NUMBER 264

GIFFORD PINCHOT ON FORT WINGATE TROOPS AND NAVAJOS IN FIGHT

Chief Forester Seeks Co-operation of Stock Raisers And Mining Men.

SAYS NATIONAL FORESTS ARE FILLING THE NEED

There Are 150 Reserves In The United States—More Are To Be Set Aside In Northwest Country—Aims Of Department.

Gifford Pinchot, chief forester in the national forest service, arrived in Albuquerque early this morning and today conferred with various forest officials from this vicinity in regard to the work of the department being carried on in New Mexico.

Mr. Pinchot came here from Arizona and California, where he has been on a general inspection tour of the national forests, and just previous to this accompanied President Roosevelt on his recent Mississippi river trip.

At that time Mr. Pinchot met Governor Curry and had a talk with him on territorial subjects especially relating to the work of the forest

Chief Forester Gifford Pinchot.

service. The big chief of the forest service will remain here but one day after which he will depart for Washington, where important matters await his attention. A number of the supervisors and officials of the forest service in this part of New Mexico came here today to make reports to Mr. Pinchot and confer with him in regard to the work.

Mission to Meet Supervisors.
"My mission in Albuquerque today," said Mr. Pinchot this morning in the lobby of the Alvarado, "is simply to meet a number of the forest supervisors of this district and discuss with them questions relating to the forest service. The reports I have received of the work here indicate that the work is being efficiently carried on in this territory as elsewhere in the west and I am most interested to note the advance being made in the work."

Service Making Progress.
"The forest service has made notable progress in the last six months in efficiency of service and in its standing in public opinion. Opposition, such little as there was, is being rapidly replaced by hearty support on the part of those making use of the national forests."

Has Accomplished Marvels.
"When it is considered that the forest service as it now is, has been in existence but two years, it must be admitted that the work accomplished has been little short of marvelous. To be sure we had the bureau of forestry and the division of forestry previous to this, and in a measure these departments carried on the work of preserving the forests, yet as the department is now conducted and with the added powers it enjoys, rests the great hope of coping with the problem of conserving the resources of the great forests of the country. The people are gradually awakening to the importance of this necessary work and are lending their support to it."

First In Profession.
Mr. Pinchot is the first American to adopt forestry as a profession and it is due largely to his whole-souled enthusiasm in the work that the forest service is what it is today. Making a specialty of this study long before he entered the government service, he began to realize the peril of the policy previously in vogue of dismantling the forests and leaving barren wastes, and devoted his efforts to interest the government in taking measures to prevent this. How successful have been his efforts the present results obtained bear witness. While the work of the service has little more than been commenced, and while the department is hampered by the lack of sufficient appropriations, yet the start already

Four Men Killed, One Wounded, Nine Indians Are Arrested With Chief Bylille.

BATTLE TOOK PLACE ON THE RESERVATION

Details of Conflict Lacking—Soldiers Are Now Supposed to Be on Homeward March—Troopers Are Well Known in Albuquerque.

Washington, D. C., Oct. 31.—In a battle between United States troops and Indians in the southern Ute reservation several days ago, three persons were killed and another wounded. All are believed to be Indians.

News of the battle was conveyed to the Indian department here in a telegram from Superintendent Shelton, of the Ute agency, and was dated yesterday but did not reach the department until today.

The troops consisted of a body of four officers, seventy-four men and three Indian scouts.

Troops From New Mexico.
The telegram is dated at Ship Rock, N. M., and is as follows: "The troops have returned from southern Utah. They arrested Bylille, an Indian of influence among his tribesmen, and nine others. Three others were killed and one was wounded while shooting at Indians. The Indians were quiet when we left Utah and we do not anticipate further trouble."

Killed Were Indians.
The officials of the department assume that the killed and wounded were Indians. Those arrested were a part of a band of Navajos from western New Mexico and eastern Arizona. A number of Indians under the leadership of Bylille have been creating disturbances for some time because of their disinclination to observe regulations. So offensive became their actions that Superintendent Shelton made a request that soldiers be sent to his aid. The troops dispatched to the reservation were I and K, of the Fifth United States cavalry stationed at Fort Wingate. Captain Willard was in command.

Indians Taken Unaware.
The Indians were at Arapahoe, Utah, and were taken unaware by the troops on the 22nd. The purpose of the troops was for the purpose of producing a quieting effect. It was first thought that the fight took place immediately upon the arrival of the troops but a second telegram received by the war department would indicate that this was not the case.

Indians Peaceful Again.
The war department has received the following telegram from Captain Johnson, of the United States army, who was sent to the Ute camp in South Dakota:

"The Ute camp yesterday found them quietly awaiting our arrival expecting me to be able to adjust their differences. Will hold council with Indians tonight, and report. There is no immediate danger."

COLORADO SOCIALIST IS SERIOUSLY INJURED

Denver, Oct. 31.—A. H. Fleaten, who was once time socialist candidate for governor of Colorado and after lieutenant governor of the state was thrown from a bicycle in front of a street car last evening and so seriously injured that he may die.

The accident was witnessed by a large number of pedestrians and it was first thought that the man was dead. He was unconscious when picked up and laid at the hospital, where it was found that the skull had been fractured. An operation was performed to relieve the pressure on the brain. Fleaten was still alive today, but in a precarious condition.

ROBBERS MAKE AWAY WITH 1,300 ROUBLES

Pakoff, Russia, Oct. 31.—Bank robbers today attacked seven men, who were carrying a cashbox containing 1,300 rubles, murdered the whole party and decamped with the money.

CANAL LOCKS WILL BE 110 FEET IN WIDTH

Washington, D. C., Oct. 31.—One hundred and ten feet is the width which the navy department has finally fixed as desirable for the locks for the Panama canal. This is an increase of ten feet over the width originally fixed.

COMMITTED MURDER MONDAY, HANGED ON THURSDAY
St. Petersburg, Oct. 31.—Mile Ragozhnikov, who on Oct. 25 killed General Maximoffsky, director of the government prison, was hanged this morning.

WILL THIS SHADOW CAUSE WAR?

"Not alone in wages does the Japanese competition affect white labor, but in the number of hours employed. The white laundry workers receive from \$1 to \$2 per day and work nine hours, while the Japanese are perfectly willing to work from 12 to 14 hours."—San Francisco Correspondence to The Citizen.

ELIDA YOUTH HAS FOOT CUT OFF BY WIRE FENCE

Hardy Youth Picks Up Severed Member and Rides To a Doctor.

TALKS WHILE WOUND IS BEING DRESSED
Chicago, Ill., Oct. 31.—A special dispatch to the Chicago Tribune from Elida, N. M., says that while riding a horse near there yesterday Ben Johnson, 15 years old, ran the animal into a barbed wire fence and completely severed his foot. The boy then picked up the severed member and rode into town for treatment and did not faint.

Johnson is the son of a farmer near Elida. He was riding a fractious animal, which swerved into the fence while galloping very swiftly. The barbs tore through his shoe and socking and saved off the bone. With wonderful presence of mind and the nerve of a soldier, he stooped down and picked up his foot, which was still held to the leg by a few threads of flesh and galloped his horse to the town. He was taken to the doctor.

The hardship of New Mexico's youth was never shown to a better advantage than when Johnson drew up his horse in front of the doctor's office and started to alight from the animal without asking the assistance of a number of persons standing nearby.

The wound had bled profusely and Johnson was so weak when he reached the ground that he sank in a heap and had to be carried. He did faint, however, and talked freely about the accident while the wound was being dressed by a surgeon.

NO SENATORSHIP FOR ROOSEVELT

Washington, D. C., Oct. 31.—There is ample authority for believing that if President Roosevelt retains his present state of mind he will not be a candidate for the United States senate as either a successor to Senator Platt or Senator Dewey. The president himself today told a caller that after considering every phase of the matter he had decided that it would not be a position which he would relish or which he could accept. He believes that if he entered the senate he would be placed in a position where to properly represent his constituents he might have to criticize either or both his successors or predecessors in office. He feels that this would be the height of impropriety. The president also believes that he might be put in a position of great embarrassment when his own policies were under discussion. At first the president reached the conclusion that he would not be a candidate for the senate unless he was succeeded by Mr. Taft or some one whom he was sure would carry out his policies. Now the president will not be a candidate under any circumstances. The president believes, too, that he might be placed in a position where he would be accused of trying to keep his policies before the country even though they might not be the policies of his successor. In discussing the subject today he indicated that while he might be elected senator from New York if it was constitutional to elect senators by direct vote of the people, that he had grave doubts of his election by the New York legislature.

NEW YORK DEPOSITORS HAVE GOTTEN OVER THEIR SCARE

Institutions Temporarily Embarrassed Are Doing Business Again.

NO BORROWERS FOR 40 PER CENT MONEY
New York, Oct. 31.—The restoring of public confidence was indicated today by the diminished interest taken in the financial situation, which tries to readjust itself to its normal basis. The gold engagements increased today, bringing the total up to twenty-three million seven hundred and fifty thousand dollars. Stock market in general is very strong.

The several banking institutions, which experienced recent difficulties, held meetings during the day and readjusted their affairs and resumed business.

A few runs, which have been going on, have dwindled to nothing.

CALL MONEY WAS FORTY PER CENT.
The first prices of stocks showed a tendency to react somewhat from yesterday's buoyant closing.

Some of them, however, showed sharp advances, with small transactions.

Call money was offered at 40 per cent at 10:40 o'clock but found no borrowers.

London, Oct. 31.—The rate of discount of the Bank of England was raised today from 4 1/2 to 5 1/2 per cent, in consequence of the increase made upon its stock of gold by the demand from America and the recent rise in the rate of discount of the Imperial Bank of Germany.

A general improvement of prices on the exchange followed the announcement.

NATIONAL BANKS ARE COMPLYING WITH SUGGESTION

They Will Increase Their Circulation as Favored by Treasury Department.

Washington, D. C., Oct. 31.—The treasury officials are agreeably surprised the number of banks throughout the country, which have already indicated their purpose to comply with the suggestion of the controller of currency to increase their circulation in National Bank currency by depositing with the controller additional security for bank notes.

Although the suggestion was only made last evening a large number of telegrams have been received at the department as early as 9 o'clock this morning asking for additional circulation varying in amounts from a few thousand dollars to two millions. The latter amount is asked for by the Commercial National Bank of Chicago.

LOUISIANA GOES AFTER PUBLIC UTILITY TRUSTS

People in Sympathy With Governor In Favoring Corporation Legislation.

ASSEMBLY CALLED IN EXTRA SESSION
New Orleans, Oct. 31.—The state of Louisiana is emulating the statute of Texas in the fight being made on corporations. Lieutenant Governor Sanders this morning presented the state assembly, in special session, with a copy of the law regulating corporations. The proclamation of the governor was received with applause and the law was passed with little opposition.

A committee was appointed to investigate the telephone, telegraph and express companies doing business in the state and make provisions for their regulation.

The fact that the lieutenant governor's proclamation was issued in the absence of Governor Blanchard at the Jamestown exposition, four days after the latter calling for the extra session, has created unusual interest.

The Blanchard call laid before the assembly the investigation of port dues and asked for a reduction in state taxes.

New Orleans is all expectancy over other possible moves of the acting governor, as it is rumored that others are expected, leading toward the regulation of the trusts. The people generally are in sympathy with the policy of the administration.

RECEIVER FOR SOUTHERN ALLY OF LINCOLN TRUST

Mobile, Ala., Oct. 31.—The financial embarrassment of the J. E. North Lumber company of Bond, Miss., and the appointment of a receiver is possibly the only evidence of the financial depression felt on the coast. The company owns one of the largest plants in Southern Mississippi together with millions of feet of stumpage and several miles of railroad. The drop in yellow pine, the high cost of labor, provisions, etc., had its effect, and when bills were unpaid the protection of the law was sought, and a bill was filed in the chancery court of Harrison county by the Marine Oil company and others.

The North Lumber Company was organized in 1904, and was combined with the Lincoln Trust company of St. Louis. The company issued bonds to the amount of \$1,000,000, bearing 6 per cent interest, payable in gold coin. The bonds from 1 to 961 were \$1,000 each, and those from 961 to 1,100 were \$500; fifty were to mature each year, beginning 1906.

To secure payment of bonds to be issued from time to time, the directors adopted a resolution authorizing the officers of the company to execute a deed of trust in the nature of a mortgage to the Lincoln Trust company, dated 1904, conveying to the trustee all its property.

A few days ago the Marine Oil company and E. C. Cottam & Co. of New Orleans asked that a receiver be appointed, and the application alleging that the lumber company was indebted to the Marine Oil company \$1,101, to Cottam & Co. \$1,205, and to J. E. Jones \$18,000.

The complaint questions the legality of the mortgage of the lumber company to the Lincoln trust.

CHICAGO SHOE HOUSE DESTROYED BY FIRE

Seven Firemen Suffocated by Smoke From Burning Ladder Fall From a Fire Escape.

LOSS ESTIMATED TO BE \$500,000

Origin of Blaze Unknown—Started in Fifth Story and Entire Building Was a Mass of Flames Before Arrival of Departments.

Chicago, Ill., Oct. 31.—Seven firemen were overcome by smoke and a five story building occupied by the Holden Shoe company was burned here today, incurring a loss of \$500,000. The building was located at the corner of State and Quincy streets. The fire started on the fifth floor and the cause is unknown. It spread rapidly eating down into the fourth and third stories before the fire departments arrived.

Smoke from burning leather filled the building and compelled the firemen to fight the fire from the adjoining buildings.

The seven firemen injured were on a fire escape when overcome, and fell to the pavements below. Several employees working for the shoe company had narrow escapes from being suffocated and cremated. It is believed that some of the men employed on the fourth floor did lose their lives in the building, as they are as yet unaccounted for.

TAWNEY AND PARTY LEAVE FOR THE PANAMA CANAL

House Appropriations Committee Will Make Personal Inquiry Into Needs of Big Ditch.

ESTIMATED TOTAL COST IS \$300,000,000

Will be Completed by January 1, 1915. Making Due Allowances For Possible Delays—Statesmen Are Abroad Steamship Colon.

New York, Oct. 31.—Representative James A. Tawney, of Minnesota, chairman of the committee on appropriations of the house of representatives, accompanied by ten other members of that committee, left here today on the steamship Colon for the isthmus of Panama to make a personal inquiry into the present and prospective needs of the canal.

"Congress fixed the arbitrary cost of the canal at \$130,000,000," said Mr. Tawney this morning, "and thus far congress has authorized the issuance of canal bonds to the extent of \$77,000,000. If we find the estimate of \$32,000,000 made by the

Representative James A. Tawney.

commission for continuing the work through the next fiscal year is correct, we shall unhesitatingly grant it. We grant that sum, the actual cost of the canal is the first of July, 1909, will be \$105,000,000 or \$33,000,000 short of the original cost of construction exclusive of \$40,000,000 paid the Panama Canal commission and Colombia. I estimate that the total cost of construction will be not less than two hundred and fifty millions, thus making the canal cost as its total cash three hundred million dollars."

Making all due allowance for possible delays Mr. Tawney said the canal should be completed by Jan. 1, 1915.

NEW YORK COMEDIAN DISAPPEARS VERY MYSTERIOUSLY

Failed to Show Up at Theater Where He Was Starring. Is Wanted by Authorities.

New York, Oct. 31.—The sudden disappearance of Raymond Hitchcock, the comedian, has not been cleared up. One theory is that he is bound for Europe, another is that he has met with foul play and a third is that he has fled.

Hitchcock failed to appear at the theater where he was starring last night, and had not been located at a late hour today.

The grand jury has returned indictments against him, charging him with felonious convictions, which should be found and found guilty, would send the actor to prison for life.

Did Not Sail for Europe.
An investigation reveals that he did not sail for Europe as was thought possible. The passenger lists of the boats leaving here have been examined, and all the names on the lists identified.

The crime with which Hitchcock is charged was assault, committed some time ago. He was arrested a few days ago and released to await the action of the grand jury on \$25,000 bail. It is believed that he has jumped his bond.

While his wife is prostrated, she says that flight was out of the question as he had but little money. She insists on the theory of foul play. Hitchcock was the member of several professional clubs of New York and a comedian of considerable ability.

SHIP'S CREW EATEN BY SOUTH SEA CANNIBALS

New York, Oct. 31.—Eaten by cannibals was probably the fate of the crew of 40 sailors that took the big sailing ship Arthur Sewell out of Philadelphia April 3 on the start of her long voyage to carry coal to the Philippines. Word has just been received at the Maritime exchange that the vessel was wrecked near Terra Del Fuego, and all signs point to the survivors having been captured by the cannibals that inhabit the island in that vicinity. The crew of the wreck and the almost certain fate of the crew came from the sailing steamer Fridenhorf. Since the Arthur Sewell sailed not one word was received regarding her until a letter came today from the Norwegian sealer. The Sewell's first stopping point was to have been Seattle. The Fridenhorf reports that on Aug. 29, while cruising near the southeast headline of Noir Island, half way between Cape Pillar and Cape Horn, the lookout reported a derelict ahead. The derelict proved to be a four-masted square rigged ship that in every way answered the description of the Sewell. As the wreck was evidently very recent, the Fridenhorf's captain made an investigation in the hope of discovering some of the possible survivors. On the shore of Noir Island a landing party from the Norwegian vessel discovered traces proving that a considerable party from the wreck had made its way to land. The trail led away from the beach. The sailors from the Fridenhorf followed the trail as far as they could make it out, but finally had to abandon the search owing to the danger from the cannibals that inhabit the island. The fate of the shipwrecked sailors seemed certain to the men from the sailing steamer. The natives on the islands in that part of the sea are cannibals of the fiercest kind and shipwrecked sailors could have little hope of escaping from them.

NUMBER KILLED BY LAND SLIDE 5,000

St. Petersburg, Oct. 31.—No further information has been received regarding the disaster at Karatage in the province of Boshien in that the total population did not exceed 5,000, though the number of inhabitants was somewhat larger presumably as the city is frequented as a pleasure resort.

HARRY THAW WILL PLEAD INSANITY AGAIN

New York, Oct. 31.—The announcement was made here today that insanity would be the plea of Harry K. Thaw in his next trial for the killing of Stanford White, which is set for December 2 next.

Martin W. Littleton, chief counsel for Thaw, it is stated, has chosen this course because he has become convinced of the unsound mental condition of his client.

RAILROAD DEPARTMENT

YARDMASTER'S BLUFF MADE GOOD

Hand In Hip Pocket Caused
Highwaymen to Change
Their Mind.

A bluff to pull a gun was all that saved Night Yardmaster W. L. Baker from being held up by three men Monday night in the Southern Pacific yards at Tucson. These men were later arrested by a special Southern Pacific officer and a charge of attempted hold up was placed against them on the police blotter. They gave their names as Pat Griffin, Hugh Rooney and Pete Kervin.

Yardmaster Baker in performing his duties is compelled to make frequent trips through the yards. He was walking along the fence just to the south of the yardmaster's office when he noticed three men coming toward him on the other side of the fence. They followed him and when within a short distance of the yardmaster, one of the trio made a run at him. Reaching quickly back to his hip pocket, Yardmaster Baker shouted, "If you advance another step I'll shoot."

"I beg your pardon. I meant no harm," was the reply of one of the men and the trio then ran away. Yardmaster Baker was unarmed or he would probably have given them an impetus for sprinting.

A short time later three men were arrested by a special officer and brought to the city jail. Yardmaster Baker stated they were the men who made a bluff at holding him up. The suspects will be turned over to the county.

**BRAKEMAN CURRY HAD
A NARROW ESCAPE.**

El Paso, Oct. 31.—Passenger trainmen of the Southwestern, who arrived in El Paso Wednesday morning, tell of a narrow escape from a horrible death while a passenger brakeman named George Gorrey, working on the Douglas-Benson train, had Sunday evening.

The train had stopped at Calumet station on its way to Douglas. Gorrey had gotten off to assist some passengers to leave the cars and was in the act of getting back on the train after signaling the engineer to go ahead, when his foot slipped.

In falling, Gorrey tried to grab the steps, but missed them and fell beneath the train. Fortunately, only his left hand fell upon the rail. Two fingers of it were mashed off by the wheels before the train could be stopped. He was taken to Douglas and placed in the hospital.

That he was not more seriously injured or killed is regarded by the trainmen as a miracle. Had he fallen a few inches farther under the train, his head would most likely have been cut off, and it was against the rail as it was. So close was it that his hat was cut to pieces by the wheels.

**PRESIDENT RIPLEY
PASSES 62ND MILE POST**

Edward Payson Ripley, president of the Atchafalaya, Topeka and Santa Fe Railway company, was born October 20, 1845, at Dorchester, Mass.

After receiving a high school education he entered the railroad service in 1865. On October 1, 1879, after having served the Star Union line at Boston, he became clerk to the general eastern agent of the Chicago, Burlington and Quincy system, filling the position for about two years.

Next he became New England agent of that line, advancing in 1878 to the position of general eastern agent. During the next nine years he filled the position of general freight agent of the road, and from 1888 to 1899 he was general manager. In the latter year he left the Burlington to become third vice president of the Chicago, Milwaukee and St. Paul line. Since 1896 he has been president of the Santa Fe system.

**SOUTHERN PACIFIC
OFFERS TO COMPROMISE**

It is reported that the trouble between the Southern Pacific and its machinists will be settled, the company having agreed to compromise on a scale of 45 cents and a nine hour day. The machinists had been receiving 43 cents per hour with an advance of 5 cents per hour with a 9-hour day. This in effect meant that they would receive the same wages as formerly with one hour less per day.

A conference was called between representatives of the machinists' union and Southern Pacific officials in San Francisco and this conference has now been on for more than a week.

**WESTERN LINES WILL SELL
INTERCHANGEABLE MILEAGE**

Milwaukee, Wis., Oct. 31.—Announcement is made that beginning Dec. 1 all railroads within the territory of the Western Passenger Association will sell mileage books to "bearer" and interchangeable on all lines at 2 cents per mile. Up to this time the 2-cent rate on mileage books has been limited to the use of the persons named on them and to the road issuing them.

**ROCK ISLAND STOPS
CONSTRUCTION WORK**

Chicago, Oct. 31.—The Rock Island railroad system yesterday laid off 2,500 men from construction and track forces in the western states from Illinois to Texas.

F. N. Murphy, president of the Santa Fe, Prescott and Phoenix railroad, was in this city and his west last night. His reports heavy travel throughout the entire Santa Fe system and says the train he came west on was one of the largest passenger trains which ever ran out of Chicago.

S. L. Bean, mechanical superintendent of the coast line for the Santa Fe, returned from the east recently and is the guest today of E. H. Harlow, master mechanic at the

A passenger on one of the Santa Fe trains arriving here last evening created considerable excitement by accusing the Pullman porter, Will Payne, with having taken from him a diamond valued at \$250. The matter was investigated by Special Agent Overstreet and local manager, W. C. Kennedy, who searched Payne and failed to find any trace of the missing gem. The pin, in which the diamond was set, was found shortly after the train left Trinidad, and though an effort was made en route to find the lost article the passenger insisted on having the search made at this point.

The Santa Fe has three construction gangs at work on the Silver City branch making improvements.

**\$264,000,000 WILL BE
FINAL COST OF CANAL**

Washington, Oct. 31.—In view of the questions which will be asked by the democrats in the next session of congress, government officials have been figuring over the ultimate cost of the Panama canal. The figures show that the ultimate cost of the canal will be in the neighborhood of \$264,000,000.

This is far in excess of the original estimates and the original sum named by congress as the limit within which the expenditures were to be kept. It is thought, however, with the splendid progress made, there will be little difficulty in having the final bill passed by congress. This is not to be attempted at the coming session.

The canal commission is asking for \$31,000,000 for the next fiscal year, which, it is thought, will be the average annual expenditure for the remaining five and a half years, the time set for completing the canal.

**OLD MAN FOUND
DEAD IN STABLE**

The coroner's jury in the case of Cal Yowell, who was found dead in the stall of a Roswell livery stable on last Saturday morning found that death was the result of normal causes.

Yowell was 61 years of age and had been in Roswell about two months, having come there from Texas.

**STAGE TO JEMEZ, LEAVES 211
WEST GOLD EVERY MORNING AT 5 O'CLOCK.**

**CUT RECIPE OUT
AND SAVE ANYWAY**

There is so much rheumatism here now that the following advice by an eminent authority will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Stomach troubles, Heart and Kidney ailments can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc. Sold by all dealers.

Jake Levy was a visitor Las Vegas the early part of the week.

C. H. Jamison and wife of Socorro, are registered at the Grand Central.

Dr. James A. Rola, for many years a physician at Raton, has moved to Santa Fe.

George S. Thompson and S. R. McManess were in town yesterday from El Paso.

J. G. Creager, formerly of Bland but now of Colorado, is in the city on business.

George Seabury, a prominent business man of Raton, is registered at the Alvarado.

James Parson, justice of the peace at Fiero, N. M., dropped in the city last Saturday.

S. B. Davis, prosecuting attorney for San Miguel county, is in Santa Fe on legal business.

Assistant United States Attorney E. L. Medler is attending United States court at Roswell.

Joe E. Sheridan, territorial coal mine inspector, arrived in Albuquerque last evening from Silver City.

H. O. Bursum, mayor of Socorro, has left the Gem City for his sheep ranches in the Oscura mountains.

Judge H. J. Waldo, attorney for the Santa Fe in New Mexico, has returned to Las Vegas from a business trip to Kansas City.

Principal Ross, of the Manual school, has returned to the city from attending the meeting of the Presbyterians held at Santa Fe.

Chas. Catron, assistant district attorney for the first judicial district, has returned to Santa Fe from a visit to Colorado points.

Vinc Masin, the popular senior proprietor of the Cave saloon at Silver City, has just returned from a visit to the east, and reports a pleasant trip.

Rev. Hugh A. Cooper, of the First Presbyterian church, has returned to the city from attending the annual meeting of the Santa Fe Presbytery held at Santa Fe.

Dr. W. E. Sunderland, who recently came to New Mexico with the intention of making it his permanent home, has decided on Estancia as a residence and is now on the ground preparing to practice his profession there.

Mrs. Agnes Morley Cleveland, who owns a large ranch in the Datil mountains in Socorro county, spent last week in Silver City visiting Mrs. John Moorman, the two ladies having been friends while at Stanford university.

Albert Clancy, the well known baseball player, who has been playing with the Montreal Braves this season, left last night for Pueblo, Colo., where he will spend the winter in mercantile pursuits. Mr. Clancy is signed for next season with the Pueblo Indians of the Western League.

Attorney Charles A. Spiess, of Las Vegas, has gone to Gulfport, Miss., to defend George P. Money, formerly of Las Vegas, who is charged with murdering a man in Mississippi. Mr. Money will be remembered as a former democratic candidate for delegate to congress of New Mexico.

J. H. Bearup, president of the Rio Grande Woolen mills, has returned from his ten days' trip to Oklahoma City and Chicago. While absent Mr. Bearup has been in attendance on several conventions in one of which at Oklahoma City, he secured the passage of resolutions favoring the admission of New Mexico to the union as a single state.

George H. Snyder, Charles A. Watts and Theodore K. Guth, prominent Boston business men, were at the Alvarado yesterday and left last night for Kelly and Magdalena, where they are interested in the properties of the Mine Development company, and the German company. The gentlemen are enthusiastic believers in the Kelly district and predict for it a great future among the lead producing centers of the country.

E. S. Parker returned yesterday morning from his hunting trip in Socorro county. He reports great activity there among the sheepmen, who, he says, are bringing in their sheep in such quantities that the transportation facilities are liable to be greatly overtaxed. He says the sheepmen estimate that there are 450,000 sheep in the neighborhood of Magdalena awaiting transportation. Mr. Parker brought home as a reward of his excursion a fine two-year-old buck.

A weak stomach, causing dyspepsia, a weak heart with palpitation or intermittent pulse, always means weak stomach nerves or weak heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by all dealers.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunsen, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all dealers. 50c.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative is a popular prescription—also directed to these weak and ailing nerve centers. It builds up strength; it often real, genuine heart help. If you would have strong heart, strong circulation, strengthen these nerves—re-establish them as needed.

APPOINTMENTS MADE FOR OKLAHOMA

President Weeds Out Big
Field of Candidates For
Judicial Honors.

Marshal Eastern District—Grosvenor A. Porter, Ardmore.
Marshal Western District—John Abernathy, Lawton.
District Attorney, Western District—John Embree, Guthrie.
Clerk Eastern District—J. R. Harrison, Muskogee.
Clerk Western District—Charles E. Hunter, Oklahoma City.

Washington, D. C., Oct. 21.—These are the appointments decided upon for the federal places in the new state of Oklahoma.

The following are yet to be decided:

Judge of the Eastern district, Judge of the Western district, district attorney for the Eastern district.
The appointment of Charles E. Hunter means defeat for Charles Watson, brother of Representative James E. Watson of Indiana, republican whip of the national house of representatives. As a balm, however, he was given an intimation through Gov. Frantz that he could have the clerkship of the federal court of Alaska. Watson has this under consideration.

President Weeding Out Candidates.

The Oklahoma patronage situation has reached the elimination stage. The president is by this process weeding out the big field of candidates for judicial honors and other offices. He formally notified the friends of four judicial candidates today that their favorites would have to be dropped from further consideration on account of age. The quartet includes Judges Clayton, Humphreys, Lawrence and Townsend. The contest for the judgeship in the Eastern, or Indian Territory, district, is thereby reduced to Judges Parker, Gill, Dickerson and Charles Campbell. The latter is the choice of Gov. Frantz, who is also boosting Maj. Cromwell for judge of the Western district. No eliminations are understood to have been made in the Western district today. Representative McGuire is still urging Judge Burford, Gov. Frantz is pushing Cromwell and Secretary Wilson of the department of agriculture is behind Hunter.

Oklahomans Think Frantz Too Ambitious.

Some of the Oklahoma leaders are criticizing the actions of Gov. Frantz, who they claim is trying to dictate too many appointments. Gov. Frantz says that the people of the state will welcome a new deal in the judges; that the attorneys, as a rule, could not refuse to endorse the judges before whom they practiced. Friends of the old judges, however, say that Frantz has taken that position for personally ambitious reasons. They add that McGuire would be humiliated if Frantz were to dictate to the extent to which he aspires. Some today informed the president that Cromwell was a populist until 1904, and that he stamped the country for Bryan as against McKinley in 1896.

Hoch Working for Relative.

Gov. Hoch, assistant Secretary of Kansas held another conference with the president this morning in behalf of Judge Dickerson. Hoch's brother-in-law, Senator Long was also a caller at the white house and is said to have told the president that if he wanted to appoint Judge Dickerson in the Eastern district he would endorse him. Senator Long has so far been favorable to Judge Gill, but he has also asked for the appointment of Judge Gillette in the other district. The president is said to have announced that the age limit would not apply to Gillette, who is 59 years old. Secretary Garfield will return to Washington tomorrow and will confer with the president on all the appointments.

NEW PENSIONS:

POSTOFFICE CHANGES

The following New Mexico veterans have been granted pensions within the past few days as a result of work being done in Washington by Delegate Andrews:

Henry C. Thompson, Albuquerque, \$12 per month from March 2, 1907.
Charles Edward Tucker, Roswell, \$12 per month from March 1, 1907.
Mrs. Francisca I. Ames, Las Cruces, \$8 per month from April 27, 1907.
Herald R. Raper, Alamogordo, \$8 per month from June 10, 1907.
Thomas W. East, Tabain, \$12 per month from October 1, 1907.
William Edling, Elizabethtown, \$12 per month from March 8, 1907.
Thomas Clouser, Elizabethtown, \$12 per month from March 8, 1907.
Adelbert H. Weston, Cedar Hill, \$12 per month from March 9, 1907.
Francisco Lopez, Anthony, \$12 per month from March 13, 1907.
Daniel Rison, Raton, \$12 per month from March 5, 1907.

Postoffice Changes.

The following postoffices have been established in New Mexico:

Blynum, Chaves county, John F. Blynum, postmaster.
Cochiti, Sandoval county, J. A. Rivera, postmaster.
Curry, Quay county, E. S. Candler, postmaster.
Butler, Quay county, J. M. Butler, postmaster.
Leganesville, Quay county, John W. Logan, postmaster.
Hollivar, Roosevelt county, A. L. Carpenter, postmaster.

HAIR DRESSER AND CHIROP-
DIST.

Mrs. Bambini, at her parlors opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatments, do hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Massage treatment by vibrator machines. For any blemish of the face, call and consult Mrs. Bambini.

DO IT NOW

HALF OF AVERAGE TREE IS WASTED

Lumbermen Are Now Awak-
ing to the Fact That the
Forests Are Going.

Startling discoveries have been made by statisticians at Washington, which are of material interest to New Mexico.

Less than 50 per cent of the average tree as it stands in the woods comes into the market in the form of merchantable products, according to the statistics of government experts. The remainder is allowed to go to waste. Some trees supposed to be of little value have been habitually neglected altogether and left in the woods to fall and decay.

The seriousness of this waste question made little impression on lumbermen and the users of lumber until forests began to fall and prices reached a point where building operations were handicapped. Lumbermen have too often gone into the richest forests of the country and merely "skimmed the cream," taking only choice parts of the trees, and waiving the remainder. Scarcity has now called a halt, and made it necessary to put the whole tree to its best use.

Laboratories Established.

The forest service early realized the need of turning to account what was thrown away, and it began investigations with that end in view. Because of lack of facilities in Washington, laboratories were established in other cities, the location of which seemed to be most advantageous for the particular study concerned. The first of these was at New Haven, Conn., in the old chemical laboratory of the Sheffield Scientific school of Yale university. Experimental and analytical work was carried on; such as the analyzing of preserved timbers, the determination of the quantity of tanning material and cellulose in various woods and bark, experiments to discover the quantity of material leached out by allowing logs to stand in water for varying periods, and studies to establish standards and values of commercial creosotes.

Work progressed even with a limited force, and shortly a laboratory was established in Boston to investigate the value for pulp purposes of various abundant woods, and to save the valuable spruce and poplar forests for lumber. The results of this work were most encouraging. A number of wood fibres were shown to be valuable raw material for paper. Some of these were, so far as strength and various other qualities are concerned, better for certain purposes than spruce.

The wood distillation industry was also given careful study with most satisfactory results. An expert made an extended tour of investigation through the south, and furnished an exhaustive report on the condition of the industry of that section. Later experimental studies resulted in a method of chemical examination which not only demonstrates the relative value of turpentine obtained from the pine tree by various methods, but also shows that it is possible by steam distillation processes to obtain from refuse southern pine a grade of turpentine equal for all practical purposes to gum spirits, which is the product obtained by scarifying the trunks of living trees. Circulars setting forth the results in detail are now in preparation by the forest service.

The investigations of the government to discover uses for waste material were from the first carried on under something of a disadvantage because of laboratories being in different cities. Consolidation of forces and close co-operation were almost impossible. This was remedied last July by the transfer of headquarters to Washington. A building suited to the special requirements of the work was erected, in which the apparatus previously used elsewhere has been installed. Here the field of inquiry will be extended to cover additional phases of the waste problem as it affects the timber supply.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

THAT BOY NEXT DOOR

JAM

PAINTER

The mind of a small boy is incomprehensible. You can't place his thoughts. It is distinctly thus with That Boy Next Door.

His ma took advantage of the high prices of fresh fruit to put up several quarts of plum preserves. They came to 40 cents a quart, which is a great saving, if you can figure it out.

That Boy Next Door of course had several good chances to oop himself out a quart or two during the day, when the stuff was setting round unprotected, but he withstood the temptations. Indeed he would have been welcome to a dishful of it. But no, he did not care for it under those terms. It was altogether too easy.

This probably accounts for what followed. At dead of night the family was awakened by a noise from the direction of the pantry, and the boy's father got up to investigate.

There was That Boy Next Door, fitted out in a home-made mask, trying the burglar game. He was prying away at the pantry door like a professional.

How true the saying that "stolen sweets are sweeter."

"STATEHOOD FOR NEW MEXICO"

It's Time to Keno

The Great American desert is right up against it. What is going to become of the tarantula, the rattlesnake, the prairie dog, the locust steer, coyote, lobo and the horned-toad?

Where is the shifting sand and the burning sun? What will we do without the picturesque "old water holes beside the trail?"

You can search up what we are coming to! It never happened before in the days of the dime novel and the cowboy loaded down with artillery. Its not like what is pictured in the Apache Kid and Diamond Jack.

How are we going to retain the hallowed glow of western romance over the great American desert when the rain is pattering down on the roof and our streets look like the Erie canal?

How are all those fictitious references to the Great American desert going to be protected when they are growing corn and wheat and oats, potatoes, celery, watermelons, pumpkins, radishes, onions and cauliflower right in the midst of the "shifting sands?"

There is something uncanny about it. How does it come that you've got to drive ten miles to get around the water holes instead of fifty miles to get to them like they use to do in the good old days of the dime novel?

How would it look to have the desperate cowboys make a last stand against the desperate Apaches in Uncle Jake's corn field? Impossible, utterly impossible!

How can you portray Alkali Ike in the unromantic role of stealing a watermelon and how can we get along without the coyotes howling, lonesome and alone under the star-lit sky? It can't be done when a big raw boned farmer from Burlington, Kansas, or some other unromantic spot, gets up and chases the coyote off the scenery with a pitchfork.

How can we perpetrate any more western fiction with the rattlesnake hunting the high places to keep from getting drowned—with Zeb Smith's chickens eating all the horned toads on the Joradano del Muerto and Fido chasing the prairie dogs so far under ground they never come up?

How can the stage coach dash over the rolling plains again when St. Feller has built a barbed wire fence plum across the old stage road and is shaking corn on the other side?

How is the wary red man going to steal up on the shanty of the lone prospector when he is surrounded by a smelter, six grocery stores, a saloon, depot and a half hundred box cars?

How is the boulder going to be rolled upon the track to stop the midnight express when there are two hundred and fifty section men at work between Albuquerque and Las Vegas with a half dozen trains a day and then some?

How can a cowboy rope the wild cattle of the plains when Sallie Jones is calmly milking a loving kine right straight in his path?

The romance of the southwest is no more. The dime novel has a crimp in it no enthusiastic imagination can restore.

What's the use of packing around a picturesque six-shooter when it costs you fifty dollars if the constable happens to see it?

How can you run a cow camp when the old man is hauling wheat in the grub wagon. Johnnie brings home the cows and the ranch hands are all bailing alfalfa?

So give us statehood. We might as well settle down to the humdrum existence of the simple life. What's the use of bucking against the inevitable. Let the farmer come on. He is busting all our cherished institutions of the dime novel days of fifty years ago. He is plowing and planting upon the Diamond Dick land of long ago and raising crops we use to get from Illinois. The cackle of the Plymouth Rock hen has put the Apache war whoop out of business and the bucking bronco is calmly drawing the business end of a harrow.

The old days are no more and while we drop a tear of sadness at our shattered dreams, let us lift up our voice and meekly say:

Here's our gun—open your statehood door and let us in, then turn the lock and throw the key away."

Statehood for ours.

Education

Some parents grieve because their children do not get on rapidly in their school work. In most cases the parent is wrong.

The old idea of pushing children in their school studies is no longer held by the best educators.

Most teachers hold with President G. Stanley Hall, who says "today children need retarding in their development more than they need pushing forward."

The utterance of such a sentiment would have been accounted heresy a few years ago.

President Hall says: "Precocity is the great danger now. Our children rush ahead and become adults before they should. The best way to broaden is to retard—to delay, to allow children to linger in their paradise and get the full benefit of the rich and manifold benefits of heredity."

This age is a faster one than that in which the child's parents were reared. There is danger lest the child learn too much, mature too rapidly.

Above all it must be remembered that education is a growth. Growth requires time. Education is development. Development comes by slow processes.

It is little less than a crime to cheat a child out of its childhood. And a child may be pushed out of the paradise it deserves to occupy by cramming it with information it cannot digest, by trying to force a culture that comes only with years.

The very first thing to be looked after in the education of the child is its physical health. First of all, make it a good, strong animal. You can't get mental power without physical power. Build up a good body. The strain of after years will test it to the utmost. There's danger in forcing the child mind. You are likely not only to stunt the body, but also to blunt the faculties and even lower the moral strength of the child.

After good health, education consists in making a good working organ of the brain. A good brain, like a good body, must be slowly matured. It is built up by processes that require time. Mushrooms may be quickly grown, but not brains. Hothouse methods will not produce gray matter. Do not try to force your child's education. Give the child time.

There is talk of changing the wedding ring from the third to the little finger. A Kansas editor, however, comes boldly to the front with the statement that the proper place for it is in the nose of the man who gets married. It is probable that he would also attach a string to it and give the woman the other end.

Evelyn Thaw won't tell "her story" next time. If she had observed the same forbearance the first time, it would have added greatly to the public morality and Thaw—well, it couldn't have hurt him anyhow.

The Kansas City Star thinks that the reason Taft gets into so many accidents is that he succeeds in getting in front of more things than a man of ordinary build.

Chicago women are giving a charity bazaar and will pose as famous paintings. Some of them will not have to do much posing in the painting line.

Secretary Taft will recommend an appropriation for the construction of a fleet of war balloons. What high flyers these army officers are getting to be.

Straws show which way the wind blows particularly when there are dozens of loads of alfalfa blowing down Central avenue every day in the week.

The negro bootblack just can't help brushing off your coat in rag time, but its rather hard on the white broom.

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

YOU CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

ABOUT TOWN

Deeds Filed for Record.
Oct. 30.—Ida M. Motley et al. vir to A. E. Robinson, a piece of land near Old Albuquerque, previous No. 12.
Lella A. Brown to A. J. Maloy lot No. 3, block 2, "Brown Place."
Oct. 31.—Della Georges and husband to Allen E. Nye and wife lots 21 and 22, Block K, Atlantic and Pacific addition.

Patrick McKaffery, who has just returned from Magdalena, says there are 25,000 sheep waiting at that place for shipment. Charles Chadwick, of the commission firm here, left last night for that point to secure transportation for the firm's purchases as quickly as possible.

The first meeting of the committee making preliminary arrangements for the irrigation congress, the membership of which was completed yesterday will be held this evening at half past seven o'clock over Zeigler's cafe and the first steps will thus be taken in preparation for the congress.

A special meeting of the county missioners for the purpose of filling the vacancies yesterday appointed Dr. W. G. Hope, Louis Held, Atamcoi Montoya, Rev. J. H. Heald, Eugenio Barcia, William Menaul, Andres Romero, John Mann and Joseph Metzinger as the special committee.

Colonel R. E. Twitchell, of Las Vegas, will be present at the meeting this evening and will outline the measures necessary to be taken by the committee for the reception and entertainment of the congress proper, the colonel being familiar with the preparations made in Sacramento for a like occasion this year.

The body of W. R. Brown, who died October 25th at Jemsa Springs at the age of 60 years, was brought to this city last night and tonight will be shipped to Illinois for burial, accompanied by a daughter, Miss Sadie Brown. The deceased was a Mason and an old soldier. Another daughter, Mrs. Jennie Doyle, resides in this city at 216 South Armo street.

G. K. Warren Post No. 5, G. A. R., will hold an open session at Odd Fellows hall Saturday night, beginning at 7:30 o'clock. Luncheon will be served. All old soldiers and soldiers' wives are invited; also members of the relief corps and G. A. R. circle. A short business session at 1 o'clock, for nomination of officers, will precede the open session. H. W. Turner, adjutant.

Pope Pius X has granted a special dispensation making All Saints day an occasion for feasting this year instead of fasting. The reason for this is that All Saints' day falls on Friday, the day of the olden times when Christ, then a fast day, was made a feast day, if it came on Friday. All Saints' day is a day of obligation among Catholics and special services will be held at all the churches of the denomination.

Mail weighing which began on the first of the present month came to a close last night, much to the relief of the postal employees not only on the trains, but in the local office. The work is undertaken yearly for the purpose of finding out how much mail is being carried on the cars and the number of letters handled in each postoffice, also the number of stamps used. A special weighing which began in June will terminate with the close of the year.

A flock of 6,000 lambs purchased by E. L. Garcia and Louis Frauer from A. B. Fall, of Lincoln county, arrived at the stock yards yesterday and they will be shipped to the Colorado feed lots of J. Putnam as soon as cars can be provided for their transportation. Messrs. Garcia and Frauer also have on the way 2,000 more lambs, which they purchased from Richard Wetherill, of Two Gray Hills, San Juan county, last week and for which Colorado sheep buyers are now bidding.

The promised telephone line to Esplanada and the valley points will be completed by July 1, 1908, so says Manager E. M. Burgess of the Colorado Telephone company, who is now in Albuquerque accompanied by his wife and district manager A. B. Graham. The party intends soon to leave for the valley over the automobile line for the purpose of making an investigation of the route. The new line will open telephone communication for the citizens of the new settlement as far east as Hutchinson, Kansas, and on the south to El Paso, Texas.

THE CUB'S CORNER

Strenuous Life for United States Marshals.

United States Marshal C. M. Foraker and his seven deputies are acquiring a thorough understanding of the strenuous life these days. The increase in population in New Mexico during the past year and the federal investigations being carried on by special agents of the department of justice in the west and southwest have increased the duties of the marshal's office to such an extent that although two additional deputies have been appointed during the last few months, the work continues to tax the force to its full capacity.

Marshal Foraker and Chief Deputy Forbes are at present attending United States court at Roswell; Deputy Cooper left yesterday for Santa Rosa to make some important arrests. Deputy James Smith left early in the week for Farmington, and Deputy Newcomer is attending the special session of the grand jury at Santa Fe. Deputy Hogg expects to leave in a few days and the other deputies stationed at Roswell and Santa Fe are kept busy with special service.

Uncle Sam a Liberal Spender. Those contemplating committing a misdemeanor these days would do well to give the matter a few more thoughts. The proverbial second thought if a United States statute looms up in the way—for Uncle Sam is sparing no expense in prosecuting violators of the federal statutes. One of Mr. Foraker's deputies recently made an overland trip of over three hundred miles into the wilds of the Black range in Socorro county to summon a witness, and whether it costs fifty dollars or five hundred, the government's attorneys and special agents are given carte blanche in summoning witnesses whose testimony may have some value before a jury.

DOGS ROB SLUMBERS

"I wish the city authorities would detail the dog catcher to camp up in our neighborhood one of these nights," said an irate resident of South Broadway this morning. "The crop of dogs is getting so large up there that they simply make the nights hideous with their impromptu concerts. Two families in my block own, between them, five dogs, seven cats, a goat and a parrot, not to mention a horse that kicks the barn door open about once a week. Not a short business session at 1 o'clock, for nomination of officers, will precede the open session. H. W. Turner, adjutant.

Soldiers Known Here. Troops I and K of the Fifth cavalry, which were in the fight with the Indians, were in this city during the territorial fair and many of them have personal friends here. Captain Willard, who was in command of the party, was also in Albuquerque during the fair.

CLIFFORD PINCHOT ON DAYS VISIT TO ALBUQUERQUE

(Continued From Page One.)

made and the work already done has practically convinced the nation that the policy of the forest service is not only right, but imperative to accomplish the end desired.

"At present there are about one hundred and fifty national forest reserves in the United States, and all of these are west of the Mississippi river with one or two insignificant exceptions. Fifteen hundred men, officials and rangers, are employed in the service and there is manifested in this entire force an enthusiasm unusual in any department of the government service. The requirements for positions in the forest are rigid and only men of exceptional ability in peculiar lines can hope to advance in the department. Certain positions demand that the employee have a technical education and to provide this number of colleges have courses which especially fit a young man for the profession of forestry. No department of the government demands so much of its employees as does the forest service. Advancement purely upon the merits of the individual. It was necessary to set a high standard for employees in this department for the work is such that the success of the forest service policy depends almost entirely upon the efficiency with which the individual ranger or guard enforces the regulations.

Service Socks Co-operation.
"The forest service is co-operating with stock raisers, mining men and other private individuals in the work of building drift fences for cattle, trails, roads, telephone lines, reservoirs, etc., and is in every way endeavoring to assist in making the forest reserves fit for use to the best advantage," resumed Mr. Pinchot.
"We need more men in the forest service and these we hope to get as soon as possible, as soon as greater provisions are made for us by congress. This year we have an appropriation of \$500,000 for the purpose of making improvements on the various reserves, but this amount is far below our needs and we hope for a greater appropriation next year. In co-operating with private individuals in making improvements such as putting up fences, building reservoirs and other things, we usually provide the materials, or a part of the materials, while the others furnish the labor.

Aims of the Service.
"On the part of sheep and cattle-men in the last two years there has been very little opposition to our work and a marked decrease in what opposition there was. In general stockmen favor the policy of the forest service. It is our aim to make the national forests useful not only to the community in which they are situated, but also to serve the greater purpose of conserving the natural resources of the country for the general welfare of the country at large."

HEAVY RAIN IN ESTANCIA VALLEY

Word reaches Albuquerque today to the effect that heavy rains have been falling at all points in the Estancia valley, intermittently during the past few days. On October 28th the man with the good eye, on the lookout for the unusual is said to have described in the northeastern portion of the valley a water-pout which lasted from ten to twenty minutes before it swung back into the clouds and he says it was a twister from way back.

Two gentlemen hailing from Oklahoma and Texas and accustomed to close personal acquaintance with phenomena of this character were also witnesses of the disturbance but up to date no casualty returns have been received from places in the path of the storm.

MERCHANTS ENGAGE IN LIVELY TUSSLE

First Street Man Objected to
Being Dunned By Central
Avenue Man.

J. W. Masters, charged with disorderly conduct, was fined \$10 by Police Judge Craig at 5 o'clock last evening.
The complaining witness in the case was Emanuel Maharam, the merchant at 516 West Central avenue. Yesterday afternoon Maharam saw Masters enter the house where he lived at the corner of Fourth street and Central avenue and he approached him and made some remark in regard to Masters' making a payment on a suit of clothes which he had purchased some time ago. It seems that Masters resented the manner in which he was reminded of his obligation and laid hands upon Maharam and forcibly shoved him away. Considerable excitement was caused in the neighborhood by the scuffle, but no special damage resulted from the quarrel.
Masters conducts a second hand store on First street.

20 DOLLAR GOLD PIECE SENDS MAN TO JAIL

Robert Suris, charged with stealing about \$25 from the person of A. Stetson, was arraigned before Justice of the Peace George Craig yesterday afternoon and bound over to the grand jury under \$150 bond.
Stetson and Suris were out drinking together Tuesday morning. It is said, and both became intoxicated. When Stetson became sober he found that a twenty dollar gold piece and other money was missing and he charged his companion with stealing it. A twenty dollar gold piece was found on Suris, but was not identified as the missing money. Suris was committed to the county jail.

BOYS ARRESTED FOR STEALING PIGEONS

Two small boys were arrested yesterday for stealing eight pigeons from a coop owned by Charles Thorn, who lives east of the Southwestern Brewery. The young culprits were arraigned before Justice of the Peace George Craig this morning at 11 o'clock and both pleaded guilty to the charge.
The court administered a severe reprimand to the boys and then sentenced one of them to serve ten days in the county jail. The other was sentenced to pay a fine of \$5 and costs, but in his case the sentence was suspended during good behavior. The boy who was sent to jail has been guilty of thefts on previous occasions. Last Tuesday night the boys cut the wire netting of the pigeon house and thus gained an entrance.

BASKET BALL PLAYERS ARE PRACTICING

Minors and "The Kids" Will Have
a Game in the Near
Future.

There is at present revival of interest in basket ball among the youth of the city and a team composed, for the most part, of last year's high school students, and popularly known as the "Kids" is practicing daily. A series of contests is being planned. The first game will probably be played with a rival team called the "Minors." Basket ball is a splendid game, especially for winter, and many of the boys grown up are regarding with interest the enthusiasm manifested by the "Kids" and the "Minors." The teams are now trying out a number of players and in a few days will have decided upon the personnel of the teams which shall take part in the contests.

CREDITORS ARE LOOKING FOR MRS. TUCKER

Mrs. Tucker the magazine writer, left the city on the 22nd of the month, and the Metropolitan hotel and the Columbia hotel, her creditors, are anxious to obtain her new address.

Mrs. Tucker stopped at the Metropolitan hotel four months and had a suite of two rooms. She left the Metropolitan a short time before her departure from the city and went to the Smoy hotel, where she registered as Mrs. Monroe. At the Columbia hotel she left a board bill. She owed for several months rent at the Metropolitan hotel.

THOMPSON IS FOUND GUILTY ON FIRST COUNT

Took Property That He
Thought Was His But
Was Not.

At 11:15 o'clock this morning the arguments in the case of the Territory vs. Levi R. Thompson and Fred W. Eakes were completed and at 2:45 this afternoon the jury, after a retirement of over two hours, returned its verdict.

Thompson was found guilty as charged in the first count of the indictment and Eakes was discharged. The count on which Thompson was found guilty was that he caused to be taken from the Calhoun ranch north of the city, which was formerly owned by him and afterward sold to Jesse A. Miller, a water trough, one hundred feet of piping, a tub, box and other movable property valued altogether less than \$100. It was claimed by the defense that this property was not sold with the ranch when the transfer of the other property was made and that he had a right to remove it. The verdict of the jury finds him guilty of taking property which he thought was his own and not of larceny as was charged in the second count of the indictment. The prosecution maintained that the removal of the effects was a deliberate larceny. Eakes was acquitted as charged in the first count of the indictment. The agent of Thompson, A. B. McMillen and O. N. Marron were the attorneys for the defendants and District Attorney Clancy conducted the prosecution.

MORA CASE IS CALLED FOR TRIAL

The case of the Territory vs. Manuel Mora, charged with unlawfully branding and larceny of a mare, was called at 3 o'clock this afternoon in the district court. The defendant is alleged to have stolen the mare on June 10, 1907, from Luis Chavez, of Chihuahua.

Blanca Baca, associated with M. W. Vigil, appear as attorneys for the defendant and District Attorney Clancy is conducting the case for the territory.

LOW PRICED COAL is not necessarily cheap but we have a \$6.50 coal that is worth the money. Call and see it. W. H. Hahn & Co.

GRIFFITHS COMING TO THE ELKS OPERA HOUSE

Engagement Will Continue For a Week - Performances Strange Ones.

The theatre-going public of Albuquerque will be surprised as well as pleased to learn that the Griffiths will open a week's engagement at the Elks' opera house, starting November 4. It will also be of interest to learn that the Griffiths have toured America and Europe, winning the confidence and applause of the theatre-going public in every city and strengthening the feeling of welcome each year.

It has been the aim of the Griffiths to lift hypnotism to a higher plane and that this object has been attained has been shown by the public's universal opinion. Mr. Griffith does a wonderful blindfold drive. He will appear at the front of the opera house with a team of four dashing horses hitched to an open cab, selecting a committee of newspaper reporters and medical men, who will drive the team a devious course of twenty or thirty blocks about the city and at the conclusion will hide a pin. While this is being carried out Mr. Griffith will be in the hands of a second committee whose duty it will be to so securely guard him that he will obtain no knowledge of where the team has been driven, or where the pin has been hidden. After the first committee has covered the course track for track, and find the hidden pin.

Mr. Griffith has the distinction of being the only mind reader doing this feat with four horses and without contact.

Despite the incongruity of title, there is not a better show underlined this season than the Griffiths will give. This combination while one of the oldest in title, is one of the very newest. They have long since become aware of the fact that the theatre-going public go to be interested and amused rather than to be mystified and horrified, and that the low comedian is a thing of the past, and have in its place a series of high class specialty people who know just what to do and when to do it. Their advent in this city will be one of the theatrical events of the season, notwithstanding the fact that they are playing a lengthy engagement.

Elks' Theater

The Griffith Hypnotic Comedy Company

BIG FIRE SHOW STRANDED IN EL PASO

Apparatus Is Abandoned and Firemen Return to Homes in Denver.

El Paso did not prove a very good field for the "Fighting the Flames" and the company is stranded, according to the El Paso Herald. The apparatus has been left in the Pass City and the firemen have returned to their homes in Denver.

Regarding the failure of the production to make good, the Herald says: "Poor business in Albuquerque, followed by the same conditions in El Paso, has resulted in stranding the 'Fighting the Flames' company in this city, and the apparatus will be left here until next spring, while effort is being made by the members of the company to get back to Denver."

"According to members of the El Paso fire department, which sponsored the show, Chief Roberts of the visiting troupe telegraphed last night to the company last night, telling them to take the twenty-one people from El Paso to Denver."

"Bills were guaranteed by President Badger of the local department and to save the expense of moving the equipment, it will be left here."

"Gate receipts during the four nights' show, it is said, were not sufficient to pay for the board of the firemen and the keep of the horses. Members of the company last night before the first exhibition were bemoaning their fate, and some expressed the intention of remaining and trying to get something to do, while others said they were going to shake the dust as soon as they could."

"This is a good snow town, I guess," remarked the Irish policeman. "They can talk about Pawnee Bill and other shows taking money out of here by the thousands, but I'll bet they didn't do it."

"With coat collars turned up and hands in their pockets unpaid firemen with the aggregation rapped back at forth in front of the station house to keep warm as the wind last night was chilling. Far from home and without money was discouraging to the firemen, but others took a more cheerful view of the situation, believing they would all get back home without walking."

"T. J. Holland, chief of the El Paso fire department, who with President Badger, has a claim against the company, said this afternoon that he thought everything would be straightened up within a few days, and that when money is received from the backers of the show all accounts will be settled."

Baritone. To check a cold quickly, get from your drugstore some little Candy Cold Tablets called Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly certain and prompt. Preventives contain no Quinine, no laxative, nothing harsh nor sickening. Taken at the "onset stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventives. Good for feverish children. 48 Preventives 25 cents. Trial boxes 5 cents. Sold by all druggists.

If you take DeWitt's Kidney and Bladder Pills you will get prompt relief from backache, weak kidneys, inflammation of the bladder and urinary troubles. A week's treatment for 25 cents. Sold by J. H. O'Reilly.

HUNTER TAKES \$225 DOWN IN BOUNTIES

Eight Lobos and Thirteen Wildcats Result of Three Weeks' Hunt.

A hunting record has been established in Arizona by one Frank Cole. He arrived in Tucson Tuesday afternoon of this week with the scalps of eight lobos and thirteen wildcats, for which he claimed \$225 bounty. The animals were killed in the Catalina mountains during a three weeks' hunt and were caught in traps. He says that hunting in Arizona is the best for several years. Arizona pays a bounty of \$20 for lobos and \$5 a head for wildcats.

DINNER AND DUTCH LUNCH. The Ladies' Aid society of the Presbyterian church will give a dinner at noon, and a dutch lunch in the evening, from 5 to 8 o'clock, Friday, Nov. 22, in the parlors of the Presbyterian church. Everybody invited.

Out of Sight, out of mind. It is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by all dealers. 50c.

For upholstery see Charles L. Keppeler, 317-19 South Second.

A Quick and Safe Remedy for Bowel Complaints.

A Criminal Attack. on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c at all dealers.

ALBUQUERQUEANS GO TO MEETING AT LAS VEGAS

The first annual convention of the Christian churches of New Mexico convened at Las Vegas this evening and it is expected that delegates from each of the forty Christian churches of the territory will be present at the assembly. A three days' session will be held and an interesting program has been provided. E. A. Child, pastor of the Albuquerque Christian church, will speak at the Saturday morning session on the subject of "Our Obligation to the Mexicans," and at the Saturday afternoon session Mrs. E. A. Child will speak on the "Christian Woman's Board of Missions." Mr. and Mrs. J. H. Wear, of this city will also attend the convention. The convention will be concluded Sunday.

GETTING READY FOR IRRIGATION CONGRESS

The committee of twenty-one, appointed seven each from the Commercial club, by the county commissioners and the city council, to make arrangements for the national irrigation congress, which meets here next fall, will hold its initial meeting this evening over Zeigler's Cafe. It is very important that every member be present at this meeting as it is time the arrangements were well under way.

PERSONAL PARAGRAPHS

Col. R. E. Twitchell, of Las Vegas, arrived in Albuquerque this morning. Mrs. C. H. Carns, wife of Dr. Carns, oculist of this city, is visiting friends and relatives in Tescott, Kan.

Ralph Jacobs, charged with vagrancy, was sent to jail for fifteen days by Police Judge Craig this morning.

W. D. Green, Immigration Inspector, returned this morning from Santa Rosa, where he has been on official business.

Regular meeting of the ladies of the G. A. R. tomorrow afternoon at the home of Mrs. T. Matthews, 121 South Arno street.

There will be a regular meeting of Adah Chapter No. 5, O. E. S., this evening. By order of Worthy Master, Laura Flake, secretary.

A. E. Gooney, associated with J. C. Miller, the well known sheep raiser of Soda Springs, Idaho, arrived here last night from Estancia, where he has been on business.

C. H. Kinderer, of the Sacramento national forest, is in the city today. Having come here to meet Gifford Pinchot, chief of the forest service.

John Kerr, supervisor of the Magdalena national forest, arrived in the city this morning to confer with the chief of the forest service, who is here for the day.

IRRIGATION CONGRESS WILL BRING US \$100,000

A Vote of Thanks is Due Colonel Twitchell For The Coup.

The first run for greater Albuquerque was really fired last month at Sacramento, Calif., when Col. R. E. Twitchell succeeded in having this city named as the next meeting place of the National Irrigation congress. It means that Albuquerque will be put on every railroad map in the country, in big red letters and from eight to ten thousand people will visit the city at that time and result immediately afterwards in the greatest demand for unimproved city lots we have ever experienced. Now is the time to buy a few.

Two years ago outside residence lots sold at from \$150 to \$175 a lot. Now the same lots are reselling at from \$300 to \$500 a lot. There is no safer speculation or savings proposition than an investment in a few building lots here at the bargain prices we will offer for a short time.

While another big proposition is maturing, we have decided to clean up a few choice odds and ends at sure enough bargain prices, and which will enable every one who has a little money saved up to make a very profitable and safe investment by selecting something from the following list:

Terms—Half cash, balance within a year or discount of 5 per cent for all cash. Five to 20 acre tracts of splendid garden, truck or orchard lands, under good ditching, not over mile and a half from city, only \$250 to \$600 per acre. Similar land elsewhere in the territory is selling at from \$125 to \$225 per acre.

Twenty-two choice 50-foot lots in University Heights from \$35 to \$100 each.

Sixteen choice 50-foot lots in Eastern Addition from \$150 to \$200 each.

Eleven choice "close in" lots in Perea Addition from \$150 to \$250 each.

Six choice "close in" lots in Grant Tract from \$150 to \$200 each.

Seven choice residence lots in Honeymoon Row, Central avenue, from \$150 to \$250 each.

Three lots in Duran & Alexander Addition from \$100 to \$150 each.

Four semi-business lots on First street, from \$400 to \$500 each.

Seven business lots on Copper avenue including corner \$500 up.

One extra choice business lot on Central avenue \$1,000.

Looking Prosperous

YOU'LL look like prosperity if we can get you to wear our Hart, Shaffner & Marx clothes; such clothes increase your business value to yourself and associates.

They increase your self-respect, too; you'll find that the knowledge that you're wearing all wool, when your friends are wearing part cotton, will be worth something to you.

If we get these clothes on you we'll be doing you a favor.

\$20.00 to \$28.00

Plumbers 321-323 W. Central Avenue General Hardware

The MAJESTIC RANGE is the product of the world's achievements in stoves. All the best features of all other makes have been incorporated in this one, and objectional features eliminated. As a result, the MAJESTIC probably stands nearer the line of perfection than any other range. It saves your fuel and your time and produces heat when you want it, where you want it, and in quantity as desired, all at a minimum of attention. If you have never used the MAJESTIC, you have never used the best.

Tomatoes

We have a 50-case lot of solid pack eastern tomatoes, bought at a bargain. These 20c table tomatoes we will close out at THREE CANS FOR 50c.
