The NEW MEXICAN is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, JULY 15.

Constitutional Convention Call.

LOS LUNAS, N. M., June 15, 1890.

In pursuance of the authority conferred by a resolution of the constitutional convention assembled in Santa Fe, N. M., in September, 1889, I hereby call a meeting of said convention to be held at the territorial capital in Santa Fe, N. M., on the 18th day of August, 1890, at 10 o'clock in the forenoon.

J. FRANCISCO CHAVEZ,
President of the Const'l. Con.

During the Democratic administration, from 1885 to 1889, the expenses of the territorial prison amounted to \$52,000 per annum. During the first year under a Republican regime, from March 4, 1889, to March 4, 1890, the expenses, with the same number of prisoners, were \$20,000. It is plain to any person who can read and understand that the management under the Democratic administration was dishonest, and the management under a Republican administration is honest. That is all.

During three and a half years of the Ross boodle administration of the territorial penitentiary there was received from the labor of convicts and the feeding of United States prisoners the sum of \$7,500. During the first twelve months of the present Republican administration from March 4, 1889, to March 4, 1890, (there being about the same number of prisoners in the institution year per year, from 1885 to 1890) there was received the amount of \$8,000, from the same source. Facts are facts and these facts mean that the present administration of the territorial prison is honest and economical and efficient, and that the Democratic administration under ex-Gov. Ross was dishonest, extravagant and inefficient.

The people of New Mexico must not forget that under the Ross boodle administration, from 1885 to 1889, when this territory was cursed with corrupt judges and dishonest federal and territorial court officials, the cost of running the courts was \$160,000 per year; the people must not forget that, owing to wise and benevolent legislation passed by a Republican legislature over the veto of that boodle governor, put into office by Grover Cleveland, and owing to a just and honest administration of the courts, the entire expense of their administration for the first twelve months of the present Republican regime, amounted to only \$80,000, in which sum there is included an estimate of a deficiency in the pay of jurors, etc., of about \$10,000; this means that under the Democratic administration the people of New Mexico were systematically and constantly robbed by corrupt judges and dishonest court officials.

SILVER is \$1.07 and is still on the up grade.

The magnificent climate of this city and territory to the front.

This good work of organizing Republican clubs is progressing well, but more can be done in that direction. Wake up, fellow Republicans, and do it. In union and organization there is strength and success. Be up and doing.

Capital and immigration are needed for the development of our great natural resources. Capital and immigration will come with statehood. Therefore, and if you want to help yourself, vote for the constitution at the coming election.

The house committee on military affairs has reported favorably the bill to revive the rank of general of the army. Gen. Miles' friends have been most active in pushing this measure and should it become a law, which seems highly probable, that distinguished soldier will stand a most excellent chance for promotion.

The new brigadier general, Gen. Alexander M. Cook, promoted from the colonelcy of the 7th infantry, in place of Brig. Gen. Grierson, retired, is one of the fighting McCooks and a soldier of distinction and with an excellent war record. He is now in command of the infantry school at Fort Leavenworth.

The census of the original thirteen states just 100 years ago showed a population of 3,929,214. There are now forty-four states and the population is a trifle below \$100,000,000. The record for 100 years shows that the population of the union has averaged an increase of 600,000 each year.

The Los Angeles Tribune, the most influential and most widely circulated paper in southern California, speaks thus editorially of the NEW MEXICAN:

"The Santa Fe New Mexican is fighting gallantly for the interests of New Mexico. It is urging economy and efficiency in the governments of the territory and its counties."

The Republican platform promised the people four things: A liberal pension policy, a more favorable recognition of the silver interests, a more perfect adjustment of the tariff in the interest of American industry, and a fair and honest national election law. The first two promises have already been redeemed, and the last two will be redeemed before Congress adjourns. The Republican party keeps its promises.

CRANE, the actor, has been out to enjoy the "glorious climate of California" and has been playing to San Francisco audiences. The people, he thinks, are not appreciative, enjoying most bits of horse-play and a prize fight. He says: "There are four climates every day and five on Sunday. It is winter in the morning, summer in the afternoon and pneumonia at night." Crane is telling this sort of a story all over the east and the San Franciscans are awfully mad about it.

CONGRESS has at last concluded its silver legislation, and the bill is now in the hands of President Harrison. That he will sign it, there is not the slightest doubt. The bill requires the treasury department to purchase 4,500,000 ounces of silver monthly, and while recognizing the money quality of the white metal as fully, perhaps, as could be hoped for at this time, it will bring a safe market for the entire silver product of the country and educate the masses so that in a few years a very short step will bring about free and unlimited coinage. With the government taking all the silver offered at the market price, the western miners ought to experience great prosperity.

WATER IN THE ARID REGION.
SECRETARY RUSK is an ardent advocate of the plan to develop water for irrigation purposes by sinking artesian wells. Where these can not be secured at reasonable cost he favors the use of tubular wells and pumps. The secretary has been brought to his conclusions by reports recently made by special agents who were sent to examine the under ground currents of that region of country covered by eastern Colorado, New Mexico, Western Kansas, Nebraska, Texas, Wyoming and Dakota. As a rule it is found, outside of the artesian water belts so far developed, that water exists within easy reach of the surface. In western Texas and eastern New Mexico, in particular, the benefits likely to result from the sinking of tubular wells are very great. In western Texas, according to official report, large areas have been made valuable to the stockman and fruit grower by the use of such wells. It is calculated that a well flowing from eight to twenty gallons a minute, which is noted as the general average flow, "will irrigate from ten to thirty-five acres." In New Mexico, where farm products are so valuable, there is money in providing such a well for every five acres of ground if necessary. The stock raisers, too, can well afford to take courage from the facts above recited.

HARD ON PERKINS' SCHOOL BILL.
Our noble and illustrious friend, ex-Chief Justice E. V. Long, comes out in favor of the school bill introduced in the house of representatives by Mr. Perkins.

of Kansas, supposedly in the interest of New Mexico. There must be something rotten about the bill; the ex-chief justice means no good by his support of it; on general principles, and if there were nothing else against the bill, than the ex-chief justice's support of it, it ought to be killed. That reminds us; has the learned ex-chief justice as yet settled up with Col. Johnson, ex-clerk of his court? The people would like to know, if he has not, he had better; this advice is disinterested and given for his own good. A settlement with the colonel might prevent some startling disclosures. Take heed, while there is yet time.

MR. JOSEPH WILL RUN AND BE BEATEN.

Being asked by several people, who desire to know, we take great pleasure in saying thus publicly, that in our opinion Mr. Joseph will accept the Democratic nomination for congress, and further more that Mr. Joseph will be most gloriously beaten on November 4 next. There are several reasons for the view we have taken, among them being one, which we desire to give now, and it is, that at the coming election there will not be as each poll eight ruffians and bulldozers armed with commissions as deputy marshals issued by a Democratic U. S. marshal, and carrying pistols to intimidate the voters, but there will be a free and fair election. This, our Democratic friends might just as well understand now and govern themselves accordingly. Democratic bulldozing must cease. If any Democratic sheriff attempts bulldozing in the future, as some of them did during the past few years and while corrupt Democratic judges were on the bench, he will find himself in the soup, and that in a good large tub and in hot, right hot soup at that.

WHO IS TO BLAME?
A few days ago a federal official wrote to the chief clerk of the railway mail service asking for an exchange mail pouch between Santa Fe and Las Vegas, and Santa Fe and Albuquerque and Las Vegas and Albuquerque on trains Nos. 1 and 2, explaining that we would thus secure exchange of mail between these points in twelve hours, whereas, it now requires thirty-six hours.

The reply received to-day, states that this matter was recently taken up with the postmasters of the offices named and that they each replied that the amount of mail matter thus advanced was too small to warrant the service.

If the postmasters of these towns are too indifferent to the good of the service they should be shaken up. If they are afraid of work, they should be shaken up. Quicker transaction of business, more rapid mail connection, and what is for the convenience and benefit of the people, are just a little more consequence than the convenience and comfort of the postmasters at Santa Fe, at Las Vegas and Albuquerque. The NEW MEXICAN is of the opinion, that Postmaster Gen. Wamamaker will take this view of the case.

THE PERKINS SCHOOL BILL.
To the Editor of the New Mexican.
LAS VEGAS, N. M., July 12, 1890.—I notice that in Las Vegas a petition is being handed around, and being signed asking congress to pass the school bill recently introduced in the house by Mr. Perkins, of Kansas. I don't know whether Mr. Perkins was ever in New Mexico, or whether he could tell that we have a school law here or not, but I do know no greater mistake could be made than the passage of the Perkins bill, not because we do not need a good school law, but because we can not afford to exhibit to the world the anomaly of asking congress to give us a school law, when we are applying for admission to statehood.

This is the first time in our country's history that congress has attempted the passage of such a law. What would its passage do for us? It would advertise us as an illiterate, ignorant population, unfit for self-government, and needing the special intervention of congress for probably ten years to come. It would brand as false every assumption that we have made that we are ready for statehood. No greater blow could be struck at our territory than the admission that the passage of such a law would imply.

It would relegate us to the rear of every territory in the United States. Utah and Alaska both would be ahead of us in the line of admission to the union of states.

What congress would, after the passage of the Perkins bill, be willing to consider our claims for admission? Would we not be told that we are not fit for assuming the functions of a state, and would not the congressional school bill be pointed to as an evidence of the fact? They would say to us: "We have been compelled to pass a school law for you. It is nonsense for you to talk about being admitted until we see what progress you will make under this law." What would it matter if we should tell them that we are competent to pass local laws for our protection and benefit, and that the school law of New Mexico was as good as the average law on the subject in the states, when congress undertook to act for us? They would only say that it

could not be true, else congress would not have interceded for us. Pass the Perkins bill, and every prominent paper in the east, that has spoken a good word for us, will retract what it has said, and will do us twice the injury that it has done good.

What does the Perkins' bill propose? Does it pretend to make an appropriation of any sum for us? Nothing of the kind, I am told. The bill is the law of Kansas, or some state, copied, and it is intended to be applied to New Mexico by national authority. The true purpose, probably is to throw another obstacle in the way of our becoming a state. It is to prejudice our claims. It reveals a feeling that we are not ready to become a state, and that our pretences to the contrary are unfounded and false. There will be no trouble about local legislation on the school question. The proposed constitution commits the people of this territory to the passage of the proper school laws. There are no fears that the next legislature itself will not give us all we need upon the subject.

VERITY.

Harpers, The Century, Scribners, the North American and all other magazines bound in first-class style and cheap at the NEW MEXICAN bindery.

Finest and best job work in the territory and most excellent binding at the NEW MEXICAN printing office.

Job Printing.
Merchants and others are hereby reminded that the NEW MEXICAN is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town should come to the NEW MEXICAN office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The NEW MEXICAN is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

CONNECTIONS.

ALBUQUERQUE—A. T. & S. F. Railway for all points east and south.

PRESCOTT JUNCTION—Prescott & Arizona Central railway, for Fort Whipple and Prescott.

BARSTOW—California Southern railway for Los Angeles, San Diego and other southern California points.

MOJAVE—Southern Pacific for San Francisco, Sacramento and northern California points.

Pullman Palace Sleeping Cars.

No change is made by sleeping car passengers between San Francisco and Kansas City, or San Diego and Los Angeles and Chicago.

The Grand Canon of the Colorado

Heretofore inaccessible to tourists, can easily be reached by taking this line via Peach Springs, and a stage ride thence of but twenty-three miles. This canon is the grandest and most wonderful of nature's work.

Stop Off at Flagstaff

And hunt bear, deer and wild turkey in the magnificent pine forests of the San Francisco mountains; or visit the ancient ruins of the

Cave and Cliff Dwellers.

L. E. ROBINSON, General Manager.

W. A. BIRKEL, Gen. Pass. Agt.

F. T. BERRY, Gen. L., Albuquerque, N.

COMMENCED WORK TO DAY.

A Fine Business Block Which Hon. T. B. Catron will Erect on the Plaza.

At the corner of the plaza and Palace avenue the work of clearing off the ground preparatory to the erection of a handsome block of store houses is in progress to-day. Mr. Catron yesterday approved the plans for this important improvement and let the contract for its construction to Messrs. Bernardelli & Palladino.

The new structure is to have a frontage on the plaza of 102 feet and on Palace avenue a frontage of eighty-eight feet. On the latter thoroughfare and adjoining the Hickox premises seventy-five feet front is reserved for the purpose of eventually erecting an opera house.

WAKE UP AND WORK.

An Expression from Abroad Concerning Santa Fe—Advertising and Enterprise Needed.

Says the Denver Republican on its editorial page:

"Santa Fe New Mexico, is a town which has been neglected by its own people. They have done almost nothing to advertise it, although there is hardly a single town in the Rocky mountains with respect to which more could be accomplished by judicious advertising. Santa Fe has a place in the history of the country which is unique. It disputes with San Augustine the claim to be considered the oldest city in the United States. It was prominent in the trade between the United States and Mexico before the Mexican war. It was the Mecca of all traders and travelers going westward over the Santa Fe trail. It was a great distributing point from which trade and traffic spread out toward the south and southwest as far as Chihuahua, Mexico. It is interesting because of its history. It is interesting because of the peculiarity of much of its architecture. Tourists like to visit Santa Fe, and if the facilities for reaching the place were what they ought to be, the tourist travel could be made very great every year. Santa Fe's climate is, furthermore, a delightful one. It is very mild in winter and, owing to the altitude, it is cool and pleasant in summer. There are few places in the west more delightful for residence than Santa Fe, and if the people appreciated their opportunity they would advertise their town all over the world."

Rail Notes.

General W. B. Strong, ex-president of the D. & R. G. Express company, has been elected president of the Durango-Alamosa Railroad company. Told you so.

Messrs. Harry R. Hurst, traveling auditor for the D. & R. G. Express company, and Anthony Sneve, route agent, are in the city to-day superintending the transfer of the local agency to Mr. Helm.

General J. A. Williamson, land commissioner of the A. & P. railroad has arrived in Albuquerque, and will remain there some little time attending to important business connected with his position.

Mr. T. J. Helm, of Indianapolis, Ind., arrived last night and is to-day being checked in to succeed Mr. Johnson as superintendent of the Santa Fe Southern and agent for the D. & R. G. Express company.

Chief Engineer Sinar, of the Durango-Alamosa road is in San Juan county on a preliminary skirmish. It is said the survey for this projected line is to be changed so as to reach Aztec the county seat of San Juan.

Inside of two years Santa Fe will have a direct line of road into the heart of the Pecos valley. There are two excellent routes, one via Fort Sumner, the other via Manzano valley. Either one would give us a short route to tide water and that's the incentive.

John Conway returned last night from Embudo, having come that far with the gang of laborers who go to Durango for work on the Durango-Dallas line. He took 113 men from Santa Fe, 38 from Espanola, and 157 more from Mora and Taos joined the party at Embudo, making 308 in all. They'll be back about election time with money to throw at the birds.

Quite a number of Mexicans from this county went to Palomas, which is across the line of Mexico, on the line of the proposed Sierra Madre & Deming railway, and made settlement, expecting that the road would be built and a concession made of the land. Since the bubble has burst they find themselves in a bad strait as the Mexican government is going to eject all the settlers on these lands.—Las Cruces Republican.

ARMY ORDERS.

War Private Neill Howard, hospital corps, now at the recruiting rendezvous in Washington city, will be sent to the post at San Carlos, A. T., for duty.

1st Lieut. Louis A. Craig, adjutant 8th cavalry, will report August 25 to the superintendent of the United States military academy, West Point, N. Y., for duty at the academy.

The leave of absence on surgeon's certificate of disability granted Captain Marcus E. Taylor, assistant surgeon division of the Pacific, is extended five months.

Private T. B. Fletcher, company E, 16th infantry, Fort Douglas, Utah, having enlisted under false pretenses, will be discharged.

Two years of the sentence of general court martial, department of the Platte, are remitted in the case of William H. Mason, late private, troop G, 6th cavalry, now in the Leavenworth military prison.

Private J. H. Henyon, Company A, 15th infantry, will be discharged without character from the service of the United States, to date from July 5, 1898, by the commanding officer at Mount Vernon barracks, Ala., who will forward the discharge certificate to the commandant of the military prison at Fort Leavenworth, Kas.

POLITICAL DOTS.

M. M. Salazar is in the field for reelection as clerk of Colfax county.

The election in the new precinct at Flora Vista, San Juan county, resulted in the selection of A. J. Sheehy as justice and M. M. Blomett as constable.

appears to hang between Mr. Gable and the child, with the chances greatly in favor of the latter.

W. H. Jack is the coming candidate for county clerk on the Republican ticket from the eastern part of the county, and H. S. Gratz for the assembly from the same section.—Raton Reporter.

Three candidates for the office of county assessor met in this city last Tuesday. All were sanguine of receiving the nomination, and the tableau of Hubert, McAninch and Claassen, shaking hands over the bloody chasm, was one of the most affecting and realistic ever presented off the stage.—Silver City Enterprise.

Mr. Childers said the other night that the Democratic party couldn't nominate a man too mean for him to support. He also ripped the Santa Fe county Democrats up the back by charging that they were responsible for the capture of the last legislature by the Republicans. He argued that by the election of Mr. Seligman to the council the Democrats would have had a tie vote in that body, whereas, many Democrats deserted Mr. Seligman and aided in the election of Mr. Catron. For this, Mr. Childers intimated, the Santa Fe county Democracy would be amply punished in due time.

Both the county central committees met at Aztec Monday and very shortly determined that they could or should do nothing toward calling the county conventions until the official calls are issued for the territorial and district conventions, after which a more intelligent action can be taken. The Republican committee filled vacancies by selecting Capt. Fred. Bunker to represent Bloomfield in the place of W. B. Haines, removed from the territory, and Mr. George Spence to represent Aztec, the division of that precinct having created a new position on the committee. Major N. L. Hayden was elected chairman of the committee, vice Capt. Haines, and J. W. McDermott, secretary.—San Juan Index.

THE THIRD PRECINCT REPUBLICAN CLUB.

A very large and enthusiastic gathering of Republicans took place last night at Borrego's hall for the purpose of organizing a Republican league club. Mr. Tomas Quintana called the meeting to order. Col. Frost was elected temporary chairman, Mr. R. E. Twitchell temporary secretary and Mr. Henry Wurtz interpreter.

Col. Frost addressed the meeting fully as to the objects of the movement and of the Republican league, and the permanent organization was then effected as follows:

President—R. E. Twitchell.

Vice President—Francisco Gonzales y Chaves.

Secretary—Henry Wurtz.

Interpreter—Larkin G. Road.

Treasurer—Ramon Sena y Garcia.

Executive Committee—Max. Frost, Julian Provencio, Tomas Quintana, Ramon Sena, Miguel Rodriguez.

Delegates to the Republican League Convention—Francisco Gonzales y Borrego, L. A. Hughes, Narciso Mondragon.

Finance Committee—Luis Moya, Geo. A. Johnson.

The regular meetings of the club will take place every other Saturday, commencing July 26.

Eloquent and stirring addresses were made by Hon. A. L. Morrison, Messrs. Frank Gonzales y Borrego, Julian Provencio and Jose Antonio Lucero.

Seventy-six members joined the club last night and at least forty more will come in at the next meeting. It was one of the most successful political meetings ever held in the commencement of a campaign in Santa Fe.

TERRITORIAL TIPS.

Water melons are ripe in Mesilla valley.

C. C. Swinburne has sold out at Las Vegas and gone to Chicago to reside.

Clayton Dorsey has graduated from Yale college and returned to Colfax county.

Las Cruces aspires to rank fourth according to the census return for New Mexico towns.

Las Vegas held a mass meeting to-night and will petition congress to pass the Perkins school bill.

Seldomridge & Peabbles, of Leadville, have bought 32,000 head of sheep at Puerto de Luna. There are no 3-year-old wethers left in south San Miguel county.

The officials of the land office gave the out-going receiver, Jas. J. Dolan, a nice little "spread" at the Rio Grande hotel Thursday night. Those present enjoyed themselves.—Republican.

The Folsom wool house is over-crowded with wool. There has already been nearly three times the amount of wool received in that city for shipment over that of last year, and still not half of the clip has arrived.

Is there any tin ore in New Mexico and is there a prospector who can recognize tin ore when he sees it? Nearly every other kind of metal is found in southern New Mexico, why not tin? It would be well for the boys in the mountains to post themselves as to what the ore is like.

The estimated output of the "Good Luck" mine since its location, a little more than six weeks since, is over \$8,000. Eight hundred sacks are now ready for shipment, and the prospects for a continuance of the output are better than at any time since the discovery of this valuable property.—Silver City Sentinel.

Work on the Coolidge ditch, on the lower San Juan, is reported progressing finely, and the new ditching machine is a grand success. Water out of the LaPlata will soon be turned into the ditch, and it will next winter be extended up to Farmington to get a never failing supply from the Animas river.—San Juan Index.

A large shipment in bar silver was made on the 10th inst. by Thomas Phibey, ex-ecutive and successful mining man of Georgetown, N. M. The shipment consists of eighteen large sized bricks and will average \$1,500 each, making a total of \$27,000. The bullion is the product of one month's run. A large amount of money and valuable time has been expended in opening this property, and when the present plans are completed the annual product will foot up \$1,000,000.—Silver City Enterprise.

Silver City note: The lovers of the beautiful in nature were more than delighted with a rare and beautiful sight at the residence of David Abraham last Monday evening. The floral display in the conservatory at all times challenges the admiration of the beholder, and on this exceptional evening, the expressions of delight on seeing three plants of the Genus Cacti—Night Blooming Cereus, in full bloom, could not be expressed in words. The flowers are large and as white as the driven snow, possessing a fragrance as enduring as the rose and to many, equally as pleasant.

More Building Material.

The demand for buildings of all kinds at Cerrillos is largely in excess of the supply and the owners of houses there are making big profits on their investments. Several fine business houses are about to be commenced. Dr. Richards, Ben. Oakland, H. C. Rasmussen and Dick Mathews will build at once. Two kinds of very fair grade brick have lately been burned, and the proposed improvements will be of a very substantial character.

ROUND ABOUT TOWN.

Improve the side-walks.

Incorporation would add 40 per cent to all real estate in Santa Fe.

Milton Miller has been appointed post-master at Alhambra, Grant county.

The "dog days" begin day after tomorrow and continue till August 28.

Chas. Haspelmath, of Lamy, gathered in a bargain in south side real estate yesterday, paying \$300 therefor.

The county board has authorized Sheriff Chavez to secure the lumber necessary to repair that break in Don Gaspar avenue. There is need of having it done at once.

A brace of hack drivers, Hunter and Delgado, had an old-fashioned flat fight near the Exchange corner this morning, but it was declared a draw owing to the interference of friends.

Mr. F. W. Clancy returned at noon from Albuquerque. The plans for the university had not been completed, hence will be considered at a future meeting of the board of regents.

Ramon Archuleta, a well known citizen of Rowe, always especially kind to Santa Fe visitors on the Pecos, died a few days ago at his home there. He was a good citizen and will be missed.

Drafts for upward of \$10,000 were received by Capt. John Gray this morning with which to pay his agency's fire losses at Cerrillos. It will be divided up between thirteen Cerrillos citizens. They have been notified by wire to come and get their stuff.

Rev. Henry Forrester came in from the south this morning. He is here to confer with Rev. E. W. Meany and Gov. Prince, the trio comprising the standing committee of the Episcopal church, jurisdiction of New Mexico and Arizona. They have to consider and pass upon the qualifications of two applicants for church orders.

The capital park is taking on a beautiful and inviting appearance. The grass, trees and shrubs are making rapid growth. The recent mowing has improved the place greatly. Mr. Rivenburg has cleared the walks of all rubbish and the commissioners have given orders for the gates to be kept unlocked during daylight for the admission of carriages.

Citizens are talking of organizing a committee whose duty it shall be to undertake some systematic method of advertising Santa Fe. Every who has been approached on the subject thus far considers it a timely proposition. All appear to agree that matters are looking bright for the city at this time, and it seems reasonable to conclude that if any of the aggressive methods used to bring other cities to the front were adopted here much improvement in all lines of business could be brought about. It's well worth trying.

PERSONAL.

Col. V. S. Shelly is on a business trip to Las Vegas.

W. B. Lane, of the U. S. geological survey, is at the Palace.

Judge Thornton and family left this morning on a ten days' trip to the Pecos.

Judge Whiteman returned from Albuquerque this morning. He says rain is needed in that region, very little having thus far fallen.

Serapio Remero, the very efficient and popular chief deputy U. S. marshal, is in the city and will remain here for the next six weeks to attend to the business of the U. S. marshal's office at the coming term of the district court.

At the Palace: C. B. Swaggart, Las Vegas; H. R. Hurst, T. O. Gillespie, A. Sneve, Denver; T. J. Helm, Indianapolis; Henry Essinger, Las Vegas; Jas. L. McCluer, Kansas City; T. H. Hudson, Brooklyn; J. G. Munro, Philadelphia.

A Horrible Death.

Luciano Montoya, a resident of Agua Fria, well and favorably known to most Santa Feans, was the victim of a terrible death near Fort Wingate on Friday last. He was driving a wood wagon on a steep incline, being seated on top of the load, when the front standards gave way, precipitating the load upon the team. Montoya fell headlong between the horses, the wood falling upon him. He was knocked senseless and one of the front wheels passed over his body crushing in his chest. The rear wheels were locked, and the now lifeless form of the man was caught under one of them and dragged twenty feet or more while the team went dashing madly to the foot of the hill. His body was so badly mangled that it could not be shipped home, and it was buried at Fort Wingate on Saturday. Montoya leaves a wife and one child at Agua Fria.

The Purest and Best.

Articles known to medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, personally examined, and only the best retained. The medicine is prepared under the supervision of thoroughly competent pharmacists, and every step in the process of manufacture is carefully watched with a view to securing in Hood's Sarsaparilla the best possible result.

Stencils, burning brands, seals, steel stamps, rubber stamps, and stamping inks of all descriptions, for sale by the New Mexican Printing Company.

Try those fine teas at Emmert's.
