MANY BIG SURPRISES JOHN D. SAYS THERE FOLLOW RAPIDLY IN POWERS CASE

New Venue for New Trial Was Summoned Today From Grant County.

EFFORT BEING MADE TO KEEP DEMOCRATS OFF

Special Judge Morris Gives Reason for Dismissing Venue Summoned From Scott County—Sheriff is Exonerated.

Georgetown, Ky., Nov. 25.—Following the first victory of the attorneys for Caleb Powers, when they secured the dismissal of the Harrison county venire last Wednesday, Powers' friends and supporters have become very enthusiastic over the prospects for the future trial.

Concluding the opinion, wherein he dismissed the Harrison county venire, which was found to be composed of democrats almost exclusively, Judge Morris made a very important statement and Governor Beckham has also come out in the open with a statement with reference to Judge Morris' opinion.

Concluding this important opinion, Judge Morris said:

"I do not want to preside at the trial of any man when there is any just ground of suspicion that he has not had a fair trial, and that there has been any discrimination against him in the selection of a jury, for that is the duty of a judge, and because there might be well grounded suspicion of discrimination, and while I do not think it more than that, I am going to sustain the motion to discharge the second venire."

Following the order discharging the second venire, Judge Morris overruled the attorney's motion that the first declaring that the objections to it had not been sustained.

Will Not Appear as Witness.

Judge Morris overruled the defense's motion for the appointment of an alibi to summon the next venire, and an alternative motion that Sheriff Warring be required to select one of six republicans named as his deputy, and directed that a venire of 150 men be summoned today, all to be drawn from Grant county, a democratic county, which joins Scott on the north.

The efforts of the defense to get a venire from Fayette were without avail.

Never in the history of this famous case have surprises come more rapidly. After the effort of the defense to have Sheriff Warring superceded for conspiracy of his partisanship, for which reason they had asked for a republican deputy, the sheriff suggested to Judge Morris that there would be no personal objection on the part of the officer to a friend of Powers' accompanying him through Grant county while on his official duty, and promising due courtesy to the gentleman. The offer when announced was accepted by the defense's attorneys.

The defense lost out in its motion to have James Howard brought to Georgetown jail, to be near Powers for consultation of legal counsel for want of authority.

Causes a Sensation.

The weight of testimony introduced before Judge Morris exonerated the sheriff of Scott county and his deputies, but the results of their work in Harrison county led the court to the expression of an opinion that created a sensation. In sustaining the motion of the defense, Special Judge Morris, an ardent democrat and as appointee of Governor Beckham, said:

"The proof indicates that the democratic majority in Harrison county is somewhere in the neighborhood of 1,000, perhaps more, in the last election. The proof indicates that in the precincts where the ventremen were summoned, there is an overwhelming presence of democrats, not so much in the last election as in previous elections perhaps. Now, in looking over these lists in proof here, it must be striking that no many democrats were summoned on these venires and so few republicans."

Standard Oil Magnate Makes This Statement on Threshhold of the Church.

LIQUIDATION OF CERTIFICATES IS IN SIGHT

Premiums on Currency in New York Have Fallen From 4 to 1 1/2 Per Cent—3 Per Cent Certificates Grabbed by Advanced Subscriptions.

New York, Nov. 25.—"The worst is over," said John D. Rockefeller yesterday at the close of church service, which he attended with two friends, who asked his opinion of the financial situation.

"Do you believe that President Roosevelt's policy in attacking the trusts contributed to cause the financial conditions?" was asked.

"I believe President Roosevelt to be actuated by the best of motives and have no criticism to make of any kind of his financial condition was foreseen long before it was felt."

Several well known men pointed out that it was bound to come unless measures were adopted to stop it."

PAYMENTS TO BE MADE IN CURRENCY.

New York, Nov. 25.—That the banks of New York and throughout the country will soon resume payments in currency is the opinion expressed by men prominent in the financial world.

The banks, it is said, are enabled because of enormous importations of gold to take up most of the hundred million dollar loans of treasury certificates and thereby to increase their bank note circulation.

The bankers are of the opinion that all currency premiums will disappear within a very short time.

The premium has already fallen from 4 to 1 1/2 per cent.

It is estimated that during the busy \$25,000,000 has been withdrawn from banks in New York and the total withdrawn throughout the country is estimated at \$55,000,000.

Clearing house certificates are in use in twenty-three cities of over one hundred thousand population.

The amount of certificates outstanding in New York is \$75,000,000.

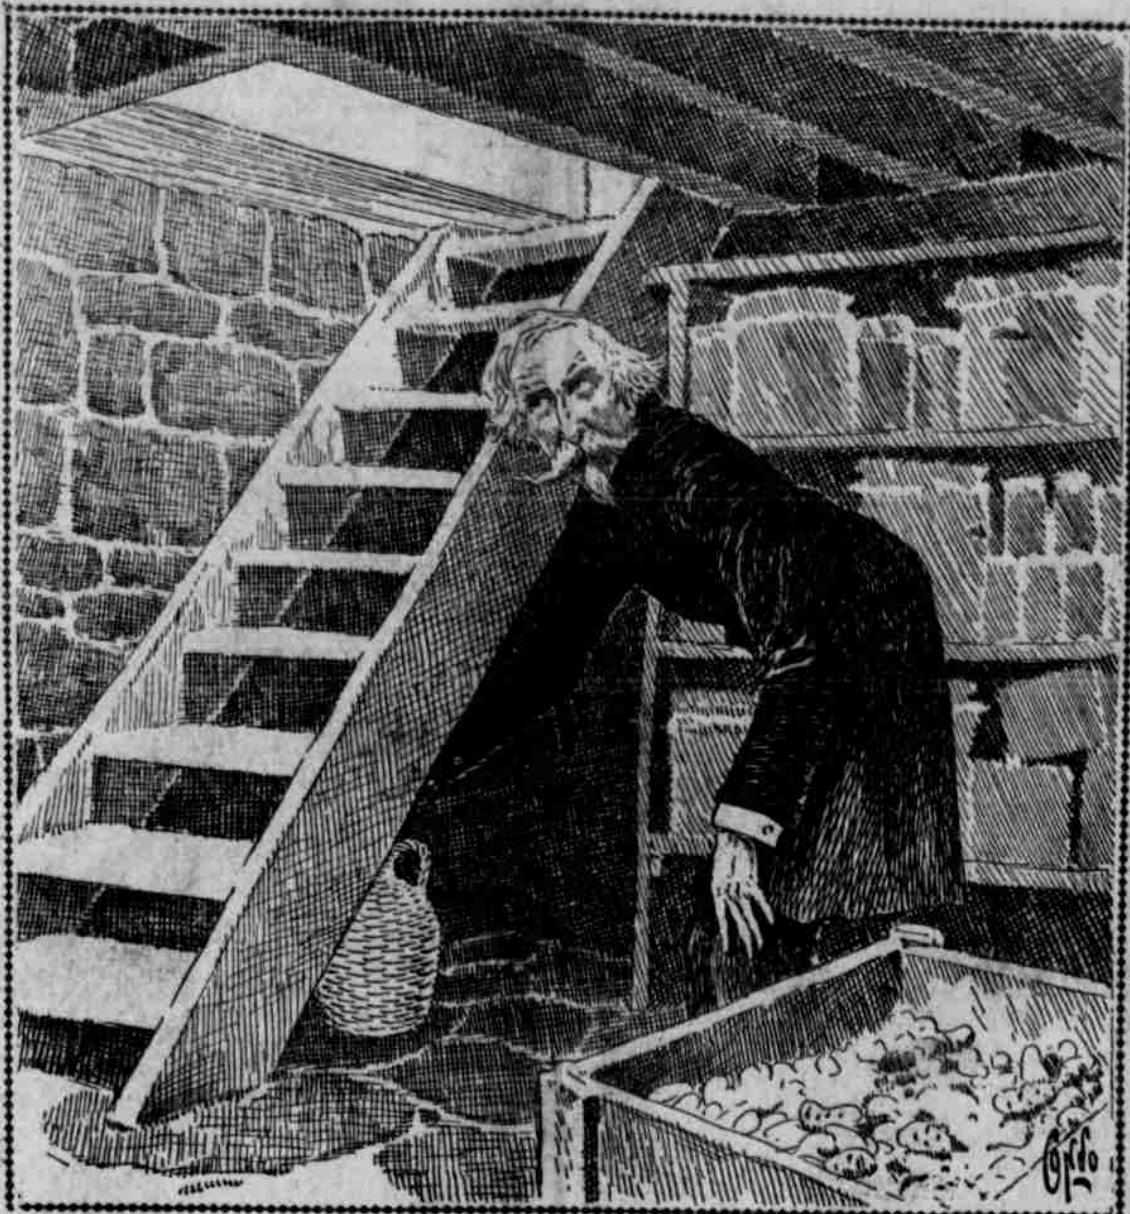

3 PER CENT CERTIFICATES WERE GOBBLED RAVENOUSLY

The subscriptions are in for the \$25,000,000 of the 3 per cent government 3 per cent certificates to be taken by the New York Banking syndicate. Some of the allotments have been made.

The banking syndicate has the money ready to pay for the entire \$25,000,000, but the payment will in all probability be made in installments and be governed largely by the policy of the government in turning out the new circulation upon which the certificates are to be based.

The general idea is to have the circulation ready for shipment immediately on the payment of the installments, so that no money will be taken from circulation.

As the payments are made the treasury department will it is believed, transfer the money paid for the certificates to banks in the west and southwest in \$5,000,000 lots. In place of the money thus paid by the banks here, the banks will have new national bank notes, which in the regular course of business, they may exchange for money which may be counted in reserve. Thus, as far as the New York banks are concerned, the process of paying for the certificates and taking out circulation will be accomplished with but a temporary diminution of surplus reserves.

THAW CASE POSTPONED UNTIL MONTH OF JANUARY

The Girl Wife May be Allowed to Testify at Approaching Trial.

PROSECUTION HAS BEEN BUSY IN MANY LINES

New York, Nov. 25.—The second trial of Harry Kendall Thaw, which was set for a week from today, will again be postponed and there is small chance that it will be heard until well along in January.

The postponement has been agreed to by both sides owing to the nearness of the holidays. It is rumored that the attorneys representing Thaw may apply for a change of venue.

Speculation centers chiefly in the question whether Evelyn Nesbit Thaw will repeat her story on the witness stand and undergo again District Attorney Jerome's pitiless cross examination. First, it was said that the judge would not permit her to tell of her experience with White.

This report was based on the opinion of lawyers who said that Mrs. Thaw's story was not legal evidence and should not have been admitted. She was allowed to testify only as a confidante in the defense, it was stated, and that in the next trial there would be a more strict enforcement of the rules of evidence.

After that there was the story that Thaw would not permit his wife to testify. He was said to have been led to this decision by the scoring he received from Jerome in the latter's closing argument. Jerome faulted him with having put up the claim that in shooting White he had performed a chivalrous deed, and then not having the manhood to face the charge against him in court. He had refused to go on the witness stand and attempted to hide behind the skirts of his wife by forcing her to face an ordeal such as has been experienced by few women in the world. Rather than give reason for his refusal, he was said to have said to prefer risking his life on the other testimony.

Will She Dare?

Then Assistant District Attorney Garvan returned from a long European trip, and word was passed around that Evelyn Thaw would not dare take the witness stand again.

Garvan, it seems, went to all the places in Europe that had been visited by Thaw and Evelyn Nesbit before their marriage. He had stopped at the same hotels and had gathered much information. It was hinted that as a result of this Mrs. Thaw would not dare face the questions that Garvan was prepared to ask in cross examination. Therefore, she would not be a witness.

After Being Out Twenty Hours Jury Agrees to Disagree.

DEFENDANT IS ADMITTED TO BAIL

Rathdrum, Idaho, Nov. 25.—The Adams' jury disagreed and was discharged last evening. The jury stood eight for acquittal and four for conviction.

The close of the trial was not attended with any great show of interest. The attorneys took seven hours each in their arguments.

C. L. Heitman, a local attorney for Adams, spoke during the afternoon, and court adjourned at 4:30 o'clock until 7 o'clock last night, when Knight took up the argument for the state.

Court opened at 9 o'clock, when Darrow and Hawley were given their three hours each for arguments for the defense and state, respectively after which the instructions will be read and the case taken up by the jury. Both sides looked for a verdict Sunday but were disappointed.

Three witnesses were called by the defense in rebuttal—Charles Struthers, Varden Whitney and Mrs. Adams. Darrow then moved to exclude the two letters read in evidence from the jury, on the ground that they had not been identified, and the defense was entirely devoted to a review of the testimony, and pointed out the inaccuracies.

McFarland then began the opening argument to the jury, taking an hour and ten minutes. His talk, as was also that of Heitman for the defense, was entirely devoted to a review of the testimony, and pointed out the inaccuracies.

OPENING OF PETTIBONE CASE POSTPONED TILL TOMORROW

Absence of Counsel From Boise on Adams' Trial Was the Cause.

Boise, Idaho, Nov. 25.—The trial of George A. Pettibone, for alleged complicity in the assassination of former Governor Steunenberg, was called by Judge Wood of the district court this morning.

Owing to the absence of Attorney Clarence Darrow, chief counsel for the defense and James H. Hawley, the chief counsel for the prosecution, who have been attending the trial of Steve Adams at Rathdrum, Idaho, the case was continued until tomorrow morning.

MRS. BLAKE SHOWED RARE PRESENCE OF MIND

She Jumped In Tub of Water When Dress Catches Fire.

FACE AND HANDS BADLY BURNED

Exercising great presence of mind Mrs. J. H. Blake, of 233 South Edith street, after her clothes had caught fire from a can of coal oil that exploded in her hands, rushed into the yard and plunged into a tub of water.

Mrs. Blake was starting a fire in the stove this morning at 6:30 o'clock at the time of the accident. The fire was backward and she started to pour some oil on it from a can. The can suddenly exploded in her hands and she was immediately enveloped in flames.

She jumped into the yard and plunged into a tub of water. The flames were finally extinguished and a native and his wife, who live in a tent in the Blake's back yard, helped Mrs. Blake back into the house and summoned Dr. John F. Pearce.

May Lose Hands.

Mrs. Blake was badly burned about the hands and face and is in a serious condition as a result of the burns. Her husband, who is a Santa Fe freight conductor, is on the road somewhere between here and Gallup. Friends have wired him of the accident and he is expected home tonight. Mrs. Blake will recover but may lose her hands.

THREE LOSE LIVES UNDER BREAKING ICE

Macon City, Iowa, Nov. 25.—Ella Swift, age 14 years, Marie Mettler, age 19 years and Frank Hartfield, age 18 years, were drowned in Little creek near here last night.

The girls were skating when the ice broke, letting them fall in the water, which was much over their heads. The young men went in to rescue them and drowned also.

The bodies were carried under the ice and were rescued with great difficulty.

"HUCKLEBERRY FINN'S" HOME IN HANNIBAL TO BE SOLD.

Hannibal, Mo., Nov. 25.—A buyer for the old home of "Huckleberry Finn" of Mark Twain's "Tom Sawyer" fame, has appeared in Hannibal in the person of a stranger, who wants to take the dilapidated, ramshackle structure away and convert it into a museum. The price has been named, and the sale is expected to be closed at any time.

FEARFUL FIRE IN NEW YORK TENEMENT HOUSE

Thirteen Persons Lose Their Lives by Fire and Smoke Seven Were Children.

SEVEN STORY BRICK BURNS IN CINCINNATI

One Woman (Is Dead—Several Injured by Leaping From Windows --125 Terown Out of Employment—Dry Goods Store Total Loss.

New York, Nov. 25.—Thirteen persons lost their lives and several others were injured early today in a tenement house fire at 108 Eighth and Second avenues. All the dead are Italians and seven of them are children.

The bodies were found huddled together on the top story of the building to which the terrified people had been driven by the flames, which rushed up from the lower floors.

They died before they could reach the fire escape.

Some of them were burned alive, while others were overcome by the smoke.

The police are of the opinion that the fire was started by incendiaries in the Giuseppe Cudanos saloon on the ground floor of the building.

Three weeks ago three men were caught robbing a safe in the saloon and are now awaiting trial.

The police believe that the fire may have been the work of friends of these men.

A Cincinnati Dry Goods Store Burned

Cincinnati, Nov. 25.—A fire broke out in the Wm. Windhorst dry goods company store at noon today and spread rapidly throughout the building, which is a seven-story brick, and the entire structure was soon a mass of flames.

One woman is known to be dead and a half dozen others have been injured, most of them by leaping from windows.

There were 125 persons employed in the building, but coming at lunch hour the fire found the crowd of buyers in the store somewhat smaller than ordinarily.

It is not known positively but it is believed that nearly, if not all, escaped.

But one body has been taken from the building as yet, but the firemen are not yet able to make thorough search on account of the heat. It is feared that ten or more bodies are in the ruins.

CRAZED BY ILLNESS WOMAN COMMITS AWFUL CRIME

Shoots Her Husband and Sets Fire to Home—Secret Revealed.

New York, Nov. 25.—Crazed by illness and the fear that she was losing her mind, Mrs. Grace Smith shot and killed her husband as he lay sleeping in their home in New Rochelle, set fire to the house to hide the traces of her crime and then, as the firemen were battling the flames, sent a bullet through her own heart in the early hours of yesterday morning.

She left a note addressed to her sister-in-law, Mrs. David H. Madson, N. J., evidently written after she had shot her husband, Nicholas M. Smith, Jr., in which she said: "I shall be released in a few minutes."

There had been no quarrel between husband and wife, and those who knew them best had never seen any evidence of feeling between them. That the woman's deed was deliberately planned was amply proved today when it was learned that she had had a barrel of gasoline and a barrel of oil brought from an out-house into the cellar on Friday, and that she had used the contents of these as fuel for the fire which she started in the darkness of the night.

Following her crime, Mrs. Smith's surprising discovery was made that her acquaintances and even her husband, that she was the daughter of the late William H. Bulkeley, formerly lieutenant governor of Connecticut and brother of the present senator from that state, was not connected in any way with the Bulkeley family, to whom her existence and her claim of relationship had been known for years.

In view of this development no exact knowledge of the woman's true history was obtainable beyond the statement made at the time of the death of a previous husband that she came from Manchester, England. Rumors that financial difficulties had something to do with the woman's deed were dispelled by the brother of the dead man, who declared that both Smith and his wife had been well to do, that Mr. Smith's income was large and that he believed his wife to have been a wealthy woman, although she had suffered some loss in the recent shrinkage in the value of securities.

BRADLEY TRIAL RAPIDLY COMING TO A CLOSE

Reading of Mills Long Hypothetical Question Finished This Afternoon.

DEFENDANT'S HEALTH IS SEVERELY TRIED

Sanity Expert Says That She Was Suffering From Puerperal Insanity When She Shot Senator Brown.

Washington, D. C., Nov. 25.—The trial of Mrs. Annie Bradley, charged with the murder of former U. S. senator Arthur M. Brown, was resumed today. It is believed the hearing of evidence will be concluded this week.

Wilfred M. Barton, the sanity expert, was called by the defense, and a long hypothetical question put to him, after his examination by the prosecution as to ascertain phases of insanity.

During the reading Mrs. Bradley closed her eyes and bowed her head, breathing heavily at times, as if suffering from deep emotion. She preceptably grew more pale and as the reading of the question referred to her close relation with Brown and his declaration of love, she raised her handkerchief to her eyes.

Many jurors observed her closely but she appeared oblivious to everything around her.

The hypothetical question was still being read when at 12:30 o'clock the luncheon recess was taken.

Mrs. Bradley's Health Tried.

The ordeal was evidently very trying to Mrs. Bradley. When Judge Powers read that the prisoner's health had been falling since 1900, the court recessed for the government objected. After the testimony of Mrs. Bradley confirming that statement was read, the judge permitted the language to stand.

Several jurors were permitted to leave the room temporarily and for the first time since the trial began, persons were allowed to go out before recess was declared. When court reconvened this afternoon Dr. Barton again took the stand and the reading of the hypothetical question was resumed.

Defendant Has Puerperal Insanity.

The reading of the hypothetical question in the Bradley case was concluded at two o'clock this afternoon. Dr. Barton declared after hearing it, that Mrs. Bradley was insane at the time she committed the act. Her particular ailment he said was puerperal insanity.

HALF MILLION POUNDS OF TOBACCO IMPORTED

New York, Nov. 25.—In testifying here before John Shields, United States commissioner, in the suit of the United States against the American Tobacco company, the trust, William H. Harris, chairman of the board of directors, showed how the American and English tariffs had operated almost to destroy the trade in tobacco between the countries. Mr. Harris said that previous to 1902 the importation of British tobacco to the United States amounted to about 1 1/2 million pounds. The tariff and the internal revenue tax were prohibitory, he said.

William B. Hornblower, counsel for the Imperial, brought out by this witness that in 1898 the importation by the American Tobacco company of manufactured products amounted to one half million pounds, but in 1901 it had dropped to 275,000 pounds. This was due, witness said, to the differentials imposed by the British government.

BERNALILLO COUNTY DISTRICT COURT

Charging that her husband, William Collier, fireman in the Albuquerque fire department, failed to provide for her and treated her cruelly and inhumanely, forcing her to live with his parents, Mrs. Minnie Bell Collier today brought suit for divorce in the Bernalillo county district court.

In her complaint Mrs. Collier says that the Collier family numbered four, father and mother and two children, and that herself and husband increased the number to six, all living in a four room house. Her husband failing to provide for her she says she went to work.

Mrs. Collier says she left her husband March 26, 1907, going to the home of her parents in Hesperia, N. M.

The demurrer of C. F. Brown and wife in the case of A. A. Henry against C. F. Brown and wife, was heard in the district court this afternoon. Henry asks for an injunction against Brown and wife to prevent them operating a clothes cleaning establishment within three miles of his cleaning place as he says they agreed not to when he bought their business.

Motion to amend reply in the case of Frank Derrick against Adolphus Didier, a suit for damages as a result of a reprieve, was heard by Judge Abbott this morning.

FATAL MOTOR CYCLE COLLISION IN LONDON

London, Nov. 25.—General Sir Edward Colville died last night as a result of an injury received in a collision yesterday between a motor cycle he was riding and an automobile driven by his friend, General Sir G. Henry Seymour Hamilton. Colville was born in 1852.

SECRETARY TAFT HAS NARROW ESCAPE IN SIBERIA

Krasnoyarsk, Siberia, Nov. 23.—It was learned today that the train in which Secretary Taft and party were traveling to Moscow had a narrow escape from being wrecked yesterday at Chita, the switch in front of Taft's train became open but was discovered just a minute before the train came along. Had the train taken the switch it would have collided with a long string of freight cars.

RAILROAD DEPARTMENT

CALIFORNIANS DIDN'T LIKE SERVICE

Governor Pardee Very Much Provoked Over the Sleeping Cars.

With warm words of praise for the Santa Fe for the treatment he and his party had received at the hands of the road's employees while coming from Oakland to Albuquerque, Governor Pardee lost his temper last night when he discovered that orders had been sent here to give his party a second class Pullman car from this city to El Paso.

The party was composed of the most distinguished statesmen of California and there were several ladies in the party, beside the family of ex-Governor Pardee. They were not used to riding in second class cars and when they were transferred from the finished Pullmans of the Chicago limited, they were very much incensed. Several of them vowed vengeance and said things that may make some people sit up and take

notice before the alleged abuse has been forgotten.

ANOTHER MOVEUP ON THE ROCK ISLAND. Goodland, Kan., Nov. 25.—Chief Dispatcher M. L. Ellis has been promoted to assistant trainmaster with headquarters at Limon, W. C. Cavanaugh, of Fairbury, Neb., takes Mr. Ellis' place as chief dispatcher.

G. L. Rowe, night chief, goes to Eldon, Mo., as chief dispatcher, and W. A. Inwood takes his place here as assistant chief dispatcher.

These promotions are strictly on merit, and the gentlemen who have "gone up higher" deserve the reward of faithful, efficient and conscientious labor.

SANTA FE ENGINEER KILLS FLORIDA GIRL. Tuesday afternoon at 4:45 o'clock, at the residence of Mr. and Mrs. James Rush, 100 South Fifth street, there occurred a quiet wedding which was a surprise to most of the friends of the contracting parties.

Miss Estelle Mayson, of Pensacola, Fla., and Wm. J. McKee, a popular engineer of the Santa Fe, running south out of El Paso, were the contracting parties who were made one by the ceremony pronounced by Rev. J. A. Cutler, pastor of the First Baptist church. Relatives and a few of their most intimate friends were present.

EMPLOYEES MUST "OUT OF THE BOOZE." Ottawa, Kan., Nov. 25.—Santa Fe Yard Master Boone Gray has addressed a circular under personal cover to each employee in the yards, advising them in plain terms that all employees will be expected to "out of the booze" in future, under pain of dismissal.

"The circular means exactly what it says," said Mr. Gray to the reporter, "and no booze fighter can expect to continue on his job here."

ACCIDENTALLY KILLED WHILE OUT HUNTING. Winslow, Ariz., Nov. 25.—Steve Sander, an Austrian employed at the Sells house, while out hunting Sunday on the river seven miles north of here in company with Joe Hesse, accidentally discharged a shot gun, the charge entering above the heart, killing himself almost instantly. A coroner's jury rendered a verdict of accidental death. The deceased leaves a wife to mourn his death.

Mrs. C. A. Tillotson for some time past operator at Crookton, has been transferred to the Williams office, Mrs. C. C. Sande, recently at Pineveta, going to Crookton, and G. W. Williams, from Ask Fork, taking the place at Pineveta.

Barley, Bread and Beer

These three words are derived from the same Anglo Saxon root—*broowan*.

All three are foods. Barley, a grain that makes both bread and beer. Bread, a solid food. Beer, a liquid food.

In making bread, flour and yeast are used; in making beer, barley-malt, hops and yeast are used. The same principle is in each—both are wholesome foods.

In Pabst Blue Ribbon Beer the Pabst Eight-Day Malting Process matures the malt slowly and uniformly, thus transforming every particle of nutriment in the barley into perfect food substances.

To these are added the invigorating properties of the choicest hops, by the Pabst brewing process, which insures absolute purity.

Your system requires a liquid. Why not use one that is both food and drink—

Pabst Blue Ribbon

The Beer of Quality

The special value of Pabst Blue Ribbon at meals is that it encourages the fluids of the stomach to render action—thus aiding you to get the fullest nourishment from your food.

You can prove the value of Pabst Blue Ribbon as a food, by ordering a case today for home use.

NEW MACHINERY ARRIVES FOR SMELTER

Santa Fe Company Will Resume Work—Other Mining News.

Santa Fe, N. M., Nov. 22.—The Santa Fe Gold and Copper company will shortly resume operations at its smelter at San Pedro, which was shut down several weeks ago, following the slump in the price of copper. A carload of new machinery has been unloaded for the mine and it will be installed before the smelter resumes. It is reported that the company will shortly open a coal mine located six miles west of the smelter on the Santa Fe Central from which it will secure coal for running the smelter.

Work Resumed.—Douglas, Ariz., Nov. 22.—President John G. Alexander, of the Nacozari Consolidated, reports that work has been resumed on that property in four different places. Two persons have leases on part of the property and development work is being prosecuted actively.

Good Strike Made.—Solomonville, Ariz., Nov. 22.—An important strike is reported in the Gila range made by Abraham Diaz and his associates. A five foot ledge was uncovered which shows high values in gold and copper and several assays give the same result.

Gypsum Deposits.—Santa Fe, N. M., Nov. 22.—The discovery of a large bed of gypsum is reported from Stanley, N. M., a new town on the Santa Fe Central, just south of Santa Fe. An expert has examined the deposit and reports it to be of fine quality and efforts are being made to form a company to work the deposits.

Hospital Closes.—Bisbee, Ariz., Nov. 22.—The hospital operated by the Shattuck & Denn-Arizona companies has closed following the shutdown of the mines upon which it depended for patients. All the patients were moved to other hospitals in the city and Dr. Broderick left for New Orleans. Dr. Williams will remain in Bisbee.

Mining at Three Rivers.—Three Rivers, N. M., Nov. 22.—The Three Rivers Mining company, whose mines are seven miles from this place, is making preparations for extensive and continuous development work at its mines. J. G. Barrett, superintendent, is now at the mines making arrangements for a permanent camp and a large force of men will be put to work as soon as the camp is ready for them.

Copper Mines to Resume.—Silver City, N. M., Nov. 22.—With the price of copper hanging around the 14-cent mark it is understood that several of the big lenders, who were operating at Santa Rita, and who discontinued when the drop in this metal came, will resume operations. Head & Worthen, who for several years have been leasing the Cheno mine from the Santa Rita company, will at once put a force of miners at work on this property.

200 Men at Silver Bell.—Tucson, Ariz., Nov. 22.—A recent arrival in this city from Silver Bell camp states that there are about 200 men employed in the camp where usually there are 600. Most of the men laid off have left the camp although the families of many remain until they can obtain employment elsewhere. Work on the new concentrator is being rushed at a lively rate.

Ship Ore to New Smelter.—Silver City, N. M., Nov. 22.—E. A. Wayne, manager of the Copper Gulf Development company in the Burro mountains, has recently shipped two cars of ore to El Paso, where it will be treated in a new experimental smelter built by Dr. Oliver Dawson. It is stated that mining men and engineers will be invited to witness the trial run of the new smelter, which its inventor claims will revolutionize the smelting business. He will not operate his smelter for customs purposes but will manufacture the apparatus at El Paso and install it in the surrounding mining districts.

OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.

WEEK END NOTES AT THE UNIVERSITY

Athletics, Dramatics, Musical and Social Affairs. Inter-collegiate Debate.

Students of the University are looking forward to the Thanksgiving vacation next week very eagerly. School will close Wednesday and not reopen till the following Monday. Various plans are being made to celebrate the vacation.

Athletics.—Next Thursday morning the girls' basketball team will leave for Las Vegas, where the first game of the year will be played Thanksgiving night with the team of the Las Vegas Normal school. The team is composed of the Misses Edie, Franklin, Durling, Alice McMillin and Mae McMillin. They will be accompanied by Mr. Tascher, who will act as referee, and C. E. Hend, coach, and manager, and Mrs. J. H. Crum, chaperon. Saturday a game of foot ball was played on the Varsity grounds between the Albuquerque High school and the University Preparatory team.

Dramatics.—A committee has been appointed by the board of managers of the Dramatic club, to select a play to be given immediately after the Christmas holidays. The play has not yet been decided upon but it will probably be a society farce. A committee consisting of Messrs. Albright, K. Bryan and Keith Walker has also been appointed to select the annual play. There seems to be a strong sentiment among the students to break away from the classics in this year's annual play and this committee will endeavor to secure a strong modern play that the club members can present.

Glee Club.—At the regular assembly on Monday a glee club was organized. C. E. Head was made chairman of the membership committee and L. D. Sterling, chairman of the music committee. Mr. Tascher is temporary chairman of the club. Their first rehearsal was held Friday. Mrs. Wilson, the instructor in music is greatly delighted with the outlook for this club. The school has never had a strong musical organization and the glee club will fill a long felt want.

Social Affairs.—Friday night at the home of Rev. W. J. Marsh, the first year preps. gave a marshmallow toast. A goodly representation from the class was present. Several faculty members were also invited. A program consisting of stories, recitations and musical numbers was presented and various games enjoyed.

Next Wednesday evening a social dance will be given in Elks' hall by the student body of the school. **Intercollegiate Debate.**—Preliminary plans for a debate with the Agricultural College at Las Cruces have been completed by Prof. Crum. There has been considerable agitation on this line of intercollegiate relationship for the past year but nothing definite has ever been done till this time. The Varsity has some strong debaters who are anxious to try their mettle with other school, and a good debate will doubtless result. The event will not be pulled off before the last of February, however.

ARTESIA LODGE WILL BUILD HOME

Odd Fellows of That Thriving Place Will Erect Two Story Brick Structure.

Artesia, N. M., Nov. 25.—(Special)—The Independent Order of Odd Fellows of Artesia has incorporated and will build a hall on the corner of First and Main streets. The structure will be a two story building 25 by 100 feet. The lodge will use the second story for a lodge room and also rent it out to other orders. The lower room will be rented as a store building.

The Artesia fire department has elected officers for another year. C. R. Echols is chief, and Ernest King, secretary. H. E. Mull, the Artesian well supervisor for the county of Eddy, has issued notice to well owners that all wells must be capped and shut off when not in use for irrigating or stock purposes. The large number of new wells that are being brought in over the county may cause a diminishing of the pressure unless the water is conserved. While Artesia and vicinity, being in the lower artesian belt, will have water when the northern part of the valley will be pumping, should the water ever fall, yet it is to the interest of well owners to be careful about needless waste. Interest has again revived in the mineral fields east of the Pecos river near here. That copper in paying quantities is to be found in that region has been believed for some time. "STATEHOOD FOR NEW MEXICO"

We Must Co-Operate

A statehood meeting has been called by our acting governor upon request of Governor Curry to convene in Santa Fe November 30th, and select delegates to go to Washington and lobby for statehood for New Mexico.

The time is short; we should have had more notice but it is up to the people of New Mexico to co-operate as far as is in their power. Governor Curry is now en route home from Washington. He has seen the president and a whole bunch of United States congressmen and he undoubtedly knows that New Mexico has the best opportunity she ever had for speedy admission. All the knocking, all the doubting, all the lethargy that has prevailed more or less in the past should be laid on the shelf. It is up to the people of New Mexico to get together this time for never and work for statehood. There is no politics in the meeting at Santa Fe. It is non-partisan.

What the governor desires is that every one who can possibly get there, will meet with him on November 30th and work for statehood. The admission of this territory to the union is the one blessing we crave. Its the one thing to build a golden empire out of this territory, and do it in short order. The financial stringency isn't a circumstance to statehood. We can worry along with half a dozen stringencies at a time if we can only get statehood.

Bernalillo county is so near to the capital that it should lead all other delegations in size and prominence. We can all go to Santa Fe if we make a little sacrifice of time and trouble to do so. It is up to the people of this and every county in the territory to work with the governor for the common good and the first step is the selection of our most influential men to help bear the burden of the battle.

If you are a patriot, now is the time that New Mexico needs you. If you are not, then stay at home and join the "last to go to the front and the first to leave regiment." Its ranks are always in need of recruits—down this way.

Do your Christmas shopping early, and have a little mercy on the clerks who have to stand behind the counters almost day and night for the next month. In lots of ways our modern system is barbaric and the above is one way of advancing civilization. Lots of people are merciless who don't realize it and about the worst form of human depravity is the kind that takes a Christmas shopper to a story a day before Christmas and keeps a poor clerk showing goods until long after the hour most respectable people are in bed. Have a little charity as you go along and your Christmas gifts will be just as much appreciated.

And now the press reports say that the coachman who married Mrs. Burke-Röche, the Newport woman, has used her father and expects to lay bare all the secrets of Newport society. "In the event that we have to hear the Thaw trial and are not yet through with the Bradley case, this is nothing less than an outrage on the confiding public. The financial stringency is bad enough without Newport butting in.

The Emporia, Kansas, Gazette has a poet who can write verse just a little bit "bummer" than his prose. The Gazette ought to be barred from all homes until the poet has been executed and buried at least ten days. The exchange editor of The Citizen, who has a family, use to read the Gazette, but it is now promptly relegated to the waste basket and a brick placed on top of it until time to start the fire. Can condemnation be more severe?

There's many a man, who if he balanced the books of his life today, would find himself badly in the red. The financial stringency wouldn't have anything to do with it either. The Lord issues no warnings, when a heavenly account is overdrawn and generally the grim reaper drops around about that time. Moral: Balance up every day, so you will be ready to check in.

A member of the Oklahoma legislature says he will introduce a bill to validate the "unwritten law." He would give a husband the right to legally kill the man who ruined his home and the wife the same privilege towards another woman. Now all that is needed is for Massachusetts to dig up that beautiful system of burning witches at the stake. Back to the dark ages. We have the Sunday law.

Our morning neighbor can find out why "In God We Trust" was omitted from the new gold coins by reading the president's statement thereon, which was published in the papers of the country including The Citizen some three weeks ago. Come out of it!

There is a movement on foot to raise the battle-ship Maine, sunk in the harbor at Havana. As there are seventy-four bodies of sailors still in the hull, the ship should be raised in order that these men be given burial under the flag for which they died.

Mrs. Hetty Green is over 70 years old, but she is still hard at it, trying to rake up enough to tide her over her old age when it finally forces her to sit in the old split bottomed chair with the broken rocker and knit socks.

Just because a dog wags his tail is no sign that he won't bite, but we'd rather have that kind of a dog than the one that rolls over on his back, shuts his eyes and lets you kick him—in politics or business.

The dumb brute is entitled to a whole lot of consideration during the Christmas season. Get your orders in early and don't keep the delivery wagons running all night to all parts of the city.

An Illinois man drank four pints of whiskey and then died. He ought to. One pint is enough to make the average man beastly drunk, and what's the use of wasting four drinks on one occasion?

Thank the Lord Wall Street can't juggle with the weather, and so long as it rains, New Mexico can look Wall Street squarely in the face with the proverbial western greeting.

State prohibition is likely to be an issue in the next Missouri campaign. It beats anything how the white ribboners are getting down to work—or has it been the whisky?

The Kansas City Star says that the Kaw city is having fine weather. Oh, somebody send them just a little New Mexico ozone and watch them call it Heaven.

By all rights Cleveland ought to have the next democratic convention. Tom Johnson earned it. But maybe after all, Cleveland doesn't want it.

The statehood meeting at Santa Fe November 30th is one of patriotic duty over every other consideration. Bernalillo county must do her share.

A race war is said to have broken out in the navy. For goodness sake, stir up a fuss with some country and keep the navy busy.

Socorro county will send a big delegation to the statehood meeting at Santa Fe November 30th. So will Bernalillo county.

"Rev. Dr. Bigelow speaks," says the Washington Herald. Does he say anything?

Kansas women have organized a state cooking club. So many strange things in Kansas.

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico. Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined. If you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

"There is nothing makes business for a man like being able to deliver the goods," said P. B. Schwenker, the local insurance man today as he stopped to chat with a Citizen reporter. "It's the same in my business or any other. I don't care how profitable a man may be in his work or how hard he tries, he can't do a thing if what he sells isn't up to what he says it is." Then Mr. Schwenker, to prove a point drew a letter from his pocket, which he had just recently received and said, "Read that." The letter was from Simon Cohn, head of the Cohn Brothers Mercantile company at Raton, one of the largest establishments in that city. It said: "Dear Sir: Please accept my thanks for your promptness in settling my claim for two weeks' sickness. Check was handed to me by your agent, Mr. M. T. Tomlinson, today for \$50.00 in full. BRILLIANT SPEECHES MARK VISIT OF CALIFORNIANS

Senator Knowland Says That
He Will Support Single
Statehood.

Three brilliant speeches, all on subjects most vital to Albuquerque and the great southwest, marked the visit in the city last night of the California delegation to the National Harbors and Rivers Congress. The delegation was composed of several of the leading statesmen of California and prominent business men of Oakland, Cal., accompanied by George M. Maxwell, secretary of the National Irrigation Congress, who is a former resident of Oakland. There were several ladies in the party.

The party arrived on the Chicago limited, which reached the city about 6 o'clock in the evening, and was met at the station by several of Albuquerque prominent business men.

The reception committee was headed by Col. John Borradaile and Geo. Arnot. After a dinner at the Alvarado, the visitors were escorted to the commercial club.

Ex-Governor Pardee Spoke. George C. Pardee, former governor of California and considered the people's choice for another term, was the first speaker, and painted a picture of the southwest based upon facts and history that compared this now comparatively arid country with the vine clad hills of Italy and the powerful destinies of Greece and Rome of the historic ages.

Benefits Rio Grande Valley. George M. Maxwell, who was introduced as the man who knows more about the irrigation business than any other person in the United States, spoke for thirty minutes on the possibilities of irrigation in the Rio Grande valley and the purpose of the National Harbors and Rivers Congress and how this congress could benefit the southwest. Mr. Maxwell said that while it was generally conceded that the California delegation was going to the congress for the purpose of securing additional appropriations for the harbors of Oakland, they were on a still hunt for river improvement, not especially to make them navigable but to protect the lowlands along the rivers. To confine them to their channels and to improve the waterways generally. On the subject of irrigation, Mr. Maxwell said that if every drop of water in the Rio Grande from Colorado to the Texas line should be confined in reservoirs and used in irrigation, there would be more water below the Texas line than there is now. If it were confined in reservoirs, it would pass off through irrigation ditches and gradually distributed through the land until the soil would become so thoroughly

soaked that it would no longer be a question of irrigation below but a question of drainage. This had been found to be the case in California. He prophesied that some day not thirty years hence much of the commerce of the country would be done by canals.

Will Support Single Statehood. Congressman Knowland, of the third district of California, one of the men who pulled away from the republican organization at the last session of congress and supported the Foraker amendment to the joint statehood bill, which east New Mexico and Arizona statehood at the last election, was the third speaker. Though suffering from a gaping hole in his mouth from which Dr. Kraft, the dentist, extracted a troublesome molar shortly after the California arrived in the city, Mr. Knowland spoke for ten minutes at times, which are very interesting to the people of New Mexico just now because of the approaching session of congress and the possibility of the statehood question coming up again.

He said that though he could not speak for his California colleagues, he would promise his own support to New Mexico at the coming session should the question of single statehood arise. He was afraid, however, that the east would fight any more western states because of the growing power of the west against the east. The east is jealous of the west and its growing power in congress.

George Arnot spoke in response, and assured the Californians of the moral support of the Albuquerque at the Harbors and Rivers Congress and wished the visitors success individually.

Personal Friend of Gov. Curry. A prominent member of the party was Captain O. Girard, of Ogden, a personal friend of Governor Curry, of New Mexico. Captain Girard was a range rider in Arizona when the call for troops came and is the man who went to Washington and mobilized the rough riders there. Later he was a conspicuous figure on San Juan hill and still later had charge of the hospitals in the Philippine Islands. The captain is six feet five inches tall and carries a veritable proportion. He will represent 35,000 people at the Harbors and Rivers Congress.

Other Members of the Party. Other members of the party were Bernard P. Miller, president of the Bank of Oakland; M. J. Layman, capitalist and real estate dealer of Oakland; Dr. D. A. Proctor, representing the Wickham-Havens, Incorporated, owners of extensive water front properties at Oakland, and C. H. Brennan, secretary for the delegation. Mr. Brennan is a former San Francisco newspaper man. He was present at the killing of Tracy, the noted outlaw. His business now is to boost for Oakland. Since the earthquake that ruined San Francisco, Oakland has taken a position among the most prominent cities of the Pacific coast. It has made the phenomenal growth of 200,000 population the past year, which added to the 96,000 it possessed previous to the earthquake, gives it a population equal to the largest population Frisco ever claimed.

Four hotels larger than any hotel west of Chicago are under construction there now. The new hotel is being built at a cost of \$2,300,000. Oakland was the only city in the state of California able financially to send a delegation to the National Harbors and Rivers Congress. Every member of the party was paying his own expenses. On finishing their cigars, the visitors, escorted by members of the reception committee, returned to the hotel and were shown through the Alvarado curio rooms. The party left last night for El Paso. From the Pass City they go to Austin and Galveston, Texas. At the latter place they will inspect deep harbor work being done there by the government. From Galveston they go to New Orleans and from New Orleans to Atlanta, Ga. They expect to reach Washington, D. C., the second Monday in December, the day of the opening of the United States Congress as well as the Harbors and Rivers Congress.

A telegram reached the city this morning announcing the death of the little daughter of Mr. and Mrs. J. M. Luna, of Los Lunas. The funeral will take place Tuesday morning at 10 o'clock. Mr. Luna is probate clerk of Valencia county.

Christmas Suggestions

NOTHING is so appropriate for a Christmas gift as jewelry. Emerson says the ideal gift is one in which the intrinsic value of the article is lost in the kindly feeling that prompted the giver. Jewelry is a luxury. It is enduring. It affords opportunity for a finer exhibit of taste than almost anything else. During the year we have accumulated a fine lot of jewelry. Diamonds in all sizes, prices and settings, rings, studs, brooches, bracelets, cuff buttons, scarf pins, fobs, watches, chains, necklaces, cut glass, emblems and everything else that properly belongs to the jewelry business. Owing to the manner in which we obtain our goods, we CAN SELL FOR LESS THAN WHAT OUR COMPETITORS BUY. Come early and inspect our stock. Select what you wish, and we will lay it aside until Christmas. UNION MEETING MAY BRING ABOUT MUCH NEEDED SCHOOL

Ministers Condemn Practices
of Child Labor Institutions.

Interest in the movement for the establishment of a juvenile court in Albuquerque and a territorial industrial school for the training of incorrigible boys and girls was so thoroughly aroused yesterday at the union meeting of all churches at the Elks' theatre under the auspices of the Children's Home Society of New Mexico, that it is probable an organized effort for the founding of the institution will result.

The Elks' theatre was crowded to the doors and the audience enthusiastically applauded the speakers who mentioned the dangers that beset the children in the city and urged the founding of a juvenile court and the training school for the "bad" boys and the "bad" girls.

Dr. Charles E. Lukens, secretary of the Children's Home Society of New Mexico, Rev. J. A. Shaw, pastor of the First Baptist church, Rev. Hugh A. Cooper, pastor of the First Presbyterian church, and Rev. Fletcher Cooke, rector of St. John's Episcopal church, were the speakers of the day.

Nathan Jaffe, territorial secretary and acting governor, vice president of the Children's Home Society, was unable to attend the union meeting and telegraphed his regrets.

"I would like to know where you will find a town with better facilities for damping the boys," said Rev. Cooke in the course of his address, referring to Albuquerque. "You know it—every one of you—as well as I. It is like a swamp where the deadly miasma floats. I want to condemn the practice of telegraph and express companies in sending messenger boys into saloons and places of ill repute where they may be ruined for life, and I want to urge the creation of a probation officer to look after delinquent children. Where the parent is delinquent, something ought to be done with the parent."

"If you say of the child, 'Let him go to the devil,' he will surely go," said Rev. Cooke. "The boy needs cultivation and the protection of the home."

"The home is the protection and the school the instruction where the whole life is moulded by the parents," said Rev. Shaw. "Every father and every mother should rightly regard their own particular boy or girl as the best in the world. No home can be ideal aside from that in which the father and mother believe firmly in God."

The Society in New Mexico now has twenty-five more homes than it can find children for," said Dr. Lukens, "some of the applicants being people worth as much as \$100,000. The great aim of the Society is to put a homeless child in every childless home."

THREATENED TO KILL THE WOMAN HE LOVED

Mail Clerk Dunnigan in Jail
on a Serious
Charge.

Threatening death to Miss Annie C. Monly, of 628 South Arno street, if she did not consent to marry him, Morris J. Dunnigan, a railway mail clerk, living at 208 South High street was arrested yesterday morning by Officer Knapp while forcing his attentions on the young woman and was placed in the city jail in default of securing a bond of \$500 to keep the peace.

Calling at the home of Mrs. Nash, where Miss Monly lived, earlier in the day Dunnigan was told by Mrs. Nash that Miss Monly was not at home whereupon Dunnigan is said to have called Mrs. Nash a liar. He loitered about the place for some time. Miss Monly finally came out to a side gate and tried to pacify the man.

She asked him to go away saying she wanted to make a call that morning. "You will never see me," or anyone else if you don't marry me," Dunnigan is said by the police to have answered.

Miss Monly returned to the house, Dunnigan following. He is said to have pressed his suit more ardently in the house and to have made threats more dire if she didn't promise to marry him. Neighbors, who heard some of his threats, telephoned to the police that "a man was going to kill a woman on South Arno street."

Had No Gun. Chief McMillin sent Officer Knapp to South Arno to see what was wrong. When Knapp entered the Nash premises Dunnigan was repeating his threats, his right hand resting menacingly on his hip. Once in his custody Knapp searched him, but found no weapons.

peace was wanted and was placed in jail in default of \$500 bond. He will be arraigned before Police Judge Craig this afternoon at 3 o'clock.

Dunnigan's infatuation for Miss Monly is said to date back to boyhood. Miss Monly came here several years ago from her home in the northwest. Dunnigan, whose home was in the same town, followed. He seemed greatly attached to Miss Monly and it is said the two were engaged to be married three years ago. Whether this is the case or not could not be ascertained.

Were Formerly Engaged. It is said the engagement was later broken by Miss Monly, whereupon Dunnigan became more ardent and persistent in his unwelcome attentions, growing despondent and desisted the while. Miss Monly, it is said, implored Dunnigan to desist in his attentions, but he refused.

The matter came to the ears of the police, however, and officers say they had been quietly keeping Dunnigan under surveillance for some time past. Saturday they learned of repeated threats made upon the life of Miss Monly and also heard the contemplated carrying them out that night as the young woman returned from a down town dry goods store where she is employed. Lieut. Kennedy and Officer Habbitt watched the store during the evening and saw Dunnigan pass several times, but Miss Monly remained at home.

Miss Monly is an accomplished musician, unassuming, modest and of a pleasing disposition. She is held in high esteem by all who know her. She is intending to go to Germany next summer to complete her musical education.

Dunnigan is believed to be mentally unbalanced. He will probably be cared for by friends.

**FACTS**

About the Great Majestic Range

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickled Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the Majestic.

As for baking, it is perfection, not only for a few months, but for all times to come.

A Great Majestic Range lasts three times as long as a cheap range, but it don't cost three times as much.

PROOF—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic ranges are made, will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

NEW STATE HAS
SENSATIONAL
HITCH

Her Appointees May Not be
Recognized by U. S.
Senate.

Washington, D. C., Nov. 25.—Senator Owen and Senator Gore of Oklahoma may not be received by the senate when the sixtieth congress convenes, December 2. Senator Burrows, chairman of the committee on privileges and elections, holds that the appointment of Governor Haskell is invalid. The constitution provides that the senate shall be elected by the legislature.

The senate has never recognized appointments by governors where state legislatures have had an opportunity to elect and have failed to do so. In the case of Oklahoma it is contended there was no senatorial vacancy to fill. There is only provision regarding vacancies and that reads:

"And if vacancies happen by resignation or otherwise during the recess of legislature of any state, the executive thereof may make temporary appointments until the next meeting of legislature which shall then fill such vacancy."

How Burrows Sees It.
In the case of Oklahoma there has been no legislative recess because the legislature has never been in session. The constitution, in the opinion of Senator Burrows, never contemplated the selection of senators by governors and the senate itself has a consistent record of having turned down applications for admission to that body in every case where the legislature has had an opportunity to elect and has failed to do so and the governor has made the appointments.

Their Contentions.

The contention of the advocates for admission of Senator Gore and Senator Owen will be that the expression "or otherwise" is enumerating the manner in which vacancies may occur meets the Oklahoma situation. The senators will be elected in Oklahoma December 10. All preparation had been made by Owen and Gore to take the oath of office under a governor's commission with the convening of the congress in December.

He Has Pronounced Views, Too.
The first intimation that objection would be made to the admission of the Oklahoma senators under appointment by Governor Haskell came last night. It had been accepted here that no objection would be made to seating them and it is, of course, possible that the senate will vote to take them in.

Mr. Gore.

"I have some very pronounced views on the subject," said the chairman of the committee. "But until the committee has the credentials given Messrs. Owen and Gore before it and has acted, it would be eminently improper for me to express my views."

Other members of the committee are equally reticent. The possibilities under the Oklahoma condition, it is said, are pregnant with trouble. Suppose, it is pointed out, that the senate should receive the appointees of the governor of a new state before the legislature had an opportunity to elect and when the legislature met it should fail to elect. The state still would have representation despite the long line of precedents against such senate recognition.

When You Have a Bad Cold

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements, and for the speedy and permanent cure of bad colds stands without a peer.

A Severe Cold Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used."

TWO THOUSAND MILE BOOKS ON SALE

Not Much Benefit to Southwest However. Because of Limitations.

The various railroads in the Western Passenger association have issued circulars copies of which have been received, announcing the sale of interchangeable mileage books good for a distance of two thousand miles, which will be sold at a rate of forty dollars, a rate equivalent to a flat two cent fare rate. These mileage books, however, are good only east of the Missouri river. The books will be honored in anyone's hands as no signature will be required. However, they will be honored for only one fare or the passage of one person only. The coupons will be detached according to the established mileage except in the following cases:

No detachment will be made less than a minimum of two coupons; special detachments will apply for travel in upper Michigan or in South Dakota east of the Missouri river or on the Wisconsin and Michigan road in Wisconsin the equivalent of one and one-half miles will be detached for each mile traveled; for travel in North Dakota the equivalent of one and one-fourth miles will be detached for each mile traveled.

These books will be good in approximately all the territory represented by the roads in the Western Passenger association, bounded on the west by Kansas City and Omaha, on the north by St. Paul on the east by Chicago and on the south by the Ohio river. They will be good on the following Kansas roads: Santa Fe—On and east of the Missouri river and on the Missouri and Kansas City, Leavenworth, Atchison and St. Joseph; Rock Island—On and east of the Missouri river; Burlington—On and east of the Missouri river; St. Joseph & Grand Island—Between stations from Kansas City to Hiawatha inclusive. The two thousand mileage books will be effective after December 15 and will be good until one year from date of sale.

A Reliable Remedy for Croup. With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for croupy symptoms. There is no cause for anxiety, however, when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as child becomes hoarse or even after the croupy cough has appeared, the attack may be warded off. Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists.

EDWARD T. MARTIN SUCCEUMBS TO INJURIES

Prayed for Death and the Grim Reaper Came to His Relief.

The premature explosion of a charge of giant powder on the Helen cut-off near Mountainair Saturday afternoon blew both hands and a leg off Edward T. Martin, a railroad contractor, and destroyed both eyes, injuring him mortally; death resulting at the St. Joseph hospital early yesterday morning.

A. G. Trice, Martin's assistant, received a torn face, hands and limbs from small rocks hurled about by the terrific explosion and is slowly recovering from his injuries at the St. Joseph hospital.

Martin was tamping down a blast of giant powder and Trice, helping him when the charge suddenly exploded. Nearby trainmen rushed to the assistance of the injured man, a special train was made up with Conductor W. D. Reed in charge, and the men were rushed to this city.

At Becker the special met another special with Dr. W. D. Radcliffe, Santa Fe surgeon, and Dr. Dempsey on board. The victims of the explosion reached the St. Joseph hospital three hours and fifteen minutes after the accident, having traveled eighty miles.

"Oh, God let me die," Martin moaned over and over again. He was a terrible sight. Cavities where his eyes once were, both hands off above the wrist and one leg gone above the knee. There was no chance for his recovery and he died with his bride of three weeks at his side twelve hours after the explosion.

The remains of Martin were taken to Mountainair last night, where the funeral will take place. Mrs. Martin, who accompanied the body of her husband is almost prostrated with grief.
