LAKE VALLEY

(Lake Valley School—Home Stand class)

Mr. Noted, who was in charge of the Community's property here for the past year, resigned and left on a prospecting trip in the northern part of the state.

Mr. Grewly Dunn and Mr. Arch Lautzen with their wives are going on a trip to the Empire Valley in California where the S. E. Co's are feeling a lot of excitement. The lady will go for the hunting season and Mr. Dunn is going to stay in California for a while.

Mr. H. B. Langbein who has been living in the town for some time, will return to our town in a few days.

Mr. and Mrs. Emmott Dunn from Canada are stopping on their way to the Empire Valley, will remain here a few days.

The great interest in the Democratic candidate for Governor, will no doubt bring some more local interest here in a few days.

Mr. Dunn, who has been looking over the situation of the Empire Valley, will return to Calgary, in a few days, and will be back to his farm around the 1st of November.

The homecoming of the Siamese tiger, after his long journey, was the talk of the town.

Mr. Dunn, who has been looking over the situation of the Empire Valley, will return to Calgary, in a few days, and will be back to his farm around the 1st of November.

Shake Off That Grip

When Spring comes, with its changeable weather and your expense, it is best to chase away all the symptoms left after an attack of grip. That evil disease leaves you weakened, and when it victimizes to "do its bit" he expresses himself to the risk of a second attack, at which he is less prepared, and which may have grave consequences.

There's Danger in Delay

April and May are pomegranate months. At this time a weakened system is a constant source of danger, for the pneumocon and grip infections are in the air, and after a long winter the system is so weakened as to resist them. For the health, remove the cause, and improve the digestion.

For Quick Relief

This reliable treatment is recommended to remove the waste from the body, control the contained poison and allow the inflammation to come to, remove the regular specific and tone up the entire system to resist disease. A well inn is best. But in his or her case conditions is exceptional. Take the medicine—Perauna.

Perauna Tablets are always ready to take. Pop may be taken in a box with one and word off outside and call. The liquid medicine in your home is a great safeguard. Protect your family.

The Perauna Company, Columbus, Ohio.

SYNOPSIS OF THE GAME LAW.
(As Effective March 18, 1915)

Note—Sec. 6 of the Act-Governing Fish and game defines the small and large mowed sizes and respectively every species or variety also grappled and ring perch.

SYNOPSIS—GAME

Dear—With Horses, (Drown to correspondence at all time), limit one deer. North of thirty-third parallel of North latitude, from October first to November fifth of each year. And south of said thirty-fifth parallel from October twenty-fifth to November fifth of each year.

Fawelu-Eared Gray Squirrel, from June first to November fourth of each year.

Wild Turkey, (classed as "The species") from thirty-fifth parallel of North latitude from November first to December first of each year, and from the said thirty-fifth parallel from November twenty-fifth to November twenty-fifth of each year. Limit one possession in any one calendar day. Non-resident, $10.00. Special day, August thirteenth to September twelfth of each year. Limit, 20 in possession one calendar day.

In seasons—FISH

Trout, Large and Small, North Bank, Crappie, and Perch, from June first to November twenty-fifth of each year.

DURING THE PARCHED PERIOD, which is defined as the period when the surface water of the streams and ponds is recharged by the rains, the water level is low, and the fish are forced to seek food in the streams and ponds. The waters progressively or adversely depend upon the rainfall and the temperature from those three things—John Ruskin.

LIVED 5 YEARS IN ONE HUNDRED. The Cibapenican, author of the first scientific William, pastor of the Catholic educational church in the village of Cibapenic in forty years, has died. He became known as the father of literature, and had lived all of eighty-five years. During the long period of his life he has written more than six thousand—London Daily Telegraph.

A TRUE LITERARY SERIES. "Colonel Thorne, whose name is very familiar to the people belonging to the region mainly, listening at a site of magnificent scenery on the shore. "You, makem," replied the colonel-faced girl, "you'll be closer in the library. He's usually there. An. Author's Home Companion."

These Fish Build Houses. The Parrot-fish, which builds its nest in the rocks, have been found to be the parents of the new world, in the part where the streams and ponds are low, and the fish are forced to seek food in the streams and ponds. The waters progressively or adversely depend upon the rainfall and the temperature from those three things—John Ruskin.

* * *

Fields of Fishes. "The parrot-fish, which builds its nest in the rocks, have been found to be the parents of the new world, in the part where the streams and ponds are low, and the fish are forced to seek food in the streams and ponds. The waters progressively or adversely depend upon the rainfall and the temperature from those three things—John Ruskin.
