The Quickest, Simplest Cough Remedy

Easily and Cheaply Made at Home. Saves You \$2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much of as good cough syrup for \$2.50. It is simple as it is, it gives almost instant relief and usually cures an ordinary cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (Littell's) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat. It is a most valuable concentrated compound of Norway white pine extract, and is rich in calcium, other natural healing elements. Other preparations will not work in this combination.

The prompt results from this mixture have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

FORMER SENATOR CLARK HERE ON WAY TO MINES

Spends Most of His Brief Visit in Albuquerque in Conversation With John M. Moore, an Old Friend.

Sharing his thirty-ninth stay here between finishing his dinner and J. M. Moore, of the John M. Moore Real Estate company, former United States Senator W. A. Clark, of Montana, did not have time to give an interview last night.

The former senator, traveling in a private car, arrived here on Santa Fe train No. 1 at 7:25 o'clock last night. He was at the dinner table at that time. Mr. Moore was waiting for him when he finished and they spent the remainder of Senator Clark's brief visit in conversation. Mr. Moore and the former senator were school mates.

The senator is on his way to Jerome, Ariz., and from there he will go to Charlottesville, Ariz., to see his mining properties. He will go from Charlottesville to Los Angeles, and return to Montana by a northern route.

ROAD COMPANIES STILL TO PLAY ELKS THEATER

That the new season of the Elks theater does not intend to make an exclusive vaudeville house of the theater was made known yesterday when Sam Berkowitz, who will take over the theater on October 27, announced that he would still continue the booking of first class road attractions. However, he was particular to emphasize that only high class attractions will be booked.

Mr. Berkowitz expects to go to New York soon, where he will make arrangements for the booking of such attractions during the winter theatrical season.

Under the new management, both main vaudeville will be offered nightly at the Elks, this consisting of five acts with two feature films of films. Two performances an evening will be given.

PARENTS WHO DO NOT SEND CHILDREN TO SCHOOL MAY BE FINED

The board of education will enforce the truancy law strictly this year. The Emily W. Tennent, clerk of the board, yesterday prepared notices to parents, and as trustees, stating that they were subject to fine or imprisonment for not sending their children to school. The notice follows:

Any parent, guardian, or other persons having the control of children not less than 7 nor more than 17 years of age and who shall fail to require to send such children to school, during the entire time school is in session, shall be punished upon conviction thereof by a fine of not less than \$5 nor more than \$25, or by imprisonment for not more than ten days in any county jail.

EMILY W. TENNENT, Clerk Board of Education.

EX-CONVICT ACCUSED OF STEALING WATCH; HELD IN CITY JAIL

Joe Murray, who was accused of stealing a watch by Marie Worthington, was arrested last night by Patrolman Charles Morris. The woman identified Murray as the man who had taken the watch, but the police were unable to find it in his possession. He was held.

Murray admitted that he had served a three-year sentence in the Santa Fe penitentiary. He was sent up from Raton, he said. Murray denied taking the watch.

TRIAL OF CRIMINAL CASES TO BEGIN THURSDAY

District Court After Week's Rest Reopens Session With Case of Etch Against Meat Company.

The district court after a recess lasting a week on account of the state fair, re-opened yesterday morning. Judge Reynolds took up the unfinished civil docket of cases set for trial by jury, but court officers expect him to call the criminal docket Wednesday.

If the court reaches the criminal docket by Wednesday the first case probably will be set for trial Thursday. At the end of this the petit jury probably will be discharged unless the court is forced to postpone civil cases in which the litigants wish trial by jury until the completion of the criminal cases.

The case taken up yesterday is that of George Etch against the Western Meat company. Etch asks \$10,000 damages for alleged false arrest. He was arrested on a charge of obtaining goods under false pretenses December 16, 1912, on complaint of the Western Meat company, and later he was discharged by a justice, Etch alleges.

The plaintiff had not finished his case when court adjourned yesterday evening.

The jury in the case is made up of George Garcia, A. Garcia, Antonio Aranda, Domingo Roldan, C. Moya, C. Talarico, Manuel Montero, Carlos E. Romero, Benjamin Martinez, Pedro Garcia, M. Salazar and Carlos Aranda.

UNIVERSITY IS GIVEN BOOST BY LUTHERAN CHURCH PUBLICATION

The current issue of the Watchman, a Lutheran publication devoted to the interests of Evangelical Christianity as advocated by the Evangelical Lutheran church, of which the editor is Rev. John A. M. Zander, gives the University of New Mexico the following boost:

"We are devoting a little space this month to our state university. A number of our young people have attended there in the past, and there are others that will likely do so in the future. Certainly, our first interest as a church is our own church members, but we are interested in the success of the university. I am acquainted with but a few of the members of the faculty; those whom I know, however, impress me as men worthy of all confidence. Certainly, President Boyd and Dean Hodgkin are men of whom any school may well be proud."

New Mexico school old in but many civilization, the success of the state, and it is essential for her best development that the university, not only as a school, but as a center of civilization, be able to attract students from the state, and in a practical way, by sending our young people. As indicated above, we prefer to have our young people go to our own church schools, the fact remains, however, that many of them are now going to other than church schools, and that, out of the state. What we need is state pride. The university may not have a large attendance of students, but there is a strong feeling, and with small classes, the advantage is all in favor of the students.

"Then, too, the climate of central New Mexico is an asset that is precious. I speak from personal experience when I declare that there is no such climate anywhere. From any corner in the hot and from the lakes to the golf. The air is young people that can actually continue their college course, because of climatic conditions where they live, who could, in this altitude and in this atmosphere, continue their work with pleasure. We need to bring these conditions to the attention of the outside world."

But These Were Enough to Prove the Merit of Cardui, the Woman's Tonic.

Cardui, Ill.—"Having used Cardui, the woman's tonic, in my family, for a number of years, I feel it my duty to write you about it, so that you may publish my letter."

My mother is living with me, and she is 52 years old. For the last three or four years, she has been troubled a great deal with cramping spells, and all kinds of stomach troubles. For days at a time, she would have a severe headache.

After reading the Ladies' Birthday Almanac, and seeing how much Cardui had helped other women who were sick and ailing, she decided to give it a trial. So she got a bottle and began taking it, three times a day. Since then, she has been getting along splendidly.

Mother only used up four bottles of the Cardui, but she is no longer troubled with the severe headaches, and her stomach is so much stronger, that she can eat most anything she likes so glad for what Cardui did for her.

We both feel that any lady who is not strong and well, would be greatly benefited by the use of Cardui.

READY MONEY WILL BE OFFERING AT ELKS TONIGHT

International Success Is to Be One of Real Big Companies at Local Theater Before Vaudeville Commences.

Tonight at Elks theater, one of the last big attractions before the theater is converted into a vaudeville house, under new management, will be presented to Albuquerque-theater-goers.

"Ready Money" is the happy, but somewhat misleading title of the international success which appears tonight at the local playhouse under the management of William A. Brady, Ltd.

Like all successful plays, "Ready Money" has "love and the women" clearly woven in its structure, the use of money being the necessary to the fact, rather than the fact itself.

The love story is told in a comedy vein with tense and exciting moments mixed in, but the element of the "weeping" drama is absent. The sentiment is the love and romance as the women are thinking about it. Stephen Baird, a rich young man, engaged to Grace Tyler. Through speculation, he becomes poor, except for his interest in an Arizona mine. The girl's mother declares there shall be no wedding. While his sweetheart is quite willing to make any sacrifice, the mother's opposition is so strong that Stephen finds he must positively obtain wealth to outwit the future mother-in-law. That he wins and gets both his girl and money, shows how a man can be spurred on to any accomplishment through the influence of love.

"Ready Money" comes with a record of eight months at Maxine Elliott theater, New York, and eight months at Sir Charles Wyndham's New theater in London.

'CASCARETS' FOR LIVER, BOWELS

No Headache, Bloating, Bad Taste or Constipation by Morning

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Laxative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and fecal masses, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel grand by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women get a Cascaret now and then and never have Headache, Bloating, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

INTENSIVE FARMING TO REMEDY HIGH COST OF LIVING

Urbana, Ill., Oct. 12.—President Edmund James, of the University of Illinois, announces that the trustees of the university have purchased an estate of 220 acres for the purpose of enlarging and developing the horticultural interests of the state represented in the university.

This will make provision for horticulture in its large sense, including forestry, which will be second to none in the United States and will surpass considerably any similar work done abroad, under the charge of any single institution.

It is perfectly apparent that with the rising price of farm lands in the state at Illinois, and the middle west in general, a new system of culture must be introduced to make them profitable to their owners, and the people of the nation in general. More intensive methods of cultivation must be adopted. The systematic cultivation of forest trees, the adequate development of the whole department of horticulture, which has become one of the great industries of the state of Illinois, and the fuller development of fruit growing and market gardening, call for more systematic and comprehensive attention to the subject than has hitherto been received in the state of Illinois, and the provision of the needed space will permit the carrying of things to undertake the development of this interest on an enlarged scale.

He asked a box sent of the mail. In searching terms. The girl declared she was afraid. She said, of course.

ARIZONA REQUESTS FOREST SERVICE TO SUPERVISE CUTTING

The district forest headquarters here has received a request to supervise timber cutting on part of the Coconino forest under jurisdiction of the state of Arizona. The Arizona authorities evidently approve the forest service method in handling timber cutting.

The forest service probably will accept. Athol Wynne, district lumberman, has been instructed to go to the Coconino to make an investigation. He left for Flagstaff yesterday. The district officers expect a report from him within a week.

As a Reward.

"It is a good boy," said Annie, the mother.

"And what then?" demanded the father.

"Annie will take you down town and let you see her throw a brick through a window."

A Foolish.

"Your head cut on me yesterday, daughter."

"Did he ask you for my hand, father?"

"He may have intended to. If he did, he lost his nerve. Anxious, he switched off onto the world's series."

Mean Man.

"It's a mean man, who makes his boy dig a hole and then won't let him go alone on the fishing trip."
