NUMBER 276

JURY SECURED TO TRY MRS. BRADLEY FOR MURDER

Taking of Evidence
Sensational Case Be
This Morning in Wash-
ington Court.

INSANITY WILL BE THE ONLY DEFENSE

No Attempt to Plead the "Unwritten Law" Will be Made by Her Attorneys-Witnesses From California to Prove Heredity.

Washington, D. C., Nov. 14.—The jury in the Bradley trial was completed at 11:15 this morning. At this time District Attorney Turner immediately began his presentation of evidence for the government.

When court opened today the effort to obtain the jury for Mrs. Bradley's trial was immediately resumed with eleven men in the box. The defense still had three challenges to it and the prosecution nine.

There was little delay in securing the jury and at exactly 11:15, the twelve men were sworn in.

The prosecution will not be obliged to prove that Mrs. Bradley fired the shots that killed Brown as her attorneys admit that fact and will rest upon the ground of emotional insanity as their defense.

Will Go On Stand.

It is probable that she will be put on the stand in her own defense with the hope of influencing the jury in reaching the conclusion that her mind was so unsettled by the long continued wrongs which it is alleged she had suffered that she was not responsible for her act.

She has never made any statement concerning the details of her presence in the room when the tragedy took place. There is no other living person who was present at that time. It is known, however, that while the shooting occurred at 3 o'clock in the afternoon, she had arrived in the city early that morning, having come direct from her home in Salt Lake City.

The wounds on the senator's body, one of which was on his hand and the other in his abdomen, showed that two shots had been fired. Of these the latter proved fatal within five days.

Putting such information together as they have been able to obtain, it is the conclusion that when she went to the senator's room, which she did immediately upon her arrival, she found there certain letters from Mrs. Anna Adams, mother of Maud Adams, the actress, the reading of which greatly incensed her. She seemed then to have disappeared and not to be returned until the afternoon, when, finding Mr. Brown there, she upbraided him, and finding him unwilling to marry her, fired the shots which ended his life.

Kisses His Picture.

Every night she took the senator's picture down from the wall of her cell and kisses it a fond good night.

Judge Orlando Powers, chief counsel for Mrs. Bradley, thus far has been the passionate affection that his client still retains for the memory of her victim.

She still holds sacred the memory of the man who caused her all this trouble and anguish. I have found it very difficult, even now, when she is on trial for her life, to get her to reflect on the fact that she caused a reflection on her. Really vital incidents, big enough to sway the jury, she has kept from me up to the last two days.

Such is the complex nature of the woman who did not hesitate, less than a year ago, to shoot down in cold blood the man who refused her honorable marriage and who had visited upon her the deepest wrongs. As to Mrs. Bradley herself, this is the view she takes of the matter.

"If my attorneys succeed in making the jury see the case as I see it, I shall today, 'I shall have no doubt as to the result.'"

The defense will be one of insanity, not emotional insanity—nor the unwritten law, per se, nor any of the subterfuges that the lawyers are wont to resort to in such cases.

No "Unwritten Law."

"There will be none of that in this trial," Mr. Powers said. "We are prepared to prove that Mrs. Bradley was insane—truly insane—and there will be no mention of the 'unwritten law' at least on our side of the case."

In this connection counsel for Mrs. Bradley prevailed upon the government to bear the expense of bringing to Washington—for the accused woman is practically destitute—Lionel Shrewsbury of California, Mrs. Bradley's uncle by marriage, who will swear that her father's sister spent the last years of her life in the California state insane asylum. This witness will testify that Mrs. Bradley's paternal aunt had frequent periods of madness, during which she would threaten the lives of those near and dear to her.

John. R. Walsh, Chicago Promoter, Who is Now on Trial for "Common Crookedness"

Walsh is thin and ill and it is seldom that he seems interested in his case.

LOST BULLION CLAIMS TO HAVE FOUND REAL GOLD

Men Convicted of Defrauding Buyers of Stock Want New Trial.

HAVE 22 TONS OF ORE FROM "THE CAVE"

Denver, Nov. 14.—That real gold assaying \$26.60 per ton has been taken out of the Lost Bullion mines in New Mexico within the past few weeks is set up by C. L. Blackman and the other men convicted of defrauding thousands of easterners through an alleged bogus mine in a supplementary motion for a new trial filed in the federal court today.

The defendants in their motion also allege they were greatly prejudiced in the minds of the jury through an interruption of their attorneys by Judge Lewis, in which he offered to reopen the case to hear evidence that ore had been shipped from the mine in quantity.

It is admitted, however, that it cost \$38.52 per ton to market gold valued at \$26.60 per ton.

The new motion for a retrial sets up that since their conviction the defendants have during the month of September and October caused to be mined 21.99 tons of ore from the New Mexico properties which was shipped to the Chamberlain-Dillingham ore company in Denver, who extracted the gold. The defendants claim this is newly discovered evidence which could not have been offered at the trial as they themselves were unaware of the exact nature of the ore and the Lost Bullion company had not reached the gold marketing stage when the gold could be taken from the mines.

Motion Supported.

The motion is accompanied by affidavits of persons who mined the ore and who witnessed the extraction of gold in Denver. Timothy O'Connor, secretary of state, being one of the latter. William Thompson, manager of the Chamberlain-Dillingham company; W. A. Chamberlain, its Boulder manager, and others tell about the tests in Denver, while various miners tell of the loading of the ore at Silver City and the shipment to Denver. M. W. Porterfield, a mining expert, and J. W. Pinkerton present statements showing the mine to be valuable.

William E. Wilson, one of the defendants, declares it cost \$164.92 to mine and ship the ore, or \$359.97 more than what they received for the gold. But he adds that the cost of marketing the ore can be cut from \$38.52 per ton to \$14.50, which would leave a good profit.

The motion for a new trial will be argued before Judge Lewis November 20.

ATTORNEY IS TELLING OF MISDEEDS OF WALSH

Prosecution Bitterly Arraigns Former Promoter in Its Opening Address.

DEFENSE EXPECTS TO MAKE HARD FIGHT

Chicago, Ill., Nov. 14.—The trial of John R. Walsh, the former promoter, is now proceeding with the attorneys making the statements of the facts they propose to present. District Attorney Doherty, in his argument, arraigned Walsh as about everything that is "crooked," accusing him of owning large properties in his own right by using the funds of others in a fraudulent manner. He alleged that Walsh used the names of "dummies" in checks and in securing stocks and bonds, and that he personally owed the institution of which he was the head, a sum much greater than the law permitted.

The Illinois Southern railroad deal and many others in which Walsh was interested were gone into thoroughly by the prosecution, which will conclude its preliminary addresses this evening.

The Defense.

Walsh's defense will be the most stubborn that has ever been fought in a Chicago court. He has the best attorneys available and with the fact that they had months to prepare an intricate defense as well as to learn what the prosecution had up its sleeve, it was believed that Walsh stands a fair chance of acquittal.

The defense has gone after every possible witness in the case and it is learned from the prosecution's own witnesses exactly how much they know.

It is expected that the defense will waive its rights to a statement of its case until after the prosecution has introduced all its evidence.

MORGAN IS AFTER FRENCH GOLD DIRECT

New York, Nov. 14.—For several days reports have been circulated that certain banking interests of this city have been engaged in negotiations for a large amount of gold direct from the Bank of France.

The report also intimates that there are certain political questions involved in the negotiations of Morgan with reference to some preferential tariff agreement.

From authoritative sources it is learned today that an effort to secure French gold direct was made by the banking house of J. P. Morgan. At the beginning of the financial trouble a representative of Morgan was sent to Paris for this purpose.

THIRD TERM GAINING STRENGTH WITH EACH DAY

Many Leading Republicans Declare That Their States Want Roosevelt For President.

FOUR SENATORS GIVE HIM DUE WARNING

Wyoming, Nebraska, Delaware and Tennessee All Lined up for Him If He Wants Their Delegations at Coming Convention.

Washington, D. C., Nov. 14.—Frequent expressions of opinion here by politicians well informed on developments in the 1908 campaign indicate that the third term movement is gaining strength. Apparently nothing but positive and final refusal by the president can stop it, and every day he holds off, say many, adds to the conviction that finally he will give the movement its chance.

Senator Burkett of Nebraska declares emphatically that his state has only one choice—Roosevelt. This, in view of the fact that Nebraska's republican convention declared for Taft, being the first in any state to do so, is considered highly suggestive and as indicating that Burkett, who got the endorsement because the president wanted it, has changed his mind for the same reason.

Wyoming Ready.

Senator Clark of Wyoming, after seeing the president, said: "There seems to be no crystallization on anybody. If the president wants the delegation he can have it. Personally, I do not think the president would take another nomination."

Delaware in Line.

Senator Alee of Delaware, who was defeated for re-election, told the president today that the republicans of Delaware wanted him for another term and would supply delegates to help along that end.

"What did the president say when you told him that?" was asked. "I am not at liberty to quote what he said, but I merely tell you what I told the president."

Tennessee, Too.

The announcement of Representative Hale of Tennessee, that the Tennessee republicans would hold their convention early in January and instruct the delegation to the national convention to vote for the re-nomination of Roosevelt is regarded as highly important and significant, because he is a discoverer of a northwestern passage, received formal notification last night at a meeting of the Geographical society of Chicago, that the Helen Culver gold medal for notable achievement in science and discovery, has been awarded him. This is the first award made by this society.

A GOLD MEDAL FOR EMPEROR AMUNDSEN

Chicago, Nov. 14.—Capt. Roald Amundsen, the Norwegian Arctic explorer and discoverer of a northwestern passage, received formal notification last night at a meeting of the Geographical society of Chicago, that the Helen Culver gold medal for notable achievement in science and discovery, has been awarded him. This is the first award made by this society.

Decline Reeve Made Confession.

About six weeks ago Reeve asked Bartlett for advice, but Bartlett said he could not give any as it might not be good. Reeve then told him that the night he set fire to the cars he was so drunk that he did not know what he was doing. That when he awoke he found the cars burning and he was taken back to his cell. He was then taken to the hospital and he was there for several days.

DEMOCRATS TO SELECT CITY FOR NEXT CONVENTION

Chairman Taggart Calls Committee to Meet at French Lick November 22.

French Lick, Ind., Nov. 14.—Chairman Thomas Taggart today issued a call for a meeting of the democratic national committee at French Lick on Nov. 22 at which time the committee will settle upon the time and place of holding the national convention. The cities applying for the convention are Chicago, Louisville, Cincinnati, St. Louis, St. Paul, Milwaukee and Atlantic City.

It is probable that the convention will meet in the central states as there seems but little doubt that the republican convention will meet either in Chicago or Kansas City.

The democratic meeting will not stray far from the place adopted by the republicans. Taggart refused to state today where he expected the convention to meet, but it is believed that St. Louis will be the favored spot.

FORTY HORSES BURNED IN SALT LAKE FIRE.

Salt Lake, Utah, Nov. 14.—Forty horses were burned to death and a loss of \$150,000 caused by the destruction of the Redman Storage and Van company barn and warehouse by fire last night. Three persons were injured by falling walls.

REEVE DENIES THAT HE SET THE FIRE AT BOULDER

Says Alleged Confession Is Untrue and Wholly Denies Any Knowledge of Crime.

CLAIMS OFFICERS ARE "JOBING" HIM

Sheriff and Others Tell How Defendant Told His Story, Signed Written Copy, and Begged For an Early Trial.

Boulder, Colo., Nov. 14.—J. W. Reeve, the man who is accused of setting fire to cars in the yards of the Colorado & Southern railroad here during the recent strike of the switchmen, causing a fire which destroyed the depot, a number of cars, and exploded a car of dynamite, causing the deaths of three men and injury to over 100 people, beside damaging the town, in his trial here today, through his attorneys intimates that he will deny the confession he made the day after the fire. Reeve and another man, both employees of the C. & S., said then that he set the fire to get even with the C. & S. "scabs."

The Alleged Confession.

In the Reeve trial here John H. Chiles, assistant district attorney of Denver and special attorney for the Colorado & Southern, testified that he had seen Reeve Aug. 12 in the sheriff's office and that Reeve had made a statement to him. When asked what the statement was Attorney Chiles objected.

Chiles' testimony was the story of the confession and as it was for the court to decide whether this confession should be admitted as evidence, the jury was excluded from the room. Mr. Chiles then told his story of how Reeve had asked to see him and Mr. Clark in private and had made his confession as to the firing of the dynamite, etc. He also identified the confession.

Mr. Doolittle, Colorado & Southern claim agent, testified that Reeve had been advised that if he were guilty, not to talk, and if innocent, to talk and clear himself, and that in no way was he threatened or advised to confess. He said Reeve had at first denied his guilt and stated that if anyone said he (Reeve) had anything to do with the fire, he would call him a liar. If two of them did so, he would call both liars.

Sheriff's Story.

Sheriff Bartlett testified that Reeve had asked him to face the man who would set fire to the depot. He was then brought before Mr. Woodward and Mr. Kane and asked to deny the charge before them. He turned his head and said nothing. Reeve then asked Chiles and Mr. Doolittle what their official capacities were. Chiles told him he was deputy district attorney for the Colorado & Southern. Reeve then asked Chiles and Mr. Clark privately. The three went into the reception room of the sheriff's office and the stenographer took down the confession of Reeve.

Decline Reeve Made Confession.

About six weeks ago Reeve asked Bartlett for advice, but Bartlett said he could not give any as it might not be good. Reeve then told him that the night he set fire to the cars he was so drunk that he did not know what he was doing. That when he awoke he found the cars burning and he was taken back to his cell. He was then taken to the hospital and he was there for several days.

DEMOCRATS TO SELECT CITY FOR NEXT CONVENTION

Chairman Taggart Calls Committee to Meet at French Lick November 22.

French Lick, Ind., Nov. 14.—Chairman Thomas Taggart today issued a call for a meeting of the democratic national committee at French Lick on Nov. 22 at which time the committee will settle upon the time and place of holding the national convention. The cities applying for the convention are Chicago, Louisville, Cincinnati, St. Louis, St. Paul, Milwaukee and Atlantic City.

It is probable that the convention will meet in the central states as there seems but little doubt that the republican convention will meet either in Chicago or Kansas City.

The democratic meeting will not stray far from the place adopted by the republicans. Taggart refused to state today where he expected the convention to meet, but it is believed that St. Louis will be the favored spot.

FORTY HORSES BURNED IN SALT LAKE FIRE.

Salt Lake, Utah, Nov. 14.—Forty horses were burned to death and a loss of \$150,000 caused by the destruction of the Redman Storage and Van company barn and warehouse by fire last night. Three persons were injured by falling walls.

Mrs. Anna Adams, Senntor Brown's Fiancee, is the Mother of Maud Adams, Actress

It was owing to letters from Mrs. Adams to Brown that Mrs. Bradley killed him.

LOUISVILLE TO HAVE FAVORS ONE NATION OF ANOTHER STREET ALL CENTRAL CAR STRIKE AMERICA

1,100 Men to be Called Out at Midnight if Demands Are Unsettled.

LAST STRUGGLE CAUSED UNUSUAL DISORDERS

Louisville, Ky., Nov. 14.—The local organization of the Amalgamated Association of Street and Electric Railway Employees of America today declared a strike against the Louisville Street Railway company, effective at midnight tonight. Of 1,100 men employed \$50 are said to belong to the union. The strike is an attempt of the union to settle differences with the company. The employees won a partial victory in a strike last April which was attended with much disorder.

Before the calling of this strike, the officials of the union requested the members of the union to abstain from all violence and in every instance to keep out of trouble unless forced to fight by self defense.

Company is Hostile.

It was generally believed that the announcement of the calling of the strike for midnight tonight would cause the company to make overtures toward the men, but the opposite seems to be the case and the company declares that it has granted all the demands in its power and that the union will have to strike if it dislikes the situation.

Officials of the company today stated that plenty of men are in readiness to take the places of the strikers and that there will be no cessation of service owing to the trouble between the union and the company. It is believed that practically all of the employees, regardless of their affiliation with the union, will go out tonight.

The strike last spring was a bloody affair and both sides lost considerably in injuries, property damaged and self respect during the struggle, in which the men flung stones at the company giving in to more than half of the demands.

money from the railroad, pay his bills and return the balance together with the receipts to him. Mr. Doolittle agreed to do this. All this led Reeve to believe that Mr. Doolittle was interested in him personally and was willing to help him.

Reeve also testified that he could not remember much about the confession and did not remember signing it. The reason he does not remember is that he was so drunk at the time he signed the confession. He remembered the fact that he does not remember of ever signing his name in that way. He does not deny that all the persons in the purported confession were asked and that he gave the answers as stated there, but he does not remember anything about them. He remembers that the papers were not attached together. He remembers many minute things, but he did not remember the questions because he was still under the influence of drink, although he had had none for several days.

PORTO RICO WANTS BETTER CONDITIONS

Norfolk, Va., Nov. 14.—The American Federation of Labor today referred to the committee on resolutions a lengthy resolution by the Porto Rican delegation demanding full citizenship for the Porto Ricans the eight-hour day, abolishment of convict labor on public works, and other matters for the advancement of the status of labor on the island.

President Zelaya, of Nicaragua, Expresses His Ideas of Proposed Union.

HE HEARTILY BELIEVES IN SUCH A MOVEMENT

New York, Nov. 14.—On the eve of the assembling of the Central American peace conference, Dr. Fernando Sanchez, minister of Nicaragua to Mexico, who is in this city, made public an official communication addressed to Ignacio Mariscal, minister of foreign affairs of Mexico, in which he says:

"The government of Nicaragua has given me instructions to lay before you a firm resolve with which it is animated to have Central America by voluntary and pacific acts of its governments converted into one nation."

Zelaya Would Resign.

"President General Don Rose Sanctor Zelaya, who has ever been an unwavering partisan for this patriotic idea and one of the most persistent fighters for its realization, is disposed as he ever has been, to resign will pleasure the office which he occupies in Nicaragua in favor of the proposition it shall have by the people as president of the Central American republic."

Senator Sanchez suggests that is the Mexican government thinks well of the proposition, he shall have his communication sent to the governments of Guatemala, Salvador, Honduras and Costa Rica, so they may give their representatives power to act thereon.

RUSSIAN PARLIAMENT MEETS FOR THIRD SESSION

Opening Was Demonstration In Honor of Emperor by Moderator Members.

St. Petersburg, Nov. 14.—The Russian parliament was opened at the Tauride palace this morning. The religious service preceding the opening was marked by the occasion of a great display of patriotic enthusiasm on the part of the Moderator members, and the emperor was vigorously cheered. The social demonstration was marked by the reading of the emperor's greeting. The city is perfectly quiet.

It is not believed that any demonstration will occur at this time nor is it likely that there will be any trouble as to issues unless the social democrats revive the demands of last year.

Their absence from the hall during the reading of the emperor's greeting was noticeable, but they came in quietly immediately afterward and responded to their names at roll call without demonstration.

While there are a large number of people in the city from other parts of the empire, called here by the opening of the parliament, everything is as quiet as usual.

Steamer Burned.

Gaviota, Calif., Nov. 14.—An unknown steamer was destroyed by fire off this point today.

RAILROAD DEPARTMENT

CAR THEIF NOT FREQUENTER OF WEST

Railroad and City Officials Keep Him Out of Territory.

"Albuquerque is becoming a dangerous place for railroad thieves and trespassers and we are not much bothered with them," said a well-known railroad man today. "Once in a while it happens that a train crew finds 'passengers' riding in a loaded car of freight as did the conductor on No. 32 coming this way yesterday and he usually acts exactly as that official did—locks the furl up in the way car with a husky brakeman and they and turn them over to the nearest police station or special railroad officers."

"The Santa Fe is not greatly troubled with thefts of freight. Most of the freight thefts are committed while the trains stop at sidings at small stations when the crew has little opportunity to watch for the thieves. Men or boys hide out in loaded cars, generally effecting an entrance through the end window, which is easily closed, and when the train makes a convenient stop, they throw off any valuable articles they may have discovered."

Not Much Theft. "The road, however, is not much troubled with even that class of offenders as the trains are too closely watched by both yardmen and train men to permit them to often obtain entrance to a car. Once in a while a man or two get into a hide-out pull-me-in and ride a short distance, but they are speedily ditched by the way-side."

"The records of the Santa Fe train men, special agents and others whose duty it is to see that freight is not stolen from the road, have been surpassed of late. Very little freight has come into Albuquerque, either through or local, in damaged or wrecked condition through vandals."

Though probably as many as a thousand cars per day arrive and depart from the local yards in the freight business alone, the officers keep such a wary eye on any such that it is seldom a freight train carries passengers."

The police of the territory aid in keeping the traveling element of the genus "hobo" out of New Mexico by putting him to work whenever he is caught in any city, a course which makes him hike for the border line.

DIG FEAT IN MOVING

A HUGE WATER TANK. San Bernardino, Cal., Nov. 14.—The largest moving job undertaken in this city is now under way in the Santa Fe yards, and it is worth one's while to stroll out that way and take a look at the manner in which a big task of that sort is handled.

It is the immense fuel oil tank which has stood at the west end of the shop yards for several years, which is now on its way to its new location to the north of the new yards and west of Mt. Vernon avenue.

This great tank, which is one of the large type used by railroads anywhere, is 96 feet in diameter, 90 feet high and weighs 390 tons, being built of solid steel. That is no small task to move successfully such a structure as this is at once evident, the immense weight and danger of collapse being the chief obstacles.

The Santa Fe had some trouble in finding anyone who would tackle the job but finally succeeded in getting a bid from W. A. Basore & Sons, of Pasadena, who are the largest building movers in the west. The exact cost of moving the tank is not stated, but is said to be not less than \$2,500.

The work of getting the tank started on its journey has been under way the past month, the greatest portion of the big job being in lifting it from the ground, and ready for travel. It had to be jacked up slowly, great precaution being necessary to prevent its getting out of level, even to the slightest degree, for fear of causing it to collapse.

SWITCHMEN DEMAND MORE WAGES AND SHORTER DAY

Chicago, Ill., Nov. 14.—In the face of an announcement that railroads of the country are more disposed to cut down their working forces than to raise wages, a committee representing 25,000 organized switchmen and switch tenders from Buffalo to the Pacific coast entered into a conference with railway managers today in an effort to force the companies to raise wages 4 cents an hour and grant an eight-hour day. "There is not the slightest possibility that railroads will raise wages at this time," said Simon Thompson, for the roads. "There is more chance that they will cut down wages or curtail their expenditures by reduction of forces."

MINING RAILROAD IS RUSHED WITH WORK

Carthage, N. M., Nov. 14.—The Carthage Fuel company is now employing about 175 men and is employing others as fast as they can get them. The output of the mines is now about 300 tons a day and this will be increased as rapidly as men can be secured to do the work. The New Mexico Midland, which connects the mines with the Santa Fe at San Antonio, is a very busy piece of track. The Emerson-Albarran mine off the road a little piece, is getting out about 75 tons a day, which is hauled to the railroad in wagons.

SMOKE PROBLEM SOLVED

CLAIMS THE BURLINGTON. Chicago, Nov. 14.—Operating officials of the Burlington claim to have demonstrated that the abolition of the smoke nuisance in so far as railroad locomotives are concerned, is not only possible, but practicable. After a campaign lasting three months, the statement is made that

the smoke evil no longer exists on the lines of the Burlington. The whole story is summed up in the term "intelligent firing." That kind of firing is supplemented on the Burlington by the use of what is termed brick arches placed in the locomotives for the purpose of aiding combustion.

Conductor Dougherty who yesterday brought in the second section of west bound freight No. 32, is receiving congratulations all around for his capture of three hoboes in a box car on his train, which afterward was found to be pilfered. Dougherty and his brakemen took the men from the pilfered car and placed them in a way car, where they ultimately guarded them until Albuquerque was reached and then placed in the custody of the police.

J. C. Bailey will remove from Santa Fe in a few days with his family to French, Mora county, where he has been appointed as station agent for the Atchison, Topeka & Santa Fe railway, and also for the Dawson railroad which is a branch line of the El Paso & Southwestern. Mr. Bailey has held the position of cashier in Santa Fe for the Santa Fe system for the past two years.

E. D. Little, formerly of Hutchinson, Kansas, has arrived in Santa Fe to take the position of cashier for the Atchison, Topeka & Santa Fe railway, a position made vacant by the promotion of J. C. Bailey to be station agent at French. Mr. Little was formerly night ticket agent at Hutchinson for the Chicago, Rock Island & Pacific railroad.

Ed Lynn, a passenger fireman of the Santa Fe, well known in this city, as he has been running in and out of here for several years, has returned from La Junta, Colo., where he went to take the examination for promotion to the right side of the cab. He passed with honors and will run a freight engine on the Rio Grande division.

A. Fall, who has been firing passenger engines on the Rincon-Silver City run of the Santa Fe for several years, has returned from La Junta, Colo., and reports that while there he successfully passed the examination to become an engineer. He will run a freight engine on the same run that he has been on so long.

A Pullman conductor, just in from Los Angeles, says that the rainy and chilly weather that has been prevailing here for the last several days extended along the railroad clear to the Pacific coast and that Los Angeles is suffering from some very disagreeable weather.

The Santa Fe has constructed a new vitrified brick walk between the second and third tracks in front of the depot and the Alvarado hotel. It is also putting in new brick walks at the crossing of the tracks on Railroad avenue.

\$100,000 TO LOSE 35 POUNDS OF WEIGHT

New York, Nov. 14.—"I would willingly give my salary to get rid of thirty-five pounds of adipose tissue," remarked William Ellis Corey, the \$100,000 a year president of the United States Steel Corporation today.

The steel magnate's amazing gain in weight since his second marriage has alarmed his actress bride, formerly Mable Gilman, and it is at her urgent behest that Corey is undergoing severe treatment to reduce his flesh.

Corey weighs 210 pounds today, or thirty-five pounds more than when he married the former comic singer. The head of the steel trust is five feet eight inches in height and of stocky build.

Corey appears promptly at 5 o'clock each Tuesday and Friday afternoon at a bath establishment.

First he is placed inside a box which is heated from within by fifty electric lights, in colors of red, white and blue. His head alone is exposed, and around his neck is placed a huge bath towel to prevent the cold air from entering the box. Twenty minutes in the electric light compartment and Mr. Corey emerges sweating and puffing like a porcupine. The millionaire patient is then placed on a leather couch and given what is called an electric massage.

THE CLEANERS COMBINATION. The Browns and Thorntons have joined hands—the Browns do the cleaning and pressing, and you know what Thornton does. Just call Thornton and the Browns will do the rest. 121 North Third street. Phone 450.

Good beer is being recognized more and more every year for its food and tonic properties.

It is reliably stated that practically one-half of the beer consumed is taken with meals—or food in some form. So it would seem that good beer is the rational beverage for the American home.

BLATZ BEER. Always the Same Good Old Blatz.

"Blatz," for nearly three score years, has stood for all that's good and pure in brewing. And all these years it has been undeviating in its quality. It is recommended to you as an article of unquestioned merit, possessed of nourishing and healthful properties.

STERN, SCHLOSS & CO. 315 West Central Avenue. Telephone 142.

VAL BLATZ BREWING CO., MILWAUKEE

PERSONAL Paragraphs

W. G. Sargent, territorial auditor, left Santa Fe this morning for El Rito on personal business.

Charles A. Spies, the Las Vegas attorney, has gone to Washington, D. C., to attend to legal business.

Mrs. Josephine Foster, editor of the Raton Range, is a visitor in Denver, Colo., on journalistic business.

Oscar C. Watson, the Santa Fe insurance man, was out part of the week in Silver City on business.

Charles F. Easley has returned to Santa Fe from a visit on legal business to Escanaba, the county seat of Torrance county.

Superintendent Clinton J. Crandall, of the U. S. Indian training school at Santa Fe, is at the Jemez Pueblo on official business.

Deputy United States Marshal E. C. Newcomer has returned from Santa Fe, where he spent several days attending to official business.

Judge Henry L. Waldo, solicitor of the Santa Fe railway for New Mexico, left Las Vegas yesterday on a business trip to Kansas City, Mo.

Associate Justice Edward A. Mann of Alamogordo has gone to Roswell to hold a special term of the district court of Chaves county for Judge William H. Pope.

Nick Delaney, who has been employed in Santa Fe for several months past, has resigned to accept a position in Las Cruces for which place he will leave in a few days.

Mrs. W. E. Gortner, wife of the court stenographer of the Fourth judicial district at Las Vegas, has returned to the Meadow City from a visit to her home at Goshen, Indiana.

John Gutierrez, who has been employed as a lineman by a Santa Fe company, has enlisted in the regular army and will be assigned to the signal corps at Fort Omaha, Neb.

John H. Young, of Taos, secretary of the Calbreto Lake Irrigation company, was in Santa Fe today to file plan of the proposed irrigation system in the office of the territorial engineer.

Gordon Braley, now in business in San Francisco and brother of Mrs. C. B. Crawford, of Silver City, is in the latter town on a visit to his sister.

Miss Cecilia Manderfield and her little nephew Master Theodore Roosevelt Armijo, of Santa Fe, passed through the city today, for El Paso, Texas, where they will join her sisters, Mrs. George Armijo and Miss Eugenia Manderfield.

Dr. C. N. Lord returned to Santa Fe last night from Espanola and San Juan where he has been for the past two weeks on professional business.

He will leave shortly for Schenectady, New York, where he will engage in the practice of dentistry.

Acting Governor Nathan Jaffa has appointed Will C. Barnes of Albuquerque as a delegate from New Mexico to the Trans-Mississippi Commercial congress which will meet in annual session at Muskogee, Okla., on Tuesday, November 19. Mr. Barnes will attend the convention.

A Hard Debt to Pay. "I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, for my rescue from death by Dr. King's New Discovery. Both lungs were seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry hacking cough, which before the first bottle used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by all druggists, 50c and \$1.00. Trial bottles free.

ESTANCIA HAS A WOMAN'S CLUB UNION

Organization is Working to Secure a Public Reading Room and Historical Association With Good Prospects of Success.

Estancia, N. M., Nov. 14.—Special Agent is proving her claims to be a city by a Woman's Club Union club. Though but lately given its full impulse as an organization it is starting out with many fine ideas of municipal improvement. Its latest move is to arrange for a public reading room and historical club.

Mrs. A. H. Garnet is president and Mrs. A. Speckman secretary of the club.

Rev. R. O. Crichton, the missionary for the Presbyterian church, is conducting a revival service at the Methodist church. The attendance is good and much interest is being manifested.

A steam laundry is one of the new business enterprises of Estancia. L. A. Smith, of New Mexico, Okla., is to be the owner and manager. The Berry Drug company has sold its business to a new company composed of Dr. Sunderland, and Messrs. Dye and Stubbins. The new owners are to move into new and larger quarters across the street.

A. D. Ogil, of Albuquerque, has been employed by John W. Corbett as assistant civil engineer.

The Estancia Savings bank in its third monthly statement shows deposits of \$31,000.

W. M. Ater and N. Mosher, engaged in the retail liquor business at this place, have dissolved partnership. Mr. Mosher, conducting the business and paying the indebtedness of the firm.

The Estancia schools under the management of Superintendent W. R. Shelton have enrolled over two hundred pupils. The district has over three hundred of school age.

Estancia now has a park. The New Mexico Fuel and Iron company has fenced the springs, including the old tree. The park is but three blocks from the depot and covers an area of thirty acres. The park is appreciated by the citizens, and picnics are often held under the historic trees.

He Fought at Gettysburg. David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weakness. Great alternative and body builder; sure cure for lame back and weak kidneys. Guaranteed by all druggists.

PASSING OF HISTORIC SANTA FE TRAIL OF DAYS GONE BY

The Old Fonda, Adobe Hotel Which Marked the End of the Long Track at the Territorial Capital, Is to Be Torn Down and With It Passes Much of the Interest in the Old Time Route of Travel—Daughters of Confederacy Are Marking With Suitable Monuments the Exact Course Traversed by the Old Time Pioneers in Their Travels From Civilization in the East to the New Land in the Southwest.

Just when the patriotic endeavors of the Daughters of the Revolution to prevent the Santa Fe trail from fading to a mere tradition, by marking its route by suitable monuments and tablets, are beginning to show substantial results, it seems a little unfortunate that the most notable landmark of that historic highway of commerce which will remain should be in imminent danger of being sacrificed to the insatiable Moloch, business, says the Denver Republican.

This is the Fonda—the old adobe hotel that stands at the southwest corner of the Plaza, in Santa Fe; and that, from the very beginning until the end of the Santa Fe trade was the terminus of the trail.

The one-story hotel and its great corral, with adobe walls almost as high as those of the hostelry, was the death place of the great caravans of Conestoga wagons drawn by oxen, that freighted the goods for the southwest across the plains in the 50 years from 1822 to 1872. It was the rendezvous of the scouts, pioneers and plainmen from the date of Pike's expedition, in 1806, until the building of the transcontinental railroads inaugurated the new era.

Its dining tables were the attraction that lured the prospectors, soldiers, cow-punchers and settlers, for hundreds of miles around, to the City of the Holy Faith; and its lipid cheerfulness gave to the tenderfoot a foreboding of the true son of the desert.

Hotel Fonda Described. When locomotives and freight trains took the place of the "bull teams" and Conestoga wagons as a means of transportation across the "Great American desert," the Fonda (later known as the Exchange hotel) its dining tables were the attraction that lured the prospectors, soldiers, cow-punchers and settlers, for hundreds of miles around, to the City of the Holy Faith; and its lipid cheerfulness gave to the tenderfoot a foreboding of the true son of the desert.

When the walls began to show signs of weakening, and had to be replaced by heavy timbers, the "roomers" were moved to other quarters, so that the historic Fonda is no longer a hotel. Recently an enterprising business man purchased the property, and the old hotel that has withstood the vicissitudes of more than a hundred years, and witnessed the mutations from Spanish to Mexican, and from Mexican to American sovereignty in the southwest, will doubtless soon be razed, to make way for a modern business block.

Breaded Stretch of Trail. Across the region called the Grand prairie by the Spaniards, and named the Cimarron desert by the Americans, was a breaded stretch of sand, 60 miles across, devoid of either water or food. This is now a prairie in southwestern Kansas, between Richfield and Hugoton. Even at this day, settlers are few and far between in this remote region, and here, at the right of a crow, the stretches the Santa Fe trail, still plainly visible, although no wheels have traversed it for the lifetime of a man.

For wagon trails, showing the deepworn ruts left by the wheels, the paths trodden by the feet of the mules and oxen, and the little ridges between, run parallel to the trail, and follow them, from the northeastern to the southwestern horizon.

Trade routes, like trade centers, are determined by nature, rather than by the arbitrary caprices of men. The physical features of a country are the main factors that control the upbuilding of great cities, and that decide the location and the character of its course.

A little knowledge of geography, therefore, is sufficient to make it plain why the Santa Fe trail played a part so important for the development of the west and southwest. It lay along the line of least resistance to trade and travel between the Great Plains and the Great Central Plateau. To it is followed by one of the world's most important railroad systems.

Used Three Centuries Ago. A generation ago, it was traversed by vast caravans of clumsy wagons, drawn by oxen, mules and horses, conveying a commerce valued at \$5,000,000 annually. More than three centuries ago, it was the route taken by the Spanish conquerors in their journeys of exploration and colonization in the savage wilderness that they believed it was their destiny to conquer and to convert. If it could lift the veil that hides the past history of aboriginal American, we would behold the march and counter-march of armies of plundered and painted warriors, and of hordes of nomads of the plain and desert moving on to conquest or fleeing in wild retreat over this hoary highway of the ages.

The first recorded commercial expedition from the east to the west over this route was that outfitted by

William Morrison of Kaskaskia, Illinois, in 1804. He was followed two years later by Lieut. Zebulon Pike, whose report first revealed to Americans the opportunities for profitable trade that existed in northern Mexico; led to the establishment of the great and remunerative traffic over the Santa Fe trail; and resulted ultimately in the war of conquest against the southern republic and the annexation of the empire of the southwest to the United States.

Before Pike's expedition, little was known of distances, directions, obstacles and opportunities in the indefinite region called "Kansas." Pike mapped the way from the Great Bend of the Arkansas to the mountains, and from the mountains to Santa Fe and Chihuahua, blazing the trail for the realized progress of the American pioneers.

After Lieutenant Pike. If Pike thus cleared the road, William Becknell was the first to make a conspicuous, financial success of following it. He started in 1822, with a numerous company, many of whom perished of thirst, starvation and the wounds inflicted by savage Indians. Nevertheless, the expedition proved immensely profitable, and Becknell's account of the rich prizes that awaited the trader induced many others to imitate his example, after his return by way of the Santa Fe trail. The journey was small, in comparison with some of the trade routes established by the Spaniards in South America, but it was at least three times as profitable as any commercial journey by land ever before undertaken by the American people; and in danger and hardship it was without previous parallel in our national career.

The traffic across 800 miles of wilderness to the inland capital of a Mexican province, at the start was exclusively by pack mules. In 1824 a caravan, owned by 80 traders and consisting in part of 25 wagons drawn by horses, accompanied by a large number of pack mules, made the trip. Great surprises were experienced at the time that no serious obstacles to the passage of wheeled vehicles were encountered. That fact shown that it was true that the Santa Fe trail was a natural highway. Caravans were employed instead of horses for the first time in 1829, and soon became the preferred draft animals.

From the very beginning of the southwestern trade, the difficulties and discouragements that beset it were due mainly to the hostility of the Indians, although the long distances that had to be traversed over waterless deserts, the heat of the treeless plains and sandstorms and tempests that sometimes overtook caravans, added greatly to its dangers.

In later years the difficulties with the southwest grew in importance the dangers and difficulties were lessened by the establishment of military posts at intervals along the trail, but these could not afford perfect security. It was not until the Indians were placed upon reservations, about 1870, that travel became reasonably safe, and even then occasional war parties left the reservations and returned for a time to their old trade of murder and plunder.

How Trains Were Formed. It was the custom of traders to outfit as independent parties. From there the wagons traveled singly to Council Grove, on the Cottonwood, where they waited for others to form train or caravan. The strength to be able to defend themselves against attack. Often 200 men or more were thus banded together for the journey. Each wagon was drawn by eight mules, or by eight oxen or horses. For better protection against the Indians, it was customary for four wagons to travel abreast. In addition to the drivers, a number of horsemen always accompanied the trains, their duties being to kill buffalo, antelope and other game, to supply fresh meat to the company and to keep a sharp lookout for Indians.

Before the start was made a captain was chosen, and the long journey was made under his orders, under something like military organization. Camping places were selected in advance by the scouts, with a view to securing plenty of water and good pasturage for the stock. At night, the wagons were arranged in circular form, to serve as a fort in case of attack. Watches and guards were posted and relieved at regular intervals. Cooks, headers, hunters and scouts were employed and everything possible was done to obviate danger and to expedite progress. In spite of all precautions attacks from the Indians were common and every mile of the Santa Fe trail was marked by many graves.

Most famous of all the scouts that helped guard the trail was Kit Carson. Associated with him were many others, no less resourceful and daring (even if less renowned) than he.

INTERESTED IN IRRIGATION CONGRESS

Mesilla Valley Enthused Over
Approaching Meeting
to be Held Here.

Las Cruces, N. M., Nov. 14.—Already the people of the Mesilla valley have begun to talk about the next meeting of the national irrigation congress which takes place at Albuquerque next fall. They realize the benefits to be derived and the great opportunity which the Mesilla valley will have to get before the irrigation experts of the United States.

All of the visitors and delegates to the congress are men who are interested in irrigation. They have all heard of the Elephant Butte project and will be more than anxious to see all they can of it.

The Mesilla valley will help Albuquerque entertain the visitors and is willing to help out in standing part of the expense.

The visitors will be given a trip to the Elephant Butte dam site, the Leasburg diversion dam and canal, and to the Mesilla valley. By that time the valley, if it improves as it has in the past few months, will have much to show.

Hott Enthusiasm.
H. B. Holt, president of the Elephant Water Users' association, who was a delegate to the national irrigation congress at Sacramento last September, is very much interested in seeing that the Albuquerque meeting is a success. In conversation today, he said:

"I think we ought to get down to business now and everybody pull hard to make the next meeting of the national irrigation congress a great success. We had to work hard to get the next meeting for Albuquerque and now we must show the visitors to New Mexico a little real western spirit. Sacramento spent \$75,000 to entertain this year. Albuquerque and New Mexico cannot afford to do that much, but it will take at least \$25,000. It would be too much for Albuquerque to undertake to raise this amount alone. Some help will have to be extended from other parts of New Mexico. The whole territory will be benefited by this meeting because it will bring to the territory a gathering of men interested in irrigation and particularly in the development of the southwest.

Elephant Butte Project.
The Elephant Butte project was much talked about at Sacramento this fall. Everyone had heard of it and was anxious to learn more about it. Next fall there will be more enthusiasm regarding that project and all of the visitors will be greatly interested in seeing the site for the great storage dam and reservoir, also the Leasburg diversion dam and canal connecting the dam with the irrigation ditches as well as the system of irrigation in use in the Mesilla valley; the crops raised, the fertility of the soil, etc. All will come in for inspection by these visitors, many of whom are experts in irrigation.

Great Opportunity.
"On the whole New Mexico and the Mesilla valley never have had such an opportunity to get before the entire country through representative citizens as is given by the meeting at Albuquerque. I know the Mesilla valley will contribute liberally and will give the visitors a rousing welcome, but the more preliminary work done in matters of this kind the greater is the success. The time to begin preparing is at once."

**OROGRANDE'S BIG
SMELTER IS BUSY**

Handling 250 Tons Per Day Now and Will Increase Amount of Ore to Four Hundred Tons Shortly.

Orogrande, N. M., Nov. 14.—(Special.)—The Southwest Smelting and Refining company has put in operation their big smelting and reduction works. The plant is one of the most complete yet found in the west. The smelter will handle a maximum of four hundred tons per day as soon as another furnace is installed. At the present time the company will handle about two hundred and fifty tons. J. J. Murray is the general manager, George J. Greene is president, T. G. Travis is secretary and treasurer, and G. C. King is superintendent of the smelter.

T. P. Donaldson, of Cananea, Mexico, is one of the newcomers to Orogrande. He will be connected with the smelter.

A prospecting party of citizens, composed of Roscoe Broyles, Ira Jones and J. F. Nugent, have been in Old Mexico for some weeks. They have returned with fine reports of opportunities mining and otherwise in that country.

H. Collins has vacated his position in the local railroad yards and R. G. Jacobs has accepted the position.

Orogrande has had a large number of prospectors and homeseekers the past few weeks. The impression of the new town and community they received must be favorable as many are settling here and going into business. A number of mining claims have also changed hands.

This place is the postoffice and business headquarters of the men who are pushing the town of Sacramento City. This new place will be the logical metropolis of the irrigated section of the Sacramento valley. The promoters of Sacramento have sold a good many lots in the past few weeks.

**ROMANTIC WEDDING
OCCURS AT TUCSON.**

It began in Laboratory of Arizona Several Years Ago and Marriage Just Took Place.

Tucson, Ariz., Nov. 14.—A romance which began in the chemical laboratory in the mining department of the university several years ago, terminated in the wedding of Miss Mae Do-jores Kane, daughter of Mr. and Mrs. O. Z. Kane, of this city, and Horace Holbrook, assayer for the Imperial Copper company at Silver Bell.

Accidents will happen, but the best related families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurt.

DOROTHY RUSSELL'S SECOND HUSBAND TO STAR WITH HER

Lillian's Daughter Has Decided on Disposition of the Young Man
She is to Wed.

Dorothy Russell and Paul R. Jones.

St. Paul, Oct. 14.—Everybody says he's a nice young fellow, this Paul R. Stone, the actor man who is going to be the second husband of Dorothy, Lillian Russell's "ducky" daughter.

Dorothy is quite young yet, but she's had her little experience in the divorce court. Stone is about 30

years old and is a St. Paul boy about four years ago he became stage struck and flew off to New York. He has been a success in several companies and met the dainty, pretty Dorothy on the Rio

After they are married Dorothy Russell will take her young husband into vaudeville.

STRANGER GIVES UP ON MURDER CHARGE.

Tells Prescott Police He is Wanted in Idaho for Having Killed a Man.

Prescott, Ariz., Nov. 14.—Last night as Jailer Meador stood in the north door of the court house a rather muscular-looking strange man of about 35 years came up the steps and asked Meador if he was the sheriff. Meador replied that he was not. Then the man asked if he was a deputy sheriff. Meador replied that he was. The man then said that he desired to surrender himself; that he had killed a man in Idaho eighteen months ago and had escaped from the officers; that there was a reward for his capture and that he was tired of dodging around and being a fugitive from justice; that he desired to return, stand trial and take the consequences. Meador told the man to consider himself under arrest.

He said his name was R. M. Stratan. When locked up, he said that he never before had such a feeling of relief. He said he thought he would be cleared of the charge of murder, as the killing was almost accidental. The officers of the Idaho town where the alleged murder was committed, have been telegraphed to.

Weak Kidneys

Weak Kidneys, surely point to weak kidneys. The heart, the stomach, and their weakness, not in the organs itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is scanty or dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month. Tablets or Liquid—and see what it will do for you. Druggists recommend and sell.

**Dr. Shoop's
Restorative**
"ALL DRUGGISTS"

A Significant Prayer.
"May the lord help you make Bucklen's Arnica Save known to all," writes J. G. Jenkins, of Chapel Hill, N. C. It quickly took the pain out of a felon for me and cured it in a wonderful short time." Best on earth for sores, burns and wounds. 25c at all druggists.

NOTICE—The opening turkey dinner at the Home Restaurant last Sunday pleased so many people, that the management has decided to repeat it next Sunday, 12 to 2:30 o'clock.

Every Woman
is interested and should know about the wonderful **MARVEL Whirling Spray**. The new Vaseline Perfume. Best—Most convenient—Most effective. 25c at all druggists. 44 East 23rd Street, NEW YORK.

No Breaking-in needed

BORN--AN IDEA

ABOUT THE RAREST THING THAT EVER HAPPENS IN THIS OLD WORLD OF OURS, IS THE BIRTH OF A NEW IDEA, AND THE FORTUNATE POSSESSOR OF A FINE LARGE ONE IS WORTH MORE TO HIMSELF AND MORE TO THE WORLD THAN THE SANTA FE RAILROAD.

PSYCHOLOGISTS, WHO MAKE A BUSINESS OF SORTING OUT IDEAS AND SPYING INTO THE WAYS THEY ARE BORN, SAY THAT AFTER YOU PASS THE AGE OF ABOUT TWENTY, YOUR IDEA-BEARING DAYS ARE ETERNALLY OVER. IF YOU ARE STILL ON THE TENDER SIDE OF THIS AGE--AND ARE WISE--YOU MAY WISH TO READ THIS STATEMENT AGAIN.

NOW THE ALBUQUERQUE CITIZEN CARRIES IDEAS IN STOCK. WHERE THEY CAME FROM AND WHO THEIR PARENTS ARE, IS NEITHER HERE NOR THERE. SOME OF THEM RUN ALONG THE LINES OF BUSINESS, BUILDING AND TRADE GETTING. THESE IDEAS WILL BE SOLD, LEASED OR RENTED TO THE PUBLIC, FOR CASH OR ON THE INSTALLMENT PLAN.

THEY KEEP A YOUNG FELLOW AROUND THE OFFICE, AND PAY HIM EVERY WEEK, TO DO NOTHING BUT LOOK AFTER THE ADVERTISING. THERE IS NOTHING HE LIKES BETTER THAN TO HAVE SOME ONE COME IN AND SAY: "HERE I WANT TO SPEND \$50.00 EVERY MONTH IN ADVERTISING. I WISH YOU WOULD TAKE THE WHOLE THING OFF MY HANDS, AND RUN IT AS YOU THINK BEST. I HAVE OTHER MATTERS TO CARE FOR, AND YOU PROBABLY KNOW MORE ABOUT IT THAN I, ANYWAY."

A NUMBER OF ALBUQUERQUE BUSINESS MEN HAVE ALREADY MADE SUCH ARRANGEMENTS--MORE ARE DOING IT EVERY DAY. ONE WISE MERCHANT, WHO ATTEMPTS TO DRAW A LINE DIVIDING THE PATRONAGE HE RECEIVES FROM ADVERTISING, FROM THAT COMING THROUGH OTHER CHANNELS, INFORMED US ONLY YESTERDAY THAT HIS ADVERTISEMENT IN THE ALBUQUERQUE CITIZEN DURING THE TWO MONTHS IT HAS RUN, HAS NETTED HIM SUFFICIENT TO PAY FOR THE ADVERTISEMENT FOR SIX MONTHS. ANY ADVERTISEMENT THAT PAYS FOR ITSELF IN DIRECT, IMMEDIATE RETURNS, IS A GOOD INVESTMENT, BECAUSE YOU GET YOUR MONEY BACK, AND THE EXTENDED PUBLICITY TO BOOT. BUT WHEN RESULTS ARE SUCH AS THIS MAN EXPERIENCED YOU ARE GETTING LITTLE LESS THAN A GOLD MINE.

THE FIRST MAN IN THE ADVERTISING FIELD REAPS THE FINEST OF THE WHEAT. THE LATE-COMERS GLEAN THE STUBBLES. DUKE, THE TOBACCO KING, IN CONVERSATION WITH THE WRITER ONCE SAID: "I BEGAN LIFE ON A STONE PATCH, WITH A WIFE, A BLIND MULE AND TEN DOLLARS. I AM NOW WORTH THIRTY TWO MILLION DOLLARS, BUT I HAVE SPENT FORTY MILLION IN ADVERTISING." PROBABLY NO MAN IN ALBUQUERQUE HAS HAD A MORE MODEST BEGINNING THAN MR. DUKE, AND THERE IS NO REASON WHY ANY MAN WITH EQUAL BUSINESS ABILITY, AND POSSESSED OF THE SAME BUSINESS FORESIGHT, SHOULD NOT SUCCEED AS WELL. IF THERE IS, STATE IT TO YOURSELF, AND BE CONSOLID. IT IS AN OLD SAW, BUT A KEEN CUTTER, THAT SAYS: "IT PAYS TO ADVERTISE."

"STATEHOOD FOR NEW MEXICO"

Don't They Want Statehood?

Over in Arizona they are apparently trying as hard as possible to keep down the statehood sentiment.

The International-American, an Arizona paper, which apparently has quite a standing among Arizona's democracy, throws cold water upon the statehood boom in the following manner.

In New Mexico, we are going to have statehood or start something and Governor Curry is now in Washington for the purpose of starting whatever it is to be.

The International-American says: "Governor Kibbey has returned to the territory from his brief visit with President Roosevelt which occurred in Mississippi several weeks ago." The return of Governor Kibbey, and his published statement regarding the attitude of the president in regard to statehood for Arizona, comes in the nature of a disappointment, for the reason that the governor is unable to shed any additional light, from an authoritative source, on the republican program which has been decided upon after the two remaining territories.

"Reading between the lines the opinion is easily formed that there is to be no statehood for Arizona, and possibly not for New Mexico, at the approaching session. According to the president this will probably be the result, because, forsooth, 'leaders' in congress are opposed to the admission of additional territories to statehood at this session. It is difficult for the reader to realize offhand that the strenuous one is willing to acquiesce in the wishes of the 'leaders' in congress on any question. Certainly, such was not the modus operandi in the last session when the 'big stick' and the federal patronage was worked for all they were worth in the attempt to join Arizona with New Mexico in joint statehood. Perhaps, the president is not so much in earnest for single statehood for Arizona and New Mexico as he was for joint statehood, and then, again, it is barely possible that the president will not attempt to dictate legislation with such a high hand in the approaching congress with the next presidential election only a few months removed.

"Governor Kibbey's statement at the best is not calculated to inspire much enthusiasm at this time. While the president is for us, he is willing that the 'leaders' in congress should have their own way, which may be taken to mean that Arizona and New Mexico will remain territories at the expiration of the sixtieth congress."

It Pays to Advertise

The Citizen has been running a short, concise statement of conditions in Albuquerque for the past few issues, illustrated with suitable cuts, in an effort to do its share towards setting forth the virtues of this city for the benefit of persons desiring to settle here.

This was done because The Citizen has received so many letters recently from various people who want to know about conditions in the southwest and particularly in this city.

The Citizen has also advocated that our commercial club take up the proper advertising of Albuquerque and has suggested several means for so doing, which would cost comparatively little.

That the efforts of The Citizen to advertise Albuquerque are meeting with success is shown by the following letter received by this paper today, and which The Citizen takes the liberty of publishing as an argument in favor of its cause. The letter is as follows:

Santa Fe, N. M., Nov. 13.
Mr. William F. Brogan, Managing Editor, Albuquerque Citizen:
Dear Sir:—Will you kindly have sent to the following your paper of the 12th inst., as per your suggestions in that issue, these people are interested in New Mexico and are contemplating investments in the territory:
Mr. August Olinger, Anlage 15, Heidelberg, Germany.
Mr. Philip Schlemmer, care Roessler & Hasselacher Chemical Co., P. O. Box 1499, New York City.
Mr. Carl Hoffbauer, care Germain, Hoffbauer & Helm, 25, 30 West Twenty-second street, New York City.
Mr. Edward H. Jewell, care James N. Brown & Co., Bankers, Hanover National Bank Building, New York City.
Mr. Edgar Bingham, care Russell & Bingham, Penn Yan, New York City.

Thanking you in advance.

Yours very truly,

P. LIENAU.

Jiu Jitsu in White House

The fact that President Roosevelt witnessed a wrestling bout between the champion Jiu Jitsu wrestler of Japan and three other Japanese wrestlers, in the East room of the White House, might be viewed with considerable alarm among the members of the Ananias club. If the president in addition to his other accomplishments, adopts the Jiu Jitsu form of wrestling, it won't be exactly safe for any one to get frisky around the White House.

It is said that the president as well as his cabinet members who were present, enjoyed the wrestling bout immensely, and that the big Japanese wrestler showed the president forty-eight different holds for disposing of his opponents.

Whether or not the president is practicing Jiu Jitsu on the quiet in the basement of the White House, is not known, but a strenuous man like the president is quite likely to take a deep and wholesome interest in anything so athletic.

It will therefore be well for frenzied financiers, nature fakirs and members of the Ananias club to take due notice and act accordingly.

It is being charged and denied that Grant, Farragut and Thomas applied for commissions in the Confederate army against the Union. About the only comment necessary is that whether they did or not cuts very little ice. General Lee fought until the last ditch and no human being could have done more. Likewise the Union officers fought for their uniforms as true soldiers and true men, so neither side to the controversy can really offer a valid objection to the statement one way or the other. A soldier is a soldier and so long as he does a soldier's duty, he is a credit to his country.

There is more politics in Kansas at this date than there would have been had this been a year for a general election. A general election has its value as a sort of interruption.

A Newark judge has just decided that a man is not likely to lead a double life on \$1 per week. We fall to see how he could even be expected to live a single one.

"Doing business on credit isn't hard when you get used to it," observes the Chicago Tribune. It is, however, sometimes hard on the creditors.

"Conscience never takes a vacation," asserts the Baltimore American. Which may account for its sickly condition in many instances.

The most should be made of this fine weather to complete the job of street cleaning that was begun some days ago.

Albuquerque sports say duck hunting is so good they haven't time to worry about the financial question.

Caruso will get \$120,000 for engagements this coming season. Enough to pay his fines and a little left over.

King Edward has been presented with a \$750,000 diamond. Hotel clerks, please sit up and take notice.

Hetty Green reports that she loves to work. Others?

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

ABOUT TOWN

Deeds Filed for Record.
Pedro Apodaca and wife to Luis Trujillo, a piece of land in Precinct 1, \$120.

Fresh sweet apple cider at Richelleu Grocery.
A new bill goes on at the Crystal theatre tonight.

New Jersey sweet potatoes at the Richelleu grocery.
Thos. G. Price, of Edith, N. M., is registered at the Alvarado.

H. O. Wallenhorst, J. A. Miller and W. Spence were initiated into the Elks at last night's meeting.

Regular meeting of the 7 o'clock club of the Brotherhood of St. Paul of the First Methodist church tonight at the church. Initiation.
The Woman's Relief Corps will give a pie social at Red Men hall Saturday evening, Nov. 16. Everybody invited to attend.

The New York Journal says of McBride: "E. J. McBride played the Beethoven 5th Concert with the Phil Harmonic orchestra. Sunday afternoon. He played with dash, spirit and feeling, receiving fourteen encores."

J. O. Edwards, Carl Hurd and J. E. Lane, who were arrested yesterday afternoon on westbound freight train No. 33 in a pilfered box car, will be arraigned before Judge McClelland this afternoon at 4 o'clock on a charge of burglary.

A. A. Green, the showman, who suffered a broken leg while performing in the Norris and Rowe show when here recently, will soon be able to use the injured limb. Mr. Green says that he believes that he will make Albuquerque his future home.

Eduardo Trujillo has filed suit in the Bernalillo county district court against his wife, Alejandra Chavez de Trujillo for divorce, charging abandonment. He says they were married in San Antonio in 1896 and lived together until April 30, 1907, when his wife left him.

Miss Mamie B. Hall, aged 23, died this morning at 7:30 o'clock at the home of her father, G. W. Hall, 618 South High street. The funeral services will be held in St. George's chapel Friday afternoon at 2 o'clock. Rev. H. B. Hammond officiating. The father will leave Saturday morning with the remains for Olathe, Kan., where burial will be made. Miss Hall lived in Albuquerque three years and is survived by three brothers, a sister and her father.

All the school teachers of Bernalillo county, together with a large number of the patrons of the schools are expected to attend an educational rally to be held at the town hall in Old Albuquerque tomorrow afternoon at 2 o'clock. A. B. Stroupe, who presided at the last meeting, will preside, and there will be addresses in both English and Spanish. Hiram Hadley, ex-superintendent of public instruction in New Mexico, will be the principal speaker. Superintendent Clark, Hadley's successor, is expected to attend and speak at the rally.

Maurice Goodman, editor and publisher of the Portage Daily News and the Wisconsin State Record of Portage, Wis., is in the city visiting his old friend, Deputy United States Marshal W. R. Forbes. Portage, Wis., is a thriving town of 6,000 people, according to Mr. Goodman, and is supported by factories and railroads. It was so named because of its location between the Fox and Wisconsin rivers, the two rivers running in different directions, approach within a mile and a half of each other. In the pioneer days of the country, people used to come down one river to the point closest to the other river and carry their boats across the intervening country.

ENGLISH PREMIER IS TAKEN SUDDENLY ILL.
Bristol, England, Nov. 14.—Premier Sir Henry Campbell Bannerman, after addressing a political meeting here last night, was seized with a sudden illness. Heart trouble is believed to be the cause.

Keep your feet warm and dry and colds will not trouble you. You can easily accomplish this by buying a pair of our rubbers. All sizes for men, women and children. C. May's Shoe Store, 214 West Central avenue.

GOLD HEADED CANE IS GLUE TO DEAD MAN'S RELATIVES

An inscription on a gold headed cane found in the trunk of F. E. Coale, an insurance agent, who died suddenly in his room in the Garfield hotel Wednesday evening, was the only clue Undertaker Borders and the dead man's friends found among his effects that led to the finding of his relatives.

No letters or cards from his relatives were found in Coale's room. The cane which led to the finding of a sister was stowed away in the bottom of a trunk. An inscription on it read "T. F. Coale, By Members of Venus Lodge 152, Mansfield Ohio. Worshipful Master 1836-1892."

M. A. Young, the secretary of the Masonic lodge in Mansfield, which presented the cane to Coale's father, was communicated with by telegraph and it was learned that none of Coale's relatives then lived in Mansfield, but Young gave the address of Mrs. Mary Baughton, a sister of the deceased, of Gem, Idaho.

Undertaker Borders has wired to Mrs. Baughton of the death of Coale asking what disposition to make of the body, and is now awaiting an answer. Coale came to Albuquerque a year ago from Mogollon and previous to that lived in the east.

JURY IN SCHMITT CASE HIGHLY ENTERTAINED

The jury that is sitting in the case of Joseph Schmitt versus The Southwestern Brewery and Ice Company, a suit for \$25,000 damages which the plaintiff alleges that he suffered as a result of injuries received while in the employ of the defendant company, now on trial, has been highly entertained during the progress of the case.

With W. B. Childers on the side of the defendant and N. B. Field on the other side representing the plaintiff, much sarcasm has been flung across the court room, highly amusing to the spectators and the jury. The jury as a whole is English speaking and intelligent enough to appreciate the deepest kind of wit.

A newspaper man was put on the stand yesterday in the afternoon to testify as to the authenticity of a re-

A SNAP

For the right party. One of the best 20-room transient hotels in the city. Directly opposite the Santa Fe depot. A money maker. Rent very reasonable. Long lease. Rooms taken every night. The Busiest Drug House Between Denver and Los Angeles

NO MORE FOOT BAL FOR 'VARSITY THIS YEAR

Game With Farmers Had to
be Called off—Student
Bodies Disappointed.

There will be no football game Saturday between the teams of the University of New Mexico and the territorial agricultural college at Las Cruces, the "varsity" eleven having withdrawn when it was learned that some of their players were liable to be denied the privilege of participating in athletic events because of their low standing in their studies.

One player, a stellar light on the team, whose name is withheld, fell so low in his studies that he has been denied the privilege of taking part in any athletic event at the university. Three others were said to be under the ban last week but by hard work they made up their studies.

"We have three distinct classes, A, B, and C," said a member of the faculty this morning. "A student rated A, the highest, can participate in three different departments of college sport, as baseball, basketball and football. One rated B has two privileges and C has but one privilege. The student rated below C is denied privileges."

The game at Las Cruces would have been the big athletic event of the year in New Mexico inter-collegiate annuals and students over the territory greatly regret that the game has been called off. No other important games this season were scheduled by the varsity. There is a movement on foot at the university to organize a young men's basketball team. The girls have a team organized, but have secured no games yet. However, they play several practice games a week.

MANGE.

This disease is caused by a parasite called acari. They burrow under the skin and cause a severe itching which causes the hair to come out. Unless cured it will extend over the greater part of the neck, shoulders, and sometimes over the entire body. This disease causes intense itching, and the more the horse rubs the more he wants to rub. As he rubs some of the parasites become detached and cling to posts, etc., and spread the disease by becoming attached to other animals. "International Pheno-Chloro" is a sure cure for this very annoying disease. It is easy and quickly applied and is absorbed at once and destroys the parasite. E. W. Fee, 602-604 South First street. Phone 16.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

MILLET STUDIO.

Best remedy for mothers to use is Kennedy's Laxative Cod Liver Syrup. It tastes nearly as good as maple sugar. It contains no opiates. Sold by J. H. O'RIELLY.

FORMER ALBUQUERQUE BOY HERO OF CHI- CAGO FIRE

Garfield Hughes Saves Woman
From Burning to Death
With Mail Sack.

Garfield Hughes, son of Mrs. Thos. Hughes of this city, and a former Albuquerque boy, has achieved no little fame for bravery by saving a woman from burning to death in Chicago. Mr. Hughes, who is a mail carrier in the big Windy City, was on his route one morning recently when he saw a woman run into the street enveloped in flames from her head to her feet. He put his mail sack over her feet and wrapped her body in a blanket brought to him by a neighbor, smothering the flames.

The woman's life was saved temporarily but she died some few days after from the shock and from having breathed some of the flames. Chicago newspapers recount the story as follows:

From the Chicago Daily News, October 21:
"A mail carrier helped save a woman from death by fire today. Garfield Hughes was the gray-clad hero and his mail sack was the instrument of rescue. Mrs. Francis Burr, 6449 Vincennes avenue, was the woman endangered, her clothing having become ignited while she was lighting a gas stove in her home. Her screams brought Hughes to the scene and he was assisted by women from nearby flats, who brought blankets to wrap about the woman's body while Hughes placed his sack over her feet and attacked the flames with his hands."

When the flames were extinguished it was found that the woman's side and neck were seriously burned. She had been moaning continually for her husband and her pleas were answered when he appeared. He had been summoned from his picture frame shop at 69th street and South Park avenue and hurried home on a bicycle. After being attended by Dr. George Scofield Mrs. Burr was taken to the Englewood Union Hospital."

From the November Postal Record:
"Garfield Hughes, a letter carrier, of Chicago, Ill., emptied his sack of letters into the street Monday, October 21, and then used the sack to save a woman's life."
Mrs. Francis Burr was working over a gas stove in her kitchen, when her clothing caught fire. She rushed into the street a mass of flames, and drew the mail sack over her body, extinguishing the flames. The woman was taken to the Englewood Hospital, seriously burned."

POLICE COURT

Vagrant Pretended to be Deaf and dumb—Drunk With \$75 in His Pocket—Fined For Fast Driving.

B. E. Delano, an alleged opium fiend, was arraigned before Police Judge Craig this morning on a vagrancy charge. Delano was found on the streets yesterday carrying a writing pad and pretending to be deaf and dumb, begging from the passers-by.

In the city jail yesterday evening he passed the coat of another prisoner, who was working on the street gang, through the bars to the prisoner outside, who was marching in from work with the rest of the gang. The prisoner, Henry Lang, made good his escape after receiving his coat.

Delano was found guilty and sentenced to thirty days in the county jail.

Had \$75 in His Pocket.
Lorenzo Escavado was found lying in a drunken stupor in the alley back of Third street near West Copper avenue last night and was taken to the police station where \$75 was found on his person. This morning he was given his money and released after being fined \$10 for drunkenness.

Fined For Fast Driving.
Ralph Combs, a grocery clerk, was before Judge Craig this morning for fast driving. Officer Quier arrested Combs on West Copper avenue near Third street this morning and testified that he was driving faster than the law allowed, endangering the lives of children on their way to school.

He was fined \$10 and costs, but Judge Craig suspended the fine on promise of more careful driving in the future.

A HARP 100 YEARS OLD
A valuable relic of auld decency is a harp carried by and used this week by The Elliotts in their delightful harp and vocal specialties at the Crystal Theatre.

This harp is over a hundred years old, and like a rare old violin its tone has improved with age. Mr. Elliott announces fittingly that such an old time instrument seems particularly adapted to the dear old time songs, and, just to make his words good Mrs. Elliott sings to its accompaniment that hallowed favorite of by-gone times, "Silver Threads Among the Gold." It is a touching ballad and brings up beautiful memories.

Everyone who is interested in music and rare musical instruments should see and hear this harp and the Elliotts' singing.

OFFICIAL PROGRAM FOR STOCKHOLDERS ALLEGE THE BAPTISTS' CONVENTION IS INSOLVENT

Attendance Will be Large—
Success of Meeting
Quite Certain.

An unusually large attendance will mark the opening of the convention of the Baptist church of New Mexico, when it convenes at the First Baptist church, South Broadway, this city, this evening. If the large number of visiting Baptists in the city are to be taken as a sign of prophecy.

The number in the city yesterday was greatly augmented by new arrivals last night and this morning. A successful convention seems quite certain.

The official program for the convention is as follows:

Thursday Evening.
Devotional meeting led by Rev. W. A. Nicholas.

Convention called to order by the president and announcement of committee on enrollment.

Introductory sermon by Rev. B. C. Miller.

Friday Morning.
Devotional services led by Rev. S. B. Callaway.

Report of committee on enrollment and appointment of committee on nominations.

Introduction of visiting brethren.

Report of officers by committee on nominations and election of officers.

Report of committee on Sunday schools and publications. Discussion led by J. L. Rupard.

Friday Afternoon.
Devotional services conducted by Rev. J. F. Rorex.

Report of committee on Christian stewardship.

Consideration of amended constitution to be presented to the board of managers.

Friday Evening.
Devotional services conducted by Rev. W. J. Gordon.

Report of board of managers and of the committee on state convention. Discussion of these reports.

Saturday Morning.
Devotional services led by Rev. W. C. Grant.

Report of committee on foreign missions. Discussion led by Dr. L. N. Clark.

Report of committee on women's work. Discussion led by Miss Emma E. Anderson.

Saturday Afternoon.
Devotional meeting conducted by Rev. C. H. Barnes.

Report of home missions. Discussion led by Dr. E. E. Chivers.

Report of committee on obituaries.

Saturday Evening.
Devotional meeting led by Rev. Milton Reece.

Report of college board and of committee on education. Discussion led by Rev. S. B. Callaway.

Resolutions and miscellaneous business.

Adjournment.

SCHMITT CASE IS NEARING AN END

Mrs. Joseph Schmitt, wife of the plaintiff in the \$25,000 damage suit against the Southwestern Brewery & Ice company, and Eugene With, his brother-in-law, and wife, testified in the Bernalillo county district court this morning that Schmitt was mentally incapable of knowing what he was doing when it is alleged he signed a paper releasing the brewery from obligations on damages.

The plaintiff closed his case in rebuttal this morning and this afternoon the defense was given a half hour to take evidence in rebuttal. Dr. J. H. Barnes and Dr. Kauffman were subpoenaed as witnesses for the defense this afternoon. The lawyers began their arguments after the evidence in rebuttal.

The case has been one of the most stubbornly fought legal battles ever tried in the second district court, the attorneys having had numerous passages at words in wit and sarcasm.

DIAMOND THIEF HAS MANY ALIAS

Story of Robbery From the Los Angeles Examiner—His Employers Knew Him as Sullivan.

While the Los Angeles diamond thief, confined in the city battle awaiting the arrival of an officer from California to take charge of him, maintains stoutly that his name is Sam Solomon, a suspicion arises that possibly Solomon is only an alias, or possibly Solomon is his right name and that he has other aliases besides the name Sam which he used when first arrested by the police.

The Los Angeles Examiner refers to him as Sam Sullivan, which name was given the paper by the firm for which he worked as a clerk in a pawnshop.

Employers Knew Him as Sullivan.
The Los Angeles Examiner says: "Sam Sullivan, confidential clerk in A. Lubeck's pawnshop, at 107 1/2 East First street, is missing and is claimed by his employer that Sullivan has embezzled money and diamonds worth \$400. The police are searching for the man, with a felony embezzlement warrant. It is their belief he has left the city."

"Lubeck claims that Sullivan had every privilege in the pawnshop and had access to the safe at all times. The pawnbroker told the police that Sullivan collected bills for the firm and frequently carried diamonds with him to show to prospective customers."

"Last Friday, Lubeck avers, Sullivan entered the store, said that he was going out later, and then left the store, he says. When he returned later Sullivan was gone and diamonds valued at \$400 and \$50 in cash was missing."

"Tuesday the pawnbroker told the police Sullivan had been away from his home at 1152 West Seventh street for several days. Lubeck is positive that the man has left the city. Sullivan recently came to Los Angeles from New York with the best of recommendations."

Receiver Is Asked for the
Mogollon Gold & Copper
Company.

Stockholders are seeking through the courts to have a receiver appointed for the Mogollon Gold and Copper company, a corporation organized under the laws of New Mexico, and owning an alleged mine in Western Socorro county.

Suit asking for the interference of the courts in the management of the company's affairs was filed in the second district court yesterday by the law firm of Klock & Owen, appearing as counsel for Walter Hauchman, Mary B. Dun and George H. Maston, residents of New York City.

Opposed to High Salary.

The petitioners allege among other things that the company is insolvent and unable to pay its indebtedness, bonded and otherwise, which will aggregate close to a half million of dollars. One hundred and ten thousand dollars of this indebtedness has been incurred since May 1, 1906. The month of June, 1907, marks another date conspicuous in the petition. On this date, the petitioners allege, the directors of the company raised the salary of Thos. J. Curran, president of the company from \$2,400 to \$6,000 a year and that it was for no reason of welfare to the company that the salary of the said Thos. J. Curran was raised.

Curran Given Loose Hand.

"The plaintiffs further allege that upon information and belief that the assets of the said defendant company in the territory of New Mexico and elsewhere will not exceed the value of the sum of \$50,000. The plaintiffs further allege upon information and belief that at the aforesaid meeting of the directors of the defendant company, in May, 1907, the said Curran was given \$20,000 in bonds of said company to sell as he liked; that the said bonds were issued to M. W. Flournoy, vice president of the First National bank of New Mexico, and the plaintiffs vary believe, were issued to said Flournoy as securities for a loan to said Curran."

Suspended Business in September.

"The plaintiffs further allege that heretofore about the month of September, 1907, the said defendant company suspended ordinary business for want of funds to carry on the same and the said defendant company has not resumed its said ordinary business since the said suspension because of its inability to secure funds to carry on said business and in view of the insolvency of the said company it will be unable to resume its ordinary business in the future or to procure funds to carry on the same in the future."

Geo. W. Stubbs Makes Affidavit.
The original petition covers seven full pages of legal foolscap and attached affidavits, one by George W. Stubbs, cover seven pages more.

A hearing of the petition is set for November 20th, when the defendant company is ordered to appear in the second district court and show cause why such petition should not be granted.

The annual report of the company made the first day of January, 1907, to the secretary of New Mexico, shows the authorized stock issue of the company to be \$1,250,000 and the amount of stock actually issued to be \$350,000.

Officers of Company.
This report shows the officers of the company to be Thos. J. Curran, president; Geo. W. Stubbs, vice president; J. F. Bradner, of Middletown, N. Y., secretary; Leander Brink, treasurer; W. J. Weatherly, director; Cooney, N. M.

The next annual meeting of the director is set for January 1, 1908.

THE WOLFORD STOCK COMPANY NEXT MONDAY

It is not often that the papers of Albuquerque can announce such a lot of good things as will be at the Elks' opera house for the week commencing Monday, Nov. 18, for which date Manager Matson has secured the famous Wolford Stock company.

This company is supporting America's greatest emotional repertoir actress, Miss Mamie Sheridan Wolford, and is headed by all as being the strongest repertoir company playing the west this season.

The play for Monday night will be the famous farcical comedy drama, "Why Women Sin," a play which Miss Wolford has been starring in all the cities of the middle-west with unlimited success for the past three seasons. Other plays in her repertoir are a number of well known successes most of which have never been seen in Albuquerque.

Taken as a whole it is doubtful whether there was ever a better line of plays in any city than will be offered here next week. Seats now on sale at Matson's book store. Prices, 25, 35 and 50 cents.

DeWitt's Little Early Risers are the best pills made. Sold by J. H. O'RIELLY.

NOTICE TO CREDITORS.

ALBUQUERQUE IS THE FAST GROWING CITY OF SOUTHWEST

There will be 30,000 People Residing Here Before 1910. Geographic Location Is Perfect and Climatic Conditions Cannot be Excelled Anywhere on Earth-Railroad Advantages Include Transcontinental Train Service, Big Shops Employing Hundreds of Men and General Offices and Other Institutions of Santa Fe. With Prospects of Another Road to the East-Great Manufacturing Industries Including Wool Mill, Wool Scouring Plants, Ice Plants and Breweries, Foundry, Gas and Electric Plant Are Features of Industrial Life-Commercial, Social and School Advantages Are Unexcelled, and City Is Ample Provided With Churches.

Owing to the fact that The Citizen is constantly receiving inquiries for information about this city, the paper today publishes a short and condensed statement of facts about Albuquerque which will be of interest to every one.

The Citizen suggests that residents of this city who have friends asking for information, secure copies of this short article and forward them or else send the names to their friends to this office.

In this way, The Citizen will be saved much correspondence and the persons seeking information will have more of it than could be given in a short letter.

The article will be added to from time to time and will be published at intervals in this paper.

Making Phenomenal Growth. Albuquerque is the metropolis of New Mexico and the logical business center of the southwest. It is the largest city on the Santa Fe railway between Topeka, Kan., and Los Angeles, California. It now has a population of 20,000 people, and has grown at a rate for the past six years, which if maintained, will make it a city of 30,000 inhabitants by 1910.

The increase in population since 1900 has been at the rate of 1,200 people a year, and the value of city realty has increased 50 per cent generally over the city and 100 per cent and better in many districts.

Geographical Location. Albuquerque is located in the widest and most fertile part of the Rio Grande valley. The river is a half mile to the west of the city and furnishes a plentiful supply of water for the truck gardens, fruit and alfalfa ranches.

To the west above the Rio Grande are several long extinct volcanoes and above them and farther to the west stretches prairie land for fifty miles.

The stately timber clad peaks of the Sandia and Manzano mountains rise to an altitude of 12,000 feet eighteen miles to the east, northeast and southeast, for a hundred miles north and south. Between the valley and the mountains is a flat mesa, dotted with ranches and farm houses. The soil of this mesa is sandy and grows a grama grass of superior quality for stock.

Where the Rio Grande emerges through White Rock canyon, fifty miles to the north of Albuquerque, rise the foot hills of the Santa Fe mountains and there ends the valley as far as Albuquerque is benefited.

To the south the valley is wide and fertile and alive with prosperous farms, clear to the Mexican line. El Paso, the nearest large city, is 250 miles to the south.

Railroad Center.

The railroad advantages of Albuquerque are better than most western cities of its size. The Santa Fe

graded. The Santa Fe has a pay roll in Albuquerque of \$85,000 a month.

Leading Manufacturing Interests. Wool scouring mills, handling over 4,500,000 pounds annually.

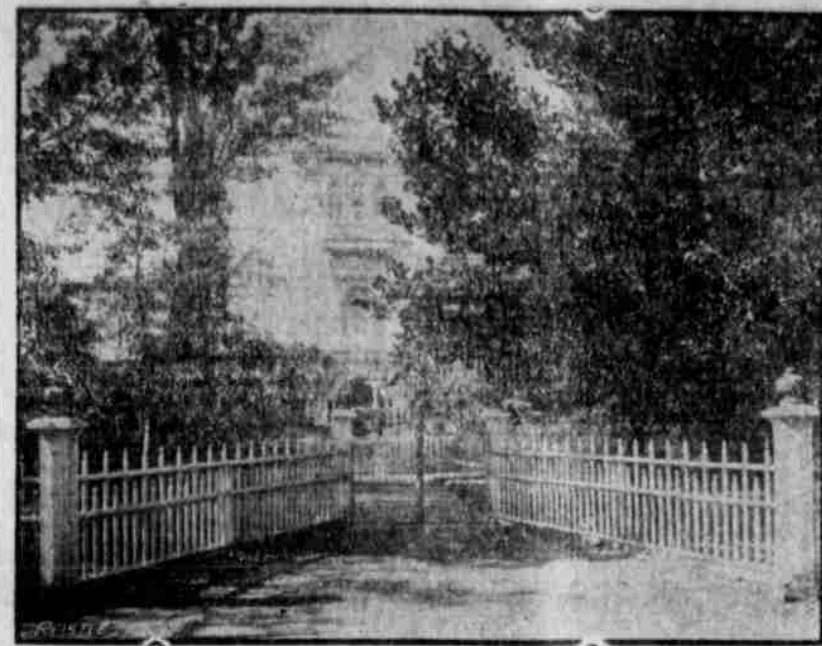

Rio Grande Woolen Mills Co., manufacturers of cassimeres, clothing, dress goods, leather clothing, blankets, Angora and sheepskin rugs, capes, moccasins, etc., annual output \$150,000.

Albuquerque Foundry and Machine Works, largest in the southwest.

Southwestern Brewery & Ice Co., annual capacity of 30,000 barrels;

moderate temperature throughout the year renders it a preeminent location for invalids. The sun shines every day in the year, warm and bright, carrying with it death to tubercular germs.

This is an ideal climate for an outdoor life. Though snows lay on the top of most of the peaks of the nearby mountains for four months of the year, an inch of snow on the streets of Albuquerque is an almost unknown freak of the weather. The entire territory of New Mexico, of which Albuquerque is the center, is considered one vast sanitarium for the cure of the great white plague.

Huning Castle, picturesque residence of Mrs. Franz Huning, located on car line between City of Albuquerque and Old Town.

quaque, to witness the Indian dances, which occur there at intervals. Evidence of the Spanish regime in New Mexico exists principally in the language and customs of the Mexican population and in the noted church structures still standing in different towns. The American occupation was marked by the gradual introduction of modern commercial improvements. The Santa Fe trail came in for good service. In 1875 Albuquerque obtained telegraphic communication with the east. On the 20th of April, 1880, the first railroad iron was laid in the city. The old street car system was organized on May 14, 1889. The first

Among the "understandings" are said to be special privileges in Mexican waters of the Atlantic fleet in the Pacific such as Magdalena Bay, where the fleet will arrive in April. There would be no surprise if the next Congress were advised that Secretary Root had prepared a defensive and offensive alliance treaty between the United States and Mexico.

NEW TREATY IF MEXICO SO DESIRES

Water Rights and Immigration Questions to be Considered Therein.

Washington, D. C., Nov. 14.—Secretary Root's recently journey to Mexico was in order to secure a new treaty between the two great American republics.

This statement was made some days ago but denied at the White House. Senator Cullom is chairman of the foreign relations committee of the senate. He was not as reticent last evening as the White House and Secretary Root have been. He said that there would be presented at the next session of congress a treaty with Mexico which in general will deal with the outstanding difficulties between the two countries as to water rights on the border.

Matters Affecting. The Colorado River, for instance, have been for some years, before the geological survey, the state department and the department of justice. There has also been a question as to the ease with which undesirable immigrants come over the Mexican border into the United States.

Senator Cullom admitted that there would be a new treaty with Mexico and he admitted that the water rights question would be a part of the document.

Among the "understandings" are said to be special privileges in Mexican waters of the Atlantic fleet in the Pacific such as Magdalena Bay, where the fleet will arrive in April.

There would be no surprise if the next Congress were advised that Secretary Root had prepared a defensive and offensive alliance treaty between the United States and Mexico.

PASSING OF HISTORIC SANTA FE TRAIL OF DAYS GONE BY

(Continued from Page Two.)

Of this bold brotherhood but few now remain alive. Of the survivors, the best known are Capt. Smith H. Simpson and Aloysius Scheurich, both of whom still live at Taos, where they have made their homes for half a century, and where Kit Carson had his home and headquarters and where his bones are buried. Simpson long acted as Carson's secretary, and Scheurich finally tired of scouting and became a freighter on the Santa Fe trail.

As trade expanded, many caravans sought other cities than Santa Fe. Even as early as 1829, many traders traveled on to Chihuahua. After the beginning of the California gold excitement in 1849, the Santa Fe trail became a mere road on the long journey to the Pacific coast. From Santa Fe, many went over the southern overland route, by way of El Paso and Yuma, in order to avoid the mountains and the more hostile Indians; but the venturesome took the more direct and more dangerous central overland route past old Fort Wingate. Numerous branches of the great trail were also established to Denver, Taos and other growing settlements.

Old Stage Stations. As travel increased, numerous stage stations were established along the Santa Fe trail and its branches. Of these but few now remain. One may be seen from the car windows of the Atchison, Topeka & Santa Fe railway near the summit of Raton pass—a survivor of Butterfield's southern overland stage route. On the branch of the Santa Fe trail that ran from Santa Fe to Taos the old stage station and corral at Alcalde, a few miles from Espanola, on the Denver & Rio Grande railroad, is still in a perfect state of preservation. On the central overland route, that ran from Santa Fe to California, the stage station and stables at Bluewater, near old Fort Wingate, are still standing, but rapidly sinking into decay.

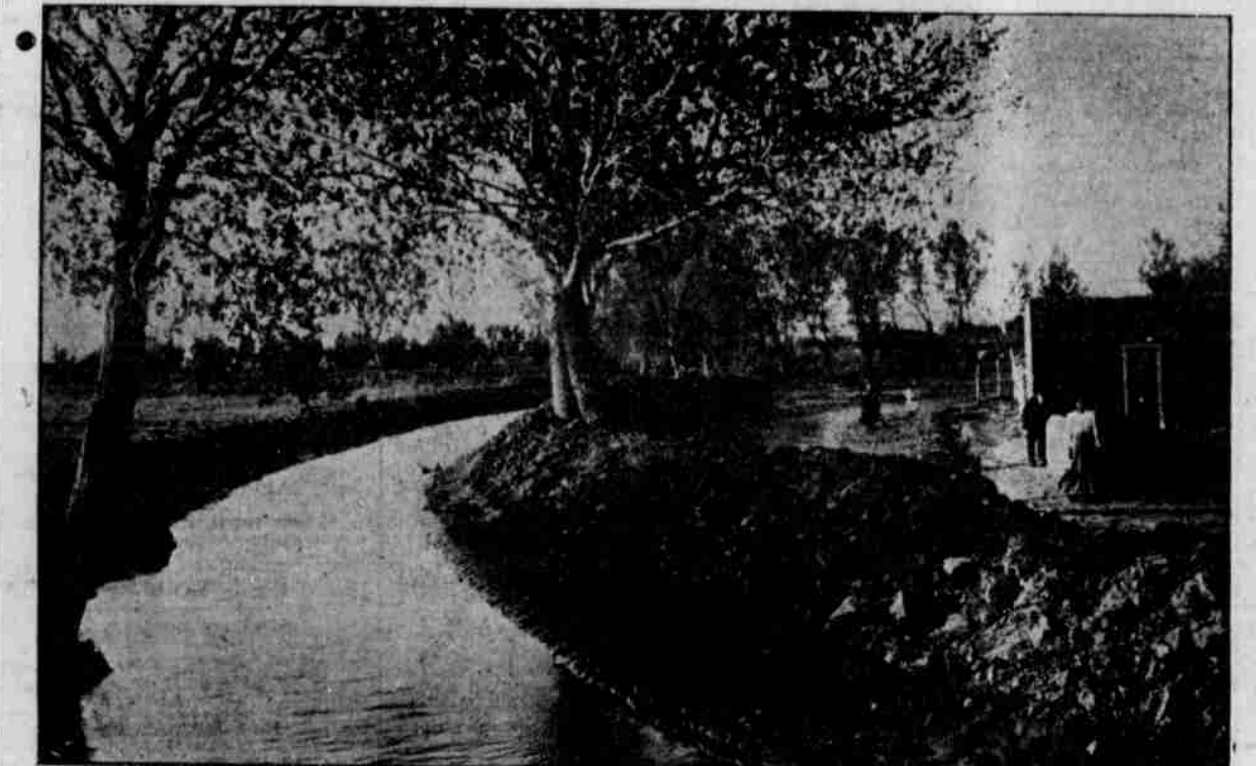

In every state and territory traversed by the old Santa Fe trail, the Daughters of the American Revolution are actively engaged in trying to have the route appropriately marked. In this patriotic work, they are being assisted by public spirited individuals and corporations. The state legislature of Kansas granted \$1,000 for that purpose, and the last session of the Colorado legislature followed suit with an appropriation of \$2,000. In some of the states contributions have been taken up among the school children and others; and the work has now progressed so far that it is certain to be carried to a successful conclusion. It is planned to place four granite monuments in each county that the old trail traversed, and between these monuments will be set cement posts to mark every mile.

NEGRO GUILTY OF ROBBING THE MAILS

Las Vegas, N. M., Nov. 14.—(Special.)—Chas. LeRoy, a negro porter, plead guilty in the United States court today to robbing the United States mails and was sentenced to two years in prison.

LeRoy was working at the Santa Fe depot last September when he cut a mail sack open and extracted several registered letters from it. The letters contained but a few dollars.

The finest Coffee Substitute ever made has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee imitation ever yet produced. Not a grain of real Coffee in it either. Health Coffee imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert were he to unknowingly drink it for Coffee. Sold by all dealers.

An irrigation ditch in a native suburb of Albuquerque.

handles 200,000 bottles of bottled beer annually; fully equipped, modern and up to date, with ice plant of 30 tons daily capacity.

The Crystal Ice Co., ice plant, capacity 30 tons daily capacity.

Last, but not least, the American Lumber Co.'s new saw mill and box factory, now completed; this plant occupies 110 acres in the northern part of the city; capacity 175,000 feet per day; best white pine on the market; employ 350 men, pay roll

History of Albuquerque.

Albuquerque derives its name from the Duke of Albuquerque, who was governor of New Mexico from 1763 to 1770. It was first visited by Europeans, according to the best authority, in 1549, being then a pueblo town of probably 12,000 inhabitants. Coronado, the intrepid explorer, Spanish governor of Sonora, Mexico, stopped here on his famous journey to the Missouri valley. Accompanying Coronado was

Territorial Fair took place in Albuquerque from October 2 to 8, inclusive, and ever since has been a continuous feature of the progress of the city.

The confederate troops, under Gen. Sibley, occupied the city in 1862, but abandoned it after several months, leaving some of its artillery secreted in the vicinity. General Phil Sheridan also saw service in this city. General Lew Wallace, whose lamented death occurred recently,

N. T. Armijo Building, corner of Central avenue and north Second street. The first floor is occupied by the Bank of Commerce and four stores. The second floor by offices and third floor by the Grand Central hotel

north and south lines out of the city and the largest shops west of Topeka, Kan., are located here. The Santa Fe also has a west line thirteen miles south of the city and an east line thirty miles south, both of which have division points in Albuquerque and serve as feeders of the city.

There is also a prospect of another road to the east—the Albuquerque Eastern, part of which has been

over \$40,000 monthly; cost of the plant was over \$500,000; it is a 3 band saw mill; manufactures wash and doors as well as boxes; this lumber is shipped to all parts of the United States.

Climatical Conditions.

Albuquerque, with its southern location and altitude of 4,949 feet, has without question one of the finest climates in the world. Dry, fresh, rarified air, combined with a fairly

Hernando de Alvarado, after whom the Alvarado is named. The history of Albuquerque and New Mexico at large passed under two destinies and to a third between the 15th and 19th centuries; the pueblo, the Spanish and the present one, the American.

The large village of Isleta, thirteen miles south of Albuquerque, forms a vivid relic of this Pueblo period, and is much visited by citizens of Albuquerque.

was for a time governor of New Mexico, and always remained a staunch friend of the territory. Albuquerque being located on a great transcontinental railway system has been favored with many important visitors. Space will not allow details in this respect, suffice it to mention the visit of President Roosevelt on May 5, 1903, when he received a notable welcome, and the city assumed an appropriate splendor.

A Reliable Remedy for Croup. With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for ominous symptoms. There is no cause for anxiety, however, when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as child becomes hoarse or even after the croupy cough has appeared, the attack may be warded off. Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists.

JAP WAS GLAD IN COMPLETE UNIFORM

Former Soldier of Mikado
Passed Through City
With Companions.

On several occasions the theory has been advanced that the Japanese arriving in great numbers along the west coast of Mexico and Lower California and the scores of them arriving along the Texas and Arizona borders are part of a Japanese military invasion of the United States. This may be a little stretching of the truth but it is nevertheless true that some of the Japs who are now entering the United States have been seen on fields of war.

A Japanese in full military uniform with the exception of blanket and provisions passed through Albuquerque recently with a number of his countrymen, was seen walking about the station platform taking in the sights.

The empire of Nippon and the fields of Manchuria were represented in the long coat and the loosely hanging head shield worn by the brown men of the far east. He was clad in heavy shoes, wore dark blue trousers and a heavy uniformed overcoat, at the top of which was attached the heavy hood so familiar in the pictures of the Japanese as they made their fatal assaults on the legions of the czar. The latter hung loose and the Jap wore a small cap in its place. The big coat was long, reached below the knees and was divided at the waistline. It was adorned with gilded buttons along the front and at the sleeves.

Several companions of the war-torned brown man were dressed in civilian clothes and carried small grips, large enough to hold a full uniform of clothing of the same kind.

Five Entered United States. Five Japanese were admitted through the El Paso immigration station yesterday and the destination of all of them, as has been the case for months past, is the United States. Three of them had tickets to Canada for otherwise they would have been excluded from the shores of the land of the free. However, their tickets will not prevent them from stopping off in the United States—and this is what they are doing. One of the Japs was a student and he was admitted without question. The other was a hotel keeper in a Japanese city and he was admitted.

Several instances that are conclusive proof that the Japs who buy tickets to Canada do it only to get into the United States at the El Paso port of entry have occurred at the immigration station there lately. Several days ago one of them wanted a ticket to Vancouver and one was made out to him via the Rock Island road. When the brown man found that the must travel that route he objected and he gave as his reason that he had a friend in Denver and wanted to go by way of the Santa Fe. That the Jap would go no further than Denver is pretty certain in the estimation of the immigration officers. However, the law is technical and that settles it.

A tickling cough, from any cause is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membrane. No opium, no chloroform, nothing used to induce or suppress. It is a resinous plant extract, that soothes and soothes the inflamed, itchy, aching lungs. The Span call this shrub which the Japs use, "The Sacred Herb." Dr. Shoop's. Take no other, by all dealers.

Eat your Sunday dinner at Home Restaurant. Big turkey fair.

Dr. Vaucaire's Formula

Recommended by Mrs. Henry Symes, to develop the bust from 4 to 6 inches.

Guaranteed to be made from the true Galega Extract. Is perfectly harmless.

The Vaucaire Formula is a general tonic, but it has a specific effect upon the bust. Price 75 cents. For sale by

Highland Pharmacy and Alvarado Pharmacy

When the Stomach, Heart, or Kidney nerves get weak, then these organs always fail. Don't drug the stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere—Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Sold by all dealers.

The Non-Sectarian Benevolent Association will give a charity ball on Thanksgiving evening in the ball room of the Elks' club. The public is cordially invited.

STAGE TO JEMEZ, LEAVES 211 WEST GOLD EVERY MORNING AT 5 O'CLOCK.

Kennedy's Laxative Cough Syrup

Relieves Colds by working them out of the system through a copious and healthy action of the bowels.

Relieves coughs by cleansing the mucous membranes of the throat, chest and bronchial tubes.

PERSONAL PARAGRAPHS

If for any reason you should fail to receive The Evening Citizen, call up the Postal Telegraph Company, telephone No. 36, giving name and address and your paper will be delivered by special messenger, without charge.

Elison Varela, a sheep raiser of San Rafael, is in the city on business.

Miss Daisy Munson, of North Sixth street, left this morning for Pueblo, Colorado.

Simon Neustadt, postmaster and general merchant at Los Lunas, was an Albuquerque visitor yesterday.

R. Forbes Auld, Miss Auld and Miss Forbes, of Gallup, N. M., are in the city visiting and shopping.

Miss Vivian Brown left last night for California, where her sister Mrs. Fred Robinson, is reported seriously ill.

H. W. Burbage, president of the Navajo County bank, of Winslow, Ariz., was in Albuquerque on business yesterday.

Dr. W. F. Wittwer, of Los Lunas, passed through the city last night en route home from Las Vegas, where he accompanied Rebecca Chaves, a little girl, adjudged insane.

Albert Spivey, who spent some time in Albuquerque with his father Captain R. M. Spivey, of the Harvey system, has gone to Dodge City, Kansas, to take charge of the Harvey newstand there.

R. E. Putney and C. J. Crandall, the latter of Santa Fe, arrived in the city last night from Jemez, where they went on Monday to witness the annual fiesta and dance of the Jemez Indians.

George O. Hunt, a prominent business man of New City, Kan., who spent several weeks in Albuquerque recuperating a constitution run down by close attention to business, left this morning for his Kansas home much improved as a result of his stay here.

E. F. Ryan, the popular chief of the American Lumber company fire department, has resigned from the services of the company and expects to go to Los Angeles in the near future to accept a position in connection with the management of a race track near the coast city.

I. W. Cox, of Datil, N. M., arrived in the city yesterday with a herd of 146 fat cattle, which were sold to the Blanchard Meat and Supply company. The animals stood the drive of 200 miles very well and arrived here very little worse off for the hardships of the trip. Mr. Cox says that cattle in the Datil mountains are as a rule in fine condition.

D. Benjamin, general manager of the Harvey system of hotels and restaurants on the Santa Fe, and son, Robert, John Stein, general superintendent of this division, and J. E. Huckel, general manager of the newstand service, all at Kansas City, arrived at the Alvarado this morning from El Paso on an inspection trip. They will probably remain here a day or more.

John F. Fullerton, of Socorro, N. M., arrived here today from San Diego, Cal., and after spending today and tomorrow in the city, will return to his home at the Gem City. Mr. Fullerton says that the conditions in California as a result of the long holiday, which was declared at the beginning of the money stringency, are becoming very obnoxious. The jails are overflowing with prisoners and on account of the holiday no trials can be held.

Miss May Hazeldine is in receipt of a letter from her sister, Miss Lucy Hazeldine, who with Miss Ethel Hickey and Miss Rose Harsch, all of this city, is traveling in Europe. Miss Hazeldine writes that they spent a month in Rome and at the time of writing, were stopping in Florence, Italy. From Florence they expected to go to Venice and from Venice to Berlin, reaching there about the holidays. All are enjoying good health and the trip.

EASY MONEY ONCE MORE.
