## JOHN McCafferty HAS RETURNED FROM CANAL ZONE

Big Ditch Will Not be Completed for Several Years to Come

## 23,000 LABORERS ARE WORKING ON JOB

A Country of Great Possibilities Skilled Labor Receives Good Pay—Land to be Had for 25c an Acre—Prospects for Gold.

After a journey around the world and an absence of twenty-three years, John M. McCafferty, writer, mining engineer and one of the most fluent and interesting talkers to be met anywhere, has returned to Albuquerque to recuperate a constitution badly run down by a prolonged stay in the canal zone.

Was in Albuquerque in 1882. 69 years of age, though he does not look more than 50; he started in his career as a reporter on the New York Tribune under Horace Greeley, but soon was convinced that newspaper work was not exactly suited to his tastes wherefore he studied mining engineering and has pursued that calling ever since. In 1872 Mr. McCafferty first came to the southwest and at that time he had several thrilling encounters with the Indians in the course of his prospecting excursions. In 1882 he came to Albuquerque for a short while and became interested enough in the city at that time to buy a lot on Gold avenue, there being a small boom in Albuquerque real estate then. As he soon left the city and neglected to keep up the payment of his taxes, the lot was probably sold for taxes years ago. This is the first visit of Mr. McCafferty since 1882, and he was greatly surprised to see what a fine city the pioneer town he knew had developed into.

There are 32,000 laborers at work on the Isthmian canal at the present time, said Mr. McCafferty, and fully 20,000 of these are Jamaican negroes, Americans, Italians, and Spaniards from Cuba make up the bulk of the remainder. The Jamaicans are paid but ten cents an hour for their labor and the labor is scarcely worth that small amount. Yet though he does not earn any more than he receives, the poor negro suffers many hardships and can barely subsist upon that starvation rate of wage. Previous to the establishment of the government mess houses a few months ago it was a frequent occurrence for negroes to die as the result of lack of sufficient nourishment. Now these laborers can get meat and vegetables at the government mess houses and were it not for the rotten meat and inferior canned goods supplied by the government contractors, their condition would not be so bad. A better grade of mess houses are provided for those who can afford to pay more. The American, Italian and Spanish laborers receive about three times as much wages as the Jamaican negroes. I believe it would pay the government to import all American laborers to do the canal work and pay them high wages. The work would be accomplished much faster, better and cheaper.

Jamaica Negro Poor Labor. "One white man can do five times as much as a Jamaican negro and one northern negro would do at least three times as much. In my opinion the rate at which the work is now being done on the canal it will cost between five and seven hundred million dollars before the canal is completed.

Good Wages for Skilled Labor. "Skilled labor commands high prices in the canal zone and if the mechanics had the right ideas about economy and proper living they could lay up a snug fortune for themselves. Mechanics earn as high as \$300 a month. Clerks and stenographers receive as high as \$150 a month and their living quarters are provided free. Excellent meals in the government eating houses can be had for 30 cents a meal. The sale of bad whiskey is responsible for two-thirds of the sickness among the laborers according to the sanitary commissioner in charge. While the government has prohibited the gambling in the zone it allows the whiskey shops to run full blast for the sake of the big revenue gained thereby.

Mosquitoes Scarce. "The efforts of the sanitary commission to make the canal zone a healthful place to live in have been miraculously successful. There are scarcely a mosquito there now and malaria and yellow fever are almost unheard of. In the last year and a half since the men have begun bringing their families to live with them in the zone, there has not been a single death of a woman or child from any tropical disease. Indeed the climate of the Panama region is healthful if the ordinary sanitary precautions are taken. The nights are always cool and the highest temperature in the day time is about 85. The average day temperature the year around is about 75.

Soil Most Productive. "The regions in the neighborhood of the canal are capable of producing all manner of farm produce if they were opened to settlement by the government. In the native markets the prices of food are outrageously high. Cabbages sell at a dollar a head, meat of any kind at 40 cents a pound, rice 20 cents a pound and other commodities in proportion.

(Continued on Page Three.)

## AMERICAN MISSIONARIES RESTORED BY CHINESE

Scandinavians Allege That Native Women Were Forced to Become Christians.

## THEN KEPT FOR IMMORAL PURPOSES

American Ambassador is Appealed to—Magistrate of District of Nantow, Where Uprising Occured. Finally Succeeded in Restoring Order.

Hong Kong, China Nov. 2.—Scandinavians mission in district Nantow has been attacked by anti-foreign element of population. Misses Wendell and Erickson, two missionaries, were stoned by the Chinese, who alleged that native women were forced to become Christians and were kept for immoral purposes. The lord magistrate finally succeeded in restoring order.

BANKS ISSUE WEEKLY STATEMENT New York, Nov. 2.—The statement of clearing house banks for the week shows that they hold \$38,838,825 less than the requirement of the 25 per cent reserve rule. This is a decrease in the cash reserve surplus of \$37,605,525, compared with last week's statement.

TWO NEGROES HANGED IN MOBILE, ALABAMA. Mobile, Ala., Nov. 2.—Abe Sumrell and Hank Lucas, two negroes, were lynched near here early today by being hanged to a telegraph pole. Sumrell killed a young Cuban, who tried to arrest him for burglary and Lucas gave him protection against the officers.

## SENSATIONAL SHOOTING AT GLOBE, ARIZ.

Globe, Ariz., Nov. 2.—As the result of the shooting array which took place here on Thursday between Patrolman Oscar Felton and Jack Nelson, a laboring man of this city, the latter now is in a serious condition in the county hospital, and the former is nursing a painful but not dangerous wound in the fleshy portion of his right leg. The shooting followed a stormy scene in the Acme saloon, where the two men met by accident and during which Nelson charged Felton with being responsible for his detention in jail at a time when he could have been released had Felton used his influence in that direction. Felton, however, denies this and claims that Nelson's grievance is purely imaginative. When the patrolman entered the saloon Nelson immediately bombarded him with a volley of abusive epithets, carrying the annoyance to such an extent that the officer finally left the place in order to save further trouble. Nelson followed him some distance and when the two reached a dark portion of North street, he drew a pistol and fired at Felton. In self defense the officer returned the fire and before the affair was over he shot Nelson twice in the right breast once in the left shoulder and once in the abdomen. It is believed that Nelson will die as a result of his injuries.

## SECRETARY TAFT IS BEING TOASTED BY WAR VETERANS

Fillipino Assembly Discussing Bill to Open Chinese Immigration.

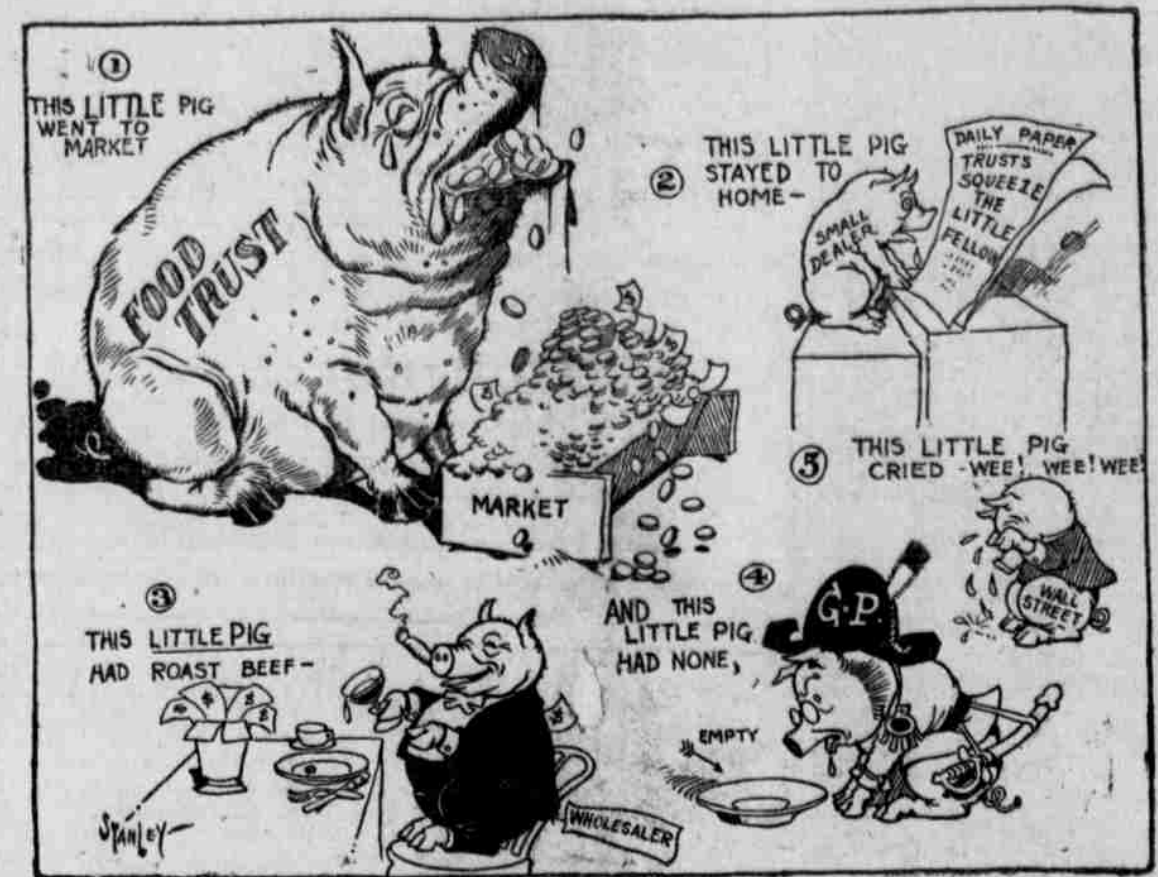

Manila, P. I., Nov. 2.—Secretary Taft is being entertained by veterans of the late war. The program of social engagements will continue through all of next week. The assembly is discussing a bill for the removal of restrictions on Chinese immigration. The radicals favor the bill on the ground that the immigration tax will relieve the business of the people.

Machines to Sell Stamps. Ottawa, Ont., Nov. 2.—The post office authorities have decided to use slot machines for the sale of stamps in certain cities. As it is illegal to sell stamps at certain places on Sunday, such innovation is needed.

## YEAR'S FRUIT CROP BROUGHT \$34,000,000

Los Angeles, Cal., Nov. 2.—Figures on the citrus fruit crop of southern California for the year ending October 31, show that it brought approximately \$34,000,000, of which railroads received eleven millions and the growers the remainder.

## A Nursery Rhyme Illustrated—"Five Little Pigs" Up to Date

## EARLY MORNING FIRE IN BIG CHICAGO HOTEL

Many of the Guests Narrowly Escape From Building Thinly Clad.

## TWO BELL BOYS SAVE MANY LIVES

Chicago, Ill., Nov. 2.—Fire in the Plaza hotel at North avenue and Clark street early today jeopardized the lives of five hundred inmates, and kept the police and firemen busy for several hours rescuing the guests and employees. Several persons were injured in jumping from the second story windows and Arthur Hart, night clerk, two bell boys and Mrs. N. N. Stanger, housekeeper, barely escaped with their lives after warning the guests and assisting them to escape. Over 150 persons were rescued by the police and firemen and some daring rescues were made by the firemen from the windows of the upper stories.

Flames Spread Rapidly. The flames started in the basement and made rapid headway, quickly filling the building with smoke and gas, rendering escape from the upper stories difficult. Several companies from the nearby divisions were on the ground within a few minutes, but the fire had gained such headway that the flow of smoke pouring through the structure impeded the progress of the fire fighters. Police were called to assist in the rescue of the badly frightened inmates of the upper stories who were unable to make their way to safety through the corridors. Many of the guests were taken from their rooms thinly clad, and were hurried to nearby hostelry to escape the biting cold. Considerable confusion resulted from the darkness and suffocating smoke, but all the inmates were finally rescued, and the flames subdued, resulting in a loss of the property estimated at not over \$500. The Plaza is one of the larger hotels in this section of the city, being an eight story structure with a capacity for accommodating 1,200 guests.

## LORDSBURG S. P. SHOPS MAY BE MOVED TO DEMING

Deming, N. M., Nov. 2.—(Special) It is reported here on good authority that the Southern Pacific is to remove its shops now located to Lordsburg to Deming at an early date. Although this report has not been officially approved at Southern Pacific headquarters, and the officials here are unable to make any definite statement regarding the matter it is believed that the company has decided on Deming as a more satisfactory point for the shops and that within a few months the repair work for this division will be done here. The change, if consummated, will bring a large number of desirable residents to Deming and materially add to the town's present rapid growth.

UTES PEACEFUL SAYS CAPTAIN JOHNSON. Omaha, Neb., Nov. 2.—At the army headquarters to day was received the official report of Captain Johnson, who was sent to the Cheyenne river Indian reservation to hold a pow-wow with the Utes. He found the attitude of the Utes very peaceful. Captain Johnson explained about the schools and secured their consent to having children sent to the district schools.

## MERCHANT THOUGHT TO HAVE JUMPED INTO MISSISSIPPI

Was Driven Insane by Suit Against Him For \$100,000.

## DISAPPEARANCE SETS NEW ORLEANS AGOG

New Orleans, La., Nov. 2.—Driven insane by scandals Gustav Lahmann, a wealthy merchant, is believed to have drowned himself in the Mississippi river. Wednesday Lahmann left home in a great agitation following the publication of the fact that a suit for a hundred thousand dollars' damages had been brought against him by his daughter-in-law, charging him with spiriting her husband out of the country. Opposed Son's Marriage. Lahmann had been worried for several weeks over the prospects to the pending suit and business troubles, and it is thought that he brooded over them to such an extent that his mind became unbalanced. The suicide theory is offered because it is reported that he told some of his friends that he felt like killing himself. Gustav Lahmann, Jr., disappeared some time very mysteriously and from the time he disappeared, the woman has declared that her father-in-law, who it is said opposed his son's marriage, was the cause of her husband's disappearance. All the parties concerned are well known in New Orleans and popular in social and financial circles. The disappearance of the two men has been the subject of a great deal of comment.

PRESIDENT SATISFIED WITH SITUATION. Washington, D. C., Nov. 2.—President Roosevelt was in consultation with his cabinet for three hours today. The financial situation was discussed and it was stated that the satisfactory conditions at the present time warranted no new action on the part of the government.

## CHRISTIAN CHURCH IN SESSION AT LAS VEGAS

Las Vegas, N. M., Nov. 2.—The second day's session of the first annual conference of the Christian church of the territory of New Mexico opened this morning with a large attendance. Practically all of the forty churches of this denomination in the territory are represented by delegates and pastors and a number of noted workers from outside the territory are in attendance. The session, which opened yesterday and will last until Sunday, promises to be one of the most interesting and profitable ecclesiastical gatherings held in the territory in recent years. The meetings are being held in the Baptist church and a considerable attendance from other denominations of the city is manifest. Today's program included addresses by Rev. H. B. Tyler, E. A. Child, of Albuquerque, W. E. Garrison, N. B. McDevie, F. F. Grim and talks by Mrs. Emma Woodman, B. S. Gowan and Mrs. E. A. Child, of Albuquerque. This evening the program will be chiefly devoted to an address by J. C. Mason on "Christian Woman's Board of Missions."

## SAN JOSE DEL CABO VISITED BY HEAVY CLOUDBURST

Story Brought to United States by Steamer Curacao Landing at San Francisco.

## FURIOUS WINDSTORM PRECEDED RAIN

San Francisco, Nov. 2.—The reports of a great damage and loss of life at San Jose, del Cabo, Lower California, October 14, caused by a cloudburst, were confirmed by Captain Paulson and the passengers on the steamer Curacao, which arrived here from Mazatlan yesterday. Sixteen persons are said to have been drowned by the torrential downpour and over fifty houses were washed away. Preceding the rain a hurricane blew with great fury for twelve hours. All the small crafts in the harbor were sunk and several persons in the town were caught up by the wind and carried out to sea. The orange and lemon groves in that vicinity were ruined. The inhabitants are practically destitute.

## LONDON TRAINMEN STRIKE IS POSTPONED

London, Nov. 2.—The prospects are that the president of the board of trade, Lloyd-George, may be able to avert a general strike by arranging a compromise. The executive committee of the Aligned Societies of Railway servants has decided to postpone action on yesterday's resolution in favor of a strike until after a conference is held with Lloyd-George, which will take place November 6. Public feeling against a strike is so strong that the men are bound to go slow as long as the companies show any disposition to compromise.

## SHAWNEE BANKER ATTEMPTS SUICIDE

Shawnee, Okla., Nov. 2.—Russell Johnson, an officer of the State National bank of this city, attempted suicide this morning by cutting his throat. Russell's insane action is reported to have been caused by worry over financial conditions. The accounts of the bank are reported to be all right. He cannot live.

## SIX PERSONS KILLED IN GERMANY

Berlin, Germany, Nov. 1.—A mixed freight and passenger train was derailed today near Bingen-on-Rhine. Six persons were killed and fourteen were dangerously injured. The locomotive and the passenger car rolled down a high embankment and several freight cars loaded with stone fell on the passenger car.

## \$75,000,000 PROFITS FROM N. Y. BANKS AND TRUSTS

This Amount Was Distributed Yesterday and Broke All Past Financial Records.

## UNCLE SAM ASSISTS SAN FRANCISCO BANK

United States Gold Engagements Abroad Will Total Thirty-Five Million Dollars—Oklahoma Banks Cautiously Resume Business Again.

New York, Nov. 2.—The banks and trust companies of this city distributed yesterday seventy-five million of dollars, representing stock dividends and interest on bonds. This is the largest distribution of the kind at any time through New York in the history of the country.

FRISCO BANKS RESUME BUSINESS. San Francisco, Nov. 2.—The government has come to the assistance of the San Francisco banks by expediting the shipment of coin to the Pacific coast. The sum is said to be in the neighborhood of ten million dollars and will be transferred from the sub-treasury here to the banks and federal bonds will be deposited for the same for a time in the sub-treasury of New York as security. \$30,000,000 COMING. FROM ABROAD. New York, Nov. 2.—The engagements for gold for importation to the United States necessitated by the recent period of money stringency in this country are approaching the thirty million dollar mark.

OKLAHOMA BANKS RESUME BUSINESS. Oklahoma City, Nov. 2.—The banks of this city opened this morning on a limited payment plan. There was no evidence of a run and the deposits exceeded all withdrawals.

PITTSBURG ADOPTS SCRAP SYSTEM. Pittsburgh, Pa., Nov. 2.—The checking scrip system was decided upon here yesterday and is in general use today by members of the clearing house association. It is believed that business men and employees will accept the plan, which will insure a steady operation of the great industrial establishments of the Pittsburgh district.

FAVORABLE REPORTS COME TO TREASURY DEPARTMENT. Washington, D. C., Nov. 2.—The treasury officials agree that the financial situation is distinctly improved and reports from the financial centers are of a reassuring character. The news of the opening of the banks of Oklahoma was received with satisfaction. There is said to be an abundance of evidence that the fear of more serious conditions is subsiding. The national banks in all parts of the country are arranging to increase their circulation.

## GLOBE WILL HAVE NO MORE ROWDY HOUSES

The City Council Passes Ordinance Making Property Owners Responsible.

Globe, Ariz., Nov. 2.—(Special) The city council here has passed an ordinance which in effect renders the keeping of bawdy houses an impossible thing for the city limits. A fine of from \$5 to \$100 is imposed upon property holders leasing rooms or houses for immoral purposes in addition to which imprisonment for not less than five or more than thirty days may be added. The ordinance is the result of a decision by Judge Nave to the effect that the city has no right either to license or regulate such places.

An ordinance was also passed looking to the formation of a volunteer fire department, the apparatus to be furnished by the city under the provisions of the new enactment. A municipal clearing house was also established by which the city undertakes to receive in payment of taxes clearing house certificates which in return it will pay out in settlement of its own obligations. Provisions regulating the sale of milk and establishing new street grades were adopted at the same session.

## FAVORS IMPROVEMENT OF U. S. WATERWAYS

Congressman Randell of Harbors Committee Asks for Entire Country's Cooperation

## STATEMENT ISSUED ON PROPOSED POLICY

Plan is to Improve Seaboard and Midland Streams Alike—Congressional Committee Will Hold Meeting Next Month.

Lake Providence, La., Nov. 2.—Congressman Joseph E. Randell, president of the National Rivers and Harbors committee, which meets in Washington next month, today gave out the following statement: "Friends of waterways are earnestly urged to co-operate until this great policy is safely inaugurated and water systems of the United States are placed on a parity with those of Holland, Belgium, France and Germany. "The coming convention will impress upon congress the necessity of a broad liberal policy on waterway improvement and the making of a provision for the execution thereof on a comprehensive plan, so that all our waters on seaboard, lake and in the interior, which are really worthy, may be properly improved within the next ten years on a continuous contract method. "If this is done it will result in greatly diminishing the freight congestion and the cheapening of freight rates.

## TWO ARIZONA COWBOYS IN JAIL IN CHICAGO

Were Arrested For Holding People Up. But Knew It Was Wrong.

Chicago, Ill., Nov. 2.—Two cowboys from Arizona, each armed with two revolvers, compelled more than 25 men to line up against a building at Thirty-third and State streets shortly after 10 o'clock yesterday. The cowboys were arrested and were taken to the Stanton avenue police station. They gave the names of John Thompson, 29 years old, and Howard Rymer, 18 years old. The power of the two revolvers that carried the men was great that in 15 minutes 20 men were standing with their backs against a building and their hands reaching for the clouds. The cowboys would have prolonged the "joke" had not Policeman Walsh of the Stanton avenue station interrupted them. Walsh found a long line of men, among whom were several negroes, holding up the building, with Thompson and Rymer dancing about them, each flourishing a loaded revolver. Walsh drew his revolver and commanded the cowboys to walk in front of him. They offered no resistance.

The men who had been forced to stand against the wall, though angered at the actions of the cowboys, left the scene without making any demonstration. The policeman marched Thompson and Rymer to a patrol box at thirty-fourth and State streets, where a wagon was summoned and the cowboys were taken to the Stanton avenue station. They were locked up on charges of carrying concealed weapons. The cowboys told the police that they arrived in Chicago from Arizona shortly after midnight and visited a number of saloons on the South side, where they had numerous drinks. The prisoners exhibited surprise when they were told that it was a violation of the law to carry a revolver. "We didn't mean any harm," Thompson said. "We were out for a little fun and after we had lined one against the wall we kept adding another until we had quite a crowd."

SAFE BLOWERS AT WORK IN EL PASO, TEXAS. El Paso, Texas, Nov. 2.—Demolishing the heavy steel doors of the office safe of the Humphries Photo company here with nitroglycerine Thursday night robbers succeeded in gaining access to the money drawer and making away with \$30 in cash and \$31 in checks. Entrance to the building was gained through the front door, which the thieves forced with a chisel. A pot containing a small quantity of the deadly explosive and several pieces of fuse were found on the floor, indicating that the same had been blown with nitroglycerine. The office was badly wrecked by the explosion, but no papers or other articles of value were disturbed. The police are working on the case but as yet no clue to the identity of the robbers has been secured, and it is thought they left the city shortly after accomplishing the robbery.

## RAILROAD DEPARTMENT

# A NEW STEEL SANTA FE MOVES RAIL MUST BE HAD BIG FUEL OIL TANK

Manufacturers and Railroads Greatest Task of Its Kind  
Realize This and are Ever Attempted By  
Getting Busy Road

The combined efforts of the steel manufacturers and the railroads to find a standard steel rail that will safely bear the weight and incidental strain imposed upon it by the modern locomotive are bearing fruit. The American Railway Association has been investigating the subject to determine whether a more satisfactory rail could be made, and in this the steel manufacturers have co-operated. The railway company which has had the matter in hand reported progress at the semi-annual convention of the association here today. The committee agreed on the advisability of an improvement in rail sections, which would afford a definite distribution of metal between the head and base of the rail and develop a homogeneous condition of metal by cooling simultaneously. This was approved by the association as also were technical suggestions regarding the method of rolling rails.

The association instructed the committee to continue its inquiry on these disputed features of rail-making. C. L. Pock of the Pennsylvania railway, chairman of the committee, stated that the committee had conferred with the American society of civil engineers and had inspected the principal rail making plants in the country. While satisfied that a rail answering all purposes would be found he said that the question of discarding from the ingot the committee had discovered a wide difference of opinion.

**MORIARTY LEAVES THE SANTA FE ROAD.**  
Wichita, Kan., Nov. 2.—It is reported that J. C. Moriarty, city passenger agent for the Santa Fe railway, will leave Wichita and that he has accepted a similar position with another railroad in Kansas City. It is understood that he will go to the Missouri Pacific.

Mr. Moriarty has been connected with the Atchison, Topeka & Santa Fe railway for many years and for nearly three years he has held the position of city passenger agent. Previous to his appointment to the above position he was connected with the local ticket office for more than three years.

A bold attempt to wreck the California limited, the fast train of the Santa Fe road between San Francisco and Chicago, was frustrated early Tuesday by the merest accident, says the San Bernardino Index. An engine crew, while working on the Tehachapi mountains, near Bakersfield, a short time before the limited was due, discovered an obstruction on the track and performed investigation. It proved to be a railroad tie securely held in place over the two rails by heavy spikes, such as are used in railroad construction. Shortly after the tie was removed the wreck train gained a sliding just as the limit came thundering over the track and passed on safely over the spot where certain death would have awaited the crew and passengers had not the discovery been made.

Railroad detectives have been detailed on the case but the absence of clews prevents progress.

Fire in the Santa Fe yards at Bakersfield caused the destruction of between \$20,000 and \$25,000 worth of railroad property, before it had been placed under control several freight cars, three of them loaded with merchandise, a fifty-foot bridge and sections of six tracks were rendered useless. The fire was caused by a spark from the fire pan of a switch engine igniting waste oil which was lying over the bed of the bridge and adjoining track. Traffic was delayed only a little, an emergency track being pressed into use. Division Superintendent Walker has arrived at Bakersfield to make an investigation.

The Santa Fe has received its first consignment of oak ties from Japan for use as test sleepers on various portions of the system. A contract for several thousand of these heavy logs from the island of Nippon was made during the past summer by Santa Fe representatives.

DeWitt's Carbolicized Witch Hazel Salve is good for little burns and big burns, small scratches or bruises and big ones. Sold by J. H. O'Reilly.

San Bernardino, Cal., Nov. 2.—The largest moving job ever undertaken in this city is now under way in the Santa Fe yards.

It is the immense fuel oil tank which has stood at the west end of the shop yards for several years, which is now on its way to its new yards to the north of the new yards and west of Mr. Vernon avenue.

This great tank, which is one of the large type used by railroads anywhere, is 96 feet in diameter, 30 feet high and weighs 300 tons, being built of solid sheet steel. That it is no small task to move successfully such a structure as this is at once evident, the immense weight and danger of collapse being the chief obstacles.

The Santa Fe had some trouble in finding anyone who would tackle the job but finally succeeded in getting a bid from W. A. Basore & Sons, of Pasadena, who are the largest building movers in this part of the state, and who had already done much business for the Santa Fe in this city in shifting small buildings. The cost of moving the tank is not stated, but is said to be not less than \$2,500.

**How It Is Done.**  
The work of getting the tank started on its journey has been under way the past month, the greatest portion of the big job being in lifting it from the ground, ready for travel. It had to be jacked up slowly, great precaution being necessary to prevent its getting out of level, even to the slightest degree, for fear of causing it to collapse.

Great timbers, a foot and more square and nearly a hundred feet long were placed at close intervals crosswise under the tank. These timbers were crossed and recrossed beneath the structure until five tiers were placed, holding the tank firm and steady with no opportunity for sagging at any point. Then a track was built, or rather two tracks and were required to get it to its new location beside the new tank just completed.

When this job is finished Mr. Basore will move the water tank from the present location to the west of the new fuel oil tanks. This, in some ways, will be even more difficult than moving the oil tank. The water tank is 60 feet in height, but has a less diameter than the other. In order to keep it properly balanced it will be necessary to place beneath it long timbers which will project some distance on either side. From the top of the tank will be placed guy wires to keep it in place. The rest of the job will be comparatively easy.

The immense cost of moving these tanks gives something of an idea of the enormous outlay that the railroad is making to complete the extensive improvements which are now under way.

Mr. G. C. Machin, now agent for the Santa Fe at Silver City, will succeed D. A. Creamer here. Mr. Machin will arrive here with his family next week.

## HUNTER MAY DIE FROM ACCIDENT

Trinidad, Colo., Nov. 2.—John Sherman, the boy shot while hunting on Wednesday afternoon, has a fighting chance. The shot entered the side and made a very dangerous wound.

Sherman and two other young men were riding in a buggy near the city limits. A rabbit jumped up and all three jumped out to shoot it. Sherman was pulling his gun from the buggy when the hammer caught and then loosened, discharging it.

## PERSONAL Paragraphs

D. J. Reardon came in last night from Thoreau, N. M.  
A. Staab, of Santa Fe, is in the city today on business.  
Dr. George W. Harrison has gone to Denver on business.  
Levi Hughes, of Santa Fe, was an Albuquerque visitor yesterday.  
R. E. Putney has been spending the week in Chicago on business.  
E. H. Bickford, of Lake Valley, is attending to business in Santa Fe.  
L. D. Carrick, the Deming, N. M., sheep man is in town on business.  
District Attorney D. J. Leahy, of Raton, is in Santa Fe on a visit to Governor Curry.

T. I. Colburn and Mrs. Colburn left last evening for their new residence in Guam, N. M.  
Mrs. P. C. McDermott has returned to Englewood Springs from a visit to her old home in the east.  
M. R. Springer, of Old Albuquerque, has a letter awaiting him in the postoffice at Santa Fe.  
W. B. Evans, of Scott, Ohio, has returned from his farming interests there and intends locating here.

C. A. Bottinger, of Albuquerque, is on his way to New York City, whither he has been called on business.  
Mrs. J. B. Rutherford entertained at her home here yesterday, Mrs. E. B. Schenck, of Galena, Kansas.

Professor Merk, of Deming, still carries on his nose the mark of a centipede bite of several weeks ago.  
Joseph Creamer, of Santa Fe, has gone to Roswell to enter the New Mexico Military Institute at that place.

Mrs. Roman Gallegos has returned to her home in San Jose after a few days visit with friends in Las Vegas.

George Eckels, a prominent citizen of Mora, has returned to his home after a business trip to Las Vegas.

Mrs. S. D. Swope, wife of Dr. Swope of Deming, has returned home from an extended visit to her old Kentucky home.

Mrs. Maria A. Sena de Garcia, an old resident of San Miguel county, died yesterday at her home in Las Vegas, aged 83 years.

N. R. Swan has received word that Mrs. Swan, who recently left here for the Pacific coast, is seriously ill with pneumonia in Sequil, Cal.

Gus Becker, the well known cattleman of Springerville, Ariz., spent yesterday in the city. Mr. Becker is a brother of John Becker of Belen.

J. F. Wilson, proprietor of the popular Star dairy at Deming, is able to be out again after a severe illness extending over several months.

Miss Madeline Northrup has returned to her home in Las Vegas after a visit of several weeks at her former home in Richmond Center, Wis.

Territorial Coal Oil Inspector James Duncan has gone to Denver for a brief visit with his family.

Charles Stadley, of the Blanchard Meat Market, is now on his way to New York City. It is possible he may visit his European relatives before returning.

Henry Weinmann, the Philadelphia banker and capitalist, and a brother of J. A. Weinmann of this city, is in town on a visit. He is later, Mr. Weinmann will leave next week on a tour of the world, which he expects will last for one year.

C. L. Baker returned to Deming Wednesday from El Paso, where he accompanied his wife and children, who were leaving for a visit to relatives at Mrs. Baker's old home in Dublin, Texas. They will be gone some three or four weeks and we opine Cal will get so lonesome before they return that he won't do a thing but sail out for Texas.

### HOTEL ARRIVALS.

**Alvarado.**  
W. F. Pierce, Denver; Edward Henry, Chicago; Paul Findlay, Pasadena, Cal.; Cornelius B. Fish and wife, New York; J. V. Hubbard, Golden, Colo.; William Archer, Tepika; H. A. Chamberlain, Topeka; J. W. ## Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local.

Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, breaks local weaknesses and discharges, while the Restorative, enters nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—a general tonic to the system. For positive local help, use as well

## Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.

THE GRAFELD REGULATOR CO., Atlanta, Ga.

# A \$26,000,000 PROJECT FOR NEW MEXICO

C. F. & I. Thought to be Behind Colfax County Operations.

In the northern part of the territory interests, what are thought to be, the Colorado Fuel & Iron company are carrying out one of the most gigantic industrial propositions ever attempted in New Mexico, at an expenditure of \$26,000,000.

The proposition includes the St. Louis railway, known as the Swastika route, the development of thousands of acres of coal lands, the construction of coaling plants and the opening of a large area of timber land, besides giving impetus to the building up of several towns. Raton and Cimarron among them.

The projects which are now being put through by this company in the northern part of New Mexico are almost equal in extent and importance to the business of the Colorado Fuel & Iron company itself and will mean the expenditure of vast sums of money and the opening of a tremendous new section of country.

The work which has been in progress during the past year has been carried on so quietly that it is hardly known outside of the immediate vicinity except by people who have business connections with the new corporation. It is learned on the very best of authority that the Colorado Fuel & Iron company are furnishing the finances for the new project and that the company at the end of ten years may be absorbed by the Colorado corporation. If it should not become an integral part of the Colorado Fuel & Iron company it is stated on the very best of authority that the relations will be friendly by that it will practically be as a partnership between the two concerns.

**Great Enterprise.** The St. Louis, Rocky Mountain & Pacific company was incorporated under the laws of New Mexico two years ago. Since that date it has secured control of nearly 500,000 acres of coal lands, constructed a railroad 106 miles long, built coke ovens and begun development work on a tremendous scale. The company is ostensibly controlled by St. Louis people, but in reality it is owned by other interests and the control is placed in a voting trust which is to last for ten years. It is planned that by the time this trust is dissolved the project will be fully developed and ready to pass into the hands of the real owners. It is at that time that it is expected to become an addition to the Colorado Fuel & Iron company.

The new company owns 191,895 acres of coal lands and coal rights and has the surface necessary for mining in 328,429 acres additional. These properties are located east, west and southwest of Raton, N. M. The company has an estimated tonnage of 350,000,000 tons of high grade bituminous steam and coking coal in 42,700 acres of proven land with a large reserve tonnage in the remaining 447,000 acres.

**Coal Mines.** Coal mines have already been opened at Brilliant, Van Houten and Koehler, which have an output at present of 1,200,000 tons per annum. About two months ago they completed and placed in operation at the towns of Koehler and Gardiner 400 coke ovens of 180,000 tons annual production capacity.

Interests affiliated with the corporation own immense timber properties in what is known as the Maxwell grant and for the development of this industry another railroad is now being constructed from Cimarron to Ponil Park, a distance of twenty-two miles. The name of this road is the Cimarron & Northwestern railway.

The company also owns all of the securities of the St. Louis, Rocky Mountain & Pacific railroad, which is now under construction and has been completed and put in operation for a distance of 106 miles. This road starts at a connection with the Colorado & Southern at Des Moines, N. M., from where it goes west to Raton and then southwest to Koehler, Vermilion and Cimarron and

then up Cimarron canon to Ute park in the Baldy mining district. It is now being extended west to Taos and will reach Farmington and the agricultural district south of Durango. The railroad has secured one of the easiest grades through the Rocky mountains and it is planned that at some future date the road will be extended to the Pacific coast, touching at Los Angeles and terminating at San Diego. It connects with the Colorado & Southern at Des Moines, the Santa Fe at Raton and Preston and the El Paso & Southwestern at Vermilion.

**Mr. Van Houten.** The originator of the company is Mr. Van Houten, who has resided at Raton for a number of years and who was formerly manager of the Maxwell grant. The men behind the company are spoken of in the very highest terms and the reason why the knowledge of the affairs of the company had not been more widely known is because they are not selling any stock. The money is all being furnished by the interests mentioned and there will be no delay in the plans as have already been outlined.

The company is already incorporated for \$11,000,000 capital stock, of which \$1,000,000 is preferred and non-cumulative. The officers and directors are St. Louis people. The financial end of the corporation is controlled by a voting trust which will be dissolved in 1915. This trust is composed of Henry Koehler, Jr., Charles Springer, Frank Springer, Harvey Edward Fleck and S. Stanwood Menken. The company has issued \$15,000,000 worth of bonds which have been placed and the work now under way is being carried on with this money. The railroad is being constructed with gauge with heavy eighty-five pound steel rails. It has been completed where one and a half miles and the extension to Taos is now in progress. The Colorado & Southern, the Santa Fe and the El Paso roads are already big customers of the company and are handling the output of the mines and the coke ovens. It is understood that the plans for this undertaking were begun soon after Rockefeller and Gould secured control of the Colorado Fuel and Iron company in 1902. Owing to the financial conditions of that company it was thought best to finance the new company as a separate project. The corporation was then formed and the control placed in the hands of the voting trust, which up to this time effectually concealed the identity of the real owners.

**Quinsy Sprains and Swellings Cured.** "In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

**SALE BY ASSIGNMENT.** I will sell at public auction all real and personal property held by me as assignee of Charles Zeiger at the front door of the postoffice, Albuquerque, N. M., at 12 o'clock noon, November 4th, 1907. For further information call on or address Frank H. Moore, Assignee, Room 9, Barnett Building, Albuquerque, N. M.

**Water and Timber Plentiful.** "The country is also well watered and timbered and there is an abundance of hard woods. The ranges and foot hills are already producing coffee, cocoa, sugar, corn, rice, Irish potatoes, tobacco and cotton, including a great variety of fruits, in fact, the apple, plum, peach, pear, cherry, grape, etc., could be grown advantageously.

"As the extinct volcano Chiriqui has an elevation of 11,500 feet, the province of Chiriqui has a delightful climate, especially the coffee stations, which have altitudes ranging from the 2,000 to the 5,000-foot levels. It is one of the ideal sections of the republic, and should be inhabited by a progressive enlightened people.

**Towns of Zone.** "While Panama and Colon are the two principal seaports, there are several others on each ocean. There are also several interesting inland towns and cities and a description of one will suffice for all. David, for instance, where the seat of government for Chiriqui is established, is situated on a savannah about three miles inland from Padregal, the seaport for the Chiriqui territory. The population of David may be rated fully 5,000. There are several large retail and wholesale firms established there, in fact, all branches of business are fairly well represented. Poorly constructed roads and trails branch from this important city to many towns, villages, agricultural and grazing sections.

**Uncle Sam Owns Ten Miles.** "Owing to our lease in perpetuity of the ten-mile strip of land from ocean to ocean, across the isthmus of Panama, for the construction and operation of the isthmian canal, the republic of Panama is freed from the menace of future revolutions, it is therefore the only republic in either Central or South America where foreign capital can be invested with perfect safety. And, owing to the construction of the canal, there is and will ever be a first class market at either Panama or Colon for everything produced within the

Falling Up on the Ball. Sometimes it is possible to push an opponent aside as he is about to fall upon the ball, and drop upon it yourself or give one of your side a chance to do so. Or it is possible to kick a ball from under an opponent as he is falling upon it.

Never fall upon a ball with your weight, or injury may follow. Break the fall with knees and elbows. Two ways of falling upon the ball are illustrated. The player should throw his feet back and practically curve up around the ball. Practice in falling upon the ball in every possible manner should be indulged in daily until every man on the team is proficient.

If the ball is bounding so it can be caught easily, the player should catch it, but never pick it up if it is on the ground. Always fall upon it or someone else will.

## JOHN McCafferty HAS RETURNED FROM CANAL ZONE

(Continued From Page One.)

The government eating houses of course, are supplied by ship directly from the United States and so get things at a reasonable price.

"Government schools have been established in the zone to accommodate the children of the workmen and conditions in general are rapidly becoming such that the American will be willing to settle permanently in that country. In the neighboring republic of Panama there is no tax whatever on realty; the tax is on the output only and the rate of taxation is small.

**Gold There, Too.** "There is every reason to believe that gold in large paying quantities is hidden away not only on the old abandoned quarries and placer mines, worked by the Spaniards during the sixteenth century but also in virgin ground. The formation throughout the republic of Panama is chiefly volcanic and eruptive so necessarily the mountain ranges are formed primarily of granite, trachyte and porphyry, therefore these ranges are rich and there are mineralized with gold, silver, copper, tin, iron, etc. It would be a mistake to fancy that all the gold that left the isthmus of Panama in those days came from the mines of Peru. Unquestionably much of the yellow metal was taken from the earth and streams in the territory which is now the republic of Panama. In fact, so soon as the laws of the republic and mineral laws to the isthmian canal zone a mining boom for the isthmus will be sure to captivate the general public, and Panama will then become the new Eldorado.

**Water and Timber Plentiful.** "The country is also well watered and timbered and there is an abundance of hard woods. The ranges and foot hills are already producing coffee, cocoa, sugar, corn, rice, Irish potatoes, tobacco and cotton, including a great variety of fruits, in fact, the apple, plum, peach, pear, cherry, grape, etc., could be grown advantageously.

"As the extinct volcano Chiriqui has an elevation of 11,500 feet, the province of Chiriqui has a delightful climate, especially the coffee stations, which have altitudes ranging from the 2,000 to the 5,000-foot levels. It is one of the ideal sections of the republic, and should be inhabited by a progressive enlightened people.

**Towns of Zone.** "While Panama and Colon are the two principal seaports, there are several others on each ocean. There are also several interesting inland towns and cities and a description of one will suffice for all. David, for instance, where the seat of government for Chiriqui is established, is situated on a savannah about three miles inland from Padregal, the seaport for the Chiriqui territory. The population of David may be rated fully 5,000. There are several large retail and wholesale firms established there, in fact, all branches of business are fairly well represented. Poorly constructed roads and trails branch from this important city to many towns, villages, agricultural and grazing sections.

**Uncle Sam Owns Ten Miles.** "Owing to our lease in perpetuity of the ten-mile strip of land from ocean to ocean, across the isthmus of Panama, for the construction and operation of the isthmian canal, the republic of Panama is freed from the menace of future revolutions, it is therefore the only republic in either Central or South America where foreign capital can be invested with perfect safety. And, owing to the construction of the canal, there is and will ever be a first class market at either Panama or Colon for everything produced within the

republic.

**A Coming Country.** "After carefully considering all factors linked with the republic of Panama, and more especially so as agricultural and pastoral lands can be secured from the government for about 25 cents. United States gold per acre, I know of no place on this planet where I should advise ambitious and capable young men, possessing a little capital—say from \$1,000 up, United States gold, to immigrate to sooner, than to Panama."

## TERRITORIAL CAPITAL OFFICIAL MATTERS

Santa Fe, N. M., Nov. 2.—Territorial Engineer Vernon L. Sullivan has approved the application of C. W. Morgan, of Alamogordo, and others, to appropriate the flood waters of Dry Canyon and Red Arroyo in Otero county for irrigation purposes. Mr. Morgan and his associates are planning to construct an irrigation system near Alamogordo.

**More Delegates to Mining Congress.** Governor Curry has appointed two more delegates to represent New Mexico at the forthcoming convention of the American Mining Congress which will meet at Joplin, Mo., on Nov. 11. These last two additional delegates are Professor A. K. Adams, of Socorro, and Edwin B. Seward, of Tres Piedras. Thirteen delegates have been appointed altogether from this territory.

**Notaries Public Appointed.** The following have been appointed notaries public by Governor Curry: Eugene P. Cooper, of Dayton; Eddy county; Thomas C. Montoya, of Old Albuquerque, Bernalillo county; Julian Ortiz, of Nambé, Santa Fe county; Calzadino Armijo, of Las Cruces, Dona Ana county; Francis E. Bailey, of Hagerman, Chaves county; William S. King, of Anthony, Dona Ana county; Pitt Ross, of Albuquerque, Bernalillo county; Elwood M. Beman, of Tucuman, Quay county; John P. Nelson, of Baraneco, Quay county; Alex S. Bushkevitz, of Roy, Mora county; William McSparron, of Gallup, McKinley county.

The following articles of incorporation have been filed in the office of Territorial Secretary Nathan Jaffa: Malaga Land and Improvement Company, Principal place of business at Malaga, Eddy county. Territorial agent, T. J. Sanford, at Malaga. Capital stock, \$100,000, divided into one thousand shares of the par value of \$100 each. Object, real estate and public utility enterprises. Period of existence, twenty years. Incorporators, C. L. Higley, C. E. Neil and T. J. Sanford, all of Malaga, and E. E. Hargrave, of Tucuman, Quay county.

The National Mining and Smelting Company, Principal place of business at Deming, Luna county. Territorial agent, Frank H. Lerchen, at Deming. Capital stock, \$500,000, divided into one hundred thousand shares of the par value of \$5 each. Object, mining business. Period of existence, twenty years. Incorporators, Frank H. Lerchen and Amos W. Pollard, both of Deming, and Robert Powell, of New York City.

The Astec Fuel company, Principal place of business at Albuquerque, Bernalillo county. Territorial agent, J. T. McLaughlin, at Albuquerque. Capital stock, \$100,000, divided into one hundred thousand shares of the par value of \$1 each. Object, fuel business and mining. Period of existence, fifty years. Incorporators, J. T. McLaughlin, C. F. Wade and Maynard Gunnell, all of Albuquerque.

The Albuquerque Clearing House Association, Principal place of business at Albuquerque, Bernalillo county. Territorial agent, The Corporation, Organization and Management company, at Albuquerque. Capital stock, \$500,000, divided into five thousand shares of the par value of \$100 each, commencing business with \$5,000. Object, general clearing house business. Period of existence, fifty years. Incorporators, Mathew S. Flourney, Frank McKee, Willard S. Strickler, R. H. Collier and Owen N. Marron, all of Albuquerque.

G. L. Brooks, Pres. J. M. Moore, V. P. and Mgr. M. R. Summers, Secy.

"STATEHOOD FOR NEW MEXICO"

## East Should Help Out

The Washington Herald takes up the matter of the treatment of the great white plague in the eastern towns and cities and its suggestions are indeed very good.

At the same time, there is only one known cure for tuberculosis and that is the atmosphere of the southwest.

Therefore the east owes a great debt to this section of the country and it should do something to aid in caring for the hundreds of patients that it sends each year to New Mexico, Arizona and other sections of the country.

Had the Herald added that most important statement to its remarks, it would have done the subject justice more fully.

The Herald says: "It is increasingly evident that people all over the country are awakening to a realization of what an easy matter it is to prevent the spread of consumption and how comparatively simple is the cure of that disease, if not neglected or ignored too long. The cities in which these truths are not being daily exemplified are now few, and to any one who has looked into the matter it is not easy to understand why there should be any."

Washington, although backward in the premises for many years, is now the scene of activities which are producing highly satisfactory results, and when congress can find the time to pass a simple law giving the board of health certain powers which it does not now possess, and without which the scope of its work is very much restricted, the capital, in many respects, at least, may well serve as a model for the rest of the country in the fight against the malady which yearly exacts such a heavy toll of human lives.

At present the burden of what is being done here is borne by only a few public-spirited citizens; but in time, it seems reasonable to hope, a much larger number will become interested and the movement will progress all the more favorably in consequence.

"As indicating what is being done elsewhere, it may be pointed out that in Richmond, a few days ago, a public tuberculosis dispensary was opened, for the accommodation of both white people and negroes. Aside from the conducting of examinations to determine the existence or nonexistence of the disease, and the dispensing of medicines, the physicians and nurses attached to such institutions may do an incalculable amount of good by instructing ignorant or careless patients how to guard against the danger of infecting others, and how to treat themselves by getting a maximum amount of fresh air, and by observing proper rules of diet and exercise."

"In Louisville an organization interested in the anti-tuberculosis campaign has just called the attention of the chief of police to the violation of the ordinance prohibiting expectoration on the sidewalks and in public places, and that official has promised to see that the law is rigidly enforced. If necessary, he says, and other police chiefs might make a note of this—he will station officers in plain clothes in places where persistent offenders are most conspicuous, and will issue orders that arrests are to be made without fear or favor."

"It is such developments as these in Richmond and Louisville that aid in the general movement to stamp out consumption, and that educate the masses as to the real nature and the curability of the disease, as well as to their own responsibility in the premises."

## They Are Going

Among the many things to which the attention of the president is directed in the vicinity of New Mexico is the marriage record for Albuquerque during October.

It is a record to be proud of. Thirty-four couples placed in double harness for better or for worse in one month of thirty-one days. Take into consideration the fact that the state also visited the usual number of homes in Albuquerque in addition to the number of homes created for him to visit later and we have a showing that ought to help the statehood cause a whole lot.

But there is one disconcerting thing about those thirty-four marriage licenses and it causes the young unmarried man to cast about him with an apprehensive eye.

The girls are going; the supply is getting limited. The pink cheeks and willing hands are being stolen away, one by one and the eligible young ladies are cooking dinner for the other fellows.

The young unmarried man of Albuquerque must be up and doing, or it may be his lot to hunt elsewhere for a life partner. There are more young unmarried men than young unmarried women in Albuquerque and the young man who would a wooing go, generally finds some other fellow ready to "give him a run for his money" as the saying is.

There is not a surplus of love-lorn young women in the southwest just waiting for the right one to come along. Oh, No! The Albuquerque girl can have a wide variety to choose from while the Albuquerque young man finds that it is up to him to get in the race against a lot of other young fellows, who know a good girl when they see one.

But this is the way it ought to be. Every girl likes it and the young man who wins out feels just a little more pride in knowing that he won over the other fellow.

As for the other fellow—well, time heals all wounds and after all, there are some mighty nice girls left for the right young man.

Its encouraging—this record breaking matrimonial showing for October. It is a sign that some thirty-four young men in this city have enough confidence in themselves to assume the duties of home-building and that thirty-four girls have confidence enough in them to know they will "make good."

Among the other testimonials that ought to go to Washington in behalf of our statehood claims is a copy of the matrimonial record for October in the metropolis of New Mexico.

Its a mighty good showing and Mr. Stork will have to hurry if he beats it. At that Mr. Stork is no laggard in Albuquerque.

Thirty years ago the emperor of Japan issued an Imperial rescript which has since become the Japanese educational Bible. It is held up before every child and student. This is what it says: "Be filial to your parents, affectionate to your brothers and sisters; as husbands and wives be harmonious; as friends true; bear your duties in modesty and moderation; extend your benevolence to all; pursue learning and cultivate arts, and thereby develop intellectual faculties and perfect moral powers; furthermore advance the public good and promote common interests; always respect the constitution and preserve the laws; should emergency arise, offer yourselves courageously to the state; and thus guard and maintain the prosperity of our imperial throne." There might be worse advice than that. The president of the public schools is thinking of using it in Chicago.

Insurance man sentenced to the penitentiary fears he will not survive the six months imprisonment imposed. Probably he wants the sentence deferred, like dividends.

Oklahoma will be formally admitted to the union November 16, after which she will be eligible to turn loose a crop of favorite sons to graze in national pastures.

The French submarine boat Lutin went to the bottom the other day and refuses to come up. That is what might be called a real submarine boat.

The Utes may they will not send their children to school. This looks like a hint for someone to start a child labor cotton mill on their reservation.

An Illinois man is going to live on sauer kraut for fifty days just to show the man who lives on peanuts that it can be done. Hoc der Kaiser!

Isn't it about time for Bryan to sound another key note?

## LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico. Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

## ABOUT TOWN

Mrs. M. C. Ortiz, wife of Attorney Ortiz, is suffering from an attack of pneumonia.

The moving picture at the Crystal theatre this week is without doubt the finest picture of the kind ever brought to the city.

The first case set for Monday in the district court is another Gallegos case entitled, Donaciano Gallegos vs. Mauricio Ortiz, C. B. de Ortiz and Marcelino Baca.

A terrific hailstorm fell at Alton-N. M. Wednesday of last week. The windows of the section house at that point were knocked out but beyond this little damage was done.

The case of Donaciano Gallegos vs. Michael Mandell, E. M. Sandoval and O. P. Hovey, which has been on trial for the last two days, will probably go to the jury late this afternoon.

A special communication of Temple lodge No. 6, A. F. and A. M., will be held at the Masonic Temple at 1:30 o'clock sharp, Sunday afternoon, for the purpose of conducting the funeral of our deceased brother, W. R. Brown. Visiting Masons are invited to attend. By order of W. M. Frank H. Moore, acting secretary.

Miss Morse's class of young ladies of the First Baptist church last evening entertained Dr. Burton's class of young men with a Halloween social. The gathering was held at Miss Morse's residence, South Walter street and an enjoyable time was had. Lunch was served during the evening.

Word has been received by R. W. D. Bryan, president of the New Mexico Humane society, that the thirty-first annual meeting of the American Humane association will be held in Boston on November 12, 13 and 14. Several New Mexicans are expected to attend the meeting. Those intending so to do should secure credentials from A. B. Stroup of this city, who is the secretary of the territorial society.

The funeral of W. R. Brown, who died at Jemez, N. M., as previously reported, will be held on Sunday afternoon, Mr. Brown was a member of the Masonic lodge of Pama, Ill., and the local Masonic order will have charge of the funeral, and will accompany the remains from the residence at 229 South Arco street to the Baptist church, where the services will be held at 3 o'clock p. m., the pastor, Rev. Shaw, officiating, and thence to Fairview cemetery, where the interment will take place.

A telegram was received yesterday by Undersheriff Fred Heyn to the effect that a relative of Joe Underwood who lost his mind while on train No. 2 some days ago, was coming here to take charge of the unfortunate man and would take him to Los Angeles for treatment. Underwood's reason seems to have left him completely and though comparatively harmless he presents a pitiable figure at the county jail here. Previous to recent lack of employment are believed to be the cause underlying the trouble.

## Where To Worship

Highland Methodist Church—Rev. Louis H. McCain, the newly appointed pastor, will preach in the morning at 11 o'clock and Rev. W. S. Huggert, of Gallup, at night. Sacrament of Lord's Supper, evening meeting at 7:30. A cordial welcome to all.

## WEEK END NOTES FROM VARSITY

Boys Preparing for Declaration Contest—Literary Society Busy—Sports.

The principal item of interest from the university this week seems to be the preparation which is being made for the boys' declamation contest to be held on next Friday evening. At intervals all through the week the sound of prospective orators' voices has been heard vibrating through the halls of the buildings. The contestants are working hard and a good program will be the result. The declamations are all extracts from American oratory. The contestants and their selections will be as follows: Charles Learning, "The Mexican War," by Thomas Corwin; Fred Browning, "Resistance to British Aggression," by Patrick Henry; Clarence Heald, "The Expunging Resolution," by John C. Calhoun; Kenneth Heald, "The Irrepressible Conflict," by William H. Seward; Harvey Ferguson, "The War of 1812," by Samuel Adams; Grover Emmens, "Burr and Blennerhassett," by William Wirt; Roy Baldwin, "Reply to Hayne," by Webster. This program will be interspersed with musical numbers. The program will be held in the First Methodist church. The admission is free and the public is cordially invited. The prize is a collection of American orations given by Dr. L. H. Chamberlain.

Mrs. Parsons gave an address on "Ghosts" at the Monday assembly. It was very interesting and entertaining.

The Khiva Literary society will present a public program tonight at 8 o'clock in the Woman's club hall. The program will include a debate on the question, "Resolved that the Union Army exerted a greater influence in bringing the Civil War to a close than did the Union Navy."

On Thursday of next week the literary club will give its first program. It will be an "Ibsen" program.

Football practice continues regularly every afternoon. A game will be played with the Albuquerque Indians next Saturday at Traction park. The season will close on the sixteenth with a game with the Agricultural college at Las Cruces.

The Variety store, 506 South Armo street, will serve home made pumpkin pie to the Albuquerque Indians between 1 and 3 p. m.

Remember Monday at 4:15 p. m. The great blind fold drive starting at the postoffice.

Bedsteads from \$2.50 and up. Furniture Co.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

## ADAMS SELLS INTEREST IN UNDERTAKING BUSINESS

C. F. French Is the Purchaser  
Firm Will be Known as  
French & Adams

Arrangements were concluded today whereby B. K. Adams, undertaker and embalmer at 501 West Central avenue, has disposed of the controlling interest in his business to C. F. French, with P. H. Strong, of this city, for three years. Business interests in Auburn, Ind., compel Mr. Adams to return there for a time and the business in Albuquerque will be in the full charge of Mr. French. Mr. French has had years of practical experience as an undertaker and embalmer in the cities of New York, Richmond, Va., and Knoxville, Tenn., before coming to Albuquerque and he holds licenses in both the states of New York and Virginia. Mr. French arrived here last Wednesday from New York, where he has just completed a special, advanced course in the Renouard Undertakers' Training school. Henceforth the firm here will be known as French and Adams.

## LID CLAMPED TIGHT IN THE CITY AGAIN TOMORROW

No Let Up in Rigid Enforcement of Sunday Law Inaugurated Last Week.

Albuquerque's "Sunday lid" will be clamped down tight again tomorrow.

The program carried out last Sunday, which raised such havoc with the liberties of the liberally inclined citizen will go into effect with unrelenting severity at the midnight stroke tonight. Those who heard last week's report of the enforcement of the Sunday law with an incredulous smile will do well to take time by the forelock and lay in their supply of Sunday necessities tonight, for there will be nothing doing among the business houses of the city tomorrow. Sheriff Armijo stated this morning that there would be no let up in the policy inaugurated last week. The man who depends on the bakeries, news stands and cigar stores tomorrow is doomed to disappointment and unless he can make a raise of the price of a bottle before the evening is over the man with a Sunday thirst will suffer from a temporary drouth of twenty-four long hours.

## FATHER OF CAPTAIN FULLERTON DEAD AT SAN DIEGO

A telegram received this morning announced the death at San Diego, California, of James Fullerton, the aged father of W. S. and John S. Fullerton, the well known ranchmen of Socorro county and former captain of the territorial mounted police. Mr. Fullerton, who was well known in Albuquerque through out the territory, was seventy-seven years of age. He had been in declining health for some time and his death was not unexpected. Besides his wife, Mrs. Fullerton, Mr. Fullerton leaves three children to mourn his demise, Mrs. Kutner, his only daughter, and John F. and W. S. Fullerton. Alice Kutner, formerly a resident here.

## MRS. LUNA HOSTESS AT BENEFIT TEA

This afternoon at the home of Mrs. R. Otero, 703 West Silver street, Mrs. Solomon Luna gave a tea for the benefit of the Immaculate Conception church of this city. A large number of ladies attended and a considerable sum was raised by voluntary contributions. This money will be used together with other funds being raised to make the extensive alterations in the church. The church edifice will be entirely remodeled and will be, when completed, one of the finest Catholic houses of worship in the territory. The people of this city have responded most liberally to the call for contributions for this purpose. The present church has long been felt to be inadequate to the needs of the large congregation in this city and the plans for enlarging and improving the building is regarded with general favor.

Mrs. Luna will continue to receive during the evening.

## DENVER GOING AFTER COLORADO TRUSTS

Denver, Colo., Nov. 2.—Attorney General Dickson is preparing an injunction suit for filing in the Denver district court, against the so-called coal trust of Colorado.

It is intimated that similar proceedings will follow against grocers and other combinations alleged to be doing business in restraint of trade.

## JUBILEE SINGERS AT CONGREGATIONAL CHURCH

Last evening at the Congregational church, the second entertainment in series of the popular course was given before a large audience. The entertainment was furnished by the Midland Jubilee singers, a company of colored people sent out by the Midland Lyceum bureau of Des Moines, Iowa.

In the rendition of popular negro melodies and the enactment of a southern negro love feast, camp meeting and other features peculiar to the negro in his propensities for religious fervor, were listened to with much interest and amusement. The company is composed of five men and two women, all are possessed of rich, melodious voices, and their singing in concert was especially pleasing. The pipe organ playing of A. Williams, the accompanist of the company and that of A. E. Sheppard, so delighted the audience that they were repeatedly encouraged. Every number on the program was heartily applauded.

Pal Pinto Wells Mineral Water cures and prevents constipation. Ask your grocer for it.

STAGE TO JEMEZ, LEAVES 211 WEST GOLD EVERY MORNING AT 8 O'CLOCK.

## ONE ALBUQUERQUE FIRM BUYS SIX TONS OF SOAP

Francis J. Lee Says That According to His Business Country is Stable

When Governor Curry was in Albuquerque fair week he made a short address before the convention of traveling men and among other things said that the commercial salesman was in a better position to know the political temper of the people than almost any one else as he was continually going from place to place and coming in contact with persons in many different walks and stations of life. The "Amole Man," or Francis J. Lee, the popular representative of the Mexican Amole Soap company of Peoria, Ill., is a commercial salesman who enjoys a wide acquaintance among the business men of the southwest and that he has to say on the present financial condition in this part of the country is surely worth considering.

Use Soap in Mexico.  
"A few days ago I returned from the Republic of Mexico where I did some splendid missionary work in converting merchants to an orthodox belief in Amole soap and if I may judge by the condition of the soap business of the company which I represent I can say that there is no danger whatever of any widespread financial panic and none whatever of an industrial panic. Because copper is a trifle hard hit at the present time is no sign that good old gold will be scarce. In the cities of the southwest I find a general optimistic view of the present financial situation on the part of business men. I have not encountered any runs on banks and have had no trouble in getting my personal checks cashed wherever I go.

Country is Stable Enough.  
"The action of the Albuquerque banks in adopting the clearing house certificate plan at this time was a most wise precautionary measure which commends itself to all sane-minded persons. Such action is necessary to keep the currency in the local field and in no way indicates an unstable condition in securities or property values. If the country were on the verge of a crisis, there would be manifested a tendency on the part of merchants to turn in short orders to traveling men, but this has not been the case with me. Panic or no panic, the people are resolved to use soap and keep clean for at the present time it is realized more than ever before that cleanliness is next to godliness and that the soap salesman is just as indispensable a member of society as the clergyman.

Six Tons of Soap to One Firm.  
Yesterday I booked an order for six tons of our soap from one Albuquerque firm and this is but one example of the favor with which the merits of Amole is being regarded."

Mr. Lee will leave here for an extended trip through Arizona and California, but expects to return by the latter part of November to shake with Albuquerque friends and eat his Thanksgiving dinner here.

## DRIVEN INSANE BY WIFE'S DEATH

G. A. Murphy, a friend of J. A. Underwood, the man who was taken from a Santa Fe train at this place a few days ago on account of his deplorable mental condition, arrived in the city this morning to look after him. Mr. Murphy said Underwood's wife died suddenly last June and at that time he was greatly affected and showed symptoms of a mental break down. In the last few months however, he has been feeling well and left Los Angeles apparently in good health. His insane condition seems to have developed between Los Angeles and this city. Underwood was on his way to Lawrence, Mass., where he has relatives. These relatives have notified Mr. Murphy to ascertain just what is the condition of Underwood and to advise what is best to be done with him.

## A WARM PROPOSITION

## SWEET VOICE TO SING "REB" SONGS AT JAMESTOWN EXPOSITION

Miss Cash at top and Mrs. Crockett, Mrs. Edwards, Commander-in-Chief, Lieutenant General.

Richmond, Va., Nov. 2.—The Confederate Chorus of America will meet for the first time as a national organization at the Jamestown exposition during the reunion of Confederate veterans to be held in Norfolk in November. These choirs are composed of sweetvoiced Confederate women and daughters of the confederacy, who, with the spirit of song, will endeavor to awaken in the breasts of the old men of the south the slumbering dreams of 40 years ago.

The national officers of the choirs are composed entirely of women. Mrs. J. Griff Edwards, of Newport News, is the general and commander-in-chief. Miss Mary Cash, of

Memphis, Tenn., is first lieutenant general, and Mrs. Willie Vandeverter Crockett, of Fayetteville, Ark., is second lieutenant general. These three young women are renowned for the beauty of their voices. The confederate choirs are meeting with much opposition from other confederate organizations. The first objection raised is that the officers of the choirs are endowed with the titles of army officers and propose to wear a uniform similar in color to the uniform of the confederate armies. It is maintained that the bestowing of these titles is unauthorized and out of place, and that the uniforms should be worn only by the veterans and their sons.

## PURER FOODS ARE CHEAPER FOODS, SAYS DR. WILEY

Dr. Harvey W. Wiley says the rise in value of food products is not remarkably in view of the fact that so many other commodities of life, including rents, have advanced in price. It is undoubtedly true, however, that when the food law is fully enforced it will tend to raise the prices of certain articles, and will do this by increasing their purity in value.

The consumer will not have to pay more than he did before when the greater excellence of the article is taken into consideration. For example a pure milk such as the law contemplates costs more than the ordinary milk of commerce, that may possibly be sold for 6 cents a quart, while wholesome milk from healthy cows kept in a proper environment would easily be worth a most double the amount.

The consumer, however, is more than repaid for the cost, since he gets a beverage perfectly wholesome.

DR. H. W. WILEY.

and one which will save the lives of thousands of infants. Again, a true preserve made with fruit and sugar and nothing else would naturally bring a higher price than it did before when it had to meet the competition of inferior articles. Under such conditions the pure article did not receive a price which its excellence justified.

Consumer Repaid in Quality. The consumer, however, is compensated, since he gets a more genuine article instead of the mixture made with apple juice, glucose and coal tar dyes, and preserved with benzoate of soda.

These are only instances of cases where the price of the pure product is increased and only caused by unfair competition, or a fair price

## DR. PRICE'S CREAM BAKING POWDER

**A** PURE, healthful, grape cream of tartar powder, the only kind that can be used without impairing the healthfulness of the food. Makes the biscuit, cake and pastry more digestible and wholesome. Absolutely free from alum and phosphate of lime.

Chemical analyses show the low priced powders made of alum to contain large quantities of sulphuric acid, and that a portion of the alum from alum baking powders remains unchanged in the food! You cannot afford to take alum and sulphuric acids into your stomach.

STUDY THE LABEL

## MODEL BRIDE IN ARTISTS ROMANCE

Painter Boileau's "Sunshine" of His Model and Bride.

New York, Nov. 2.—A pretty romance was culminated in the Little Church Around the Corner, when Philip Boileau, the French-American painter, was wedded to his inspiration of the typical American girl, Miss Emily Gilbert.

For years the young artist had sought a model that would portray his conception of the American girl, and it was not until six months ago that he found her in the person of Miss Gilbert. She had been crowned with success. It was then he attended a little Bohemian gathering in Carnegie hall, where Miss Gilbert was a pupil in Sargent's dramatic school. Young Boileau had no sooner seen Miss Gilbert than he determined to make her his model.

## MUCH DOING AT ROSWELL TOWN

Carnegie Library Receives Donation  
Talmage Buys More Land—Hotel Sold—Poe Becomes 33rd Degree Mason.

Roswell, N. M., Nov. 2.—(Special.) Dr. C. F. Benson, a prominent physician of this place has donated his large library of several hundred volumes of medical works to the Carnegie library. The library has been the recipient of a number of donations of books from public spirited citizens.

Talmage Buys More Land. The Talmage brothers colonization company have just closed a deal with J. J. Hagerman for an immense tract of land comprising some 80,000 acres lying near Elda, N. M. The land will be surveyed and divided into small tracts which will be sold to colonists. The land has good title and will command a good price.

Grand Central Hotel Sold. Woodruff and DeForest, owners of the Grand Central hotel and bar have sold the bar and fixtures to J. A. Manning and C. A. Woodruff. The hotel will remain in the hands of the present owners who have

made it one of the finest hostelry in the west. The consideration was \$8,500.

Captain Jason W. James has returned to Roswell from his ranch in Brewster county, Texas. The captain is much improved in health.

Poe Becomes 33rd Degree Mason. John W. Poe, president of the Citizens National bank, has become one of three distinguished New Mexicans, he has had the 33rd degree of Masonry conferred upon him. The other two members are Col. Max Frost and C. T. Brown. There are but 33 members of the supreme council of the Ancient and Accepted Scottish Rite Masons, and it was at their recent biennial session in Washington that Captain Poe was elected to this honor.

Heavy Rains in Pecos Valley. The Pecos valley has been visited with the heaviest rains of the season lately. The valley has been rather drouthy all summer but all of last week heavy downpours occurred which inundated through the railway tracks on the Pecos valley Santa Fe lines were washed out at Riverside and much damage was done to alfalfa. Reluctant Carlsbad the whole country was covered with water.

Kennedy's Laxative Cough Syrup is a safe, sure and prompt remedy for coughs and colds, and is good for every member of the family. Sold by J. H. O'Reilly.

## EL PASO TRADE EXCURSION ITINERARY

Special Train Will Leave El Paso City Nov. 5 - Will Not Come to Albuquerque

The proposed excursion of the El Paso Chamber of Commerce to New Mexico will leave El Paso November 5th, at 9:30 in the morning. The special train will first proceed over the Santa Fe to Silver City via Rincon. Rincon will be the farthest place north made on the Santa Fe. No visit will be paid to Albuquerque or Socorro or San Marcial. After visiting the towns on the Silver City branch, the excursion will return to El Paso and leave for a second time, going over the Rock Island. At Torrance the special train will be switched over onto the Santa Fe Central. The excursion will arrive in Santa Fe on the evening of November 8.

The itinerary of the excursion is as follows:

## SAYS BACKACHE MEANS WEAK KIDNEYS

This Simple Mixture Is Said to Prevent Serious Kidney Disease

More people succumb each year to some form of kidney trouble than any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible. Consult only a good, first class physician, leave patent medicines alone.

There are many of the lesser symptoms of kidney trouble which can be treated at home as stated by a well known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequency (especially at night), painful scalding and other urinary troubles, try the following simple home remedy: Fluid Extract Dandelion one-half ounce, Compound Kar-gon one ounce, Compound Syrup Sarsaparilla, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism either, because it acts directly upon the kidneys and blood. It cleanses the clogged up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter which if not eliminated remain in the blood, decompose and settle about the joints and muscular tissues causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

If you take DeWitt's Kidney and Bladder Pills you will get prompt relief from backache, weak kidneys, inflammation of the bladder and urinary troubles. A weak's treatment of 25 cents. Sold by J. H. O'Reilly.

## E. L. WASHBURN CO.

### PERSONAL PARAGRAPHS

E. B. Cristy, the architect, spent yesterday in Santa Fe.

Nathan Jaffa, territorial secretary, is in the city on business.

W. F. Bennett, of Lamby, was a Santa Fe visitor Friday.

W. H. Hahn, the local coal dealer, was a Santa Fe visitor Friday.

W. H. Sawhill of this city is registered at the Claire hotel in Santa Fe.

J. E. Mannum was registered at the Palace hotel in Santa Fe yesterday.

Mrs. L. A. Farnsworth and Mrs. Mary Embree, of Silver City, are in Albuquerque for the day.

Col. R. E. Twitchell, of Las Vegas, has returned to the Meadows City after a brief visit in the city.

Frank Bond, a prominent business man of Espanola, transacted business in Santa Fe yesterday.

George W. Stubbs, of the Mogollon Gold and Copper company of Grant county, is in the city on business.

Mrs. J. S. Macpherson, Mrs. Peck and Miss May Brown are a trio of Raton women visiting in Albuquerque.

P. P. Hunt, representative of the Continental Chocolate company of Peoria, Ill., is in the city calling on trade.

L. K. McGaffey, a prominent business man of Roswell, left yesterday for Santa Fe, after a few days in this city.

Mont Tillotson, representative of three large dry goods houses of New York, was in the city yesterday en route to New York after a business trip to California.

The fight between Navajos and troops reported yesterday from Washington, D. C., took place eighty miles west of Farmington, N. M., just across the Utah line, according to a dispatch received at Santa Fe.

J. W. Hunt, proprietor of the Angeles hotel of Los Angeles, and the Southland hotel, the splendid new caravansary just completed at Dallas, Texas, was in the city yesterday.

Mr. Hunt is accompanied by Mrs. Hunt and is en route to New York.

Professor Emmett and Mme. Adams, the celebrated mediums and clairvoyants now located in the city, will give a séance tomorrow evening in the I. O. O. F. hall, 219 S. Second street, at 8 o'clock. A door collection of 25 cents will be charged, but they guarantee results.

Rev. Leon McCain, the newly appointed pastor of the Highland Methodist church, arrived this morning from Colfax, La., from which place he was transferred here. He was accompanied by his wife and child and they have already taken up their residence in the church parsonage. Rev. McCain will fill the pulpit of the church tomorrow at the morning service.

E. W. Fee, Rev. H. A. Cooper, Harry Bedient and O. L. Chase have returned to the city after a two weeks' hunting trip in the Pecos mountains near Windsor's ranch. Mr. Fee stated today that snow fell in the mountains every day of their stay, and that on the day they left the fall had reached a depth of six inches on the level. He reports the weather quite cold in the Pecos country and big game scarce.

Miss Emma Elisia Lucero and Roman Kandoval of old town will be united in marriage Monday, November 18th in the church of San Felipe de Neri. The ceremony will take place at 7:30 o'clock in the morning after which a breakfast will be served at the bride's home. In the evening a dance will be given in honor of the bride and groom.

Several hundred friends of the young couple in this city and out of town, will attend the wedding and dance.

The remains of Emilio Zazall, aged 40 years, an ex-soldier, who was taken from the train here on October 24th and died here on October 30th, are being held at Strong's undertaking parlors to await instructions from relatives. Mr. Zazall was a member of the soldiers' home at Santa Onica, Cal., and was en route to Hot Springs, N. D., when he became so ill as to necessitate his being taken from the train at this place. The deceased has a mother, sister and brother in Cranford, N. J.

Dr. H. B. Kirschner, formerly of Albuquerque, and who recently opened an office in Estancia, has left that place for Des Moines, Iowa, where he has accepted the position of surgeon in charge of the state sanitarium of that city. Dr. Kirschner has made a special study of tubercular diseases and is rapidly gaining a name for himself in that department of medical science. Dr. Sunderland, who has been in this city for the past year, has taken Dr. Kirschner's practice in Estancia.

### A SPLENDID REVIVAL IN REAL ESTATE VALUES

The Demand For Local Property Better Than Ever Before.

All of the real estate dealers report a very healthy inquiry during the past week, both from home and abroad, for Albuquerque improved and unimproved property and quite a few purchases have been made, which tends to indicate much property will change hands during the coming winter and that values will naturally increase with the demand. Two years ago outside residence lots sold at from \$150 to \$175, a lot. Now the same lots are reselling at from \$300 to \$500 a lot. There is no safer speculation or savings proposition than an investment in a few building lots here at the bargain prices we will offer for a short time.

While another big proposition is maturing, we have decided to clean up a few choice odds and ends at sure enough bargain prices, and which will enable every one who has a little money saved up to make a very profitable and safe investment by selecting something from the following list:

Terms—Half cash, balance within a year or discount of 5 per cent for all cash. Five to 20 acre tracts of splendid garden, truck or orchard lands, under good ditches, not over mile and a half from city, only \$50 to \$60 per acre. Similar land elsewhere in the territory is selling at from \$125 to \$225 per acre.

Twenty-two choice 50-foot lots in University Heights from \$35 to \$100 each.

Sixteen choice 50-foot lots in Eastern Addition from \$150 to \$200 each.

Eleven choice "close in" lots in Perea Addition from \$150 to \$250 each.

Six choice "close in" lots in Grant Tract from \$150 to \$200 each.

Seven choice residence lots in Honeymoon Row, Central avenue, from \$150 to \$250 each.

Three lots in Duran & Alexander Addition from \$100 to \$150 each.

Four semi-business lots on First street, from \$400 to \$500 each.

Seven business lots on Copper avenue including corner \$900 up.

One extra choice business lot on Central avenue \$1,000.

One good brick residence and three 50-foot lots in Eastern Addition only \$1,250.

One small brick house and two 50 foot lots in Eastern Addition, only \$750.

We are the Owners, Perfect Titles. If you wish we will call and show you around in our automobile.

### Looking Prosperous

YOU'LL look like prosperity if we can get you to wear our Hart, Schaffner & Marx clothes; such clothes increase your business value to yourself and associates.

They increase your self-respect, too; you'll find that the knowledge that you're wearing all wool, when your friends are wearing part cotton, will be worth something to you.

If we get these clothes on you we'll be doing you a favor.

\$20.00 to \$28.00

The MAJESTIC RANGE is the product of the world's achievements in stoves. All the best features of all other makes have been incorporated in this one, and objectional features eliminated. As a result, the MAJESTIC probably stands nearer the line of perfection than any other range. It saves your fuel and your time and produces heat when you want it, where you want it, and in quantity as desired, all at a minimum of attention. If you have never used the MAJESTIC, you have never used the best.

### WE GUARANTEE Full 2,000 Pounds

In every ton of coal leaving our yard, and have always made this guarantee. The following ad, or one similar to it, appeared for years in both our daily papers.

**2,000 Pounds Guaranteed or a Present Made of the Coal.**

We defy any individual, firm or corporation to truthfully say that short weight was ever given to any of our customers.

We Handle the BEST Gallup Coal, American Block, Crested Butte Anthracite, Furnace, Stove and Nut. Also Mill Wood, Mountain Wood, Kindling and Coke.
