VOLUME 23.

CHICAGO CUBS ARE WORLD CHAMPS

Win Fifth Game With Detroit Americans This Afternoon In Errorless Contest.

SUPERIOR HITTING WON FOR NATIONALS

They Get Ten Hits Off Donovan and Got Them When Needed—Detroit Fans Remain Away From the Sorry Spectacle.

Score—	R. H. E.
Chicago	10 0 0
Detroit	0 3 0

Batteries—Chicago: Overall and Kling. Detroit: Donovan and Schmidt.

Detroit, Oct. 14.—Winning today in an errorless game and the closest yet played in the series, Chicago annexed the world's championship for 1908, winning four of the five games played. Chicago's victory was the result of superior hitting, the Cubs getting ten hits off Donovan. Otherwise both teams showed up in the finest form either has yet exhibited, no errors being marked up for either club.

Local interest in the game this afternoon was perceptibly on the wane when the crowds began turning toward Bennett park. Yesterday the possibilities of Detroit victory, making the series a tie, brought out a banner attendance of Detroit people, but today the possibilities of the visitors winning the final and deciding victory was too evident. While running into the thousands, the crowds at the game today were comparatively small.

The Game.

First inning—Chicago, 1; Detroit, 0. Evers singled and was advanced to second by Schulte's single and scored when Chance singled. Overall easily held Detroit.

Second inning—No runs.

Third inning—No runs.

Fourth inning—No runs.

Fifth inning—Chicago, 1; Detroit, 0. Tinker flew out. Kling was given his base on balls and Overall sacrificed him to second, going out himself. Schreckard walked and Evers doubled into center, scoring Kling, and Schreckard went to third. Schulte out at first. Score: Chicago, 2; Detroit, 0.

Sixth, seventh, eighth and ninth innings—No runs.

DIPLOMATIC CORPS WILL BE CHANGED

Election Expected to Result in Shifting of Foreigners at Washington.

Washington, Oct. 14.—Never since the United States began in a modest way to boast of diplomatic corps at its capital has so much unrest been observed in the august body of foreigners as at the present time. A general shift of envoys is imminent as the result of the presidential election. Germany is to send a new ambassador, but he will not be named until the Kaiser knows whom he is to place in this choice of representative.

No one seems to know why relations have grown so cold between the present ambassador from Italy, Baron Mayor des Planches, and the presidential family, but the fact remains. The Austro-Hungarian ambassador, who is the dean of all the diplomats now serving in Washington, having been at his present post for sixteen years, is desirous of a change.

The Mexican ambassador will spend only part of the winter in Washington, and Mrs. Coad and her two daughters will come only for the inauguration festivities.

MRS. LANGTRY WINS RACE AND \$100,000

Former Racing Queen Makes Big Killing With Yentol.

Newmarket, England, Oct. 14.—Mrs. Langtry's Yentol won the oar-switch stakes, 2½ miles, for three-year-olds and upwards on the Newmarket track today. Pure Gem was second and Gladia third. Sixteen horses ran. This is the first classic event that Mrs. Langtry has won since the heyday of her racing career, a dozen or more years ago. She won in the neighborhood of \$100,000 by Yentol's victory.

HETLING AT SANTA FE HELD ON CHARGE OF ASSAULT

Ball Player Released at Raton Was Re-Arrested by Fornoff and Taken to the Capital.

WOMAN IN CASE INHERITS FORTUNE

She Is Wife of a Miner and Was on Her Way to Denver to Settle an Estate of \$50,000 Which Was Recently Left to Her.

Santa Fe, N. M., Oct. 14.—Gus Hetling, the Wichita baseball player who played with Albuquerque during the territorial fair, was brought to Santa Fe yesterday by Captain Fred Fornoff of the mounted police. He was given a preliminary hearing and bound over to the grand jury under \$1,000 bond, which he has been unable to secure so far. He is held in jail.

Hetling makes repeated and vigorous denial of the charge of criminal assault made against him. Mrs. Annett went on to Denver but it is probable she will appear as a witness when the case is called in court. The porter and members of the train crew will also be used as witnesses. The porter was knocked down by Hetling. It is alleged, when he answered the woman's call for aid and found Hetling at her berth.

She Is an Heiress.

Raton, N. M., Oct. 14.—The mystery which shrouded the disappearance of Gus Hetling, the Albuquerque baseball player, and Mrs. Rose Annett, who caused his arrest for attacking her in a Pullman car at Lamby station, last Saturday night, has been cleared.

The woman, who was badly beaten and choked, was given medical attention here. Upon Hetling paying her expenses he was released by the Santa Fe officers, who have been most active concerning the entire affair. Just as he was boarding the train to leave the city, he was arrested by Captain Fornoff, of the mounted police, and taken to Santa Fe, in which county the attack occurred.

Mrs. Annett, whose home is at San Diego, Calif., has recently inherited \$50,000, and was on her way to Denver to settle the estate. She is 31 years of age and has two children in Denver. Her husband is a miner working in Old Mexico. Members of the Santa Fe train crew were forced to hide Hetling to prevent his being thrown from the train by the infuriated passengers, following the attack.

Mrs. Annett has gone to Denver, where her condition is said to be serious, but she has agreed to go to Santa Fe and appear as a witness against Hetling at the trial. She was in a delicate condition at the time of Hetling's attack. The tourist sleeper contained four passengers, all women.

Hetling says that an attempt was made to rob him but the officers about this theory as he was dragged from the woman's berth. He had been drinking.

ALASKA STATIONS ARE ALL WORKING

Wireless System in the Far North Is Proving Its Value.

Washington, D. C., Oct. 14.—Telegraphic advices have been received at the headquarters of the signal corps to the effect that all wireless installations at Nome, Egbert, Gibbon, Fairbanks and Circle City, Alaska, are in working order and ready for business, except Nome, where there has been some trouble with the transformers which can be remedied soon. At Fort Gibbon, there has also been some transformer trouble, which is being overcome sufficiently to maintain the station working efficiency.

New secondaries will be required for Nome and Gibbon stations, which with other appliances cannot be gotten into Alaska this season. The stations commenced working schedule on October 6th, except Nome, which will be put into operation later. The Nome station is doing remarkably well, considering the fact that all its machinery and instruments were damaged by salt water in an accident by the ice last June, to the steamer Victoria, which carried them to Alaska.

TAFT RESUMES TRIP.

East Liverpool, Ohio, Oct. 14.—The Taft special left here at 8:30 this morning to conclude the third day in Ohio. Wheeling will be reached this evening. At midnight the candidate will begin a journey into the south which is to occupy three days.

MR. CUB-HE'S STILL A WORLD'S CHAMPION

URGES GREATER CARE FOR INDIGENT MINISTERS

Rev. Stauffer Suggests That Laymen Provide Sustenance For Aged Preachers.

New Orleans, Oct. 14.—Ministerial relief, church extension and temperance were the important questions discussed at the international missionary convention of the churches of Christ here today. A strong appeal for the better care of ministers was made by Rev. Vernon Stauffer of Angola, Indiana.

Calling them "The Forgotten Laborers," Rev. Vernon Stauffer told of the extreme want of certain aged ministers who had spent their lives working for a pittance in the ministry of the churches of Christ, adding:

"Shall not the unscriptural, unchristian notion that the support of the ministry is based on the instinct of charity be bravely encountered and struck down dead? Shall not men who hold themselves eminently worthy to be the counselors of other men's orthodoxy but who haggle over the minister's salary be rebuked as heretics of the first order? Shall not churches which sacrifice the health, usefulness and prosperity of their ministers by the multiplicity of their demands and an unjust division of labor which leaves the minister to be prophet, business manager, household visitor, pack-horse and drudge be told that the blood of the martyrs is on their hands and that only the most sincere repentance and the most lavish care of the servants of the Lord who may hereafter serve them can atone for their sin? How else shall strong, capable young men be persuaded to give themselves to the ministry as a life work, their sensitive natures feeling now the danger that they may be papered in their old age, or by some sudden blow of misfortune?"

BAPTIST SCHOOL DROPS CO-EDUCATION

Abandonment of System Results in Good, Reports Minister.

Trenton, N. J., Oct. 14.—Rev. J. Adson Conklin, pastor of the Clinton avenue Baptist church of this city, in reporting to the Trenton Baptist association, declares that the abandonment of coeducation at the Peddie Institute, a Baptist preparatory school at Hightstown, has proved a good move for the institution. He announced that the present enrollment is 293, with prospects of an increase. In former years the enrollment never exceeded 155. Conklin, who is a trustee, says the patrons of the school are pleased with the change, although the "co-eds" formerly were popular. Not until after five years of discussion was coeducation abandoned.

Professor R. W. Sweetland, principal of the school, reports that this institution's income this year is \$29,000 greater than in any preceding year, and the school promises soon to be one of the Baptist educational centers of the country.

TAXICABS BLOWN UP BY THE EXPLOSION OF A BOMB

Policeman Says He Saw Infernal Machine Thrown Over the Fence Into Inclosure.

BELIEVE STRIKERS ARE RESPONSIBLE

New York, Oct. 14.—An explosion occurred early today in the big enclosure on Eighth avenue between Fifty-sixth and Fifty-seventh streets, where 250 taxicabs belonging to the New York Taxicab company were stored for the night. The explosion tore a great hole in the ground.

One special policeman on guard declares that he saw a bomb thrown over the fence, and the company believes that a deliberate attempt was made by strikers to wreck the property. Some strike leaders expressed the belief that not a bomb but that an explosion of gasoline due to inexperienced men who had taken the places of the strikers, caused the explosion.

ASSASSINATED

Las Vegas, N. M., Oct. 14.—Word was received here late this afternoon that Jose Martinez y Garcia, a prominent Republican leader of the territory and a noted speaker, has been assassinated at El Cuervo. No details are available.

HAS MADE NO PROMISE

Washington, Oct. 14.—While no formal statement was issued at the White House, Secretary Loeb today denied that President Roosevelt promised the office of commissioner general of immigration to Daniel J. Keefe, of Detroit, president of the International Association of Labor shoredmen, in consideration of Keefe's action in declaring for Taft in opposition to the pro-Bryan campaign of President Gompers of the American Federation of Labor.

THE EARL GETS NOTHING

London, Oct. 14.—By an order of the divorce court, all the rights and interests of the Earl of Yarmouth under the financial settlement made prior to the earl's marriage to Miss Alice Cornelia Thaw in Pittsburg April 27, 1905, are extinguished. According to the counsel the sum settled on the earl at this time amounted to \$500,000.

The marriage of the Earl of Yarmouth and Miss Thaw was annulled in London on February 5, this year.

TO REDUCE MINIMUM WEIGHT ON CARLOAD LOTS

Washington, Oct. 14.—A reduction of importance in shipping and manufacturing of firebrick, fireclay, tile, sewer pipe, fine lining and vitrified coping will be made effective November 1 between points in western classification territory.

These articles have for some months been rated by the carriers at a minimum weight of 40,000 pounds a car, but upon complaints from the shippers alleging that it was impossible to load the cars to this weight, action has been taken by the western classification committee, and the present minimum will be reduced to 30,000 pounds.

FINANCIER MORSE IS BEFORE A JURY TODAY

Is Charged with Violation of National Banking Laws and Conspiracy.

FACES LONG TERM IN PENITENTIARY

New York, Oct. 14.—Charles W. Morse, organizer and promoter of the American Ice company and the Consolidated Steamship company, and who until the panic a year ago controlled several banks in this city, will face the jury in the criminal branch of the United States circuit court today. With Alfred H. Curtis, former president of the National Bank of North America, Morse was indicted by a federal grand jury last March. A violation of the national banking laws and conspiracy are alleged in the indictments.

MEDAL FOR WOMAN WHO SAVED TWO

Government Present Emblem for Bravery in Rescuing Drowning Women.

New York, Oct. 14.—To Mrs. Small, the wife of Charles A. Small, a florist, the United States government has presented a gold medal in recognition of her bravery in saving the lives of two women who were drowning in the surf.

When an agent of the United States treasury department came to this city to deliver the medal he found Mrs. Hall a patient in the French hospital, recovering from an operation for appendicitis. This operation was made necessary by injuries received by Mrs. Small while she was rescuing Mrs. Allan S. Towson and Mrs. Edmund Austin Maya at Sea Gate on September 17, 1907.

VAUGHN TURNS OUT TO GREET ANDREWS

Large Crowd Assembled to Cheer Delegate and Assist Him of Support.

Vaughn, N. M., Oct. 14.—(Special).—Delegate Andrews and party received a rousing reception here today. Although they were here but three hours a mass meeting was held in the large store of J. K. Monroe, which had been arranged for the occasion. The entire population turned out and all business houses were closed for the meeting. Stirring speeches were made by Delegate Andrews, Ralph Ely, Harry Sims, J. D. Sosa, and they were enthusiastically cheered. Every Democratic business man in this town has announced his intention of voting for Andrews and statehood. L. A. Hardie entertained the whole party at dinner at his home.

PROPERTY VALUES ARE INCREASING AT A RAPID RATE

Albuquerque Real Estate Has Steady Demand and Prices Climbing Upward.

TWO LOTS SOLD FOR \$15,000 CASH

Another Big Deal Involving \$25,000 Has Been Consummated and Minor Purchases Involving \$15,000 More Are in Sight.

Fifteen thousand dollars in cash was paid yesterday for the two lots adjoining the building occupied by the Wagner Hardware company, when they were transferred to Benjamin and Weiller by Elsmann Brothers, of Boston, Mass., the owners.

That the real estate business has not suffered a relapse is shown by the statement made today that a deal was about closed whereby the Rosenwald building at Third street and Central avenue will be sold for a sum said to be in the neighborhood of \$25,000. This building is occupied by L. Kempnich, a dry goods merchant. The structure has a frontage of 25 feet.

It is stated on good authority that Benjamin and Weiller will erect a store building on the lots they purchased, thereby filling the only vacancy in that block on that side of the street. These two sales aggregate nearly fifty thousand dollars. In addition during the last few days there have been a number of lesser real estate transfers.

Residence property is in demand and several good sized sales have been reported. It is said that \$15,000 will change hands or has already done so, in the transfer of residence property and building lots. M. P. Stamm reports the sale of twelve lots in Terrace addition east of the city, the consideration being about \$3,000. He has also sold property on Silver avenue amounting to several thousand dollars. Out of sixty-six lots in the Terrace addition placed on the market last spring only twenty-two are left.

Other real estate brokers declare that prices are due to advance rapidly within a short time as already there has been a noticeable increase in property values and both business and residence property of a desirable class is in demand.

"Albuquerque property has always been a good investment but never better than it is at the present time," said one well known dealer in real estate today. "It is apparent from recent sales that property values will increase within the next few months, as there is a steady demand for Albuquerque residences and business locations. The city is advancing."

TO REMOVE PREJUDICE AGAINST REFRIGERATION

Paris, Oct. 14.—The International Congress on Refrigeration came to an end today after a session of one week. The most important work was the adoption of resolutions creating a permanent international commission on refrigeration, providing for the extension of protection to the cold storage industry by the removal of the existing prejudice against refrigerated products, and in favor of the adoption by all countries of uniform inspection laws.

The congress will hold its next meeting in Vienna in 1910.

BURGULARS FRIGHTENED WHILE ROBBING SAFE

San Francisco, Oct. 14.—The safe of Wright, Rushford & Cahill, architects, at 572 California street, was opened by burglars, who scattered papers and documents on the floor, but were evidently frightened away, as they departed without any money, leaving their tools behind. The architects' office is directly above the vault of the Pacific States Saving & Loan company.

GAMEKEEPER JOHN REA PLEADS NOT GUILTY

Oakland, Calif., Oct. 14.—John Rea, gamekeeper of the Albra Gun club, accused of the murder of Carl Muller, pleaded not guilty in the superior court today. The case went over until Tuesday next, when a quest will be made to admit him to bail. The defendant admitted having served a term of imprisonment for forgery.

MACK MAKES A CHARGE.

Chicago, Oct. 14.—Chairman Mack declared today that he was receiving reports from various parts of the south that agents of the government were traveling through the southern states collecting funds for the Republican party from federal office holders. He said that he understood that the agents were sent from Washington at the direction of certain Washington government officials.

AUSTRIA AND TURKEY SEEK TO PREVENT CONFERENCE

Want Annexation of Two Provinces Confirmed and Not Discussed by the Powers.

TURKEY DEMANDS CASH CONSIDERATION

Wants Money for Oriental Railroad and Outstanding Debts and Asks a Free Hand in Macedonia Affairs—British Ships Arrive.

Berlin, Oct. 14.—Neither Austria-Hungary nor Turkey has given its consent to the proposed international conference to settle the existing situation in the near east. Austria-Hungary declines to participate unless it is agreed that the annexation of Bosnia and Herzegovina be not discussed but accepted and legalized by the powers. Turkey desires a free hand in Macedonia as well as cash compensation from Bulgaria for the Oriental railroad and other outstanding claims. A majority of the powers are inclined to omit the question of passage of the Dardanelles and Cretan proclamation of a union with Greece.

Smyrna, Asiatic Turkey, Oct. 14.—Six British warships from Malta arrived this morning at the island of Rhodes. It is believed that their presence will have a tranquillizing effect upon the situation in Levant. Turkey welcomes the appearance of the fleet.

Foreigners in Danger.

St. Petersburg, Oct. 14.—The correspondent of Novoe Vremya at Tauris, Persia, says in a dispatch published today that the situation of the foreign residents at Tauris is critical. The national legationaries are embittered against the foreigners in general and the Russians in particular are quite out of hand, and threaten a general massacre and pillage of the city. Already they have sacked several rich merchants. Satar Khan admits his inability to restrain his followers.

Mob Attacks Postoffice.

Jaffa, Palestine, Oct. 14.—A mob today attacked the Austrian postoffice here and destroyed a number of mail carts and letter boxes. The disorder grew out of efforts of the political agitators, who dwell on the recent action of Austria-Hungary in annexing the provinces of Bosnia and Herzegovina.

Austria Still Out.

Constantinople, Oct. 14.—It was officially announced here today that all powers concerned with the exception of Austria-Hungary have agreed to the principle of an international conference to settle the Balkan difficulty. No answer has been received from Austria-Hungary as yet.

TWO BALLOONS STILL MISSING

German and Swiss Competitors Are Still Absent, But Spanish Ship Comes Down.

Berlin, Oct. 14.—There is no news of the two missing contestants in the balloon race which started here Sunday. These airships are the Busley, German, and Helvetia, Swiss. The two competitors in Monday's endurance race, have also not reported.

Drops Into Ocean.

Cuxhaven, Oct. 14.—The Spanish balloon Castilla, dropped into the ocean, six miles north of Heligoland this morning. A fishing boat went to the rescue and picked up the pilot and assistant.

MINERS IMPRISONED BY RAGING FLAMES

Russian Mine Catches Fire and Three Deaths Already Resulted.

Koenigsbrube, Russia, Oct. 14.—A fire broke out this morning in one of the galleries of the Koenigsbrube coal mine. About one hundred men are imprisoned in the gallery, which is 250 feet deep, and it is feared that they will be lost.

Many imprisoned men managed to make their escape through an adjoining shaft. Twenty-three men in another gallery were brought up unconscious from suffocation. Twenty revived but three succumbed.

TAFT SPECIAL DERAILED.

Cadez, Ohio, Oct. 14.—The Taft special was derailed again today. The accident this time occurred on a spur running from the Pennsylvania railway at Cadez Junction to this place. No one was injured.

STATEHOOD FOR NEW MEXICO

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.—Republican National Platform.

A Roof Hospital

People all over the world and particularly in this country, are giving more and more attention to the prevention and cure of tuberculosis than ever before. One of the latest means of treating the malady comes from the great city of New York, where the crowded conditions of the poorer people, make it impossible for them to receive fresh air and pure food.

This new method is nothing more nor less than a tuberculosis hospital on the roof, high above the city, where fresh breezes blow and the germ laden atmosphere does not prevail. The New York World describes the strange hospital in the following news story, which would almost provoke a smile of amusement in this land of ozone, were it not so pitiful.

Owing to delay on the part of the contractors, the camp for tuberculosis patients, which the Red Cross society is establishing on the roof of the Vanderbilt Dispensary, Sixtieth street and Amsterdam avenue, will not be opened until the end of October or the beginning of November.

This is the first camp to be established in New York City, although the Red Cross society has already similar establishments at Schenectady, Washington, D. C., and Wilmington, Del. Another is soon to be started in Albany.

The camp will cover nearly the entire roof, its dimensions being 60 by 100 feet. This space will be inclosed on three sides by a glass shelter, 16 feet in width, with glazed sashes on pivots, that the amount of air may be regulated. To the south, however, there will be no protection of any kind. In the center of the proposed camp will be the kitchen, where suitable food can be prepared for the patients.

An elevator will take the consumptives from the first floor directly to the camp, which will be made as attractive as possible. There will be numerous plants and flowers artistically distributed about, and the patients will be supplied with games of all descriptions.

The camp will accommodate between three and four hundred patients and will cost in the neighborhood of \$15,000. The sum required for building was expended by Roosevelt hospital, while the expense necessary for its maintenance will be provided by the Red Cross society. The camp will be under the direction of Dr. Samuel Lambert, dean of the College of Physicians and Surgeons.

Every clinic in New York is at liberty to send its patients there at any time. It is also open to all the poor from all sections of the city, and if sufferers have not car fare to reach the camp it will be provided.

The tuberculosis patients will be received in the morning and will return to their homes at night, the idea being to give the poor, in the congested parts of the city, good, fresh air and a slight change of environment, so necessary to their progress. While in the camp they will be given the best of attention, doctors and nurses being in constant attendance.

The patients, for the most part, will be people of no means. The Red Cross society will need contributions to carry on the camp for the first year, and has called for aid through the secretary of the society, Jacob H. Schiff, at No. 500 Fifth avenue.

In campaigning in Bernalillo county, Larrazolo should keep the following figures in mind:

Original appropriation for federal building.....\$100,000.00
Additional appropriation for federal building..... 30,000.00
Appropriation for National Irrigation congress..... 30,000.00

Total.....\$160,000.00

This sum was secured from one session of Congress by Mr. Andrews and it was expended in this county during the very gullest season of the year, thereby giving employment to a number of men and placing a large sum of money in circulation. The people of Bernalillo county want a man in Congress "who does things."

The Chicago News thus revises the old, old joke: There was a rap on the lordship's door. "My lord," announced the servant, with a low bow, "the airship awaits without." "Without what, James?" queried his lordship as he lit another cigarette. "Without wings, without gasoline, without ropes and without a propeller. We have just been in a collision." And with an impatient wave of his hand his lordship ordered the airship taken around to the airship without delay.

In former campaigns Bryan appealed to the poor farmer for his vote. Now he appeals to the prosperous farmer for campaign contributions. The farmer will think twice before he votes that the years that have been prosperous have been Republican years.

There is a young man who rides a motor cycle about the streets of Albuquerque who ought to be attended to by the police. He rides at such a speed that he endangers not only his own life but that of every pedestrian he meets.

The receptions given Mr. Andrews at every place he has visited, indicate pretty strongly that Larrazolo is not in the running at all. The people of New Mexico want Andrews and statehood in preference to Larrazolo and nothing.

Haskell is going to sue Hearst for libel as the result of that Standard Oil exposure. Those familiar with the Hearst method of conducting newspapers, however, are of the opinion that Hearst will not worry greatly over a libel suit.

The wage-earners of the country are not alarmed about the guarantee of their deposits. What they desire is the guarantee of earning those deposits, and Republican policy toward American industries affords the guarantee.

An army officer has been arrested for deserting his wife. Another army officer is under arrest charged with killing a man who alienated his wife's affections, etc. Evidently our army is in need of a little cleaning up.

If Larrazolo advances one reason why he should be elected to Congress, it would help some in this county where the people have never been provided with such information.

The New York World is anxiously inquiring: "What will New York be in twenty-five years?" Most people will agree that it can't be any worse.

It will interest the friends of American labor to observe that the nomination of Bryan was hailed with joy by his advisers in the Celestial empire.

Bryan's contributions of words as a rich editor will make not half so interesting reading as his contribution of dollars to his own campaign fund.

Bryan is going to be his own campaign manager. There is a familiar proverb about the ignorant who would be his own lawyer.

Larrazolo is still leading the reform hope. Either he doesn't know when he has been beaten or he can't believe it.

The Democratic candidate is against every kind of trust except enforced trust at the grocer's and butcher's.

An earthquake was felt in Utah yesterday. This seems remarkable in view of the fact that Taft is in Ohio.

The wool market is looking up. This should make considerable difference to the southwest.

Andrews and statehood; Larrazolo and nothing. Which do you want?

NO CHEAP LABOR IN HAWAIIAN ISLANDS

Success of Sugar Planters Due to Other Causes Which May Not Be Continued.

Honolulu, Hawaii, Oct. 14.—A good many mainland writers who have had occasion to refer to the territory of Hawaii, either directly or indirectly, have spoken of the work on the sugar plantations being performed by "cheap Oriental labor." Such statements have been made by persons who have opportunity to know the facts, but it nevertheless convinces them of superficial knowledge in this particular at least. The fact that Japanese form a large part of the laboring class in the sugar fields in the territory, and that laborers are known to work for but a few cents per day in Japan, has doubtless been the cause of the inference that the same conditions exist here; but they don't. In fact, taking everything into consideration, it is doubtful if the average farm hand on the mainland is as well paid. The pay of the average field hand in the islands runs from \$18 to \$25 per month, according to the nature of the work and the proficiency of the laborer. This is for a ten-hour day, and for six days in the week. If the laborer is married he is furnished a house free of rent, and usually free fuel and water. Unmarried laborers are furnished sleeping quarters free. On many of the plantations lots of from one to ten acres of land have been sold to the laborers at low price and on long time; a house built free, and water for domestic use and for irrigation, if necessary, piped onto the premises free also. The fact that the plantations have no means of holding their employees who are not satisfied with conditions, has led to these measures being taken to make the work attractive.

When it is remembered that a man does not need to lose any time from one year's end to the other on account of bad weather, that the clothing item is light on account of the fact that no cold weather must be provided for, it is extremely doubtful whether the mainland laborer who gets from \$30 to \$35 per month a portion of the year only; has house rent, fuel and heavy clothing bills to pay, is as well off at the end of a year as a Japanese or Portuguese laborer on a Hawaiian sugar plantation.

It is not cheap labor that has made sugar growing a success in Hawaii, but the fact that she has had a free market for her sugar into the United States, and that the greatest amount of brains has been expended in the industry here of probably any place in the world. The soil requires constant fertilization, will not produce more than two crops without entire replanting, where in Cuba and many other sugar countries from six to a dozen cuttings may be made from one planting. The most expensive irrigation systems in the world have been brought into use in Hawaii, in some instances involving the pumping of water 200 or 400 feet in elevation, while a corps of the highest paid scientists is maintained to combat insect pests and devise more economical methods.

Hawaii is practically up to her high-water mark in sugar production, there being but little unutilized land of suitable quality at the present time. While it is true that there have been some large fortunes made from sugar in the islands, it is also true that some of the largest plantations have never paid a dividend, and probably half of them have their stock listed below par. The possibilities of the American markets being opened to large quantities of sugar produced by really cheap labor, on better soil, and nearer the market, is disquieting to the Hawaiian planter, but he is laying his plans and if these conditions come to pass will not be taken by surprise. The possibility of diversified products of great variety is exceedingly bright for the territory, as experiments have shown in a number of instances and the prospect of higher profits per acre, and a more extended acreage, is believed by many to be practically assured in course of time.

FOREST SERVICE MAKES APPOINTMENTS

Rangers on Various National Reserves Have Been Named at Washington.

Washington, D. C., Oct. 14.—The forest service has just announced the following appointments on national forests:

Ralph C. Huey, forest ranger on the Ozark national forest, Arkansas; Osmer D. Plake, assistant forest ranger on the Sitgreaves national forest, and Ralph H. Colvin, assistant forest ranger on the Prescott national forest, Arizona; George W. Sinclair and Wilford L. Trudeau, assistant forest rangers on the Loie national forest, Montana; Frank C. Ayres, assistant forest ranger in the Madison national forest, Montana; Angus M. Woodbury, assistant forest ranger on the Dixie national forest, Utah; Guy S. THE LAST STRAW

DAILY SHORT STORIES

THE MISER'S WILL.
(By Stuart B. Stone.)

Even in the dread solemnity of the death hour, surrounded by the minister, the lawyer, his faithful servant, Thomas, Elphalett Quiggins scoffed and scolded at all about him. "Peace, peace!" quieted the grave minister, "consider the nearness to the tomb."

"I'll sleep fine there," answered Miser Quiggins. "There's won't be any of these harpies around wondering where I've stored my money."

At the mention of money, the sharp lawyer turned. "As the hour of dissolution is so near," he said, "it would be well if you would indicate the disposition you wish made of your property."

"Money!" shrieked old Elphalett. "You won't get any of my money, Mr. Owl Eyes!"

The lawyer waved his hand, deprecatingly. "I do not wish any of it. But surely there is some one who has befriended you."

Old Elphalett raised himself upon one long, bony arm. "Befriended me?" he screamed. "The dirty dogs—they all want my money. There's where your friendship comes in. Friends! They're harpies, I tell you!"

After that, he lay quiet for a while. Then he raised himself once more and said, with a sneer:

"There's a will all right—and there's money, too. And you can find the will, if you've got sense enough—that's what you can do, you birds of prey!"

With the last words, Miser Quiggins' voice rose to a feeble scream. The next minute he was dead.

After the funeral they made a search for the old man's will. Into chimneys, under carpets, in cellars, in garrets they delved, and almost gave up defeated. The neighbors' child, playing in the deserted house, found a section of wall paper had been removed, the will pasted against the plastering and the wall paper replaced.

The will was brief: "I bequeath all my treasure to Dorothy Taylor and Thos. Grant, provided they have sense enough to find it.—Elphalett Quiggins."

The writing was duly witnessed and there could be no doubt of the genuineness of the document. There was much surprise that the old man should have picked out this the fairest young couple in the village. But there were some to remember

that he had once remarked that Grant was not quite as big a fool as the other village youths and that the girl did very well for a simpleton. It happened that Mr. Grant and Miss Taylor were engaged, though no one else in the village knew of it. The announcement of their betrothal had been delayed because of their utter lack of financial resources, and now that Miser Quiggins had made them the heirs to his great wealth, the young people were naturally jubilant.

But the finding of the treasure proved to be a disheartening task. Floors were ripped out, walls were torn out and the old house practically destroyed. But not one trace of the treasure could be found.

The night after they had quite given up the search, Thomas Grant and Dorothy Taylor held a long conference. As a result of their talk they agreed to proceed with their marriage anyhow.

"People always get along," declared Mr. Grant. "We will make it somehow," and the pretty Dorothy agreed. They were married a week later, in the pretty, little church. At the conclusion of the ceremony, one of the first to greet them was old Thomas, the faithful servant of the departed miser.

"I have something I can give you now," he said, simply, handing over a weighty sack, and Thomas Grant opened the bag.

"The treasure!" he gasped, "the treasure. Thank goodness!" There was \$25,000 in gold and bills in the bag. Also there was a little strip of white paper, which read: "Surprised that you had this much sense, Elphalett Quiggins."

READ ALL THIS.

You Never Know the Moment When This Information May Prove of Infinite Value.

It is worth considerable to any citizen of Albuquerque to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itches of the skin, for piles, eczema, etc. One application relieves and soothes. Read this testimony of its merit:

A. M. Whitcomb, living at 325 North Eighth st., Albuquerque, N. M., says: "I have nothing to retract from the statement I gave for Doan's Ointment some five years ago. What I then stated was to the effect that this preparation had cured me of a breaking out, which, if not eczema, closely resembled this trouble and was confined to a spot about the size of a silver dollar just below one of my knees. Off and on for ten years it had annoyed me, always being worse when I was in bed or if I would sit near a fire. I consulted two of our leading physicians but what they gave me proved of no more avail than all the different kinds of salves and ointments that I tried. I had no faith in Doan's Ointment expecting that it would act similarly to the other remedies I had used, but I was surprised to find that the first application stopped the itching and a continuation of its use healed the place affected. The fact that I can say after this long interval that there has been no return of the trouble is pretty good reason for my willingness to confirm my original statement. I recommend this preparation at all times as one that can be relied upon to act as represented."

For sale by all dealers. Price 50c. Foster-McBurn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ECONOMY IN LUMBER

TAFT'S WESTERN TRIP A BIG SUCCESS

Republican Leaders Jubilant Over the Enthusiasm He Has Aroused.

Chicago, Oct. 14.—One chapter of the presidential campaign has just been closed and it is a chapter filled with cheer for the Republican managers.

Mr. Taft ended his western trip in Chicago last Wednesday night. The trip demonstrated plainly that the west is heart and soul in sympathy with the Republican candidate and his policies. The sympathy has been there all along, and it needed only the presence and the words of Mr. Taft to bring to the surface the abiding loyalty and enthusiasm which exists among the great mass of the voters in the prosperous prairie state.

With this situation plainly before them, Mr. Taft and Chairman Hitchcock have decided to turn the energies of the campaign into the east during the few weeks that remain before election day. New York, Indiana and Ohio will be the field of battle from now on. Mr. Taft will start campaigning in Ohio next week, and will remain constantly on the stump in the eastern states and on the border of the south, until Monday, November the second.

Wisconsin, Iowa, Minnesota, the Dakotas, Nebraska, Kansas, Colorado, Missouri, Illinois; these are the states where Mr. Taft has broken the crust of apathy, and gladdened the hearts of his campaign managers. Each gave him an out-pouring which surprised even the state chairman, and each now is placed in the Republican column. As one of the men on the Taft "Special" expressed it, "We left a bright streak across the heavens."

Reports from local managers of these states show that this streak is widening day by day. The immediate effect of the trip was good, but the subsequent effect was better. The reports at headquarters show that the enthusiasm created by Mr. Taft's appearance in the various central points in the west has spread into tiers of surrounding counties.

These are a few expressions from state leaders since the Taft train has gone through their territory: J. N. Dolley, state chairman of Kansas: "The Taft ovation in Kansas was the greatest ever given in the state. I did not realize that the feeling of the people was so intense until I saw the outburst of loyalty which greeted Mr. Taft."

"Late" Young, editor of the Des Moines Capital: "Mr. Taft's visit to Iowa has shown us that Republican sentiment there is as strong as ever. The Bryan men think their candidate has a show in the state and have billed him for a return engagement. No one who is posted on the situation, however, thinks that there is anything but Taft in the minds of the people."

Senator William Warner of Missouri: "Crowds beyond expectation greeted Mr. Taft from one end of the state to the other in his journey from Kansas City and St. Joseph to St. Louis. While it is not always easy to define the meanings of crowds, there can be no question that the large assemblages at the Taft meetings in Missouri will have a good effect, especially on those who were inclined to be apathetic. As to the seeming indifference of the people before the Taft 'Special' left Cincinnati I felt no concern. It has been my observation that when a man is contented he rarely complains."

Therefore, I interpret inaction to be a symptom of contentment, and with the people contented with the present administration of public affairs I saw no cause for anxiety. The influence of the Taft trip through the west is bound to be felt far from those points with which he came into immediate contact."

Governor C. E. Crawford of South Dakota: "The result of the Taft and Hughes trip through South Dakota, has been to show that the people are loyal and responsive as ever. The eyes of the politicians have been opened to this. I believe that Mr. Taft will receive a majority of 30,000 votes in my state. Since the first McKinley administration the prosperity of the people has been marvellous. The banks are loaded with deposits—the bulk of them agricultural. In a general way, the same conditions apply to North Dakota, Nebraska and Kansas. I see no reason to expect anything but the normal Republican majority in all those states."

Wisconsin state leaders also have reported to Chairman Hitchcock that conditions in that state are bright beyond their expectations as a result of Mr. Taft's visit.

Going further west, where Mr. Taft did not touch, it is shown that the Republican party was remarkably viable. Representative Wesley L. Jones of Washington, who has been at national headquarters during the week, claims that the figures returned in the recent primaries in that state, indicate strongly the vigor of the republican party and the rapidly prevailing among the Democrats. Mr. Jones was successful in winning the nomination for the United States Senate in the Republican primaries.

The vote for senator was as follows: Republican 104,193; Democratic 13,442.

The vote for governor in the primaries was as follows: Republican 101,905; Democratic 12,920.

Missouri Republicans have named late headquarters during the week. National Committee Chairman C. E. Jones, from that state has informed Mr. Hitchcock that he feels confident that he can take the state from Governor Haskell. The

Haskell episode, which has become but an echo in some parts of the country, still is reverberating to the heavens in the state of Oklahoma. The expose of the former treasurer of the Democratic national committee has been the greatest Republican asset in the state. Every time Governor Haskell speaks, his record rises up to strike him in the face. One of the things which promises to become an issue in that state is the administration of the public school funds and lands. Under the Democratic administration the cost of administering the school properties during one year, has been not less than \$165,000, or practically forty-five per cent of the entire income.

The net cost of administering the affairs of this department under Republican territorial rule, never exceeded \$25,000 in any one year. Jobs have been drafted so that Democratic henchmen might get hold of some of the money intended for the coming generations of school children. The graft in school books also, has amounted to a huge sum.

Candidate Bryan's bank guaranty plan continues to be assailed by practical economists and bankers all over the country. If the record of the Democratic party on this question is any indication of how Mr. Bryan's followers regard his pet scheme, Mr. Bryan would have a hard time getting a law passed in accordance with his views even if he should be elected.

In the last Congress, Representative John Sharp Williams, of Mississippi, the Democratic House leader, introduced a bill of Mr. Bryan in the Commons. When the Democratic members of Congress had the opportunity to vote for this bill, however, they deserted it and left it to its fate. They refused to approve the system of guaranteeing the depositors of state and national banks which had the sanction of their leader.

The general wind-up of the campaign in Indiana will begin on October 22d. Mr. Taft opens in New York on October 26th, and will speak in the big cities of that state throughout that week. The main speeches will be in Syracuse, October 27th; Utica, 28th; Rochester, 30th; Buffalo, 31st. The final red fire meeting of the campaign will be held at Madison Square Garden, New York city, on the night of October 28th. Mr. Taft, Governor Hughes and George A. Knight, of San Francisco, will be the principal speakers. Chairman Hitchcock will spend several days in the Chicago headquarters working on Mr. Taft's itinerary in conjunction with Senator Dixon and the leaders of the states through which the candidate will pass.

GOODWIN AND EDNA; MACMILLAN AND MAXINE

Latest Report Is That Actor's Former Wife Married Mining Man.

Reno, Nev., Oct. 14.—Nat Goodwin to wed Edna Goodrich, and Harry MacMillan, Miss Goodrich's former fiancée, to marry Maxine Elliott, Goodwin's former wife—that's the latest item of local gossip. Both men are well known locally because of their mining operations.

Goodwin is in Raynolds and Bonanza camps and MacMillan in Goldfield, and have a number of intimate friends in this town who are well acquainted with what the actor-miner and the Goldfield leaser intend to do in a matrimonial way.

Goodwin, it will be remembered, got his divorce here, but little over a week ago, and then left for London, where Edna Goodrich is now making a stay and attracting considerable attention by the magnificence of her jewels.

It is understood that her necklace of pearls, which created a sensation at the Savoy recently, is the wedding gift of Goodwin and came out of the profits of his mining ventures at Raynolds.

It is also known that a big strike on his Bonanza property yesterday, news of which was immediately wired him with an urgent request for his instant return, failed to shake his determination to continue on to London.

As for the report of the engagement of MacMillan to Miss Elliott, that has been quietly bruited here ever since his return from New York, a few months ago. It is understood that it was on that trip, he having just parted permanently with Miss Goodrich, that he met and made a deep impression on Miss Elliott. What adds particular interest to the whole affair is that Goodwin and his associates had long ago, before MacMillan met either Miss Goodrich or Miss Elliott, crossed swords with MacMillan in a mining war, and that a deep feeling of rivalry resulted which is still bitterly entertained by both parties.

\$100—Reward—\$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

The rapid increase in our business is due to good work and fair treatment of our patrons. Hubbs Lammie.

Had a Close Call.
Mrs. Ada L. Croom, the widely known proprietor of the Crown Hotel, Vaughn, Minn., says: "Prior several months I suffered with a severe cough, and consumption seemed to have its grip on me, when a friend recommended Dr. King's New Discovery. I began taking it, and three bottles affected a complete cure." The fruits of this life saving cough and cold remedy, and lung and throat healer is world wide. Sold at all dealers, 50c and \$1.00. Trial bottle free.

MAXINE, DIVORCED, IS LATEST OF SALOMES

MAXINE ELLIOTT AS SALOME.

New York, Oct. 14.—The spotlight's white glare is playing on Maxine Elliott all right.

Nat Goodwin has divorced her, and she's going to be a Salome. You might suspect that the latter has something to do with the former, but it didn't. The head-dance encounter hadn't been sprung when Nat Goodwin filed his papers.

The divorce was granted at Reno, Nev. The ground was desertion. Nat whispered to the judge that Maxine

wouldn't live with him. She had turned down his embraces a d refused to answer his letters. Maxine did not contest.

As for this Salome drama of Maxine's, it's going to be introduced in her new play, "Myself Betina." It's not like the performance given by Eva Tanguay, Lotta Loo, and other semi-whippers. Miss Elliott will wear not only beads, but considerably veiling. Her dance will be very short.

A FEDERATION OF WATER USERS

Association Has Been Formed as Result of Congress Here—Committees Named.

Phoenix, Ariz., Oct. 14.—B. A. Fowler, secretary of the Sixteenth Irrigation congress and re-elected to the same office for the seventeenth session, has received a letter from R. E. Twitcheell, secretary of the Albuquerque board of control, saying he has assigned to him a large number of the printed copies of the proceedings of the fifteenth congress held at Sacramento and that at an early day he will provide him also with a supply of the proceedings of the Sixteenth congress. These, said Mr. Fowler, will be for general distribution to those who would like them and will appreciate them. They are quite attractive volumes to any one interested in irrigation matters, as they contain all the addresses made and papers submitted to the respective congresses, some of which are well worth preserving for later reference.

One institution that has grown out of the irrigation congress, and that has not been fully appreciated in these parts, is the Federation of Water Users' associations. This is an organization composed solely of the officers of the various water users' associations formed under the different reclamation projects in the country. The association holds annual meetings during the sessions of the irrigation congress at which are presented the different phases of association work. Comparisons are made, different conditions are discussed and suggestions are interchanged. The Salt River Valley Water Users' association was the first one formed and the others are all modeled very largely after this pattern, originally worked out in the main by Judge Kibbey.

The number of associations now organized makes quite a likely convention when the officers all get together. They have found their deliberations to be mutually profitable and expect to make them more so. It is quite an honor to this valley to have furnished the original draft of the organizations which are now adopted as part of the government's reclamation plan. It was also something of an honor to the valley to have Mr. Fowler chosen as the president of the federation last year and an added honor that he was re-elected to serve for another year.

In speaking of the work of the federation, Mr. Fowler said that S. J. Harrison, of Sunnyside, Wash., president of the Sunnyside Water Users' association, had been chosen secretary of the federation. Mr. Harrison is a hustler and is already deeply engaged in his work. It is planned to issue a monthly bulletin for the interchange of information concerning the progress of affairs in all the associations. Mr. Harrison has already sent out a circular letter to the secretaries of the various associations asking for data concerning them and Secretary Van der Veer of the S. R. V. W. U. A., is engaged in making a proper response to the questions asked concerning this one.

President Barstow of the Seventeenth Irrigation congress, is also busy at work on the organization of his committee staff. He has announced the personnel of several important committees and is at work on others. One is the "Pan-American Committee," which will represent the congress in a reclamation organization to be formed at the convention of Pan-American republics, and it is planned, if that works successfully to organize an international irrigation congress to take in the year 1937, or so much of it as is desirable to participate. The Pan-American committee consists of the president and secretary, Messrs. Barstow and Fowler, W. A. Board, of California;

Clifford Pinchot, of Washington, and Felix Martinez, of El Paso, who has a large acquaintance in Mexico and the Latin country.

Another committee is the Washington City committee, appointed chiefly with the view of holding the irrigation congress in Washington in 1910. That committee consists of Fred J. Kiesel, of Utah; W. A. Beard, of California, and B. A. Fowler, of Phoenix. Several other important committees are yet not fully made up, but will be announced soon.

FILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

After the fair is over you will have leisure to think of your own comfort. Very likely you will come to the conclusion that it is about time to change from wearing slippers and old-fashioned shoes to high shoes. We have at present a larger assortment of up-to-date fall styles than we ever handled and our prices are very reasonable. C. May's Shoe Store, 214 West Central avenue.

Would Mortgage the Farm.
A farmer on Rural Route 2, Empire, Ga., W. A. Floyd by name, says: "Bucklen's Arnica Salve cured the two worst sores I ever saw; one on my hand and one on my leg. It is worth more than its weight in gold. I would not be without it if I had to mortgage the farm to get it." Only 25c at all dealers.

Very Serious
It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—**THE FORD'S BLACK-DRAUGHT Liver Medicine**

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

OPERATES ITS OWN CARS.

Cleveland, O., Oct. 14.—The local
street railway lines will in the fu-
ture be operated exactly as if owned
by the city. The state laws prohibit
municipal ownership, but this point
was circumvented. The stock of the
Municipal Traction company, the
leasing company which is operating
the lines on a three-cent fare basis,
is to be placed in the hands of trust-
tees.

The board of trustees will consist
of the board of directors of the leas-
ing company and several citizens who
have had no part in the local traction
affairs are to represent the public.
It is proposed in the trust deed that
all profits accruing to the leasing
company shall be turned over to the
city to be applied upon the public
parks and the lighting and heating
purposes for public buildings.

HAVE PLENTY OF MONEY.

Chicago, Oct. 14.—Elmer Dover,
secretary of the advisory committee
of the Republican national commit-
tee, reached Chicago from New York
today. He said that he did not be-
lieve the reports that the R-republican
campaign fund had been augmented
by contributions amounting to \$500-
000, although he said that the R-
publicans were obtaining much more
money than earlier in the campaign.

After the fair is over you will have
leisure to think of your own comfort.
Very likely you will come to the con-
clusion that it is about time to
change from wearing slippers and ox-
fords to using high shoes. We have
at present a larger assortment of up-
to-date fall styles than we ever han-
dled and our prices are very reason-
able. C. May's Shoe Store, 214 West

introduction of alum into baking powders as
most dangerous to health."

Read the label. Buy only where
Cream of Tartar is named.

CANADIANS SHIP
WHEAT TO AMERICAHigher Rates in Dominion Causes
Transportation to Be Changed.

Ottawa, Oct. 14.—An extremely in-
teresting situation has arisen in con-
nection with the transportation of
this season's grain crop of the Cana-
dian west to tidewater for export.
Notwithstanding the facilities for the
transportation of grain by the St.
Lawrence route, and in spite of the
newly provided facilities for loading
and for ocean shipment at the port of
Montreal, 1,000,000 bushels of Cana-
dian wheat have recently been
shipped to American ocean ports via
Buffalo, while probably 5,000,000
bushels more have been sold for ex-
port by these same ports.

It is said that the rates on the
American side are now lower than
on the Canadian, and unless the Cana-
dian steamship owners reduce their
rates so as to bring the charge from
Port William to Montreal down to a
little less than the American level, a
large portion of the Canadian grain
traffic will be diverted to the Amer-
ican route.

There has been a tremendous fall-
ing off in the volume of immigration
to Canada during the eight months
ending August 30.

GAMBLING CASE
GOES TO THE JURY

Proprietor of Former Game Is Sued
by Gambler, Who Alleges
Crookedness.

George K. Neher, proprietor of the
White Elephant saloon, which previ-
ously to the passage of the anti-gam-
bling act of the last legislature, was
one of the most famous gambling
houses in the southwest, was on the
stand in the second district court this
afternoon to testify in his own de-
fense against the charge made that
he conducted crooked games.
Neher is the defendant in a suit
made by a man named Farley, who
alleges that he lost a large sum of
money in the White Elephant and
brings suit to recover. He alleges
that the money was lost at a faro
game conducted by Neher, in which
cards were dealt that were sanded.
The losses were made the latter part
of the year 1905, during a time and
shortly after Farley was employed by
the defendant.

Checks and bank balances were
produced in the case as evidence, as
well as were depositions of gamblers
who formerly worked in the White
Elephant. Neher's testimony was to
the effect that Farley won as much
money in his place of business as he
lost. He said that Farley was the
most dangerous faro player that pat-
ronized his games. He said that Far-
ley was a system player and that he
kept close to him when he was in
his house and playing. On cross ex-
amination the witness said that Far-
ley was about the only man that ever
beat his faro game.

One check produced was made by
Farley in favor of Neher and called
for \$600. Farley in rebuttal said
that this was given in pay for six
\$100 markers which Neher held
against him. Another check was for
\$400 and was given by Neher to
Farley. Neher said that the check
was for money won at faro by the
plaintiff. The latter in rebuttal tes-
tified that \$300 of this money was won
in a poker game in one of the up-
stairs rooms of the White Elephant.

The attorneys squabbled over tes-
timony relating to crooked cards.
This phase of the testimony came up
over a deposition made by a gambler
named Bird, who said that Farley
had proposed to him that he "throw
Neher's money off to him." Farley
testified that in a conversation with
Bird the latter told him that he had
been cheated and referred to a deck
that had been fixed up for a race
horse man. This testimony came in
rebuttal, offered by the plaintiff, but
was not allowed to go to the jury.

The case was given to the jury at
4 o'clock. E. L. Medler appears as
attorney for Farley and Neher is rep-
resented by Col. Dolson and Attor-
ney Maddison.

UNIVERSITY TEAM
ARRANGES GAMESFootball Squad Practicing for First
Game and Expects to Win All.

Great preparations are already be-
ing made for the coming football sea-
son by the students of the University
of New Mexico. Their team this year
will comprise some of the best play-
ers ever possessed by any previous
team of this institution. Practice
games have already been played on
the spacious campus adjoining the
university and the boys claim that
they have a squad of players that
will defeat anything in the territory.

The first game of the season will be
played at Traction park a week from
next Saturday afternoon between the
college boys and a team composed
of members of the Albuquerque In-
dian school. The game promises to
be a close one and being the first of
the season, a chance will be given
the captain of the university organi-
zation to see what kind of work the
boys can do and as to how their po-
sitions are filled.

The list of players includes some
exceptionally good football material
and already the management has
booked many games for the coming
season, some of which are the fol-
lowing: University of Arizona, Las
Cruces, Albuquerque Indian school,
Roswell Socorro, with which team
the local boys will play two games,
and Artesia. The teams are of high

standard but the boys of the univer-
sity have little fear of defeat and will
go in with the expectation of winning
every game.

The players will be picked from the
following students, some of whom are
comers in the football world:
Allen (captain), Lembke, Sterling,
Wigley, McConnell, Heff, Irvin, Mc-
Ginnis, Ames, Salisbury, Wade, Ross,
Wroth, Patton, Marsch, Marshall, Gal-
legos, Silva, Mayo, W. Ames, White,
Baldwin, Werning, Rogers, Safford,
James, Miller and Kelly.

COLORED CLUB
HAS A MEETINGPolitical Organization Elects Officers
and Received New Members.

The Colored Political club, the oldest
organization of its kind in the city,
met at the city hall last night
and held an enthusiastic meeting. The
following officers were elected: Geo.
J. Harrison, re-elected president
unanimously; Robert Fawcett, sec-
retary; D. L. Thompson, assistant sec-
retary.

Several new members were added
to the roll and after an eloquent ad-
dress by T. O. Mason the club ad-
journed to meet again next Wednes-
day evening.

ALBUQUERQUE GIRL MARRIES AT LOS ANGELES

Friends Received Announcement of
Wedding of Miss Baird and
Mr. Roberts.

News was received in this city this morning of the marriage in Los Angeles, Calif., of Miss Hetty Baird, daughter of Deputy U. S. Marshal Baird, of this city, and Mr. E. R. Roberts, a prominent railroad man employed in the construction of a large railroad in Ecuador, South America. The young couple had corresponded for some time past and met in Los Angeles, where they were married.

Miss Baird was for two years employed as bookkeeper for the Wagner Hardware company and last May determined to resign her position and go to Los Angeles for the purpose of taking up stenography. Friends with whom she had corresponded in this city were kept in entire ignorance about the approaching wedding and the announcement of her marriage which occurred last Sunday will be received by her many friends with much surprise.

Both are popular young society people and the good wishes of the entire community for their future welfare goes with them.

RICH STRIKE IN ORANGE BLOSSOM MINES

Advices Received Here Indicate Good
Outlook for the Property.

Particulars regarding the strike in the Orange Blossom mines, referred to in The Citizen of yesterday, have just been received. In the south upraise from the 200 to the 120, a vein of gold ore carrying high values was encountered, 17 to 20 feet wide, and as neither wall has been reached, the exact width of the vein cannot be determined. This is, however, the richest body of ore yet discovered in the property. In the north upraise between the same levels, the vein is 8 feet wide, and the upraise is in ore all the way. In the north and south drifts at the 200 foot level, the ledge is more than 10 feet wide, carrying high values. Assays now being made, will undoubtedly run high.

Advices received from the district indicate that excitement is high, and it is more than probable that with the large amount of prospecting being done, other strikes will be of frequent occurrence. John Desair, the president, is in active charge of operations. November first is the date set for the starting of the 20-stamp mill, which has just been completed.

BIG ATTENDANCE AT REPUBLICAN CLUB

Speakers and Band Entertain Large
Crowd at Meeting Last Night.

That members of the party are becoming alive to the importance of work and that interest in campaign issues is growing was evident from the number of Republicans who attended last night's meeting of the Young Men's Republican club.

The principal speakers of the evening were Attorney J. Staab and Attorney J. A. White. Mr. Staab spoke on statehood and Republicanism as viewed by a man who has lived in the territory all his life. The speaker divided his subject into three divisions and supported each with sound argument. The divisions were: "Are We Ready for Statehood?" "Do Our Resources Entitle Us to Statehood?" and "Have We the Ability to Govern Ourselves?" Mr. Staab spoke smoothly and eloquently and made a favorable impression with the crowd, which cheered lustily.

Mr. White, who is a Missouri Republican, spoke on national issues, discussing the many changes of policy of Mr. Bryan since becoming the standard bearer of the Democratic party, much to the amusement of the audience. He dwelt with telling effect on what the Republican party had done and what the Democratic party had not done, giving facts to support his arguments.

The entertainment features of the evening were selections by a mandolin quartet and Leonard & Lendrum's Boys' band. This band is fast becoming one of the leading musical organizations of the city. It is in evidence in every public demonstration that is made of late.

ARRESTED FOR SELLING LIQUOR TO INDIANS

Four Natives Taken Into Custody for
Violating Law.

During the past four days, four arrests have been made by Special Agent A. G. Pollock, of the Indian department and his assistant, J. B. Farris, for the alleged selling of liquor to Indians. Among those arrested for this offense were Lauriano Montano, at Lumberton; Thomas Cassado and Pablo Reeves of Parkview, Rio Arriba county, and Juan Montoya, of Baretas. All were taken to Santa Fe by Deputy U. S. Marshal J. S. Haines, where they waited examination and were bound over to the grand jury. They are accused of selling liquor to Jicarilla Apaches.

The case of Juan Montoya of Baretas was taken before the United States commissioner where he was bound over to the grand jury and after furnishing the amount required was released. Mr. Montoya is charged with the sale of liquor to Navaho Indians who were in this city attending the fair.

WATER AT RINCON FOR SANTA FE USE

Unlimited Quantity Discovered at
Shallow Depth Will Do Away
With Big Expense.

By the discovery of an unlimited quantity of good soft water at a depth of about sixty feet, the little station of Rincon, on the Santa Fe promises to become a prosperous little city. Acherson, McClintock, a large land holder in that village, is in the city at present and will demonstrate to several Santa Fe officials the fact that the company may save thousands of dollars annually by the use of this water for engine purposes instead of pumping the liquid from the river bed, which is forty feet below Rincon. In order to accomplish this pumping, a man must be stationed at the tank which stands at the pumping station while another is required at the large reservoir into which the water is pumped. This labor may be saved by the use of the water recently discovered and a test is now being made by the Santa Fe people. Should it prove successful, the outlook for this function is most encouraging.

Up to the present time, the water which is pumped from the river into the large tank at Rincon for use in the engines, a distance of one mile, had to be treated so that the interior of the boilers of the locomotives do not become scaled. The water which has recently been procured at the depth of sixty feet is so pure that this will be done away with.

The little town of Rincon is situated about seventy-seven miles north of El Paso and about fifty miles east of Deming. The country surrounding this village is very nearly all under cultivation and a stretch of land containing over 10,000 acres spreads itself about twelve miles above Rincon. This land is mostly all taken up by natives who densely populate this section of the country.

THREATENED SUICIDE BEFORE CONGREGATION

Los Angeles, Oct. 14.—Following a petty quarrel with members of the First Methodist church, Mrs. Elizabeth Thompson, well known in religious circles, bought a marble shaft, ordered a grave dug in Hollywood cemetery and told her friends that she would commit suicide before the pulpit during service. She wished the whole congregation to see her. An insanity complaint sworn to by a detective caused the woman's arrest and prevented the tragedy.

Mrs. Thompson had been employed by a local undertaking establishment for some time and grew morbid. She quarreled with the members of the firm and threatened to wipe them all out of existence. She then became engaged in the argument with members of the church and decided to revenge herself by walking down the aisle while the pastor was preaching and drinking cyanide of potassium before the pulpit.

"THAT PERKINS GIRL" AT THEATER TONIGHT

Leslie Company Offers Comedy
Drama With Scenes Laid in
New England.

The somewhat strenuous drama that has been given by Rosabelle Leslie and her talented associates, the opening of the engagement, at the Elks' theater, will surrender this evening to the more demure comedy drama, "That Perkins Girl," in which Miss Leslie again figures as the bright and particular luminary.

"That Perkins Girl" is one of those principal scenes of which are laid the principal scenes of which are laid in and about quaint old New England, and aside from containing several unique scenes and situations, is said to offer unusual opportunities to both Miss Leslie and her supporting company. The story is founded upon the efforts of rival trolley lines to secure the right of way through the property of the heroine's father, who puts up a bitter fight in opposition to the improvement. There is a spirited contest, the respective forces arrive at the objective point at the same time, when just as the last pole is about to be placed, establishing the right of way for the opponent of the hero, the heroine jumps into the pole hole and holds her position until the hero has proven his claim and gained the victory.

The situation is extremely unique and offers opportunity for several very laughable comedy scenes. The production is staged with the company's own special scenery and given with the same careful attention to detail that characterized the previous production.

POLICE TAKE CHARGE OF DRUNKEN WOMAN

She Will Be Cared for Until her Relatives Take Her Back Home.

One of the most pitiful cases to come to the attention of the police for some time is that of a woman brought here a month ago by the Fred Harvey company from Chicago. The woman was picked up by the police yesterday, sitting on the front porch of the residence of Mr. and Mrs. Edward Johnson, 312 West Silver avenue, where she had taken refuge from the street while paralyzed from intoxication. She had first attempted to enter a house on South Third street, but was prevented doing so, after frightening a number of women. She then went to the Johnson residence and seated herself on the porch. She refused to leave until an officer came to take her away.

In police court this morning she said that she was from Pennsylvania, was without money and friends, and had no work. She said that she had written to relatives in Pennsylvania

for funds with which to go home and would go if the money came. Yesterday was the third time she was taken into custody by the police for being drunk. The first time she was up she was released on a promise to leave liquor alone. Her appetite for liquor was so strong, however, that she was intoxicated again before the day was over. She was released on Saturday after serving a short sentence for the second offense. The police will take care of her until her relatives in Pennsylvania are heard from.

GOLD PRODUCTION A RECORD BREAKER

Yukon Country Will Send Immense
Amount of Treasure This Year.

Ottawa, Oct. 14.—Once more the gold district of the Canadian Yukon gives promise of astonishing the world in yielding up its treasures, not to the individual placer miner, but to the big corporations employing costly plants. This is the announcement made in the report of E. E. Stockton, of the auditor general's department, who has just returned from Dawson, where he has spent four months in auditing the books of the Yukon council.

The wealth of gold that the Guggenheims of New York will derive from the river beds in Yukon territory is the matter particularly commented upon by Stockton. He emphasizes the fact that the gold production there this season will be a record one. Although too early to make anything approaching a fair estimate, he declares that figures, when they can be given with some degree of accuracy, will prove a big surprise.

Owing to the new method of hydraulic mining by electric lifts adopted by the Guggenheims, the big clean-up will not take place until a few days before operations are suspended this fall.

BRYAN IS PEEVISH ABOUT ROOSEVELT

Resents Stand President Has Taken
in Campaign Matters.

Columbus, Neb., Oct. 14.—Bryan began the second day's tour of Nebraska without showing any signs of fatigue from the ten hours' actual talk and fifteen hours on the train yesterday. He made the first speech of the day at North Bend at 8 o'clock. At Schuyler he said that he resented what he termed the unfair attitude of President Roosevelt in taking part in the campaign. He had supposed he was running against one Republican but it seemed that he was pitted against two.

CONTINENTAL CASUALTY OPENS OFFICES HERE

Arthur W. Bicker, Jr., With Force of
Clerks Secures Rooms in L. &
S. Building.

Arthur W. Bicker, Jr., territorial manager in New Mexico and Arizona for the Continental Casualty company, arrived in Albuquerque today from Phoenix, Ariz., and will open up the headquarters of the agency here. He secured apartments in the L. & S. building at Second street and Copper avenue and will put a force of clerks at work as soon as the office fixtures are in place.

"I have transferred the entire business here from Phoenix because there are better facilities in Albuquerque," said Mr. Bicker. "My wife and two children arrived here several days ago and are visiting with friends. We expect to build or buy a home here. I am very much impressed with the business outlook in Albuquerque and consider it far superior to any other city in the southwest. The Continental Casualty company sells only accident and health policies. This company is now paying an average of 300 claims a day, which is considerable of a record for any company. We have been doing a good business in New Mexico and Arizona but we expect to double it and we think that we can help ourselves materially by locating in Albuquerque."

RINK'S NEW FILMS PROVE INTERESTING

The new pictures, at the rink last night proved equally as interesting as those of Monday night, the subjects being well selected and the photography in each was perfect. The same bill will be repeated tonight, consisting of "An Enterprising Florist," showing how this merchant created an immense demand for flowers by the use of a little printer's ink.

"The Checker Board" shows two devotees of this old-time game indulging in their fondness for the game at every opportunity, using everything from a checker board to a checkered career to indulge their passionate love for the game. "The Promise" is a tragic picture of a promise made and broken, causing heartaches and remorse of the most pathetic kind.

"An Indian's Honor" is a beautiful story of the friendship and fidelity of two noble redmen.

Tonight Prof. Gibbs will play a violin solo and accompany the illustrated songs with obligatos.

PARTIES PLAN WHIRLWIND CAMPAIGN

Conservation of Resources Comes to the Front as One of the Big Issues.

Chicago, Oct. 14.—With election day less than a month away, Republican and Democratic campaign headquarters here show signs of new life and preparations are being made for a whirlwind campaign, which it is hoped will partially make up for the comparative inactivity of the earlier months. At the same time new issues are coming to the front, foremost among which is the movement for the conservation of the natural resources of the country. Political emissaries report that in some of the doubtful congressional districts this issue is the deciding factor in the line-up and that the so-called "progressive" candidates are making the most headway, regardless of party. This is said to be particularly true in states where the wasteful exploitation of timber and mineral resources has begun to tell on the visible supply to such an extent that there is danger of exhaustion unless active steps are taken to check the waste. According to figures based on departmental reports at Washington, our annual consumption of lumber is three times the annual growth, and the latest official estimate puts the total present timber supply in the United States at less than enough to last for thirty years more, at the present rate of use. Much of this waste, for as many trees are consumed by forest fires each year, due to carelessness and lack of precautions, as are felled for lumber or pulp. These and other facts are being brought out in the campaign speeches and candidates who have pledged themselves to support legislation to stop this public waste state that they find a growing sentiment in their favor that is not to be accounted for by party affiliations. This sentiment is being strengthened all the time by the vigorous campaign which is being waged by the Conservation League of America, the headquarters of which are in this city. Backed by President Roosevelt, and having the active support of both Bryan and Taft, who are honorary officers, this organization is trying to awaken interest in the critical state of the national resources as a result of a hundred years of waste and unscientific methods. One of the latest discoveries of the league is the fact that over a billion cubic feet of natural gas is escaping every day from oil wells, flambous and pipe lines, for lack of the simplest provisions to save it and turn it to account.

RECORD BREAKING RUN OF CATTLE

Receipts at Kansas City Last Week Exceeded All Previous Shipments.

Kansas City Stock Yards, Oct. 14.—Heavy supplies of cattle arrived here last week, 97,500 head, including 14,000 calves, the biggest run of cattle, and of cattle and calves combined, ever received here in a single week. The market was 10 to 20 cents lower first of the week, but held steady after Tuesday, when western beef steers closing the week a little better than last time. The run today is 26,000 head, market steady to 10 cents higher on killing cattle, stockers and feeders strong. The big run today and the strong market, immediately following the extraordinary receipts last week, indicated the tension to which this market here is keyed. Big runs are expected balance of this week, attracted by the cattle show, which opened here today. Country demand is growing shipment to the country last week 1,000 cars, heaviest week this year. A large share of the run today is from Oklahoma, New Mexico and the Panhandle, beef steers selling at \$3.40 to \$4.30, cows \$2.65 to \$3.60, bulls \$2.30 to \$3.00, calves \$2.50 to \$3.50, stockers \$2.00 to \$4.25, feeders \$3.50 to \$4.40. Colorado furnished a good share of the cattle last week, and several trains are en route for later this week, but very little here today from that territory. Colorado beef steers bring \$2.60 to \$4.25, stockers and feeders \$2.50 to \$4.25, cows \$2.00 to \$3.75. Sheep and lambs are coming freely, 55,000 head last week, and the market is 10 to 15 cents lower than a week ago on sheep, 15 to 25 cents lower on lambs. Run today is 10,000 head, market about steady, killing lambs at \$5.00 to \$5.50, yearlings \$4.00 to \$4.50, wethers \$3.50 to \$4.25, ewes \$3.50 to \$4.10. There is not much fluctuation in stock and feeding stuff, although prices follow the changes in the market for fat stuff in a measure. Feeding lambs bring \$4.25 to \$4.50, wethers and yearlings \$2.50 to \$4.00, breeding ewes \$3.75 to \$4.50. From the movement of buyers in the last two weeks any reduction in the volume of receipts will likely be met by stronger markets, as there is a good outlet for the meat.

Where Bullets Flew.
David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done me more than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters and they cured me. I now take them as a tonic, and they keep me strong and well." 50c at all dealers.

WIRELESS FROM SAN FRANCISCO TO HAWAII

Operators Talk Distance of 2,395 Miles Without Experiencing Difficulty.

San Francisco, Oct. 14.—San Francisco and the Hawaiian Islands clasped hands at an early hour Saturday morning through the medium of the wireless telegraph. While most of the residents of the city were soundly asleep in their homes, Governor Frear sent his "Aloha" to the people of the United States. It was a new mark in the history of the wireless telegraph.

With but half his power installed the operator on the islands talked at intervals of two hours with the operator here, from the new ten kilowatt station now in course of erection on Kakaia point, island of Oahu. The messages were clear and distinct to the operator at the United Wireless Station here, and when the full power is on at the island station, it is stated that there will be no difficulty of taking and receiving messages under all climatic conditions.

It was a most thrilling moment for the operator on that far-away point, as he listened for a response to his call. At intervals for the past two months, during the erection of the new station at the island, Experi Isabel would catch bits of conversation being held along the western shores of the United States between the stations here and the vessels out at sea. Finally, one night some weeks ago, he caught a message fair and clear between the United Wireless Station here and a ship at sea, and he took it down and sent the message in a letter to the station here and asked them to verify it. An inspection of the books showed the wording of the aerogram to be correct letter for letter.

But Isabel had only a part of his plant in order. The sending part of his apparatus was not in place, so for weeks the operators along the coast have been straining and listening in hopes that they might be the first to get the whisper from the palm groves of the Central Pacific. It was about 1:20 a. m. and about 11 o'clock island time Saturday, when Lawrence Malarin in the United Wireless Station here, started up in his seat, pressed the receivers over his ears, started by the telegraphic code that was calling his number, and heard the name of the far-away station attached to the message. He waited as he wanted to see if any of the other stations had caught the call, and then he wanted to be sure. Again came the call, and this time he answered, and in a minute greeting and congratulations were being sent as fast as the instruments could be operated.

Isabel at the island was delighted. He told Malarin that he was living in a place surrounded by about 700 Japanese and his only companions were present.

From his station Isabel told the islands of the archipelago, Governor Frear was informed that his dominion was talking without any connection but the air with the mother country 2,395 miles distant and he sent his congratulations and best wishes. The various islands with which there are numerous wireless stations were all on the alert. They could hear their central station talking across the seas and there was excitement and questioning from every direction.

TOWN OF BRAZITO WILL BE A MODEL
Seventh Day Adventists Plan Community in the Mesilla Valley.
Las Cruces, N. M., Oct. 14.—The surveys and plat of the new town of Brazito, located on the Brazito grant tract, seven miles south of here, are now being made. The promoter of the new colony, William A. Ross, an officer in the Seventh Day Adventist church, has been spending several months past in the Mesilla valley, ranging for the colonization of 8,000 acres in the Brazito. The tract will be colonized into ten, twenty and forty-acre tracts by the members of the Adventist faith.

Brazito will be strictly prohibition and promises to be as unique in government as was the old Salem colony. The government will be above criticism and the town will support an Adventist church, a church school and a number of business houses, including a national bank. Mr. Ross, president of the Ross Realty company, in charge of the new enterprise, has sent out a large amount of advertising matter, and the Mesilla valley has also been extensively advertised through the project. While Brazito will be a community where those of the Adventist faith may find a congenial residence, the town will not be restricted to this faith exclusively. Any citizens so desiring may locate here and receive the advantages offered by the enterprise.

SNAPSHOT OF TAFT BIDDING CROWD GOOD-BYE AS HE STEPS ON HIS SPECIAL CAR.

TAFT RETAINS SMILE AND ENERGY

Candidate Has Strenuous Time on Campaign But Stands It Remarkably Well.

Cincinnati, Oct. 14.—Wm. H. Taft has traveled the world over and has tackled and solved many of the biggest, toughest questions confronting the government, but the job he is on now is the most strenuous in all his career. Traveling in an upholstered car, meeting a multitude of enthusiastic friends and listening to the band would strike the layman as providing one of the greatest joys of life. So it would, for a day or two. But when it's an unbroken program week after week, for from 15 to 20 hours a day, the ordeal is calculated to try a man's temper and his strength clear to the limit. Gamblers in all the tests to which he has been subjected, Taft retains his smile and energy.

Of see him when he returns to his car after a half hour stop at Wayback Corner, where he has made a speech, shaken hands with 1000 men and women, taken a carriage ride past the residences of the mayor, the man who used to be in congress, and the man who made his fortune out of bone buttons, and has persisted until his collar is a delirium could convince any man that all the honors that could result from such hard work would be well earned.

Hello, Bill," greets him at sunrise and is the last thing he hears at night. If the candidate isn't up at the first "Hello Bill," the man who shouts it generally yells: "If you don't come out here and let us see you we'll vote for Bryan," which is considered a great joke in that locality. If Mr. Taft is within earshot of the pliancy he smiles broadly and looks out of the window or comes to the rear platform, where his admirers can see him.

Mr. Taft's special train consists of the Constitution; the private car Riva, for the use of his office force and the newspapermen; the Alabama, a compartment Pullman occupied by newspapermen and invited guests; the Ponce de Leon, a Pullman diner, and a baggage car which carries the trunks of the party and great stacks of literature, and pictures and boxes of campaign buttons, which are distributed by direction of the national committee at every stopping place. Mr. Taft's immediate party includes his secretary, Fred W. Carpenter; Dr. J. J. Richardson; Representative Boutell of Illinois and Rev. John Wesley Hill of New York, the "spellbinders" who talk to the crowds when Mr. Taft's voice gets tired; Gus J. Karger, the official publicity agent; Jas. T. Williams, who represents the national committee chairman; Col. Daniel Randall, sergeant-at-arms of the United States senate, who is in charge of the train; stenographers Mischler and Curtis, who attend to Mr. Taft's correspondence.

and 10 newspaper correspondents. Mr. Taft's life on board the train is devoted to routine work as well as handshaking and speechmaking. There are hundreds of letters to read and answer. There are the newspapers to go over every day, so that the candidate may keep himself informed on all that is going on politically. There are telegrams to be dispatched and answered at every stopping place. There are interviews to be prepared and speeches framed. Pictures must be autographed; telephone calls must be answered when the big cities are reached; and last but by no means least, there is the all-important voice to be nursed and treated, and kept in shape by the throat specialist. Just as soon as Mr. Taft leaves a town, Dr. Richardson seizes upon him and whisks him into the little compartment office which is fitted up with spraying machines and a regular apothecary's stock of chemicals and materials. The candidate then submits his throat to a thorough treatment, and by the time the next stop is reached, the speaking apparatus is again ready for the ordeal. The fact that Mr. Taft is obliged to talk in all kinds of weather, and on the train, where coal dust is continually filling his throat, accounts in a large measure for the difficulty he is meeting.

The meals served Mr. Taft are what one usually finds on a Pullman diner. His car is stocked by the Pullman service at every important city. He is a hearty eater, as almost all large men are, and on his trip is eating one more meal a day than he does when at home in Cincinnati or Washington. He never has luncheon when at home, going without this meal in order to keep down his flesh, but on the present tour takes his place at the midday meal in order to entertain the numerous senators, governors, congressmen and important local committee men who come aboard to ride with him through the land where the ballots bloom.

JEWES ARE BUYING LAND IN PALESTINE

New Turkish Constitution Proves a Great Boon to Zionism.

Jerusalem, Oct. 14.—The Turkish constitution has proved an immense boon to Zionism. Jews were formerly forbidden to buy land in Palestine. They did so by stealth, but are now making purchases openly. A report is current that the crown domains, extending over a large portion of the whole length of the Jordan valley from Tiberias to the Dead sea, and forming the sultan's private estates, are in the market, and that a Jewish syndicate is negotiating their purchase. There is little doubt that the Jews will soon once more be in possession of the site of ancient Jericho, the land which was the first fruits of their conquest in Canaan. The larger part of the Holy City outside the walls already belongs to Jewish capitalists and Zionist pioneers. A remarkable event occurred at Nazareth last week. The Moslem judge invited all the Jews as well as Greeks, Romans and English churchmen, to the mosque. A large mixed crowd gathered. The judge went up to the pulpit and preached a long sermon. An English clergyman followed and spoke from the same platform.

PLACE YOUR ADS IN THE ALBUQUERQUE CITIZEN

Some Reasons Why

The C

Because The Citizen is a home paper. It is either delivered by carrier as the house or is carried home by the business man when his day's work is done and it STAYS THERE. A morning paper is usually carried down town by the head of the family and hurriedly read.

The Citizen is not read hurriedly, but thoroughly, so that all advertisements receive their share of attention. It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

T

Wise advertisers patronize The Citizen because they know their advertisements are seen and read at the homes in the evening, and if they are offering something worthy of attention, their ad has accomplished its mission.

I

The Citizen has never given premiums to subscribers, but is subscribed to and paid for on its news merits, showing that its subscribers have money with which to buy what they want from legitimate merchants. These are the people The Citizen invites to your store.

Z

The Citizen employs a man whose business it is to look after your advertising wants. He will write your copy if you wish. If not, he will see that your ads are "set up" to look their best and he will attend to them from day to day.

E

Are you advertising in The Citizen? Your competitors are, and are profiting by it. Do you think conservative business men are spending money where they are not getting results? Get in the swim and watch your business grow.

N

Is the Best Advertising Medium in Albuquerque

CLASSIFIED ADS

THEY REACH MORE PEOPLE DAILY THAN YOU CAN SEE IN A MONTH

WANTED

WANTED—To buy a second-hand car. E. D. M. CHIZEN.

WANTED—Two tinner at once. McIntosh Hardware company, Albuquerque, N. M.

Why Colds are Dangerous.
Because you have contracted ordi-
nary colds and recovered from them
without treatment of any kind, do
not for a moment imagine that colds
are not dangerous. Everyone knows
that pneumonia and chronic catarrh
have their origin in a common cold.
Consumption is not caused by a cold
but the cold prepares the system for
the reception and development of the
germs that would not otherwise have
found lodgment. It is the same with
all infectious diseases. Diphtheria,
scarlet fever, measles and whooping
cough are much more likely to be
contracted when the child has a cold.
You will see from this that more real
danger lurks in a cold than in any
other of the common ailments. The
safest and quickest way to cure a
cold is to take Chamberlain's Cough
Remedy. The many remarkable
cures effected by this preparation have
made it a staple article of trade
over a large part of the world. For
it is by all druggists.

It is not what you pay for advertising
but what a advertising PAYS
YOU, that makes it valuable. Our
rates are lowest for equal service.

Why Colds are Dangerous.
Because you have contracted ordi-
nary colds and recovered from them
without treatment of any kind, do
not for a moment imagine that colds
are not dangerous. Everyone knows
that pneumonia and chronic catarrh
have their origin in a common cold.
Consumption is not caused by a cold
but the cold prepares the system for
the reception and development of the
germs that would not otherwise have
found lodgment. It is the same with
all infectious diseases. Diphtheria,
scarlet fever, measles and whooping
cough are much more likely to be
contracted when the child has a cold.
You will see from this that more real
danger lurks in a cold than in any
other of the common ailments. The
safest and quickest way to cure a
cold is to take Chamberlain's Cough
Remedy. The many remarkable
cures effected by this preparation have
made it a staple article of trade
over a large part of the world. For
it is by all druggists.

It is not what you pay for advertising
but what a advertising PAYS
YOU, that makes it valuable. Our
rates are lowest for equal service.

NOTICE FOR PUBLICATION.
Department of the Interior, Land Of-
fice at Santa Fe, N. M., September
23d, 1908.
Notice is hereby given that Juanita
Shore, of Laguna, N. M., has filed
her claim to the land to make final
proof in support of her claim, viz:
Homestead entry No.
1688 (01724) made July 1st, 1903,
for the SE 1/4 SW 1/4 and SW 1/4 SE 1/4
Section 14, Township 7N., Range 5W.
and that said proof will be made be-
fore George H. Pratt, at Santa Fe, N. M.,
on November 9th, 1908.
His name the following witnesses
to prove his continuous residence
upon and cultivation of the land, viz:
Webb Moore, of Laguna, N. M.;
John Pratt, of Laguna, N. M.; Rob-
ert Marmon, of Laguna, N. M.;
George K. Marmon, of Laguna, N. M.

Thoughts for Shoe Buyers

SEVERAL DOLLARS are required to get a really good pair of shoes. If you pay too little you get trash and if you pay too much you are paying for a name or a fad.

At this store we steer a middle course. We do not sell shoes so cheap that they can not wear, nor do we ask fancy prices.

This is a popular, reliable shoe store. Come and see us.

Men's Street and Dress Shoes	\$2.50 to \$5.00
Men's Work Shoes	\$2.00 to \$3.50
Men's High Top Shoes	\$3.50 to \$5.00
Women's Shoes	\$1.50 to \$3.00
Women's Slippers and Oxfords	\$1.10 to \$1.00
Shoes for Boys and Girls	\$1.00 to \$2.50

Faultless Fall Styles

Every day adds Something New to our display of Fall Millinery.

OUR SHOW ROOM is filled with the Newest Creations in Trimmed and Pattern Hats. If you are still 'looking' you can not fail to find it here.

For the Man Who Walks one mile or ten a day—it's all the same if your feet are ready for business in **STETSON Corndodgers**

Foot-freedom, comfort, ease, that's what this model is built for.

THE **"Corndodger"** IS A **STETSON SHOE**

with all that means of STETSON wear and worth. Look at the shape—roomy, sensible, snug—conforming point for point with the natural lines of the foot.

Make the Corndodger your week-day shoe. It means the certainty of shoe-comfort every minute you're wearing it—six days out of every seven.

Call and get our book "THE RIGHT TO KNOW." The reading of this is really worth your while. It's a new book, based on new ideas, that gives you an X-ray view of a good shoe in the making. Send for it. Read it. Learn by it.

PERSONAL

PARAGRAPHS

Should you fail to receive The Evening Citizen, call up the Postal Telegraph Co., telephone No. 36, and your paper will be delivered by special messenger.

Insure in the Occidental Life. The Elks will hold regular session tonight.

C. S. Culp, a prominent sheep buyer of Scottsdale, Kan., is spending several days in Albuquerque on business.

Dr. J. F. Welsh, of Salisbury, Mo., is here for a short visit at the home of Dr. S. L. Burton, of South Walter street.

Navajo tribe No. 3, J. O. R. M., will meet tonight in regular session in Red Man hall at 8 o'clock sharp. Visiting brothers are welcome.

Mrs. R. H. Lester has returned to Albuquerque after a several months' visit with friends and relatives in Georgia, New York and other eastern states.

Robert W. Bull, of Kelly, superintendent of the Tri-Bullion Smelting company near Magdalena, is spending a few days in Albuquerque looking after business interests.

Dr. and Mrs. Griffith of Oklahoma, who spent the spring and summer in Albuquerque, stopping with Mrs. Garden on West Silver avenue, left on the limited today for southern California.

Rev. Fletcher Cook, of the St. John's Episcopal church, returned to the city this morning from his monthly trip to Gallup and Winslow, where he officiated at churches in those cities.

The 21st of November is the date set for the bazaar to be given by the Woman's Christian Temperance union. Aprons and fancy work to suit the most fastidious will be on sale. Also home cooking.

There will be a regular meeting of Temple Lodge A. F. & A. M. tomorrow evening at the lodge rooms of the organization, at which time the matter of the building of the new temple will be considered. All members are urged to be present.

The regular monthly meeting of the Home and Foreign Missionary societies of the First Methodist church will be held at the home of Mrs. I. F. Keeping, 606 West Silver avenue, tomorrow (Thursday) at 2:30. All members and those interested are cordially invited.

Henry Loeb, a prominent stockholder of the Southwestern Brewing company of this city, departed today for Salina, Calif., where he goes to engage in the brewing business. Mr. Loeb will be accompanied by his family. He will still retain his interests in the local brewing company.

Prof. Di Mauro, the well known violinist, heads an orchestra of Albuquerque musicians just organized for concert work of all kinds. Music for dancing and concerts a specialty. Lessons on violin and piano. Address Prof. Di Mauro, care of Leonard & Lindemann music store.

Gustave Kopp, connected with the advertising department of the Chicago Record-Herald, departs this evening for Santa Fe on business. After a short stay there in the interests of his paper, he leaves for Kansas City and thence to his headquarters in Chicago.

Mrs. Mary A. Phelin has moved her apartments from the Grant building,

where she has been located for the past four years, to the Wilcox rooming house over the Leader store, at which place she will make her home as well as her office in the near future.

A party consisting of the following popular Albuquerqueans will enjoy an outing at Camp Whitcomb tomorrow, and judging from the preparations being made by the picnicers, a glorious time will be enjoyed: Misses Helen Pratt and Lillian Elwood and Messrs. Frank E. Korman and Prof. R. Fuhrmeyer.

Paul Teutsch, New Mexico agent for the North German Lloyd Steamship company, has issued transportation to the following New Mexico people going abroad and embarking on the Kaiser Wilhelm, which sailed from New York yesterday: Mrs. H. W. Green and Mrs. Joshua Reynolds and Sarah May Reynolds.

None of the electric improvements made on the Alvarado for the irrigation congress will remain permanent. The officials of the company contemplating at first leaving the lights on the tower over the depot but this has been given up. The lights have been removed from the hotel and those on the depot will go next.

Rev. Dr. Warren and family, who for the past ten days have been in this city the guests of Mr. and Mrs. Fletcher Cook, leave this evening for Silver City where he will take charge of the Episcopal church at that place. Rev. Warren was for ten years rector of St. Andrews church at Jacksonville, Florida.

Miss Josephine Foard and Mrs. J. B. Babbitt spent yesterday in Albuquerque en route for the east. Miss Foard is government pottery expert and glazing instructor to the Pueblo Indians at Laguna, and will spend several weeks with her parents in New York. Mrs. Babbitt is field matron at Laguna and will spend the coming weeks in Washington.

E. A. Clemens, who has been in Albuquerque the past two weeks attending the fair and the stockmen's convention, left last evening for his home at the A. L. ranch about twenty miles from Magdalena. Mr. Clemens is secretary of the newly organized New Mexico Cattleman's association, and one of the most prominent stock raisers of the central part of the territory.

Rafael Tagliaventi, who resides on North Broadway, saw out a complaint in Judge Craig's court this morning charging Aurelia Navas of the same neighborhood with larceny. He said that he came home at 9 o'clock last night and found Navas carrying away an armful of his alfalfa. He said that at least 200 pounds of the hay was gone and it was worth a cent a pound.

The Phoenix baseball winter league started on Sunday with two exceptionally strong teams. It is so warm in southern Arizona that the sport is good all winter long. The league at present is composed of two teams, both supported on a percentage basis, the players receiving a percent of the gate receipts. Each team also receives support from a business house whose name it sails under. Baseball is a big attraction for winter visitors to Phoenix.

The Royal Highlanders held a large and enthusiastic meeting last evening in the Elks' hall. C. E. Davis, the newly appointed state deputy, who conducted the meeting, has arranged for the granting of a new charter for the organization, and an effort will be made to increase the membership to five hundred. A number of entertainments will be given during the coming season by the lodge, the first of which will be a ball in the Elks' building, October

27. The lodge will meet Thursday evening in the office of John W. Wilson in the State National bank, and it is hoped that an especially large number will attend.

While hunting for quail on the other side of the river in the neighborhood of Pajarito Monday afternoon, W. T. Thornton, proprietor of the Thornton cleaning works, was hit around the right eye by some shot from a gun in the hands of a companion with whom he had been hunting. Luckily the latter was some distance away and the shot glanced off, leaving small black and blue marks around the eye. Fortunately the eyeball was not touched.

THE PARAMOUNT ISSUE

Political platforms means but little after an election. The country settles itself down to the ordinary administration of business. Usually the successful party assumes in a general way to carry out the issues of the campaign, but the issue of greatest importance is the man himself. Can he promote honesty in public life? Will he instill high moral ideas into our American manhood? Is he a man of broad information and possessed of the principles of upright conduct and justice? If so, he is the man to be made the chief magistrate of our nation. New issues arise daily that were never thought of during the campaign and the nation needs a man that can carry them through to the best interests of the people.

Then your next duty is to your own household. Buy your goods where you can get the best for the money. We handle a good line of goods and mark them at a reasonable profit and no more. We carry everything a well regulated book and stationery store usually carries. We have almost our entire Xmas line of souvenirs—leather goods, books, stationery, etc., etc., shipped in before the irrigation congress, so that at this time our line is quite complete. Keep us in mind if you are in need of leather goods, such as banners, pillow tops, handbags, purses, etc. Our prices are the cheapest.
