WASHINGTON MATTERS.

DEFAULTING RECEIVERS.

WASHINGTON, Jan. 27.—The discovery that a comparatively large number of receivers of public money in different parts of the west are short in their accounts with the government has led to an investigation into what safeguards have been employed to prevent defaulters. It is stated that hitherto receivers have been required to furnish duplicate copies of all certificates of deposit, one of which is sent to the treasury department, and the other is retained by the receiver himself.

The result is that while the officials of the general land office may know from reports received the exact amounts collected by the receiver during any given time, they have no knowledge of what amounts have been deposited in the designated government depositories. On the other hand, while the treasury department officials have information as to the amounts deposited from time to time, they have no knowledge of whether these amounts correspond with the office receipts which should have been deposited. Thus it is that receivers have been able to keep each department fully and correctly informed as to those matters which they are required to furnish each and still for a very long time escape detection as defaulters. This and several other loose methods will be speedily corrected.

THE WARMOUTH NOMINATION.

The senate committee on commerce has under consideration the nomination of ex-Gov. Warmouth to be collector of customs at New Orleans. Ex-District Attorney Larned and Representative Coleman were present and opposed confirmation in short speeches; but as it was stated that Mr. Warmouth is now ill at Philadelphia, the further consideration of the case was postponed till next week.

Judge Morris Marks and several members of the Louisiana legislature, also opposed the confirmation, charging that Warmouth had while governor increased the state debt enormously, had been guilty of mismanagement and maladministration in office, and that he had been notoriously engaged in "trading political" with the Louisiana Democrats to secure his own ends.

Sensational Shooting.

SAN FRANCISCO, Jan. 26.—Louis L. Brownwell, president of the California Insurance company, was shot and badly wounded in his private office yesterday by George C. Pratt, general agent of the company. The shooting caused a great sensation as it was at first thought the wounds sustained by Brownwell were mortal.

In explanation of the shooting Pratt said he had recently been sent to Japan by Brownwell, and upon returning one week ago received from his wife a confession that she had been seduced by Brownwell.

He says he afterward obtained evidence confirming this. Prior to the shooting Pratt and Brownwell were alone in the private office of the latter for a quarter of an hour, during which Pratt says he charged Brownwell with the crime, and then shot him. Both men are widely known in business and social circles. Pratt said that one of his principal reasons for the act grew out of the fact that his wife, by reason of her betrayal, has become insane.

Most Goes Up.

New York, Jan. 25.—Herr John Most, the anarchist whose conviction and sentence to one year in the penitentiary was affirmed yesterday by the general term of the supreme court, was arrested today. He was captured as he was leaving the house of Mrs. Ida Hoffman, who was on his bond pending the decision of the general term. He expects his counsel to obtain a further stay of proceedings and another release on bail while his case is carried to the court of appeals. Most was convicted of using language tending to incite riot while making a speech at a meeting of anarchists held in November, 1887, to denounce the hanging of the Chicago anarchists.

The Mormons in the Northwest.

OTTAWA, Jan. 27.—The agitation against the principles of Mormonism in the Canadian northwest is likely to bear good fruit, as it is learned that in addition to the already existing laws against polygamy the Dominion government will introduce further and more stringent legislation during the present session. The press has taken the question up in earnest and sees the danger ahead. The Montreal Gazette forebodes legislation, admitting that there is just cause for alarm.

The French Spoilation Claims.

WASHINGTON, Jan. 27.—Congressman Mansur, of Missouri, of the subcommittee of the committee on claims, has been instructed to report to the full committee the draft of a bill for the payment of the awards of the court of claims in the French spoliation cases. These are without doubt the most important class of claims ever presented to congress and Mr. Mansur has been selected for this duty because he made an exhaustive report upon this subject at the last congress.

Weird and Awful Sights.

MANITOU, Colo., Jan. 27.—By far the most severe wind storm ever known in Manitou prevailed throughout Saturday. Considerable damage has been done, some buildings are wrecked, sidewalks lifted bodily and hurled in the streets, window panes broken and signs and shutters strewn the ground.

The severity of the wind is something unheard of here, as Manitou from its protected situation usually escapes the hard blows. Everybody is on the alert and

extra precautions are being taken to guard against fire. The department is in readiness, anticipating a call, and extra horses loaded in wagons has been distributed throughout the town.

To add to the ominous situation a fire has broken out in the mountains between here and Pike's Peak, and is spreading over the foot hills with frightful rapidity. Its nearest line appears to be no more than two or three miles from Manitou, although it is at present not crowding this way, the safety of Manitou lies solely with the caprice of the wind.

A Flood Threatened.

SAN FRANCISCO, Jan. 27.—Telegraphic advices to the Associated Press from thirty or more points in northern California state that very heavy winter rains have been falling since yesterday morning and that the snow is melting rapidly and that the creeks and rivers are now running almost to the top of their banks. A flood greater than that of a few weeks since is threatened. The danger is greatest in the Sacramento, Napa and Sonoma valleys.

COLORADO'S GREAT STORM.

Trains Blown from the Tracks—Houses Unroofed and People Injured.

DENVER, Jan. 27.—The terrific wind storm which swept over the divide with almost the fury of a tornado blew over a Rio Grande passenger train at Monument last evening, badly wrecking it and injuring several persons.

The wounded so far as known are as follows:

John Green, porter on the train, badly and possibly fatally scalded.

C. S. Zimmerman, assistant general freight agent of the Rio Grande, slightly injured.

T. W. McIntyre, of Ouray, badly cut over the right eye.

Ana M. Clark, of Denver, several severe cuts on the head.

Several others were more or less bruised and cut, but it was impossible last night to learn their names or the extent of their injuries.

The train consisted of baggage and express cars, three passenger coaches and a Pullman sleeper. The wind blew the train over against the depot, and was so fierce that it was difficult to render assistance to the passengers. The blockade caused by the wreck has delayed all trains, and it was nearly impossible last night to obtain any information from the scene of the disaster.

Monument is fifty-six miles south of Denver, and nineteen miles this side of Colorado Springs.

A SANTA FE ACCIDENT.

A special dispatch from Colorado Springs states that Santa Fe train No. 22, which left Denver at 10:35 o'clock Friday night, was also blown from the track at a point near Pring station, ten miles this side of Colorado Springs. Fortunately the cars were not overturned and no one was injured.

All trains on the southern roads were delayed in like manner, including the Fort Worth, which was also storm-swept and sand-blockaded.

The storm which swept over the divide was the fiercest that has ever been known in the history of that section, and many casualties are feared.

The wind was blowing from the west, and the D. & R. G. train, reaching Monument at 10:35 o'clock, was full of sand and gravel that it was impossible to see but a few feet.

In crossing a trestle just before reaching the station about 6 o'clock, the cars careened with the force of the wind and then righted again. Just as the train reached the station and before it stopped the four rear cars, including the sleeper and a special car in which Assistant General Freight Agent Zimmerman was riding, turned over on their sides.

After the train stopped the baggage car and smoker also tumbled over on the depot platform.

Mr. Combs climbed out of a window on top of the case, and missed Miss Clark out. She was badly cut over the eye.

Mr. Zimmerman was badly bruised about the head and chest.

Besides those injured mentioned above was a gentleman living on Champa street, whose name was not learned. His lip was split open and he received severe bruises about the head.

The porter, Green, who was in the cook room of the Pullman car, was badly scalded about the breast. He was taken to Pueblo. The remainder of the injured were brought to Denver.

Dr. Hart, of Colorado Springs, Chief Surgeon O'Connor and Dr. Leigh, of this city, did all they could for the sufferers. Quite a number of passengers received severe cuts on their hands while breaking out through the windows.

Wants Royalty.

TOPEKA, Jan. 27.—Daniel E. Hoabin, of Elwood, has begun suit in the United States district court against the Atchison, Topeka & Santa Fe Railroad company for \$78,450, which he claims as royalty on cattle chutes used by the company on its entire system.

CONDENSED NEWS.

The Iowa legislative deadlock is still unbroken.

E. C. Richards, of Louisiana, Mo., died in a barber's chair.

Another big lawsuit has been brought against the C. & N. D.

The Atchison road will make an 18 cent rate on hogs to Chicago.

Mr. Spurgeon's suit will prevent his leaving Montana for some time.

A double gas explosion at Columbus, Ohio, killed six persons and injured many more.

At an execution at Montgomery, Ala., the sheriff cut the rope too soon, dropping a deputy through the trap with the doomed man.

NELLIE BLY'S RECEPTION.

New York, Jan. 25.—Nellie Bly will have completed her flying trip around the world at 3:52 o'clock this afternoon if the Pennsylvania railroad train is on time. The moment her feet touch the platform in Jersey City ten guns will boom a welcome from Battery park and ten guns will roar a salute from Fort Green park, Brooklyn. This morning at 9 o'clock a special train left Jersey City over the Pennsylvania railroad carrying a welcoming party to Philadelphia. The regular east bound train on which Miss Bly is a passenger is due in Philadelphia at 1:20 p. m., and starts at 1:40. The run to Jersey City will be made according to regular schedule, and when the train reaches its destination Mayor Cleveland will receive the young circumnavigator in a brief address of welcome.

New York, Jan. 27.—Shortly after 4 p. m. on Saturday carriages with Miss Bly and her party arrived at the World office, in front of which more than 5,000 persons had congregated. The carriages moved briskly, but despite this they were accompanied by a shouting, seething mob of people. In ten minutes there were nearly 10,000 people in Park Row, cheering and waving handkerchiefs and stopping the immense traffic of that thoroughfare. The scenes at the Pennsylvania railway depot, at the ferry, and in the street, thence to the World office, were of a like description. Very few persons have received so flattering a popular welcome in New York as Nellie Bly received. It being a semi-holiday and the arrival of the little lady tolerably certain probably added to the enthusiasm, good nature and size of the crowd. The young woman, it is found by use of figures, consumed seventy-two days, six hours and eleven minutes circling the earth. The trip to New York from Pittsburgh, Pa., where she was known as Elizabeth Cochran.

An old offender.

CLAYTON, Jan. 24.—A man going by the name of F. A. Deatherage and representing that he was a special agent and correspondent for the Denver Times, was arrested here this evening on a telegram from Denver. Deatherage came here last night from Trinidad and Folsom, N. M. To day he made a complete canvass of the town, but he could not get any subscriptions although he succeeded in securing a year's subscription to the Times. Deatherage's complete works. Deputy Sheriff Cook, of Folsom, made the arrest. Deatherage also told the Republican correspondent that he was representing the Denver & Fort Worth railroad under the special instructions of George A. Joly and that a series of articles on this county would appear in the Times. He will be taken to Folsom tomorrow morning, where a preliminary trial will be had.

Santa Fe Possibilities.

CHICAGO, Jan. 27.—The A. T. & S. F. is contemplating an even more sensational move in the putting of a fast passenger service in competition with the Union Pacific-Northwestern lines. Atchison officials themselves had no idea of the possibilities of their route as a passenger route until the Nelly Bly special train had rolled into Chicago. The distance between San Francisco and Chicago was made in thirty-eight hours and forty minutes, an average, including stops, of thirty-eight miles an hour, the average on the Atchison proper being nearly forty-three miles an hour, including stops. Atchison officials were in conference on the subject of fast passenger service, and think they will surely establish the new venture. The matter will be decided tomorrow.

Another tone wrong.

ROME, Jan. 27.—Cardinal Jacobini is critically ill with pneumonia.

The Advocate, Giulio di San Felice, a brother of the archbishop of Naples, has absconded with funds held in trust to the extent of \$120,000.

Old papers for sale in quantities to suit at this office.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article.

A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Mrs. ELLA A. GORE, of Terrace Street, Boston.

Sarsaparilla

Sold by all druggists. \$1.50 per box. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

Everybody admits we carry the largest stock in the territory in our line, consequently we defy competition in quality or in prices.

OPEN DAY OR NIGHT

IRRIGATION CANAL WORK.

A Protest from the Pueblos. The Soldiers' Messia Hitch-Prosperity on the Lower Pecos.

Special Agent F. C. Lewis, of the Indian department, who has been temporarily stationed here since the death of Col. McClure and pending the confirmation of Mr. Segura, yesterday received from the secretary of the interior a protest recently drawn up and forwarded to the department by the Indians of five pueblos between Cochito and Isleta, against the action of the Rio Grande Irrigation & Colonization company. The Indians set forth that this company has undertaken to occupy their lands and construct irrigating canals through them without first having consulted the owners thereof or made any arrangements whatever to treat them as owners of the property, and they state that they on this account stopped the employees of the company from all work on their lands, and they want the government to stand by them to the end that justice may be done. Agent Lewis says the government will certainly do this and that a perfect business understanding must be had between the water company and the Indians before the work can be prosecuted.

SELDEN-MESILLA CONTROVERSY.

To-day a meeting of Mesilla valley citizens is in progress near Fort Selden, at which Major Anson Mills, U. S. A., who is father of the El Paso dam enterprise, is taking expert testimony to be laid before the secretary of war. Major Mills has received the following instructions from the war department: "In obeying your summons to Washington by congressional committee communicated to you this morning, come by way of Fort Selden and give a hearing to parties interested in the twenty-foot ditch through that reservation. Sheriff Mariano Barea and Comr. George Lynch represent the party opposed, and W. H. H. Llewellyn represents the other party and has a revocable license to construct said ditch, which license is now suspended, bring with you a full report after interviewing the parties referred to and after visiting the line of ditch and seeing what its effects will be. Mr. Llewellyn asks that his license be restored, with the following condition: 'That whenever there shall be any scarcity of water in the Rio Grande, to such an extent that it has having prior rights to the use of the water in the said river shall not have such supply as they may have apportioned heretofore severally, then, in such case, the head gate of said irrigating ditch constructed under license shall be shut. The amount of water appropriated by said lower ditches to flow unimpeded to said several ditches below. Consider fully.'

In the meantime twenty teams are at work on the canal below the reservation. The Las Cruces Republican says: "Judge Waldo, solicitor of the Santa Fe road for New Mexico and president of the land companies which operate in this valley in connection with the railroad, was sent here by the company to inspect the situation. As a result of his investigation, the companies are doing all in their power to assist the enterprise. Judge Waldo freely expressed his legal opinion that the old ditches have a prior right to the water, by reason of prior appropriation, and any new ditch company would only have a right to the use of the surplus water, that is to say as long as the old ditches need the water no new ditch can touch it; that the present ditch system is in the nature of a copartnership; that no person holding water rights under it would have a right to withdraw from it; in other words, that no such person could legally divert himself of his obligation to contribute to the maintenance of the ditch except with consent of the others."

PROGRESS ON THE PECOS.

The New Mexican's latest information from Eddy and the Pecos irrigation enterprise shows great progress in that favored section. The town of Eddy is rapidly growing. Real estate is being transferred with unusual advances. The town is alive with mechanics who are building new houses and general improvements. Eddy is likely to be in a short time the best town in New Mexico, simply because it has water and plenty of it. The president of the Pecos Irrigation company, Mr. J. J. Hagerman, president of large railroad and banking corporations, says: "We intend to make the Pecos valley one of the most fertile and prosperous tracts in the United States. No money will be spared to carry the entire scheme to a successful issue and every encouragement will be given to bona fide farmers, no matter how little capital they may have, to take up farms and cultivate them under irrigation."

AT THE ARTESIAN WELL.

What a Score or More of Visitors Witnessed There Yesterday.

A score of visitors went out to the artesian well camp yesterday. The drill was in motion all day and between thirty and forty feet was bored. The well is now about 350 feet in depth. The work of Saturday afternoon, yesterday and to-day is practically dead work, for the reason that when operations ceased for lack of smaller casing the quicksand came up at least 100 feet in the bottom of the hole—unlike Mesquiti—and this has now to be drilled through to reach the 500 foot point originally attained. This will be accomplished to-day and after to-morrow the test will become more interesting than ever. The contractors seem to be confident. They certainly understand their duties perfectly. The visitors watched them at work for four hours yesterday and everything moved forward with a system and a rapidity that was thought to be impossible. The new four inch casing now fills the well from top to bottom and as the drill, working inside the casing, cuts out the sand, the casing slides down and shuts out the sand. The Messrs. Lefever and their workmen are very courteous to visitors, and they have promised to give the New Mexican an early day the depth of the various formations encountered so that a sectional view of the work as far as prosecuted can be given in these columns.

EARLY MORNING BLAZE.

The Kitchner Block Damaged to the Extent of \$5,000—Brave Firemen's Work.

There was another fire in the city this morning, evidently of incendiary origin. August Kitchner's meat market and residence was the scene of it. John Richards gave the alarm at 3:30, and in a remarkably short time the fire department had two splendid streams pouring into the second story of the building. It was at first thought that J. P. Victory was asleep in his office, and in their endeavors to reach the bed room no set of men ever did braver work. Fortunately, however, Mr. Victory was rooming at St. Vincent's and he was not in his room at all throughout the day. The fire seems to have originated in the open hallway on the second floor, or in

the rear second floor rooms formerly occupied by Wm. White as a surveyor's office. The whole upper part of the building was wrecked, and much damage done to Mr. Kitchner's household effects. Probably \$5,000 will not cover the loss. Mr. Victory sustained a loss of about \$2,500, including his office effects, wearing apparel, law books, papers, etc.

Kitchner was fully insured with Paul Wunscheim's agency, but the agent declines to state the amount. He says he will build the structure rather than pay the loss. Mr. Victory's effects were insured with John Gray. The fire was unquestionably of incendiary origin, and the alarming frequency of such occurrences ought to arouse the property holders and insurance men to take steps to ferret out the guilty parties.

ROUND ABOUT TOWN.

The entire Katie Putnam troupe put up at the Palace.

J. L. Jenkins was on Saturday commissioned postmaster at Cerrillos.

A delegation of dear old Apaches is on a visit to Ramona school children.

The insurance men ought to employ the services of a detective and run down the bugs.

The hydrant pressure on last night was in every respect creditable to the city water works.

John S. Barnum has received his commission as postmaster at Lamy and entered upon his duties.

Rivenburg has been cutting ice for three days past, but to-day's warm weather stopped him short.

A private letter from Mora brings word that small pox is raging there, already six deaths having occurred.

The arguments in the Coler case were finished and the case submitted to the supreme court this forenoon.

Have you heard McInty? No? Well don't miss this—probably your only opportunity—at the court house to-night by Katie Putnam.

Katie Putnam will sing to-night, in her successful play of "Erma the Elf," "Down went McInty," "Sweetly Sleep," and "Good night, God bless you."

Charlie Brosier got away with the gold medal at the rink on Saturday night, skating a mile in four minutes and twenty-eight seconds. The rink was crowded with spectators.

Ed. E. Sluder, manager of the Ortiz mine grant, is in the city from Dolores. He reports the Fisk mill was to have resumed operations to-day, running on Asidown's ores.

Fire Chief John Gray says he has the best set of firemen in the country. Their work last night saved thousands of dollars worth of property on central "Trisco" street. The department, however, is short on hose, and the county or the property owners should see to it that they are fully equipped for doing the good work in the future they have been doing in the past.

PERSONAL.

Capt. Nicmaro Vign, of Taos, is visiting the city.

J. P. Dietrie, of El Paso, is in the city making contracts for ice.

Dr. Sloan and S. D. Baldwin are in Kansas City on a mining deal.

Geo. Bibb, one of the Black Hawk mine's, is in from San Pedro to-day.

John King, manager of the Lincoln Lucky mine, is in town on business.

W. S. Neeson, representing the Coler bond holders, arrived from Kansas City at noon to-day.

Mr. H. Crampton, now on the road for a St. Joe glassware house, is rounding up old Santa Fe friends.

Geo. T. Day, representing the owners of the Houghton lands, returned from San Pedro yesterday.

Chief Engineer Wiggins, of the Rio Grande Irrigation & Colonization company, spent yesterday in the city.

Mr. W. F. Parker, of Omaha, a cousin of Mr. Geo. Cuyler Preston, is visiting Santa Fe in company with Mr. E. M. Fairfield, of Omaha.

Dr. W. S. Harroun and wife departed last night for a three days visit to Las Cruces, where the doctor will attend the Masonic grand lodge.

Mr. and Mrs. O. E. Crowell are at the Palace en route from New York to Albuquerque. They are just returning from their bridal tour through Europe.

Hon. W. C. Hazlettine left last night for Las Cruces and will take in the Masonic grand lodge before departing for the east. He expects to meet Hon. Frank Springer in Washington early next month.

At the Palace: H. L. Farrand, New York; G. B. Gilbert, Bloomington, Ill.; C. Romero, Las Vegas; T. R. Coulson, Trinidad; A. Singer, Albuquerque; J. A. Wiggins, Albuquerque; J. R. Ryan, St. Louis; E. M. Fairfield, W. F. Parker, Omaha; W. H. Constable, St. Joe; Katie Putnam and maid, H. B. Emery and wife, New York; E. B. Woodbury, Fort Union; Lizzie Morgan, R. J. Breat and wife, E. Warren, Harry Taylor, W. R. Holmes, Katie Putnam Co.; Chas. Price, J. W. Barton, New York; O. E. Crowell and wife, Albuquerque; W. E. Gregory, Pueblo; T. J. Hateson, W. A. Voncamon, Philadelphia; J. P. Dietrie, El Paso; W. W. Tuttle and wife, Magdalena; H. Crampton, St. Joe; A. W. Harris, Kingston; Geo. H. Glaser, Denver; Geo. T. Day, Boston; G. H. Chick, Kansas City.

AMUSEMENTS.

KATIE PUTNAM TO-NIGHT. Charming and vivacious Katie Putnam, who numbers not a few Santa Feans among her list of admirers, will present "Erma the Elf" at the court house to-night, supported by a strong company. Tickets have sold well and amusement lovers are assured of a treat.

BRIGHT AND CLEVER.

Bright dialogue, clever, people, showy scenery, mirthful music and fetching costumes are the more important features which will insure the success of Fraser & Gill's spectacular pantomimic burlesque, the "Spider and Fly." Some of the scenes are essentially new and novel. Prominent among them is a gymnasium interior with its outfit of poles, ropes, swings, trapeze fixtures and other paraphernalia. A dozen handsome girls are at their various athletic, gymnastic and acrobatic exercises. The picture presented on the stage in this scene is an entirely new and beautiful one. There is no Vincent's and he was not in his room at all throughout the day. The fire seems to have originated in the open hallway on the second floor, or in

TERRITORIAL TIPS.

Folsom continues to find copper deposits near at hand.

Im Gale, of the Red River land company, chartered with number, is being sought after by the sheriff of Mora county.

That excellent weekly paper, the San Juan Independent, has changed its name to the San Juan Index. Allen T. Bird is making a success of it and deserves every support from the San Juan county residents.

Mesilla valley: N. T. Parker will put in a scorching factory this season of 100 to 1000 capacity so that all farmers who desire to do so can plant corn with assurance that it will be all manufactured at Earlsburg.

Denning note: Large shipments of copper bullion from the Clinton furcuses are passing through Denning, being shipped to New York. These shipments average about 50,000 pounds per day. Coke for Clinton is coming in too rapidly to be handled. It is accumulating both here and at Lordsburg.

The Acma Pura company have about 100 men in their employ at the hot springs engaged in cutting ice. A large number of teams are also at work hauling the concealed luxury to fill the ice houses at the Montezuma hotel. The ice varies in thickness from ten to thirteen inches and is of a very fine quality, being hard and clear, and entirely free from snow or slush.—Optic.

The laws of our territory give any man a right to construct a ditch in the valley. They also give ample protection to every vested right. The remedy by injunction is cheap, expeditious, complete and adequate. The men who have raised the cry "no more ditches!" are biting off their noses to spite their faces. But this is what the lords of the valley want.—Las Cruces Republican.

At a railroad meeting in Denning Mr. Huller explained his situation, purposes and prospects. He and his counsel would start on the morning for Lima, Ohio, where he hoped to have a conference with Major Sisson and Mr. Farout. He had positive assurance from German bankers that the entire \$40,000,000 required for the construction of this system could be secured. He was going to Europe to conduct the management, but whether that succeeded or failed he was ready to pledge and here would pledge his word of honor that, "within six months a first class railroad coach should run out of Denning for Palomas."

The shortage of ex-Receiver Browne is now reported to be much larger than at first supposed, reaching to over \$6,000. Information being received at the land office daily from parties who have sent in money to be applied for final receipt, for which Browne has failed to account. It will be of interest to the settlers to know that the government holds itself responsible for the action of the receiver, as it has been currently reported and believed that the loss of his land and money would fall upon the settler unless it could be made from his bondsmen. A bill is to be introduced in congress making an appropriation to cover the amounts of these delinquencies.—Republican.

After diphtheria, scarlet fever, or pneumonia, the Sarsaparilla will give strength to the system, and expel all poison from the blood.

At the Exchange: W. B. Bowman, Buffalo Springs; L. Caron, Golden; J. Jerome, London, Eng.; Miss W. B. Wolff, Cerrillos; W. B. Hendersheets, W. M. Taber, Glorieta; J. H. Brown, Chicago; G. H. Bibb, San Pedro; J. L. Brown, Denver; Mrs. Harry Scranton, Edward Piper, Cerrillos; Mrs. Dennett, Albuquerque.
