"WE GET THE NEWS FIRST"

WEATHER FORECAST
Denver, Colo., Nov. 5.—Fair Tonight and Wednesday.
NUMBER 268

VOLUME 22.

ALBUQUERQUE, NEW MEXICO, TUESDAY EVENING, NOVEMBER 5, 1907.

THE LATEST THING IN SCARECROWS

WEATHER IDEAL BUT ELECTIONS ARE QUIET IN ALL STATES

Claims of Victory are Made by Nearly Everybody. Especially in San Francisco and Cleveland Mayoralty Contests—Reform Fight in Philadelphia Attracts Considerable Interest, and Kentucky Is Wrought Up Over Her Gubernatorial Contest—Maryland, New Jersey Nebraska and Massachusetts are Voting Heavily but New York Is Not Paying Much Attention to Fight.

Washington, D. C., Nov. 5.—Returns from various states, municipal and county elections in progress in thirteen states today indicate interest in local rather than national questions. Fair weather prevails except in parts of the lake region. New York and New England. As affecting congress the interest is in Kentucky where the republicans are making strenuous efforts to displace the present democratic senators.

At Cleveland.
Cleveland, Ohio, Nov. 5.—Interest in the mayoralty contest in this city is manifested. A large number of voters were in line at many of the polling places when the polls opened.

Quiet in New York.
New York, Nov. 5.—The quietest election in years is proceeding in Greater New York today, following a spiritless campaign. Only state assemblymen, county officers and some judges are to be chosen. Interest centers in the fight for the office of sheriff of New York county. Thomas Foley is the democratic candidate. The independence league and the republicans are combined in the support of Maximilian F. Isman, campaign manager for William R. Hearst for several years.

Seven Candidates for Governor.
Boston, Mass., Nov. 5.—Voting for state and county officers and members of the legislature began with fair weather throughout the state this morning. The voters had a choice of seven candidates for governor. Governor Gould is seeking re-election on the republican ticket and Charles W. Bartlett is the anti-merger candidate. Henry M. Whiting is the democratic-independent citizen.

Reform Fight in Philadelphia.
Philadelphia, Pa., Nov. 5.—Clear weather favored the voters today. The reform element is making a fight to defeat the two million dollar loan proposition in which more interest is shown than in the contest for state officers.

Kentucky Interested.
Louisville, Ky., Nov. 5.—Not in years has so much interest been shown in an election in Kentucky as

attends today's contest for state and city officials. The weather is fair and cool.

Heavy Vote in Nebraska.
Lincoln, Neb., Nov. 5.—Clear, cool weather prevailed throughout the state today. It is reported that the farmers have shown an interest in the election and a fairly heavy vote is anticipated.

Local Option in Delaware.
Wilmington, Del., Nov. 5.—Voting on local option in this state began in a manner which promises that a great majority vote will be polled by noon. The weather is clear.

Maryland Voting Heavily.
Baltimore, Md., Nov. 5.—Indications point to a heavy vote here today at the election of state officers and members of the legislature, which will elect one United States senator later.

Fair in New Jersey.
Trenton, N. J., Nov. 5.—Reports from the state show that the vote for governor will be fairly heavy. The weather is fair.

President Votes.
Oyster Bay, Nov. 5.—President Roosevelt arrived at 10 o'clock and immediately voted.

Voted Early in Rhode Island.
Providence, R. I., Nov. 5.—The weather is clear and the early vote was unusually large today. There is a heavy turnout at the polls. The next legislature votes for a United States senator. The contest for governor is between the present incumbent, James H. Higgins, a democrat, and Lieut. Governor Frederick H. Jackson, republican.

All Claim Victory.
San Francisco, Nov. 5.—The weather is ideal for the election and the vote is unusually heavy. Mayor Taylor, Ryan, McCarty, Landrum and McDowd, through their managers, all claim victory.

Ballot Off of Vote.
Boston, Mass., Nov. 5.—The first town heard from after the polls closed showed a falling off of the vote of both parties. The relative standing of the two parties is unchanged, however.

LOS ANGELES MERCHANT SHOT BY CHICAGO BURGLAR

Californian Killed While Visiting His Brother in Windy City.

Chicago, Ill., Nov. 5.—James Allaway, wealthy commission merchant of Los Angeles, Cal., was killed by a burglar early today at the home of his brother, Edward, 415 South Walker avenue. The burglar escaped. Allaway evidently heard the burglar entering the house, as he rose from his bed in an upper room and made his way to the first floor, where the intruder was standing, armed with a revolver. He fired three shots at Allaway, all of which entered vital spots, and he died instantly. The burglar escaped over his prostrate body.

The family was awakened by the crash of the falling silver and the shots but their efforts to revive Allaway proved that he was dead.

REPORTED LINCOLN-DOUGLAS DEBATE

Chicago, Ill., Nov. 5.—Henry Blinn, well-known reporter, lawyer and author, died yesterday, age 74. As secretary for Stephen A. Douglas, he reported the famous debate with Lincoln in 1858. In 1860 and 1861 he was official reporter of the house of representatives, resigning to enter the United States army in which he rose to the rank of adjutant general.

SANTA FE SENTENCE AGAIN DEFERRED

Los Angeles, Cal., Nov. 5.—Judge Olin Wellborn in the United States district court today postponed the passage of sentence upon the Atchison, Topeka and Santa Fe company for rebelling, until Thursday, November 7th. The delay was ordered after Solicitor Camp, for the railway company, made an earnest plea for leniency in the amount of the judgment.

TAFT WILL ABANDON HIS EUROPEAN TRIP

Trouble at Vladivostok Causing Him to Return Home Immediately.

Mahlin, P. T., Nov. 5.—Secretary Taft, it is reported, will abandon his European trip and return direct to the Pacific coast, leaving Manila Nov. 9 at the American flag ship, Raleigh, for Yokohama, where he will take passage for San Francisco. It is reported that conditions prevailing at Vladivostok are the cause of his return to America.

The secretary has finished the business that brought him to the Philippines, but his intended visit to Honolulu and thence through the principal capitals in Europe was probably the principal part of the world tour he was making. Just what his intentions are beyond his immediate return to the United States, have not been made known.

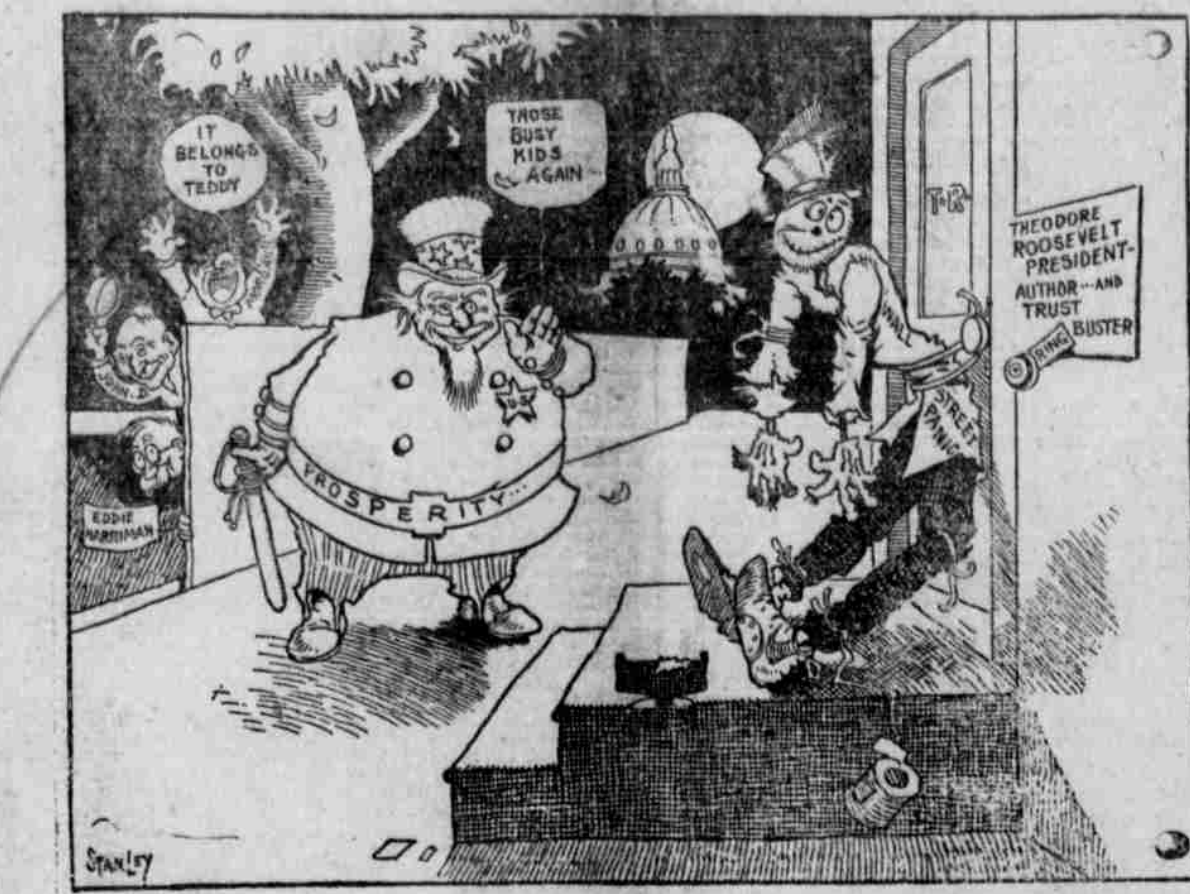

RESTRAINED FROM ASKING FOR RECEIVER

Chicago, Nov. 5.—Judge Kohlsaat in the United States court today issued an injunction restraining Geo. F. Harding of this city, from prosecuting in the state courts, a suit recently started by Harding asking for the appointment of a receiver for the Corn Products company.

Harding asked for the receiver on the ground that the Corn Products company, of which he is stockholder, is controlled by the Standard Oil company to the detriment of the smaller concern.

LOST HIS LIFE THROUGH FOUL AIR

Central City, Colo., Nov. 5.—Gus Peterson, foreman of the Golden Sun Mining and Milling company, lost his life by being overcome by foul air while at work in the main tunnel of the property on South Boulder creek 12 miles north of here this afternoon. Peterson was about 35 years old and leaves a widow and infant child. Coroner Aquilith will investigate the accident.

For political effect, the Morgan-Rockefeller-Hartman people are laying the blame of this late money panic at the door of the president.—News Item.

SHERIFF ARRESTED FOR OPENING PRISONERS LETTERS

Admits Guilt But Believed He Had Right to Read Such Mail.

CASE AFFECTS OFFICERS THROUGHOUT COUNTRY

Chicago, Nov. 5.—Fred Carter, sheriff of Lake county, Indiana, was arrested yesterday by United States Marshal David C. Hinkley, charged with having opened the mail of Alexander Paley, a former prisoner in Carter's charge. Carter admits the offense but insists that he believed he was acting in the right.

The case is unusual in the history of judicial administration and affects the offices of all sheriffs and jail keepers. It is customary in open letters addressed to prisoners. The case is unusual in the history of judicial administration and affects the offices of all sheriffs and jail keepers. It is customary in open letters addressed to prisoners.

POISON FOUND IN PERKIN'S STOMACH

Kansas City, Mo., Nov. 5.—That the cause of death of a man who died after a brief illness was poison, was proved today by the findings of a coroner's jury. The man, who died after a brief illness, was found to have poison in his stomach.

Perkins' life was insured for \$500,000, and some of the companies protested the payment of their policies on the ground that Perkins committed suicide.

At the hearing in the federal court, evidence was introduced to prove that Perkins had purchased morphine the day of his death. It was also shown that he had corresponded with members of the faculty of Ann Arbor to discover the effect of certain poisons on the human system.

FIREMAN KILLED BENEATH AN ENGINE

Hutchinson, Kan., Nov. 5.—An east-bound Rock Island freight was derailed at the Santa Fe crossing this afternoon. Sam Ralph of Pratt, fireman, was caught and killed under the engine as it turned over on its side.

SLAIN AND LEFT WITH LIGHTED BOMB IN COAT

Blood From Body's Nine Wounds Extinguished Fuse In Time to Avert an Explosion.

PROBABLY VICTIM OF HIS OWN GANG

Police Believe Dead Man Was Ordered by Black Hand to Commit Murder and Killed Because He Failed to do it.

New York, Nov. 5.—A rain-soaked policeman bound for the Mamburg avenue station in Williamsburg early yesterday morning stumbled on the body of a man in a vacant lot on No. 12 street, between Centre and Evergreen avenues. He turned it over and found that blood was flowing from nine stab wounds. On the off chance that there might be a little life left, he turned in an ambulance call, but when Dr. Slaughter, of the German hospital, arrived he declared that the man was stone dead. The body, however, was still warm, and the doctor said that there had been life in it less than an hour before.

About the first thing that came to light after the body had been taken to the Mamburg avenue station was an iron bomb with a fuse four feet long attached to it. The bomb had been securely buttoned under the man's waistcoat and the fuse had been lighted, but blood, flowing from wounds in the man's back and chest, had trickled down over the fuse and put it out.

The police lost no time in immersing the bomb in a bucket of water and then continued their examination. They found a revolver fully loaded with a cocked cylinder at the end of a lanyard running from the man's pocket through his sleeve to his wrist, and a packet of papers.

The papers had ultimately to the man's identification. Many of them were letters addressed to Vito Grimaldi, son of No. 113 Central avenue. All bore Sicilian postmarks. Other letters with American stamps were addressed to Vito Vignaroli at the same address.

Grimaldi went over to the Central avenue house and found that it was an Italian boarding house run by Bernardo Berardo, who has a grocery shop on the ground floor. Berardo, after some sweating, admitted that he knew Grimaldi or Vignaroli, that he was about thirty years old, had been known as a piano polisher, and had a wife and family in Sicily.

Berardo added that although Grimaldi had lived with him two months he had seemed able to keep himself in funds without working. Grimaldi, then, was a bad man and kept bad company.

TENSION NOW RELAXED IN FINANCIAL CIRCLES

\$8,000,000 in Gold Arrived in New York Today and Much More Is Enroute From Europe.

CURRENCY POURING INTO BROKERS' HANDS

Laboring People Take Advantage of Small Premium and Redeposit Their Cash—George Gould Talks of Foreign Situation.

New York, Nov. 5.—There was a marked relaxation of tension in banking quarters today as the election holiday, the Board of Exchange and banks gave Wall street an outward appearance of Sunday. Most of the financial leaders remained at home or at their clubs. The directors of the Trust Company of America are holding a special meeting with a view of going over the situation fully and determining their future course.

The first tangible results from the recent gold engagements abroad came today with the arrival of the steamer Kron Prinzessin Cecilie having \$8,000,000 gold aboard. This is one of the largest gold consignments ever received and it is counted on to exert a salutary influence on conditions.

Money Pours In.
Yesterday currency of all denominations poured into the offices of several brokers on Wall street, owing to an offer made of 2 1/2 and 3 1/2 per cent premium for ready money. The money came principally from the east side and men, women and children brought in amounts varying from one dollar to five or six thousand dollars. This money they exchanged for certified checks with the premium, and then deposited the checks in banks.

George J. Gould returned from Europe today. In discussing the European situation he said: "The credit situation is bad way abroad. The people of Europe have received an awful scare and are still nervous and afraid of our securities, but their view is all wrong. Our country is all right; our resources are stronger; our railroads were never busier."

Asked as to the causes of uneasiness in Europe, he said: "I believe without hesitation that the uneasiness imposed upon the Standard Oil company is the largest factor. To the people of Europe the line looked like a practical declaration of war. They fear to put their money into our big concerns, with that verdict dangling before them."

750,000 Pounds of Gold.
London, Nov. 5.—The United States government today purchased another shipment of gold, amounting to 750,000 pounds from the Bank of England. The three millions of gold in the hands of the United States government, on the White Star Line steamer Oceanic.

France Ships Gold to England.
Paris, Nov. 5.—The Bank of France today shipped three million pounds of gold to the Bank of England to relieve the tension caused by American demands.

JUDGE FULLERTON DEAD AT PRINTERS' HOME.
Colorado Springs, Colo., Nov. 5.—James H. Fullerton, known all over the country as "Judge" Fullerton, is dead at the printers' home of Chicago, Ill., where he was living.

SEVEN KILLED BY "MISSED SHOT."
Portland, Ore., Nov. 5.—A special from Lyle, Wash., says seven men were blown to pieces Friday at a construction camp on the Portland & Seattle Railway near Lyle. The dead are: Earl Erdman, Christ Peterson and five Hindus.

MARTINEZ RESIGNS FROM ARMED CRUISE.
Rio Janeiro, Brazil, Nov. 5.—The United States armored cruiser Washington, and Tennessee, the latter flying the flag of Admiral Seabra, arrived here yesterday from the Port of Spain, bound for the Pacific coast.

RAILROAD DEPARTMENT

ECONOMY POLICY FOR COMING YEAR

Eastern Roads Announce Reduction in All Possible Lines at Once.

Philadelphia, Pa., Nov. 5.—Declaring that the outlook for the coming year is unsatisfactory, the directors of the Pennsylvania Railroad company have decided to retrench, and after their meeting at which they received the usual semi-annual dividend of 3 1/2 per cent, they gave out a statement that economy would be the policy of the great corporation during 1908. The announcement was somewhat out of surprise, in view of the statement issued from President McCrea's office on Wednesday that the present earnings of the company are 11 per cent greater than they were at the same period last year.

The Reason.
President McCrea said that in view of the unsatisfactory outlook for raising new capital in 1908 it was, in his judgment, necessary and prudent for the company to continue its policy of not beginning any new work or committing the company to any new capital requirements except those absolutely necessary to economically handle its traffic. With that end in view, the company would undoubtedly restrict its expenditures to a minimum and would not push the work on the New York terminal extension or other improvements as vigorously as had been done in the past. This will somewhat delay the completion of the New York tunnel work as a whole, but progress on the East River tunnel, the erection of steel for the new terminal building in New York City and the widening of city streets and avenues will not be materially retarded by the proposed slower expenditures.

The meeting lasted but fifteen minutes, and the directors and officers then boarded a special train for New York. They will inspect terminals in New Jersey and Long Island. It is learned that the company's statement for the six months out of which the semi-annual dividend declared today will be paid, shows a net surplus after all charges and dividends of more than \$5,500,000.

RAILROAD PROBLEMS FOR

SESSION OF CONGRESS.
Washington, D. C., Nov. 5.—There will be serious consideration at the coming session of congress of a number of railroad regulation problems. They will include the question of reciprocal rates, the consolidation of railroads of stocks in other railroads and other corporations, 2-cent fare and the effect of state laws regulating passenger fares on interstate business. This is the subject of Representative Mann of Illinois. It is entitled to more than ordinary weight and consideration because of his relation as one of the trusted lieutenants of Speaker Cannon. During the administration of Mr. Cannon he has been looked upon almost as a "sub-speaker" because of the duty placed upon him of voicing the speaker's objection to legislation from the floor of the house.

"There will be other railroad matters for consideration," said Mr. Mann, "but I believe these I name will be the ones which we will weigh most seriously, and which will be thrashed out with a view to securing legislation. It seems as though we will be compelled to consider the consolidation of a condition under which states insist upon a 2-cent rate for the carriage of passengers, and yet 3 cents is charged by the same road or roads carrying interstate business. This will be one of the most difficult problems we will have to meet. Railroad men themselves agree that it is practically impossible to segregate the expense and earnings in handling passenger business from freight handling. Whatever may be the result of our investigations in that connection it will be seen that it is utterly impossible for two states like Michigan and Illinois, side by side, to enforce 2-cent rates, and yet a passenger is charged 3 cents the moment he crosses the border line between the two states."

BUYS BELEN CUT-OFF

CONSTRUCTION ENGINES.
El Paso, Texas, Nov. 5.—J. W. Gibbs has purchased a locomotive for his valley railway line, whether he builds the road or not, and men do not usually buy locomotives unless they mean to use them.
He purchased one of the construction engines in use on the Belen cut-off and now has it in the El Paso foundry for rebuilding.
Mr. Gibbs has a franchise from the county to build an interurban line from El Paso to Yuleta and the fact that he has bought the locomotive is putting it in shape for use, leads to the belief that he will soon be at work on the line.

There are two of these construction engines now in the El Paso foundry, one of them being rebuilt for the owners. Ten others have been rebuilt lately and as a man at the foundry remarked, "this does not look like hard times. Railroad contractors do not have machinery put in shape for use unless they have contracts in sight."

ASKS \$10,000 DAMAGES FOR A BROKEN LEG.
Globe, Ariz., Nov. 5.—Receiving injuries in an accident which confined him to the hospital for a season of six months and alleging that he has been permanently incapacitated, John Hall has brought suit against the Gila Valley, Globe & Northern railway, claiming damages in the sum of \$10,000.

In his complaint filed in district court yesterday Hall claims that he was employed by the defendant company as chairman in the engineering force and was engaged in locating places for mile posts along the line of the track. On April 23, with other employees of the company, he started out from Stocktonville on a railroad velocipede. He alleges that the machine was in bad shape and

suiting in an accident, in which one of his legs was broken in three different places and that he received other injuries which now promise to permanently incapacitate him.

The Brotherhood of Railroad Trainmen at San Marcial will give a ball on Christmas eve at the opera house there and a supper will also be served under the auspices of the Ladies' Auxiliary of the order. It is a number of years since the trainmen of this division have given a ball and preparations are being made that give assurance that the festivity will be a social event in San Marcial.

Superintendent Frank Myers, of the Rio Grande division, arrived from the south this morning and is looking after official matters on this end of the division. The Santa Fe is putting a lot of new track on the Rio Grande division and making a number of other improvements warranted by the growing importance of the division.

A freight wreck at Thatcher, Colo., only a few miles from Earl, where several disastrous passenger wrecks have occurred, blocked all traffic for a number of hours yesterday and all westbound trains last night arrived in a bunch. Sixteen freight cars, the engine and caboose all went into the ditch, but no one was seriously hurt. Spreading rails is given as the cause.

J. L. Hibbard, general superintendent of the coast lines, will arrive here tonight on an inspection tour. At the conclusion of the trip he will leave for his annual vacation, which he has been twice compelled to abandon owing to the illness of the assistant superintendent.

R. D. Yoakum, of St. Louis, brother of B. E. Yoakum, chairman of the Frisco board, was in the city yesterday. He is in the land department of the Frisco.

Fred Graefe, boiler shop foreman for the Santa Fe, left last night for Harpersville, Va., called there by the serious illness of his father.

E. Zimmer, an employee of the Mexican Central at Chihuahua, Mexico, was in the city. He resided here until three years ago.

Two narrow gauge engines for a Mexican railroad passed through the city yesterday on flat cars.

Conductor Will Thomas and crew were deadheaded here yesterday from Gallun.

S. C. Overstreet, special agent of the Santa Fe, was in the city yesterday.

Best remedy for mothers to use is Kennedy's Laxative Cough Syrup. It tastes nearly as good as maple sugar, it contains no opiates. Sold by J. H. O'Reilly.

ROULETTE DEALER STABBED BY NATIVE.
Refused to Permit Intoxicated Man To Gamble and Was Cut in the Back.

Carlsbad, N. M., Nov. 5.—Saturday night W. S. Dorris, who deals the wheel at the Bank saloon, was badly cut in the eye by a drunken native. Dorris was lying on a table resting when the native asked him to start up the wheel. Dorris refused to do so and the native, under the influence of liquor and refused. The man went away but returned and made a slash at Dorris' face with a pocket knife, cutting the lid and ball. The native was badly cut but the pupil or sight unharmed. He then sent Dorris to the hospital. Dr. Presley the eye specialist.

DeWitt's Carbolic Witch Hazel Salve is healing and soothing. Good for piles. Sold by J. H. O'Reilly.

MOGOLLON PIONEER DEAD AT HIS HOME.
Pete Ayers, for Many Years a Resident of That District, Succumbs to Disease.

Silver City, N. M., November 5.—Pete Ayers, a resident of Mogollon for the last fifteen years, is dead at his home in that place of kidney trouble. Deceased was aged about 55 years and is survived by a widow and five children. Mr. Ayers was a mechanic of ability and his services were always in demand in Mogollon and the surrounding district.

GATHERING FOREST SEED FOR EXPERIMENT.
Pine, Spruce and Fir Tree Seeds From Various Forests.

Rodeo, N. M., Nov. 5.—For distribution and planting in the various forests of the southwest, the work of collecting a large quantity of pine, spruce and fir tree seeds, from the Chiricahua forest has begun. Four men—two forestry men and two others—compose the force that is to engage at this work for perhaps a month.

To Cure a Cold in One Day.
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

PAIN
Pain in the head—pain anywhere, and its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove his case he has created a new blood purifier called Dr. Shoop's Headache Tablets—cures blood pressure away from its center. Its effect is clearing, pleasurable, delicate, gentle, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are restless, nervous, it's blood congestion—blood pressure. That surely is a certainty for Dr. Shoop's Headache Tablets stop it in 30 minutes, and the tablets simply distribute the unnatural blood pressure.

Brush your finger and don't let it get red, and swell, and pain you! Of course it does. It's congestion, blood pressure. You'll find it where said is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

PERSONAL Paragraphs

Rev. W. W. Havens is in Santa Fe on business.
J. D. Reardon is a visitor from Thoreau in the city.
C. O. Terry, of this city, leaves tonight for El Paso.

Canuto Madrid, Santa Cruz farmer, is in Santa Fe today on business.
Feliz Gomez, of Manzano, Torrance county, was in Santa Fe today.

F. B. Hodges, of Enid, is transacting business in Albuquerque.
Mr. and Mrs. John R. Teasdale, of St. Louis, are in Santa Fe visiting friends.

B. A. McMurray and F. J. Schroeder are two Fort Collins visitors in the city.

C. M. Surfus, of Santa Fe, is in the city. He is engaged in shipping Indian relics to eastern collectors.

A. H. Case, interested in mining in San Pedro, south Santa Fe county, was in Santa Fe today on business.

Today a marriage license was issued to Maria Beatriz Juanchico and Francisco Garcia, both Indians of Isleta.

E. D. Armijo, rancher in the vicinity of Encino, Torrance county, today looked after personal business in Santa Fe.

Charles Springer, of Cimarron, president of the territorial board of water commissioners, was in Santa Fe yesterday.

Manuel Martinez, of Taos, member and secretary of the territorial board of water commissioners was in Santa Fe yesterday.

Antonio J. Aguilar, a prosperous farmer and sheep raiser of Guadalupe county, who lives at Antonchico, was in Santa Fe yesterday.

Oscar C. Snow, of Las Cruces, was in Santa Fe yesterday to attend the meeting of the territorial board of water commissioners of which he is a member.

Major Robert C. Van Vleet, of the U. S. army, who has been visiting his son on the Upper Pecos valley, left last night for his station at Fort Liscum, Alaska.

James C. Sears and son, of Raton, are in Santa Fe. Mr. Sears, who is now in the insurance business was for many years connected with the Santa Fe railway.

Mrs. Julia C. Miles, of Los Angeles, Calif., cousin of Governor Curry, arrived in Santa Fe yesterday and will be a guest for some time at the executive residence.

Mrs. Green and daughter, wife and daughter of Captain John W. Green, newly appointed superintendent of the territorial prison at Santa Fe, left last night to join Capt. Green.

H. C. Vilas, a rancher on the Pecos national forest, stationed at Cleveland, arrived in Santa Fe today from Las Vegas. He was accompanied by his wife who is a bride of a few days.

Mrs. Ella Davidson arrived in Santa Fe last night from Roswell and will make her home hereafter in Santa Fe. She will take charge of the hotel in connection with the Claire hotel.

Marriage licenses were granted on Saturday to Elosia Lucero, of Albuquerque and Roman Sandoval, of Buena Vista, and to Trinidad Chavez, of Albuquerque and Adolfo Nuñez, of Candelaria.

M. N. Mikessell, general manager of the Farmers' Development company and the Miami Ranch company on the Rayado river in Colfax county, is attending to company business in Santa Fe.

Morton McMillan, son of Judge Daniel H. McMillan and a member of the law firm of McMillan and McMillan, at Las Cruces, is in Santa Fe on a visit to Mrs. Ross McMillan, his sister-in-law.

C. E. Hartley, of Springer, manager of the French Land and Irrigation company, was in Santa Fe yesterday. Mr. Hartley had business before the territorial board of water commissioners.

Dr. Charles A. Wheeler, of Santa Fe, left this morning for the Pecos mining district where the Cascade Mining company, of which he is a member, has several mining claims which it is working.

William McIntosh, who has an extensive sheep ranch in the Estancia valley and after whom the town of McIntosh was named in Santa Fe, today accompanied by his brother, John McIntosh, of Las Animas, Colo.

Emilio Zazami, the soldier who was taken from the train here last week and died Friday, was buried yesterday according to instructions received from his parents who reside at Cranston, N. J. Father and mother officiated.

Mr. and Mrs. G. D. Kirkpatrick, of Washington, D. C., arrived in Santa Fe today. Mrs. Kirkpatrick was formerly Miss Grace Grygla, and is a daughter of Frank Grygla, special agent of the United States land office, whose headquarters are in Santa Fe. Mr. Kirkpatrick is an examiner of surveys for the general land office and will be in that vicinity for some time on official business.

Mrs. William A. Buddecke, wife of the owner of the Las Vegas street railway, died at the Meadow City Sunday evening after a long illness and she remains in the St. Louis for burial. Mr. and Mrs. Buddecke came to New Mexico three years ago from St. Louis and he has become prominent in Las Vegas business life. His wife, while in for some time, was one of the most popular women in Las Vegas.

H. L. Bickley, attorney of Raton, was in Santa Fe yesterday. He appeared before the territorial board of water commissioners as counsel for the Farmers' Development company in a case in which citizens of Colfax county and others including Henry H. Porter, of Denver, Louis A. Chandler and others, are applicants from the decision of Territorial Engineer V. L. Sullivan involving water rights claimed by the Farmers' Development company.

Traveling Auditor Charles V. Safford is in the southern part of the territory on official business. He is at present at Mesilla Park, auditing the books of the New Mexico School of Agriculture and Mechanic Arts. Mr. Safford will make an examination of the books of the various territorial institutions, and install a uniform system of bookkeeping in each. He recently completed the examination of the books of the territorial university.

A Significant Prayer.
"May the lord help you make Buckle's America Save knock on the door. It quickly took the pain out of a felon for me and cured it in a wonderful short time." Best an anodyne for sore throats and wounds.

Do not let your throat and wounds suffer. It is simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

DO NOT KNOW WHAT CAUSES SICKNESS

Modern People Have Many Names For Same Diseases According to New Belief.

Does human health depend on one organ alone? This question is becoming widely discussed since L. T. Cooper first discovered his theory that the stomach is the true seat of life and all health dependent upon it.

Mr. Cooper, who has met with remarkable success in the sale of his new medicine, believes that the stomach is responsible for most sickness, and that this organ is weak in the present generation. While discussing his theory recently, he said: "I am asked time and again to tell why my medicine has made such a record wherever I have introduced it. My answer always is, 'because it restores the stomach to a normal condition.'"

No one will deny that today there are more half-sick men and women than ever before. Nothing critical seems to be the matter with them. They feel all right, but they are not. They don't know really what is the matter with them. I have talked with thousands during the past two years, and few knew indeed what their trouble was. One said nervously, another said kidney trouble, another liver complaint, some constipation, or heart trouble, or lung trouble. Many had treated, as they called it, for most of these diseases at different times. A very common complaint is 'all run down,' or 'tired all the time,' or 'no appetite.'"

"I know positively that every bit of this chronic ill health is caused by stomach trouble, and nothing else. My New Discovery puts the stomach in sound condition in about six weeks. Mighty few people can be cured with a sound digestion. That is why

my medicine is selling at such a tremendous rate. I have convinced many thousands of people that these things are so, and the number is growing by leaps and bounds."

Among more recent converts to Mr. Cooper's beliefs is Mr. Edgar L. Hinds, living at 5 Tappan street, Everett, Mass. Mr. Hinds has this to say on the subject:

"I have suffered with stomach trouble for eight years. I was not sick enough to be in bed, but just felt that I was going to die. My greatest trouble was that I always felt tired, would get up in the morning feeling as tired as when I went to bed."

"I had a very irregular appetite, and was troubled with dizzy spells. If I stood for any length of time, I would have a dull pain in the lower part of my back. I was nervous and felt all the time as though something terrible was going to happen. I tried many kinds of medicine, but nothing ever helped me."

"I had about given up all hope of ever being in good health again, when I heard so much of Cooper and decided to try his medicine. I took one bottle of his New Discovery and was greatly surprised at the result. I gained 12 pounds in a few weeks. I can now eat anything I wish, and feel like a new man. I cheerfully recommend this medicine to all sufferers from stomach trouble."

It is worth anyone's time who is not enjoying good health, to learn of Mr. Cooper's wonderful preparations. We are selling them in large quantities. B. H. O'REILLY, corner Second and Central.

CERTIFICATE OF COMPARISON
Territory of New Mexico,
Office of the Secretary.

I, Nathan Jaffa, Secretary of the Territory of New Mexico, do hereby certify that there was filed for record in this office at 2:00 o'clock p. m., on the thirtieth day of October, A. D. 1907.

Articles of Incorporation of the Albuquerque Clearing House Association.
(No. 5211).

and also, that I have compared the foregoing copy of the same, with the original thereof now on file, and declare it to be a correct transcript thereof, and of the whole thereof, given under my hand and the seal of the Territory of New Mexico, at the city of Santa Fe, the capital on this thirtieth day of October, A. D. 1907.

NATHAN JAFFA,
Secretary of New Mexico,
The Albuquerque Clearing House Association.

CERTIFICATE OF INCORPORATION.
We, the undersigned, in order to form a corporation for the purposes hereinafter stated, under and pursuant to the provisions of an Act of the Territory of New Mexico, entitled, "An Act to Regulate the Formation and Government of Corporations for Mining, Manufacturing, Industrial and Other Purposes," approved March 15, 1905, do hereby certify as follows:

I. The corporate name is: The Albuquerque Clearing House Association.

II. The registered office of the corporation is No. 117 West Gold avenue, Albuquerque, New Mexico, and the principal office is at the same place.

III. The objects for which the corporation is established are primarily:

1. The establishing and carrying on of a clearing house for the purpose of enabling the banks in the city of Albuquerque, represented in said association by officers or other representatives of each bank, to stockholders or officers of the association to conveniently settle checks, drafts, other forms of negotiable paper, and all such other mutual claims as may be incurred by such banks, subject to settlement between them, and the payment and adjustment of the balances arising on account of such settlements, and to carry on all business usually done by a clearing house association.

2. As subsidiary to and in connection with the foregoing, from time to time, the association shall have the power to prescribe by its by-laws the number of its directors, the names of its officers and their duties. Its directors shall also be authorized and empowered to pass upon the qualifications and admission into the association of banks hereafter established in the city of Albuquerque.

Said association shall also have the right to issue what are known as Clearing House Certificates for such balances, checks, or other indebtedness cleared through the association. Said association may also, in times of financial distress, issue to its members Clearing House Certificates, secured by paper, bonds, notes, or other sufficient collateral, approved by its board of directors, and under and in accordance with the rules and by-laws of the association; such certificates to be taken up and retired as soon as the emergency requiring their issuance is past.

Said association shall have power to acquire title to such property, real, personal and mixed, as the nature of its business, in the opinion of its directors, may require and as may be deemed advisable.

Said association may purchase, hold and release the shares of its capital stock, its bonds or other securities.

The foregoing clauses shall be construed in accordance with the laws of the Territory of New Mexico.

San Juan county—W. E. Williams, treasurer: Tax of 1905, \$6.12; 1906, \$175.33; 1907, \$59.53. Total, \$270.98.

San Miguel county—Eugenio Romero, treasurer: Tax of 1906, \$581.38.

Santa Fe county—Celsa Lopez, treasurer: Tax of 1904, 23c; 1906, \$201.69. Total, \$201.92.

Sierra county—John C. Plemons, treasurer: Tax of 1906, \$128.61.

Socorro county—Jose E. Torres, treasurer: Tax of 1905, \$2.96; 1906, \$4.81; 1907, \$1.07. Total, \$8.84.

Torrance county—Marcelo Torres, treasurer: Tax of 1906, \$84.77.

Taos county—Nicolas Anaya, treasurer: Tax of 1906, \$45.33; 1907, \$77.73. Total, \$123.06.

Union county—S. A. Maestas, treasurer: Tax of 1905, \$157.54; 1907, \$51.39. Total \$208.93.

Valencia county—Solomon Luna, treasurer: Tax of 1906, \$794.97.

INDICTED FOR ROBBERY
BOX CAR OF LIQUOR

Six Men Charged by Tucson Jury
With Stealing and Selling Whiskey to Indians.

Tucson, Ariz., Nov. 5.—The United States grand jury has returned indictments against the six men, all charged, with the exception of Griffin, who is charged with entering a box car, with having sold liquor to Indians.

"LITTLE JOHNNY JONES"
ON NOVEMBER 11

"Little Johnny Jones," which will be seen in this city in the near future has scored one of the biggest hits of recent years. Fully half a season it was presented to crowded houses in New York City and during an entire summer it played to capacity houses at the fashionable Illinois theatre in Chicago where it scored a record of one hundred performances. The same complete scenic production as presented in those cities will be seen here. The company numbers seventy-five people including one of the best drilled and most efficient choruses in America.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

DARING SYNDICATE COMMITS SCORES OF TERRIBLE CRIMES

Secret Murders Done For Heavy Price
and Hundreds of Thousands Are
Stolen by Its Members.

Anthony Thomas.

Francis Thomas.

Paris, Nov. 5.—A crime syndicate, organized for mammoth theft and diabolical murder, is the absorbing story of the day that startles France and all Europe.

New details are coming to notice every day of the criminal operations of the brothers Anthony and Francis Thomas. These two men seem to have combined the minds of Borgias, the leaders of the inquisition and the robber barons. For they poisoned, tortured and stole for years, undetected, until, becoming bold beyond fear of detection, apparently, their carelessness ended in arrest.

For years continental churches have lost priceless treasures mysteriously. Jeweled crosses, chalices, statues, pictures and tapestries from the hands of the greatest masters have disappeared in a night.

So widely separated were the thefts that they were laid to local criminals. No one dreamed of a crime syndicate. But it existed. The Thomases comprised its working part, stealing hundreds of thousands of dollars worth of relics, antiques and curios from church, chateau or museum, and finding a ready market among dealers or private collectors.

When apprehended, the Thomases were searched and evidence

selves is said to be serious.

After having killed not less than 1000 worth of young colts for Billy Cook on his range on the Black Canyon road in Arizona in the past two years, one of the biggest mountain lions ever brought down in Arizona was killed at the ranch a few days ago, and the hide taken to Phoenix by T. W. Chamberlain.

A list of names aggregating 1000 children of Tucson, Ariz., who fail to attend the public school, has been handed in by Superintendent W. M. Ruttruff to the board of school trustees and the officers of both the city and county will be asked by the board to see that the truancy law is enforced.

Approximately 172,810 acres of land in central Arizona have been withdrawn from all forms of disposal, except under the mineral laws, as a proposed addition to the Tonto National forest, in Arizona. The withdrawn area lies along the southern border of the national forest, near the town of Phoenix, and is within the Phoenix land district.

Stating that his son, Fred Tully, was under age and consequently could not be legally married without the consent of his parents, Chas. Tully of Phoenix, Ariz., visited the probate office to obtain confirmation of the report of the marriage of his son to Carmen Du Bois, and stated to Probate Judge Kirkpatrick that he would begin proceedings to annul the marriage.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by all dealers.

Bring us your job work. Prices the very lowest and the work will stand inspection anywhere. Business and calling cards a specialty.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever produced. Not a grain of real Coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for Coffee. Sold by all dealers.

BORN--AN IDEA

ABOUT THE RAREST THING THAT EVER HAPPENS IN THIS OLD WORLD OF OURS, IS THE BIRTH OF A NEW IDEA, AND THE FORTUNATE POSSESSOR OF A FINE LARGE ONE IS WORTH MORE TO HIMSELF AND MORE TO THE WORLD THAN THE SANTA FE RAILROAD.

PSYCHOLOGISTS, WHO MAKE A BUSINESS OF SORTING OUT IDEAS AND SPYING INTO THE WAYS THEY ARE BORN, SAY THAT AFTER YOU PASS THE AGE OF ABOUT TWENTY, YOUR IDEA-BEARING DAYS ARE ETERNALLY OVER. IF YOU ARE STILL ON THE TENDER SIDE OF THIS AGE—AND ARE WISE—YOU MAY WISH TO READ THIS STATEMENT AGAIN.

NOW THE ALBUQUERQUE CITIZEN CARRIES IDEAS IN STOCK, WHERE THEY CAME FROM AND WHO THEIR PARENTS ARE IS NEITHER HERE NOR THERE. SOME OF THEM RUN ALONG THE LINES OF BUSINESS BUILDING AND TRADE GETTING. THESE IDEAS WILL BE SOLD, LEASED OR RENTED TO THE PUBLIC, FOR CASH OR ON THE INSTALLMENT PLAN.

THEY KEEP A YOUNG FELLOW AROUND THE OFFICE, AND PAY HIM EVERY WEEK, TO DO NOTHING BUT LOOK AFTER THE ADVERTISING. THERE IS NOTHING HE LIKES BETTER THAN TO HAVE SOME ONE COME IN AND SAY: "HERE I WANT TO SPEND \$50.00 EVERY MONTH IN ADVERTISING. I WISH YOU WOULD TAKE THE WHOLE THING OFF MY HANDS, AND RUN IT AS YOU THINK BEST. I HAVE OTHER MATTERS TO CARE FOR AND YOU PROBABLY KNOW MORE ABOUT IT THAN I, ANYWAY."

A NUMBER OF ALBUQUERQUE BUSINESS MEN HAVE ALREADY MADE SUCH ARRANGEMENTS—MORE ARE DOING IT EVERY DAY. ONE WISE MERCHANT, WHO ATTEMPTS TO DRAW A LINE DIVIDING THE PATRONAGE HE RECEIVES FROM ADVERTISING, FROM THAT COMING THROUGH OTHER CHANNELS, INFORMED US ONLY YESTERDAY THAT HIS ADVERTISEMENT IN THE ALBUQUERQUE CITIZEN DURING THE TWO MONTHS IT HAS RUN, HAS NETTED HIM SUFFICIENT TO PAY FOR THE ADVERTISEMENT FOR SIX MONTHS. ANY ADVERTISEMENT THAT PAYS FOR ITSELF IN DIRECT, IMMEDIATE RETURNS, IS A GOOD INVESTMENT, BECAUSE YOU GET YOUR MONEY BACK, AND THE EXTENDED PUBLICITY TO BOOT. BUT WHEN RESULTS ARE SUCH AS THIS MAN EXPERIENCED YOU ARE GETTING LITTLE LESS THAN A GOLD MINE.

THE FIRST MAN IN THE ADVERTISING FIELD REAPS THE FINEST OF THE WHEAT, THE LATE-COMERS GLEAN THE STUBBLES. DUKE, THE TOBACCO KING, IN CONVERSATION WITH THE WHIPPER ONCE SAID: "I BEGAN LIFE ON A STONE PATCH, WITH A WIFE, A BLIND MULE AND TEN DOLLARS. I AM NOW WORTH THIRTY TWO MILLION DOLLARS, BUT I HAVE SPENT FORTY MILLION IN ADVERTISING." PROBABLY NO MAN IN ALBUQUERQUE HAS HAD A MORE MODEST BEGINNING THAN MR. DUKE, AND THERE IS NO REASON WHY ANY MAN WITH EQUAL BUSINESS ABILITY, AND POSSESSED OF THE SAME BUSINESS FORESIGHT, SHOULD NOT SUCCEED AS WELL. IF THERE IS, STATE IT TO YOURSELF, AND BE CONSOLID. IT IS AN OLD SAW, BUT A KEEN CUTTER, THAT SAYS: "IT PAYS TO ADVERTISE."

"STATEHOOD FOR NEW MEXICO"

The Burglar is Happy

These are palmy days for the burglar, the porch climber and the man with the jimmy generally.

The scared persons who take money from the banks and hoard it up in an old sock, or poke it under the corner of the carpet in the back bedroom, are taking a whole lot of foolish risk.

This condition, of course, does not apply to Albuquerque, where conditions are normal as usual.

In New York, however, where high financiers are so common as to make Mr. Common Greaser tremble in his boots, the police department has found it necessary to issue a warning to the people not to hide their available assets in the house.

The recent flurry on the street is over and the financial institutions are again doing a normal business, but a few easily frightened individuals are taking long chances with their money by still hoarding it at home.

The St. Louis Globe-Democrat in commenting upon the chances taken by the people who handle their currency through the banks as against those who hoard it at home, finds that the banks have all the best of the argument particularly in the cities.

The St. Louis paper says:
The persons who are drawing money out of the banks and putting it in private hoards are being attacked in two ways these days. First, they are losing all interest upon it, and in some cases are being shut out of the safe deposit companies. Secondly, in concealing it in their own homes or in other hiding places they run a risk of losing it from the irruption of sneak thieves and burglars who are beginning to get busy. Some of the New York safe deposit people are refusing to furnish receipts to the scared persons who are coming to them with the money which has been drawn from the banks, and are thus compelling them to keep it in some improvised receptacles around their own homes.

New York's police department has sent out warnings to that city to be on the lookout for burglars, who are expected to be especially active until the present money scare ends. As tens of thousands of persons in New York have probably taken their money out of the banks and secreted it at home the burglars are looking for active "business" in their line for the next few weeks or months. The warning which the New York police has sent out is applicable, in a smaller way, to all the other towns of any consequence in the country. The burglars are looking for a harvest in this frantic finance which is hoarding up cash that ought to be left in the banks, or placed there when obtained. Helms, Ryan, Belmont and the rest of the high financiers who have brought on this flurry are powerful friends of the burglars and sneak thieves.

The proper place for money in this exigency is in the banks, where it will circulate in trade channels and relieve the tension. Secretary Cortes you threw many millions of treasury deposits into the national banks a few days ago. J. P. Morgan did the same, and others of the solid financiers who turn up in a crisis are doing the same thing. Most of the hoarders are ignorant or thoughtless, and do not know the damage which they are inflicting on themselves and on the community. In a city like St. Louis, where all the banks are sound, there is not the slightest excuse for a scare. Every financial institution in this city is solvent. It can pay dollar for dollar of all its liabilities. The hoarders themselves will be the chief sufferers from their blindness, but in a certain degree the entire community will be hampered. Put the money in the banks and keep it there to be used in meeting legitimate and current needs.

The Joy of Living

These are the golden days of the year—the days when it is good to live—the days when the sun shines the brightest, the leaves are golden, the breeze is the softest and the air is the purest.

Albuquerque has a good climate the year round but in the fall there is no place on earth where the weather is so perfect.

The early mornings are bright, the air is crisp, a light frost covers the ground.

As the day grows, the air becomes warmer, the sun shines brighter, the frost disappears.

The mountains that early appear only a few miles away, gradually take their usual place in the distance and the light snowfall upon their tops is plainly visible.

The sun goes down in a glow of red, and the nights are just chilly enough to make blankets comfortable.

These are the days when it is good to live in the southwest, although life is worth while all the time.

The autumn days are the ones that make New Mexico famous over all the land and fill the old timer's heart with memories of youth.

One who has never lived in New Mexico has missed a chapter in earthly existence that will always be a blank.

The appointment of statehood league precinct officers by President W. B. Childers of the Bernalillo county statehood league as announced in The Citizen of yesterday, now puts the local statehood league in good working order. The precinct officers were named without regard to party affiliations and should join heartily in working with the statehood organization for the new state. The Citizen hopes that Governor Curry will be able to meet with the league in the near future, and that he will soon be in position to complete the territorial statehood league, which will be a strong factor in the fight for statehood. The time is certainly ripe for statehood and The Citizen believes that it is within our reach if a determined fight for it is made. We won't take NO for an answer.

The Citizen was informed on what appears to be good authority, that a reduction in the price of meats in this city will be made soon. The people will appreciate such a reduction more than in any other line perhaps, since the working man, the one who labors, needs plenty of meat to maintain his strength and at present prices, he can not afford to eat meat regularly. At that, The Citizen demonstrated in its recent news stories on the cost of living, that meat was among the cheapest necessities sold in Albuquerque even under present conditions. However, a reduction will certainly come as a message of joy to the people of Albuquerque. If other food stuffs will be reduced on the same ratio it will help matters exceedingly.

The theatrical season for 1907-08 appears to present a good list of attractions for the theatre-goers of Albuquerque. It is to be hoped that the list of attractions already booked will appear here and that the management may secure additional numbers. Albuquerque has one of the best play houses in the southwest, her people are liberal patrons of good shows and there is no reason why Albuquerque should not be a good show town.

Chatanooga Times: General Frederick D. Grant, the son of the "great commander," wore a confederate badge over his United States army uniform on "Confederate Day" at the Jamestown exposition, and declared himself proud of it. Still there are a lot of alleged survivors of the civil war who foam at the mouth at the mention of honor to Lee and Jackson.

While the city council is engaged in considering the gas problem, the street commissioner is busily engaged in building dikes up and down Central avenue. The city council is being overworked.

This is the foot ball season and as the poet of the St. Louis Times remarks: "Foot ball time is here, the greatest time of the year. Sum, I suppose, will lose a nose and sum will lose a ear."

The Bernalillo county prisoners who attempted to break jail Saturday night evidently didn't know that the lid was on Sunday or they would have waited another day. What's the use of being out of jail?

Four thousand miners in Danville, Illinois, have gone on a strike—probably to help the financial condition.

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

YOU CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

ABOUT TOWN

Deaths Filed for Record.

Nov. 4.—R. W. D. Bryan and wife, to Adella Fracaroli and husband, lots 5 and 6, block 6, H. Atlantic and Pacific addition. Antonio Lucero et al, to Primitivo Lucero et al, two pieces of land in precinct No. 4, 110. W. C. Warlick and wife to Eliza V. Craig, part of lot 2, block 6, C. W. Lewis Highland addition. Augustin Griego and wife to Alonzo Montoya, two pieces of land in Los Candelarias.

Good sweet Florida oranges on sale at the Hohenleu Grocery.

Mrs. J. P. Monday and Mrs. F. M. Barnes left last night for El Paso for an indefinite stay.

There will be a regular meeting of the Knights of Columbus tomorrow evening at Red Men's hall.

John Cuneo has returned from California and is seriously ill at his home, 915 North Sixth street.

The California limited was two hours late today as a result of being pocketed by a couple of heavy freight trains.

The Non-Sectarian Benevolent Society will hold its regular meeting tomorrow afternoon at 2:30 o'clock at the office of F. W. Clancy.

The Ladies Aid society of the Lutheran church will hold their regular meeting tomorrow afternoon at 2 o'clock in the church parlors.

St. John's Guild will hold a regular meeting tomorrow afternoon. The election of officers is to occur. All members are requested to attend.

The regular meeting of the Fraternal Order of Eagles will be held this evening at 8 o'clock at Red Men's hall. A full attendance is desired. Visiting Eagles are cordially welcome.

The dance at the Commercial club tomorrow evening will be an informal affair and promises to be a delightful one. A number of out town people visiting in the city are expected to be present.

A social will be given at the residence of Mrs. E. H. Harlow, 110 South Arno street, Wednesday night from 7 to 10:30, for the Sunday school and all young people of St. John's Episcopal church.

Work of repairing the store room formerly occupied by the Dreamland theatre and damaged by fire, was begun today. The interior—all that was damaged by the fire—will be replaced and a new front will be added.

Articles of incorporation were filed yesterday in the county probate clerk's office of the Aztec Fuel Co. The company is organized to conduct a general fuel business, 2,000 shares at \$1 a share have been issued and subscribed for by the incorporators, J. T. McLaughlin, C. F. Wade and Maynard Gunsul.

There will be a regular meeting of Albuquerque Encampment No. 4, I. O. O. F., this evening promptly at 7:30 o'clock. R. P. degree and farewell reception to Brother Stadler between 8 and 10 o'clock, to which all Odd Fellows are invited, whether members of the encampment or not. Refreshments will be served.

Learnard and Lindemann's Boys' band held a meeting last night and elected officers for the ensuing year. The advancement made by the band during the few months has been marvelous, thanks to the tireless work of Professor Ellis, the instructor, and the prospects for the year just begun promise great things for the organization. The newly elected officers are as follows: President, Willie Kieck; business manager, Charles Clark; vice president, Ray Carson; secretary and treasurer, Roy Yott.

On the dissolution of the hotel firm of Guillon and Walsh, proprietors of the Savoy hotel and bar, Mr. Guillon closed with the owners of the property for a long time lease and is now the sole proprietor of the place. Arrangements have not been entirely completed, but it is expected that Mr. Walsh will sub lease the bar room from Mr. Guillon. The restaurant formerly known as the Savoy restaurant, will either be sublet by Mr. Guillon or conducted by him. On account of its close proximity to the Santa Fe station the Savoy hotel is considered one of the best hotel propositions in Albuquerque.

DEPOT SLOT MACHINE SUFFERS FROM A RUN

A "No Funds" Sign Had to be Hung Out at Close of Sunday's Business.

Several of Albuquerque's most enterprising young Americans have solved the Sunday lid proposition as far as getting gum and candy is concerned. A peck measure full of copper cents taken from the slot machine in the Santa Fe station house on Monday morning is evidence.

All day Sunday a stream of un-cents large and small and of all colors filed in and out of the station house and from early in the morning until late in the evening, the slot machine there was kept busy registering pennies and slipping pieces of gum and candy into the chubby hands inserted into the aperture below to receive them.

In fact the machine suffered a run and had the panic lasted for another day the supply of gum and candy on hand would have been drawn on to such an extent that a "no funds" sign would have had to be exhibited. But the institution was saved by the close of the day's business and the reopening of the candy stores down town on Monday.

BASKET BALL PLAYERS DOING HARD PRACTICE

The young men composing the basket ball teams, which will be adversaries at Colombo hall next Friday evening, are practicing every evening in preparation for the game. On one side will be the Minors, an organization which has existed for several years, and on the other will be the Kids, a team composed of a remnant of the Majors of last year, with some new material.

The players will line up as follows:
Minors—W. Anderson, w; Ed. Stumquist, c; F. G. Myers, c; W. Bergen, f; G. Bearup, g.
Kids—McMillin, w; Benjamin, c; Lambke, c; Elliott, c; Brown, g.

CRYING FOR HELP.

Lots Of It In Albuquerque But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed.

Not one so important to health.

The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help.

Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from an Albuquerque citizen:

Mrs. E. Fournelle, living at 403 S. Broadway, Albuquerque, N. M., says: "I have recommended Doan's Kidney Pills to a great many of my friends and acquaintances, and they have learned of a valuable medicine and, like myself, appreciate it exceedingly. Two years ago I took Doan's Kidney Pills, using in all three boxes, and was cured of pain in my back, a trouble which I had for a good many years. I was also greatly relieved of rheumatism at the time and have never been bothered with this complaint since. There is no question as to the virtue of Doan's Kidney Pills." For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

McINTOSH HARDWARE CO.

CARLISLE UNIVERSITY INDIAN ELEVEN MAKING STRIDES FOR 1907 FOOTBALL CHAMPIONSHIP

Warner's New Machine Which He Makes the Carlisle Indians Charge at Full Tilt.

Carlisle, Pa., Nov. 5.—With the heaviest schedule ever made for a foot ball eleven, including Princeton, Harvard, Minnesota and Chicago with Pennsylvania already disposed of, the

Carlisle Indians may win the foot ball championship of the country. To get his men in condition for their heavy task, Head Coach Glenn S. Warner drills his line men in charging by sending them at a half-ton sledge, or charging machine.

The coaches have worked up a great number of trick plays which the wonderful speed of the Indian backfield makes possible. These tricks have confounded every team the Indians have faced this fall and aided the eleven to pile up big scores.

IN MEMORIAM

A loving husband and father, Jose B. Montoya, died at Thoreau, N. M., Sunday evening at the age of fifty-one years. He had been ill for some hours and after receiving the holy sacrament, he passed away most peacefully into the everlasting life, leaving behind to grieve over his untimely death, a wife, a married daughter, Mrs. Telesforo Mirabal, of San Rafael, four other daughters, three sons, a sister at Santa Fe, a brother at Raton, and many other relatives.

The funeral was held Monday afternoon at 3 o'clock and the funeral cortege in carriages and wagons accompanied the remains to their last resting place in the Catholic cemetery.

The bereaved family extends its sincere thanks to the friends for their sympathy during their sad bereavement.

Piles Cured in 6 to 14 Days. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50 cents.

The Busiest Drug House Between Denver and Los Angeles

MR. GRIFFITH HAS ASKS POLICE TO AID THE PEOPLE IN SEARCH FOR GUESSING WIFE

Does Most Remarkable Stunts While Practicing Hypnotism.

To believe or not to believe? That is the question that arises in the minds of a majority of the people, who yesterday witnessed the performance of Professor Griffith, the hypnotist.

In the afternoon the hypnotist allowed the minds of several representative business men of the city to control him in a mad drive about the city in finding a knife that had been hidden behind a sign board in front of the Iceberg saloon, 212 West Central avenue. The feat was a remarkable one and it doesn't seem possible that any condition of fraud could be worked into it.

In the evening at the Elks' opera house the hypnotist appeared in a hypnotic role in a condition entirely different from the conditions which ruled the performance of the afternoon. Instead of allowing the minds of others to direct his movements, he caused his mind to overcome the spirit of animation of a young woman, who is a member of his company.

After putting her to sleep, the hypnotist caused the subject to move about the opera house at the mere beckoning of his will and little mysterious gestures of his hands. At times he would yield influence over the woman by the hand held straight out before him and then at others the hypnotist would assume the severest gravity of countenance and wiggle his hands at the subject with an air of mystery to every gesture.

The performance, however, was very remarkable. The woman, apparently asleep, and without conversation with the hypnotist, answered questions asked by persons in the audience by movements and all were answered correctly.

For instance, one person asked the hypnotist to have her go to one person and get a pencil and take to another person, on the opposite side of the house, and she did so without a mis-step or a mistake. Another requested the hypnotist to have the subject go up on the stage and slap a certain young man known by name, and she did so with such telling effect that the smack could be heard all over the house.

The performance on the stage by subjects taken from the audience were grotesque and many of them seemed very real, while others were rather flimsy. While some of those who went on the stage are well known in the city, the addresses of others could not be secured. As far as could be learned they were strangers in the city.

The Griffiths will hold forth at the opera house the remainder of the week. The attendance last evening about half filled the Elks' opera house.

Geo. L. Wade, the merry minstrel man, resplendent in burnt cork, a white starvelled costume and the skeleton of a palm-leaf fan, made merry a few brief minutes at the Crystal last night to the delight of everybody. Mr. Wade is a real comedian, all right, all right, and he will undoubtedly draw large houses to the Crystal all week.

Grace Russell and Co. was another act that seemed to please right well. They do a burlesque on Uncle Tom's Cabin that is ridiculous but funny.

A race for millions has been lost in its of fascination for the lovers of sensation and Billy Behan and Co., though in their last week of stock, seem to go well with the audience. Last night they introduced a new stunt, that of chasing each other about in the audience.

Rogers' song is as usual very pretty and well rendered.

Mattresses made over at Chas. L. Keppeler's 317-19 South Second.

MRS. M. F. MYERS, Proprietress

COMMITTEE APPOINTED TO INVESTIGATE CITY GAS

Company Management Makes Statement Regarding Service.

Summers Burkhardt, an attorney, took up much of the time of the city council last night in discussing the gas that he gets at his house, 501 West Tijeras avenue, from the pipes of the Albuquerque Gas, Electric Light & Power company. Besides submitting to the council a lengthy manuscript setting forth his grievances, Mr. Burkhardt spoke to the council for some length of time. He said that the gas company was not living up to the terms of its franchise and that its franchise should be taken away.

T. N. Wilkerson, member of the council, also spoke at length upon the subject, agreeing with Mr. Burkhardt in many respects.

E. C. Butler, manager of the company, having been notified that a denunciation of the company's property would be made at the council, was present and offered a vigorous protest. He said that the company was living up to the terms of its franchise in every respect. He explained that a number of improvements had recently been made at the plant and that Albuquerque was getting the best gas it had ever had. He said that the reason why some people were making complaints now was because they were compelled to pay the full rate for the gas they used.

Mayor McKee interrupted Mr. Butler and told him that he could continue his arguments after the council meeting. Too much time had been taken up by the discussion already.

The subject was discussed by the mayor appointing a committee to investigate the gas furnished by the company by the use of a gas tester. The committee was also appointed a grievance committee, which would investigate the gas furnished by the company and satisfy itself as to conditions before reporting.

Mr. Butler Makes Statement.

Mr. Butler, in the light of the situation, the people just at present, The Citizen today secured a statement from E. C. Butler, manager of the company.

Mr. Butler said:

"The quality of gas has been at all times, with the exception of two or three instances, of standard quality of 16 candle power, and under a pressure of 40 tenths of an inch, which we were forced to place in the mains to maintain the service at the time of the gas strike. It becomes necessary to adjust the air mixers, which are on all stoves, to get the proper percentage of air mixture with the gas. The gas is carried in pipes and enters the burner pipes on the stoves, and gas flowing with a slightly increased velocity takes up more air than enough to reduce its richness and give the blue flame which is necessary to give the greatest amount of heat. Consequently it is necessary to close the air mixers reducing the flow of air. The flow of gas through the pipe is the same regardless of the condition of the mixer, as there is no change made in the size of the opening through which the gas passes.

"Under the higher pressure now on the mains an open burner will not give a satisfactory light, no matter what the gas pressure is. It is because the greater the velocity of the flow of gas causes it to take up too much air at the tip, giving a blue flame. With a mantle burner the light is increased over 50 per cent with the same gas consumption. Before increasing the pressure it was only possible to fill a mantle about one-third of its height. At present the mantles are filled three quarters to seven eighths full of white light giving at least 50 per cent more light. Dirty burners or broken mantles will not give a satisfactory light under any circumstances and this is a condition for which the company is not responsible as it has no control over the condition of the consumer's apparatus. An adjustment of the air mixers on a mantle burner is necessary as every one knows that burns gas in Albuquerque or any other city. Coal or water gas is composed of several ingredients, and gas standing in the mains or services will separate to a certain extent, the lighter or poorer gases rising from the mains in the street to the house pipes, excluding the richer gas, which can first lighting a burner shows of a very poor quality. A very few moments' necessary adjustment of the lighter gas, after which the properly mixed gas will follow, giving the proper light or fire, provided the burner is properly adjusted.

"It is acknowledged by the best gas engineers in the country under a high pressure the consumer gets slightly more service for the money. The ratio is one or two per cent. A gas meter registers volume, and its construction is such that the increased pressure does not affect its registration, the gas being compressed to a greater extent, a larger amount passes through the meter at each expansion of the bellows, the number of expansion of the bellows being registered by the dial, and calculated in cubic feet. The gas upon reaching the atmosphere expands to atmospheric pressure regardless of the pressure on the mains and gives more gas to the consumer than if under a lower pressure as under the more dense condition of the gas while passing the meter a larger amount passes with the same registration.

"An adjustment of air mixers so that a blue flame with a slightly red appearance at the burner gives the greatest amount of heat, and when this adjustment is maintained the gas will do more work in less time than under the lower pressure. But an improper adjustment will consume more gas as it takes longer to do the same work as the heat qualities have been reduced. It is possible to kill the heat quality of the richest gas by a poor adjustment of the stove. The patrons who have endeavored to adjust their stoves have had no cause to complain nor will any one who will endeavor to adapt themselves to the better service.

"There are some five hundred gas consumers on the mains and it is necessary to adopt the system and plan that will give to the largest number the best service. It is impossible to make a special arrangement for a few consumers, decided in the minority."

CITY COUNCIL GOES AFTER EXISTING EVILS

Mayor McKee Tells Committeemen That They Should Get Busy.

The meeting of the city council last night was one of protest and as a result some definite action will be taken to remedy certain existing evils. Mayor McKee urged that the councilmen appointed to committees show more vigor in going after the business entrusted to them and that they seek to perform their duties with more promptness. The meeting was a thoroughly live one and a considerable volume of business was transacted and a number of important matters discussed.

Reports of City Officers.

The report of the city clerk for the month of October showed that \$2,489.25 was collected in city licenses.

The city marshal reported 160 arrests made and \$775 collected in fines.

Building permits calling for construction work to the amount of \$12,500 were issued during the month.

The city physician reported twelve births, forty-one deaths for the month and ten contagious disease cases.

A petition asking that the pool of stagnant water at the corner of Fifth street and Iron avenue be filled up was read and referred to committee. This pool is a menace to the school children and should be immediately filled.

Walks Must Be Built.

Considerable attention was given by the council to the matter of building sidewalks. A list of persons who have not complied with the city ordinance in this respect was read and the street commissioner instructed to see these parties and warn them that the city would build the walks and charge the cost to the property owners if immediate steps were not taken to build for themselves. In the matter of the much discussed Viviana sidewalk, upon a motion of Alderman Hanley, the city attorney was instructed to draw up an agreement with Mr. Viviana, whereby the walk may be built without further delay.

Kicks Against Telephone Company.

A number of kicks against the telephone company were registered at the meeting. The objections were chiefly against the charge of one dollar by the company for installing phones in the houses of subscribers. The matter will be taken up with the city attorney.

Cutting Out Combination Stores.

The police committee submitted an amendment to Ordinance 299, the ordinance now under consideration, and which is to prohibit liquor from being sold in the same room with other merchandise, or in the so-called combination stores. The amendment stipulates that the ordinance should not go into effect until three months after the date of its passage.

The proposed ordinance in regard to the establishment of a public scales and maintaining a public sealer of weights and measures, was referred to committee for further amendments.

Up to Board of Health Again.

A letter from City Scavenger Mitchell, explaining minutely his position and what he thinks should be done in the matter of disposing of the city refuse was read and this matter was again referred to the board of health. Mr. Mitchell reiterated former statements that he was not able to make a profit out of his contract with the city under present condition, and asked the city authorities to see to it that the garbage ordinance was enforced and that the people be compelled to buy the prescribed kind of garbage cans; that they be not allowed to hire any other than the city scavenger to haul refuse and that he be not compelled to build a crematory as provided in the contract. He said he would be willing to provide a suitable dumping ground across the Rio Grande, where it would be a nuisance to nobody and would guarantee the city good service if he were given a fair chance. The board of health was instructed to confer with Mr. Mitchell again and seek to come to a definite understanding and report to the city council at the next meeting, at which time it is hoped this question will be finally disposed of.

Those present at the meeting last night were Mayor McKee, Aldermen Hanley, Hayden, Beaver, Sherwood, Neustadt and Wilkerson, City Clerk Lee, Chief of Police McMillin, Building Inspector Whitcomb, Street Commissioner Timoney, City Engineer Gladding and Chief of the Fire Department Burdette. After the usual routine business the council adjourned.

\$3,000

Prescott Resident Banked Cash But Is Still Being Pursued.

Phoenix, Ariz., Nov. 5.—Confident that he is being pursued by thieves who are trying to rob him of \$3,000, which he obtained from the sale of mining claims in the northern part of Arizona, M. Anderson has enlisted the efforts of the city police to locate the men and place them under arrest.

Anderson arrived here recently from Yavapai county with \$3,000, which he obtained from the sale of mining claims in the northern part of Arizona. This he prudently placed in the bank almost as soon as he reached town, but he mentioned the fact of his having the money to numerous friends about town, and it is supposed that the statement reached the ears of some person or persons who could use the money and were not very particular about the method of acquiring it.

At any rate, as he was walking past the old Gibson stables Monday night on his way to his room at the Jefferson hotel, two men emerged from the shadow of a high adobe wall, evidently with the idea of accosting Anderson. But he had his wits with him and told them to be on their way or he would use his personal influence to that end. They accordingly disappeared.

Followed Him Home.

It is supposed, however, that they followed him home, for that night the room adjoining Anderson's was entered and a pair of trousers was stolen from it. Tuesday night, another room in close proximity to that occupied by Anderson was broken into by thieves and a pocketbook containing a small sum of money, was taken. One of the burglars was seen immediately after the act and is described as being a large, heavy set man, although it was too dark to distinguish his features accurately.

The police have thus far been unable to locate this man or to implicate others in the robbery, and the description furnished is rather too meager to admit of much hope of effecting a capture.

A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis, Pastor Milaca, Minn., M. C. Church, Chamberlain's Cough Remedy is sold by all druggists.

WIERD TALE OF A HUNTER

Killed Two Quail at One Shot and Then Watched Squirrels Get Drunk.

This is a hunting story. It may likewise be a "bait" story. It was told this morning by a man whose veracity will not be questioned. Let those who would use a grain or two of salt do so.

"A couple of queer things happened to us the other day while we were out for quail. Jack—and I went together to a trap. Jim shot two quail with one shot. Quail of course is queer, but he didn't. The quail were fighting when Jack spied them. He let go at their heads, which were close together, and in my word, he blew both of their heads off with the one charge. That's all the quail we shot."

"Well, we cooked them for dinner and sat on a log to eat. They tasted pretty good too. While we were eating, three playful little squirrels, so came along and hopped on a log. We went on after squirrels so didn't shoot them. When we saw how tame they were though, so placed some crumbs on the log and prepared to retire and watch them. Jack had an inspiration, though. We had some 'bait' along as a matter of course, so Jack poured a little of it into a hollow in the log. The squirrels made for the crumbs as soon as they saw them, and there was a merry scrap. They cleaned them all up."

"I declare to goodness, if they didn't smell the whiskey then. You ought to have seen that scrap. They walked into each other right, first one drinking and then the other. The first thing we knew two of them fell off that log, dead drunk. I never saw anything like it."

He called out without saying what the "bait" was.

RECIPE DON'T COST MUCH TO PREPARE

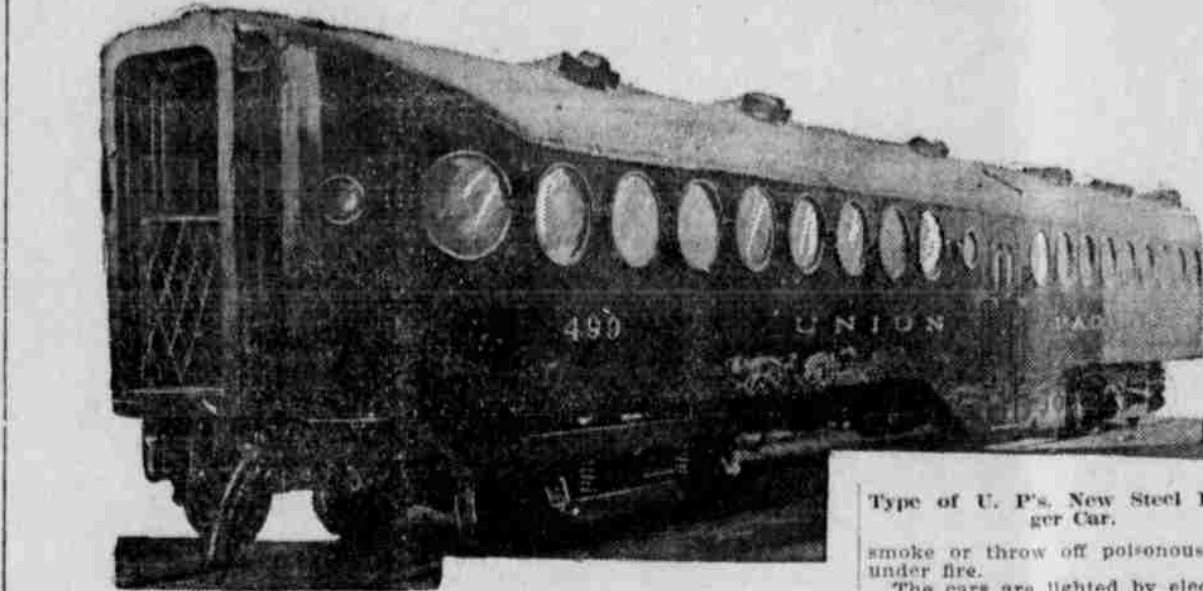

Rheumatism is easier to avoid than to cure, states a well known authority. Every man, woman and child here should dress as warmly as possible, and about all else, keep the feet dry. Avoid colds and exposures, and don't become constipated.

Rheumatism is strictly a blood disease, caused by inactive kidneys, which, through cold or exposure, or improper diet, fail in their duty of filtering the rheumatic poisons from the blood. This poisonous waste matter, uric acid, exalts the time, urea, etc. It is strained from the blood promptly, decomposes and settles about the joints and muscles, causing rheumatic disease.

In damp or chilly cold weather the kidneys are made to do double work. The pores of the skin all over the body do not assist in eliminating the poisons of the body, throwing this work to the kidneys, which become clogged and feeble, thus causing not only rheumatism, but all forms of kidney troubles, backache, weak bladder and urinary troubles, and sometimes terrible blood disorders.

At the first sign of any of these troubles the following simple prescription should be mixed and taken in teaspoonful doses after each meal and at bedtime: Fluid Extract Dandelion, one-half ounce; Compound Kagon, one ounce; Compound Syrup Sassafras, three ounces.

Just good kidneys can supply these ingredients, and all the mixing required is to shake well in a bottle.

Type of U. P.'s New Steel Passenger Car.

Omaha, Neb., Nov. 4.—The Union Pacific railroad will demonstrate to the world shortly that this company for one has learned the lesson taught by the burning and mangle of building steel coaches. Within thousands of passengers on the railroads of America.

Every wheel in the U. P. shops is now turning solely for the purpose of building steel coaches. Within two years every passenger, mail and baggage car owned by the road will be constructed of steel. The wooden

coaches will go to the ash heap. In the first of the new steel cars just turned out the officials believe the secret of safe transit has been solved.

The framework of the cars is of steel; the side plates are of steel; the floor is of steel covered with cement; the curving roof is of steel; the interior decorations are steel or fire-proof material. Even the curtains and draperies are fire-proofed, and the paint used in decorating the coaches is of a sort that does not

smoke or throw off poisonous vapor under fire.

The cars are lighted by electricity. The four and six-wheel trucks are of a new design, calculated to overcome track jumping. The brakes are new, designed to resist a tremendous pressure.

The entrance doors being on the side the problem of ventilating the cars has been given careful consideration and a new plan submitted by the superintendent of motive power has been adopted. Such of the new cars as have been completed are being submitted to severe tests, to discover any structural weakness that may exist.

FINANCES ARE IN BETTER SHAPE

Henry Clews Says There Is a Marked Improvement in Sight.

New York, Nov. 5.—The acute stage of the financial crisis has passed; hysteria has subsided and the situation now appears well under control. This does not mean that an immediate recovery is to be expected. Recovery will be slow and irregular; the causes for the recent collapse being too deep seated and complex to indulge in any false hopes in that respect. It is now fully recognized that the crisis was chiefly due to the exhaustion of floating capital. Additional sources of weakness were the overextension of credit, the overproduction of securities, the impairment of confidence by corporate mismanagement, and the occasional interference of national and state governments in corporate affairs. Wall street has now amply discounted all of these drawbacks, having done so in three successive years by means of the breaks in March, August and October. In the financial district the situation is gradually righting itself. After liquidation on a tremendous scale the surest and most natural relief came through gold imports, over \$25,000,000 having thus far been engaged. The other form of relief—that of clearing house certificates—though artificial, was equally efficient. This latter expedient has been resorted to in many of the leading clearing houses in different parts of the country and has done much to restore the equilibrium; so, too, has Secretary Coriell's prudent and liberal action, as well as the generous assistance of our leading bankers.

Mistake to Anticipate.

As we have already said, it would be a mistake to anticipate a prompt recovery in values and business. While Wall street has had its full share of liquidation, the process of readjustment is now passing on and extending to industrial and commercial affairs. Fortunately the storm struck Wall street with values already upon a low plane, which greatly mitigated the force of the blow and averted a disastrous panic. Many commodities, however, are upon a high level and a majority of our industries have until recently been working under full pressure, and the inevitable curtailment of credit means a lessening of their activity. Economy in management will now have to be enforced; many hands will necessarily be discharged, and with the purchasing power of the people thus impaired the consumption of staple goods will surely decrease. This turn in the tide comes in many respects at an opportune time since there are few markets which are burdened with an over-supply of merchandise.

Nevertheless, any material decrease in consumption would soon lead us into a period of overproduction with its unpleasant consequences, and it is here where lies the point of weakness in the merchandise market. Lower prices for commodities, however, will bring us to a more normal and healthy situation, stimulate consumption and encourage a fresh forward movement. Lower prices for wheat and copper have already greatly stimulated the export of these articles. Cotton has been held back by high prices, but monetary pressure is likely to have the same effect in this as in other markets.

Monetary Situation.

The monetary situation shows some improvement, although time and call rates are abnormally high. The advance in the Bank of England rate of 1 per cent to 5 1/2 per cent was not entirely unexpected in view of our large gold imports from that quarter. There is more or less financial strain in both London and Berlin, consequently the gold movement meets with resistance. In case of necessity, however, our demands are likely to be satisfied. Our borrowings in Europe this fall are much lower than for several years, and London would prefer giving us the gold in order to stop distrust here, which might injure the situation over there. Paris would quick-

ly help London to finance American requirements. Fortunately, we are in a position to command more or less of the precious metal. Europe must have our wheat, our cotton and our copper. From these three articles alone we have been able to materially increase our imports of gold. Another important source of relief has been the free buying by London of American securities, which are now at exceedingly attractive prices to European investors. The stock market certainly offers many very unusual bargains to the outright buyer of securities.

Risks Business.

Marginal transactions still involve unusual risk on every side of the account, but to the cash purchaser the present opportunity is an unusual one. People who have taken their funds out of the banks during the recent scare should reinvest them in sound interest-paying securities. By this means they will be performing a service to themselves in securing profitable investments and a service to the public by returning money to the channels of circulation. The recent disposition to hoard money was one of the most dangerous elements in the panic. Money was withdrawn from use at the very time when it was most needed; more frequently from senseless fear than for good reasons. From now on conditions in the money market will gradually improve, and borrowers with good collateral will find little or no difficulty in securing accommodations. There may be some trouble in renewing maturing obligations, but these are matters which will come up for adjustment with the progress of time. It is well to recognize that in general business we have turned the corner; that commodity values must recede, economy must be practiced not only in business but in private affairs. If these facts are recognized, the process of readjustment can be accomplished in a gradual and orderly fashion, and in due time the foundation will be laid for renewed activity and prosperity.

Market Will Be Irregular.

For some time to come an irregular stock market must be anticipated. Such rallies as may occur are sure to be taken advantage of for the liquidation of weak spots, and until these are eliminated no permanent recovery can be anticipated. Moreover the market will need a period of rest for recuperation, and little speculative buying of importance can be indulged in until the money market resumes more normal conditions. Eventually there will be a glut in the money market, and low rates will rule, but that period is not yet in sight.

Recent experiences emphasize the necessity for establishing a sound currency system. For several years we have been adding freely to our currency supplies to meet the growing requirements of trade. When business contracts we shall find ourselves with an oversupply of currency and no means of regulation. We need an automatic elastic currency system through which of issue, corresponding to the Canadian system, which for many years has worked so smoothly and safely under conditions similar to those in the United States. No means has yet been found for preventing panics, but a scientific currency system would go far towards avoiding such crises and mitigating their effect. Congress could not devote its time to a better purpose this winter than a reform in our present antiquated and clumsy currency methods.

Book containing valuable information mailed free.

MINING CODE OF MEXICO IS CHANGED

New Law Has Been Under Consideration For Some Years.

The mining code of Mexico is under general revision, and it is likely that the present session of congress will enact a law embodying some new and important modifications of the general code, clearing up particularly some of the points which were not specific under former acts.

The new mining law has been under consideration for some months by the government authorities, and in the deliberations the Chamber of Mines, a quasi public body, has participated. The new code is intended to be more generally favorable to mining and to strengthen the industry.

There has been considerable discussion as to the advisability and the possibility of including oil and coal lands under the general statute permitting mineral land location. As it stands now, these resources belong to the owners of the surface rights, which is not the case with practically all of the base and precious ores. The discussion has aroused much opposition both by the owners of the lands supposed to contain coal or oil and by those who have purchased lands or have developed mines on lands held under the land title.

There seems to be little likelihood that the government will take the radical step of assuming proprietorship of the coal and oil deposits. This might have been done at the outset without disturbing established interests, but at the present time the proposition would result in a great deal of injury and confusion.

If you require a medicine to tone the Stomach and digestive organs, to restore the appetite and open up the clogged bowels, you'll find the Bitters far superior to anything else. Try one bottle and be convinced. It also cures Dyspepsia, Indigestion, Biliousness, Headache and Colds.

FAST HORSES FOR THE ARIZONA FAIR

Phoenix, Ariz., Nov. 5.—That all may be entertained who attend the fair at Phoenix Nov. 11 to 16, many forms of amusement will be provided, the most important being the harness and running races. There are now stabled on the grounds in excess of one hundred horses, which are entered in the racing events, and there are enough other horses entered which are yet to arrive to swell the number above two hundred. This is to be the largest race meet held this year west of the Mississippi. It will be productive of exceptionally fast time and close finishes. In one event, in addition to others, there are five horses entered that have been racing in the grand circuit this season.

A tickling cough, from any cause is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching in the lungs. The Spaniards call this shrub which the doctor uses, "The Sacred Herb." Demand Dr. Shoop's. Take no other. Sold by all dealers.

TWIN BUTTES MINE SHUTS DOWN

Milwaukee Stockholders Are
Alarmed at Financial Con-
ditions and Prices.Tucson, Ariz., Nov. 5.—Following
instructions contained in a telegram
from Milwaukee received Monday
afternoon at Twin Buttes camp from
President D. S. Rose of the Twin
Buttes company, Supt. William Mc-
Dermott discontinued operations on
the property.Supt. McDermott was at the camp
today and he was reached by long
distance telephone. He confirmed
the report of the closing down of the
mine, but said he could assign no
reason for this order. President
Rose will be here this week."It is true that orders were re-
ceived to shut down the plant, but
they came as a great surprise to
me," he said over the telephone.
"We were getting matters at the
mine in good shape and had made
several good strikes and I had not
the least idea that work would be
suspended.""The order instructing us to close
came from President Rose of the
company and I presume that he was
following out the orders of the
stockholders given at a special meet-
ing held in Milwaukee."The suspension of the work at the
camp will come as a great surprise
to local people, who have a consid-
erable portion of the stock of the com-
pany.Owing to financials.
There is little doubt, however, that
the tightness of the money market
at present, combined with the decline
in the price of copper, were the
chief reasons for the closing order.
The copper low it is possible to
ship only high grade ore to the smel-
ter to secure a good profit. The
Twin Buttes has uncovered a num-
ber of excellent ore bodies, but no
effort has been made for some time
past to ship ore as it was desired to
proceed as rapidly as possible with
the development work.The company has had a force of
only about 60 men at work for some
months past, but it had been sup-
posed that this number would be
considerably increased within a
short time. There were more than
100 miners employed at the prop-
erty one year ago, but the great majority
were let go as it was not considered
advisable to keep so many at work
simply for development.Close Down Will Be Short.
It is hardly probable that the
mines will be closed down for any
considerable length of time.Following the policy of a number
of the other companies, it is very
likely that the Twin Buttes com-
pany will simply delay operations until
the copper market becomes better
again and the price of the metal ad-
vances several cents, as it is believed
it will in a short time.Proceeding the closing down of the
Twin Buttes mines was the order
doing away with the daily train ser-
vice on the railroad. Henceforth
there will be but two trains per week
and these will run Tuesday and Sat-
urday. On the other days a motor
car which can carry several pas-
sengers will be used to make the
trip to the camp and return.

DEAD AT AUSTIN, TEX.
Capt. William Milby Was One of the
Real Old Timers in the Sunshine
Territory.Silver City, N. M., November 5.
—William Milby, one
of the pioneer citizens of Silver City but of
late years a resident of Austin, Tex.,
died at his home in that city last
week, aged 68. Capt. Milby was a
partner of Mr. Bullard, after whom
Bullard street is named and he was
one of the first citizens in Silver
City. All the old settlers of this re-
gion remember Capt. Milby and will
learn of his death with keen re-
gret.A Reliable Remedy for Croup.
With the dry, cold weather of the
early winter months, parents of crou-
py children should be on the alert
for ominous symptoms. There is no
cause for anxiety, however, when
Chamberlain's Cough Remedy is kept
in the home. If this medicine is
given as soon as child becomes
hoarse or even after the croupy
cough has appeared, the attack may
be warded off. Mrs. S. Rosenthal, of
Turner, Michigan, says: "We have
used Chamberlain's Cough medicine
for ourselves and children for several
years and like it very much. I think
it is the only remedy for croup and
can highly recommend it." For sale
by all druggists.

PERSONAL PARAGRAPHS

DO YOU GET THE CITIZEN?

Owing to the fact that even the best carrier boys The Citizen is able to secure will now and then fail to deliver your paper and also owing to the fact that your neighbor may now and then unthinkingly appropriate The Citizen left at your door and forget to return it, this paper has arranged with the Postal Telegraph company to deliver you an extra copy in the event that yours fails to reach you. There is no additional expense to you. If your paper does not reach you by regular carrier call up the Postal Telegraph company PHONE NUMBER 34 and tell them. A messenger boy will supply you with a copy of The Citizen. In this manner, we can also keep track of the "misses" of our own carriers and you can get your paper rain or shine. REMEMBER THE NUMBER PHONE 36.

Geo. H. Pratt, is in the city from Laguna.

Mrs. J. J. White is a Los Lunas visitor in the city.

Solomon Lund, of Las Cruces, is registered at the Alvarado.

W. B. Rice, of Las Cruces, is registered at the Grand Central.

J. G. Garden, the capitalist, returned today from a business trip east.

Miss May Jacobs, of Silver City, is in Albuquerque visiting and shopping.

Charles A. Peterson, of East Las Vegas, is transacting business in the city today.

L. Lobbeck, proprietor of one of the principal saloons in Las Vegas, is in the city on business.

Mr. and Mrs. Ed. Lavelle left this morning for Quincy, Ill., on a visit to relatives of Mrs. Lavelle.

L. G. Rosenfield leaves tomorrow for a visit to the claims of the Alvarado Mining company in Coyote canyon.

Officer Joseph Salazar has returned to Albuquerque after a week's absence in Magdalena. He will go to Madrid Thursday.

Isaac Barth, district attorney and one of the prominent men of northern Arizona, is in the city visiting relatives and attending to business.

Mrs. W. K. Etter is in the city from Las Vegas visiting friends. Within a few days Mrs. Etter will join Superintendent Etter at Arkansas City, Kan.

Mr. and Mrs. M. H. Wood are in the city from Golden, N. M., Mrs. Woods for the purpose of visiting and shopping and Mr. Woods to attend to business.

Father Pusey, a young priest from St. Louis, has arrived in Albuquerque and contemplates remaining here all winter for the benefit of his health.

Miss Essie Gottlieb, who has been the guest of Mrs. Thier, of 129 West Marquette avenue, since last spring, expects to leave Sunday for her home at Pine Bluff, Ark.

W. G. McCroden has resigned as cashier of the Monarch-McGraw Company bank at Thoreau, and accepted a position with Gransfield Bros., wholesale dry goods house of this city.

J. H. Teasdale and bride, of St. Louis, arrived from the Crystal Palace and are stopping at the Alvarado. Mr. Teasdale is Western representative for the Hamilton-Brown shoe company.

George Wade, the big minstrel who is back here for the Crystal Palace, arrived in the limited today from Trinidad, accompanied by Mrs. Wade. Mr. Wade is one of the best single hand entertainers in the business.

Solomon Lund, of Las Lunas, arrived this morning from Magdalena, where he has been superintending the shipping of some sheep. Cars are scarce and a great deal of trouble is being experienced by shippers from this country.

Nathan Barth, the well known sheep raiser, announces that after the first of the year his ranch business will be conducted under the name of Barth & Son. Mr. Barth is going to make his son, Sidney Barth, of the State National bank a partner in the business.

U. L. Putney, one of the men behind the Albuquerque Gold Standard company that is to be organized, returned from a business trip to Chicago. Mr. Putney's business was to buy machinery for the new plant and the location of the plant is to be located in the south of the city. Mr. Putney says that Chicago is a sea of mud and water and the people there have not seen the sun for so long that they have forgotten what old Sol looks like.

Neither Team Scored for Eight Innings—Game Was Won by Phoenix in the Ninth After Two Men Were Out.

The most sensational game of baseball in the annals of baseball in Arizona was played in Phoenix Sunday and lost by Tucson by the only error made by that team in the game.

Neither team scored during the first inning. Tucson was to bat first and made the first blot on the score board by putting one runner across the plate in the first half of the ninth. The first two men up for Phoenix in the ninth went down in order and things looked easy, when the proper swing sent one past short for two bases. A bunt sent the man to third and a ball knocked to the pitcher and on being fielded, muffed by the catcher, cost two scores, and won the game.

This game, both games played at Phoenix in the Phoenix team. The Albuquerque boys playing with Tucson did not figure to any great degree in either game. The Arizona fall tournament will begin on the 11th of the month.

BERNALILLO COUNTY DISTRICT COURT

In the case of Donaciano Gallegos vs. Michiel Mandell, E. M. Sandoval and O. P. Hovey, the trial of which was completed yesterday afternoon, the jury, after extended deliberation, returned a verdict in favor of the plaintiff, granting him \$500 instead of the \$3,000 sued for. The first defendant, M. Mandell, was dismissed from the case in the early part of the trial.

Suit to Collect Note.
The case of Donaciano Gallegos vs. Mauricio Ortiz, C. B. de Ortiz and Marcelino Baca, an action for the collection of a note for \$100 made by the defendant Mauricio Ortiz on January 24, 1903, is now on trial. F. H. Lester is the attorney for the plaintiff and Klock and Owen appear for the defendants. The defense is endeavoring to show that the note has been paid.

Suit for \$710.
The next case to be tried in the district court is that of George Craig, trustee of Esquipula Romero bankrupt, vs. B. H. Field and Bro. The action is for the recovery of \$710, alleged to be unlawfully retained by the defendants from the assets of the estate and so retained to the jeopardy of the interests of the other creditors. McMullin and Reynolds are the attorneys for the plaintiffs and N. B. Field will appear for the defendants.

Now is the time to get your Christmas presents ready. You very likely will make some knit slippers and that case we want to supply you with the necessary lamb's wool shoes. We have them in all sizes for men, women and children, and the prices run from 20 to 35 cents. C. May's Shoe Store, 314 West Central avenue.

The MAJESTIC RANGE is the product of the world's achievements in stoves. All the best features of all other makes have been incorporated in this one, and objectional features eliminated. As a result, the MAJESTIC probably stands nearer the line of perfection than any other range. It saves your fuel and your time and produces heat when you want it, where you want it, and in quantity as desired, all at a minimum of attention. If you have never used the MAJESTIC, you have never used the best.
