Justment of the Peruvian-Ecuadorian boundary issue.

In consequence of these things, says the president, there has been a general easing of international tension on the west coast of South America. He also adds that the diplomacy of the United States is active in seeking to assume the remaining ill feeling between this country and Colombia.

Taking up some of the details of the year's diplomatic work, the president refers with expressions of pride to China, where, "the policy of encouraging financial investment to enable that country to help itself has had the result of giving new life and practical application to the open-door policy." The consistent purpose has been to encourage the use of American capital in China, says the president, to promote the reforms to which that country is pledged by treaty with the United States and other powers. There has been a vigorous assertion, also, he says, of the equal right of the United States to a voice in all questions pertaining to Chinese loans and developments.

President Taft makes the direct charge that the terrible events recorded in Nicaragua recently, the useless loss of life, the devastation of property, the bombardment of the principal cities, the killing and the capture of the innocent, have been averted had the department of state, through approval of the loan convention by the senate been permitted to carry out its now well developed policy.

"In Central America the aim has been to help such countries as Nicaragua and Honduras to help themselves," says President Taft.

While they are the immediate beneficiaries, the profit to the United States is two-fold, he adds. The Monroe Doctrine is more vital in the neighborhood of the Panama canal, and such countries should be relieved of the jeopardy of heavy foreign debts likely to provoke international complications.

The financial rehabilitation of these countries by American bankers and the protection of their customs houses from being the prey of would-be dictators, says the president, would remove the menace of foreign creditors and revolutionary disorder. Furthermore, the United States would profit largely in a business way through the development of the great natural resources of Central America.

Commending the successful results of the application of the new neutrality laws to Mexico and other troubled countries the president suggests that means be found in addition to prevent the professional revolutionists from making American ports "factories" for revolutionary intrigues. He reiterates his determination to adhere to the case of Mexico to the "patient" policy of non-intervention, steadfast recognition of constituted authority, and the exertion of every effort to protect American interests.

Other paragraphs of the message point to the increase of American domestic exports by \$200,000,000 during the past year, making the greatest total ever known, \$2,200,000,000.

The message concludes with an earnest appeal to congress to cooperate with the executive in its efforts to apply the old principles of diplomacy which have governed the country, through the momentous new situations of today, when America finds itself at the threshold of her middle age as a nation, "to maintain to continue in its foreign relations those temporary expedients natural to a people to whom domestic affairs are the sole concern."

## MAN TO BE TRIED FOR MURDERING HIS PARTNER

Jury Secured and Taking of Testimony is Begun in Case Against Michigan Merchant Charged with Homicide.

(By Morning Journal Special Leased Wire.)  
Bulldog, Mich., Dec. 3.—A jury to try O. M. Arebach, charged with the murder of his business partner, Harry Fisher, of Chicago, near here last September, was secured in the circuit court today.

Fisher was killed in the woods where the two men had gone with a rifle to hunt, Arebach claiming the shooting was accidental. Earl Weston, undertaker, testified that Arebach told him Fisher had been accidentally shot and that he wished him to prepare the body for shipment to Independence, Ia., the same night. Arebach asked him Weston to keep the matter quiet. He informed the accused, he said, that it would be necessary to have a coroner's inquest.

Weston said that Mrs. Fisher also desired him to have the body ready for shipment that night. Mrs. Fisher and Arebach, he said, selected a cheap casket. Neither of them, according to the witness, gave the body any attention after it was taken to his establishment.

Negro Assaults White Woman.  
Trenton, N. J., Dec. 3.—A posse in searching for the assailant of Miss Louella Marshall, aged 24 years, who was attacked tonight in the suburbs, she was found unconscious in a field where she had been dragged. At the hospital, where she was taken, it was found that her skull is fractured. She regained consciousness only long enough to say that her assailant was a negro.

PLUCKY YOUNG WOMAN BEATS OFF HOLD-UP

Pueblo, Colo., Dec. 3.—Striking a would-be highwayman in the face with a heavy gold jewel case, Miss Madge Jacobs, who was accosted tonight on South Union avenue, near the Mesa Junction, saved her pocketbook and put the man to flight. Miss Jacobs was on her way home. As she passed a high billboard near the junction a man stepped out from behind the board and, stepping up to her, grabbed her pocketbook. Although badly frightened, Miss Jacobs retained her presence of mind. She did not even scream, but, holding on to her pocketbook, in which she had considerable money, she swung around with her other hand, in which she clutched a gold jewel box, and, with the point of the box, she struck the man's face. He retreated behind the billboard and made his escape.

## PROTOCOL ENDING HOSTILITIES WITH VIEW TO PEACE IS SIGNED

Turkish and Bulgarian Delegates, Latter Acting Also for Serbia and Montenegro, Ratify Armistice.

GREECE APPARENTLY HOLDING OUT ALONE

Real Reasons for Uncompromising Attitude of King George Are Difficult to Construe at Present Time.

(By Morning Journal Special Leased Wire.)  
London, Dec. 4.—The protocol arranging an armistice, was signed late this evening by the Turkish and Bulgarian delegates, the latter representing also Serbia and Montenegro. Prior to this there had been a long sitting of the Turkish council of ministers to consider fresh proposals submitted by the allies.

Apparently the Greek delegate did not sign the protocol. At present nothing is known definitely on this point of the terms of the armistice as revised today. The refusal of Greece to sign the armistice is susceptible of different interpretations.

In the first place, as a tacit armistice has been in existence more than a week it is not impossible that the negotiations may have served to bring about an agreement on the general principles of a peace treaty when the conference meets as it is now expected in London. In this case the fact that Greece is standing out from the rest of the belligerents would be of great importance. In the second place the Greek attitude may mean a serious split among the allies, arising from jealousies concerning the possession of Saloniki and the insistence of the Greeks on the capitulation of Adrianople, Scutari and Janina.

Other factors that may influence the situation are to be found in the fact that Turkey recently sought to conclude a separate treaty of peace with Greece, that Bulgaria apparently is not unwilling to enter into an alliance with Turkey and that the allies are desirous that Turkey shall enter the Balkan customs league.

There is a rumor in Saloniki that a suggestion has been made to substitute Roumania for Greece in the Balkan league. It seems clear from the report that Bulgaria will ignore the Greek offer to join an alliance in Gallipoli peninsula and to send her fleet to attack the Dardanelles, that the relations between Greece and Bulgaria are greatly strained and those signs of disunion among the allies leave the situation full of dangerous possibilities. It is reported that France is trying to persuade Greece to adopt a less unyielding attitude. It is understood that financial pressure and the exhaustion of their forces had much to do with the willingness of Bulgaria and Serbia to conclude peace, and in this respect, Greece, which secured her victories with less sacrifice, is better able to continue hostilities.

A Vienna dispatch to the Daily Telegraph says that official quarters there have received information that the dimensions between the Greeks and Bulgarians have become serious and that 2,000 Greek were killed when 3,000 of their troops attempted forcibly to occupy the town of Serres, which was already occupied by Bulgarians.

The Times prints the following dispatch from Sofia:

"The armistice protocol contains a clause providing that the peace negotiations shall be conducted in Adrianople, but it seems doubtful whether this will be found practicable."

It is understood that Bulgaria has abandoned her demand for railroad communication through Adrianople, as, owing to the large quantity of rolling stock of the Dardanelles line captured, there will be no further difficulty in supplying provisions to Thessaly. The construction of the proposed loop, avoiding Adrianople, has been abandoned because of inundations, and instead a road has been completed west of Adrianople to Demotice, which greatly facilitates transportation. It is understood that Bulgaria no longer insists on the removal of the Black Sea blockade.

A Mustafa Pasha dispatch, dated December 24, to the Daily Telegraph says: "Yesterday morning the commanding general sent two officers under a flag with a demand for the surrender of Adrianople. The demand was refused, and the bombardment was resumed this evening."

The Vienna correspondent of the Daily Mail says:

"In well-informed quarters I find the impression growing that Bulgaria holds the leadership of the Balkan league, and that Bulgaria for reasons dating before the war, is deeply indebted to the Serbians. Therefore, whether the Balkan alliance compels the other Balkan states to support Serbia against Austria or not, Austria's sympathy must reckon with Bulgaria's supporting Serbia in the event of war."

Belgrade, Dec. 2.—The government official Press prints a conciliatory article denying that Serbia insists upon a section through Albanian territory to an Adriatic port. It concludes: "Although convinced that Europe's decision to grant Albania autonomy is contrary to Serbian interest, Serbia, though trusting in the powers' good will, expects from them the same consideration that they extended Austria-Hungary with respect to Bosnia and Herzegovina at the time of the Berlin treaty. Serbia is willing to accept the powers' decision or refer the question to The Hague."

## SENIOR LASCARAN TO PAY A VISIT TO WASHINGTON

Mexican Minister of Foreign Affairs to Make Trip to National Capital on Diplomatic Mission, is Belief.

COST OF MANAGING PROPERTIES INCREASED

Entirely Separate Force of Officials and Employees Necessary to Comply With Supreme Court Order.

(By Morning Journal Special Leased Wire.)  
New York, Dec. 3.—Not yet a tentative plan to divorce the Union Pacific and Southern Pacific railroads in conformity with the supreme court's dissolution order, was evolved at a protracted meeting of the Union Pacific executive committee today, according to Chairman Lovett, of the Harriman lines.

Banking interests in the Harriman properties, it was announced, President Vanderbilt of the National City bank and Mortimer L. Schiff of Kuhn, Loeb & Company, attended the meeting but declined to enter into any public discussion of the court's decision except to say that the mandate would be carried out within the time prescribed. It is taken for granted that the conference devoted much of their time to that part of the supreme court's decision wherein it is intimated that the Union Pacific might so re-adjust its affairs as to retain control of such a plan is sure to meet with strong opposition on the part of the independent Southern Pacific shareholders.

Steps in behalf of Southern Pacific stockholders were taken today when, according to its announcement, a committee consisting of James L. Wallace, chairman; Henry Evans, J. Horace Harding, Frederick Strauss and Albert Wiggin was formed to protect the interests of the stock of the Southern Pacific Company in the hands of the public.

This committee, it was stated, will "make further public announcement" to the stockholders. A review of the situation to which the high officials of the Harriman system are giving consideration, is the increased cost of administration, which even a technical dissolution of the Union Pacific and Southern Pacific will involve. Ever since Harriman interests became dominant in Southern Pacific, the two lines virtually have been managed as one property with much the same set of officials down to the minor grades. Enforcement of the supreme court's order, in the opinion of impartial outsiders, will call for separate and distinct working forces down to the highest grades of officers down to the most obscure subordinates.

Today's market was largely governed by the merger decision. Wall street seemed to have been lulled by the definition of the importance of the decree. In a general way, the financial community was disposed to believe that in its broader aspects the decision is not without bearing upon other situations, industrial as well as railroads.

London, Dec. 3.—The suffragettes on post boxes were resumed tonight over a large area, extending throughout London city to Richmond and Surrey.

A MOBILE WOMAN'S EXPERIENCE SHOULD BENEFIT OTHERS

Fourteen years ago I was quite sick, that is, most of the time found it almost impossible to be up and around. My day duties as a wife and mother. At times I thought I could not endure the suffering much longer, so I naturally consulted our family physician, who told me one thing, that I must have a kidney trouble. I consulted another physician at Denver, Col., who told me that I had kidney trouble and needed careful treatment and a long rest. After a long rest, the physician for several months and receiving no benefit, I decided to try Dr. Kilmer's Swamp-Root, which had been recommended by my husband's doctor. To be honest, I really did not have any faith in Swamp-Root, but thought I would experiment on at least one bottle.

After taking one fifty-cent bottle I felt much better, that I bought a dollar bottle and continued its use for a few months, after which I felt so well and free from my former suffering that I pronounced myself cured.

I feel safe in saying that your Swamp-Root prevented my having Bright's Disease and therefore, saved my life.

To prove my gratitude I will allow you to publish this testimonial any time you wish. I also tell my friends what Swamp-Root did for me and know of several cases where cures have been accomplished. I believe almost everyone living in the South should use Swamp-Root at least one or two months in the Spring, as it cures the system of all impurities.

Respectfully yours,  
MRS. W. L. BEMIS,  
Mobile, Ala.

## SENIOR LASCARAN TO PAY A VISIT TO WASHINGTON

Mexican Minister of Foreign Affairs to Make Trip to National Capital on Diplomatic Mission, is Belief.

(By Morning Journal Special Leased Wire.)  
Washington, Dec. 3.—The report from the City of Mexico that Senior Lascaran, Mexican minister for foreign affairs is coming to Washington today, is believed may have connection with the approaching retirement of Ambassador Caceres, from his post here.

PROPOSED VISIT FOR PRIVATE BUSINESS SOLELY.  
Mexico City, Dec. 3.—The Mexican foreign minister, Senior Lascaran will visit the United States "solely for the purpose of attending to private business," according to an announcement made today. He will sail Wednesday from Vera Cruz and go to Washington, but he denied today that his visit to the capital would be official. The general belief among the public and the newspapers is that he will attempt a settlement of differences arising from the revolution. The Mexican people are skeptical regarding the coming of the American warships, the visit of which has been explained as one of courtesy, especially because the vessels, on account of their size probably will not be able to enter Vera Cruz harbor.

Mexico is planning an official recognition from the capital. It is reported that Ernesto Madero, minister of finance, contemplates going to London for the purpose of floating a 20,000,000 peso loan, authorized by congress, the flotation of which, by means of agents, has failed. The report is published in an afternoon paper, which adds that Madero probably will resign from the cabinet. Efforts to obtain a statement from the minister of finance this evening, were without avail, but the report was denied by his secretary.

AGED WOMAN HIT BY TRAIN AND KILLED

Colorado Springs, Colo., Dec. 3.—With her head bowed reverently over a bible which she always carried, Mrs. Sarah Wright, 80 years old, a widow, was struck by a northbound Denver & Rio Grande train here in the railroad yards this afternoon and almost instantly killed. When found a short time after the accident, the aged woman had clutched the volume tightly in her hands. Life was not yet extinct, but she died almost immediately.

Enfeebled by age, Mrs. Wright had been disposed recently to wander away from home. She always carried a bible with her and walked along the street much of the time with her head bowed in prayer. Mrs. Wright had lived in Colorado Springs for ten years. The desire which impelled her to wander from home this afternoon led the aged woman out into a fierce snow storm last week. A daughter, Mattie Wright, lives in Denver; one son resides in Missouri, while another son lives here. An inquest will be held tomorrow by the coroner to fix the blame for the accident.

## NATIONAL TARIFF COMMISSION TO MEET IN 1913

Board of Directors in Session at New York Instructs That Call be Issued for Convention in Spring.

(By Morning Journal Special Leased Wire.)  
New York, Dec. 3.—The board of directors of the National Tariff Commission Association today instructed its executive committee to arrange for a national convention of the association to be held soon after the next congress convenes for the purpose of urging legislation for the administration of the tariff-making body and responsible to the president and congress. The directors in adopting the report of President Chandler Cobb, of Boston, endorsed what he said of the tariff board last summer, which was as follows:

"Created by the president under entirely inadequate legislation, wrong from an unwilling republican congress and repudiated by a hostile democratic congress, it was fore-ordained to be handicapped as a test of the results of a properly created non-partisan tariff commission, responsible to congress. Congress is the tariff-making body and no commission or board can fulfill its destiny until it is squarely and fully accepted by congress as a part of its tariff-making machinery."

BRIDE OF ONE DAY SHOOT DOWN DETRACTOR

Woman Guest at Wedding, Who Made Slighting Remark About Her, Murdered in Cold Blood for Revenge.

(By Morning Journal Special Leased Wire.)  
Logansport, Ind., Dec. 3.—Elizabeth Lange, a bride of one day, tonight shot and killed Mrs. Mary Copple, who, at the wedding supper last night, is alleged to have told other guests that the groom had selected an ugly and worthless woman for a life partner.

Mrs. Lange was arrested shortly after the shooting and the police say she made a full confession and expressed pleasure that she had stopped slanderous remarks. In her confession, as reported by the police, Mrs. Lange said:

"Yes, I shot Mrs. Copple. I shot her down as her two little children stood beside her, holding to her skirts. I killed her because she said no man ought to marry me, and that my husband would repent."

"She said I was ugly. She said I was old. I killed her for that and I am not a bit sorry for it. She was jealous of me and would have made my life unhappy."

The shooting followed a conference of Mrs. Lange with a woman friend, also a wedding guest, who had repeated the reported remarks of Mrs. Copple. Mrs. Lange went to the home of her father, told him what she had done and prepared for the police.

## JOHNSON MARRIES TRICKY HORSEMEN LUCILE CAMERON ARE SEVERELY AFTER ALL DEALT WITH

However, Police Prevent Moving Pictures of Ceremony; Negro Pugilist and White Bride to Go on Trip.

(By Morning Journal Special Leased Wire.)  
Chicago, Dec. 3.—Jack Johnson, negro pugilist, was married this afternoon to Miss Lucile Cameron, the 19-year-old Minneapolis girl who recently appeared as a witness against him before the federal grand jury which returned indictments charging him with violations of the Mann act.  
The ceremony was performed at the home of Johnson's aged mother on the south side by H. A. Roberts, a negro preacher, in the presence of a few persons, including several newspaper reporters. The girl wore a tailor-made suit of shepherd plaid and a large black picture hat with purple plumes. Johnson had as a guest of honor a young man who had been a member of the same material especially made for the occasion.  
A curious crowd of nearly 1,000 men and women gathered outside the house and a squad of police was kept busy maintaining order. The plan of making a moving picture film made of the wedding ceremony, for which Johnson was to have received \$5,000, was abandoned at the last moment because Chief of Police E. W. Connelley, a woman newspaper writer was ordered from the house before the ceremony because she offended Johnson by asking too many questions.  
After the wedding an elaborate chicken dinner was served the guests, a large wedding cake and numerous floral pieces being features of the table decorations.  
Johnson and his bride have planned to leave tomorrow for a honeymoon trip.

### WIDOW OF MURDERED DETECTIVE IS DYING

Denver, Dec. 3.—Mrs. Mary Stingley, widow of Jesse F. Stingley, the detective who was murdered by Frank L. Smith, October 25th, is dying at St. Joseph's hospital in this city tonight. Mrs. Stingley is in the last stages of a "broken heart" and is unable to eat. Her husband's death Mrs. Stingley began to droop. Yesterday she became delirious. The family was in poor financial circumstances and the death of the provider left them destitute. Neither the widow nor her two boys, aged 8 and 10, had enough to eat. This combined with the worry and shock occasioned by Stingley's death, will prevent Mrs. Stingley from surviving the night, say the physicians. Smith, who confessed the murder of Stingley, was arrested two weeks ago and escaped last Wednesday afternoon from the jail in Brighton, Colo. He is still at large.

Mrs. A. Grove, 1143 Dayton Ave., Wichita, Kas., states: "I suffered with kidney trouble with a severe pain across my back and felt miserable and all tired out, but after taking Foley Kidney Pills for a few days, the pain left my back and I felt full of life and activity. Gladly do I recommend Foley Kidney Pills to all who have kidney trouble." J. H. O'Reilly Drug Co.

## HARRIMAN MERGER DECISION HURTS STOCK TRADE

Heavy Pressure Results in Decline of Three Points on Southern Pacific Shares; U. P. Falls 11-4 Points.

(By Morning Journal Special Leased Wire.)  
New York, Dec. 3.—The influence of the Harriman merger decision hung heavily over the stock market today. Fluctuations in the Harriman securities were feverish and the market as a whole was unsettled. There was a great deal of theorizing as to the probable effect of the dissolution decree and while opinions varied, the predominant one was that the Harriman sentiment was bullish and prices were borne down sharply.

Selling was convergent on Southern Pacific, which dropped 3 points. It had been heavy under the Harriman merger, after a strong opening, yielded to 14 points below yesterday's close. Many railroads and industrial stocks were depressed.

The market rallied toward the close. In the absence of authoritative statements from the interests most directly concerned as to the probable effect of the Harriman decision, the problem was viewed in varying lights. On the constructive side it was argued that the Harriman managers would be able to work out a plan of reorganization. On the other hand, the case of the dissolution of the Standard Oil and American Tobacco companies, possible benefits to stockholders in the distribution of assets were held up as bullish factors.

Traders who took a bullish view held that application of the principles adhered to by the supreme court in the Standard Oil case would be of reaching influence not only in other cases to be passed on later by that court but ultimately in determining the status of many corporations which have not thus far been called to court.

In the case of Southern Pacific, its especial weakness was attributed to speculation as to its fortunes and it was held that the Harriman corporation, under which it has built up to its present state. Greatly increased expense under the new regime, were taken into account.

Tension was somewhat easier and better conditions were looked for, with the call of the controller out of the way and gold coming in from London.

## Chicago Board of Trade.

Chicago, Dec. 3.—Disquiet concerning delay in signing the Balkan protocol made the wheat market today so higher. The finish was steady at a shade to 5 cents higher. May wheat swung from 89 3/4 @ 90 1/2 to 90 1/2 @ 90 3/4 cents, with last sales, 90 1/2 cents, a rise of 1/2 cent compared with the night before. Unsettled weather lifted corn which was affected by the wheat bulge. May closed firm, 90 1/2 cent bid higher, at 48 1/4 @ 48 3/4 cents. Cash grades were steady.

Active purchasing by a leading house had a strengthening influence on the oats trade. May closed at 33 cents, an advance of 1/4 cent net. Large receipts of hogs dragged prices down. December lamb dropped 1/2 cent.

## GOT ROAD SPRINKLED AFTER LONG EFFORT; AND THEN IT RAINED

The students and faculty of the university yesterday commiserated themselves mightily. After many months of effort, long struggles with the powers that direct the county district, and after pulling numerous strings, it was possible for them to look out of their windows Monday morning and see the dry and dusty road up the hill from town undergoing the incorporating process of being sprinkled by an actual, real, life-size water wagon.

It was too good to be true. All day the students walked around looking at the solid water wagon. They planned excursions to the city, postponed for many weeks because of the abominably dusty condition of the road. One or two even purchased new shoes on the strength of prospective relief from the dust devil.

And then Monday night it rained. The water wagon was useless, after all.

## FANCIERS WANT SHOW CONFINED TO STATE POULTRY NEXT YEAR

There was a well attended meeting of the Bernalillo County Poultry Association last night at the Odd Fellows' hall, at which matters of importance to all growers of fine birds were discussed.

The meeting was well attended and the principal business was the endorsing of a plan to have next year's poultry show at the state fair confined to New Mexico birds alone, so far as the prizes are concerned. This year the fanciers feel it was Albuquerque against southern California, and the rest of the state stayed out.

Reports from the Pecos valley show were presented by H. J. Pettigill, president of the local fanciers to participate in a show to take place at Denver soon.

## DON'T BLAME YOUR STOMACH

If you think you have a "bad stomach" because your food doesn't digest properly, you are generally wrong unless your stomach happens to be ulcerated, which is very rarely the case.

The stomach merely shows the weakness of the other organs of the body because your health is run down. If you would use Vinol, which adds iron to your blood, making it rich, red and strong, all parts of your body would be nourished better and gain new strength, the stomach benefiting at the same time, of course. Vinol also contains the curative properties of cod liver oil, and is delicious to the taste. No matter how weak your stomach you can take Vinol. Try it and you will soon find that this wonderful stomach-restoring tonic will banish your stomach troubles. Your money back if it doesn't.

## REWARD OFFERED FOR CAPTURE OF DOG POISONER

More Than \$100 Already Collected; Announcement to be Made When It is Large Enough to Encourage Sleuths

A fat reward is soon to be offered by dog fanciers for the capture of the canine poisoner. The announcement of the reward is to be made within a few days, and its size promises a general clearing of gum shoes.

J. P. Sheehan is collecting subscriptions from other dog owners. More than \$100 already has been subscribed, although Mr. Sheehan has been on the streets only since Monday afternoon, and when the list is large enough to attract sleuths, placards setting a sum on the poisoner will be posted. The money will be deposited in a bank.

Two subscription lists are open. Mr. Sheehan has one and the other is at the Powell drug store, Fourth street and Central avenue. Anyone who has not been seen by Mr. Sheehan can make his ante at the drug store, if he desires to be in on the case.

The police have been trying to pick up the poisoner's trail for a week, but he appears to be unusually clever. He has left no clues that point to his identity.

## CARRIES FIRST-AID CASE FOR HIS DOG

J. P. Sheehan, since the wholesale poisoning of dogs, has purchased a tiny medical case, containing a hypodermic needle and vials of antidotes for common poisons. Mr. Sheehan registered "Albuquerque Dick," "Albuquerque Dick," always follows him, and if Richard happens to find a morsel of sausage when Mr. Sheehan is not looking, he will rescue an emetic shot to relieve his stomach, followed quickly by a stimulant.

## CAPITALISTS ENTHUSE OVER PROSPECTS FOR INTERURBAN RAILWAY

(Special Correspondence to Morning Journal) Clondorff, N. M., Dec. 3.—C. C. Carroll and William Morgan Hand have returned from a trip through the country through which it is proposed to build an electric line. J. C. Carroll drove them through to Elk, where they were met by B. Cleve, a merchant of that place, who then took them to the lower Pecos. These gentlemen have had this electric line in mind for some time and are now more enthusiastic than ever owing to the fact that they had expected to find the rich and fertile country they did.

At a meeting of the Business Association held at Clondorff upon their return from this inspection trip, both gentlemen expressed themselves with being highly pleased with this section and stated that they knew no better section through which to build a line such as they have in mind. Work will begin at once to secure a right of way from Clondorff to the Pecos valley and in the meantime Messrs. Carroll and Hand will return to Kansas City to consult with capitalists they are representing. They stated that if they did not undertake the proposition it is such a good one that they would not consider it.

## NEW CHARTER FOR LOS ANGELES IS REJECTED

Incomplete Returns from Special Election Indicate Defeat of Commission Form of Government Two to One.

(By Morning Journal Special Local Wire.) Los Angeles, Dec. 3.—Early returns from today's election indicate that the proposed new charter, providing a commission form of government for the city of Los Angeles, was defeated by a vote of two to one. In the first hundred precincts to report, not one cast a majority in favor of the charter. The anti-free lunch ordinance, designed to banish the "feed counter" from saloons, has been defeated by a heavy vote.

The proposed charter defeated today provided for but eight elective officers—a mayor and seven commissioners. These officials would have had the appointment under civil service regulations or about \$3,000 salary municipal employees. In addition the charter granted the city broad powers, including the right to engage in any enterprise, whether public utility or purely commercial.

Incomplete returns indicate that the harbor zone voted "wet" by a majority of about 150.

## E. C. BUTLER THIRD MEMBER OF ROAD COMMISSION

Well Known Albuquerque Man and Highway Enthusiast is Compromise Candidate for Important Place.

(Special Dispatch to the Morning Journal.) Santa Fe, N. M., Dec. 3.—After numerous conferences in an effort to agree on the third member of the Bernalillo county road commission, the state highway commission today announced the appointment of E. C. Butler, of Albuquerque. The selection of Mr. Butler, who is a well-known good roads enthusiast, was in the nature of a compromise between the friends of the appointment of R. R. Pollock and others anxious to have J. N. Gladding, chief engineer of Albuquerque, named for the place. Mr. Butler is a well-known constituent of the McKinley county highway commission.

The commission also today appointed the Socorro county highway commission, naming W. H. Morley, of Datil; Max Montoya, of San Antonio, and C. G. Duncan, of Socorro.

The commission selected Eugene Schuster, of Gallup, to succeed E. C. Schwartz, resigned, as a member of the McKinley county highway commission.

## FLOWERY KINGDOM PLANS EXHIBIT AT SAN DIEGO

Japanese Empire Will Use Twelve Thousand Square Feet of Space in Depicting Its Resources.

(Special Correspondence to Morning Journal.) San Diego, Cal., Dec. 3.—Arrangements are being completed for the Japanese exhibit, which promises to be one of the most interesting and beautiful features of the San Diego exposition in 1915.

This exhibit, which will need 12,000 square feet in the Liberal Arts building, will be descriptive of the life and character of the Japanese people and their own country.

The Foreign Exposition Association of Japan will have charge of the exhibit and has also applied for outside concessions, which will offer to the visitor in 1915, varied scenes from the typical life of the Japanese people in their own country.

The San Diego exposition has had a considerable amount of publicity in Japan. Imperial Exposition Commissioner Haruki Yawasaki paid a visit to San Diego in September and was much interested in his trip to the exposition grounds and the explanation of the project.

Several hundred officers and cadets from the Japanese training ship Tsuru Maru also visited the exposition, and through them a large amount of literature was sent back to the flowery kingdom. The young Japanese were given a hearty welcome and were much pleased with their stay in San Diego.

## CHARGE OF ASSAULT AND BATTERY WITH STEAM IS MADE

B. C. McCray, Engineer of the Pile Driver at Baretas Bridge, Held to Grand Jury on Un-usual Complaint.

Charges of assault and battery have been made many millions of times in the justice courts of the great state of New Mexico, and sometimes the eminent legal lights who have heard them have seen fit to bind the defendants over to the grand jury, but although the use of sticks and fists has sometimes been classed as a deadly weapon, the first case of live steam being used in an alleged altercation came up yesterday.

Last week a party of idlers who stood on the Baretas bridge and watched the repair gang at work there got in the way of the exhaust engine of the pile-driver. The engine was not running at the time, but in a moment the engineer, B. C. McCray, got a signal from the derrick and started up. The steam from the exhaust pipe scattered the standstill crowd and one of them was hit in the face. There were some six or seven scattered. Some of them wanted trouble, but when they saw the entire crew hustling back to the derrick to support the arguments advanced by the engineer, they decided that Old Man Trouble was somewhere nearer town. They departed, supposedly in search of a more peaceful spot.

Among the scattered ones was a boy who lives in or near Old Albuquerque. His name is Antonio Arriola. Bright and early yesterday morning, McCray was hailed before the court of a justice of the peace over in Arriola and there arraigned on a charge of assault and battery. Arriola alleged, it is understood, that he was scalded by the steam from the engine. Where the "battery" end of the charge came in is a mystery.

McCray pleaded not guilty, waived examination and was bound over to await the action of the grand jury in the sum of \$250. He furnished the bond.

The bridge, it is understood, was in the hands of the repair men, and not that time a public thoroughfare. Arriola was thus really a trespasser and took his own chances in coming upon it.

## RACKET CAUSES MUCH TROUBLE AND DELAY.

Hearing that there was a warrant out for him, McCray early yesterday morning called upon County Surveyor and mounted with him went to the district attorney. There it was arranged that McCray should waive examination and give bond, and the whole matter be gone into later.

It appears, from the stories of several who saw the affair, that Arriola, with the others, among whom were several negroes, crowded past the engineer at the time of operations, and took a position in front of the engine against his wishes and warning. They placed themselves in great danger at the time as the hammer was "strung" on the cable, and McCray was standing with his foot on the brake to hold it. He was thus unable to move to prevent the hangers on from going where they did.

He asked them what they wanted, and they told him they wanted to see the pile-driver. He directed them to a ladder further back on the bridge and in a comparatively safe place. They then crowded past him out into the creek.

The alteration has resulted in further inconvenience to the farmers and others using the bridge, as the foreman of the bridge gang has now, very reasonably, refused to allow anyone to come to the new part of the bridge, in the fear that further complications may arise. His trips to and from Albuquerque and the court in Arriola, with the engineer, known to the entire gang of a day's work, as the false work of the day were to move the derrick settled while he was away, and had to be rebuilt.

## COMPLAINING WITNESS IS POLICE CHARACTER.

Antonio Arriola, the complaining witness, is the same who made charges a short time ago against Police Captain J. O'Grady, alleging extortion and other crimes. That matter has not yet come to trial. O'Grady having waived hearing and bound over by Justice of the Peace J. E. Romero to Old Albuquerque, after a sensational scene in the court room on the part of the justice.

## WOULD REORGANIZE PERSONNEL OF U. S. NAVY

Bill Introduced in Congress to Maintain Quota of Officers Based on Tonnage and Fixing Age Limit.

(By Morning Journal Special Local Wire.) Washington, Dec. 3.—A voluminous bill that would reorganize the personnel of the naval establishment and the marine corps, was introduced today by Representative Padgett, chairman of the house committee on naval affairs. The bill prescribes an involved system of maintaining the quota of naval officers on a basis proportionate with the tonnage of the navy. The new measure would admit appointments only between the ages of 15 and 18.

At the instance of the navy department, Senator Perkins today introduced a bill to increase the number of enlisted men in the navy from 52,500 to 53,500 and to increase the enlisted strength of the marine corps 20 per cent, bringing the number up to 10,500.

## Vatican Replies to Mayor Nathan.

Rome, Dec. 3.—The Osservatore Romano publishes an article inspired by the Vatican, attacking Mayor Nathan for his "revolting references to the public health against the spirit of the pontiff, uttered in his speech of September 20, 1910, now renewed with the acquiescence of the public authorities." The paper says Nathan is lacking in elementary decency.

## HYPNOTIC CIRCUS IS STAGED BEFORE GOOD CROWD

Griffith Makes Pair of Young Men Enact Daring Bare-Back Ride on Two Solid Kitchen Tables.

A hypnotic circus was staged at the Elks theater last night by Griffith, and it was a huge success. The circus was a long laugh from start to finish and very entertaining. One of the features of the circus was a daredevil act performed by two young men, who, under hypnotic belief that they were dainty and dimpled and wore the usual lady bare-back rider's costume, did a sort of funny stunts. Their costumes, which were outrageous, added much to the humor of the event.

The audience was fairly large, not so large, perhaps, as at other performances, but a good audience. Another feature which was very laughable was a small boy's delivery of a stirring speech on women's rights.

Griffith has requested and received permission from the city authorities to hypnotize a young man and leave him writing letters all day in a downtown window. The scheme will use a typewriter, however, and not a pen.

## A Staple Medicine For All Families

From Infancy to Old Age a Reliable Family Laxative Is Most Needed. Try This One.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor life of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved.

For example, if at the first sign of a cold a simple laxative-remedy like Dr. Caldwell's Syrup Pepsin were given the beginning of a serious lung affection or of a typhoid fever might be avoided. And also in headaches, nervousness, etc., a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to tiny infants and little children, and grown people take it with equally good effect.

Thousands of good American homes are never without it, among them the homes of Mrs. V. M. Hull, Waco, Wis., and Mrs. Ivory Lambert, Mankato, Minn., who say they would as soon be without the necessities as without Syrup Pepsin. It saves the health of the family, and it saves doctor's bills. It is a guaranteed cure for any form of stomach, liver and bowel trouble, constipation, indigestion, biliousness, gas on the stomach, heartburn, distressing after eating, etc. Have no hesitancy about giving it to any member of the family, however young or old, for it contains nothing injurious to the youngest person.

A bottle can be obtained at any nearby drug store for fifty cents or one dollar. The latter size is more economical and is bought by those who have already convinced themselves of its merits. Syrup Pepsin serves to learn to discard pills, salts, cathartics and purgatives generally, as they are too great a shock to any average system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 415 Washington St., Monticello, Ill., and a free sample bottle will be mailed you. Results are always guaranteed or money will be refunded.

## SANTA FE TO BUILD SIXTY MORE MILES OF COLMOR CUT-OFF

(Special Correspondence to Morning Journal.) Dodge City, Kan., Dec. 3.—The board of directors of the Dodge City & Cimarron Valley railroad, a subsidiary company of the Santa Fe Railroad Company, has authorized the construction of sixty miles additional of their line southwest from Dodge City. Contractors will go on the work immediately, and will have it completed by July 1, 1913.

Sixty miles of the road have just been completed and will be put into operation. It will also be used for hauling supplies and building materials to the contractors on the new work.

The new line will pass through the southeastern corner of Colorado into the northwestern corner of Oklahoma and connect with the main line of the Santa Fe railroad at Colmar, N. M. The location surveys were made last year and ran through open country, through which there will be but a small amount of heavy construction. The line will miss the Raton tunnel and the heavy grades on each approach, thus lessening the cost of operation. It will be used for heavy traffic and as one of the Santa Fe's main lines from Kansas City to the Pacific coast.

When it is completed, which will be within a year or eighteen months, the Santa Fe practically will have a double track line between Dodge City and Colmar. The country through which it will run is still practically undeveloped and devoted mostly to cattle raising, but with the railroad traversing it will be settled up by farmers and become a rich agricultural section.

## LEAKAGE THAT CAN BE EASILY STOPPED; REDUCES LIVING COST

How many people who read this article realize the weighty influence of one little necessity of life—baking powder—on the cost of living.

Yet it is a leakage that can easily be stopped if the housewife will only pay a little more attention to the choice of her baking powder. Some think there is economy in buying the cheap "big can" baking powders. These baking powders are not always uniform, and sometimes produce failures in the baking, and the result is that more is lost in one or two spoiled bakings than you spend on baking powder in the whole year. The cheap "big can" baking powders should be avoided.

On the other hand, many housewives feel that a baking powder is of no value unless they pay 50 cents a pound for it—the price charged for the high-priced "tried" brands. This is a mistake, as the best baking powder that can be made can be sold for 25c per pound if the manufacturer is satisfied with a reasonable profit. There is one brand on the market that meets these requirements.

## GOOD ROADS LOCAL HAS BRIEF BUT BUSY SESSION

Unanimously Endorses Selection of President as Third Member of County Highway Board.

The Albuquerque local of the New Mexico Good Roads Association last night held a brief but busy session at the Commercial club, at which reports of committees were received and the appointment of President E. C. Butler of the local, as the third member of the county road board, was enthusiastically endorsed. Mr. Butler was not present, but the local applauded with favorable fervor when the news of his appointment was announced.

The meeting was called to order by E. J. Strong, in the absence of Mr. Butler, and after the reading of the minutes, Secretary E. L. Grace called for the reports of committees.

The committee which had conferred with State Engineer J. A. French regarding the naming of a reported member of the county board, reported that Mr. French had promised an early action as was possible, and that he had assured the committee that it was the wish of the state highway commission to name the best possible man to fill the position.

T. J. Passmore, of the extension committee, reported that there was much interest being taken in the question of good roads in the outside precincts, but that the committee had not yet held a meeting. He declared that the outside people had received with much satisfaction the news that the local was to extend its activities to the outside precincts.

The publicity committee reported that the editors of all the local Spanish papers had promised enthusiastically to support the cause of good roads and would all devote space to good roads matter each week.

At this juncture, a telephone message from the Morning Journal announced to the local the appointment of E. C. Butler as the third member of the county road board, and the meeting applauded long and loudly.

A committee of three was appointed to draft resolutions expressing to the governor and the other members of the highway commission the appreciation of the compliment the local felt and had paid it by the selection of its president as a member of the county board, and to endorse the appointment. Copies of the resolution will be sent to the commission and to the appointee.

There was general satisfaction over the naming of E. C. Butler, and it was felt that there could certainly be no charge of politics made over his appointment, and that he was exactly the man for the job.

The resolutions committee, named by Mr. Strong was W. H. Hanna, T. J. Passmore and D. R. Lane.

**GIRL'S EMPLOYER IS ARRESTED FOR MURDER**

Martin W. Trester Taken Into Custody by Denver Police Following Death of Woman from Criminal Operation.

(By Morning Journal Special Leased Wire.)

Denver, Dec. 3.—Martin W. Trester was charged with murder of Miss Mabel White, his housekeeper last Wednesday by District Attorney Elliott today. The information against Trester was filed late this afternoon, several hours after he had surrendered himself to the police.

Miss White died from the result of an operation which, says the information, was made necessary by Trester. ## COLORADO PENITENTIARY VALUABLE STATE ASSET

Denver, Dec. 3.—Warden Thomas J. Tynan, of the state penitentiary, in his annual report to the state board of charities and corrections, made today at the semi-annual meeting of that body, made public the financial condition of that institution.

According to the report, the convicts have earned \$35,000 within the last two years. They have constructed new buildings of the value of \$68,000 and have repaired old buildings to the value of \$40,000. Thirty thousand dollars worth of land has been reclaimed by the convicts, says the report, and the road gangs of convicts have done \$400,000 worth of work. Out of the appropriation from the state of \$225,000, Warden Tynan says some is left, and that the institution is out of debt.

The warden strongly recommends to the board that a farm be purchased so that the convicts might be placed to work on it and aid in their own redemption as well as in the support of the penitentiary. His idea is practically the same, only on a larger scale, as that which has been many times adopted by municipal farms for the moral development of municipal prisoners.

## THE GIRL WITH BEAUTIFUL HAIR

Uses Newbro's Herpicide.

There is one sure and certain way for every woman to have beautiful hair, and that is to give it intelligent care, which includes the use of Newbro's Herpicide.

This remarkable preparation kills absolutely the dandruff germ, eradicates dandruff and prevents the hair from falling.

The prophylactic action of Herpicide keeps the hair free from disease, and that is to give it intelligent care, which includes the use of Newbro's Herpicide.

Herpicide hair scintillates with health and vigor, light and luster, produced only by the well-known scalp and hair dressing, Newbro's Herpicide.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers, who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

All first-class barbers and hair dressers use and recommend it.

## MINE REPRESENTED BY HOLE IN GROUND

New York, Dec. 3.—Nothing but a hole in the ground was what John M. Henderson, of Waterbury, Conn., saw when he visited the Temagami-Cobalt mines, one of the properties promoted by Julian Hawthorne and others, on trial for using the mails to defraud.

Henderson, a mechanical engineer, so testified today, stating that he had paid \$480 for 1,250 shares in Temagami-Cobalt, and had also subscribed for 1,200 shares of Elk Lake, another Hawthorne property.

The witness said he visited the Temagami mines in June, 1910, and found that work had ceased and all the mining machinery was being packed ready for shipment.

"What did you see in the way of mines or mining?" asked the federal prosecutor.

"Nothing but a hole in the ground," replied the witness.

## REFORM WAVE HAS CLAYTON IN GRIP; HOUSE-CLEANING ON

(Special Correspondence to Morning Journal)

Clayton, N. M., Dec. 3.—The city council here has recently put the lid down tight on Sunday saloons and gambling, and since that time have been conducting a thorough and much needed house-cleaning.

Clayton up to the present campaign against vices of this kind has been a wide-open town since "The mind of man runneth not to the contrary."

Several saloon-keepers have been arrested and fined. In speaking of the gamblers leaving town the morning after the ordinance was passed, City Marshall John Brophy, said: "It looked like an excursion leaving town."

Some who attempted to ply their trade in spite of the ordinance, had to face heavy fines with the promise of a jail sentence if they were again arrested.

The night the police interfered Dr. Cherrington died, either of heart failure or suicide. He was found dead in his room the following morning with a bottle of white powder near his bed. The coroner held an autopsy over the girl's body and confirmed the suspicions which had been in her brother's mind.

Trester was sought by the police from the moment they took up the

case, but could not be found until this morning when he surrendered himself at the police station. His attorney immediately tried to secure his release on a writ of habeas corpus but it was denied. Trester's arrest was the second in the case. Maude Howe, nurse in attendance, was arrested Saturday but released the same day on habeas corpus. Trester refuses to talk of the case.

## VALENCIA COUNTY IS TO BEGIN ROAD IMPROVEMENTS

Commission Has Appointed Fred A. Becker to Have Charge of Actual Operations in Southern Section.

(Special Correspondence to Morning Journal)

Belen, N. M., Dec. 3.—The roads of Valencia county are undergoing extensive improvements under the direction of the new road commission, appointed about two months ago, and plans for much more extensive improvements are being laid. For some time there has been a very positive movement in this line, the members of the commission having taken a very lively interest in the work ever since their appointment by the governor.

In line with their outlined work, the commission has appointed Fred A. Becker to have charge of the actual road operations throughout the entire south half of the county. His territory will extend from Los Lunas on the north to the county line on the south.

The purpose of making this larger division than formerly existed under the old arrangement is that it is thought that the control of the roads by fewer persons will insure a more uniform system, and better attention to details of the work. Mr. Becker has for some time been acting as road overseer for the precinct of Belen, having been appointed to this position by the county commissioners. As such officer he has accomplished much toward the betterment of road conditions in Belen precinct, and this has been one of his appointments to the new position.

Together with the Valencia County Good Roads Association, the county road commission is fast improving conditions in the county, and the two organizations are expected to do still more along the same line.

Valencia Teachers Meet.

The Valencia county teachers' association held its mid-winter meeting in Belen on Saturday. There was a good attendance, almost every section of the county being represented. The meeting was opened in the morning, the opening address made by Satur-

ino Baca, county superintendent of schools. During the same session a helpful paper was read by Prof. J. B. Gunter, principal of the Belen school. The principal address of the afternoon session was made by Dr. J. A. M. Zeigler, who spoke at some length in an interesting and instructive manner on matters of vital interest to all the teachers present.

Wheat Crop Large One.

Wheat continues to be brought in to the Belen roller mills, and as a result business is very good at this situation. The farmers in the vicinity of Belen have raised good crops during the past year, and from present indications business will be as good at the mill as in any previous year.

Canadian Steer Prize Winner.

Chicago, Dec. 3.—A Canadian steer was awarded the world's championship at the international livestock exposition, here today. The winner is "Glenmarnock Victor," a two-year-old grade Angus steer, raised and exhibited by James D. McGregor, of Brandon, Manitoba. Second prize went to last year's champion, "Black Rock," a cross bred steer exhibited by Iowa State Agricultural College. "Glenmarnock Victor" was fed on Canadian barley, oats and hay, a feature of his fattening being that the animal never has tasted of corn.

Prisoners of War Fighting for Release

Pascual Orozco, Sr., and David De La Fuente Institute Habeas Corpus Proceedings at Austin, Texas.

(By Morning Journal Special Leased Wire.)

Austin, Tex., Dec. 3.—An announcement was made tonight by counsel for the government and attorneys representing Pascual Orozco, Sr., and David de la Fuente, that whatever the decision of United States Judge Maxey, before whom habeas corpus proceedings in behalf of the men were heard today, an appeal will be taken to the supreme court of the United States to determine whether the president has the authority to order the detention of persons without legal process.

Orozco and de la Fuente, Mexican revolutionary leaders, were arrested by military authorities at the direction of the secretary of war and with the approval of President Taft in connection with an alleged plot to form a conspiracy against the Mexican government. They are being held at Fort Sam Houston, United States District Attorney Boynton urged that in the event the men were released, their bond be fixed at not less than \$2,500.

Counsel for de la Fuente and Orozco insisted that their clients be released without bond and pleaded that they were without friends in the United States and would be unable to furnish bail. Judge Maxey had indicated that he should decide to admit them to bail, what amounts would be considered advisable.

Colorado Births Exceed Deaths.

Denver, Dec. 3.—Colorado's birth rate has increased 100 per cent over the number of deaths within the last year, according to figures compiled today by Willard Peak, statistician of the state board of health. According to his figures, there were 105 more births during the first nine months of this year than in 1911, and there was an average of fifty-three more births than deaths recorded for each month of 1912.

Sugar Trust Crippled Wholesaler.

New Orleans, Dec. 3.—John A. Wogan, testifying today at the second sugar trust investigation, said the refusal of the American Sugar Refining Company to sell him sugar had caused his firm to lose its Texas business, its principal source of revenue and eventually caused the firm great financial loss. The witness said it was in 1905 or 1906 that the company refused to sell to his firm.

Valencia County Jail Fire Which Inmates Start Gremlins Two

Prisoners in Iowa Village Lock-Up Resort to Foolhardy Attempt to Escape and Lose Lives as Result.

(By Morning Journal Special Leased Wire.)

Crowley, La., Dec. 3.—William Collier, of Los Angeles, and an unidentified companion were burned to death in the local jail early today when they had set fire to the structure in an effort to escape. They never got out of their cells, where their charred bodies were found when the fire was extinguished.

The two men were admonished during the day by Collin le Bleu, another prisoner, not to attempt to escape in that manner. The fire, not only cost the perpetrators their lives, but resulted in the serious burning of Le Bleu. Cries of the three men in that section of the jail brought no aid as the flames swiftly ate toward their wooden cells. Finally the door of Le Bleu's cell was burned partially and he burst it down and dashed through the flames to the jail yard, when he fell unconscious.

Collier and his companion were arrested on the charge of being drunk and disorderly.

ertain President Schardt during his stay in the city.

All members of the degree team and all officers of Cottonwood Grove, No. 2, Woodman's Circle, are urged to attend a special meeting for practice on Friday, December 14, at 2:30 o'clock. Any member of the degree who can attend this meeting will be welcome.

V. C. Nostrom, representative of an eastern publishing house, came to Albuquerque yesterday to make his permanent headquarters here. As soon as Mr. Nostrom arrived he went directly to the police station to visit Chief of Police Thomas McMillin. He was born in Kansas town where Chief McMillin formerly was married.

J. N. Gladding, city engineer, yesterday had a gang of workmen scattering crushed stone on muddy street crossings. The rain Monday night left several inches of mud on unpaved streets and the crossings were a menace to recent "shines" and white skirts. The crushed rock, left by the Police Department's Paving Company, made dry crossings. Six crossings were treated with crushed rock.

Considerable interest was attracted to the Wells-Fargo Express Company's plant last night while No. 1 was here, due to the method employed by the expressmen in transferring a package from one car to another. The brute was crated, and the crate was handled on one of the special high trucks used for heavy castings, etc. The animal was from Lawrence, Kan., its final destination being Stockton, Cal.

**BUILDING PERMITS FOR NOVEMBER TOTAL \$100,000**

Inspector John P. Steele's Office Makes Splendid Showing for Month Just Past; City Growing Fast.

The expenditure for building and improvements for which John P. Steele, city inspector, issued permits in November will total about \$100,000. The exact figures, of course, cannot be determined.

The largest item on the city inspector's report for last month is the hotel under construction by H. C. Trotter at 215-217 West Central avenue. It will cost about \$20,000. Other building permits issued last month were: A. J. Markowitz, 302 South Broadway, \$2,000; McIntosh, West Central ave., \$3,000; A. M. McDonald, 612 West Granite, \$1,000; Otto Berger, 206 Granite, \$2,000; Sadie Moore, 411 North Eighth, \$1,000; E. C. Butler, Fifth and Copper, \$5,000; P. F. McCanna, 419 West Santa Fe, \$1,500; Presbyterian sanitarium, \$4,000; Coleman-Blank Company, Sixth and Central, \$5,000; City Sash &amp; Door Company, Sixth and Marquette, \$2,000; Porterfield Real Estate Company, South Walter, \$1,700; W. C. Mueller, Raymond addition, \$1,700.

A large number of permits for buildings and repairs costing less than \$1,000 bring the total up to approximately \$100,000. The expenditure for buildings represented by the November permits is greater than the average monthly showing, according to Inspector Steele, and is an excellent index to Albuquerque's rapid growth.

The building inspector has been granted a month's leave of absence by Mayor E. R. Sells. While Inspector Steele is absent from his office, J. N. Gladding, city engineer, will issue building permits at his office over the fire department.

**DEATHS AND FUNERALS.**

Mrs. Gertrude Higgins.

Mrs. Gertrude Higgins, 28 years old, died at 2 o'clock yesterday afternoon at St. Joseph's hospital. She was the wife of J. W. Higgins, formerly editor of the Evening (Kain) News, who since coming to Albuquerque has been a compositor for the Journal.

Mrs. Higgins, with her husband and son, left for Los Angeles, Calif., on December 14th. She had been ill for several months, but her death was unexpected. She apparently was improving in health until yesterday.

The body will be sent to Lansing for burial, probably today. Mr. Higgins and his son will accompany the body.

**BUTTERMILK FOR SALE**

Owing to the cool weather, the Sunshine Creamery is now in a position to furnish buttermilk at 10 cents a gallon to anyone who will call at the creamery for it. **NOTICE OF DESIRED CONDEMNATION TO BE PUBLISHED**

Judge Reynolds Issues Order That Legal Requirements in Way of Notice to Outside Owners be Complied With.

In order to fully comply with all the provisions of the statute, it was necessary for the attorneys who recently filed the condemnation petition on behalf of the Atchison, Topeka &amp; Santa Fe Railway Co., to ask that notice be given of their petition to defendants who are not residents of the state, by publication. In compliance with this request, Judge Herbert F. Reynolds, of the district court, before whom the condemnation action will ultimately come for hearing, yesterday ordered that notice of the petition be published.

There are about a dozen defendants to the suit, only one of them being a known resident of any other state than this.

This is another step toward the acquisition of the land needed for the new shop establishment to be placed here by the Santa Fe.

**DEGREE OF DIVORCE GRANTED BY COURT.**

A decree of divorce was yesterday issued to Helen Hall from George W. Hall. The petition for divorce was filed Monday. The defendant waived the time of notice allowed by law, and did not deny the allegations of the complaint. The defendant and plaintiff asked a quick settlement of the suit. The complaint was to the effect that the defendant is physically incapacitated for the duties of married life. It further alleged that the defendant is the owner of property valued at \$16,000 here and in Kansas, and asked for \$5,000 permanent alimony. This the decree granted Mrs. Hall, with half the costs expended by her. The couple were married in Albuquerque on August 11, 1909, according to the complaint.

W. Moore Chapman was yesterday given a judgment, by default, against J. J. Jacobsen for \$117.96, with interest at 6 per cent until paid.

Marriage licenses were issued yesterday to: Frank Bautista, Roda and Jose Torres Lucero, both of Bleta, and to Ignacia Jaramillo and Felipe Acuña, both of Albuquerque.

**CLAIMING ROBBERY.**

MAN ASKS FOR BED IN THE CITY JAIL

Charles O'Keefe last night asked Police Captain O'Grady for a "bed" in the city jail. He was accommodated, O'Keefe told Captain O'Grady, a wonderful story of being robbed in Trinidad, Colo. Two masked men took \$275 from him at the point of a gun, he said.

**TRAIN CREW NOT TO BLAME, JURY DECIDES**

That Lucas Parras came to his death through an accident, was the verdict returned by the coroner's jury yesterday morning at the inquest held before Justice W. W. McMillin in police court. Parras was struck by a train on the Mountain road crossing and died in the afternoon at St. Joseph's hospital.

Mr. and Mrs. Jacob Gonzalez, who witnessed the accident, swore the trainmen testified they attempted to warn Parras, but he evidently did not hear the whistle, and that it was impossible to stop the engine before it struck him.

**PRESS ASSOCIATION MEETING PLANS BEING MADE**

Session to be Held in Santa Fe in January and Large Attendance of Pencil Pushers is Expected.

Plans are being made for the holding of a large and enthusiastic meeting of the editors and newspaper men of the state at Santa Fe in January, the occasion being the annual meeting of the state press association. President Nestor Montoya, of this city, has taken up the matter of arrangements with Secretary J. H. Toulouse, of Santa Fe, and while it cannot be determined just yet what will be on the program, it can be said that it will be a good one.

**STRIKE COMMISSION CRITICIZES BOTH SIDES**

Charleston, W. Va., Dec. 3.—The commission appointed by Governor Glasscock to investigate conditions in the mine strike territory made its report tonight. It criticizes both the operators and the United Mine Workers of America. It charges the operators with "the vicious, strife promoting, un-American guard system."

The miners are charged with an effort to insert a "thin wedge of unionism in the district." The commission was headed by Bishop J. R. Donahue, of Wheeling. The report states in citing the conditions that led up to the martial law proclamation, that in the opinion of expert witnesses on the scene, "martial law was the only measure to meet a desperate situation."

The commission recommends that great power be given the governor to remove peace officers who fail to enforce the law; that the governor be authorized to appoint special police; that the employment of private guards and advocates of workmen's suspension laws.

**CANINE OWNERS ARE QUICK TO PAY DOG TAX**

Twenty Persons Purchase Brass Tags After Council's Ukase Announcing Dog Tax May be Fined in Court.

Following the anti-canine ultimatum of the city council, twenty persons yesterday paid dog taxes to H. Charles Roehl, city clerk.

However, the rush did not deceive the dog enumerator, appointed Monday night, and the city clerk. They continued the preparation of a list of all probable dog owners in Albuquerque. As soon as the roll is complete the enumerator will notify all persons "keeping and harboring" dogs that they must purchase little brass tags or be arraigned in police court.

This will be done in pursuance to the instructions of the city fathers. Their attention drawn the fact that Albuquerque is fairly well populated with curs by the recent poisoning cases, and the aldermen painfully observed that a large majority of the canines are tax dodgers.

A new ordinance at first was thought to be the only remedy, but a refusal of the numerous anti-canine measures passed by one administration or another showed that the city had authority under the old ordinance to enforce a strict collection of taxes.

The method of collection, however, was changed by the fathers. The warden of the city pound, George Washington Ward, will not be the collector hereafter. An enumerator was appointed to do this work, and the warden in the future will attend simply to the business of wardening. The enumerator is to take a canine census and then inform the owners or boarders of dogs to "come across." If they don't within reasonable time, then to court.

To say that a dog is only a tramp or to tell the enumerator to kill him, or her, will not be a valid excuse not to pay. The city has no plan of operating a municipal sausage factory any longer, and anyone who wants his pet assassinated will have to do a "Gyp the Blood" stunt himself. It costs the city \$1 for every dog killed, but the owners probably can do the job more economically.

**SCHOOL BOARD NOT TO MEET UNTIL JANUARY**

Only Important Business to be Transacted Before Then Will be Letting of the Ballot Contract.

The board of education, which failed to hold a session Monday night on account of the lack of a quorum of members, probably will not meet until January.

Practically no business of importance was on the board's program for Monday night, with the exception of making arrangements for the printing of the ballots for the special bond elections to be held December 15th. This work probably will be attended to without calling a meeting.

Most of the board's business, aside from letting the ballot printing contract, is not pressing and it can wait until the regular January meeting. Besides, members of the board are so busy campaigning for the bond issue that a quorum could hardly be expected until after December 15th.

**BEATS CITY CLERK TO OFFICE FOR GRIFFITH LICENSE**

When City Clerk Roehl arrived at his office at 9 o'clock yesterday morning Frank A. Stortz, manager of the Elks' theater, was waiting there. Mr. Stortz offered \$25 for a license to permit Professor Griffith to continue his engagement.

The Griffith performance was stopped by Chief of Police Thomas McMillin Monday night because the license had not been paid. The city clerk granted the license yesterday morning upon the application of Mr. Stortz.

The theater, according to the Griffith contract, was to pay all licenses.

**CHRISTMAS RUSH TO BEGIN DECEMBER FIFTEENTH**

Express Company Getting Ready for Heavy Business; Postmaster Hopkins Asks for Extra Letter Carriers.

The local officials of the express company are making what preparations they may for the handling of the big Christmas rush, which will be on in force within the next two weeks. This rush usually begins about December 15. The postoffice here will likely be assisted by several extra carriers, and it is possible that other arrangements may be made to help handle the business.

"We are receiving extra supplies now," said a local express company employe yesterday, "and you can bet your life we are holding on to a couple of extra men that we have now, trying to find them work to do until we need them on the Christmas stuff. This year we will have extra messengers on the cars, extra wagon men, and whatever other extra help we need, for we are going to try to make a record."

"Albuquerque business has grown a great deal in the last year. We are regularly using more men all the time now than we had on last Christmas for the rush."

Postmaster R. W. Hopkins declared that he had asked for permission to employ extra carriers with wagons to handle the registered mail and packages, and that the regular business might be lightened as much as possible, and that if permitted he would use men specially for the handling of the registered mails and parcels, leaving the carriers comparatively free. He said he had also asked for extra office help.

Mr. Hopkins declared he had received no advice from the postoffice department as yet regarding extra men on the railway postoffices.
