NUM. 111

BROKE INTO STATEROOM TO SERVE SUMMONS ON HEARST

Nebraska Officer Refused to Be Bluffed by the Wife of the New York Editor.

HASKELL SUES FOR \$600,000 DAMAGE

Files Case in Nebraska County District Court Because of Statements Made by Hearst—Hearst Offers Money to Governor.

Omaha, Oct. 15.—After a dramatic scene on Union Pacific train No. 2 last night in which the door of his stateroom was broken open by a deputy sheriff, W. R. Hearst was served with papers notifying him of a suit for \$600,000, which has been brought against him for slander and libel by Governor Haskell, of Oklahoma, in the Douglas county, Nebraska, district court.

The train on which Hearst and his wife were passengers was due at 9:40 but did not arrive until 11:20. Deputy Sheriff Stewart was on hand with a summons, and orders to serve it without fail. When the train pulled in he boarded it and knocked on the door of the stateroom occupied by Mr. and Mrs. Hearst.

An inquiry through the door for Mr. Hearst brought the information from his wife that her husband was not in the stateroom but had gone to the depot to send a telegram. The deputy threatened to break the door if he was not admitted and Mrs. Hearst screamed out that she was alone and would admit no man.

The deputy thereupon came out his threat and broke open the door, finding Mr. Hearst partially asphyxiated and apparently on the verge of hysteria. Stewart then started to kick in the door of the toilet room adjoining, but the door was quickly opened and Hearst stepped out. The deputy thrust the papers into his hands and Hearst accepted them.

Hearst said the summons was entirely unexpected as he did not have a suspicion of anything of the kind occurring in Omaha.

"Why did you refuse admittance to the officer?" was asked.
"Because myself and wife were retiring for the night," explained Hearst.

"Frankly, I don't believe this case will ever come to trial and the knowledge of this suit does not disturb me in the least. When Haskell said, not long ago, that his only reason for not bringing suit against me was because of lack of funds, I offered to donate the necessary amount from my own pocket, and this offer still holds good."

NORTHERN PACIFIC USES BLOCK SYSTEM

Invention of Division Superintendent Makes Collisions Impossible.

Tacoma, Oct. 15.—Today all the Northern Pacific trains operating between Trout Creek, Mont., and Tacoma come under the control of the A. B. C. block system of train dispatching devised by A. Beamer, superintendent of the Idaho division. All western lines on the road excepting the division between Portland and Tacoma are now operated under the new system, which, it is said, makes collisions practically impossible. The adoption of the A. B. C. system will, it is asserted, completely revolutionize the method of train dispatching. The system has been adopted after extensive and thorough tests extending over more than a year. Under it trains are run between block stations, which are ordinarily about ten miles apart, on authority of a block card issued by an operator by the direction of the train dispatcher at the headquarters of the series of blocks. This card gives the train a clearance only to the next block station. Beyond that it cannot proceed until given authority by the issuance of another block card. All trains are run entirely independent of each other, the card system eliminating the necessity of comparison of orders between conductors and engineers of different trains waiting for orders and uncertainty of movements of other trains ahead or following.

Several months ago half a dozen general superintendents of the Harman lines, then conferring at Portland, came to Tacoma and Spokane to investigate the workings of Superintendent Beamer's new system, then being tried out between Pasco and Spokane.

TAFT IN TENNESSEE.
Chattanooga, Oct. 15.—Taft and party arrived here this morning after an all-night train from Louisville.

RAILROAD MANAGERS ARE CRITICIZED BY LAND

Commissioner Explains Car Shortage Situation and Places Blame for It.

ASKS UNIFORM DEMURRAGE LAWS

Says Conflicting Regulations of Various States Cause Trouble and May Result in National Laws to Change Conditions.

Washington, D. C., Oct. 15.—Adoption of car service and demurrage laws that will be uniform in all states of the union is the recommendation carried in the report of the committee on car distribution and car shortage, presented by Franklin K. Lane, a member of the interstate commerce commission, at the meeting of the state railroad commissioners held here. Commissioner Lane has made a study of this question extending over a period of several years, which included the time of the serious car shortage in all sections of the country in the winter of 1906-07, and is, therefore, probably the man best qualified to speak on this subject from an unprejudiced point of view.

"State authorities have no jurisdiction over the demurrage or free time upon interstate shipments," Mr. Lane says. "They have full jurisdiction, however, over demurrage and free time upon purely intrastate shipments. This division of jurisdiction over what is practically one mass of equipment will be disadvantageous to both carriers and shippers unless the rules for interstate demurrage and intrastate free time are made harmonious, and are framed with a view not to securing free storage time for shippers, but to securing the largest possible use of railroad equipment as a means of transportation."

"It is evident that the public interest requires that car service rules throughout the North American continent should be harmonious, and under like conditions absolutely uniform. The entire body of railroad equipment is part of practically one system of transportation. Especially is this true of freight cars."

"For years an agitation has been carried on to secure the pooling of freight cars by American railways. During the agitation it developed that the cars actually are pooled in practice, cars moving from road to road freely and railways using cars upon their rails regardless of their ownership."

"As the body of freight car equipment is practically a unit, the system of rules governing its use should be free from conflict. It is evident that the local regulation of this subject must have in mind the general good, or local regulation will find itself compelled to yield to national regulation. Good faith and intelligence on the part of local regulatory bodies will secure uniformity of car service rules without any shifting of jurisdiction."

Commissioner Lane then points out the necessity of a concerted movement for uniformity of car service and demurrage by calling attention to the fact that twenty-five states enacted car service laws following the car shortage of 1906-7. Twenty states provided for reciprocal demurrage, but their laws differed widely, and in one state, Texas, the law was so radical that it has since been declared unconstitutional.

Discussing the question of car supply and the effect on that supply in case of shortage, Mr. Lane says: "A careful study of the car shortage of 1906-7 showed that on a great many systems there was an inadequate use of the cars in hand. This failure to use properly equipped in hand was due to inadequate motive power, to insufficient terminals and to bad operating methods, and also to the action of the shippers in using cars for storehouses and thus withholding them from their true function as means of transportation."

"A striking phenomenon of American railroads at times of car shortage is that the daily mileage of freight cars immediately decreases—that is to say, as soon as efficiency in the use of freight cars is needed the cars begin to do less work a day. The causes of this phenomenon are numerous and interrelated. Railroad managers correctly say that insufficient terminals lack of passing tracks and lack of motive power are responsible for the failure of cars to keep moving."

"As one railroad manager put it no more water can go through a hose than can escape through the nozzle. Cars that move, he says, must move through terminals, and when the terminals are congested or blocked the effect reaches every train on the system."

Mr. Lane says this is true, but it

WHEN THE AMERICAN SAILORS ARE IN JAPAN

SUNDAY LAW HELD VOID BY CIRCUIT JUDGE IN OREGON

Decides That It Interferes With Religious Freedom and Is Unreasonable.

MAY CARRY CASE TO THE SUPREME COURT

Portland, Oct. 15.—Judge C. Gantenbein in the equity department of the state circuit court today, decided that the statute prohibiting the transacting of business on Sunday is unconstitutional. District Attorney George J. Cameron says that he has not yet decided whether he will carry the case to the supreme court.

Judge Gantenbein assigns five reasons why the law conflicts with the federal constitution. He decides that it restricts religious freedom, in that it was passed for the purpose of compelling observance of the Sabbath; that it was not passed as a matter of police power; that it is discriminatory in exempting theaters, and finally that the law is both unreasonable and arbitrary. The opinion states that if a Sunday closing law is desired by the legislature the court recommends for its study as a model the Idaho statute.

Judge Gantenbein followed the reading of his opinion by making the temporary injunction restraining the authorities from molesting business permanent. The saloons are not affected by Judge Gantenbein's decision. There is a specific statute prohibiting their opening on Sunday, passed under the police power of the state.

The law which Judge Gantenbein today declared illegal was passed by the state legislature in 1864, complete a proper observance of the Sabbath day, and, so far as known, it has been a dead letter until two weeks ago. District Attorney Cameron, arrested it from its peaceful sleep of half a century and attempted to enforce it to the letter. The statute lacked only the pilory and the whipping post to have made it an ideal New England blue law. Its provisions even are antiquated, and its provisions ridiculous. For example, it requires grocery stores to remain shut, it permits butchers shops to remain open; newspapers are not prohibited from printing a paper on Sunday, but they cannot sell them.

MCKINLEY COUNTY DEMOCRATS NOMINATE

At the Democratic convention of McKinley county held in Gallup on the 14th the following were nominated: Superintendent of schools, F. A. Waring; county commissioner, second district, S. M. Brown; county commissioner, third district, George Kraker; probate judge, Charles M. Sabin; sheriff, John L. Pritch; assessor, Ross Beddow; treasurer, F. C. Swartz and surveyor, W. D. McKinney.

VENEZUELA TO RESIST DEMANDS MADE BY HOLLAND

Coast Towns Being Made Ready for War in Castro's Country.

FIXES NOVEMBER 1 THE DATE TO ANSWER

Caracas, Oct. 15.—"The revocation of the decree of May 14 is demanded in the most energetic manner—the government of Venezuela must from this moment, and without delay, fulfill the protocol of 1904, and not prolong the intolerable state of affairs which it has created by the decree of May 14."

These are the words of the minister of foreign affairs of the Netherlands in his note of August 29, in which he answers Venezuela's communication telling of the summary dismissal of Minister De Reus from Caracas.

Another note followed, but because of General Castro's illness it has not yet been answered, but it is generally understood here that Venezuela will not give in to any of Holland's demands.

Although the Netherlands note asks for the immediate revocation of the trans-shipment decree, it has been reported that the second note fixes the date of November 1 as the time when this must be done, thus giving the note the nature of an ultimatum.

That Venezuela is being prepared to resist invasion and that the many big defense coast towns have been made ready for an emergency is common knowledge here.

RICHEST STRIKE MADE AT NOME

Tacoma, Oct. 15.—Some dispatches report one of the richest placer strikes in the Nome district. The find was made recently on the Yellow Jacket claim, in the neighborhood of Captain E. W. Johnston's holdings on the third beach. Two miners, named Peterson and Hall, have run into the rich dirt. On September 27th they pinned gravel that ran from the face of the drift in which they were working from \$3, 115, 116 and \$143 to the pan. A big body of this dirt is in plain sight.

Hall has worked the claim for more than a year, with slim result until "Ramps" Peterson took charge of the workings. The strike has renewed activity in the "Sloughover Beach" which appears to follow and parallel the third beach line.

RAILWAY BRIDGE DESTROYED.

St. Petersburg, Oct. 15.—A dispatch to Novoe Vremya today from Belgrade says that the railroad bridge over the Bosna river at Vranduk, Bosnia, had been blown up and destroyed, cutting off communication with Sarajevo, the capital of Bosnia.

POLITICAL MEETING THE BIGGEST EVER AT ROSWELL

Delegate Andrews and Party in Valley.

REPUBLICAN CLUB HAS BEEN FORMED

Roswell, N. M., Oct. 15.—The largest political meeting in the history of Roswell was the one held at the court house here last evening when over five hundred gathered to greet Delegate Andrews and party. The building was crowded and enthusiasm was shown by Democrats and Republicans alike.

When Delegate Andrews stated in his speech that he could and would get statehood for New Mexico at the next session of Congress his audience cheered five minutes before the chairman could bring order. Other speeches were made by members of the party and local leaders and after the meeting Delegate Andrews received encouragement from a number of Democrats, who assured him of support at the polls this fall.

A monster Republican club was organized by Attorney General Hervey and R. C. Niblett and Roswell now has one of the best Republican clubs in the territory. Meetings are planned every week and the club will take an active part in the campaign from now on. As there is great enthusiasm here for statehood Delegate Andrews will get the support of many Democrats who recognize his ability to secure statehood for the territory at the next session of Congress.

Delegate Andrews and party were well entertained here. They were taken to the annual horse show in automobiles and were then shown about the city.

HIS AEROPLANE FELL.

Aldershot, Oct. 15.—Captain F. Coady, the American aviator, who spent several years in British service, in charge of the kite section of the army, made an attempt today at a flight in his aeroplane. After reaching the height of twenty feet, however, the machine fell and was wrecked. Coady escaped uninjured.

PRESIDENT APPOINTS REGISTER AT ROSWELL.

Washington, D. C., Oct. 15.—President Roosevelt today appointed Thos. S. Tillotson as register of the land office at Roswell, N. M. The appointments of Frank H. Park as register, and George L. Cugsbee as receiver of the land office at Phoenix, were also announced.

MILLION FOR A HOSPITAL.

New York, Oct. 15.—It was announced today that James S. Kennedy, the New York banker, has given \$1,000,000 to the Presbyterian hospital of this city of which he is president. The money is to be used in construction of buildings. Other gifts of Mr. Kennedy previously announced are \$500,000 to Columbia university, \$500,000 building for the United Charities and \$250,000 to the School of Philanthropy.

RELIEF TRAIN BURNS AND MANY REFUGEES ARE KILLED

It Had Been Sent Out to Rescue Residents of Threatened Town, But Was Wrecked.

TRAINMAN IN TANK BOILED TO DEATH

So Far as Known Only Two of Entire Trainload Escaped, but Exact Number on Board Can Not Be Learned.

Alphena, Mich., Oct. 15.—Nearly a score of refugees from the fire swept village of Metz are known to have been burned to death between Metz and the village of Posen last night when the relief train on which they were escaping was wrecked by a burned culvert. Details are lacking and reports are coming in very slowly as the result of the destruction of poles and wires from Millersburg at noon that fifteen skulls have been found in the ruins of the train and that the fireman was burned to death in the water tank of the locomotive, where he had taken refuge.

It is not known definitely how many persons were aboard the relief train when it left Metz, nor whether any escaped besides the two trainmen. The trainmen crawled along the track on their hands and knees while the forest on either side was a mass of flames. There are vague rumors that others escaped but the rumors are not confirmed.

Forest fires in the Presque Isle country suddenly became threatening again yesterday after it was thought they had been extinguished. They spread rapidly and were soon menacing a number of towns, including Metz. The situation at Metz became acute last night and a relief train was sent there.

Metz had a population of 100 but how many the train took away is not known.

Alphena, Mich., Oct. 15.—According to reports coming into Alphena today from the north there has been a heavy loss of life as the result of forest fires which yesterday and last night swept the Presque Isle country. The most serious report is that a relief train which went to the village of Metz last night had been burned with a number of refugees. It is impossible yet to secure either confirmation or denial of the report. The reports received here state that after the train had been loaded with refugees and goods at Metz it started north but got no farther than Hawks. Then the train headed south for Alphena. The report says that at Nowicki station the fire had burned through a number of railroad ties, weakening the track, and that the rails spread, derailing the relief train, which caught fire and was entirely destroyed.

It is not positive what became of the people on the train, but it is reported that they burned to death. Engineer Foster and Fireman Lee took refuge in the water tank, where they stayed until the water became too hot, and then they ran for their lives. They are reported badly, but not seriously burned.

Fires in the vicinity of Alphena have receded and this place is now out of danger. It is feared there has been a great loss of life in the hamlets and farms throughout the Presque Isle country.

Found Fifteen Skeletons.

Detroit, Oct. 15.—A dispatch from Millersburg, about twenty miles north of Metz, states that seventeen people were burned to death with the Metz relief train, and that fifteen skeletons had been found in the burned wreck of a gondola car, which made up part of the relief train.

The dispatch received here says the train ran into a burned culvert, which was the cause of the derailment. Among those who perished are Mrs. Clever and three children. Engineer John Kinville and another member of the crew escaped with their lives but were terribly burned and it is reported that Kinville will die.

A dispatcher of the Detroit & Mackinac railroad at East Tawas has just confirmed over the telephone the finding of sixteen bodies in the ruins of the Metz relief train.

Alphena reports that another relief train started for the scene of the wreck. Reports are insistent that there were 150 to 180 people on the burned train but it is impossible to confirm this or to determine whether any survived and made their way through the burning forests to safety.

TO VENTILATE STREET CARS.

Chicago, Oct. 15.—Badly ventilated street cars, which breed pneumonia and kindred diseases, are to become a thing of the past in Chicago, through the efforts of the health commissioner and the co-operation of the board of supervising engineers and the traction companies.

THE AMERICAN FLEET FORSAKES COAST OF JAPAN

Goes Out to Sea in Rough Weather to Avoid Accidents on Dangerous Shoals.

PACIFIC FLEET TO SOUTH AMERICA

It Will Visit Ports in Peru and Chile Before Returning to Magdalena Bay for Target Practice—Japanese Fleet Starts.

Tokio, Oct. 15.—No additional intelligence of the progress or position of the American battleship fleet has been received and it is believed the first welcome message sent yesterday has not been received by the fleet, as otherwise it is believed an answer would have been sent at once.

The Associated Press is informed that the report that one vessel of the fleet has become separated from the others in a storm here has not been in communication with the fleet at all and such a report could not have been received.

It is supposed that rough weather has compelled Admiral Sperry to take the fleet away from the dangerous coast and far to sea, where it is beyond the sphere of the wireless. The escorting squadron under command of Admiral Markham will leave Yokohama tomorrow afternoon to go to the American warships and escort them into port.

Pacific Fleet on Trip.
Washington, Oct. 15.—The Pacific fleet under command of Admiral Swinburne, which is now cruising in the South Pacific ocean, will visit the western coast of South America after completing target practice at Magdalena Bay December 1. The fleet consists of eight armored cruisers, the West Virginia, Maryland, Pennsylvania, California, Colorado, Tennessee, Washington and South Dakota. They will touch at Panama, Callao and Coquimbo in Peru and at Talcahuano, Chile, and will return to Magdalena Bay in time for the spring record target practice.

DIAMONDS IN SHOES OF ALLEGED THIEF

Police Arrest Man Suspected of New York Thefts From Jewelry Firm.

St. Louis, Oct. 15.—The police of New York, Chicago and Kansas City have been notified by the St. Louis police of the arrest here of Foster George on a charge of stealing diamonds and watches worth \$35,000 from S. C. Powell, a wholesale jeweler, at 170 Broadway, New York, and arrests are expected today in those cities.

Jewels worth \$25,000 were recovered from George and the rest are believed to have been pawned. Diamonds known to have been carried by Powell when he left Chicago for St. Louis, June 23, have appeared in pawnshops in St. Louis, Kansas City and Chicago.

George was betrayed into the hands of the police by Mabel McCoy, a companion with whom he quarreled after refusing her requests for money. When the officers raided George's room at 2319 Pine street, diamonds were found in every possible hiding place. A razor case was stuffed with gems worth \$3,000; in a valise were nearly \$1,000 worth; in George's shoes were dozens of gems, some of them as large as two carats. George, it is said, has made a partial confession, which he later repudiated.

SALT DOCKS BURNED; MILLION DOLLAR FIRE

Conflagration at Chicago Destroys Immense Property.

Chicago, Oct. 15.—Property valued at almost \$1,000,000 was destroyed early today by a fire which consumed the International Salt company's docks, offices of the Elgin, Joliet & Eastern railway, and fifty freight cars at One Hundred and Third street and Calumet river.

The flames for a time threatened the two big grain steamers and the Calumet elevator, which, it is said, contained more than a million bushels of corn. The freighters were towed away and the firemen engaged for an hour protecting the elevator. It is rumored that the fire started by sparks from a passing engine, but railroad officials declare that there was no engine in the neighborhood at the time.

STATEHOD FOR NEW MEXICO

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union—Republican National Platform.

Hearst Hurts Them

While Hearst has broken into the limelight by attacking several very prominent men on both sides of the political fence, still it is now apparent that he has severely crippled the Democratic campaign whereas he has not seriously injured the Republicans.

Democratic newspapers are trying to create the impression that Hearst is only a trouble maker, who is hitting right and left for the sake of notoriety and to keep himself before the public.

It is very apparent, however, that it is more than trouble making with Hearst. He has undoubtedly entered the campaign to even old scores with Bryan and his crowd because they have practically ruled him out of the party. True, Hearst is not averse to taking a few spare shots at Republicans when occasion demands but his heaviest ammunition is for the Democratic leaders and candidates and he is inflicting some very severe punishment.

The neat manner in which he placed Governor Haskell, the Democratic campaign treasurer into the "has-been" class, indicates pretty thoroughly that he is capable of carrying out his fight to the very day of the election and that the Democratic campaigners will be unable to check him.

Mr. Haskell, in suing Mr. Hearst for libel, because of the statement made by the latter, connecting the Democratic treasurer with Standard Oil interests, has elicited another biting statement from Hearst, which leaves him in even a more uncomfortable position than before.

The statement was given out by Mr. Hearst at Omaha yesterday while he was en route to Chicago and it is a challenge which Governor Haskell will have to accept or he will be in a worse predicament than when he resigned the treasurer's job. Mr. Hearst said:

"When Mr. Haskell first declared several long weeks ago that he was going to sue me, he said that he was unable to raise the necessary money. At that time I offered to supply any deficiency in order that he might speedily bring the suit. When he stated that he could not find me to serve me I stated that I would accept service if the summons were merely mailed to my address."

"Mr. Haskell adopted the sensational method of breaking into my sleeping rooms to serve the summons, but he did not adopt the sincere method of setting the trial before the election. I am called to answer on the 16th day of November, 1908. I reiterate all that I have said of Mr. Haskell and all that he has proved by his resignation as national treasurer. I don't believe that this case will ever come to trial, and I defy him to bring it to trial long enough before November 3 for his true character to be thoroughly exposed in court."

Little Election Betting

The New York Telegraph is of the opinion that betting on the outcome of the election this year, is tame as compared with other elections in the past and it voices its complaint in the following story:

There's no ginger in the election betting. The Hughes men are reluctant to take bets and the Bryan men are equally shy. Recent odds house 2 to 1 against Bryan and 5 to 4 against Hughes. At the Hoffman house Col. Robert Arthur, of Sheephead Bay, bet Col. Barry \$5,000 to \$4,000 that Chandler would be elected governor. At the same time he bet \$5,000 against \$15,000 with Col. Barry that Bryan would be the next president.

Charles Mahoney, manager of the cafe, in talking of the situation, said: "I am not going to handle any bets this year. I simply will not take the risk. In the old days they would work me to death. I have taken in as much as \$300,000 or \$400,000 a night here for several nights in election bets. I used to stand behind the cigar counter, have a policeman on each side of me, and take in the money as fast as I could write out the wagers slips for the bettors. I never had time to even look up; did not even write the names of the bettors; just gave them the slips on a stub book that was all numbered. Each bettor got a slip. I kept one, and there was the stub. When it came to paying off they presented me the slip they had. I saw that it corresponded with the stub in the book and with my slip and paid out the money."

"It came so fast I had no time to put it away in a drawer or any place. I just swept it off the top of the cigar case and let it fall on the floor at my feet. That space back of the cigar stand was filled up with money. I stood in it piled around me up to my waist. There were \$50 bills, \$100 bills, \$500 bills, \$1,000 bills by the hundred."

"When I was finally through for the night a couple of the hotel help would come down with two great big hampers made of steel, a little larger than those big hampers bakers used to carry bread around in their wagons. They had a steel top with a heavy lock on it."

"I would stand there and watch them pick all that money up and crowd it into those hampers, pressing it down to make it all go in. Then the lid was shut down and I'd lock it and take it up to the proprietor's room, where we sat up all night sorting out the bills of various denominations. After it was all sorted it was counted. Then I counted my stub book and made everything agree before I went to bed."

"Policemen stood guard over those big hampers full of money until the bank opened next morning and we'd take it over there and deposit. I want to say that no man ever worked harder in his life than I worked those last few days before an election."

The baseball season is only over in theory. Practically it will be continued until the clubs get busy again next spring by the ardent fans in their discussions of the justice of the decision of the national league commission, in compelling Chicago and New York to play off a tie game after the season was officially closed.

The fortieth annual session of the Woman's Suffrage union, is being held at Buffalo, N. Y. The chances are that nearly all the delegates who are in attendance are charter members, which puts the age average.

In his speeches in Bernalillo county, Mr. Larrasolo neglected to comment upon those appropriations totaling \$150,000 which the present, delegate to Congress, Mr. Andrews, secured from one session.

Peace, order, prosperity and continued independence—these are worthy ambitions that Republican policy in the United States holds out to the sister republics of the continent.

The rousing meetings which have been held by the Young Men's Republican club evidently begin to make the Democratic handbill rather nervous.

The prosperous farmers of this country must be sadly puzzled as to what Bryan is talking about when he says they have been "neglected."

Bryan is as shy about his abandoned issue as are some stars in the theatrical firmament about the matrimonial alliances they have severed.

What a present this time would be if the Bryan political theories of the past had been put into practice!

Andrews can not be defeated and the Democratic campaigners are about to give up the battle.

Mr. Taft's making Republican speeches in Kentucky, must look rather peculiar to Mr. Bryan.

What would Larrasolo do if the people did send him to Congress? Nothing.

The reception accorded Larrasolo in this county was anything but enthusiastic.

THE PRESIDENT'S HOST HAS A FINE FARM

His Place in the Jungle Fitted
Up in Style to Entertain
Roosevelt Party.

St. Louis, Oct. 15.—Since the announcement that Wm. McMillan is to be the host of President Roosevelt in his African trip the former has gained a big measure of international fame. He had a good deal of a reputation, however, before his farm in the jungle was honored by selection as the one place in the big continent best suited for the entertainment of a president.

In the first place McMillan is rich. He is a son of the founder of the American Car & Foundry company and brother of the late Senator McMillan of Michigan, for years one of the most powerful men in the United States Senate. In the second place he is a great sportsman and is widely known for his prowess as a hunter.

Years ago he went to British East Africa in search of big game and was so well pleased with the country that he acquired an immense reservation for his private use. He has also led exploring expeditions that accomplished work of considerable importance.

Mr. and Mrs. McMillan have a wide reputation for generous hospitality. She has shared life in Africa with her husband and delights in the experience.

The McMillan farm gets its name from the Ju and Ja rivers, between which it lies. It covers 20,000 acres of land, and is about 35 miles from Nairobi, one of the largest towns of the plateau which is included in the British East Africa. It is fenced in on three sides by wire netting, while on the fourth the River Athi forms a sufficient protection to its boundaries. The country round about teems with game of all descriptions, including many species of carnivorous animals.

On the farm there are no less than six natural lion dens, and in view of the fact that last year 12 magnificent lions were killed in the neighborhood of one den, the possibilities of royal sport for the president will be readily understood.

There are 400 employees on the farm, the majority of whom are Massai and Somalis. The farm house, Massai and Somali, is a fine large building for the employees. A man's club, four sets of quarters for the married employees of the farm, a warehouse, a granary, a stable for thoroughbreds, corrals, which are used for ponies, cows, mules, donkeys and goats, quarters for the Somalis and the Massai. Nearby is an ice factory belonging to the estate.

Mrs. McMillan is almost as daring and enthusiastic in matters of sport as is her husband. She is a crack shot, and many varieties of big game have fallen to her unerring aim. She has also taken part in the exploring expeditions in Africa, which have made her husband famous.

The McMillans own a beautiful villa in Berkeley square, London, England. Mrs. McMillan is an authoress of some note.

HAWAII TESTING FEDERAL LAW

Honolulu, Hawaii, Oct. 16.—A test of the act making campaign contributions by corporations unlawful has been begun here through action of United States District Attorney R. W. Breckons against the Haleakala Ranch company. It is charged in the information filed that this corporation paid money into a fund for the purpose of securing the re-election of Prince J. K. Kalanialoale as delegate to Congress. There are two counts to the charge, one to the effect that the corporation is questioning the validity of the authority granted by Congress in the organic act, and the other that a delegate to Congress is a member of that body. Both of these points, on which the charge hangs, are generally denied here, and if this point of view is sustained by the courts will mean that a territory is practically exempt from the law in question, since national banks will be practically the only form of corporation affected, and for the reason that a delegate to Congress is the nearest approach to a federal official in which the territories have any choice.

NORRIS AND ROWE CIRCUS IN TROUBLE

Employees Demand Wages and Refuse to Work Until They Are Paid.

The Norris and Rowe circus which is touring Albuquerque recently seems to be having more than its share of the troubles a circus is entitled to. While here several of the employees made a demand for wages which they claimed hadn't been paid them, and the following story from Globe, Ariz., indicates that others wanted their wages:

One hundred and fifty men with Norris and Rowe's circus struck after the performance, clamoring for their money, which they claim has not been paid them in six weeks. The men get from \$2 to \$5. The managers of the show, C. I. Norris, H. S. Rowe and W. A. Shannon, pleading that the license of \$110 for the county and \$100 for the city, which they had to pay here, prevented their settling up with the men after two performances at which the tent was crowded, undertook to break the strike with the help of the canvas

men and menagerie men, the managers themselves undertaking to drive the first team to the train. The strikers made a demonstration and in spite of half a dozen heavily armed deputy sheriffs, Norris and Rowe turned back. The management then tried to induce the performers, candy butchers and cooks to take the place of the deserters.

At midnight the strikers, prevented from interfering with the few men still at work, had obtained an attachment, and the main tent was still standing, while the side-show tents remained rolled up where they had been taken down. The strikers made their headquarters at the hall of the local union of the Western Federation of Miners, and though none of them are union men the federation gave them all the encouragement it could, helping them to find an attorney and locating the home of Justice Hinson Thomas.

A little after midnight the circus train, which was standing on a long grade, was cut loose, turning over several wagons and slightly injuring a few of the men. Manager Shannon was on one of the cars and a cage of leopards almost carried him over before he stopped it. An extra engine on the lower end of the train stopped it.

DAILY SHORT STORIES

HER ENGAGEMENT BOOK.

By Frank H. Williams.

"Really, I must go," declared pretty Irene Dennison, drawing a diminutive, red-bound book from her shopping bag. "See this book? This is my engagement book and see what I have done here for a clock this afternoon? Meet Mabel at Bloomingdale's! It fifteen minutes of 4, so I simply must fly!"

Harvey Wagner looked at her grimly.

"Oh, please, cut it!" he cried. "Oh, I couldn't possibly do that!" cried the girl. "I always do what my little engagement book tells me to do, when it tells me."

"You never do exactly the opposite of what it says?"

"You see I'm superstitious about it," she said. "He looked long after the car which bore the girl away and then, with a sigh, turned back. He started suddenly as his eyes espied a familiar little red-bound book lying on the sidewalk. Irene had dropped her engagement book!"

Perhaps Harvey's action, after he found the book, were rather peculiar, but "everything is fair in love," he wrote industriously in the little book for a time and then, beaming satisfaction, he placed it in his pocket. That evening he managed, unobserved by Irene, to replace it in her shopping bag.

Three weeks after this incident, and to be exact at 9:35 o'clock in the evening, Irene accepted Harvey's proposal of marriage. But strangely enough Harvey's elation was short-lived. At 9:45 he looked at Irene doubtfully.

"I know, dear, what made you accept me," he said. "I know how superstitious you are, and so, happy as it would make me to marry you, I can't honorably do less than release you!"

Irene sat up very straight at this with a look of wonderful astonishment on her face.

"Why, why, what do you mean?" she cried.

"I mean," said Harvey doggedly, "that I know you have accepted me at this time because you found a memorandum in your engagement book to do this thing at this time."

And as I wrote that engagement in your book, I say I can't honorably take you."

"Why, why," stammered Irene in her surprise.

"I know, too," went on Harvey, sorrowfully. "That you kissed me at the times you found set in your engagement book. I've kept track of all the times and compared them with the times I set down in your engagement book. Dear, I only wish you'd like me enough to marry me, but I can't honorably have you to do it when I know you've only accepted me out of superstition."

"Well, I never!" cried Irene with great vehemence, as she rose and pulled the little red book out of a desk. "Will you look at that book and see what entries I made after that day I shopped with you, or, in other words, after the day you really began courting me?"

"There's not a one, beyond the ones I made," said Harvey in a moment. "Do you know what that means?" asked the girl. "It means that I haven't looked into the book since that time. It means that since that date I've been so taken up with you that I haven't cared about any engagements except 'one'—one I've had with you. And further, it means that I didn't know your entries were in the book. There! Oh, you big, silly, honorable goose!"

Harvey's reply was the only one appropriate under the circumstances.

More Than Enough Is Too Much. To maintain health, a good food is essential. A woman needs just enough food to repair waste and supply energy and keep her heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

The rapid increase in our business is due to good work and fair treatment of our patrons. Hubbs Laundry.

Citizen Want Ads for Results

Some Reasons Why

The
C

Because The Citizen is a home paper. It is either delivered by carrier as the house or is carried home by the business man when his day's work is done and it STAYS THERE. A morning paper is usually carried down town by the head of the family and hurriedly read.

I

The Citizen is not read hurriedly, but thoroughly, so that all advertisements receive their share of attention. It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

T

Wise advertisers patronize The Citizen because they know their advertisements are seen and read at the homes in the evening, and if they are offering something worthy of attention, their ad has accomplished its mission.

I

The Citizen has never given premiums to subscribers, but is subscribed to and paid for on its news merits, showing that its subscribers have money with which to buy what they want from legitimate merchants. These are the people The Citizen invites to your store.

Z

The Citizen employs a man whose business it is to look after your advertising wants. He will write your copy if you wish. If not, he will see that your ads are "set up" to look their best and he will attend to them from day to day.

E

Are you advertising in The Citizen? Your competitors are, and are profiting by it. Do you think conservative business men are spending money where they are not getting results? Get in the swim and watch your business grow.

ARIZONA BUILDS PENITENTIARY RAPIDLY

Convicts are Anxious to Work
on New Plant Because It
Shortens Sentences.

Phoenix, Ariz., Oct. 16.—Six hundred feet of the enclosing wall at the new territorial penitentiary at Florence has been completed. This is upon the south side of the enclosure and the foundation now completed extends to the administration building. Work is progressing at a rate undreamed of by the officials, who are now thoroughly convinced of the value of convict labor with the terms and conditions under which the Florence prisoners are working.

Work upon the 600 feet of foundation now complete was commenced last week and construction will now progress at a rate more rapid than before, for fifty new convicts were taken to Florence. This added to the force of eighty-eight already there makes a total force of 138. The fifty additional convicts were removed from Yuma under the direction of Guard Hollins, who had gone down for that purpose. He was assisted by two other guards who returned to Yuma today. There are now about 500 prisoners left at Yuma.

"You should see those convicts work," said Secretary Riggs of the board of control. "Why, free men never worked harder nor better. Those big fellows throw those wheelbarrows around like boys. They certainly make the dust fly. All of them seem to be as contented as it is possible for convicts to be."

Secretary Riggs attributes this willingness to work to the provision that every day's work put in takes one day off a man's sentence. They would be forced to work anyway, if selected, but they are all anxious to do their part. It is cool enough now for them to do their best work and Mr. Riggs estimates that the prison will be complete to the last detail by the end of March.

Recently a man escaped from the gang at work on the new prison and has never been apprehended. The other prisoners were very indignant as the man took advantage of liberty accorded him to make his getaway. They were afraid their liberties would be curtailed. No such action has been taken, however, and there seems to be no occasion for it. The man who escaped was evidently not in his right mind for he had only three months left to serve.

Kidney Troubles Attack Albuquerque Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child. Is to cure the cause—the kidneys. Doan's Kidney Pills cure sick kidneys.

Cure all forms of kidney suffering. Albuquerque testimony proves it.

Mrs. J. Hall, of 222 West Huning Ave., Albuquerque, N. M., says: "My daughter used Doan's Kidney Pills with very good results. She suffered for over a year from severe pains across her loins and kidneys and at times she was unable to be around. I heard of Doan's Kidney Pills, induced her to try them and she felt great relief from the first and continued their use until cured. I gave a statement to this effect some four years ago, and would say today, Jan. 31, 1907, that we were not only given reason to appreciate Doan's Kidney Pills at that time, but both my daughter and myself will vouch for their value as strongly as ever, and can heartily recommend them to other sufferers."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

\$100,000,000 FOR NEW YORK FREIGHT SUBWAY

Under the sidewalks, connecting with main arteries under the streets. Thus there will be five layers of transportation—the Pennsylvania railroad subway, the freight subway, the passenger subway, the surface roads and the elevated railways.

New York, Oct. 16.—At a cost of \$100,000,000 another stupendous subway system is to be constructed under the teeming streets of New York. The new subway is to carry freight. The idea was originated by Wilbur J. Wilgus, former vice president and chief engineer of the New York Central railroad.

The subway will be constructed along the East and North rivers, from the Battery to Sixty-sixth street, and with cross-town lines. In addition to the main subway system there will be branch lines running beneath the sidewalks in the down-town sections.

Merchants can load their goods on the freight cars that will run through these subways through connections with their basement floors. It will then be possible for a Broadway merchant to ship a box of merchandise from the basement of his establishment to any point in the world.

The new freight subway will have connections with all of the railroads, and incoming freight will be distributed under the sidewalks direct to the merchants' basement.

It is proposed to use ten-ton cars in the new bore. A space eight and a half feet square, Wilgus says, will

be ample for one line of tracks and the cars. The motive power will be electricity.

In some streets such as Forty-second street at Fourth avenue this new subway will make the fifth traffic plane. An elevated line operates over the street, surface lines operate on the street, the freight subway will be under the sidewalk, then the Belmont tunnel for city passenger traffic, and under this the great Pennsylvania railroad tunnel, which will run under the North river, bore through Manhattan island, and then under the East river to Long Island City.

ARE DEMANDING MORE COMPLETE STATEMENTS

Investors Want to Know About
Companies in Which They
Invest Their Money.

Chicago, Oct. 16.—Investors and bankers have joined hands in a determined effort to bring about a safer and better situation in the security and commercial paper markets through a requirement of a more complete and accurate system of corporation statements. This is partly the outcome of unfortunate experiences. It is conspicuously apparent that the securities most in the favor of western investors are those of concerns which submit an audit by certified accountants with their reports.

So far as the bankers are concerned the experiences resulting from one or two large failures have emphasized the need of a more complete and accurate system of corporate statements and an independent audit as a safeguard against misinformation as a basis for an extension of credit. The Booth failure and the Pillsbury-Washburn flour mills receivership are instances that relate to commercial paper. Members of the Chicago stock exchange are urging that an independent audit is essential for safety and a protection against concealment of liabilities, as well as a possible over-valuation of assets and good will. Also steps have been taken by the Chicago banks to bring this about through the establishment of the requirement of an independent audit as a matter of uniform practice. Some of the New York banks have encouraged the plan and others held back, not questioning the advisability of such a practice but hesitating because of the fear that it will be found objectionable to some of the big customers of the bank. The same is true of some of the Chicago banks, but these are coming to a different view because the fact that the interior banks which heretofore have been large buyers of commercial paper have shut down on that class of employment for their funds.

But there is a broader phase of the insistence upon accurate information regarding corporation earnings and management. In the days of bargain prices for securities last winter thousands of small investors in the west bought liberally and the inquiries made by them regarding the companies which their holdings represent indicate clearly that they are well posted on earnings and history of these corporations. The small investor has demonstrated his ability to cope with an income statement and balance sheet in a way that

would do credit to a commission broker. Now all that is necessary is to step into the office of any commission house and listen to the questions asked of the brokers by prospective investors to convince one that the "public" knows just what it is doing. Tips have no more weight with them than the suggestion of the tout at the race course.

It is this that has brought the railroad earnings report to its present state of uniformity and completeness through the action of the Interstate commerce commission, and it will bring the industrial to the same position. One of the things that made United States Steel corporation such a favorite with the western small investors is the completeness of its reports and the frankness of its management concerning its affairs. As a consequence there are now approximately 130,000 shareholders of the big corporation. Peoples Gas Light and Coke company is another instance, and so are the Chicago Telephone company, and the Commonwealth Edison, which controls the lighting business and is a large factor in the electrical power supply in Chicago.

The Chicago traction companies are other illustrations of the new order of things in corporation management. Their reports as well as capital expenditure are under the supervision of a commission composed of a representative of the city and of the company with a competent engineer as the chairman and the third member. The Chicago Railways company made its first semi-annual earning report this week and the result compares with its predecessor's statement for a corresponding period ended July 31, 1907, as follows:

1908	1907	Increase
Gross earnings—		
\$5,280,617	\$5,185,353	\$95,264
Operating expenses—		
3,626,953	3,618,280	8,673

Net earnings—
\$1,653,664 \$1,567,073 \$86,591
Meantime the traction systems are being brought up to date by a complete rehabilitation under an ordinance that gives the city 55 per cent of the net profits after allowing the company 5 per cent on its entire investment.

MANY HOMESEEEKERS WITHOUT FUNDS

Crowds at Dallas Are Taken in by
Gamblers and Relieved of Cash.

Dallas, S. D., Oct. 16.—It is estimated that 1,000 land seekers who have come to Dallas and Gregory have lost their money at the gaming tables and are "broke." Many more who have lost all their ready cash have been forced to telegraph for money. Nearly 60,000 persons have registered at these two points already, and nearly as many more are expected before the period for registration closes.

Hundreds return home as soon as they have registered, but thousands have remained for the drawing. These latter, in hundreds of instances, have

been victims of the tiger. The gamblers have operated their games without restraint and are said to have made remarkable winnings. They run twenty-four hours a day, with games as strong at daybreak as when the sun sets.

To be broke in this country means something to a man, because he is without friends generally, and at a time when it is not easy to make new ones. Every outgoing train carries many men who have lost their money and risk their lives on brakebeams or bumpers. No land opening has ever brought more people, and they all come with money. Those who have the gambling spirit stick to the roulette and faro tables, with the result that several hundred people are living on charity until they can get out of the country.

WILL TRY TO SELL ARIZONA SMELTER

Properties Will be Offered for Sale
Next Month for the Second
Time.

Prescott, Ariz., Oct. 16.—For the second time since being declared bankrupt last fall, the properties of the Arizona Smelting company and the Consolidated Arizona Smelting company, bankrupts, will be offered for sale in front of the north door of the court house in this city November 10, at noon.

It will be remembered that the properties of these bankrupt companies were offered for sale here July 25. At that time no bids were received, the sale being subject to an upset price.

The sale November 10 will be without an upset price and only subject to two mortgages in the aggregate amount of \$240,000. The sale or sales will be subject to the approval of the United States court of the district of New Jersey. The purchaser or purchasers will be required to deposit 10 per cent of the amount of the purchase price or prices at the time of sale, the balance to be paid after confirmation of sale by the court.

The referee in bankruptcy has received two offers for the properties of the bankrupt companies since the sale of July 25, at which no offers were received. The first was in the amount of \$150,000 and the second \$165,000.

"A COWBOY'S GIRL" HERE NEXT SATURDAY

Drama of the Lone Star State Will Be
Presented at Elks' Theater.

In presenting "A Cowboy's Girl," which is to be at the Elks' theater October 22, it is with every confidence in its ability to please. The attraction has been before the public for five seasons and during that time has toured the entire continent a number of times, each season returning to larger attendance. The production this season is new throughout and the very finest that could possibly be secured.

"A Cowboy's Girl" is not a society drama, whose scenes are laid in the handsome drawing room of some millionaire's palace, but a story of the "Lone Star state," with its scenes laid under the bright canopy of heaven which stretches away in the distance as far as the eye can see, and then rolls on unbroken to the utmost ends of the world. It is under this blue vaulted dome on the wild prairie that they tell such stories as "A Cowboy's Girl," tells about men whose daring deeds and bravery in the face of almost certain death have caused the whole world to revere their name and memory. We have only to turn to the pages of history, to see enrolled with the heroes, now past and gone, the names of Houston, Crockett, and the long list who perished in the Alamo. It is of such men, the fact that "A Cowboy's Girl" tells about, younger, perhaps, but bearing the same stamp of chivalry and heroism that their ancestors bore when they first crossed

FEW CHILDREN HUNGRY IS CHICAGO'S REPORT

Investigation Reveals Falsity of Socialistic Charge.

Chicago, Oct. 16.—The Socialists received an awful wallop when the city and charitable organizations began an investigation of the charge that 15,000 school children were habitually hungry in this city. This story had been seized upon as a fine line of ammunition wherewith to bombard the existing order of things.

Investigation, however, shows that in the great majority of cases the children are hungry because their parents are drunkards. The fathers, in most cases, are loafers, who work only long enough to furnish drinking money, leaving their families to shift for themselves while they rant socialistic speeches in the saloons. Instead of 15,000 cases, the investigators cannot find one-eighth of that number. In some cases the fathers are making good wages, but spending their money in paying walking delegates, buying drinks for gangs of loafers and winding up the week heating their wives and children and breaking what furniture has not been pawned.

Phone 540 Room 4 GRANT BUILDING

ABOUT TOWN

Rev. C. A. Clark, the new pastor of the M. E. church, arrived last night from Claude, Texas, and is now located at the parsonage, 492 South Walter street.

Rev. B. T. James, presiding elder of the Albuquerque district of the M. E. church, south, arrived this morning and will hold a quarterly conference Saturday evening at 8 o'clock.

J. V. Keys, engineer in charge of construction on the Belen cut-off, is in the city with his children, who are attending the public schools here. In regard to the progression of work on that branch of the Santa Fe, Mr. Keys states that the buildings along the line are about finished now and will be completed some time next week at the latest.

C. E. Culbertson, consulting engineer for the New Mexico Central Railway company, returned to the city last night from a trip over the Albuquerque Eastern branch. A. L. Richmond, of the Dominion Construction company, who is going to build the new road, is expected to return to the city tonight. Actual construction of the Hagan branch will begin next week.

Passengers arriving on the early train from El Paso said that a number of engineers left the train at Custer, the small station nearest the site of the Elephant Butte dam, presumably for the purpose of locating a branch road to the damsite. No survey of the branch has been made yet, no contract has been let, and it is not known yet just what point the road will be run from. It is said that the road will be built jointly by the Santa Fe and the government.

The team, wagon and load of apples, which were captured on a mesa a few days ago by Harry McKinney, E. L. Medler and Harry Cooper, after the man who owned them had run away to avoid prosecution for shooting at Mr. McKinney's automobile, was turned over today by Deputy Sheriff Fred Heyn to a man by the name of Clark, who came to claim them as a friend of Lather, the man who owned them. Clark said that Lather was not considered very bright and was more to be pitied than censured. He said he did not believe that Lather was responsible for his own acts. Lather lives in the vicinity of Estancia.

WOULD COLONIZE
RIO GRANDE LAND

Frank W. Beach Here Investigating Business Proposition.

Frank W. Beach, member of the house in the last legislature from Otero county, and who is interested in mining property at Orogrande, is in Albuquerque investigating the title and water rights to a large land grant in the Rio Grande valley, with a view to forming a company and colonizing the tract. Mr. Beach said that he had secured the capital necessary to handle the land if he could secure a suitable title and water rights.

"I believe that one thing which keeps many people from coming into this section of the Rio Grande valley," said Mr. Beach, "is that there appears to be some doubt as to the water rights to some of the large tracts of land. For instance it is reported that on lands not under irrigation prior to government reclamation surveys no water rights can be maintained. I do not know that this is true, but such reports should not be permitted to go unchallenged. There is certainly plenty of water in the Rio Grande valley for any kind of irrigation and a contrary impression should not be allowed to prevail."

"I do not care to state at this time the location of the land which I am investigating with a view to purchasing, but if I find the title and water rights good I expect to place a colony on the land at once and thereby put it in a high state of cultivation by the most modern methods."

DYE WILL CASE
MAY BE DISMISSED

Plaintiff Testifies She is Not of Age and Defense Asks Dismissal.

A question of law arose in the Dye case today that may throw the action out of court. During her testimony this morning, Mrs. Meace, the contesting witness, said that she would not be 21 years of age until next January. Attorney Wood, one of the counsel for the defense immediately moved to dismiss the case on the grounds that the complainant was not of age. The examination of the witnesses continued, but at 3 o'clock this afternoon when the defense rested, Judge Abbott dismissed the jury until 9 o'clock tomorrow morning when the defense will be expected to make a formal motion on the question of the complainant's age.

The laws of New Mexico provide that action by a minor must be brought by a guardian ad litem, according to the attorneys for the defense, and they assert that Judge Abbott has not jurisdiction in the case. Mrs. Meace is married, however, and her attorney maintains that she became of lawful age at the time of her marriage.

At the probate court trial of the case, all the persons interested were of the opinion that Mrs. Meace was of age.

The Thompson Case Called. The court began empaneling a jury in the case of D. P. Thompson versus the Santa Fe Railway company on dismissing the jury in the Dye case. The plaintiff sued to recover money alleged to be due him as wages, and money that was taken from his wages because he carried a

passenger while acting as a porter on a train and damages alleged to have been suffered by being discharged while at Winslow, when his home was in this city.

Sues for Divorce. Alleging that her husband began beating her two weeks after they were married and periodically every two or three weeks ever since, and two weeks ago endeavored to strike her with a champagne bottle, Mrs. Lily Le Boeuf Mitchell, of South Broadway, has brought action in the district court for absolute divorce and the return of money she alleges she gave her husband, James Mitchell, at the time of their wedding. She also wants the court to cause him to return to her a diamond horseshoe and a solitaire diamond ring valued at \$600, which she says that he gave her at the time of their marriage but later took away from her. Medler & Wilkerson appear as attorneys for the plaintiff.

DIVA AND HUSBAND
MAY BE RECONCILED

New York, Oct. 16.—Julian Story, the portrait painter, from whom Emma Eames, the prima donna, secured an absolute divorce a year ago, is said to be still in love with her and anxious for a reconciliation. Both Story and Mme. Eames have been abroad during the summer and it is stated by their acquaintances that Story, while in Europe, followed the noted soprano from one place to another and manifested a desire to be on good terms with her again.

When Story returned here lately it was announced that he had spent the summer quietly at Vallambrosa, Italy, but the account now given to his movements is that within three days after his former wife arrived in Venice Story appeared there also and took an apartment in the hotel near her. When he passed her in a gondola or in cafes he smiled, but she did not respond. She soon went to Paris and he followed, but apparently could not make any impression on the prima donna. Story will have his studio in New York this winter instead of in Philadelphia as heretofore, and, as Mme. Eames is to sing at the Metropolitan, gossip says he is influenced to remain in New York on the fair singer's account.

The reason we do so much ROUGH DRY work is because we do it right and at the price you cannot afford to have it done at home.

RAILROAD MANAGERS ARE
CRITICIZED BY LAND

(Continued From Page One.)

is not all the truth, and he then proceeded to condemn the ton-mile policy under which the Great Northern and Northern Pacific were operated. "During the car shortage time, trains which could have been handled at terminals were much delayed in arrival and individual cars were actually sidetracked for weeks on country sidings," he says. "One cause of this state of affairs was the anxiety of railroad managers to make tonnage records. The element of speed was ignored and the constant pressure from above upon those in actual charge of operation was to secure the heaviest possible loading of trains. As interpreted by the man upon whom the pressure was exerted, the word 'possible' was overlooked, and in many instances trains were so heavily loaded that satisfactory movement was impossible."

"So far as the railroads are concerned the immediate remedy for slowness of car movement in times of car shortage would be for managers to insist more strongly upon speed of movement of individual cars and less strongly upon tonnage records for each train-mile traveled. Those systems which have, while striving for full loading of engines, insisted upon the prompt movement of all cars have most efficiently served their patrons."

A recent suggestion is that managers of railways should cease to make the number of tons a train mile the test of efficiency and should look rather to the showing made of ton-miles a car a day. By this change, speed, as well as tonnage, would be kept in view, and excessive train loads would be avoided.

"More and better terminals, more passing tracks, more double track, more and better engines are needed by practically every American railroad in every time of car shortage. The prompt repair of engines and cars is another item to which railroad managers should give attention. The policy of utilizing dull times to get cars and engines out of repair is one that is certain to make trouble for both railroads and shippers in times of fullest prosperity."

"Some railroad managers in their effort to show heavily reduced operating expenses in the months of reduced income send disabled cars and engines to store instead of repair shops; the result is that their railroads are crippled when the days of increased tonnage come, and must attempt to serve the public with disabled engines and cars until repairs can be hurriedly made and at a cost far greater than would have been required at the proper time. The financial rather than the operating heads of our railways are the ones on whom rests the duty of instituting reform in this matter of prompt repair of equipment."

The foregoing discussion of uniform car supply and demurrage laws and of problems arising when there is a car shortage follows a brief statement of present conditions, of which Mr. Lane says: "During the present year practically all American railroads have been able to furnish transportation facilities within a reasonable time after application from their shippers. This change from the extreme car shortage of 1906-7 is due to increased facilities on the part of the carriers, partly to more efficient use of facilities and partly to the recent business depression."

"The box car surplus has practically disappeared in New England slight shortage even have developed on some roads in that region; in the northwest the movement of grain has drawn into service practically all grain box cars available in that territory; the coal car situation in the northwest shows few roads reporting an actual surplus and a number arranging to secure cars from eastern and southern lines."

Our shirt and collar work is perfect. Our "DOMESTIC FINISH" is the proper thing. We lead—others follow.

DEER SEASON OPENS WITH GAME PLENTIFUL

Reports Indicate That All Kinds of Good Sport Can Be Had in Many Sections.

The days of catching bass and trout are over but the sportsman of New Mexico is not at a loss for pastime. The season for shooting deer opened yesterday, and reports from the interior and mountain districts are to the effect that the animals have not been more plentiful in many years, thanks to the protection the New Mexico game laws are giving them.

The season for shooting quail opened October 1. The birds are not as plentiful as last year, but some very good kills have been reported. A party of three killed thirty in the vicinity of Alameda a few days ago. Another party of three killed twenty-seven in the foothills east of Bernalillo on Sunday. The birds are still feeding along the acequias as yet, it seems, and are tardy about going to the mountains, which is their custom on the approach of cold weather. A large crop of quail is reported in the southern part of the territory.

Members of the Rio Grande Gun club, owning a large preserve five miles south of the city, are enjoying the finest kind of sport. Many large kills have been reported. A party of two hunters killed twenty-seven Wednesday afternoon, after leaving the city at 2 o'clock. Twenty-one of them were large ducks.

The territorial laws bearing on large game follows:

"Deer with horns, with guns only. October 15 to November 30 of each year. Limit, one deer; penalty \$100 fine and sixty days' imprisonment. Elk, mountain sheep and beaver, ptarmigan, killing, capturing or injuring prohibited at all times; penalty \$500 fine and ninety days' imprisonment."

CHICAGO HEIRESS IS STOLEN IN DAYLIGHT

Kidnapped on Streets by Three Men, Who Took Her Away in an Automobile.

Chicago, Oct. 16.—In broad daylight, almost within sight of a police station, Margaret Frances Mitchell, 8 years old, said to be heiress to a fortune of \$250,000, was kidnapped here and the authorities have instituted a country wide search for the child.

While on the street with her grandmother the little girl was snatched by one of three men in an automobile and after the grandmother, Mrs. Caroline P. Mitchell, was knocked down, was taken away. Since then no trace of the child has been found, although the police are working on a clew that she was taken immediately out of the city, probably to Sparta, N. C.

RELATIVES TAKE BODY HOME FOR BURIAL

Husband and Mother of Mrs. Chamberlin Start for Muncie, Indiana.

Hidden farewell by a large number of sorrowing friends, who accompanied them to the depot, Mrs. Heath and Dr. L. H. Chamberlin, mother and husband of the late Mrs. Chamberlin, left last night on the Chicago limited with the body for Muncie, Ind. Mrs. Chamberlin's old home. The body was escorted from A. Borders' undertaking parlors to the station by a body of Masons. Dr. Chamberlin is a prominent member of the Ballut Abayad temple.

The Chamberlin home is being cared for by friends. The interior furnishings were almost a total loss. Mrs. Heath will probably remain at Muncie a few weeks after the funeral of the deceased.

The floral offerings were most beautiful and many of the friends of the deceased were at the train to pay the last sad tribute to their departed friend. Those acting as pall bearers were: Messrs. R. H. Lester, Frank A. Hubbell, P. Hanley, R. S. Stover, F. H. Kent, Frank McKee, Fred Miller and E. L. Medler.

IRRIGATE MESA LAND FOR RAISING GRAPES

Italians Said to Be Interested in Big Reservoir Project.

It is reported upon good authority that a California distillery company has an agent here for the purpose of buying mesa land in the vicinity of Tijeras canyon for the purpose of planting a vineyard. While the agent of the company could not be located today, it is known that the Silva tract of land in Tijeras canyon has been purchased by him and that options have been taken on unimproved lands on the mesa near the outlet of Tijeras canyon.

According to information received

the company proposes to make a large reservoir in Tijeras canyon for the purpose of storing water to be carried to the mesa in ditches to the vineyard, and that \$7,500 will be spent on the project as soon as the necessary water rights are secured. The proposition is backed by Italians and it is said that a number of local Italians have interested themselves in it.

The mesa soil, the west slope and the climate here are said to be ideal for grape cultivation. Tijeras canyon is the driveway for a large watershed and will furnish ample water to cultivate many thousands of acres of land. If a reservoir can be built strong enough to hold it. The plan seems quite feasible and if carried out will be of great value to Albuquerque. The Silva ranch is about twelve miles from the city. The land to be cultivated is nine miles out and is just south of the Tijeras canyon road.

YOUNG CORNETIST JOINS BOYS' BAND

He Will Assist Local Organization in Making Good Music.

The services of John McCarty of Dover, N. H., who formerly played cornet with Held's band of Salt Lake City, Utah, one of the best bands in the country, have been secured by the Leonard & Lindemann Boys' band, and in the future this favorite young cornetist will assist in making the Boys' band one of the best of its kind in the country. The organization now numbers twenty-seven members and the music furnished by them is of excellent quality.

Prof. Frederick K. Ellis, their leader, is very well pleased with the progress of the band since his return to the city some few months ago and hopes to be able to furnish the park music for the next summer season. Under his direction the boys are slowly climbing the musical ladder and each rehearsal finds a marked improvement in the quality of their music. Much credit is due to the leader, Mr. Ellis, as well as to the boys themselves, as they spare no pains in order that the band be made one of the best of the kind in the country.

FAIR COMMITTEE AUDITS ACCOUNTS

Belief Exists That Surplus Will be Shown—Many Silver Cups on Hand.

The first meeting of the executive committee of the sixteenth National Irrigation congress and Twenty-eighth Territorial fair will be held this evening at the congress headquarters at which time nearly \$30,000 worth of accounts will be audited and other matters of vast importance will be transacted. Owing to the great amount of business which will come before this committee, the meeting this evening will be the first of a series of sessions which will be held nightly until all matters of importance pertaining to the affairs of the congress and exposition management will be settled.

While the financial result of the past congress and exposition is not as yet known, it is thought that a surplus will be found in the treasury after all bills are settled.

Another matter which will be brought before this committee will be that of the disposal of the many silver cup trophies which were to have been awarded and which are still on hand owing to the fact that exhibits for which they were given were not on display. Many of these trophies are now being stored in the vault of one of the local banks for safe keeping and will either be kept as trophies for the next Territorial fair or sent to Spokane for distribution during the meeting of the Irrigation congress in 1909.

Those constituting the executive committee are as follows: Frank McKee, George Arnot, Berthold Spitz, M. L. Stern, D. Macpherson, and W. S. Hopewell.

GO TO THE DEVIL AT THE ELKS THEATER

Leslie Company Presents One of the Latest Hits Tonight.

Rosabele Leslie and her talented colleagues continue to delight the patrons of the Elks' theater with their well acted and splendidly produced comedies and dramas, appreciation of which is shown by gradually increased attendance at each performance. "The Devil," which is selected for this evening, is attracting more than average interest and causing a demand for seats in excess of any previous performance from the fact that plays of this caliber seldom reach the provincial towns until they have had runs of several months and perhaps years in the metropolitan cities.

The management has gone to considerable expense in the way of securing appropriate scenery, costumes and the necessary stage accessories in preparation of this production, and in consequence promises one of the most elaborate and at the same time, complete stock performances that has ever been seen upon the local stage. In other cities where Miss Leslie has presented this great comedy the production made such a pronounced hit that there were numerous requests for a repetition, but as the engagement closes tomorrow evening, this will be the only opportunity of witnessing it during the current season. Particular attention is directed to the costuming of the ladies in this performance, many of the gowns being designed especially for the occasion and are said to be models of style and elegance. "A Little Outcast" has been reserved for Saturday matinee.

SOME GOOD PICTURES AT THE SKATING RINK

Tragic, Pathetic, Comic Films Form an Excellent Program.

The popularity of "Couples' night" was again demonstrated at the rink last night, as a good sized crowd was in attendance skating, and to see the new moving pictures which were delightfully pleasing. All the pictures shown last night will be repeated tonight, consisting of "The Gypsy's Revenge," portraying the cowardly treachery of these nomadic people. "The Kind-hearted Newsboy" is a beautiful spectacular picture, showing a young hero who saves from death in a burning building the daughter of the man who befriended him. In this picture the sagacity of a faithful dog is beautifully pictured. This is a great picture and must be seen to be appreciated.

"A Baseball Fan" is all the title suggests, and more. This prosperous business man is a baseball crank of the most pronounced type; his weakness and enthusiasm causing him much trouble. To miss seeing this picture is to miss several good hearty laughs.

Tonight in addition to the illustrated songs, Prof. Gibbs will render a violin solo, and will also accompany the songs with violin obligatos. A pair of our dainty felt Juliettes with fur trimmings will make your feet comfortable for the whole winter. We have them in black, red, brown or green, and they cost only \$1.25 and \$1.50. C. May's Shoe Store, 314 West Central avenue.

M. MANDELL

JAPS PREPARE A RECEPTION TO FLEET

Everything Ready for Entertainment of American Sailors When They Arrive.

Tokio, Oct. 16.—Some time between dawn and noon of Saturday, October 17, the American fleet of sixteen battleships, escorted by a squadron of Japanese war vessels, will swing around Hachiojiyama into the beautiful harbor of Yokohama. Sixteen welcoming men of war will salute and 336 harmless guns will voice the sentiment of the whole people of Japan.

The first scene of the first act of the week's engagement of the American fleet in Japan will doubtless be the most impressive, but every number on the long program, carefully prepared and as carefully rehearsed, will be new evidence that the welcome found in Japan has been unexpected, perhaps by any of the hearty welcome extended to it since it left the Atlantic seaboard.

Sixteen Japanese war vessels are even now awaiting the battleships at their buoys and throughout the visit each battleship will have officers and men representing the entertaining emperor and people at its beck and call.

A high Japanese admiral, speaking of October 17, said: "When the first gun of welcome sounds American week will have begun and a new page will be turned in the history of the relations between the two countries."

Immediately the vessels come to anchorage Captain Dougherty, the naval attaché of the American embassy, will board Admiral Sperry's flagship and the exchange of visits between the admirals and officers from ship to ship will commence. While this is going on thousands of persons ashore, lining the basin of the harbor and occupying every vantage ground, will wait the first landing. Two special landing places have been arranged in the center of the Yokohama bay, a broad avenue facing the sea. They are for the exclusive use of the fleet's boats. By official order the American flag will everywhere be displayed, with the Japanese flag, and at night every house in Yokohama and Tokio, as well as in the villages between the two places, will put out lighted lanterns having the American and Japanese flags on them.

As soon as the officers of the two fleets have exchanged official visits the mayor of Yokohama, Mr. Mitsuhashi, will go off on his launch to visit Admiral Sperry. He will be followed by the governor of Kanagawa. After this the first detachment of officers will go ashore to return these official visits.

Ambassador O'Brien will not meet Admiral Sperry in Yokohama, the admiral having to make the first call. The first meeting, therefore, between Admiral Sperry and the ambassador will be in Tokio on Monday, October 13. Saturday and Sunday are entirely given up to Yokohama. Officially Tokio does not participate. About 2,500 American bluejackets will be given shore leave each day, and the Japanese program provides for their entertainment every minute of the day and evening. Receptions will be held at Yokohama park, where every form of entertainment is provided free. The Japanese theaters of Yokohama will entertain 600 sailors daily. The government has provided guides for the visitors, and instructions have been issued to the men of the Japanese fleet, as well as to the people generally, that every assistance should be given to the American sailors. The merchants have been warned that exorbitant charges will not be countenanced.

The first large affair ashore will be the dinner given by Admiral Ijima, commanding the Japanese welcoming

fleet, to the officers on Saturday night. This will be followed by a reception. On Sunday, the mayor gives a dinner and the men will be provided with a regular program of entertainment. A reception will also be given on Sunday by the governor of Kanagawa.

On Monday morning Admiral Sperry and his flag officers will come to Tokio. They will be driven directly from the Shimbashi railroad station to the Shiba detached palace, one of the Imperial residences situated on Tokyo bay. It was here that William H. Taft and other distinguished visitors have been entertained. The house is richly furnished and is situated in very beautiful grounds. Admiral Sperry and the other admirals, together with their staffs, will be driven to the palace in four imperial carriages which will remain at the disposal of the party during their entire stay in Tokio. An emissary from the Imperial household will be the first to call at the palace, followed by a stream of cabinet ministers or their secretaries. This ended, the admirals will take carriage and make the official call. Tokio is a widely scattered place and these visits will take time and much hard driving before the American embassy is reached. Here a hasty luncheon will be offered by Mr. O'Brien, followed by a garden party in the grounds of the embassy. This over, the return to the palace will give a chance for a breathing spell and preparation for the dinner to be given by the American ambassador at the Imperial hotel. The higher officers of the fleet and the important Japanese officials will be asked to this dinner.

With Tuesday begins the Japanese entertainment in Tokio. It can be described as a breathless affair. Luncheons, garden parties and dinners will be given, with receptions everywhere. Aside from the official entertainment, to which not one-half of either officers or prominent persons can possibly be invited, there will be dozens of private dinners and other entertainments going on all over the city. The Great theater will give one special performance to about 2,000, and the minor theaters are open free to the Americans daily. On one afternoon 3,000 bluejackets will come up to Tokio for a reception in the Hibiya park. Here the most elaborate preparations have been made. While all this is going on the trains will be running almost continuously between Tokio and Yokohama, a distance of eighteen miles, with free tickets for Americans. There will also be excursions to many points of interest near Yokohama. The street cars are also entirely free to Americans, an invaluable boon in Tokio with its hundred square miles of actual city.

Wednesday Admiral Sperry and his officers will be received in audience by the emperor and the admirals will be afterwards entertained at luncheon by their majesties.

Friday has been left open until the arrival of Admiral Sperry, who may desire to make some return on that day for the hospitality of Japan.

Every man and every officer on the fleet will receive a medal of silver or gold.

A condensed view of the official program is as follows:

Saturday, October 17.—Arrival of fleet at Yokohama; exchange of official visits; dinner in the evening by the Japanese commander-in-chief.

Sunday.—The city of Yokohama gives a reception in the park to all the officers and 800 men; dinner in the evening by the mayor and representative citizens, followed by a reception by the governor of Kanagawa at his official residence.

Monday.—Admiral Sperry, accompanied by his flag officers and captains, arrive at 9:40 in Tokio; official visits; dinner by Ambassador O'Brien at the Imperial hotel.

Tuesday.—His majesty, the emperor, gives audience and luncheon to Admiral Sperry and thirty of the higher officers; dinner in the evening by the minister of marine at the Navy club.

Wednesday.—Luncheon by the minister of war at the Arsenal garden; garden party in the afternoon by Admiral Togo in the Imperial gardens; dinner in the evening by the prime minister at his official residence.

Thursday.—Luncheon by the mayor of Tokio; afternoon reception by the city of Tokio in Hibiya park; dinner by the minister of foreign affairs at his official residence; performances

later at the Kabuki theater by the Bankers' club.

Friday.—Forenoon and afternoon reserved for the American fleet; Japanese dinner at the Maple club.

Saturday.—Departure of the fleet. A large number of entertainments for the warrant officers and men, extending throughout the week, have been arranged by the Japanese navy and by the municipal authorities of Tokio and Yokohama.

\$100—Reward—\$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address: P. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

WRONG SCHOOLBOYS GOT THE VACATION

Kaiser Granted Request for Holiday but Sent Message to Wrong School.

Berlin, Oct. 16.—Another amusing story illustrative of the humor of the military system in Germany is told in the Frankfurter Zeitung. The boys of the Osnabruck city high school, feeling in need of a holiday, adopted the plan of telegraphing to the Kaiser direct for a "day off," so that they could be present at some military maneuvers in the neighborhood. The petition evidently appealed to the Kaiser's heart, for a return telegram was dispatched by him granting the request, but addressed simply to "The Director of the High School, Osnabruck."

The postal officials delivered the telegram to the Royal high school in that town, a very different institution, much to the astonishment of the director, who, nevertheless, yielded prompt obedience and packed off his boys to the maneuvers, while those of the city high school, whom they had to thank for the unexpected holiday, remained at their books.

To improve matters, it was found that there were no maneuvers fixed to take place in the neighborhood, though some minor field exercises were being gone through at Melle, a considerable distance off. Here, however, military discipline came in. The Kaiser, it was concluded, had ordered the maneuvers personally, and the authorities considered that their only course was to carry them out on the grandest scale they could at such short notice. The Royal high school boys therefore enjoyed an excellent show.

AUTO PARTY WAS LOST FOR A DAY

Albuquerqueans Who Make Trip to Las Vegas Have Unpleasant Experience.

To get lost and wander sixty miles, finding themselves but three miles from their starting point, when they finally secured the proper direction, was the experience of Ben Strickfaden, Walter Harsh, W. A. Bridge and L. D. Leeper, who made the trip from this city to Las Vegas this week in an automobile.

They left here Sunday and reached Las Vegas Monday evening. They stayed all night at Chappelle and their run to that place was made in record time and without accident.

Leaving Chappelle early in the morning, they took the wrong road and moved almost in a circle, striking a mountain range and coming back whence they started without knowing it.

They believe they traveled 25 miles out of their way.

Mr. Harsh is a son of Mr. and Mrs. A. Harsh of this city.

THE SUFFRAGETS CLAMOR FOR A VOICE

They Continually Try to Take Part In Elections, but are Never Successful.

New York, Oct. 16.—For years the suffragettes of this city have been clamoring for the right to vote at state and general elections in this state, but their efforts have not produced any noticeable effect upon the minds of the "mean creatures" who are running things political in the Empire state. From time to time one of the most determined suffragettes appeared at the polls to cast her vote for the handsomest candidate, but there is no record that her vote was received in any instance. The fair would-be voter was received by the election officials with politeness, but met with no encouragement. This year three of New York's suffragettes attempted to register for the coming election, probably under the impression that the present popularity of the empire style of gowns might induce the election officials in the empire state to grant to the women what was denied to them when a different style was fashionable. But the hard-hearted "maughty men" in the registration booths did not consider the appropriateness of the fair suffragettes' gowns and declined politely, but emphatically, to receive the names of the applicants. One of the suffragettes, who according to her statement had voted at three presidential elections in Colorado, an extremely incautious admission, considering the fact that presidential elections are held only every four years—was quite indignant and maintained that she was clearly entitled to a vote in New York, as one state had not the right to abridge the civic rights granted by another state. She threatened with a mandamus but up to the present she has not yet appealed to the courts.

Justice Aspinall of the supreme court proved himself an uncommonly sensible man the other day when he refused to suppress the testimony in a divorce case in which a minister, formerly connected with a prominent New York church and now preaching somewhere in Missouri, was named as the co-respondent. Heretofore it has been the custom to suppress the facts whenever they cast a reflection upon the character of a minister of the gospel, but Justice Aspinall holds the decidedly rational view that a sound mind is not entitled to shielding because he happens to be a minister of the gospel. He declared that, in his opinion, there was all the more reason for giving publicity to the facts, as the man guilty of infamous conduct wore the mask of saintliness. The public should be warned against such men who had exceptional opportunities of convincing the homes of the members of their flocks and of causing irreparable injury to the happiness of those whose homes they defiled.

This is a great country for running. Everything and everybody is on the run. The politicians are running for office, the commuters for their trains, the city funds are running low, the waves of excitement over the coming election are running high, and even the staid army officers, who have accumulated quite an embankment during the long years of peace have recently begun to run for exercise in accordance with the order of the president. This popularity of running has induced the Democrats of the Second assembly district of Westchester county to nominate Charles J. Seitz of Mount Vernon, the former 100-yard national champion, for the assembly. For a man of Mr. Seitz's ability in the sprinting line it should be easy to outdistance his rivals in the run for office.

Apropos of running, it may be interesting to hear of the experience of some of the college boys in this city the other day. Half a dozen of the young athletes, among them Harvey John, the Olympic runner, were taking their daily constitutional for training the other day, never dreaming that the hand of fate was preparing to overtake them. As usual, the runners were clad in their running togs, knee trunks and sleeveless jackets. They had been out running on Ocean Park driveway for weeks and nobody ever objected until the other day, when a shy and hyper-sensitive maiden, who happened to be out driving along the boulevard, was almost shocked into a fit by seeing the scantily clad six athletes jogging along at a brisk trot. How shocking! It was too much for this modest young woman, who would consider it shamelessly indecent to speak of the legs of a table. She promptly drove to the nearest police station and made complaint against the young men who had so terribly shocked her delicate feelings. The situation was new to the captain, but the ruffled feelings of the young lady aroused his chivalry and he promptly sent out several officers to apprehend the shameless athletes, who had dared to shock Miss Prudish.

Now, policemen are supposed to be able to run fast enough to overtake burglars and pickpockets, but they can scarcely be expected to overtake Olympic runners, skimming along a smooth boulevard, even with an even start. As it was, the athletes were about one mile ahead by the time the bluecoats started. It was a comical sight to see half a dozen well fed policemen, loaded down with heavy uniforms and the various heavy parts of their accoutrements, chasing after six champion runners, a mile or so ahead of them. Did they catch them? Well, yes, but not until the athletes stopped running and gave their pursuers a chance to catch up with them. The six young men were arrested and

ATTRACTIVE, BUSINESS GETTING PRINTING

As a man is judged by the clothes he wears so a firm is judged by the printing it sends out. Do you realize the value of a neat, well printed letterhead or booklet?

A BALLAD OF THE AUTUMN

Oh, see the lanky yokel hurt!
Those large-sized hanks of hay;
He's building up his muscles for
That college game they play.

For in a few short days, this lad
Across the gridiron will rip;
He's bound to make the college team,
He's got a scholarship.

HAWAIIAN CHILDREN ANXIOUS TO LEARN

They Attend School Under Difficulties but Willingly Undergo Hardships.

Honolulu, Hawaii, Oct. 16.—Hawaii has a compulsory school law, but there is probably no state in the Union where there is so little inclination towards evasion of such a law as here. The public schools are constantly taxed to take care of the children which flock to them, and almost none of the variegated assortment of nationalities which make up the population but is anxious that their children attend the schools.

Among the children themselves there is generally a marked ambition to learn, and some have made great sacrifices in order to be able to continue in school for a more complete education.

But for a heroic pursuit of an education a Hawaiian girl in the Honolulu normal school must surely take front rank. Her name is Kahahiki Piliwale. She is the daughter of a tano planter on Hawaii.

As a child Miss Piliwale carried along her studies as far as a little country school enabled her to do. For advancement the nearest school available to her was at Hilo. This was between nine and ten miles

from her home, yet day after day, month in and out, she walked the nearly ten miles each way. After spending some time in attendance at the Hilo school Miss Piliwale entered Kamehameha girls' school in Honolulu and from there last year went to the normal school to study for a teacher's diploma. Principal Wood says she is very studious. In vacations she has been working to earn money for her expenses, being engaged last summer as a helper at a country mission station.

Inquiry has disclosed the fact that a considerable number of pupils in the Hilo high school, comprising various nationalities—Hawaiian, Portuguese, Japanese, etc., live five miles or more from the school and walk to and from school this distance each day.

Had a Close Call.
Mrs. Ada L. Croom, the widely known proprietor of the Croom Hotel, Vaughn, Miss., says: "For several months I suffered with a severe cough, and consumption seemed to have its grip on me, when a friend recommended Dr. King's New Discovery. I began taking it, and three bottles effected a complete cure." The fame of this life saving cough and cold remedy, and lung and throat healer is world wide. Sold at all dealers, 50c and \$1.00. Trial bottle free.

Why Colds are Dangerous.

Because you have contracted ordi-
nary colds and recovered from them
without treatment of any kind, do
not for a moment imagine that colds
are not dangerous. Everyone knows
that pneumonia and chronic catarrh
have their origin in a common cold.

Consumption is not caused by a cold
but the cold prepares the system for
the reception and development of the
germs that would not otherwise have
found lodgment. It is the same with
all infectious diseases. Diphtheria,
scarlet fever, measles and whooping
cough are much more likely to be
contracted when the child has a cold.

You will see from this that more real
danger lurks in a cold than in any
other of the common ailments. The
easiest and quickest way to cure a
cold is to take Chamberlain's Cough
Remedy. The many remarkable
cures effected by this preparation
have made it a staple article of trade
over a large part of the world. For
it is by all druggists.

It is not what you pay for advertis-
ing but what advertising pays
you, that makes it valuable. Our
rates are lowest for equal service.

WHITE STAR LINE AN EFFECTIVE BUILDS A BIG INDIGESTION STEAMER REMEDY

It Will Surpass Anything Here-
before Attempted In Steam-
ship Construction.

How to Relieve Indigestion In
Five Minutes and Cure Stom-
ach Trouble Forever.

Belfast, Ireland, Oct. 16.—An ocean
steamer that will rank among the
wonders of the world is under con-
struction at the yards of Harland &
Wolf, in this city. The keel blocks
of a sister ship will be laid down in
January. While nothing seems to be
impossible with ship builders there
are many bold enough to prophesy
that, so far as size is concerned, these
steamers are the last word in the
building of merchant ships.

Our Shoes Please the Most Critical Eye

They have a gracefulness and dash of style that every-body likes.

Shoes to be handsome, artistic and well fitting need not be expensive.

Our showing of the new fall and winter models proves this.

For the Man Who Walks one mile or ten a day—it's all the same if your feet are ready for business in STETSON Corndodgers

Foot-freedom, comfort, ease, that's what this model is built for.

THE "Corndodger" IS A STETSON SHOE

with all that means of STETSON wear and worth. Look at the shape—roomy, sensible, snug—conforming point for point with the natural lines of the foot.

Make the Corndodger your week-day shoe. It means the certainty of shoe-comfort every minute you're wearing it—six days out of every seven.

Call and get our book—"THE RIGHT TO KNOW." The reading of this is really worth your while. It's a new book, based on a new idea, that gives you an X-ray view of a good shoe in the making. Send for it. Read it. Learn by it.

PERSONAL PARAGRAPHS

Should you fall to receive The Evening Citizen, call up the Postal Telegraph Co., telephone No. 36, and your paper will be delivered by special messenger.

Insure in the Occidental Life. Dr. W. D. Radcliffe, of Belen, is here on a short business visit.

Judge Ingalls returned to the city last evening from San Marcial, where he went on business.

G. W. Shepley, of the Bels-Schwab Shoe company of Chicago, is in the city on business connected with his firm.

Thomas E. Young, representing the Arbuckle Coffee company of New York City, is in the city calling on the trade.

Frank W. Beach, of Orogrande, a well known mining man of that place, is in Albuquerque looking after personal interests.

There will be a regular meeting of the Ladies of the G. A. R. tomorrow evening at 7:30, at Odd Fellows' hall. By order of the president.

E. S. Parker, of the Union Central Life Insurance company, departed last evening for Magdalena on business connected with his company.

D. S. Rosenwald, secretary of the Rothenberg-Schloss Cigar company of this city, returned last evening from Roswell, where he went on business.

James G. Fitch, attorney at law of Socorro, and chairman of the Democratic executive committee, spent yesterday in the city, conferring with local Democratic leaders.

Walter Gouchenour, who for the past six months has been manager for the local skating rink, leaves this evening for his home in Indiana, where he will remain for the future.

Miss Jennilee Hedrick, who for the past three weeks has been the guest of Mr. and Mrs. R. H. Collier, departed this morning for her home in Amarillo, Texas, after a most pleasant vacation in this city.

Sixty-eight persons took advantage of the \$25 round trip the railroads made from this city to the City of Mexico at the close of the irrigation congress. The rate was one of the cheapest ever offered by a railroad.

By an error in yesterday's Citizen the sale of furniture at the residence of Mrs. N. H. Andrus, 523 West Copper avenue, was given as Thursday. The sale will be conducted by Scott Knight, auctioneer, Tuesday, October 20.

The fire department was called out at 9:30 o'clock last evening to extinguish a small blaze, thought to have been caused by hot coals dropping from an open forge at Goff's blacksmith shop on West Copper avenue. The damage will not exceed \$10.

The main line Santa Fe checks came yesterday and were given out yesterday afternoon. The coast line checks came this morning. The railroad men received better checks this month than last, which is an indication that times are getting better.

Mr. John Beaton, traveling representative for the P. Becker Truck company of Chicago, Ill., is in the city attending to the wants of his trunk trade. Mr. Beaton is well known in this section of the country and has been making this city for the past fifteen years.

Mrs. N. T. Armijo and daughters, Mrs. T. S. Hubbell and Miss Lela Armijo returned to the city last night from Los Angeles, where they spent the summer for the benefit of Miss Armijo's health. Her many friends will be pleased to learn that she has entirely recovered from her illness.

Scott Knight, auctioneer, will hold an auction sale Tuesday afternoon, October 20, of the furnishings of the

eight-room house of Mrs. N. E. Andrus, 523 West Copper avenue. Nothing will be sold privately and all goods may be inspected Monday before the sale.

Mr. and Mrs. J. S. Griffin, accompanied by Mr. and Mrs. Ancl Martin, returned to the city last evening from a tour of Old Mexico. Previous to their trip to Mexico, the party were guests in this city attending the congress and exposition festivities and are now en route to their home in Phoenix, Ariz.

The J. B. Foraker Republican club will hold an important meeting tomorrow evening, October 17, at the Republican club rooms, 120 West Silver avenue. On the eve of the primaries it is important that every colored voter attend this meeting. Refreshments will be served after the meeting. E. T. Ellsworth, secretary.

A change in the management of the branch store of the Wellier & Benjamin store on North First street was made yesterday and in the future the mercantile business formerly known as the Leon Mandell company will continue under another name and under the management of Julian Dreyfus, formerly with the H. B. Wellier company of this city. Although the change in management was made several days ago, it was not made public until yesterday. It is understood that Leon Mandell will engage in business for himself in the very near future, and while the exact location is not known, it is the intention of Mr. Mandell to locate on First street with a full line of merchandise such as he handled for his former employers.

I have opened a cleaning, pressing and repairing establishment at 201 East Central avenue, and am doing first class work only. All work guaranteed and prices reasonable. Goods called for and delivered. Edgar Strumquist, 201 East Central. Phone 328.

This is an exceptional opportunity to purchase excellent furniture at your own price. Goods consist in part of large stove, gas range, kitchen utensils, glass, china and silverware, refrigerator, oak dining table and chairs, 3 iron beds, mission bed-room suite, dressers, washstands, center tables, library table, handsome carpets, Navajo and other rugs, 2 couches, sectional bookcase, willow and leather rockers, heating stoves, lace curtains, and shades, chamber sets, mission porch furniture, \$500 Howard cabinet grand piano almost new, pictures, portieres, bric-a-brac, bed and table linen, blankets, comforters and pillows. Nothing sold private; inspect goods Monday before sale. SCOTT KNIGHT, Auctioneer.

Money to Loan

\$500.00 to \$50,000.00, in sums to suit. A. Montoya, 215 W. Gold Ave.

AUCTION

Are you in need of a licensed auctioneer? If so, see J. F. Palmer, 214 West Gold avenue. Speaks Spanish and English.

Subscribe for The Citizen.

YOU have your own ideas about the style of suit you want to wear this fall; you may prefer the double-breasted coat; a good many men like the athletic shape it gives the figure.

Hart Schaffner & Marx

make so many good styles that about all you need to do to get just what you want is to come to us and sav what it is. We've got it.

Fine suits in many new, smart, snappy styles; a great variety in the shape of the pockets, the way they're put on; the shape and hang of the coat; a lot of catchy details you'll be interested in. Many good colors to choose from.

Overcoats, too, when you're ready; raincoats, top coats; all styles. All wool, right tailoring and correct fit.
