CONGRESSIONAL.

SENATE.
WASHINGTON, Dec. 5.—Among the amendments to the house petition presented and referred was one from Mr. Ainsworth of New York, asking for an extension of time for the withdrawal of goods from bonds under the former tariff rates.
Among the bills introduced and referred was one for the free and unlimited use of silver as money.
The joint resolution reported yesterday by Mr. Hawley to issue arms to the states of South Dakota and Nebraska was taken up.
Mr. Voorhees said that he did not want to delay the passage of the joint resolution. The whole matter had been brought about by a combination of bad policy and the incompetency of some officials. The Sioux are strong. Give the Sioux plenty to eat and there will be no further trouble. After a long discussion the resolution was passed, and then at 2 o'clock the elections bill was taken up and Mr. Pugh addressed the senate in opposition to it.

HOUSE.
The unfinished business in the morning was the bill for the punishment of every guardian, conservator, curator, committee, tutor or other judicial agent for the embezzlement of the pension of a ward. The previous question was ordered, yeas 113, nays 92, and the bill was passed.

MORROW.
NEW YORK, Dec. 5.—A special from Washington says that the president and Sec. Blaine are seriously considering the appointment of Congressman Morrow, of California, to Guatemala, in place of Lansing B. Minner, recalled.

The Coal Strikers.
BIRMINGHAM, Ala., Dec. 5.—The situation among the miners is unchanged. About 8,000 men are out on a strike. A few have returned to work. The indications point to an early settlement of the differences. It was rumored here yesterday that as soon as the operators recognized the committee work would be resumed. Miners say they are out for an advance and that the report is untrue that some of the operators are trying to fill the mines with negroes.

Giving Them Smallpox.
SAN ANTONIO, Tex., Dec. 5.—Dr. Rutherford, the state health officer, is in the city and states that he has placed the entire Rio Grande border under strict quarantine against smallpox, which prevails in the towns on the Mexican side. He states that many Mexican women who live on the Texas side of the border, have taken their suckling babies across the river, in order to have them catch the smallpox, as they believe that a child when very young will not die from the disease. Everyone connected with the railway service west of San Antonio has been vaccinated.

Ought to Irrigate.
OMAHA, Dec. 5.—The commission appointed by Gov. Thayer to devise means for the relief of the suffering due to the shortage of crops in Nebraska, has submitted a report showing an almost total failure of crops in twelve counties and that 10,000 families are in need of assistance. The governor discourages appeals to outside states lest it injure the credit of the state, but promises relief when the legislature meets. In Frontier county there are 8,000 people, and a large portion of them are becoming desperate. Wheat only yielded one or at the most two bushels, but all the available stock has been disposed of and that remaining is being killed. The animals are too small and poor to furnish much food. Being a new county the people are mostly in debt. The commission say that the destruction is more than that caused by the Johnstown flood or the Chicago fire. Practically the same story comes from the Canadian country in Oklahoma.

The Fair.
CHICAGO, Dec. 5.—Within the next two months work will have been commenced upon hotel structures which will cost in the aggregate over \$13,000,000, all of which are to be completed within four months of the opening of the world's fair. One structure costing a million dollars is to be erected on the Lake front within a few hundred yards of those features of the exposition that are to be located in that quarter, while one mile south on the same thoroughfare, N. K. Fairbanks, the great land magnate, is to build a half million dollar hotel, while a third to cost \$350,000 is to be put up half a mile south and a fourth to cost half a million still another half mile to the south.
George M. Pullman has decided to erect a million dollar structure on his ground in Hyde park, and architects are now engaged on the plans, while a caravansary of equal size and cost is already under way within a quarter of a mile of Jackson park, where the main features of the exposition will be located.

Bad Weather For Good Indians.
OMAHA, Neb., Dec. 5.—A special to the Bee from Pine Ridge agency says: Zero weather and a driving storm of cutting sleet prevail here. The troops are hugging their camp fires, while the Indians are freezing in their gauze tepees just outside of the agency precincts. To-day Agent Royer will call in all the Indians at the agency and give them a big feed at the storehouse.

Should the present storm continue, and particularly should there be a heavy fall of snow, the ponies of the Indians now here and whose hay has been stolen by the hostiles will be threatened with starvation.

Thus these copper-faces who have bowed their heads to government rule in the present instance are suffering, while their rebellious and thieving brethren are living on the fat of the land.

WASHINGTON, December 5.—Orders have been issued for the First, Fifth and Seventh regiments of infantry to proceed at once to the scene of the outbreak. The First and Seventh regiments will proceed first to Omaha and there await further orders.

CONDENSED NEWS.

The town of Brookfield, Kas., was wiped out by fire yesterday.

It rather looks as if Farnell would be deposed as the Irish leader.

Gen. Carr and his command are expected to reach the Dakota Black Hills today.

The schools at Alton, Ill., have been closed because of the prevalence of diphtheria and scarlet fever.

Capt. Townsend and James Wells were drowned in Sabine lake, Texas, by the capsizing of their sail boat.

A disease called "black leg" is causing apprehension among stock raisers in the vicinity of Paris, Ill. A number of fine animals have died.

At Black Hawk, W. Va., John Harger, a 17-year-old boy, quarreled with Willie Cook and struck him with an iron bar, killing him instantly.

A member of the J. I. Case Threshing Machine company states that the company will not join the threshing machine trust that is being formed.

The New York court of appeals affirmed the decision of the lower courts in the breach of promise case of Campbell vs. Arbrooke and the complainant recovered \$45,000 damages.

Four men, two on a side, met in the highway near Madison, Ark., and fought with knives. One was cut seriously across the neck and will die. Two others are badly cut.

Lewis Jones (colored) was instantly killed and Edward McConley fatally injured on the Santa Fe road near Turner, Kas. They were employed as track men.

Two intoxicated tramps were put from a train near Lockland, Ohio, Monday night and were struck by an express on the other track. One was killed outright and the other fatally wounded.

The entire command at Fort Logan, near Denver, has gone into the Sioux country. The command consists of six companies of 250 men, and eighteen officers. They proceed via Rushville, Neb.

A soldier accidentally fired into the powder house stationed outside the city of Guthrie Monday evening and a terrific explosion occurred. The city was badly shaken and the legislators, who were in session, rushed pell mell from the building thinking the hall was falling. No one killed.

That County Seat Contest.

The matter of the county seat contest between the towns of Aztec and Junction City, in San Juan county, voted upon at the recent election, was argued before Judge Seeds in chambers yesterday. Mr. Knaebel for the Grand Junction people, represented here by County Commissioner Henry Hall and Gen. Bartlett appearing in behalf of E. G. Berry and the Aztec townspeople. The court announced its decision this morning, holding that the law under which the election took place was constitutional, and dissolving the temporary injunction under which the county records were forbidden to be removed from Aztec to Junction City. The Aztec people, however, were given until the 20th inst. to amend their bill in reference to the charge of election frauds so as to make it specific as to time and persons—"failing to do which the bill will be dismissed," says the court.

ARMY MATTERS.

Major Maynadier and his chief clerk, Mr. Cimaren, arrived from Fort Union last night and to-day paid off the troops at Fort Marcy.

Troop I, consisting of ninety-two enlisted men, with Major Tupper in command, and officers Capt. Hanna, Lieuts. Blachson and Daniels, arrived from Fort Lewis yesterday and during the afternoon was busy in getting its paraphernalia on the cars. The troop has been ordered to Dakota and takes with it ninety-three horses and twelve mules. All the officers with the exception of Lieut. Daniels, are accompanied by their wives.—Durango Herald.

Another Contest.

Juan Garcia, defeated candidate for the house from Rio Arriba county, has initiated a contest against Hon. Alex. Read, member elect from that county. Mr. Read received 362 majority. The contest is simply a pretext to unseat Mr. Read, should the Democrats organize the house.

The best job work for many a hundred miles done right here at the New Mexican printing office; brief work, record work, all kinds of printing, binding, book work and the like is to be had here at the lowest possible prices and in first-class shape; patronize home industry and do not send your job work to St. Louis and Chicago. Keep it here and help yourself and the town along.

Weak Back and Weak Lungs.

The world is full of persons afflicted with weak backs and weak lungs. In the following letter Mrs. I. T. Crockett, of Max Meadows, Va., tells how she was cured of these troubles:

"I have used Allcock's Porous Plasters for ten years or more for weak back (spinal affection) and weak lungs, and I can say with perfect truth that I have been greatly benefited by them. In fact I don't believe that I could get along without them; certainly not for any length of time. I have been the cause of many others wearing them, who have been greatly benefited."

The Great Southwest

Where last year farmers netted \$100 to \$200 per acre for fruit, grown on land that can be duplicated to-day for \$80 per acre.

Where five tons of alfalfa hay, worth \$12 per ton, was grown on land, the like of which can be bought for \$15 per acre.

Where many, many other products, such as sweet potatoes, tomatoes and early vegetables, netted as large and larger profits than fruit.

Where the summers are cool, the winters warm, cyclones unknown and malaria unheard of.

Where there is the best opening in the world for honest industry.

Or HENRY F. GRIERSON,
Immigration Agent, A. T. & S. F. R. R.,
622 Rielle Building, Chicago, Ill.

This railway passes through twelve states and territories, and having no lands of its own to sell has no object in advancing the interests of any special locality, or in giving any other than absolutely reliable information. It realizes that the prosperity of the farmers of the great southwest is its prosperity to itself also, and is thus naturally willing to aid the immigrant as much as possible.

FRIDAY, FEBRUARY 5.

The gravest question of the hour: Who puts up the boot in the election mess here for the Democratic officials?

AS MATTERS are now assuming shape Maine and Illinois, New York and Indiana will supply the timber for the next presidential contest.

TRAVELING costs money; but nevertheless a couple of the poor county commissioners can go traveling about all over the country; one supposedly going to Chihuahua and the other to Virginia. They are honest men; of course they are; perish any other thought.

THE national convention of the Farmers' Alliance is in session in Florida, and possibly the county will soon learn what the farmer-politicians propose doing with the white elephant they captured in the late contest at the polls.

THE Tory element in England is making the most of the Parnell-O'Shea scandal to strengthen its political position. It is small business, to be sure, almost as small as the attempt of the Democratic bosses in New Mexico to steal the legislature by canvassing the theft of a ballot box from a Republican precinct in Santa Fe county.

POOR Koch evidently has a very high opinion of his fellow professionals throughout the world. He makes bold to give it out that the true nature of his so-called lymph must remain a secret because it is a very powerful remedy, and if placed freely in the hands of physicians, would, through their ignorance of its proper method of application, result in more deaths than is now caused by consumption.

THE Democratic sheets in New Mexico by their silence approve the action of the Democratic gang here in stealing the ballot box and returns from Galisteo precinct in order to steal the coming legislative assembly; the Democratic bosses preserve also a very eloquent silence. Some of the Democratic leaders defend the steal openly. Honesty and a due regard for

law and right do not seem to be amongst the qualities needed to become a leader in the Democratic party in New Mexico.

W. F. Cony, "Buffalo Bill," has a way of speaking of the Sioux Indians' messiah that must shock the sensibilities of the Massachusetts missionary who has for years been hammering this religious idea into the hard head of poor deluded "Lo." Mr. Cony's allusions to the possibility of the wind in a Dakota blizzard "blowing through the whiskers of the messiah" is a bit of injustice to the noblest man that ought to be looked into by the Massachusetts Indians' Rights association.

DON ROMULO MARTINEZ, of Santa Fe, arrived on Monday. Mr. Martinez was the opponent of T. B. Catron in the late election. He says it is possible that no certificates will be given to either, but in any event the coming council will be Democratic. Mesilla Valley Democrat.

It seems that Romulo Martinez has changed his mind; a few weeks ago he acknowledged openly, that Hon. T. B. Catron was honestly and legally elected and that he, Martinez, would not make any effort to obtain the seat of Mr. Catron. But the wolf is making his appearance now.

The contest against Pedro L. Jaramillo, councilman elect from Rio Arriba and San Juan counties, was brought for no other reason than to have a pretext to unseat him, should the Democratic leaders be successful in stealing the upper branch of the coming legislative assembly. Mr. Jaramillo was honestly and fairly elected and everybody, who cares to, knows this to be a fact; but as such little things cut no figure with the Democratic leaders of New Mexico, he is to be unseated should they succeed in this dishonest scheme.

THE Las Vegas Optic is of the opinion that the citizens of Albuquerque have subsidized the Denver newspapers to boom their town and to procure an extension of the Denver & Rio Grande from Espanola to Albuquerque down the Rio Grande valley. Well, that may be the case, and if it is, the people of Albuquerque are fully entitled to credit for being wise awake, for obtaining valuable advertising for their town and for working for another railroad. Santa Fe and the other towns in New Mexico might do likewise if they so chose; if there is not sufficient enterprise and public spirit here, why there is no one to blame but its own citizens. This is as plain as the nose on a man's face. If a town helps itself, it will prosper and advance.

COLORADO bids fair to possess ere long the most comprehensive set of water laws of any state in the union. More than a year ago when the Colorado legislature provided for the appointment of a state water commission to study the subject and report upon the best methods of regulating the public waters, this paper called the attention of its readers to the importance of such an undertaking and suggested that the data thus secured and the conclusions arrived at would prove of great interest to the people, because where some such work must ere long receive the attention of public men. The Colorado commission has just completed its labors which they have performed with an evident conscientious care and intelligence not usually betowed upon public matters. The conditions of soil and climate and the use of water in New Mexico are almost identical with the conditions prevailing in Colorado, and our lawmakers can well afford to study Colorado's improved methods before taking up the subject of water legislation at the approaching session of the territorial assembly.

COMMON SENSE AND IRRIGATION. The reclamation of the arid lands has been permanently incorporated in the policy of the Republican party, and it will be pursued upon intelligent lines. President Harrison's allusion to the subject in his message indicates that he has been studying it and is thoroughly posted on the situation in the west. He could scarcely have treated it more satisfactorily had he been a resident of the arid country

of New Mexico is considered the finest on the continent. The high altitude insures dryness and purity (especially adapted to the permanent cure of pulmonary complaints, as hundreds will be witness), and by traveling from point to point almost any desired temperature may be enjoyed.

POINTS OF INTEREST.

There are some forty various points of more or less historic interest in and about the ancient city.

The adobe palace stands on the spot where the old Spanish palace had been erected shortly after 1600. That ancient structure was destroyed in 1680 and the present one was constructed between 1697 and 1716.

is making a steady monetary growth; has now a population of 8,000, and has every assurance of becoming a beautiful modern city. Her people are liberal and enterprising, and stand ready to foster and encourage any legitimate undertaking having for its object the placing up and improvement of the place. Among the present needs of Santa Fe, and for which liberal bonuses in cash or lands could undoubtedly be secured, may be mentioned a cannery factory; a wool scouring plant and a tannery. Skilled labor of all kinds is in demand at good wages. The cost of living is reasonable, and real property, both inside and suburban, is a ready advantage in value.

A Long Journey.

From Silver City to Kansas City the distance via Santa Fe route is 1,197 miles; to Chicago, 1,955 miles, and to St. Louis, 1,515 miles.

Happy Hoosiers.

Wm. Timmons, Postmaster of Ideville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine; made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c a bottle, at A. C. Ireland's Drug Store."

Forty-nine Hours to St. Louis.

Don't forget that the A., T. & S. F. train No. 4 carries through Pullman Palace sleeper to St. Louis via Burton, making connection with the "Frisco" "Flyer," passing through Wichita, Osage, Columbus, Springfield and other important cities, reaching St. Louis 7:25 the second morning out of Santa Fe. Train No. 2 also reaches Burton in time to connect with the "Frisco" "Flyer," which also carries free reclining chairs (east of Burton) equal in point of equipment and time to that via Kansas City.

Why Will You Cough when Shiloh's Cure will give you immediate relief. Price 10c, 50c, and \$1. C. M. Creamer.

"Does the cellar leak?" "No. It's had two feet of water in it ever since I've been in the house. Not a drop has got out."

The Rev. Geo. H. Thayer, Of Bourbon, Ind., says: "Both myself and my wife owe our lives to Shiloh's Consumption Cure."

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs, she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself stronger and well, now does her own housework and is as well as she ever was. Free trial bottles of this Great Discovery at A. C. Ireland's Drug Store, large bottle 50c and \$1.00.

Visiting The Old Home.

If you have in mind a trip to the old homestead, and have decided to go via Chicago, remember that the Santa Fe route runs three through trains between Kansas City and Chicago, (two at night and one in the morning); so that if ticket limits permit, a little time can be spent at Kansas City without being obliged to wait twenty-four hours for the next train east.
