WASHINGTON MATTERS.

SMITH IN HIS REAT.
WASHINGTON, Feb. 5.—The exciting scenes that characterized the proceedings of the house last week, continue, and will last until the Republican members of the committee on rules submit Speaker Reed's new code. It is the purpose of the majority members of the election committee to report the Atkinson-Pendleton contested case as soon as the Smith-Jackson case is disposed of. The committee has heard the evidence in the case, but has had no meeting to decide on its disposal. According to the agreement entered into by the members of the committee this case would come up before the committee on Tuesday, February 13, but the majority of the members have decided to call a meeting and take a vote on the matter so that the case can be reported to the house immediately after the Smith-Jackson case is gotten out of the way. With the addition of Mr. Smith to the committee ranks the majority would be quite certain of always having a quorum on hand to dispose of the other cases. A vote on the Smith-Jackson case was taken yesterday and Smith was seated.

Little is known concerning other business that may come before the house. As it is, there is slight prospect of the enactment of any legislation for the present. The members of the world's fair committee are undecided as to what shall be done with the general bill they have under consideration. Some members of the committee are in favor of letting the bill go over until the new rules are adopted, while others are anxious to break in at any time and dispose of the bill without long debate. Mr. Hitt, of Illinois, favors the latter plan. He thinks that the bill can be disposed of within an hour. The committee on territories will probably report the Oklahoma bill during the week and take speedy action on it.

IDAHO AND STATEHOOD.
The decision of the supreme court in the Idaho test oath case removes the last Republican objection to the bill for the admission of Idaho into the union, and Mr. Platt, chairman of the committee on territories, will now make a favorable report upon that measure. The Democrats may oppose this bill, as the claim is set up that the clause in the Idaho constitution preventing the Mormons from voting will result in disfranchising a third of the Democratic voters of the new state.

CAPITOL CHAT.
Secretary Tracy continues to improve slowly.

CONFIRMATIONS.
Washington, Feb. 4.—The senate this afternoon confirmed the nomination of William H. Taft, of Ohio, as solicitor general, and Augustus Heard, of Massachusetts, consul general to Corea.

The remains of Alice Coppinger, eldest daughter of Secretary Blaine, were yesterday laid to rest in Oakhill cemetery beside those of her brother, Walker. A brief service was held at 10 o'clock at the residence of her father. The body was then taken to St. Matthew's Catholic church, where solemn rites for the dead were performed. Rev. Father Thomas Sherman, son of Gen. Sherman, celebrated the requiem mass. Cardinal Gibbons read the burial service and blessed the body. The church was crowded.

The Tracy fire originated in the parlor near the open fireplace. Whether it originated from a grate or a heating pipe is not known. The furnace is in the basement directly beneath where the fire started and the pipes leading to the upper stories pass in the rear of the woodwork. The firemen generally think the woodwork caught fire from the heated pipes.

AMERICAN MACHINERY.
CHICAGO, Feb. 5.—Regarding the report from New York that Frazier & Chalmers, of Chicago, probably the largest manufacturers of mining machinery in the world, had been bought out by a British syndicate, Mr. Thomas Chalmers to-day said: "We are merely establishing a branch in England, in which, it is true, there is to be some English capital invested. Our business has been steadily increasing, until it has now reached about \$3,000,000 a year, making it almost impossible to handle it from one distributing point. We make shipments to Europe, Australia, Asia and Africa, and have heretofore been compelled to ship to London and from there to the various destinations of consignments. We have, therefore, decided to establish a branch in England, probably near London. Mr. David Frazier will go to England to superintend the erection of the works."

Silver in England.
LONDON, Feb. 5.—The approaching opening of parliament has given a stimulus to the silver market. Meetings in favor of a bi-metallic standard are held daily all over the country, and columns of the newspapers from the Times downward are full of discussions on the same subject. Monday week, the day before the opening of parliament, a meeting will be held at Westminster to decide upon the line of action to be followed during the session and to elect a parliamentary leader in the place of Mr. Chapin, who, having become a member of the government, can no longer lead a private party. The gathering will be notable. Many peers, members of the house of commons, and governors of the bank of England, financiers and merchants have promised to attend.

To Beat Nellie Bly.
BOSTON, Feb. 5.—George Francis Train may start within a few days to beat Nellie Bly's record around the world. He set out several years ago to make fast time as a globe wanderer. He traveled westward from San Francisco and got as far as Marseilles, France, where he was detained

by the authorities as a suspicious character, and thus his record was spoiled. Train is an enthusiast on the topic and believes that by taking the Canadian Pacific to Vancouver, where close connections can be made with a Pacific steamer, he can beat Miss Bly's record handsomely.

New York Gives up.
PHILADELPHIA, Feb. 5.—The New York correspondent of the Press thinks the New Yorkers have about concluded that the world's fair will go to some other city. He says to-day: "There will be small effort to induce congress to pass a bill favoring New York for the world's fair unless some kind of harmonious agreement can be reached among the members on the movement. There is no prospect of such an agreement, and it is now probable that the citizens of New York, who have been so enthusiastic, will allow the whole scheme to lapse."

A Gold Laden Meteor.
GRANBURY, Texas, Feb. 5.—A meteor fell on the larger of the two Comanche peaks Friday night last. It came on an incline of about 45 degrees and struck the edge of the peak, where the boulders being over the side of the mountain. It came from the south. Its descent was very bright and rapid, fairly illuminating the peak as it fell. It knocked off large stones which went rolling down the mountain followed by the celestial visitor, barely missing Major Forrest's house at the foot of the mountain. The meteor will weigh several tons, fragments brought in by those who went to see it, contains nuggets of what is believed to be gold. Many people have gone from Granbury to see the meteor.

English Free Schools.
NEW YORK, Feb. 5.—A London cable to the Times says: "Old line Tories are furious over a report that Mr. Gieshen intends recommending that a part of the treasury surplus be devoted to free education. The Standard devotes a savage leader to the denunciation of the idea, declaring that there is no difference in principle between providing the poor with gratuitous knowledge and providing them with gratuitous bread, boots and blankets. Further on it declares that the character of the English people is certain to be fatally injured if the demoralizing doctrines of free education are ever carried out upon a large scale."

A New Colorado Town.
OURAY, Colo., Feb. 5.—D. C. Harwell, Otto Meers and Fred Walsen are the projectors of a new town at the junction of the Rio Grande Southern and the Ouray branch of the Denver and Rio Grande. Ranches have been purchased at the lower end of the Uncompahgre park and a town laid out ten miles from Ouray and two miles from Dallas, the present forwarding point. Smelters and other industries are proposed at the new town. Work on the Rio Grande Southern to Telluride and Rico will begin soon.

How they Save the Stock.
CHEYENNE, Feb. 5.—The Wyoming cattle men are feeding on a gigantic scale. At dozens of ranches hay and grain are being distributed to thousands of cattle and sheep. In many cases cattle have been shipped to Nebraska, where feed is cheap. The loss of stock will be very heavy, of cattle nearly as much, but nearly all the horses will survive. Range cattle are starving in the streets of Evanston.

The Poultry Show in Denver.
DENVER, Feb. 4.—The Colorado Poultry and Pet Stock show, which opened last Wednesday and closed yesterday, has been a pronounced success. Some 800 birds have been on exhibition, including some noted prize winners from several different states. Many of the exhibitors will take their stock to Lincoln, Neb., where an exhibition is now to be held.

In Iowa.
DES MOINES, Feb. 5.—At the opening of the house yesterday Holbrook, Democrat, presented a proposition asking the Republicans to nominate an alternative proposition, and the opposition would bind themselves to accept one or the other of them. After four fruitless ballots for speaker the house adjourned. There is some prospect that an agreement may be reached soon.

CERRILLOS GOSSIP.
Not far from Cerrillos they are running lines to San Pedro on both sides of the Ortiz mountains.

Engineer B. F. Booker, in charge of the A. T. & S. F. surveying party, is in camp near Rogers' coal mines.

Chief Engineer Coleman, of the Santa Fe Southern, spent yesterday in Cerrillos. Lightning is liable to strike the San Pedro extension any day now.

Jeff. Reynolds and S. D. Baldwin inspected the Lincoln-Lucky's new strike yesterday and were last night passengers out of Cerrillos for Las Vegas.

P. T. Haley, a miner in the big Copper mine at Pedro, met with an accident yesterday. There was a break in the machinery and a piece of flying steel was driven through his thigh. He was brought in to St. Vincent's hospital this morning.

Editor Anderson, of the Rustler, and Col. S. W. Fletcher, manager of the "Consolidated," came in from camp to-day. The latter is searching the clerk's office with a view to perfecting titles to his company's mining claims near Cerrillos.

Capt. P. Smith, of Gallup, and J. R. Lincoln, of Fort Wingate, last evening bought out Thos. P. Gable's hotel at Cerrillos. Mr. Gable has leased a business house at Cerrillos and will engage in the ice and general commission business. Success to all of 'em.

TERRITORIAL TIPS.

Base ball is again discussed at Albuquerque.

Francisco Padilla pleaded guilty to wife murder at San Marcial.

New Mexico needs irrigation ditches to bring her to the front.

Free non-sectarian schools for New Mexico.—Gallup News-Register.

Gallup ought to be proud of its precinct constable. He collected the poll tax closely and turned \$300 into the treasury.

A proposition to vote bonds for the erection of a suitable school building in East Las Vegas will probably be submitted to the board of town trustees at their next regular meeting.

Hospital note from Las Vegas: "The ladies in charge of the house feel justly indignant at the rumor circulated to the effect that Mrs. Higgins contracted the varioloid by contact at the home."

The divine Patti will arrive in El Paso to-night from the city of Mexico on her special train of eight coaches. She will remain over night in El Paso and then go on to San Francisco Thursday morning.

Dr. Carline has located the ruins of seven ancient pueblos and a large prehistoric reservoir in the neighborhood of his ranch, north of the Navajo church. He will repair and utilize the reservoir, which he thinks will afford him a lake of water half a mile long, an eighth of a mile wide and in places twenty-five feet deep.

Lieut. Schwatka, who made fame as an Arctic explorer, and is now devoting himself to archaeological investigations in the southwest, passed up the A. T. & S. F. line yesterday, in charge of ten Indians from old Mexico, of the variety known as cliff dwellers. He is taking them east to give scientific people a chance to study them, and revise some of their theories as to who constructed the cliff dwellings. The lieutenant holds to some very accurate views on the subject.

Monday last Sheriff W. T. Longnecker, of La Platte county, Colo., accompanied by Deputy Sheriff M. M. Blumett, of San Juan county, N. M., passed El Paso with the man Kinners in charge, who killed an Italian boy near Durango. Longnecker and Blumett tracked their man from Durango, near Largo, where he stopped overnight a week ago last Saturday, to Abiqui, near Santa Fe, where they overtook and captured him. Kinners was stout and did some tall walking one part of his journey, across the continental divide, he made between 75 and 100 miles without anything to eat and without a fire, at the very time when the cold snap of last week was at its height.—San Juan Index.

Mrs. Agnes S. Whitmore, of this city, died in Los Angeles, Cal., Sunday afternoon at 2:30 o'clock, at the age of 38 years. She had been a confirmed invalid and a great sufferer for twenty years. The remains have been embalmed and will be temporarily interred at Los Angeles. The deceased was married to her present husband at Hot Springs, Ark., in the month of April, 1876. She was one among thousands, and altogether lovely. Mild-mannered, courteous, considerate, charming, she was a sincere Christian, and had many friends who appreciated her merits highly. Her death is, indeed, a great loss to the community. But her sufferings are at an end in the Land of the Lost.—Optic.

Notice for Publication.

[Homestead 3474]

LAND OFFICE AT SANTA FE, N. M., Feb. 4, 1890.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register or receiver at Santa Fe, N. M., on March 13, 1890, viz: Francisco Arriaga for the sw 1/4, sec. 7, tp. 16 n., r. 13 e.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Melchior Arriaga, Bartolo Vigil, Simon Quintana, Encarnacion Vigil, all of Rowe, San Miguel Co., N. M.

A. L. MORRISON, Register.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the source of the trouble. It banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat I did not digest. In an hour after eating I would experience a faintness, or tired, sick feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."

GEORGE A. PAGE, Watertown, Mass.

Hood's Sarsaparilla Sold by all druggists. \$1.00 per bottle. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

The New Mexican is the oldest news-
paper in New Mexico. It is sent to every
Office in the Territory and has a large and grow-
ing circulation among the intelligent and pro-
gressive people of the southwest.
WEDNESDAY, FEBRUARY 5,
1903

Sign the silver free coinage petitions to congress.

Let us have incorporation and some progress.

Let us have lighted and clean streets and some progress.

Incorporation for Santa Fe would be followed by good results.

The situation concerning the office of territorial historian is well explained in these later words: "Ha, the plot thickens."

Direct rail connection with the rich mineral and coal fields of southern Santa Fe county will open up a region rich in railroad freights.

SPEAKER REED was sure he was right and he went ahead, and what is more, he will keep on going ahead, and the people will support his going ahead.

The president will ouster the people of New Mexico by making an appointment of chief justice of this territory. It is to be hoped that the principle of home rule will obtain.

An enterprising set of officials Santa Fe county has, to be sure. The constables are real sunflowers, they collected \$750 out of a total of \$2,000. Its rough on the school fund!

The Board of Trade ought to continue the investigation of the affairs of this county and of the county finances. We can not have too much investigation in that direction.

The best interests of the territory would be served, it seems, by the repeal of the \$300 exemption clause in the revenue law. At any rate the discussion of the question will not do any harm.

SENATOR STEWART's bill before congress to repeal the alien act so far as it affects the investment of foreign capital in mines in the territories will prove beneficial to New Mexico if it becomes a law. Write to your friends in congress to support it.

JOHN W. CROWLEY, a busy man at Fall River, Mass., will enjoy a trip to Europe and return at the expense of the New York World, he having made within a few seconds of the time New York completed her journey around the world. Here's practical results.

The head of the eminent divine, Mr. Talmage, is very level. In a sermon he recently said: "I could preach a whole sermon on the everlasting blessing of a good newspaper. A good newspaper is the greatest temporary blessing that God has given to the people of the United States."

The Republicans have a majority in the house of representatives, and right and justice, therefore, prevail. The people, who elect congressmen, are well pleased with the course of Speaker Reed, who is the representative of the majority. The mountings and ravings of the disgruntled brigades avail nothing.

The iron producing states in the south, on a basis of the production of 1899, will during the present year produce 2,000,000 tons of pig iron. This will give the railroads freight of 11,000,000 tons or 500,000 car loads of raw material of ore, coke and limestone. This is what the Republican policy of protection is doing for the south.

SHALL the state and stipend float over every school house in our land? One state legislature after another in the union is taking up the discussion of this to make our glorious flag dear to every child's heart. New Mexico needs a thousand banners flying in her clear sky, as a symbol of the power that teaches the children liberty, equality and brotherhood.

The representative business men of Colorado are to meet in Denver on the 12th instant and devise a plan for bringing a tidal wave of tourists, health seekers and investors to the Rocky mountains during the summer. The railroads will be asked, and in all likelihood grant, very low round trip rates to all Colorado points. New Mexico might emulate her neighbor's example in this matter.

The first contested election case in the house has been decided in favor of Smith, the Republican contestant, from one of the West Virginia districts. The testimony fully, clearly and unequivocally proved that he was entitled to the seat and had been swindled out of his election certificate by the Democratic governor and returning board of West Virginia. But the right prevailed and justice has been done him. So note it be.

CONSIDERABLE Egyptian corn, brought originally from the upper Nile, has, during the past two years been sown in southern California and found to be a successful and sure crop. Corn of this variety, planted in dry, dusty soil, and irrigated fifteen days after planting was found to yield excellent fodder from 2,000 pounds upward, and thirty-six bushels of the grain to the acre. Here is a hint for the New Mexico farmer. What has been done in California can be done in New Mexico.

Some time ago the Albuquerque Black mailer Democrat talked loudly and wide about a large immigration edition it was to publish, and asked to help, and some of them we presume did. The New Mexican then warned the people against the scheme as being one simply to get money out of people easily gulled and deceived. As we have said, so it has turned out. The wanted immigration edition failed to appear on the date set and still fails to materialize. However, the people are becoming very well acquainted with the character of the Jolas outfit, and its career of blackmailing and blackguardism is drawing to a close. It will be a lucky day for the territory and journalism in New Mexico, and especially the Albuquerque people, when the Blackmailer Democrat ceases his last.

If the indications are not all wrong 1899 will prove a highly prosperous year for the beef producers. The open winter has been very favorable for the southwest range cattle, and buyers are as a rule in the field contracting for summer delivery. Our stock men have had to struggle in the past three years, but they have stood up under the pressure nobly and are today in very fair condition. They will doubtless not be in a hurry to make contracts for summer delivery of steers, preferring to risk a still further advance over the spring off-ers. It seems to be pretty well settled that the consumption of beef has gone far ahead of production in the past few years, and it is said the feeding farms of the central west and northwestern states are already preparing to make extensive purchases of range cattle.

"I did not desert the old flag," said a drummer boy at Andersonville, taking from his torn vest a little flag and kissing it with his last breath. He had been offered release from prison, food and comfort if he would take the oath of allegiance to the confederacy and enlist in the rebel army. He had refused again and again, and in a few weeks sank helpless under privation and starvation to his early death. "I did not desert the old flag," and died. Was there truer patriotism displayed in the story of Arnold Winkelried?

The Nebraska railroads have declined to grant Gov. Thayer's request and reduce the freight rate on corn shipments. In his reply the governor says: "The farmers are burning corn—burning bread—to keep themselves warm because they can not sell their corn, and thereby get the means with which to buy coal, all because you will not make a reasonable reduction."

SPEAKING of globe trotting it will be possible within the next decade to circle the globe in about forty-five days. On her recent trip Nellie Bly spent fifteen days in waiting for steamers, so that her actual traveling time was but fifty-seven days. English, French and Russian railway systems to be completed are long will materially shorten the present route.

The Westminster confession is a great landmark in history. So are the pyramids of Egypt and the constitution of the United States. Each of them have been subject in their surroundings to the changes of time. As expressions of human faith and reason, the confession is as justly subject to revision and amendment as has been the constitution.

THE SPIRIT OF THE TERRITORIAL PRESS.
AN EXCELLENT ASSESSOR.
The assessor and collector of Dona Ana county have records that will hustle the other counties to equal. Assessor John H. Riley added a cool \$50,000 to the assessment roll, not so much by increase in values, as by hunting up assessable properties which had not been listed, and Sheriff Barela has already collected 85 per cent of the taxes, and it is thought he will increase the amount to 95 per cent. Can this be beaten?—Rio Grande Republican.

FOUGHT FOR THE PEOPLE.
The Santa Fe New Mexican has begun in earnest "to turn the rascals out" from the county offices by making a vigorous onslaught on their methods and exposing their ways of darkness. That is the way to do it. Perseverance will penetrate even the hardest cast rock of political office holding. Inquire. Temper your drive, but turn true, charge with dynamite of truth, then when you explode the mine the fragments will never get together again.—Chloride Black Range.

GIVE THEM THE DISTRICT.
Lincoln county, which is to be divided into Lincoln, Chavez and Edly counties is a territory by itself and sufficient in area and in population for a judicial district to be made of it. The building of the irrigating canals has caused people to flock hither and thither and the increase in improvements and population is and will be such that there is and will be a corresponding amount of legal business. It is only justice to the before named counties as well as to the other counties in southern New Mexico that a new judicial district be formed from these counties, they desire it and the press and the people of southern New Mexico ought to do all they can to aid them to get what they want. It is a reasonable request and will not only facilitate their local business, but will prevent the business in the districts as now formed, from becoming too burdensome for the present judges to attend to properly. We give our voice for a new judicial district for Lincoln, Chavez and Edly counties and hope it will be formed soon.—Chloride Black Range.

PLAYED OUT JULIAN.
That vinegar-visaged, dyspeptic-brained and crooked-nosed old Ishmelite, George W. Julian, vents an allopathic dose of his venom against the lawyers of New Mexico who have the temerity to denounce the irregular and illegal proceedings of Surveyor Ben Julian during the four years he defamed and damaged the fair fame of this territory. But this sordid old wreck of mankind, in his vulgar vagaries to the press, can injure no reputable man in this part of the country.—Raton Range.

HERNOSA happenings! The big strike on the Polican mine is immense. From Thursday morning until Saturday night one man took out 230 sacks of assorted ore. One man keeps two men assorting. The ore body never grows less, and the big strike is surpassed only by the big crop. If all the sneezes, coughs, groans, aches, pains, growls, grumblings, complaining and curses could be sacked My! What a shipment! Hon. R. M. Whit is one of the late victims to a gripper. There are not a dozen people in the camp who have escaped.

THE MAXWELL LAND GRANT
Farm Lands!
UNDER IRRIGATING DITCHES.
Choice Mountain Valley and Lands near the Foot Hills
FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,000,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

OFFICIAL AND OTHERWISE.

RESOLUTIONS OF RESPECT.

At a meeting yesterday afternoon of the employees of the New Mexico penitentiary the following resolutions were adopted:

Resolved, That we deeply deplore the untimely and premature death of our late chief, D. B. Abraham, and will surely miss his kindly presence from our midst.

Resolved, That in the death of Mr. Abraham the public service has sustained an almost irreparable loss, and the employees of this penitentiary profoundly regret the death of a superior who has so greatly endeared himself to all by his kindly and considerate behavior.

Resolved, That in the brief time that the late Mr. Abraham performed the duties of superintendent of the penitentiary he won the good opinion of everybody, from the highest to the lowest, in this institution, and we all feel the greatness of the loss.

Resolved, That we submit to the deities of divine providence in taking from our midst so kind a friend and so useful a citizen, but will keep in remembrance the many virtues and sterling qualities possessed by our lamented superior.

Resolved, That we the employees of this institution will wear a mourning badge for ten days, as a proof of our grief for our departed friend.

Resolved, That a copy of these resolutions be published in the New Mexican, and another copy sent to the relatives of deceased. J. M. MONTOYA, Chairman.

LUIS E. ALAMID, Secretary.

THE NATIONAL PARK.

Concerning the suggestion of the surveyor general that a section of country lying between Santa Fe and Las Vegas hot springs and including Bald mountain and the lakes, be reserved by the government as a national park, the following letter was addressed to the surveyor general by Inspector Harland:

Gen. E. F. HOBART, U. S. Surveyor General of New Mexico, Santa Fe, N. M.

SANTA FE, N. M., Feb. 4, 1901.—General: The valuable suggestion contained in your letter in reference to the reservation of a tract of mountainous land near Santa Fe for a park, and for its value as an economic factor in the great scheme of irrigation now attracting so much attention in this territory, have been embodied in my report to the department and I would suggest that your citizens and those of other cities interested in the matter, place the matter before the general land office by petitions stating its condition and the influence the protection of the timber will have in maintaining the steady flow of the Pecos and other streams now being used as sources to supply irrigation for this territory. Respectfully,

W. D. HARLAND.

NEW CORPORATIONS.

New corporations have filed articles with the territorial secretary as follows:

The Bonanza Placer Mining Company—Incorporators, Samuel D. Baldwin, John H. Sloan, R. E. Twitchell, of Santa Fe; Wm. M. Sloan, Elmore S. Tait, Jas. E. Withrow, Charles E. Force, of Kansas City, Mo. Capital stock \$200,000, divided into 2,000 shares. Principal place of business, Santa Fe, N. M. Object, placer mining, milling and smelting ores.

The Guit, Brazos Valley & Pacific Railroad—Incorporators, Edward J. Gortley, William H. Ross, Chas. W. White, Waco, Texas; Henry M. Taylor, James D. Warner, of Las Vegas, N. M. Object, construction and operation of a railroad from the Gulf of Mexico to the Pacific ocean. Capital stock \$10,000,000, divided into 1,000,000 shares. Principal place of business, Las Vegas, N. M.

The Hillside Irrigation & Ditch Company—Incorporators, John Reid, Jas. W. McElernutt, M. E. Thompson, U. S. post building, owning and operating ditches in San Juan county. Principal place of business, La Plata, N. M.

Black Range Land & Cattle Company—Incorporators, S. W. McMahon, J. B. Petrie, W. H. Yates, all of Griggsville, Ill. Object, raising and dealing in horses and cattle. Capital stock \$250,000, divided into 3,000 shares. Principal place of business, Griggsville, Ill. Ranches in Socorro county, N. M., on the Gila river. J. B. Petrie, agent of the company in New Mexico.

ABOUT THE CAPITOL.

Inspector of Land Officers W. D. Harland, who has been in the city several weeks, left last night on public business at Phoenix, A. T.

During his recent visit in Washington, U. S. District Attorney E. A. Fiske, upon motion made by Attorney General W. H. Miller, was admitted to practice before the U. S. supreme court.

Col. E. W. Eaton, secretary and treasurer of the New Mexico school of mines, yesterday forwarded the governor his bond for \$10,000 as such officer, and the same was approved and filed of record.

The vacancy in the office of superintendent of the penitentiary is the subject of discussion. Candidates are plentiful. Among them may be mentioned Col. Wynkoop, of Santa Fe; P. H. Warner, of Cerrillos; Alex. Reid, county clerk of Rio Arriba county; Atanacio Romero, of Santa Fe.

At a special meeting of the Republican county committee, held last evening, it was concluded to recommend Mr. A. Staab for appointment to the vacancy in the territorial central Republican committee caused by the death of the late Wm. W. Griffin. The secretary was instructed to so inform the territorial committee.

Pos-office Inspector Gardner and Daniels passed up the road last night, going to Mora to examine into that \$30 postoffice robbery of two weeks ago. They said that nothing had been heard from Chief Inspector Patterson, who is on his way to Los Angeles to investigate the arrest of a man supposed to be connected with the postoffice robbery at Albuquerque.

Frank D. Lewis, special general agent of the Indians of the southwest, came from the west last night, and was at the San Felipe. Mr. Lewis has recently turned over the agency of the Pueblo Indians to Jose Segura, the new appointee. A sister of the special agent is the principal lady teacher at the government Indian school, located near this city. He left for Santa Fe this afternoon.—Citizen.

Gov. Prince has appointed and commissioned the following notaries public: Jas. W. Bennett, Weed, Lincoln county; Francis L. Pearce, Albuquerque, Bernalillo county; Chas. A. Spies, Mora, Mora county; Burrage Yale McKee, Deming, Grant county; Sofre L. Alexander, Albuquerque, Bernalillo county; Jas. Frederick Kinkade, Kingdon, Sierra county; Marcelino Martinez, Mora, Mora county.

INSTRUCTING THE GRAND JURY.

Judge Whitman on the Subject of County Official Corruption—The District Court.

Twenty-two attorneys occupied seats within the bar of the new federal court hall when the day's session began this morning.

The jury commissioners reported having performed their duties and were discharged. To the grand jury they added Juan Romero y Romero and Antio. Jose Kael, and to the petit jury August Bruhn, J. M. Gerdes and Manuel Pino. The

court appointed Chas. M. Conklin foreman of the grand jury and instructed the jury fully and at length. Referring to the facts of immediate local import the court used these words:

It is your duty to inquire into the willful and corrupt misconduct of public officers of every description in the county of Santa Fe. And in this connection you can not permit any one to be present in this subject to you in a more preliminary manner. A newspaper published within the county of Santa Fe has almost daily for months past kept before the eyes of the public a charge that there has been gross malfeasance and misfeasance in office with respect to certain officers of Santa Fe county. It is also a matter of common talk that the taxes of that county have not been assessed and collected as required by law. And that such taxes as have been collected have in gross willful violation of the law been misappropriated, and paid out after coming into the hands of those officers whose duty it is to receive and pay them out. This charge has been so often made in the public press that neither the court nor the grand jury can overlook or ignore it. It is your duty to investigate all charges of this character against public officers, to the end that if there is probable cause to believe such charges to be true, indictments may be presented and the wrong doers may be prosecuted as the law directs and they be convicted or acquitted as the evidence upon a trial shall warrant.

It is not the province of the court or of the grand jury to say whether these charges are true or false, but such charges so repeatedly made can not but have a bad effect upon the prosperity and financial credit of Santa Fe county. It is your duty as grand jurors to put these charges at rest. To you, and to you alone is committed by law the duty of investigating the conduct of public officers. No individual or association can have any legal right to investigate charges against public officers and present them to the court, there is but the expression of an opinion which can have no effect to right the wrong, if wrong there be. But the statutes of New Mexico impose this duty upon the grand jury, and in the discharge of such duty you have the right, and it is your duty, to compel the personal attendance of all such officers before you, and require them to produce for your investigation all the books, records and papers belonging to such office, and to compel the attendance of such other witnesses as may be necessary to complete the investigation of the official conduct of such officers against whom charges have or may be made.

It should make no difference with the grand jury who the official is against whom charges are made, how high or low his station, or what his political affiliations are. In matters affecting the discharge of administrative official duty there can be no political question arise. The injury to the tax payers is the same whether the official misconduct complained of is committed by a member of this party or the other. The whole people of the county are interested in having the affairs of the county honestly administered. The tax levy in this county under ordinary circumstances is a sufficient burden to the people. It becomes a double and onerous burden when taxes honestly paid are illegally appropriated or misapplied by their servants whose duty it is to collect and apply them as the law directs.

The grand jury was then sent to its room, and the court began calling the docket and assigning dates of hearing for the various causes.

Sick headache is readily cured by Hood's Sarsaparilla, which tones and regulates the digestion, and creates an appetite.

ROUND ABOUT TOWN.

A social is to be held at Mr. Berger's tomorrow evening, the 6th. Refreshments, etc. An enjoyable evening is assured.

Regular meeting Carleton Post G. A. R. to-night at 7:30. All comrades are urged to be present. Important business.

The grand jury met in its new room at the federal building this forenoon, and after a brief session adjourned till tomorrow at 10 o'clock.

The railroad men all believe that a lightning vestibule train will soon be put on over the Santa Fe between Chicago and the Pacific coast.

Business at that first class hostelry, the Palace, is looking up. The Cleveland Musical troupe, consisting of thirty-five people, are stopping there.

A gala time is being planned by the John Gray Hose company for the evening of the 17th, when a grand dance is to take place at Gray's opera house. Tickets were placed on sale at noon today at various business houses, and may also be secured from members of the hose company.

PERSONAL.

J. A. Lucero is down from Espanola on court business.

Oliver Moore, of Trinidad and Taos, is at the Exchange.

W. H. Moore, formerly of Socorro, now of Kansas, is at the Exchange.

John Shaw, of Fort Sumner, and Wm. Mallan, of Cerrillos, are at the Exchange.

F. W. Watkins, a popular hardware man from Denver, went out to look at the government Indian school this forenoon.

Hon. Pedro J. Jaramillo, one of the leading citizens of Rio Arriba county, is in the city on business and will remain several days.

At the Exchange: W. S. Miller, Halstead, Kan.; J. W. Vanderhoof, Minneapolis; W. J. Briggs, Chicago; L. G. Jones, Cerrillos; Pedro L. Jaramillo, El Rio; Chas. Haspelmath, Laury; Mrs. Jones and daughters, Kansas.

At the Palace: W. H. Fay and wife, Camden, N. J.; Frank D. Lewis, Pomona, Cal.; F. W. Watkins, Denver; F. C. Thilston, Lincoln county; J. W. Vanderhoof, Minneapolis; L. A. Manly, M. Spacker, Chicago; C. G. Wade, Denver; Henry Meyer, San Pedro; F. M. Meigs, San Francisco; Richard Battle, Denver.

A Haunted House.

This body of ours has been likened to a tenement. It often has a haunted apartment—the stomach, scathed by the curdled spire, dyspepsia, ulceration flies and refuses to return. What can break the spell, what can raise the ban laid upon the unhappy organ? We answer unhesitatingly, Hostetter's stomach bitters, and we are warranted in the response by the recorded testimony of hundreds of our countrymen of a century. A course of the bitters, begun in any stage of the ailment, and perseveringly followed, will certainly in time drive the evil spirits out of the tenement, and restore the organ to its normal condition. The bitters rest easy to the stomach, and are pleasant to the taste. They are the only medicine that act upon the stomach, and the only one that cures the most common ailments of the system. They are the only medicine that cures the most common ailments of the system. They are the only medicine that cures the most common ailments of the system.

Old papers, clean and whole, for wrapping purposes.

PROSPECTS OF A SPOUTER.

Progress at the Experimental Well—Water Steadily Rising—A Sectional View of the Work.

The most encouraging news comes in from the artesian experimental well today. The drill is now at work at a depth of about 650 feet. The last fifty feet has been through quicksand, and hence the work is slow and must be carried on very cautiously. Appended is a sectional view of the well down to the 600 foot point, at which the fifty feet of quicksand already passed through was first encountered.

97 ft. water rises to
150 ft. Sand and adobe clay.
220 ft. granite and first show of water.
285 ft. pink limestone.
300 ft. 240 ft. sand and second show of water.
400 ft. soft sand rock.
450 ft. Red sandstone.
500 ft. pink limestone.
525 ft. third vein of water.
550 ft. sand rock.
600 ft. Water and quicksand.

This diagram is based on a scale of 150 feet to the inch. No data is obtainable for the first 150 feet that work having been done before the present contractors took hold. The diagram shows the character and thickness of the various formations through which the drill has passed thus far in its search for hydrostatic pressure.

It also shows that three veins of water have been tapped in going down. None of these now, however, are allowed to flow into the well, they having been "cased off" for fear of starting a cave. All the water now coming in starts from the bottom, where the quicksand is, and not the least favorable indication about it is that it is the strongest vein yet encountered, for it has pressure enough below it to force the water more than 500 feet up the pipe to a point about 97 feet below the surface. The contractors have noticed that the deeper they go into the water-bearing sand, where the drill is now at work, the higher the water continues to rise in the pipe. They feel confident that some important pressure is not far below the drill, for at times the rush of sand and water into the bottom of the well is such as to warn them to go slow or have trouble. Once the quicksand came up with a spurt and settled back upon the drill before it could be raised, and for a time it was thought the drill was lost, but half an hour's "pounding" brought it into motion again, much to the gratification of the workmen.

People who take an interest in the geological characteristics of this region (and who doesn't?) will find the above diagram rather an interesting study. As matters now stand an artesian well is almost certain to be developed within a few days.

Try the New Mexican's new outfit of material and machinery when you want fine job printing or blank book work.

COKE!

For a period of thirty days

The Santa Fe Gas Company

Will sell coke at greatly reduced prices: In quantities of 50 bushels or upward the same will be sold at 10 cents a bushel; in quantities of less than 50 bushels, at 15 cents per bushel. Orders to be left at the Gas Works, 1800 is the best time to start out in company with the Sun.

SOME people agree with the Sun's opinions about men and things, and some people don't; but everybody likes to get hold of the newspaper which is never dull and never afraid to speak its mind.

Democrats know that for twenty years the Sun has fought in the front line for Democratic principles, never wavering or weakening in its loyalty to the true interests of the party it serves with fearless intelligence and disinterested vigor. At times opinions have differed as to the best means of accomplishing the common purpose; it is not the Sun's fault if it has seen further into the future.

Eighteen hundred and ninety is the year that we will probably determine the result of the presidential election of 1892, and perhaps the fortunes of the democracy for the rest of the century. Victory in 1892 is a duty, and the beginning of 1892 is the best time to start out in company with the Sun.
