PRESIDENT ORDERS AN INVESTIGATION OF KILLING

Urges Attorney General and Secretary of Interior to Investigate Death of Secret Service Agent.

SEVERAL PERSONS MAY BE IMPLICATED

Vigorous Prosecution of Case and Alleged Land Frauds in Connection With It Is Promised by Department Officials.

Washington, D. C., Nov. 8.—The following letter is addressed jointly to the attorney general and the secretary of the interior under date of November 5, and was made public at the White House today:

"My attention has been called to dispatches in reference to the murder of secret agent Walker while in the performance of his duties of investigating certain coal land frauds in Colorado.

"I trust that every effort will be exerted by your department to prosecute vigorously every violation of the land laws which Walker investigated.

"THEODORE ROOSEVELT.

THINK OTHER PERSONS IMPLICATED IN CASE

Durango, Colo., Nov. 8.—Secret service agents say indications that other persons besides Joseph Vandervelde and W. A. Mason will be involved in the killing of Government operative Joseph A. Walker while investigating the Porter Coal company's property last Sunday grow strong as the investigation proceeds. The government officials on the ground are working on the theory that there was a conspiracy for murder behind the shooting of Walker. So far as known there was no personal trouble between Walker and Mason.

Shotgun shells left on the ground by Vandervelde are said to show that he and Walker were not more than 60 feet apart and that all could recognize one another. Government officials believe that there was no mistake about it and say that Walker was shot in the back. Walker's body will be sent to Mrs. Walker in Denver today. It has been decided that no inquest is necessary. Direct charges against those responsible for his death will be filed. District Attorney Cranston and L. C. Wheeler expected to take definite action at once against those responsible for Walker's death, but owing to the fact that the Rio Grande passenger train was delayed two hours late, postponed it until tomorrow. Ernest Knaebel, special assistant to the district attorney, was on the train. District Attorney Cranston will consult with him tomorrow, when action is expected.

Vigorous Prosecution Promised.
The determination expressed by Cranston and Wheeler before leaving Denver to see justice done to the murderers of Walker is being carried out thoroughly. County and state officers have left the investigation completely in the hands of the government. Those employed in forging the links of evidence are experts in the business.

No charges will be filed by District Attorney Cranston until he considers the evidence is complete enough to implicate all connected in any way with the shooting. The minutest details are being worked out to support the theory of murder. This explains the large force of government agents and the secret service and under the department of justice now on the ground, about 15 men being here engaged in developing evidence against Walker's slayer.

MERGER APPROVED BY STOCKHOLDERS

Chicago, Ill., Nov. 8.—At the annual meeting of the stockholders of the Burlington railroad today the action of the directors in merging with the system the following properties was approved:

Omaha & Southwestern, 50 miles; Nebraska railway, 104 miles; Atchison & Nebraska, 150; Lincoln & Northwestern, 3; Burlington & Colorado, 174; Chicago, Nebraska & Kansas, 71; Republican Valley, Kansas & Southwestern, 78; Omaha & North Platte, 11; Lincoln & Black Hills, 175; Oxford & Kansas, 59; Beaver Valley, 74; Colorado & Wyoming, 144; Cheyenne & Burlington, 29; Denver, Utah & Pacific, 35; Republican Valley & Wyoming, 49; Nebraska, Wyoming & Western, 152; Kansas City & Omaha, —; Denver & Montana, 39; Nebraska & Colorado, —.

All of these lines have been operated by the Burlington system but will now be merged with it. All of the present directors were re-elected.

COTTON CROP IS A HALF MILLION SHORT

Washington, D. C., Nov. 8.—The census bureau today issued a bulletin showing the total cotton crop of this year's growth gained up to November 1 to be 6,167,500 bales as compared with 6,696,995 bales for 1906. The total for Texas was 1,579,496 bales.

TREASURY OVERWORKED CONGRESSMEN AFTER SENDING OUT CURRENCY TESTIMONY IN ARIZONA

Heavy Demands For Increased Circulation by Banks Keeps Department Busy.

STRINGENCY REGARDED AS COMPLETELY PASSED

Washington, D. C., Nov. 8.—There is a notable congestion in the treasury department in handling the securities offered by banks in substitution for government bonds now being deposited as security for additional circulation. The correspondence on this subject is almost unprececedented, and although the officials have endeavored to keep the work until late at night, the volume of work increases rather than diminishes. The amount of additional bank notes being spread is daily increasing and the treasury officials are greatly encouraged in the belief that the crisis in the money stringency has passed, and that a gradual relation in the tension that has existed for three weeks may be confidently expected.

Stock Market Stronger.
New York, Nov. 8.—The strength of the stock market was the reflex of improved feeling throughout the financial community. It is believed that the stock market has pretty well discounted the worst, and that prices are not likely to go much lower, even in case of new disturbances. It is understood that the arrangement by which the committee of trust company presidents takes control of the majority stock of the Company of America and the Lincoln Trust company, a temporary device to re-establish confidence. What will be the ultimate disposition of this stock has not been seriously considered, but it is certain that the treasury committee and the clearing house committee will not let these companies pursue in future a policy of the strictest conservatism, and shall not embark in any underwriting which are not capable of being converted readily into cash.

Germany Raises Rate.
Berlin, Germany, Nov. 8.—The rate discount of the Imperial Bank of Germany was raised today from 6 1/2 to 7 1/2 per cent.

Bank of England Receipts.
London, Nov. 8.—The Bank of England today received 490,000 pounds in American eagles from Paris and 150,000 pounds in bullion from elsewhere on the continent, and sold 261,000 pounds sterling for shipment to the United States.

Does Not Affect America.
New York, Nov. 8.—The advance in the discount rate of the Imperial Bank of Germany from 6 1/2 to 7 1/2 per cent announced today is further evidence of the determination of European money centers to protect their gold against depletion by the United States. The rate is the highest the Dominion bank has ever had. American gold engagements already placed in Europe approximate \$40,000,000, so that the increase in the foreign bank rate does not operate as seriously as it might have done during the earlier days of the money stringency. About \$20,000,000 of gold has already reached New York, including \$12,000,000 brought by the Lusitania.

Aside from the gold movements, the financial situation shows an absence of notable developments and a steady tendency to get back to normal conditions.

Form Union.
Chicago, Ill., Nov. 8.—Laborers in the Chicago postoffice have organized a union and have applied to the American Federation of Labor for a charter.

"WE GET THE NEWS FIRST"

ALBUQUERQUE, NEW MEXICO, FRIDAY EVENING, NOVEMBER 8, 1907.

LUSITANIA BREAKS ALL TRANS-ATLANTIC RECORDS

Huge Liner Arrived at New York This Morning After Fastest Trip Ever Made.

HOLDS PRACTICALLY OCEAN CHAMPIONSHIP

She Brought in \$12,000,000 in Gold for American Banks and Money Is in Circulation—Will Make Better Time Next Trip.

New York, Nov. 8.—The marvelous month ago by the giant Cunarder Lusitania when she cut several hours from the passage time across the Atlantic, was broken by the same vessel in a trip completed early this morning. Incidentally several new records were made.

These include the best run, 618 knots, an average of more than 600 knots for every full day, and an average hourly speed of 24.25 knots for the full 2,781 miles. On her last voyage the Lusitania covered the distance in four days, nineteen hours and fifty-two minutes.

The voyage ended today was completed in four days, 18 hours and 46 minutes. This was done under weather conditions far from favorable.

Carried \$12,000,000 in Gold.

The Lusitania brought over nearly \$12,000,000 in gold, more than one quarter of the immense total which has been engaged abroad by American bankers since the present movement began.

This gold was transferred to the consignees and then added to the country's available circulation.

Can Do Better.
The captain of the Lusitania is proud of his record-breaking flyer, but he says she can do even better, and that he will make a record on his next trip across that will surprise the world. With good weather, he believes he can make the trip in such quick time that it will be a mere pleasure jaunt to cross the ocean and return.

He states that he does not believe the Lusitania's sister ship, the Mauretania, which is to make her maiden trip on Nov. 16, can beat the Lusitania's record.

Is Built for Speed.
The Lusitania is built especially for speed. She is a veritable palace and carries a regular city population on each trip, but her lines are laid for the greatest possible speed and she cuts through the water at a rate that exceeds any other train speed. No vessel that has sighted the Lusitania has been able to keep up with her for even fifteen minutes, though a number of them have tried that feat. She is the veritable speed queen of the seas.

ITINERARY OF FLEET OF AMERICAN WARSHIPS

Points at Which Admiral Evans Will Stop on Long Voyage.

Washington, D. C., Nov. 8.—The fleet itinerary of Admiral Evans' battleship fleet on its voyage to San Francisco was made public at the navy department today. As heretofore announced, the fleet will assemble at Hampton Roads on Dec. 9, and depart from there Dec. 16, reaching on the way to San Francisco at Trinidad, Rio de Janeiro, Punta Arenas, Callao and Magdalena Bay.

It is scheduled to arrive at Trinidad Dec. 24, Rio de Janeiro Jan. 11, at Punta Arenas Jan. 21, at Callao Feb. 18, and at Magdalena Bay March 14. At each of these places it will remain from five to eleven days, except at Magdalena Bay, where it will place the date of departure depends upon the completion of target practice there. For the same reason the date of arrival at San Francisco has not been determined.

The torpedo boat destroyer flotilla will leave Hampton Roads Dec. 2, and because of their greater speed, more limited draught and smaller tonnage these boats will stop at many more places than the battleships.

LOCOMOTIVE CLASHES INTO A CABOOSE

Antonio, Colo., Nov. 8.—A wreck in which nearly a score of persons were injured, one of whom is already dead and another thought to be dying, occurred early this morning three miles east of Olathe and 30 miles west of here when westbound D. & R. G. freight train No. 41 collided with a work train in the caboose of which were a score of Japanese laborers. The dead: T. M. Doda, a Japanese who died on the train while being brought to the hospital in Durango.

Fatally injured: Brakeman W. W. Thompson, of Alamosa, wrists broken, ankles sprained and internal injuries sustained that are expected to prove fatal.

Mrs. Steve Adams Closely Watching Her Husband's Trial, Now in Progress in Idaho

Though Disappointed at His Alleged Confession in the Steunenberg Case, Mrs. Adams Has Not Deserted Her Husband.

STEVE ADAMS' TRIAL IS ONE BURNED AND SIX PROGRESSING SLOWLY

Defense Is Contesting Every Point and Legal Battles Are Frequent.

MAY NOT END FOR MANY DAYS TO COME

Rathdrum, Idaho, Nov. 8.—There is no more interested person, not even the prisoner himself, in the trial of Steve Adams, than Mrs. Steve Adams, the devoted woman who has stuck to her husband despite the charges against him. She closely watches the trial and, while for a time when it was stated that her husband had confessed against Haywood in the Steunenberg murder affair, she did not approve of his course, she is still the devoted wife she always has been.

The Adams trial is proceeding slowly owing to its being hard fought on both sides. Judge Wood is frequently obliged to excuse the jury while some legal point concerning the evidence is discussed, and it is now apparent that the end of the case will not come for some days.

Many Witnesses to Come.
There are still a large number of witnesses to be examined and it is not likely that the examination will be concluded for at least a week, and the arguments of the attorneys are expected to consume at least four days after the evidence is in.

The jury is listening to the case with unusual interest, even for Idaho, where such cases are becoming almost common of late years. It is evident that the prosecution will have to make a hard fight to convict Adams, for the jury is composed of men who will want to know that he is guilty beyond any doubt.

Mr. Hill has had great experience in diplomatic service. It is said that the appointment will give satisfaction to Germany.

The position was first offered First Assistant Secretary Bacon, who declined it, preferring to remain in his present position.

Washington, D. C., Nov. 8.—Secretary Root announced today that David Jayne Hill, American minister to the Netherlands and former assistant secretary of state, will be named ambassador to Berlin to succeed Mr. Tower, who resigned because of ill health.

Mr. Hill has had great experience in diplomatic service. It is said that the appointment will give satisfaction to Germany.

The position was first offered First Assistant Secretary Bacon, who declined it, preferring to remain in his present position.

ONE BURNED AND SIX HURT IN CHICAGO FIRE

Policemen and Firemen Injured in Work of Rescue.

HALF CHARRED BODY DRAGGED FROM RUINS

Chicago, Ill., Nov. 8.—Abraham Gelett, age 16 years, was burned to death, and six others were severely injured in a fire which destroyed a three story building at 399 West Fourteenth street early today.

The fire broke out on the first floor and burned so rapidly that the escapes from the second and third floor were cut off before the people above could reach them.

Most of the inmates of the second and third floors were carried down ladders. The firemen did heroic work and there were many narrow escapes. Two policemen were overpowered by smoke while engaged in the work of rescue and had to be carried from the building. One fireman was severely injured by falling from a ladder and may die.

The suffering of those escaping with slight burns was intense. Several ambulances carried the unconscious and injured from the scene.

Three departments were called to the fire but all that could be accomplished was to confine the fire to the building in which it started.

The origin of the fire is not known but it is thought that it started in the furnace room.

Abraham Gelett, the boy burned, was on the third floor of the building and was overcome by smoke before the arrival of the firemen. His body was discovered after it was about half burned.

All other persons known to have been in the building when the fire started have been accounted for.

MUTUAL LIFE'S STOCK CASE SET FOR NOV. 25

Chicago, Nov. 8.—Judge Hall today set November 25th as the date for the trial of the Mutual Life insurance company of New York.

The proceedings are part of an action covered by a bill for an injunction restraining the voting of these shares at the postponed annual meeting of the stockholders of the Illinois Central railway.

TAFT MUST SEE KING EDWARD OR GIVE INSULT

He Will Meet German Kaiser on British Soil and Must Therefore Also Visit Windsor.

FRENCH PRESIDENT IS ALSO ON LIST

Etiquette Demands That American Secretary Pay His Respects to Whole Bunch of Royalty on His Return Trip Through Europe.

Berlin, Germany, Nov. 8.—Emperor William will see Secretary Taft at the Osborne house, Isle of Wight, during the former's visit to England. It is likely that Taft will also seek an audience with King Edward, for to pay a visit to the Kaiser while on British soil, without paying an equivalent respect to the king might be regarded as discourteous.

So much has been said about Taft's visit to the German Empire that other governments have become curious and Ambassadors Brice and Kussorand, it is asserted here, have already made inquiries on the subject and it might be regarded as a slight if Taft does not ask to see King Edward and President Fallieres as well as Emperor William.

Etiquette Demands It.
Etiquette demands that on such a visit as that which Secretary Taft is making, he shall take in the rulers of every country through which he travels. It is Taft's intention, according to the best authorities, to visit both King Edward and President Fallieres, as well as the Kaiser and the czar of Russia. He will first visit Russia and spend some days with the czar, leaving St. Petersburg within a few weeks for Berlin and thence to England, where he will be the guest of the two royalties who will meet him there. He may go from Berlin to France to see Fallieres but it is regarded as more probable that he will first visit England and make a short trip to France later.

Taft Ready for Trip.
Taft is ready for the trip home, according to advices from the Philippines Islands, and he will make a rapid trip across to Vladivostok and thence across Siberia on the Trans-Siberian railroad to St. Petersburg. It is his intention to make this not a more diplomatic trip but to make closely cement relations between the United States and the countries he visits.

Cabinet Discusses Situation.
Washington, D. C., Nov. 8.—At the conclusion of a cabinet meeting today Secretary Cortelyou stated that a discussion of the financial situation occupied an important place during the session.

CORN AND COTTON CROP REPORTS ARE FAVORABLE

General Average of Quality and Quantity Is Not Greatly Short.

Washington, D. C., Nov. 8.—Preliminary returns to the department of agriculture on the production of corn indicate a total yield of 2,565,732,000 bushels, an average of 26 bushels per acre, as compared with 30.3 bushels per acre in 1906. The general average as to quality is 82.8 per cent as compared with 89.9 per cent last year.

The bureau's report on cotton was somewhat more encouraging than was expected. It showed a shortage of less than 800,000 bales under the 1906 crop. The total this year was 6,167,500 as compared with 6,996,395 bales last year.

Further crop reports will be ready within a short time and will be issued as rapidly as possible.

SUPPOSED SLEEPING MAN WAS CORPSE

Bisbee, Ariz., Nov. 8.—John Jeffries, a miner of Bisbee, worked as usual on his shift last night, and at noon today when his wife went to his room to call him for dinner, she thought him sleeping, but when he failed to respond to her calls, she found that he was dead. Heart disease was the cause.

WARNING TO MEN WHO MOVE DISEASED STOCK

Washington, D. C., Nov. 8.—Secretary of Agriculture William Wilson today issued a notice regarding the interstate movement of cattle and swine affected with tuberculosis, giving warning that violators of the law governing the subject would be vigorously prosecuted. Violations of the act are punishable by fine and imprisonment.

Decrease Lumber Price.
Colorado Springs, Colo., Nov. 8.—A reduction in price of lumber from the Pacific slope of about 10 per cent has been announced by the retail firms operating here, owing, it is said, to better facilities.

BRITISH HAVE WARSHIPS TO BURN

She Has More Than Next
Three Great Nations
Combined.

Berlin, Nov. 8.—An official return has been issued here showing the number and tonnage of ships of the principal powers now and four years hence. In the case of battle-ships, vessels under 10,000 tons, and launched prior to 1883, are excluded, and it is found that Great Britain has now fifty-seven ships of 809,633 tons, equal in tonnage to the United States, France and Germany combined, but there is a deficiency of four ships. Thus the United States has twenty-two vessels of 223,207 tons; France, nineteen vessels of 226,900 tons, and Germany, twenty of 253,633 tons. Japan, which comes next, has eleven vessels of 155,244 tons, and Italy, ten of 130,020 tons.

In considering the state of affairs four years hence, the German statistician takes account only of the declared intention of the powers, and thus cannot include any vessels beyond those ordered. Most of the powers have declared their programs for several years; not so Britain. Such battle-ships as may be laid down by Britain next year are thus excluded, although they will be completed by 1911. But, even so, she will still be over the two-power standard. England will have sixty vessels of 903,769 tons; the United States, twenty-nine vessels of 151,323 tons; France, twenty-five of 351,292 tons; Germany, twenty-eight of 358,400 tons; Japan, fifteen of 236,904 tons, and Italy, ten of 134,403 tons. France and Germany combined will have fifty-three against England's sixty, and their tonnage will be 709,692 tons against her 903,769 tons.

In cruisers the condition is still more striking. Great Britain has now thirty-two armored ships exceeding 5,000 tons and launched since 1888, and the tonnage of these is 378,758 tons. In 1911 she will have thirty-eight of 475,841 tons. The United States has now thirteen vessels of 176,519 tons, and four years hence will have fourteen of 199,950 tons. France will have an increase of three ships, Germany, four; Japan, five, and Italy, four, after allowing for deletion of ships when twenty years old and adding the new vessels projected.

WILL CONTINUE INSTITUTE WORK

Farmers in Practically All
Counties Will Be Organized
This Winter.

Agricultural College, N. M., Nov. 8.—The results of the farmer's institute work done last winter were so satisfactory that the authorities of the agricultural college have decided to continue the work along the same lines this winter.

Prof. J. D. Tinsley will be continued in charge of the institute work and he expects to visit all of the localities of the territory in which the people desire such meetings held. Those interested should communicate with Prof. Tinsley, at Agricultural College P. O., N. M., at once in order that the necessary arrangements may be made to visit their locality.

It is expected that the people of a community desiring an institute held will provide a place for the meeting and thoroughly advertise it so that as many persons as possible may be reached. Where desired two or even three sessions can be held in one day and if necessary the meetings may extend over two days.

It is very desirable that a program should be arranged and published beforehand. There should be papers or addresses by several local speakers as well as those of the visitors. Plenty of time should be allowed for the discussion of papers presented and two papers or addresses will probably be enough for each session.

Quite a number of farmer's institute societies were organized last winter. These met once a week and discussed various topics of interest to their members and the people were so well satisfied with the benefits derived from these societies that they are already arranging for their regular meeting for this winter. It is hoped that many more such societies will be organized during this season.

A WOMAN'S BACK.

The Aches and Pains Will Disappear
If the Advice of This Albuquerque
Citizen Is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidney's fault. Backache is really kidney ache.

That's why Doan's Kidney Pills cure it.

Wm. Sangulnette, living at 415 N. Sixth st., Albuquerque, N. M., says: "My wife suffers a great deal with pains in her back, which become severe when necessary required even a slight strain on the muscles of the back. If she would sweep she complained of her back aching. Some three years ago she was advised to use Doan's Kidney Pills and procured a box. They afforded her quick and genuine relief and from that time on she has appealed to them as occasion might require and always obtained most satisfactory results. We are convinced that there is nothing more effective for disordered kidneys than Doan's Kidney Pills."

"MOST PERFECT CHORUS GIRL" WILL MARRY LORD ELIOT SOON

Estelle Christy Says She Has No Other
Intention Than to Go to England to
Wed Scion of British Nobility.

Pretty Estelle Christy.

New York, Nov. 8.—Pretty Estelle Christy, the "most perfect chorus girl," will wed Lord Eliot, or know why.

The recent report that Miss Christy had thrown over Lord Eliot in favor of J. Heron Miller is denied by the actress, who declares that she intends to return to London and be married to Lord Eliot next day, as originally planned.

"The opposition of the earl of St. Germans will have no effect, as the stage beauty," said the actress, "and the stories that his father would cut off his allowance are untrue."

It was while a chorus girl in Edna May's company that Miss Christy met Lord Eliot at a late supper given at the Savoy in London. Her marvelous beauty soon attracted a group of admirers, the most ardent of whom was the young lord.

He showered her with costly gifts, made live in true Romeo fashion and before she had left London had exacted a promise of marriage. Miss Christy acknowledged that Mr. Miller has been most persistent in his love making and asked her to marry more times than she can enumerate, but in spite of his entreaties she will keep her promise to Lord Eliot.

BOY'S HEALTHFUL CLOTHES.

Interesting Safeguards of Every
Kind Used in Making Extra-
good Suits.

Mothers are just as interested to know that their boys' clothes are made as carefully and under just as healthful conditions as their little girls' clothes are made at home.

It is for this reason, so that mothers can be sure of the conditions under which their boys' clothes are made, that Ederheimer, Stein & Co., the large makers of Xtragood boys' clothes in Chicago, place their Xtragood label on each suit.

This label guarantees that the materials used are just what they appear to be and what is claimed for them; that the garments are made under the most healthful conditions, because the model, modern tailoring shops of Ederheimer, Stein & Co. are the finest of their kind in America. They are new buildings, built with windows on all sides, so that the fresh air freely circulates, and the sunshine penetrates even to the remote corners of the workrooms, which are kept clean with the most scrupulous care.

RHEUMATISM CAN NOT BE RUBBED AWAY

Rubbing with liniments, blistering the affected parts, the application of plasters, and other means of external treatment, are usually helpful in relieving the pains and aches of Rheumatism, but such remedies do not reach the CAUSE of the disease, and are therefore in no sense curative. Rheumatism is due to an excess of uric acid in the blood, brought about by indigestion, poor bowel action, weak kidneys, and a general sluggish condition of the system. The circulation deposits this irritating poison in the different muscles, nerves, tissues and joints of the body, and soon the painful symptoms of Rheumatism are produced. The pains at first may be wandering and slight, but as the blood becomes more fully saturated with the uric acid poison, the disease grows worse and after awhile gets to be chronic. The slight, wandering pains now become sharp and cutting at the least exposure to dampness or night air, or any constitutional irregularity, the bones ache, the muscles are not as free in action as before, and where the acid poison is allowed to remain in the blood the joints often become so clogged with corrosive substances that they are left permanently stiff and useless. Rheumatism can never be rubbed away, nor can it be conquered and driven from the system until the acid-laden blood has been cleansed and purified. No other medicine does this so effectively as S. S. S. It dissolves and removes the impurities and sends a stream of rich, strong blood to the affected parts, which soothes the irritated nerves, inflamed muscles and flesh, and the sufferer obtains relief that is permanent because the real cause of the disease has been removed. Special book on Rheumatism and any medical advice desired free.

SUCCESS

THEY SAY NOTHING SUCCEEDS LIKE SUCCESS.
I SUPPOSE THIS IS TRUE. BUT IN ORDER TO
HAVE SOME SUCCESS WITH WHICH TO SUC-

Our Best Ad

Ask the average visitor to this city what is our best ad. He will answer in nine cases out of ten "A good band."

Its the truth too. This city has a good band—one of the best in the southwest, and while it is not generally known, M. C. Grady, the band's new director, is one of the best in the business.

The thing which ought now to interest the citizens of Albuquerque is to arrange for the maintenance of the band and this is a matter of more than ordinary interest to all of us.

Director Grady took the band only a few days before fair week, when it was in a badly disorganized shape and during the big fair, the band furnished music excelling anything of the kind heard during that week.

Since that time he has reorganized the band and it is now in excellent shape and a credit to the city.

The American Lumber company, which formerly maintained the band, with occasional aid from our citizens, is no longer behind the organization. It did its part in furnishing this city with an A-1 band for a long time.

The local lodge of Elks then assumed control of the band and has kept it going to date.

It is now up to the people—particularly the business men of this city to provide for the band in the future.

Albuquerque needs a band—needs it more than any city in the southwest. This city will entertain the Irrigation Congress and several other big conventions during the coming year. Shall we send to Denver for a band and pay twice what it would cost to maintain one of our own, and let the out of town band take our money back to Denver? Its foolish to think about it.

A small donation monthly from the business men of the city will serve to keep our band and to keep at its head one of the best band men in the country.

Director Grady, when he was forced to bring his wife here for her health, was the director of three bands, an instructor in band music at the largest normal school in the country and ranked high among professional musicians.

He took a handful of band men, some of whom had never played together before, and in one week he had organized a band for the fair. The city had no cause to feel ashamed of the aggregation either.

Director Grady has received a flattering offer from another town in the southwest to take charge of its band. If Albuquerque allows him to leave at this time, she will make a serious mistake.

He can in a few months give us a band which will be the talk of the whole territory as far as musical ability is concerned. Such an organization would eventually become almost self-supporting through the engagements it could make elsewhere.

Several prominent Elks and business men have taken the matter up and the Citizen hopes that they will receive the endorsement and help of every public-spirited citizen.

We need a good band. It will be our best ad and we can't afford to be without one.

Major Gordon W. Lillie ("Pawnee Bill") will put his Wild West show into winter quarters in Pawnee, his home, November 11. Pawnee is pleased, as Major Lillie will pay out about \$25,000 in cash this winter. He has between 400 and 500 horses to care for, besides an enormous amount of other personal property. He has given instructions to erect stabling accommodations for more than 200 head of his best stock, and will make arrangements to winter the balance among various farmers who are prepared with sufficient pasture or feed. Next spring, about sixty days prior to starting out for the 1908 season, Mr. Lillie will give work to about 200 men, who will be employed in painting and thoroughly overhauling all the wagons and paraphernalia.

Kenna Record: A man in a neighboring town, who took a city paper in preference to his home paper because he got more for the money, was attracted by the advertisement of a fire escape which would be forwarded on the receipt of two dollars. The money was sent immediately and in a few days he received a copy of the New Testament.

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FEEL IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

The spectacle of a man being hauled from the audience to the stage by Hypnotist O. B. Griffith with an imaginary lariat was witnessed by the spectators at the performance of the hypnotist at the Elks' theatre last night. Griffith asked a young man in the audience to join his subjects on the stage, but the young man refused, whereupon Griffith hypnotized him, swung an imaginary lariat over his head and brought his unwilling subject to the stage. A large crowd attended the performance.

Sheep are arriving daily in large numbers at the stock yards for shipment to the northern ranges, and owing to the scarcity of cars over the 23,000 yearling lambs are now corralled at the yards. Ten thousand yearling lambs, owned by A. Elchwald, of Cuba, Sandoval county, arrived yesterday. Victor Sala and E. G. Harvill, of Albuquerque, own the remainder of the 23,000. Officers of the Santa Fe say they are making every effort to secure cars for the sheep owners.

FAIR DEFICIT WILL BE
CLOSE TO 2,000
DOLLARS

Association Will Meet Tonight
to Hear Secretary
Stamm's Report.

When the fair association meets this evening, pursuant to the call of the president, it is understood that the secretary, Roy Stamm, will submit a report in which he will show that the association is in debt a little over \$2,000 on the twenty-seventh territorial fair held last month.

It will be necessary for the fair association to make arrangements to meet the deficit or carry it over until the next fair. The fair, which was undoubtedly the most successful in matter of attendance and in the attractions secured by Manager Hubbs, lost money in several ways.

The big fire show, which was the largest thing of the kind ever put on in this city, lost probably more than any other attraction since it the biggest of them all—in fact bigger than all the others combined.

There are several reasons for this loss, the principal one being that the show, while the biggest attraction of any fair, was too big for the town and the show management did not know how to advertise it to attract the people.

The Montezuma ball, it is said, also lost a little over \$400. There were also a number of the smaller items which did not return the revenue that has been secured on other fair years. It is, of course, impossible to ascertain why they did not.

The big balloon, which would have been a money maker without question, cost the fair association about \$1,000. The balloon failed through no fault, apparently, of any one connected with the fair association. The inflating apparatus was defective and Aeronaut Joseph Blondin was unable to operate the balloon as intended.

It has been understood for some time that the fair report would show a deficit so the news will not come as a surprise to the people of Albuquerque.

The fair management, however, worked hard to make the big fair a success and while mistakes were undoubtedly made in several instances, still the general sentiment seems to be that the management did the best it could under the circumstances and with a hearty good will to entertain the people.

The merchants whose trade is effected by the influx of fair visitors say that the fair from a business standpoint was a success. The fire show was a new departure in the attraction line but it looked like a winner and the management thought that it was securing a clever attraction as well as a money maker in contracting with the big show.

The Montezuma ball was a very elaborate affair and the decorations were the finest ever seen at the annual ball. They increased the expenses of the affair.

Manager Hubbs was asked by a Citizen reporter for a statement concerning the deficit. He said: "I have nothing to say concerning the deficit except that it exists. I do not care to state the amount of the deficit until after the matter has been placed in the hands of the fair association. I know that I conscientiously did all in my power to make the big fair a winner and gave my

whole time, regardless of business to it. I regret that there is a deficit but it can not be helped. As far as hard work and honesty of purpose are concerned, I gave the fair the best I had."

EL PASO EXCURSION
REACHES SANTA FE

Santa Fe, Nov. 8.—(Special)—The excursion train carrying the El Paso Commercial club arrived here at 2 o'clock this afternoon and are being entertained by a committee of business men appointed for the purpose. The special train on its way to the city stopped near the government Indian school, which is just outside of the city limits where excursionists visited the school. The excursion will leave Santa Fe on its return to El Paso at 8:30 o'clock this evening.

GRAND JURY INDICTS ON PERJURY CHARGE
Thomas H. O'Brien, Engineer For Phelps-Dodge, Charged With Grave Offense.

Santa Fe, Nov. 8.—(Special)—The United States grand jury in session here today returned an indictment charging Thomas H. O'Brien, engineer for the Phelps-Dodge company, with perjury.

The charge against O'Brien originates in connection with the affidavits and statements made in connection with the location of coal lands in San Juan county.

This was the only indictment returned today and it is understood the grand jury will adjourn tonight, so that Judge McFie can go to San Juan county to hold court.

IF BUSINESS MEN and people in general realized more fully the actual, bona fide value of the business propositions stated in our Want Columns, they could save themselves the time and money that they would necessarily spend in securing what they need by some other method. Some people think that because a Want Ad is small, it represents small business. Such is not the case. It is merely the statement of a proposition, without elaboration, and may mean business in the thousands, the securing of a home, the man for the place, or whatever you need. Columns might be written, setting forth the desirability of an offer that is here reduced to three lines. If you find yourself in need of anything, or find you have something you don't need, it will take only a minute to look over our Classified Column, and in the majority of cases, unless your situation is an unusual one, you will find what you are looking for. TURN TO PAGE SEVEN and notice the great variety of our offers, and remember that all are written in good faith, and mean business.

**SOLDIERS TO REMAIN
ON UTE RESERVE**

Omaha, Neb., Nov. 8.—A report received today at the headquarters of the department of Missouri from Major Sibley, commanding the troops at the Cheyenne agency in South Dakota, states that preparations will be made for the troops who have been sent to the reservation to establish winter quarters. The army officials take this to mean that Sibley considers the recent trouble with the Utes of sufficient importance to require the presence on the reservation of troops for some time to come.

He states that Red Cap, the chief who led the recent revolt, has agreed with a number of other leaders to send their children to the agency schools. This question was the immediate cause of the present trouble.

JACK JOHNSON COLOR- ED HEAVYWEIGHT IN TOWN

Negro Posts \$10,000 for a
Fight With Jim
Jeffries.

Jack Johnson, the heavyweight champion colored prize fighter of the world, was in Albuquerque last night, the guest of J. M. Mitchell, manager of the Alvarado buffet.

Johnson was on his return to Chicago from Los Angeles, where he fought and defeated Jim Flynn, the Colorado heavyweight. Johnson put Flynn out in the eleventh round but lost money on the fight by one minute. He had bet that he would finish Flynn in ten rounds.

Leaving Los Angeles, Johnson went to San Francisco and posted \$10,000 for a fight with Jim Jeffries, the world's champion. This fight, however, will hardly take place as Jeffries would be foolish to fight the negro, thought he had every confidence of defeating him.

Johnson has a saloon in Chicago and is reputed to be quite well off.

WHAT MARKET AFFORDS FOR SUNDAY DINNER

Florida oranges are on the market again and traders report that they are selling well in spite of the fact that the price is ninety cents a dozen. The vegetable ranks are thinning out somewhat with the coming of winter, yet there is variety in plenty.

WORK ON NEW ROAD TO THE BURROS CALLED OFF

F. C. Beckett, who had charge of a surveying corps, which was making surveys for a branch road to the Santa Fe proposed to build into the Burro mountains passed through Topeka, Kan. The corps working under Mr. Beckett has been dismissed and it is understood that temporarily all work on the proposed road is called off.

The shutting down of all the copper mines in the Burro district is supposed to be the cause of the calling off of the work.

AMERICAN CLOAK COM- PANY OPENS IN THIS CITY

The American Cloak company of Denver, a large concern handling ladies' ready made garments exclusively, and operating in throughout Colorado, has recently opened a branch house in this city, under the management of C. A. Caldwell.

The business is located in the new brick building at 519 West Central avenue, and although the room is not quite finished and some of the stock still boxed, they are open for business. For the present they will handle ladies' ready made garments only, but a full line of millinery and shoes will probably be added next spring.

The opening of the new store will probably bring about a slight readjustment of the schedule of prices in Albuquerque, as owing to the enormous purchasing orders of the company, and the extensive sale upon which the business is run, they will be able to make better prices than some other stores not so fortunately situated. The business will be conducted on the installment plan.

Parentetically it might be said that the manager, Mr. Caldwell, is not only a dry goods man, but a baseball man as well. For some years past he has been appearing with the best teams of Colorado, playing third base. Last year he was with the Telluride team, which carried off the championship of the state.

SOUTHERN SCHOOLS ARE IN A FINE CONDITION

Territorial Superintendent
Visits Sierra, Luna and
Dona Counties

J. E. Clark, territorial superintendent of public instruction, is spending the day in Albuquerque and will leave this evening for his headquarters at Santa Fe. Professor Clark arrived in the city this morning from a visit to the schools of Dona Ana, Luna and Sierra counties. He says that he was agreeably surprised at the healthy condition in which he found the schools of these three counties. A wave of sentiment favoring the building of school houses is passing over that part of the country and the people are putting their impulses into action.

The schools of Sierra county are especially fine condition. Every district in that county has money in the bank and no debts. The teachers are the best to be had and the attendance per capita compared with the school census is large, the native children in attendance being on a par with the English-speaking pupils.

At Lake Valley an enterprising citizen has provided the school district with a building at the very low rent of \$10 a month, and when enough rent has been paid in to pay for the building, he has agreed to make the district a present of it.

In one place he found three teachers working for a combined salary of \$99 a month teaching enough pupils for five teachers to handle, in buildings not fit for a corral. Mr. Clark said that the people throughout the territory generally were taking advantage of the law passed by the last legislature regarding the special three mills tax for schools. The law provided that districts levying a special levy of three mills are entitled to three mills levied by the territory, making a school tax of six mills altogether. This provides about thirty cents of a capita a year for each child of school age in the territory.

FIRST BASKET BALL GAME OF THE SEASON

There promises to be a hotly contested, highly interesting game of basket ball at Colombo hall tonight when the Minors, the local champs, meet the Kids, aspirants for first place honors, in the first game of a series of three to decide the city championship.

The Minors have not been defeated for two years and feel that their position is secure despite the efforts of the Kids to oust them. F. Ellis, of Washington, D. C., an old basket ball player, has been coaching the Kids.

Former high school players compose the Kids team. They weigh on an average of 150 pounds to the Minors 165. Both teams have been training in practice games for the big contest tonight. There will be a dance after the game.

The Kids are in correspondence with the Las Vegas Y. M. C. A. basket ball team for a game to be played here in the next few weeks or after the series with the Minors.

The line-up for the big game tonight:

The Minors—Ward Anderson, center; Ed. Strumquist, forward; W. Berger, forward; G. Bearup, guard; F. Myers, guard.

The Kids—R. Ellison, center; L. Lee, center; Charles Lemke, guard; G. Bronson, guard; W. M. McMillan, forward; Charles Benjamin, forward. Referee, Ralph Tascher, Umpire, Lee.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

MRS. BRADLEY EXPECTS TO BE ACQUITTED FOR HER BOY'S SAKE

In Her Cell at Washington She Awaits Trial With Supreme Confidence That She Will Soon Be Free.

Mark Bradley, aged 3, and (in the corner on right) Arthur Brown, aged 7.

Washington, Nov. 8.—The most pathetic moments in the cell of Mrs. Annie Bradley, whose trial begins next week for the murder of ex-Senator Brown, who deserted her to marry another, are when she writes beautiful letters to her boys—her boys and Brown's, but they do not hear their father's name.

Most of Mrs. Bradley's leisure is spent in writing the boys long letters full of admonition. Many times when writing these little sermons she bursts into tears and says to the sympathetic matron of the jail, "Oh, why does God give children to such as I. Poor innocents to come into the world blackened by such a stigma and shadowed by evil of both their parents. Yet I am so thankful for their love and their confidence in me."

All her hopes for the future are based on these little boys. "I cannot believe," said she, "that the Heavenly Father, so tender and gentle to little ones, will abandon my helpless little boys."

Mrs. Bradley is now confident of acquittal, and she thinks that her repentance of wrongdoing is so sincere that God will send her opportunity to atone to her children.

She is Religious.
She has a deeply religious nature, notwithstanding the guilt of the past. She is convinced that her regeneration and the eternal salvation of her children depends on her restoration to liberty and the opportunity thus

CHRISTMAS TOYS ARE COMING IN NOW

Stores Are Preparing For the Coming Rush of Holiday Trade.

Although very few people, aside from the sewing girls and the shop people have thought about Christmas as only seven or eight weeks away, and there is already plenty of evidence of that fact beginning to be noticeable in the stores.

The advance guard of Christmas toys and pretty things for gifts ordered by the merchants on summer trips east, are arriving in bales and boxes, and being unpacked and temporarily stored, a few of the most peculiar and extraordinary ones being shown in the windows.

Desultory shopping among the women has already begun and the buying of lace and silks for manufacture into pretty Christmas gifts has been going on for several weeks. In the jewelry stores, pretty novelties in neck chains, rings and other ornaments, calculated to delight the hearts of the feminine world on Christmas morning, are making their appearance, laid out on rich velvet to show their value.

It's In the Air.
The real evidence of the approach of Christmas, however, is the addition to the corps of clerks in the stores. Nearly every store in town has from one to half a dozen new clerks being broken in for the holiday trade and during the month of December there will be many who will work for a month at least.

The Christmas rush as yet is barely perceptible, but it will be a big one this year. The merchants are anticipating a tremendous trade during the holidays this year, and have bought an unusual stock of goods which will be their principal care for the next two months, getting them displayed to advantage. The sale of furs will be about the only thing that won't be boosted at present, furs being about as little needed here as they were in July, but seven weeks can bring lots of icy weather.

Thousands of Toys.
The toy shops have some new things that the children are going to scream over, and wear their little noses out pressing them against the show windows to admire these novelties. And Santa will be besieged with letters this fall, for there are so many things the youngsters are going to want.

And all the pretty things have not come yet, by any means, because from the east comes the report that several of the steamships which have arrived there from Europe during the past few days have been veritable Santa Claus ships. Their great holds have been filled with thousands of cases of toys sent over by the German and French manufacturers for the Christmas trade in America.

Included in the cargoes have been whole crates full of mechanical toys, automobiles, engines, swings, musical tops and trumps, to say nothing of dolls sufficient in number and variety and attractiveness to satisfy the desires of thousands of little girls, and whole regiments of lead soldiers for the little boys. A large part of these toys are for the western trade. A month hence they will cover the counters of the great stores throughout the west and New Mexico will get its share.

DINNER AND DUTCH LUNCH.

The Ladies' Aid society of the Presbyterian church will give a dinner at noon, and a dutch lunch in the evening, from 5 to 8 o'clock, Friday, Nov. 22, in the parlors of the Presbyterian church. Everybody invited.

MILLIONS GOING FOR FOREIGN TITLES

America Feels Drain Caused
by Wife Hunters From
Europe.

New York, Nov. 8.—More than 400 American girls have married foreigners of noble families and many of them have taken big fortunes to their European husbands. A French journal, *Le Petit Parisien*, declared the other day that American girls who had married abroad, mostly for foreign titles, had carried with them to Europe the astonishing sum of 900 million dollars. The Paris writer did not associate this statement with the reports of "tight money" in America, yet the fact that hundreds of millions have gone out of the country with the title hunters may well occasion a little financial as well as social speculation.

The Opinion of a Financier.
Henry Clews, the veteran financier, when asked for an opinion on this estimate, said: "I believe that the statement that 900 million dollars of wealth has been taken out of this country, or at least that the ownership of this vast amount of assets has been transferred to aliens by the marriage of American girls with foreigners, is conservative. Undoubtedly the withdrawal of such an enormous sum has an appreciable effect upon the money market. The folly of Americans who have European titles is extremely costly in this country. Our tourists spend at least 150 million dollars abroad every year most of it foolishly."

Some of the Heiresses.
A local paper prints a list of 356 American girls who have married into distinguished foreign families. Following is a list of twenty-two such heiresses who have carried 150 million dollars out of the country: May Goelert carried away 40 million dollars. Pauline Astor, 20 million dollars. Anna Gould, 17 million dollars. Mrs. Marshall O. Roberts, 12 million dollars. Sarah Phelps Stokes, 10 million dollars. Consuelo Vanderbilt, 10 million dollars. Mary Leiter, 5 million dollars. Margaret Lettice, 5 million dollars. Belle Wilson, 5 million dollars. Caroline Astor, 5 million dollars. Lily Hamerfeld, 4 million dollars. Gertrude C. Parker, 3 million dollars. Julia Bryant (Mackay), 2 million dollars. Miss Garner, 2 million dollars. Florence Garner, 2 million dollars. Claire Huntington, 2 million dollars. Mrs. Livingston (nee Sampson), 2 million dollars. Minnie Stevens, 2 million dollars. Beatrice Zimmerman, 2 million dollars.

Dowries Are Not All.
This alone foots up 150 million dollars. Undoubtedly upward of 300 million dollars has been paid for titles alone. For the dowries have by no means represented all that went with the brides.

In some cases the actual dowry was small in comparison with the money that was subsequently spent by the brides. It has been estimated that the Duchess of Marlborough, for example, spent one million dollars in restoring Blenheim castle. It is known that many of the Huntington and Mackay millions have been spent in paying the debts of Prince Hatzfeldt and Prince Colonna. How many millions it cost Levi P. Howton to have a duke for a son-in-law and then to get rid of him probably only the ex-vice president could tell. What Count Boni de Castellane cost Anna Gould is all told. It is known only by her brother, George.

GALLUP COMPANY ENLARGES ITS STORE

Business in the Carbon City is Moving at a Rapid Rate.

Gallup, N. M., Nov. 8.—(Special.)—P. Mucker & Co. have just finished the addition to their already large store building, and the added room and stock will give them one of the largest stores in the city.

J. H. Young has harvested a phenomenally large crop of potatoes this season. McKinley county potatoes are of a very fine class, and despite the altitude, this region seems to be especially adapted to their growth.

Dr. Couderc has resigned as health officer of Gallup. The town council has not as yet named his successor. The city council is taking up the matter of buying the Pacific company's light plant here.

An election was held here recently for the purpose of issuing bonds for municipal improvement. The bonds were voted and the issue will be ready for sale in a short time.

Mrs. W. E. Irvine has returned home from Chicago, where she has been visiting relatives.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

REGAL SHOES

For Men

No other shoes at anywhere near the Regal price are so thoroughly well made, comfortable, perfect fitting, stylish and generally satisfactory as Regals.

In fact, few shoes at any price possess in an equal degree all of the merits of "THE SHOE THAT PROVES."

That's why Regal wearers are satisfied wearers—that's why you'll never know what all around shoe satisfaction is until you wear Regals.

See our line of fall and winter models and let us try on your style and size.

SUIT AGAINST NEWHALL FOUND WITHOUT FOUNDATION

In the case of the Territory vs. Charles K. Newhall and his bondsmen, M. W. Flournoy and W. H. Hesse, the trial of which was completed yesterday, Judge Aldrich instructed the jury to find for the defendant. The suit was an action to recover the four per cent deducted by Newhall, when county treasurer and ex-officio collector, fees on gaming and liquor licenses in the years 1901 and 1902, which amounted to about \$2,200; also for two items, \$1,500 and \$2,000, alleged to have been illegally retained by said Newhall from the school funds. In the trial it appeared that these two items were duly accounted for in the collector's books, the payment having been made to the board of education of Albuquerque as an advance on the apportionment of the school monies; hence the territory dismissed these items. The defendants then asked to amend their pleadings by showing that the retention of the four per cent was under a mistake of law, the attorney general of the territory having rendered an opinion that the collector had this right. The territory resisted the application of this principle of law under the facts set out in the evidence, and on motion of the defendants, the court directed the jury to return a verdict in favor of the defendants on this branch of the case. The territory excepted to the ruling and the matter will probably be threshed out in the supreme court. In the early pleadings in the case, the defendants set up the statute of limitations, but this question was decided in favor of the territory.

ONE WAY OF GETTING RID OF VAGRANTS

Lee Unkal, a Jap, sentenced to ten days in the city jail for vagrancy, and J. C. Pollock and Frank Haley, sentenced to twenty days each for disorderly conduct, escaped from the gang of city street workers this afternoon when their overseer was not watching. Jerry Driscoll had charge of the men who were hauling gravel on the Highlands. The three prisoners received their sentences in police court yesterday morning and were first put to work on the street this morning. At a moment when Driscoll was occupied elsewhere on the work the men made their escape. Pollock and Haley were arrested for disorderly conduct in a local hotel where they engaged in a drunken brawl. Unkal was arrested for suspicious actions about the St. Elmo.

While the Jap and his associates are probably still hinking endeavoring to make good their escape the police department is smiling. An easy way of getting rid of vagrants is to have them run away.

CONTRACTION OF THE FOOT.
Contraction of the foot is generally caused by navicular disease, founder, corns, etc. Any chronic lameness will induce contraction of the foot, because the horse will favor the lame foot which retards the growth. Sometimes contraction is caused by shoeing or allowing the shoes to remain on too long. "International Honey-Tar Foot Remedy" will cure contraction if used as directed on the label. The use of this remedy will prevent contraction by keeping the foot healthy and in good growing condition.

The MAJESTIC RANGE is the product of the world's achievements in stoves. All the best features of all other makes have been incorporated in this one, and objectional features eliminated. As a result, the MAJESTIC probably stands nearer the line of perfection than any other range. It saves your fuel and your time and produces heat when you want it, where you want it, and in quantity as desired, all at a minimum of attention. If you have never used the MAJESTIC, you have never used the best.
