Telegraphic Tidings

Campbell Can't Go to the Banquet.
CINCINNATI, Nov. 12.—A special from Columbus, Ohio, says: Gov. Campbell is so seriously ill that visitors have been forbidden. He is now threatened with typhoid fever, and it is doubtful that he will be sufficiently recovered to attend the Thurman banquet Thursday evening.

A Liberal Offer.
LONDON, Nov. 12.—Bancroft, a retired actor and theatrical manager, has offered to donate 1,000 pounds, if ninety-nine others will each subscribe a like sum for the purpose of providing Gen. Booth, leader of the salvation army, with money necessary to make trial of his scheme for the improvement of the condition of the lower classes, as set forth in "In Dark-est England."

Deep Water at Galveston.
DENVER, Nov. 12.—A great deal of interest is being taken in the deep water celebration to occur in Galveston November 18. The railway companies have agreed to a round trip rate from Denver and all parts of Colorado, Utah, Wyoming, Kansas and Texas to Galveston to be present at the greatest event which has occurred in that city in its history. Tickets will be sold to join the excursion leaving Denver November 15 and 16. Fully 5,000, if not 8,000 Denverites are preparing to attend.

One Governor to Another.
PORTLAND, Ore., Nov. 12.—The revocation by Gov. Francis of Missouri, of his warrant for the return of F. E. Parker, the Pendleton embezzler, has called down upon his head the wrath of Gov. Penney, who has telegraphed him that he has neglected to discharge the duty imposed upon him by the constitution of the United States, which he has sworn to obey. A peremptory demand for the surrender of Parker accompanies the telegram. Parker's relatives in Missouri are very wealthy, and are spending money lavishly to prevent the return of the fugitive.

Latest from the Sucker State.
CHICAGO, Nov. 12.—An error has been discovered in footing up the returns of this congressional district, and now it appears that Kinney, the Democratic candidate for assembly, was elected, instead of Hoppin, the Republican, as reported.

Owing to the fact that the two parties have been thought to be in a tie in the legislature, this discovery is of considerable importance. If the official count verifies the election of Kinney the Democrats will have 101 votes in the assembly and the Republicans but 100, thus making the election of John A. Palmer to the United States senate a certainty.

Mr. Lincoln Will Not Resign.
WASHINGTON, Nov. 12.—Hon. Robt. T. Lincoln, minister to England, reached the city yesterday from Chicago and called on Secretary Proctor at the war department. He held a quiet reception among old official friends. He appears to be in the best of health. To an Associated Press reporter he said:
"The stories to the effect that I intend to resign my post are absolutely false. I came here on leave of absence. I shall remain about forty or fifty days, after which I shall go back to England and resume work."

He afterward visited the state department and made a brief call on Secretary Blaine.
Financial Troubles.
NEW YORK, Nov. 12.—The Clearing House association has passed a resolution directing the issue of Clearing House certificates to aid the money market.
The Clearing House association held a meeting to issue certificates without limit to help out the bank of North America, Northern Rivers bank and the Mechanics and Traders' bank, the same as they did in 1884 to help out the Metropolitan bank. The three banks are short at the Clearing House \$1,400,000. It is understood the certificates issued will be secured by stock of banks and cash. This action of the Clearing House is expected to make money easy and relieve the market.

Patent on Produce.
WASHINGTON, Nov. 12.—The November returns to the department of agriculture as to the yield per acre make the average for corn 19.9 bushels, potatoes 57.5 bushels, wheat 14.5, hay 1.20 tons, tobacco 718 pounds. The corn crop makes the smallest yield reported, except that of 1881, which was 18.6. It was 8 below the average of the last eight years. The decline of the last decade was not due to impairment of fertility, but to unfavorable meteorological influences.
The average rate of the yield of potatoes is 57.5 bushels. The condition of the crop in October is lower than any report of previous crops except in 1887, when the yield was 50.9 bushels. It imports scarcity and warrants high prices.

The yield of hay is large, as a rule, throughout the country.
The cane sugar crop will be large, and sugar beets have done well west of the Missouri, indicating a probably rapid development of the sugar industry.

CONDENSED NEWS.

Major Bonny is out with new statements of atrocities committed by men under Stanley's command in Africa.

The German geographical society has bestowed the Humboldt medal upon the Norwegian explorer, Hansen.

All the prisoners in the Mercer county jail, Pa., ten in number, including three murderers, escaped.

Percival Preston, a broker who committed a breach of faith with a client on

the London Exchange, has been expelled from that body.

The Kansas City packers will follow the example of their Chicago brethren, and will raise the price of canned meats on account of the increased price of tin plate.

C. S. Wheaton, ex-grand chief of the Order of Railway Conductors, was tried at Elmira, N. Y., on charges preferred by the grand secretary, William F. Daniels, and acquitted.

The purchase of the Memphis (Tenn.) Avalanche by the Memphis Appeal and consolidation of the two journals under the name of the Appeal-Avalanche has been completed.

Cyrus Gall, of Bay City, Mich., was handling a \$3-caliber revolver in his house when a cartridge was discharged accidentally. The bullet struck his daughter, aged 18 years, in the spine, causing a fatal wound.

The search for heirs to a Canadian fortune at Kansas City disclosed the fact that Mr. and Mrs. Asa Barr were brother and sister. When babies they had been adopted in different families and growing up met and married.

The secretary of agriculture has presented his annual report to the president. By comparing prices at Chicago for October 10, 1890, and October 10, 1889, he shows a marked increase in the value of agricultural products, and especially of cereals.

"Though scaffolds and gibbets were built at every cross road," said a speaker at the Chicago Anarchists' demonstration, "we have courage, comrades, onward! Are we men and have not courage to rise against these hell-born monsters of despotism?"

RAIL NOTES.

The Pecos Valley road is now completed to within thirty-eight miles of Elly.

The east bound morning train on the Santa Fe was again several hours late today. It is a chronic thing to be late these days, it appears.

Mr. Otto Mears thinks that the Rio Grande Southern railway will reach Tejuca some day this week. Despite the rigors of winter the line is to be pushed on to Rito.

The spreading of track on the Rio Grande railroad between Aspen Junction and Aspen will take place next Saturday. Eight hundred men will be put on the job in order to complete it in one day.

George Laws, of Chama, now owns a railroad of his own. He has built three miles of track leading from the D. & R. G. into his lumber camp; has purchased an engine and six flat cars, and has the new line in operation.

As was expected the D. & R. G. has been about snowed under again in the Conchos range between Antonio and Chama. The track there is under nearly four feet of snow and it is thought that traffic across the range to Durango and Silverton is blocked for the season. Why the D. & R. G. management will persist in operating that expensive piece of road when an all-the-year round route up the Chama from Española is so near at hand, is beyond all human comprehension.

Of the El Paso-White Oaks line, the El Paso Herald says: "Receiver Charles Davis, of the White Oaks railroad, called on the representatives of the English syndicate have been here and have signed a contract with him to put up a locomotive in forty days to go ahead with this road. They appear to be well pleased with the outlook, and have left a representative here in the person of Mr. Bailey, who will look after their interests." This is certainly cheerful news for the people of White Oaks—if it isn't another cry of "wolf!"

The Railway Age is authorized by Judge Springer, of the executive department of the Santa Fe, to deny the statement purporting to come from him that the company has in contemplation the building of any new lines or extensions. This covers the rumored extension of the southern Kansas line from Panhandle, Texas, to Albuquerque and of the Atlantic & Pacific from Sapulpa to Panhandle, as well as the building by the Santa Fe company of a line up the San Joaquin valley to San Francisco. The rumor that President Manuel had ordered 10,000 tons of steel for this latter line is also denied by Mr. Manuel. The rails in question amounting to 5,000 (instead of 10,000) tons were for renewals on the Atlantic & Pacific, and they are now laid and trains are running over them.

Matrimonial.
At the cathedral, at 7 o'clock this morning, occurred the marriage of Mr. David Gonzales and Miss Julianita Carrillo, the bright and attractive daughter of Don Ramos Carrillo, of upper Santa Fe. Mr. Gonzales is a brother of Francisco Gonzales, and is a promising young man who has lost of friends to bid him and his all the joys of life. Some 200 invitations were sent out in honor of the event, and the cathedral was well filled with friends of the pair to witness the ceremony. A reception and dance in celebration of the occasion takes place this evening at Gray's hall.

Advertising New Mexico.

The following relating to the work just issued by the New Mexico Bureau of Immigration speaks for itself:
SANTA FE ROUTE, OFFICE OF PASSENGER TRAFFIC MANAGER, Rialto Building, (Chicago, Oct. 27, 1890.)

Max Frost, Esq., Santa Fe, N. M.

Dear Sir: The first batch of the Bureau of Immigration pamphlets to hand. They will be of the greatest use in advertising the territory. New Mexico has al-

ways, until now, been behind other states and territories in such matters. This publication has brought her to the front rank as showing her capabilities. We will take 5,000 copies from you and distribute them, as we feel sure they will greatly increase the immigration to the territory. Nothing so good has ever before been published regarding the territory. A few more years of such pamphlets and there will be no need of complaint of small immigration. Truly yours,
H. F. GRIMSON,
Immigration Agent

Prove Better than Assertion.

With such proof as the following letter from W. H. Dean, of No. 275, Seventh St., New York, it is not necessary to make the bare assertion that Alcock's Porous Plasters cure lumbago. Mr. Dean says:

"Some ten days ago I was taken with a very violent pain in the small of my back. It was so severe that I could hardly breathe; every movement caused great agony. I finally found out it was lumbago. Being entirely helpless, a friend sent to a druggist and got two Alcock's Porous Plasters; these were well warmed and applied to my back, one above the other. In half an hour to my great delight and surprise, I found the pain began to abate. In two hours I was able to walk out and attend to my business, the pain being almost gone. Next day I was all right, but continued wearing the plasters for a week."

Lost.

Chateleine with silver vinaigrette and silver and ivory writing tablet attached. Finder will be rewarded on returning same to Mrs. G. C. Preston, Palace avenue.

Fresh sweet cider at the archbishop's garden.

Fine McBrayer whisky at Colorado saloon.

Hill and Conway, Jr.,

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOFF, 61 Terrace Street, Boston.

Insertions in "Round About Town" column 25 cents a line, each insertion.

Preferred local 10 cents per line first insertion and 5 cents per line each subsequent insertion.

Legal advertising 10 cents per line per day for first six insertions, 75 cents per line per day for subsequent insertions.

All contracts and bills for advertising payable monthly.

All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to NEW MEXICAN PRINTING CO., Santa Fe, New Mexico.

THE NEW MEXICAN is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

WEDNESDAY, NOVEMBER 12.

The official ring of this county has robbed the tax payers long enough; a stop must be put to it.

The Democratic party in Santa Fe county has made a whole lot of political history in the past few days.

Improve the school law; provide for a territorial superintendent of instruction and let us have more and better public schools.

High license and the suppression of public gambling must be enacted by the coming legislative assembly or it will fall far short of doing its duty by the people and the best interests of the territory.

The ballot box and the returns from Galisteo were in the possession of the board of county commissioners of this county. Of course, of course, the board is honest; perish the thought otherwise.

"Ballot reform" has been a pet hobby with the Democratic party for the past year or so, and the Santa Fe county Democrats are evidently determined not to be behind the times. We now fully comprehend the meaning of "ballot reform"—on the Arkansas and Mississippi plan.

The buying of votes, corruption, perjury and forgery, and the stealing of ballot boxes are the agencies employed by the gang in trying to elect its ticket and in trying to swindle the people of this county; are there enough decent and honest citizens in this county to uphold right and justice, or are there not?

The Democrats have a majority in the New Mexico legislature. They will therefore be able to still further delay the admission of that territory as a state—Denver Times.

They have not yet a majority in the New Mexico legislature, but they are trying to get a majority by stealing ballot boxes.

Mr. WANNAMAKER's efforts to knock out the Western Union monopoly and establish a limited postal telegraphic system have aroused the ire of Jay Gould, and the Wall street wizard in an attempt to injure Mr. Wannamaker's financial standing has stirred up a hornet's nest in Pennsylvania that he will not soon hear the last of.

About this season of the year presidential candidates are beginning to sprout and it may therefore not be untimely to observe that the Hon. Robert T. Lincoln, of Illinois, is likely to come to the front in this respect, and if he wants the people of the wild and woolly west will come pretty near landing him in the White house two years hence.

Some 30,000 voters who were registered but who failed to go to the polls and vote on election day. Simply the usual of-year disinterestedness kept them at home, and this, in a large measure, tells the story that occurred on that day all over the country. The stay-at-homes will get to the front when there's a president to elect.

STEALING is stealing and you can not make anything else out of it. You can call it larceny if you please, but it is stealing all the same.

Some of the Democratic officials and bosses would not take a red hot stove, that is certain; but then the question arises, what would they steal?

"Down went McKinley," is what the free traders are now singing; but next year will be "And up came McKisley," and the free traders will not feel so very very good.

There is not much of an explanation needed; the Galisteo returns were stolen for the purpose of stealing the county office and the legislature; that is the plain English of it, and whoever does not like it, can simply lump it.

STEALING the ballot box and returns from Galisteo was more than an ordinary theft; a good deal more than an ordinary theft, and the Democratic bosses who had it done will wish they had not, before another two years roll around.

Do not forget that it is high time that better provision were made for the collection and safe keeping of taxes; what is the matter with making the county treasurer the collector ex-officio; a good sheriff very often is not a good collector and a good collector very often will not make a good sheriff. A change for the better can be brought about; let it be brought about.

The corruption and dishonesty of the gang, that has been running this county for several years, have reduced Democratic majorities, that have been usual here for ten years past, very greatly; the stealing of the Galisteo ballot box and returns will wipe them out entirely; paste this in your hat and read it in November 1892, after election, and you will find it true, absolutely true, every word of it.

MILLS, of Texas; BRYNN, of Indiana; SPRINGER, of Illinois; CRISP, of Georgia, and HATCH, of Missouri, are already in the field for the house speakership; that position which the nifty Reed, of Maine, has made famous. The chances are, therefore, that Democratic harmony will be so thick in the 52d congress that it can be cut up into chunks and distributed as souvenirs among the visitors to the national capital.

The citizen who does not like to be told that the stealing of the ballot box and returns from Galisteo precinct in this county, that were stolen because the election there gave the Republican county and legislative ticket a large majority, was premeditated and done by some of the bosses here, had better not read this newspaper. For facts are facts and will be presented as facts to the people whether or not the bosses and ballot box stealers like it.

The official count shows that the county of Rio Arriba gave increased Republican majorities at the late election. Mr. Sullenger paid his money like a man, to be sure, but the fellows who got it from him kept it and swindled him. Besides, the people of that county could not be bought, as had been represented to Mr. Sullenger by the men who induced him to run for the council. The other fellows now have his money, and he has the experience. Such is life.

There remains no doubt in the minds of sensible and fair minded people that the theft of the Galisteo ballot box was premeditated and carried out in accordance with a plan well matured by some of the Democratic leaders and candidates in this county; it was done to steal the legislature badly. The men who are in this cowardly outrage, who counselled and abetted the theft and who are trying to benefit by it, will pay for the outrage in due course of time. And they will pay dearly for it.

Dr. KOCH, the Berlin scientist, who proposes to cure consumption in its earlier stages by inoculation and special treatment, is becoming rapidly famous. Foreign dispatches are full of reports of his doings and his plans for further carrying on his experiments, so far very successful. It is said, that he has enlisted the interest of Emperor William himself in his work. Statistics prove that one-half of all the sickness in the German army arises from consumption, hence the government interest in these experiments for curing the disease. A number of good hospitals are to be established throughout the kingdom and the Reichstag is to be urged to appropriate a large sum in order that Koch may be able to devote his whole time to the study of the bacillus of

A. C. IRELAND, Jr., PRESCRIPTION DRUGGIST.
