## NEW MEXICO POSTMASTERS.

WASHINGTON, D. C., Mar. 28.—The following New Mexico postmasters have been confirmed: H. G. Williams, Albuquerque; Jacob Wellmer, Santa Fe, Arizona; W. Archibald, Yavapai; I. K. Corbett, Tucson.

Pay director: Thos. H. Looker, to be chief of the bureau of provision and clothing and postmaster general of the navy.

## A NEW MEXICO JUDGE.

The house committee on judiciary has made favorable report upon the bill to provide for an additional associate justice of the supreme court of the territory of New Mexico.

## DELEGATE JOSEPH OBJECTS.

The action of the house committee on territories in the case of the New Mexico bill for statehood is not relished by Delegate Joseph of that territory. The committee, in effect, decided that New Mexico is to be admitted at all this session it must come in under the constitution recently adopted by the citizens of that territory.

Delegate Joseph and some other Democrats are opposed to this constitution. They would rather have New Mexico remain a territory than be admitted under that measure. The consequence will be that the Republicans, if they should make any report at all upon the subject, will probably be opposed by Joseph and his brethren, but then New Mexico has never had any chance for admission since the Democrats came out in public opposition to the constitution and the recent proceedings before the committee. It was apparent to all close observers in Washington that the opposition will not amount to anything.

## AN APPOINTMENT HANGS FIRE.

The Philadelphia Press has the following Washington special:

The senate judiciary committee has not yet reported the recess nomination of William H. Whiteman to be associate justice of the supreme court of New Mexico. It is understood that the committee, by unanimous vote, has decided to ask the president to withdraw his nomination. At the time it was made charges were brought against Whiteman of not accounting for \$1,000 which came into his possession as attorney for a citizen of Switzerland who died in New Mexico. The case was put in his hands by the Swiss consul in New York, who failed to get an accounting from Whiteman.

When it was announced that Whiteman was a candidate for the nomination, a report of this case, authenticated by the Swiss consul of New York, was laid before the president. Whiteman came to Washington to meet the charges, and declared that he had the money in an envelope in his safe and was merely waiting to find out to whom it legally belonged before paying it over.

To satisfy the attorney general of the truth of this, Whiteman asked that his wife be telegraphed to open the safe, as she was the only one who had the combination, and allow to any person designated that the money was there. This was done, the money was found in the envelope and the appointment was made. Some of Whiteman's opponents afterward came to Washington and declared that the money in the safe had been borrowed from friends and put there for the express purpose of meeting the charge, and that it was afterward returned to the lender.

It is reported that Senator Edmunds, chairman of that judiciary committee, caused an investigation to be made, and ascertained that this was true. He laid the facts before the committee, which decided to request the president to withdraw the nomination.

## REPORTS FOR FARMERS.

Congressman Brosius has introduced a bill to appropriate \$15,000 to enable the department of agriculture to publish short and popular statements of the results of work at the agricultural experiment station for distribution among the farmers. The reports must be issued at least once in three months.

## NEW EDUCATIONAL BILLS.

Now that the Blair educational bill has been defeated in the senate the house committee on education, it is expected, will go ahead and evolve a measure of some kind. The chairman, O'Donnell, of Michigan, was a friend of the Blair bill. There is no lack of material at hand for this purpose, for there are no less than sixteen bills having for their purpose temporary aid to schools, now before the committee, the author of many of which are southern representatives in the house.

There seems to be little doubt that a measure of some kind will be reported by the committee.

## "OPTIONS AND FUTURES."

The house committee on agriculture has authorized a favorable report with the amendment of Butterworth, a bill defining "options and futures," and imposing special taxes on dealers therein.

## ARMY PROMOTIONS.

The general belief among army officers is that Brig. Gen. Nelson A. Miles will be promoted to succeed the late Gen. Crook as major general. Gen. Miles, while the senior brigadier in rank, is the youngest in his grade, and this consideration might possibly influence the president to pass him in favor of one of the junior generals, but that is regarded as extremely unlikely. For promotion to brigadier general a number of the leading colonels have been mentioned. On account of the great stagnation in the promotion in the artillery the president would doubtless like to select a colonel from that arm of the service, but as Col. Horatio G. Gibson, of the 3d artillery, who is the ranking colonel of ar-

tillery, stands No. 24 in relative rank, his selection is improbable.

The man generally mentioned is Col. Benjamin H. Grierson, of the 10th cavalry, who stands at the head of the list of colonels in relative rank. He is at present the only colonel in command of a department. The other prospective candidates are Col. August V. King, of the 8th infantry, Col. Eugene A. Carr, of the 6th cavalry, and Col. Alex. McD. Me-

Cook, of the 4th infantry. Below the grade of colonel the promotion is altogether by seniority. Lieut. Col. George A. Forsythe, of the 4th cavalry, the senior lieutenant colonel of cavalry, who would have been in the line of promotion in case of the selection of a cavalry colonel, was retired for disability. This officer was tried by a court martial a year ago and convicted of serious charges and sentenced to suspension for a term of years. He was afterward found to be incapacitated for service, and the president remitted the unexpired portion of his sentence with the view of putting him on the retired list, which was done yesterday. His retirement will promote Major Austin Miles, of the 10th cavalry, to lieutenant colonel of the 4th cavalry; Capt. Stevens T. Morrill, of the 10th cavalry, to be major in the same regiment.

If Col. Grierson's promotion is made it will promote Lieut. Col. John K. Mizner of the 8th cavalry to be colonel of the 10th cavalry. Major Edwin Y. Sumner of the 4th cavalry to be lieutenant colonel of the 8th and Capt. W. Davis of the 4th cavalry to be a major in the 5th cavalry. One of the arguments in favor of Col. Grierson's selection is that he will retire July 8, of the present year, and make way for the promotion of one of the other colonels. Major Miles will not be eligible for retirement until 1893, and if promoted will be the senior major general of the army in a little more than five years, as Gen. Howard will retire November 8, 1894, and Gen. Schofield September 29, 1895.

## THE BRAZOS HARBOR.

Work on the Jetty of the Big River Almost Completed by a Private Corporation.

VELARCO, TEXAS, March 28.—The annual meeting of the Brazos River Channel & Dock company was held at the office of the company here yesterday, over 30 per cent of the capital stock being represented. The president's annual report showed that the east jetty was finished to a point 3,300 feet from the beginning and the west jetty to about 2,500 feet, with the new work being finished at the rate of fifty feet per day. At the present rate of progress the company will have sixteen feet of water on the bar in June and twenty-three feet in December. The directors ordered the work to be commenced at once on the railroad connecting the mouth of the river with the railroad system of the state, and preparations are to be made for the building of a great warehouse and docks at the railroad terminus.

## STUPENDOUS IMPROVEMENTS.

The refrigeration committee appointed by the inter-state cattle convention are to examine the works tomorrow with a view to the establishment of cooling houses at the points of greatest congestion. Communications were read from steamship owners in Europe requesting data with reference as to when the port will be open for business. It is now considered almost certain that the Brazos river will have twenty-three feet of water in December. Most of the directors departed for their homes today.

The following gentlemen were elected directors for the ensuing year: William D. Lee, of Leavenworth, Kas.; Senator Farwell and Congressman Abner Taylor, of Chicago; Hon. Ira H. Evans, vice president of the Missouri Pacific, said that he wished to deny the charges that his road is cutting rates in a spirit of prey. The Missouri Pacific, he said, maintained the same stand it has since the beginning of the trouble, and that it will meet competition wherever found. The cutting of rates had been done, he said, to meet those of competitors, and by direct orders of President Jay Gould.

Concerning Mr. Harrison. Washington, March 28.—Judge John A. Scott, a brother of Mrs. Harrison, who is now a guest at the White house, is authority for the statement that Mr. Harrison regards himself as certain to be the Republican candidate to succeed himself in the White house.

The president, he says, is fully aware of the discontent with the administration among the leaders of his own party, but he does not regard this of much consequence. Before 1894 he expects to shape things so that it will not be possible to defeat him in the convention.

The Flood. NEW ORLEANS, March 28.—The Times-Democrat's Vicksburg special says the levee in front of Skippin, Isaquena county, Miss., about seventy miles above Vicksburg, broke this morning and the crevasse is now over 400 feet wide and water in the town is up to the eaves of the houses and the people are reported as fleeing for their lives. The water from the crevasse will flood an immense tract of country south and east of it, embracing part of Isaquena county, Sharkey south of Rolling Fork and all of Warren county north of the Yazoo river.

The Pope's Successor. NEW YORK, March 28.—A Rome special says a large section of the cardinal's advocating the idea of a future pope to be elected to succeed Leo XIII is to leave Italy immediately. They desire the position of the pope untenable. Leo strongly opposed the scheme, and has appealed to the cardinal that his last days upon earth be comforted by the assurance that such a course will be abandoned.

## BEEF ON ICE.

The Experts Examine the Workings of Stafford's Establishment.

COLUMBUS, Tex., March 28.—The committee composed of the following persons: H. B. Stoddard, Charles Goodnight, J. Pryor, R. E. Maddy, M. Wablis and J. Paulman, appointed by the Interstate Cattle Men's convention to investigate the best refrigerating establishments in Texas, arrived here yesterday on the 11:20 train. They were shown through the extensive plant of Col. E. H. Stafford by his manager, Mr. H. H. Eberdworth. After making a close investigation of the workings, they were driven over the city in carriages, finishing their drives at the Wooten hotel, where an elegant supper was prepared for them. The committee expresses itself well pleased with the best refrigerating establishments.

A letter was received yesterday from A. J. Dolson, manager in America for the Metropolitan Trading association (limited), dated London, March 1, which says he will positively leave for America on the 12th, arriving in Texas about the 1st of April.

Mr. Dolson speaks hopefully of the business of shipping Texas refrigerated meat, and he announces that the first steamer engaged in this business will leave on his first voyage about July 1.

## Gen. Alger.

LITTLE ROCK, March 28.—Gen. Russell A. Alger was given a cordial reception on his arrival in this city yesterday by members of the G. A. R. and leading Republicans of the state. It is limited that this visit is of great moment, and there are visible signs of a boom for Alger as head of the Republican ticket for 1892. Gen. Alger is owner of several thousand acres of Arkansas land, which he will inspect while here. The land is situated in the southwestern part of the state, and portions of it are covered with valuable pine timber. Ostensibly the visit is on business connected with the G. A. R., and to look after his real estate interests, but shrewd politicians claim that in reality it is to lay plans for securing the Republican nomination at the next national convention.

## The A. T. &amp; S. F. Ocean Scheme.

CHICAGO, March 28.—President Marvel of the Atchafalaya road has returned from a visit to the Pacific coast and was today in conference with some of the eastern directors and financial backers of that company. The principal question under discussion was the scheme of the Atchafalaya to establish a trans-Pacific steamship line from San Diego. The annual meeting will be held next month, and a number of directors and stockholders will then go to California in a body to inspect the system and cost estimates and perhaps to complete arrangements for putting a steamship line in operation.

## Sullivan After Jackson.

POSTON, March 28.—"Now that I have settled the Mississippi trouble, I want to attend to Jackson's claims," said Sullivan yesterday. "If the Athletic or any other club puts up a purse of \$20,000 I will meet him in the battle for the championship. I don't care what gloves are used so long as they come within the restriction of the law. I was not under any circumstances fight a ring battle again. I had enough of illegal business." Sullivan added the people who criticize his high figures don't know what they are talking about. It costs him a great deal to train and he wants something for fighting.

## By Gould's Orders.

CHICAGO, March 28.—Talking to-night with a representative of the Associated Press, regarding the cutting of passenger rates west of the Missouri river, Mr. Gould's general passenger agent of the Missouri Pacific, said that he wished to deny the charges that his road is cutting rates in a spirit of prey. The Missouri Pacific, he said, maintained the same stand it has since the beginning of the trouble, and that it will meet competition wherever found. The cutting of rates had been done, he said, to meet those of competitors, and by direct orders of President Jay Gould.

## Concerning Mr. Harrison.

WASHINGTON, March 28.—Judge John A. Scott, a brother of Mrs. Harrison, who is now a guest at the White house, is authority for the statement that Mr. Harrison regards himself as certain to be the Republican candidate to succeed himself in the White house.

The president, he says, is fully aware of the discontent with the administration among the leaders of his own party, but he does not regard this of much consequence. Before 1894 he expects to shape things so that it will not be possible to defeat him in the convention.

## The Flood.

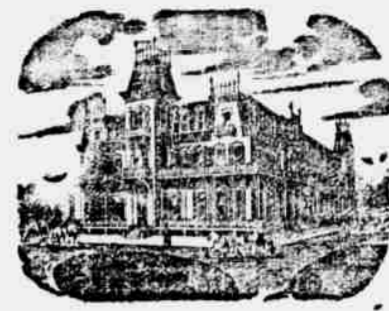

NEW ORLEANS, March 28.—The Times-Democrat's Vicksburg special says the levee in front of Skippin, Isaquena county, Miss., about seventy miles above Vicksburg, broke this morning and the crevasse is now over 400 feet wide and water in the town is up to the eaves of the houses and the people are reported as fleeing for their lives. The water from the crevasse will flood an immense tract of country south and east of it, embracing part of Isaquena county, Sharkey south of Rolling Fork and all of Warren county north of the Yazoo river.

## FOUND DEAD!

Faustina Ortiz' Body this Afternoon Found Buried in a Sandy Arroyo.

Intense Excitement Throughout the City Probably a Foul Murder.

The body of a dead man was found in a sandy arroyo, 600 yards southwest of the narrow gauge railroad shops, at 3:45 this afternoon.

Cosme Lujan, a wood vender, made the discovery. In passing he noticed pieces of blue overalls protruding from the sand. The earth was disturbed, as if by animals seeking meat there.

Lujan caught hold of the blue overalls and when removed, a human hand, partly eaten off by animals, was disclosed.

The alarm was given and in 20 minutes 1,000 people were congregating toward the spot.

Friends of the missing Faustina Ortiz were the first on the scene, and the sand was scraped away only sufficiently to permit them to recognize the clothing as that which Faustina wore when he disappeared so mysteriously on the night of March 1.

The body had not been removed at the time this report closes. The sheriff is on the ground impaneling a coroner's jury. The mystery is only partially solved. Faustina Ortiz was foully murdered. By whom?

### EXEMPT FROM TAXATION.

An Important Opinion by the District Attorney Affecting Property of Religious, Charitable and Educational Institutions.

In response to an inquiry from the county board, the district attorney today rendered the following opinion of moment to all the tax payers:

To the Hon. Board County Commissioners. SANTA FE, N. M., March 28, 1890.—Gentlemen: Responding to your verbal inquiry asking me what property in the county of Santa Fe is exempt from assessment and taxation, will say that section 2808 (Compiled Laws, N. M., 1884, excepts from taxation the property of the United States, of the territory, of the county, of the city, town or any other municipality in the county that is devoted entirely to public use and not held for pecuniary profits. Also all public libraries, the grounds, buildings, books, papers and apparatus of literary, scientific, benevolent, agricultural and religious institutions and societies devoted exclusively to the appropriate objects of these institutions, and not leased or otherwise used with a view to pecuniary profit. Also mines and mining claims bearing gold, etc., but not the net product and surface improvements thereof, for a period of ten years from the date of removal of location thereof; also ditches, canals and flumes used exclusively for irrigation purposes and industrial pursuits; also the property of the head of a family not exceeding \$500 in value.

Sec. 2809, Compiled Laws, 1884, also gives an exemption at the rate of \$500 per acre for timber and fruit trees for the period of ten years, when conditions are complied with as specified in the statute. The property of railroad companies organized under the laws of the territory of New Mexico is also exempted from taxation for a period of six years; this matter, however, I do not believe it was your intention to have discussed nor did you seek advice upon at my hands.

Without going into particular assessments or particular ownership, you will see that under section 2808, the property of religious institutions and charitable institutions, in order to derive a benefit from this statute, must be devoted exclusively to the appropriate objects of such institutions and can not be leased or otherwise used with a view to pecuniary profit. This language is broad and comprehensive and is easily interpreted.

I have no doubt, however, that you would like some specific information upon the subject of exemptions. There is no doubt that the section 2808 embraces the permanent improvements on the land used for the purposes of a public charity, but the fact that any benevolent or charitable institution intends at some indefinite future date to occupy land owned by it for the purposes for which it is incorporated, does not exempt such land from assessment and taxation. This principle is laid down in *Redemptorist Fathers vs. Boston*, 129, Mass. 178. Neither is property from which a revenue is derived exempt. This was held to be the law in *Redemptorist Fathers vs. Howard Co.*, 30 Md., 449.

The fact that the rents and revenues of a property owned by a charitable institution are devoted to charitable purposes for which the corporation was organized, will not exempt such property from taxation. The property must be actually and exclusively used for charitable purposes in order to bring it within the statute exempting property of charitable and religious institutions. This doctrine is laid down in the Maryland case, supra, and is also the law in Louisiana and other states.

Property partly appropriated to worship and partly to secular purposes is liable to taxation. If any religious society or church corporation is the owner of any property in this county, a part of which property is used for church purposes, i. e. religious worship, and a part for any other purpose whatsoever, except those mentioned in the statute, that part which is not used for religious purposes exclusively is liable to taxation. This is so held in *People's Meeting House vs. Lowell*, 1 Metcalf, 538.

Rooms in a building upon land belonging to a religious or charitable corporation, let to tenants at usual rates of rent, and the proceeds devoted to the uses of the corporation as designated in the charter of the society, are not exempt from taxation. This is so held in *Massachusetts* and is laid down in *Chapel of the Good Shepherd vs. Boston*, 120 Mass. 212, and cases cited.

In this connection I will also state that in my opinion buildings and lands occupied for a boarding school from which a profit is derived or fees charged is not exempt from taxation. This is the law in *New Jersey*, *New York* and *Kansas*. Very respectfully, R. E. TWICHELL, District Attorney.

### The Busy Mennonites.

To Santa Fe county belongs the honor of catching the first settlement of Mennonite farmers to locate in New Mexico. The lands they have selected are not far east of Lamy junction and south from Glorieta, along the base of the mountains, where crops have never yet failed. No

irrigation is necessary, for a peculiarity of the region is that all storm clouds coming up the Rio Grande valley from the southwest strike the tops of the adjacent mountains and result in refreshing showers all through the planting season. For two years the Mennonites have studied these features of this locality, and that they are satisfied with the outlook is evidenced by their coming. Thirteen families are now on the ground, and in ten days from now that will be a bee hive of industry. As soon as these people are settled another delegation will come out from Kansas, and before the year is out Col. Haren hopes this first colony will number fully 200 persons, and their success will induce others to follow and locate elsewhere in New Mexico.

### Rheumatism

Is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This much is proved by its purifying action, neutralizes the acidity of the blood and also builds up and strengthens the body.

### Church Entertainment.

A treat is assured all who attend the M. E. church this evening. General admission is 10 cents, children 5 cents. The object is to help along the church building fund. The following program will be presented:

Two Part Song—O Wert Thou in the Cauld Blast  
 Misses Platt, Blood, Whitlock and Wente.  
 Recitation—Life's Dream is Over. S. G. F.  
 Vocal Solo and Prof. Newman.  
 Pantomime—What Will You Take for Me? Western Union.  
 Tableaux—The Double Crossed.  
 Recitation—Home-ward Bound. A. J. Foster.  
 Vocal Solo—The Bird Song. J. Lemmons.  
 Song—Bird of Love. J. Lemmons.  
 Pantomime—The Ladies in the Woods.  
 Vocal Solo—The Bird Song. J. Lemmons.

 Vocal Solo—The Bird Song. J. Lemmons.

### ROUND ABOUT TOWN.

The first lot of new lumber for finishing the Don Gaspar avenue bridge was delivered today.

The Artesian well directors make another call for subscribers to come forward and pay up.

A further meeting of citizens will be held at the court house to-night to arrange for the archbishop's reception.

Mr. Cowles, a C. & N. W. official, traveling in a Northwestern special car, spent yesterday in the city. A special car bringing a party of Lehigh valley railway people is side tracked at the depot today.

Assessor Eugenio Yissarri returned last night from Mora county. While there he made arrangements for lambing his extensive sheep flocks in the vicinity of Wagon Mound during the coming lambing season.

The police authorities have done some very creditable work of late in ridding the town of tramps. A perfect nest of these fellows have been caught. Seven of them have been kept a day or two in jail and then walked out three miles with orders to get. The plan works nicely.

The oil in Ironwood's well continues to render the water unfit for use. All the people residing thereabouts are firm in the belief that the oil was not thrown in there by some mischievous knacker, but seeps out of the ground. The family have taken off the well buckets and ceased using the water.

Thus far some \$2,000 toward the narrow gauge right of way and depot grounds is in sight. Several citizens today agreed to double their subscriptions in case several other citizens would subscribe as much as they have already. The matter ought to be pushed. Engineer Coleman regards the immediate building of the road as a certainty, and unless the road is built no one subscribing will have to pay a cent.

Judge Whitman and the district court officers depart on Monday for Taos, there to open court. Francisco Borrego and many of his witnesses will go along the first of the week. Some fifteen witnesses in this case left this morning for Taos on foot, expecting to walk it in three days. Since the above was placed in type, it is learned that Judge Whitman is seriously ill at Albuquerque, and the question of going to Taos is still undetermined.

Deputy Sheriff Bartholomew, up from Cerrillos today, says he has been misrepresented all the way through in connection with Lee White's escapades in the south end of the county. He had two posess out after White, paying their expenses out of his own pocket, and never expects to be reimbursed by the county. Naturally Mr. Bartholomew thinks it is pretty rough to be thus out of pocket in performance of his duty and "get a roasting" in the newspapers also.

### PERSONAL.

At the Palace: Mr. and Mrs. Mortimer Woolf, London; Mr. and Mrs. W. M. Warren, Marlboro, Mass.; Mrs. G. W. Dillaway, Miss Dillaway, Muscatine, Iowa; Miss D. Coughlin, Eleanor Coughlin, Toledo, Ohio; L. B. Edwards, San Francisco; Geo. F. Smith, Salt Lake city; E. H. Adams, New York.

Major Whitmore, 10th infantry, arrived from Fort Union this morning. He is en route to San Carlos on court martial duty.

Hon. Pedro I. Jaramillo, a leading and well known citizen of Rio Arriba county, is the city on business.

Joseph Rautledge, the pioneer farmer of the Glorieta red-lands region, is at the Exchange today.

Jose Ortiz y Salazar, member of the Rio Arriba county board, is down from Plaza Alcala.

L. B. Edwards, of San Francisco, superintendent of insurance agencies, is at the Palace.

W. C. Wrigley, district attorney for the counties of Taos and Colfax, is at the Exchange.

F. B. Wallace and mother, of Detroit, Mich., are health seekers at the Palace.

S. D. Baldwin, a very busy mining man, left this morning for Cerrillos.

Gov. Prince is again at Espanola looking after his ranchito.

Try the new brands of canned vegetables at No. 6.

## NEW RAILWAY PROJECTS.

The Deming Line Financially Fixed—Money for the Santa Fe Southern—Durango's Road.

It is announced here by parties just in from the east that all the bonds of the Deming, Sierra Madre & Pacific railway project have been sold in London through the Messrs. Baring Brothers, who were induced to take hold of the scheme through the representations of Mr. Farout, a Lima, Ohio banker, who recently accepted the presidency of the Deming line. Parties are now at Deming paying up all arrears, and Messrs. Elliott and Hiss, of Chicago, have taken the contract to build the road, iron ties and all material to finish the line clean through to Guaymas, have, it is said, been contracted for.

In this connection it is learned further that Judge Lamberson, of Lima, Ohio, Mr. Brice's attorney, is authority for the statement that all the money necessary to build the Santa Fe Southern extension to Cerrillos and San Pedro has been pledged, and that the bonds will be sold immediately upon their issue. They can, however, be issued till the right of way question is determined, and this devolves upon our own citizens.

Now that the Durango people have two chances for getting a road southeast to connect with the A., T. & S. F. in the Rio Grande valley, they do not seem inclined to be in a hurry to carry out the proposition they made to build a line to the south. A new company known as the Rio Grande Southern, and backed by Otto Meers, is supposed to be the Cook company's competitor. It is thought also that Mr. Cook's chief backer is no less a personage than W. B. Brown, ex-president of the Santa Fe, who has in former years been a staunch advocate of a line to connect Salt Lake City with the Rio Grande valley via Durango.

### THE LITTLE 'PACHES.

How the News of their Coming to Santa Fe was Received—To be here Tomorrow.

Prof. Chase, of Ramona school, returned this morning from Fort Union. The San Carlos Apaches just located there are kept constantly in irons and under guard. They have as yet scarcely got settled, and the military officers in charge had not intimated that the children were to be sent here to attend school; they expressed some fears of this exciting the elder Indians. Prof. Chase was called upon to impart to them the first news in the matter. The Indians were assembled yesterday and Prof. Chase was introduced as "a captain from Washington," and through an interpreter gave them a plain, frank hour's talk, explaining how the children are cured for at Ramona. The parents took very kindly to the idea, much to the surprise of the military officers, and a second talk was had later in the day at which it was suggested that a delegation of three of the Apache chiefs should come to Santa Fe with the children and see for themselves what it was intended to do for the little ones. This was received with evident satisfaction, and it was arranged that the Indians should arrive here at noon tomorrow, coming under the charge of Lieut. Grasshopper. Most of the children are too small to attend school, only eleven being old enough. There are six boys and five girls, aged 6 to 12 years.

### Phases of the Metal Market.

The monotony in copper has at last been broken. The French bankers have persistently declined to offer any copper below \$14.00, but active brokers worked up pool orders for about 5,000,000 pounds, and submitted them by cable through the New York office, and the great mogul accepted 14 cents for delivery over April, May and June. This bonus, thrown into the camp of the mining companies took them somewhat aback, but created no panic, for luckily their position is fairly sound.

Lead—The ways and means committee, after a stormy session, declined to tax lead in ore, and immediately such a pressure was brought to bear that they were induced to reconsider their action. It is evident that great influence will be used against this measure in the committee in the future, and in the event, for the simple reason that it affects injuriously a very large number of people who are in a way directly connected with lead. The railway can afford to work actively in the matter, and every one interested in the reciprocity with Mexico stands in the same position, so that really the miner has very few friends at court.

### AN UNPAID BOARD BILL.

The Origin of the Row that Resulted in the Death of O. D. Crowell.

Further details of the murder of O. D. Crowell by Policeman Moseman at Trinidad on Wednesday came to hand this morning in the Trinidad papers, each of which devotes a column or more to the tragedy. In a saloon Moseman pulled out a lot of warrants he had in his pocket and was flourishing them around, bragging on the amount he had. This led Crowell to remark that if he had known Jake had money in the bank he should have attached it for an old board bill which Jake had contracted at the North side hotel when Tom Gable ran the place. This brought on hard words between the two men and resulted in a fight in which Crowell struck Moseman over the head with a revolver, which exploded, the ball going up through the ceiling. Moseman claims that Crowell shot at him, and that his scalp wound was not caused by a blow, but by the ball from Crowell's gun which glanced off. Three hours later the row was reopened when Moseman entered a saloon and undertook to arrest Crowell on the charge of carrying concealed weapons.

From this point the stories of the affair are very conflicting. One story is that Crowell was in a saloon at the time, at Moseman, when asked to join him in a drink, uttered an oath and said he would either arrest him or kill him. Then, suiting the action to the word the policeman fired two shots. The first one went into the floor and the other took effect in Crowell's head just below the right ear, flowing the whole base of the skull off. Another eye witness claimed that when Moseman told Crowell he had come to arrest him Crowell drew his gun and cocked it, and that Moseman grabbed his arm and, raising Crowell's gun in the air, reached around and shot him, and that no effort was made by any one to stop them from coming together.

Moseman is in jail and alleges he acted in self defense. The coroner has not yet concluded the investigation. The Trinidad members of the Knights of Pythias and United Workmen took charge of the remains and they were buried there yesterday.

Old papers, clean and whole, for wrapping purposes.

**ROYAL BAKING POWDER**  
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can not be sold in conjunction with the multitude of low test, light weight, alum or phosphate powders, sold only in cases. Royal Baking Powder Co., 100 Wall Street, N. Y.

W. F. DORRIS. MIGUEL CHAVEZ.

### Two Prisoners.

Deputy Sheriff Bartholomew and Edward Baker brought a brace of prisoners from Cerrillos in today and placed them in the county jail. Henry Bergen went out there to collect subscriptions for sweet charity's sake, to be used in behalf of Mrs. Rutledge, at the coal banks. He raised \$7, got drunk, and spent it. Then he was arrested for obtaining goods under false pretenses at San Pedro. He fixed that up, however, and offered to refund the \$7, but not until he had been arrested. He goes to jail for ninety days.

### The World Marched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited. When Syrup of Figs was first produced he world was enriched with the only remedy known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time, and the better it is known the more popular it becomes.

### I. O. O. F. To-night.

A regular meeting of Azatlan lodge, No. 3, I. O. O. F., this evening at 7:30. F. A. Tuttle, past grand master of Colorado, and Past Grand Archibald Carr, of St. Louis, will be present. A full attendance requested. S. T. REED, N. G.

### THE LAY OF A LINE.

THE GREAT WABASH ROUTE.  
 Ye who seek while on the wing  
 The joys which travel bring  
 Without the loss and toiling  
 Wanting all ye can get for cash,  
 But weary the "Great Wabash,"  
 Which rivals every other  
 Quiet comfort never fail  
 Caught while lying on this rail  
 In search of less or more  
 And better still, to be on time.  
 Traveling on the "Wabash Line,"  
 Which means does not measure  
 Picturesque and grand the view  
 Through the most it carries you,  
 Good service, and service  
 And tipping strains whose foam and dash  
 Lead's charm in the "Great Wabash."  
 Will make the route scarpic.  
 Easy, soft reclining chairs  
 Will sweep summer away.  
 While time and space are flying,  
 The morning's sun, or day's decline,  
 Shines still up in the "Wabash Line,"  
 At other routes outlying.

For Sale—Two sound young ponies, gentle, drive single and double, one buggy and cart, one line mule coach. The Douglas horse, furniture, etc., at Lieut. Seymour's.

Fresh new vegetables next Thursday at No. 6.

Smokers will find a good line of cigars at No. 6.

### Auction Newhall Residence, Etc.

The Newhall residence and grounds will be sold at public auction to the highest bidder on the 23d day of April, 1890, at 11 o'clock a. m., on the premises in Santa Fe, N. M. The house is a beautiful two story brick one, consisting of six large rooms on the first story and ample space for more on the second story. All partition walls are brick and hard finish, and the building is first class in every particular, beautiful in style of architecture, and in thorough order and particularly well and substantially built. Also roomy brick cellar, brick tool house and out house. The grounds contain fifty-eight fruit trees of every variety, bearing luscious choice fruits in abundance. There is also a choice and large assortment of rose bushes and other shrubbery, running vines, honeysuckles, etc., etc. The location is very picturesque, desirable and accessible. Terms will be made to suit. The window shades, furniture, etc., would also be sold. Premises shown at any time by the occupants of the same. This property must be sold, and here is an opportunity to secure one of the choicest homes in Santa Fe. JOHN GRAY, Auctioneer.
