WEATHER FORECAST

Denver, Colo., Nov. 18.—Rain or snow tonight, Tuesday fair south, snow and colder north.

VOLUME 22.

ALBUQUERQUE, NEW MEXICO, MONDAY EVENING, NOVEMBER 18, 1907.

NUMBER 279

SHIPPERS WILL EXPOSE VAST RAILROAD REBATE

Californians Believe Have Proof of Many Crimes Against S. P. Road.

COMMISSIONER LANE TO RESUME INQUIRY

Claim Is Made That Small Independent Enterprises Have Been Ruined by Favoritism in Rates Within the State in Late Months.

San Francisco, Cal., Nov. 18.—The organization of shippers who propose to bring the Southern Pacific to book for its discriminations and violations of the law in exactions of freight rates will be perfected early next week and it is said that the state may look forward to some sensational revelations.

A thorough expose of the company's unfairness is promised, how it is alleged to have favored the large shippers in a manner outrivalling the operations of John D. Rockefeller, and how small independent enterprises have been ruined and their owners in some cases driven to the suicide's grave. Franklin K. Lane, interstate commerce commissioner, is authority for the statement that nowhere else in the United States has there ever been such high handed injustice worked by a railroad as by the Southern Pacific in California.

Taking Judge Landis' \$29,000,000 fine and the recent penalty of \$320,000 imposed on the Santa Fe at Los Angeles as extreme examples of the attitude of the courts it may be that the Southern Pacific company may have millions to pay for its illegal rate exactions in California.

Evidence is Conclusive.

This statement is made advisedly, for the evidence taken at Commissioner Lane's recent hearing was in the conclusive form of records and letters, many of which were virtually confessions. Lane regarded the confessions as astounding and when the public learns to appreciate them in their full effect it must be likewise convinced.

On no less than 200 commodities have the rates between this city and the San Joaquin valley been fixed in defiance of the statutes. These violations are said to have covered a long period of years.

The shipper has taken on a new hope at the present time because he has the aid of the powerful arm of the interstate commerce commission. Furthermore, he sees the revolt in progress throughout the state against the railroad domination of the government.

Attacked by Injustices.

The promoters of the new movement are actuated by the injustices that they say they have themselves suffered in having to compete with rivals who enjoyed large rebates and also in large degree by that new spirit which is abroad among the citizens of the land to do something for its well. They have had it brought home forcibly that there must be a halt in the ruthless disregard of the laws by the corporations, or all industry will fall into their soulless control.

The members of the new organization are contributing liberally and with a goodly sum to go to work, and with Seth Mann as legal adviser, will go about the business-like fashion to bring about an enforcement of the statutes. The shippers declare point blank that there is no use to appeal to the railroad commission or to Attorney General Webb, for they were elected as the representatives of the railroad machine and not of the people.

Attorney Mann achieved his reputation in railroad litigation by compelling the Southern Pacific to remove its toll of 5 cents a ton on freight that came into San Francisco by the peninsula route via San Jose. The state exacts a 5-cent toll for the use of its wharves on all freight ferried across the bay from Oakland.

Commissioner Lane is to resume his inquiries in this state in February. He will co-operate with the organization now in process of formation and some big developments are to be looked for, apparently.

NEXT BAPTIST CONVENTION GOES TO ROSWELL

The Baptist convention closed yesterday with service at the church morning and evening and the majority of the delegates left the city for their several homes last night. The convention was entirely successful and was the largest attended in the history of the Baptist church in New Mexico. The next convention will be held at Roswell the middle of next November.

TWO BIG CITIES MAY BE UNITED

Washington, D. C., Nov. 18.—A suit arising out of an effort to consolidate the cities of Pittsburgh and Allegheny, was decided by the supreme court of the United States in favor of the consolidation today, the opinion of the court being handed down by Justice Moody.

RAILROADS GIVE DEFINITIVE TO NEW POSTAL ORDERS

Mail Equipment, Returning Empty, Will Not be Carried Free of Charge Hereafter.

MANY STATES ARE AFFECTED BY RULE

Santa Fe, Missouri Pacific and Frisco Plead Oppressive Expense as Reason for Refusing to Obey Department's Instructions.

Washington, D. C., Nov. 18.—Three railroad companies have declined absolutely to comply with an order of the postoffice department, effective today. They are the Atchafalaya, Topeka & Santa Fe, the St. Louis and San Francisco and the Missouri Pacific. The order was that for the next forty days these railroads should carry empty mail bags and other mail equipment back to the distribution centers without compensation therefor.

Mail superintendents or attorneys for the three railroads mentioned notified the third assistant postmaster-general by wire today that they would not carry empty equipment unless paid for at the regular rate. St. Louis is chiefly affected by this situation, which involves the mails on all the branches of the Frisco, the Missouri Pacific and the Santa Fe.

The chief protest of the Frisco was in relation to handling all of the equipment which comes in on three round trips or forms of that system at Monett, Mo., and goes to St. Louis on the one line.

To Prevent Holiday Congestion.

The reason for the order of the department was the desire to prevent a tie-up or congestion of mail during the holidays and just preceding.

It was suggested that it would be wise to have the equipment transferred to the principal centers by a more speedy method than by freight, which is the method provided.

Practically all the states from Ohio to the Pacific Coast are involved in the present controversy. It is expected that as soon as other roads learn of the action and the stand taken by three roads mentioned, they, too, will join in the protest.

Railroads traversing the two other contract districts of the country are carrying the mail equipment as before, and receiving pay for it, but as soon as there is a readjustment process in the rates, they will be cut off. The railroad representatives claim that this pay amounts to \$10,000,000 to \$15,000,000 a year, but the postoffice department says this estimate is far too high.

The assistant attorney general for the postoffice department was asked for an opinion as to the right of the department to enforce its order, and he is preparing an opinion on the subject. It was stated, however, that the department has not a foot to stand on.

There is fortunately a way out of the emergency, but it will probably prove expensive. The law states that mail equipment may be moved "by freight or express." A high official of the department stated that the express companies would be asked to haul the equipment for the next forty days. If that is done there will be no delay.

Silk Mills Close.

York, Pa., Nov. 18.—Three silk mills in this city owned by the American Silk company were closed today. Between 800 and 1,000 employees are out of work.

WOMAN'S BODY FOUND IN ROOM OF BURNED BUILDING

Water Did \$25,000 Damage to Kansas City Star This Morning.

Kansas City, Mo., Nov. 18.—The body of an unidentified woman, supposed to be the janitress, was found in a room of the Missouri building this morning after the firemen had subdued a fire that ruined the interior of the building. The loss on this building is \$25,000. The Kansas City Star, adjoining, sustained damage of \$25,000.

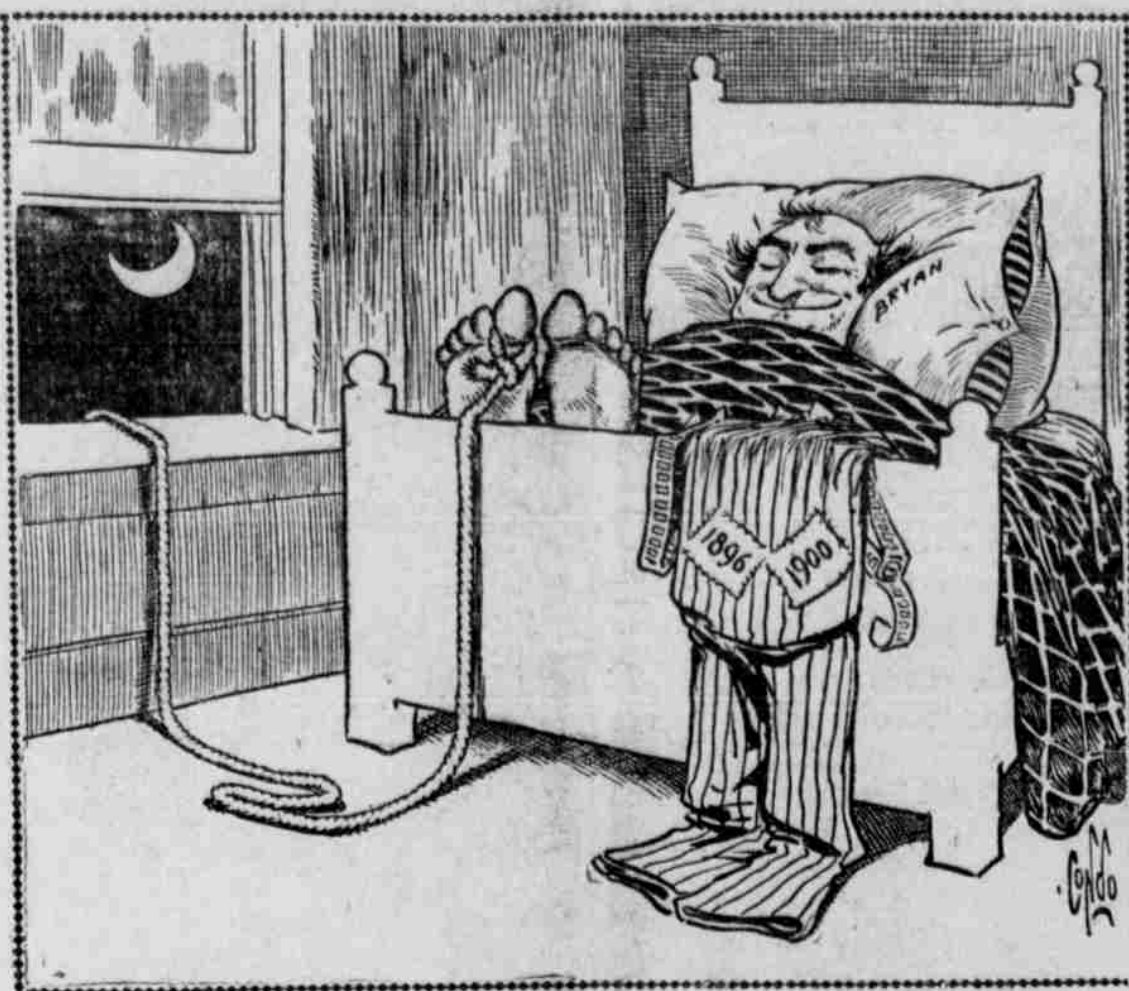

The blaze started in the Missouri building shortly after 3 o'clock and was not under control until 5:30. Water from the building poured into the basement of the Kansas City Star plant and did as much damage there as the fire did in the adjoining building.

It was believed that everyone had escaped from the Missouri building as there was plenty of time but it is evident that the woman became confused and was unable to even make her presence known to the firemen.

Miner Badly Injured.

Victor, mine, Nov. 18.—William Corzart, a miner in the Greenleaf on Raven hill, this afternoon fell from a slope in the 400-foot level, a distance of about 20 feet.

WAITING FOR THE CALL

It Only Remains for Miss Democracy to Pull the String

TAFT IS HURRYING BY PRESIDENT SUSTAINS SHORT WAY TO AMERICA MAJOR LLEWELLYN

Special From Washington Says Roosevelt Upheld U. S. District Attorney—McHarg Back to New Mexico—Gov. Curry Talked Third Term.

HE WILL NOT VISIT FRANCE OR GERMANY

Hamburg, Nov. 18.—Secretary Taft has engaged passage for New York on the Hamburg-American line steamer, "President Grant," sailing from here on Saturday, Dec. 7.

Taft Must Hurry.

Paris, France, Nov. 18.—A dispatch received at the American embassy here from Secretary Taft, who is now at Vladivostok, announcing his inability to visit Paris or Berlin on his way home from the far east says "important business at home" makes it impossible for him to visit either of those capitals.

Taft's mission to the east has been fulfilled but it was generally believed that his European trip was to be the real feature of the whole journey around the world, and that he was to visit the various capitals in the interests of the United States as regards friendliness and good feeling, but it is evident that the secretary has cut out all that feature owing to some unusually urgent business at home, which he refuses to divulge.

Taft will probably arrive in New York about Dec. 12 or 14, and will proceed immediately to Washington, according to the best information known here.

New Fort Buildings.

Washington, Nov. 18.—Quartermaster General Alesha has directed the constructing quartermaster at Fort Russell to call for bids for construction of buildings at the fort.

Chicago Italians Organize to Exterminate Criminal Element There.

Chicago, Nov. 18.—Hounded by the increasing boldness on the part of desperado blackmalters, masquerading under the name "Black Hand," professional and business men among the Italians of Chicago yesterday organized a "White Hand" society. From now on the "White Hand" will wage a war of extermination against the "Black Hand."

"WHITE HAND" BEGINS WAR ON "BLACK HAND"

So great has become the fear of the "Black Hand" that it has been almost impossible for the police to obtain any clues as to the identity of the men, even when the victims of their rapacity were aware of such identity. The move of yesterday has been under contemplation for many of the wealthier Italians for some time, and it is now believed that it will be a matter of a short time until the criminal element is either in jail or driven from the city and scattered.

Robbers Hired AN END FIRE BUG

Enid, Okla., Nov. 18.—A night watchman of this city was captured at an early hour this morning as he was in the act of setting fire to a box car adjoining the Farmers mill. The watchman admitted that his object was to burn the mill. He confessed to his captors that he had started the incendiary fires of the two previous nights. A band of thieves had hired him to start the fires, he said, so that they might loot business houses and residences under cover of the excitement caused by the fires.

CHICAGO WILL HANDLE \$6,000,000 IN CHECKS

Clearing House Currency in Favor and Used in Large Amounts.

CORTELYOU TO ISSUE MILLIONS IN BONDS

Chicago, Ill., Nov. 18.—Six million dollars in new clearing house checks, kept in active circulation, probably will be sufficient for the financial needs of Chicago until normal conditions return, according to the estimates of those in close touch with the situation. The distribution of new checks to the banks was begun this morning.

Millions in Bonds.

Washington, D. C., Nov. 18.—Secretary Cortelyou last night made the announcement that as a means of affording relief to the financial situation the treasury would issue fifty million dollars of Panama bonds and one hundred million dollars of certificates of indebtedness, or so much thereof as may be needed. The certificates will run one year and will bear three per cent interest.

Action Generally Approved.

New York, Nov. 18.—Bankers, capitalists and financiers here generally approve the action of Secretary Cortelyou in issuing Panama bonds and certificates of indebtedness for the relief of the financial stringency. The issue, it was the general opinion, is bound to have beneficial results.

Henry Clews, however, questioned the legality of the certificates of indebtedness, and said there was no valid reason for a war measure in time of peace, and that the flood of certificates is liable to drive out the gold we have imported.

JAPAN MAY PUT AN END TO EMIGRATION SHORTLY

Thinks It Unadvisable to Permit Japs to Come to United States.

Tokio, Nov. 18.—The Japanese government is said to be considering the advisability of shutting off all emigration to the United States and Canada for the present, on the ground that economic conditions render it inadvisable for citizens of Japan to visit foreign countries unless they are able to show that they are amply self-supporting.

Among the leading statesmen, politicians and business men the importance of the near approach of the American congress and the possibility of the introduction of special measures to restrict immigration is fully realized.

The opinion here is that such legislation is not likely to be enacted, but the fact of its introduction and the inevitable debates on the subject, it is thought, is liable to increase the difficulties of the government in adjusting the situation by arousing the Chauvinists on account of discrimination against Japan, while affording ammunition for opposition, which is increasingly active in view of the general election in 1908.

FIND REEVE GUILTY OF MURDER IN 2ND DEGREE

Alleged Depot Burner Recommended to Court For a Ten Year Sentence in Penitentiary.

THREE KILLED AS RESULT OF FIRE

Jury Evidently Believed Confession of Defendant Made at Time of His Arrest, Despite His Denial of Its Truth at Time of Trial.

Boulder, Colo., Nov. 18.—The jury in the case of John W. Reeve, accused of murder, today returned a verdict of murder in the second degree with a recommendation for the minimum sentence of ten years.

Reeve, who was a brakeman on the Colorado and Northwestern, was accused of setting fire to two freight cars in the presence of Frank Kiser, a conductor, on the night of August 10, this year. This was during the strike on the Colorado & Southern, on which road the cars stood.

As a result of the fire 2,400 pounds of dynamite in another car exploded, killing three men, destroying the depot and doing damage throughout the city aggregating \$250,000. Reeve confessed to setting fire to the car and claimed to have been very much intoxicated on the night of the deed. Kiser's trial has not yet occurred. He will be tried as an accomplice.

For Revenge.

Reeve confessed in the presence of several people at Boulder the day after the fire that he and Kiser, with several other men employed on the C. & N. were standing in a saloon drinking frequently and talking of the "scabs" at work on the C. & S. Someone suggested that several of them were asleep in a caboose near the depot and that would be a good time to burn them.

Reeve and Kiser took up the suggestion but the rest of the party backed out and tried to stop Reeve and Kiser, who approached the caboose, but when the rest of the party went home, the two drank more liquor and finally went to the C. & S. yards and started a fire in the caboose occupied by the sleeping men. Someone noticed this fire and extinguished it, and then Reeve started a second blaze two blocks away beneath a box car. This blaze spread, exploded the dynamite, killed three men and injured over 100 people, besides doing immense damage in Boulder.

Reeve was in substance Reeve's confession which he denied on trial. It was substantiated by witnesses, however, and the verdict resulted.

Will Appeal.

Reeve's attorney gave notice of application for a new trial, but it was the general opinion that Reeve is guilty as he confessed and that for the fact that he was drunk at the time, it is probable that the public would welcome a new trial in the hope of securing a still greater sentence for him.

NO PRESENT HOPE FOR RUSSIAN JEWS

St. Petersburg, Nov. 18.—With the advent of the third duma the settlement of the Jewish problem enters a period of further indefinite delay. Immediate measures of relief form no part of the programme of the Octoberists and the views of many conservatives are frankly anti-Semitic.

President Nikolai Khomyakov, in an interview today, said this question could scarcely be considered by the duma before 1909. Personally, he said, he favored the abolition of a number of restrictions in the civil rights of the Hebrews, notably the herding of Jews within the pale, which is so foolish and needless in present condition. But the Jewish question, he continued, has no direct connection with the Russian people, and he asserted that it is of secondary importance.

LABOR OPPOSED TO FEDERAL CONTROL

Norfolk, Va., Nov. 18.—The American Federation of Labor, by a vote of 154 to 50, refused to record itself as favoring government ownership of railroads and mines.

The question came up on a resolution to include railroads and mines in the action taken at Minneapolis last year favoring "nationalization" of telegraph and telephone properties. The opponents took the ground that government ownership of mines and railroads would prevent all strikes, no matter how peacefully they might be conducted, and that with a federal government opposed to labor it might prove a death blow.

Another important action by the convention was the increasing of the salary of President Gompers from \$3,000 to \$5,000 a year; that of Secretary Morrison from \$2,500 to \$4,000, and of Treasurer Lennon from \$200 to \$300.

Accidentally Killed.

Chester, Ill., Nov. 18.—James Murray was accidentally killed by a hunter today.

CONGRESS WILL GIVE QUICK RELIEF

That Is the Opinion of Members Who Are in Washington Concerning Financial Question.

REPUBLICANS AGREE WITH ADMINISTRATION

Not Believed That Democrats Will Attempt to Break the Measure—Treasury Officials Agree With Secretary Cortelyou's Ideas.

Washington, D. C., Nov. 18.—There are so few members of either house of congress who deal directly with financial legislation in the city that it is impossible to make a definite prediction as to what course the financial legislation will take at the approaching session.

All here, however, agree that conditions are such that something must be done, and the preponderance of opinion favors the view that relief legislation will be more prompt than has heretofore been predicted.

There are various opinions as to the course that should be taken, some favoring one system of bank assets for a basis of credit upon which banks may issue currency, and some another.

Relief Will Be Quick.

The general idea seems, however, that the margin of flexibility should not extend beyond 25 per cent of the banks' capital and in any event an enlarged issue should be so heavily taxed as to drive it back after an emergency has passed.

One reason for believing there will be little difficulty in reaching agreement on some basis is found in the fact that the so-called conservative element of the republican party is in complete accord with the administration in the opinion that some form of relief is absolutely necessary.

At the same time it is not expected that anything will be accomplished without much discussion, especially in the senate, where there is an unlimited debate and many opinions as to what should be done.

Democrats May Not Object.

It is not believed that the democrats will offer any substantial opposition but will content themselves with stating their position and throwing the responsibility on the republicans.

That the action of the administration, coming so vigorously for the relief of the financial situation, will be more ample in the direction desired was the unanimous comment of callers at the White House today.

Exactly What Was Needed.

Senator Warren, of Wyoming, said that the action taken was exactly what was needed.

"The people at large will now realize that there is any substantial opposition and will stop hoarding their money," he added. "They will return to the banks their deposits and the business of the country will return to a normal condition."

"Business is already improving. Now it will go right ahead," Cortelyou's official O. K.

The treasury officials and others most conversant with the national finances and currency conditions throughout the country are almost a unit in the opinion that Secretary Cortelyou's announcement that he would issue \$150,000,000 in treasury certificates and \$50,000,000 in Panama bonds is a complete solution of the present money problem. Telegrams from leading financiers in the great money centers of the country indicate that this view is general.

Bid for Certificates.

New York, Nov. 18.—A nominal bid of 101 for government certificates of indebtedness which are to be issued to relieve the present financial situation was made today.

PAYMASTER SENTENCED FOR STETLING \$3,600

Denver, Colo., Nov. 18.—James Arnold, the young paymaster of the Northern Coal company, who made away with \$3,600 belonging to the company, claiming which were robbed in broad daylight, and finally confessing, was sentenced to an indeterminate sentence in the reformatory today.

Arnold returned \$2,500 of the money but said that he had given the remainder to a stranger on the street. Arnold still insists that this story is true and the \$1,100 has not been recovered.

FIREMEN KILLED BY FALLING WALLS

Fargo, N. D., Nov. 18.—Two firemen were killed and \$100,000 lost caused by a blaze which started early today in the J. L. Case company's big office and warehouse in this city. The structure was completely gutted. Wm. H. White and George M. Hartman were the firemen killed by falling walls.

RAILROAD DEPARTMENT

GIVE SOUTHWEST A SPLENDID BOOST

Santa Fe Issues Two Descriptive Folders on New Mexico.

The Santa Fe has just issued two folders, one called "New Mexico and Arizona," and the other "The Pecos Valley," which are real wonders in their beauty as well as the effectiveness of the advertising which they will give to the territories.

The Santa Fe is circulating thousands of these folders throughout the country and so great is their beauty, especially the pictures with which both are replete, that anyone seeing one of them is certain to glance over it and to glance to become interested.

In "New Mexico and Arizona" are some splendid street scenes of Albuquerque, Silver City, Las Vegas, Phoenix and other towns, and some farm and orchard scenes which are convincing in their sincerity of tone and likeness to the real scenes. The fruit and farm displays especially are very fine, while the city views show off the business sections to good advantage.

In the Valley.

In the folder which describes "The Pecos Valley" are a number of views illustrating the towns of the fertile valley and showing the wonderful results which have come with irrigation. Several views of arid lands are also shown. The solidity and homeliness of the improvements of the valley are very natural.

In both folders is shown with startling clearness the great irrigation work which the government is doing in the two territories, including the Hondo and the Roosevelt projects.

The value of these folders to New Mexico and Albuquerque can hardly be appreciated, since they will go to all parts of the country, and the matter which accompanies them is of the most interesting nature, descriptive of the two territories.

ALLEGED ROBBER WAS PROBABLY INSANE.

In branding as a fake several stories published to the effect that a bold, bad highway robber had entered his private car at San Marcial and, after compelling his porter to feed him, ransacked the car, Superintendent F. L. Myers, of the Rio Grande division, said last night at the Alvarado that the matter was more of a joke than anything else.

It was about 6 o'clock in the evening when it occurred. The porter, a negro which Mr. Myers brought to New Mexico with him when he came from Kansas a short time ago, was waiting for Mr. Myers to come to the car for supper. The man with the gun walked into the car and was standing over the negro before he knew it. He said that he wanted something to eat.

The black replied that he couldn't give him anything to eat; Mr. Myers was not there.

"You can't," ejaculated the stranger, poking a big gun under the negro's nose.

The negro immediately took to his heels. The man snapped the gun twice, while the porter was getting out of the car. Then he ran out of the other end of the car himself.

Previous to going to the car, the same man had trouble with the manager of the San Marcial Harvey house, and pulled his gun on a railroad man out on the platform in front of the depot. It was thought that he was a little off his balance mentally. After the car episode, a search was made for the man, but the search was without success.

Mr. Myers told the negro that it was a very common occurrence to be held up in New Mexico and that his experience at San Marcial was only a sample of what was likely to occur to him if he remained with him. The black didn't quit his job, but it is understood that he is carrying a small sized cannon concealed in his clothes.

WHOLE SWITCH CREW FIRED FOR FLIRTING.

San Marcial, N. M., Nov. 18.—"Caught in possession of the goods" may be said to have been the reason why practically the whole night yard crew of the Santa Fe at this place was discharged last week.

Tumor had reached the local officials of the Santa Fe that the night yard crew had been "railroading" on their work, and, instead of putting in their time switching cars, they were taking the Harvey house waitresses "buggy riding" on the engine.

So the officers set to work to investigate the rumor, with the result that about 9 o'clock one night the yardmen were caught with some of the dainty little ladies skyarking up and down the yards on the switch engine.

The engineer, engine foreman and all the switchmen were discharged on the spot. The fireman, being held guiltless, was spared and was ordered to run the engine into the roundhouse for the night.

New men were procured and the night switching work in the yards here resumed.

THIS ENGINEER IS SEEING THINGS SURE.

There is a hot air locomotive engineer on the Rio Grande division of the Santa Fe, who deals in snow stories. For short story imagination stunts, this engineer takes all the credit marks, but for veracity—well, we will leave it to the public to judge. He says that it was snowing in Albuquerque last week.

After painting the fading of a beautiful sunny day into one of

by a cold chilly wind, the News says: "Sure enough, Engineer Manning, of the Santa Fe, acknowledged that he had brought it from Albuquerque. 'I left the Duke City in a storm,' he said, 'and it has been storming all the way down the line. It was snowing when we left Albuquerque. This snow from that city to San Marcial didn't amount to much, but when we were pulling out of the latter place it was peeping down pretty thickly and did so until we got to Engle, but I don't think any of it remained on the ground very long.'"

NEW STEEL IN THE SANTA FE YARD.

El Paso, Texas, Nov. 18.—Practically all of the steel in the Santa Fe yards is being replaced with heavier rails and the yards will be completely remodeled and equipped before the work is completed. Roadmaster John Quinn is superintending the laying of the steel and he has a large number of laborers at work taking down the old rails and putting down the heavier ones.

The main line and lead track steel is all 72 pounds while the ones that are being taken up only weigh 52. In addition to the remodeling of the yards, a 700 foot spur track has been put down the lower end of the yards leading from the main line to the electric light company's power plant. Twenty new switches have also been installed in the yards to replace the ones that have done service there for a number of years.

HARRIMAN, FIGHTING STEEL TRUST, BUYS RUSSIAN RAILS.

New York, Nov. 18.—(Rather than do business with the steel trust, to whose interest he is now seen to be antagonistic, E. H. Harriman will shortly import several thousand tons of Russian steel rails, which will be used for the construction of extensions into Mexico. The news leaked out through advices being received in shipping circles that two big British freighters had been chartered in the London market to transport part of the rails.

GETS FIVE YEARS FOR ROBBERY BOX CARS.

Tucson, Ariz., Nov. 18.—Murray Bateman, the former Southern Pacific brakeman of Yuma, was sentenced to five years at hard labor in the territorial penitentiary at Yuma today by Judge Campbell. Bateman received his sentence without displaying any emotion and is apparently resigned to his fate. He was arrested in Yuma more than a month ago on a charge of burglarizing a Southern Pacific box car, and was unable to give any bond and has remained in jail since his arrest.

SANTA FE BRAKEMAN DIES FROM INJURIES.

San Bernardino, Cal., Nov. 18.—H. Castleman, for several months a Santa Fe brakeman out of this city, died in the company hospital in Los Angeles as the result of serious injuries received at Oceanside by being caught between the bumpers of two cars while making a coupling. He was taken to Los Angeles on a special but the injuries were of a serious character and the skill of the surgeons could not save him.

The Santa Fe is building a freight store house back of the Harvey house at Gallup. The building is to be 100 by 40 feet. The freight house is very much needed. It is reported that the depot is to be improved in many ways and made more convenient for the traveling public. This improvement will be appreciated in Gallup as the depot in its present condition is inconvenient for travelers and is not in keeping with the town.

Michael Pickens, of Las Vegas, passed through the city yesterday for El Paso, where he has a damage case in the court against the Santa Fe railroad. The young man, who was employed as a brakeman on the Santa Fe, lost his arm by accident a year ago the 15th of last July, and is suing the railroad company for damages.

Engine 450 of the Rio Grande division of the Santa Fe came out of the Albuquerque shops yesterday after a general overhauling. W. A. Fall, who has just been promoted from the position of fireman to that of engineer, ran the repaired engine out on its trial trip to Isleta and back yesterday and taking it down to San Marcial this morning.

Santa Fe trainmen report that water from the Rio Grande has again broken into the works at the Selden dam, about sixteen miles north of Las Cruces, and the work is accordingly suspended until the water can be pumped out. This is the third time this has occurred in the last month or six weeks.

Engineer Arthur Martin, Dick Robinson and Will Chandler, of Las Vegas, passed through the city yesterday en route to El Paso, where they will appear at witnesses in the case of Michael Pickens against the Santa Fe railroad for damages for the loss of his arm over a year ago.

Engine 461 of the Santa Fe, which turned over with Engineer Ed Manning and Fireman Holdinghausen on the 4th of September, has just come out of the Albuquerque shops after receiving a general overhauling and is again in service.

R. W. Barnes, chef at the Harvey house at San Marcial, slipped in the kitchen last Sunday and, involuntarily throwing out his left arm to catch himself, his elbow struck on top of a meat block, throwing the arm out of joint.

Ed Manning, a passenger engineer of the Santa Fe, running between Albuquerque and El Paso, has returned from a thirty days' leave of absence, which he spent at Kansas City and points in Kansas and Colorado.

L. C. Lynn, a freight fireman of the Rio Grande division of the Santa Fe, is back on his run after a sixty day leave of absence, which he spent at his old home at Oklahoma City.

A. J. Delaney, stenographer to Acting Chief Clerk Kilpatrick at San Marcial, has started on a two weeks' vacation which he will spend in Chicago.

PERSONAL Paragraphs

Miss Josephine Ketter, of Gallup, N. M., is reported quite ill with the measles.

Mr. and Mrs. H. H. Betts, prominent people of Silver City, are stopping at the Faywood Hot Springs.

Acting Governor Nathan Jaffa has appointed Johnson Allen of Clayton as a notary public for Union county.

Miss Ida Walker of this city, is in the Estancia valley superintending the building of a house on her claim.

Mrs. A. Steen and son, Will, and Richard Hanna, recently of Pennsylvania, have moved to San Marcial to live.

Frank Dibert, assistant secretary of the Santa Fe Central railway at Santa Fe, is in Estancia on combined business and pleasure.

J. H. Kirby, chief clerk in the office of the New Mexico Fuel & Iron company at Santa Fe, left yesterday on a business trip to Estancia.

Rev. H. O. Costales, recently of this city, yesterday began the duties of pastor of the Spanish Methodist Episcopal church at San Marcial.

Mrs. George Hunter, wife of Col. Hunter, of Fort Wingate, is expected home this week from a pleasure trip to South Dakota.

Mr. and Mrs. McKinney have returned to Gallup after spending some time in the city. Mrs. McKinney was a patient at St. Joseph's hospital.

N. L. Sullivan, territorial engineer, and Mrs. Sullivan, of Santa Fe, are in Carlsbad, the former on official business and the latter to visit her parents there.

Judge James R. Waddill has returned from attending court at Hillsboro. Judge Waddill is one of the able lawyers of the territory.

Miss Lena Booth has resigned her position in the Estancia postoffice and will assist her mother with the growing business of the Estancia hotel.

Dr. A. E. Besette and family have returned to their home at San Marcial from a sojourn in the east. Dr. Besette is chief surgeon for the Santa Fe at San Marcial.

Miss Mary McVickers, of Gallup, N. M., has been compelled to give up her studies at the university on account of her eyes becoming weak, and has returned to her home at the Carlsbad City.

The home of Mr. and Mrs. E. Cosgrove, of Silver City, N. M., was brightened last week by the arrival of a son. Mr. Cosgrove is a prominent hardware merchant of that place.

Louis O. Fullen, district attorney of Carlsbad, is preparing the holidays in New York City with Mrs. Fullen, who is in the big town domiciled for the winter and engaged in literary and dramatic pursuits.

Mr. and Mrs. H. C. Viles of Pecos are in Santa Fe for a few days. Mr. Viles is a forest ranger on the Pecos river national forest, to which place he has taken Mrs. Viles, who is a bride of only a few weeks.

Mrs. J. B. Lutz and daughter returned during the week to Santa Fe from a lengthy eastern visit. They were for several days at the Jamestown Exposition and also spent some time in Washington and New York City.

Miss Elizabeth Tschirhart, of the clerical force of the Santa Fe U. S. land office, left on the east bound flyer last night for Ruth, Michigan, where her parents live. She was summoned by a telegram informing her of the serious illness of her mother.

Ex-Governor L. Bradford Prince left New York today for Muskogee, Oklahoma, to attend the annual meeting of the Trans-Mississippi Commercial Congress, of which he is a permanent member and also as a delegate from New Mexico. From Muskogee he will return to Santa Fe.

Alfred R. DeKuhn, of Prescott, Arizona, who has been in Santa Fe for several days visiting his sisters, Mrs. H. P. Bardshar and Mrs. P. P. Blazy, is en route to his home. Mr. DeKuhn, who is engaged in mining, stopped off there while en route from a business mission in the east.

S. B. Grimshaw, general manager of the Santa Fe Central railway, is on a quick trip to Chicago, which will visit Topeka, Kansas City, Chicago and St. Louis. He will attend to railroad business and will endeavor to interest capitalists in locating a beer sugar factory in the Estancia valley.

David S. Lowitzki, of Santa Fe, left yesterday for Chicago, where on November 24 he will be married to Miss Josephine Friedland, at the home of the latter's parents. Immediately after the wedding they will leave on a honeymoon trip to New York and other eastern points after which they will take up their residence in Santa Fe.

Jack Armistage, traveling representative of the Albuquerque Citizen is looking after the large and growing subscription list of that paper in Silver City this week. This is Mr. Armistage's first visit to Silver City and he was very much impressed with the lively appearance of the town—Silver City Enterprise.

Lawrence A. Jones, railway mail clerk on the Rincon and Silver City railway postoffice, has been transferred to the Santa Fe and Torrance railway postoffice to succeed Eugene G. Conroy, transferred to the Albuquerque and Williams railway postoffice. Mr. Jones, who is a clerk of class 3, with \$1,100 annual salary, will make his headquarters at Santa Fe.

Captain and Mrs. T. S. Parker, of El Paso, are in Silver City the guests of friends. Captain Parker is the discoverer of the famous Azure turquoise mine in the Burro mountains and one of the wealthy mining men of southern New Mexico. They have a large cliffed home on Tyrone creek in the Burro mountains, but are spending the winter in El Paso, where they recently purchased city property.

R. C. Dillon, the popular salesman of Gross & Koby Co., Albuquerque, played a prank on the younger element at McIntosh Tuesday evening but as usual the McIntoshites were equal to it. He circulated a report at Estancia that there would be a dance at McIntosh, and about 9 o'clock the auto came with two loads of merry dancers. The boys pulled the covers and got busy cleaning the hall, about 10 o'clock the dance was in full blast. Joseph Groff furnished the melodious music. The faculty were George Torrance, janitor; Thomas White, floor manager; Ben Groff and Howard Soper ushers.—Torrance County Leader.

We are the people,—

Our demands should be respected.

Give us good homes, plenty to eat and comfortable clothes.

Give us education, training and good society.

Give us good fathers and mothers.

Give us Chamberlain's Cough Remedy when we have

coughs, colds or whooping cough. We are entitled

to the best and should have it.

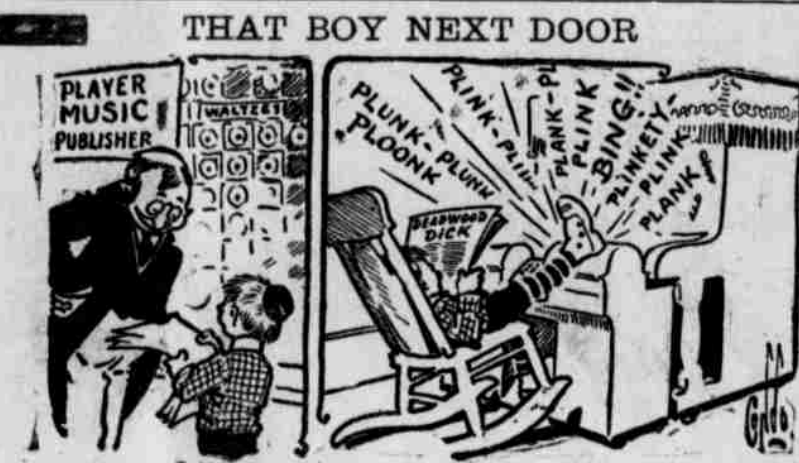

We are to inherit the earth.

Prepare us for this great responsibility by giving us what

we demand, and we will become honest, industrious,

upright citizens, proud of our ancestry and loyal to

our country.

Where That Boy Next Door will wind up with his devilish ingenuity I can't say. He has just turned a trick that is strictly twentieth century. It looks like the children nowadays are wiser than graybeards.

The folks next door have a piano, but none of them can play. They have to depend upon one of these player contraptions, and they have decided that the boy will have to learn to manipulate the ivories.

Not a while ago he is taking lessons. That Boy Next Door loves to practice—not. He has to be shoed into the parlor and the door locked on him to do his hour's study. Do you know he managed to beat this arrangement?

This is what he did. He went downtown to a place where they make the paper rolls to feed into the player mechanism, and got hold of the foreman. He showed him the simple exercise he had to practice and offered him a nickel to make him a roll with that exercise chopped out on it. The foreman wouldn't take the nickel, but he thought it would be a good joke to put through the scheme for That Boy Next Door. Armed with the roll of player music That Boy Next Door went home and submitted in an exceptionally quick manner to be locked up for his practice. Soon the monotonous strains of his exercise resounded from the parlor, over and over again without a break.

"How nice he is practicing," said everybody, and the family began to have visions of a future Paderewski in the household.

They stole in upon him with praise hanging on the tips of their tongues, only to find him pedaling the player with one foot while the other was cocked on top of it. He was reading a dime novel and letting the music roll do the practicing.

He should have been punished, but they let him off because of the brilliance of his trick.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Santa Fe, N. M., Nov. 14, 1907.

Notice is hereby given that Juan Chaves y Gonzales, of Valencia, N. M., has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead Entry No. 6736, made Dec. 20, 1901, for the NE 1/4, Section 33, Township 3N., Range 11E., and that said proof will be made before Judge M. Luna, probate clerk, at Los Lunas, N. M., on Dec. 30, 1907.

He names the following witnesses to prove his continuous residence upon, and cultivation of, the land, viz: Estanislao Otero, Manuel Sedillo, Sotero Otero, Bernardino Sedillo, all of Valencia, N. M.

A PITTSFIELD PASTOR BELIEVES IN LICENSE

Maine Experience Has Caused Him to Fight Against Prohibition.

Pittsfield, Nov. 18.—The Rev. Earl C. Davis, the working pastor of Unity church of Pittsfield, created a sensation in the No-License league and Berkshire Ministers' club this week by announcing that he is in favor of high license.

"I believe in the licensed city from a moral standpoint," said he to a Herald reporter. "I don't care a rap about the financial benefit that would accrue to a city the size of Pittsfield from the liquor element, but I do believe that a dry city would be greatly to Pittsfield's disadvantage."

He was born and brought up in Maine. I lived in Auburn and Lewiston. What I saw in Maine prompts me to my action now, and that is the reason I have taken this stand.

From what I observed in Maine I believe that no license in Pittsfield would mean the establishment of innumerable kitchen dives that would be followed or run in connection with houses of ill-repute, and morally the effect would be infinitely worse than with the open saloon under supervision of authorities.

"Auburn and Lewiston in Maine are about the size of Pittsfield. In Auburn alone there are 150 kitchen barrooms and as many more in Lewiston under a so-called prohibition regime."

Some of the Pittsfield ministers asked me to join the Anti-Saloon league but its views and mine do not coincide, and I refused to become a member. I may have something further to say about this later."

As Pittsfield went license by only 49 votes last year an aggressive campaign has already been started by the no-license league under the supervision of the other Pittsfield ministers.

Of all ministers in Berkshire county, the Rev. Earl C. Davis is the most picturesque. Last January he created a stir in his church by setting forth this opinion in regard to church suppers:

"Church suppers for revenue as they have been conducted at some churches are a light form of graft. The sale of tickets for such suppers to those who really don't want them is a sort of blackmail."

At a special parish meeting called at the suggestion of Mr. Davis at that time it was voted to abandon church suppers and the request of the Rev. Mr. Davis that he be allowed to work in the plant of the Stanley Electric company was granted. He then asked that \$300 be taken from his salary at Unity church, making that now \$500.

Mr. Davis arranged with the Stanley company that he should have time off for weddings and funerals. He has taken one evening a week for parish calls and has thought out his sermons largely while at his daily work. He has an hour for dinner and quits at 6 p. m.

While the Rev. Mr. Davis would not state definitely it is believed that he will preach one or more sermons at Unity church soon on the license question.

A native of Poland, Me., the Rev. Mr. Davis graduated from Bowdoin college in the class of 1897, and for five years thereafter was principal of the high school at Billerica, Mass. He was graduated from Harvard divinity school in 1904 and was one of the commencement orators. He came to Pittsfield in March, 1905. Before entering college Mr. Davis worked in a shoe factory in Maine. He has a wife and one child.—Boston Sunday Herald.

ROCKEFELLER HAS BONDS LOCKED UP

New York, Nov. 18.—There is current in Wall street the amazing report that John D. Rockefeller has stowed away in the vaults of the Standard Trust company at No. 25 Broad street \$100,000,000 worth of government bonds.

If this be true, and those who recite the tale assert that there can be no question about the authenticity of its source, John D. Rockefeller is the creditor of the United States government to the extent of a little less than one-ninth of the interest bearing debt of the people. The aggregate of the government interest bearing debt is \$25,155,650.

If it is true that Mr. Rockefeller is hoarding \$100,000,000 worth of government bonds, the complaint of bankers that they are unable to get bonds upon which to raise currency would seem to have considerable weight. The possessor of a fortune of \$100,000,000 in government bonds could exert, if he wished, a financial pressure such as the country is feeling today.

The vaults of the Standard Oil Trust company are the largest in New York. It is said that Mr. Rockefeller has one vault, or room, in the steel burglar and fireproof caverns of the concern that is as large as the average business man's office, and that in this room he keeps his wealth locked up.

Mr. Rockefeller is said to have visited Wall street three times in the last month, and on each occasion he is said to have gone to his stinging room and taken out securities upon which money has been raised. On one of these visits it is reported he showed two visitors a box of bonds. These men, in the first flush of their astonishment, are said to have told others what they had seen. In that way the story gained circulation.

In addition to his government bonds, Mr. Rockefeller's visitors said, he has Standard Oil stock worth a vast amount of money stacked away in orderly piles in the steel boxes, and also bonds and stocks of enormous value issued by the Standard railroad corporations.

A Good Lintment. When you need a good reliable Lintment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of dannel, slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists.

Pal Pinto Wells Mineral Water cures and prevents constipation. Ask your grocer for it.

NERVY HERO OF MINE DISASTER TELLS SECRET OF AWFUL PERIL

Shows That Laws Do Not Protect the Miners in Underground Passages in Which They Walk.

New York, Nov. 18.—Does the law permit employers to subject miners to the deadliest of perils?

Where disasters result from carelessness do officials suppress the facts?

Henry Nery, hero of the most horrible mine disaster of a century, last year at Courrieres, France, when 1500 lost their lives, says they do. He is touring the mining districts to tell the plain, bald truth of the situation.

Nery was in the Courrieres mine when the explosion came. He was the leader of 14 who escaped, after 23 days of suffering.

"For 13 days we had not a drop of water and nothing to chew save bits of wood," he said, relating his experience. "Finally we dug out the body of a horse whose position we knew. For the remaining 10 days we lived on carrion."

"Even then we were not rescued. We saved ourselves, working upward by superhuman effort. Often we had to blast through debris. As

usual the inadequate facilities for rescue left us to our fate."

"The truth about the disaster has never been known. Government officials did all they could to hide the truth of the explosion. I have been threatened with the loss of my cross of the Legion of Honor if I reveal what I know."

"The stories of fire damp and accident are nonsense. Fire had been started in a gallery by the clumsiness of a workman. To check it, the entrance to the gallery was walled. No provision was made for the escape of gases and they forced their way out, filling the mine with oxide of carbon."

"This plan of extinguishing mine fires is common throughout the American mining district. It is liable in any instance to result as it did with us. Miners were sent into this gaseous mine with naked lamps. The explosion followed naturally, and 1500 died. We who escaped had to go back to this mine or another just as dangerous. What advantage has the American miner over his French brother?"

S.S.S. CURES S.S.S. BLOOD POISON A SAFE HOME TREATMENT

In S. S. S. nature has provided a certain, safe, home cure for Contagious Blood Poison. It is a medicine made entirely of roots and herbs of recognized blood-purifying value, and is the one medicine which is able to get down to the root of the trouble and remove every particle of the virus, and at the same time benefit and build up the system and general health. No harmful effects ever follow its use, as is so often the case when strong mineral medicines are used. As soon as the system gets under the influence of S. S. S. the disease begins to improve, and when the remedy has thoroughly purified the blood and driven out every trace of the poison, no signs of the trouble are ever seen again. The general manifestations of Contagious Blood Poison such as falling hair, copper-colored spots, ulcerated mouth and throat, sores and ulcers, etc., are merely symptoms of the poisoned condition of the blood, and in most cases respond quickly to local treatment, while S. S. S. is doing the necessary work of cleansing the blood. Our "Home Treatment" book is of great assistance along this line. It is a complete guide for treating the trouble, containing instructions for the different stages of the disease, and also valuable suggestions about the local treatment, that will be most helpful in effecting a cure. We will be glad to send a copy of this book, free of charge, to any who desire it, and if special medical advice is wanted our physicians will take pleasure in supplying it without cost to the patient. If you are suffering with Contagious Blood Poison you can cure yourself in the privacy of your own home by the use of S. S. S., an absolutely safe remedy.

TAKE IT IN TIME

Just as Scores of Albuquerque People Have.

Waiting doesn't pay. If you neglect the aching back.

Urinary troubles, diabetes, surely follow.

Doan's Kidney Pills relieve back-ache.

Cure every kidney ill.

Albuquerque citizens endorse them.

Mrs. J. L. Curi, living at 410 South Third street, Albuquerque, N. M., says: "I suffered more or less from pains in my back for a long time, and at times when I would over-exert myself or take cold, I suffered severely. That this trouble was due to kidney disease I had no doubt; in fact, I believe it was hereditary in my case, as my father died with Bright's disease. About a year ago Doan's Kidney Pills were brought to my attention, and taking them for a short time I was absolutely relieved of the pain in my back and felt better in every way. The merits of Doan's Kidney Pills were so plainly demonstrated to me that I can with pleasure and confidence recommend them to others."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. No. 22

"WE GET THE NEWS FIRST."
"STATEHOOD FOR NEW MEXICO"

That Gentle Knocking

The Citizen is happy to say it cannot agree with its morning friend, in declaring that statehood is a forlorn hope—that the president has declared himself neutral and that things generally are going to the bow-wows in New Mexico.

Perhaps it suits the purposes of the morning paper to so view it, but not The Citizen.

Governor Curry, who is now at Washington, doing all in his power to secure favorable consideration of a statehood bill by the president and members of congress, will doubtless feel encouraged to know that a New Mexico paper thinks he is wasting his time.

The Citizen believes that this territory will receive statehood at the hands of the statehood congress.

Moreover, The Citizen is well enough in touch with affairs to know that Governor Curry is not burning up his time in a hopeless appeal for statehood.

Knocking—no matter how gentle—will not help the cause. It is much better and more fitting to stand up and fight.

The Citizen questions the statements to the effect that President Roosevelt will remain behind the firing line while the fight is on. He has never done so yet; neither has our governor. Let's work for statehood, talk for statehood and get statehood instead of lurking all our days in shadows.

Believable information from Washington is to the effect that New Mexico has the best chance for statehood in her history. She will get what she asks if she fights for it and that is why Governor Curry is in Washington. When he comes home and says it is a hopeless fight—then and only then, will this paper refuse to believe that statehood is near at hand.

But even in that event, which will never be the case, The Citizen will still carry statehood at the head of this column.

We have a better right to statehood than Oklahoma ever had and we are going to get statehood at no distant day.

The following is a little editorial from the Alamogordo News, which the morning paper neglected to mention in "The Press of the Southwest." "The Albuquerque Journal in its issue of November 18, prints an alleged boost for Alamogordo. The truth of the matter is, the article was taken from back copies of the News, which the News published for Alamogordo. The Journal also secured four cuts from the News, under false pretenses, two of which were printed with the alleged boost. Nowhere in the Journal's article was credit given the News for assistance, articles swiped or cuts borrowed. In fact, the article seemed to endeavor to lead readers to believe that Alamogordo did not have a newspaper. The whole game was worked up and an attempt made to lead readers to feel that the Journal loved Alamogordo almost to death, but would very much like about 500 subscriptions from the town (which it didn't get by about 495.)"

J. B. Nichols, of Arapaho, Oklahoma, will shortly begin the publication of a democratic paper at Tucuman, N. M. His politics are slightly shop worn, but his ideas in entering New Mexico's newspaper field are bulky, and The Citizen wishes him success. Incidentally it may be added, that in locating at Tucuman he selected one of the most progressive towns in the southwest.

Socorro Chieftain: The Chieftain ventures to express the opinion that if Mr. Bursum should resign the position of chairman of the republican territorial central committee it would not be at the suggestion of the enemies of that organization. Still there are those who think it would be real nice of him to do that very thing.

The democratic weekly papers of New Mexico are having a fine old time these days charging up the financial stringency in the east to the policies of President Roosevelt. The president can stand it and when he starts out to straighten things out, just watch the beautiful silence that will follow among our democratic friends.

Here's hoping the Baptists' convention will meet with us early and often. It rained nearly three days while the brothers were here and the day they adjourned, we had a regular deluge. There is something in a name after all. May the tribe increase in New Mexico.

It looks as though some of our Albuquerque people who tampered with the Sunday law in the beginning were like the little boy who put his finger in the crack of the door just as some one slammed it shut. Those who are crying "ouch" will know better next time.

Las Vegas Optic: There is no use talking! This country can't wait much longer to see King Edward. A man who can wear violet stockings, a pink shirt, a red vest, and a green hat and not have anybody throw stones at him is a wonder.

A California poetess ended her life with poison because she could not complete a story she was writing. Why didn't she say: "Married and lived happy ever afterwards," like they used to before suicide was the fad?

The Pecon Valley News in last week's issue has a map of the valley with Ardenia indicated by a deep blue circle. Use another color; blue is too suggestive and all the world knows the News don't mean it.

Over 200,000 acres of land are being homesteaded in New Mexico at present, and the homesteaders live on their lands and off their lands at the same time. Talk about Oklahoma as a state!

Now that the interstate commerce commission is after Harriman, we may expect to hear the frazzled phrase "I refuse to answer upon advice of counsel."

A Kansas paper published the statement that a married man in that town was dead. The supposed corpse indignantly denied the allegation. Well, what's the difference anyhow?

So Sarah Bernhardt wants to shuffle off this mortal coil while playing Camille. And preferably while on a farewell tour, we suppose.

The farewell to be given to the big fleet when it leaves for the Pacific will be a big social event. Japanese wrestling, tennis, boxing, etc.

A savant declares that street car straps are alive with germs. Take your straps home and boil 'em before using.

The Jap-American silk war, involving trade conditions, is over. Does this make your cotton hostery feel better?

Look for the paper trust to shrivel and turn up at the corner when Teddy gets squared away and time is called.

Thirty-five hundred cars of lemons have been shipped east from California this year. Did you get yours?

With the supply of gold coin the mints are turning out the "smile that won't wear off" will soon be restored.

Caruso begs the American people to forget the monkey house affair. Well, why talk of it, Enrico?

From indications, all William Jennings Bryan is waiting for is to be snked.

"Walk in the light," says Jawn. At how much per gallon, Jawn?

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 39 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Fescue, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined. If you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

Deaths Filed for Record.
Nov. 18.—J. L. Curd and wife to Anton Binkert, part of lots 13, 14, 15, 16, 17 and 18, block G, Bandell B. & R. addition, \$1.
Nov. 18.—W. K. Preston and wife to Paul Mohn, lots 23 and 24, University Heights addition, \$1.

Fresh sweet apple cider at Richelle Grocery.

Regular meeting of the city council tonight.

New Jersey sweet potatoes at the Richelle grocery.

Mrs. Frank Zink is in the Estancia valley looking after her ranch interests there.

Mrs. Viola Carpenter died yesterday at her home, 208 Lead avenue. The funeral arrangements will be announced later.

E. J. Strong, recently from the east, has purchased the S. E. New-comer stock of stationery and will resume business in the old location.

Ten inches of snow fell in the Estancia valley on Friday and on Saturday melted and ran into the low places. The valley is thoroughly soaked and ponds of water are to be seen all over the valley.

Walter G. Carnahan died last night at 7:30 o'clock at his home, 1122 West Marble avenue. His mother will leave tonight with the remains for Centerville, O., the old home of the deceased, where the funeral and burial will take place.

The meeting of Italians held yesterday afternoon in the office of Dr. Nacamulli decided that an entertainment would be one of the best means of securing funds for the earthquake sufferers of Italy. Oreto Bachechi and Gandenazo Totti were appointed a committee to arrange for the entertainment, which will be given next Sunday afternoon at Colombo hall.

Father Sherman's lectures are not held in the Immaculate Conception church as it was at first announced, but in the St. Mary's hall, which is much larger than the church. The lectures are open to the public. The hall is large enough to accommodate a large audience. Father Mandarini authorizes us to request all to attend, Catholics and non-Catholics.

Stated convalescence of Pilgrim commandery No. 3 will be held this evening at 7:30 o'clock. Special dispensation was granted by the Grand Commandery to Past Eminent Grand Generalissimo J. H. Wroth and Eminent Grand Treasurer Arthur J. May. All visiting Sir Knights are welcome. By order of the Eminent Commander, Harry Braun, Recorder.

The list of pressers and cleaners of Albuquerque has recently been augmented by the arrival of W. E. Zeiser, who has opened up an establishment at 210 West Gold avenue. Mr. Zeiser is a man of much experience in his trade, having operated a large business in his native town of Clinton, Ohio. His telephone number is 1195, and all you need to do is to call him up, and he will send for your order, and deliver it when finished.

TWO LAS VEGAS MEN ARRESTED FOR ARSON

Santa Fe, N. M., Nov. 18.—Acting Governor Jaffa today honored requisition papers issued by Governor Campbell, of Texas, for Marcus and Thomas Romero, who were recently arrested near Las Vegas and are in jail at the Mesquite City.

The Romeros are charged with setting fire to a school house at Channing, Texas, and were indicted there for arson, along with another man, Fidel Aragon by name.

Sheriff R. L. Queen, of Hartley county, Texas, brought the papers here and will return to Texas with his prisoners at once.

The Romeros are well known in the vicinity of Las Vegas and have hitherto borne a good reputation.

McINTOSH HARDWARE CO.

A THANKSGIVING DINNER FOR \$2.00

With Thanksgiving but a little over a week away, all good housewives in Albuquerque are concerning themselves with the best means of producing a good Thanksgiving dinner at a moderate cost.

Thanksgiving dinners will cost more this year than last. However, even with prices soaring as at present, the problem of a Thanksgiving dinner where one's means are only moderate can be solved successfully and with satisfaction to the diners. Any housewife may surprise herself by closely following these directions.

All articles needed for the \$2 Thanksgiving dinner provided here with may be purchased in the market at prevailing prices. Sufficient will be furnished at this cost to serve five persons, the preparation, of course, to be made at home. This dinner includes a substantial meat dish, with vegetables and such luxuries as are usually a part of the Thanksgiving dinner.

Cream of tomato soup 15c, wafers 3c, steak and vegetables on casserole 25c, bread and butter 14c, sweet potatoes 8c, stewed tomatoes 12c, celery 10c, pickles 7c, grape jelly 5c, water cress salad with hard boiled eggs and French dressing 25c, wafers 3, pumpkin pie 25c, coffee, 15c, apples and nuts 25c.

Following is the recipe for steak and vegetables on casserole:

Materials—Round steak, 2 pounds; small turnip, 1; small carrot, 1; button onions, 1 cup; kitchen bouquet, 1 teaspoonful; stock or boiling gravy, 1 1/2 pints; flour, 2 tablespoonful; salt, to taste; chopped parsley, 1 tablespoonful; sweet green pepper, 1/2.

Directions—Have the steak from one inch to one and one-half inches thick. This may be left whole or cut into pieces each two inches square. Heat the spider, rub over the surface with a bit of fat from the meat, put in the steak and turn constantly to harden the meat on the outside and retain the juices. Put the meat into the casserole, then the carrot and turnip, cut in fancy shapes or with a sharp knife cut in cubes and triangles. Add the tiny onions, carefully peeled. Put a tablespoonful of butter (suet may be used instead of butter with good results) into the spider with the flour, adding the given amount of stock or water gradually until you have a nice smooth sauce; now put in the salt, kitchen bouquet and chopped pepper, and pour this over the meat and vegetables. Sprinkle the parsley over the whole, cover one and one-half hours. After cooking an hour see if more salt and stock are needed; if so, add them and finish cooking. Serve from the casserole.

SUIT FOR 25,000 FILED AGAINST SANTA FE

Nettie Z. Preston today filed suit in the Bernalillo county district court against the Atchison, Topeka & Santa Fe railway company for \$25,000 damages for injuring her allages she received in a wreck (thirty-five miles north of Las Vegas).

In her complaint the plaintiff says that she was on train No. 9 when it was wrecked on the 30th day of August, 1908. She occupied a berth in a tourist sleeper and when the train was wrecked, she was thrown from her berth across the car. Her feet were caught in the bed clothing and she hung suspended in the air. She was wrenched, shocked, her system affected and that she was internally injured.

The law firm of Klock & Owen appear as attorneys for the plaintiff.

Amalgamated Copper Dropped.
New York, Nov. 18.—Amalgamated copper dropped one quarter cent; a pound on metal exchange today. Lake copper 13 @ 13 1/2; electrolytic 12 1/2 @ 13; casting 12 1/2 @ 13.

neer (male), forest service, depart-
ment of agriculture.

SUMMER COMMUNITY TO BE ORGANIZED AT MOUNTAINAIR

Religious and Educational
Center Will be Established
at That Place.

Additional impetus was given to
the Chautauqua movement for some
time contemplated by the citizens of
Mountainair, through the action taken
by the New Mexico Baptist con-
vention during its closing hours on
Saturday, and which resulted in the
passage of the following resolutions:

"Whereas, we understand a move-
ment has been inaugurated to estab-
lish a non-sectarian summer school
for the advancement of religious and
educational work in New Mexico at
Mountainair; and

"Whereas, we believe that such an
institution, if properly conducted,
would be of benefit to religious and
educational work; therefore, be it

"Resolved, That in the sense of
this convention such a movement is
worthy the support of all Christian
people, and we hereby express our
earnest sympathy with the enter-
prise."

The establishment of a summer
community having in view the twin
objects expressed in the above resolu-
tion, has been one of the objects
which John W. Corbett, the founder
of the Mountainair Townsite com-
pany, has had in view ever since his
first settlement on the ground and
is probably the result of a suggestion
which comes from the environment
itself.

Mountainair is situated on the Be-
len cut-off at the summit of the
Manzanos, just east of the Abo Pass.
The land is rolling and covered with
pine and piñon trees and there is an
unlimited amount of good water to
be had there at a short distance from
the surface. In view of the fact that
there are interesting drives, with ancient
ruins, natural wonders or mountain
views as their objectives and the lo-
cation is therefore an ideal one for
just such an enterprise. Prominent
among the excursions available from
Mountainair by wagon or saddle are
the ruins of La Gran Quivira, Abo,
Punta de Agua, the famous Man-
zanos Springs and apple orchard and
the curious salt lakes of the Estancia
valley. The new town is 75
miles from Albuquerque and will be
reached with the new Albuquerque
Roswell train from this point in
about three hours. There is little
doubt that Sunday school and frat-
ernal excursions from Albuquerque
and nearby points will have their
birth this summer as a result of the
movement. The Santa Fe road has
made preparations for the work
through the erection of one of the
most attractive concrete and tile
stations on its line.

among the excursions available from
Mountainair by wagon or saddle are
the ruins of La Gran Quivira, Abo,
Punta de Agua, the famous Man-
zanos Springs and apple orchard and
the curious salt lakes of the Estancia
valley. The new town is 75
miles from Albuquerque and will be
reached with the new Albuquerque
Roswell train from this point in
about three hours. There is little
doubt that Sunday school and frat-
ernal excursions from Albuquerque
and nearby points will have their
birth this summer as a result of the
movement. The Santa Fe road has
made preparations for the work
through the erection of one of the
most attractive concrete and tile
stations on its line.

Mountainair is situated on the Be-
len cut-off at the summit of the
Manzanos, just east of the Abo Pass.
The land is rolling and covered with
pine and piñon trees and there is an
unlimited amount of good water to
be had there at a short distance from
the surface. In view of the fact that
there are interesting drives, with ancient
ruins, natural wonders or mountain
views as their objectives and the lo-
cation is therefore an ideal one for
just such an enterprise. Prominent
among the excursions available from
Mountainair by wagon or saddle are

CAPTURES WILD BEASTS FOR SHOWS

Also Deals in Barbaric Men and Don't Hesitate at Snakes.

Charles H. Henrickson, who has spent the majority of his life in gathering wild animals and reptiles for circus managers, passed through the city yesterday, remaining a few hours before trains while en route to California for the winter.

Mr. Henrickson has not only dealt in wild animals but he also made many of the contracts with men of semi-barbaric tribes for their appearance in civilized lands. Last night in talking of his experience, he said:

"Since I have been in the work I have paid particular attention to the impression which the first sight of a city makes on a so-called wild man who has had the good luck to have spent his life away from the great nations of the world," he said. "I took a number of northern Indians to London with me several years ago, and they passed by without a word of wonder, the subway, the high buildings and the great wonders of the world's metropolis before which people of other countries stop in amazement."

"But it was the more ordinary things which drew their attention and you would see them stand for hours and talk concerning the making up of a buggy. They had been used to their primitive sleds and these they were comparing with the carriages of London. They derived great amusement in the dress which the people wore and they found the weather there very warm, although it was the middle of winter and considered cold. They invariably expressed wonder at anything which differs from what they had at home, but of those many things for which they had no crude beginnings in their own country they found no surprise."

"Last year I spent in trying to trap elephants which had fine tusks. There is no scarcity of elephants in this or any other country so far as the circuses are concerned, but those having good tusks are rare and I spent six months in searching with the aid of a small army of natives and was able to secure but four. There is certainly great possibility in certain portions of central Africa for agricultural development and I have no doubt but that within the present century Africa will see great colonization from continental Europe, when it becomes generally known that the lands are habitable and that the natives are no fiercer than those which the American pioneers had to overcome in settling America."

"They are not now the natives of Stanley's time, for they have seen white men and the latter can ordinarily go among them and be welcome so long as they mind their own business. Of course there are certain of the tribes which are continually at war and we will tolerate neither white man nor any other human within their camps if they can help it. Right now I am on my way to South America where I shall spend the winter months in trapping reptiles."

Was Sitting In Her Buggy When He Was Shot by Former Friend.

Prescott, Ariz., Nov. 18.—Yesterday morning Frank Devine was shot and fatally wounded by Bud Neil, at Lone Pine station, about two miles east of the city. The injured man was taken to the Mercy hospital, at noon, yesterday. At a late hour little hopes were entertained for his recovery by the attending physicians.

Neil fired two shots from a 44 caliber Colt's revolver at Devine, both of which took effect. One of the bullets entered the left breast, and pierced the left lung. The other entered the left side, about two inches below the ribs. Both lodged in the body, and at a late hour last night had not been located.

After the shooting Neil rode to the city and surrendered to Deputy Sheriff Burns. Mrs. Devine, who was seated in her buggy near the station, when the shooting occurred, drove here at once and engaged medical assistance for her wounded husband. Dr. Linn drove to the assistance of Devine and found him in a partially intoxicated condition and weak from the loss of blood.

From what could be learned of the affair it appears that Devine and Neil had been drinking together for several hours before. Both are alleged to have been intoxicated. They left the place to go to the Devine home, known at the Four-Mile house about two miles distant. Mrs. Devine was a member of the party. Devine, according to Neil's statement, when he surrendered, asked Neil to ride in the buggy with Mrs. Devine and allow him to ride Neil's broncho. The request was refused by Neil. Devine then threatened to make Neil accompany him to his request, and started in the direction of Neil. Neil alleges, in a threatening manner with an open pocket knife in his hand, Neil, who is inferior in stature to Devine, backed away from Devine until he was stopped by a nearby wire fence, when, he says, he pulled his six-shooter and fired two shots to save his life, being unable to make his escape further.

Eat your Sunday dinner at the Home Restaurant. Big turkey affair.

Mamie Sheridan Wolford, Reading Woman With the Wolford Stock Company.

The following notice clipped from the Sunday Wichita, (Kansas) Eagle of August 26, 1907, is relative to the Wolford Stock Company, which will be at the opera house for one week commencing tonight, opening in the beautiful four-act pastoral comedy drama, "Why Women Sin."

"The Wolford Stock Company under the management of E. L. Paul, is playing a two weeks' engagement at the Alhambra, and drawing big business. On Friday night this favorite company broke the house record, playing to more paid admissions than any other company that has appeared at the Alhambra this season. The company is a large one, and in many respects the best that has been offered by the Alhambra management this season."

A list of high class plays at popular prices is announced for the coming week, many of which have never been attempted by a company playing at popular prices. Among the others is "Why Women Sin," a play which has had a successful run in all the cities of the middle west.

"Wyoming," a close counterpart of the celebrated "Arizona," and "Gayest Manhattan," the musical comedy with record of 240 successful nights on Broadway to its credit.

Every play put on by this company is played in an artistic manner, and each member of the company seems to fit perfectly into the role assigned, whether the part be one requiring strength or brightness.

What fatal words passed between him and his daughter will never be known. It was 11:30 o'clock, with the dying girl lying near him, that McLaughlin telephoned to Jeter, after having written over a dozen short notes of farewell to various friends.

"I have just killed my daughter; now I am going to kill myself. Come down to the Golden Gate villa."

With these words McLaughlin announced to his friend the double tragedy then being enacted at his beautiful Santa Cruz home.

Jeter notified several acquaintances and a physician, and together they hurried out to Golden Gate villa, arriving just in time to find McLaughlin huddled in a chair and breathing his last. The daughter, sprawled upon the floor with blood streaming from a gaping wound in her left temple, was still living but unconscious.

His identification with politics made him a familiar figure in Washington and he had a hand in most of the "conventional" gatherings of his party when political policies, local or national, were under discussion as relating to the Pacific slope.

In all of his political activities he figured as sympathetic with, where the direct agent of, the Southern Pacific Railway company.

He was a promoter of large mining ventures, and in this capacity moved between San Francisco, New York and London. Major McLaughlin's personality was genial, and few men in the west had so large a circle of acquaintances as he.

The Non-Sectarian Benevolent Association will give a charity ball on Thanksgiving evening in the ball room of the Elks' club. The public is cordially invited.

Will Never Be Known. What pleadings, what remonstrance

Major Frank McLaughlin was one of the most widely known republican politicians in California, and for many years took an active and leading part in all that was going on in the management of the republican party in this state. He had been chairman of the republican state central committee, a member of the national committee, and managed the Daniel Burns campaign for United States senator.

His identification with politics made him a familiar figure in Washington and he had a hand in most of the "conventional" gatherings of his party when political policies, local or national, were under discussion as relating to the Pacific slope.

A Home Drink

After the fatigue of the day's work—after the dinner is over and you sit down for a comfortable evening at home, a bottle of Pabst Blue Ribbon will add to your enjoyment, and aid your digestion.

Pabst Blue Ribbon

The Beer of Quality

is brewed from Pabst Famous Eight-Day Malt, which contains all of the nourishing, wholesome, food properties of barley-grain in predigested form. These properties, together with the tonic quality of the choicest hops, give nourishment and tone to the system. The very small percentage of alcohol (less than 3%) is a mild stimulant that prompts the stomach to do its best work.

When ordering beer, ask for Pabst Blue Ribbon.

Made by Pabst at Milwaukee
And Bottled only at the Brewery.

"IDIOTS HAVE NO RIGHT TO EXIST" SAYS THIS CLUBWOMAN

She Would Have All Mentally Unfortunates Hanged at Once Instead of Cared For.

Miss Lilyan Shaffner.

This Chicago Woman Thinks Death is the best remedy for the feeble-minded.

Chicago, Nov. 18.—From the lips of a Chicago club woman, Mrs. Lilyan Shaffner, has come the most startling of all suggestions for the solving of criminal problems.

Mrs. Shaffner would hang all idiots.

Clubwomen and reformers are arguing at her suggestion. When others are seeking to mitigate the suffering of the mentally infirm in ways more humane.

Mrs. Shaffner is "chief of police" in the mock city government formed by the Social Economics club. Here are more of her ideas:

Brand a murderer with a mark on the forehead and then turn him loose so that all would recognize him.

Deport foreign criminals; because it is cheaper than to try them in this country and support them in this country's jails.

"I think that the viewpoint I have taken is new to many people," Mrs. Shaffner explained to a reporter. "That is why it startles so many. But really it is not so new. And it is not so harsh as it may at first seem."

"WILD GIRL" IS
NATIVE OF
ARIZONA

John Pike, Snake Bitten and
Near Death, Admits His
Identity.

Tucson, Ariz., Nov. 18.—From a
telegram received yesterday morning
by Sheriff Pacheco, from Mrs.
Charles Glenn, of Globe, it appears
that John Pike, the Australian "Wild
Girl," who charmed snakes at a
cheap show in this city, and who
was bitten recently by one of the
reptiles, is an Arizona boy.

The telegram which Sheriff Pacheco
received reads as follows:
"Wire me the address and condition
of John Pike, known as the
'Australian Wild Girl,' who was bitten
by a moccasin snake. Wire immediately.
Shall I come? His sister,
Mrs. Charles Glenn."

Sheriff Pacheco, in compliance
with the request made in the telegram,
at once ascertained from Pike's
doctor, the young man's condition.
The physician stated that he was
steadily improving and would
recover from the effects of the poisonous
bite.
It was the opinion here, until the
receipt of the telegram, that Pike
was a California man, who, being
down on his luck, took up with the
snake show in an endeavor to earn a
little money. It now develops that
he is an Arizona boy and has other
relatives in this territory besides the
sister, Mrs. Glenn, who resides in
Globe.

The two proprietors of the show
have left the city, evidently fearing
that they could be held to blame if
young Pike died from the effects of
the snake bite. This, of course, could
not be done, but the two men at the
head of the snake show did not realize
that fact and have skipped, shaking
the dust of Tucson from their feet.
Some difficulty was experienced by
the local officers in collecting the
license due the county for the operation
of the show, but after Sheriff
Pacheco had informed them that unless
they paid up at once he would close
their place, they came through with
the required amount without further
trouble.

A Reliable Remedy for Croup.
With the dry, cold weather of the
early winter months, parents of croupy
children should be on the alert for
ominous symptoms. The cause for anxiety,
however, when Chamberlain's Cough Remedy
is kept in the home. If this medicine is
given as soon as a child becomes hoarse
or even after the croupy cough has
appeared, the attack may be ward off.
Mrs. S. Rosenthal, of Turin, Michigan,
says: "We have used Chamberlain's Cough
Remedy for ourselves and children for
several years and like it very much. I
think it the only remedy for croup and
can highly recommend it." For sale by
all druggists.

THE CLEANERS COMBINATION.
The Browns and Thorntons have
joined hands—the Browns do the
cleaning and pressing, and you know
what Thornton does. Just call Thornton
and the Browns will do the rest.
121 North Third Street. Phone 460.

Take some reliable and safe
digestant like KODOL for Dyspepsia.
KODOL is the best remedy known
today for heart burn, belching and
all troubles arising from a disordered
digestion. It is pleasant to take
and affords relief promptly. Sold
by J. H. O'Reilly.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Thompson, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

DINNER AND DUTCH LUNCH.

The Ladies' Aid society of the Presbyterian church will give a dinner at noon, and a dutch lunch in the evening, from 5 to 8 o'clock, Friday, Nov. 23, in the parlors of the Presbyterian church. Everybody invited.

A Hard Debt to Pay.

"I owe a debt of gratitude that I can never be paid off," writes G. S. Clark, of Westfield, Iowa, for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle used, and two more bottles made a complete cure. Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by all druggists. 50c and \$1.00. Trial bottles free.

Are you looking for something? Remember the want column of the Evening Citizen are for your especial benefit. It talks to the people and they talk to you.

Formula

Recommended by Mrs. Henry Symes, to develop the bust from 4 to 6 inches.
Guaranteed to be made from the pure Galega Extract. Is perfectly harmless.
The Vaucaire Formula is a general tonic, but it has a specific effect upon the bust. Price 75 cents. For sale by

Highland Pharmacy and Alvarado Pharmacy

A Methodist Minister recommends Chamberlain's Cough Remedy.
We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would cure more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis,
Pastor Milaca, Minn. M. C. Church.
Chamberlain's Cough Remedy is sold by all druggists.

NOTICE FOR PUBLICATION.

Department of the Interior, Land office at Santa Fe, N. M.
Notice is hereby given that Cornelio Montoya, of Golden, N. M., has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead Entry No. 7365, made Nov. 13, 1902, for the S 1/4, SE 1/4, sec. 24, N 1/4, NE 1/4, sec. 25, township 13 N., range 6 E., and that said proof will be made before Register and Receiver, at Santa Fe, N. M., on Dec. 27, 1907.

He names the following witnesses to prove his continuous residence upon, and cultivation of, the land, viz:
Nicolas Montoya, of Golden, N. M.; Daniel White, of Golden, N. M.; Bernardo N. Arando, of Golden, N. M.; Bientie Gutierrez, of San Pedro, N. M.
MANUEL R. OTERO,
Register.

HAIR DRESSER AND CHIROPDIST.

Mrs. Bambini, at her parlors opposite the Alvarado and next door to Sturges' cafe, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparation of complexion cream builds up the skin and improves the complexion, and is guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Massage treatment by vibrator machine. For any blemish of the face, call and consult Mrs. Bambini.

Appendicitis
Is due in a large measure to abuse of the bowels, by employing drastic purgatives. To avoid all danger, use only Dr. King's New Life Pills, the safe, gentle cleansers and invigorators. Guaranteed to cure headache, biliousness, malaria and jaundice, at all drug stores.

Your Standing is Improved

By the Use of Our Shoes

They Are Stylish and Single
You Out as Being Up-to-Date

THEY ARE AS COMFORTABLE as old shoes, and yet look always like new ones. The secret is in the fit, snug, clinging and roomy in the proper places, they support and ease the feet. They look good and feel good as they look. And moreover they do not strain the pocketbook: the price is as attractive as the other superior features of these shoes. If you are skeptical, try them and be converted.

Men's Shoes - \$2.00 to \$5.00
Women's Shoes - \$1.75 to \$5.00
Shoes for Boys and Girls \$1.00 to \$2.50

Millinery Talk

If you contemplate getting a new hat, you should see what we have. We never allow our stock to become depleted and picked over, but replace every article sold by another just as carefully made up. The result is that our offerings just now are as choice as at the time of our fall opening. A large consignment just received.

Mrs. J. T. Johnson returned home this morning from attending the Arizona fair held at Phoenix. She reports having had a fine time. The fair was a great success. Daniel J. Mr. Johnson's racer, secured third money in the 2:17 trot. The three heats were made in 2:14 1/2.

M. R. Summers, the real estate agent, left the city Saturday night for Long Beach, Cal., where he will be married to Miss Mable Hunt during the week. Miss Hunt formerly lived in this city and was very popular in the upper social set. Mr. and Mrs. Summers will make their home in Albuquerque.

FLATULENT COLIC.

This is caused by the process of digestion being stopped. It is in the nature of severe acute indigestion. The food ferments and forms a gas which causes the horse to bloat and to have a great deal of pain. It is more common where corn is used for the grain feed, and is induced by working or driving when the stomach is filled with food. Hard exercise immediately after eating heartily has a tendency to stop digestion and decomposition of the food commences and the colic gas is formed. "International Colic Cure" is guaranteed to cure in ten minutes. Use one bottle and if it fails your money will be promptly refunded.

E. W. FEE,
