CONGRESSIONAL.

SENATE.
WASHINGTON, Dec. 11.—In the senate, Mr. Reagan gave notice of several amendments which he proposes to offer to the election bill.
Mr. Chandler, from the committee on naval affairs, reported a bill providing that the reduction of the engineer corps of the navy under the act of August 5, 1882, shall be considered as having ceased on June 30, 1889. Placed on calendar.
Among the bills introduced and referred were the following:
By Mr. Wolcott.—To provide for coinage at the branch mint at Denver.
By Mr. Farwell.—To amend the silver act of the last session.
By Mr. Hawley.—To increase the line of the army and to increase its efficiency.
Mr. Plumb offered a resolution for the senate to meet daily at 10 a. m., with a recess from 1:30 to 3, and asked for its immediate consideration.
Mr. Cockrell—"Let it be printed and lie over."
It was so ordered.

HOUSE.
On motion of Mr. Cain, of Texas, a bill was passed authorizing the Corpus Christi and Padre Island Harbor company to construct a harbor off the shore of Padre Island on the coast of Texas.
On motion of Mr. Henderson, of Illinois, J. W. Hathaway was elected postmaster of the house.
On motion of Mr. Mason, of Illinois, the senate bill was passed for the relief of Daniel Birch, of the United States army.
Mr. Parrett, of Indiana, moved unanimous consent for the consideration of the senate bill for the erection of a monument to Robert Dale Owen in the grounds of the Smithsonian Institute. Mr. Kilgore, of Texas, objected.

ARMY APPROPRIATIONS.
WASHINGTON, Dec. 11.—The house committee on military affairs to-day completed consideration of the army appropriation bill for the next fiscal year. As agreed upon it appropriates \$24,662,029, being \$435,338 more than the appropriation for the current year. The most important matter in which the bill differs from that of the current year is an increase in the appropriation for army transportation of \$25,000.

NEW PUBLIC BUILDINGS.
WASHINGTON, Dec. 11.—The following bills for the erection of public buildings were passed by the house with a limitation cost as stated:
Mankato, Minn., \$50,000; Meridian, Miss., \$50,000; Youngstown, Ohio, \$75,000; Camden, Ark., \$25,000; Sioux Falls, S. D., \$150,000; Stockton, Cal., \$150,000; Beatrice, Neb., \$50,000; Davenport, Iowa, \$150,000; Rock Island, Ill., \$75,000; Pueblo, Colo., \$150,000.

IRRIGATION QUESTION.
WASHINGTON, Dec. 11.—Ex-Congressman and Congressman-Elect O'Neil, of St. Louis, has just returned from a trip to the Zuma copper mine in Arizona, which he describes as one of the richest in the world, requiring nothing but water to operate its smelters, which leads him to remark upon the subject of irrigation in general that it is as much the duty of the general government to reclaim its arid lands as to improve its rivers and harbors, and the land to be sold to settlers for the cost of irrigation. He is opposed to the fostering of private irrigation companies and will take that position on returning to congress next year.

AFTER THE MEXICAN LOTTERIES.
WASHINGTON, Dec. 11.—It is stated at the postoffice department that the mails sent from Mexico into the United States have recently been burdened with the circulars of Mexican lotteries, inclosed in sealed envelopes, the corners of which were clipped and postage thereon at the rate of 1 per cent, which was permissible under the Mexican postal laws. Under the laws of the United States inclosure of such circulars in a sealed envelope would require them to be held for postage and refused admission to the mail as printed matter. The postmaster general has been in correspondence with the director general of posts of Mexico on this subject, and it has been agreed that the lottery circulation referred to shall be no longer carried in the mails or delivered to addresses in this country.

BALLOTING FOR SENATOR.
CHARLESTON, S. C., Dec. 11.—The first ballot for senator in the assembly was as follows: Irby 55, Donaldson 48, Hampton 45, George D. Tillman 1, Hemphill 2, Keith 21; Irby (Farmers' Alliance) lacks 33 votes to elect.

A RAMPANT ELEPHANT.
CINCINNATI, Dec. 11.—In spite of seventeen 45-caliber balls fired into the head of "Chief," the vicious elephant at the zoological gardens last night, the big beast is alive and apparently well this morning. He did not escape, as reported last night, but was cutting such wild antics, such as plunging his tusks into the ground and tearing up the earth and destroying everything within reach, that he was adjudged insane and his keeper tried to kill him. Their efforts served to restore the beast to reason, for he has been unusually docile. The theory is that the bullets flattened on his skull, but did not penetrate.

SANTA FE EARNINGS.
BOSTON, Dec. 11.—The annual report of the Santa Fe road says: The total operated mileage is 7,110; the gross earnings \$31,005,357, increase \$3,431,178. Operating expenses \$20,920,086, increase \$1,119,038. Net earnings \$10,085,271, increase \$3,311,530.

OFFICERS RE-ELECTED.
FORT WORTH, Dec. 11.—The annual meeting of the stock holders of the Fort Worth & Denver railway, part of the Union Pacific system, was held yesterday. All the old directors were re-elected, and they in turn re-elected all the old officers. The gross earnings for the fiscal year, ending October 30, 1890, were \$2,012,519, total expenses \$1,735,468, net surplus \$279,050.

ROUGH ON COAL MINERS.
WILKESBARRE, Pa., Dec. 11.—Owing to the continued quietness in the coal trade and the large stocks on hand, with no immediate prospect of being able to market them, the coal department of the Delaware, Lackawanna & Western yesterday ordered an indefinite closing down of all their mines in this vicinity. The order took effect yesterday. This will throw thousands out of employment at a time of the year when wages are much needed, and will cause much suffering unless a decided change in matters should loom the coal trade.

ENGLISH GOLD.
NEW YORK, Dec. 11.—Over \$3,000,000 in gold will start from Europe this week for New York. The gold will tend very strongly to relieve the money stringency in this country, the extent of which was shown yesterday when the rates of money advanced to 1 1/2 cent on interest for no apparent cause except fear on the part of capitalists. It is stated on Wall street today owing to the extreme case of money in London the Bank of England is willing to lose \$5,000,000 in gold in the settlement of her trade balances, consequently little fear is entertained that the bank's discount rate will be advanced in consequence of these shipments.

HILL WILL ACCEPT.
NEW YORK, Dec. 11.—It is definitely understood now among prominent Democratic politicians, that Governor Hill will accept the United States senatorship succeeding William M. Everts, and that he will not be an aspirant for the presidential nomination before the next Democratic national convention. It is further understood between the Cleveland and Hill managers, that in the event of the former being elected president he will not seek a renomination, but that he will exert all the powers of his command to secure the nomination for Hill. As no bond is given with the agreement to penalize him for violation of the party who violates its provisions, and therefore it is believed that the compact will last only so long as it serves the best political interests of either of the parties directly interested. Mayor Chapin, of Brooklyn, will be nominated to succeed Hill as governor.

WOULD LIKE TO OWN IT.
KANSAS CITY, Dec. 11.—John A. Blair, secretary of the Cherokee Strip Live Stock association and member of the firm of Williamson & Blair, was in the city to-day. He told a reporter that he was about to make an offer for the Cherokee strip. He said:

"I will telegraph Chief Mayes offering him \$20,000,000 for the strip. I offered Chief Mayes \$20,000,000 two years ago, at the time the association renewed its lease for the strip for grazing privileges. The government offers only \$7,000,000, which is only about \$1,225 an acre, while our figure was about \$3.25 an acre. When I was in Washington several years ago I went to the interior department and saw with my own eyes the simple deed, granted December 31, 1838, by President Van Buren to the Cherokees. If we could get the strip for \$20,000,000, we could pay the Indians \$1,000,000 cash down and the remaining \$19,000,000 in three months. We would go to England and bond the land for thirty years' time."

An evening paper quotes section 2103 of the revised statutes, which forbids the Indians disposing of the land to any person, company or corporation without consent of the interior department and the Indian commissioner.

CONDENSED NEWS.

The American Nation bank, Arkansas City, Kas., has closed its doors.

The Central Coal company, Springfield, Ill., has gone into the hands of a receiver.

At Lyndonville, Vt., the thermometer registers 30 degrees below zero.

Bernard Donnelly, a wealthy Kansas City broker, accidentally shot himself. Recovery doubtful.

The ice companies are preparing to cut the winter crop of ice on the Kennebec. The ice is thirty inches thick.

A syndicate is negotiating for the purchase of all the type foundries in the country. They have \$20,000,000 at their command.

Frank W. Gregory, managing editor of the Memphis, Tenn., Evening Democrat, has been indicted by the federal grand jury for violating the lottery law.

D. Egan, an iron worker on the dome of the state house at Topeka, Kas., fell and was killed. He is the ninth victim. He leaves a wife and two children.

Toys, toys, toys, Blain Bros.

Anything and everything cheap, Blain Bros.

Ladies and gentlemen's private dining room up stairs at the Bon Ton restaurant.

Milk 10c a quart; 5c a glass, at Colorado saloon.

THE NEW MEXICAN is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, DECEMBER 11.

This gang is working hard for the removal of Sec. Thomas. Love's labor lost, boys; you might just as well butt your heads against a stone wall; your slanderous and lying paper attacks and your perjured affidavits will not do it.

Law and order will prevail in due course of time, and the rights of citizens will be duly respected, even in Santa Fe county; it is only a question of time, and not of a very long time either; it's coming gradually but surely.

Taxes are not being paid very rapidly in this county; neither are licenses; why should they? Has the county administration during the past two years been such as to inspire people with confidence in the honesty and integrity of the county officials? We think not.

The Democratic bosses in this city, who have no interests here, except to make money out of the tax payers, are afraid, that with incorporation this town will prosper too much and will receive too many accessions to its population, which might endanger the supremacy of the bosses here; hence they are opposed to incorporation.

Mr. CHARLES METCALFE has retired from the control of that staunch and excellent Republican newspaper, the Rio Grande Republican, published at Las Cruces. He has sold out his interest to Mr. J. P. McCrea, who becomes sole owner of the plant and editor of the paper. Mr. Metcalfe finds mining more enticing than journalism, hence the change. Success to him and equal success to his successor and the Rio Grande Republican.

By reaching out after the unknowable and unobtainable, the Farmers' Alliance has already jeopardized much of the good feeling that originally was felt for it by a great many people. Its proposed system of subtreasuries where the government shall loan money on crops and lands can never hope to attain success under our Republican form of government. It is to be regretted that the Alliance should destroy its power for accomplishing needed reforms by going so far as to advocate such impossibilities as above referred to.

Boonism and intimidation are the means by which a capture of the coming legislative assembly is to be effected in accordance with orders from Democratic headquarters at Albuquerque; the game may work and it may not; in the mean time it is safe to remark that this is neither Mississippi or Arkansas.

Large charges for express matter by the Wells-Fargo company in New Mexico and from and to the east to New Mexico are simply outrageous; the company in New Mexico is being managed upon the principle "the public be damned." Have the people any rights whatsoever in such matters? Let's try and find out!

When possibly it is not best that there should ever exist in this county anything in the way of a trust, which depresses trade by paralyzing competition, yet so long as this is the plan adopted by the east, and the law is not "again it," it is a good sign to note that western business men are quite up to the same sort of stuff. A few more such combines as the moving machine trust with a capitalization of \$35,000,000, and the silver-lead smelter trust with \$50,000,000 back of it, will soon bring congress to a full realization that there are breakers ahead for the people which must be provided against.

The fact that 400,000 acres of arid lands have been reclaimed by private enterprise in the Pecos valley of New Mexico at a cost not to exceed \$3 per acre ought to serve as a practical demonstration of what can be done when energy and capital combine and take hold of water enterprises in the valleys of this territory. The circumstance also serves to show the interest the national government has in this matter, for all this is public land that has been thus reclaimed and where it was little less than worthless eighteen months ago its value now that water has been supplied with which to make it productive is certainly not less than \$15 an acre at a very low estimate, and within three years every foot of this land will be paying taxes on a valuation of from \$40 to \$60 per acre. With such stubborn facts as these to contend with no wonder the eastern land owner doesn't care to give the west a chance to get government aid toward reclaiming the arid lands, but on the other hand it aptly illustrates just why congress should be liberal toward the arid land section of the country.

THE BALLOT BOX THIEVES WANT TIME!

What the gang and the ballot box thieves and their legal advisers now want is time, time, time. They propose feeling along till the legislature meets and then will endeavor to organize the council and house regardless of all honesty, justice and fairness; that is the flat that has gone forth from Democratic headquarters and the boys must obey or be read out of the party; the gang and its legal advisers expect that the charges they are preparing against Secretary and Acting Governor Thomas and Judge Seeds will be heard on promptly and that a new secretary and a new judge will be appointed within the coming two weeks; hence time, time, time, is what is wanted and that the gang says it will have; they count a good deal upon the fact that some of the present county officials and peace officers here and in Taos county will aid them secretly in every way in their power; all kinds of dilatory tactics and motions and moves are to be made and time, time, time is to be consumed; that's the situation; they are preparing lots of affidavits charging all manner of wicked, dishonest, revolutionary and criminal acts against Acting Governor Thomas and Judge Seeds and are consuming lots of type-writer paper and work in that line; of course everybody knows how easily they can get affidavits; they are fortunate in having lots of hangers on who for \$5 will swear that the moon is made of green cheese or anything else that suits the bosses. In the meantime the good and honest citizens all over New Mexico and regardless of party, are watching the outrageous, law-defying and dishonest game these bosses here are playing and are wondering how long it will last?

THE LEGISLATION THEY WANT.

Another Voice Against the Fee System.

The 29th legislative assembly will confer a favor upon the tax payers of New Mexico by abolishing the present fee system for county officials and supply the same by a reasonable fixed salary system.—Chloride Black Range.

The Australian Ballot System.

The Australian ballot system, reinforced by the most stringent provisions against bribery in elections, should be among the early enactments of the coming legislature. We can not suggest anything of more importance to the territory in general for that body of law-makers to work on.—Folsom Metropolitan.

The Exemption Law to Be Repealed.

The press of New Mexico is unanimously in favor of the Stock Grower's motion that the present \$300 taxation exemption law be repealed. It is unjust that a single dollar's worth of property should escape its share of taxation, and if the legislators will heed the demands of the people the obnoxious law will be promptly repealed. No patriotic citizen can consistently uphold the law.—Las Vegas Stock Grower.

Abolish the Fee System.

From the unmistakable utterances of the papers throughout the territory, regardless of politics, it would seem as though the pernicious fee system at present in vogue will be continued only until the legislature can get together and abolish it. For rank robbery the fee system leads them all, and the sooner it is done away with the sooner will the territory be on a sound financial basis, for the difference in salary and fees would wipe out every county debt in ten years.—Silver City Enterprise.

The Repeal of the Tax Exemption Law.

The press of the territory is making a strong demand for the repeal of the tax exemption clause. Whether the law is wise or otherwise it will hardly be repealed. The class who are benefited by it honestly and those who use it dishonestly to escape the burdens of taxation are too numerous, and too important at elections to be deprived of their special privileges. The average legislator, having future political preferment in view, will hesitate about depriving them of it.—San Marcial Reporter.

Down With the Fee System.

One of the things our coming legislature should attend to is the fee question, and this whether it be Democratic or Republican. Take the county assessor's office; he receives a per cent on the taxes. It is safe to say the assessor's office in this, Socorro county, is the poorest managed office in this county, and yet it is the second best paying office in the county. Let the legislature overhaul these offices, pay reasonable salaries, and compel first-class work, and then, and not until then, will we get work done as it should be. Let the legislature by all means overhaul the county offices and do away with this fee system.—Socorro Chieftain.

The New Mexican has facilities for doing first-class job work of all kinds and as cheap as can be had in any city in the country. There is no excuse for sending such work out of town, to Denver, Kansas City, Philadelphia or any other point. Keep the money at home.

WHAT YOU FEEL Tired—Do you know what it means? You are nervous—Why? You cough in the morning—Do you realize the cause? Your appetite is poor—What makes it so? You seem like a changed person to your friends—Do you know what is the matter, or has the change been so gradual it has escaped your notice?

You have Consumption!

We do not say this to frighten you, but it is true. These are the sure symptoms of this terrible disease. There is one thing which will check it and that is

THE MAXWELL LAND GRANT Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hill FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land in sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

IN THE COURTS.

The Garcia Case Under Argument All Day. The U. S. Cases to Come Up Tomorrow.

Arguments in the case of County Clerk Garcia were still in progress before Judge Seals at 3 o'clock this afternoon. The counsel for Garcia came in with an amended answer this morning, contending that the clerk was not compelled to co-operate with Commissioners North and Grace because they were not properly officials of the county, the governor having had no authority to appoint them.

Lawyer Knebel moved the court that the answer be overruled and judgment rendered against Garcia, and on this basis the arguments began. Counsel for the clerk had a great raft of law books on hand and quoted liberally from them, whereupon Mr. Knebel thanked opposing counsel and called attention of the court as to how the citations made by them served to strengthen his case, and how kind it was of the opposing counsel to save him work by bringing into court the very books he desired. The court's decision is expected to be announced late this afternoon.

THE U. S. CASES.

County commissioner Soan and ex-Commissioner Martinez, charged with violation of section 5515, U. S. Revised statutes, growing out of the elections cases, appeared before U. S. Commissioner Max, Frost at the federal court room at 11 o'clock this morning, and again asked a postponement of their hearing which was granted. They stated that their attorneys had not yet had time to prepare the pleadings for them and asked until 10 o'clock tomorrow for this purpose. Accordingly the cases were set for hearing at this hour tomorrow forenoon.

THE JICARILLAS AND UTE.

The Former Dance and the Latter Talk Sense—Prof. Chase's Experience on the Amargo Reservation.

Prof. Elmore Chase of Ramona Indian school returned last night from a ten day's trip to the Jicarilla Apache reservation at Amargo. A few days after his arrival there word came into the agency that the Indians were preparing for a dance, and meeting several of the head men, Prof. Chase questioned them as to the significance of their proposed orgies. They would not give him frank replies, but stated that two men had died of small pox on the reserve and this dance was in the nature of an appeal to the Great Father to drive the disease from their midst. The professor requested that he might be allowed to attend their dance, but they would not hear to it, saying no man, save an Indian could witness it, not even the agent. The Indians danced for four days and four nights, in a valley some fifteen miles from the agency. Prof. Chase learned that two of the tribe had been absent on a long journey and this dance following so quickly upon their return leads to the opinion that they have heard something of the Messiah craze. In fact, Prof. Chase thinks from what he could gather that the Indians, while taking little stock in the Messiah craze, feel at the same time that they had best be on the safe side if he is really coming, and as they have quietly held their dance and got through with it.

On Saturday last a great crowd of Indians were in Amargo attending a horse race and many Indians were drinking in Archuleta's saloon when a drunken American, a sort of a rascal, took a chair and tried to drive the Indians from the saloon. In retaliation that followed an influential Indian was struck on the head by Brown and died instantly. This made the Indians fighting mad, and in an hour there were eighty Apaches in town and excitement ran high. Everybody expected an outbreak to the extent that Brown would be killed out of revenge, but Agent Bartholomew handled the matter prudently. He had the man arrested by the Indian police and persuaded them to turn him over to the civil authorities. Brown was brought over to Amargo yesterday, some twenty Indians coming along with the deputy sheriff in charge to see to it that he was really committed to jail.

As to the Southern Utes, Prof. Chase says they are not having any dances and really ridicule the Messiah idea. They say they can understand how a man dying on this earth may reasonably expect something better beyond, but once there they do not think he would ever try to come back, even to tackle so large a job as exterminating the white man and converting them into buffaloes for the needs of the noble red man.

ROUND ABOUT TOWNS.

The secretary of the Bureau of Immigration has arranged with Dr. Andrews to secure twenty-five pounds of the Imperial sugar beet raised by the doctor, and the same will be sent to Claus Spreckles, the great beet-sugar king, to be analyzed. It is thought that it can be demonstrated pretty clearly that beet sugar can be produced in New Mexico, owing to the large percentage of saccharine matter secured here, cheaper than in any other section of the United States.

An immense stock of useful and beautiful articles for the Christmas holidays is being placed on exhibition at the establishment of Messrs. Grunsfeld, Lindheim & Co. Mr. Lindheim, who is thoroughly familiar with the growing demands of Santa Feans, has been several weeks selecting these goods, and the assortment does credit to his judgment. Prices are reasonably low, and it will pay you to inspect this stock.

Prof. Cart of the government Indian school is now engaged in getting up his estimates for public funds required to carry out the plans of the Indian office at this institution during the next fiscal year. Commissioner Morgan has promised many good things for the school, and extensive improvements are to be made.

Reports from along the upper Rio Grande valley, above Espanola, say that comparatively little snow has thus far fallen in that locality, and even in southern Colorado the snow is light, as compared with the amount that now covers the mountains in Santa Fe's spur of the Rockies.

Something is going on in relation to providing Santa Fe with three miles of street railway at an early day. Particulars later.

The monthly meeting of the Building & Loan association takes place to-night. There are some \$2,000 in the treasury to be loaned.

Never mind the weather, so the dance goes on. Take in the Athletic club's hop at Gray's hall to-night and have a jolly time.

Staying in the mountains again this afternoon.

Athletic club hop to-night.

PERSONAL.

Mr. F. W. Clancy returned from Albuquerque last night.

Frank C. Chavez, one of Rio Arriba's brightest young business men, is in the city today and paid the New Mexican a substantial call.

Ex-Secretary C. W. Lane and wife are here from Las Vegas and leave tomorrow via Denver for Washington city, where they will spend the holidays with friends. Bon voyage.

At the Palace: O. W. Alexander, Cerrillos; E. J. Linn, Denver; John Z. Roraback and wife, Miss Carrie Sawyer, Kansas City; C. A. Robson, Baltimore; E. D. Allen, Lawrence, Kas.; Miss Attwood, Miss Spooner, Philadelphia; H. C. Williams, Pinos Wells.

A MOUNTAIN MYSTERY.

A Young Englishman Barefooted and Speechless Brought in from Pinos Wells.

A young man, apparently an Englishman, light hair, blue eyes, smooth shaven, 25 years of age, was found near Pinos Wells early yesterday morning in a high demented condition. He was brought into town to-day by Messrs. Andrews and Barnett, of Bonanza, and placed in the St. Vincent's hospital. He is speechless, yet writes well and is now more quiet than when first discovered. He declines to give his name, but by writing communicates the information that he left Albuquerque four days ago and became speechless since that time. The unfortunate was barefooted when found and his feet are so swollen from his rough walk that he can not now stand upon them. As yet there is great mystery attending the affair.

Annual Meeting—Notice.

The regular annual meeting of the stockholders of the First National bank of Santa Fe, N. M., for the election of the board of directors for the ensuing year will be held at its banking house in the city of Santa Fe, on Tuesday the 13th day of January, 1891, between the hours of 10 a. m. and 4 p. m.

(Signed) PEDRO PEREA, President.
Santa Fe, N. M., December 11, 1890.

A Farmer's Say.

J. P. Hite, who runs a vegetable farm up in the Chama valley, twelve miles above Abiquiu, is in the city shopping today, and he brings in a few samples of his products "just to show it can be done." Mr. Hite has farmed in Illinois, Iowa, Kansas, Colorado and New Mexico, and he says this territory takes the ribbon over all of them, both for productiveness and paying markets. His business is chiefly with the several mining camps in Rio Arriba county. The other day he had an order for 750 pounds of turnips and it took just ten of his turnips to fill the bill, they weighing ten pounds each. His beets run from six to nine pounds apiece, and his cabbage run from twenty-two to twenty-five pounds each. Small grains of all kinds also do better here, as a rule, than in any other section of the west.

TERRITORIAL TIPS.

Rumors are rife as to the finding of a very rich mine on the Mesquero Indian reservation. It is said Las Cruces parties have been working the mine "on the sly" and making it pay handsomely.

Communications were filed with the city council at Albuquerque from Bigsby Bros., Fort Worth, Texas, relative to establishing a woolen factory, and asking if the city would donate fifty acres of land near by for such purpose.

The Las Vegas grant, by decree of the district court, is to be sold for \$18,000 de linqunt taxes. It is thought this sale will serve to aid in clearing up the complications now surrounding the title.

The Raton Range thinks a wool-scouring plant ought to be located in that town. Don't think of such a thing. Scouring works in the far west have never paid and we doubt if they ever will.—Denver Field and Farm. Practical men who have figured on the scheme assure us that there is sufficient wool produced within reach of Raton to pay well for scouring here. Their figures show that the saving in freight on scoured wool over wool in its natural unwashed condition would return a handsome profit.—Range.

The crying need of Springer now is a new and larger school building. The enumeration of school children just taken shows almost 200 in number. The teacher reports an average attendance of over 70. The present school house is not of sufficient capacity for over 40. The consequence is, that over one-half the children are deprived of the privilege of attending school, and those who do attend are crowded into space too small by half.—Stockman.

Deputy Sheriff Russell Monday morning brought in Frank Vance and J. B. Daguerre, charged with the theft of the larceny of 800 sheep belonging to J. B. Dawson and son, and that of assault with intent to kill while perpetrating the larceny. They were given a hearing before Justice Bayne and held in \$2,000 bail on each charge; in default of which they were sent to jail.—Raton Reporter.

The Herald: Roswell has the champion of the territory in each of the following sports: The champion foot runner, the champion rifle shot, and the champion boxer, according to Queensberry rules, and a man that will lay himself down on the flat of his back challenge the territory for a man that can hold him there. We challenge the territory to a contest in any of the above sports.

The best job work for many a hundred miles done right here at the New Mexican printing office; brief work, record work, all kinds of printing, binding, book work and the like is to be had here at the lowest possible prices and in first-class shape; patronize home industry and do not send your job work to St. Louis and Chicago. Keep it here and help yourself and the town along.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

Educational Association.

The approaching meeting of the Territorial Educational association, which will be held in Albuquerque December 29 and 30, will be one of more than ordinary importance.

Prof. Hiram Hadley, president of the association, says he is too busy to write many letters, and he asks the New Mexican to aid him in extending a cordial and pressing invitation to all friends of education to attend that meeting. Every live county superintendent will be there. The best teachers will be there, and nearly all the strong workers will be there.

Will not the local press throughout the territory bring this meeting to the notice of its readers?

THE DEMOCRATIC PROGRAM.

Some Schemes of the Bosses Laid Bare for the Benefit of the People.

Special correspondence of the New Mexican.

ALBUQUERQUE, N. M., Dec. 10.—The Democratic bosses have consulted with the chairman of the Democratic central committee, W. B. Childers, and orders have been issued to whip everybody into line and attempt the organization of the coming legislature regardless of all consequences. The contests initiated in Rio Arriba county against Jaramillo, member elect of the council, and Read, member elect of the house on the Republican ticket, were simply put in for a blind and in order to have something to go on; the Democratic executive committee here know well that these two men were honestly elected, but if they succeed in organizing the legislature, Jaramillo and Read are to be fired out "instantly." Frank Perea here is to be used to clear out McQuade, Chavez, although the latter's majority is very large; Gable and Paisley, of Santa Fe county are to come in and help organize; the former is all right for them, and the latter is being worked on with might and main.

I learn from a trustworthy source that I have a trustworthy source that Romulo Martinez and Chairman Childers had quite a worry set to here lately; the latter insisted that Martinez ought to go in and help organize; the former said: "I failed to receive a majority of the votes and I do not think I ought to." The story then goes that Chairman Childers insisted that Martinez should go in and go in nevertheless; the party demanded it and so on and so forth. Then and there Martinez, I am told, did not give in; but Chairman Childers instructed the Santa Fe local bosses to work him, and it is believed down here that Martinez will succumb and go in.

The Democratic leaders and executive committee here express great contempt for the territorial officials and Judge Seeds and seem not to care; they say that they have the Santa Fe county officials with them, and that they will have a sufficient force here to overawe the secretary, the governor and the court, and do pretty much as they please. They count considerably upon the co-operation of the officials of your county. Ancheta is to be kicked out of the first minute; and Chavez, Stover and Perea are to be made fun of and used as a foot stool whenever convenient.

The executive committee here, I hear, is helping your Democratic leaders in the preparation of charges against Secretary Thomas and Judge Seeds, and the whole power and influence of the united Democratic leaders all over the territory is to be used to get them out, especially Secretary Thomas, before the last Monday in this month.

If the Democratic leaders here carry out their plan of organizing they want to send Judge Lee up to your district; they claim they can do a good deal with him, but nevertheless, privately they cause him and want to get rid of him; they have spread the report that they have a great influence with him, but that is for their own purposes, but nevertheless, if they can give him a lick they will do it.

They expect to organize and say they will not be fooled as they were once or twice before. It behooves you Santa Fe people to be on the look out; you have unscrupulous men to deal with.

If Your House is on Fire
You put water on the burning timbers, not on the smoke. And if you have caught you should attack the disease in the blood, not in your nose. Remove the impure cause, and the local effect subsides. To do this, take Hood's Sarsaparilla, the great blood purifier, which radically and permanently cures catarrh. It also strengthens the nerves. Be sure to get only Hood's Sarsaparilla.
