## Telegraphic Tidings

## WASHINGTON MATTERS.

ORIGINAL PACKAGES.  
WASHINGTON, June 25.—The house committee on judiciary has prepared a substitute for the original package bill, broadening it so as to apply to all commodities as well as liquor. It makes the commodities taken from one state to another subject to the laws of the state in which they are taken, but prohibits discrimination between articles brought in or raised and manufactured in any state.

THE SILVER BILL.  
The committee on coinage held a meeting yesterday and took up the senate amendments to the silver bill. The committee decided by a vote of six to five to recommend a non-concurrence in the senate amendments, and to ask the house to order a conference. Warren, of Massachusetts, and Mitchell, of Pennsylvania, were absent from the meeting. The house committee on rules has arranged to have the final vote taken in the house this afternoon upon the report of the coinage committee, recommending a non-concurrence in the senate amendments to the silver bill and requesting a conference.

THE HOUSE DEBATE.  
The coinage committee presented its report. It simply recommended that the house non-concur in each and all of the senate amendments to the silver bill. Bland, of Missouri, moved that the house concur in them, and on these propositions the debate began.

THE CONSUMERS' APPROPRIATION BILL.  
WASHINGTON, June 25.—In the congressional and diplomatic appropriation bill, which was reported to the senate on Saturday by Mr. Hale, a number of amendments are made in the bill as it passed the house. The missions to the Argentine republic and to the United States of Colombia are raised from \$7,500 to \$10,000. The committee also incorporated in the bill suggestions by Sec. Blaine to enable the president to carry into effect the recommendations of the Pan-American conference. They are as follows: \$49,750 for compensation of employees, miscellaneous expenses and printing and distributing proceedings and reports of the conference; \$15,000 for the compensation of three commissioners and the expenses of the commission to meet in Washington the first Wednesday in January, 1891, to consider the establishment of an international coin or coins; \$65,000 for the payment of the share of the United States of the preliminary survey for an intercontinental railway; \$30,000 for the organization and establishment of an international union of American republics for the prompt collection and distribution of commercial information, and \$10,000 for the compilation and publication in English, Spanish and Portuguese of uniform nomenclature of imported and exported articles.

AFTER A BUYER.  
OMAHA, Neb., June 25.—The attorney of the Union Pacific railroad has created a sensation by filing a petition in the federal court against C. H. McKibben, late general purchasing agent, for \$60,000, alleged to have been stolen through fraudulent purchases of lumber. All his property was attached. McKibben left for the east last week.

CORGER OPPOSED.  
DENVER, June 25.—A Washington special to the Times announces that Mr. Conger has said that he and his coinage committee were determined that no free coinage bill shall so through. He says they will report a proposition for the purchase of \$4,500,000 worth of silver per month which is sufficient to continue the American product and they will not go beyond that.

RAILROAD CONSTRUCTION IN MEXICO.  
MEXICO, June 25.—The Mexican branch to Pachuca will commence operations in August.  
The Hidalgo railroad hence to Pachuca will commence operations in July.  
The Monterey & Gulf road bed is finished nearly to Victoria, Tamulilla pass. The Inter Ocean railroad construction is progressing from Jalapa to Vera Cruz and from Matamoros, Yucatan, to Chetumal.

Sudden Death.  
SAN SALVADOR, June 23.—President Menendez died suddenly last night soon after the conclusion of a banquet given on the occasion of the 5th anniversary of the entrance of Gen. Menendez into San Salvador and the defeat of the Zaldívar faction. During the banquet caused by the president's death Gen. Marcos and several other officers were killed at the bar racks. Gen. Carlos Ezeta, leader of forces, is now in command. All quiet at present.

A Cut in Wages.  
A cut of train men's wages on the A. & T. & S. F. was made on the first of June, and while rumors to that effect had been current nothing definite was known of it until a few days ago. The brakemen are up in arms about it and have sent a delegation to Topeka to consult with the company officials. It is said the men threaten a strike unless the old schedule is restored. The cut of the Lamy branch brakemen was from \$75 to \$60 per month. The conductors were shaved down \$5, with the exception of three main line conductors, whose wages were slightly increased. The freight brakemen on the main line, under the old schedule received \$95 for 2,800 miles of travel, while under the new order of things they get \$100 for 3,300 miles of travel. They ask a restoration of the former rates.

## THE DEAF AND DUMB.

Intensely Interesting Exercises at the Annual Commencement of the School.

The Science of Sign Language—Carefully Trained Pupils—A Timely Address by a Friend of Education.

The territorial school for deaf mutes, located in this city, held its closing exercises for the scholastic year just completed on Thursday last. The increasing interest in this excellent work was evinced by the number and character of the persons present on this occasion. Every year there has been a decided increase in the audience, but this year has far surpassed all preceding ones in this respect. Every possible place in the school room was occupied, and many persons were compelled to stand. The windows even were utilized by those who could find no room inside.

Among the audience were many of those identified with educational work in Santa Fe, whose presence, doubtless, did much to encourage the tireless, faithful laborers in their meritorious efforts to render this institution a blessing to the unfortunate of New Mexico, and a credit to its founders and coadjutors.

The exercises were opened by Rev. R. T. Burke, of St. Catharine's Indian school, with an appropriate prayer. Then followed an exhibition of the proficiency of the pupils who had been in the school for one year. Thomas S. Miller, of Hudson, Grant county, and Perfecto Torres, of Santa Fe, came forward to the blackboard, and then gave proof of the careful instruction they had received, by spelling accurately words of one syllable, writing simple sentences recited to them in the sign language by Mr. Larsen, and, being provided with a subject, composed original sentences, into which they introduced the subject word written for them on the blackboard. These were succeeded by the pupils of two years standing, Manuel Armijo and Juan C. Armijo, of Belen, whose work was similar, but of a higher grade, concluding with a short story, for the expression of which forty words were used. This was well written, in a concise and perspicuous style, proving these bright little fellows capable of making intelligible use of what Lord Bacon has felicitously called the "wise man's counters, but the fool's money."

Maud Bogue, a very intelligent, attractive looking child, 12 years of age, and four years in the school, came next. She gave a like exhibition, somewhat more advanced in character to that of those who had preceded her, and, moreover, showed a proficiency in the practice and principles of rudimentary arithmetic. Then Pedro R. Sandoval, of Santa Fe, made his bow to the audience. This boy became a deaf-mute at the age of 10 years, previous to which time he was in full possession of his faculties. Before losing his powers of hearing and speech he had been a pupil for two years in St. Michael's college in this city. His age is now 16. This youth has become favorably known throughout the territory as the winner of the handsome U. S. flag that floats over the school building, given as a prize by the "Youth's Companion," published in Boston for the best original composition on "Our Country's Flag." This would mark him as a boy of unusual natural ability, for, in spite of his affliction, he outstripped all competitors in New Mexico, and secured for his school the honors of attaining the highest rank in original composition. He exhibited wonderful knowledge of the English language and its accurate use, of geography, history and other subjects, astonishing greatly and winning the admiration of those present.

Had this institution done no more than rescue this talented youth from enforced ignorance, unstopping his ears and loosening his tongue, so to speak, it would recommend itself in the highest manner to all intelligent and humane citizens.

Mr. Larsen next gave an exhibition of the sign language and its power to express not only the names of things, but every emotion and attribute, proving the possibility of its becoming the efficient instrument even of abstract thought and the master key with which may be unlocked for the deaf-mute the doors of knowledge, social, scientific and religious. Two very effective recitations, one of the Lord's prayer by Juan Armijo, and another of the hymn, "Come to Jesus," by Manuel Armijo followed. They were wonderful illustrations of the skill of the pupils, and the ability of the language of signs. Two of the boys, then acted a short play, the argument of which was as follows: "A Negro went into a watermelon patch to steal watermelons, and just when he had secured a fine one, cut it, and was beginning to devour it, he saw a white man approaching on horseback, whereupon he crouched down perfectly immovable to represent a stump. The white man was upon a similar errand, and having selected a melon, searched in his pockets for his knife, but not finding it, picked up the fruit and looking round saw what he supposed to be a stump. He raised up the melon and brought it down upon the negro's head, when the latter naturally started up and the two then gazed in a terrified manner at each other, took to their heels and hurried off in opposite directions. So well was all this represented that the audience were almost unconscious of the fact that it had not been described to them in words.

This concluded the exercises by the pupils, after which, at the request of Mr. Larsen, Mr. Juan Ortiz read an address prepared by the principal of the school, the substance of which is here given. It began with an expression of thanks to those present for the interest they were taking in the work of educating the unfortunate, and then went on to state the difficulties under which it had to be carried on. It could be seen how utterly unsuitable in every way was the building, and how inadequate the support for the demands made upon it. The school could be greatly enlarged, and its usefulness increased, were the means forthcoming. Many pupils had to be refused during the past year, and also because some who would have been willing to pay for their children and wards, stated that as Mrs. Larsen was so constantly occupied in the necessary housework, she could not act as matron and look after the girls sent to the school as they should be looked after in an institution where the education of the sexes was a necessity. The example of the states lately admitted into the union, as well as the other territories were then cited. Colorado's appropriation last year for this work was \$80,000 for a new building, in which there were now 100 pupils, for the support of each of whom \$800 per annum was provided by the state. Washington appropriated for work among the deaf, dumb and the blind \$12,000 per annum for the maintenance of thirty-five pupils; Utah \$35,000 for building, and \$10,000 for maintenance; the rest showed a similar spirit. Is this great territory, with its well managed finances and consequent prosperous condition to lag behind in this excellent work? The speaker hoped not, but confidently trusted that the representatives of the people, who were to assemble this winter, would make adequate provision for the needs of this institution, and render it the blessing it should be to the unfortunate as well as a witness to the intelligence and charity of New Mexico. The school had seen dark days in the past. The principal had maintained it the first year by the aid of the charitable people of Santa Fe, foremost among whom was Mrs. T. B. Catron, and by the labor of his own hands. Out of rough boards he had constructed the furniture first used, while his wife had toiled with him doing the duties of housekeeper, cook, laundress and general servant, and was still compelled to do so. Nevertheless, the work had been courageously prosecuted, in spite of all impediments, more or less of which had been gradually removed, and it was to be hoped that the light was now breaking through the gloom, and a bright and prosperous day would succeed the night in which they had been so long groping.

The Rev. Father Burke read a short address and asked the people to make a contribution to the school, which he proceeded to collect forthwith. The proceeds \$17, was put in the library fund by the principal. The exercises were closed with the benediction pronounced by Rev. R. T. Burke. Congratulations were offered to Mr. and Mrs. Larsen coupled with the wish that provision would be made during the session of the next legislature to meet all the needs of this most excellent institution.

## Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

## To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, and was satisfied with it, and did not want any other."

## Hood's

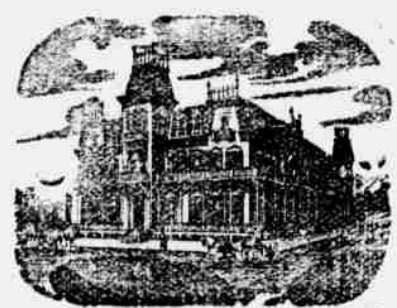

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELIA A. GOFF, 61 Terrace Street, Boston.

## Sarsaparilla

Insertions in "Round About Town" column 25 cents a line, each insertion.

Preferred local notices per line first insertion 10 cents, and each subsequent insertion 5 cents.

Legal advertising at 11 per line each day, first six insertions, 10 cents per line, and for subsequent insertions, 8 cents per line.

All contracts and bills for advertising payable monthly.

All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to New Mexican Printing Co., Santa Fe, N. M.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every post office in the territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, JUNE 25.

Constitutional Convention Call.

LOS LUCAS, N. M., June 15, 1893.

In pursuance of the authority conferred by a resolution of the constitutional convention assembled in Santa Fe, N. M., in September, 1889, I hereby call a meeting of said convention to be held at the territorial capital in Santa Fe, N. M., on the 18th day of August, 1890, at 10 o'clock in the forenoon.

J. E. WATSON, CHAIRMAN.

President of the Constitutional Convention.

During the Democratic administration, from 1885 to 1889, the expenses of the territorial prison amounted to \$52,000 per annum. During the first year under a Republican regime, from March 4, 1889, to March 4, 1890, the expenses, with the same number of prisoners, were \$29,000. It is plain to any person who can read and understand that the management under the Democratic administration was dishonest, and the management under a Republican administration is honest. That is all.

The people of New Mexico must not forget that under the Ross boodle administration, from 1885 to 1889, when this territory was cursed with corrupt judges and dishonest federal and territorial court officials, the cost of running the courts was \$100,000 per year; the people must not forget that, owing to wise and beneficial legislation passed by a Republican legislature over the veto of that boodle governor, put into office by Grover Cleveland, and owing to a just and honest administration of the courts, the entire expense of their administration for the first twelve months of the present Republican regime, amounted to only \$60,000, in which sum there is included an estimate of a deficiency in the pay of jurors, etc., of about \$10,000; this means that under the Democratic administration the people of New Mexico were systematically and constantly robbed by corrupt judges and dishonest court officials.

Provision must be made by the next legislature for the office of county surveyor.

Our friends, the enemy, are very kind in giving us free advertising, for all of which we are truly thankful.

The Republican territorial convention should be held early in September, if it is to be an aggressive and successful campaign this year.

Is order to keep posted on what is going on in New Mexico, you must read the Santa Fe Daily or Weekly New Mexican, and "don't you forget it."

The newspaper paragraphs don't seem to be getting their share of fun out of that original package affair. It seems to hit 'em too hard below the belt.

The men who do the voting, the rank and file of the Republican party, demand harmony amongst the party leaders, and a live, aggressive and well conducted campaign.

Come west, ye capitalists, and invest in New Mexico lands, in New Mexico mines, in New Mexico irrigating ditches and reservoirs, and in New Mexico coal lands. "There is millions in it."

Tax payers of Santa Fe county, pay no county taxes for the time being; that is about the best and surest way to keep from having the county funds squandered, and to prevent boodle officials from re-electing themselves with the tax payers' money.

The Santa Fe Weekly New Mexican Review, published on Thursday of each week, is one of the best weekly papers in the southwest, and a most valuable agent in advertising the magnificent resources of this territory. Its circulation is growing at a gratifying rate.

New Mexico is a good deal like the Texan who had no need for a revolver for many years, but when he needed one "he wanted it—bad." That's what the matter with New Mexico and statehood; the latter is needed "and wanted—bad."

On yesterday there were received at this office three copies of the Phoenix Daily Republican of date June 20, 21 and 22 respectively. Now, what is the matter with the railway mail service in New Mexico and Arizona, and why should the people of these two territories not be served as well as other sections of the country? This is respectfully referred to the superintendent of the railway mail service and to the postmaster general.

EL SENIOR LUIS HULLER, of Denning railroad subsidy fame, has again got himself into print. He suggests that Lower California would be cheerfully given over to the United States if our government would give back to Mexico that part of the original Gadsden purchase lying between El Paso, Texas, and Yuma, A. T. El Senior Huller seems to be entirely too fresh in this matter. He knows perfectly well that such a thing is impossible from the standpoint of both the United States and the Republic of Mexico.

New Mexico's commissioners to the World's Columbian fair are now in Chicago to properly represent the interests of this territory in the first meeting of that organization. They have shown themselves wide awake to the best interests of New Mexico in so doing, and the people of the territory should follow suit by beginning now to agitate the question of making a display of our products at the proper time that will attract the eyes of the world in this direction. We have the natural resources. Have we the courage to exhibit them?

MAJOR POWELL's perfectly organized lobby at Washington seems also to include the Western Associated Press. Only a short time ago the western press report brought out a highly sensational article describing a war of words between Senators Stewart and Reagan over Powell in which Reagan, the defender of the wiley Powell was reported to have worsted the Nevada senator. Now comes the report of congressional proceedings in which both senators explain that nothing of the sort ever happened. Oh, that man Powell is a daisy when it comes to using the country—press and all—for Powell.

The prosperity of the western part of the United States is in a large measure due to alien investments, and in view of this fact it is rather surprising that Congressman Oates' measure to exclude all foreign ownership of American lands should meet with the favor that it has at the hands of the press of the country. It shows the sentiment of the times very clearly. No doubt that during the coming half decade this is going to be an all-powerful question, one destined to cut a large figure in American institutions, but it is quite too early for us in New Mexico to arraign ourselves in favor of such a measure, when so much good has come to other sections of the west from foreign investments of capital, and we here have had none of it for various reasons. Congress, so far as relates to the territories, will confer a great favor upon us by repealing the law which prohibits such investment of foreign money. We need it in our business.

According to the present census there are about 3,000 white people and about 12,000 colored people in the parish of West Feliciana, La. In November, 1888, there were polled in that parish about 1,800 votes for Cleveland and just forty-six for Harrison, although the number of legal voters in the parish is over 4,000, and over 3,000 of these are Republicans. That is the parish where a few days ago shot and killed George Swaitze, a colored Republican employed in the New Orleans custom house, because he came into their parish to make speeches in the campaign now going on there for members of the legislature. No wonder they carried the old Pelican state for Grover Cleveland in 1888 by 80,000 majority; they would have carried it by 180,000 had not the Louisiana senators and members of the house telegraphed the Democratic governor and chairman of the Democratic state committee, "For God's sake, stop, 80,000 majority is more than enough."

THE ARID LAND ACT OF OCTOBER 2, 1890. The New Mexican was the first journal in the southwest to denounce the Powell irrigation act of October 2, 1888, and urge the necessity of a repeal of that part of the measure under which all public lands west of the 100th meridian had been withdrawn from any sort of entry or appropriation by the people. It is therefore gratifying to note that the people generally have evinced the southwest's interests in the matter by forwarding to congress numerous petitions on the subject and it still further gratifying to note that such petitions are having the desired effect. The senate has taken hold of the question in earnest and it seems now that relief is certain to follow. Within a few days the senate committee on public lands has instructed its chairman to make a favorable report on Senator Paddock's bill for alteration of this law. The amendment provides that so much of the act "as reserves from entire settlement or occupation all public lands except sites for reservoirs and the right of way for ditches and canals," is repealed. If such an act is passed, it will be satisfactory to a majority of the western settlers in that it will permit them to go on and prove up their claims and secure title thereto. On the other hand, however, there are many who would like to see the whole law wiped off the statute books, chiefly because it gives Powell's geological survey a chance to perpetuate its schemes for controlling whatever national enterprise may be adopted for reclamation of the arid lands. Powell fathered this act and took advantage of the ignorance of eastern and southern congressmen to lobby it through con-

gress, and as a result he has got a grip on western interests that it will be hard to shake off. The entire measure ought to be repealed, and a fresh start made by congress in the matter of attempting to aid the arid lands district, but if it isn't, the passage of the Paddock act will bring some relief.

A good many of the members of the present congress are being renominated. Some of them will be re-elected and some of them will be defeated. Mr. Joseph will be amongst those that will be renominated, but defeated. The Republicans of New Mexico will elect the next delegate and it makes no difference whom the Democrats nominate. Mr. Joseph will do as well as any one else. Provided, of course, that the Republicans do not let the campaign go by default, but make an aggressive, strong and effective campaign and show to the people of New Mexico, and demonstrate to them the fact that the Democratic party is the enemy of the most vital of New Mexico's interests, and opposed to the progress and advancement of the territory.

## PROTECTION TO AMERICAN INDUSTRIES.

"THE TARIFF IS A TAX" ON THE BRITISH, AS PROVED BY THE BRITISH.

The Birmingham Post recently expressed regret that, under the terms of the McKinley bill, "the tariff on English steel rail producers will not much exceed \$4 per ton," and that the position for foreign manufacturers in other lines "is likely to be worse under the new bill than under the old one." Whereupon the Illinois branch of the American Protective tariff league says:

"It certainly would be interesting—it might prove profitable—if some promoter of the Cobden club doctrines in the country would cease repeating free trade platitudes long enough to explain to the inquiring voters how a reduction of the tariff can relieve British manufacturers if they have no need of it to say. We pause for a reply."—New York Press.

HIGHER TARIFFS AND CHEAPER FLOWS.

The eternal fact is as cruel as the remorseless figures toward the gentleman who amuses himself by howling: "The tariff is a tax." "The amount of the tariff is added to the price of the goods." Here comes the British Manufacturer, a London Journal, of June 2, 1890, and says:

"A great many iron-works in Russia have commenced the manufacture of plows since the tariff duties on machinery have been increased. These plows being cheaper than those previously imported, begin to compete with even those of German make."

In the article from which this is quoted it was written concerning the Russian trade for the year 1888:

"At Rostov-on-Don, the chief emporium for agricultural machinery in this part of Russia, about 6,000 plows, mostly of German origin, 1,000 reapers, 500 mowers, 500 hay rakes, 200 horse plows, 50 steam thrashers, with engines, were sold during the year. All the steam thrashers were of English make; the reapers, mowers and hay rakes were supplied by the United States, but English and American, especially American, plows can not compete with the German as regards price, being much too expensive."

"But in one year the import duties having been increased," the Russian iron works are making cheaper plows than could be had from Germany—which, as we have just seen, was the cheapest foreign market in which Russia could buy them.

Now we propose our own riddle to the free-trade press, how can it be that "tariff is a tax," "tariff duty is added to price," when "the import duties having been increased," the Russian maker sells a Russian plow for less money than the German plow was sold for under lower duties?—Chicago Inter Ocean.

SANTA FE. A Few Facts for the General Information of Tourists and Sight-Seeers Visiting the CAPITAL CITY OF NEW MEXICO. OFFICIAL DIRECTORY.

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitary, archiepiscopal see, and also the military headquarters.

There are some forty various points of more or less historic interest in and about the ancient city. The adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1680.

Fort Marcy of the present day is garrisoned by two companies of the 10th U. S. Infantry, under command of Col. Snyder, and here at 9 a. m. daily occurs guard mounting, a feature of military maneuvering ever of interest to the tourist.

Other points of interest to the tourist are: The Historical Society's rooms; the "Garcia," the military quarters; chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral, the archbishop's gardens; church of Our Lady of Guadalupe with its rare old works of art; the soldiers' monument, monument to the Pioneer Path-Finder, Kit Carson, erected by the U. S. A. B. of New Mexico; St. Vincent hospital, conducted by Sisters of Charity, and the Orphans' industrial school; the Indian training school; Loreto Academy and the chapel of Our Lady of Light.

THE CITY OF SANTA FE is making a steady modern growth; has now a population of 8,000, and has every assurance of becoming a beautiful modern city. Her people are liberal and enterprising, and stand ready to foster and encourage any legitimate undertaking having for its object the building up and improvement of the place.

IF A BODY MEET A BODY the result is a collision, whether "coming thru' the eye" or not. Life is full of collisions. We are constantly colliding with some body or something. If it isn't with our neighbors it is with some disease that "knocks us off the track" and perhaps disables us for life.

Dr. PIERCE'S PELLETS regulate and cleanse the liver, stomach and bowels. They are purely vegetable and perfectly harmless. One a Dose. Sold by Druggists. 25 cents a box.

Business Directory. ATTORNEYS AT LAW. John P. Victory, Catron, Knebel & Clancy, Edward L. Bartlett, E. A. Fluke, Geo. W. Knebel, R. E. Twissell, Geo. C. Preston.

Dr. F. J. C. CREAMER'S. Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "bright as a button."

"Mancel's Specific," A LIFE INVIGORATOR. Cures Nervous Debility, Exhaustion, Premature Decay, Partial or Total Impotency, and All Weakness arising from over-taxation of mind or body.

ELECTRIC BELT FOR \$4. Owing to the great success of the new "Cata Electric Suspensory Belt," we have reduced the price from \$4 to \$4, which makes it the cheapest and most superior to others which are sold at from \$10 to \$20. Free by mail for \$4.00. Send for circular.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "bright as a button."

Not if you go through the world a dyspeptic. Aker's Dyspepsia Tablets are a positive cure for the worst forms of dyspepsia, indigestion, flatulency and constipation. Guaranteed and sold by A. C. Ireland, Jr., druggist.

With dyspepsia and liver complaint? Shiloh's Catarrh Remedy is guaranteed to cure you. C. M. Creamer. Wife (from the other room)—Dear, the house must be on fire. I smell burning cloth. Husband—Reassure yourself, my dear. It is only one of those cigars you gave me.

Why Will You Cough when Shiloh's Cure will give you immediate relief. Price 10c., 50c., and \$1. C. M. Creamer. The person who goes to the "Springs" every summer doesn't find them near the bed he sleeps on.

Teacher—If Johnny Jones has four apples and divides them with you equally, how many will you then have? Tommy The two little ones. A Matter of Interest to Travelers. Tourists, emigrants and mariners find that Hostetter's Stomach Bitters is a medicinal safeguard against unhealthy influences, upon which they can implicitly rely, since it prevents the effects that an unhealthy climate, vitiated atmosphere, unaccustomed or unwholesome diet, bad water, or other conditions, so liable to produce, otherwise produce.

For Men Only. POSITIVE CURE FOR LOST OR FAILING MANHOOD, General and Nervous Debility, Impotency, etc. A Complete and Permanent Cure of the Weakness of the Male System, and all the various diseases incident to it, and all the various diseases incident to it, and all the various diseases incident to it.

How's This? We offer \$100 reward for any case of catarrh that can not be cured by taking Hall's Catarrh Cure. F. J. Cheney & Co., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

Who are the lucky hundred? A Novel and Expensive Method of Advertising Real Estate. Commencing Monday June 30, we will give away 100 choice lots to any one sending us their full name and address with 2c. for return postage.
