PHYSICAL VALUATION OF RAILROADS IS NECESSARY

It is the Only Way in Which Accurate Information Can be Secured.

FEDERAL CLERKS FINISH BIG TASK

They Have Provided Statements for Use in Determining the Standing of Roads for Benefit of the Commission.

Washington, Dec. 12.—The work of the experts in preparing for the government a system of accounts to be used by the railroads is nearing an end.

Every conceivable form of account necessary for steam and electric roads has been prepared, and is in full use by the railroads—with the single exception of the balance sheet. This final work is now being done. This system is as complete as expert knowledge and hard work can make it, and yet the federal experts are confronted with the fact that their structure lacks a keynote.

The balance sheet will, of course, call for a statement about the value of each road, and the information thus given might, under some circumstances, become exceedingly important to the government in its attempt to exercise supervision over the roads. But that figure under present conditions is of comparative little value, for it is not intelligent.

No one knows fully what it may mean, except that the accountants for each individual road may have a fairly accurate idea of what they mean by their own particular figures. The only way that a uniform and definite meaning can be given to the railroads' figures on cost is to make a physical valuation of all the roads in the country. It will be admitted, necessary for experts to count the ties and appraise the entire outfit from Maine to California. Thus the conclusion of the government's work in introducing a uniform system of accounting becomes a pressing argument for the policy which has been championed by President Roosevelt and at which Congress has thus far balked.

Without the physical valuation and without uniformity as to cost figures, the accounting system still serves the purpose of keeping the railroads on their good behavior, especially with regard to rebates. But the highest use which can be served by the uniform accounting carried on under federal supervision is to give the interstate commerce commission reliable information on which to base its decision on rates, and without physical valuation the present system can not be accurately used for that purpose.

Persons in close touch with the government's growing work in railroad regulation believe that the arguments for physical valuation are growing steadily. In view of such developments as this regarding the usefulness of the new system of accounting they believe that a complete inventory of the railroads of the country is inevitably coming.

Without such an inventory, the interstate commerce commission is seriously crippled in deciding upon the justice of rates, for the commission has no accurate means of knowing the investment upon which a given road ought to produce returns. Consequently their judgment on rates is largely relative. They know what wheat can stand as compared with pig iron. But they have no definite information upon which to build a complete schedule of rates.

Whether Congress can be brought this winter to see the wisdom of authorizing physical valuation is a big question. The national legislature will doubtless have the chance, anyhow. But those who see through the eyes of the interstate commerce commission believe that they are sure to come to it ultimately.

WOULD TEACH EACH BOY TRADE IN REFORMATORY

Topeka, Dec. 12.—The board of directors of the Kansas reformatory at Hutchinson, in its biennial report to the governor, asks that the legislature make provision for the establishment of trade schools at the reformatory. The institution now has a manual training school, but it does not fill the bill entirely and the directors believe that the department should be enlarged to include the trade schools.

If there were established every young man sent to the institution, in addition to the work in the different departments would be taught a useful trade and when he is released he would have something to do. The directors have found that it is easier to get a young man a job who knows something about a trade than to find steady work for some one who just a laborer.

COUNCIL ISSUES CALL FOR AN ELECTION OF BONDS

Will Ask Citizens to Vote on Question of Constructing Sewer System at Once.

INVOLVES EXPENSE OF JUST \$290,000

Council in Session Last Night Went Over Details of the Plan and Discussed Project at Great Length.

Acting upon the resolutions adopted by the meeting of representative citizens at the Commercial club, the city council held a special meeting last night and after going thoroughly over the plans for a sewer system, as prepared by two expert engineers, the aldermen called an election for January 19, next, at which the people of Albuquerque will be asked to vote an issue of 4½ per cent bonds to pay for the sewer construction.

At the same time the council showed partiality to the plan of the American Light and Water company, a construction corporation, which proposes to build the sewer system, under the conditions published in detail in The Citizen last evening.

Mr. Bullock, the representative of the contracting company, appeared before the council last night and for over two hours, conferred with the aldermen. All questions of politics were left out of the matter and the aldermen recognizing the serious need of the city in the matter of proper drainage, devoted themselves entirely to getting at the facts after which they took immediate action.

The council decided to ask for a bond issue of \$290,000 to cover the estimate of \$198,866 for some nineteen miles of sewerage, and also to cover an additional estimate by City Engineer Gladding which would give the city over thirty-one miles of sewerage, ample for its needs for the next fifty years or more. While it is known that the mayor and most of the aldermen favor the proposition made by Mr. Bullock, still the matter is not entirely closed. Before the contract is closed the council will satisfy itself as to the stability of the company and other details. As expressed by Mayor Lester, what the city officials want is what the people want but they recognize the necessity for the immediate construction of a sewer system.

As estimated by both engineers employed by the city, the entire thirty-one miles of sewer can be built for \$285,000 as the maximum price, with a possibility of effecting a saving of from five to twenty-five thousand dollars. Upon motion of Alderman Worth, an additional \$5,000 was added for the purpose of assuring the payment of expert inspectors, superintending engineers, timekeepers, auditors, etc.

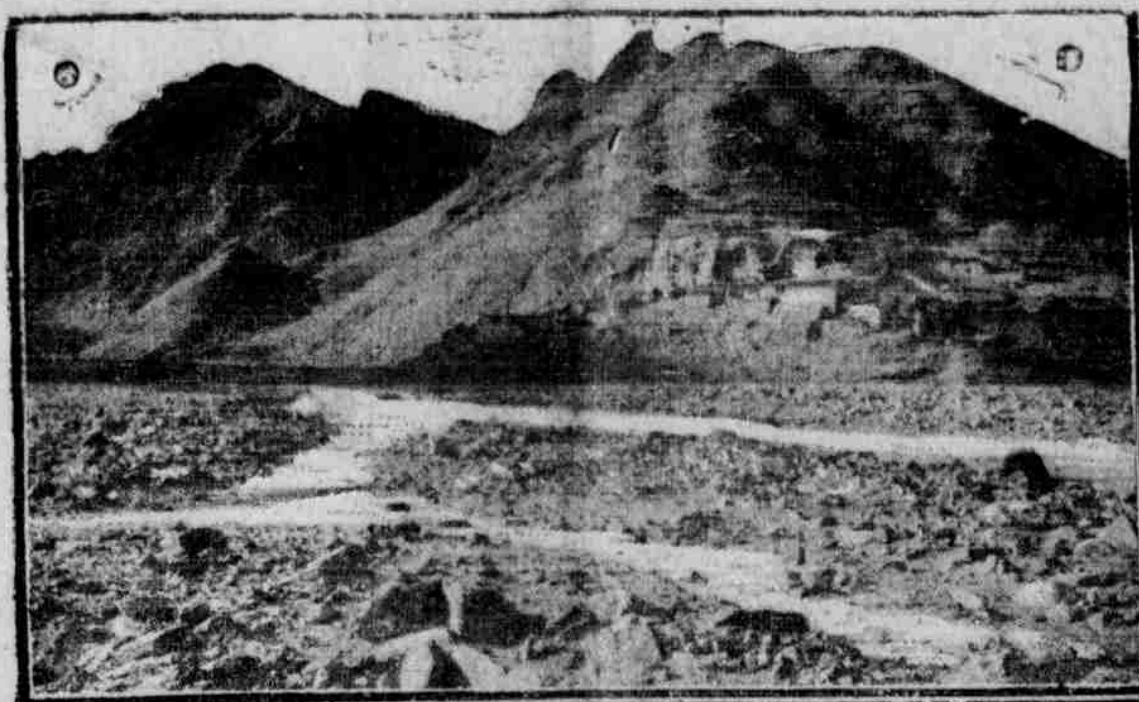

The proposition of a storm sewerage, caused the mayor and the aldermen to indulge in a discussion of some length. Mayor Lester expressed the opinion that until the grade of the streets was made uniform or at least definitely fixed, a storm sewer would be practically useless. Engineer Gladding estimated that an adequate storm sewer would necessitate the expenditure of some \$30,000 additional. It was finally decided to postpone the question of building a storm sewerage until Monday night.

It was after midnight when the council adjourned to meet again Monday evening.

The resolution adopted by the council says in part: Be it resolved by the city council of the city of Albuquerque, in the county of Bernalillo, and territory of New Mexico, That a special election be and the same is hereby called, to be held in said city on the 19th day of January, A. D. 1909, for the purpose of submitting to the qualified voters of said city, as defined by the act of Congress mentioned in the preamble hereof, the proposition of issuing the negotiable coupon bonds of said city to the aggregate amount of \$290,000, for the purpose of providing funds for the construction of a system of sanitary sewers in and for said city.

List of Officials.
Resolution of the city council, naming the places where the special election for the purpose of voting bonds to raise funds for the construction of a sewer system, shall be held and naming the officials who shall conduct such election, and also naming the persons who shall constitute the board of registration in the various wards.
Be it Resolved, That the special election provided for by the resolution of the city council to be held on the 19th day of January, A. D. 1909, for the purpose of voting upon the construction of a sanitary sewer system within and for the city of Al-

PRESIDENT'S PICTURE LESSON TO CONGRESS

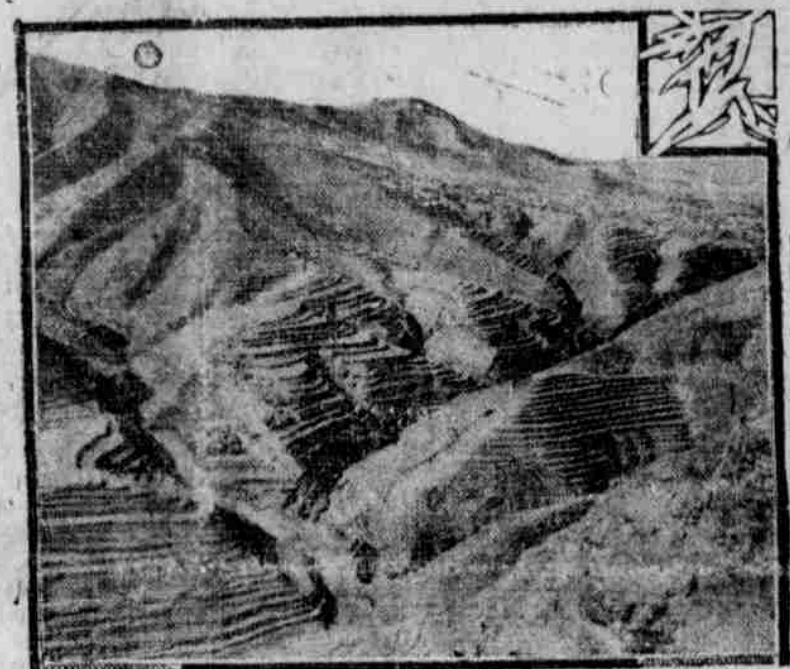

HOW A DEFORESTED MOUNTAIN TUMBLED ITS LOOSE ROCKS INTO A FERTILE PLAIN AND MADE A DESERT OF IT.

Washington, Dec. 12.—In his valdictory message to Congress President Roosevelt declared that if there was any one duty which more than another, we owe it to our children and our children's children to perform at once, it is to save the forests of the country.

That this subject is very close to the president's heart is shown by the fact that he appended to his message and thereby put into the hands of every senator and representative photographs showing, as the president said, in vivid fashion, the appalling devastation taking the shape of treeless mountains and barren plateaus, which immediately followed deforestation of the mountains in China.

Reproduced herewith are two striking photographs which the president presented to Congress. They show the great lesson that is just being learned in America, that with the destruction of the trees comes the destruction of the soil, changing climate and general desolation.

"The president said: 'What has thus happened in Northern China, what has happened in Central Asia, in Palestine, in North Africa, in parts of the Mediterranean countries of Europe, will surely happen in this country if we do not exercise that wise forethought which should be one of the chief marks of any people calling itself civilized.'

SAVING THE SOIL ON A CHINESE MOUNTAIN BY ARTIFICIAL TERRACING. TREES WOULD HAVE SAVED ALL OF THIS TREMENDOUS LABOR.

CITIZENS TO TALK ABOUT NEW PARK

Meeting is Called at Library Building Next Tuesday for Discussion.

Following the action of the city council by which \$2,000 was appropriated for the purpose of enlarging the Highland park, the park commission has arranged for a public meeting of the citizens interested in city parks, to consult as to the best plans for the utilization as a place of rest and recreation, the admirably situated park in the foot hills. The meeting is called for Tuesday night next in large school room of the Albuquerque Business college in the library building.

The subject will be introduced by one or two speakers and the audience will then be given an opportunity of discussing the questions that may arise. The lay of the land, the nature of the soil, the purpose for which the park should be utilized will occasion deliberation. In view of the large number of health seekers now coming to the city it is imperative that a place be provided where they can obtain the benefits of air and sunshine and at the same time have the pleasure of being in pleasant and beautiful surroundings. For these reasons all are urged to attend this meeting and assist in promoting public sentiment in favor of parks.

THIEF SAYS POVERTY MADE HIM A CRIMINAL

New York, Dec. 12.—With his wife and seven children dependent upon him for support and unable to find employment, John Brady, a prisoner in the hands of the police, is said by them to have made a confession in which he says he had no alternative but to take up a career of crime.

According to the police he secured admission to many residences by pretending to be an inspector of gas meters. Pawn tickets sold to have been surrendered by the man representing articles of jewelry valued at more than \$5,000, and in addition, the detectives found a suit case filled with watches, purses and bracelets.

PACIFIC FLEET SHIPS ARE DUE AT PANAMA

Panama, Dec. 12.—The vessels of the Pacific fleet are expected to come into harbor tonight or tomorrow morning. The gunboat Yorktown arrived yesterday. The governor of Panama has issued a manifesto calling upon the citizens to extend every attention and courtesy to the visitors, and stating that there will be a force of six or seven thousand men in the fleet who will come ashore in relays of about 1,000 a day. A program is planned for their entertainment.

TWO MEN ARRESTED FOR MICHAEL ROBBERY

Police at San Bernardino Capture Thieves, Who Have Confessed the Theft.

The men who robbed the general store of Michael Bros. 1015 and 1017 South Second street, early in the week, carrying away several suit cases filled with goods valued at several hundred dollars, are in the toils of the law. One man has confessed to the robbery and considerable if not all the goods have been recovered.

Chief of Police McMillin received a telegram this morning from Chief of Police Seaborn of San Bernardino telling of the arrest. The men in custody give the names of Harry Everett and C. B. Redemus. The telegram states that Everett has confessed. The suit cases filled with goods were recovered in San Bernardino.

Chief McMillin also has a telegram from Los Angeles saying that a suit case expressed to Redemus is there. The indications are that the thieves expressed one suit case to Los Angeles and carried the other two and that they left the city the night of the robbery probably on a freight train.

Arrangements will be made at once to have the two men brought here for trial.

MARTINEZ MET DEATH AT THE HANDS OF POSSE

Trinidad Hears That Slayer of Garcia Family Did Not Commit Suicide.

Trinidad, Dec. 12.—The report is current here that Francisco Martinez, who murdered four members of the Garcia family, and shot his 17-year-old daughter Maggie, forced her to accompany him, on foot through rough country in a blizzard and killed her when a posse surrounded him, did not commit suicide as first stated. According to the story here he killed the girl because she impeded his progress, and that when the posse caught up with him he opened fire. He was killed by a member of the posse, and his body left lying in the mountains canyon.

A coroner's jury was called and after viewing the bodies of the starved and murdered family, Francisco Martinez murdered the five members of the family and then committed suicide. A committee has been appointed to bury the body of Martinez where it lies.

THIEF WAS BUSY YESTERDAY AFTERNOON

He Took Jewelry and Money from Ferguson Residence and an Overcoat Three Blocks Away.

The home of D. M. Ferguson, 915 North Sixth street, was entered yesterday afternoon between three and four o'clock and articles of jewelry amounting to nearly \$400 were taken. The house was robbed while Mrs. Ferguson and her child were away and so cleverly was the job done that nothing was found disarranged by either Mr. or Mrs. Ferguson until about 11 o'clock last night. The sliding door was evidently opened by the use of a skeleton key.

The articles stolen consisted of a solid gold watch, bracelet and chain, a gold wedding ring, two diamond rings and three other rings set with various stones. In addition to the jewelry about \$100 in cash was taken. All of the articles had been left on the dresser in one of the bedrooms.

The theft was evidently committed by one familiar with the interior of the house as nothing was disturbed, in a room the exception of the occupant's of the house on their return. A solid gold thimble as well as a sterling silver manicure set was left on the dresser untouched evidently to avoid an early discovery of the theft. Mr. Ferguson is the possessor of a bull dog but on this occasion the faithful dog followed his mistress and there was nothing to hinder the robbery.

It is thought that this same thief proceeded to the rooming house of R. C. Van Druff, 624 North Sixth, three blocks below the Ferguson residence entered that residence and after stealing a new overcoat, the property of Frank Kusko, went on his way.

The residence of Mrs. N. S. Twelves was also burglarized Thursday afternoon and jewelry and cash to the amount of about \$130 taken. Two gold watches, one a lady's and the other a gentleman's hunting case, two valuable rings and a bank containing about \$12 in cash were removed. Two purses, one containing about \$20 and the other about \$10 were left untouched by the thief.

CITY IS NOT TO BLAME

Chicago, Dec. 12.—The city is not responsible for the bad marksmanship of its policemen, according to an opinion given the finance committee by the assistant corporation counsel, Mr. Hart. A Mackie, 338 Fitzgibbon street, presented a claim for a horse shot from the Cottage avenue station June 18 by detectives who were shooting at a fugitive. The decision declared that the city was not liable.

CHILLY RECEPTION FOR PRESIDENT CASTRO IN FRANCE

The Government Won't Acknowledge His Presence Officially Just Yet.

APOLOGY ASKED DECLARES OFFICIAL

The President Keeps to His Apartments and Sees Only a Few Former Friends. Government Has Given Notice.

Paris, Dec. 12.—President Castro of Venezuela, who arrived in this city yesterday evening from Bordeaux, had made no official advances to the French government up to noon today. It is stated that he is furiously angry at the manner in which he has been received by the French government.

Since his arrival in Paris Castro has remained in his apartments, shut out from every one but a few visitors from the Venezuelan colony. Aside from these few countrymen he has seen no one.

It is believed that the government will make no advance, but that the Venezuelan president must signify his willingness to comply with demands made by the government. Said an official of the foreign office today:

"We ignore his presence. The conditions upon which the government would be willing to open negotiations have been communicated to him."

Just what these conditions are is not known, but it is believed that they involve a formal apology from President Castro before the French government will acknowledge his presence officially.

CREW WAS RESCUED AFTER LONG ICE BATTLE

Toledo, Dec. 12.—After a twenty-four hours battle with ice, sixteen miles out in Lake Erie, Captain Andrew Hegeny, his wife and two men aboard the barge, Charles Wall, were rescued late yesterday by the tug Sheboygan. The barge had been abandoned by its tug because of the heavy ice and the tug on reaching the harbor, telegraphed for aid. When the barge was reached by the Sheboygan after many hours struggle with the ice, the bow of the barge was nearly cut through with ice, and those aboard had given up all hopes.

TUGBOAT CREWS STRIKE

New York, Dec. 12.—Because the New York Central railroad's marine superintendent refused to reinstate the tugboat crew he discharged when they refused to work a half hour over last night without pay, twenty-three men of the company did not move today. The crews of all these craft, which handle the company's boats in the East river, the North river and the harbor, refused to begin work this morning and further demanded that they be paid twice a month instead of monthly. Two hundred are on a strike.

FARMERS' MEETING WAS HELD TODAY

250 Grande Agriculturists Met and Discussed Things of Interest to Them.

Following the suggestion of President Roosevelt that the farmers of the United States form associations for the purpose of gathering and discussing among themselves matters concerning their business and welfare, County Superintendent Strong called a meeting at the court house this afternoon for the purpose of organizing such an association in the neighborhood of Old Albuquerque.

About twenty ranchers were present and the discussions were entered into with great interest. It is believed that the native farmers of the Rio Grande valley will take kindly to the idea, much to their own benefit.

CASE OF SMALLPOX ON BATTLESHIP GEORGIA

Colombo, Ceylon, Dec. 12.—The battleship Georgia, preceding the battleship fleet under Rear Admiral Sperry due here tomorrow, came into port today with small pox aboard. The patient was removed to the hospital from the fleet December 9, and came aboard at fourteen knots. The rest of the fleet is coming at ten knots.

LUNCHEON WITH PRESIDENT

Washington, Dec. 12.—After receiving a large number of callers at the Boardman residence, Taft went to the White House today as a luncheon guest of Roosevelt, and remained a considerable time in a conference with the president and Root. National Chairman Hitchcock came here from New York and was also received by the president.

NEW MEXICO GETS LAND HOTLY CONTESTED BY COLORADO

House Adopts Resolution Passed by the Senate. Concerning 1904 Survey.

LENGTHY DEBATE TO SETTLE DISPUTE

Colorado Members Were Opposed by Chairman of Judiciary Committee and Clayton. of Alabama in Argument.

Washington, Dec. 12.—The question of whether the so-called Carpenter survey of 1904, which established the boundary line between New Mexico, Colorado and Oklahoma, took from Colorado any of its territory and voting population and transferred them to New Mexico caused a lively debate in the House today.

The matter came up when the judiciary committee called up a resolution passed by the Senate last April, providing for the acceptance of the survey as the proper location for the thirty-seventh parallel and the true boundary line between the states and the territory named.

Chairman Jenkins, of Wisconsin, and Clayton, of Alabama, of the committee, vigorously combated the legislation made by Bonyne and Haggott, of Colorado, that territory would be taken from the state of Colorado if the survey was accepted. Their contentions were likewise controverted by Cook of Colorado, which brought to his feet again Mr. Haggott, who reiterated his former statements and declared that the only influence supporting the resolution was a certain coal company.

Interest was so great that the roll call on its adoption was forced, resulting in a vote of 136 yeas and 112 nays. The opponents of the resolution moved to reconsider, whereupon another roll call was offered by Jenkins to lay the Haggott motion on the table.

This motion by Jenkins prevailed by a vote of 112 to 82 and the resolution was according declared adopted.

FANATICS PLEAD INNOCENT TO CHARGE

Declare They Did Not Kill Kansas City Policeman in Battle.

Kansas City, Dec. 12.—James Sharp and his three followers, including his wife, will be given a formal hearing this afternoon before Justice Remley, charged with murder in the first degree, for killing Policeman A. O. Dalbow in a revolver battle last Tuesday.

Late yesterday they were arraigned before Remley. When the charge was read and they were asked to enter a plea, Mrs. Pratt declared "I ain't guilty of that; I didn't kill nobody." "Neither did I," said William Engle, a seventeen-year-old epileptic, and a protégé of Sharp. Sharp said that he did not understand the charge and a plea of not guilty was entered for all four of the defendants.

TAFT WILL GO SOUTH

Augusta, Ga., Dec. 12.—It is announced that President Taft and his family will arrive Friday of next week and will be the guests of Mr. and Mrs. Landon Thomas until the following Monday.

Mrs. Helen Taft will come from Bryn Mawr for the Christmas holidays. A letter from Mr. Taft asks that he be allowed to spend the first few days in complete rest as he is greatly fatigued. His hosts, therefore, announce that there will be no functions, formal or informal, until he shall have occupied the Terrill cottage.

A FRONTIERSMAN DEAD

Kansas City, Dec. 12.—James Price, aged 78, a frontiersman, who carried mails from Independence, Mo., and Santa Fe, N. M., fifty years ago, died at his home here last night. Price was born in Ireland and entered the mail service in this country in 1858, and traveled over the Santa Fe trail for ten years.

HE GETS HIS WISH

Columbus, Ohio, Dec. 12.—James Lingafelter, the New York ex-banker, who was pardoned by the governor that he might die outside prison walls, was removed from the penitentiary today on a stretcher and will be removed to his home at Newark. He is dying of intestinal cancer.

SULLIVAN GETS DIVORCE

Chicago, Dec. 12.—The decree of divorce for which John L. Sullivan, the former champion pugilist, recently applied in this city, was granted today on the grounds of desertion.

STATEHOOD FOR NEW MEXICO

We favor the immediate admission of the territories of New Mexico and Arizona as separate states in the Union.—Republican National Platform.

Vote the Bonds

The city council last evening took immediate steps to give Albuquerque the long delayed sewer system and it is now up to the people. A special election has been called for January 19, 1909, for the purpose of voting a bond issue of \$200,000, which will enable the building not only of the nineteen miles of sewer system, which is urgent, but which will permit of constructing additional sewerage and other connections estimated and planned by the city engineer. It should be borne in mind by the voters of Albuquerque, that when such a sewer system is constructed, the question of sewerage this city is effectively for the next half century or perhaps longer. After that time, should additions be necessary, in what may then be the suburbs of a metropolis, these extensions are provided for in such a manner that they can be installed quickly and the cost assessed against property in such districts.

By voting bonds at this time, which the city has a guarantee will sell for at least par, with every indication of a premium, the debt will not fall heavily upon property owners and tax payers. The interest will be a small matter and undoubtedly the heirs or administrators of many of the citizens of today will pay the debt some twenty years from now.

In addition to that fact, the price of property will be greatly advanced thereby enhancing the value of every foot of real estate in the city.

The Honorable Mayor and the City Council are to be commended, at least, for the prompt action they have taken and it is sincerely to be hoped that the people of Albuquerque will show the good business judgment to install without delay, an improvement without which this city cannot hope to make progress.

Vote the sewer bonds and help make Albuquerque a good place to live in.

The following are interesting statistics compiled by the Geographical Journal: The center of population in 1900 was in the state of Indiana. It 1790 the center was twenty-three miles east of Baltimore. In the state of Maryland, or virtually on the Atlantic shore line. Its migration has been slow and remarkably uniform, both in rate and in direction. It has hovered for 110 years along the thirty-ninth parallel of latitude, and its total variation in latitude has been less than one-third of a degree. The westward movement has averaged less than a degree in a decade, notwithstanding the incredibly swift occupation of a vacant continent by a movement of population westward. The easterly position of the center of population is in part due to the fact that the eastern part of the continent was first settled, and was settled from the east. The easterly portion of the center of population is also due to the more evenly distributed and more abundant resources of the eastern half of the United States. It should not be forgotten that the geographic center of the United States lies some hundred miles west of the Mississippi river. The eastern half of the country, therefore, embraces the Atlantic lowlands, the prairies and Great Lake plains, the Gulf lowlands, and the forests and minerals of the Appalachian mountain and Appalachian plateau. Over against these are the arid and mountainous areas of the West. Certain areas will be reclaimed to incredible productivity, and the mineral wealth is vast; but the center of population may be expected to remain permanently to the eastward of the geographical center of the land.

Almost \$2,000,000,000 worth of horses are owned in the United States according to the year book of the department of agriculture. It is probable that if the horses were taken at their real value, instead of their assessed value, this figure would be greatly increased. According to this report there are 19,992,000 horses in this country, with a value of \$1,867,579,890, and the average value per head is \$93.40. Anybody knows that has tried to buy horses of late that the average per head is too small, for even an ordinary work horse is worth more than that. However, the showing is very encouraging. In the last ten or twelve years the number of horses in this country has almost doubled, and instead of there being too many horses, there are not enough to do all the business required, and if it were not for the use of automobile trucks in the large cities the merchants of this country would be hard pressed for methods of transportation for their goods. With business increasing, and every sign indicates, there will be a greater demand than ever for horses during the coming year. In view of this, breeders can go on increasing their business with every confidence that all the horses they can produce will find a ready sale at a good figure. As for good trotters horses capable of going out and winning in their class, the demand is greatly in excess of the supply. Auction sale managers complain that there are not enough of the good ones to supply the gentlemen who are in the market for likely prospects. The coming year will be a banner one in the horse business, especially in the breeding business.

The St. Louis Times is advocating the selection of William H. Nelson, proprietor of the Kansas City Star and Times, as minister to France. Mr. Nelson would undoubtedly be the most suitable man for such a position, because of his wealth, his ability, his Americanism and familiarity with human nature, all of which have come to him honorably in the building of the greatest newspaper, in many ways, in the United States.

The Kansas City religious fanatic, who said he had a sudden revelation when the bullets began to fly after an attack on the police, would do well to have his revelations considerably in advance of the time when he contemplates exterminating the police department of one of the toughest cities in the country.

Major General Bell says the army is unprepared for war. This is the same old story we heard before the late war, before the Civil war, before the Revolution, yet and notwithstanding, the old army has never been licked except in the newspapers or by the war department.

A New York man was operated upon for appendicitis but the physician found they had been mistaken in their diagnosis. It later developed that the man had been married only a month, and his wife was a graduate of a cooking school for society girls.

Just as St. Louis has completed arrangements to pipe natural gas into the city, a twenty-eight foot vein of coal has been discovered in the adjacent county, cutting the price of coal to a very low price. Such is the perverse nature of things.

The country will watch the controversy over the Panama canal which is being waged by newspapers and the president, with more than ordinary interest, but the odds will be very much in favor of one T. Roosevelt.

Use Albuquerque's credit to build up a city commensurate with the future of New Mexico. A good start is to build an adequate sewer system, without which progress is impossible.

When a girl begins to treat her beau as though she were tired of his company, it is a sure sign that she is looking for another or else that she wants him to propose.

Missouri is all wrought up over a dispute as to who has been elected lieutenant governor. What's a lieutenant governor good for, anyhow?

Walter Wellman is going to find the North Pole in his airship, breezily explains a New Mexico exchange. This will indeed prove interesting.

Those congressmen who are camping on Mr. Roosevelt's trail will do well to recruit a substantial rear guard and throw up entrenchments.

Now that the revolution is over in Haiti, the most noticeable thing remaining is an aching void in the treasury.

Reliable reports from Washington indicate that Uncle Joe did not wait for the House to order.

ABOUT TOWN

Rube Longacre, age 25 years, of this city, today secured a license to wed Miss Teresa Mares, age 18, of Los Cerrillos.

A tea and sale will be held by the Ladies' Hebrew Benevolent Society at the home of Mrs. Alfred Grunfeld, Monday afternoon.

Herman Helms, the contractor, and family, are spending a few days at the home of Attorney Thos. Phelan, six miles south of the city.

Eugene Reynolds, of Raton, connected with the Santa Fe, has accepted a position with headquarters in Albuquerque and will make his home with his parents, Mr. and Mrs. C. C. Reynolds.

A tea and sale will be held by the Ladies' Hebrew Benevolent Society at the home of Mrs. Alfred Grunfeld, Monday afternoon.

Judge Abbott today denied a motion for a new trial for Cecil Ayer, who was found guilty of murder in the second degree during the present term of court. It is believed that counsel for Ayer will appeal to the supreme court.

Benjamin F. Walker, age 43, died at his home in the Highlands this morning, death resulting from tuberculosis. The body will be shipped to his old home in Montgomery, Ind., tomorrow morning by F. H. Strong, the undertaker.

A tea and sale will be held by the Ladies' Hebrew Benevolent Society at the home of Mrs. Alfred Grunfeld, Monday afternoon.

W. A. Tope, Jr., arrived in the city last evening and will accompany the body of his father, W. A. Tope, whose death occurred yesterday, back to Downer's Grove, Ill., where interment will be made. Mr. Tope was well known throughout Illinois, having been president of the Farmers and Merchants' National bank at Downer's Grove. The body will be shipped by Undertaker Strong.

Jack La Rue was found guilty of assaulting Manuel Garcia with a deadly weapon, and is still under bond pending action of counsel who may ask for a new trial. This was the finding of the jury on the second count of the indictment. The first count charged him with assault with intent to kill. This was the last case on the criminal docket to be tried in this term of court. Civil business occupied attention of the court this afternoon.

THE POLICE WATCH HIM

Beverly, Mass., Dec. 12.—Albert S. Hoogs, teller of the Beverly Savings bank, who is charged with the embezzlement of \$9,300, was placed under police surveillance today. Hoogs has been critically ill as a result of an overdose of some narcotic he is said to have taken Wednesday to induce sleep, but was, according to the physicians, making satisfactory progress today. A trustee writ was served against Hoogs by the American Benefit Association today and an attachment for \$500 was placed on Hoogs' deposit account at the Beverly Co-operative bank. It is alleged that the association has been trying unsuccessfully to get an accounting from Hoogs, who was its local collector.

BI-CYCLE RACERS MAKE ANOTHER BIG RECORD

New York, Dec. 12.—With all records for distance behind them and he end of their struggle only a few ours away, the eight surviving teams in the six days' bicycle race were whirling around the track at Madison Square garden this afternoon with a never slackening pace. At 2 o'clock the score of the three leading teams was 2,586 miles, one ap. The former records for the 24th hour was 2,567.

GOVERNOR BROOKS SPOKE

Omaha, Dec. 12.—This was "Governor Brooks' Day" at the National convention in session in this city, and Governor Brooks of Wyoming spoke on "Western Accomplishments and Needs."

RUEF GETS A STAY

San Francisco, Dec. 12.—Pronouncing sentence on Abraham Ruef, convicted of bribery, was postponed by Judge Lawlor today, until next Saturday, Dec. 19.

ONE DEAD IN WRICK

Chicago, Dec. 12.—One was killed and several other passengers had a remarkably narrow escape today when a Michigan Central freight train ran into a street car at a crossing in Chicago Heights.

GERMAN STEAMER ASHORE

New York, Dec. 12.—The German freight steamer, Harburg, is ashore half a mile west of the Bellport life saving station. The crew is still aboard. She is lying in an easy position about 300 yards off shore. She has no passengers.

BELGIUM STOPS CATTLE

Brussels, Dec. 12.—Importation or transit through Belgium of cattle, sheep or hogs, from the United States is prohibited until further notice, on account of the foot and mouth disease in America.

Muscular Pains Cured.

"During the summer of 1903 I was troubled with muscular pains in the step of my foot," says Mr. S. Pedar, of Toronto, Ont. "At times it was so painful I could hardly walk. Chamberlain's Pain Balm was recommended to me, so I tried it and was completely cured by one small bottle. I have since recommended it to several of my friends, all of whom speak highly of it." For sale by all druggists.

PUT AN END TO INDIGESTION FOREVER

A Prompt Cure for Stomach Trouble Is Waiting for All Readers of the Citizen.

Does it ever occur to you how busy that little stomach of yours is? It actually only holds three pinches (though in one year you force it to take in 2,500 pounds of material, digest it and prepare it for assimilation to the blood. Do you wonder at the number of cases of indigestion and stomach trouble? You crowd it with steaks and pastry, irritate its juices with spices and acids and expect this little four-ounce mill to do its work. Is there any wonder that your food passes undigested, or lays like a lump of lead in the stomach? That everything you eat turns to acid, stomach gas and stomach poison, putrefying the intestines and digestive canals causing biliousness, headaches, dizziness and indigestion heartburn, nausea, sour breath, constipation and other more dangerous symptoms?

Call your disease what you will—indigestion, gastritis, nervousness, dyspepsia, catarrh of stomach, etc.—you know the real name, the real disease is fermentation of the food you eat—a sour stomach, which produces gas and cramps, undigested food or causes a feeling of nausea and misery.

All these miseries vanish promptly when you stop this food fermentation. Take fifty cents to your pharmacist for a case of Pape's Diapnepsin. Eat a triangle, and five minutes later your stomach will do what a healthy stomach should—that is, turn everything you eat into bodily nourishment and without you realizing that you have a stomach. One triangle will digest all the food you eat without the aid of the stomach, because it contains just the elements found in a good, strong, healthy stomach.

"UNCLE JOSH PERKINS"

One of the most novel and natural representations on the stage today, "Uncle Josh Perkins" will be seen at the Elks' theater on December 15. The play is in four acts and in plot, construction and action shows the hand of one possessing the knowledge of what is natural, realistic and interesting in play building; throughout the play an interesting story depicted is never for a moment lost track of, while all the introduced features and specialties fit so natural.

ly as to form a component part of the story. The press wherever this matches company has appeared, unite in declaring "Uncle Josh Perkins" and his retinue of fun makers one of the best on the road and a vast improvement even over the excellent one of last season. New scenery of places of interest in New York City and bucolic sights and places in the Green mountain state, Vermont, which are said to be not only actual reproductions but gems of scenic art are shown. Several novel mechanical effects are novel numbers depicting the amusements and simple pastimes of country life, including a genuine husking bee and a hilarious barnyard dance. Taken all in all, "Uncle Josh Perkins" is a standard play. It is ever kept up to date and is a stage representation that will live. It is interesting, laughable and teaches a moral. In short, a play that makes one feel all the better from having seen it.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. J. CHENEY & CO., Toledo, O. Sold by Druggists, Inc. Take Hall's Family Pills for constipation.

It is not what you pay for advertising but what advertising pays YOU, that makes it valuable. Our rates are lowest for equal service.

LARGE TIMBER TRACT INVOLVED IN SUIT

Case Heard Before Judge McFie at Santa Fe, Concerns Immensely Valuable Land.

The timber on the Bartlett game preserve in northern New Mexico, probably the largest private hunting ground in America, is the bone of contention in a suit which has been instituted by the Colorado Fuel and Iron company against the principal owner of the land, W. H. Bartlett, a millionaire sportsman of Chicago.

Little is publicly known of this great private hunting ground, but in the interior of northern New Mexico is one of the finest club houses in the country, a building that cost many thousands of dollars, hundreds of miles from the railroad, yet furnished with every modern improvement. The suit which has been instituted, however, involves only the timber on certain far interior parts of the preserve.

Points of action in the suit were argued before Judge McFie in Santa Fe recently. There is over \$200,000 and possibly \$1,000,000 involved in the suit.

Bartlett and his associates purchased a few years ago about 240,000 acres of land in northern New Mexico from what is known as the Maxwell grant company. The land was largely covered with timber and it was made into a game reserve for the use of the Chicago men and their friends.

Bartlett built a fine residence in the most attractive part of the reserve, which in style and cost resembled a magnificent palace. Other houses were constructed around it and the place was made a rendezvous for rich hunters and sportsmen.

The purchase is understood to have been made subject to certain contracts made by the Maxwell grant company and the two auxiliary companies of the Colorado Fuel and Iron company granting the latter the right to cut timber off of the land. This contract was subject to forfeiture upon breach of certain conditions. It is claimed that the two timber companies have been spending large sums of money during the past few years constructing the Cimarron & Northwestern railroad to reach the timber land and building saw mills and lumber plants at Cimarron.

Recently, it is claimed, the Chicago crowd allege that the timber companies had violated their agreement and thereby they no longer had the right to cut the timber.

The two companies have instituted a suit in the district court at Santa Fe making Bartlett and his associates defendants. The plaintiffs ask for an injunction restraining Bartlett and his associates from giving contracts to other parties carrying the right to cut timber. The legal points are intricate and will probably keep the case in the courts for some time.

The St. Louis, Rocky Mountain & Pacific company, which spent \$17,000,000 in that vicinity during the past three years, will be to an extent affected by the suits, as that company claims valuable coal rights on the same property. The Maxwell grant is an immense tract of land which originally belonged to the Mexican government and is immensely valuable on account of its timber, coal, iron, ore and minerals.

START WORK AT ONCE ON PRE-COOLING PLANT

Santa Fe to Expend Big Sum at San Bernardino to Prepare Fruit for Shipment.

One of the biggest, single enterprises to be undertaken by any railroad during the coming year is that proposed by the Santa Fe, the erection of an immense pre-cooling plant at San Bernardino. The plant will be the largest in the world and with it the Santa Fe will get a big share of the fruit shipping industry in California.

The San Bernardino San recently contains the statement that work on the plant is to begin immediately. The San contains a telegram from A. P. Maginnis, who went east to see about the work, and which says: "Have just received orders to go ahead on the pre-cooling plant and work will be started at once." The San further says:

The plant will be located on the Santa Fe's freight cut-off from Colton leading into the west end of the new freight yards, just to the southwest of town. The site was purchased more than a year ago and the stakes recently set for the building and for sidings to accommodate the handling of building material. On the ground is a large well which will be used as a water supply.

When the plant is completed all citrus fruits and vegetable shipments, handled by the Santa Fe for eastern points, will be pre-cooled at the local plant. Shipments from all the various branch lines will be concentrated here and sent out in train loads after being cooled and leaved. It will have a capacity of pre-cooling and icing a trainload of 32 cars every four hours or nearly 200 cars in 24 hours.

The buildings will be 140x1,000 feet in size, the walls being 40 feet in height, the construction throughout being of solid concrete, reinforced with steel. The machinery to be installed in the plant will have a weight of three and a half million pounds and is of the most expensive type.

The ice making portion of the plant will have a capacity of manufacturing 225 tons daily and the refrigeration plant can handle 600 tons daily. There will be a four-track platform for the handling of cars for pre-cooling and icing. An ice storage capacity of 25,000 tons will be included in the plant.

Stops itching instantly. Cures piles, eczema, salt rheum, tetter, itch, dyes, herpes, scabies—Doan's Ointment. At any drug store.

EXTRAORDINARY OFFER

A Chance to Buy a Lot and Build a Home to Suit Yourself. Until January 1st we will make the following offer:

A beautiful 50 foot residence lot in the Eastern Addition, level and nicely located on either Arno, Edith or Walter streets, and 5000 feet of good new building lumber delivered to your order as you may direct. All for \$300.

\$100 Down. Balance \$10 a Month. No Taxes.

What You Can Accomplish

You can make your own plans and build your house as you see fit evenings and holidays, and finally own the house and lot on payments LESS THAN YOU ARE NOW PAYING FOR RENT. You can employ some one to build your house and then rent the place for ENOUGH TO PAY YOUR INSTALLMENTS. If you are not married you can join with some other fellow and keep bachelor hall.

We only have 20 of these propositions. If you want to know more about it call at office or telephone us and our salesmen will show you the lots at any time. We furnish conveyance.

A BOUQUET OF "CLANSMAN" BEAUTIES

Here are the daughters of the Ku Klux Klan, their wives, sisters and sweethearts, as they are represented in "The Clansman" at the Elks' theater on Monday evening, December 14. Of the six actresses in the piece, four are of southern birth and upbringing and they have full measure of the southern beauty, grace and refinement. Miss Eugenie Hayden, the attractive leading lady, is of Kentucky and Virginia descent, and her ancestors occupied a notable place in the social life of the Old Dominion, both before and after the American Revolution. Miss Hayden plays the part of Elsie Stoneman, the fiancée of the Ku Klux commander, Captain Ben Cameron, while Miss Ruth Hart

DR. PRICE'S
WHEAT FLAKE
FOOD

So nourishing that persons could live a long period of time upon nothing but this food. No breakfast food as perfect.

enacts the role of his childish sweetheart, Nellie Graham. She is a New York girl, but her parents are southern, the members of a good, old South Carolina family which participated in the exciting events of reconstruction. Then there are those clever girls, the Davis sisters, who have cousinly relationship with the family of the late President Jefferson Davis. The one who is famous for her laughable impersonation of Auntie Eva in "The Clansman" is known on the stage as Maude Durand, a minor role being played by her sister, Edna Davis. Miss Mersereau, the little Flora of the piece, is regarded by many as the prettiest and cleverest child actress in America. Besides nature's gift of good looks, she possesses a sweet and lovable disposition which has endeared her greatly both to her personal friends and to the audience before whom she appears. The costumes of "The Clansman" beauty girls has often been remarked on. Their gowns are all correct for the period of which the play is written and are moreover, tasteful and artistic. No wonder the lovely wearers of the frocks and coiffures of 1867 caused the heart of many a handsome Ku Klux to beat faster and inspired him to the glorious deeds of self-sacrificing courage which ransomed the South from carthaggator rule.

U.S. DISPENSATORY

Describes the Principal Ingredients Contained in Peruna.

Are we claiming too much for Peruna when we claim it to be an effective remedy for chronic catarrh? Have we abundant proof that Peruna is in reality such a catarrh remedy? Let us see what the United States Dispensatory says of the principal ingredients of Peruna.

Take, for instance, the ingredient hydrastis canadensis, or golden seal. The United States Dispensatory says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women.

Another ingredient of Peruna, corydalis formosa, is classed in the United States Dispensatory as a tonic. So also is cubeba classed as a stomachic and as a tonic for the mucous membranes.

Cedron seeds is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. The seeds are to be found in very few drug stores. The United States Dispensatory says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a substitute for quinine.

Oil of copaiba, another ingredient of Peruna, is classed by the United States Dispensatory as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

Send to us for a free book of testimonials of what the people think of Peruna as a catarrh remedy. The best evidence is the testimony of those who have tried it.

Golden Legend, by Dudley Buck, Mrs. Charles H. Frank; Offertory, Humfrey; Recessional, Evettide.

A cordial welcome to all.

Just received, one shipment of rockers for the holiday trade, with others to follow. Don't fail to see them before purchasing. Select now and we will keep them until Christmas. Futrell Furniture company, west end of viaduct.

EXAMINE TEACHERS FOR NEW CERTIFICATES

The Examination Has Been Set for January 15 at the Court House.

An examination of teachers will be held January 15 at the court house, beginning at 8 a. m. The examination will be conducted by Superintendent Stroup pursuant to the following letter from the territorial superintendent:

To the County Superintendent:
Dear Sir—We would like to hold the next regular county examination on Friday and Saturday, January 15 and 16, 1909. This examination should be open as early as 8 o'clock Friday morning. Examination questions for all grades of certificates will be submitted.

Your teachers are already inquiring concerning this examination and it might be well for you to announce the date through the press. Let it be thoroughly understood that all holders of permits must attend this examination and secure certificates if they wish to continue teaching. Teachers who hold second and third grade certificates may attend this examination and try for higher grades.

Prospective teachers should attend this examination if possible in order that they may become acquainted with the nature of the questions and thus prepare themselves more thoroughly for the examination to be given at the close of the summer institutes. All who are planning to teach between now and the summer institutes and who are not now holders of teachers' licenses should attend this examination.

When the questions are sent you early in January full instructions will be given as to the address to which to mail examination papers.

Yours very respectfully,
(Signed) J. E. CLARK,
Territorial Superintendent Public Instruction,
Department of Education, Santa Fe
N. M., Dec. 8, 1908.

RECOVER BICYCLE STOLEN IN SEPTEMBER

Rafael Pargas, of Barcelas, was arrested by the police yesterday on the charge of stealing a bicycle from J. H. Cook, manager of the skating rink. The theft was made last September but the bicycle was not recovered until yesterday.

Mr. Cook's bicycle was red when he last saw it. Yesterday he saw a blue one standing in front of the Barnett building. He examined the number and found it to be his. He inquired and found that it was owned by the elevator boy in the Barnett building. The latter said that he bought it from Pargas, giving him \$8 for it. When Chief of Police McMullen went to the Pargas home to make the arrest he found parts of several different bicycles lying around the place.

Attorney Modesto Ortiz appeared before Judge Craig this morning and asked to have the hearing set for Monday afternoon at 4 o'clock.

Dr. Price's CREAM Baking Powder

Fifty Years the Standard. A Pure
Cream of Tartar Powder. Makes
finest cake and pastry, light, flaky
biscuit, delicious griddle cakes
—palatable and wholesome.

No alum, no lime phosphates

NOTE.—Avoid baking powders made from alum. They look like pure powders, and may raise the cake, but alum is a poison and no one can eat food mixed with it without injury to health.

APARTMENTS SHOW EVIDENCE OF CRIME

Rooms Occupied by Mitchell are Filled With Blood From His Wounds.

The rooms of the late James Mitchell in the Hope flats on Hazeldine avenue, were opened Thursday afternoon for the first time since the morning after Thanksgiving, when the body of Mitchell was taken from the place to the morgue.

Coroner George Craig opened the place and with two friends of Mr. Mitchell, took an inventory of the personal property of the unhappy couple. While a few articles had been disturbed since Mitchell's self destruction, many evidences remained of the man's awful crime.

The flat occupied by Mr. and Mrs. Mitchell consisted of three rooms and a bath, fronting on Hazeldine avenue. The bed upon which Mitchell lay as he cut his throat is in the front room. The middle room was used as a dining room and the next room was the kitchen. The bath room, where Mitchell made the last desperate attempt to end his life by drowning is off the kitchen.

There were puddles of blood in every room in the flat. The floor was covered around the bed. The door knob of every door in the house from front to back is covered with gore and bloody finger prints on objects here and there mark the staggering advance of the man from the bed in the front room to the bath room. The rear door was opened and blood in the back yard shows that he went out of doors and came back in with the blood spouting from the gaping wound in his throat. The gloves he wore when he shot his wife were lying on a chair in the house just where he threw them when returning from the attempted murder.

Coroner Craig turned the keys over to W. T. Thornton, Mrs. Mitchell, who is staying at the Thornton home, will ask to be appointed administratrix of the estate at a session of the probate court next week.

MANY ATTRACTIONS AT NEXT SMOKER

Wrestling, Fencing and Sparring Matches are Arranged by Athletic Club.

Membership tickets for the Athletic Association for the month beginning December 15th are already being issued and many of the old members as well as some new ones are stepping to the front with the fee.

The smoker which will be the event of next month promises to be the best event of the kind ever pulled off in this city. Arrangements are now being completed whereby two employees of the Santa Fe shops, known to be well trained in the art of wrestling, will give an exhibition in addition to this an exhibition of fencing will be given and the evening's entertainment will end with a sparring exhibition between two athletes in that line, one from this city and the other from Las Vegas.

The program arranged for the occasion promises to be one of the best ever attempted by the local association and judging from the large number of tickets already sold for the event, an extra large attendance will be on hand. The date for the next smoker has been set as December 13th.

"Dr. Thomas' Electric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. J. Whitacre, Buffalo, N. Y.

NEW FILM SERVICE AT COLOMBO THEATER

Some Fine Pictures Are to be Shown This Evening and Tomorrow.

Selig's circus, "The Queen of the Arena," will be the feature picture at the Colombo theater Sunday and Monday nights. This film was released by the Crawford Film Exchange in St. Louis December 10, and is shown here as soon as at any other point within the distance Albuquerque is from St. Louis. According to Mr. Moore's contract, the film can be run but two days and Albuquerque people wishing a treat will have to go to the Colombo Sunday and Monday to get it.

The other pictures which form part of tonight's program will be "Miss Sherlock Holmes" and "The Old Maid's Temptation." In this latter picture the ladies of the O. M. T. C. are to have a meeting to discuss matters of importance. The janitor is discovered preparing the lodge room. To help him in his work he has a flask of "Surefire" whiskey handy. He places it in the ice cooler for safety and forgets it when departing. The ice man drops the ice upon it and makes a fine temperance drink. The ladies meet, warm up, and of course need a drink, and we see the staid old maid becoming very frivolous. A wandering professor happens in with a machine and a grand scheme for restoring youth and beauty—"while you wait." The "girls" vote to give the machine a trial. The worthy president enters first and comes out a beautiful damsel of sixteen. Then there is a rush and a scramble for place and we witness some of the curious changes "a wee drag" will make in human nature. It winds up with the professor and his machine getting fired and the O. M. T. C. adjourning in a hilarious mood.

PUT RETURN CARD ON YOUR PACKAGES

Postmaster Issues Advice to Those Who Send Christmas Presents.

"Don't fail to put a return card on Christmas packages sent by mail. This will insure their return to you if not delivered to the person to whom they are sent. This is a precaution of which every person sending packages through the mail should take notice."

This was what Postmaster Hopkins told a reporter this morning. He said that the warning was more important than the overwork the clerks would have to do between now and the New Year. Very few packages have been sent as yet. The rush will begin next week when local people begin to send and the week following, business will be still better when presents from the east begin to arrive.

There are almost twice as many presents come to Albuquerque every Christmas than go out. There is a large transient population here that receives presents but send none. People here for their health send few presents, but always receive something from every kinfolk they have in the world. It is a custom.

One thing patrons of the local post-office may as well resign themselves to during the arrival of Christmas packages through the mails, is be patient. The local office has all the work it can do when conditions are normal, and when the Christmas rush begins, it will have more than it can do to speedily. The government furnishes no extra clerks and the local force will have a couple of strenuous weeks.

The Best Christmas Gift

SOCIETY

The Ladies' Aid society of the Presbyterian church held its regular meeting Thursday afternoon in the church parlors.

Mrs. August Kraemer of 1161 New York avenue, entertained the ladies of the Lutheran church at a pleasant "coffee" Wednesday afternoon.

The Ladies' Aid society of the Presbyterian church held its regular meeting in the parlors of the church Thursday afternoon at 2:30 o'clock.

Mrs. J. A. Hubbs, who has been confined to the St. Joseph's hospital for several days, has returned to her home, 1102 West Tijeras avenue, much improved in health.

Annual meeting of the Theta Kappa Delta sorority of the University of New Mexico, will be held next Saturday evening, at the home of Miss Ellen McMillen, of 119 South Walter street.

Announcement has been made of the engagement of Miss Mary Telfer, daughter of Mr. and Mrs. T. W. Telfer, of 1002 North Second street, and Mr. Archie F. Hall, of Detroit, Michigan. Miss Telfer is one of the most charming girls of Albuquerque, and is prominent in social circles.

The ladies of the Degree of Poinsettias were the guests of Navajo Tribe Independent Order of Redmen, at an informal entertainment Wednesday evening. Cards and dancing furnished the amusement of the evening.

The Temple Albert Ladies' Hebrew Benevolent society will give a tea next Monday afternoon at the home of Mrs. Alfred Grunsfeld, 1015 West Central avenue, from 2:30 until 6 o'clock. The ladies will conduct a sale of home cooked delicacies and fancy work. A number of informal social features will add interest and pleasure to the affair.

Mr. and Mrs. E. A. Davis of West Gold avenue, were host and hostess at a delightful dinner party in the Alvarado dining room last Sunday evening. While the affair was informal, the appointments of the evening were elaborate, and dainty decorations graced the table. Covers were laid for six. Mr. and Mrs. Davis' guests of the evening were Dr. and Mrs. James H. Wroth and Mr. and Mrs. R. A. Frost.

One of the best musical entertainments of the week was the musical and literary recital, given Tuesday evening by the Misses Helen and Clara Davis. Miss Helen Davis gave several excellent selections on the pipe

organ, and Miss Clara, an accomplished reader, entertained with recitations. They were assisted by Mrs. Charles A. Frank, Mrs. Roy McDonald, Mrs. H. J. Collins, Miss Lillian Elwood, Mr. Gould, Miss Beatrice Hill, Miss Leslie Keith, Miss Coral Clyde, Miss Viola Blueher, Miss Edna Patchin, Miss Nellie Patchin, Mr. Peters, Master Goodrich and Miss Alice Nicholas. Miss Gertrude Ziphut, Miss Lola Neher, and a number of little boys who took part in a tableau.

Banquet—Dr. James H. Wroth was hostess to the members of the 1908 football team of the University, the members of the faculty of the University and the board of regents at an elaborate banquet in the Alvarado dining room last Wednesday evening. The banquet is an annual courtesy to the football team. The guests were: Mr. Frank W. Chaney, President W. G. T. Light, Prof. M. F. Angell, Prof. Rupert F. Asplund, Prof. Clark, Prof. H. H. Conwell, Mr. Lawrence Lee, Mr. Edward Safford, Mr. Edward Ross, Mr. Michael J. McGuinness, Mr. J. J. Sausberry, Mr. R. W. Ahrens, Mr. Walter R. Allen, Mr. Gillette Cornish, Mr. Harold E. Marsh, Mr. Charles McConnell, Mr. Charles Lemke, Mr. Omer Patton, Mr. J. Silva, Mr. Fred White, Mr. Clark Irwin, Mr. Lawrence L. Silva and Mr. William Wroth.

Woman's Club—The regular weekly program of the Albuquerque Woman's club yesterday afternoon was in charge of the domestic science department, led by Mrs. Frank Moore. In addition to the regular program, the final preparations for the bazaar and art sale to be given by the club December 18 were completed. The first number on the program was a vocal duet by Mrs. Affleck and Miss Butler. Roll call was answered by pudding recipes, followed by an ex-

cellent paper on "The Ordinary Woman," by Mrs. Abbott. Mrs. Charles E. Lukens gave an informal talk, "Do We Make Christmas a Burden?" and brought out a number of convincing facts, applicable only to those who are inclined to look upon Christmas as a burden rather than a pleasure. One of the most interesting numbers of the program was the last, a candy demonstration.

Card Party—Mrs. Samuel Neundt, assisted by her sister, Miss Minnie Holzman, very pleasantly entertained thirty-five guests at five hundred, at her handsome home, at 618 West Copper avenue, Thursday afternoon. Honors for first and second scores were won by Mrs. Ivan Grunsfeld and Mrs. Roy McDonald. Mrs. Neundt's and Miss Holzman's guests of the afternoon were: Mrs. M. L. Stern, Mrs. Roy McDonald, Mrs. Leon R. Stern, Mrs. J. E. Saint, Miss Irene Saint, Miss Bessie Chapman, Mrs. Joseph Friedberg, Mrs. P. G. Cornish, Mrs. John Lee Clarke, Mrs. Louis Hilde, Mrs. Felix Lester, Mrs. Richmond, Mrs. Culbertson, Mrs. R. A. Frost, Mrs. Maynard Gussell, Mrs. Harry Lee, Misses Lee, Mrs. Simon Stern, Mrs. Alfred Grunsfeld, Mrs. Albert Grunsfeld, Mrs. Melville Samuels, Mrs. W. P. Johnson, Mrs. Daniel A. Macpherson, Mrs. Ross Merritt, Mrs. Charles White, Mrs. Amado Chavez, Mrs. J. T. McLaughlin, Mrs. J. A. Weinman, Mrs. Kempenich, Mrs. Margaret Medler, Mrs. Elmer E. Veeder of Las Vegas, Miss Spaulding, Miss Alma Rosenwald and Mrs. David Rosenwald and Mrs. Ivan Grunsfeld.

Bazaar—Final preparations for the bazaar and art sale to be given by the Woman's club were completed yesterday. The program, while not completed in detail, will consist of musical numbers, recitations, etc., and with other features, such as refreshments, consisting of coffee and cake will give a social air to the occasion. The booths will be in charge as follows: The candy booth will be conducted by Mrs. Long and Mrs. Ross. Home-made candies of every description will be placed on sale and the proceeds of this department will

be devoted to the Detention home. The fancy work booth will be placed in charge of Mrs. Chavez and Miss Lola Armijo. The table of home cooking which is always one of the most attractive departments, will be conducted by Mrs. Abbott and Mrs. Anson. The booth which promises the most interest, because of the newness and novelty of the idea, and the value of the articles, will be the sale of water color pictures and hand painted china. This will be in charge of Mrs. E. B. Hart. The articles which have been donated by the members of the art class will be placed at auction.

The bazaar will be held in the club rooms next Friday, December 18.

Dancing Party—The members of the Albuquerque Commercial club were hosts at their regular semi-monthly dancing party in the club rooms last Wednesday evening. Nearly fifty guests were entertained. Music was furnished by the Cavanaugh orchestra, and refreshments were served. The members of the University foot ball team, who were the guests of Dr. Wroth at the annual banquet Wednesday evening, serenaded the party about midnight. Those present were: Mrs. Willard S. Hopewell, Mrs. A. L. Richmond, Mr. and Mrs. M. O. Chadbourne, Mr. and Mrs. Charles White, Mrs. Andrew Miss Minnie Holzman, Miss Bessie Baldridge, Miss Mervile Winslow of California, Miss Adelle Goss, Miss Ruth Goss, Miss Grace Borradielle, Miss Margaret Schuster, Miss Eugenia Keleher, Miss Lillian Spitz, Miss Lisa Dieckmann, Miss Underwood of Nashville, Tenn.; Mr. Albert Faber, Mr. Ernest S. Jones, Mr. E. F. Landolt, Mr. Roy Stamm, Mr. A. W. Cleland, Mr. John Borradielle, Mr. Gerry Johnson, Mr. L. M. Way, Mr. A. M. Luchas, Mr. Leon Horvath, Mr. E. V. Scherer, Mr. C. R. Gibson, Mr. Thomas M. Danahy, Dr. Edmund J. Alger, Mr. Sam Pickard, Mr. Julius Staab, Mr. J. Benson Sewell, Mr. William J. White, Mr. D. D. Bronson, Mr. Lloyd Sturges and Mr. N. G. McCredon.

Reception—The students of the University of New Mexico, have taken an active part in social circles this week, and have been entertained at a number of delightful functions. Not the least, by far of these, was the reception last evening at which Dr. and Mrs. W. G. T. Light acted as host and hostess. From 8 until 11 o'clock their pretty home in University Heights was the scene of an informal reception, complimentary to the members of this year's college graduating class of the University. The guests also included the members of the faculty of the University. The rooms were prettily adorned for the occasion, cedar branches and mountain mistletoe being used in their decoration. Appropriate refreshments were served. Dr. and Mrs. Light's guests were: Mr. Roy A. Baldwin, Mr. Kirk Bry-

CARMENTS THAT FIT AND WEAR

THE PARIS FASHION SPECIALTY CO.

ALBUQUERQUE, New Mexico

213 South Second Street

Postoffice Block

Week Beginning Monday, December 14th

We inaugurate the Holiday Shopping Season with the greatest slaughter of prices this city
ever saw. New Suits and Coats which have arrived in the last few
days by express will go on sale with the others.

NOTHING RESERVED

The enthusiasm of the crowds attending this sale proves the originality and novelty of our
methods and the absolute truth of all we claim.

Success Stimulates Us to Further Efforts
