels is now but a skeleton. Its heart has been pierced and its life blood has gone out through the holes made by the red-headed knocker with his little hammer. The Advocate editor bears but one visible resemblance to the wood-pecker. He is red-headed. He has never been a knocker and never will be. This old world—and especially the Pecos valley part of it—is too good a place to live in for that. When we look back at the bumps that have beset the corduroy road of our past life, we have no desire to travel the route again, but there is one thing about it we find happy reflection in—that we never felt called upon to arm ourselves with a hammer and go knocking at everything that is good simply because things didn't come our way. The chronic knocker, like the wood-pecker, destroys and never builds up and God pity the man who emulates his example.

A farmer in Illinois, who has as much horse sense as some people have hay, tells how he utilizes his home paper as an advertising medium to save both money and time. He says: "When I am ready to sell my stuff I insert a little advertisement in the paper telling them what I have to sell and of live stock, how many head of each, and when they will be ready to ship. The result has been that the buyers are right after me either personally or by mail, and naturally I always get the highest price. If I want to buy a cow, a steer, a horse or a dozen of each I insert a little ad that costs me maybe 25 or 30 cents, and instead of traveling over the country inquiring of my neighbors who have this or that for sale the newspaper does it for me at a less expense and those who have what I want manage to let me know in some way. I have saved the time and expense of traveling aimlessly about and get a better selection to choose from."

Quite interesting, that seizure of tobacco in transit because it was being shipped in violation of the federal anti-trust law. Likewise, the government could strike a similar blow at child labor if congress would pass the Beveridge bill against interstate commerce in the products of child labor.

Family of American reformers arrested in Russia for hobnobbing with revolutionists. Whether to apologize for them as butt-ins or let them take their medicine as martyrs is the dilemma now confronting the state department.

President Roosevelt refused a live bear cub intended for Quentin on the ground that it would soon lose its attractive qualities by growing up. That's one beauty about the Teddy bear of commerce—it doesn't grow up.

E. L. Washburn, the South Second street clothier, is mourning the loss of a fine bull dog, which was poisoned the early part of the week and died yesterday. The animal was of good stock and a good watch dog, and this is the reason why he was poisoned, thinks Mr. Washburn. Previous to getting the dog Mr. Washburn had lost garden hose, coal and many other portable things that were kept under lock and key. After getting the dog the pilfering stopped.

The county commissioners are to appoint seven members and the city council a like number.

MINSTRELS ARE TO BE GIVEN A RECEPTION

George Primrose and his minstrels will be guests at an affair at the Elks' opera house this evening for which the Albuquerque Elks will stand sponsor.

The party will come off immediately after the close of the minstrel performance in the auditorium and will be attended by all Albuquerque Elks, their wives and sweethearts and a few invited guests. What the program contains is known only to the program committee. The work of preparation has been going on several days, so that it ought to be something good. Mr. Primrose is an Elk and many of his minstrels are Elks, as well as actors.

The entertainment that will take place at the reception will be fully as good as the regular performance. J. H. O'Reilly, an old friend of Mr. Primrose and an erstwhile minstrel man, is to be one of the star performers at the reception. There is going to be a big punch bowl, and it is said that there is going to be a spread.

SOCIETY YOUNG MEN PLAY TRAVESTY ON SOLDIER BOYS

To vie with the soldiers, who were here fair week, in the patronizing graces of the gentler sex of Albuquerque a number of Albuquerque young men of the upper social set bedecked themselves in blue uniforms last night and called upon some of the lady friends, with sabers clanking at their heels. The travesty was quite complete.

There was a gathering of society at the home of Mr. and Mrs. Nell B. Field last evening in honor of Miss Otero, of Santa Fe, who is a guest of the Fields and has been since before the territorial fair. About a dozen couples were present and the men all wore soldier uniforms. Previous to going to the Field residence, the guests gathered at a residence on West Central avenue, and to make the soldier stunt complete, continued from there in a Concord stage owned by Maynard Gungul, the ladies riding on the inside and the men on top with the driver.

The affair proved a delightful one. Refreshments were served.

BERNALILLO COUNTY DISTRICT COURT

In the district clerk's office this morning there was filed a suit entitled the Bank of Commerce vs. H. T. McKinney. The plaintiff prays judgment against the defendant for the amount of a note for \$21.45, made Nov. 1, 1907, together with interest at the rate of one per cent a month from date of said note and attorney's fees and costs of suit. W. B. Childers is the attorney for the plaintiff.

Elwood and Corly Gully. George Elwood and William Corly, indicted on charges of burglary, were arraigned before Judge Ira A. Abbott in the district court this morning and both pleaded guilty. Sentence was deferred.

Anaya Found Guilty. In the case of the Territory vs. Nicolas Anaya, the trial of which was commenced yesterday, the jury this afternoon returned a verdict of guilty, but recommended that sentence be suspended provided the parties become reconciled. Anaya was indicted on the charge of abducting and failing to support his wife, Juliana Baca de Anaya. When the defendant and the complaining witness were cross-examined yesterday, they both expressed a willingness to become reconciled and live together again. M. C. Ortiz was the attorney for the defense and District Attorney Clancy assisted by T. C. Montoya, conducted the prosecution.

Apodaca on Trial. At 2:30 o'clock this afternoon, the trial of the case of the Territory vs. Leopoldo Apodaca, was commenced. Apodaca was indicted on the charge of breaking into the home of Manuel Padilla in Los Padillas on the night of October 23, 1906, with the intent of committing rape on Leonarda Marino de Padilla, the wife of Manuel Padilla. A. A. Sedillo is the attorney for the defendant and District Attorney Clancy is conducting the prosecution.

REFLECTOR THIEF GETS GIVEN NINETY DAYS FOR NINETY DAYS IN COUNTY JAIL TRYING TO DO RIGHT THING

Plead Guilty to Charge—How The Mystery Was Solved.

Plight of One McMahon Whose Sweetheart Is In Leadville, Colo.

Three months in the county jail will be the penalty George Phillips will have to pay for stealing headlights from Santa Fe locomotives in the local yards.

Phillips was arrested Wednesday night in Graham Bros. saloon on a description furnished by the Albuquerque Thursday and Machine works, where he had sold several reflectors and a quantity of copper. His method of doing business was to watch the yards in the vicinity of the coal chute, and when an engine was brought out of the round house and left standing on the track awaiting the arrival of the engineer, he would creep up and remove a reflector in a very few moments. He worked successfully for some time. Engineers would take charge of their engines and find them without a headlight. Of course a kick would be made to the roundhouse foreman who had been sent out without a headlight. The roundhouse foreman kicked to his subordinates in return and it is said that several men lost their jobs as a result. The robberies continued and the reflectors became missing to such an extent that the loss could no longer be charged to the roundhouse. Engineers were examined particularly as to the reflector before being sent out before the engineer would reach them, the reflectors were gone. The secret service was finally called upon to solve the problem, with the result that Phillips was arrested. He plead guilty to the charge.

HUNTERS BRING HOME WELL FILLED GAME BAGS

Percy Hawley, James Birmingham and W. M. Schecher formed a hunting party which returned to the city last night from a four days' trip down the Rio Grande. They brought with them about fifty ducks and forty-four quail. They went in a covered wagon and if any one wants to know how hard it rained Wednesday night, just ask any one of them. The first shooting was done on the lakes between Sabinal and La Joya and the second shooting they found at Los Lunas. The second was plentiful at both places but hard to get.

WERE ARMED WITH REVOLVERS AND KNUCKLES

Tony Mesaca and Joe Oasen, charged with carrying deadly weapons, were arraigned before Police Judge Craig this morning and sentenced to sixty days each in the county jail. The two men were arrested in the Santa Fe yards at 10:30 last night by Watchman Pifer, who noticed them prowling around in a suspicious manner. The men were locked up in the city jail over night. Two revolvers and a pair of knuckles were found on them. Both men claim to be strangers in this vicinity and both are foreigners.

WAGS AND OTHERS CHANGE AT CRYSTAL

A hot soldier is Wag, of the two Wags, who are putting on a funny and original military stunt as the opening act of the change of bill at the Crystal theatre the last part of the week. Military, like the police, can be burlesqued to be very funny, and Wag certainly takes full advantage of its possibilities.

Mr. Rogers has another applause getting ballad in "Like the Rose You're the Fairest Flower." People are beginning to realize that in this singer, they are getting something beyond the ordinary and he will, consequently, draw heavily. Stanton and Sandberg are still making them scream. Billy Behan is again in his favorite role of the "wick" and is producing a very clever farce, "The Fellow That Looks Like Me."

NORRIS AND ROWE CIRCUS MADE BIG PARADE

GEORGE HOLLAND, WITH THE GREATER NORRIS & ROWE CIRCUS WHICH SHOWS HERE TODAY.

"Hold your horses, the elephants are coming," was heard on the streets early this morning. This is circus day—the day of days nearest the heart of the small boy. The country beau and his sweetheart was seen on the streets early, and Johnnie, dressed in his best bib and tucker was also in evidence. The peanut vender, and the fellow with the toy balloons were doing a thriving business, and there was an air of repressed excitement in the air. Circus comes but once a year and it is the one remaining thing left that allows us to turn back the years and become boys and girls again.

It has been a number of years since Norris & Rowe have paid this city a visit. During the interim, this show has grown in size and importance, until it is now recognized as one of the five great circuses of the world. The parade left the show grounds at about 11 o'clock and traversed the principal streets of the city. Notwithstanding that this is the fortieth week of one day stands of the season, during which the circus has traveled from California to the extreme north, thence to the farthest easterly point possible to make on rails on this continent, and back this far, the street showing made by Norris & Rowe was very creditable, and promised a feast of good things to be seen with the big circus today. Messrs. Norris & Rowe have always paid especial attention to their trained animal features, and this season they have, it is claimed, produced more big combination animal feature acts than has ever been seen with a tented exhibition. Among the star performers with the show are the celebrated Banvard troupe of aerialists, the Money-More troupe, the MacDonald family of bicyclists, Rose Dockrell, George Holland, Frank Miller, Edna Muretta, Mlle. Thini, Ravasi Pagani, Oscar Hammerstein, famous bare-

ONLY NECESSARY TO TREAT THE STOMACH

Claim of Central Figure In Recent Controversy Is Novel.

The new theory advanced by L. T. Cooper relative to the human stomach has attracted such widespread attention that the public in cities visited by the young man has been joined by many physicians in a discussion of his beliefs and medicines. Mr. Cooper says that human health is dependent almost entirely upon the stomach. He says that no disease can be conquered without first alleviating all stomach disorders. He further says that most men and women of this generation are half-sick, owing to degenerate stomachs. And lastly, he claims that his New Discovery medicine will rejuvenate the human stomach in 90 days.

Cooper has been traveling from one city to another, conducting in each what he calls a campaign of education. For the past year he has met the public in the larger cities of the country, and his success has been phenomenal. Thousands of people have flocked to his headquarters wherever he has gone, and the sale of his medicine has been beyond anything of the kind ever before witnessed.

Possibly the most interesting feature of the attention this young man has attracted is what his army of followers, whom he has converted to his beliefs through his medicines, have to say on the subject. The following statements are from two well known residents of Chicago and Boston, respectively, and the enthusiasm of these is characteristic of Cooper's admirers generally.

Mrs. H. B. Mack, of 3201 State street, Chicago, says: "I have been suffering for 12 years from a combination of stomach troubles, catarrh and constipation. I had a gnawing pain in the pit of my stomach, a sort

of a dull pain that I could not quite understand. Then there was a dull headache, and my mind seemed to be wandering continually. I could not eat, and what little solid food I did eat I could not retain on my stomach. I tried every remedy I could think of and also tried out a number of patent medicines, but without any apparent result. It was through one of my friends that I heard of Cooper's preparation, and I immediately decided to try some of it. It is two weeks since I took my first dose of it, and I feel like a new woman. The headache seems to have disappeared, and the pain in my stomach along with it. The medicine is worth its weight in gold, and I want to thank Mr. Cooper for what he has done for me."

Mr. Edwin F. Morse, of 20 Oakley street, Dorchester, a suburb of Boston says: "For three years I had not a well day. My stomach was in frightful shape, the mere thought of food would nauseate me, and I really had a horror of anything to eat. All solid food would cause me extreme indigestion, bloating and gas on my stomach, and nothing tasted right. Some time ago I got some of this Cooper's medicines, about which there is so much talk. I actually feel as well and strong as a boy ever since the first bottle. Every sign of stomach trouble has disappeared, and I have a hearty appetite and eat three square meals; everything seems to taste good. Anyone who knows what chronic indigestion is can appreciate what this means to me. I consider this the most remarkable medicine I ever heard of." We sell Mr. Cooper's medicines, and find them to be all he claims. J. H. O'Reilly Co., Second and Central.

PENSION MAY BE ARRANGED FOR NATIONAL FAMILY

The Ormsby Quadruplets—From Left to Right: Wm. Randolph Hearst, Edith Alice, Theodore Roosvelt, John Studebaker.

Chicago, October 25.—Save the national family, is the cry of the motherly women of this city. A movement has been started to put this remarkable family on a state pension, and lawyers are drawing a bill.

The national family, as everybody ought to know, consists of the Ormsby quadruplets and triplets. The quads were born soon after President Roosevelt made his first announcement on the race suicide issue. For this reason the parents of the children—Mr. and Mrs. Joe Ormsby—named one of them Theodore and another Alice.

ly of national fame was in dire want, rescued them from a hovel, and the children are now in the juvenile home in Chicago. When found by the settlement worker they were living in a little dugout near the Wabash railroad tracks, down in the "jungle." They were hungry and had scarcely enough clothing to keep them warm.

"It is an outrage against motherhood," said Mrs. Keough, one of Chicago's best known club women, "for these children, the only quadruplets in the world, to be sent to a state institution, or even sent out to homes in such a manner, that the family should be broken up. Such a thing would not be tolerated in many foreign countries. Germany would put the family on a pension. All of the children are normally bright and happy. They should be given a chance at an education."

The Ormsby Triplets—Left to Right: George Dewey, Daisy, Helen.

1,000 MILE WALK NEARLY MADE A GHOST OF OLD DAN O'LEARY

O'Leary Before 1,000 Mile Walk.

Cincinnati, Oct. 25.—Good old Dan O'Leary, "ped," which is short for professional pedestrian, has taken a fine long, long sleep, the first in 41 days, and is trying to brush away the memory of his 1000-mile walk.

They said back early in September that the famous walker of a quarter of a century ago could not walk 1000 miles at a steady, regular rate of one mile in every single hour. What a man of 64 go through that nerve racking, muscle torturing experience!

But Dan did it, and though he has slept and rested lots since the 1000th mile was finished, he looks like the ghost of Dan O'Leary of six weeks ago.

Dr. G. W. Hale, who, with Dr. Edwin N. Craig, kept hourly watch on O'Leary all through his long walk, says pooh! with Dr. Oiler's theory about 60-year old men.

"I have never in my life seen the man who withstood anything like the physical strain undergone by this man here. His heart action is good, his appetite wonderful, his digestion perfect, and the muscles of his body act normally."

"But he couldn't have stood it much longer. Something would give away if he continued the strain many

O'Leary After Nerve-Torturing Walk.

more hours." O'Leary's will power throughout the last awful hours of the feat was wonderful. His flesh had wasted away, his eyes were far back in his head and he could not see to read even course print.

Added to this was a bruised foot, very much swollen, and with a running sore upon the instep caused by a badly fitting shoe. Yet at the top of the gong, he sprang away on his last mile walk, the lines on his face determinedly, he clinched his teeth determinedly. People in the grandstand and seated along the track railing applauded him at almost every lap and invariably he would lift his cap in polite answer.

In his quarters he was very irritable, and though never profane normally, he adopted a few expressions towards the last. He did not want to obey his trainers, saying he had lived 63 years and knew what was good for him and what was bad.

The food the great walker relied on most during the trying ordeal was eggs. He ate a great many of them, almost raw. The doctors have a very large amount of data on O'Leary's physical condition during the long walk which they will present to medical science.

S.S.S. FORTY YEARS OF CURES

Long experience and thorough testing have proven S. S. S. to be the King of blood purifiers and the greatest of all tonics. For nearly half a century S. S. S. has been used in the treatment of blood and skin diseases of every character, and so satisfactory have been the results that it is now the best known and most widely used blood medicine on the market. S. S. S. attracted attention as soon as it was placed on the market by curing promptly those diseases for which it was recommended, and we have so jealously guarded its first good reputation, by keeping it up to its standard in manufacture, that it now has the unequalled and pleasing record of "Forty Years Of Cures." For Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Malaria, Skin Diseases, Contagious Blood Poison, and all other diseases due to an impure or poisoned condition of the blood, there is nothing that equals S. S. S. It counteracts and removes the germs and poisons, cleanses the system of all unhealthy matter, cures the trouble permanently, and restores strong, robust health. Where the blood is weak or anemic and unable to nourish the system as it should, S. S. S. supplies it with the needed properties, and being a bracing, invigorating tonic it builds up the entire system. It goes to the very bottom of all blood disorders, and in this way reaches deep-seated and inherited cases on which the ordinary sarsaparillas and tonics have little or no effect. Not only is S. S. S. certain in its results, but it is an absolutely safe medicine. It enjoys the distinction of being the only blood medicine on the market that is guaranteed purely vegetable. If you are in need of a blood remedy begin the use of S. S. S., the medicine that has proven its worth by its record of forty years of cures. Book on the blood and any medical advice you wish, no charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.

ADVERTISE IN THE CITIZEN

Nothing New Under the Sun

Solomon says there is nothing new under the sun, and Solomon is an authority. He may have done some things that were somewhat shoddy, but it has never been satisfactorily proven that he ever misrepresented.

Conceded, then, that he knew what he was talking about when he made that statement, how do you account for the queer things that bob up now and then that nobody ever saw before?

My dear Sir, they are all merely new combinations of old things. You can't even think of a really new thing. Try to think of a new animal. To save your soul, you can't help thinking of legs and eyes and teeth and tails, which are all old and well known things. Try something else.

The Albuquerque Citizen doesn't claim to have discovered something elementally new, but they have some fellows around the place who are mighty slick at hanging the old things together in new and taking ways. They'd fix you up an ad that would make even Solomon himself have some doubts about the old proverb.

Our Shoes Are Perfect Fitters

Your standing is affected by the kind of shoes you wear. Poor fitting shoes won't harm your character but they will hurt your feelings. Nowhere does a person need ease more than about the feet. These much abused members of the body are continually in use and having to bear the weight of the whole human structure, need all the help they can get. It would be easy to make comfortable shoes if that was all people wanted, but they must be pleased as well as the feet. We have said it before and say it again, that no shoes excel ours in style and fit. The eye, the foot and the pocket-book are all attracted by them. Try a pair and see how well we can satisfy you.

Men's Shoes	\$2.00 to \$4.00
Women's shoes	\$1.75 to \$5.00

FINE WATCH REPAIRING

ALBUQUERQUE DESTINED TO BECOME SECOND DENVER

City Gained 3,000 Population Last Year and is Growing Rapidly.

People from the overcrowded east who have been dealing in watered stocks and wild cat securities, have found that it does not pay, and as a consequence are flocking to this section for legitimate industrial and real estate investments. It means Albuquerque will grow faster than ever.

Two years ago outside residence lots sold at from \$150 to \$175 a lot. Now the same lots are reselling at from \$300 to \$500 a lot. There is no safer speculation or savings proposition than an investment in a few building lots here at the bargain prices we will offer for a short time.

While another big proposition is maturing, we have decided to clean up a few choice odds and ends at sure enough bargain prices, and which will enable every one who has a little money saved up to make a very profitable and safe investment by selecting something from the following list:

Terms—Half cash, balance within a year or discount of 5 per cent for all cash. Five to 20 acre tracts of splendid garden; truck or orchard lands, under good ditches, not over mile and a half from city, only \$50 to \$60 per acre. Similar land elsewhere in the territory is selling at from \$125 to \$225 per acre.

Twenty-two choice 50-foot lots in University Heights from \$35 to \$100 each.

Sixteen choice 50-foot lots in Eastern Addition from \$150 to \$200 each.

Eleven choice "close in" lots in Pecos Addition from \$150 to \$250 each.

Six choice "close in" lots in Grant Tract from \$150 to \$200 each.

Seven choice residence lots in Honeymoon Row, Central avenue, from \$150 to \$250 each.

Three lots in Duran & Alexander Addition from \$100 to \$150 each.

Four semi-business lots on First street, from \$400 to \$500 each.

Seven business lots on Copper avenue including corner 3900 up.

One extra choice business lot on Central avenue \$1,000.

One good brick residence and three 50-foot lots in Eastern Addition only \$1,250.

One small brick house and two 50 foot lots in Eastern Addition, only \$750.

We are the Owners. Perfect Titles. If you wish we will call and show you around in our automobile.
