## NAVAL EFFICIENCY NOT DOUBLED BY CANAL, OPINION OF DANIELS

Secretary of Navy, in Mobile Address, Declares However That Untold Good Will Come From Great Waterway.

## ARMY AND NAVY MUST BOTH BE INCREASED

Fleet of War Vessels, Headed by Historic Oregon, Will Pass Through Ditch in Few Months From Now.

comes only to those who live upon the mountain tops of public duty and of private thinking, where they are given the power to prophesy and dream dreams.

A busy six-hour stay of President Wilson in Mobile yesterday, by Major's Secretary (Major) Underwood, secretary of the Navy, and many others, marked the opening of the seventh annual Southern Commercial Congress here today. Delegates from all sections of the south heard President Wilson after distinctive statements on a new phase of the policy of the United States toward Latin-America, heard Mr. Underwood advocate the building of the American merchant marine as the best method of gaining the commerce expected with the opening of the Panama canal and heard other speakers tell of the opportunity that awaits the south with the opening of the canal.

President Wilson delivered only one address. Mr. Underwood emphasized the point that without shipping controlled by the United States this country never could gain the increase in trade it expected from the opening of the canal.

## DIAGNOSIS IS UNCERTAIN AS TO HIS PLANS FOR FUTURE

Former General of Mexican Army Has Received No Communication From Capital Regarding Retirement.

## DIAGNOSIS TAKEN ABOARD AMERICAN MAN-OF-WAR

Vera Cruz, Oct. 27.—Gen. Felix Diaz applied to the American consulate during the night for protection and was taken on board the United States gunboat.

Secretary Daniels referred to the declaration of Gen. Manuel de Peraza, a celebrated French engineer, that this gigantic and remarkable work of the United States is a military masterpiece, in a military sense. The Frenchman calculated that 25,000 men would be sufficient to guard the waterway.

"Not in these statements," Secretary Daniels continued, "as in almost all other things, the truth lies between two extravagant assertions. The canal will not double the effectiveness of our navy, but it will greatly increase its ability to defend every part of the coast on the Pacific as well as on the Atlantic. It will not enable the commanders of the army to make necessary fortifications and troops, but it need not be nearly so expensive or require one-half as many troops as the distinguished Frenchman predicts.

"No great achievement comes without sacrifice and cost, but the benefits to be derived will be worth the moderate cost of its protection and operation will require in all the years to come, and with the expansion of trade the benefits will increase a hundred fold whereas the expense will remain practically stationary.

"The Panama canal is a mammoth engineering feat and a stupendous achievement in a record-breaking way. And cutting and slashing the distance between New York and San Francisco means to revolutionize travel, as well as commercial conditions. The military significance of the canal is that it enables quick movement of the fleet from either coast to the other in time of war.

## GORE PROMISES FARMERS RELIEF FROM CONGRESS

Tulsa, Okla., Oct. 27.—According to legislation intended to better the condition of the American farmer would be considered by congress immediately after the disposal of the pending currency bill was given today by Senator Gore of Oklahoma in his address before the International Dry Farming congress in session here. The senator declared that as a result of the recent investigation of the rural credits in Europe, a plan would be devised whereby money with which to finance crop operations would be loaned to the farmers at 4 per cent interest.

Sole, Illinois livestock and other subjects of importance to the farmer with special reference to the conservation of water to provide moisture for the growing crops during the dry periods were discussed today by agricultural experts from a number of states and several foreign countries.

The international congress of farm women held its first session this afternoon. Mrs. Belle Von Dorn, Herbert of Massachusetts, president of the congress, made a plea for better arrangements for the women and children on the farms and deplored the exodus from the country to the city. She declared that when people left the country they turned their backs on beauty and the best life.

A silver loving cup was presented tonight to the representatives of the state of Oregon for the best exhibit shown at the exposition held in connection with the congress.

## ELECTION RESULTS IN MEXICO WILL NOT BE KNOWN FOR WEEKS

Practically Certain That Not Enough Votes Have Been Cast to Constitute Valid Choice Under Law.

## PEOPLE ARE AFRAID TO GO TO POLLS

Felix Diaz Party Has No Way to Estimate How Their Candidate Ran; Catholics Will Make Early Statement.

Mexico City, Oct. 27.—There is no indication tonight as to what has been the result of the elections. The hope is held out that the Ayuntamiento, a body resembling in a small degree a board of aldermen, will have prepared in report for the federal district by the end of the week. From the experience of the last presidential election, when the means of communication were much better and the country was more nearly in a state of peace, it is regarded as too much to expect that the results throughout the country will be learned before the expiration of several weeks.

At the headquarters of the Felix Diaz party no headway has been made to ascertain the strength of the Diaz vote. The Catholics have promised an early statement estimating the vote for Federico Gamboa in the federal district.

Reluctance to go to the polls was general. Besides a lack of experience in such affairs, there was said to be a general feeling that some serious consequences would follow should the voter choose a losing candidate.

Less than 5 per cent of the registered voters cast a ballot at Ensenada de Yoda, Lower California, of which a large part was composed of soldiers. The vote was practically unanimous for Huerta and Blanes.

Out of the 250 polling places in the federal district, the Catholic party leaders claim a majority on 85 for their candidate, Federico Gamboa and General Blanes. This claim, they say, is based on returns reported to the party watchers at the polls.

The returns from Culiacan, Guadalupe and several smaller towns also indicate Catholic majorities. Huerta and Blanes received majorities in a number of places. It is said by many politicians that enough votes have been cast for the Huerta-Blanes ticket to invalidate the election.

In view of General Huerta's declaration that congress must declare these votes illegal.

The Ayuntamiento has been called to meet November 2 to pass upon the ballots for senators and deputies.

The commander and several officers of the German cruiser Hertha, arrived here today from Vera Cruz. They will be received by President Huerta tomorrow.

The Mexican minister of the interior, Gaitan Alvarez, was asked today if the few votes cast in the presidential election Sunday in the city of Mexico might be taken as an indication of how much voting had been done elsewhere in the republic and if, in view of the small number of votes cast, the elections would be declared null by congress.

The minister replied that the point which will decide the legality of the elections, apart from the absence of fraud, will not be whether a majority of the voters in each electoral district cast votes; it being immaterial, for instance, if only ten thousand people in this capital cast their ballots.

"The essential thing," Senor Alvarez explained, "is that the returns come from a majority of the electoral districts and that the elections held there have been fair, even though only a small proportion of the voters have availed themselves of the privilege of voting.

With regard to the vote for Provisional President Huerta and Minister of War Blanquet he said:

"I have no news of any great number of votes having been cast for Huerta and Blanes. Those which may have been cast for Huerta will be thrown out as illegal on the ground of unconstitutionality, in accordance with the president's direction."

The minister of the interior, Senor Alvarez, tonight claimed Huerta-Blanes victory in the half dozen interior cities from which election reports have been received. The town of Monterrey, in the state of Nuevo Leon, gave an unanimous vote to Huerta of 2,850.

## CONCERTED POLICY ON MEXICO BY ALL POWERS IS IN PROSPECT

England Will Take No Steps in Present Situation Until After Consultation With United States.

## RECOGNITION ENDED FOLLOWING ELECTION

Action Held in Abeyance by State Department Until After President's Return From Mobile.

Washington, Oct. 27.—Reports from the British foreign office that Great Britain would do nothing in the Mexican situation, now that the election had been held in the southern capital, without consultation with the United States aroused interest in official circles here today and added strength to the persistent impression that the American government plans a note to the powers which will result in a concerted Mexican policy for the future.

Secretary Bryan, when he spoke at the British foreign office, asserted that Great Britain's recognition of Provisional President Huerta was given to extend only until the election, stated that such had been the understanding here all the time. When asked if a note was in preparation which would open the way for negotiations with the foreign powers, he said no statement or intimation along this line would be given at this time.

Some officials suggested today that the position of Great Britain with respect to recognition of the Huerta government in case the election for president is declared void, would be binding as it now stands. Should Huerta continue to be the head of the provisional government it was argued the recognition of Huerta would necessarily continue. Others maintained, however, that the recognition extended by Great Britain was intended to hold until election only, but would, in any case, be the result. On this issue it was contended that Great Britain was free to listen to any proposal that might be made by the United States for the formulation of a general Mexican policy which would include also the participation of other powers.

In the absence from Washington of President Wilson, nothing definite could be learned about the future plans of the government, but it was generally asserted that nothing would be done until there was official announcement from Mexico City on the outcome of Sunday's elections.

Secretary Bryan stated tonight that no direct communication had been received as to the result of the probable outcome of the elections for president since the votes were cast. It was the general belief, however, in official circles that the newly elected congress would be stated after some delay in announcing the final result, that the presidential elections would be declared invalid and Huerta again chosen provisional president. What over happened, the United States is bound by its declaration not to recognize the government as it will be constituted, and because of this situation it is deemed certain that some military move on the part of the government must be forthcoming.

Secretary Bryan plans to consult with President Wilson on the subject as soon as the latter returns from Mobile. The president's speeches of the last few days with relation to a general Latin-American policy, together with the comments of the British press, generally favorable to the American attitude in Mexico, gave rise to expectations of important developments before many days.

Secretary Bryan and the department had heard nothing of a report that the German government had dispatched other warships to Mexican waters. Much of the information to the department from Mexico today was routine. One dispatch dated October 25, stated that after three days' fighting in Monterrey, Huerta had been restored and that the federalists at that time still held the city. No Americans or other foreigners had been killed or injured. That same night it was reported from Saltillo that communication had been cut off with Monterrey.

Reports from the embassy at Mexico City stated that no rupture occurred at the election Sunday and that the vote cast was light, due to general apathy on the part of the public.

## DAIRMEN WANT TO GET VIEWPOINT OF CONSUMER

Chicago, Oct. 27.—Dairy consumers are to have a voice in the affairs of the national dairy show in the future, according to an announcement at the national council tonight. The council declared that the authorities of the different states would be asked to appoint representatives to the next council to present the viewpoint of the consumer. B. H. Bawl, of the dairy division of the department of agriculture, said that each state would be asked to send three delegates.

## MILITIA IS CALLED OUT BY GOVERNOR; RIOTERS TO BE DISARMED

Strike Situation in Southern Colorado Becomes So Serious That Armed Force Is Necessary to Restore Order.

## STATE OF INSURRECTION PROCLAIMED BY AMMONS

Chief Executive Declares Parties Broke Faith; He Has Abandoned All Efforts for Peaceable Settlement.

Denver, Oct. 28.—At 1:25 this morning Governor Ammons terminated a series of conferences with the operators and strike leaders by unilaterally ordering the state militia to proceed to the southern Colorado coal fields and begin a general disarmament of mine guards and strikers.

The ordering out of the state militia came as a climax to a series of conferences that began at 8:20 yesterday morning.

By term and term about Governor Ammons called for the managers from a conference of strike leaders to a conference of mine operators. Meanwhile four hundred members of the Colorado national guard, mobilized in the southern Colorado towns, were waiting for the decision which tonight arrived from the governor's office. The guards were hurriedly sent to the coal fields to be prepared for imminent departure.

The remaining force of violence yesterday by strikers and mine guards after the governor believed late last night he had secured from operators and strike leaders a solemn promise of a truce until the conference, he began yesterday should establish some basis for a settlement of the strike, but the governor to terminate further demands as to the rights and wrongs of either side by taking charge of the situation.

Those who still take the field first, as he believed, are the militiamen mobilized at Fortner, Holly, Lamar, Canon City, Pueblo, Delta, Montrose, Durango and Colorado Springs.

The first conference yesterday had lasted longer before word reached the governor that a hundred strikers had armed on the Laramie front valley of strikers and that the strikers were preparing.

The orders to Adjutant General Chase direct the calling out of the entire militia force of the state. The Ammons Valley companies, already under arms, will start at daybreak and will reach the district by noon. The other companies are expected to arrive by tomorrow night.

The orders proclaim a state of insurrection establishing martial law, direct the disarmament of both strikers and mine guards, order the closing of saloons in the district, the prevention of the importation of strike breakers, prohibit the intrusion upon company property of all except company workers, declare a guarantee of the right of all workers to come and go. They direct the preservation of law and order and promise protection of life and property.

"I had no other recourse," said Governor Ammons, "I have been trying for forty-eight hours to arrange a settlement of the strike, but today the situation got away from everybody. I was compelled to act."

"The agreement to keep the peace pending the negotiations was violated and the signs of the day show that the leaders had not enough authority to prevent disorder. The situation was beyond the control of the peace officers."

"I hope the people of the state will support the state authority. Anyone who wants to work will be given protection to go and come in peace, but I will not allow the importation of strike breakers. I mean to be fair to both sides, while enforcing peace and protecting life and property."

A total of twenty-eight companies, comprising 1,100 men in all, are included in the governor's order. The troops will be accompanied by the hospital and signal corps and also by a representative of the Red Cross.

radio & Southern Trucks assembly on their way to the Huerfano mine. The strikers of the Laramie camp had been told to believe that the guards were enroute to attack the tent colony, and consequently set about to defend their temporary homes.

Train details were set upon the tracks, the switches were thrown wherever possible, and a number of the strikers armed with such power tools, entered the situation at a point a mile and a half from the tent colony, adjacent to the railroad. When the train filed into the night, a mile away, the strikers began to move. The engineer stopped the train immediately and the guards returned the fire with a vim. After half an hour of fighting, in which three guards are reported to have been wounded, the train was backed down the track, and the strikers returned to their colony.

The strikers from the guards did not endanger the mine in any way, but the newspaper correspondents who thought they had discovered a safe vantage point to watch the battle which had promise of being a fatal one, were well within range of the hail of lead.

Upon return of the fighting strikers to their colony, they were largely surrounded by those who had remained behind to make the last defense in case the guards were able to enter and carry out their mission of breaking the colony. Presently every man in the tent colony is fully armed, including rifles and revolvers, with a seemingly ample supply of ammunition. The mine guards are equally well armed and further conflicts similar to that of today at Laramie are expected by those who have been in touch with the strike situation to occur at any time.

Most of the higher officials of the labor organization was in Trinidad.

Deputy United States Marshal Tom Clark of Denver, accompanied by the presence of all mine officials and union leaders before the United States grand jury which will convene at Pueblo November 5. These men, with Sheriff Jeff Ford and J. S. Gresham, of Huerfano and Las Animas counties, will be questioned regarding their part in the strike situation in the southern Colorado coal fields, and as to the efforts they may or may not have made to prevent the strike and its subsequent violence. The examination of mine and union officials will be conducted to determine any possible violation of the Sherman antitrust law.

Thunders of many sorts of violence on the part of the strikers are being circulated by the operators tonight, such as the reported interference of strikers with the progress of passenger and freight trains on the Colorado & Southern railway, and the alleged capture of mine guards and mine property in strikes. These reports are not possible of verification.

An intense feeling of bitterness has been fostered between the mine men and mine guards because of these reports.

## THREE KILLED IN FIGHT WITH GUARDS

Denver, Oct. 27.—A telephone message received from Superintendent O'Neill at the Telluride mine, near Trinidad, says that a party of guards, consisting of ninety-five men led by Deputy Sheriff Felt, reached Telluride at 7 p. m., clearing the surrounding hills of strikers and raising the flag of the mine. Near Berwind, O'Neill says, the Felix party was attacked and exchanged shots, as a result of which two or three of the attacking party were killed and five were wounded. The guards suffered no loss.

## 201 BODIES HAVE BEEN RECOVERED FROM MINE

Believed Work Will Be Completed in Day or Two; Normal Conditions Are Being Restored in Dawson.

Dawson, N. M., Oct. 27.—With unabated efforts the hundreds of miners working with the greatest possible speed, had recovered, late tonight, 201 bodies from the debris of Santa Canon mine No. 2, of the San Canon Coal company, which was wrecked by an explosion last Wednesday.

It is believed now that the remaining strikers will have been recovered within the next day or two. Normal conditions are being rapidly restored here. Work was resumed at mine No. 2 and the steady procession of wagons carrying the bodies of the dead to the cemetery for burial, all around trips of the fatal disaster has disappeared.

## SELLS APPROVES LEASE OF OSAGE OIL LAND

Washington, Oct. 25.—Cummings, Secretary of the Interior, approved today an oil lease entered into by the Osage Indians and the Prairie Oil and Gas company, covering 400 acres of land in the Osage country, Oklahoma. The terms of the lease provide that the company shall pay a royalty of one-eighth of all the oil produced and a cash bonus of \$25,000. This amounts to nearly \$115,000 more than was offered by any other bidder, and the bonus is the largest ever obtained for an Osage oil lease.

## MATERIAL INTEREST NOT SUPERIOR TO HUMAN LIBERTY SAYS WILSON

In Notable Speech President Defines Attitude of This Country Toward Latin-American Nations.

## MANY DIPLOMATS ARE PRESENT AT BANQUET

Speaker Declares New Day Is at Hand and That Sympathy and Understanding Will Guide Course in Future.

Mobile, Ala., Oct. 27.—While avoiding any mention specifically of Mexico or any European influence connected with the Mexican situation, President Woodrow Wilson delivered a speech here today before the Southern Commercial Congress, which appeared to be freighted with significance and which served to point with further directness the policy of the United States not only toward Mexico but toward all central and southern American republics.

A score of South American diplomats sat just behind the president while he spoke and many of his remarks were addressed in conversational tones to them. The president spoke only in general terms, but many of his sentences were pointed with a meaning as clear as to leave little doubt of their intent.

"Material interests"—a phrase much in use internationally of late in characterizing the attitude of foreign nations toward Mexico—frequently was employed by the president. He declared the American republics had suffered long from the hard bargains forced upon them by holders of concessions, seeking "material interests" in the countries affected. The president declared that through motives of morality and not "expedience" the United States desired to help the Latin-American republics to an emancipation from the subordination which had been inevitable to foreign enterprises. The president's speech was uttered with a confidence which bespoke the dominant part the United States expects to play in the future of the American republics, not through any idea of "material interests" as he carefully explained, but through a love of the principle of constitutional liberty.

"The United States never again will seek to obtain one additional foot of territory by conquest," he declared, and emphatically.

Mr. Wilson was breakfasted, driven about the city by automobile, taken on a sightseeing expedition in the harbor and started back to Washington with cheers ringing about his special train.

The president said: "I came here because I want to speak of our present and prospective relations with our neighbors to the south. I deemed it a public duty as well as a personal pleasure to be here to express for myself and for the government I represent the welcome we all feel to those who represent the Latin-American states. The future will be very different for this hemisphere from the past. The states lying to the south of us, which have always been our neighbors, will now be drawn closer to us by innumerable ties, and I hope, chief of all, by the tie of a common understanding.

"Import does not tie nations together. It is time times separates them, but sympathy and understanding does unite them. And I believe that by the new route that is just about to be opened, while we physically out two continents, we are spiritually united. It is a spiritual union which we seek. I wonder if you realize the significance of the ties of commerce.

"These ties which have been along parallel lines of latitude now will swing southward, abreast of parallel of latitude and that opening at the isthmus of Panama will open the world to a commerce that she has not known before—a commerce of intelligence of thought and sympathy between north and south—and the Latin-American states which to their disadvantage have been off the main lines, now will be on the main lines. I feel that these gentlemen housing us with their grace today will find presently that some part at any rate, of the center of gravity of the world will be nearer the western coast of South America.

"You hear of concessions to foreign capitalists in Latin America. You do not hear of concessions to foreign capitalists in the United States. They are not granted concessions. They are asked to make investments. The work is ours, though they are welcome to invest in it. We do not ask them to supply the capital and do the work. It is an invitation, not a privilege; and states that are obliged because their territory does not lie within the main field of modern enterprise and action, to grant such concessions are in such condition that foreign interests are apt to dominate their domestic affairs, a condition always dangerous and apt to become intolerable.

"What these states will see, therefore, is an emancipation from subordination to foreign enterprise and an assertion of the splendid character,

redness, roughness and dandruff, when other treatments have proven only a waste of time and money.

## ROOSEVELT MAKES NOTABLE SPEECH ON CHARACTER

Former President Declares It Must Outrank Genius and Intellect Nations Without It Degrade and Decline.

BY MORNING JOURNAL SPECIAL STAFF WRITER.  
New York, Oct. 27.—Theodore Roosevelt delivered a notable speech when he arrived here today by special train from his summer home at Sagamore, N. Y. He was accompanied by Mrs. Roosevelt and the governor of New York, and was met at the station by a large number of the press.

After introductions, Colonel Roosevelt gave a speech to the press, in which he declared that the most important thing in the world is character. He said that character is the foundation of all greatness, and that without it, a nation cannot stand.

"The sum of those qualities, which we call character, is the most important thing in the world," he said. "It is the foundation of all greatness, and without it, a nation cannot stand. It is the only thing that can make a nation great, and without it, a nation cannot stand."

"Character is the foundation of all greatness," he said. "It is the only thing that can make a nation great, and without it, a nation cannot stand. It is the only thing that can make a nation great, and without it, a nation cannot stand."

## PADILLA FOUND NOT GUILTY; DUARTE DISMISSED

Owing to Similarity of Two Cases, Judge W. H. Fope Decides to Release Rutilio Duarte After Padilla Verdict

The jury in the case of Juan R. Padilla, tried to the Federal grand jury, at 10 o'clock yesterday, after having deliberated for a day and a night, returned a verdict of not guilty. The case was charged with the murder of a woman, whose name was not given. The case was heard in the Federal court, and the jury was composed of men from the community. The case was heard in the Federal court, and the jury was composed of men from the community. The case was heard in the Federal court, and the jury was composed of men from the community.
