WASHINGTON MATTERS.

WORK ON THE NEW APPOINTMENT.
WASHINGTON, July 16.—The employees of the census bureau are busily engaged in counting the returns of population sent in by enumerators, and are counting and re-counting at the rate of 2,000,000 a day. It is believed that the result of this will be that the superintendent of census will be able to submit a rough estimate of the population sufficient to form the basis of a new apportionment bill during the life of the present congress, and that the absentee Republicans will be brought back to Washington in such numbers as to insure the passage of an apportionment bill at this session.

APPROPRIATIONS.
The sundry civil bill was taken up and its many amendments agreed to. Among them the following:
For completing a light house on Northwest Seal Rock, off Point St. George, Cal., \$87,000; for new steam tender for service in 1st light house district, \$95,000; tender for 9th and 11th light house districts, \$75,000; tender for the 12th light house district, \$95,000; \$20,000 for the completion of a government trout breeding and distributing station in Lake county, Colo.; increasing the item for the transportation of silver coin from \$25,000 to \$35,000; inserting an item of \$33,500 for improving and extending and repairing vaults in the treasury building and for the construction of new vaults or safes there.

PAGOSA SPRINGS RESERVE.
The senate bill to provide for a disposal of the Pagosa Springs military reservation in Colorado, to actual settlers under homestead laws, was passed.

GONE TO SEE ABOUT IT.
Assistant Attorney General Colton left Washington last evening for St. Paul and Minneapolis under orders from the attorney general to investigate the alleged irregularities in the census returns of those cities.

A TIMELY ACT.
In the house yesterday Vandever, of California, introduced a bill granting a pension of \$3,000 a year to the widow of the late Gen. John C. Fremont.

STATUS OF THE BILLS.
Eight of the fourteen regular annual appropriation bills have been disposed of by both houses of congress. The status of the other six is as follows: The District of Columbia conference report has been agreed to by the senate. The fortification bill is still in conference. The sundry civil bill, the river and harbor and the deficiency bill are pending in the senate and the deficiency bill has not yet been reported from the house committee on appropriations.

Population of Washington.
SEATTLE, July 16.—Full census returns from western Washington show a population of 250,000. The estimated population of eastern Washington is 125,000, making the total population of the state 375,000.

Spreading in Spain.
BOMBAY, July 16.—Forty-four deaths from cholera have occurred among the members of a battalion of Ghorkis stationed at Dharmada, in the Punjab.
London.—The correspondent of the Times at Madrid telegraphs that the reports that cholera prevails in Valencia are absolutely false.

A Centenarian as a Pre-emptor.
OMAHA, Neb., July 16.—In Holt county near Detroit the census enumerators have discovered a centenarian, James McDonald, a well preserved, hearty old man nearly 104 years old. He claims to be the oldest man in the United States who ever settled on a piece of government land, having taken a pre-emption claim after he was 101 years old, afterward making proof on it.

Robbed of \$10,000.
OMAHA, July 16.—Mrs. Floretta Russell, of Ottawa, Kan., came here Saturday and cashed a draft for \$10,000, which she placed in a satchel. As she was going down the street two men snatched the satchel from her hand and ran. She recognized them as John Rush and James Hogan, of Ottawa, who came here on the same train with her. Hogan has been caught, but Rush is still at large.

A Day of Funerals.
RED WING, Minn., July 15.—Sixty-six bodies were brought here yesterday and laid out in an empty store room, and to this place of death came mourning friends to claim their dead, or look in vain for the absent. All day long the long pine boxes, that were the subject of heartaches and heart breaking, were being carried from this store room to the stricken homes of the city. At many hearth stones but one or two survivors of the family awaited the coming of the mortal clay of their loved ones. This is a day of funerals.

A Vessel Seized.
PORT TOWNSEND, Wash., July 16.—Captain Thomas of the North American Commercial company's steamer, Argo, which arrived yesterday from Ounalska, says that Capt. Meckley of the steamer Mattie C. Doyer was seized at Ounalska on June 21. He claims that the vessel is held without good grounds. He had anchored off Ounalska and went ashore to the custom house and surrendered his papers when Deputy Collector Edmundson, who is stationed there, seized his vessel. She was towed into harbor and her guns and hunting paraphernalia and skins taken ashore. Capt. Meckley claims to be able to prove that he has not been inside of Behring sea, and says there is no evidence on which to hold his vessel.

SOUTHWEST IRRIGATION.

Bradstreet's Calling Attention of the Financial World to New Mexico Enterprises.

Bradstreet's Journal of Trade, Finance and Public Economy, of June 23, says: Important operations for reclaiming the arid lands of the southwest are under way. It is not easy for eastern people to comprehend their magnitude. Now, for example, can the statement be grasped that New Mexico has 39,289,722 acres now unoccupied which water can make suitable for agriculture? This is almost one-fourth as much again as the whole area of New York. New Mexico, all told, now has fewer people than any one of a score of our cities, and is popularly supposed to be a vast, hot desert, and yet it is confidently asserted that in less than half a century this one territory will have a farming area of nearly as many acres as the whole of New England.

Extensive tracts in New Mexico already require no irrigation, and they are steadily enlarging because of the increasing annual rainfall and the earlier coming of the rainy season. T. D. Mills, the treasury expert, whose exhaustive treatise on New Mexico appears in the last report on internal commerce, thinks it safe to predict that within a few years the raising of abundant crops by rainfall will be the rule and irrigation the exception. Irrigation, however, insures certainty of crops, and for this reason capitalists are undertaking enterprises of a magnitude that would excite great interest and attention were they in the east. These enterprises are being equalled all through the far western country, and as an illustration of the sort of engineering going on all along the Rockies and the Sierras some facts about them are worthy of attention.

The report referred to give the names of seven irrigation companies now at work in New Mexico. When their ditches are completed they will irrigate 720,000 acres of land, or more than 1,100 square miles. This is almost 100,000 acres more than all the land at present under ditch and subject to cultivation in the territory. Heretofore the irrigating ditches have been generally confined to the narrow alluvial valleys immediately adjacent to the streams. The projected ditches, or, properly speaking, canals, are carried entirely out of the beds of the streams upon the high rolling prairies that intervene between the water courses. When the report was written the Taos Valley Irrigation company had completed 11 miles of canal 35 feet wide, and 14 miles of lateral ditches, with 130 miles more projected, to irrigate in all 225,000 acres. A correspondent from Roswell, writing on the 1st inst., says that the Pecos Irrigation & Investment company has taken out of the Pecos a canal that extends 15 miles south. It is 30 feet wide at the bottom, carries 6 feet of water, and will reclaim more than 75,000 acres. Another lower down is 45 feet wide at the bottom, and will reclaim over 125,000 acres.

To show the nature of the work the correspondent illustrates by the project for taking water from the Hondo. The streams that make this river rise in mountains covered with snow the year round, which, with numerous springs, give a large volume of water at least nine months in the year. The streams have two yearly overflows, and during these seasons it is intended to store the surplus water. To this end the company is about to begin the construction of two great reservoirs, which it is expected will take 200 men eight months to complete. The capacity of these reservoirs will be something more than 3,000,000 cubic yards. It is estimated that if their contents were distributed over 100,000 acres they would be covered to the depth of about seventeen inches.

As to the amount of water required to make arid land productive it may be said that for the sandy soil of Egypt 17½ inches have been found sufficient; for the heavier soil of India 19½ inches are required, 16½ of which are supplied by irrigation. The records of Santa Fe show 10.82 inches to be the average rainfall during the period when the crops need water. Making due allowance for evaporation and absorption, it is calculated that 10.40 inches need to be supplied by irrigation. Contrary to the prevailing belief it has been stated on scientific authority, after many years of study, that "wherever there is soil in these regions it is rich in the primary elements of fertility." These undertakings to supply the one thing needful—water—are therefore obviously of great significance. Parts of the "great American desert" may yet become a great garden.

Fire at Dallas.
DALLAS, July 16.—The building occupied by the general land office of the Texas & Pacific railroad and the adjoining building was destroyed by fire yesterday entailing a loss of \$150,000; fully insured.

War Declared.
LA LIBERTAD, San Salvador, July 16.—The government today issued a proclamation declaring the country in a state of siege. War with Guatemala is imminent, and nearly 20,000 men are stationed along this side of the frontier. Great enthusiasm prevails.

Items of News from Old Mexico.
MEXICO, July 16.—The minister of public works, Gen. Pacheco, has returned here after inaugurating the work on the grand canal to irrigate the immense cotton district on the Sanas river in the states of Coahuila, Durango and Chihuahua. It is stated that this in time will probably be one of the richest cotton districts of this continent. Cotton grows well there and there are instances of stalks sixteen feet high of fine quality.

The new stock exchange here announces it will be open for business in September.

A number of Chinese are arriving for Yucatan under contract. Large amounts of tobacco are being shipped from Tabasco to England. Business here is extremely dull, and money is tight.

President Diaz will personally superintend the taking of the census of this city next month.

The government has authorized a denial that Ellis, who obtained a concession for negro colonization, is authorized to negotiate a government loan as stated by a majority of the Texas press taken from an interview with Ellis.

Legal blanks, bills of sale, leases and powers of attorney for sale at the New Mexican printing office.

Finest and best job work in the territory and most excellent binding at the New Mexican printing office.

Job Printing.
Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town should come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELIA A. GIFF, 61 Terrace Street, Boston.

PORKERS IN A WRECK.

Two Men Killed at Canoncito—A Wild Dash Down Glorieta Mountain.

Meagre particulars reached here this forenoon of a disastrous wreck of a freight train at Canoncito early this morning. One man was killed and another is missing, a brakeman, supposed to be buried under the wreck.

It was a west bound freight train loaded with fat hogs going through to the City of Mexico. Coming down the Glorieta mountain the brakes failed to work and the railroad employees lost complete control of the train. It went bounding madly down the mountain side, every second increasing its velocity, until the Canoncito curve was reached and here the crash came, the engine and fourteen cars piling up in the ditch. The havoc was very great, and the terror of the train men just prior to the final crash must have been awful.

The engineer saved his life by jumping, the fireman attempted to do so and was caught and killed. At noon the brakeman was still missing, and is supposed to be under the pile of debris dead. No names can be obtained. The railroad's representatives here and at Lamy are as dumb as oysters about it, and an attempt to wire Glorieta for particulars proved fruitless, as the wire to that point was severed by the wreck. Not less than 300 head of hogs were killed in the wreck. A large force of men has been engaged there all day, clearing away the debris. Passengers afloat on this morning's train have lain all day at Lamy awaiting the clearing of the track.

Davis is the name of the unfortunate fireman. All regular trains are delayed at least fifteen hours.

PECOS PLEASURE PARTIES.

Arthur Bischoff and a party went over the canon trail yesterday bound for the upper Pecos.

Powers' Mountain house is full of visitors and they have taken possession of his garden and filled it with tents.

Mrs. R. E. Twitchell and son, Mrs. Gower, Mr. Ireland and Mr. Littlehales returned last evening from the Pecos.

Supt. Mudge, of the lower Rio Grande division of the A. T. & S. F., and a party of seven from San Marcial are sojourning on the Pecos.

The Reaser party are in camp near Cooper's. They had an accident en route from Glorieta and their conveyance came within a hair's breadth of going over a steep declivity.

Harry Clancy left this afternoon on burro-back for the headwaters of the Rio Santa Fe, thence dropping over to the Pecos via Dalton's canon. Albright and party also left to-day via the same route.

Visitors from the valley say that a great many strangers are sojourning there at present, probably not less than 100, and letters are going out daily to friends informing them of how delightful the Pecos really is as a summer resort.

The Santa Fe Mountain club owns a valuable tract of land where blue grass lawns, plate of trees, inviting glades, natural terraces abound, while the dashing waters of the river ever murmur a soft song of cool contentment. A somewhat pretentious club house will soon be built on this property.

Mr. F. W. Clancy left this afternoon on horseback for the Pecos, and will get his new club house in order for the accommodation of a pleasant party comprising Mr. Clancy, Mrs. Atkinson and children, Mrs. N. B. Field and several others. This club house is located in a beautiful park, a perfect lawn, surrounded by towering pines, and from its veranda one catches glimpses of nature that are most attractive.

POLITICAL WAIFS.

John B. Card and S. Brannon, of Silver City, also John R. Adair, of Pinos Altos, announce themselves as candidates on the Democratic ticket for the Grant county assessorship.

A meeting of the Democratic voters of precinct 3 is called to assemble this evening at the house of Simon Vigil. Its object is to organize a Democratic club for that precinct.

The Colfax Republican county committee met at Springer last Thursday and selected an executive committee composed of Ed. Fox, F. W. Thomas, W. H. Jack, C. A. Fox, F. P. Sturges, Cristobal Sanchez, E. J. Martinez, to act until the county convention is held.

Hon. A. L. Morrison, president of the territorial Republican league, telegraphs Sec. Kimball, of the local league, that he will address the Republicans of Albuquerque on the evening of the 21st. Mr. Morrison is one of the distinguished orators in the Republican party in the territory, and his address will be appreciated.—Citizen.

REPUBLICAN CLUB MEETING.

A special meeting of the Republican league club is hereby called for to-morrow at 8 p. m. at the county court house. The different precinct organizations are requested to report at said meeting. Other business of importance will also be transacted. Members of the club in particular and all Republicans not members are requested to attend. BENJAMIN M. READ, J. D. SENA, Secretary.

Se tendrá una junta especial del Club de la Liga Republicana del condado de Santa Fe, en la casa de cortes del condado a las 8 p. m. mañana (jueves) para que se presenten los representantes de cada una de las secciones. Se dará atención a otros negocios de mucha importancia. Se espera que los miembros del club en particular y todos los Republicanos en general asistan en esta junta. BENJAMIN M. READ, J. D. SENA, Secretario.

DEMOCRATIC CALL.

The following is being sent out over the territory by to-day's mail:

HEADQUARTERS

Democratic Central Committee of N. M., Santa Fe, N. M., July 15, 1890.

Notice is hereby given that a meeting of the Democratic territorial central committee will be held at Santa Fe, N. M., on Monday, August 4, 1890.

All members are earnestly requested to be present, as business of importance will be transacted. C. H. GILDERLEEVE, Chairman.

FELIX MARTINEZ, Secretary.

After diphtheria, scarlet fever, pneumonia, or any other severe illness, there is no better tonic than Hood's Sarsaparilla.

Meeting of Archbishops.

His Grace Archbishop Salpointe leaves this afternoon for Boston, where he will attend the annual assembly of all the archbishops of the United States, thirteen in number, who will confer with Cardinal Gibbons in the interest of the church. His grace takes with him a number of copies of the pamphlet "Santa Fe as a Health Resort," which he has kindly consented to present to distinguished churchmen of the east.

ROUND ABOUT TOWN.

Postoffice key No. 2947 awaits a claimant at this office.

Who is circulating that petition in relation to incorporation?

The Broad Gauge saloon is being overhauled and generally improved.

Don Gaspar avenue is being repaired to-day. Thanks.

Regular meeting Santa Fe lodge No. 2, Knights of Pythias, this evening at 8 o'clock. Visiting members invited to attend.

Lieut. Van Vliet and family, Miss Meany and Lieut. Johnson are up the Santa Fe canon to-day on a picnic and fishing party.

A gentle and stylish family driving horse, purchased by Mr. Catron during his recent visit to Denver, came to hand yesterday.

J. W. Stinson yesterday took a lease on the room in the Lamy property adjoining Parker's, and will open there a club room for the benefit of his old time patrons.

Joseph Sheridan gets away to-night for his run between Silver City and El Paso. He is one of the nicest sort of young men and is commended to the good people of those cities.

And now the talk is that an electric light company is about to seek a foothold in Santa Fe. Judge Moreman, a wealthy citizen of Brandenburg, Ky., is at the head of the enterprise.

In the issue of Harper's Weekly of this date appears a highly entertaining and well illustrated article on Santa Fe, the historic city. It was prepared by Gen. Clarence Pullen, formerly surveyor general of New Mexico.

Some 500 copies of the pamphlet "Santa Fe as a Health Resort" were sent out to all parts of the country in to-day's mail. The distribution of this ably written collection of truths ought to set hundreds of suffering human beings to thinking of what a residence here will do for them, and they will no doubt come any try it.

In Troy, N. Y., thirty-nine years ago to-day, Judge Morrison and Miss Jane Clark entered into a little partnership. Neither seems to have regretted it. The Lord seems to have been especially good to Judge Morrison, for there are nine members in his interesting family and in thirty-four years death has not entered his household. The New Mexican's best wishes.

TERRITORIAL TIPS.

Heavy rains throughout Rio Arriba county.

The Mesilla valley shipped twenty cars of alfalfa last month.

Geo. Schubert, of Albuquerque, has received a patent for a folding back.

Demetrio Madrid and Miss Henrietta Montoya were married by Father Groom, at Navajo.

Chama crumb: Four cars of horses and forty-seven of feeding steers were shipped from this place to Kansas Monday.

Messrs. Johnson & Agnew, Nebraska cattle feeders, were in town this week and bought 600 head to be delivered in October.—San Marcial Reporter.

Messrs. Jefferson Reynolds, Max Nordhaus and Prof. Ramsay will be the donors of three medals for the pupils of Hand's music school at Las Vegas.

Herman C. Joy, of Pueblo, Colo., treasurer and secretary of the Pueblo Public Sampling company, went up to Kelly on Saturday last to look after lead ore for the Pueblo market.

Work on the university of New Mexico at Albuquerque will continue very good. Twenty thousand dollars will be expended on the building this year that being the amount of money available from taxes.

Miss Jennie English, a famous horseback rider of Grant county, was barred from competing in the horseback race at Pinos Altos on the Fourth. She is only 10 years of age, and the judges refused to allow her to compete for the prize, which was a saddle, on the ground that she was too young.

Mr. Johnson's Departure.

Mr. Charles Johnson, for two years past, general superintendent of the Santa Fe Southern line, yesterday resigned his office, transferred it to his successor, Mr. T. J. Helm, of Indianapolis, in good shape, and this morning Mr. and Mrs. Johnson left for New York. After a fifteen days' visit east, Mr. Johnson goes to Portland, Ore., to assume the position of general superintendent of the Oregon & Washington road, now building 300 miles of new line to connect Gray's Harbor with Portland and all the other booming cities of the northwest. Santa Fe regrets to lose this excellent young man.

He is one of the most accomplished of railroaders, thoroughly up in all the details of the business, and during his stay here he has so managed the affairs of the Santa Fe Southern as to make it a much more valuable property than it ever was before. For twenty years Mr. Johnson has been in the railroad business, starting in as one of the original party selected by Col. Tom Scott to survey the Texas & Pacific line, and a more conscientious and obliging man never filled an official position on any road. The best wishes of a large circle of friends here will follow him to his new field of labor.

True Estimate of Value.

Remember that when we assert the value of Brandreth's Pills, we at the same time refer you to the thousands of testimonials we have published supporting all and more than we claim. The best evidence of their value lies in these testimonials. The pills have been in use in this country for over fifty years and in that time have surely been well tested. We never heard complaint of them. They are harmless, being vegetable, and always do their work well.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar coated.

G. A. R. Note.

The New Mexico delegation to the annual encampment of the Grand Army of the Republic at Boston will be quartered at the Adams house on Washington street. The encampment will be held the 12th of August. There will be a good delegation from New Mexico. J. W. Randall, formerly of Albuquerque, is now engaged in business in Boston, and has made excellent arrangements for the accommodation of the New Mexico veterans.

PERSONAL.

Tom F. Collins, Denver, is at the Palace.

Dr. Miller, the Cerrillos druggist, is in town on business.

M. M. Day, of Kansas City, is quartered at the Exchange.

Hon. T. B. Catron left last night for Socorro on legal business.

Prof. Carl Lumholtz, of Norway, left for the City of Mexico to-day.

J. B. Bell, of Lake Valley, is at the Palace en route to Colorado.

J. H. Huntington, of Silver City, a mining man, is here en route to the mines of Rio Arriba and Taos county on a prospecting trip.

Hon. Tranquilino Luna, the efficient and well known sheriff of Valencia county, passed through Santa Fe this morning bound for Rio Arriba county on business.

Thike Stockton, one of the best known stockmen in Colfax county, is here on a visit to-day. He has grown fleshy and better looking since his last visit to the capital.

W. C. Hart returned from Cerrillos this morning. He is still improving in health. Mr. Hart says Santa Fe has the finest climate on earth, hence his frequent visits.

Acting under instructions from Mr. Desky, the Salt Lake real estate man, Capt. John Gray to-day repeated the offer to give A. Kirchner \$12,000 for his San Francisco street property. It was declined.

Maurice Weil, La Porte, Ind.; H. C. Harris and wife, Lafayette, Ind.; A. Menet, Las Vegas; W. D. Olmstead, Rochester, N. Y.; Ernest Meyers, P. A. Simpson, Albuquerque; W. A. Wilson, Kansas City, are late arrivals at the Palace.

Editor McKinney, of the Pueblo Daily Press, whom Mr. Grigg has been entertaining for a week or more, left for home to-day. He will write several articles, giving his impressions of Santa Fe, and will visit us again in a month or so. Capt. McKinney has made friends here.

W. S. Spiegelberg arrived last night on a visit to his father, Hon. Sol. Spiegelberg and family. His territory covers all the broad west and he represents Strawbridge & Clouthier, the largest clothing house in Philadelphia. He is direct from California where it is oppressively warm, hence Santa Fe's climatic attractions are fully appreciated by him.

Fresh fish to-morrow at Bishop's.

Extra fine creamery butter at Bishop's.

Land Office Ruling.

Sec. Noble has rendered a decision regarding the motion for review of the department decision of April 1, 1889, in the case of Rafael Chavez vs. the Atlantic & Pacific Railroad company, holding certain tracts at the Santa Fe land district subject to the entry of Chavez and excepted from the grant to such company. The land was within the limit of the railroad grant, but it was held by the commissioner of the general land office that Chavez had initiated his claim thereto prior to definite location of the railroad. On appeal of the railroad company the secretary affirmed the decision of the commissioner, and he now holds that no sufficient reason is presented to review the decision. The case involves the tract of land near the town of San Rafael, in Valencia county, upon which the well known Ojo del Gallo is situated.

Spring chickens at Emmert's.

Fresh fruits and vegetables at Bishop's.

Some Good Books.

Col. T. M. Oliver, a typical representative of the old Kentucky school and a charming old gentleman, is quartered at the Exchange, and will canvass the city for several literary works. He is sole agent at Las Vegas and Santa Fe for Stanley's "In Darkest Africa," also Sunset Cox's work "Divisions of a Diplomat in Turkey," and "Uncle Dick Wootton," a book for western pioneers, written by Howard L. Connard, formerly connected with the New Mexican. "Uncle Dick" is known to all old timers, and his thrilling experiences are highly entertaining to the present generation. Col. Oliver also has the agency for several valuable books particularly adopted to the home and for the ladies, such as Longfellow's poetical works, illustrated, in numbers, and the American Domestic Encyclopedia, a most useful volume, and Bancroft's History of New Mexico and Arizona.

Scaly Skin Diseases

Psoriasis five years, covering face, head and entire body with white scabs. Skin red, itchy and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face and head. I consulted the physician and he said I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald. I then broke out on my arms and shoulders, until my arms were just one sore. It covered my neck, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would crack and bleed, and I was almost blind. I tried every remedy, but nothing helped me. I then used two bottles of CUTICURA. I could see a change and after that I used four bottles. I was almost cured, and when I had used six bottles of CUTICURA. I was cured. I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but I was cured. I can now express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use. MRS. ROSA KELLY, Rockwell City, Iowa.

Cuticura Resolvent,

The new blood and skin purifier and purgative and best of humors remedies, internally and CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin beautifier, externally, have cured thousands of cases where the shedding of scales measured a quart daily, the skin cracked, bleeding, burning and itching almost beyond human endurance, hair lifeless or all gone, suffering terrible.
