WASHINGTON MATTERS.

NOMINATIONS.
WASHINGTON, Feb. 27.—The president has sent in the following nominations: Harold M. Sewall, of Maine, consul general at Apia; Consuls—Henry W. Andrews, Ohio, at Hankow; John Fowler, of Massachusetts, at Suva; William R. McCray, of Michigan, at Valparaiso; John Steel Thweb, of Pennsylvania, to Naples.

AMNESTY FOR DESERTERS.
The proclamation of Secretary Proctor, granting amnesty to deserters, is in the judge advocate general's office, where the legal aspects of the subject are being considered.

A report from the Fort Leavenworth military prison shows that of the 350 prisoners at that institution, 423 are serving time for desertion. The secretary has not yet decided to what date amnesty will be extended. It is not improbable that all deserters to December 31, 1889, will be pardoned.

THE ASSISTANT WAR SECRETARY.
The fact that the bill providing for an assistant secretary of war will undoubtedly be approved by the president, has furnished material for speculation at the war department during the past week regarding the probable occupation of the office. The salary is \$4,500 per year, and the bill provides that it shall be a civilian appointment made by the president. Mr. F. C. Pardee, Secretary Proctor's private secretary, and Mr. John Tweedale, chief clerk of the department, are among the names suggested for the new office.

CONGRESSIONAL.

SENATE.

WASHINGTON, Feb. 27.—The senate again took up the resolution offered yesterday by Senator Chandler, censuring Senator Call for interpolating in the record a paragraph that had not been spoken, and saying it was unpatriotic and personally offensive. Senator Call gave notice to Senator Chandler that he would arraign him before the senate and demand an investigation by a committee for making a false accusation. He would convict the senator on evidence of his own that he did hear and know that he (Call) had uttered on the floor of the senate substantially the whole of the charge contained in the paragraph. He would not ask the censure by the senate of Mr. Chandler, but would leave him to the judgment of the country for having heard his (Call's) remarks and having had neither the courage nor manhood to resent them.

Senator Sherman declared that the rules of the senate had just been violated by the senator from Florida in as gross a manner as he had ever witnessed. When the United States senate can be so easily misled, and that cowardice could be applied to a senator, and that senators could be charged with stating a thing falsely, it seemed to him the senate was receding from its dignity.

Senator Call replied that if he were not at liberty to state that a resolution was not true, and that he can prove it, and that the senator when he made the charge knew it was not true, then he didn't understand the rules of the senate; but in the judgment of any senator it is improper to use the language he would withdraw it.

Senator Chandler once more explained his resolution, and added: "Senator Call used language about me which I did not hear. He wrote language in the report accusing me of all the crimes in the catalogue, and he has now, this morning, charged me with being a coward for not replying to that which I did not hear and which he afterwards wrote in the record. When the senate has decided which language it is parliamentary to use I will take occasion to defend myself from all imputations."

The Blair educational bill was taken up as unfinished business, and Senator Coke addressed the senate in opposition to it.

Senator Reagan obtained the floor to speak against the bill, and the senate adjourned.

HOUSE.
The committee on commerce called up and the house passed bills extending to San Diego and Wilmington, Cal., the provisions of the act relative to immediate transportation of dutiable goods.

On motion of Mr. Butterworth a bill was passed authorizing the secretary of state to appoint two suitable persons to represent the United States at the international conference in reference to the protection of industrial property in Madrid, Spain, April 1. The house then in committee of the whole resumed consideration of the Oklahoma bill. Mr. Hooker moved to strike out the first section of the house bill, which is a substitute for the senate bill, fixing the boundaries so as to include the Cherokee outlet.

After a long discussion Mr. Hooker's motion was defeated by a vote of 241 to 129, and the house adjourned.

New Charters.

TOPEKA, Feb. 27.—A charter has been filed here for the Kearney, Hutchinson & Gulf railroad from Kearney junction on the Union Pacific to Galveston, Texas, a distance of 900 miles, and the opinion is expressed here that it is a Union Pacific enterprise.

Richmond, Feb. 26.—The house committee on railroads reported a bill to-day to incorporate the Virginia, Missouri & Western Railroad company. The object is to construct a road from Norfolk, Va., to a junction in New Mexico of the Atlantic & Pacific and the Atchison, Topeka & Santa Fe road. The distance is 1,640 miles. The capital for the enterprise is nearly all English money, and \$10,000.

in bonds of the new company have already been sold in England. Surveyors have already commenced operations in Tennessee, and will come into Virginia as soon as the charter sought here is granted. The projected road is to leave at Norfolk and pass through counties bordering on the state of North Carolina, then proceed through Tennessee, Arkansas and the Indian territory to New Mexico.

They Show Fight.

St. Louis, Feb. 27.—Late advices from the Cherokee nation are to the effect that affairs in the Cherokee strip are becoming quite complicated and that serious trouble is likely to occur between the Indian police and boomers who are congregating on the border of the strip ready at any time to swarm over the line in defiance of the Indian authorities. Chief Mayes has ordered Lieut. Knight, of the Indian police, to use all the powers at his disposal to eject the intruders. Should a conflict ensue, there is likely to be hot work and blood will undoubtedly be shed.

THE SPRING DRIVE.

Rigid Regulations as to Texas Cattle Issued by the Department of Agriculture.

CHICAGO, Feb. 27.—The secretary of agriculture has just issued an order to managers and agents of railroad or transportation companies in regard to the transportation and handling of Texas cattle, directing that no cattle be transported from an infected area to any portion of the United States except in accordance with certain regulations, which are to remain in force from the 15th of March to the 1st of December.

These regulations provide that all such cattle unloaded at any point outside of the area described to be fed and watered must be so fed and watered in places set apart for this exclusive use, and to which no other cattle shall be admitted, and which must be thoroughly disinfected once a week during the continuance of this order.

On arriving at their destination these cattle shall be received into pens specially set apart for them, from which all other cattle are to be rigidly excluded, and all regulations relating to the movement of Texas cattle prescribed by the cattle officers of the state where unloading must be carefully observed.

Moreover, the cars used in transporting said stock must be cleaned and disinfected before being used to transport or shelter the animals.

Again, should such cattle be reshipped from any point where they have been unloaded to another destination, the car in which they are carried must bear a placard stating that it contains southern cattle, and the way bills must bear a note to the same effect. The regulation as to special pens applies also to cattle so shipped.

CONDENSED NEWS.

Another Great Storm Out West.

CARSON, Nev., Feb. 27.—A terrible storm raged at Lake Tahoe yesterday. Small crafts were smashed to pieces, wharves severely shaken and houses damaged. Snow is drifting along the road here, covering the station houses and burying logging camps.

A reign of terror is prevailing in the island of Cuba.

The Freedman's Aid society is in session in Chicago.

Four miners fell eighty feet at Shelbyville, Ill., and are still alive.

An oath-bound negro society has been unearthed in Kansas politics.

A road has been chartered to run from Kearney, Neb., to Galveston, Texas.

The full measure of the Walnut Grove disaster in Arizona is not yet known.

The Law and Order League of the United States has become an international organization.

Gen. Early denies that efforts will be made to renew the charter of the Louisiana lottery.

The Silver Bow (Mont.) contest for sheriff has been decided in favor of the Democratic contestant.

"Boomers" are gathering along the southern edge of the Cherokee Strip, anticipating its opening for settlement.

New York capitalists will try to recover \$4,000,000 which the supreme court says was collected by customs officers in violation of law.

Lee White Racket.

S. T. Loughborough and Wm. Madden, of Cerrillos, came up this morning to tell the grand jury what they know about the Lee White affair. These are the parties, among others, whom H. M. Benton charges with having hung the negro, Robert Stansfield, up by the thumbs, and forced from him the allegation that Benton was supplying White with money to carry on his unlawful practices.

The grand jury will no doubt make a searching investigation into the whole affair.

Loughborough and Madden say they were members of a posse that made a faithful attempt, covering three days and two nights, to capture Lee White, but they failed, as they allege, because so many people about San Pedro are shielding the outlaw. They deny Benton's story as to the hanging up of Stansfield by the thumbs, and say that the latter made his charge in the nature of an affidavit before Mr. Rannheim as notary public. It is also claimed that, owing to the poverty stricken condition of the county, any posse that goes after White has to pay its own way, and hence nobody cares to go. It is suggested that the grand jury bring in an indictment against White, and arm the sheriff with a warrant directing him to go and find White.

SCENE OF DESOLATION.

Further Details of the Terrible Disaster at Walnut Grove: Loss of Life will Reach Sixty.

Prescott, A. T., Feb. 27.—A messenger bringing further details of the Walnut Grove reservoir disaster, arrived here yesterday. He brings letters and, Sheriff O'Sell, who went to the scene of the disaster, writes as follows:

"For scene of desolation along the Hasyampa below the sites of the dams is complete. For miles the water, turned free by the breaking of the dams, has filled the bed of the creek with bushes and enormous boulders, trees and every other kind of debris. Following is a partial list of the drowned:

THE DEAD.
Hannah McCarthy, Joe Reynolds, miner; George Eubels, laborer; Alexander McMillen, coachman for Van Buren; E. G. Wheeler, miner; one Mexican, name unknown; G. L. Cook, laborer; N. L. White, laborer; John Silsbee, Charles King, blacksmith; Patrick Slay, laborer; Patrick Barry, laborer; Charles Brocken, laborer; William Egan, laborer; Frederick Palmer, laborer; L. D. Haysner, laborer and child; George Raudell, laborer, and eight Chamanians.

SIXTY LIVES LOST.

Besides those mentioned some twelve or fifteen miners, who were plying between the lower and upper dam, with a number of ranchers along the stream, are missing, and when the full casualties are ascertained the entire loss will probably be between fifty and sixty lives. A number of bodies have been recovered, many of which were found twenty and thirty miles from the places where the flood overtook them.

All remains more or less mutilated, while in several cases only fragments have been recovered, many bodies doubtless have been lost in the sand, others torn to pieces and others are far south.

CHOKED BY THE WATER.

The impact of the stream of water when turned loose can hardly be appreciated without going over the ground covered by it. Those who saw it say it came down almost in a perpendicular wall, ninety or a hundred feet high, and apparently crushed down instead of sweeping away everything before it.

The great body of water one and a half miles square and sixty feet deep was carried in and hour. Immense boulders weighing tons were thrown down, trees broken in two or torn into shreds, iron bars broken and twisted out of shape and an ordinary railroad picked up and carried five miles and then embedded in the walls of the canon eighty feet above the present level of the stream.

A large safe containing \$7,000 was swept away and no trace has been found of it.

A MILE A MINUTE.

The flood struck the lower dam at 1:15 a. m., and five minutes later the headquarters, five miles below, were swept away. Several persons were at both points watching, but notwithstanding this a number were drowned.

At the first point there were over thirty, and those who escaped did so with only what they had on their backs, many only with their night clothes on.

The survivors are in great destitution, having neither provisions nor clothing. Many are using coarse grain sacks in lieu of clothing.

DEATH OF A HERO.

Friday evening a courier was sent from the upper to the lower dam to warn the residents that the former structure was in danger of breaking, but owing to the storm the messenger lost his life in trying to cross the Hasyampa within view of the survivors of the camp he had tried to save.

Charles Thompson, a courier who arrived this afternoon from below Wickesburg, reports that nine bodies have been discovered at Wickesburg, and three in addition to those already discovered.

The old historic trail ranch, with all other ranches along the river, have been entirely swept away.

PERSONAL.

Teodoro Chavez, of San Rafael, is at the Exchange.

T. Lanning and wife, of Trinidad, are stopping at the Exchange.

Joseph Simson is lying sick at his home on lower Quince avenue.

Mr. Monica Mirabal, a prominent merchant of San Rafael, Valencia county, is in the city on business.

Gov. Prince returned from Albuquerque last night. He didn't see any tulips in bloom and "scenting the air with their sweet perfume."

Messrs. H. N. Adams and J. T. Hogan, representing Louisville, Ky., capitalists, are in the city on mining business. They are quartered at the Exchange.

G. A. Radde and John Hancock, of Alamosa, connected with the D. & R. G. road, are at the Exchange. Mr. Hancock had charge of the first narrow gauge express car that ran into Santa Fe.

At the Palace: Francis M. Lyman, John H. Smith, Salt Lake; J. Morrow, Kansas City; Geo. W. Neff, San Francisco; C. E. Schaeffer and wife, Chicago; C. H. Adams, Minio Park, Cal.; H. Monheimer, Chicago; W. S. Parrish, San Luis, Colo.; R. C. Benton and wife, Minneapolis; Geo. W. Bachelier and wife, Minneapolis; T. F. English, Kansas City; Mrs. Allen Manvel, Miss Manvel, Chicago; Mrs. H. P. Upham, St. Paul.

Advertisements for publication must be accompanied by the writer's name and address—just for publication—but as evidence of good faith and should be addressed to the editor. Letters pertaining to business should be addressed to New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, FEBRUARY 27.

GENTLEMEN of the grand jury, the people expect every one of you to do his duty.

AMERICAN non-sectarian public schools, free text books and floating flags over the school houses! Get together and work to obtain them in every hamlet in this great territory.

Cupid is ahead. An Ohio girl has had her father arrested for opening a letter addressed to her by her sweetheart, and the courts have held him under heavy bonds. Verily, Ohio is a strange country.

Amongst the prominent citizens of New York who were in Washington working for the location of the world's fair at Gotham, was U. S. Senator elect Calvin S. Brice, of Ohio.

The frame of mind of the anti-state soreheads at this time must be somewhat akin to that of the New York boy who the other day burned his baby sister to death and then crawled under the bed. Their punishment begins from the time they start to crawl.

The silver men are aggressive, and propose to have some decision and legislation in the matter of the great recognition of silver as money. The great question must be settled, and that satisfactorily to the people of the great silver producing states and territories.

The Tammany tiger will not feed upon the flesh and blood of the world's fair this century of our Lord. It is eminently proper that the beast should not. Tammany can steal from New York city; that is Gotham's lookout. But the rest of the country will not have it.

A St. Louis lady says whenever she sees a particularly gallant act or finds a man giving up his seat to a woman or doing any thing clever where the fair sex is concerned, in nine cases out of ten, the man is a newspaper man, or an artist or an actor. Considerable truth and some poetry about the lady's opinion.

The New York Press is having remarkable success. It is a clean cut, able and fearless Republican paper. Its Sunday edition is simply grand, and very cheap at that. Vim, intelligence and push will tell. Although the Press is the youngest daily paper published in New York city, it is nevertheless one of the brightest and most influential.

The Atlanta Constitution remarks that social equality began, when the Lord Almighty, for purposes of his own, made the Caucasian white and colored the skins of the other races. Probably the erudite and biblical editor of the Constitution may be correct. But the different colors of their skins do not seem to have disturbed them, Ham and Japhet very much.

A good deal of scandal is cropping out in the army of late years, caused largely by petty spite and jealousies among the officers. Try ever so hard these can not be kept from the public, and the effect is anything but beneficial to the service. It would not be surprising if before long the whole military arm of the government receives a shaking up at the hands of congress.

Among the outlaws now at large and infesting the portion of the country southeast of here, going into the Gallinas mountains, is one Barney Mason, who was sentenced from Lincoln county, May 18, 1887, for stealing stock, to one year's penitentiary. He was pardoned out by that fellow Ross, who then misgoverned this territory, on November 16, 1887. Say, Mr. Ex-Governor, how much was there in the pardon anyhow?

WHEREVER there is prospect of opening an Indian reservation to settlement there the land boomer is camping these days. Southern Colorado may experience a sensation of this kind when the Southern Utes get their final orders to vacate, but the wild lands of San Juan county, N. M., are so superior to those of the Ute reserve that any influx of settlers into that locality will be largely beneficial to the northwestern quarter of this territory.

With the Democratic governors all in favor of ballot reform and even the New York city Democrats asking for it why should not congress adopt it for all congressional elections? This would carry it all over the country, and please all Republicans and as many Democrats and Mugwumps as are sincere in wishing the reform.—Philadelphia Press.

Certainly, let congress adopt it, and that the sooner the better. The people's interests demand free, fair and honest elections. Congress should do its share toward obtaining them.

The officials of Santa Fe county are playing with edged tools in allowing the young rascal, Lee White, to elude the clutches of the law so easily. Perhaps they are waiting for a further increase in the amount of the reward offered for his capture; but it's dangerous business. White alone is simply a fool-hardy young fellow, without much courage as yet, but he has the making in him of a real desperado if the peace officers of the county continue long to encourage him by a failure to do his duty.

HOPE FOR THE STOCK MEN.

Thus far the stock men of New Mexico, particularly the cattle raisers, have had a most excellent season. The sheep raisers, in some districts, have suffered some inconvenience for lack of water, owing to the dry weather during the fall, but this has now been happily remedied by warm snows and rain in those localities where it was most needed, so that on the whole all have fared well. The total losses for the winter will scarcely be more than 1 per cent, which is a remarkable showing, again demonstrating in a most practical manner the advantage New Mexico stock men enjoy in a well nigh perfect climate and the superiority of this territory for breeding farm purposes. In the southern half of the territory the grass is already springing up rich and green, and in thirty days more the whole New Mexico range will be fit for fresh spring grazing. The prospects were never better for a decided improvement in prices. For sixty days this has been the outlook, but the terrific storms of late throughout the northwestern range states, causing heavy losses to stock men, have made an advance in prices almost a certainty. In a little while the agents of the northwest cattle men will invade the breeding farms of the southwest for the purpose of buying, but our beef raisers, who are somewhat up to snuff themselves and are students of the times and of the markets, will doubtless be in no hurry to close any extensive contracts at the first figures suggested by these agents. New Mexico sheep raisers, also, will not be in a very great hurry to sell, for the unprecedented raid upon southern Colorado and northern New Mexico flocks, made in the past five months by butchers and feeders from Kansas, Missouri, Nebraska and northern Colorado, most assuredly indicates a stiff demand and a prosperous spring for the owners of cattle and sheep in New Mexico.

Reports of the bureau of statistics show that Canada buys more goods of the United States than it does of England. The idea that protection prejudices foreign trade is sheer nonsense. Protection keeps up domestic wages to a high standard, and this enables foreign free trade countries in some particulars to undersell us. All this country has to do in order to compete, and that successfully, is to cut down wages. But who wants the man who earns his bread in the sweat of his face to work more hours or for less pay than now? Nobody, but the free trader, and the importing merchant. They believe in getting labor as well as every thing else in the cheapest market. On the other hand, the protectionists prefer to see all American workmen earning comfortable wages and living in comfortable and decent style. That is the difference between the protectionist and free trader. The laboring men of this country fully understand the question, and can be depended upon to vote for the Republican party, which is for protection wherever and whenever it is to the interest of the people.

The practice that prevailed in the management of county affairs in Santa Fe during 1887 and 1888, of issuing county warrants for double or treble the amount of the bills for materials or services furnished the county, in order to make up for a supposed or alleged or manipulated discount on county warrants, was an utterly reprehensible one, an illegal one, detrimental to the best interests of the people, and brought about without the least warrant in law, in fact contrary to law, a large increase of the public debt. Every warrant so issued is absolutely and unqualifiedly illegal, and the tax payers of this county should not be compelled to pay them. If they have been funded into bonds, the latter are illegal and not worth the paper they are written on. The matter should be carried into court; the invalidity and illegality of these alleged obligations of this county can be easily and quickly determined. This county should pay its just and lawful debts, but then and there it ought to stop. Who will lead the good fight? Public sentiment is ripe.

WHAT A DANDY GOVERNOR HE WAS! It again becomes our solemn, although very painful and sad duty, to quote from the charges preferred on April 26, 1887, by Hon. N. B. Laughlin, ex-member of the house and council of the legislative assembly of New Mexico, and a consistent and strong Democrat, against the then executive of New Mexico, Ross: He has never made an official move since governor where a principle of law was involved and tested before the courts that his action has not been reversed by the Democratic judges. The facts prove that he has "been downing" the best interests of the territory in general and the Democratic party in particular, and to these statements I challenge contradiction.

What a fine governor old Bombastes Furioso Ross made, according to competent Democratic testimony. And the best of it is that Mr. Laughlin then and there told the naked truth, and nothing but the truth.

A REMARKABLE series of rain and snow storms has prevailed in the Pacific coast region this winter. In California the precipitation has been greater than ever before in the history of the state, while, Oregon, Washington, Nevada and Arizona have also experienced frequent storms unusual in their severity and resulting in great damage to property. It is noted that these storms, occurring first in the northern coast region, have been gradually shifting southward. Arizona and southern California are now the center of their severity, and it will be interesting to watch the outcome. In New Mexico there has been a marked deficiency in the rain and snow fall for a period covering nearly two years, and this systematic movement of the storm center from the northwest across the sierras toward the southeast may possibly have in store for us a visitation of moisture that will prove not altogether unwelcome, though, it is hoped, not so damaging in its results as it has been elsewhere in the coast region.

What Scott's Emulsion Has Done

Over 25 Pounds Gained in 10 Weeks
Experience of a prominent Citizen
(THE CALIFORNIA SOCIETY FOR THE SUPPRESSION OF VICE)
SAN FRANCISCO, July 7th, 1886.

I took a severe cold upon my chest and lungs and did not give it proper attention; it developed into bronchitis, and in the fall of the same year I was threatened with consumption. Physicians ordered me to a more congenial climate, and I came to San Francisco. Soon after my arrival I commenced taking Scott's Emulsion of Cod Liver Oil with Hypophosphites regularly three times a day. In ten weeks my avoirdupois went from 155 to 180 pounds and over; the cough meantime ceased.

C. R. BENNETT.

MILLIONS FOR WATER.

Three New Irrigation Companies Chartered Today. The biggest of the Pecos-Pedro Enterprises.

At the office of the Territorial secretary the following charters have been filed:

The Irrigation & Hydraulic Mining Company—Incorporators: Jefferson Hays, James H. Hunter, Stephen E. Booth, of Las Vegas. Object, to do a general mining and irrigating business, establish mills, lay out town sites, colonize lands, build reservoirs, lay pipe lines, etc., etc. Capital \$200,000. Directors for the first three months are: The above-named together with Samuel D. McTherson and Norman W. Kingsley, of Tuerto (San Pedro) N. M.; Phineas T. Loonsbury, of New York city and H. N. Savage, of Hanover, N. H. The principal place of business is at Las Vegas. This is the corporation now engaged in constructing the pipeline from the Pecos river, above Colorado, to San Pedro and the places, and which is backed by English money. Another Las Vegas corporation formed to operate in Santa Fe county is the Galisteo Water company, which is organized under the law as set forth in chapter 12, acts of the legislature of 1887, and also under the act of February, 1889. The incorporators are E. G. Smith, M. L. Cooley, N. S. Belden, R. F. Hardy and W. E. Gortner. The capital stock is \$100,000, and the articles set forth that its object is to establish reservoirs, pipe lines and ditches, taking water out of the Rio Pecos, at or below the headwaters of said stream, and the terms of this canal, ditch or pipe line shall be Albuquerque, 150 miles distant.

Other corporations filing charters are as follows: The Clay Hays Copper & Silver Mining Company—Incorporators: E. R. Bliss, Cholet Cady, Chicago; Chas. S. Davis, Mora; N. M.; John C. Hays, Guadalupe, N. M.; Frank Roy, Mora; N. M.; and F. A. Asby, Las Vegas, N. M. The company is formed to operate in the new Coyote copper district in Mora county, and erect machinery thereon. Capital stock, \$1,000,000. Principal place of business, Las Vegas.

The Mount Valley Ditch & Reservoir Company, of Lincoln county—Incorporators: W. T. Carper, John H. Carper, L. W. Dimmett, S. S. Nelson, B. F. Carper. Capital stock \$5,000. Object, to build an irrigation ditch east from Roswell, taking the water out of "the large lake" in sections 2 and 3, township 11 south, range 25 east.

Very Wide Awake.

HILLSBOROUGH, Sierra county, N. M., Feb. 24.—At a meeting held for the purpose of discussing the silver question in the town hall at Hermosa, in Sierra county, it was unanimously decided that the free coinage of silver would be beneficial and was needed by the country.

A petition denouncing the demonetization of silver and asking for its reinstatement and free coinage as a money metal has been signed and forwarded to congress.

There were several speakers on the subject, but the most interesting was a vigorous thirty minute speech which was frequently applauded.

Chloride and Fairview have also sent petitions asking for the free coinage of silver and its reinstatement as a money metal unrestricted in its use by law.

SPECIAL CAR PARTIES.

The Wife of President Manuel in Santa Fe—D. & R. G. Examiners—The Cumbres Mountain Block.

The special car of President Allen Manuel, of the Santa Fe, arrived last night, containing Mrs. Allen Manuel, her two daughters and her son-in-law, Mr. C. E. Schnodde, and Mrs. H. P. Upham, of St. Paul. The car, No. 306, is elegantly appointed and the party is making a tour over the Santa Fe lines. The party took carriages and put in the day very pleasantly about the city, visiting the several points of interest. They will proceed south tonight, making a short stop at Albuquerque and going thence to California. Mrs. Upham's husband accompanied President Manuel when he visited the west two or three months ago. The ladies are delighted with their trip so far.

At 10:30 this forenoon a special D. & R. G. train arrived over the narrow gauge bringing Mr. G. A. Guerton, chief train dispatcher, and several friends, who will remain in the city till tomorrow. Mr. Guerton has been engaged in putting all the train men and station agents on this division through a rigid examination—a sort of civil service affair.

CHAMA SNOW BLOCKADE.

The D. & R. G. snow blockade between Antonio and Chama, is now stronger than ever and there are no prospects of getting over Cumbres mountain for two weeks or more. The road is comparatively clear from Chama to Durango, and for several days past the mail and passengers have been transferred in wagons from Espanola across the country to Chama. This experiment has worked so well that Supt. Lydon, of the Rio Grande division of the D. & R. G., yesterday telegraphed Supt. Johnson of the Santa Fe Southern to make a contract with parties to establish a regular stage line between Espanola and Chama during the continuance of this blockade. The mail and passengers to and from Durango and vicinity will be therefore transferred at Espanola and Chama.

THE FEWELL CASE SETTLED.

The Plea of Former Architect Sustained by the District Court—Judge Whitman's Opinion.

In the case of the Territory vs. Fewell, a decision was rendered by Judge Whitman in the district court today which practically disposes of the case. Fewell was indicted for murder, the killing of Eschelder, of Espanola; tried and found guilty in the third degree. Upon appeal to the supreme court, the judgment was reversed, and the case sent back for a new trial. A special plea was interposed in his behalf, the effect of which was to claim that the verdict was an acquittal of murder in the first and second degrees, and that he could not be again put on trial for murder in those degrees. To this plea, a demurrer was interposed, and after a long argument the demurrer was decided today. In passing upon the matter the court said:

The question presented by this demurrer is a very important one, and I have permitted a long and elaborate discussion of the matters involved. I have neither the time nor the strength to fully and carefully review the authorities which have been cited, but notwithstanding this, I would do so, if I am any doubt as to what my decision should be. I am clearly of the opinion that the indictment was a divisible thing. It contained a charge of simple assault, assault

with intent to kill, and of the higher elements of crime upon the first degree. I say the indictment was a divisible thing, the verdict was a divisible thing. The verdict might go to the higher degree charge, or to the lower degree charge. The verdict was a conviction of murder in the third degree, that, in my opinion, was an acquittal of murder in the two higher degrees. The jury could not have made it any stronger if the verdict had found the defendant in express terms not guilty of murder in the first and second degrees. The indictment is not entitled with that verdict, but appeals. What does he appeal from? Not that part in his favor, but from that part which was prejudicial to him. Nothing more than that can have been taken to the supreme court upon the appeal, and upon the argument of the case in the supreme court the court held that the conviction was improper. That is all that was before the supreme court. The case was remanded here for a new trial. I think the acquittal of murder in the first and second degrees stands here as an absolute shield to the defendant. The legislature could not say that a trial shall be had as though no appeal had been taken. Counsel say the court must respect that statute as mandatory. I don't think so. It is the province and duty of the court to say when the legislature has exceeded its constitutional powers. In the passage of that statute I think the legislature did exceed its constitutional powers, and that the legislature had no right to say that the defendant should be again subjected to trial for murder in the first and second degrees.

This matter came before me in the Tasc court. Mr. Laughlin presented the case by a plea in abatement. I sustained abatement to the plea against my own conviction of the law. It was argued there without the aid of books. I believe we have a copy of Bishop's Criminal Law, in which I saw a reference to my decision by Judge Greer, and I was under the impression at the time that this decision was given by Judge Greer while sitting in the supreme court of the United States, and was therefore binding upon me. But I find that I was mistaken in that. A decision of the circuit court of the United States is not binding upon this court.

I think the former verdict acquitted the defendant of murder in the first and second degrees. I regret that the question could not be presented so as to be taken to the supreme court; but as I am convinced of the correctness of my view, I can not decide otherwise, as it would be a great hardship on this defendant to say that the decision should be against him and he be subjected to another trial, solely for the purpose of having the point decided in the supreme court. The demurrer must be overruled.

W. B. Sloan, who from the first has had charge of the prosecution, being retained by Eschelder Brothers, represented the territory, and John H. Knebel, esq., appeared in behalf of the defendant.

The most remarkable cures of scrofula on record have been accomplished by Hood's Sarsaparilla. Try it. Sold by all druggists.

ROUND ABOUT TOWN.

It's really beautiful—the snow.

The Seligman mansion is ready for occupancy.

How about a rousing observance of Arbor day in Santa Fe.

The territorial grand jury is still at work investigating county affairs.

As an incorporated city Santa Fe might have a few good, clean streets.

The old timer's prediction that we are to have a wet spring appears to be about right.

The next party of the Lotos club will take place at Gray's opera house on March 7 next.

A. C. Ireland's favorite Maltese cat is still up to a genuine case of the influenza.

The bridge across the Santa Fe river on Don Gaspar avenue should be completed at once.

Born, this morning, to Mr. and Mrs. Robert Harvey, a daughter. Mother and child doing nicely.

The additional 200 feet of casing for the artesian well arrived from Denver yesterday over the narrow gauge. This is the latest.

Alb Gold has commenced to remodel and rebuild his store house, lately damaged by fire, and by March 15 expects to have in place a larger stock than ever.

The wading of the waters has commenced. The acquiescence broke loose this morning and flooded Manhattan street. The thoroughfare is in a wretched condition.

Social at the M. E. parsonage this (Thursday) evening. The Ladies Aid society has spared no pains to make this a very enjoyable occasion. They extend a welcome to all.

Judgments were rendered this morning in the cases of A. Staab vs. L. Kornberg, and A. Staab vs. Harry Whiting for several hundred dollars in the district court. R. E. Twitchell appeared for complainant.

There is a movement on foot among several well known young men to organize a local base ball club to represent Albuquerque during the summer. It is also understood that an effort will be made to interest the towns of Santa Fe and Las Vegas.—Citizen.

The New Mexican's book bindery has recently turned out a fine set of blank books for the use of the New Mexico university at Albuquerque, and a note from Sec. Meyert today states that they fill the bill precisely. Sec. Meyert knows what good this line is.

A decided demand is noticed of late for farm property where the water rights are permanent and safe. One party in the city has within ten days had inquiries for such lands from five buyers who want not less than fifty acres, and some as much as 200 acres. It is a straw that ought to set people to thinking about the storage of more water from the Rio Santa Fe.

The board of trustees of the M. E. church of Santa Fe, has organized with Prof. Elmore Chase as president; E. S. Griswold, vice president; E. B. Seward, secretary, and S. S. Beatty, treasurer. Rev. J. P. Fry, the efficient and popular pastor of the church, stands east shortly upon a mission of obtaining funds for the erection of a new church and parsonage. The church and the Sunday school are more flourishing than they have been for years, the attendance nearly doubled.

THIS PAPER is kept on file at E. C. Drake's advertising agency, 64 and 66 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

TERRITORIAL TIPS.

Stock thieves are boldly operating throughout Grant county.

Ten prisoners are at present confined in the Bernalillo county jail.

Rec. Lano, of White Oaks, is preaching serious reviving testimony's "Looking Backward."

The Mesilla Valley Horticultural society has elected N. G. Brown to have charge of shipping their produce. He receives 15 per cent commission.

When Major Vandever returns from the San Juan country something definite may be learned of the Navajo trouble in that section.—Gallup Elk.

The Bernalillo county delinquent tax list has been made out and turned over to the printer for publication. About \$35,000 is the amount owed to the county by property owners.

"Gallup is proud of the Elk, and the Elk is proud of Gallup." And both are congratulated, for the Elk has in a few weeks got to the front as one of the best weeklies in the territories.

Robert E. Schneider, a gunsmith, left Silver City some time last week without settling his longest debts. Schneider came from Las Cruces, but originally hails from Atchison, Kas., where he claims to have been in the employ of the Santa Fe company as machinist.

White Oaks note: Mr. Marshall Parker, of the Bonito, is very seriously ill from a relapse of the grippe, and since Wednesday of last week has been suffering intensely from pneumonia of a typhoid character to that degree that his life is hanging in the balance.

Silver City note: Considerable interest is now manifested in the great handicraft for the Silver City postoffice. The entries to date are Dr. Warner, Charles Walker, Dr. Bailey and Harry W. Lucas. All have appeared on the political turf before and have good records, while their pedigrees are unsurpassed.

The Cleveland mine, about seven miles from here, the latest news coming from an immense body of carbonate ore carrying about 45 per cent lead, 15 per cent silver and 5 per cent gold. Shipments are being made regularly. The Cleveland is the property of Geo. H. Utter of this city, and he appears to have a bonanza sure enough.—Squintin.

While digging a post hole on Main street George Hummer unearthed a nest of giant centipedes, the largest of which measured ten and a half inches and carried enough poison to kill a horse. The big fellow was decoyed into a glass jar and presented with the compliments of the season to Prof. Eicherly. The remainder of the reptiles were killed.—Silver City Sentinel.

Says the Silver City Sentinel: Jerry Sullivan, who was here under a change of name from Dona Ana county, where he had been indicted for assault with intent to kill, went to Deming after his case had been continued. While there he was arrested again by officers from Dona Ana county on another and more serious criminal charge. Friday morning while waiting at the depot for the Las Cruces train, Sullivan requested the officer who had him in charge to allow him to go over to town to get a valise. The officer consented and accompanied him. While in town a gang of toughs attempted to rescue the prisoner, but failed. One of the gang, however, succeeded in giving him a pistol, which he concealed in his clothes. The officer then started back to the depot with his prisoner. When nearly there Sullivan drew his pistol and attempted to kill the officer. The latter, however, quickly drew his own gun and grabbed his assailant. The two, each with a pistol in his hand, had a desperate struggle, during which several shots were fired. One from Sullivan's gun slightly wounded the officer. While the men were yet struggling, Ben Lazwell rushed up and grabbed Sullivan and with some resistance overpowered the fellow and tied him securely with ropes. The train soon afterward arrived and Sullivan was taken to Las Cruces. It is said that the party who gave Sullivan the pistol is John Gilmo. It is also stated that a saddle horse had been procured and hitched in a convenient place so that Sullivan could flee in case he made his escape from the officer.

Died.

Yesterday, R. B. Kinsell, a native of Ohio, and formerly a resident of Santa Fe, N. M. Although Mr. Kinsell had not been well for several days, yet his death was very unexpected, resulting from failure of the heart to act. His friends are requested to attend his funeral this afternoon at 3 o'clock from the residence of T. W. Woodruff, 310 North Campbell street.—El Paso Times, 26th.

HOWARD ESTES' DEATH.

Howard Estes, a clever young man, well known at Cerrillos as the only son of Capt. F. S. Estes, died at St. Vincent's hospital last night. His age was 20 years. The grief stricken father will take the remains to Cerrillos to-morrow for interment.

PECOS VALLEY TO THE FRONT.

Charter for a Railroad from Roswell and Eddy to the Texas & Pacific—An Important Move.

Articles of incorporation of the Pecos Valley Railroad company were today filed in the office of the secretary of the territory. The incorporators are James J. Hagerman, Louis H. Jackson, Irving Howberts, and Henry C. Lowe, of Colorado Springs, Colo., and C. B. Eddy and W. A. Hawkins, of Eddy, N. M. The president of the company is J. J. Hagerman; Chas. B. Eddy, vice president; treasurer, Henry C. Lowe. The capital stock is \$800,000. The articles of incorporation provide for the construction of a standard gauge railroad from the Texas line northward through the Pecos valley via Eddy to the town of Roswell, an estimated distance of 115 miles. The town of Eddy is named as the principal place of business. At the Texas state line this road is to connect with a new road chartered under the laws of the state of Texas and to be built by the owners of the New Mexico line, which will connect with the Texas & Pacific railroad at an available point in the western part of the state of Texas. This will give to the Pecos valley splendid shipping facilities, and insure an opening up for prosperity and colonizing of the favored land as has not been seen in New Mexico. The names of the incorporators are a guarantee that the road will be built.

Old papers, clean and whole, for wrapping purposes.

COKE!

For a period of thirty days

The Santa Fe Gas Company

Will sell coke at greatly reduced prices; in quantities of 10 tons or upward the same will be sold at 10 cents a bushel; in quantities of less than 10 bushels, at 12 cents a bushel.—Orders to be left at the Gas Works, Wash.—Orders to be left at the Gas Works.

WITH THE SUPERINTENDENT

Absolutely Pure.
