WASHINGTON MATTERS.

WINDOM'S SILVER MEASURE.
WASHINGTON, Jan. 14.—It is announced here that the leading members of the senate committee on finance are in favor of Sec. Windom's proposition regarding silver, and that it was by their request that the bill was prepared by Sec. Windom for introduction in congress.

The leading financiers of the senate, John Sherman, of Ohio, and William B. Allison, of Iowa, have informed Sec. Windom that they will support his proposition. Senator Jones, of the Nevada silver king, has given his assurance. These three men, it is thought, will control the policy of the senate committee on finance. It is believed that other Republican members will also favor it. The views of the Democratic members are not known.

Senator Teller called upon Sec. Windom a few days ago and said he was opposed to the scheme and would be obliged to vote against it if it should come before the senate for consideration.

The new bill as prepared by the secretary of the treasury provides for the issuance of currency notes based upon deposits of American silver as distinguished from foreign coin and from foreign silver bullion. The effect of the treasury department believe that this feature of the measure will make it acceptable to all classes. They are assured that it will receive the support of many leading Republicans of both houses.

JUDGE HALLETT'S CHANCES.
Mr. William Jenison, of Denver, called upon Atty. Gen. Miller and urged the appointment of Judge Hallett as successor of Judge Brewer on the bench of the United States circuit court.

Atty. Gen. Miller and Mr. Jenison are old friends, both having been practicing attorneys at one time in Fort Wayne, Ind.

The attorney general said that the only recommendation so far received for Judge Hallett came from Colorado people, while some of the other applicants were much more widely known and recommended. He did not say, of course, that Judge Hallett would not receive the appointment, but he conveyed the impression that other nominations were being more favorably considered.

Mr. Jenison proposes to make another effort in behalf of the Denver jurist.

Ohio's Governor In.
COLUMBUS, Jan. 14.—Gov. elect James B. Campbell took his oath of office at noon yesterday. The message is comparatively brief. He recommends that home rule be restored to all cities as speedily as possible, and enters into details as to the needs at Cincinnati. He strongly commends the system of ballot reform, commonly called the Australian system, and sketches briefly the successes which it has met in other countries and states. The argument that it will be a hardship to illiterate voters is substantially answered.

In the question of cheaper school books, the governor says: Popular education is the foundation of freedom and prosperity. Knowledge should be furnished at the lowest possible cost. The state builds court houses, provides teachers and controls every detail of education, save the furnishing of books. Is there any sound reason why it should not assume this function also?

He favors the abolition of the office of commissioner of railroads and telegraphs, and thinks the duties could be better performed by the railroad commissioner, provided there be any necessity for a state supervision of railroads.

An Incident of Andersonville.

SPRINGFIELD, Mass., Jan. 13.—E. M. Nichols, a surgeon who died here yesterday from influenza complications, had a remarkable war history. He was a member of the 14th Michigan cavalry and was captured and confined in Andersonville. He was chosen sheriff of the court organized by the union prisoners to punish a gang of comrades that stole their small supply of rations. Ten were convicted in the court of the union prisoners and sentenced to be hanged. Nichols had to string the men up alone. On account of this horrible task Nichols was shunned by the veterans since the war, and rarely alluded to the affair.

MORMONISM AND IDAHO.

Statehood Matters and "the Church" Discussed at Washington.

WASHINGTON, Jan. 14.—The senate committee on territories yesterday listened to arguments against and in support of the constitution prepared for the proposed new state of Idaho. There were present Bishop Wm. Budge, of Utah; ex-Gov. Stevenson and John Shoup, of Idaho; and a full attendance of the members of the committee. Mr. J. H. Wilson, of this city, speaker for the Mormons, argued against the acceptance of the proposed constitution, which disfranchised the Mormons, and asserted that with Mormon residents who will thus be cut off from citizenship the population of the territory is not large enough to warrant making a state. Mr. Wilson agreed that every good purpose would be served by disfranchising Mormons after they were convicted of crime, instead of disfranchising them in advance. Delegate Dubois, of Idaho, replied to Mr. Wilson in a long statement, reciting the history of the Mormon church and quoting from a judicial decision in Idaho to sustain his position, that it was criminal conspiracy. He said it was necessary to disfranchise the Mormons in a body in order to destroy their political power which keeps them together so that to convict them of bigamy or polygamy is a difficult matter, and when successful does not affect the convict. Mr. Dubois says six months in the penitentiary has

no effect upon them. The only way to reach the Mormon church is to deprive it of political power, and this the constitution of Idaho, adopted with only 1,900 votes, does.

STORM SWEEP PRAIRIES.

Suffering in Kansas—A Regular Blizzard in the West and a Cyclone in Kentucky.

KANSAS CITY, Jan. 14.—Telegraphic advices from different portions of Kansas report a blizzard in that state. At Wichita ten inches of snow has fallen, and for 100 miles west the storm has raged with fury and the whole country is covered with snow to the depth of a foot or more. Railroad trains are stuck at several places and traffic is practically suspended. Intense suffering is reported in destitute districts in several of the western counties. There are forty or more cars of provisions at Kiowa and at the town of Liberal en route to the sufferers, but that is fifty to seventy miles away from the starving people and nobody is willing to take the chances of freezing by hauling freight in wagons. The mercury is falling and severe cold is apprehended.

CENTRAL WEST IN THE BLIZZARD.

Chicago, Jan. 13.—The rain storm of yesterday afternoon has given place to a gale which raged with great force all of last night, and which has only diminished with the advent of cold weather. While during a part of yesterday the thermometer was between fifty and sixty above zero, it began falling rapidly last night and at an early hour this morning marked only eighteen above. The signal service bureau reports the storm as general, and the telegraphic service from the west, northwest and southwest, fully corroborates this report. The wind has played havoc with electric wires all over the west, the telegraphic service being demoralized. Reports from the Dakotas, Minnesota, Wisconsin, Iowa, Nebraska and Kansas, indicate about the same weather in those states, the only variation being that the blizzard is more intense and the snow much deeper in the north. St. Louis has been practically cut off from the rest of the world, so complete was the demoralization of the telegraphic service. The wires in every direction were down and it was not until 10 this morning that the Associated Press finally established a connection with the storm stricken city.

CYCLONE IN KENTUCKY.

St. Louis, Jan. 13.—A special to the Post-Dispatch says that for several miles around Clinton, Ken., nearly every thing is razed to the ground. The first building struck was a section house about half a mile from town, and which was occupied by John Rhodes and his family, consisting of his wife and three children, all of whom were killed. The population of the town is about 1,000, and at first it was feared that hundreds had been killed, but the list was found to be comparatively small, only eleven bodies so far having been found. Small houses were lifted bodily from the ground and whirled around in the air, dropping to the ground with a terrific crash, and being literally mashed into kindling. Wood and flying timbers filled the air, and the crash of falling buildings mingled with the shrieks of people flying from their ruined homes. The path of the tornado was about 300 yards wide, as shown by the debris. The loss to property is estimated at \$70,000. Ten residences from the center of the storm reported the death of fifty-three wounded are so seriously injured that they are not likely to live.

WIDE SPREAD DAMAGE.

At Minneapolis the weather is "clear and cold." At Wickliff, Ky., thirteen of the principal business houses were wrecked, and twenty-two people were more or less injured.

A special from Jackson, Tenn., says a cyclone visited Moscow, Ky., and that two persons were killed and four or five wounded at that place.

Toledo, Jan. 14.—During the heavy gale last night a freight car was blown from siding at Custer station, on the Cincinnati, Hamilton & Dayton road, and then driven three miles north, where it collided with the south bound passenger train leaving here at midnight. The engine, baggage and mail car were wrecked and both engineer and fireman are injured, but not fatally. The gale injured roofs and did minor damage.

Money Market.

New York, Jan. 14.—R. G. Dunn & Co.'s weekly Review of Trade says: An easier money market and colder weather have helped business some. Large payments by the treasury have much relieved the money market. The excess of the disbursements over the receipts during the past week has been no less than \$5,000,000, but the remarkable movement in foreign exchange, which has risen from \$4.84 to \$4.86 during the past week, tends strongly to increase the impression of an advance in the rate by the bank of England to 6 per cent, and a refusal of gold bullion by that bank, have started considerable realizing of American securities by the foreign holders.

The Alleged Bender Women.

KANSAS CITY, Jan. 14.—Attorney J. I. James, who represented Mrs. Griffith and Mrs. Davis in Kansas and defended them of the charge of being the notorious Bender women, says that he has proof that his clients were in Michigan during the time of the commission of the Bender crimes. He says that the prosecutor of Labette county has agreed to dismiss the case against the women.

Iowa Legislature.

DES MOINES, Jan. 14.—A conference committee of two parties made a report to the caucus, giving the Republicans the temporary speaker and the Democrats the chief clerk. The report was not adopted by the Democratic caucus. The caucuses are again in session trying to reach an agreement.

Portugal's "Impudence."

LISBON, Jan. 13.—The cabinet has resigned. The liberal conservative leader, voted a minority at the meeting of the council when the demands of England were acceded to. The minority was in favor of evacuating the shore districts, but opposed the demands made by England, unless that country submitted the dispute to arbitration forthwith. There is much excitement in the city. Crowds paraded the streets last night crying "Viva Pinto!" and "Viva Portugal!"

His Constituents Running Away.

COLUMBIA, S. C., Jan. 14.—Congressman H. P. Clifton, the colored representative of the 2d district of North Carolina, is reported to have left his seat in congress and come down to stamp his district against secession. He has become alarmed at the continued exodus of colored people from his district. The secessionists are still circulating glowing circulars about the wealth to be secured in Florida by colored emigrants. Hundreds of colored people are passing through Charlotte and this place almost daily. It is said that Clifton has already lost several thousand votes in his district, and that it would now go Democratic by 1,000.

The Memphis Way.

MEMPHIS, Jan. 14.—The grand jury has returned fourteen bills of indictment against David Hadden, president of the taxing district of Memphis, and C. L. Fullam, secretary, charging them with embezzlement and larceny of the fines and forfeitures collected in the police court from January, 1886, to October, 1889.

Rio Grande Blocked.

ANTONIO, Colo., Jan. 14.—This section has been visited by a heavy fall of snow lately and the trains are blocked west of here. It is reported that three engines are off the track at Cumbres. It was a wreck of a passenger train, but no passengers were injured.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

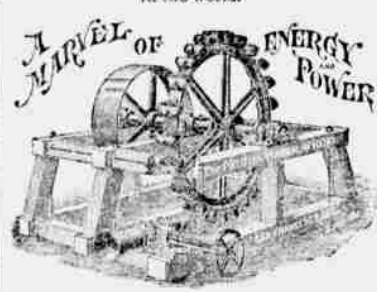

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula from the time she was 22 months old till she became six years of age. Lumps formed in her neck and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CHAMBERLAIN, N. B. Be sure to get only

All communications intended for publication must be accompanied by the writer's name and address, and should be addressed to the editor, The Daily New Mexican, P.O. Box 100, Santa Fe, N. M.

Entered as second class matter at the Santa Fe Post Office.
The Daily New Mexican is the oldest newspaper in New Mexico. It is published every day except on Sundays and public holidays. It has a large and growing circulation among the intelligent and progressive people of the territory.

TUESDAY, JANUARY 14.

THERE are no journalistic flies on the New Mexican. Not by a good deal.
SANTA FE is not as much of a Democratic town as it was fifteen months ago.
SLOWLY, surely and steadily is the sentiment in favor of statehood growing. There is no stopping it.
A LITTLE more snow, if you please. We need it in our business during the coming spring and summer.
MONTANA does not seem to be a bit bashful. So far she claims four U. S. senators. There is no telling what she will do when she gets older.
THERE is not quite as much southern bulldozing in the 51st congress as there was during the 50th and 49th congresses. Times have changed for the better.
SANTA FE ought to have clean and lighted streets. If the taxes collected were honestly and properly accounted for and expended such would be the case.
THE administration and dishonesty that have characterized affairs official in this country for the past few years, under Democratic officers, are bearing fruit and are making Republican votes.
THE heavy Democratic majorities in Santa Fe are disappearing. This is as it should be. Democratic mismanagement has about long enough injured this country and retarded its advancement and prosperity.
THE fee system must go, in county as well as in territorial affairs. Pay the officials fair and decent salaries and enact stringent laws against negligence and malfeasance in office. The fee system must go.
THE eyes of the people are being opened. In a few more months, if the people know their own best interests—and it looks as if this was beginning to be the case—a Republican set of officials composed of honest men, will be elected. The hoodlums and corruption must go.
THE Charleston News and Courier takes great delight in calling John Sherman "that old fellow." A cent to admit that the editor of the Courier was one of the fellows who ran away from Sherman when the latter was taking a pleasure trip through the Carolinas twenty-five years ago.
THE Massachusetts courts have decided that a railroad pass issued to a man and his family does not take in his grand-children nor his grandchildren. That is just and legal. A halt must be called somewhere, else a man would also include in his family all his cousins and nieces especially if the latter were pretty and kind.
THE new state of North Dakota is in a hard way. Its total receipts are less than \$242,000, and its prospective deficiency for the present year is \$248,000. It has lost its agricultural college for lack of funds, and other institutions are likely to follow suit. Compare this state of facts with New Mexico's financial condition, and let us hear no more of that hypocritical cant from the anti-statehood radicals to the effect that New Mexico has not been "educated" to take care of herself.
THE Chicago Tribune prints a list of what it is pleased to term recorded cases of lynching throughout the union during the year 1893, and it puts New Mexico down for three victims at the hands of Judge Lynch. The New Mexican has been doing business at the old stand here for something like twenty-eight years, and it was on hand as usual all last year, but it didn't learn of any lynching in New Mexico doing it in the year 1893. Some mistake about it.

SENATOR Seward thinks that little beyond an appropriation for continuing the survey of reservoir sites can be got on the half of the reclamation of western arid lands in the present congress. The horny fist farmers of the east have learned just enough about irrigation to be afraid of it, and they have instructed their representatives in congress accordingly. Nevertheless the hand writing on the wall; no power can now stop the development of irrigation enterprises in the west.

A BROOKLYN reader of the Press sends us a copy of an cartoon of New York by which is written the pertinent inquiry: "If this is the condition of New York, what is the condition of Brooklyn?" The implication of the question is that Brooklyn is a worse than New York. There is no question but that they are both miserable cities. Boss McLaughlin strikes Brooklyn, while the Tammany administration, there will then be three mislaid cities. Democracy is the same all over, in New York, in Brooklyn in Santa Fe.

The horny fist farmers of the east have learned just enough about irrigation to be afraid of it, and they have instructed their representatives in congress accordingly. Nevertheless the hand writing on the wall; no power can now stop the development of irrigation enterprises in the west.

A BROOKLYN reader of the Press sends us a copy of an cartoon of New York by which is written the pertinent inquiry: "If this is the condition of New York, what is the condition of Brooklyn?" The implication of the question is that Brooklyn is a worse than New York. There is no question but that they are both miserable cities. Boss McLaughlin strikes Brooklyn, while the Tammany administration, there will then be three mislaid cities. Democracy is the same all over, in New York, in Brooklyn in Santa Fe.

THERE is not quite as much southern bulldozing in the 51st congress as there was during the 50th and 49th congresses. Times have changed for the better.
SANTA FE ought to have clean and lighted streets. If the taxes collected were honestly and properly accounted for and expended such would be the case.
THE administration and dishonesty that have characterized affairs official in this country for the past few years, under Democratic officers, are bearing fruit and are making Republican votes.
THE heavy Democratic majorities in Santa Fe are disappearing. This is as it should be. Democratic mismanagement has about long enough injured this country and retarded its advancement and prosperity.
THE fee system must go, in county as well as in territorial affairs. Pay the officials fair and decent salaries and enact stringent laws against negligence and malfeasance in office. The fee system must go.
THE eyes of the people are being opened. In a few more months, if the people know their own best interests—and it looks as if this was beginning to be the case—a Republican set of officials composed of honest men, will be elected. The hoodlums and corruption must go.
THE Charleston News and Courier takes great delight in calling John Sherman "that old fellow." A cent to admit that the editor of the Courier was one of the fellows who ran away from Sherman when the latter was taking a pleasure trip through the Carolinas twenty-five years ago.
THE Massachusetts courts have decided that a railroad pass issued to a man and his family does not take in his grand-children nor his grandchildren. That is just and legal. A halt must be called somewhere, else a man would also include in his family all his cousins and nieces especially if the latter were pretty and kind.
THE new state of North Dakota is in a hard way. Its total receipts are less than \$242,000, and its prospective deficiency for the present year is \$248,000. It has lost its agricultural college for lack of funds, and other institutions are likely to follow suit. Compare this state of facts with New Mexico's financial condition, and let us hear no more of that hypocritical cant from the anti-statehood radicals to the effect that New Mexico has not been "educated" to take care of herself.
THE Chicago Tribune prints a list of what it is pleased to term recorded cases of lynching throughout the union during the year 1893, and it puts New Mexico down for three victims at the hands of Judge Lynch. The New Mexican has been doing business at the old stand here for something like twenty-eight years, and it was on hand as usual all last year, but it didn't learn of any lynching in New Mexico doing it in the year 1893. Some mistake about it.

SENATOR Seward thinks that little beyond an appropriation for continuing the survey of reservoir sites can be got on the half of the reclamation of western arid lands in the present congress. The horny fist farmers of the east have learned just enough about irrigation to be afraid of it, and they have instructed their representatives in congress accordingly. Nevertheless the hand writing on the wall; no power can now stop the development of irrigation enterprises in the west.

THE Chicago Tribune prints a list of what it is pleased to term recorded cases of lynching throughout the union during the year 1893, and it puts New Mexico down for three victims at the hands of Judge Lynch. The New Mexican has been doing business at the old stand here for something like twenty-eight years, and it was on hand as usual all last year, but it didn't learn of any lynching in New Mexico doing it in the year 1893. Some mistake about it.

The territorial finances, as shown by the New Mexican on yesterday, are in first class condition. This is due to the 25th legislative assembly, the 25th legislative assembly, that passed the bill, prepared principally by Hon. Pedro Perea, who represented Bernalillo county in the council. The law has certainly worked remarkably well, considering the fact that the entire financial system of the territory, and which had been in vogue for forty years, was radically changed. In the 27th legislative assembly the bill was introduced and passed, but was defeated by Gov. Ross for purely political and selfish reasons. Had the bill become a law then and there, the people of this territory would be a quarter of a million dollars better off today. But in the 28th legislative assembly Ross' vote did not count. The Republican majority was too great, and hence the best interests of the people were duly and properly guarded. The New Mexican made a gallant and persistent fight in behalf of the passage of the Perea bill, and has its just reward in the success of the measure. The expenses of the territory during the forty-first fiscal year are \$100,000 dollars less than they were in 1888 under a Democratic administration, and during the forty-first fiscal year a still greater saving will be accomplished. The financial affairs of New Mexico are being honestly and economically administered under the new administration, and this happy state of affairs has been brought about by legislation enacted by a Republican legislature.

THE MARKETS OF THE WORLD.
To the Editor of the New Mexican.
SANTA FE, Jan. 14, 1894.—During the late presidential campaign one of the principal charges made against our protective tariff was that it, and it alone, prevented us from selling our wares in the markets of the world. Our trade with Mexico was a familiar illustration. Here, said the free trader, is a rich nation (our nearest neighbor) with whom we ought to transact an extensive business, but this vicious tariff bars us out and keeps us out of her market, while England with her enlightened free trade policy enjoys almost a monopoly of that opulent business. Assertion, reiterated assertion, is a strong point with the admirer of the English system, but when it comes to proof his weakness is painfully visible. A glance at the following figures will convince any reasonable man of the utter fallacy of the above assertion. I quote from that most excellent and reliable journal, The American Economist.

Mexico imported from the U. S. in 1888 merchandise to the value of over \$10,000,000; from Great Britain in 1887 (the latest figures we have) she imported merchandise to the value of \$5,383,313, and from Great Britain, France, Germany and Spain combined, taking the figures of 1886 in the three last mentioned countries she imported merchandise to the value of \$11,885,803. Thus it will be seen that Mexico not only does not purchase most of her goods from Europe, but buys more from the U. S. than from all Europe combined. It seems to me that these very favorable figures are worth volumes of useless assertions. "In 1870 the total amount of exports and imports passing through El Paso del Norte (Juarez) was \$71,000, while in 1887 they rose to \$12,000,000. Now let us see how we stand in that greatest of all industries, iron. In 1870 the total of pig iron for the United States was \$3,575,870 tons; in 1886 it rose to 6,000,325 tons, and last year the magnificent aggregate of 8,000,000 tons was reached, and it is confidently expected we will push ahead of Great Britain in 1894. In finished iron and steel we have not only our great rival far in the rear, but let the figures speak. In '87 we turned out 3,329,000 tons of steel as against Great Britain's 3,170,000 tons. The same year G. B. manufactured 1,711,000 tons of iron, while our product was 2,330,000, but our crowning triumph is in our output of steel rails. In the good old revenue reform days before the rebellion this great, powerful republic depended almost entirely on England for her supply of railroad bars. A humiliating position indeed! A few years of the "robber tariff" delivered us from this condition and we are now absolutely independent of the world in this most important industry. In '67, six years after the enactment of the Morrill tariff, our entire output was 2,220 tons of steel rails; in 1887 we had pulled up to 2,324,000 tons, about twice as many tons as Great Britain, and the American Economist says the price of steel rails in New Mexico is as high as in London, as in New York.

But here is a nut for the free traders to crack. "U. S. reports of iron and steel manufacturers for year ending June 30, 1893, \$21,153,077; U. S. imports of iron and steel manufactures for same year, except ironate, which we do not make, \$21,153,141; excess of exports, \$37,000. And thus in less than thirty years of protective tariff we have not only overtaken, but distanced, England in this great industry, and that too, she had several centuries to the start of us. This ought to be gratifying to every American who has a proper pride in his country's resources and enterprise. And yet, for one, I am not satisfied with the above results, pleasing as they are. I insist that, with our boundless resources and untold wealth, and our covered and half-covered coal, and our iron, and our timber, and our energy, and our mechanics, we should not import one ton of foreign iron or steel. Great profit and greater glory will reward the man or men who initiate smelting in New Mexico. One of the best quality is cropping up from the hot springs earth on every side of us, and I have credible information that iron ore as good as the best has also been discovered in large quantities. Gold and silver are very well in their respective places, but iron is the king of all the metals and rules the others even as a monarch does his subjects. The world could dispense with the use of either gold or silver, but without iron power, wealth and civilization without iron are impossible. A. L. MONTGOMERY

BETTER THAN GOLD.
RESTORED HER HEALTH.
For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

Everybody admits we carry the largest stock in the territory in our line, consequently we defy competition in quality or in prices.

OPEN DAY OR NIGHT

THE PRECINCT ELECTIONS.

The Republicans Make Heavy Gains at the Polls and Elect a Portion of the Ticket.

Exceeding good order prevailed during the election for precinct officers and water masters yesterday. It was the first trial under the new law, which provides for plain white ballots which shall not be marked or numbered by the clerks of election; provides also for keeping the crowd about the polls at least fifteen feet distant from the ballot boxes, and makes it a felony to corruptly solicit or influence votes. A dead line was marked out on the ground about the polls, and both political parties designate two guards to see to it that voters kept without this line save those approaching the clerks with ballots in an orderly manner. On the whole the new law worked most admirably.

The result, as far as the two city precincts is concerned, is highly gratifying to the Republicans. In the 4th precinct, had it not been for a slight internal wrangle among Republicans, the whole ticket would unquestionably have been elected.

As it is, however, in at least two instances the Democratic majority of from 50 to 150 has been overcome and Messrs. Wm. M. Berger and Jose Ascension Silva, school trustees on the Republican ticket, have been elected. The Republican candidate for justice of the peace was defeated by some seventeen votes only. The Republican mayor, J. M. Martinez, is probably elected, but the result depends on returns from Agua Fria precinct.

In the 3d or upper city precinct the Republicans worked like beavers and they feel well repaid for it, notwithstanding the result. Major Helen Forschold director, and his opponent on the Democratic ticket, E. Sena, received a tie vote, 244 each, according to the returns as certified by the clerks. There were found to be two tickets folded together in two instances, but as one pair of them were for one party and one for the other, and straight, it was agreed to count them. However, there were cast in this precinct five more than the recorded number of votes, which may lead to a contest. Juan Garcia Archibque, also candidate for school director on the Republican ticket, was elected, receiving 246 votes, while the Democratic candidate, Nestor Sena, received 249. Narciso Mondragon, Republican, ran even with H. C. Carson, Democrat, for school director, each receiving 230 votes. Salvador defeated Albert Jaramillo, Republican, for constable, by nineteen votes.

When this was claimed, the clerks were asked to recount the vote, but as it was growing near midnight, the matter, by mutual consent was left to an official canvass by the county board. The remainder of the Democratic ticket in this precinct was successful by small majorities, the highest being for justice of the peace, Candelario Martinez, the present incumbent, defeating Grace, Republican, by about thirty-eight votes. In the 3d precinct, Lucero, the republican candidate for water master, was also elected. The total vote is estimated to be about 485. Usually the Democratic majority in this precinct is fully this much. In the two precincts the total vote amounts to about 1,024.

Its Excellent Qualities

Commend to public approval the California liquid fruit remedy, Syrup of Figs. It is pleasing to the eye and to the taste, and by gently acting on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

The Agricultural College.

To the Editor of the New Mexican: LAS CRUCES, N. M., Jan. 13, 1890.—For several reasons the formal ceremonies of opening the agricultural college have been postponed. The college will open on the 21st as announced. The prospects are encouraging. Very truly, HIRSH HADLEY.

In connection with the above Hon. John R. McFie, a member of the board of regents, informs the New Mexican that this change in the plans of the board was made necessary by the unavoidable absence of a majority of the board at this time, and with no prospects of returning to Las Cruces on the 21st. Judge McFie nevertheless reiterates Prof. Hadley's remark that the college bids fair to begin its term under most favorable conditions.

PUBLIC SENTIMENT IN LINCOLN.

The State Movement Certain of Victory—A New Judicial District Demanded.

J. A. Erwin, esq., editor of the Roswell Register, is visiting Santa Fe to-day. He said to a New Mexican representative this morning Lincoln county could be relied upon as certain to send up a big majority in favor of statehood for New Mexico. The sentiment of the Democrats there is that they would rather see a Republican state than a Democratic territory. "I am not in favor, however," said Mr. Erwin, "of agitating statehood on party lines. It is a question of over-throwing importance to the commonwealth and not of moment to either one party or the other—not a political question at all. In this way are the people of Lincoln county in favor of it, Democrats and Republicans alike. I believe a majority of the people would vote to sustain the constitution already framed, but at the same time they have an abiding faith that congress at the next session is going to give New Mexico an enabling act, providing for a new constitution, and if this is done, it would be better all around, and the Republicans and Democrats of Lincoln would ignore party and send the best delegation possible as representatives in the new convention. However, in any event count Lincoln as all right on the statehood question."

A NEW DISTRICT WANTED.

Mr. Erwin said there was another question of public note which Lincoln citizens were greatly interested in just now. They want a new judicial district, to be composed of the counties of Lincoln, Chavez and Eddy, the latter coming in as full fledged counties on January 1 next. Said Mr. Erwin: "Roswell is over 230 miles distant from the headquarters of the present district. This great stretch of travel deprives our people along the Pecos region of chancery business almost entirely. Clients can not pay attorneys for going to Las Cruces to attend to their business. Eddy is worse off than Roswell by at least 100 miles. The district as now constituted is overburdened with work, and every reason exists why a new district should be established. The question of headquarters for the new district is one that can settle itself at home. We want congress to give us another judge, and we believe we will succeed. I have spoken to Judge McFie on this subject and he is for it. I believe the supreme court will endorse it, provided the Bar association takes up the question and recommends it at its meeting on the 20th inst. Mr. Joseph has promised to help us in congress, and we have other friends

there. With that support at home which the exigencies of the case demands I believe New Mexico can secure from congress an additional justice at the same time that similar relief is granted to Idaho and Wyoming, both of which territories are now agitating the question at Washington."

Army Orders.

Capt. Daniel D. Wheeler, A. Q. M., having reported in compliance with paragraph 3, special orders No. 207, series of 1890, headquarters of the army, A. Q. M., is assigned to duty as assistant to the chief quartermaster of the department, relieving Capt. Theodore E. True, A. Q. M., to whom he will report for public property and funds for which he is accountable. Upon being thus relieved, Capt. True will proceed from Los Angeles, Cal., to Tucson, A. T., and relieve Capt. Alonzo E. Mittemore, A. Q. M., from duty at that station.

By authority of the major general commanding the army, 2d Lieut. H. M. Roach, 1st infantry, will proceed at once to Washington, D. C., and report to the adjutant general of the army. He will en route report by telegraph to the adjutant general the time of his arrival in Washington.

Rheumatism

Is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

ROUND ABOUT TOWN.

Both of the city's national banks held their annual meeting at 4 o'clock this afternoon.

A. A. Jones, a young attorney from Las Vegas, was admitted to the bar by the supreme court this forenoon.

Still snowing in the mountains. An inch of it rolled down and covered the valley last night, but "the sun still shines."

A petition is in circulation to-day and being numerous signed by tax payers, urging the county board to make some provision for lighting the street lamps.

A letter to Judge Morrison from his son, Robert, in Apache county, A. T., states that the Mormons are getting in their beautiful work down there in great shape. Of the grand jury for the district court just drawn, even twenty-five out of its fifty members are Mormons, and 40 per cent of the members of the trial jury are also followers of Utah's "church."

Hon. Lucien B. Caswell, chairman of the senate committee on private land claims, writes Surveyor Gen. Hobart that he has been detained at his home, Fort Atkinson, Wis., on account of sickness in his family, but will soon be in Washington, when he will organize his committee and see if something can't be undertaken toward the settlement of New Mexico's land grant titles.

PERSONAL.

C. A. Stein is up from Albuquerque. Hon. Justo R. Armijo, of Bernalillo, is at the Palace.

Three Crooks, of Silverton, Colo., is at the Exchange.

A. H. Reynolds, of Las Vegas, was in town a short time last night.

W. A. Givens, of Las Vegas, is in the city along with Griff M. Roberts.

S. H. Fairchild and O. M. Fairchild, of Kansas City, are at the Exchange.

Calvert Mezie, San Francisco; A. Kaempfer, New York; H. J. Wells and wife, Kansas City, are late arrivals at the Palace.

Chas. S. Davis, Frank Roy and Fred Abey, copper mine owners from Mora, are in the city negotiating for the Glorieta company's copper plant.

Gideon B. Bantz, of Silver City, a brilliant young lawyer, who has a decided weakness for journalistic pursuits, is in the city on business before the supreme court.

TERRITORIAL TIPS.

Frederico Lopez died of consumption at Albuquerque.

Pinos Altos joke: "Kid" Watts claimed that at Santa Fe, in '46, he jumped his horse over a ditch twenty feet wide and fifteen feet deep, just for exercise. The first thing "Steeve" did after reaching Santa Fe was to hunt for the ditch, he says he found the ditch and the tracks, but the horse is gone.

Industrial note in the Las Vegas Optic: "A man living out of town brings in two or three times a week a wagon load of coal, for which he gets a good price. He claims it comes from a mine opened within six miles of town, but some people are uncharitable enough to claim that it is brought in from along the railroad, where the old man taps the A. T. & S. F. coal cars."

Among other good bills introduced by Anthony Joseph, in the present congress, is one appropriating \$250,000 for the purpose of building reservoirs, for fostering the water supply. It is to be hoped that this bill will become a law, for aside from the main feature, a large amount of money would be equitably distributed over the whole territory, and work given to a large number of men who are now idle and would be glad to find employment.

Las Vegas note: Some of our citizens are indulging in a little talk as to the cause why nothing is being done about the lunatic asylum, to be built here. No doubt if work was commenced on the building, which we understand, is to be quite commodious, it would give work to a large number of mechanics, who are now idle. A better time for its construction could not be selected, yet no one seems to know exactly when it is to be erected, nor how much it is to cost. Let the committee, who have this business in hand, hurry matters up, and give our idle workmen something to do.

A hopeful sign of the times is the interest that our native population is taking in education and especially the growing desire on the part of parents, many of them unable to speak English themselves, to have their children taught that language. The school board in this city has had a number of applications for admission of Mexican children from outside the precinct. Adult natives from other precincts have visited the school, observing interestingly the methods of teaching and asking questions which clearly indicate that the subject of education is attracting increased attention. With statehood we would be able to take advantage this progressive spirit, by putting liberal English education within the reach of all. —San Marcial Reporter.

THE LATE JUDGE BRISTOL.

Remch and Bar Give Expression to Sentiments of the Highest Respect for His Memory.

Having adjourned over yesterday out of respect for the memory of the late Warren Bristol, ex-associate justice, the supreme court reconvened at 10 o'clock this morning, when Hon. S. B. Axtell presented the following from the committee named yesterday:

Whereas, It has been a time-honored custom of our courts on the death of a distinguished member to take official notice of the fact, be it

Resolved, That we have learned with feelings of deep and sincere sorrow of the death of Hon. Warren Bristol, who was for twelve years an associate justice of this court.

Resolved, That as a slight tribute to his memory, the bench and bar of the supreme court of New Mexico, place upon the records of the court this expression of their grief for his death, and their admiration of his many virtues.

Resolved, That we tender to his widow expressions of our deepest sympathy.

Resolved, That the clerk enter these resolutions upon the minutes and furnish a certified copy to the widow of deceased.

S. B. AXTELL,
T. B. CARSON,
THOS. SMITH,
S. B. NEWCOMB.

Mr. Field, the fifth member of the committee, was absent from the city. Eulogistic remarks of a highly complimentary character were made by Messrs. Axtell, Newcomb, Smith, Bartlett and Catron.

In response to these and the resolutions Chief Justice Long, on behalf of the bench of the supreme court, uttered a very timely and beautiful tribute to the memory of the dead jurist. He said, among other things, speaking of Judge Bristol:

"That he did his duty wisely and well has been attested not only by those judges who were his co-laborers, but also by those leading lawyers who have spoken to-day, who were intimate with him in association and who committed to him the dearest interests. In the conflicting affairs of this world," continued the chief justice, "it is seldom if ever that any man can lead so circumspect a life as to avoid contemporaneous criticism; but he may proceed with that dignity and purity of conduct which will render criticism harmless at the time, and in the end silence even his enemies. So it may have been with this learned jurist, who was for so many years prominent in the current judicial history of this territory. His daily life, his work, was an impregnable shield while on duty. His uprightness of character and manly bearing, after his life work on the bench had closed, reflected additional luster upon his part career and adorned his closing years."

In the judicial opinions wrought out by his own thought and research he has built for himself a monument which will not soon crumble, resting, as it does for its foundation, upon established principles of justice and equity. When the decisions of the supreme court of this territory, past, present and future, shall be pronounced those formulated by Warren Bristol, the result, as they are, of weary hours of toil when his frail body suffered from disease and his brain was overworked, will stand among the clearest and strongest, and will be quoted with approval by judges learned in law long after those who worked with him and so loved and respected him have gone to their final rest.

"In every sentiment of respect which has been expressed, both in the resolutions presented and in the remarks of the bar, this bench fully concurs. Those of its members who knew Judge Bristol personally are especially sad, and the whole bench feels that an able, conscientious jurist has done his work well, and left an example worthy of emulation." Copies of the resolutions by the bar and the response by the bench were, upon motion of Gen. Bartlett, ordered spread on the records of the court.

The grand lodge of the territory of New Mexico, A. F. & A. M., meets in Las Cruces on the 27th of this month. Since the grand lodge was first organized it has been held at different places in the territory each year; it has been nine years since Las Cruces was selected, and it will be the last time any point is so favored, as Albuquerque has been chosen as the permanent place for meetings of the grand lodge and after this year the Masons will meet in a temple to be erected in that city. Arrangements are being made by Aztec lodge No. 3, the local organization, to entertain their brethren from over the territory.—Las Cruces Republican.
