NUMBER 299

## FIGHT FOR CONTROL OF CENSUS SHOWS THAT ILLINOIS CENTRAL IN WHITE HEAT

Fish Says That If Given Proxies He Will Oust Harriman From Directorate of Road.

## FILES SCATHING AFFIDAVIT BEFORE SUPERIOR COURT

Confesses That He and Harriman and Peabody Used Company's Funds or Loaned Them to Companies They Were Interested In.

Chicago, Dec. 13.—"If I obtain a majority of the proxies to be voted at the annual meeting of the Illinois Central, I shall depose E. H. Harriman as a director," declared Stuyvesant Fish in an affidavit filed today before the superior court.

Fish also declared in the affidavit, "To everybody in the country, the removal of such an individual as Harriman is shown to be, would be a welcome sign of the return of morality in the management of the great corporations of the country."

Fish reiterated his statement that Harriman is seeking to control the Illinois Central in interest of the Union Pacific.

He declared that he had been a beneficiary of J. T. Harahan, now president of the Illinois Central, and asserts that he saved Harahan from dismissal several years ago when Harriman and George A. Peabody declared Harahan had outlived his usefulness to the company.

In regard to loans, Fish declares that since 1877 it has been the custom of the railroad to loan funds to officers of railroads or firms of which they were members. He insists that both Harriman and Peabody have taken advantage of this custom, and declares that all his own loans were recorded on the books of the company and that the collateral which secured them was good.

After reading Fish's affidavit, formal arguments against making a permanent injunction obtained last October by Fish restraining the filing of stock held by the Union Pacific and the Railroad Securities company, was commenced.

The proceedings were commenced yesterday by the presentation by the attorneys of E. H. Harriman and Peabody, signed by Mr. Harriman, Robert W. Goetz and Charles A. Peabody. In the affidavit it was set forth that Mr. Fish was not elected president of the company because of alleged misconduct in office and alleged misapplication of the funds of the company.

Claim Right Under Law.

It was also declared in the affidavit that, under the laws of Illinois, the Union Pacific railroad company has the right to vote all stock owned by it at the annual meeting of December 13.

Mr. Harriman and the other makers of the affidavit deny that they caused the defeat of Mr. Fish as president of the railroad because he refused to yield the control of the Illinois Central to the Union Pacific. It is also denied that J. T. Harahan, now president of the company, is under the domination of Mr. Harriman. The statement which has been made by Mr. Harriman and the Union Pacific railroad company have sought to control the Illinois Central is also denied.

It is charged in the Harriman affidavit that Mr. Fish had made common cause with the Missouri Pacific, one of the strongest competitors of the Illinois Central. It is declared also that he seeks to control the Illinois Central for his own personal profit.

The affidavit gives the following reasons why its makers refuse to vote for the election of Mr. Fish: "Because, in the judgment of the directors, Mr. Fish has in the past misused and misapplied the funds of the Illinois Central."

"Because he would have it in his power as president to control the funds of the railroad company to the injury of the railroad."

"Because he attempted to manage the railroad company in disregard of the authority of the board of directors."

Harahan's Efficiency.

It was further stated in the affidavit that the sole reason for electing Mr. Harahan president of the Illinois Central was because of his efficient management.

Denial is made by the Union Pacific railroad company that it owns stock in other transportation companies for the purpose of controlling them. The affidavit declared that Mr. Fish in advertising for proxies has falsely claimed that he was elected re-elected to the Illinois Central upon the independence of the Illinois Central; and it is further claimed that while Mr. Fish is seeking to prevent the voting of stock held by the Union Pacific railroad company and the Railroad Securities company, he has often voted that stock himself.

## CENSUS SHOWS THAT 338 MEN LOST LIVES IN MINE DISASTER

Of These, But 320 Bodies Have Been Recovered—Explorations Have Been Stopped.

## JURY FIXES BLAME FOR NAOMI EXPLOSION

Use of Electric Wires and Open Lamps in Return Air Currents Are Condemned—Present Laws Enforced Would Protect More.

Monongah, W. V., Dec. 13.—State Mine Inspector Paul is making a thorough examination of mines Nos. 6 and 8 at Fairmont today, and until he concludes his investigation all other work in the mines will be suspended.

The explorations were stopped last night, when 320 bodies had been recovered.

A house to house census made by the company shows 338 men were missing, and it is believed this number covers approximately all the killed.

CAUSED EXPLOSION.

Belle Vernon, Pa., Dec. 13.—The coroner's jury, which investigated the explosion in the Naomi mine of the United States Coal company at Fayette City, Pa., which resulted in the death of thirty-four miners, found that gas had accumulated from insufficient ventilation and was ignited by sparks from electrical wires or by an open light, and condemns the use of electric wires on return air currents and the use of open lights.

The jury recommends that with such amendments to the mining laws life will be better protected and also that a rigid enforcement of the present laws.

## CONFEDERATE CONGRESS.

MAN PASSES AWAY.

Nashville, Tenn., Dec. 13.—Col. A. S. Colyar, a distinguished jurist, statesman and author, died at his home here today at the age of 90 years. He was a member of the confederate congress.

## CHICAGO MAN FAVORS GOVERNMENTAL BANK

Says the Trouble Now is the Lack of Legal Provision.

Chicago, Dec. 13.—George E. Roberts, a former director of the United States national bank of Chicago, in addressing the Men's Club of St. Luke's church of Evanston last night announced that he was heartily in favor of establishment of a central governmental bank. Mr. Roberts placed the blame for the present panic upon the lack of legal provision for a sudden increase in the supply of currency.

## MRS. LONGWORTH IS MUCH BETTER TODAY

Washington, D. C., Dec. 13.—Surgeon General Riker after visiting Mrs. Longworth this morning, stated that she had passed a good night and was in excellent condition following the operation for appendicitis of yesterday.

## COMMITTEES ON RULES AND MILEAGE APPOINTED

Washington, Dec. 13.—Speaker Cannon, during an eight-minute session of the house yesterday, announced the appointments of the following committees:

On Rules.—The speaker, Mr. Dillard (republican), Pennsylvania; Mr. Sherman (republican), New York; John Sharp Williams (democrat), Mississippi; Mr. DeArmond (democrat), Missouri.

On Mileage.—Mr. Brumm (republican), Pennsylvania; Mr. Kennedy (republican), Louisiana; A. D. James (republican), Kentucky; Mr. Lewis (democrat), Georgia; Mr. Denver (democrat), Ohio.

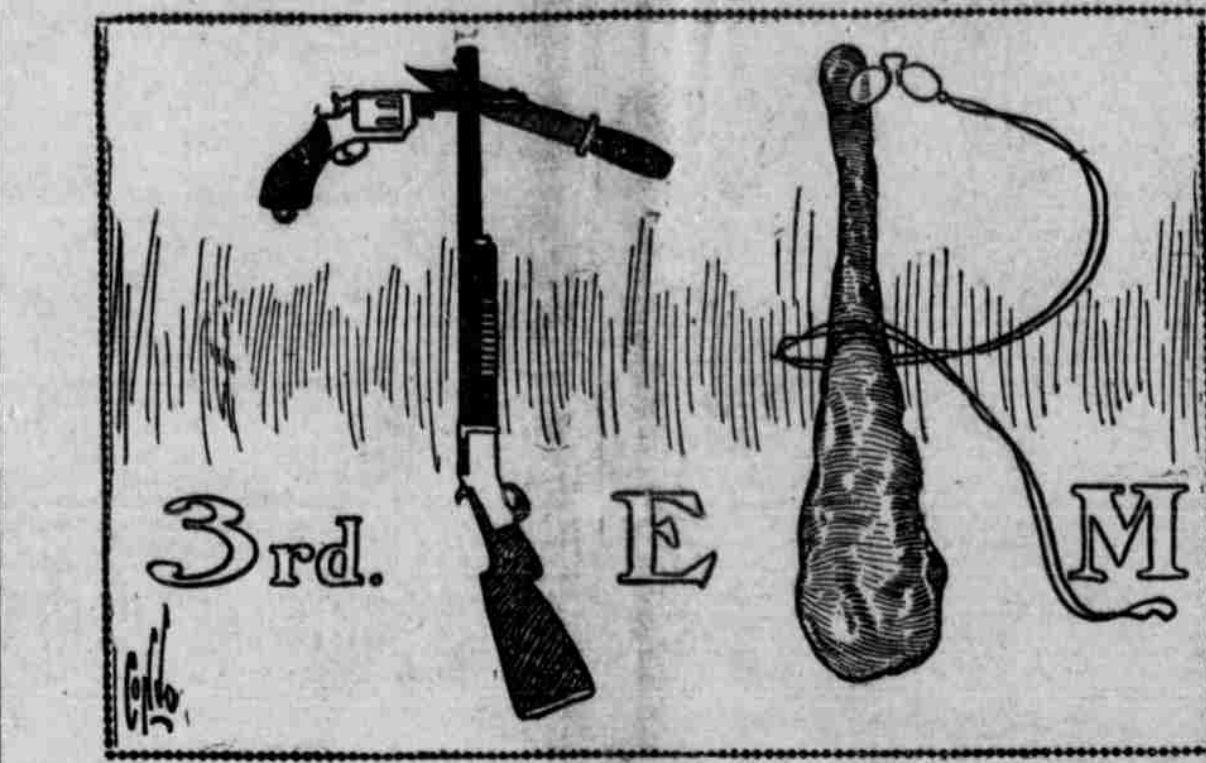

## CORTELAUX SAYS HE WILL NOT RESIGN

Washington, D. C., Dec. 13.—In answer to the authenticity of the report which became current here today that Secretary Corteloux was about to resign from the cabinet, the secretary's sole comment was: "That is another lie."

## A Missourian Dead at 102.

St. Joseph, Mo., Dec. 13.—Joseph Hensley, 102 years old, farmer of Helena, Mo., died of heart disease today. He was a native of Germany. His widow, 100 years old, and nine children survive him.

## THE COUNTRY'S LATEST PUZZLE

## MAJORITY IN BOTH LAND CASES WILL BE SETTLED OUT OF COURT

Hon. Solomon Luna, National Committeeman, Returns with Cheering News.

## PRESIDENT AS MUCH IN RACE AS EVER

Hon. Solomon Luna, national committeeman from New Mexico, returned today from Washington and other eastern points, after attending the national republican convention and viewing the statehood situation at close quarters.

"We have a majority in both the house and the senate," said Mr. Luna to a Citizen reporter, a few minutes after he had stepped from the train.

"There is a strong sentiment among the members of congress for the admission of this territory to statehood and it is daily gaining ground."

"Congress is very busy—it has many important matters to consider so I can not now predict when we will secure a consideration of the statehood bill. However, statehood prospects are good."

When asked concerning the announcement of the president that he would not consider a third term nomination, Mr. Luna said:

"I do not consider that the statement by the president changes the conditions greatly. The president is just as much a third term possibility as ever in my estimation. However, he evidently does not intend to accept a third term nomination, even if an effort is made to force it upon him. Sentiment is very strong for Roosevelt for another term but it is not in the game to say what the convention will do. If the president would consent to run, I feel certain that he would be nominated, but it appears that his determination has been shaken in the least since the night of his election when he said he would not again be a candidate."

As a number of democratic papers in Arizona have been trying to make capital out of the fact that the call for the republican national convention only gives New Mexico and Arizona two delegates each, Mr. Luna was asked for an authoritative statement concerning this feature of the call. He replied substantially as he was quoted by this paper the day following the issuing of the call. Mr. Luna said:

"It has been customary to issue the call for only two delegates from New Mexico and Arizona. However, the usual number of six delegates from each of these territories will be seated by the convention as in the past. There is no disposition and there was no attempt on the part of the central committee to have it otherwise. The Arizonians have been so notified. New Mexico will send six delegates as before."

Mr. Luna said that financial conditions in the east were showing marked improvement. There is much speculation in Washington as to what action congress will take on the money question. There are over thirty bills of more or less merit already introduced and it is understood a number of others are being prepared. It appears to be the disposition of the congressmen to give the money question the closest scrutiny before any action is taken in order that when legislation is enacted it may be very effective.

Mr. Luna will remain in Albuquerque for several days and will probably meet Governor Curry on his arrival here tomorrow.

## SCHOOL TEACHER INTO A CISTERN

St. Joseph, Dec. 13.—Miss Agnes Canon, 29 years old, a teacher in the Stenacker school, committed suicide this afternoon by jumping into a cistern. She was a daughter of Thos. Cannon, a democratic politician. Miss Cannon recently was granted leave of absence from her work, owing to ill health and she is believed to have been temporarily deranged.

Indictments Were Founded Upon the Merest Technical Violations.

## SPECIAL ATTORNEYS WILL RETURN TO WASHINGTON

Santa Fe, Dec. 13.—(Special)—It is said that as a result of the recent visit of United States Solicitor General Hoyt to New Mexico and an investigation made by him, all the suits brought by the United States against the Nevada Development Company, the Kelly & Co., the American Lumber company, the Alamo Lumber company and Clark M. Carr, to recover territorial timber land, alleged to have been fraudulently acquired, will be settled out of court and that the special United States attorneys, who engineered the bringing of the indictments, are preparing to return to Washington bag and baggage.

Solicitor General Hoyt made a personal investigation of the cases on the direction of President Roosevelt and found that the indictments were founded upon the merest technical violations with no criminal intent. In a few cases, and no grounds whatever in other of the so-called frauds.

## THOS. W. PIRK DIES AT ST. JOSEPH, MO.

St. Joseph, Dec. 13.—Major Thomas W. Pirk, for many years a prominent democratic politician in Missouri, newspaper man and confederate veteran, is dead at his home in Platte City, aged 65. Pirk was chief of the Press Bureau of the Louisiana Purchase Exposition.

NORMAN ROSE.

The above picture is a good likeness of Norman Rose, a clever newspaper correspondent, who at the last minute has been permitted to accompany the big fleet to the Pacific. Norman Rose will write a daily log together with a series of interesting news stories for the newspaper association, of which The Citizen is a member. This paper will receive the full reports from the association as written by Mr. Rose and they will be exclusive in this territory and supplementary to the regular daily news of the Associated Press. In this manner The Citizen will be in position to furnish the most accurate news stories of any paper in the southwest on the big fleet in which every American is taking an active interest.

## PRESIDENT WILL REVIEW GREAT FLEET ON MONDAY

Officers Will be Entertained with Ball at Chamberlain Hotel Tonight.

## FOOTBALL CHAMPIONSHIP WILL BE DECIDED

Old Point Comfort, Va., Dec. 13.—Admirals of four divisions and captains of sixteen battleships of the Pacific bound fleet are busy today arranging the last details for presidential review, which will take place Monday morning and will precede the departure of the vessels.

A grand ball at the Chamberlain hotel tonight is to be the last shore entertainment for the officers of the fleet. Tomorrow afternoon the football teams of the Vermont and the Kansas meet to decide the championship of the fleet and in the evening Admiral Evans and the officers of the flagship entertain on board that ship. The reception will be followed by dancing on deck.

## Ships Almost Ready to Sail.

The last vacant berth in the imposing double line of Pacific-bound battleships was filled yesterday afternoon, when the heavily armored Minnesota, flagship of Rear Admiral Thomas, steamed into Hampton Road and took her place at head of the outward column. The Minnesota is the ranking member of the second squadron, and Admiral Thomas, who commands this squadron, has duties and responsibilities second only to those of the commander-in-chief, Rear Admiral Evans.

The size and dignity of the fleet that is to carry the flag through the Magellan straits and add such an important new chapter to American naval history is best emphasized by the fact that no less than four rear admirals are in command.

The battle at Santiago found a commodore and a captain temporarily assigned to flag rank as the commanding officers of the American forces. Dewey sailed into Manila bay as a commodore.

It was nearly 2 o'clock yesterday afternoon when, looking spick and span, the Minnesota slipped noisily into the harbor of Port Monroe and let go her anchors in the roadstead just opposite the Connecticut.

One of the most interesting items in the list of accumulating supplies is an evidence of the sweet tooth of the sailors. Great boxes of taffy and other candies were piled upon the dock today, consigned to various ships. They are to be placed in what the sailors now call the "demerated canteen."

It is a tribute to the thoughtful solicitude of the government for the wants of the men that in one of the supply vessels 15,000 pounds of high grade chocolate bonbons have been stored. This is to be drawn upon in case the canteen candies on ship are exhausted before the cruise ends.

## LA FOLLETTE AFTER NEBRASKA DELEGATION

Lincoln, Neb., Dec. 13.—Friends of Senator La Follette today began the fight for the Nebraska delegation to the next republican convention. It is announced representatives of La Follette will come to Nebraska in a few days to assist in turning the delegation from the two, who secured the endorsement at the last state convention.

## EMPEROR WILLIAM VISITS QUEEN WILHELMINA

Amsterdam, Dec. 13.—Emperor William of Germany arrived here from England and was cordially greeted by Queen Wilhelmina. The royal couple appeared on the balcony at the palace and were given an ovation by the assembled throng.

## THREE MEN COMMIT A DARING ROBBERY IN MISSOURI

Walked Into Bank and Told Cashier to Give Them All Cash That Was in Sight.

## MARCHED BANKERS OUT OF TOWN

Jump in Buggy With \$3,000 and Drive Away Telling Bank Officers Good Bye—Audacity of Highwaymen Unexcelled Even by James Boys.

Springfield, Mo., Dec. 13.—Two highwaymen entered the Bank of Aldrich at Aldrich, a small place near here last yesterday afternoon and at the point of rifles, forced the cashier, James Vaughn, and the vice president, Mr. Zettolson to hand over \$3,000 in cash.

Joining a third robber outside the bank, they forced the two bank officials to walk ahead of them several blocks to the outskirts of the town. There the robbers entered a buggy and drove away.

Poses are in pursuit but the robbers secured three hours start.

Cool and Deliberate.

The robbery was one of the most cool and deliberate holdups ever committed in the state of Missouri, the pioneer and daring work of the James boys not excepted.

The three men were dressed like laborers and walked into the city in such a way as to attract no comment. The men proceeded directly to the bank and one remained on the outside to keep watch, while two went into the bank and got the money. No display of arms was made until both robbers reached the cashier's window. Lifting their weapons above the railing, one of them quietly told the cashier to hand them what money was in sight. The counting before closing was just begun and the money, gold, silver and currency was laid out convenient.

Got Big Start.

One of the robbers went inside while the other remained on the outside and kept the bankers covered. Placing the money in sight in a sack the bankers were told to walk in front and they would not be hurt, but at any sign of outcry they would be instantly shot. Joining the third man, they told the bankers to "step up." A buggy was standing just outside the business part of the town. Jumping into it the robbers drove quickly away, telling the bankers good-bye.

Vaughn and Zettelson hurried back into town and gave the alarm but it was three hours before mounts and guns could be found for a sufficient number of men to form a posse large enough to follow the robbers. It is believed that the robbers had saddle horses farther on.

## CHICAGO NEGRO IS HUNG FOR MURDER

Black Climbed Through Window of Kindergarten Teacher and Strangled Her.

Chicago, Ill., Dec. 13.—Richard Walton, colored, hanged here today for the murder of Mrs. Louise Grant (white), last September. The murder was committed for robbery. Walton climbed through the window in Mrs. Grant's apartment and strangled her. He stole her jewelry, some of which he gave to a colored woman and it was through this that he was finally traced.

Mrs. Grant was a kindergarten teacher and highly respected.

## CHILD KIDNAPPED IN CHICAGO IS RECOVERED

Man and Woman Giving Their Names as Mr. and Mrs. Jones Were the Captors.

Kankakee, Ill., Dec. 13.—Little Lillian Wolf, who was kidnapped in Chicago last Saturday, was recovered today five miles south of Mokena, ten miles east of here.

The man and woman, who were her captors, were arrested and gave their names as Mr. and Mrs. Wm. Jones, but refused to discuss the kidnapping.

They declared they picked her up on the streets of Chicago, put her in their wagon and drove away.

## HAVE FOUR SETS OF PLANS FOR ARMY

Adjutant General A. P. Tarkenton arrived this afternoon from San-tao Fe and at 4 o'clock went into conference with the convention hall committee at the Commercial club on the subject of an army for Albuquerque that would be adapted to the requirements of the New Mexico militia.

Four sets of plans have been submitted for the new army and these will be gone over by the committee and Adjutant General Tarkenton this afternoon.

## ORCHARD CONTINUES TO TELL OF HIS LIFE OF CRIME

Says That He Was Allowed to Remain in a Hotel First Night After His Arrest.

## HE SAID THAT HE GOT \$4,000 FROM FEDERATION

The Murderer All But Broke Down When Victims are Mentioned—Assassin Is Especially Affected When Vindictor Killed are Spoken of.

Boise, Idaho, Dec. 13.—Harry Orchard concluded his direct testimony in the Pettibone trial this morning with a narration of his arrest, imprisonment and his confession. He said that he was placed under arrest after the murder of ex-Governor Steunenberg by Sheriff Nichols, but was allowed to remain in a hotel until the following day, when he was placed in jail.

In the meantime he said that he destroyed the letter he had on his person, including one from Jack Simpkins and one from Pettibone. Orchard said he received one letter from Pettibone after his arrest, but it was not signed.

He was shown a copy of a letter and identified it but it was not introduced in evidence at that time. The witness then told of the preliminary hearing at which he was bound over and of his conversation with Fred Miller, his attorney in regard to compensation for his services.

The defense objected to the introduction of this evidence but the court admitted it. Orchard said he gave Miller an order on Pettibone to pay the attorney all the money he had coming to him.

Orchard was asked by Hawley how much money he had received from the Federation at various times and he said it was between \$2,500 and \$4,000.

Orchard all but broke down when Hawley asked if he had any personal enmity against his victims, naming them one by one, and in each case he said he had none. He was then asked whether he was ever asked concerning McCormack and Beck, killed at the Vindictor mine, of whom he said he thought a great deal.

## EVERYTHING IS QUIET AT GOLDFIELD

Mine Owners Say Force Working is Larger Than Yesterday.

Goldfield, Dec. 13.—That the number of men working on the Consolidated and Mohawk properties today is greater than yesterday as claimed by the Mine Owners Association this morning. No strike breakers have arrived as yet though a trainload is looked for later in the day. There is no excitement.

After an attempt to resume work at the Mohawk mine yesterday, this morning the management decided that not enough men had appeared for work and gave up the attempt. This leaves the Consolidated as the only mine working in the camp and the most of the men are above ground. About the same number of men are there as yesterday.

It was announced today as a concession to the union miners by the employees association, the card system is to be abandoned and old men are permitted to go back to work whenever they renounce the Federation or not.

## OFFICERS WARNED TO TAKE NO SIDES.

Goldfield, Nev., Dec. 13.—President Roosevelt's communication from Washington to Colonel Alfred Reynolds, in command of the federal troops at Goldfield, to the effect that he must take no sides in the labor trouble and to interfere with no person unless such course is necessary to protect life after violence has been committed, which was posted in conspicuous places throughout the city by direction of the president, but a different complexion on the situation here.

This, coupled with the fact that General Funston is in Goldfield to view the situation and report to Washington caused a complete change in the program of the mine operators, who had hoped to be able, through Governor Barker, to have martial law declared in Goldfield last night.

## STATE OF IOWA WILL SOON BE DRY, ALSO.

Des Moines, Iowa, Dec. 13.—H. W. Myers, attorney general, notified the county attorneys in every county in Iowa today that he will insist on a strict enforcement of the Martin prohibition laws. His orders apply to those cities and towns in which a law does not live up to the closing law.

## A STANDARD CREW

Queensdown, Dec. 13.—The Norwegian bark Alert, which sailed from New York, November 27, for Gottenburg, Sweden, was abandoned at sea December 2. Its crew was rescued by the American line steamer Priestland, which arrived here today.

## RAILROAD DEPARTMENT

### 2-CENT FARE IS KNOCKING MILEAGE

Traveling Men Buy Tickets Instead of Scrip Books.

Topeka, Kan., Dec. 12.—Evidence of the manner in which the two-cent passenger rate law is cutting into the sale of mileage tickets of various forms by the western roads is furnished by the October returns. For that month the sales of the credential forms number 78, as compared with 3,022, for the corresponding month last year.

During the month 952,000-mile tickets were sold, as compared with 1,158 for the same month last year. Of the 1,000-mile form of tickets 143 were sold, as compared with 1,783 for the same month last year. Should the attempts be made to have the two-cent laws set aside, prove unavailing, it is not improbable that the sale of mileage tickets eventually will cease and commercial travelers, like other individuals, will pay their way as they go.

Agents of the various lines in this city report a falling off in the sale of interchangeable mileage books, which almost amounts to their elimination as a factor in the passenger business.

Before the passage of the Hepburn bill every traveling man and others whose business took them away from home to any great extent bought a mileage book. The tickets containing 1,000 miles were sold to the traveler at the regular rate of three cents per mile, or \$30 per book, and when the coupons were exhausted, the holder could turn in the cover and receive a rebate of \$10, which made his fare but two cents per mile.

Figures show that the average life of an interchangeable mileage book was only 17 days. The only persons who now seem to have any use for these books are those travelers who are out on an extended tour and some few wholesale houses who use this method to keep their clerks in touch with the expenditures of their traveling representatives than would be possible were they to pay cash for their tickets as they use them.

Figures on file in the office of Indianapolis agents show that this class of business has fallen off from 60 to 80 per cent and it is regarded as only a question of a very short time when the sale of the books will be abandoned entirely.

#### BRIDGES SPANING GILA HAVE BEEN COMPLETED

Phoenix, Dec. 12.—Announcement has been made of the completion of the two big steel bridges on the Gila Valley, Globe and Northern railroad, which is one of the chief Randolph lines.

One of the bridges is across the Gila river, while the other spans the San Carlos river. The combined cost of the bridges is approximately \$200,000 and a big force of bridge builders have been at work on the structures for more than a year.

With the new structures the railroad officials are confident that the troublesome Gila will not cause them inconvenience and delay again this winter, as it has in the past. Owing to the heavy freight and passenger traffic on the Globe line the wash-outs have in the past cost the road large sums of money and at times the road has been out of commission for several days.

The new bridges are much like the big steel bridge across the Gila on the Maricopa and Phoenix line. The heavy steel work is supported by gigantic concrete piers which were driven down into the bed of the river to the rock bottom.

The completion of the new bridges will shorten the distance between Globe and Bowie by about a half mile.

#### SANTA FE OFFICIALS

ALICE WEST BOUND  
F. A. Lehman, the new superintendent of transportation of the Santa Fe system since the advancement of C. W. Kouns to assistant to Vice President Kendrick, accompanied by W. E. Bailey, general auditor for the system, are en route west over the coast lines on an inspection tour and will arrive in San Bernardino today or tomorrow. They spent Sunday at Albuquerque and are carefully taking in all parts of the system, it being the first trip of Mr. Lehman since his advancement to the head of the transportation department.

W. J. Black, general passenger agent for the system, is also en route west and may reach the coast the latter part of the week.

President E. P. Ripley of the Santa Fe is expected west the latter part of the month and will be accompanied by several of the officials of the road. He will probably pass through here in about two weeks.

An old time Santa Fe conductor "high balled" his engineer at Kinsley and when the way came by he was unable to make connections. The crew discovered he had been "high balled" and they reached Taft and backed up to recover him from a string of blue oaths.

Engineer A. H. Linggo, of the Albuquerque division of the Santa Fe, living at Winslow, was fatally crushed at a siding six miles east of Ash Fork a few days ago in a peculiar

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

manner. Mr. Linggo was standing by his engine waiting for two east bound extras to pass before taking his train to Ash Fork. Two cars of one of the passing trains left the rails and sidwheeled Linggo's engine, crushing him between the engine and cars. He was taken to the company hospital in Los Angeles.

Mr. Arthur R. Dow, of Raton, and Miss Emma Riecke, of Sedalia, Missouri, were married December 4th at Sedalia. Mr. and Mrs. Dow returned to Raton Monday and will make this their future home. Mr. Dow is well known here in railroad circles, as he is a conductor for the Santa Fe on the second district. Mr. and Mrs. Dow have the best wishes of their friends.

The Mexican Central has announced its holiday rates. Round trip tickets are to be sold for one fare plus \$2. Many people visit points in Mexico during the holidays and General Agent Berna is expecting a heavy travel to begin as soon as the holiday rates go into effect.

Santa Fe superintendents are holding a conference in Topeka, having been called there by a special order.

## PERSONAL Paragraphs

Deaths Filed for Record.  
Mrs. M. J. Tilton to Mrs. Mable G. White, south 100 feet of lot 7 and 8, block 57, town of Albuquerque, \$1.00.

Hon. J. M. Freeman, attorney of Greeley, Colorado, who has landed interests in New Mexico, is in Santa Fe on business.

Angus McGilivray, of Estancia, who is engaged extensively in the sheep raising business in the valley, is in Santa Fe on business.

Articles of incorporation for the Simpler-Clark Shoe company were filed in the probate clerk's office today. Alphonse Simpler, Fred Simpler and Jesse C. Clark are the incorporators.

Mrs. David M. White left Santa Fe yesterday for Council Bluffs, Iowa, going thither with the body of her mother, Mrs. Mary E. Poole, whose mortal remains will be buried in that city. Mrs. White was accompanied as far as Denver by her husband.

Mrs. M. R. Ballou, wife of a wealthy cattleman of Grant county, is in the city the guest of Mrs. L. Williams, 509 West Silver avenue.

For the day, Mrs. Ballou will inspect on the limited this evening for Tipton, Mo., to spend the holidays with her sister Mrs. Sidney McLemore.

Rev. Adrain Rabeyrolle, who has been transferred from the pastorate of the Catholic church in Santa Fe to the Church of the Immaculate Conception at Las Vegas, expects to assume charge of his new parish in the near future.

Joseph E. Lacome, one of the proprietors of the Claire hotel at Santa Fe, suffered a stroke of paralysis at his home yesterday and his condition is serious. His right side is affected. Mr. Lacome's many friends will be sorry to learn of this, as although he has been quite sick for some weeks, it was understood he was rapidly recovering. His ultimate recovery is hoped for.

THE BIG SALE.  
The great clothing and furnishings sale of the Famous 214 1/2 South Second street will begin tomorrow at 2 a. m., and is under the management of Mr. Phillips of Chicago. The sale will last 15 days and some remarkable prices are being quoted. About ten clerks will be employed and a large business will be done. For three days the store was closed during which time the entire stock of clothing, hats and furnishings, valued at \$18,000, was classified, rearranged and marked down. Some of the goods are offered for less than the actual cost and the management agrees to refund the money to the purchaser during the sale if not perfectly satisfied. It is advisable to do your trading early as the sale will last only fifteen days. The clerks are polite and attentive and there are enough of them to avoid any waiting. Attention is called to the large display advertisement in this issue.

## MITCHELL DENIES HE EXPECTS POLITICAL OFFICE

Mine Workers' President Explains Why He Will Retire.

Chicago, Dec. 12.—John Mitchell, president of the United Mine Workers of America, denied in Chicago on the eve of the annual election of the great labor union of which he is father, that he was quitting the labor field to enter politics.

"I am quitting the labor movement solely because my health is impaired and I feel that I cannot give the organization the character of service that is required and properly expected of its president," said Mr. Mitchell. "I wish to say that no tender of any political appointment has been made to me."

President Mitchell's term expires March 31. Of the two men who are seeking the presidency, W. B. Wilson is the present secretary, treasurer and T. L. Lewis is vice president of the mine workers. The result of the election will not be made public.

We can furnish your Christmas stockings as well as the most practical gifts to fill them with. A pair of dainty slippers or shoes will give more satisfaction to both giver and receiver than anything else. When out shopping pay us a visit and you will find suitable presents for everyone of your family and your friends. C. May's Shoe Store, 314 West Central avenue.

KODOL is offered on a guaranteed plan for the relief of heart burn, flatulence, sour stomach, belching of gas, nausea, and all stomach troubles. It digests what you eat. It will make you healthy. Sold by J. H. O'Reilly.

The Lady Macabees will give a ball on Wednesday evening, Dec. 13, at Elks' hall. Tickets \$1.00. MACKABEE BALL.

## HOW HE HAS MADE A SUCCESS

L. T. Cooper Tells Chicago Reporter Why He Accomplishes So Much.

No man in recent years has been more successful in restoring human health than L. T. Cooper. During his stay in Chicago, and while he was meeting thousands of people daily, he gave the following reason for the remarkable demand for his medicine to a reporter:

Mr. Cooper said: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion."

"I know from experience that most of the tired, half-sick people that are so common nowadays have half sick stomachs. Put the stomach in shape, and nature does the rest. The result is general good health. My medicine does this. That is why fifty thousand people here in Chicago are using it who never heard of me until a month ago."

Among the fifty thousand mentioned by Mr. Cooper who used his medicine in Chicago is Mrs. Hilda Pfueger, living at 1204 Anisale avenue. This is the statement she makes concerning her experience with the medicine:

"I have been sick for years with stomach trouble. I was always hungry, but did not dare to eat much, as I had severe pains in my stomach, and also through my body. I could not sleep at night and was very restless. I was also very nervous, and would have severe headaches. I was constipated, and always felt bloated after eating."

"I had tried many remedies, but could secure no relief, until one day I noticed in the newspapers what wonderful results Cooper's medicines were accomplishing in Chicago. I decided to try them, and shortly after commencing the treatment I began to feel better. I did not have those severe pains in my stomach, and I could sleep at night; my appetite improved and I can now eat well. I am feeling like a new woman."

"I am very thankful to Mr. Cooper for what his remedies have done for me. They have restored me to good health, and I would advise any one who suffers as I did to try them."

We sell the Cooper medicines. They are easily the most celebrated preparations ever introduced in this country, growing in popularity daily. J. H. O'Reilly Drug Co., Second and Central.

of John Hall, a former employee. This was the entire amount sued for and the verdict was considerable of a surprise.

Hall obtained his sustained injuries while riding on a railroad velocipede and he alleged in his petition that the machine leaped the track owing to a defect in one of the wheels in the rear.

Hon. E. S. Ives, of Tucson, appeared in the case for the plaintiff. A motion for a new trial will be filed in court in Globe. Judge Judge F. S. Nave presided at the trial. A report states that the jury was out for six hours, the jury being divided between allowing damages for the entire sum and allowing nothing at all. An agreement was finally reached giving the plaintiff the entire sum sued for.

He Fought at Gettysburg.

David Parker, of Payette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weakness. Great alternative and body builder; sure cure for lame back and weak kidneys. Guaranteed by all druggists. 50c.

Best remedy for mothers to use is Kennedy's Laxative Cough Syrup. It tastes nearly as good as maple sugar. It contains no opiates. Sold by J. H. O'Reilly.

Good for ten cents on any purchase amounting to one dollar made in our store from December 2nd to December 24th inclusive. BENHAM INDIAN TRADING COMPANY, Railroad Ave. and First street.

Pittsburg, Dec. 12.—Charles H. von Cremers, who came here last January from Montreal and found employment in the hotelery department of a big East End store at \$11 a week, threw up his job last night and tomorrow will meet a German lawyer who has arrived from Bonn to turn over to him a legacy of \$440,000.

Von Cremers is about 35 years of age and a member of a noble German family. He served as a lieutenant in the German army, but, marrying beneath him, he was disinherited by his father. Later his wife died and he drifted to America, where he has been doing any work he could get. Some time ago an uncle died leaving an estate of nearly \$1,000,000 to be divided between Von Cremers and two cousins. Von Cremers' share is to be one-half. When Von Cremers received his last night he spent the entire \$11 taking the other clerks in the store.

## NARA VISTA IS MAKING BIG GROWTH

Farmers Raising Big Crops—  
Land Is Selling From \$5  
to \$10 an Acre.

Nara Vista, N. M., Dec. 13.—The commercial club of this place is following the plan of advertising for the business enterprises that are lacking in this growing young city. Among the needs of the town at the present time is a bakery, electric light plant, and an ice factory. John Egbert is the secretary of the club. At a meeting of the club held last Monday night in the rooms of the New Mexico Land and Trust Company a statehood league was organized.

T. G. Miller and son and L. N. Gregory, contractors and builders of this place have formed a partnership and have rented an office next to the Nara Vista Lumber Company. L. K. Egerton, nursery agent, is arranging with the Panhandle nursery to put in a tree park at this place. This will be a great convenience to the home builder of this community in helping him to beautify his grounds and select trees for his orchard.

Uncle Sam's free gift of land to his sovereign citizens has surely been a great help to the man who has been struggling for years to get ahead. Many such have made Nara Vista their home, and not a few who came here with scarcely enough to pay for their filings find themselves in possession of land that will sell for from ten to twenty-five dollars an acre.

The Nara Vista Cement Block and Brick plant under the management of C. A. Hamrick is proving a good business venture for the owners and a real boom to the building interests of the town. The quality of block produced from the cement works is good and makes a practically indestructible building.

Mr. J. D. Ross, an enterprising farmer, is showing samples of corn raised on his claim which he believed will make from thirty to forty bushels per acre. Mr. Ross and many others of this community have proven that successful farming is a possibility in their part of the arid west.

## GOVERNMENT OWNERSHIP FAILS IN CANADA

Loss For One Year Was Almost One Million—Cause Mismanagement.

Montreal, Can., Dec. 13.—Government railroads are operated at a loss in Canada, according to the Montreal Gazette. Both the Intercolonial and the Prince Edward Island roads are found to be expensive. The Gazette says:

The report for nine months of the minister of railways and canals tells the story of the latest effort to give the intercolonial railway a business excuse for existing. The result can be counted happy only by comparison with previous records of the unfortunate property.

In the fiscal year 1903-04 the working expenses were \$7,239,982; the earnings were \$6,339,311; there was an operating account of \$900,770. Things seemingly were being got ready for the general parliamentary election of 1904.

In 1904-05, the year in which the election actually took place, the working expenses were \$8,508,826, and the revenue amounted to but \$6,783,322. It cost in 12 months \$1,725,504 more to operate and maintain the road than it earned, and this though it traverses for the greater part of its length one of the well-populated and good traffic providing regions of Canada.

The situation, it was felt, was more than the country would stand, and though ministers vapored in parliament about the road being a splendid national asset, the testimony of its own records that it was a sink-hole for the people's money was too strong, and the force of public opinion compelled an effort to secure better things.

Here is the result for nine months from July 1, 1906, to March 31, 1907. Gross revenue, \$6,248,311; expenditures, \$8,030,171, and net revenue \$218,140.

This is good by comparison only, and only by comparison with the intercolonial itself in the past.

The road is 1,448 miles in length. Its capital cost to March 31 last is given as \$82,744,937. The return to the treasury is about a quarter of 1 per cent on the construction cost.

The construction cost is constantly increasing also. The expenditures on capital account—that is, of out of the national treasury—were \$2,765,176 in 1905-06 and \$1,506,209 in 1906-07. There is no other country with so valuable a property showing such miserable results.

The other government owned and operated railway is that on Prince Edward Island. It never has been treated as a business enterprise, and in all probability never will be.

The road is 261 miles long, and, though of narrow gauge, has cost \$1,307,299, or \$28,000 a mile. It earned during the nine months \$217,434, while the working expenses were \$283,145.

There was paid out of the national treasury to keep the road running over and above the revenue a sum of \$67,711. Another sum of \$91,710, included in the capital cost, was expended to provide facilities for carrying the traffic that did not pay. This, also, is in keeping with the railway's record. It is useless to object to it. It simply has to be endured.

There are those who think that the intercolonial should be extended westward, first to the Georgian Bay, then to the Pacific Coast. The road now runs from Montreal, the chief traffic point in Canada, through a noncompetitive territory, second only in traffic producing power to the Grand Trunk between Montreal and Sarnia. Before they can expect the people to agree to such a proposition the capacity of government appointees, acting for the government, to manage a business enterprise as such, must be established.

UNCLE SAM HAS SECURED NEW NAVAL BASE ON THE PACIFIC WHERE COALING STATION WILL BE FITTED OUT

Magdalena Bay, Uncle Sam's new naval base, is a large bay off the lower Gulf of California, where the Pacific Fleet will make its point of rendezvous. The bay will be the coaling station of the fleet for several years. A week's target practice there before going to the Philippines is part of the program. Magdalena bay was obtained by arrangement with Mexico. It is amply large and well protected by natural barriers.

Britannia still rules the seas, as the above picture shows, while Uncle Sam is now second in fighting tonnage, having passed France recently. In number of enlisted men Great Britain's lead is even more striking, as depicted in the black figures. England has 98,973 men, the United States 51,926, France 42,400, Germany 41,070, Japan 34,062.

## Socorro and Socorro County

Socorro N. M., Dec. 13.—Probate Clerk Sweet, Chas. Lewis and Mr. Newman, who left about a week ago for a trip about 150 miles west of here, have returned. They were on purely a business trip, but Mr. Newman shot a young panther, and being armed with only a six-shooter had quite a time in securing his quarry. Mr. Newman brought the pelt to Socorro with him and will have it made into a rug. Mr. Lewis returned to his ranch on the Jornada today.

Miss Helen Uiter, of Silver City, is the guest of Miss Helen Terry of this city. She expected to remain in Socorro for about a week. Miss Uiter has a brother attending the School of Mines at this place. Her brother will return to Silver City with her to spend the holidays at home.

Mrs. C. G. Duncan will entertain a party of her friends at her home on California street Saturday evening. Whist will be the order of the evening.

Margaret Sweet, daughter of Probate Clerk Sweet, is confined to her home with a slight cold.

The Ladies' Aid society of the Presbyterian church will give a moving picture entertainment at the church this evening. The proceeds are to be used to swell the fund for a new church. A feature of the evening will be the singing of the Holy City by Mrs. Prof. Richer, while the pictures are thrown on the screen by the stereopticon. A small admittance fee will be charged at the door.

Mrs. E. F. Noble will entertain a number of friends at her home on Park street Friday afternoon from 3:30 to 5 o'clock. The game of 500 will be the game.

Mrs. Blackwell, of Trinidad, was a visitor in this city yesterday. Mrs. Blackwell once resided in Socorro, and is well known here. She was the guest of Mrs. J. W. Terry. She left on No. 10 this morning.

J. N. Barnes, of this city, returned from Albuquerque today, where he was visiting his wife who is at the St. Joseph sanitarium. Mrs. Barnes was operated on Monday last and is in serious condition. Mr. Barnes received a telegram from his wife today, and will return to Albuquerque in the morning.

The regular monthly meeting of the school board was held on Monday evening the 9th, with Pres. J. W. Griffith in the chair. The regular routine business was transacted, and a number of friends paid. The school will close for the holidays on Dec. 20th, and reopen January 2nd, 1908.

The public schools of this city will give an entertainment Wednesday at the opera house. The play will be entitled the "sweet girl graduate." The proceeds will be used for the benefit of the library fund.

H. G. Finkle, fireman on the Magdalena train met with a very serious accident yesterday. While attending to his duties a gauge glass burst, throwing hot water and steam over the right side of his face. His right eye is severely scalded as well as the right side of his face. He was treated by a local physician, and is somewhat relieved, but will go to the Santa Fe hospital for further attention. It is hoped that the sight of the eye will not be destroyed.

Miss Effie Berry, assistant to Postmaster Kittrell, of this city, will spend the holidays in Las Vegas with a friend of that place, Mrs. Ernest Brown.

Appendicitis is due in a large measure to abuse of the bowels, by employing drastic purgatives. To avoid all danger, use only Dr. King's New Life Pills, the safe, gentle laxative and invigorant. Guaranteed to cure headache, biliousness, malaria and jaundice, at all drug stores. 25c.

## The Baby Problem

The Citizen yesterday contained a story—just a short story—to the effect that Dr. Lukens, superintendent of the Children's Home Society, had in charge, a ten day old baby of good but poor parentage, for which a home was sorely needed.

The work of this society, which is purely non-sectarian, is one of the most worthy in the land. It has undertaken the hard task of caring for the homeless, friendless, sin surrounded children of the territory, and surely there could be no object more blessed.

The fact that a baby only ten days old is practically advertised to give away, however, is something that ought to make the people of all conditions stop and think.

It is sad but it is true that in the American home of today there is getting to be less and less room for the baby.

Our president has called attention to race suicide; it is one of the most wretched conditions of our so-called higher civilization.

Parents of today—or rather those who should be parents—prefer in so many cases to have a few more luxuries in preference to rearing a child.

A few more clothes, a few more knick knacks, a few more amusements take the time and the money and the energy that ought by all means to be devoted to a much higher and a far nobler duty.

So it is that the childless home is gaining ground fast among the very people—those of the middle and wealthy classes—where good healthy American boys and girls should be reared.

On the other hand, men and women are passing from the prime of life into old age, childless only later to regret that their own folly robbed them of what would be their greatest blessing in declining years.

"We don't want any children," is an expression heard too often. It should be a badge of shame to every normal man and every normal woman who have entered the marriage contract under ordinary conditions. Thus it is that the society for the protection of children is having such a tax upon its resources.

It is true that in many cases the evil of race suicide is finding its own antidote in the childless homes of old age, where babies of indigent parents are received with open arms to be cared for by people who should have had children of their own.

These homes—of the moral and healthful, are provided with children of other parents, taken in charge later by the society.

But the growth of race suicide and the tendency to shirk the care of infants by the people of today, is the most disgraceful evil of modern times.

A gaudily dressed woman carrying a spiteful, ugly, much washed and pampered dog, is a sight to disgust any honest man or woman, and the man with the foppish attire, who is generally her consort is even more disgusting. Perhaps the evil will correct itself but in the meantime the nation, the state, the town and the home will suffer a loss that will be daily felt more heavily as the years roll around.

The Children's Home Society is a national institution—New Mexico has only one of its numerous branches.

The organization has taken a strong stand—not only against race suicide but against any attempt of parents capable of caring for children, to foist their offspring onto charity.

Moreover, the society will actively engage in prosecuting any one found making such an attempt—and it is sad to relate the society has already been forced to do so.

So far as possible, the society aids indigent parents to care for their children and prefers to leave the babe in its own home where possible. Only in extreme cases, does the society take charge of the child and when it does, there are always reasons enough to satisfy the laws of God or of man for so doing.

But the officers of the society, not only in New Mexico but generally over the country, are fighting a losing fight, so long as the morality of men and women is no higher than to crowd from the home its choicest blessing—the healthy American baby.

## Everybody Boosting

It is with pleasure that The Citizen sees the press of New Mexico laying aside every other consideration and taking up the cause of statehood and of the proper entertainment of the National Irrigation Congress.

Both go hand in hand now and the governor is personally visiting territorial cities and towns boosting for both.

This is the true spirit and under such conditions this paper does not believe that congress can long deny us statehood while the success of the Irrigation Congress is assured.

Among the strongest and most public spirited editorials to appear recently on the Irrigation Congress is one in the New Mexican yesterday.

It is of particular interest because Colonel Max Frost, its author, was a member of the executive committee of the third National Irrigation Congress, which was held here in Albuquerque many years ago.

Colonel Frost realizes the importance of the big congress to this territory and in speaking of it he says:

"Next year's National Irrigation Congress will be held in Albuquerque. The New Mexican is on record from the date of the first meeting of this important body as having been strongly in its favor and aiding its work in every way. The third national irrigation congress was held in the city of Albuquerque and the editor of this paper at that time was a member of the executive committee thereof. The late Walter C. Hadley who represented Brailillo county in the legislative assembly, upon the urgent solicitation of the New Mexican and also by its aid, secured a small appropriation of \$2,000 to defray the expenses of the congress in the year 1895, and at that time it was a success. It was still small and but 150 delegates were present but it was the beginning and it aided in the present great development and beneficial acts of the gathering. Since then the New Mexican has cordially and earnestly supported the movement yearly and it is beyond cavil that the recognition received by New Mexico and the many resolutions adopted favoring its desires have aided materially in the advancement of the territory. Under these conditions it is but natural that this paper should be ready and willing to help in every proper way to make the coming congress in Albuquerque a success, creditable to the people of the territory at large and to the Duke City in particular, and so that it may be a memorable and auspicious event in the history of the territory. The New Mexican will cheerfully and loyally support Governor George Curry and the board of control of the congress in the Duke City in its columns and otherwise to bring about this greatly to be desired end. The affair should not be considered local but territorial. It should be made an event in which the people at large should become greatly interested and which should be helped not only by all interested in irrigation and land matters but by all loyal and patriotic citizens who have the genuine advance and good of this commonwealth at heart."

Denver secured the democratic convention. This suits the west; it will bring money to Denver, and the assemblage of so many prominent members of the great calamity howling party will have a wholesome effect in enlarging the republican vote. 'Tis an ill wind that blows nobody good.

Denver is at least to be praised in no uncertain tones for her enterprise. Having failed to secure the republican national convention, she landed the democratic one. A city is like a man. If he don't know when he is licked he is never licked.

Among Mrs. Longworth's other claims to notoriety, is that she has now had appendicitis.

Poor old Russia will never get through that long list of court martials for the surrender of Port Arthur.

El Paso is going to help New Mexico entertain the National Irrigation Congress. El Paso "list naturally" will be anxious to see New Mexico.

## LOOKING FOR A GOOD TIME?

There are about as many conceptions as to what constitutes a "good time" as there are individuals, but there is one place in New Mexico, not very far from Albuquerque, where 99 out of every 100 people find what they are looking for. That place is the Valley Ranch, at Pecos, New Mexico.

Fresh country produce in abundance, horses to ride or drive, dogs, guns, traps, tackle, all at your disposal. The finest hunting and fishing in the territory. You can live in a house, a cabin or a tent, and come and go as you please.

You'll find plenty of company there, agreeable and refined; if you are sociably inclined, a favorite resort for ladies. Conditions ideal for recuperating, reading, hunting or loafing.

You CAN'T SPEND MORE THAN NINE DOLLARS A WEEK ANY WAY YOU FIX IT.

Inquire at The Citizen Office for further particulars, or address The Valley Ranch.

No other food deteriorates so rapidly as the Oyster. Its habitat is the ocean. It requires coolness and absolute freedom from exposure to the air in order to retain its delicate flavor and its wholesomeness. SEAL-SHIP OYSTERS are brought direct to us from the choicest beds of America. They are shocked into porcelain cases, sealed and packed in ice, which never comes in contact with the oysters. The use of the Seal-Ship carrier is the secret of their superiority.

San Jose Mts.

## ABOUT TOWN

California Naval Oranges at the Richelleu Grocery.

John S. Heaven has returned from a business trip to Gallup, N. M.

It doesn't come any better than you get it at the Richelleu Grocery.

Some more Kream Klips. Everybody likes them. Richelleu Grocery.

A marriage license was issued today to Juan Garcia Orozco and Carmen Quinto.

When you come to buy your Christmas dinner, don't forget that "Richelleu" stands for quality.

"Woman's Influence, Her Agency in Society, the Home and the World" will be the subject for the service to be held at Temple Albert this (Friday) evening at 7:45 o'clock. The public is cordially invited to be present.

Cal Ward was the victim of a bad runaway accident last night. His home ten miles from Belen.

Though he received a kick from one of his horses and the loaded wagon passed over his head he escaped with a few bruises from which he is now recovering rapidly.

Charles J. Young, aged three years, son of Mr. and Mrs. James Young, of 108 John Street, died this morning at 8 o'clock of pneumonia after a two weeks' illness. The funeral will be held tomorrow afternoon at 2:30 o'clock at the Immaculate Conception church. Father Mandallari officiating. Burial will be made in Santa Barbara cemetery.

The funeral of Mrs. Katherine Sogel, which was postponed on account of the lateness of the trains from the east, will be held tomorrow morning at 8:30 o'clock at the residence, 324 North Fourth street, services following at 9 o'clock at the Immaculate Conception church. Father Mandallari officiating. Burial will be made in Santa Barbara cemetery.

As the result of a fire at Torreon last Friday night, Juan C. Jaramillo superintendent of schools for Torrance county, met with the loss of his store building, with its entire stock of goods. In addition to the school records are gone, though they can readily be duplicated from those which are kept at Estancia, the county seat. The loss will cause considerable inconvenience in the little Manzanito town particularly to Mr. Jaramillo himself, it being understood that his residence which adjoined the store was also destroyed.

H. H. McCord, of the Mesilla Valley Development company, has returned from Las Cruces, where he went with the irrigation congress boosters last Wednesday. The company which he represents has already established offices at Las Cruces and in the city of El Paso and are now ready to open a branch in Albuquerque which will be placed in the charge of Col. D. K. Hillebrand. The company is the owner of several hundred acres of rich lands under ditch within one mile of Las Cruces and these lands are now to be placed on the market in small lots for farming purposes. Mr. McCord will remain in Albuquerque for some time with headquarters at the Alvarado hotel.

It gives one a feeling of peculiar satisfaction, these somewhat uncertain days, to know that his money is invested in securities that do not shake, and to lack this assurance is to encourage a fine growth of gray hair, nightmares, etcetera. The last little financial snap, from which we are just now recovering, has given the majority of the people a very decided jolt. Enterprises that were thought to be as firm as the hills went under, and they began to wonder if anything was absolutely safe.

"Absolutely safe" is a mighty strong term, and you want to be careful how you apply it. About the nearest approach to an absolutely safe investment is an investment in life insurance. Big railroads frequently fail, steel mills shut down, mines go into the hands of receivers, but you seldom hear of a life insurance company that has once got well under headway, being obliged to suspend.

True, you do not reap the dividends yourself, but your estate does, and it frequently happens that your estate needs the money more than you do. Did you ever think what an inestimable and lasting good would be brought upon this country in general, and upon the wife and children of the man of limited means in particular, if every man invested some of his yearly earnings in life insurance? A large percentage of our destitute children and poverty stricken, toll ridden women belong to men who during life were too

improvident and short sighted to avail themselves of this means of insuring the comfort of those depending upon them after they, themselves have passed away.

Albuquerque is rapidly becoming a life insurance center, and it is to be hoped that the man of the town will take advantage of the opportunities offered here to insure the future welfare of those depending upon him. Dr. W. G. Tight, president of the University of New Mexico, recently expressed himself strongly in favor of life insurance, and even dictated a letter to the local manager of the company in which he is insured, with a view of encouraging others to take out policies. He says, writing to the Pacific Mutual:

"I desire to say, as a policy holder in the Pacific Mutual, I have always been pleased with the method of doing business of your company, and I have every faith in its integrity and good management and feel that I can heartily recommend it to any one desiring insurance.

Yours very sincerely,

"W. G. TIGHT."

**WAGON LOADS OF  
TOYS AT HAWLEY'S**

This is my last year in the toy business. My store is full of them, and there are unopened boxes of them stored away. I believe I have more toys by a half than any other store in the city, and every one of them must get out by the first of the year. I need the room for other lines, and in order to get it, will cut and slash at the prices until you can't help but buy.

If you can't find what you wish among my toys, you are pretty hard to please. They run in value from one cent to twenty dollars, and so on at all stations between. A partial list:

Teddy Bears, old one and cubs, dolls, large and small, doll carriages, go-carts, trunks, houses, stoves, dishes, beds, and everything else a doll needs. Automobiles, tricycles, wagons, wheelbarrows, tool chests, trains, engines that run, hose carts, mechanical toys of all kinds, air rifles, trumpets, drums, balls, games, banks, cash registers, tops, Noah's arks, animal toys, etc., etc.

The point you want to remember is that **THEY MUST GO, REGARDLESS OF PRICE, and go at once.**

The Busiest Drug House Between Denver and Los Angeles

**SOUTHERN NEW MEXICO  
ADAPTED TO ORANGE  
GROWING**

Man From Phoenix Says It Is  
Has a Carload In  
Albuquerque.

"The southern part of this territory ought to become a rich orange growing country," said W. P. Crump, of Phoenix, Ariz., today. "The country and the climate are adapted to it and I believe oranges could be grown there as successfully as they are grown around Phoenix."

Mr. Crump is here with a carload of Washington naval oranges grown near Phoenix which he is introducing to the local market.

"The growers around Phoenix realize from \$150,000 to \$200,000 from the orange crop this year, I believe," continued Mr. Crump. "Between fifty and sixty cars have been shipped and more than a hundred carloads will be shipped before the season is over. The bulk of the crop goes to New York and Boston because it commands a higher price there. Early in the season Phoenix oranges netted \$8 a box in New York and now they are selling as high as \$17.50. We got our oranges on the market before Thanksgiving."

"When the Roosevelt dam is completed the Salt river valley will blossom out as a great orange growing and fruit raising country. Growers can get their oranges on the market sooner than the California growers and Arizona oranges command a much higher price."

**ALBUQUERQUE MAN  
IS MADE A MAJOR**

Amos W. Kimball, whose appointment as major in the quartermaster service of the United States army was confirmed by the senate yesterday, is a son-in-law of Perfecto Armijo, sheriff of this county, and is well known in Albuquerque and throughout the territory for that matter.

According to Col. John Borradale, of this city, one of the veteran army men of Albuquerque, Kimball first enlisted in the army at the first call of troops for the Spanish-American war in the California volunteers. He went to the Philippines during the early part of the Philippine insurrection and served two years before returning to the United States. He re-enlisted in the regular army in the quartermaster service and returned to the Philippines for the second time. His advancement in the army has been phenomenal.

**ELKS' BAND GIVES  
DELIGHTFUL DANCE**

The Elks' band gave its first annual ball at the Elks' opera house last night. About two hundred were present and spent a very enjoyable evening. Music was furnished by the Elks' band which was under the direction of Marcellus C. Grady.

The opening selection was from Lucia di Lammermoore by Donizetti, a most difficult piece, which was given a splendid rendition by the band. The players were encored again and again after each selection.

The committee in charge of the ball were as follows:

Arrangements—Ben Digneo, Norman Hodgson, George Davis, Marcellus C. Grady.

Reception—Charles White, E. L. Washburn, Leon Hertzog, S. H. Picard.

Floor—Harry Wellier, Clifford Hayden, Harry Hoffman and Harry Benjamin Nye G. Martin.

**WRECKED TRAINS  
ARRIVED THIS MORNING**

Trains delayed by the rear end collision of the two sections of passenger train No. 1 at Delhi, Colo., arrived in Albuquerque this morning. No one from this city was on the wrecked trains. The injured are: A. Staehle, Santa Fe, bruised head; H. S. Wilkie, Santa Fe, bruised head and hip; Mrs. J. S. Donnell, Long Beach, Calif., head cut; Paul H. Hinchman, Los Angeles, bruised; Mrs. N. M. Terry, Los Angeles, Cal., head and back bruised; Mrs. J. E. Huber, Los Angeles, Cal., back hurt; Anna L. Day, Galesburg, Ill., head bruised.

A pair of our up-to-date shoes or slippers comes always handy and as a Christmas gift they are more appreciated than anything. Our stock of stylish foot wear offers you just what you want and at prices you are willing to pay. C. May's Shoe Store, 314 West Central avenue.

Nothing more appropriate for Christmas than a photograph. One dozen cabinet photographs \$3.00.

**MILLET STUDIO,**

**EL PASO GIVES CURRENCY  
PARTY A HEARTY  
WELCOME**

Dr. Harrison Says The Pass  
City Will Help With Irriga-  
tion Congress.

Dr. George W. Harrison, who accompanied Governor Curry and Col. W. S. Hopewell to El Paso to stir up interest and enthusiasm in the coming irrigation congress, returned to Albuquerque today. Governor Curry and Colonel Hopewell will arrive in the city tonight.

"In El Paso we met the bankers and prominent business men," said Dr. Harrison. "We told them of what preliminary plans we have already formulated for the congress and they assured us of their support. Everybody showed a keen interest in the congress."

While in El Paso, Governor Curry, Colonel Hopewell and Dr. Harrison called on Judge A. B. Fall. The gubernatorial party was entertained by the business men of the city. A reception followed by a smoker, given in Macabbee hall last night.

Felix Martinez, representing the El Paso Water Users' association, Governor Curry, Colonel Hopewell and others delivered addresses. Business men gave short talks on irrigation and pledged their support to Albuquerque in caring for the coming National Irrigation congress.

**ALLEGED HORSE THIEF  
ARRESTED HERE  
TODAY**

Charged With Stealing Team  
and Wagon at Santa Fe—  
Property Recovered.

Closely following the receipt of a telegram from Sheriff Closson, of Santa Fe, Deputy Sheriff Armijo arrested a man, Jones by name, at a wagon yard near the Santa Fe tracks on the charge of stealing a team of horses and a wagon at Santa Fe.

The stolen property was recovered. Jones was taken to the county jail and Sheriff Armijo took possession of the team and wagon. Jones would make no statement this afternoon regarding the alleged theft. Sheriff Closson has been notified and is expected here this evening to take charge of Jones and the team and wagon.

**A WOMAN'S BACK.**

The Aches and Pains Will Disappear  
If the Advice of This Albuquerque  
Citizen Is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidney's fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it.

Wm. Sanguinette, living at 415 N. Sixth st., Albuquerque, N. M., says: "My wife suffered a great deal with pains in her back, which became severe when necessity required even a slight strain on the muscles of the back. She would sweep she complained of her back aching. Some three years ago she was advised to use Doan's Kidney Pills and procured a box. They afforded her quick and genuine relief and from that time on she has appealed to them as occasion might require and always obtained most satisfactory results. We are convinced that there is nothing more effective for disordered kidneys than Doan's Kidney Pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Bring us your job work. Prices the very lowest and the work will stand inspection anywhere. Business

**CHARITY GRAFTER IS  
GIVEN TEN  
DAYS**

John Lowry, a petty grafter, has been in Albuquerque only three days but in that time he learned that the Non-Sectarian Benevolent society had just cleared over \$400 from their charity ball and he began laying plans to spend a few weeks at ease here on the society's charity fund.

But his plans failed and he is now serving a ten days' sentence in the county jail for drunkenness. Lowry first went to Rev. Fletcher Cook, rector of the St. John's Episcopal church, and told the sympathizing minister a story of an uphill battle for health and a bare living.

Lowry represented himself as a victim of tuberculosis, unable to work and without funds. He was referred to Mrs. H. A. Ray, of the Non-Sectarian Benevolent society, and applied to her for help. He wanted a meal ticket and money to pay for a room.

Lowry made as pathetic an appeal touching a plea as a hungry hobo could, but Mrs. Ray became suspicious and deferred giving the meal ticket a day. That was yesterday. Last night Lowry was arrested on Central avenue by Officer Knapp for trying to sell bogus jewelry. He was drunk and had a half a dollar and many cheap rings in his pocket. He was taken to the county jail and passed by. Lowry admitted he had tried to work the Benevolent society for a week's board.

**ESTANCIA AUTOS  
ARE BUZZING AGAIN**

Big Cars Will Resume Carrying Passengers Across the Mountains Tomorrow.

Duncan McGillivray, the new general manager of the Albuquerque Estancia Automobile company, together with F. M. McCloskey his predecessor arrived in this city from Estancia yesterday afternoon in car No. 1 under the guidance of Chauffeur Pearl Bacon, and were followed shortly afterward by car No. 3 under Chauffeur Hendricks. A late acquisition who recently participated in one of the big automobile meets in New York City.

Mr. McGillivray reports that the line will resume operations tomorrow morning, the first car starting from Sturges' hotel at 8 o'clock and arriving in Willard at 2:30. The one coming in the opposite direction will leave Willard at 8 o'clock, arriving here at 2 o'clock in the afternoon.

The company has recently encountered considerable difficulty through bad roads and from other causes as a result of which they were obliged to withdraw the service for a time. They are now engaged in the construction of thirty-one miles of new road on the completion of which the route will be changed to go by the way of Frost. A new stop will then be included at San Pedro. When all is completed and smooth running assured application will be made for a lease contract between Albuquerque and the valley towns.

Those who have not tried the new line will find a ride through the Tularosa canyon and through the rapidly growing Estancia valley settling not only exhilarating but instructive as well.

**WHAT MARKET AFFORDS  
FOR SUNDAY  
DINNER**

Hot house lettuce has made its appearance on the local market and is bringing five cents a bunch and up. Other commodities remain the same and the nearness of Christmas does not seem to stir up any activity in the local produce market. Following is this week's quotations:

**Vegetables.**  
Celery, 5c up; Hubbard squash, 5c; pumpkins, 5c; potatoes, 10 lbs. for 25c; sweet potatoes, 3 lbs. for 25c; spinach, 2 1/2c; cabbage, 5c; beets, 5c; carrots, 5c; turnips, 5c; dry onions, 5c; green onions, 2 bunches, 5c; parsnips, 5c; lettuce 5c.

**Fruit.**  
Bananas, 40c; apples, 10c; lemons, 25c and up; pears, 15c; cranberries, 2 pts for 25c; coconuts, 10 and 15c; oranges, 30 to 90c doz; grapes, 2 lbs for 25c.

**Fish.**  
Sea bass, 15c; catfish, 20c; rock cod, 15c; flounder, 15c; oysters, 35c a pint; sunfish, 15c; salmon, 25c; smelts, 10c.

**Meat.**  
Beef, 8 to 20c; pork, 15 to 20c; veal, 15 to 20c; mutton, 10 to 20c; spring lamb, 12 1/2c to 20c; ham, 15 to 19c; sausage, 2lbs for 25c; spring chicken, 15c; geese, 18c; hamburger, 2 lbs for 25c; hens, 18c; squabs, 17 1/2c; ducks, 20c; turkeys, 24c.

**NEW FOUNTAIN IS YET  
WITHOUT A SITE**

Action in the matter of securing a site for the city's new drinking fountain for horses and dogs, a gift from the National Humane Alliance of New York City, will be taken at the meeting of the city council Monday night. The massive granite fountain has not been moved from the car in the Santa Fe yards yet.

R. W. D. Bryan, president of the New Mexico Humane society, who secured the gift for Albuquerque, is expected to return from Chicago in time to attend the meeting of the council Monday night and aid in selecting and securing a site.

Councilmen have about abandoned the idea of getting the Santa Fe to reconsider its action in backing out of an agreement to furnish a site for the fountain at the northeast corner of Central avenue and First street and are now casting about for a centrally located place to put the new gift. Several business men have suggested that the fountain be placed at Fourth street and Gold avenue opposite the new federal building.

**NORMAL GIRLS PLAY  
VARSITY GIRLS TONIGHT**

Other Games on the Tapes—The Casino Will be the Scene of the Conflict.

All is in readiness for the game tonight, the second of a series between the girls' basket ball teams of the Normal school at Las Vegas and the University of New Mexico at the Casino in Old Albuquerque.

The Normal quintet accompanied by a number of rooters arrived in Albuquerque this afternoon. The game promises to be fast and closely contested, as victory for either team means a whole lot toward the territorial intercollegiate championship.

The first game at Las Vegas Thanksgiving night resulted in a victory for the Normal girls and the varsity five has been practicing daily under the direction of Coach Head for the contest tonight.

The varsity girls' team will play the girls' team of the Indian school Dec. 17 at the Casino. Following the girls' game the boys' teams from the University and Indian school will meet. The varsity girls' and Agricultural girls' team will meet in Las Cruces January 17.

# \$500 A MINUTE TO ATONEMENT CONTRACTED PENALTY A GUEST OF ROOSEVELT

This Is What Edison Company Southern Philosopher and  
Agrees to Pay New York President Talk Things Over  
for Delays of Alarms. In Most Cordial Manner.

New York, Dec. 13.—A penalty of \$500 a minute—the heaviest ever proposed by the city—is imposed in a contract signed here with the New York Edison company. The company must pay this if it fails within three minutes after a fire alarm is given to furnish adequate power to operate the city's new high-pressure water mains between Chambers and Twenty-third streets.

The new high pressure fire service has been completed and John H. O'Brien, water commissioner, has made a contract with the Edison company to supply the necessary power to operate the mains. The power will be delivered to the two pumping stations which have just been completed at the squares and Oliver streets, on the East river, the other at Gansevoort street, on the Hudson river. The power contracted for must be sufficient to furnish a pressure of 100 pounds to the square inch—the greatest pressure used in any five miles in the country.

The officials say that in order to escape the payment of the penalty eternal vigilance will have to be exercised. Under the terms of the contract an alarm is sent to the Edison company immediately the extra pressure is needed in the high-pressure mains.

The last section of pipe for the new service will be laid today, establishing a record, according to Commissioner O'Brien, for the laying of water mains. The sixty miles of mains have been laid at the rate of five miles a month.

Though originally designed as an auxiliary service, which salt water would be used, it is doubtful if salt water will be used at all in the mains. Intakes have been placed in both rivers through which salt water can be pumped into the mains if desired, but Commissioner O'Brien said yesterday that only in the gravest emergency and the failure of the Croton water system would the salt water be used.

"Business men would rather have their merchandise burned than have salt water poured over it," said Commissioner O'Brien. "There is an erroneous idea that the fire department is hampered by a short supply of water. We have never had trouble from that cause. All of our trouble has come from the small, worn out mains, many of which were laid fifty years ago, and which are insufficient in capacity to supply all the water needed. The new high pressure will supply all we need."

This system has cost \$2,500,000, and will furnish protection to the wholesale dry goods district, which, in the opinion of the insurance men, is the greatest source of danger in case a big fire should ever get started. The service extends from Twenty-third street as far south as Chambers street. There is not much danger of fire in the skyscrapers, as they are all equipped with huge standpipes which only need an engine to become effective."

## RHEUMATIC FOLKS.

Are You Sure Your Kidneys are Well? Many rheumatic attacks are due to acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on ill dolefully with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Anselmo Armijo, living at 124 Cerrillos street, Santa Fe, N. M., says: "For several years my wife suffered a great deal from backache, pain in the back of her head and rheumatism. Medicines that she used proved of little or no avail until she commenced with Doan's Kidney Pills, which we had the good fortune to learn of and procured a box at Ireland's Pharmacy. The genuineness of this medicine as a cure for the kidneys was amply proven in her case. After using five boxes she was a well woman and has enjoyed good health ever since. I make this statement unhesitatingly, being prompted to do so that I may show my appreciation of this remedy, Doan's Kidney Pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## STYLISH SUIT.

A stunning costume of heavy suit has a short pleated skirt and cutaway coat. The elaboration is accomplished by the use of the fabric running in several directions. The dominating colors of the plaid are green and brown with deep brown velvet trimming the collar and cuffs.

# When You Have a Bad Cold

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements, and for the speedy and permanent cure of bad colds stands without a peer.

A Severe Cold Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used."

It is Equally Valuable for Children  
It Contains no Narcotic and is Safe and Sure  
Ask your Druggist for it.

a vast advantage he enjoys over other citizens.

"The bond, of itself, is a good investment, because a capitalist thereby puts accumulations where they are guaranteed by the government, and where they contribute nothing toward the expenses of town, county, state or nation.

"A great nation, the wealthiest in the world, with tremendous crops of corn, cotton, wheat and every other commodity essential to the needs, the comforts and the happiness of the human race, was told by these national bankers that the situation could not be relieved until sent to Europe and got a few sacks full of yellow metal.

"Actually possessing more substantial wealth than the cars and steamboats could haul, we were told that these commodities could not be marketed and business restored.

Greenbacks Were All Right.

"Since the foundation of the government the issuance of treasury notes has been a lawful prerogative which our presidents have not hesitated to exercise. Paper notes may be issued by the government at any time and in any quantity which the government thinks expedient.

"Judge Joseph Story was a federalist, just as Chief Justice John Marshall was, yet Judge Story delivered an opinion of the United States supreme court in 1819 in which he held that a note issued by the government was legal tender for any debt for which the act of congress made it receivable. This principle was affirmed in 1884 in the case of *Juilliard against Greenman*. Therefore, the government has constitutional authority to issue treasury notes and to make them legal tender for all debts whatsoever.

"At this time no act of congress is needed for the reason that the acts of 1862 and 1863 are still in force. There give the president the authority to issue \$450,000,000 in greenbacks. As we now have only \$346,681,000 of greenbacks the president could at once issue \$103,319,000 of real money and thus go far toward the relief of the country.

"Isn't it amazing that anybody should express a fear that a flood of government notes will ruin the country? For years and years the country has been flooded with bank paper of various kinds, which has not only caused the whole financial system to become rotten, but which has poured compound interest by the hundreds of millions into the coffers of these pet banks. Yet they have the infinite cheek to talk about flooding the country with irredeemable paper!"

"No," said Mr. Watson, in reply to a question. "I can't tell you what the president said. That wouldn't be right. But I think Chamberlain's Cough Remedy is like that to me."

A Methodist Minister recommends Chamberlain's Cough Remedy.

"We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis, Pastor Milaca, Minn., M. C. Church. Chamberlain's Cough Remedy is sold by all druggists.

## Kennedy's Laxative Cough Syrup

Relieves Colds by working them out of the system through a copious and healthy action of the bowels.

## BORN--AN IDEA

ABOUT THE RAREST THING THAT EVER HAPPENS IN ANY OLD WORLD OF OURS, IS THE BIRTH OF A NEW IDEA, AND THE FORTUNATE POSSESSOR OF A FINE LARGE ONE IS WORTH MORE TO HIMSELF AND MORE TO THE WORLD THAN THE SANTA FE RAILROAD.

PSYCHOLOGISTS, WHO MAKE A BUSINESS OF SORTING OUT IDEAS AND SPYING INTO THE WAYS THEY ARE BORN, SAY THAT AFTER YOU PASS THE AGE OF ABOUT TWENTY, YOUR IDEA-BEARING DAYS ARE ETERNALLY OVER. IF YOU ARE STILL ON THE TENDER SIDE OF THIS AGE—AND ARE WISE—YOU MAY WISH TO READ THIS STATEMENT AGAIN.

NOW THE ALBUQUERQUE CITIZEN CARRIES IDEAS IN STOCK, WHERE THEY CAME FROM AND WHO THEIR PARENTS ARE, IS NEITHER HERE NOR THERE. SOME OF THEM RUN ALONG THE LINES OF BUSINESS BUILDING AND TRADE GETTING. THESE IDEAS WILL BE SOLD, LEASED OR RENTED TO THE PUBLIC, FOR CASH OR ON THE INSTALLMENT PLAN.

THEY KEEP A YOUNG FELLOW AROUND THE OFFICE, HIM EVERY WEEK, TO DO NOTHING BUT LOOK AFTER THE ADVERTISING. THERE IS NOTHING HE LIKES BETTER THAN TO HAVE SOME ONE COME IN AND SAY: "HERE I WANT TO SPEND \$50.00 EVERY MONTH IN ADVERTISING. I WISH YOU WOULD TAKE THE WHOLE THING OFF MY HANDS, AND RUN IT AS YOU THINK BEST. I HAVE OTHER MATTERS TO CARE FOR, AND YOU PROBABLY KNOW MORE ABOUT IT THAN I, ANYWAY."

A NUMBER OF ALBUQUERQUE BUSINESS MEN HAVE ALREADY MADE SUCH ARRANGEMENTS—MORE ARE DOING IT EVERY DAY. ONE WISE MERCHANT, WHO ATTEMPTS TO DRAW A LINE DIVIDING THE PATRONAGE HE RECEIVES FROM ADVERTISING, FROM THAT COMING THROUGH OTHER CHANNELS, INFORMED US ONLY YESTERDAY THAT HIS ADVERTISEMENT IN THE ALBUQUERQUE CITIZEN DURING THE TWO MONTHS IT HAS RUN, HAS NETTED HIM SUFFICIENT TO PAY FOR THE ADVERTISEMENT FOR SIX MONTHS. ANY ADVERTISEMENT THAT PAYS FOR ITSELF IN DIRECT, IMMEDIATE RETURNS, IS A GOOD INVESTMENT, BECAUSE YOU GET YOUR MONEY BACK, AND THE EXTENDED PUBLICITY TO BOOT. BUT WHEN RESULTS ARE SUCH AS THIS MAN EXPERIENCED YOU ARE GETTING LITTLE LESS THAN A GOLD MINE.

THE FIRST MAN IN THE ADVERTISING FIELD REAPS THE FINEST OF THE WHEAT, THE LATE-COMERS GLEAN THE STUBBLES. DUKE, THE TOBACCO KING, IN CONVERSATION WITH THE WRITER ONCE SAID: "I BEGAN LIFE ON A STONE PATCH, WITH A WIFE, A BLIND MULE AND TEN DOLLARS. I AM NOW WORTH THIRTY TWO MILLION DOLLARS, BUT I HAVE SPENT FORTY MILLION IN ADVERTISING." PROBABLY NO MAN IN ALBUQUERQUE HAS HAD A MORE MODEST BEGINNING THAN MR. DUKE, AND THERE IS NO REASON WHY ANY MAN WITH EQUAL BUSINESS ABILITY AND POSSESSED OF THE SAME BUSINESS FORESIGHT, SHOULD NOT SUCCEED AS WELL. IF THERE IS, STATE IT TO YOURSELF, AND BE CONSOLED. IT IS AN OLD SAW, BUT A KEEN OUTER, THAT SAYS: "IT PAYS TO ADVERTISE."

## WATERWAY FOR MOST CRUISING AN

United States Well Supplied  
With Natural Courses--  
Development Needed.

Washington, D. C., Dec. 12.—If there is anything in talk, the American people are in earnest about perfecting a system of inland waterways and harbors in this country. Representatives of every state and city in the union will meet in Washington this week to urge upon congress not only the importance, but the actual necessity of getting down to a thorough and comprehensive scheme of improving the waterways of the United States. The National River and Harbor Congress plays no favorites and backs no particular movement. To it the great Mississippi river scheme heralded under the striking slogan, "Fourteen feet through the Erie canal and the Hudson as deepening Mochodoc Creek in Virginia. Its constitution prohibits it from looking with favor on one proposition and with disfavor on another. It seeks only the general improvement of the waterways of the country.

**Much Work Ahead.**  
Prophecy of hope see the day when ships will load at Chicago and carry their cargoes directly into the innermost of Central Asia, and the very heart of Europe. They see the time when American war vessels will ascend the Mississippi and maneuver around Chicago as freely as they now go to New York. They are looking forward to the day when ships may get their cargoes at Chicago, call at New York after passing through the Erie canal and the Hudson and unload at Liverpool. In their visions they see Toledo connected with Cincinnati by a deep waterway, and regard the project of cutting the canal from Pittsburgh to Lake Erie as all but ready for fulfillment. And to them there is a possibility, if not a probability, that some day there will be an all-American canal from New York to Puget Sound. Most of these seem like dreaming, but except for the latter undertaking they have all had the approval of congress in that it has voted appropriations for making surveys to establish the feasibility of the projects. And it is probable that long before the last of the living generation passes away all of these hopes will be realized.

**18,000 Miles of Opportunity.**  
The United States has the finest system of natural waterways on earth. It has 18,000 miles of navigable inland waterways, with the great ocean highways on every side. This means 18,000 miles of opportunity to promote cheap and advantageous communication between the various sections of the country. Already these waterways, only \$20,000,000 spent on their improvement, carry more freight than the 80,000 miles of perfected canals of continental Europe, which cost ten times as much. No one has authority to say that the idea of a waterway, which James J. Hill asserts that the business of the country has increased 110 per cent in a single decade, while the traffic facilities for handling it have increased only 10 per cent. Though statistics show that the cost of water transportation is only one-sixth of the cost of railroad movement, the country has almost lost sight of the waters in the building of its railroads. Mr. Hill estimates that it would take 75,000 miles of new railroad to meet the traffic conditions today, costing over \$5,000,000,000.

**Waterways Always Favored.**  
Far-sighted statesmen of the past were prompt to realize the importance of inland water communication. Washington, himself, was the father of the idea of a canal from the Potomac to the Ohio. He also secured the charter for and was the first president of what afterward became the Erie canal. Embarrassed by opposition to waterway improvements in the colonies, in that it would tend to cement them together against the mother country, Madison urged a canal between Pittsburgh and Lake Erie, along the identical route now being proposed for such a canal. Henry Clay was not much of a canal advocate. When they were planning to build the Erie canal he used all the force of his eloquence against it, saying that it would be squandering the public money on chimeras beyond the domain of civilization or of the moon. Today that canal carries a freight the weight of which is more than double that of all our vast export trade. It does the work of fifteen railroads at the cost of one. The railroad rates on the freight that passes through the Erie canal would amount to \$156,000,000 more than the water rates are.

**Great Saving in Cost.**  
The saving of cost by water transportation is little short of wonderful. With the Ohio River improvements far from completed the rate on coal from Pittsburgh to Louisville by water is only one-tenth as much as the rail rate. From Louisville to New Orleans it is only one-eleventh as much. A single powerful steamer, like the Sagamore, will now take the cargo of freight from Pittsburgh to New Orleans in fifteen days. It would take 100 railroad trains to carry the same coal. This load would be enough to furnish the rate for three big coal carrying steamers.

**Slow Progress Made so Far.**  
There are now projects for the improvement of waterways in the United States, the total cost of which will be half a billion dollars. All of these have been approved by the board of engineers, and the surveys for them have been made by Congressional authorization. But the mills of waterway improvement, like those of the gods, grind slowly. The improvement of the Harlem River, under the very shadow of Wall street, was undertaken in 1878, the total cost of which was to be less than \$3,000,000. The project is now just about half done. In 1875 it was decided to give the Ohio a slack water navigable depth of six feet. In all these intervening years the work has gone on, and finally it was decided to give a nine-foot depth of six feet. The rate the work has progressed from the inception of the project it will be a hundred years before it will be completed. However, they have been making better progress in the last few years, and if the work is continued at the same

rate of progress, the Ohio will have a nine-foot navigable depth fifty years hence. The total cost of the work is estimated at \$12,000,000.

**Crying Need for Waterways.**  
But the country seems to be awakening to the necessities of the hour, and under the stimulus of the river and Harbor Congress there may be hastening of the date of completing the more important projects. Last year's River and Harbor bill was the largest in the history of the country. Philadelphia is urging a twenty-seven foot channel across New Jersey to New York. Boston wants one from New York to Boston. Baltimore is asking for one from there to Philadelphia, and Pittsburgh is figuring on one to Lake Erie and another to Baltimore. Cincinnati wants one to Toledo, and Chicago is bound to get the enlarged Erie canal and the Illinois and Mississippi Rivers. Some of these days Duluth and Minneapolis will get the canal they are seeking. At the same time there are vast schemes for an inland waterway for the coastwise commerce from Boston to Galveston. There are only a few links to supply, and it takes no prophetic vision to see that they will be supplied. It has been figured that it will take only \$200,000,000 to build a fifteen-foot canal from Duluth to New York, utilizing the enlarged Erie Canal in the plan. When the last of the civil war pensioners dies, the pensions that are now paid to them, over a hundred million dollars a year, will be sufficient in fifteen years to build every canal herein mentioned, and leave enough surplus to extend the channel of the Red River of the North to Hudson Bay, and to establish profitable navigation into the very heart of Montana. Even now there may be some Washington riding horseback over the Great Divide figuring the cost of the Erie canal, and the interoceanic canal of the future. The 1,500 feet to be ascended in 150 miles from Fort Benton presents no greater engineering difficulty than the lifting of the Erie Canal 200 feet in five miles, or the raising of the Blackwater Canal to a point 1,100 feet above the Hudson.

**Will Help East and West Alike.**  
We might the Eastern cities by striving to establish water connection with the Mississippi Valley. The great agricultural region is tributary to the Mississippi, and will be the center of the Panama Canal. New Orleans and Galveston will be nearer to more of the future markets of the world than any of the Atlantic seaboard cities. If cheap water transportation is established with New Orleans from all interior points, and none is established to the Atlantic seaboard, there will be such a wonderful diversion of trade as would leave the eastern cities shorn of their foreign commerce, to which they owe their supremacy. Already, and without such facilities, Galveston claims second place as an export center of the United States.

The Mississippi and its tributaries drain the richest and most extensive farming region in the world, amounting to one-half the total area of the United States. It is as large as all Europe and Great Britain, except Russia. Napoleon said that the nation which controlled the Mississippi would become the mightiest nation on earth. America has fulfilled the prediction. When the time comes that the products of our factories are double, the crop of our fields increased by half, and we have to bring raw materials from the ends of the earth because our own supplies have been exhausted, nothing will suffice but deep inland waterways. It is that period which the River and Harbor Congress sees ahead of us, and for which it is begging the government to provide in due time.

**A Hard Debt to Pay.**  
"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, for my rescue from death by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by all druggists, 50c and \$1.00. Trial bottles free.

Fresh meats and poultry daily at  
Champion Grocery Co.

Take some reliable and safe digestive like KODOL for Dyspepsia. KODOL is the best remedy known today for heart burn, belching and all troubles arising from a disordered digestion. It is pleasant to take and affords relief promptly. Sold by J. H. O'Reilly.

Rush Yet to Come.

## ALIEN LABORERS SEND MONEY AWAY

More Will Go to Europe This  
Christmas Than Ever  
Before.

New York, Dec. 12.—While the rich men of the country are being pinched by the present financial stringency, and are sacrificing gilded securities to obtain ready money, figures seem to indicate clearly that the poorer classes have not suffered accordingly. Particularly do the Christmas figures bear out the fact that it is a "rich man's panic."

More than \$7,000,000 was sent by foreign-born persons in New York City during the last month, to their kindred abroad, and the Christmas rush at the New York postoffice money order windows is just beginning.

During the month of November the amount of the foreign money orders, certified to at the general postoffice in New York City, amounted to \$4,531,827.09, against \$5,490,123.75 for the month of November last year. This vast fortune is now enriching the paucity of nearly every land under the sun, and scattering Christmas presents everywhere.

Extra facilities will be put in at the money order department to accommodate the throngs of foreigners who are daily clamoring for the strips of paper which carry gladness and comfort from America to the poor of their families left at home.

Money orders for the month of November in New York City, for the month of November last year, were as follows: To Austria (1907), \$188,536.88; (1906) \$171,701.29; to France (1907), \$25,627.73; (1906), \$22,389.92; to Germany (1907), \$2,100.68; (1906), \$79,123.59; to Switzerland (1907), \$13,869.94; (1906), \$13,244.45.

The paucity of Sweden were entered this year by \$21,456.65, which went out of the New York postoffice during the week ending Nov. 30, and is a decided increase over the sum sent by Swedes in this month of last year.

**Writes Witty Note Then Suicides.**  
La Junta, Colo., Dec. 12.—After he had apparently destroyed all letters and papers and even torn the band from his hat in an effort to conceal a second hand store. He died before persons, attracted by the shot, could reach him.

The following note was found lying on the couch beside his body: "Well, boys, put me away some old way. I have \$6 and a watch and a tent. The watch should buy me a box. Let the marshal know about my death. You need not try to find my name."

In a vest, found in the bottom of his suitcase, were several letters which the man had overlooked and which revealed his identity. They also showed him to have been a member of No. 233, Knights of Pythias. The authorities are investigating in an effort to locate the man's relatives.

He was about 30 years of age and was in the last stages of consumption. Sickness is believed to have been the motive for his act.

Trials Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by all dealers.

Rush Yet to Come.

"And, be it understood, the rush

won't be at its highest notch until about a week from now, Dec. 14 and 15 are usually our biggest days, and this year the money orders will be kept flying well high until Christmas Eve, for the foreigners here have an idea now that the Lusitania and the Mauretania can get their Christmas gifts over the water in time, even if they delay the sending up to withing a few days of Christmas.

The public generally has formed an idea that because half a million foreigners have gone back home from America during the last year, there must be hard times among them, discouragement, idleness and some sort of thing. Not at all. They have gone to bring back their families. It should be considered that immigration figures at Ellis Island show that this has been a record year in the number of who have come here. The exodus is only about in proportion to other years, considering how many have come into the country.

It is during the winter months there is less excavation work in progress because of the snow and the condition of the earth, and many of the foreigners who engage in this sort of work find mid-winter a good time to go back home and stick the spring is at hand. They then come back and with them come wife, children, father, mother, cousins and the usual crowd.

"Money order figures are the best evidence, and this year they show more than ordinarily that the foreigners in New York are prosperous."

Where the Money Goes.

For the last week of November this year \$234,721.51 went to Great Britain in money orders from the General postoffice in New York City, averaging about \$5 each. Mr. Elliott, thinks that this money is nearly all in the nature of Christmas presents from chambermaids, coachmen and servants generally who come to New York from Great Britain. Last year the amount for the last week of November was only \$200,000.

Italy and all foreign countries for the week ending Nov. 30, as usual, the total this year being \$609,962.71, against \$471,837.67 for the same week in 1906.

More money went to Hungary than to Germany. The money orders showing \$155,770.31 to Hungary and only \$72,100.68 to Germany.

Other figures for the last week of November, this year and last, are as follows: To Austria (1907), \$188,536.88; (1906) \$171,701.29; to France (1907), \$25,627.73; (1906), \$22,389.92; to Germany (1907), \$2,100.68; (1906), \$79,123.59; to Switzerland (1907), \$13,869.94; (1906), \$13,244.45.

The paucity of Sweden were entered this year by \$21,456.65, which went out of the New York postoffice during the week ending Nov. 30, and is a decided increase over the sum sent by Swedes in this month of last year.

Writes Witty Note Then Suicides.

## GROWTH OF THE GREAT SOUTH- WEST

The Railroads That Have  
Been Built Within a  
Score of Years.

In the northwestern corner of the vast territory of the Mexican republic, American energy and capital are pushing forward great enterprises. For twenty-five years the Mexican Central railway on the coast and the Sonora railway on the west, 200 miles apart, have furnished access to the outskirts of this vast wild region, but new roads now are pushing in to and over the mountains and along the valleys.

In 1893 the Sonora railway, together with the New Mexican & Arizona, was leased by the Santa Fe & Southern Pacific company, which thus obtained a 350-mile branch reaching down from its main line in Arizona to the Gulf of California in Mexico.

In 1903 the Southern Pacific acquired the Cananea, Yaqui River & Pacific, which had built forty-four miles of road from the Arizona border at Naco to the Cananea copper mines and possessed large powers for extensions.

Under the name of the "Harriman Line" the Southern Pacific has commenced the construction of a great line from Guaymas southward to Toluca, 750 miles, and has also undertaken an extension from this line northward starting from Corral, sixty-four miles east of Guaymas up the Yaqui river to the two forks of the stream, one of which a branch will follow to reach an arm of the El Paso & Southwestern at Nacozari, and along the other a parallel branch will run to the Arizona border. These lines, which will open a now inaccessible country abounding in mineral wealth, will cover something like 400 miles.

A branch to Topolobampo on the coast also is projected. The line toward Guadalupe already is built from Guaymas to Navajo, 118 miles with a branch from Corral north to Buena Vista, twenty-six miles. The Sierra Madre & Pacific has been organized to absorb and extend the Rio Grande, Sierra Madre & Pacific under concessions from the Mexican government covering nine lines, as follows: Nueva Casas Grandes to Nallurachic, Chihuahua, 140 miles; Nallurachic to point at or near Santo Tomas, on the Chihuahua & Pacific, about twenty miles; Nallurachic to Temosachic, ten miles; Temosachic to Derick (thirty-two miles), built; Derick to a point at or near Guzman, at or near Temosachic to Malcocha; Malcocha to Topolobampo, and Malcocha to Guaymas.

The projectors propose to reach the Pacific at two ports, Guaymas and Aguilera. The distance from Topolobampo to Aguilera is about 400 miles, and the length of the branch from that line to Guaymas about 250 miles. Altogether, the length of new road proposed, including the line north from Temosachic to the Arizona border perhaps 150 miles, and the branch from the old road at Lake Guzman west along the Arizona border seems to be over 1,000 miles.

From El Oro on the Rio Grande, opposite Presidio del Norte, Tex., to Topolobampo, on the gulf, the distance by the route of the Kansas City, Mexico & Orient railway is 627 miles, of which 122 miles are covered by the tracks of the Chihuahua & Pacific.

To the remaining 505 miles undertaken by the Orient company there are completed eighty-seven miles from Minaca, south and sixty-four from Topolobampo north, leaving gaps of eighty-two and 200 miles to be filled, the latter including serious work over the range.

From the portion of the El Paso & Southwestern which extends from Naco to Benson, Ariz., a branch has been built, chartered in Mexico as the Nacozari railroad; from Douglas south to Nacozari seventy-seven miles, reaching important copper mines. The extension by the Southern Pacific of its Cananea, Yaqui River & Pacific branch north to Nacozari will complete another route from El Paso to the gulf, and doubtless will be followed by other developments in that interesting region.

Press Bulletin No. 133, just issued by the New Mexico Agricultural college, is of general interest to farmers, particularly those who have only recently taken up homesteads in this territory. One of the largest crops in many localities is onions and the following by Prof. Fabian Garcia, should be carefully considered:

In Station Bulletin No. 52 it is reported that better results can be secured from onions transplanted as early as possible in the spring. Very satisfactory results have been obtained from onions transplanted as early as the 15th of March, while those transplanted after April 1st have always produced smaller and inferior crops. The writer has often received letters from onion growers in different parts of the territory complaining that the greater per cent of their onions produced scullions. The reason for this has been, in most cases, the very late planting of the onions.

The early planted onions at the station usually mature from the last of July to the first of September, depending upon the variety. Onions ripening at this time do not sell so well as later in the season. If onions could be planted late enough in the season so that they would ripen a heavy crop of good bulbs about the last of October, they could be disposed of to better advantage and in larger quantities. Therefore, in order to settle this particular point the department of horticulture conducted a "Time of Seeding Test" during the past season. Fourteen 1-200 of an acre plots were laid off February 1, 1907, to be seeded once every fifteen days. The first plot was seeded February 1st, while the last one was seeded August 14, 1907.

The variety used for the test was the Brown Australia which is a small growing kind but a good keeper.

When you need a good reliable liniment, try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel moistened dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists.

**A Good Liniment.**

**Onions Should Be Planted Early.**  
Press Bulletin No. 133, just issued by the New Mexico Agricultural college, is of general interest to farmers, particularly those who have only recently taken up homesteads in this territory. One of the largest crops in many localities is onions and the following by Prof. Fabian Garcia, should be carefully considered:

In Station Bulletin No. 52 it is reported that better results can be secured from onions transplanted as early as possible in the spring. Very satisfactory results have been obtained from onions transplanted as early as the 15th of March, while those transplanted after April 1st have always produced smaller and inferior crops. The writer has often received letters from onion growers in different parts of the territory complaining that the greater per cent of their onions produced scullions. The reason for this has been, in most cases, the very late planting of the onions.

The early planted onions at the station usually mature from the last of July to the first of September, depending upon the variety. Onions ripening at this time do not sell so well as later in the season. If onions could be planted late enough in the season so that they would ripen a heavy crop of good bulbs about the last of October, they could be disposed of to better advantage and in larger quantities. Therefore, in order to settle this particular point the department of horticulture conducted a "Time of Seeding Test" during the past season. Fourteen 1-200 of an acre plots were laid off February 1, 1907, to be seeded once every fifteen days. The first plot was seeded February 1st, while the last one was seeded August 14, 1907.

The variety used for the test was the Brown Australia which is a small growing kind but a good keeper.

While the plants were planted at different times it was very interesting to note that all of those that ripened a crop matured about the same time and these were harvested on September 10th, 1907. The early plants produced good round bulbs; the medium late produced only a few bulbs and a great many scullions; while the very late planting produced nothing but scullions.

A better idea can be had of this test from the following table which gives the yield per plot and the date of planting:

Date	Sound Bulbs	Scullions
Feb. 1	129 3/4 pounds	6 pounds
Feb. 15	94 pounds	7 pounds
Mar. 1	135 pounds	15 pounds
Mar. 15	13 pounds	15 pounds
Apr. 1	7 pounds	15 pounds
Apr. 15	5 pounds	15 pounds
May 1	4 pounds	4 pounds
May 15	4 pounds	4 pounds
Jun. 3		

The other five plants were practically failures and were not even harvested. From these results at the station and where seen that the onions are planted the smaller and inferior the crop. It is quite evident that under our conditions onions cannot be depended upon to mature good and heavy crops late in the fall.

FABIAN GARCIA.

Dec. 6, 1907.

## PRESIDENT WILL NOT UNDER- CORTLEYOU

However, He Will Not Permit  
Any Interference With  
Taft's Plans.

Washington, Dec. 12.—Because of his personal relations with Secretary Cortleyou and his regard for him the president has thrown nothing in the way of the movement for the secretary of the treasury.

He has not run along diplomatically, sidestepping matters that would place him in the position of deliberately sitting down on the whole thing. But he did not mean that his diplomacy and his regard for Mr. Cortleyou should be mistaken by the Cortleyou boomers holding offices and used by them to do harm to Secretary Taft.

That is just what has followed, however. Some of the Cortleyou people have told the president that they can do nothing for Secretary Taft in the south, and that Cortleyou is the only man who can carry the delegation of certain states.

But the president is dubious about that. He has an idea that the whole thing is done to secure delegations that may later be thrown to Hughes, Foraker or Fairbanks. He will not attempt to put the screws on the officeholders who are outspoken against Taft, unless he reaches the conclusion that their whole aim is to take delegations to the national convention ostensibly for one man but really ready to spring to another in whom the president does not have confidence. The president knows that he cannot afford to give instructions to federal officials on the way where shall support Secretary Taft, but he does know that he has the power to prevent them using what he considers unfair and improper means to induce his friend and political favorite.

That he has now passed down the line his determination that his appointment shall not be of the nature of a bribe, especially by misrepresenting his own position, is expected to create something of a sensation politically.

To the minds it further forebodes possible unfriendly relations between the president and his secretary of the treasury, who is cognate of the latest stand taken by the chief executive. There is a feeling between Mr. Taft and Mr. Cortleyou when the former returns and has reported to him some of the manipulations of the Cortleyou boomers, who predicted in well informed circles.

The president realized from information that he has received, that he is fast being placed in the position of being a federal official, especially in the Cortleyou campaign. He is flatly determined that this shall not continue, and in the last few days he has spoken unmistakably to the effect that he will be supporting Cortleyou and talking against Taft now understand that they cannot any longer do this at the expense of the president's regard for and loyalty to Taft. If they do not cease attacks upon Secretary Taft the president strongly intimates that he will be trouble.

The information that the president is that Mr. Hitchcock, first assistant postmaster general, who is the acknowledged manager of the Cortleyou campaign, has been telling various republican emissaries those from the south, that the bottom has been knocked out of the Taft boom and that the president is perfectly willing that southern republicans shall give their support to Mr. Cortleyou. The straight facts are that the president is by no means satisfied that Taft has lost any strength, has no idea of deserting him for Cortleyou, and anybody else; believes he will be nominated and elected and will stand by him to the last.

Senator Culberson, leader of the senate democrats, is holding long conferences with all the democratic senators to fix them on the committee to which each desires to be assigned. He has no doubt that they will all just so they will be satisfied; as if very frequently happens that several senators will often want the same place. But Senator Culberson will come as near giving satisfaction to all as may be possible; for it is well known that his only wish is the welfare of his friends and the best interests of his party.

George Curry, for governor, is Nathan Jaffa, for secretary, and Capt. David J. Leahy for United States attorney; all for New Mexico, will be reported by the proper committees favorably and confirmed by the senate as soon as their names are reached in order.

**A Good Liniment.**

## MONTANA WILL BE A LARGE CITIZEN

Easterners Are Landing There  
by the Car Load, With  
Goods and Stock.

Montoya, N. M., Dec. 12.—(Special.)—J. E. Coker, proprietor of the wood and coal yard has also installed a feed and grain mill, and is grinding a good quality of meal from corn raised locally.

Montoya is the distributing point for mail for the star routes of Sanchez and Ogilvie, N. M. Mail is received from and distributed to those points three times a week.

Montoya is to have a Presbyterian church organized here in the very near future. Rev. Warner H. DuBoise, pastor of the Presbyterian church at Tucuman, is looking to extend the missionary interests of his church along the line of the El Paso & Southwestern railway. He is now in conference with the home mission committee relative to locating a pastor over the church here and it is expected that by the first of the year this church will have a settled pastor on the field. A site is also being secured for a church building.

It is reported that no less than twenty-five lots changed hands here last week, most of them will have buildings constructed on them as soon as carpenters can be supplied. Among those who are building at present time are S. R. Henard, Ogilvie and Meester, Charles Hunt, The Montoya Trust and Savings bank.

The Montoya Commercial club, under the energetic leadership of President C. C. Hawkins is doing some effective advertising for the part of the country. The club is planning to not only take up the matter of boosting the numerical growth of the town and vicinity but will also endeavor to improve the farming situation and in finding out the best crops for cultivation in this region, and also aid the farmers to get a market and transportation facilities for their products among the crops that it is believed will grow especially well is onion, which when grown in large enough quantities to get to market in carload lots brings high prices, from two to four hundred dollars an acre can be raised from this crop.

The new town and community of Montoya is claiming its share of the phenomenal influx of colonists to New Mexico, not a day passes that settlers do not arrive here to enter business or farming. A dispatch from Amarillo, Texas, to this place states that there are fifteen or twenty loaded with stock and farm and household goods leaving that place for New Mexico points several of which are in the hands of the state. They are billed from points in Iowa, Missouri, Kentucky and Oklahoma. The newcomers to New Mexico are a different class than have settled up new country in the past. The colonists of today are the well-to-do farmer of eastern points who has sold out his rich farm for a small fortune and is coming west to spend the forty to one hundred dollars in a new home where he received for his eastern farm to improve a piece of Uncle Sam's free land, and unlike his prototype he will be able to hold out and hold on to his farm until it begins to respond to cultivation and produce a living.

Dr. T. C. Rivera has decided to locate in Tucuman for the practice of his profession. He has a good farm and is now looking for a good tenant. The doctor has put over two thousand dollars in improvements on his claim this year.

W. C. Hawkins, the editor and proprietor of the Montoya

# DOLLAR SIGN'S ARIZONA SHOULD NOT PRESS CLAIM

Explanation of How It Happened Not Entirely Accepted by Authority.

Several attempts have been made to explain the origin of the mark that is used as the sign of the dollar, and to show how it came into use. And it need not cause surprise that none of the explanations has seemed to receive ratification. The principal ones that have been given are these:

(1.) That it is a combination of the initials of United States.

(2.) That it is a union of the letters P. and S., from the Spanish word pesos.

(3.) That it is a modification of the figure 8, the dollar is called a piece of eight.

(4.) That it is derived from a representation of the Pillars of Hercules found on dollars once in common use.

(5.) That it is a contraction of H. S., the mark of the Roman money unit.

These are all theories only, each one having, perhaps, a slight probability in its favor, but without any firm basis of fact or history to rest on.

Whatever resemblance there may be between our dollar mark and some of the characters that have been used before and elsewhere, it is clear that this mark is of American origin and came into use after the adoption of the federal currency.

Formerly and for a long time, all accounts in the United States were kept in sterling money. At the close of the revolution the currency in use had become greatly depreciated, and the depreciation was different in different sections of the country. While no mint had been established in this country, the Spanish dollar and its subdivisions were in general use.

The word dollar was not coined in this country. It is the English equivalent of the German thaler, the unit of the German monetary system. It was in use in England as early as 1553. It varies at different times in the value of the dollar, dollar, daler, dalar, dolar and dolloer.

Difficulties at First.

Much difficulty and confusion resulted from the effort to substitute the federal names for the \$, d. to which the people had so long been accustomed. And this difficulty was vastly increased by the fact that these signs had different values in different sections of the country. An illustration of this difficulty and of one of the methods of overcoming it, is afforded by the practice of Philadelphia.

The accounts of that bank at its organization in 1782 were kept in Mexican dollars and nineteenth parts thereof, and its notes were given for dollars and nineteenth parts of a dollar. In 1783 it issued notes for all small sums as one-nineteenth of a dollar. The bank adopted this plan for the reason that at that time the dollar in Pennsylvania equaled seven shillings and six pence; and the penny was the one-nineteenth of a dollar. Up to this time no sign had come into use to designate the dollar.

DeWitt's little Early Risers are the best pills made. Sold by J. H. O'Reilly.

SAYS THREE HUGS ARE WORTH \$30,000

Defendant in Suit Says Her Landlord Forcibly Embraced Her—He Denies It.

St. Louis, Dec. 12.—If Mrs. Ora Butts, a divorcee, who conducts a theatrical boarding-house in East St. Louis, wins a suit she has brought, her landlord, John Kickham, former sheriff of St. Clair county, who has a wife and three children, will have to pay her \$30,000 for having, she alleges, hugged her three times and attempted to kiss her.

Mrs. Butts continues to occupy Kickham's house at No. 20 North Eighth street, although he has turned off the heat and water supplied from another building he owns across the street, and has filed suit to eject her. The ejectment suit was filed a few hours before Mrs. Butts' suit was filed at Belleville. In it Kickham charges that she refuses to pay her rent.

Mrs. Butts told a reporter yesterday that Kickham caressed her and tried to kiss her Oct. 3 and Oct. 10 in her home, and that each time a boarder there, whom she calls Thomas, and whose full name she refuses to give, came to her aid when she screamed.

In the evening of Oct. 15, Mrs. Butts says, Kickham sent for her to come to his office and the next day she was there.

After she got into the room, she says, he turned off the lights and locked the door, and again forced his caresses on her until she called his pet name.

She says the dog caught his master's collar and pulled him away. Since then, Mrs. Butts says, she has refused to pay rent, and she says she will continue to withhold the money until damages are sent to her for the attacks. She is borrowing water from a neighbor and using stoves to heat the house.

Kickham says Mrs. Butts is trying to get her rent free, and that he proposes to put her out of the house at any cost. He declares her charges are absurd.

A Reliable Remedy for Croup. With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for ominous symptoms. There is no cause for anxiety, however, when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as a child becomes hoarse or even after the croupy cough has appeared, the attack may be averted. Mrs. E. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists.

Statement of J. F. Wilson, Former Delegate to Congress-Census First.

Tucson, Dec. 12.—That Arizona should not press her claims for single statehood during the present session of congress, is the opinion of Colonel J. F. Wilson, twice a representative for the territory to the body of national lawmakers, as expressed in an interview with a Star representative last evening at his room in the Santa Rita. Colonel Wilson is of the opinion that the more effective way would be to prove to the president and members of congress that Arizona's population is sufficient to entitle it to statehood, then go forward and press our claims.

Mr. Wilson said: "There is a marked reaction from the business situation as it was a month or six weeks ago. Everywhere that I have been over the territory there are only indications of a general revival of business activity, but the revival itself has already set in. The money market in Arizona who really desire statehood would be more effectively put forth if directed, not in presenting bills for statehood to congress, but in urging our delegates to present a bill authorizing the taking of a government census of the population of this territory."

President Roosevelt, in a recent conversation with Senator L. Flint of California said that he believed that both Arizona and New Mexico were entitled to separate statehood, because of the fact that "How had expressed themselves against joint statehood when the proposition was submitted to them. The president further said that he would heartily endorse any statehood bill that could be shown that the population is equal to that of the number of inhabitants required for one congressional district, which is in the neighborhood of 200,000. I believe the president is a sincere convert to our right to statehood, therefore would it not be much better to get a bill through congress ordering a census taken?"

"The growth of Arizona in the last two or three years has been very remarkable and there are undoubtedly more than 200,000 people within our borders. The census should be taken and that fact established, then either at the second session of this congress or at the first session of the sixtieth congress, Arizona should have every prospect of success. Oklahoma had such a federal census taken and it is generally understood that the result of it had much to do with the enabling act."

## PERSONAL

### PARAGRAPHS

W. D. Hallister is in El Paso on business.

R. W. D. Bryan will return from Chicago Sunday.

Mrs. Louis Becker was in town yesterday from Belen.

Born, yesterday to Mr. and Mrs. Bailey Newell, 509 West Gold avenue, a baby girl.

E. L. Evans and L. A. Towne, of this city, are registered at the Sheldon hotel in El Paso.

James J. Ford, western freight agent for the New York Central lines, is an Albuquerque visitor today.

Lorenzo Garcia and wife, of Magdalena, are in Albuquerque on a protracted visit with Mr. and Mrs. Juan Garcia.

Mr. and Mrs. Albert W. Chase, of Ketchikan, Colo., are in Albuquerque doing their Christmas shopping and visiting friends.

Mr. and Mrs. R. E. Avery of Socorro, are in the city visiting and trading. Mr. Avery is proprietor of the Winkler hotel at Socorro.

Roy Corhan is back from a week's hunting trip in the neighborhood of Albuquerque. He reports having discovered three perfect skeletons near the old Tonque Pueblo ruins.

H. W. Schoeder, one of Albuquerque's best violinists, who has been filling a musical engagement at Clifton, Ariz., for the past four months, returned to the city this morning. Mr. Schoeder says Albuquerque is good enough for him and has decided to remain here indefinitely.

J. B. Mayo has just returned from a two months visit to New York and Boston, where he has been carrying on a series of experiments with the ore from his mine. As a result he has concluded to abandon the old process of treating with the amalgamation process for a new one, through which he is enabled to save the copper which he previously lost. The gold also will be preserved under the system which is complete and economical in all particulars.

TOO LATE TO CLASSIFY.  
LOST—On Wednesday morning on Central avenue between Second and Third streets, a Persian lamb collar, trimmed in sable. Suitable reward if returned to room 35, Barnett building.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by all dealers.

Palace Car and Desert brand fruit at Champion Grocery Co.

Look for the black and white sign at 216 1/2 South Second street, the place to get your suits and overcoats at one-fourth their value.

Holiday Gifts  
at Right Prices

## To the People of Albuquerque

This is the 25th year that we have catered to you in the line of

Diamonds Jewelry  
Cut Glass, etc.,

Suitable for Christmas Gifts. Quality is the criterion of cheapness, and for 25 years it has been our aim to sell goods that will give satisfaction. We are not making startling discounts on goods that have been marked too high, but are giving the very best values possible. Compare our cut glass (the Celebrated Hawks) especially, with that offered elsewhere, and you will surely bring us your trade.

Remember, we are headquarters for everything in the Jewelry line, Diamonds, Watches, Rings, Necklaces, Bracelets, Combs, Lorgnettes, Purses, Shopping Bags, Silver Tea Sets, Plated Sets, Knives and Forks, Carving sets, Water Sets, Toilet Sets, Manicuring Sets, Jewel Cases, Silver Clocks, Gilt Clocks, Grandfather's Clocks, Canes, Umbrellas, and an unequaled assortment of Cut Glass.

The MAJESTIC RANGE is the product of the world's achievements in stoves. All the best features of all other makes have been incorporated in this one, and objectional features eliminated. As a result, the MAJESTIC probably stands nearer the line of perfection than any other range. It saves fuel and your time and produces heat when you want it, where you want it, and in quality as desired, all at a minimum of attention. If you have never used the MAJESTIC, you have never used the best.

New Holiday Novelties Arriving Daily

If the best  
money can buy

is true economy, then our clothes are the cheapest in this city. We tell you this quite frankly, and our reputations make the statement one of fact. They are Stein-Bloch clothes, and made upon merit, out of fabrics of pure wool, by tailors paid to do the best work in the world. We believe you are interested in this statement.

Suspender Sets (1 pair suspenders, arm-lets and Garters) - - \$1.25 and \$1.50

Men's Slippers \$1.75, \$2.00, \$2.50 and \$2.75 including the popular Faust or new slipper—the finest on the market—\$2.75
