STATEHOOD DOES IT.

The Boom which Dakota is Having—Town Lot Speculation.

Pierre, S. D., Oct. 4.—The election of Pierre as the capital of South Dakota bids fair to create a boom which will outlive that of Oklahoma last spring. Strangers are flocking into the city by thousands. Over \$50,000 worth of property changed hands to-day. Lots which could be bought a week ago for \$100 sold to-day for \$1,000. People are excited and the town is in a constant hubbub night and day. It is impossible to preserve any kind of order. People have been celebrating incessantly for forty-eight hours.

Fort Pierre, across the river, is also crowded with boomers and intended settlers. Many of them have escaped into the reservation, notwithstanding a large force of regulars and Indian police stationed to prevent encroachments.

A scheme was unearthed to-day by the authorities which was on foot by a gang of boomers to sneak across the river at midnight and take possession of the land around Fort Pierre, and thereby capture the town site. Application had been quietly made to the government for town papers, and if the scheme had not been unmasked at an opportune moment it would probably have been successful. Few settlers over there were armed, and the plot would have been attended with much danger, and as the prime movers are known to be desperate men there would have been much bloodshed.

Military assistance has been telegraphed for. Every attempt will be made to preserve order.

Mexico News.

CITY OF MEXICO, Oct. 7.—Sec. Blaine's address at the opening of the international congress of American nations has been well received here. Comments heard on the streets to-day place it as the strongest utterance of its class ever announced by any American. The address was read to President Diaz about midnight last night, and it is said to have impressed him very favorably.

It is reported that Deputy Alfred Chauré will soon present to the chamber a plan to reduce the number of deputies in the republic. By his scheme, it is asserted, over \$400,000 annually can be saved to the federal treasury.

Heavy rains have caused the destruction of a number of houses in Quana-juala.

The price of beef has risen in the city markets. There is a scarcity of Mexican cattle in a vicinity, and the recent washouts have delayed shipments from the north. When the retaliatory duties take effect next month the price of beef will still go higher.

Francisco Pedras and Tiburcio Mendez escaped from Matuhila prison yesterday, and took refuge in a tree. They were discovered and offered to surrender, but were shot down by the police. Pedras was killed and Mendez is dying.

A starving man named Barroza, of Villa de Zapahuén, was beaten to death by a proprietor of a meat market, while he was helping himself to raw beef in the latter's market.

Heavy frosts have damaged the bean and corn crop in this valley so badly that only half a crop will be harvested.

Another Setback.

New York, Oct. 8.—The world's fair committee has met with another obstacle. The difficulty in the way of obtaining the desired land in the neighborhood of Morningside and Riverside parks now seems to be so great as to make final success very doubtful.

Many of the owners of these lands are unwilling to give them up for the purpose, and unless their unwillingness can be overcome by persuasion, the committee will be forced to go somewhere else for a site. It is useless to think about getting possession of the land by legislative or judicial proceedings. That would require so much time and be so doubtful in result as to defeat the fair.

McMains.

TRINIDAD, Oct. 8.—The examination of witnesses in the McMains' case, growing out of the Maxwell grant troubles last year, consumed the whole day in the district court except a short time while the court listened to an argument favoring a change of venue in the murder case against McMains. No decision was given regarding the application. There are forty witnesses in all to be examined, and the trial will not be concluded before the middle of next week.

Complaint Against the Rio Grande.

WASHINGTON, Oct. 8.—The American Mining & Smelting company and others through their attorneys, Peterson & Thomas, of Denver, have filed a complaint with the inter state commerce commission against the Denver & Rio Grande road, alleging an unreasonable through rate on bullion from Leadville to Missouri river points; also that a much lower rate is charged from Salt Lake, causing great prejudice to Leadville shippers.

LAND DECISION.

Comm. Groff's First Decision Favorable to a Poor Man.

WASHINGTON, Oct. 8.—Comm. Groff, of the general land office, has rendered his first decision. It was in the case of Johannes Frederick versus Fred Honselin, on appeal from the decision of the local land office at Benson, Minn.

The decision appealed from holds that Honselin failed to comply with the letter of the homestead law, in that he did not establish actual residence upon the land within six months after entry, only digging a cellar and building a foundation. The entry was accordingly canceled.

Commissioner Groff's decision in this case, and in his review of the case finds that Honselin, who was a poor man, was getting along as rapidly with the improvement of the land and the construction of a house as possible. The commissioner adds that the six months' rule is not to be insisted upon where the entryman's good faith toward the government is sufficiently shown, or where his acts are not inconsistent with an honest purpose to comply with the law. He sees no bad faith in this case.

The decision is regarded as important as indicating the policy of the general land office with respect to this class of claim.

Growth of Population.

WASHINGTON, D. C., Oct. 8.—Gen. M. C. Meigs, of this city, has issued a pamphlet treating of the growth of population in the United States in 200 years, based upon the facts that the population of this country has doubled every twenty-five years, and that the census of 1880 is expected to show a population of 55,240,000. He finds that in 1860 there ought to be in that country 1,268,400,000 while

and 55,057,000 negroes, making 393 persons to the square mile. Gen. Meigs draws interesting conclusion from these figures.

Join the Republican Party.

BALTIMORE, Oct. 8.—The Young Men's Democratic club, a large and influential political organization in the eastern section of this city, has broken away from the party whose name it bears and cast its lot with the Republicans.

The resolutions adopted by the club tell very clearly the disgust which the operations of the Democratic managers have created among the self-respecting men of the party. They say:

"The present management of the party has ceased to represent the will of the party, and by long years of misrule has done it into disfavor with the people, whose interests they subordinate to their own selfish schemes. The party principle no longer give voice to the wishes of the party, but merely record the will of the undemocratic ring which controls them by the most unblushing frauds. Therefore, we, members of the Young Men's Democratic club of Baltimore, will not support, but will by all legitimate means endeavor to defeat the ticket now imposed upon the Democratic party by the ring which misrepresents it."

PRODUCTION OF LEAD.

Difficulty in Locating the Locality from Which It Comes.

WASHINGTON, Oct. 8.—In a report on the production of lead the geological survey says that the growing interchange of ores between the different states and territories of the Rocky mountains has rendered it practically impossible to distribute the lead product territorially. "Lead ore," says the report, "is found in Utah, Montana and Colorado, and is refined at Omaha and elsewhere. Utah receives ores from other sources and ships part of the product of its own mines, and the same is true of Colorado. Without a far reaching inquiry into the private business of smelters, sampling works, producing mines and railroad shipments, it would be impossible to trace exactly the origin of the metal marketed."

As to Colorado, however, it is said that Leadville continues to be the heaviest producer of lead ore in the state, and that the unfavorable position of the Leadville works in their competition with valley smelters has been improved by increased facilities possessed by them. "The mines of this district," it is said, "have maintained their productiveness, although the recently smelted ores are growing scarce."

"The bugbear of the Aspen ores," it is said, "has been their lowness. It is claimed, though, that their deleterious influence has been overestimated. On an average there is not over 12 per cent of the district, and the best lead ore of the district is nearly free from it. The dry ores, those carrying very little or no lead, are generally those which have a large percentage of baryta. In some of them gray copper makes its appearance. It is claimed that if these dry ores are eliminated from those treated in a lead furnace, the remaining ores will not contain an average of 5 per cent of baryta, which ought not to contain any difficulties in lead smelting."

Grand Jury on Nagle.

STOCKTON, Cal., Oct. 7.—The grand jury of San Juan county presented a final report Saturday concerning the case of Deputy Marshal Nagle. The report says the facts show the killing of the late Judge Terry was intentional and deliberate, that while constitution and laws of the state require that crimes against its laws should be tried thereunder, the accused was taken from the power of the state by a process emanating from the United States circuit court. The report continues: "The United States circuit court has decided that Nagle can not be tried by the state courts essentially for the lack of jurisdiction, for the lack of want of jurisdiction, which it is fair to conclude he can not be tried in any court."

A Sound Legal Opinion.

E. Bainbridge Munday, esq., county attorney Clay county, Texas, says: "Have used Electric Bitters with most happy results. My brother also was very low with material fever and jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life." Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a little testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters. This great remedy will ward off as well as cure all malarial diseases, and for all kidney, liver and stomach disorders stands unequalled. Price 50c and \$1, at C. M. Creamer's."

El Paso's Score.

EL PASO, Oct. 8.—The board of health is taking positive measures to prevent production of contagious diseases. Vaccination is compulsory, and the health officer, acting under instructions from the state quarantine officer, has put an inspector on all trains coming in from New Mexico to guard against the introduction of small pox from Socorro, N. M.

Wedded in Death.

JAMESBURG, Ky., Oct. 7.—The old Hatfield-McCoy feud has broken out again. Pete McCoy's daughter was to marry John Handy, a relative of the Hatfields. The members of both factions swore to prevent it. The other night as they stood up to be married a volley was poured in on them, killing the bride and groom and fatally wounding the preacher.

Change in the Creed.

NEW YORK, Oct. 5.—The Episcopal convention this morning took up and discussed the resolution promising a change in the creed. The resolution was adopted by the following vote: Clerical—35 ayes, 9 noes, 2 divided. Lay—29 ayes, 14 noes, 4 divided.

CONDENSED NEWS.

Admiral Porter is dangerously ill at Jamestown, N. Y.

No trouble in the international American congress as reported.

The Bates house, Indianapolis, Ind., was damaged by fire yesterday; loss, \$10,000.

Brackett and Russell, opposing candidates for governor of Massachusetts, want a series of joint debates.

Dr. Kane, grand master of the Orangemen of the district of Belfast, in a published card, warns Balfour, chief secretary for Ireland, that he will alienate the Orangemen if he proposes any further endowment of Catholic institutions in Ireland.

"The dispatch dated Mexico, October 1, sent out by the Associated Press, to the effect that the state of Chihuahua, Mexico, was financially embarrassed, is absolutely without foundation. The finances of the state were never more prosperous and revenues are increasing in a surprisingly encouraging proportion."

THE INDIAN CONFERENCE.

Papers Read and Plans Discussed by the Friends of Lo.

LAKE MONROE, N. Y., Oct. 7.—At the session of the Indian conference, J. W. Davis, of Boston, reported for the special committee on giving aid to the mission Indians of California. Philip Garrett said the results accomplished far exceeded the outline, and the committee was continued for another year.

Painter of the Indian Rights association read a long paper, pointing out the grave defects of recent legislation. He said in substance:

"The allotment of lands in severalty was a step in the right direction, but under limitations of authority was not sufficient to take the Indian out of his old condition."

An interesting paper was also read by Justice Strong, of the United States supreme court, in which, referring to the question of education of Indians, he thought congress should provide funds for the purpose by paying to the states a sum equal to the amount which would be raised if the lands allotted in severalty were taxable by the states.

Cut Rates West.

CHICAGO, Oct. 7.—A local paper charges that Kansas City and Denver passenger rates are being manipulated and that tickets are in the hands of scalpers. At a meeting of the passenger agents, it developed some of the tickets issued from the offices of the Missouri route at Indianapolis, the general passenger agent of that road said every effort will be made to clear the market of objectionable tickets. The Missouri people were informed that no western road would hereafter honor the tickets in question.

Malaria.

Literally means bad air. Poisonous germs arising from low, marshy land, or from decaying vegetable matter, are breathed into the lungs, taken up by the blood, and unless the vital fluid is purified by the use of a good medicine like Hood's Sarsaparilla, the unfortunate victim is soon overpowered. Even in the more advanced cases, where the terrible fever prevails, the successful medicine has effected remarkable cures. Those who are exposed to malaria or other poisons should keep the blood pure by taking Hood's Sarsaparilla.

Money for the South and West.

NEW YORK, Oct. 7.—For the first time since the week following the May panic of 1884, bank statements published show the reserve held less than 35 per cent of the deposits as required by banker's law. A year ago, almost exactly the same amount of deposits, banks held a surplus over legal requirements of \$11,417,500. The deficit is almost wholly caused from drain of money to the west and south where over \$6,000,000 was shipped last week and almost as much went in the week just preceding.

Actress Dead.

NEW BEDFORD, Mass., Oct. 7.—Madame Albertine, the blind actress, died yesterday after a lingering illness. She had a checked career. For a number of years she had a company of her own on the Pacific coast. She was made blind by colonial fever, in Australia, and was brought back to America in the steamer Swatara of the United States navy in 1875.

A Boycott Broken.

NEW YORK, Oct. 7.—In 1889 the New Hampshire legislature enacted a valued policy law, against which insurance companies of the country declared a boycott, and have since refused to write policies in that state. A sensation has been created by the announcement by the Ethna of Hartford withdrawing from the compact and will resume business in that state.

Double Entry.

PROVIDENCE, R. I., Oct. 7.—Dieman P. Robinson, the only son of ex-President Robinson, of Brown university, is an embezzler and fugitive. He has been registered at the university for several years. The amount of the shortage is unknown. He kept two sets of books, one false and one true.

FRISCO LINE!

St. Louis & San Francisco R. R.

Passengers for St. Louis and the east should travel via Halstead and the Frisco line.

DAILY & WEEKLY.

THE NEW MEXICAN

Santa Fe, N. M.

Connected with the establishment is a job office newly furnished with material and machinery, in which work is turned out expeditiously and cheaply, and a bindery whose specialty of fine blank book work and ruling is not excelled by any.

IN ITS 26TH YEAR, AND STILL ALIVE AND KICKING

GEORGE W. HICKOX & CO

Filigree Jewelers

OF NEW MEXICO.

Carry the largest and richest assortment of goods to be found at any point in the southwest. Native Opals, Navajo Garnets and Turquoise in great variety. We employ only native workmen, and invite strangers to our workshops. Diamonds, American Watches, Silverware, Clocks and Optical Goods also a specialty. The only place in Santa Fe where a fine watch can be repaired properly.

PALACE AVE., Opp. Gov. Prince's

SANTA FE, New Mex

ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a landable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point me to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It is merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term" payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriages or other contraband within our power to give.

The Daily New Mexican

Published daily except on Sundays and public holidays.  
Subscription prices: In Advance - One Year, \$10.00; Six Months, \$6.00; Three Months, \$3.50. Single Copies, 10 Cents.  
Entered as Second Class Matter at the Santa Fe Post Office.  
The New Mexican is the oldest newspaper in New Mexico. It is sold to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

**CITY SUBSCRIBERS.**  
Mr. H. O. Ladd has sole charge of the city circulation of the New Mexican, and all subscriptions must be paid to him at this office. City subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

TUESDAY, OCTOBER 8.

JUDGE S. B. AXTELL may come back to New Mexico with his commission as chief justice in his pocket. If he does a majority of the people of New Mexico will be well satisfied.

It may become necessary for the New Mexican to expose the true status of an ex-high Democratic official of this territory in the near future. Very few of Mr. Cleveland's appointees out here were honest, and as time passes and the official cloak is lifted from their shoulders, it becomes impossible for them to longer conceal their baseness.

The New Mexican would respectfully call the attention of President Harrison to the fact that Mr. Cleveland's chief justice, district attorney and marshal for New Mexico are still holding on to their offices, and that they ought to be replaced by good, honest Republicans as soon as possible. The people of New Mexico and the interests of good government demand it.

The Nopal Nugget, an independent paper, one evidently having at heart the best interests of New Mexico, says:

The New Mexican's correspondent at Washington writes that the matter of the appointment of a United States marshal for New Mexico is again under consideration and that the chances seem to be in favor of Col. Richard Hudson, of Grant county. It is as it may be, the sooner the appointment is made the better for the people and the interests of the government.

The latest venture in novel writing has been devised and arranged in detail by the Chicago Inter Ocean. Three or four of the most noted living novelists will carry it out. It is a series of novels founded on the dramatic stories of the Bible. Prof. George Ebers, who wrote Serapis, Uarda and the Egyptian Princess, will place the characters of his Exodus among the scenes of the Hebrew Joshua from Egypt.

The New Mexican believes that civil service reform is good enough in its way, but the true political doctrine is that "to the victors belong the spoils." One of the best things ex-Gov. Sheldon of New Mexico ever said was: "The best way to keep Democrats in office is to vote the Democratic ticket." The New Mexican votes the Republican ticket and votes it to turn Democrats out. Some of the late appointees in this territory may possibly see the point.

The Episcopal convention in New York by its meeting celebrates the 100th year since the organization of the church in the United States in 1789. Two-thirds of the signers of the declaration of independence were members of the church of England. Many of the same statesmen were associated with the clergy in adopting the church constitution in the convention held in 1789, in Philadelphia. In 1792 there were nine states represented in the convention, five bishops were in attendance and thirty-three delegates. In the present convention there were sixty-five bishops and 600 accredited delegates. The Episcopal church is especially noted for its success in home missionary work and organization.

Sec. BLAINE was at his best in his opening address to the International American congress. He described the American continent as indeed a new world where, after four centuries, mankind exists under new conditions, and has attained a remarkable degree of prosperity by new methods of agricultural development, and rejection of old world systems of land tenure and government. The object of this congress, Mr. Blaine indicated, is to make all America one neighborhood by interchange of trade and hospitality, forming stronger social and commercial ties, and by such inter-communication of trade and travel as exists now between our own states, to dispense with embassies and revenue officers, and thus secure both economy and friendliness in the government of American nations.

New Mexico will be wholly an inland state. She will have many railroad connections north and south and great trunk lines running from east and west through her territory. It is of vital importance to her commerce that she be connected with the sea. By short routes to some deep water harbor she can equal the advantages which other states near to seaboard will always have in the importation of goods. It is but 700 miles to the Gulf of Mexico, where a harbor that will give cheap freight to all parts of the Atlantic coast can be found. This is the opportunity of our people, then, to secure this right as well as favor from congress. Let the pathways of the ocean be opened to us and our freights cheapened from \$3 to \$5 a ton for the transportation of our coal, iron, copper, lead, wool and grains to eastern markets. They will make New Mexico a power in the commercial world which by nature's gifts is her right.

Try the New Mexican's new outfit of material and machinery when you want fine job printing or blank book work.

**SANTA FE.**  
Santa Fe has more advantages for a residence city than any other town in the southwest. We have an unparalleled diversity of views here. Eight mountain ranges clothed with foliage of the richest hues encircle our beautiful plain. There are nearer hills, canyons, bluffs and table lands, and a mountain stream winding through these and down a broadening valley. From the hill sides we look upon stately public buildings, a massive cathedral and hospital, elegant chapels, churches, colleges, academies and industrial schools, a spacious sanitarium and a graceful and capacious hotel prominent among other structures. Here are ancient buildings and modern in curious contrast for the sight seer. Our mercantile houses are piled with goods daily distributed by two railroads over the territory. The narrow business streets are often crowded with queer looking Mexican teams, through which the great American transfer wagons find difficult passage. At this season and in spring are seen caravans of well painted and gaily dressed Navajos with a score or two of horses, or the poorer but wiser Apaches, bringing their children to school. Always the sonorous looking Pueblo stands dreamily looking upon American activities as dumb as the ever present burro under his loads of wood, fruit and grain. For a little while well dressed school children thread their way among rough looking workmen standing at the street corners, or the devout worshippers going or returning from feast day services, or the easy going miner in dunn colored garments. The blue coated soldiers are moving about Fort Marcy, their gentlemanly officers mingling with the bystanders. Handsome carriages with graceful riders halt under the plaza shade trees to listen to the evening military concert. On the hill-sides are cottages with green lawns and thrifty fruit trees; on the avenues more stately mansions. Everywhere the thick foliage of fruit gardens rises above adobe walls. Occasionally, groves of cottonwoods with darker hues, and shade trees on the streets more completely each year hide the shapeless adobe houses that must give way gradually to modern buildings. Above all these a clear sky and inspiring and beautiful air. These products of many years, with a history full of incidents the most tragic and romantic, and older than any other American town, are rare encouragements to our citizens for the exercise of energy and enterprise with modern inventions to make by a rapid development under better conditions the most beautiful and interesting city west of the Missouri river.

**EDITORIAL CONVENTION SKETCHES.**  
Hon. ELIAS S. STOVER is a native of Maine. He was born in Rockland, November 22, 1833, and till the age of 16 he received an education in the common schools of New England. He was the son of a sea captain, and for five years followed the sea, till he became second officer of his ship. In 1858 he returned home and joined a party of New England boys who engaged in the conflict between freedom and slavery on Kansas soil, while it was yet a territory. In 1859 he was settled in the limits of Arapahoe county embracing most of the present state of Colorado. There he was elected clerk of the county. The stirring experiences of Kansas conflicts made him a ready volunteer in the greater contest to perpetuate the union. Mr. Stover enlisted as a private May 14, 1861, in company B, 2d Kansas volunteer infantry, and being promoted to sergeant he was engaged in the battle of Springfield, where Gen. Lyon lost his life. Having re-enlisted in the 2d Kansas regiment, he was promoted to the rank of 1st lieutenant, and for three years had command of a battery. He was in nearly every battle in southwestern Missouri and Arkansas, and was mustered out of service as captain after uninterrupted connection with active operations of the federal army all through the war. It was his wish and fortune to be always at the front, closing his military service at Fort Gibson, Indian territory, late in 1865.

Capt. Stover returned to Kansas and took political office as senator from Morris county, 1870, and was honored with election in 1872 to be lieutenant governor of Kansas. In 1875 he became senior member of the business firm of Stover, McClure & Co., at Las Animas, Colo., and settled in New Mexico as soon as the Santa Fe railroad had opened up this territory. His firm was prominent among the commercial houses of Albuquerque, under the name of Stover, Cray & Co., till 1887, when they closed business, and Gov. Stover became interested in coal mines at Gallup and in numerous enterprises for the development of mining and agricultural enterprises in New Mexico. There are few men who have so clear an insight into the political and material condition of New Mexico. He is an ardent Republican, but a still more zealous citizen of the territory. He is ever ready to promote the most important interests of New Mexico, liberal minded, and a staunch supporter of schools and institutions which advance the social and moral life of our people. Gov. Stover has done much to make our resources known to the world, and was one of the strongest and most effective advocates of the most advanced measures in the state convention.

**Vigor and Vitality**  
Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

The correct way is to buy goods from the manufacturer when possible. The Elkhart Carriage and Harness Manufacturing Co. of Elkhart, Indiana, have no agents. They make first class goods, ship anywhere, privilege to examine and advertisement.

THIS PAPER is kept on file at E. C. Duke's advertising agency, 61 and 63 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

**DR. PRICE'S CREAM BAKING POWDER**

**THE MAXWELL LAND GRANT**

Choice Mountain Valley and Lands near the Foot Hills FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A., T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

Warranty Deeds Given.

COUNTY AFFAIRS.

Commissioners' Proceedings—See "Show Cases" on the 16th—Expense Items.

At its session yesterday the county board received quarterly reports from nine justices of the peace. Squire Barton, of San Pedro, was the only one who turned in any fines, \$10 worth. All the others had big accounts against the county. Squire Martinez' report set forth that most of the cases coming before him were criminal and peace actions brought by worthless people. He had imposed many fines but collected none, as the litigants were too poor. He had trusted these to pay in the future rather than send them to jail at the expense of the county. No action was taken on these reports.

Mr. Wellys stated that he hadn't been notified of the meeting previously held, at which the court house bonds were funded, but he concurred in that action.

The meat inspector's report for July was presented, showing that \$33 had been collected, \$16.55 going to the county treasury, the balance paying salary and fees.

The road overseers for the Cerrillos, Dolores and San Isidro precincts were ordered to get a move on themselves and begin work repairing the roads on the 15th instant.

A petition from sixty-four voters near Morieta resulted in the establishment of a new voting precinct there, with W. M. Taber as justice of the peace.

The bonds of D. C. Sanchez, constable at Chulita; E. W. Baker, road overseer at San Pedro, and J. C. Guro, road overseer at Canosito, were approved.

Mr. Leese, of Espanola, presented a petition setting forth the need of repairing the Rio Grande bridge and stating that the people there would do the work if the county would furnish the lumber and nails. No action taken.

Squire Harkness presented a claim of \$300 for cash advanced for repairing the Cerrillos bridge and repairing the coal road and asked that he be issued a current expense bond for the amount, saying he had made arrangements to dispose of such bond. This brought up the question of whether or not those having small claims against the county could not "pool" their accounts and take their pay in current expense bonds, as such bonds could not be issued for less than \$100, but the matter finally went over without action.

There was to have been a meeting yesterday afternoon, but Messrs. Wellys and Martinez failed to show up. When the time came for the meeting the clerk was served with an order from the district court growing out of the Cole case, commanding the county board to appear on the 16th instant and show cause why its members should not be punished for contempt of court.

Mystic of Migs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

The Alamo is kept by first class people.

MASONIC DEDICATION.

Impressive Ceremonies Last Night in the Fraternity's New Quarters.

The new Masonic hall was dedicated last night. Dr. Harroun, past grand master, officiated, and organized a specific grand lodge for the occasion comprising the following named officers:

J. P. McGorty, as deputy grand master; G. W. Knebel, as senior grand warden; Geo. Wellys, as junior grand warden; Marcus Eldred, as grand treasurer; Henry M. Davis, as grand secretary; Sol. Spiegelberg, as grand scribe; H. Lindheim, as grand junior deacon; John Gray and S. Spitz as grand stewards; B. Kahn, as grand Tyler.

After the grand lodge had been duly opened the acting grand officers proceeded to make an inspection of the new and spacious Masonic home and found it satisfactory in every particular. Upon the request of the worshipful master of Montezuma lodge, C. F. Easley, the grand lodge proceeded to dedicate the hall according to the ancient forms and usages of Masonic teachings. These ceremonies were conducted by Dr. Harroun in a very impressive manner. After the grand lodge concluded its duties a meeting of the Montezuma lodge was held, and several of the members took occasion to make remarks touching the new hall, its appropriate furnishings, etc. At the close of the Masonic ceremonies proper the company adjourned to the reception room, where twenty-five covers were spread, and there an hour was spent in banqueting. Altogether the occasion proved a highly enjoyable one.

NEW MEXICAN PRODUCTS.

Fine Exhibits of Fruits, Vegetables and Cereals Shown in Kansas City.

Two Santa Fe baggage cars, loaded with products of the Rio Grande valley, in New Mexico, have been standing on the tracks at the Union depot for the past two days, and a fine exhibit of fruit, vegetables, and cereals and minerals displayed in their has attracted a great deal of attention. Although New Mexico has for years been one of the best markets for Kansas City merchants, the resources of the country and the progress being made in developing it is little understood here. There is probably in the United States no more fertile strip of land running from north to south through the center of this great territory, which is supplied with water by the Rio Grande. Where the irrigation system has been properly developed the land has proven to be exceedingly productive and capable of producing a diversity of crops. In the cars which were at the Union depot yesterday, there were samples of fruit which were beautiful to the eye and delicious to the taste, and they demonstrated the fact that New Mexico can not be excelled in the quality of its watermelons, and cantaloupes, etc., perfect apples, luscious peaches, and melons, juicy pears, quinces, pomegranates and figs, large stems of grapes of many varieties, all were gathered in one narrow car and testified to New Mexico's claim to rank among the foremost of America's fruit countries. Corn stalks fourteen feet high were used to decorate the interior of the car, and in glass cases were the different cereals attractively arranged. On the car floor were heaps of potatoes, enormous beets, and large onions, of a variety noted for their sweetness and wildness.

Fine samples of coal, bituminous and anthracite, besides pieces of mineral from the gold and silver mines were also exhibited. The cars leave Kansas City this morning for Carrollton, Mo., and after a short trip there they will go on to Chicago, visiting on the route Fort Madison, Ia., and Galeburg, Streator and Joliet, Ill. The cars are sent out by the New Mexico bureau of immigration,

which is represented by J. K. Livingston of Santa Fe. The upper valley car is in charge of H. L. Sammis, of Albuquerque, and the lower valley car is in charge of J. H. Newton, of Las Cruces.—Kansas City Journal.

The Alamo hotel, next door to cathedral, is first class in every respect.

ROUND ABOUT TOWN.

The boys at Fort Marcy were paid off today.

Fresh Cape Cod cranberries at W. N. Emmert's.

The Building & Loan association meets on Thursday night.

Regular meeting of the Hose company at 8 o'clock this evening.

Fresh ranch eggs and extra fine creamery butter at W. N. Emmert's.

The Sena block is being greatly improved in appearance by the work of Contractor Murray.

Only water development is needed to make Santa Fe a prosperous city. How about it, citizens?

Clerk Garcia's new wind mill and pump is in full operation and the work of Elder Bros. can there be seen.

The Alamo parlor was the scene of a social gathering last evening where music was supplied by Klein's orchestra.

A son was yesterday born to the wife of Don Miguel Berardinelli, and the happy father is being generally congratulated today.

J. W. Akers leaves to-night for Arkansas hot springs, where he will enjoy life and take baths availing in hopes of improving his "system."

A party of D. & R. G. officials, including J. W. Akers, left today for the north to arrive here this afternoon.

Henry Pullman, lately with Bartsch, has taken charge of the latter's branch store at San Pedro. A big schooner load of merchandise was sent out for him today.

S. W. Donner is engaged in McKenzie's hardware store during the proprietor's absence east. Sam is an old salesman, and learned the difference between a stove pipe and a parlor lamp years ago in his father's great St. Louis establishment.

Joseph Conklin, more than three years a courteous and ambitious helper at C. M. Creamer's drug store, left yesterday for St. Louis, where he will finish his education in the St. Louis school of pharmacy. Joe is a most excellent young man, and will make his mark in the world. Success to him.

A. L. Kendall, who is running Jacob Weltner's branch store, came in last night to be present at the dedication of Masonic hall. He says the little Pittsburg is growing steadily, in fact is just speeding right along in all branches of business and industry, and the class of buildings that are going up are such as would ornament any western town.

The M. E. church congregation held a pleasant social last night at Mr. Berger's, out of compliment to the new pastor, Mr. Frye. Rev. S. K. Kirkbride, of Chama, a new minister in a new station, was also present. Mr. Kirkbride hails from Troy, N. Y. He has just let a contract for erecting a neat church edifice at Chama on lots donated by Hon. T. B. Catron.

Section Foreman Gavin and wife, on the Santa Fe Southern, mounted a hand car last night for the purpose of having a moonlight ride to and take in a wake at Santa Cruz. The passenger train was due to come south and they knew it. A collision occurred in a bend near Santa Clara, and Mrs. Gavin was pretty badly jammed up. The hand car was wrecked and the engine pilot broken. The woman will live.

ST. JOHN VS. ST. JOHN.

The Prohibitionist's Son Loves Liquor and His Wife Asks a Divorce.

Ada St. John, by her attorney, Mr. N. B. Laughlin, to-day filed in the district court here an application for divorce against John P. St. John, Jr., son of Kansas' ex-governor and the notorious apostle of prohibition. Two years ago Miss Ada Helphentine was an attractive belle in Garden City, Kas., and her parents were highly respected people. John P. St. John, Jr., was then a conductor in charge of a passenger train on the A. T. & S. F. road that ran through Garden City. These two young people met and after the usual courtship, marriage followed. Six months later they agreed to disagree and separated. Mrs. St. John is now a resident of Tascas valley, residing with her father, who is engaged there in the construction of a smelter for Syracuse, N. Y. parties, and John P. St. John, Jr., is in Los Angeles, Cal. The petition filed today asks for divorce upon the ground of habitual drunkenness and failure to support his wife.

PERSONAL.

Mr. Clark Carr, of the Cebolla Cattle company, is here from Fort Wingate.

Mrs. Chas. Lifford, of Las Vegas, is visiting the family of Hon. Sol. Spiegelberg. Major Maynader and chief clerk Fred. A. Cramer leave for the south to night.

Arthur Blachoff and wife are at home again after two months of visiting throughout the east.

Mrs. Waddingham and pretty little daughter of Las Vegas, arrived last night after a months visit to Ojo Caliente.

Harry Lewis, well and favorably known here, is again among old friends. He likes Oury very well, but his health is bad there.

John C. Nead, one of the most popular St. Louisans on the road, is selling hardware in the city to-day. He wears a rare nugget; evidently not from San Pedro, however.

At the Exchange: D. D. Harkness, Cerrillos; Geo. L. Wellys, Cerrillos; P. F. Leese, Espanola; E. B. Ames, Cerrillos; Eusebio Chacon, P. Mooney, Trinidad, Colo.; H. D. Lewis, Oury, Colo.; Mrs. Waddingham, Ojo Caliente.

At the Palace: E. J. McLean, Albuquerque; H. D. Motter, St. Joe; C. M. Carr, Ft. Wingate; Major Maynader, U. S. A.; E. L. McClure and wife, Richmond, Ind.; John B. Mellor, Philadelphia; Rev. S. H. Kirkbride, Chama; Rev. J. J. Gilchrist, La Junta; J. H. Langgan, Kansas City; F. Gans, Denver; E. A. Stout and wife, Seattle; W. D. Hatch, New York; E. J. Ettrine and wife, San Marcial; D. J. Schwartz, Albuquerque.

A TWO MINUTE TALK.

Montana Politics—Lead—Ores—Railroad Damage—San Pedro.

Manager Raunheim, of the Santa Fe Copper company, leaves for San Pedro today after a month's absence, most of which time he spent in Montana among friends, and in the mines about Butte. He took a hand in the late campaign there, and speaks of it as one of the most exciting political contests imaginable. The Democrats got their strength largely from the fact that dissensions existed in the Republican ranks. The leaders of both factions were friends of Mr. Raunheim, and it fell to his lot to bring about harmony. How well he succeeded is the question. He is expected to be at the time of his departure the chairman of the Republican central committee headed a delegation that called upon and thanked him for his timely political services.

Mr. Raunheim found the mines in Montana prospering in a high degree, and his information is that the miners of the entire northwest are united in the demand that lead ores from Mexico be made to pay duty. He says if Secretary Windom so rules it will be worth millions of money to the mining industry of the west; that there are any number of lead mines in the Rocky mountains range that would be developed if this cheap product from Mexico were to pay when it crosses the border. He doesn't think that the wishes of a few border smelters ought to be allowed to interfere with the development of so important a branch of American industry.

Coming home over the D. & R. G. road Mr. Raunheim had an experience. He bought a ticket in Denver calling for "continuous passage" to Santa Fe. He was compelled by important business engagements with Mr. Lewishon of New York to be here on a certain day, and he was particular to get from the D. & R. G. road a statement as to when that ticket would land him at his destination. He received every assurance that he would be brought straight through. Even at Chama he was given this idea, but after the train pulled out he incidentally learned that only tri-weekly trains were running south of Chama and he would have to lay over twenty-four hours. Business was urgent and the situation was unpleasant. At once Mr. Raunheim consulted the conductor and finally wired Supt. Cole Lydon, saying he must be in Santa Fe that night and asking that a special train be placed at his disposal for continuing the journey from Chama, saying he would pay whatever the D. & R. G. demanded. No notice was taken of this request and a long wait of twenty-four hours at Chama followed. Mr. Raunheim put in part of this time detailing in a letter to President Moffat the whole circumstance and concluded by stating that as soon as the necessary affidavits can be secured he will institute against the road a damage suit for \$5,000.

Concerning San Pedro Mr. Raunheim said that \$50,000 worth of improvements on the copper company's property are in progress and that forty days would probably elapse before this work could be completed. At the end of that time the new smelter, the steam drills, air compressors, cable tramway and new water service will be in, and a larger force than ever, to make copper still cheaper, will be given employment.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of the fortunate few, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed either a cure or money refunded. Trial bottle free at C. M. Creamer's drug store.

The Alamo don't sell whisky or allow gambling.

Who Ome Know It. Having paid cash for food for many days for numerous people and now being unable to meet my own bills, I would request all those knowing the whereabouts of my debt to call and settle immediately. Wm. C. Burton.

Stockholders Meeting.

The annual meeting of the stockholders of the Fischer Brewing company will be held at the offices of the company in Santa Fe, N. M., on Tuesday, October 15, 1899 at noon. C. F. A. Fischer, Secretary.

I hereby offer at private sale, in lots to suit purchasers, all my household furniture, including one upright piano. Geo. W. Lane.
