NATIONAL DEMOCRATIC CONVENTION MAY BE HELD IN DENVER

Western City Seems Favorite of Committee, Which Will Meet at Washington December 12.

BRYAN IS THE MOST LIKELY CANDIDATE

If Roosevelt Is Not the Republicans' Choice, It Is Conceded That President Will Name the Man—New York Delegates Are Antagonistic.

New York, Dec. 2.—Out of seventy-six democratic senators and representatives in a vote polled by the New York World, forty-four have declared unequivocally that the recent statement of William J. Bryan eliminates all other candidates for the democratic nomination for president. The democratic national committee will assemble in Washington on December 12th, to determine the time and place for the national convention to meet and select candidates for the presidency and vice presidency. Thus far Denver appears to be the choice of the committee, although Kansas City, Chicago and Louisville are making strong bids for the convention. Which ever city is successful, it seems to be practically a foregone conclusion that William Jennings Bryan will be the nominee, as while several other names are being mentioned, none of the other aspirants appear to have anything like the strong claims to the position that are being advanced by the friends of the Nebraskan. A number of national committee members, heretofore opposed to Bryan, have become reconciled to him, and are confident that if he will forget his recent utterances concerning government ownership and make the tariff the issue, his chance for winning over any one put up by the republican party are excellent. In fact, it is felt that there never was a finer opening for the democratic party at the approach of a presidential election year than this.

Why Republicans Have Won

The republican party has won again and again because the business interests of the country felt more confidence in it than they did in the democratic party. Now, the business men are in great measure out of sympathy with the present administration, and even if Mr. Roosevelt be not re-nominated, the republican party will in all probability be named by him, which is regarded as the same thing. Democratic national committee members representing practically the entire middle west and part of the east at a recent meeting went over the whole political situation and concluded that the only issue on which they could meet the republican party is the tariff. Therefore it looks very much now as if it will be Bryan and the tariff for the democratic presidential campaign of 1908. Attention is being paid to such booms as that started in the interest of Judge George Gray of Delaware, particularly as the states are gradually coming into line for Bryan, the latest addition to the ranks being Iowa, which has already pledged itself to his candidacy.

President Puzzles Them

The contest for the republican presidential nomination, at least insofar as New York state is concerned, appears to be narrowing down to Governor Hughes and Secretary of the Treasury Cortelyou, both of whom have very strong followings. The attitude of President Roosevelt is regarded, even by some of his closest political friends, as decidedly puzzling; nevertheless his recent order federal office holders to work for his renomination or to accept election as Roosevelt delegates to the republican national convention, has been counted upon to bring about the selection of the secretary. With these two candidates growing stronger every day, the fight in this state promises to be a pretty one, and the outcome is awaited with great interest as probably foreshadowing the result when the republican national convention meets.

PROFESSOR HALL HAN WILL NOT HANG

Karlusuz, Dec. 2.—The death sentence which was passed upon Karl Hau, formerly a professor at the University of Washington, for the murder of his mother-in-law, Frau Molitor, has been commuted to life imprisonment.

SAN FRANCISCO'S WISEST CHINAMAN DIES

San Francisco, Dec. 2.—Three thousand Chinese residents of San Francisco yesterday attended the funeral of How Kong, late president of the Young Wo association. He was 75 years old and said to be the most highly educated Chinaman in America.

ALBUQUERQUE CITIZEN

"WE GET THE NEWS FIRST"

ALBUQUERQUE, NEW MEXICO, MONDAY EVENING, DECEMBER 2, 1907.

CROWDING

WANTED TO LIVE TO FIND NEW MEXICO MINE

John North, Scion of English Lord, Is Dying in Denver—Life Failure.

Denver, Colo., Dec. 2.—A "younger son" of an English nobleman, who was discovered yesterday in a county hospital when John North, an aged miner, was brought there to spend what seemed to be the days of his last sickness. North told his life history, now that hope of prolonging life has left him. "I am a younger son of an English nobility. My father was a peer, my brother is one now. I guess Forty years ago I quarreled with them and left the country. Never since then have I written to them or to anyone of the throng that were my friends. I came to America in steerage, at first took the humblest work and later came to Colorado and the west to win fortune in mining. I have had several times, and could now be a rich man if I had held what I made. But I was speculative. Like the rest of my brother miners. And now I am dying a pauper. But I do not regret it. I had my share of the world, and perhaps I had been a better man than if I had lived the uneventful life of the younger son. I have only one regret, and that is that a few months could not have been spared me to find a mine of which I have been told in New Mexico."

SOLICITOR GENERAL CAN NOT VISIT HERE

Santa Fe, Dec. 2.—(Special).—Henry M. Hoyt, solicitor general in the department of justice at Washington, D. C., has received an official call to return to Washington and his duties there. As a result he will be forced to cancel all engagements previously made for a tour of New Mexico. He will leave tonight for Las Vegas, where he will spend several days in consultation with David J. Leahy, the new United States district attorney. The solicitor general today said: "I regret very much that my duties in Washington are so pressing that I am forced to cancel all engagements I have made for a tour of New Mexico and especially a visit to Albuquerque which I understand is a fast growing city. I wanted very much to meet all the New Mexicans I possibly could but I can not spend as much time in this territory as I at first anticipated. However, I hope at a later date, I may be able to again visit this territory and become better acquainted with it and its people."

RUSSIANS EXECUTE GIRL 17 YEARS OLD

Victoria, B. C., Dec. 2.—The British steamer, Port Maitre, which arrived at Nagasaki shortly before the Mont Eagle sailed with fugitives from Vladivostok, reported that severe fighting was in progress when she left and that 250 men had been killed or wounded. December 1, czar's birthday, had been fixed for an outbreak, which the revolutionaries expected to make at Port Maria. Hundreds of arrests had been made and had been followed quickly by executions. A girl 17 years old was among those shot.

MISSION MATRON IS ASSASSINATED AT VELARDE

Miss Templeton's Body Found—Rio Arriba Native Held on Serious Charge.

HOME IN EAST; DETAILS NOT KNOWN

Santa Fe, N. M., Dec. 2.—(Special).—Miss Templeton, matron in charge of the Baptist mission school at Velarde, Rio Arriba county, a small town seven miles from the Denver & Rio Grande railroad, was found murdered, according to a telegram received by John R. McFie, judge of the First Judicial district here today. Judge McFie, R. C. Gortner, district attorney, and Captain Fred Fornoff, of the mounted police, left here today for the scene of the crime. A later report says that David Martinez y Sanchez, a young man in the neighborhood has been arrested charged with the crime. He denies any knowledge of it. Another missionary, a young woman, was murdered in the same county a few years ago and her slayer was never apprehended. It is not known whether Miss Templeton here, she seldom came here and led a very secluded life, spending her time at the mission. It is probable that Sanchez will be brought here for safe keeping.

OKLAHOMA'S STATE LEGISLATURE MEETS

Republicans Are in Hopeless Minority—Will Be Introduced to Disfranchise Negro Voters.

Guthrie, Okla., Dec. 2.—Oklahoma's state legislature convened here today. The entire day was taken up with the organizing. Practically all the members are present. The republicans are such a hopeless minority in both houses that even in joint sessions they would be too weak to exert influence in legislative affairs. The legislators came with their pockets full of bills on every subject of legislation, many of them experimental. They will have publicity of introduction and will then go to the committees, few to appear. There is less liveliness in the preliminary organization than was ever seen at the beginning of an Oklahoma territorial legislature. This is due to the fact that the legislative officers were agreed upon weeks ago to be of disadvantage to the democratic party. The democrats are worried by the fact that any educational or property qualification that might disqualify a negro voter would apply with equal force to a large number of the Indian citizens in the eastern part of the state who are friendly to the democratic party. ELEVEN MINERS PERISH IN CALIFORNIA GOLD MINE

Jammed Cage Made Impossible Escape When Yet There Was Time.

DRYTOWN, CALIF., DEC. 2.—

With smoke still pouring from the shafts of the Glover-Fremont mine, hope for the eleven miners entombed Saturday, was virtually abandoned last night. It is expected that all of them have perished behind the wall of flame, which drove them toward the heart of the subterranean furnace, when they first tried escape. The miners were working below the 1,100-foot level. The employees, as usual, were hoisted from the underground works at noon. At 1 o'clock the first skip containing 15 men was lowered in the Fremont shaft. Reaching the 1,000-foot level, volumes of smoke were encountered, showing that the mine was on fire. The skip became jammed at this point and could neither be hoisted nor lowered. It is supposed to have been thrown off the track by one of the men being overcome by smoke and falling against the front wheels of the skip. Two of the men aboard got out and climbed to the surface by means of the ladder. The other 11 were in the mine at last accounts. It is believed that all have perished. Great volumes of smoke have been rising from the shaft ever since. An attempt was made to reach the imprisoned men through the Glover shaft, several hundred feet distant from the Fremont. It is a part of the Fremont Consolidated mine and the two shafts are connected at the 700-foot level, but could go no farther on account of the smoke. Four of the imprisoned men are Americans, four Italians and three Austrians. No hope is entertained that any are now alive. Steps are being taken to close up the mine, making it air tight, and extinguish the flames in that way. At 10 o'clock today the fire was not burning so fiercely and some hope was entertained that the entombed miners may have got into a long drift away from the shaft and fire, and will yet be rescued. Manager Goodall, with a large force of miners on each level from the Glover side, are making every effort to stop the fire and get the entombed miners out.

HOPE OF RESCUING FIFTY MINERS WANING

Pittsburg, Pa., Dec. 2.—The number entombed in Naomi mine of the United Coal company near Monaca, Pa., as a result of the explosion last night, is now said to be fifty. The hope that they would be rescued alive is gradually dwindling away. This afternoon the large force of rescuers only succeeded in reaching the 15th entry and no sign of life was found. There are thirty-seven entries and the men were working far back in the mine, when the explosion occurred. The work of rescue is proceeding very slowly on account of the poisonous gas, which pervades the mine.

SIXTIETH U. S. CONGRESS OPENED THIS MORNING

Opening Session Is Attended by Brilliant Assemblage—Deceased Senators Remembered.

UNCLE JOE CANNON IS ELECTED SPEAKER

Lower House Organizes and Appoints Committee to Notify President That It Is Ready to Receive Any Communication He May See Fit to Send.

Washington, D. C., Dec. 2.—A brilliant assemblage attended the opening of the sixtieth congress today. The senate adjourned immediately after convening, out of respect to the memory of Senators Pettus and Morgan of Alabama, who died during the recess. The act precluded the presentation of the president's message. With the completion of the organization of the house, swearing in of the members, the drawing of seats and the appointment of a committee to notify the president that the house was ready to receive any communication that he may see fit to send, adjournment was taken until tomorrow.

Cannon Elected Speaker

The senate convened promptly at noon, with Fairbanks in the chair. The vice president ordered the roll of senators elect to be alphabetically arranged and they were sworn in by fours, except Bankhead and Johnson from Alabama, who will not be seated until after the death of Morgan and Pettus are announced. The house also met promptly at noon. The roll call showed 365 members present. Hepburn, of Iowa, nominated Joseph G. Cannon for speaker and Clayton nominated John Sharp Williams. Cannon was elected.

SECOND THAW TRIAL SET FOR JANUARY 2

New York, Dec. 2.—The second trial of Harry K. Thaw, on the charge of killing Stanford White, was today postponed until Jan. 6, next. The court ordered the sheriff to pay \$500 bail money to be summoned for the selection of a jury.

POPULIST CONVENTION CALLED FOR APRIL 2

Joliet, Ill., Dec. 2.—James H. Ferrier, chairman of the populist national committee, issued a call today for the populist national convention to be held in St. Louis, April 2, 1908, for the purpose of nominating a candidate for president and vice president of the United States.

KILLING OF WALKER WILL BE AVENGED

Secret Service Officers Have Unearthed Conspiracy Which Will Include Prominent Coloradans.

Denver, Colo., Dec. 2.—The United States secret service officers have unearthed details of the conspiracy that they charge was responsible for the murder of Joseph A. Walker, special agent of the department of justice, near Hesperus, in the southwestern part of this state. Forty persons have been subpoenaed to appear before the federal grand jury, which meets in Denver December 11th. This grand jury is expected to indict George Vanderveide and Wm. R. Mison as the principals and at least eight others, several of them very prominent in the southern part of the state, as accessories. It is alleged that the federal authorities have witnesses, who state that four other men with rifles were on the hill when the shooting occurred. It is said that a number of persons prominent in the Durango district who are already under indictment for land frauds or who fear they will be indicted by the federal grand jury, will be forced to defend themselves against the charge of having prompted the killing of the federal officer. It is also alleged that the men involved in the actual shooting are mere dupes of certain wealthy and influential citizens, who feared that Walker had evidence against them in connection with land frauds.

SON SAVES MOTHER BY SHOOTING FATHER

Golden, Colo., Dec. 2.—In order to save the life of his mother and little sister, Albert H. Kuehnle, aged 23, shot and instantly killed his father, Fritz Kuehnle, in east Golden this morning. The elder man had been a terror to the family and the neighborhood for years as he had threatened to kill some one whenever intoxicated. This morning he seized his wife by the throat and drawing his pistol, attempted to shoot her. The son in a terrible struggle, managed to turn the weapon on his father, and while it was still in the father's hand, the son pulled the trigger.

WEATHER FORECAST

Denver, Colo., Dec. 2.—Fair tonight and Tuesday.

NUMBER 289

MRS. BRADLEY APPEARS WORN AND PALER THAN USUAL

Attorneys for Defense Talk All Morning—Judge Powers Says Brown Dominated the Woman.

SENATOR BEGGED HER TO BE TRUE TO HIM

Speaker in Burst of Eloquence Argued That Their "Without Sin Among You Cst First Stone." State Objects—Sustained by Court.

Washington, D. C., Dec. 2.—George A. Hoover began today, upon the opening of court in the trial of Mrs. Annie M. Bradley for murder of former Senator Arthur Brown, of Utah, his argument for the defense, and was followed immediately by Judge Powers, also for the defense. District Attorney Baker will conclude for the government this afternoon and the case will go to the jury probably by 4 o'clock. The defendant as she came into court today wore a look of anxiety and was some paler than usual. Hoover argued that it was Brown, who imported the illegal relations between Brown and Mrs. Bradley and that her story of the tragedy was corroborated by the evidence. Furthermore that there was ample evidence that she was insane at the time she shot him. Hoover was followed by Judge Powers, who finished at 12:15 o'clock when a recess was taken. Judge Powers argued that Brown dominated Mrs. Bradley. That she sought to leave him and he pleaded and begged her to remain and be true to him. When in a burst of eloquence, he urged that their "Without sin among you cast the first stone." District Attorney Baker objected on the ground of improper argument. The court would not sustain the argument.

THREE KILLED IN BALTIMORE WRECK

Baltimore, Md., Dec. 2.—In a wreck on the Baltimore & Ohio railroad at Shennadoah Junction this morning, three persons were killed and a dozen more were injured, none fatally, however. The dead are as follows: W. F. L. HOFFMAN, NELLIE HOFFMAN, AN UNIDENTIFIED WHITE MEN. The accident occurred to the east-bound St. Louis and New York express which was "side-swiped" by a derailed car of a freight train that was run into by another freight just as the express was passing at a high rate of speed. The day coach was thrown from the track and overturned.

WOUNDED EDITOR DIES FROM BULLET

Kansas City, Mo., Dec. 2.—H. J. Groves, managing editor of the Kansas City Post, who was wounded November 23rd by General Richard H. Hays in the editorial room of that paper, died here this morning. He was 55 years of age. The condition of O. D. Woodward, president of the Post company, who was also shot by Hays, is favorable to his recovery. Hays, who is out on bail, will be re-arrested on a charge of murder. He is one of the oldest and best known newspaper men in the state of Missouri.

NO TRIALS AT SOCORRO

Court Funds Not Sufficient and Few Important Cases on Hand—Grand Jury in Session Today.

Socorro, N. M., Dec. 2.—(Special).—District Court convened here today but there will be no trial jury because none was summoned. Judge Frank W. Parker stated when court convened that the funds held by the county were needed for other purposes and as there were few important cases on hand there would be no trials requiring juries. The grand jury is in session. It is one of the most intelligent and representative ever assembled here. Judge Parker's instructions were as usual concise and straight to the point. He told the grand jurors to do their duty and he was particularly strong in his instructions regarding the enforcement of the compulsory educational law.

ENGINE 1619 HAS BEEN PLAYING HOOKY

She Was Caught at 6 O'clock This Morning Running Loose North of City.

Engine No. 1619 is in ill repute at the local shops. She played hooky from the roundhouse last night, and was found early this morning by an engineer on an outgoing train slowly steaming northward, about three miles out of the city.

It all happened this way. The 1619 was called to go out and was placed on a siding near the coal chute to wait for her engineer. The engineer was late and, becoming impatient, she started out. The lever had been left a little forward of center and the steam in her boiler had increased, so she went. She didn't stop for switches to be thrown. The way was open and quietly she crept through the yards out on the main track. The whistle was passed. Then the passenger depot was left behind. In the uncertain light of the cold gray dawn, no one observed the big engine as she picked up steam and went out for a run without an engineer to say whether she should go fast or slow.

The Central avenue crossing was passed, the ice plant and brewery and then the woolen mills. No. 1619 was having a nice time poking along in the open country north of the city about 6 o'clock when an engineer on a northbound freight train observed an engine in front of him. He whistled again still there was no answer. Holding his train well in hand, he ran up close to the slowly moving engine and jumping down from his own ran ahead and caught up with her. No. 1619 made no effort to run away and made no protest, when her throttle was reversed and she was backed into the city. The freight train had to wait for new orders but otherwise the big engine's little lark resulted in no damage or loss to the company.

LABORER DIES FROM INJURIES AT SAN MARCIAL

San Marcial, N. M., Dec. 2.—(Special.)—Martin Prieta, a Mexican laborer, working for the Santa Fe, died yesterday morning from injuries received while working on the rail saw. Careless switching is said to

WHAT BROUGHT THEM WEST

Two Gentle Maids Journey Many Miles to Marry Las Vegas Youths.

Las Vegas, Dec. 2.—After a trip half way across the continent, to wed the young men who had, in days gone by, won their hearts, two plucky young women of the best breeding brides at Las Vegas. Charles M. Barnard and Clarence Newby, both well known young men in this city, were the grooms.

Fortune forced these young men, several years ago, to leave their home in the east and take up their residences in the west. They left with saddened hearts, but with the assurance that the girls they loved would wait for them until such a time as they could provide homes in the faraway land to which they considered they were going.

Barnard and Newby were not acquainted with one another back east but they became close friends after their arrival here. Each finally learned that the other had a romance that "back home" waited a gentle maid. After much discussion they decided to urge the young women to come west and make Thanksgiving day one of unusual happiness. Little urging was needed and as a result Miss Dolly Rush, of Louisville, Ky., and Miss Hattie Heath, of Kansas City, arrived in Las Vegas Tuesday night on No. 9.

Owing to difference of religious faiths a double wedding was impossible, but each groom stood up for the other, and each bride was a witness to the other's wedding.

At 2 o'clock Thursday afternoon at the residence of Father Moline, Miss Dolly Rush and Charles Barnard became man and wife. Immediately after the ceremony four young people went to the residence of Rev. H. Van Valkenburgh, where Miss Hattie Heath and Clarence Newby were joined in wedlock.

A Reliable Remedy for Croup. With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for ominous symptoms. There is no cause for anxiety, however, when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as a child becomes hoarse or even after the croupy cough has appeared, the attack may be warded off. Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists.

SCROFULA AN INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like," for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause, and cures the disease, but it supplies the weak, anemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge.

ANYTHING WILL GROW AT ALAMOGORDO

So Says R. B. Walker in Addressing Fruit Growers' Association.

During the address of R. B. Walker last Saturday evening before the Alamogordo Fruit Growers' association, he made a little side talk on the profitable growing and shipping in quantities of all classes of garden vegetables which gave one an insight into the possibilities in this direction, says the Alamogordo News. Mr. Walker stated that with the rich soil of Alamogordo and the matchless climatic conditions, that very large returns could be obtained by planting acreage of vegetables sufficient to make mixed carload shipments, and as many vegetables can be raised here throughout the so-called winter months, they could be marketed in the northern and eastern cities at a time when they would bring the very top price and represent a large return for the labor and cost involved in raising.

Demand for Vegetables. Cauliflower, onions, radishes, spinach, lettuce, etc., are in great demand during the winter in northern and eastern cities, and by packing the vegetables in barrels with ice and placing in refrigerator cars, they would arrive at the end of a 2,000-mile journey in perfect condition. Any man with four acres of ground and a determination to use intelligence and hard work can, without doubt, so arrange a crop of vegetables as to bring him a gross return of at least \$2,000 a year. Of course no one man with four acres could accomplish this result alone, as the yield from four acres would not be enough to make up carload shipments, but a group of enterprising men could form a farmers' institute and contract for enough acreage to warrant Lyon Bros. Co., entering into a contract with their association to market their vegetables in the same manner that they will handle the cantaloupe and fruit crops of the Fruit Growers' association.

CO-RESPONDENT WEDS DIVORCED WOMAN

Maternal Parent's Example Is Followed by Native Daughter Heiress.

New York, Dec. 2.—Gladys Asher-Gouraud, divorced, wife of Powers Gouraud, who by her marriage to the latter became the sister-in-law of her own mother, whose husband is Jackson Gouraud, a man of great wealth, from whom she inherited \$5,000,000 to \$10,000,000.

At 17 years of age Gladys Asher eloped with Powers Gouraud and the pair were married in London. But after six months had passed the young wife returned to New York and has not seen her husband since.

At this time, Jackson Gouraud, a brother of Powers, was the husband of Gladys' mother, which made the young wife the sister-in-law of her mother, and the daughter-in-law of her brother-in-law.

Mrs. Jackson Gouraud also has had a remarkable experience in the matter of tangled relationships. Her first husband was Porter Ashe, a San Francisco lawyer, and Gladys is his daughter.

Mrs. Ashe got a divorce and married Harry M. Gillis, who was then commodore of the Larchmont Yacht club. She got a divorce from Mr. Gillis in 1901 and was married shortly afterward to Jackson Gouraud, son of Col. G. P. Gouraud, a man of many business schemes, one of which was his assumption of the position of executive officer for Jacques Lebaudy, "emperor of Sahara."

Jackson had a career as a song writer, six years ago he married his present wife, who has an income of \$200,000 a year. Powers Gouraud once went on the stage for experience, it is said.

CHORUS GIRL INSISTS SHE WILL WED ENGLISH LORD

Miss Estelle Christy.

New York, Dec. 2.—Miss Estelle Christy, "the most beautiful chorus girl in the world," insists that her engagement to Lord Elliot of England is bona fide.

"The report is foolish and unfounded," says the countess of St. Germain, Lord Elliot's mother. In support of her claim Miss Christy exhibits letters of comparatively recent date from Lord Elliot, postmarked Woodland Park, and bearing the crest of the earl of St. Germain. They begin "Dearest Child. The further contents Miss Christy would not display."

"I shall sail for England on April 16; our marriage will occur within two weeks of my arrival in London," she declares confidently.

his position as to the establishment of a central national bank for the United States.

Lord Avebury says he is not in favor of such a central institution and would be sorry to see one established in America.

Carnegie agrees with Lord Avebury and adds: "All we need is an elastic currency, acquired by allowing the issuing of credit notes on assets to one-fourth of their value, charging the banks on such issue a high rate of interest."

The first year preparatory students gave a very excellent program at rehearsals on Tuesday. The numbers were as follows:

"Out to Old Aunt Mary's" (Riley); Myra Marsh; "Boys Wanted," Cecil Davis; "A Pin" (Wilcox), Lorena Wells; "Kate Shelly," Ella Swine; "The Thanksgiving Turkey" (S. E. Kiser), Alice McMillin; "Work For All," Nella Woolcock; original Thanksgiving stories by Eula Collins and Ruth Thompson.

The girls' basket ball team returned yesterday from Las Vegas, where they played their first game of the season with the Normal school team on Thanksgiving night. The score was 15 to 12 in favor of the Normal girls. This was the first time the Varsity girls have ever been beaten by a team from the Meadow City. The fact that the team was but newly organized and had never played a practical game before, whereas their opponents were well organized and had played several games together, is probably the reason why they failed to win this game. Mr. Tascher, who refereed the game, says it was one of the best ever played in the territory. The girls all report a very enjoyable trip. A return game will be played in two weeks.

Interest in boys basket ball has begun to be aroused. The freshmen class have issued a challenge to meet a team from any other class. So far as can be learned the challenge has not been accepted.

A committee from the dramatic club has selected a play to be presented in January. The play is "The Girl I Left Behind Me." It is a good selection. WEEK END NOTES FROM UNIVERSITY

Only Three Days of Classes But There Was Much Doing.

There were only three days of school at the Varsity this week, yet there were a number of activities crowded into them.

Prof. Clark occupied the assembly on Monday morning. He gave a very interesting talk on his native state, New Hampshire.

Wednesday evening at Elks' hall a social dance was given by the students. Nearly every student was out and many of their friends. The affair was the most enjoyable social event held so far this year. Prof. and Mrs. Asplund acted as chaperones.

The first year preparatory students gave a very excellent program at rehearsals on Tuesday. The numbers were as follows:

"STATEHOOD FOR NEW MEXICO"

The Statehood League

The large attendance at the convention at Santa Fe Saturday, which resulted in the forming of a territorial statehood league with a Bernalillo county man as chief officer, exceeded the expectations of even the most sanguine.

Every one in New Mexico is so strongly in favor of statehood that it is hard to secure attendance at a statehood meeting. The people are practically unanimous in favor of admission to the union and do not have to attend meetings to say so. But the large number of delegates, who were present in Santa Fe was proof that at last the people have awakened to the fact that they must organize and begin work in earnest if they are to accomplish their pet hope.

A pleasing feature of the meeting was the large attendance of native people of prominence. This alone was sufficient denial of the oft repeated statement in Washington that the native people was opposed to statehood. Moreover it was noticeable that an interpreter was not needed. It is doubtful if there were half a dozen people upon the floor of that convention or seated in the galleries, who did not understand the English language perfectly. Every native speaker spoke in English with the exception of one aged man, who said he had never had proper opportunity to learn the language and that he regretted his inability to speak it. But he made an eloquent plea in Spanish for statehood. His children all speak English better than their native tongue.

There was a fitting absence of politics in the meeting and the speeches were along the right lines, dignified and earnest.

Governor Curry stated that he felt the utmost confidence that statehood would be given to this territory by the sixtieth congress and he urged the people to exert every influence to secure the assistance of the members of congress, many of whom are already committed to the bill.

The governor, in earnest in every word he says—he impresses the people with what he speaks, as thoroughly conversant with political conditions, not only in this territory but in Washington.

Undoubtedly Governor Curry knows more about the statehood situation than he tells and that is why he is so confident that this territory will soon be a state.

At all events the convention was a fitting way in which to start the campaign and the territorial statehood league can make itself a powerful factor in the campaign which is now under way for the admission of New Mexico to the Union.

Living Up to Names

The Emporia Gazette, which has been in the throes of a poetic attack has at last dropped rhyme long enough to say something sensible, and this is what the Gazette says about living up to names. There is no poetry, but lots of truth in it.

When an American citizen becomes a parent the promotion causes him to view the future through rose-colored glasses. There is no doubt in his mind that his son will live to shed a luster upon American history, and to give him a fair deal in the first go-off, the youth is christened with a name that is already illustrious. All he has to do is to live up to his name and a little beyond it, in order to win renown that will go sounding down the ages.

It is at once remarkable and deplorable that the youth with an ambitious name usually goes wrong, or has so much hard luck that he becomes discouraged in life and quits trying to bear without reproach the grand old name of poet or statesman that has been loaded on him.

William Shakespeare ran a country paper in Iowa until recently; he struggled heroically against fearful odds, for his readers were always comparing his editorial with the best efforts of the bard of Avon, greatly to his disadvantage. So he turned things over to the sheriff and is shucking town.

John D. Rockefeller was arrested in a Kansas town a few days ago, accused of having been jagged up beyond the limit prescribed by the statutes. He was fined a few dollars and costs, but having no change about him, and the magistrate declining to accept clearing house certificates, John was compelled to go on the streets and shovel stuff into a mud wagon. Probably when that weary youth was christened, his parents thought that he would some day be able to face unmoved a Kenawau mountain, and accept cheerily a fine of about twenty-nine million bones; yet, in the flower of his manhood, he was knocked out by an assessment of about \$7.50.

Grover Cleveland was sent to the reform school in a neighboring state a couple of weeks ago. He is a minor, but his wickedness is surprising, and there is but little hope that the voters will ever accept him seriously as a presidential possibility.

The supply of George Washingtons in this country is always large, and they are invariably in trouble of some kind when heard from. A good many of them have been convicted of chicken stealing at various times; and that is one offense that was never laid to the door of the father of this country.

During the past ten years or so countless children have been named after W. J. Bryan and Theodore Roosevelt, and other Americans who have distinguished themselves. This crop of patriots will soon be ripe, and we may expect to hear of numerous peaceable leaders being sent over the road for horse stealing, and divers Teddys being jailed or tarred and feathered or lynched for this offense or that.

Somebody ought to call a special session of the legislature, or congress, or Dr. Crumline, to provide penalties for those who name their offspring after illustrious men and women. The latter should have some sort of protection against a custom which, though founded in patriotism and paternal pride, never seems to work out just right.

So soon as a man finds himself becoming famous he should have his name copyrighted.

The Sixtieth Congress

The Sixtieth Congress convened today. Owing to its adjournment after a short session, it was impossible for the president to send his message, which is awaited by the entire country with great interest. This, the sixtieth congress in our great history, promises to be one which will have to meet difficulties greater perhaps than any of its predecessors.

There is the money question for instance; there are the great naval expenditures which will undoubtedly have to be made; there is railroad and corporation control; there are dozens of matters that may and will come before the sixtieth congress.

No one yet knows what the president will call to the attention of congress in his message. Its publication is awaited with the deepest interest—it can do much harm or much good or both.

But the present congress is being watched by New Mexicans with the keenest interest because New Mexico is going to ask much of this congress. It is before this body of men that this territory is going with its demand for state rights—for admission to the union and the right to run its own affairs as a state and not a territory.

The Sixtieth Congress will be a busy one—an important one to the whole country at large and to New Mexico in particular.

The people of New Mexico hope that it will fulfill its high obligations by righting a wrong left so long unrighted. We want statehood.

Seventy-five people met death during the past year in climbing the Alps. This beats rocking the boat and didn't know it was loaded all to death.

Rockefeller has given away another two millions. That ought to help the money stringency of right.

LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico. Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined, if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

YOU CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

Captain Herbert Galles, of the high school team, made some spectacular line plunges and fast end runs, making big gains for his team. The Indian and high school teams will meet Saturday afternoon at Traction park and the Duke City Athletic club foot ball team will challenge the winner.

According to the police some one entered the room of a guest of the St. Clair hotel Saturday night and stole a watch and \$35. The guest had left his door unlocked and was sleeping peacefully when the burglary was committed. It was currently reported that several hotels had been entered last week and the police about the same hour of the St. Clair robbery, but proprietors of the hotels said to have been robbed denied that their guests had missed anything. Only the one robbery came to the notice of the police.

ROMANTIC WEDDING

AT THE ALVARADO

H. L. Ortiz, Santa Fe Attorney, and
Miss A. T. Boettger, of Wisconsin,
United in Marriage by Rev.
Rollins.

Shortly before noon today in the parlors of the Alvarado hotel Hilario L. Ortiz, a well known attorney of Santa Fe, and Miss A. T. Boettger, of Manitowish, Wis., daughter of Herman Boettger, a wealthy farmer, were united in marriage.

Rev. J. C. Rollins of the First Methodist church, performed the marriage ceremony. Only a few friends were present. The couple were attended by Miss Pilar Ortiz, of Santa Fe, Martin F. Barcenas of this city, and Juan R. Fernandez, also of Albuquerque.

The marriage of Mr. Ortiz to Miss Boettger was the culmination of a romance extending over two years. While in Denver, Colorado, two years ago last month Mr. Ortiz met Miss Boettger and her father, who were on a pleasure trip through the west. They became good friends and Mr. Ortiz extended an invitation to the young woman and her father to visit him at his home in Santa Fe if ever they chanced that way.

On June 21st last, Mr. Boettger and his daughter while en route to California, to visit a relative, decided to stop for a few days in Santa Fe to see the oldest city in the country and to call upon Mr. Ortiz.

Upon visiting the home of their friend, they found him seriously ill and Miss Boettger, who is an experienced nurse at once began to take the patient in charge.

When her father decided to continue the trip to California she insisted on remaining behind and caring for the sick man, to which he finally consented. Mr. Ortiz has been very ill for nearly two years but under the care of Miss Boettger he rapidly recovered and the friendship thus resulting ended in their marriage here today.

They will leave tonight for Santa

Fe. Mr. Ortiz is well known in Santa Fe and in fact in nearly every town in New Mexico as a member of one of the oldest Spanish families. He has quite an extensive practice at law and owns other interests in Santa Fe and vicinity. A large circle of friends wish the couple long life and happiness.

CONFECTIONERS HAVE PRIED THE LID OFF

Two Candy Stores Were Open Yesterday and Not Molested—Authorities Mum.

The lid was pried up and given a start skyward Sunday. It was not clear off, and no indications go to point that it will be entirely removed, but the confectionery stores did a flourishing business; the clerks are alleged to have sold gum drops and all day suckers and even soda water to whatever customers who came, and not a policeman or deputy sheriff have in sight to say him nay.

Those behind the Sunday opening move are L. M. Fee and C. P. Schutt, the confectioners. Their stores, Fee's at the corner of Central avenue and Third street, and Schutt's at 219 South Second street, were open all day and all evening. They were unmolested and today no complaints were made against them.

"We are going to stay open until we hear from it. We want to know where we stand and where the other stand," said C. P. Schutt this morning. The police station and sheriff's office were not talking on the subject of Sunday closing. District Attorney Clancy said he had not heard that Fee and Schutt were open all day Sunday in direct violation of the blue laws. "And no one has made a complaint against them," said the district attorney.

Justice of the Peace George R. Craig has not given his decision in the case of Fee, who was arrested last Sunday for selling a glass of soda water to a customer in his store. Fee was tried last Tuesday and Judge Craig took the case under advisement. Only the confectioners were held enough to open yesterday. The cigar stores were closed and of course the saloons were shut and a boot black was not to be found. Whether conditions will be much different next Sunday remains to be seen, but the seal has been broken and the lid given a shove upward.

ELKS MEMORIAL SERVICE WAS A REAL TREAT

Opera House Was Crowded With Elks and Their Friends.

"Many people say of the Elks that they do not pray enough," said Rev. Fletcher Cooke, rector of St. John's Episcopal church, in his Elks' memorial address at the Elks' theater yesterday. "Well, perhaps they don't. But a good deed done in five minutes is worth five months of praying. The Elks are busy helping their brethren and cheering each other on the way and perhaps they might pray a little more, but the doing comes before the praying."

The theatre was crowded to the doors with Elks and their friends, as the memorial services were open to the public. On the stage, which was decorated with palms, were seated Rev. Fletcher Cooke, M. E. Hickey, exalted ruler; L. C. Bennett, esteemed leading knight; G. S. McAndrews, esteemed loyal knight; John Lee Clarke, esteemed lecturing knight; C. A. Hawke, treasurer; H. E. Fox, chaplain, and Ralph Dunbar, inner guard.

The Elks entered and took their seats in the front of the theatre while the orchestra played Handel's "Dead March from Saul." A male quartet composed of Messrs. Nettleton, McAndrews, Washburn and Maynard sang "The Beautiful Country" from Parks, followed by the opening ode, "Auld Lang Syne," by the audience. Mrs. Roy McDonald sang "Forever With the Lord," by Guionod. After the invocation by the chaplain, Rev. Fletcher Cooke then delivered the memorial address.

"The three great virtues upon which the Order of Elks is based," said Rev. Cooke, "are sympathy, charity and companionship. Bill collectors who swarm around a business man when he goes under; depositors who withdraw their money from a bank or the unresponsive public which often gives an honest man seeking work the cold shoulder, shows the lack of sympathy."

"Charity, or 'charitableness,' which has love, without which it would be a contemptuous, unmeaning, unhelpful charity, the easy kind that consists in giving a suit of your old clothes to a beggar or passing out a quarter to a hungry hobo. True charitableness means the giving of yourself."

"The weariness that comes to man in all walks of life, the lawyer, the minister, the physician, creates the need for the mental rest and recuperation which comes in good fellowship—companionship—the kind of companionship for which the Elks are famous."

Messrs. Regalado and Strong, and Messrs. Washburn and Collins sang "One Sweetly Solemn Thought," after which the Elks' orchestra gave two selections from Wagner. The audience joined in the singing of the singing of the closing ode, "Nearer My God to Thee." The departed members in whose honor the meeting was held are Ferdinand Levi, Edwin D. Harper, M. S. Otero, J. Freudenberg, Charles F. Myers, Arthur Cavannah, D. J. Abel, Thomas Hughes, Abraham Kempenich, J. F. Cook and Carlos A. Dalles.

JEWISH CHILDREN OBSERVE CHANUKAH

Assemble in Vestry Rooms of Temple Albert and Sing and Recite.
Over a hundred people gathered in the vestry rooms of the Temple Albert last night to witness the Chanukah entertainment in observance of a season of thanksgiving among the Jewish people. The Chanukah play given by seven children at the conclusion of the program typified the seven lights that are kept burning during the festival of Chanukah.
A program consisting of songs, recitations, essays and instrumental selections were rendered by the younger members and children of the temple. Those taking part were Mollie Maharam, Lilian Kempenich, Annette Weinman, Florence Weiler, Eddie Maharam, Juliet Fleischer, Bertha Weinman, Lester Hild, Frank Spitz, Aline Stern, Arthur Yanow, Rose Maharam, Hilda Grunfeld, Alfred Kempenich, Florence Grunfeld, Bertha Stern, Meyer Stern, Alfred Grunfeld, Alfred Neustadt, Ruth Hild, Elsie Kempenich and Gladys Mandell.

Christmas Suggestions

NOTHING is so appropriate for a Christmas gift as jewelry. Emerson says the ideal gift is one in which the intrinsic value of the article is lost in the kindly feeling that prompted the giver. Jewelry is a luxury. It is enduring. It affords opportunity for a finer exhibit of taste than almost anything else. During the year we have accumulated a fine lot of jewelry. Diamonds in all sizes, prices and settings, rings, studs, brooches, bracelets, cuff buttons, scarf pins, fobs, watches, chains, necklaces, cut glass, emblems and everything else that properly belongs to the jewelry business. Owing to the manner in which we obtain our goods, we CAN SELL FOR LESS THAN WHAT OUR COMPETITORS BUY. Come early and inspect our stock. Select what you wish, and we will lay it aside until Christmas. ORGANIZATION OF ELKS' BAND IS ALMOST COMPLETED

Debut Will be Made at Dance—Twenty-Four Artists to Comprise Orchestra

Steps for the permanent organization of the Elks' band, to be organized and governed under a territorial charter, are now well under way and when fully completed M. C. Grady proposes to make the Elks' band the crick musical organization of the southwest, and one of which every Albuquerquean will be proud.

The fact that most of the members are home boys and several outsiders whose intention is to remain here, lends much more interest and confidence in the organization and the business men of the city are liberal in responding by signing the list for a subscription, which will be used in paying the director's salary. At the regular business meeting held several days ago the following officers were elected:

President—Cleo Kackley.
Secretary—Ben Dignee.
Treasurer—Tony Morelli.
Manager—E. L. Washburn.

At this meeting it was decided that the band give a dance at the Elks' ball room on Thursday, Dec. 12. This will mark the opening of a series of entertainments that the band has planned for the winter months. A feature of this dance will be the entire band of twenty-four members furnishing music for the program. This is something unusual in this city and lovers of good dance music who seldom have the opportunity of dancing to band music, will find this a rare treat. The committee on arrangements for this dance consists of M. C. Grady, George Davis, Mr. Hodgson and Ben Dignee.

CITY COUNCIL MEETING POSTPONED

City Dads Are Going to See "The Mayor of Tokio"—Ordinances Are Ready.

There will be no meeting of the city council tonight; the city fathers got together Saturday and unanimously decided to postpone the regular meeting until Tuesday afternoon at 4 o'clock. And the reason—well, just notice the broad smile the press agent of the "Mayor of Tokio" company is wearing, that's reason enough.

Mayor McKee and the city aldermen undoubtedly came to the conclusion that if the Mayor of Tokio was coming to Albuquerque—and he got here today—that they should be among the foremost to welcome him, and tender him the key to the city and do all such things mayors do to visiting mayors.

The press agent though so too; maybe he hinted it to the mayor and the city dads, you never can tell. But anyway there isn't going to be any council meeting tonight and it is understood the mayor and the city dads will be the guests of the Mayor of Tokio or the Mayor of Tokio will be the guests of the mayor and the city dads.

City Attorney Hickey will submit several new ordinances at the meeting of the council tomorrow afternoon. He has drawn up the ordinance fixing the saloon license at \$1,500 per annum and the ordinance putting a prohibitive tax on slot machines.

Interest in city affairs now centers on the license ordinance which in all probability will be introduced at the meeting tomorrow afternoon.

Four natives were caught in the act of taking coal from a car in the middle Santa Fe yards yesterday by Officer Joseph Sheridan of the Santa Fe, who arrested them and placed them in the lock-up of Justice of the Peace Gurule in Barcelona to await trial.

The four natives are Ramon Segovino, Vicente Maria, Florencio Garcia and Benito Juarez and will be arraigned before Judge Craig this afternoon charged with larceny.

Minnie Davis, who was arrested by Chief McClintock yesterday on advice received from Belen, was taken to Belen today in the custody of Deputy Sheriff McFarland, of Valencia county, to face the charge of stealing \$56 from a man, Brown by name.

NOTICE is hereby given that my entire stock of groceries at 122 South Second Street, will be closed out at cost, beginning Friday, November 15. MOST REMARKABLE MYSTERY OF THE AGE IS THE DRUCE CASE

Ducal Title and Income of \$2,500,000 a Year Are at Stake.

London, Dec. 2.—A rent roll in London netting \$2,500,000 a year and other property valued at \$5,000,000 are at stake in the sensational case now before the British courts, brought to decide whether the fifth duke of Portland had a double personality and posed as T. C. Druce, owner of a great mercantile house in Baker street, London.

If the duke was Druce, then the rightful claimant to the Portland

Druce did not die, but that his name was used in a mock burial. Many people declare they saw the man known as Druce later than 1864, while it is a fact that no death certificate was issued and no declaration was made of the ownership of the vault in Highgate cemetery, where the interment took place. The Druce company declares there was only lead in the coffin.

In the present suit Herbert Druce,

title and estate is Druce's present grandson, Geo. H. Druce, while if he wasn't, the present holder, the fifth duke's cousin, is safe in the Portland mansion.

The case is the most astonishing of all claims to English peerages. Geo. Druce is a poor man, and, unable to provide the money to fight his claim, he has made over all his rights, retaining himself a large holding of shares.

There are 10,000 ordinary shares of \$5 each and 20,000 deferred shares of 25 cents each. The company has been listed on the stock exchange and the 25 shares are now quoted at \$7.50, while the 25 cent ones have reached \$1.25. None are obtainable at these prices, for the holders believe they have a good case and if

HERBERT DRUCE, The Defendant.

judgment should go in their favor each \$5 will be worth \$500.

If the fifth duke of Portland and T. C. Druce were two people, instead of one, they present an astonishing similarity of character.

Each was arbitrary, austere and unbending in manner. Each suffered from a hereditary skin disease of an unusual kind, presenting a jaundiced appearance. Each was abstemious, disliked meat and had a partiality for fish and chicken. Common to both were secrecy and reserve, subterranean wanderings, wearing a variety of wigs, peculiar style of closed carriage, mysterious journeys, unexpected appearances and unexplained absences for long periods, and partiality for women.

Druce is said to have died in 1864, while it is known that the fifth duke of Portland did not die until 1879. If it can be proven that Druce really died in 1864, the case of the present claimant falls to the ground. The Druce company declares that

In the right upper corner is the monument over the coffin of T. C. Druce, which coffin is alleged to contain only lead. Beside it is a picture of the dead duke of Portland, while beneath is T. C. Druce. In the other picture just the upper halves of the faces of the duke and Druce are given, showing the marvelous likeness which lends color to the claim of the plaintiffs that they were one and the same man.

son of T. C. Druce by his second wife, and present owner of the store which Druce kept, is charged by Geo. H. Druce, grandson of Druce by his first wife, with perjury, in having sworn that he saw the body

Geo. H. DRUCE, The Plaintiff.

of his father in the coffin. The object of the suit is to get the coffin opened. If this should be done, it is found to be filled with lead, as Geo. H. Druce alleges, then the claimants will go further and try to get the Portland estates, on the ground that Geo. Druce is the direct heir of the dead duke, while Geo. Druce will claim the title, at present held by a cousin.

RAILROADS CUTTING PASSENGER FARES

San Francisco, Calif., Dec. 2.—A \$5 reduction in railroad passenger fare between San Francisco and New York went into effect over the Southern Pacific lines, beginning Saturday.

This announcement was made yesterday by the Southern Pacific in a communication sent to the interstate commerce commission. The effect of the reduced rate will be good via Chicago and also via New Orleans to New York.

The same old fare will be in vogue from San Francisco to Chicago, the real cut affecting the Chicago-to-New York part of the journey.

Back of this unexpected cut is a little story. Some time ago the Erie railroad reduced its passenger rate between Chicago and New York down to \$19 to meet the competition of other lines in that section, and particularly the steamship lines on the lakes. The effect of this reduction between Chicago and New York was that the man who bought a ticket from San Francisco through to New York by way of Chicago really was paying more than if he had bought a ticket to Chicago and there purchased another ticket on to New York. It was to meet this condition that the Southern Pacific determined to cut its through rates enough to make the charge fair for the through-ticket holder. The old second class rate from Chicago to New York was \$16; the Erie railroad cut it to \$10. The Southern Pacific has not that cut, so that there will be no difference between the through ticket to New York and the relay ticket purchased at Chicago.

Our shirt and collar work is perfect. Our "DOMESTIC FINISH" is the proper thing. We lead—others follow. IMPERIAL LAUNDRY CO.

SUPERINTENDENT OF SCHOOLS IN TROUBLE

Tucson, Ariz., Dec. 2.—Professor Rauthrauff, superintendent of the schools of Tucson, was to be tried on a charge of non-compliance with the school laws of the territory in causing to be issued in the schools text books not authorized by the board and in failing to use those which had been authorized. But on account of the inability of Professor Rauthrauff to be present the hearing was continued to a date not yet fixed.

The charge has been made by the Tucson school board and it was investigated by Superintendent Long about a week ago. Professor Rauthrauff has admitted the use of the books as charged and the teachers of the schools who were questioned by the territorial superintendent said that the books in their departments were used by them under instruction from Professor Rauthrauff.

Professor Rauthrauff may be able to present extenuating circumstances which will be satisfactory to the board, otherwise under the direction of the law, there will be nothing to do but order the revocation of his certificate. This is not the first trouble Tucson has had over the school book question. The government has brought suit under the Sherman law against the booksellers of the town in which they are charged with having formed a combination in restraint of trade and for the charging of exorbitant prices, far in excess of the contract price agreed to with the territorial board at the time of entering into the contract for the use of the books.

If you want anything on earth, you can get it through the want columns of The Evening Citizen. We get results.

MAYOR OF TOKIO THE BILL TONIGHT

Richard Carle's most successful farcical opera, "The Mayor of Tokio," will be the attraction at the Elks' opera house tonight.

This excellent farcical opera enjoyed a run of 110 performances in Chicago, where it played throughout the summer season of 1905 and subsequently made a run of seven weeks as a special attraction in the New York theatre. The company also played highly successful and prolonged engagements in Boston, Philadelphia, Baltimore and Washington. It is said that during the season 1906-07 it was one of the best farcical operatic productions that was enacted. The Chicago newspaper reports throughout the United States are highly favorable and it might be said were all full of praise of this latest and best success of Richard Carle's, "The Tenderfoot" and "The Maid and the Mummy" as well as "The Mayor of Tokio" are all from the pen of this gifted author, which to a large majority of theater-goers is quite enough to guarantee to them the character of the fun and amusement for an evening's entertainment. The music was composed by William Frederick Peters and it is said that it captured Broadway in New York. The scene of "The Mayor of Tokio" is laid in Japan and deals with the adventures of a comic opera organization stranded in the Nippon metropolis. Marcus Orlando Kidder, impresario of the luckless troupe, is played by Mr. John L. Kearney, who is famous for his successful comedy, singing and dancing in "The Chinese Honeymoon," "The Tenderfoot," etc. Mr. Kearney was especially selected out of a large number of comedians by Mr. Carle to take this part.

Mr. Kidder and the remnants of his Komiques have arrived in Tokio with sadly depleted treasury and wardrobe. In addition to Kidder himself, all that remains of a troupe that left San Francisco sixty men-eat are a sour-visaged wardrobe mistress, a lovesick song-book boy, a sous-brette with Shakespearean ambitions, and nine little girls, called the "peanut ballet."

At the time of his arrival the mayor of Tokio is unfortunately entangled in a plot with a Russian spy, Ivan Orfulich, and General Satake, a conspirator who has entered into an agreement with Ivan to betray important secrets of the Japanese government. The mayor has the unfortunate habit of talking in his sleep and Satake persuades him that during one of his somnambulant conversations he has betrayed the secrets which in reality Satake has told to Russia's agents. Furthermore, Satake informs the mayor that unless the latter forces his daughter, Ooloto, to wed the conspirator, he will report the mayor's supposed treason to the Mikado, with hari-kari as a result.

Ooloto, however, falls in love with Komiques, and with ardent characteristic of lovers, Julian returns the maid's affection. Complicating matters to a further degree, the mayor mistakes Kidder's Komiques for a royal party of princes and princesses who are momentarily expected. In Tokio, Kow Toy gives the royal come and hands the key of the city

A SCENE IN THE MAYOR OF TOKIO.

to Kidder, who unlocks Tokio and keeps it wide open until his identity is discovered and he is thrown in jail.

In the company are Will H. White, who plays the part of the Mayor of Tokio, and Jesse Culne, who is the stage director of the Carle show; Donald Mackenzie, Ethel Tillson, Jane Griffith, Jeanette Mayhew and a host of others of the best comedy operatic performers that could be obtained. A special feature on which the company prides itself is the "beautiful" chorus christened by the Boston papers as the "Blue Ribbon Chorus of America."

U. S. GUNNERS ARE BREAKING RECORDS

Target is Smashed at 6,000 Yards Nearly Twice a Minute at Fort Monroe.

Washington, D. C., Dec. 2.—Army officers believe a world's record for target practice with big guns was made November 16th at Fort Monroe. The official report of the prac-

tice has not been received yet at the office of the chief of artillery, but it is known that with the twelve-inch rifles the gunners hit the target at about 6,000 yards at the rate of 1.74 hits per gun per minute. Heretofore it has been thought exceedingly good work when there was only forty second between shots.

Artillery officers are exceedingly happy over this record, because it was at Fort Monroe that the shooting was done on which Lieutenant Commander Sims of the navy based his report to the president, criticizing army shooting. At that time the shooting was under the direction of officers who had been transferred from the infantry and it was held that they did not have the experience necessary to get the best results. The army now feels that the disgrace of that record has been wiped out.

Incidentally it is noted that after four shots seven holes were found in the material target, any one of which might have been made by a twelve-inch shell, and this is held to justify those army officers who claim that at Cape Cod the navy was given the credit for hits when the target was perforated by splinters or otherwise than by shells.

Pabst Blue Ribbon

The Beer of Quality

Some idea of the popularity of this famous brew may be gathered from the size of this order for blue ribbon labels.

The blue ribbon is the mark of excellence and is used only on Pabst Blue Ribbon. It is the maker's pledge of quality and your guaranty of purity.

When you order beer, insist upon having Pabst Blue Ribbon. You can recognize the bottle by the blue ribbon fastened to its neck, as shown in the illustration.

Socorro and Socorro County

Howard Sweet, clerk of the probate court, and Attorney Harry M. Dougherty returned from their hunting trip in the Jornada. They each shot a deer and numerous quail. They report game very plentiful. In fact, the jack rabbits were so thick that they ran over several and killed them.

Hotel Arrivals: S. W. Traylor, N. Y.; F. W. Ames, N. Y.; C. A. Velasco, N. Y.; Wm. H. Morley, Dallas, N. M.; Howard Panchal, N. Y.; W. W. Conner, Seattle, Wash.; David Garcia, San Rafael; Jerry Gannales, Albuquerque.

The live turkey shoot held at the fair grounds Friday was a success and we should have more of such things to liven the old town up. Zigm Gibbons carried off first honors by killing four turkeys out of five shots. The following each got a turkey: John Greenwood, Jr.; J. R. Pratt; Geo. Cook; Lee Hoffman; Aaron Olguin; Henry Dreyfus; Chas. Lewis and last but not least, the Hon. William Martin.

Mr. and Mrs. Homer Hill gave their usual Thanksgiving dinner to a small circle of their friends and relations, including Dr. and Mrs. Duncan, Attorney Griffith and wife, Prof. Drake, Mr. Strader, Prof. Waldron, Miss Edie Berry, Mrs. James Berry, Jr. of Old Mexico, Mrs. Gilbertson and Dr. Kittrell. The usual Thanksgiving delicacies were served in a manner for which the hostess is noted.

Another quiet little dinner party was given in the upper part of the town by Mr. and Mrs. Geo. Neuman. Those entertained were: Howard Sweet and family; Mr. Pratt and family and Charles Lewis and family. Mr. Neuman and family moved in from their ranch several months ago to spend the winter in Socorro, and possibly they will decide to locate here permanently.

SUSPECTED MURDERER

RELEASED FROM JAIL

Petra Reyes Died From Natural Causes Resulting From Excessive Use of Alcohol.

Ariz., Dec. 2.—There developed a suspicion that Reyes, the woman who died suddenly on Wednesday night, might have been murdered. Her lover, Thomas Chacon, had been released from jail that day where he had served a term for mistreating her. Chacon had frequently caused his arrest for a similar offense, but always was released. The day after his commitment she came around and paid his fine. At that time, however, she let him serve his term.

On his release he turned to her house on Fourth street, between Jackson and Buchanan, and when she died that night, it was suspected that he might have given her poison.

But a post mortem examination disclosed that death was the result of natural causes, the precipitating cause being paralysis of the heart, induced by the continuous use of alcohol. The condition of the kidneys also showed that the woman was in an advanced stage of Bright's disease. There was no trace of poison.

The woman was thirty-eight years of age and had been a resident of the city for several years.

BENSON SCHOOL

DOING GOOD WORK

Arizona Has an Industrial School for Boys to be Proud of.

Phoenix, Arizona, December 2.—Governor Kibbey has received some recent pictures from Superintendent Mahoney of the industrial school, showing the laundry and bath house recently constructed for added facilities at that institution. It is a one-story, owing to the uses to be made of it, the building is to be made of brick. The building is of brick with a wooden roof and both in the brick and carpentering work here is a modern ornamentation which is really more attractive than any artistic architectural lines that can be discovered in the larger or main school building. It is commodious and well appointed, having beside the necessary area for laundry equipment, numerous bath rooms with the conveniences of the various tub, shower and other baths for the health and pleasure of the inmates. Interest in this building as a very necessary and desirable adjunct of the institution, however, is secondary to the history and manner of its building which is conclusively stated in a typewritten statement on the back of the photographs in the following language:

"This is a photograph of the laundry and bath house, recently constructed at the territorial industrial school at Benson, Arizona. It is a practical result of the manual training of the boys at that institution. The brick was made and hauled by the boys. The wood for burning the brick was cut and hauled by the boys. The stone for the foundation was gathered and hauled by the boys. The brick and stone in the walls were laid by a single mason, one of the employees, aided by the boys who did all the tending. The carpenter work was done by some of the regular employees aided by the boys. The territory furnished only the lumber, paint, glass and hardware. This building cost approximately \$2,000. To have been built by contract it would have cost the territory \$3,300."

It will be seen therefore that Superintendent Mahoney, by utilizing the idle hands of the otherwise more or less idle boys, has saved the territory \$1,300 in the construction of what had become an actual necessity at the school. But that is a small part of the profit. The important profit is found in the fact that all these lads were given a little practical training in various mechanical arts, a training that was actual instead of merely theoretical. In the making of brick they have become quite expert and have a valuable insight into the manufacture while in brick laying and carpentering and painting it may be supposed that being in constant attendance upon the skilled workmen, what they learned of those trades will be remembered and will not slip away from them as it might when taken from a book or done by models merely. Moreover, it is not only the hands of the boys that are being trained, but the mind. The time will have still more experience along the same lines and when they are discharged, they will have the training of one or more trades to which they may turn their attention. The above does not include all the manual training they have had in the past year either. For in addition to the boys now have a kiln of 200,000 more brick already for burning, have put up a hundred tons of good gramma grass native hay during the summer and done various other things that all mean revenue to the school and practical knowledge for themselves. It is a sort of manual training that is worth while and it is being secured by the very boys who need it most.

WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Albuquerque testimony proves it.

A. M. Whitcomb, living at 325 North Eighth street, Albuquerque, N. M., says: "I have nothing to recommend the recommendation I gave for Doan's Ointment some five years ago. What I then stated was to the effect that this preparation had cured me of a breaking out, which, if not eczema, closely resembled this trouble and was confined to a spot about the size of a silver dollar just below one of my knees. Off and on for ten years it had annoyed me always being worse when I was in bed or if I would sit near a fire. I consulted two of our leading physicians but what they gave me was of no more avail than all the different kinds of salves and ointments that I tried. I had no faith in Doan's Ointment, expecting that it would act similarly to the other remedies I had used, but I was surprised to find that the first application stopped the itching and a short continuation of its use healed the place affected. The fact that I can say after this long interval that there has been no return of the trouble is pretty good reason for my willingness to confirm my original statement. At the time of my using Doan's Ointment one of my grandchildren had salt rheum on his arm and the irritation was so great that it caused him to scratch continually. Despite the fact that it had resisted all treatment, Doan's Ointment affected a cure and one which has been permanent. I can recommend this preparation at all times as one that can be relied upon to act as represented."

For sale by all dealers. Price 50c. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

From Start To Finish

Sometimes in a race a cheap looking horse is better at the finish than the showy animal who made a grand flourish at the start.

Some shoes look all right and create a good impression at the beginning, but having no staying power show their weakness when put to the test.

To combine endurance and beauty and keep within the limitations of moderate prices requires the performance of many things on the part of the retailer. To give the most and ask the least is one of the things not always well performed. Whether we do these things well is something it will pay you to investigate.

TRAIN NO. 8 GOES IN THE DITCH

Santa Fe passenger train No. 8, due in Albuquerque at 6:40 p. m., was wrecked at Toltec Saturday afternoon. A defective brake beam on the baggage car being the cause. Three cars, the mail, smoker and chaircars and tender were derailed and the passengers were badly shaken up. A tramp, who was stealing a ride between the tender and baggage car, received a sprained back and was brought to Albuquerque where he courteously thanked the officers for their kind treatment of him and disappeared. Martin Ferguson, a colored porter, dived through a window, but escaped unhurt. The train was in charge of Engineer Fred Lee and Conductor Nohl. The California limited was delayed eight hours by the wreck.

WEDDED BUT KEPT IT FROM FRIENDS

It has just become known that Jean Roberts, an employee of the Imperial Laundry, and Miss Adell Sherman, employed at Hawley's, are in reality man and wife. The couple were married secretly some time ago but were very successful in keeping the matter from their friends until today when it leaked out. They are receiving congratulations.

BERNALILLO COUNTY DISTRICT COURT

Harry Coddington, sheriff of McKinley county, who was recently made defendant in a suit for \$10,000 damages for alleged false imprisonment by Nicholas Hengel, of Gallup, will be tried by the Bernalillo county district court, probably tomorrow, on a change of venue from McKinley county.

As there was no district court in Gallup last fall the case was brought to Bernalillo county on a change of venue for a jury trial.

Hengel charged Coddington with assaulting him without provocation and arresting him and imprisoning him without a warrant on Nov. 6. He says he was kept in jail until the next day with no charge against him and caught a severe cold while imprisoned as the jail was without heat.

The sheriff, however, says Hengel had engaged in an election fight and that he arrested him for disturbing the peace.

The John Becker company, of Belen, has brought suit in the district court against J. W. Stockard, doing business under the name of the Roswell Automobile company, for \$1,400 for alleged unpaid bills and damages.

The case of Frank Derrick vs. Adolph Didier, which came to the Bernalillo county district court from Valencia county on a change of venue, is being heard in the district court today.

ALL NATIONS TO MEET IN OUR CITY

(Continued From Page One.)

the water, mineral, forest and other resources of this country.

Purpose of Organization.
The purpose associated with the inauguration of governmental effort along these lines and with the actual financial and engineering undertakings, as well as the widespread and far-reaching importance of the results sought, are world-wide in character and this movement for an international convention is designed to bring together representatives of many nations. The purposes in view are the following:

First. To invite expression regarding the need of comprehensive and systematic effort looking to the conservation of the resources of the world.

Second. To develop exchange of thought and of experience in both governmental and private effort to conserve and protect forested watersheds and to reclaim lands by irrigation and drainage.

Third. To promote a common effort among nations to conserve and develop resources of waters, forests and minerals in the interest of the generations to come and to promote an universal effort to check extravagance in waste.

Expressions Desired.

The members of the committee appointed by the national irrigation congress earnestly desire expressions from all who are or may be interested in this matter. Our recommendations to the Sixteenth congress will depend in large measure upon the expressions called forth by this circular.

We invite correspondence and respectfully ask that the following questions be answered:

First. Do you consider such a congress feasible, practicable and likely to produce results of value?

Second. In case a call is issued what representation can reasonably be expected from your country?

Third. What conditions in your country warrant the belief that such a congress would be beneficial?

All replies received to these inquiries will be given the most careful consideration and if, in the judgment of the members of this committee, it is advisable to proceed further the matter will be taken up through the proper channels, and recommendations made in accordance with what seems to be feasible and practicable.

Replies should be addressed to W. A. Beard, chairman, California National Bank Bldg., Sacramento, Cal., U. S. A.
