HUMAN BLOOD SUCKERS.

A Sensational Story from Kansas City that Seems Quite Incredible.

KANSAS CITY, Jan. 27.—For some time rumors of the existence of a new religious sect, which has gained a foothold in the territory adjacent to the Blue river, east of Kansas City, have reached the ears and the ears of the police. The secretary of the Humane society recently received a letter from a man living in that community telling him that if the authorities did not interfere the people would take the matter in their own hands. The reports were that the practices of the sect were founded upon the Biblical injunction to do good to the sick, but this injunction had been carried to such an extent that the sect had degenerated into a body of blood suckers. Those who were well, allowed themselves to be bled for those who were ill. Other men on investigation of the matter, proved that the letter to Secretary Hackett had not told half of the horrible practices in vogue among the people who believe in this savage rite. About a year ago there appeared among the people of the neighborhood a man named Silas Wilcox, who went about the country preaching the doctrine of doing good for the sick. It was not long until he had sufficient converts to his theories to warrant him in founding a sect which he called the "Samaritans." Gradually he widened his teachings to his little band until he openly advocated the drinking of blood for all diseases, giving as authority for such action the fact that the Bible taught that the blood was life. At the home of John Wrinkle were found two emaciated children; on the bed lay Wrinkle, who was apparently in the last stages of consumption. When questioned about drinking the blood of the children he strenuously denied having done so. The children also denied it. Their bloodless appearance, however, excited the suspicion of the officer and he compelled them to show their arms. Their limbs were in a terrible condition, being covered with scars around the inside of the elbow joints, showing plainly the effects of the bleeding. When questioned with this evidence of the truth of the accusation Wrinkle acknowledged he had availed himself of the opportunity, and asserted that the children had willingly given their blood to restore him to health. The man was in such condition that he could not be moved, but the children were taken from the house and placed in the children's home. Chief Sparks is anxious to put a stop to the practice of the blood drinkers, but it appears there is no law which covers the case and nothing can be done.

Disagreement on Cattle Rates.
KANSAS CITY, Jan. 28.—The trans-Missouri freight agents have been unable to settle their dispute on the cattle rate. All sorts of propositions to adjust Kansas and Nebraska local rates while the Chicago rate from Kansas City remained 12½ cents and from Omaha 55½ cents, were submitted, but none of them met the approval of a majority of the members of the meeting, and consequently nothing could be done. Before adjournment the matter was referred to the roads themselves for adjustment. The Missouri Pacific has followed the cut of the Wabash and St. Louis line, and made a 7½ cent rate on cattle from the Missouri river and intermediate points to St. Louis and East St. Louis. This cut is the result of the Allen's original reduction and more lines throughout the east and south will be affected.

A Crooked Messenger Caught.
LAREDO, TEXAS, Jan. 24.—J. E. White, formerly an express agent of the United States Express company, who was accused of being implicated with others in the stealing of baggage from the Queen & Crescent Railroad company and who escaped to Mexico, was arrested at the Hotel Hamilton in Laredo this morning by Sheriff Sanchez.

White was held for a requisition from the governor of Mississippi, and at the instance of Price, a Pinkerton detective, who had been shadowing him for several months, he was finally coaxed over to this side. The real name of White is said to be Latner, by which he was known when employed as express messenger. It is reported that after all other schemes had failed White was introduced to return to the United States by the offers of investment in Laredo real estate.

The Red Stacks on the Lakes.
BUFFALO, Jan. 28.—The projectors of foreign syndicates have turned their eyes upon the lake steamer lines out of this port. A syndicate, with headquarters in New York, as nearly as can be ascertained, is said to have closed a bargain for all the vessels owned by the "Red Stack" line, and propose to gobble up all the others as well. The first installment of the money was to have been paid yesterday. The seven vessels owned by the "Red Stack" line are valued at \$737,000.

Big Water Scheme.
PUEBLO, Jan. 28.—W. C. Bradbury & Co., railroad contractors of Denver, have just been awarded the contract for the construction of twelve large reservoirs and the Colorado Land & Water company's irrigating canal. This is the largest and longest irrigation canal in the world, being 225 miles long, and will irrigate 600,000 acres of land in the Arkansas valley, between Pueblo and the Kansas line. Two thousand teams and 3,000 men will go to work immediately.

The Rock Island's Special Rate.
TOPEKA, Jan. 27.—The Rock Island railway has made a special rate for wheat in car loads from stations on its line in Kansas to milling stations. The new rate is one-half the regular tariff. The change will apply on shipments from any point on the Rock Island railway in Kansas to stations, with a provision that the rates to intermediate points shall not be higher. The same basis is made to Kansas City, Mo., on all shipments from points in Kansas south of the Union Pacific railway. The condition of the new tariff is that the Rock Island shall receive shipments of mill products out equal to 75 per cent of the tonnage of wheat shipped in.

Chinese Emigrating Eastward.
PITTSBURGH, Jan. 27.—The second detachment of Chinese laborers bound for New York passed through Pittsburgh yesterday. The first lot, eight in number, went through last Friday. The second lot, twelve in number, arrived here today. The party came directly from San Francisco, and was met here by Lem Chen, the representative of the Chinese company who piloted the first squad. He said his company, which would supply New York contractors with laborers, had another party of fifty Chinese en route from San Francisco. They will reach New York by the first of next week. Lem Chen thinks the scheme will be a failure because of the opposition of politicians who control the Irish and Italian vote. Chen says the Chinese are of the lowest class.

Their Pockets Full of Diamonds.
New York, Jan. 28.—Two custom inspectors mingled with the passengers on the French steamship La Gascoyne at the wharf last night. They noticed two gentlemen the pockets of whose coats looked suspiciously large, and after the passengers had declared that they had nothing but the ordinary articles, they stepped aside to have their pockets examined. In those of Gerónimo Fernandez, of Mexico, they found eighteen pieces of jewelry, consisting of three diamond pins, four gold watches, and several gold bracelets and rings, which he had overlooked in his declaration.

On the person of the other passenger, who said he was Domingo G. Otter, of Matamoros, Mexico, the inspectors found two pairs of diamond earrings, several diamond pins, and a couple of gold brooches. All the goods were confiscated, and will be turned over to the state department.

Removed to Topeka.
TOPEKA, Jan. 28.—The work of removing the general passenger department of the Chicago, Santa Fe & California railway to Topeka, made necessary by the closing of the line between the Atchison, Topeka & Santa Fe road, is about completed. The passenger and ticket department of the entire line will be presided over by George T. Nicholson, one of the youngest general officers in the country. His jurisdiction will now extend from Chicago to San Francisco, and it comprises about 7,000 miles of railway. Mr. Nicholson will have an assistant at Chicago, H. G. Thompson, having been appointed to that position, but the greater portion of the passenger and ticket service will be performed in Topeka.

Builders' Meeting.
ST. PAUL, Jan. 28.—The national convention of builders met yesterday in this city and will remain in session till Wednesday. Among the subjects discussed at the meeting will be the eight hour question and the founding of trade schools. Some of the delegates will go prepared to vote for nine hours instead of eight, and will make a special effort to get that number of hours recognized by the convention as the length of a day's work.

The Socialist Bill Rejected.
BERLIN, Jan. 28.—Herr Repel, socialist, resumed the debate on the socialist bill in the reichstag. Upon conclusion of the debate the bill was put to a vote and it was rejected, by 78 in the affirmative to 169 in the negative. Prince Bismarck did not appear in the chamber during the day after the vote was announced.

Cigarette Manufacturers Organize.
NEW YORK, Jan. 28.—A number of capitalists associated with leading cigarette manufacturers, by their counsel, filed yesterday at Trenton, N. J., a certificate of incorporation of the American Tobacco company. The capital is \$25,000,000, divided into \$10,000,000 of preferred, and \$15,000,000 of common stock.

A Broken Boom.
KEOKUK, IOWA, Jan. 27.—The warm weather following the cold snap has caused the ice to stop in the river here, and in its grinding movement it has wrecked the new government boom, 800 feet long, extending from the lower lock of the Des Moines rapids canal to the drawbridge.

LATEST FROM THE WELL.
Another Bed of Coarse Gravel Encountered—Very Favorable Indications for a Flow.
To-day there are better indications of artesian water in the well than ever. Mr. Lefever is in from camp and says the drill has passed through the quicksand, and is now, or was when he left, working in a very coarse water bearing gravel. They have not yet got down to the 600 foot point where they left off, and this gravel must have been forced up in the bottom of the well by the same hydrostatic pressure that caused the quicksand to rise so rapidly. The coarse gravel found near water beyond doubt because the fluid now stands within less than 150 feet of the surface, notwithstanding the fact that three upper streams have been shut off by the casing. The contractor considers the situation very favorable, and would not be surprised if an artesian flow were developed before the drill goes fifty feet further.

The Committee on the Tariff.
WASHINGTON, Jan. 28.—The committee on ways and means has finally begun the preparation of a tariff bill, working upon the lines of the senate bill of the last congress. The lumber and wood sections of that bill were adopted entire, with the exception of a clause relating to rattan and chair canes, which has been attached by a number of members of the committee, and has consequently been held up for future action.

The schedule of the senate bill covering books and papers was also adopted. This action is preliminary, and all of the schedules adopted will be subject to revision when the bill is completed.

The Democratic members of the committee manifested their opposition to the provisions adopted in lieu of the provisions of the Mills bill of the last congress, but they were rejected by a party vote.

Indignation of the Portuguese.
LISBON, Jan. 28.—The Commercial association has resolved to do its utmost to prevent or restrict all trade or commercial intercourse with England.

The inhabitants of Setubal, a port eighteen miles from here, recently prevented a Portuguese merchant of that place from shipping goods on an English steamer, which therefore sailed without any cargo.

Many American, French and German commercial travelers are here making the most of the opportunity afforded to replace British goods in Portuguese markets by goods from the countries they represent.

A Wealthy Ranchman's Overdose.
STONING CITY, Kas., Jan. 25.—Last night Jack Lee, one of the wealthiest young ranchmen in Chase county, took a large dose of chloral to overcome sleeplessness. This morning he did not appear at the breakfast table, but that was not unusual and passed unthought of. His brother Frank returned from work on the ranch about noon and on learning that Jack had not come from his room went up stairs to see what was the matter. The door was locked and no answer could be obtained by knocking. The door was forced and Jack found dead.

A Tough Tribe in Texas.
BROWNSWOOD, Texas, Jan. 28.—The preliminary examination of the Bangs express robbers was closed today. The testimony of Engineer Spaulding was positive. He fully identified the prisoners, Brown, Wallace and Dulaney as the men who held up the train. All of the suspects are held for trial on the charge of murder. The bond is \$5,000 each, and on the charge of express robbery \$300 each. In default of bond they all went to jail. They were on \$2,000 for cattle stealing previous to the trial for robbery and murder.

THE MILITARY CALLED OUT
The Lot Jumping Craze Looms up at Guthrie.

GUTHRIE, I. T., Jan. 24.—The lot jumping craze loomed up all over the city here to-day. For the first time in eight months the military was called to help enforce the laws. Robert Hamill, who claimed the ownership to a lot in the heart of the city, was ejected by the authorities. A great crowd gathered and the soldiers were called to preserve order. The message of the Perkins bill has caused a great deal of uneasiness among the innocent purchasers of lots, but they are willing to wait until the necessary order is restored. On the other hand, it is only too willing to grasp anything that comes along, even if it takes mob violence to get it. Property holds up at very firm figures. Much credit is due Capt. Cavanaugh for the prompt quelling of the disorderly mob. Everything is now quiet.

Favor an Increase.
WASHINGTON, Jan. 28.—The senate committee on public buildings and grounds has decided to report favorably the bill increasing the appropriations for a public building at El Paso to \$200,000.

Be Sure
If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get
"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's
When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GORF, 61 Terrace Street, Boston.

Sarsaparilla
Sold by all druggists, \$1.50 for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

A FARMERS' COLONY.

What the San Luis Valley Farmers Found in the Manzano Valley—New Homes.

A colony of fifty American farmers has established itself within a short time in the Manzano valley some eighty-five miles south of Santa Fe. The latest important addition to this settlement consists of a dozen families from the San Luis valley, in southern Colorado. Some sixty days ago these people shipped their household goods from Alamosa over the narrow gauge to this city and here stored them, following later with their teams and a good lot of horned cattle. Here they took counsel and were advised to prospect the Manzano country. There they found a beautiful valley, abundant land where irrigation is not necessary to the production of crops, and, above all, a hospitable sentiment whose people were glad to welcome them. They were not long in getting located, building homes and getting in shape for the spring time, and now they have their own teams turning over the mellow valley soil and have sent other teams to Santa Fe to haul down their household effects. In thirty days more their homes will be established. This is not a bad lot of news as showing what is to be done in New Mexico from this time on. Perhaps the statehood agitation has had something to do with this movement.

This San Luis colony's coming, however, is significant of a recognition of the climatic advantages of New Mexico that ought not to go unnoticed. For seventeen years, they said, they had been farming in the San Luis valley. Water was abundant there, but the seasons were too short to raise much of anything beside small grain, and at last they made up their minds to make a change. One of the party informed the New Mexican that on July 4 last, in the San Luis valley his wife gathered ice off the irrigation canals with which their holiday ice cream was made. He said he was looking for a country where ice was not so long strung out in its staying qualities. He found it in the Manzano valley, where hundreds of other farmers are likely to find it within the present year.

In this connection the New Mexican learns that a large Mennonite colony, whose representatives were here last summer, will arrive from Reno county, Kansas, this spring and settle in the Manzano region. These things indicate that New Mexico has only to advertise her resources properly to successfully catch a large immigration. To this end the New Mexican bureau of immigration is now at work preparing a neat pamphlet for general distribution among the farmers of the western states.

Caught a Crook.

Frank A. Deatherage, not unknown in Albuquerque, and who played the dead beat act in Santa Fe a year ago, afterward collecting money along the line of the D. & R. G. as a subscription for the New Mexican and appropriating the money to his own use, has been arrested at Clear for playing the same trick on the Denver Times. He is a great fraud, and it is not unpleasant to learn that the Times is to prosecute him for his rascality. Deatherage has a family in Texas, and was at one time connected with a newspaper at Pagosa Springs, Colo. He ought to be snatched to the full extent of the law.

THE POSTOFFICE ROBBERY.

Albuquerque Officers Running Down Clues—\$500 Reward for Arrest and Conviction.

The postoffice inspectors, Messrs. Patterson and Gardner, are now at Albuquerque investigating the recent robbery of the postoffice there. It will depend much upon their report whether or not Postmaster Walker will have to make good the shortage. If it can be shown with reasonable certainty that the deed was done by discharged postal employees, who were allowed to frequent the office after their dismissal, of course it will go harder with the postmaster than if the investigation should point to the fact that professional cracksmen are at the bottom of it. The New Mexican to-day prints elsewhere an advertisement from the postmaster general offering \$500 reward for the arrest and conviction of the robbers. As to clues, the Citizens at hand this morning say that officers have been sent to San Pedro to run down a suspicious individual seen carrying a package through Tejas canon, and adds:

In a conversation with an Indian from the pueblo of San Felipe yesterday, Al. Griego, of George Oberle & Co., learned that on Saturday a Mexican appeared in the village with considerable money, which he spent lavishly. He also had wrapped around his legs below the knees some papers of some kind, which the Indian took for stamps. The governor of the village had learned that the postoffice here had been robbed, and as soon as the Mexican left his suspicions were aroused that he might be one of the thieves. He then told two of his subjects to follow the man and arrest him. The men had not returned from their pursuit when Mr. Griego's informant left the pueblo. The Indian was taken before Mr. Walker, to whom he reiterated his story.

MASONIC GRAND LODGE.

A Large Attendance at Las Cruces and Good Work for the Order in Hand.

The twelfth annual communication of the grand lodge of New Mexico was called to order at 10 a. m. yesterday. Fourteen lodges were represented. The grand master, Alex. H. Morehead, of Silver City, presided. A committee of credentials was appointed and at 2 p. m. the grand lodge convened again to listen to the annual address of the grand master. The reports of the several officers were received and referred to appropriate committees. The report of the grand secretary shows the grand lodge to be in a flourishing condition.

The roll of lodges is as follows: Montezuma No. 1, at Santa Fe; Chapman No. 2, at Las Vegas; Aztec No. 3, at Las Cruces; Union No. 4, at Tiptonville; Temple No. 6, at Albuquerque; Silver City No. 8, at Silver City; Socorro No. 9, at Socorro; Miembres No. 10, at Georgetown; Gate City No. 11, at Raton; Deming No. 12, at Deming; Hiram No. 13, at San Marcial; Western Star No. 14, at Chloride; Animas No. 15, at Farmington; Kingston No. 16, at Kingston; Chama No. 17, at Chama; Cerrillos at Cerrillos and Roswell at Roswell, the two latter having been instituted during the past year. The total membership of the 17 lodges is shown to be 699 master Masons, an increase of 62 over 1888.

The grand lodge was instituted in 1877, twelve years ago, at Santa Fe, with four lodges and 134 members. The first grand master was the late Wm. W. Griffin, who was succeeded by Col. W. L. Kynerson; the grand masters thereafter were Judge S. B. Newcomb, Judge H. L. Waldo, J. W. Wooten, W. B. Childers, Cornelius Bennett, Chas. M. Frost, Dr. W. S. Har-ron and the present grand master, A. H. Morehead. A banquet was given last night by Aztec.

lodge to the grand lodge, which turned out to be a most enjoyable affair. The session will last two days and probably three. The attendance is very interesting and interest is shown in the proceedings.

Bugging Soles.

In the ears, sometimes a roaring, bugging sound are caused by catarrh, this exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

ROUND ABOUT TOWN.

The A. T. & S. F. ice houses at Lamy have been filled with ice from Las Vegas. A gentle family horse with cart and harness, for sale. Inquire of Capt. Dugan, Fort Marcy.

The first of the theatrical entertainments arranged for Santa Fe by C. H. Gregg has given promise of much pleasure to those who welcome diversion in the winter season.

Heavy rains in California and snows in Colorado are again interfering with the mails to some extent. No mail from the east and north to-day at noon, though the passenger train came through.

A private letter from Manager Raunheim, of the Santa Fe Copper company, says two thirty-five ton furnaces are now running, and it was the intention to blow in the new furnace this afternoon.

A man named King, engineer on the narrow gauge, accidentally shot himself with a small revolver on Sunday, 22-caliber. The ball struck his cheek bone and came out near the ear, inflicting a painful but not serious wound.

The men are knocking away on Don Gaspar avenue at a lively rate to-day. The thoroughfare is now open to intersect with Carleton avenue, and this morning the teams and a big gang of shovellers began filling in the bridge and aqueduct crossings.

August Kirchner carried \$6,000 insurance on his building in Mr. Wunschmann's agency. It is said that unmistakable signs of an attempt to fire the place were discovered some two weeks ago, and a few nights later somebody gave the front doors of his place a coat of red paint. The county authorities owe it to themselves to look into this matter.

E. M. Albright and party of hunters got in from the Naube mountains yesterday bringing ten deer. They report no snow thereabouts—a very unusual occurrence. Mr. Albright says a man can walk clear to timber line toward the crest of Bald mountain and not encounter a foot of snow. He thinks, however, that February's snowfall will be heavy in the mountains.

PERSONAL.

Charlie Haspelmath is in from Lamy. Hon. Demetrio Perez, of Socorro, is in the city.

C. H. Gildersleeve returned from Socorro this morning. Mrs. L. Bradford Prince has been quite ill since Friday last.

W. E. Broad, of Chama, is still quartered at the Palace.

Hon. Aniceto Abeytia is about again after a long sick spell.

Bishop Kendrick is sick with the "grippe" at Albuquerque.

A. W. Harris, of Kingston, left the Palace this morning for the east.

Hon. S. D. Baldwin returned from the east yesterday, stopping off at Las Vegas. Peter Fischer, of Chicago; Thomas Perez, H. Johns, Arizona, are at the Exchange.

Hon. B. Seligman, who has been east buying a spring assortment of goods, leaves Philadelphia for home to-day.

Mrs. J. W. Summerhayes is once more able to drive out after close confinement to the house for some time by sickness.

At the Palace: H. T. Hilgard, Denver; John J. Woods, J. T. Wright, St. Louis; M. M. Smith, Chicago; E. S. Truitt, Kansas City; J. E. Dwight, Sioux City, Iowa; J. T. Nicholson, Chicago.

AMUSEMENTS.

A CHARMING ENTERTAINMENT.

The performance of "Erma the Elf" by Katie Putnam and her clever company last night in the court house was a great success artistically and financially; the performance being the best we have seen here this winter, and the house crowded, standing room being at a premium. Of Miss Putnam's acting nothing can be said but praise; from beginning to finish she was the same bright and sparkling Katie, one moment moving her audience to tears by her pathos, the next, creating roars of laughter. Although not possessed of a very remarkable voice, yet her singing of "Down Went McInty" was one of the features of the evening. Mr. Burton, as "Signor Bosanko," was very good, and while he has a voice that would simply cut a plank in two, his singing of "He's in the Asylum Now" brought down the house. Mr. H. B. Emery as Major Bulkins, the old uncle, was clever, while Mr. C. A. Prince's playing between acts was much above the usual. Of the rest of the company some were good, some were not; but taken as a whole the performance was one of decided merit, and Mr. Gregg is to be congratulated on his good judgment in selecting such a company to cater to the wants of our amusement loving public.

THURSDAY NIGHT'S ATTRACTION.

One of the big novelties of the season is M. B. Leavitt's gorgeous production of Robert Fraser and Wm. Gill's spectacular pantomimic burlesque extravaganza, "Spider and Fly," which is thoroughly American. It is said to be a great show, and one that will surely meet with the requirements of the great American public, as it embraces everything that is popular nowadays with theater-goers. Comedy, burlesque, pantomime and specialty will be the order of things, with magnificent scenic effects, costumes and properties thrown in. The company will comprise forty odd people. As stated yesterday this is in no sense a "variety show" as some people seem to think. It is a first class attraction, patronized by the best class of citizens wherever presented.

THIS PAPER is kept on file at E. C. Duke's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

TERRITORIAL TIPS.

Sneak thieves are working Socorro. The Rio Grande is pretty high for this season of the year.

The Albuquerque hose team will give a ball on St. Valentine's day evening.

The editor of the Kingston Shift claims to know a great deal about grand "bawls."

An Albuquerque man advertises "a large assortment of all kinds of funeral goods at low prices."

Valencia county commissioners will let a contract for a bridge over the Rio Grande at Los Lunas.

Pauline Cushman, the celebrated female spy of the war of the rebellion, is living at Casa Grandes.

Nat. Nauden has met with business reverses at Wallace, but as soon as they can be settled will resume business there.

Deputy sheriffs are after several suspects near Albuquerque hoping to nail the two men who robbed the postoffice on the 24th.

"The first newspaper to violate the rules of the Press Association of New Mexico was the Sierra County Advocate," so says the Kingston Shift.

There are now three schools on the Laguna grant—one Presbyterian, one Catholic and one government non-sectarian school—News-Register.

The New Mexico department of the G. A. R. is commanded by a one-legged soldier, and Veteran post, No. 12, (G. A. R.), of Kingston, by a one-armed soldier.

Albuquerque chestnut: "Heavy snow storms prevailed in the northern New Mexico ranges yesterday. In Albuquerque, however, the weather was warm, pleasant and balmy."

The report that J. J. Furlong, a freight conductor on the Atlantic & Pacific, had attempted self-destruction by taking chloral Sunday is without foundation. Mr. Furlong is subject to insomnia, and on retiring to his room at the Los Angeles house yesterday afternoon, for the purpose of taking a nap, he found that he could not sleep and resorted to a dose of chloral to bring on the desired effect.—Citizen.

Col. C. C. Fitzgerald, president and general manager of the International Smelting company, has been experimenting for some time past upon zinc ore, and a way to save the silver in the same, is satisfied he has at length discovered a method by which it can be successfully treated, and at a nominal cost. He is going immediately to erect a furnace for the treatment of this class of ore by the new process.—El Paso Bulletin.

It is said that the Savage lease on the Sierra Bella at Lake valley is the greatest discovery made in these mines since the days of the "Bridal Chamber" in 1882. The ore is solid horn silver and samples \$28,000 per ton. The ore body was worked by the lessees from the 15th to the 21st of the month, when the company assumed control, the lease having expired. Although but having a few days to work, and paying 30 per cent royalty, the lease in this short time netted the lessees \$30,000.

The Globe-Democrat's mining column says: "The Coyote copper district, in Mora county, is exciting much attention at this time, several fine copper veins having been opened. These have been most satisfactory. At Raton the Virginia Consolidated Copper company has been organized, and is now developing several of the best claims. Gen. Ben Butler and a number of citizens of northeastern New Mexico are at the back of this company, and it is said their stock is soon to be listed both in Denver and St. Louis."

ARMY ORDERS.

Col. Douglass is reported somewhat improved to-day.

Boards of appraisers have been named to inspect and appraise the value of all post buildings at Fort Crawford, Colo., Fort Elliott, Texas, Fort Gibson, I. T., and Fort Lewis, Colo. What's it mean? Private Henry C. Britton, troop A, 6th cavalry, now under treatment at the army and navy general hospital, Hot Springs, Ark., having sufficiently recovered, will join his troop at Fort Wingate, N. M.

Private Charles M. Sheldon, troop A, 24 cavalry, will be discharged to-day. The superintendent of the recruiting service will cause thirty recruits to be assigned at Davis island, New York harbor, to the 9th infantry, and forwarded to the department of Arizona.
