CONSIDERED TO EARTH.

Imposing Ceremonies Attending the Obsequies of the Late W. W. Griffin this Afternoon.

The Masonic Order's Sad Duty—The City in Mourning—Floral Offerings—At Rest.

The mortal remains of the late W. W. Griffin were consigned to their earthly resting place at Fairview cemetery this afternoon. The ceremonies attending the interment were of the most beautiful and imposing character and pathetic in their solemnity.

At noon all business in the city was practically suspended, the business houses following the example of the banks and closing at 12 o'clock. The hour designated for the funeral was 2 o'clock. Before that time a large concourse of people had gathered about the family residence and continued to increase in numbers. Vehicles blocked the adjacent thoroughfares. At the appointed hour the members of Montezuma lodge, A. F. and A. M., to the number of fifty took their place in front of the house, each wearing an immaculate little apron, the officers carrying some modest insignia of rank, and all wearing white gloves, a bow of crape on their left arms and a sprig of evergreen on the lapel of their coats. This pall bearers on behalf of the Masonic fraternity stepped from the line and entered the dwelling. There they were joined by the pall bearers selected by the family and the casket containing the body was tenderly raised and transferred to the hearse. Proceeding to the church of the Holy Faith, Episcopal, most impressive religious services were conducted by Rev. E. W. Meany. The church was full to overflowing with friends of the beloved dead, in fact the building had not the capacity for accommodating more than half of those in attendance. The beautiful music by the choir increased the impressiveness of the sad occasion, and everywhere in the assemblage were evidences of sorrow and keen sympathy, showing in what high regard the deceased was held by all classes of people.

As the casket rested in front of the altar some note of the more attractive floral offerings could be taken, especially those emblematical of Masonry. There were the cross and crown, the latter of golden everlasting flowers, the cross of pale lilac colored chrysanthemums—the flowers of peace. The square was made of snow pure, white flowers laid out on a cushion of rich purple chrysanthemums. The Masonic compass was of yellow flowers; the triangle was composed of deep scarlet double geraniums. A magnificent wreath of white chrysanthemums was noticed, and a sprig of snow white carnations and double white violets. In baskets there were pale yellow chrysanthemums, Marchal Neil roses and clusters of white flowers, and the offerings in such designs as the star, crescent, cross and urn were very numerous.

Leaving the church edifice, the Masonic body led the way toward Fairview cemetery. Then came the hearse festooned in crape. The casket was of a rich cloth-covered pattern, mounted in silver, but it could scarcely be seen for the profusion of flowers that lay upon it and on either side of it. The pall bearers accompanying the hearse were, on behalf of the Masonic order, Hon. E. A. Fiske, Col. Max Frost, Mr. Arthur Boyle, Mr. H. Lindheim, Gov. L. B. Prince, Mr. W. G. Simmons, Mr. A. Walker and Col. J. P. McGorty, designated on behalf of the family were: Hon. S. P. Leonard, Judge Felipe Delgado, Gen. E. L. Bartlett, Mr. James L. Johnson, Mr. Lehman Spiegelberg, Major R. J. Pallen and Mr. Julius H. Gerdes. Immediately following the hearse were the family carriages and following them came a deputation of twenty men from the city fire department. Then came citizens in vehicles, which made the solemn procession more than a mile in length.

At the grave the casket was placed in position with its beautiful floral accompaniments, and the touching formula of the Masonic order was begun, the members responding to the master. The Masonic prayer and exhortation followed and after some further responses the Masons marched thrice about the grave, closing with the solemn prayer:

"May we all be recompensed at the resurrection of the just. Amen."

Among those from various points of the territory, who were present to join the local Masonic lodge in its ceremonies on this sad occasion, are the following:

Hon. W. L. Rynerson, Major Llewellyn and Col. Fountain, of Aztec lodge No. 3, Las Cruces; Judge J. A. Walker and W. W. Slack, of Chapman lodge, No. 2, of Las Vegas; Ferdinand Schmidt and Chas. Bowker, of Union lodge, No. 4, Tiptonville; also E. J. McLean, of Albuquerque; Richard Green, of Cerrillos, and John S. Barnum, of Lamy, representing Masonry in their respective localities.

WATER FOR 100,000 ACRES.

Contract Let for Constructing the Fort Selden-Las Cruces System of Irrigation Canals.

Major W. H. H. Llewellyn, of Las Cruces, one of the chief promoters of the Mesilla Valley Irrigation & Land company, is in the city to-day. This new irrigation enterprise is now under way, and will completely solve the water problem for that far famed valley. The main canal is being taken out of the Rio Grande at Point of Rocks, a few thousand feet above Fort Selden. The river bottom at this point is of rock, and the flow of water there has never been known to

fail. The canal is thirty feet wide on the bottom, and thirty-five miles in length. It enters the head of the Mesilla valley about six miles above the village of Yuma. From there, the canal is to be carried to the Texas line, twenty miles above El Paso, where any surplus of water may be discharged into the river. Several storage reservoirs are also to be built in connection with the canal. This ditch is much higher than any now in existence there, and its waters will cover all the lands now irrigated by the present ditches, and much more on higher ground. By this means an abundance of water for irrigating 100,000 acres will be secured. The work will cost \$250,000. It is a private enterprise, the money coming from England. The work will be completed by May 1 next, a contract to this effect having just been closed with the Rosefield Construction company of Denver. Their grading outfit of 200 teams and a large force of men will begin work next week at Fort Selden. The incorporators of this important enterprise are: Harve H. Hadden, of London, England; J. C. Smith, of Wichita, Kas.; W. H. H. Llewellyn, S. R. Newcomb and F. W. Smith, of Las Cruces.

Rheumatism

Is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

ROUND ABOUT TOWN.

The remains of A. W. Conger, the Fort Union post trader, were shipped this morning to his family at Kansas City.

Hon. W. L. Rynerson, Col. A. J. Fountain and Major Llewellyn, arrived from Las Cruces this morning and are at the Palace.

Arthur Robinson, representing Browne, Manzaneros & Co., Las Vegas, "came home" last night and left for the east this morning.

W. A. Leonard, of the Silver City Enterprise, and "Judge" A. J. Loomis, also of Silver City, representative of S. A. Keen & Co., New York, are at the Palace.

Judge James H. Walker and daughter and Mr. A. S. Stevens are visitors from Raton, coming down to attend the funeral of Mr. Griffin. Judge Walker and Miss Walker will be here several days.

Mr. F. C. Gay, of the passenger department of the Santa Fe and one of the most thoroughgoing railway men in the west, is a guest at the Palace to-day. He has a host of admiring friends hereabouts.

Major Maynard, paymaster, U. S. A., and his faithful clerk, Mr. Fred Cimaren, are in the city to-day on official business. They paid off the troops at Fort Marcy, turning loose several thousand very welcome dollars.

There never before was seen in the southwest so excellent a display of flowers as was sent by loving and sympathizing friends to the good citizen whose death the people mourn to-day. They were designed and prepared at Clarendon gardens within twenty-four hours previous to the funeral.

Mr. Brown, of the Taos Valley Herald, now in the city, states that the town of New Taos will be laid off about March 1, and that a company is now forming to construct a reservoir along Taos creek that will afford the new town plenty of water and irrigate about 3,000 acres of adjacent farm lands. He thinks also that the coming summer will see Taos valley connected by rail with the D. & R. G. line at Ojo Caliente siding.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities which its success is based and are abundantly gratifying to the California Fig Syrup company.

PERSONAL.

Adam Landenslager and family are in from Bonanza.

Hon. Pedro Perera came up from Bernadillo this morning.

Richard Green, the leading Cerrillos local dealer, is in the city on business.

Hon. F. A. Manzaneros, of Las Vegas, passed through the city last night on Enbudo to visit his mother. He returns to-morrow.

Messrs. A. M. Grunsfeld and E. J. McLean came up from Albuquerque to attend the obsequies. Also John S. Barnum from Lamy.

Louis E. Rogers and wife, Mrs. S. Seacord and daughter, of New York, and J. S. Bath and wife, of Illinois, are registered at the Exchange.

"Special Notice."

Drs. Cave, Smith & Co., the painless dentists, will be in Santa Fe from December 16 to December 22. They extract teeth, no matter how difficult or sensitively situated, without the least pain or use of gold or other fillings inserted by our new method without any excruciating pain. Hundreds of testimonials from the best people in the west. The doctors are regular graduates and are responsible for all statements they make. Call early and secure appointments. All work guaranteed. Dental parlors at the Palace hotel. Consultations free.

Notice to Shareholders

The regular annual meeting of the shareholders of the First National Bank of Santa Fe for the election of directors for the ensuing year and for the transaction of such other business as may come before it, will be held at the banking house, Tuesday, January 14, 1910, at 3:30 o'clock p. m.

R. J. Pallen, Cashier.

Santa Fe, N. M., Dec. 12, 1909.

A TWO MINUTE CHAT.

Major Bradford in Manzano Valley's Progress—No Irrigation Needed—The Railroad—San Pedro's Growth.

Major J. M. Bradford, a well known farmer in the Manzano valley, is in the city on a visit. He claims that the garden spot of New Mexico is in his region, 100 miles south of Santa Fe, for the reason that no irrigation is necessary there to produce abundant crops of corn, small grain, fruits, and in fact nearly everything that the American farmer would care to produce. Much fine public land is to be had there and settlers are coming in and locating at a most gratifying rate. Major Bradford thinks these six Colorado families, which passed through here last Tuesday, will have no difficulty in finding in the Manzano valley homes that will be as comfortable as the thriving colony of people from the vicinity of White Plains has located in the Cienega district of the Manzano region, and they are making many improvements, among other things erecting a large lumber and grist mill. If the Santa Fe Southern road should push its line into the Manzano country, as now seems probable, there will be opened up one of the choicest farming sections in the west.

Mayor Bradford came up by way of San Pedro. Said he: "They say things are a little quiet there just now, and I guess they are, but it scarcely appeared so to me; the place has improved wonderfully since I was there four months ago. The steady development of the rich mineral leads and the preparations going on at the Copper company's works certainly indicate a bright future for the camp. Cerrillos, too, is making surprising progress; both camps have flattering prospects."

A DIFFICULT TASK DONE.

How the Artesian Well Drillers Removed the Scrap Iron in the O. & W. Well.

Messrs. LeFever and Riddle, the Colorado men who are under contract to put down here a \$1,000 foot test well in search of artesian water, have certainly demonstrated their ability to cope with almost anything likely to obstruct their work. It was stated the other day in dividend had dumped a lot of scrap iron down the old 180 foot hole, the plant would have to be shifted a few feet and a new well commenced. This was the intention, but first it was deemed advisable to try and remove the obstruction. The task was a difficult and hazardous one, but the citizens will be glad to know that it has been most successfully accomplished.

The drill was set at work and the iron scraps were literally chopped into fragments. The sand pump was frequently used and the chips were brought out quite easily. Mr. Donoghue brought in a quantity of the clippings and turned them over to Capt. Sol. Spiegelberg, president of the company. Since removing this obstruction the drills have gone down nearly 100 feet, and the drill is now working not far short of 300 feet.

J. A. Jameson and wife, of Las Vegas, are at the Exchange.

The Hillsdale Ditch company is the name of the association constructing the new ditch on the La Plata. F. V. Williams is president, J. R. McElhennan secretary and C. Q. Cato treasurer. Articles of incorporation have been prepared and were forwarded to Santa Fe by the last mail. Work was commenced on the ditch some weeks ago and is being pushed with vigor. The ditch heads about two miles south of the city. It is to extend a distance of fifteen miles, and will cover, when completed, about 12,000 acres of fine land on the mesas or meadows, between the La Plata and Mancos. Seven teams are now at work and about two and a half miles of the ditch are already completed.—San Juan Independent.

Baby one Solid Rash

Ugly, painful, blotched, malodorous, no rest by day, no peace by night. Doctors and all remedies failed. Tried Cuticura. Effect marvelous. Saved his life.

Cured by Cuticura

Our oldest child, now 6 years of age, when an infant, months old, was afflicted with the most violent skin disease. An ordinary remedy failing we called our family physician, who attempted to cure it, but it spread, with a most incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched and malodorous. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticura. Keen-edged the effect was simply marvelous. In three or four days the rash was brought back, leaving the little fellow's person as white and healthy as though he had never been attacked. In addition, your valuable remedy saved his life, and today he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred. —GEO. B. SMITH, Attorney at Law and Ex-Prov. Atty., Ashland, O.

Boy Covered with Scabs

My boy, aged 9 years, has been troubled all his life with a very bad humor, which appeared all over his body in small red blotches, with a dry white scale on them. Last year he was worse than ever, being covered with scabs from the top of his head to his feet, and continually growing worse, although he had been treated by two physicians. As a last resort, I determined to try the Cuticura Remedies, and an happy to say they did all I could wish. Curing them according to directions. The humor rapidly disappeared, leaving him healthy and content, and performing a thorough cure. The Cuticura Remedies are all you claim for them. They are of their worth in gold. —GEORGE F. LEAVITT, No. Andover, Mass.

Cuticura Resolvent.

The new blood purifier and solvent of humors. Remedies, internally and Cuticura, externally.
