MRS. PANKHURST MAY  
NOT BE DETAINED LONG

Washington, Oct. 14.—Commissioner General Cammisa, of the Immigration bureau, issued a statement tonight regarding the attitude of the bureau towards Mrs. Pankhurst, the British suffragette, who is due to arrive in New York the latter part of this week. He said:

"The report that the bureau of immigration of the department of labor or any officer of either had decided or attempted that Mrs. Pankhurst should be detained at New York, on her arrival at New York, is entirely untrue. The bureau of immigration is not a law enforcement agency and it is not its duty to detain any person who is not a threat to the public safety."

# BIG LAND OPENING!

**76,000 Acres of Choice Fruit and Agricultural Lands  
Thrown Open—Most Wonderful Opportunity  
For Those Who Are "Land Hungry"  
Ever Known In The History Of  
Land Openings—a Proposition  
That Will Probably Never  
Again be Equaled!**

**ACT NOW—No Chance for You to Lose—Registrations Accepted by Mail.  
THE FOLLOWING ARE ELIGIBLE AND CAN REGISTER:**

- 1—Any married person who does not now own over 40 acres of land.
- 2—Any widow who does not now own over 40 acres of land.
- 3—Any orphan over 15 years of age who does not now own over 40 acres of land.

If you are eligible according to the above classifications—and if you are weary of the drudgery and toil of a small wage or salary with the cost of living soaring skyward—or if from any cause you have failed to realize the freedom and independence you long for—why don't you send in your registration for this Great Land Opening now? You have everything that makes life worth living, to gain—you can't possibly lose.

Listen: Down in the Missouri Ozarks, about 4 hours ride by rail southwest of St. Louis (the fourth city in size and importance in the United States) there's a tract of 76,000 acres of fine agricultural and fruit land. It's all high land—about 1000 feet above sea level—and not an acre of swamp land in the entire tract. Right in the heart of the famous Missouri Ozark fruit belt. Finest kind of soil, too—mainly a rich, sandy loam, varying from deep black to coffee color. The sub-soil is very deep and is a Red Clay Gravel, which is the very best. It is a soil remarkably adapted to the production of the very finest fruit, both in quality and color. Besides growing many kinds of fruit in abundance, adjacent lands are now growing as high as 75 bushels of corn per acre and fine wheat, oats, alfalfa and all other staple crops. The climate is most healthful and invigorating—typhoid, malaria and ague are practically unknown, and there is an abundance of exceptionally fine water. Besides the numerous bubbling, crystal flowing springs on this tract, wells sunk to a depth of from 20 to 100 feet find an unending supply of pure water. Ponds and cisterns are easily made and an ample annual rain-fall of 48 inches keeps them filled.

## Why Development Has Been Delayed

Why then, you ask, has a garden spot of such wonderful promise—of such great fertility and so close to the fourth largest city in the country been allowed to remain undeveloped for so long?  
A very natural question—yet the reason is also a natural one—Previous lack of railroad transportation.  
Here are the facts: This 76,000-acre tract is part of a large body of choice timbered, fruit and agricultural lands which was purchased several years ago and has been held ever since waiting for railroad development. Now, we have the railroad. The Missouri Southern Railroad runs right through the center of this tract. About 50 per cent of the 76,000 acres now offered lies from adjoining to within 2 1/2 miles of the railroad. The next step is to get the people, for you know that land, no matter how fertile it may be, even though it has a railroad, is not productive without people to cultivate it.  
No doubt you remember when a few years ago the Northern Pacific

gave away one 100-acre tract out of every 640 acres, as an inducement to fill up the country with people. They are now reaping the reward by hauling out the produce and by the increase in price of the value of land they hold, to many times what it would have been without such aid. Railroads, on account of having a money-making after consideration in view, can easily do what private companies cannot even think of doing, because the private companies cannot afford to do it. So as stated, we NOW have the railroad and land, the next step is to get the people, therefore to accomplish our purpose, a portion of our extensive holdings is being included in this most remarkable and very unusual and liberal land opening, the like of which, we feel quite positive, will never again be equaled in the HISTORY OF THE COUNTRY, the disposing of which, will very naturally increase the value of the remaining acreage that we are holding to many times what it would have been without this opening and the settlers.

## The New Town of Fruit City

Then again there's our NEW townsite of FRUIT CITY which we have recently "laid out", located on the Missouri Southern Railroad, adjoining our big 5,000-acre orchard. There will be 5,000 residences and business lots in Fruit City, but NONE of the lots will be included in this opening.  
Fruit City has a great future. There is no doubt in our minds at all but that it will reach the 5,000 mark in less than twenty-four months after the opening. You see we are not ONLY giving a FULL BLOCK upon which to erect the courthouse, but we intend to contribute \$50,000.00 toward the building of it. Five-sixths of the people NOW in the county are living along the railroad—this combined with our donations in the way of land and actual cash should enable us very easily to move the county seat to Fruit City when the time comes to vote as the county seat is at present located at a little inland village eight miles from the railroad with a population of about 100.

Well, then, what does all this mean to Fruit City—a town with excellent prospects of being a county seat town—located on the railroad—adjoining the largest and the most highly developed and finest equipped orchard in the world—to be inhabited and surrounded, within a very short time after the opening, with an overflow of splendid citizens and settlers from practically every state in the Union. It should mean a thriving, substantial and prosperous city of several thousand within a short time after the opening and, not LESS than ONE or TWO MILLION DOLLARS NET to our company from the sale of 5,000 lots.  
Not a LOT will be offered for SALE in this future metropolis until ON and AFTER the DAY OF the OPENING.

## These Circumstances Make Possible "YOUR" Opportunity

This 76,000-acre tract is to be divided into 5,000 farms ranging in size from 10 to 100 acres as follows: 3,000 10-acre farms, 1,200 20-acre farms, 100 40-acre farms, 50 80-acre farms, and 50 100-acre farms, making 5,000 farms in all, a total of 76,000 acres. One tract out of every THREE will be a 20-acre tract or over.  
Remember this fine tract is located only about 4 hours' ride by rail from St. Louis and that the Missouri Southern Railroad runs right through it.  
Wouldn't you like to own one of these fine farms in this magnificent Ozark fruit belt located within a few hours' ride of one of the largest cities in the United States—enjoy all the advantages and comforts of the large city

and yet be independent in the freedom of the country, surrounded by your own growing crops, your ripening fruits, have an abundance of poultry and eggs—in fact live the life of independence—wouldn't you rather be situated than always to be dependent upon others for a mere "job"?  
Well, you can—if you are eligible for this great Land Opening.  
No Application for Registration will be accepted unless the applicant pays the small Registration Fee of \$15.00 to help defray the expense of advertising, arranging for and conducting the Opening, turning over of the Land, transferring and delivering the Deeds, Abstracts and other legal papers. However, you

## Not Necessary To Be On The Ground On Opening Day

You can be on the ground the day of the opening in person or have some one to represent you if you choose, but it will not be at all necessary. It will not make a particle of difference one way or the other so far as the outcome is concerned, for every Registrant's interests, whether present or not, will be fully safeguarded—all have an equal opportunity. There will not be the slightest favoritism shown to any one. All applications that are accepted will be recorded and treated on an equal basis by us. So matter where you live you will immediately be notified as to just what tract or tracts you have secured at the opening. And you NOW KNOW in advance that it will be either a 10, 20, 40, 80 or 100-acre farm or 100 shares of stock in the big 3,000-acre orchard. No blocks—no disappointments. WHATEVER you get will be worth many times the Registration Fee.

Only ONE Registration will be accepted for EACH Contract we have. The Old Colony Trust and Savings Bank will certify only ONE Full-Paid-Up Certificate for every contract included in the opening and no more. This being the case, and Registrants now being received by the hundreds, it will behoove you to reach our Committee with your Registration before the Contracts are all gone.  
**WHEN OPENING WILL BE HELD**  
The big Land Opening will be held at Fruit City and the date of same will be announced 20 days in advance, at which time the Plans of the Land and Orchard will be mailed to each accepted Registrant.  
The Opening will occur as soon after the closing of the Registrations as arrangements therefor can be made. While we cannot state definitely at this time just exactly when the Opening will take place, we judge, from the way Registrants are now coming in, and as they are almost sure to come in, in still greater numbers as a result of this announcement, that the day is not far distant. However, as stated, advance announcement of the Opening will be made at least 30 days prior to same.

Make your Remittance direct to The Railroads Unimproved Land Association, in Care of Registration Committee or if you like you may remit to the Old Colony Trust and Savings Bank, Chicago, using the Registration Coupon below for that purpose. All remittances will be duly acknowledged and Receipts covering same promptly mailed. The said receipt will show that the Registrant, immediately upon the payment of his Registration Fee of \$15.00 in full, will receive a Full-Paid-Up Certificate, certified by the Old Colony Trust and Savings Bank, entitling him at the Opening, to a Warranty Deed and Abstract to either a 10, 20, 40, 80 or 100-acre tract of land out of the 76,000 acres, or for the proper transfer of 100 shares of Fully Paid and Non-Assessable Orchard Stock in the big 3,000-acre Orchard.  
You Can Register By Mail Now and Get Your Money Back Any Time Within 30 Days, If After Fuller Investigation, You Wish to Withdraw.  
We strongly advise prompt action or else you are liable to be too late. You want to make sure that your Application

reaches us in time for it to be accepted, as only one Registration will be accepted for each contract we have and no more. There is only one way for you to make sure that it will reach us in time, and that is by sending in your remittance (either the entire \$15 or the first installment of \$5) at once. Then you can take your time to investigate. We will send you full descriptive literature explaining our proposition in detail. You can, if you like, visit the land in person and look the ground over. We invite the fullest investigation, believing that the closer you look into this Big Opening, the more powerfully it will appeal to you. However, if after a thorough investigation, you desire to forfeit your number and do not care to put the small sum of \$15—the Registration Fee—into the enterprise, all you will need to do is to notify us to that effect any time within 30 days after you have sent in remittance and we will promptly refund every penny of the money sent us.  
It can be very safely predicted, comparing this Land Opening with those of the past, that there will be far more successful applications than there will be contracts for. When all have been spoken for there will be no more available. Consequently, we shall be forced to reject all excess applications and return the applicant's money. Therefore, we would advise that you send in your application now, if you are eligible, and make sure that "you" will not be disappointed.

For remember—if your application is accepted—you will not be disappointed. You simply can't lose. You are bound to secure a fine farm in one of the most productive fruit and agricultural sections of the United States, or 100 Shares of Stock in the most complete, the best equipped and what promises to be the biggest paying Orchard in this country has ever seen. This is your opportunity. It is now up to you to make the best of it. It is doubtful if this Opening will ever again be equaled in the history of this country. Own your farm, build your home in this land of the "Big Red Apple" and the "Sun-Kissed Peach," where all nature lavishly smiles and where the sun shines almost continually on the beautiful, crescent landscape of the purple Ozarks; where the air is pure and sickness rare—where an abundance of clear, sweet, cold water is seen gushing from a thousand springs; where the soil is mellow and rich, where the annual rainfall is 48 inches and crops are sure; where the market conditions are ideal—just a few short hours from the fourth largest city of the country; where game abounds and the fishing is fine—where life—real life—is worth while.

**You DO want one of these farms—and this is your chance to get one**  
Fill in the Registration Coupon below and mail today with your remittance, enclosed direct to our REGISTRATION COMMITTEE, Fourteenth Floor, Great Northern Building, or if you like you can remit to the Old Colony Trust & Savings Bank, Chicago, Illinois. Respectfully,  
The Railroads Unimproved Land Association, CHICAGO, ILLINOIS

## 5,000 Farms Included In Opening

Take particular note of the fact that there are 5,000 farms to be included in this Land Opening. It does not follow, however, that it will be the first 5,000 Registrants who will secure the 5,000 farms. This Opening will be conducted in a manner somewhat unlike the method which has prevailed at Government land openings, the important difference however, being as follows: When the Government conducts a land opening, the name of each Registrant (regardless of the NUMBER of Registrations) is included in the opening, consequently there are always considerably more Registrants than there are farms to be distributed. Thousands who have registered are doomed to disappointment because there are not enough farms for all Registrants.  
We have taken particular pains to guard against such disappointment of that nature by

making the following provision: The Opening will include besides the 5,000 separate farms, a 3,000-acre Orchard, consisting of 2,500 acres of Apples, 200 acres of Peaches and 300 acres of Grapes, which is now being developed at an expense of about a quarter of a million dollars. It will be the largest and most highly developed and the finest equipped Orchard in the world. It is being equipped with a Canning Factory, a large Hotel, a large Barn, 40 Tonnage Houses, one Winery, including all necessary Presses, Tubs, Cellars and Buildings, 2 Evaporating Houses, 2 Fruit Packing Sheds, 40 Fruit Spraying Outfits, 100 head of Mules and Horses, 50 Farm Wagon, 50 Farming Plows, 50 Cultivators, 50 Double Shovels, 50 No "A" Harrows, a number of Sprouting Hooks, Pruning Knives, Saws, Axes and a lot of other miscellaneous equipment sufficient to thoroughly equip an Orchard of this magnitude.  
Now every person whose application is accepted for this Land Opening will secure either a farm or 100 shares of Fully Paid and Non-Assessable Stock in the above described Orchard. Stock which should and in all probability will soon earn dividends of from 10 to 40 per cent annually. The Orchard Stock, itself, should be worth many times the \$15 Registration Fee. As a matter of fact, we propose to make this the most highly developed and the finest equipped Orchard in the world. It is to be a demonstration Orchard to show what the country is capable of in the way of producing fine apples, peaches and grapes and of raising it will naturally pay big dividends and all stockholders will share, pro-rata by the number of shares each holds, in the yearly profits of the Orchard.

## You Get Either A Farm or 100 Shares of Orchard Stock

There is no way at all to be gained by getting a 10, 20, 40, 80 or 100-acre tract of 100 shares of Orchard Stock. That will be determined by the committee. You remember you are sure to get one or the other—a Tract of Land or 100 Shares of Stock. However, each tract included in this opening will be of an acreage equal to the acreage of the 100 shares of Orchard Stock. The Registration Fee of \$15 is all you have to pay as now or at any other time.  
You will be given a Warranty Deed and Abstract for the land, with a promise that you will be the sole and undivided possessor of

that particular tract of land. The Deed and Abstract of this 76,000-acre tract are held in Trust by the Old Colony Trust and Savings Bank of Chicago, Illinois, and besides conveying every Full-Paid-Up Certificate for Deed that goes out to each Registrant, they agree to turn over on the Day of the Land Opening the Deed and Abstracts to the 76,000-acre tract of all encumbrances of whatsoever nature. Moreover, while we are naturally very anxious to have everyone who receives a farm move on to it and put it under cultivation you are under no obligation to do so. You don't have to leave your home or do anything with it unless you want to.

ly equip an Orchard of this magnitude.  
Now every person whose application is accepted for this Land Opening will secure either a farm or 100 shares of Fully Paid and Non-Assessable Stock in the above described Orchard. Stock which should and in all probability will soon earn dividends of from 10 to 40 per cent annually. The Orchard Stock, itself, should be worth many times the \$15 Registration Fee. As a matter of fact, we propose to make this the most highly developed and the finest equipped Orchard in the world. It is to be a demonstration Orchard to show what the country is capable of in the way of producing fine apples, peaches and grapes and of raising it will naturally pay big dividends and all stockholders will share, pro-rata by the number of shares each holds, in the yearly profits of the Orchard.

ETOH CASE TAKEN FROM  
JURY BY JUDGE RAYNOLDS

When the plaintiff rested yesterday in the case of George Etoch against the Western Meat company, Judge Raynolds instructed the jury to return a verdict for the defendant.

George Etoch, who gave his deposition yesterday morning, testified against the meat company for Etoch on account of alleged false arrest.

The plaintiff finished the presentation of his evidence in 10 o'clock yesterday morning and then attorneys agreed a motion to instruct the jury.

At 2 o'clock in the afternoon, when Judge Raynolds gave his decision, the defense contended that there was nothing in the plaintiff's evidence to show that the meat company was responsible for the issuance of the warrant.

MAYOR SELLERS IS  
HOME AFTER VISIT  
TO CLOVIS FAIR

Mayor D. H. Sellers, who spoke  
yesterday morning in a tent at Clovis,  
where the Clovis county fair was held,  
returned last night. State Senator  
Frank Smith also spoke there yester-  
day, but did not return last night.

The mayor spoke about visiting a  
road from Clovis to Albuquerque and  
the plans were received warmly by  
the Clovis county people and the  
Clovis Chamber of Commerce. The  
mayor said upon his return that he  
did not think it would be necessary  
to locate an entirely new route, but  
that by connecting a series of roads  
already built and then improving the  
entire route a good highway would be  
opened to travelers.

Going back tonight? Sure!
