## WASHINGTON MATTERS.

## NOTES.

WASHINGTON, Oct. 1.—Any doubt which may have been entertained as to the reception by the Mexican government of United States Consul Sampson at Paso del Norte has been set at rest by the reception of news that he has been given an official acknowledgment.

The American delegates to the Three Americas congress called on Sec. Blaine at noon. The conference lasted some time. The delegates will be presented to the president to-morrow and be entertained at lunch.

The president notified the cabinet this morning that there would be no meeting to-day, but that he would expect them to meet on Friday afternoon. Private Secretary Halford said to-day the meeting was omitted because the president saw no necessity for holding it.

The secretary of state is informed that cholera is epidemic in Bagdad and various places on the Euphrates.

The whereabouts of the revenue steamer Bear has been made known to the navy department by Lieut. Comd. Stockton, of the Thetis. The Bear was at Point Barrow, July 29, when the Thetis arrived there, and was still in port on August 8, when the latter vessel left for a short cruise to the eastward, where a whaling fleet is cruising.

The site for the Point Barrow refuge station has been selected by Capt. Healey, and the house was well under way while the Thetis was there. The whalers lent much assistance.

Rumors have reached the navy department that the result of the engineer's computations of the horse power developed by the cruiser Baltimore on her last trial shows that she falls short of the contract requirement of 9,000 by just 33 horse power.

The inspection board has reported to Sec. Tracy that the gun-boat Petrel, just completed at Baltimore, complies with the contract requirements in the matters of construction, material and equipment.

## PUBLIC DEBT STATEMENT.

Following is the debt statement issued to-day:

Interest bearing debt, principal \$862,943,502, interest \$9,553,759, total \$872,497,261.

Debt on which interest has ceased since maturity, principal and interest \$2,050,304.

Debt bearing no interest, principal \$762,233,212.97.

Total debt, principal \$1,627,699,140.23, interest \$9,766,728.69; total, \$1,637,465,868.92.

Total debt less available cash items, \$1,116,599,958.71.

Net cash in the treasury, \$46,544,428.75.

Debt less cash in the treasury October 1, 1889, \$1,070,055,690.96.

Debt less cash in the treasury September 1, 1889, \$1,083,740,625.21.

Decrease of the debt since June 30, 1889, \$9,591,000.49.

Total cash in the treasury available for reduction of the debt, \$420,175,909.11.

Total in the treasury as shown by the treasurer's general account, \$337,540,593.61.

## New York Democrats.

SYRACUSE, N. Y., Oct. 1.—The Democratic state convention met here to-day. Lieut. Gov. Jones was made temporary chairman and in taking the chair he spoke at considerable length. On re-assembling this afternoon, temporary organization was made permanent and a platform adopted. It reaffirms the doctrine of the national Democratic platform of 1888 and says: "We don't advocate free trade, but strenuously advocate the principle of tariff reform."

President Cleveland's administration is indorsed. The Republican party is charged with obtaining power by corruption, false promises, intimidation and coercion of voters, unperformed promises and the shameful trafficking of cabinet and office to the highest bidder. President Harrison is arraigned for having removed hundreds of honest and capable officers before the expiration of their terms, in violation of his anti-election pledges. The plank dealing with the liquor question says:

"We do not favor the unrestricted sale of intoxicating liquors on one hand nor prohibition on the other. We believe the liquor traffic should be restrained and regulated by a just and equitable excise law, rigidly enforced, and which should be uniform throughout the state."

The Republicans of New York, Massachusetts, Rhode Island and Pennsylvania are denounced for submitting, or proposing to submit, prohibition amendments only to defeat them at the polls. Electoral reform receives renewed pledges of support, but not as embodied in the Sexton bill, which was a Republican measure. The administration of Gov. Hill is indorsed.

Ex-Congressman Frank Rice, of Ontario county, was nominated for secretary of state, Edward Wemple, nominated for comptroller, Hon. Elliott Danforth, for treasurer, Charles F. Tabor was re-nominated for attorney general. John Bogart for state engineer and surveyor and Dennis O'Brien for court of appeals judge. Adjourned sine die.

## Coal, Minerals and Pine.

SANTA FE, N. M., Oct. 2.—Canadian and American capital have applied for a railroad charter from the Rio to the Hudson bay. Recent valuable coal discoveries have been made near the Moosehead district and some of it has been brought down for examination, creating no little interest in that unfamiliar land and exciting considerable comment. The road will be 370 miles in length and will cross the main line of the Canadian Pacific at Windermere, 107 miles due north of the "Soo." The country is said to be rich in pine and minerals. The idea of the men interested is to open up this country and to build to Hudson bay, with a view of making a European route through the Hudson strait. The distance is one-third less than the much talked of route from Winnipeg. The Dominion government will be asked for aid, and a surveying party will start out from here January 1, under the direction of Joseph Fossens, a well known Canadian engineer. The line will give the Canadian Pacific a cut-off to water.

## A Race Ceremony.

LOUISVILLE, Sept. 30.—The rare ceremony of divorcing a woman from her dead husband, according to the requirements of the old Mosaic law, took place at B'nai Jacob synagogue in this city yesterday. The woman was Mrs. J. Levin, whose husband, a peddler, was killed on the 27th of last June by two men. She had no children and the old law of the orthodox Jews is that in such a case the dead man's eldest brother is to marry the woman and raise up the children in the name of the deceased. Mrs. Levin, however, did not

desire to marry Israel Moses Levin, her husband's brother, nor he her. She was therefore divorced, and, as there was not in Louisville two orthodox Jewish rabbis, who were required to perform the ceremony, they were brought here from Chicago. The divorce took place in the synagogue in the presence of a small congregation that had thrifly been charged 25 cents a head.

## A Great Mind Failing.

NEW YORK, Oct. 3.—The mental condition of ex-Gov. Alonzo B. Cornell was much discussed in political circles to-day and it was openly said the mind of Mr. Cornell is shattered and his family and friends are seriously considering the advisability of placing him in some quiet and secluded institution, where it is hoped complete rest will restore his faculties.

It has been known for some months that his mental condition was not exactly right. Several years ago he suffered from aberration of the mind and he spent four months at the Brighton Beach hotel, nominally a free man, but really under the constant care and watch of several attendants.

It was said to-day that the ex-governor's peculiar actions while attending the Republican state convention at Saratoga last week had attracted the attention of all the delegates and has aroused their sympathy.

## Hint to Santa Feans.

CHEYENNE, Oct. 1.—Under the care of Alderman Altman the park of this city has become a municipal beauty spot. It has shady walks, pleasant drives and beautiful flower beds, and within the center of the grove is a magnificent fountain presented to the city by Mrs. T. B. Hicks, wife of the banker. During the summer Mr. Altman arranged Sunday evening concerts for the resort and in many other ways made it a delightful place. For this disinterested toil he has in a measure been rewarded. About twenty society ladies who drive in the park yesterday gave him an elegant pair of diamond cuff buttons. Mrs. Delegate Carey made the speech.

WYOMING'S NEW CONSTITUTION.

CHEYENNE, Oct. 1.—The constitutional convention, after listening to the constitution as revised by the revision committee, adjourned last night subject to the call of the president. Previous to adjournment a costly gavel was presented to President Brown, and a gold pen, with which the members signed the constitution, to Secretary Jeffrey.

The constitution so far is very generally received with favor. The officeholders and politicians make some objection because the fee system is generally cut down and salaries are reduced, but the conservative members of the people regard it favorably. It will probably be adopted with scarcely any opposition.

## Pueblo's Progress.

PUEBLO, Oct. 3.—After long continued efforts in the face of apparently insurmountable obstacles, the committee selected by the board of trade to raise funds for the erection of a board of trade building on Union avenue has accomplished its object, the money all being subscribed. A building is to be erected five to six stories high. The building will cost \$65,000, and the ground on which the building will stand will cost \$35,000, making a total cost of \$100,000.

They Settled It.

PUEBLO, La., Oct. 2.—For some time past there has been a newspaper controversy between A. C. Poole, editor of the Vernon News, and Sheriff McAlpin, of Vernon Parish.

Yesterday Poole went into the sheriff's office, pistol in hand, and said: "Now is your best time to settle our differences." McAlpin drew a pistol and the firing began. Poole was killed instantly and McAlpin died a few hours later from the effects of bullets in his abdomen.

Sullivan's Candidacy.

BOSTON, Sept. 31.—The Globe states that a meeting of sixty or seventy district Democrats was held at the Sherman house yesterday in the interest of John L. Sullivan's candidacy for congress in that district; that eulogistic speeches were made and plans laid for securing the champion's nomination at the expiration of Hon. J. H. O'Neill's term.

Miss Willard's Birthday.

CHICAGO, Sept. 29.—The 50th birthday of Miss Frances E. Willard, president of the National Woman's Christian Temperance union, was celebrated last night by a large gathering in the First Methodist church, Evanston. Messages of congratulation were read from notables throughout the country, including the poet Whittier and ex-President Hayes.

Mistaken For a Deer.

SALT LAKE, Oct. 3.—Hyrum Jensen was shot and killed at Blacksmith Fork Canon, in Cache County, by H. H. Peterson, Jr., of Hyrum City. Both were deer hunting, and they got separated. Peterson saw the bushes moving and thought it was a deer, but he shot his friend. He got a team and carried the corpse home.

Sensation at Shanghai.

SHANGHAI, Oct. 2.—It has been discovered that the fire in the Temple of Heaven was of incendiary origin, and several persons have been arrested for complicity in the crime. The authorities have learned that the object of the incendiaries was to create the idea that it was an omen to warn the people against the introduction of railways in China.

Collins Held for Trial.

CHICAGO, Oct. 3.—"Tom" Collins, a Denver gambler, who is charged by Jeff Hankins with having robbed him of \$2,000 on Saturday, was held in the criminal court in bonds of \$5,000 this morning by Justice Prindiville.

No Apaches Wanted There.

WASHINGTON, Oct. 3.—Sec. Proctor has received a letter from Gov. Fowler, of North Carolina, objecting in very decisive terms to the transfer of Chief Gerónimo and his band of Apaches to North Carolina.

CONDENSED NEWS.

George Francis Train's wife has sued for a divorce.

The chief of police at Kansas City has been ordered to suppress the Salvation Army.

Sec. Noble has taken measures to preserve the ruins at Casa Grande, Pinal county, A. T.

The marriage of Count Hatzfeldt to his divorced wife was celebrated at his mansion near Wiesbaden last week.

A business crash is considered unavoidable in the Argentine Republic. The premium on gold there is now 120.

A big Newfoundland dog has been detected at Baltimore in robbing houses of everything valuable that he could secure in the way of shirts, handkerchiefs, rugs, etc. He evidently had been trained by thieves, who were in the neighborhood to receive the stolen articles.

## ANOTHER DOCTOR MILL.

Grinding Out Bogus Physicians at All Prices in New Hampshire.

BOSTON, Oct. 2.—A special from Portsmouth, N. H., says a great sensation has been caused there by the discovery of another actively maintained bogus college of medicine similar in management and larger in extent than the Druid college of Maine, a full exposure of which was made some years ago. This latest chartered institution is the Trinity university of medicine and surgery, having nominal headquarters at Bennington, Vt.

Its methods of business briefly told are these: Any person desiring to buy a diploma covering both medicine and surgery has, if possessing the necessary money, been given his choice of the following institutions, all of which exist merely on paper: University of Cincinnati, Montreal medical college, New York state medical college, Trenton N. J., medical college, university of New Hampshire, Trinity university of medicine and surgery. The value of diplomas representing the above institutions has varied from \$60 to \$300 each. There is no doubt but that hundreds of them have been purchased throughout the west and south, while New England alone has been victimized by scores.

## Three Tascott Tales.

CHICAGO, Oct. 2.—Three brand new Tascott stories made their appearance yesterday. They all claim to solve the mystery of Millionaire Snell's murder, but agree only in conveying the impression that Tascott was not the real criminal. The most important of the three narratives quotes as authority an alleged well known lawyer whose name is withheld. He says he was consulted professionally the day after the murder by one of the two men who did the killing, James Gillan, an ex-convict now dead.

Tascott's connection with the case is explained in this version by the statement that Gillan had hidden his plunder in Tascott's room during the latter's absence from the city. The sensational feature of the story is the unqualified statement that Gillan, on his deathbed at the county hospital six months ago, made a full confession of the crime to Father J. Sullivan, of the St. Jarlath's Catholic church. Dramatic alleged details as to Father Sullivan's horror-stricken appearance after learning the secret are given, accompanied by descriptions of a holy peace that immediately descended on the face of the dying convict. Father Sullivan was seen to-day, and emphatically denied the story in toto.

One of the other two stories has it that Millionaire Snell was slain by a pair of toughs who were hired by a mysterious third person.

The third tale is to the effect that "professional" burglars—identically not even hinted at—killed Snell as an incident in the course of their professional occupation, and have since disposed of Tascott, against whom suspicion was unjustly directed.

## The New South.

CHATTANOOGA, Oct. 2.—The Times will publish reports in the morning from seventy-five of the ninety-six counties comprising the state of Tennessee, showing an increase of the total value of real estate and personal property of \$26,000,000 over the assessment of 1888, and an increase of \$100,000,000 over the assessment of 1886. The increase of \$100,000,000 in taxes in three years is unprecedented in the history of any state in the union. The reports show the total value of taxable property in 1889, including \$32,200,303 railroad properties, aggregates \$556,456,761. The revenues of the state will also be increased this year by the collection of \$125,000 on account of back taxes from corporations that have been heretofore inadequately assessed. The state debt of Tennessee now aggregates \$13,339,000—2.5 per cent of the taxable property of the state. The state comptroller writes to the Times that the increased revenue will enable the state to pay its entire floating debt within fifteen months.

## Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50 cents and \$1 per bottle at C. M. Creamer's drug store.

## He Paid the Penalty.

NOGARA, A. T., Oct. 2.—J. K. Tallier, leader of the gang who robbed a train on the Sonora road, a year ago last May, and killed Conductor Atkinson and Fireman Forbes, and who was subsequently convicted of the crime and sentenced to death, was shot yesterday by Mexican authorities at Guaymas.

## Job Printing.

Merchants and others are hereby reminded that the NEW MEXICAN is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town should come to the NEW MEXICAN office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The NEW MEXICAN is acknowledged the leading printer of this section. The patronage of the people will enable us to keep it so.

## FRISCO LINE!

St. Louis &amp; San Francisco R. R.

to our workshops. Diamonds, American Watches, Silverware, Clocks and Optical Goods also a specialty. The only place in Santa Fe where a fine watch can be repaired properly.

PALACE AVE.,  
Opp. Gov. Prince'sSANTA FE,  
New Mex

## ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of unusual ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

## The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

## RIO GRANDE LAND COMPANY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks from which incomes can be produced equally as great, not greater, than the average farms of eighty and 160 acres in the western and northwestern states, and all within a radius of one and one-half miles of the railroad depots at

## LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of boom; and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranted deeds given. Write or call for plans and circulars. Command us for carriages or other commodities within our power to give.

FAIR FACTS.

Riverbun is said to be looking a great many orders for his Santa Fe nursery stock.

The Arizona valley has a fine quality of corn, melons and small cereals in the agricultural section.

To-morrow night occurs a grand ball at the San Felipe under the auspices of the Albuquerque Social club.

Chili, which the same is in Santa Fe county, is on hand with a gorgeous lot of pumpkins, squash, corn and glut millet.

There was a good deal of sham about that balloon ascension yesterday. In fact, some people are mean enough to term it a perfect fraud.

Chas. H. Bennett, engineer on the Santa Fe Southern road, and Dick Bergin, running between Lamy and Santa Fe, are doing the exposition for all it is worth.

"Dr. Von Meyerhoff feels very sorry that the non-arrival of Prof. LeRoy will make it impossible for him to ascend, playing the violin, during fair week." Yes, and how awfully sorry the crowd must feel about it!

The racing was below the average again yesterday. Some right smart horses are on the ground, but the jockeying is miserable. The management ought to another year adopt the single dash method for racing, which is now in popular favor all over the country as against the old fashioned heat system.

Mr. Wm. Cook Scott returned this morning after spending one day at the fair. He regards the exhibits as most creditable, particularly the fruit and vegetable display. He thinks the small grain on exhibition is not a fair sample of what New Mexico can produce. He remarked also that the wheat showed lack of care in harvesting and some of it was affected with smut.

Frank Harrison, of Santa Fe, well known here from the fact that he is interested financially in the property of the metropolis, came down yesterday and will remain for several weeks. Frank has acquired a huge lot of avoidpols since his last visit to Albuquerque, and now carries around with him a frontpiece equal to that which troubles F. M. Spavere, of Los Lunas.—Citizen.

Supply ensconced in an alcove is a small exhibit which attracts considerable attention, not so much from the size or variety of the products as from three words found on the placards above them which are, "Raised Without Irrigation." The collection comes from a few ranchmen and farmers who live in what they call the garden spot of New Mexico, the east slope of the Montezuma mountains.

RAILROAD NOTES.

Taos valley's prospects for securing a railroad are said to be brightening considerably. The great richness of the mines there; the abundance of water and fertility of soil is beginning to attract much attention both in Colorado and New Mexico.

A letter from Gen. Melly, at Denver, states that the order for tri-weekly trains on the D. & M. G. south of Antonio will probably be revoked this week. In the mean time, however, the Santa Fe Southern continues to run regular daily trains to Espanola and return.

This week the Santa Fe Southern surveyors will get square into San Pedro, and after another week of "tying the line together," Engineer Coleman will break camp and come to Santa Fe, where he and Engineer Geiger will begin figuring out the estimates of cost. Orders have been received to forward this estimate to New York as soon as possible, along with a profile of the extension.

The new management of the Atchison, Topeka & Santa Fe is considering a scheme to fund the indebtedness of the company at a lower rate of interest than it now bears. The task of straightening out the financial tangle in which the Santa Fe is involved is a difficult one, and the new management will deserve great praise if it accomplishes the work without allowing the company to get into more serious complication than those which make its future doubtful now. The problem before the directors is to make \$7,000,000 or \$8,000,000 of net earnings meet \$11,000,000 of fixed charges. A blanket bond at 4 per cent for \$10,000,000 with which to retire the present high interest bearing obligations is probable.

TERRITORIAL TOPICS.

Hon. T. D. Burns is shearing 15,000 sheep on the Little Chama, just north of town, Chama New Mexican.

The Miners Consolidated Mining company's mill near Georgetown has been shut down and will not be started up until next spring.—Silver City Sentinel.

It seems that Chama will supply Santa Fe with all the dressed beef that that burg will want. Shipments will begin next week via Antonio and Espanola.—Chama New Mexican.

Mr. Alex. McKee, late of this town, died of typhoid fever at Walla Walla, Wash., on the 25th inst. Mr. McKee was well known in this town, and his death is regretted very much by his friends here.—Albuquerque Citizen.

The store of Becker & Buck was closed by attachment last week, the general hard times and inability to make collections being the cause. Nothing is known as to the assets or liabilities of the suspended firm.—Mesilla Valley Democrat.

Shipped through Wells, Fargo & Co's express office during the week ending September 29, 49,000 pounds of mail, \$2,000; Ariz., \$1,500; other sources, \$340; total, \$3,840. Silver—Mogollons, \$940; total gold and silver, \$4,780; total since January 1, \$244,997.—Silver City Sentinel.

John R. DeMier, our well known fellow townsman, is receiving a good deal of newspaper support in his application for the wardenship of the penitentiary. Mr. DeMier has had much valuable experience in similar positions in the east, and is thoroughly well qualified to fill the office.—Mesilla Democrat.

Last Wednesday evening at 8 o'clock Mr. Andrew J. Loomis of Silver City, led to the altar Miss Bertha Williams. The general congratulations of the newspaper fraternity will go out to Mr. Loomis, who was well known a few years ago as one of the brightest journalists in southern New Mexico.—Rio Grande Republican.

The most important case which has occupied the time of the court and the attention of the public this week has been that of the territory vs. Edward and Wiley S. Hudson, charged with the murder of Allan McAfee, in Grant county, brought here on a change of venue. The jury this morning returned a sealed verdict of not guilty.—Mesilla Democrat.

Sheriff Whitehill returned from Lordsburg, Tuesday, with one Felix Ramirez, charged with endeavoring to cut up that town with a sword. The sword was mightier than the pen, and Don Keadie died along with the rest of the citizens, but it was not mightier than the sheriff, and Mr. Ramirez snoodles in the county jail.—Silver City Sentinel.

Wm. Munson, an old timer whose base of operations was principally centered in Georgetown, died at the Sisters' hospital in this city Saturday morning. Consumption carried him off. William had lots of friends in the days of his health and vigor, but somehow when he became unable to work and earn money most of them deserted him, yet there are still

there who will remember and dwell on the many flowers in his nature that grew and blossomed amidst the weeds with which poor humanity is overgrown. Billy, hair and forewell.—Silver City Sentinel.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colic and headaches, and curing habitual constipation.

ROUND ABOUT TOWN.

Eleven people from the Palace took the narrow gauge for the north this morning. Fall tourist travel has set in early and a great many strange faces are to be seen about the historic city.

It was a boy, not a girl, born to Mr. and Mrs. Frank Hunter. Grandpa Fischer is a little bit particular about this thing.

The penitentiary board had a session this forenoon and audited the employees' pay roll. The regular meeting of the board takes place on Saturday next.

To-morrow occurs the Jewish feast, the day of atonement. Religious services will be held at Capt. Sol. Spiegelberg's residence at 7 o'clock to-morrow evening.

J. R. Hudson is introducing here the New Crown sewing machine, a simple and well constructed housewife helper, and so cheap that every home can have one.

The office of Capt. Summerhayes, depot quartermaster, has been moved into the Spiegelberg block, where the affable and courteous captain can be found during business hours daily.

Julius H. Gerdes has finally succeeded in securing a building at Cerrillos and is putting in there a full line of gent's furnishing goods. Mr. Gerdes has an abiding faith in the future of the Little Pittsburg.

The practice of throwing old adobe and other refuse dirt in the public streets should be stopped, and that promptly. There is too much of that going on, and the streets are being spoiled in a horrible manner.

The plaza fence is positively becoming rickety. It begins to look very much as if Santa Fe would have to accept Delegate Shupp's proposition and ask him to circulate a prescription paper in our behalf over at Las Vegas.

The feast of St. Francis of Assisi, which occurs to-morrow, will be celebrated with great ceremony at the cathedral, the festivities commencing this evening at 6 o'clock, when vespers will be sung. St. Francis is the patron saint of Santa Fe.

At the old reliable Fulton Market here were received today four nice corn fed beefs from Chama, N. M. Mr. Dobbin will hereafter make a specialty of keeping on hand and serving up to his customers the nicest and best fresh beef in the Santa Fe market. Call and see his jolly butcher, W. J. Birchell.

Lieut. Seyburn, the popular and handsome post adjutant, is out in the mountains commanding a squad of men who are experimenting with the liograph. Yesterday they were on Grand Central mountain at the Cash Entry mine, and Col. Douglass communicated with them by means of liographic signals from Fort Marcy. The distance is nearly twenty miles.

PERSONAL.

Joseph Blanger, miner at Tesuque, is in the city buying supplies.

E. C. Hawkins, of the U. S. geological survey, is at the Palace.

Hon. C. F. Easley returned this morning from a trip to Cerrillos.

F. C. Deutscher, merchant at Espanola, is chatting with business men to-day.

Mr. and Mrs. R. E. Twitchell left this forenoon for Albuquerque to attend the fair.

W. G. Bansemer, of Pueblo, and Joseph Badington, of San Pedro, are at the Exchange.

Thomas Holland, a Las Vegas with many friends round here, is registered at the Exchange to-day.

Geo. W. Williams and R. P. Oliver, well known St. Louis commercial men, are at the Palace to-day.

A. M. Coddington, the Albuquerque furniture man, came in from the north last night and went south this morning.

N. B. Field, of Albuquerque, was in the city yesterday. He reports the attendance at the Albuquerque fair excellent.

Frank C. Perow, of Buffalo, and Owen W. Hall, came in last night from the Currier ranch. They are at the Palace.

Mr. Larkin G. Read arrived from Taos last night, accompanied by little Jim, his son, who looks hearty and will go to school at St. Michaels' college on Monday next.

ARMY ORDERS.

The following are the latest orders from headquarters department of Arizona, at Los Angeles:

Major Michael Cooney, 4th cavalry, will proceed from Fort Verde to Fort Huachuca, taking station, reporting en route to the department commander at these headquarters.

Major Richard Combs, 6th infantry, will proceed from Whipple barracks to Fort Verde and take station.

By authority of the major general commanding the army, the commanding officer of Whipple barracks will grant to Corporal John Rogers, company C, 6th infantry, a furlough for four months.

Lieut. Col. Robert H. Hall, 6th infantry, acting inspector general of the department, will proceed on public business to the camp of instruction near Fort Grant, and upon completion return to his proper station.

Leave of absence for twenty days, to take effect about October 1, proximo, is granted Major A. S. Kimball, quartermaster.

And these are the latest from headquarters of the army at Washington.

The following leaves of absence are granted: Major Beaumont, 4th cavalry, two months; Lieut. Col. Cochran, 5th infantry, four months from November with permission to apply for two months extension; Lieut. Palmer, 4th artillery, three months further extension.

RAPID PROGRESS.

The Growth of Roswell and Early and Surrounding Country.

In no other portions of New Mexico have the towns made such rapid progress in the past year as in the Pecos valley. The resources which are building them up are those which have given expansion and prosperity to many of the thriving centers of population and trade in the states of Missouri, Illinois and Ohio. Like them they owe their expansion to well sustained business communities, to the favors of a productive soil and climate. The plains which border upon the Pecos equal the prairie lands of the interior states in these respects. Their climate is greatly superior for production. The superior advantages of irrigation are to be added to those which eastern lands possess. The town of Roswell, even at its present stage of development, is an instance of what may be accomplished on a larger scale in that region within a very few years.

Its situation for a farming and fruit raising center can not be excelled. Instead of being a dry country, it is surrounded by springs and rivers flowing from them both quite deep, swift and abundant currents from twenty to thirty feet wide. Roswell lies between the Hondo and the North Spring river on the east, both strong living streams of good spring water. A little further to the east and north are three other powerful pools welling up from the plain; their outflow making three distinct creeks which finally unite into one other strong current that flows southeasterly and empties three or four miles below the mouth of the North Spring river into the Hondo. On the west another similar stream makes a junction into the Hondo a mile or two further south; here there is a plain of 100,000 acres threaded with strong streams whose moisture is sufficient to make it all like the rich intervals of the Ohio valley. The irrigating canals of the great Pecos company make sure the gradual flooding when needed of a thousand farms around Roswell. They are not situated upon barren hillsides, but in a fertile plain. The soil can not be surpassed. Orchards, vineyards, green fields and alfalfa tracts, nourished by this perpetual outspread of water, are sure to make the richest farming country in New Mexico. Already their green meadows and foliage overlie these plains, which rise at moderate heights above the streams in broad benches extending as far as the eye can reach. Uncultivated, they bear grass and flowers in profusion, showing the richness of the soil that was made long ago for the support of many people and towns. These pools, whence the streams flow, are twelve or fifteen feet deep and constitute ponds covering several acres in extent and filled with large genuine black bass and other edible fish.

The town of Roswell already has six prominent streets, ten or twelve large stores and from 120 to 140 houses. It is the new county seat of the new Chavez county and has the advantage of attracting settlers to its rich farm lands by being the location of the U. S. land office. It is only eight miles from the junction of the Hondo with the Pecos, and the lands being between have attracted some of the most enterprising people of Las Vegas and other towns of San Miguel county, besides many from Texas on the south, and from the uncertain and discouraging farm lands of Western Kansas and Eastern Colorado. Such pioneers as Lee, who already by the tillage of a few years possesses well cultivated and extensive fields of alfalfa, grain and fruit bearing trees, are here having their reward. Capital and labor seek their vicinity. The great ditches open up the country to thousands, where only a few enterprising white men ventured to settle but a short time ago. New Mexico will have her bright day of increase of people and homes like the northern plains of Minnesota and Dakota, and the population will largely flow toward the Pecos counties. The heats of summer there are not so bad as the winter blizzards of the north.

Peace, comfort and safety will surround these homes. Schools, churches and railroads will find an easy footing and passage on these level or gently rolling lands, where many thousands of untalented people have dwelt or roamed with pleasure in past centuries. Schools and churches and business, with healthful skies and great fountains of water supplying numerous streams and canals, will make Roswell and its neighboring towns as desirable a residence for patriotic and thrifty people with their families as can be found in the union, and wealth and energy and modern science will add ten fold to the attractions of this country, which slower methods of development have failed to produce in the malarial districts east of the Mississippi.

H. O. LAND.

Commencing Monday, October 15, 1888, the YAPAHU ROUTE, in connection with the Union Pacific railway, Kansas division, will run new and elegant Buffet Pullman cars daily between Cheyenne, Denver and St. Louis, via Kansas City without change of cars. This makes the shortest route between those points from 120 to 130 miles. Only one change of cars between Cheyenne, Denver and Cincinnati, Louisville and all points south, Chicago, Detroit, Niagara Falls, Buffalo, Rochester, Albany, New York, Boston and points east, Indianapolis, Akron, Columbus, Pittsburgh, Philadelphia, Baltimore, Washington and all middle and southern states points. This makes the shortest, fastest and most complete route in all respects between the west and the east. The Pullmans are fresh from the shop and are of the most elegant and modern design. All connections at St. Louis are made in the Union depot. The official schedule will be published later.

C. M. HAMPTON, Commercial Agent, Denver, Colo.
