## MONEY FOR DITCHES.

Havemeyer, the Sugar King, and Party for the Montezuma.

Chicago, Oct. 11.—Augustus H. Havemeyer, of New York, is in the city with a party of capitalists on their way to inspect investments in Colorado. The gentlemen are interested in a large irrigation company that is about to begin operations in Colorado. Mr. Havemeyer is president; J. R. Baxton, of Portland, Me., is vice president; other members are Senator C. F. Libby, of Maine; C. H. Palmer, of Portland, Me.; and E. B. Mallet, of Freeport, N. Y. The company has invested \$900,000 in establishing irrigating ditches and canals. It will control 300,000 acres of land in Montezuma county that will be sold with a water rental at \$1.25 per acre. A tunnel, one mile in length and nine feet in diameter, has just been made through the mountain to inspect which the party is now on its way west.

## Capital Chat.

WASHINGTON, Oct. 11.—The president has made the following appointments: Cyrus Anderson, of Kansas, to be registrar of the land office in Berlin, Kas.; Alfred Landvall, of Nebraska, to be receiver of public money, at Neligh, Neb.; Charles R. Drake, to be agent for the Indians of the Fort Berthold agency in Dakota.

Private Secretary Halford has been sick for some weeks with an intestinal trouble.

Prof. Joseph E. Nourse, United States navy, died at his home on Georgetown Heights, after a lingering illness.

Among the official callers on the president was the committee on the National Colored Baptist association, recently held at Indianapolis, who came to present resolutions adopted by the association asking the president to do what he could toward suppressing the outrages committed in the south upon the black men. The committee was given a careful and respectful hearing by the president, and upon departing they expressed themselves satisfied with the result of their visit.

## Public Schools in England.

LONDON, Oct. 11.—One good is likely to result from the visit of Emperor William to England recently. Among the many questions he asked in his previous, receptive way, was one as to the percentage of illiterate persons in England, and an approximate estimate being given him, he bluntly expressed his surprise at the existence of such a condition of popular ignorance in a country that is so wealthy and stands so high in the scale of civilization.

His comments were repeated to the queen, who lost no time in laying the matter before her advisors and requesting them to suggest a remedy.

The persistent agitators who have for so many years kept the question of free schools before the public, in spite of their discouraging experience, feel at least that there is now a prospect of seeing their labors crowned with success, but they complain bitterly of the indifference of some people of high position, and the open hostility of others who do not hesitate to proclaim that the needs of the country, socialism and anarchy, and who frankly say that the common people know too much already.

## A Great Western City.

WASHINGTON, Oct. 10.—The commission appointed by the postmaster general three months ago to examine into the needs of the postal service at Chicago, has reported at great length. The commission is convinced that the postal service of Chicago is and has been for years inadequate to meet the needs of the public, especially in the business sections. The report adds that "public forbearance considering the circumstances is a matter of surprise." The statement as to the business of the office shows the rate of increase for the past five years greater than that of New York, Philadelphia or Boston. The report says that Chicago is the second largest office in the country and second to none in importance. The commission recommends the construction of annexes to the present building, enlarging of the interior space, etc. Increase of clerical force is also recommended as a means to facilitate business.

## The Wizard Talks.

NEW YORK, Oct. 11.—Thomas A. Edison talks very entertainingly of his trip to Europe. When asked how advance in the use of electricity in England compared with the advance in New York, he replied that in England no important advancement has been made, and that in London the wires were put down by a system which permitted no increase in the supply which the wires could afford. In Germany he thought they were possibly ahead of New York in electricity, and said one could walk miles in Berlin and see no lights except those furnished by electricity.

"In France," he said, "there has also been much advancement, but not as much as in Germany. The French have adopted the right principle in electric lighting. I saw in Paris a system upon which is by far the finest in the world. Mr. Edison predicted that in five years electricity would be far cheaper than gas."

## A Newspaper Temple.

NEW YORK, Oct. 11.—The annual meeting of the Western Union Telegraph company of the Pulitzer building, the new home of the World, was laid at 1 o'clock yesterday afternoon. Col. Cockerell, on behalf of Mr. Pulitzer, made a brief introduction, and Chauncey M. Depew delivered the formal address. Bishop Tuttle, of Missouri, opened the exercises with prayer and the stone was laid by Joseph Pulitzer, Jr., 4 years of age, among those present were ex-President Cleveland, Gov. Hill and Mayor Grant.

## Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. C. M. Creamer, druggist.

## Making Steel Ties.

PITTSBURGH, Pa., Oct. 11.—Carnegie, Phipps & Co. have begun the manufacture of steel railroad ties and an immense hydraulic press turns steel plates into ties at the rate of one a minute. The ties now being manufactured are for the Chicago and western Indiana railroad, and are to be put down in Chicago, and it is expected will lead to a great demand. It is believed that the question of a perfect track, capable of also supporting telegraph wires, has been solved by this invention.

## Cattle Kick.

CALDWELL, Kas., Oct. 11.—At a meeting of the Western Cattle association a memorial to the Chicago Live Stock exchange was adopted, which will be extensively circulated in the range country. It protests against the commissions now charged in Chicago, as inequitable and unjust and asks the adoption of a rate of charges which will distribute the cost of selling cattle according to their value.

## California Wins.

CLEVELAND, Oct. 9.—Futurity stakes race under the auspices of the Spirit of the Times was trotted here yesterday. Silver cup valued at \$1,000 and \$3,738 in cash went to the winner, \$1,008 to second, \$334 to third. Margaret S. California representative won in three straight heats; Palo Alto Bell, second; Fortuna, third; San Mateo, fourth. Best time 2:22 1/2.

## Kansas Suffers.

TOPEKA, Kas., Oct. 11.—The governor has endorsed the appeal of the people of Kansas, and has urged that a hearty response be given to their call for food, fuel and clothing. The farmers of that county have suffered four successive failures of crops, and they are without means of support for the approaching winter.

## A Reporter Fined.

COLUMBUS, Ohio, Oct. 11.—Allen O. Myers has been sentenced to pay a fine of \$250 and fifteen days imprisonment in the county jail for contempt of court. The case was sent back by the supreme court for a rehearing. The former fine was the same and the sentence ninety days.

## Will Test It.

ST. PAUL, Oct. 11.—The Milwaukee road has been indicted by the United States grand jury for violations of the interstate commerce law, and the trial of the case will be of great importance, testing as it will, the right of railroads to charge higher rates in certain towns than to St. Paul and Minneapolis.

## The Metal Market.

Chamberlain & Co.'s metal market review of date Denver, 10th inst., says:

Copper has not changed materially during the week, but the demand has been a trifle more active. Consumers begin to think that the large stocks are not going to be sold and that the mining companies are in earnest in their intention to check production, so that they have taken up bids week nearly 1,000,000 pounds of lake at 11 cents, and liberal supplies of Arizona at 10 1/2 cents and of the cheaper casting brands at 10 cents. It appears that the recent sale at \$11.50 made by Belmont was a small block belonging to the bank of France, which they wanted to have closed out. No more of it is likely to come onto the market. Matters in France are gradually getting into shape. Lead has been fairly steady at all points and more in the west than in the east. There seems to be no special motive nor animus in the market anywhere, but it just drifts along according to the supply and demand. Matters at Washington show no change whatever. The Mexican ore matter has evidently passed out of the realm of mere trade considerations and is bound to be a matter of personal and political influence. The press has been making serious charges against Sec. Windom as being interested in Mexican railroads, and the secretary has promptly denied the charge. The London market has been extremely steady at £12 10s for soft Spanish.

## Army Orders.

By authority of the division commander, the commanding officer of Fort Bayard will grant to Private William Peoples a leave of 10 days, a furlough for three months, to take effect after re-enlistment. 1st Lieut. Frederick Woolley, 10th infantry, is appointed recruiting officer at Fort Union, and will take charge of all property and papers pertaining to the recruiting service at that post, relieving 1st Lieut. J. H. Shollenberger, 10th infantry.

Commencing Monday, October 15, 1889, the WARREN ROUTE, in connection with the Union Pacific railway, Kansas division, will run new and elegant Buffet Pullman cars daily between Cheyenne, Denver and St. Louis, via Kansas City without change of cars. This makes the shortest route between these points from 120 to 130 miles. Only one change of cars between Cheyenne, Denver and Cincinnati, Louisville and all points south, Chicago, Detroit, Niagara Falls, Buffalo, Rochester, Albany, New York, Boston and points east, Indianapolis, Akron, Columbus, Pittsburgh, Philadelphia, Baltimore, Washington and all middle and seaboard states points. This makes the shortest, fastest and most complete route in all respects between the west and the east. The Pullmans are fresh from the shop and are of the most elegant and modern design. All connections at St. Louis are made in the Union depot. The official schedule will be published later. C. M. HARRISON, Commercial Agent, Denver, Colo.

## Job Printing.

Merchants and others are hereby reminded that the NEW MEXICAN is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town should come to the NEW MEXICAN office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The NEW MEXICAN is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

## A BRILLIANT SCHEME.

Removal of a Gigantic Railway Consolidation of Large Overland Lines.

CHICAGO, Oct. 11.—A dispatch from Milwaukee says a private letter written by President Colby, of the Wisconsin Central, to the stockholders of the Northern Pacific road reveals a gigantic railway consolidation that will connect the two oceans and revolutionize railway traffic.

The consolidation of the Wisconsin Central and the Northern Pacific system into an amicable traffic agreement was the first step. Henry Villard, through an alliance with Charles and Joseph Colby, had obtained a majority of the stock of the Northern Pacific, and a sensation in railroad circles is promised within the next ten days. Henry Villard will be restored to the presidency of the Northern Pacific, and one of the greatest railway consolidations of the world will be consummated.

Every now and then the contracts have been signed whereby the Baltimore & Ohio railway is to enter into an agreement with the consolidated Wisconsin Central and Northern Pacific lines connecting the two oceans.

The Atchison, Topeka & Santa Fe system is also in the deal, thus reaching Mexico and southern California. Chicago will be made the stockholders of the three great railway lines, and the Northern Pacific will be extended from Puget sound and built into Alaska, making a continuous line from New York to Sitka.

## Skins on Fire

Agonizing, itching, burning, and bleeding Eczema in its worst stages. A raw sore from head to feet. Hair gone. Doctors and hospitals fail. Tried everything. Cured by the CUTICURA Remedies for \$6.

## Cured by Cuticura

I am cured of a loathsome disease, eczema in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all gone, leaving me a complete raw sore. After trying everything I heard of, I bought CUTICURA Remedies, with CUTICURA and CUTICURA SOAP. I find myself cured at the cost of about \$6. I would not be without CUTICURA Remedies in my house, as I find them useful in many cases, and I think they are the only skin and blood purifying medicine.

## Burning and Itching

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they had never seen anything like it before. I bought CUTICURA Remedies, and after three weeks' use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin disease.

## Most Intense Itching

I have used the CUTICURA Remedies successfully for my baby, who was afflicted with eczema, and had an intense itching. I used CUTICURA Remedies, and in a few days the itching was gone, and my baby is cured, and is now a healthy, rosy-cheeked boy.

## CUTICURA RESOLVENT

The New Blood Purifier and purest and best of Humors Cures, internally and CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally, instantly relieve and speedily and permanently cure the most agonizing, itching, burning, bleeding, scaly, crusty and pimply diseases and humors of the skin, scalp, and blood, with loss of hair, from pimples to eczema.

Sold everywhere. Price: CUTICURA, 25c; Soap, 25c; Resolvent, \$1. Prepared by the FORTNA, DICK & CHESTER, CONCORD, N.H., Boston, Mass. Send for "How to Cure Skin Diseases," six-page paper, fifty illustrations and 12 testimonials.

## PIMPLES, black-heads, red, rough, chapped and oily skin prevented by CUTICURA Soap.

## MUSCULAR STRAINS

and pains, back aches, weak kidneys, rheumatism, and chest pain relieved in one minute by the CUTICURA Anti-Pain Plasters. 25c.

## What Scott's Emulsion Has Done

Over 25 Pounds Gained in 10 Weeks Experience of a prominent Citizen THE CALIFORNIA SOCIETY FOR THE SUPPRESSION OF VICE.

I took a severe cold upon my chest and lungs and did not give it proper attention; it developed into bronchitis, and in the fall of the same year I was threatened with consumption. Physicians ordered me to a more congenial climate, and I came to San Francisco. Soon after my arrival I commenced taking Scott's Emulsion of Cod Liver Oil with Hypophosphites regularly three times a day. In ten weeks my avoirdupois went from 155 to 180 pounds and over; the cough meantime ceased.

C. R. BENNETT, SOLD BY ALL DRUGGISTS.

## ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the finest portions of Uncle Sam's domain tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point we to

## The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

## RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and planted into ten and twenty acre blocks from which incomes can be produced equally as great, not greater, than the average farms of eighty and 100 acres in the western and northwestern states, and all within a radius of one and one-half miles of the railroad depots at

## LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It is merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of boom; and our "long term" payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranted deeds given. Write or call for plans and circulars. Command us for carriages or other courtesies within our power to give.

## FRIDAY, OCTOBER 11.

Gov. Francis's story about the Lincoln county jail must have been a stunner to the Yorkers.

There are some weeds still growing in President Harrison's garden out here. Look at the blooming chief justice, district attorney and marshal.

Gov. Francis gives New Mexico a good and deserved send off in the Rochester (N. Y.) Democrat and Chronicle. Our governor is a good talker.

Woman suffrage was rejected in the election of the new state of Wisconsin after a thorough trial under its territorial laws. The New Mexican convention was not disturbed by a ripple on woman's voting.

MONTANA has been considered Democratic, but it comes into the union with a Republican representative in congress. The congressional race was the only one involving any national political question. Montana is all right.

The Judge has New York illustrated as an old Knickerbocker riding on a turtle, covered with cobwebs and taking a nap. A big bundle of resolutions and a small hand bag of subscription funds for the world's fair at his side show New York's progress in the competition with Chicago and St. Louis, who offer sacks crammed with millions to Uncle Sam for the first choice.

The Western Union Telegraph plant earned the past year for its stockholders the snug little sum of \$6,250,000, clean and clean above all expenses. Does anybody stop to think what a nice little sum that is? It would pay the salaries of the president of the United States, and every member of both houses of congress, with all expenses pertaining to those offices, and leave a surplus of half the sum. It would keep 25,000 poor families in food and clothing for a year. It would furnish a handsome income for 1,000 men of business and would equip one of the largest states with all necessary public buildings. The Western Union bids fair to be a big success. Dr. Norvin Green's complaint to the contrary notwithstanding.

The Las Vegas Optic goes out of its way to strike Santa Fe in the following:

Las Vegas can get up a good local entertainment on shorter notice, with more novel features in it, and which draws a larger patronage than any other city in New Mexico, as witness the chaste performance at the ball grounds yesterday afternoon. Santa Fe could never have made a success of such an affair because, you see, Santa Fe lacks talent and energy, and is amply equipped only in the matter of office holders and office seekers. In other respects there is a perennial deficit over in Santa Fe.

Now, it is difficult for an unbiased mind to understand why this city should be slapped at by a newspaper simply because some local entertainment in another town proved successful. What has Santa Fe to do with Las Vegas local entertainments, anyhow? The Optic shows signs of great weakness in this attack.

AN Albuquerque paper is responsible for the following:

Rev. Geo. G. Smith, of Santa Fe, said that Presbyterianism began its work in that city twenty-three years ago. The most hopeful sign of the work of the church at present, and the one fact that gives unity to that work, is that it is all in one synod. Two years ago it was embraced in the one Presbytery of Santa Fe. Fifteen years ago I traveled 1,500 miles and did not touch either limit of the synod, for it then stretched from Mexico to British America. Of the three races found here the Americans are the most hopeless of all, yet we are gathering them in to some extent. The spirit had gone before us in our earliest Mexican work. Some say the Indian work is the most hopeless.

The gospel has been preached in English, one who understood English and Spanish translating into Spanish. If you would reach the Indian you must send him men who will learn his Indian tongue and preach to him in his language. Years ago Mr. Dodge was visiting Santa Fe. The bishop's garden was the only place in New Mexico where fruit trees were grown. On several successive days he was asked: "Mr. Dodge, have you visited the bishop's garden?" He replied quietly: "No sir." One day he visited the pueblo of Tesuque. Next day he was asked if he had visited the bishop's garden. He said: "I saw one of the gardens that the bishop and his predecessors have had for three centuries, and in view of that I do not wish to see either the bishop or his garden. No sir; I have not visited the bishop's garden."

If Mr. Smith is correctly reported it is hard to tell just what he is driving at—whether he is striking at the American people, the late Archbishop Lamy, the Catholic church or Santa Fe. In either case the showing is very poor, and what is more some of the statements are untrue. We are inclined to believe that Mr. Smith is incorrectly reported.

## The Eiffel Bonnet.

An unpleasantly suggestive fashion note relates to the "Eiffel bonnet." If, as the name intimates, this bonnet resembles the Eiffel tower in height, let us trust that it also resembles it in lattice work construction, which, while it impedes, does not wholly obstruct vision.

## EDITORIAL CONVENTION SKETCHES.

Lieut. Col. Theodore W. Heman, of White Oaks, one of the representatives of Lincoln county in the convention, is a native of St. Louis, Mo. He was born March 1, 1842. He graduated from the central high school of St. Louis, and while holding the position of bank teller he joined the Union forces in the civil war. He was proved to be a brave and efficient soldier by several promotions during active service, reaching the rank of lieutenant colonel in the 48th regiment of Missouri state troops. He was given various positions of importance in St. Louis, among which were those of secretary and treasurer of the Iron Mountain railroad, receiver of three life insurance companies and secretary and manager of the St. Louis Mining and Stock exchange.

Col. Heman came to New Mexico in 1881, attracted by the White Oaks gold mines, in which he has since been interested. He is one of the prominent and enterprising citizens of Lincoln county, and has greatly promoted the building of the Kansas City, El Paso & Mexican railroad, now being constructed from El Paso to White Oaks. He is a director of this road and the projector of other railroads in Lincoln county, which will eventually develop the rich country of the Pecos. A straight forward Republican, when to be such required the sacrifice of friendships, Col. Heman has been a steadfast supporter of the party in New Mexico. He took an active part in the convention and was an efficient worker in committees.

Hon. William G. Ritch was born in New York, May 4, 1830. A good academic education fitted him early for practical business, which he began as an architect and builder, after holding a deputy clerkship for Ulster county, N. Y. He was thus employed in Hudson, Mich., when he married a daughter of Hon. Barnis Babcock, a prominent citizen and member of the constitutional convention in Wisconsin. Mr. Ritch soon after his marriage made his home in this state, and was repeatedly chosen to fill the office of clerk in his county. The civil war found him a ready volunteer in the union army. He was appointed adjutant of the 10th Wisconsin regiment, and did honorable service till the end of the war. In 1868 Mr. Ritch was elected to the state senate. Here he had a recognized position as a prominent member of the legislature, where against much opposition he secured the adoption of assessment and taxation laws of special importance and value to the state. He was honored with the office of presidential elector when Gen. Grant entered upon his first term as president.

In 1869 Mr. Ritch became the editor and proprietor of the Press, a newspaper published in Wisconsin, and was very active in politics till 1872, when forced by ill health to relinquish his position as editor. About this time President Grant appointed him for three successive terms to the office of secretary of New Mexico, for which Mr. Ritch's personal qualities and experience specially fitted him. The frequent absence of the governor devolved upon the secretary executive duties which he ably discharged. Gov. Ritch was well known and felt in the administration of territorial affairs. Of positive convictions and a clear view of the peculiar disadvantages of New Mexico at that time for healthy growth into statehood, he firmly advocated and maintained the principles of government and social conditions and legislation which would ultimately prevail in this territory.

Gov. Ritch was respected for his patriotism and pertinacity in upholding Republicanism and loyalty to the union, and also for his vigorous co-operation, when acting governor, with the military authorities during the Apache outbreaks. His ordinary firmness or sagacity would have served the needs of New Mexico at some critical time in the long period of his official life here. Gov. Ritch retired from active politics in 1884 to a cattle ranch in Socorro county, of which he had previously become proprietor, where he has made a success in adverse times of stock raising, and turned San Andres park into a habitable portion of the territory. Elected with others to represent Socorro county in the state convention, he was made a member of five committees and chairman of the committee on education. The credit of the sound educational provisions of the constitution belongs very largely to Gov. Ritch, who originated them and, managed, with a few others, to secure their hearty adoption.

Commencing Monday, October 15, 1888, the WABASH ROUTE, in connection with the Union Pacific railway, Kansas division, will run new and elegant Buffet Pullman cars, daily between Cheyenne, Denver and St. Louis, via Kansas City without change of cars. This makes the shortest route between those points from 120 to 130 miles. Only one change of cars between Cheyenne, Denver and Cincinnati, Louisville and all points south, Chicago, Detroit, Niagara Falls, Buffalo, Rochester, Albany, New York, Boston and points east, Indianapolis, Akron, Columbus, Pittsburgh, Philadelphia, Baltimore, Washington and all middle and seaboard states points. This makes the shortest, fastest and most complete route in all respects between the west and the east. The Pullmans are fresh from the shop and are of the most elegant and modern design. All connections at St. Louis are made in the Union depot. The official schedule will be published later.

Commercial Agent, Denver, Colo.

## Job Printing.

Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town should come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

THIS PAPER is kept on file at E. C. Duke's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

Old papers for sale in quantities to suit at this office.

# THE MAXWELL LAND GRANT

## Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

**ABOUT GLOVES.**  
 When you are buying gloves remember that there is  
 a big difference in price that is  
 too cheap. It is better to  
 pay a fair price and get  
 good gloves like Hutch-  
 inson's. They are made  
 from selected skins in the  
 best manner and are war-  
 ranted to be the most  
 serviceable made. If you  
 want to know more about  
 gloves in general and  
 Hutchinson's Gloves  
 in particular, send a one  
 cent stamp for the book About  
 Gloves. It will interest  
 you. Hutchinson 162.
