## BARNES OVERRULED IN CONFERENCE OF NEW YORK REPUBLICANS

Grand Old Party Goes on Record for Nominations, by Direct Primaries, of All Candidates.

HENRY L. STIMSON  
LEADER OF RADICALS

Progressives Are Invited to Quit Foolishness and Return to Former Political Affiliations.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

New York, Dec. 5.—The radicals ruled the republican state conference this afternoon and forced the approval of a direct, state-wide primary law. State Chairman William Barnes, Jr.'s motion to reaffirm the more conservative primary plank in the last republican platform, was defeated by a vote of 125 to 115.

The radicals, led by Henry L. Stimson, former secretary of war, split with Mr. Barnes and his followers over the question of retaining party conventions. The state chairman's proposition was that the conference favor the direct nomination of candidates by the voters, who should have the right also to express direct preference for nominations for state officers if they so desired.

This did not suit Mr. Stimson and his friends, and after a long debate they carried a small minority of the delegates to the conference. The resolution adopted, declared that all candidates should stand on an equal footing. It opposed the use of party emblems on the general election ballot and the factional column on the primary ballot. At the same time it expressed belief in party organization and reiterated the doctrine of former Governor Hughes that the direct primary should be an adjunct to and a check upon rather than a substitute for the deliberative and deliberative of the party's representatives.

The conference was recommended by the state committee to recommend legislation to the republican members of the state assembly which was returned to republican control in the last election.

Since nearly all the republican assembly members participated in the conference, its recommendations were considered binding and were accepted as the program of the assembly majority at the next regular session.

The meeting recommended the adoption of a vigorous compulsory workmen's compensation law, reform of the rules of the assembly and the amendment of the state constitution to take all state officers, except those of governor and lieutenant governor, out of the elective and empower the governor to fill them by appointment.

A motion to include judges of the court of appeals among the officers to be appointed by the governor, was defeated.

Reference to the progressives who had left the party was made by Job E. Hodges, former candidate for governor, who said:

"Let's tell them to come on back and stop their nonsense and let's get busy."

NATIONAL LEADERS FOR  
REPUBLICAN REORGANIZATION

Washington, Dec. 5.—The issue of direct presidential primaries, brought into public discussion by President Wilson's message, promises to be an important factor in deliberations of the republican national committee here December 15. Many believe congress may provide primaries that will do away with the need of any nominating conventions before the next presidential election.

It was pointed out today that if a direct primary law were passed before the 1916 elections the need for a change of republican representation would disappear.

Senator Jones, a member of the law committee, returned to Washington today and said plans were going forward for a national convention.

"I am in favor of some form of a direct primary," he said, "one plan that appears to be sound would provide for direct primaries in the states, with national conventions in which delegates would sit in proportion to the vote in the states. Each state would apportion its delegates according to the strength of the respective party candidates, and the national convention would make the final choice."

Senator Cummins, one of the most active advocates of rules revision and chairman of the constitution committee, appointed in Chicago last spring, declared today that decision for the presidential primaries should not interfere with the holding of a special convention.

"I am strongly in favor of direct primaries," he said, "but there is no assurance that the direct primary law will not be passed, or at least that it will not be long delayed. It is our duty to go ahead with the convention plans we have outlined and complete the reformation of republican rules that will make the party machinery thoroughly responsive to the will of the voters."

REPUBLICAN CONVENTION  
NECESSARY TO CHANGE RULES

Detroit, Mich., Dec. 5.—The republican national committee has no authority to change the basis of representation and voting in national conventions.

The national committee has authority to change the manner and method

of choosing delegates to future national conventions so as to provide that delegates be chosen in such manner as the laws of the several states from time to time may provide. Delegates shall be chosen according to the laws of the state they represent instead of according to the discretion of the committee itself.

The national committee has the authority to call a special national convention of the party, the legal form of which shall be provided by the legal committee.

These conclusions are reached in an opinion made public here today by Charles B. Warren, of Detroit, chairman of the legal committee, appointed by the executive committee of the republican national committee.

The executive committee in Washington, May 24, last, adopted a resolution requesting the chairman to call a meeting of the national committee, to be held within sixty days after the expiration of the special session of congress convened in March, 1912. The national committee will consider among other things proposed plans for party reorganization. The legal committee was named to make a detailed examination of the questions that would arise. Mr. Warren, who wrote the opinion now submitted is a new member of the national committee. He was one of the lawyers for the United States in the arbitration with Great Britain before The Hague tribunal of the North Atlantic fisheries controversy. The opinion is concurred in by the other members of the legal committee, who are: United States Senator Wesley L. Jones, of Washington; Representative James B. Mann, Illinois; James A. Fowler, of Tennessee; former assistant attorney general, William Marshall Mullitt, of New York; former solicitor general, Roy O. West, of Illinois; and Sherman Granger, of Ohio.

## WOMEN ARGUE FOR EQUAL SUFFRAGE COMMITTEE

Arguments By Advocates of Votes for Fair Sex Answer Speeches of Opponents of Previous Day.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Dec. 5.—Hearings before the house committee on rules relating to the proposed creation of a standing committee on equal suffrage closed here today. The last hours of the hearings were occupied by champions of the suffrage movement directed by Catherine Waugh McCullough of Chicago. They answered those opposed to equal suffrage, who had argued against any federal recognition of the suffrage question. No action on the resolution, which would provide for a house equal suffrage committee, was taken, but it was reported that many members of the rules committee were seriously considering the question of authority to the present standing committee on election of president and vice president to consider woman's enfranchisement.

James S. Laidlaw, New York president of the National League for Woman Suffrage, read a letter from Senator Works of California, denying he had ever said woman suffrage in California had been a failure. It was argued by anti-suffragists yesterday that Senator Works had said such a thing. Senator Works said tonight he had criticized California women "for not getting out their full voting strength, just as the men voters often failed to do," but had not said the suffrage movement was a failure.

Representative Mondell of Wyoming closed the argument for the suffragists, declaring that in all the years women of his state have had the ballot, he had never heard of a case of domestic trouble caused by political differences between husband and wife.

CLASSIFICATIONS  
COMMITTEE NAMED

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Chicago, Dec. 5.—A permanent committee of three to replace the western classification committee of the fifty-two railroads west of Chicago, was determined today by the executive board of the committee today.

H. C. Bush, formerly traffic manager of the Colorado Midland railway; W. E. Prendergast, general freight agent of the Chicago, Milwaukee & St. Paul railway; and J. C. Taylor, of the Chicago & North Western railway, will compose the new board.

The three will hold continuous sessions, making occasional trips for hearings at points in the western territory.

It was said that the reorganization of the committee would do away with the delays which resulted when only two meetings a year were held by the whole committee.

BIBLES PRINTED BY  
MILLIONS LAST YEAR

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Toronto, Ont., Dec. 5.—Twenty-eight million copies of the Bible and books containing portions of the Holy Scriptures were printed during the last year, according to a report compiled here for publication "on Bible Sunday," December 7. Private publishers issued 10,000,000 copies of the Bible, the 28,000,000 copies distributed last year, about half were printed in English. The rest covered 50 different languages.

English Railroad Strike Ends.

London, Dec. 5.—The strike of 1,200 men of the Great Western railway, which has tied up traffic since Wednesday, was settled today at a conference of the men with the representatives of the board of trade.

## BELIEF GROWS THAT RAFAEL LOPEZ HAS ESCAPED FROM MINE

Search Fails to Locate Body of Desperado If He Has Perished From Suffocation by Poisonous Gases.

ALL EXITS CAREFULLY  
GUARDED BY OFFICERS

Thousand Dollars Offered That Murderer Would Be Found Under Ground Is Hastily Withdrawn.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Bingham, Utah, Dec. 5.—After searching a third of the Utah-Apex mine, the posse which penetrated the stronghold of Rafael Lopez, slayer of six men, came out tonight and announced to the thousands of expectant miners that they had found nothing to indicate the crafty desperado was dead.

The places where his body must likely would have been were carefully gone over. The Andy tunnel and Andy incline, in which the battle that cost the lives of two deputies Saturday was fought, the Parnell tunnel, where Lopez called through the bulkhead Monday for his friend, Julio Corrallo, and other parts of the workings were penetrated without result.

Tonight the belief grew that once again the sheriffs of nine Utah counties and their hundreds of deputies had been outwitted by the man who several times since the pursuit began on November 21, has risked capture in order to keep at large. A purse of \$1,000 which was offered today at odds of 1 to 5, that Lopez would be found either dead or alive in the mine, was quickly recalled tonight.

The smelter that had generated deadly gases since Monday were allowed to die down last night, and early today the double bulkheads in the tunnel mouths were removed. Driven by a strong draft, the smoke and fumes belched forth from the exits like a volcano, so that enough pure air had entered for the deputies to begin search this afternoon.

Dr. F. E. Straup, mayor-elect of Bingham, led a party of ten into the mine. At the spot where the fighting occurred Saturday the rifle of Deputy Hulsey, who was killed, was found. In a blind spot on the 300-foot level, a cave-in was discovered, which completely blocked the entrance. It was thought that within the cave Lopez may have taken refuge from the approach of the poisonous gases. A guard was left watching it tonight and it will be opened tomorrow.

A few charges of dynamite placed in the walls would have caused the cave-in, but miners who saw it were inclined to believe it was a natural fall of rock and earth and that Lopez had not sealed himself up in the mine.

Late tonight the search was discontinued until tomorrow. Deputies have been stationed by those parts already gone over by the searchers.

That Lopez, after Saturday's battle, might have made his way to the lower level and escaped from the mine, was a possibility which was considered. However, the sheriffs were still hopeful of finding the desperado's body tomorrow.

MEXICAN PAPER  
PUBLISHES PURE  
FAKE STORY

San Luis Potosi Editor Gives Readers What Purports to Be Declaration of War by President Wilson.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Mexico City, Dec. 6.—El Adelante, of San Luis Potosi, which has been noted as a journal of strong anti-American sentiment, prints today what purports to be a declaration of war by President Wilson against Mexico. The fact that the sanction of the American congress would be necessary for such a declaration is omitted by the newspaper.

Instead of being a rabid document and likely to stir up anti-American feeling, the declaration of war is remarkable because it does not attribute to President Wilson statements that might be calculated to increase the antagonism of Mexicans towards Americans. It consists of ten articles, which give the reasons why war is necessary, general instructions regarding a blockade and an outline of the proposed campaign. It specifically instructs the American troops against the needless shedding of blood and orders them to protect non-combatants, especially women and children.

The "declaration" states that intervention is undertaken to bring peace among bands "which are ferociously contending without respecting those principles of humanity which govern modern warfare, and in order to deliver the presidency to him who shall be legally elected by Mexicans."

Roosevelt Leaves for Paraguay.

Buenos Ayres, Dec. 5.—Col. Theodore Roosevelt left here today for Paraguay.

## ACQUITTED ON CHARGE OF MURDERING MOTHER

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Clifton, Mo., Dec. 5.—Thilo O. Puckett, who had been on trial here since Monday, charged with the murder in the night and finding his house aflame and seeing a woman leaving the house hurriedly, had fired at her not knowing the woman was his mother. The state charged that Puckett deliberately murdered his mother after he had quarreled with her because she failed to keep an 80-acre farm as he had decided to him.

NO INSURANCE AGAINST  
LACK OF EMPLOYMENT

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Berlin, Dec. 5.—It is impossible at present to provide against unemployment in the German system of national insurance against old age, sickness and infirmity, according to Clemens De Bruick, minister of the interior in the Reichstag, in an interpolation by the socialist in the imperial parliament today the minister admitted that it would be most desirable to extend the scheme to include insurance against unemployment, but that the difficulties were almost insuperable and the financial burden very great.

## OVER FIFTY DEATHS AND MILLIONS OF PROPERTY LOSS

Flood in Central Texas Takes Heavy Toll and Fear Is Felt for Lives of Hundreds of Marooned People.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Evans, Tex., Dec. 5.—A death toll of more than fifty persons, and possibly a thousand others, marooned and suffering from prolonged hunger and cold, was indicated by tonight's reports from the flooded Brazos river bottoms in this section of south central Texas. For over fifty miles, the Brazos was three to five miles wide and running with mill race speed. Scores of flood refugees are believed to be in peril.

The known dead in Texas floods numbered thirty-three before reports from the inundated territory in this district began coming in late today. The late reports were brought by men on horseback and indicated at least twenty more persons had been drowned. About two-thirds of the dead were marooned in the flood.

The couriers' reports indicated that the property loss would total four or five million dollars when losses along the Brazos are added to the already heavy damage in other portions of the state.

Mr. Martin, vice president and general manager of the International & Great Northern railroad, was drowned at Valley Junction, near here today while attempting to rescue marooned flood victims.

Mr. Martin crossed Valley Junction where the confluence of the Little and Big Brazos rivers made a swirling lake, six miles across, to direct personal relief forces. He was attempting to navigate a boat alone when the frail craft was upset. His body had not been recovered late tonight.

Six members of the life saving crew stationed at Galveston and a train load of motor boats from Houston, which started for Bryan late today, were stopped by high water at Navarro. The boats were launched at that point shortly before dark and started on stream tonight over the flooded bottom to rescue persons reported clinging to trees, house tops or occasionally standing in the water, cut off from shore. Bryan had twenty boats out all day, which brought to high ground several hundred persons, the majority terrified and half-drowned.

A train load of provisions and blankets was sent from here tonight to Kosarok on the edge of the bottom where 100 of the refugees were stranded. Throughout the bottoms, even where the water did not endanger life, it ruined provisions in stores, destroying the food supply.

Anxiety was felt tonight for scores of negroes whom boat men reported clinging to trees. These negroes, wet, chilled and hungry, already had been in the trees for twenty-four hours. Late tonight, eight miles from Bryan, Michael Corrallo, an Italian, was heard calling for help from his half-submerged cabin. This morning the cabin had disappeared, as had Corrallo, his wife and several children.

Several planters in the bottoms have sent out their wives and children, but remained behind themselves, hoping by improvising platforms to save their stock. Anxiety is felt for their safety.

Mudvile, a hamlet near Brownsville, was flooded from a depth of from ten to twenty feet. No deaths were reported from there.

San Antonio today reported its first flood death, when John Gonshe, a farmer, was drowned in the Leon river. At High Bank, it was learned that six negroes lost their lives instead of two, as formerly reported when the rise struck there Wednesday night.

At Hearne only seven boats were available to enter the miles of land flooded by the Brazos. The marooned number several white people and numerous negroes. Tonight two of the boats had been swamped. The fate of their occupants was not known. Reports from the Colorado river were meager. Elsewhere throughout Texas immediate danger seemed past, although Waco faced a serious cleaning-up problem. Thousands of convicts of the state prison farms, south of Houston, were being moved to high land tonight. Heavy losses of cut sugar cane on these farms was expected. One drowning was reported tonight at Bastrop, a north Texas town.

## NEARLY THREE FEET OF SNOW COVERS QUEEN CITY OF ROCKIES

Coal Shortage Exists in Denver and One Hotel and Several Office Buildings Are Compelled to Close.

PRACTICAL MARTIAL  
LAW IS DECLARED

Police Take Entire Charge of Traffic on Streets and Will Permit Only Trolley Cars and Necessary Wagons to Move.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Denver, Dec. 5.—A cold night, the severe snow storm, which had completely tied up all forms of business in Denver and central Colorado came to an end, according to the Denver office of the government weather bureau, and today, clear weather was forecast for the remainder of the night and tomorrow. With the freezing weather came grave anxiety as to the maintenance of the slender telegraph and telephone communications which, alone, have saved Denver from absolute isolation from the rest of the world for the last twenty-four hours. Wires are heavily laden with wet snow, and a freeze, according to telegraph companies would cause many of the wires to break under their heavy burden.

The total amount of snowfall during the storm was given, officially at 45.5 inches, or 2.55 inches precipitation. The snow has begun to pack, and tonight the government bureau estimated 22.6 inches was the depth of the snow, which actually covered the entire city of Denver. The fall of snow within the last twenty-four hours was 16.5 inches; 1.5 inch precipitation.

Reports to the government bureau show that it still is raining in southeastern Colorado, raining in eastern Colorado, Iowa, Nebraska and Missouri, and that with the exception of light falls in Wyoming, the storm practically was confined to Colorado. One of the gravest hardships accompanying the storm was the extreme shortage of coal which became evident today. One of the largest hotels in Denver was forced to close today. Office buildings have been closed, and the city is practically a ghost town.

The city and the Denver City Tramway company today succeeded in clearing the snow from one track of its double track line on Fifteenth street, the "trunk line" street of the city, and to tomorrow it is expected that a few cars can be run a short distance from the heart of the city and that Sixth street will be in operation, with the possible addition of limited car service on one or two cross lines.

On either side of the car tracks the snow is piled four or five feet deep, effectively blocking all traffic and leaving only the car line as a pathway. The police, with its necessary force of special officers, will conduct the traffic along this pathway, permitting no vehicles to pass save the street cars, coal wagons, milk wagons, and trucks of provisions.

So heavy has the snow become on roofs of buildings, tall and small, that many are put to work shoveling it to the ground below, and this has become a momentary menace to pedestrians, who have been cautioned to keep away from buildings. Police were using utmost vigilance to prevent accidents from necessary clearance of the roofs.

Railway traffic to and from Denver remained at a standstill tonight. The blockades on tracks are at points within a radius of 100 miles of Denver, but so great was the fall of snow and it was of such a heavy nature, that the powerful rotary plows sent to remove the drifts and slides, have been able to make little progress. It is believed that a few trains may be moved on most of the lines tomorrow.

Boulder, Colo., reports a total fall of forty inches of snow throughout Boulder county. Tonight it was reported that the Jintown stage driver, with one passenger in his coach, had been lost in the mountains.

At Cripple Creek all business was suspended, including work in the gold mines. A train has moved at Cripple Creek within twenty-four hours. The passenger train which left Cripple Creek over the Colorado Springs & Cripple Creek "short line" was snow-bound at Summit, one of the highest mountain points in the state. Five rotary plows engines later, but so great was the fall of snow, since morning to reach the snow-bound passengers. The train is well provisioned.

FEAR FOR LIVES OF YOUNG  
MEN CAUGHT IN STORM

Colorado Springs, Colo., Dec. 5.—Caught in a heavy snow storm yesterday near the summit of Cheyenne mountain, six miles south of this city, Frank and Lester Lou, aged 26 and 28, respectively, both of Colorado Springs, are thought to have perished in the terrific blizzard which has raged since. Rescue parties are being organized and sent out, but despite the fact that every man is equipped with snowshoes, it is doubtful if anyone can ascend the mountain until the storm abates. The men went up Cheyenne mountain early Wednesday morning on a hunting trip, expecting to return that night. When they failed to return at the expected time, friends merely thought they had de-

cided to remain over night. However, when they were still missing today, grave fears for their safety were felt. Little shelter is afforded on Cheyenne mountain and as the blizzard of the storm was felt in that vicinity, little hope is held out for the safety of the hunters.

Almost completely buried with snow and unknown, Dr. F. S. McMay, aged 60, a pioneer of Colorado, was found late this afternoon on the lower slopes of Cheyenne mountain by several workmen ascending the mountain to repair a water supply intake. McMay was rushed to a Colorado Springs hospital, where his condition is considered serious. The aged man was attempting to ascend to his cabin on Cheyenne mountain. It is believed, when he became exhausted and toppled over into a snowdrift, snow, long he remained there is not known, although he was suffering intensely from exposure.

With a sixty-mile gale sweeping this city, the heavy snow storm of yesterday has turned into one of the worst blizzards ever experienced in Colorado Springs. Telegraph and telephone wires are expected to go down momentarily, when the city will be completely isolated from the world, there having been no train service since early this morning. Thirty inches of snow have fallen during the last thirty hours and the storm is still raging. Heavy winds have piled the snow into drifts from six to eight feet deep, making traffic of any description impossible. Hundreds are marooned in the downtown districts, unable to reach their homes. At noon a part of one street car line was opened, but it is doubtful if traffic can be continued much longer, the snow drifting faster than plows can keep it off the tracks.

STRIKING MINERS ARE  
THREATENED BY BLIZZARD

Trinidad, Colo., Dec. 5.—Between three and four thousand people, striking coal miners, their wives and children, are tonight stranded in tents in the colonies throughout the southern Colorado strike zone, completely cut off from the outside world by the worst December blizzard in the history of the section. Fanned by a high wind, the snow is drifting bodily. The roads are completely blocked. With only limited supplies of food and fuel in the tent colonies, the situation is regarded as extremely serious. The storm shows tonight no signs of abatement.

A union headquarters it is stated that every effort is being put forth to get supplies to the strikers.

LEADVILLE CUT OFF FROM  
OUTSIDE WORLD BY SNOW

Leadville, Dec. 5.—This city has been cut off from the outside world for nearly twenty-four hours. No trains have reached here on either the Rio Grande or Colorado Midland. No attempt is being made to move trains on the Colorado Midland. The snow has fallen in great drifts, the high wind which prevailed drifted the snow and caused considerable inconvenience to local traffic. The mines are not seriously affected, although the branch railway line leading to the mines are temporarily blocked.

SNOWSTORM CEASES AND  
PUEBLO IS RECOVERING

Pueblo, Colo., Dec. 5.—While other sections of the state were still suffering today from the effects of the heavy snow, Pueblo was rapidly recovering. A light flurry of snow fell during the morning hours, but the day was warm and the heavy snow which fell yesterday melted rapidly.

There was little damage done. Street car traffic was resumed on regular schedule, the cars having been run at half intervals all last night to keep the tracks open.

## WOMEN CONVICTED OF RIDING ONE OF SEX ON RAIL

Five Gray-Haired Mothers, Who Wreaked Vengeance on Indiscreet Neighbor, Face Fines and Jail Sentences.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Ill., Dec. 5.—Five gray-haired women of the village of Volo, who rode Mrs. John Richardson on a rail coach, today were convicted of riding one of sex on a rail. The women were linked by a long with the name of her brother-in-law, were found guilty here tonight by a jury. Each may be fined \$200 and sentenced to six months in jail.

The named military housewives who took the law in their own hands, was composed of Mrs. Emma Davidson, Mrs. Leona Raymond, Mrs. Alma Warden, Mrs. Mary Sabel and Mrs. John Stadfield. Mrs. Kate Wagner, the sixth woman, who started to carry Mrs. Richardson outside the village limits, was freed by the jury because she returned home before the victim was given her ride. There was no evidence that Mrs. Wagner helped support the rail and its burden.

Mrs. Sabel is 65 years old and the others are well above 40. They sat huddled and dazed in the court room tonight as the verdict was read. They bore no resemblance to the angry women, outraged because they believed a neighbor preferred the company of another to her crippled husband, who drew Mrs. Richardson from her home by a subterfuge, placed her astride a weather beaten mantling, bore her screaming and fighting to the edge of town and dumped her to the road with a warning never to return.

R. J. Rody, assistant state's attorney, in the afternoon compared the action of the Volo women to that of Christ when the Pharisees brought him on the mouth of a woman who had sinned.

Strict Labels for Headache Cures.

Washington, Dec. 5.—Solicitor General Davis appeared in the supreme court today with a brief urging an interpretation of the pure food laws to require labels on so-called headache cures to state the presence of derivatives of habit-forming drugs as well as of the drugs themselves.

## VILLA SENDS MORE MEN IN PURSUIT OF FLEEING FEDERALS

Successful Constitutional General Encamps Outside of Chihuahua City But Has Force Doing Police Duty.

OROZCO AND SALAZAR  
NEARING COLUMBUS

Rebels Seek Arms and Ammunition From Huerta Soldiers Fleeing With General Mercado.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Merida, Mex., Dec. 5.—Instead of occupying Chihuahua, the state capital, Gen. Francisco Villa, with his 7,000 rebels encamped along the railroad north of the city, today returned hurriedly to Villa Ahumada, the telegraph station, to dispatch more men in pursuit of the federalists retreating toward Ojinaga on the border.

A garrison of 400 rebels occupies the fort at Ojinaga and General Villa said his soldiers would not permit the federalists to reach the border or cross over into the United States without a fight. His purpose is not only to capture the federal troops but also to seize their arms and equipment. The federalists, however, will be in the majority unless they are overtaken by the rebel pursuers. With the 2,000 or more fugitive federalists are Gen. Salvador Mercado, the deposed military governor and commander, numerous other generals and officers and members of wealthy Chihuahua families, who left the city precipitately on foot in fear of a rebel attack.

General Villa expressed his intention to confiscate the money which the fugitives were reported to have withdrawn from the banks before the evacuation. He said he would protect the non-combatants, except such as were considered political offenders. Members of the Terreros family were placed by him in the latter class. Crowds of people with automobiles camped at Presidio, Texas, opposite Ojinaga, in anticipation that the refugees, including the federalists, would cross the river. Should the federalists, disheartened by their long escape in Chihuahua and by the decision of General Mercado to flee because of the bankrupt condition of his army, decide to cross, they would give up their arms on the Mexican side.

The report reached Ojinaga that the fugitives had been reported to have since their route was across a waterless plateau, swept by cold winds at night and under stormy sky.

Rebels reported that part of the fugitives had turned to the west and were approaching Palomas on the border opposite Columbus, N. M. With them were said to be Generals Jose Salazar and Pascual Orozco, both of whom are under indictment in the United States for violations of the neutrality laws.

Another reason why Villa returned northward to Villa Ahumada was to communicate with General Carranza, head of the constitutional party, who is in Sonora.

Pleased at his victory in the north, and confident that his projected march toward Mexico City will be marked by desertions or evacuations by the federalists, General Villa himself showed no haste to enter Chihuahua, the largest city now held by the rebels. Some of his troops, camped at Teresita, Chihuahua, in the city several days ago for police duty.

FOREIGN POWERS INQUIRE  
ABOUT MEXICAN AFFAIRS

Washington, Dec. 5.—Guarded inquiries are being made at the state department by representatives of some of the European governments as to the prospect for an early termination of the present conditions in Mexico which are imposing grievous burdens upon foreign interests. There is no cotton in the Mexican situation, however, of a probably early recognition of the fact that the constitutionality of the present government is much below the needs of more than half of the country.

Administration officials here are looking for some important development as a result of the extraordinary successful campaign of the constitutionalists and every prediction is being made that the situation in Mexico is much below the needs of the situation, hence today it was acknowledged that two gunboats, the Yorktown at San Francisco, and the Raleigh at Bremerton, were sailing for Mexican waters.

Secretary Bryan took occasion today to make an emphatic denial of the report emanating from the Mexican capital that Queen Wilhelmina of Holland had undertaken to intervene to bring about the withdrawal of General Huerta. The secretary intimated that the United States is still being permitted by the powers to deal with the Mexican problem without interference, although as a matter of course, they are kept informed of all changes in the situation.

STORY OF FEDERAL EVACUATION  
OF GUAYMAS IS NOT TRUE

Hermosillo, Mex., Dec. 5.—The expected evacuation by the federalists of Guaymas, the west coast seaport, appeared today to have been a mere idle tale. It was reported that the federalists had reoccupied Empalme, a suburb of the city, and the movement puzzled insurgent commanders somewhat.

The insurgents are inclined to be-

## MANSION CAFE

221 South First Street.  
Clean, well-served food. Regular meals or short orders. Chinese Chop Suey and Noodles. Private booths for parties and banquets—Mandarin or American style. Liquors from Savor Bar. Prompt service, moderate prices. Open day and night.

Have the evacuation of the suburbs and apparent preparations for departure was a ruse to entice them into the town. It is also thought possible the orders to abandon Guaymas were withdrawn at the last moment.

There appears to be no disposition to renew the siege of Guaymas, although the capture would assist military movements along the west coast greatly and renew commercial activity in Sonora and Sinaloa.

Work was begun today on a spur railroad around Guaymas, and the suburb of Empalme. When this line of track is completed the communication between Nogales on the Arizona border and Culiacan, capital of the state of Sinaloa, 700 miles south.

Working out the details of the campaign in the north has so delayed General Carranza that an indefinite time is set for his leaving Hermosillo.

# INDIANAPOLIS NOT TO HAVE GENERAL LABOR WAR

Daniel J. Tobin, International President of Organization, Counsels Against Drastic Action by Unions.

INDIANAPOLIS, Ind., Dec. 5.—There will be no general strike in Indianapolis at this time, and therefore whose employers have signed union contracts, will return to work tomorrow morning. This course was decided upon late today at a meeting of the teamsters' union, which was addressed by Daniel J. Tobin, international president of the teamsters' organization.

"The talk about a general strike in Indianapolis at this time is nonsense," declared President Tobin. "I have often met such conditions as face you here now, and I tell you that the time is not right for a general strike."

"It is better for me to have 700 teamsters wearing union buttons at work, than have twice that number idle in the streets."

"If we expect fair treatment, we must be fair and I urge you to permit the teamsters, employed by team owners who have signed union contracts, to return to work."

Four teamster drivers were shot today, the fifth day of the strike. J. C. Sonnenfeld, of Chicago and G. U. Williams, of Cincinnati, were wounded. Two negroes on an ice wagon were peppered with shot, but not seriously hurt, when fired upon by men in an automobile.

Although all available police were entered into chase of the automobile, it was not found. A number of arrests were made.

## TAFT ADVOCATE OF BETTER HOUSES FOR POOR

Former President Says Landlords and Tenants Must Work Together to Mutually Improve Conditions.

CINCINNATI, O., Dec. 5.—The third annual session of the national housing convention came to a close tonight with a banquet at the Business Men's club, with former President Taft and Robert Hove, president of the association, as the principal speakers. In part, Mr. Taft said:

"The idea of better housing for the poor must be practical. Then it can be made very easily to conform to the law. The idea of the use of public buildings for housing the poor is not wise or practical."

"I desire to impress upon you that this can be done by men who are willing to reap a good sound profit, but who at the same time will allow the tenant to reap a substantial reward by providing good hygiene."

"The laws regulating the building of houses are becoming better and are in harmony with human nature, but the chief difficulty is with the people themselves. One of the greatest steps toward progress that can be made is the education both of the landlord and the tenant to work not only in harmony with themselves, but with the law."

"Teach all not to pursue the fatal policy of yielding to individual circumstances. Reform of any abuse is certain to create cases of special hardship, but the matter should be looked upon as a whole, and individualism should be pushed into the background."

"It is essential that the people should steel their emotions against special circumstances, for, in the march forward to better housing, some will suffer, but the greater number will be benefited for all time."

## PRESIDENT WILSON SUFFERS FROM GRIPPE

WASHINGTON, Dec. 5.—President Wilson has grippe. His cold is in his nose and throat and his physician, Dr. Cary E. Grayson, U. S. A., ordered the president to remain in bed again today. Engagements were canceled and the president will be confined to his room tomorrow and possibly Sunday.

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. Grove. Cures a Cold in One Day. Cures Grip in Two Days. 25c.

# SUFFRAGISTS CLOSE SESSION WITH NO DISCORD

Trouble Over Methods of Collecting Money for Sustenance of Washington Bureau Narrowly Averted.

WASHINGTON, Dec. 5.—Storm clouds that hovered low for a time today over the closing session of the forty-fifth annual convention of the National American Woman Suffrage association, cleared away just before adjournment.

Trouble started when Miss Alice Paul, chairman of the congressional committee, also a leading worker in the congressional union, an affiliated society, presented her report. It was charged on the floor that the congressional committee had ignored instructions from the national board by refusing to collect its funds through the national society's treasurer. After much discussion a resolution was adopted directing the congressional committee to act in future in accordance with the board's wishes; then Miss Paul's report was approved.

A special committee to discuss plans for holding together the organizations in the states which already have woman suffrage, so as to have their help in the work for the constitutional amendment, was agreed upon by the executive committee.

## MOHENO LIKELY TO QUIT CABINET POST

MEXICO CITY, Dec. 5.—A report that General Moheno would soon resign as foreign minister and be replaced by a prominent banker and legal circles, would succeed him, brought from Señor Moheno tonight an unequivocal statement. When asked regarding the truth of the rumor, Señor Moheno said he could not assure anyone the foreign office at this time was not of record and he was not remaining there for his own pleasure. He added, however, that he would continue in office as long as President Huerta desired his services in the capacity of foreign minister.

Señor Moheno had a conference today with Señor Mendez at the latter's home. This fact is regarded here as significant.

## CHURCHMEN COMMEND PRESIDENT WILSON

BALTIMORE, Md., Dec. 5.—The executive committee of the federal council of churches of Christ in America, closed its annual session here today, after considering a number of important religious problems of the day.

A religious campaign in connection with the opening of the Panama canal was agreed upon.

The final act of the committee was the adoption of a resolution commending President Wilson and his administration for their efforts to adjust and solve some of the issues between United States and other peoples in the spirit of Christian diplomacy.

## AMERICAN COMPANY TO LOAN HUERTA 750,000 PESOS

Apparently Well Authenticated Story Is That Funds Are to Be Furnished for Important Concession in Mexico.

MEXICO CITY, Dec. 5.—There is a well authenticated report that President Huerta has agreed to loan a total of 750,000 pesos by an American corporation with Mexican connections.

The vice president of the corporation, it is said, has been personally negotiating for the loan in return for which it is understood, are secured promises of certain concessions for his company.

The preliminary dealings between the corporation and the government were through the minister of finance, but as an agreement was impossible, the company's official took the matter up through a third party with President Huerta, who, without loss of time, sent the papers to the company agent for signature.

Rumors of rebel successes are current here tonight, but are denied in official quarters. The details were supported by railroad reports. A rumor which obtained some credence was that Monterrey was evacuated this afternoon. This was discounted by the fact that the telegraph wires are working through to Monterrey and no report of this capture has been received from there.

A message filed at Monterrey before noon said the residents of that city were expecting an attack at any moment.

Another unconfirmed report was to the effect that fighting between Minimization and the Guadalupe had been taken. An anti-government demonstration was reported to have occurred at Guadalupe.

"SOLD HERE FOR LESS." Sole-Leather Lamb's Wool Soles are the perfection of Crocheted Slipper Soles, best quality and genuine values. The prices for Xmas: Children's sizes, 2 to 5, 20c; Misses' sizes, 13 to 2, 25c; Ladies' sizes, 3 to 7, 25c; Men's sizes, 7 to 11, 35c. GOLDEN RULE DRY GOODS CO.

The young folks of the chorus are working hard to perfect the songs and dances of Pinaro.

# Our Blood

When in healthy condition is composed of those elements that HOOD'S SARSAPARILLA is especially adapted to preserve, restore and supply.

It is made up largely of red and white corpuscles—red to nourish and sustain the body—white to protect the body against disease.

In weak, worn-out, pale-faced people, the blood is "watery" because the red corpuscles are deficient and the white corpuscles delinquent.

Hood's Sarsaparilla gradually but certainly floods the body with new, rich, red blood that invigorates the entire system, gives sparkle to the eyes and restores color to the cheeks.

It has done this for thousands. It will do the same for you.

## DECISION IN NOTED MINING SUIT IS SUSTAINED

Supreme Court Upholds Opinion Rendered by District Tribunal in Case of William Fraser vs. State Savings Bank.

SPECIAL DISPATCH TO MORNING JOURNAL  
SAN FRANCISCO, N. D., Dec. 5.—The state supreme court today affirmed the decision of the lower court in the important mining suit of William Fraser, appellant, vs. State Savings bank, et al, appellees, appealed from Tase county.

On December 16, 1910, the appellant and appellees, John B. Bidwell and A. Clarence Probert, entered into a contract forming a partnership for the improvement, developing and disposing of the mining properties of the said William Fraser within the period of two years from the date of the contract or as long thereafter as the said William Fraser might agree to and with said parties of the second part, conveying an undivided one-third interest, conditioned that if the said mining properties were not sold then the said warranty deed to be void and to revert back to said William Fraser.

It was further mutually agreed and understood that in the event of an expiration or forfeiture of the said agreement that all monies expended by said John B. Bidwell and A. Clarence Probert, the said party of the first part, agreed to reimburse, etc., which said agreement was duly signed by all parties to the same.

On the same day of the execution of the said contract appellant executed and delivered to each of the above named appellees a warranty deed signed by himself and his wife, conveying to each, respectively, an undivided one-third interest in and to all his mining properties, therein named, and also a like interest in and to a toll road owned by him in the Rio Hondo canon, etc.

Thereafter the parties to the said contract entered into a contract with Charles T. Martin, by which they agreed to convey to him for the sum of \$75,000 all of the properties mentioned in the contract and deeds.

Appellees answered, denying all allegations of fraud and over-reaching the weakened mental condition of Fraser.

Martin intervened for the purpose of securing the advantage of certain modifications of the original contract of purchase, made by Fraser just prior to the institution of this suit.

Randall, receiver of the Tase Savings bank, also intervened for the purpose of securing the advantage of certain modifications of the original contract of purchase, made by Fraser just prior to the institution of this suit.

The court found in the main case for Bidwell and Probert, and against Fraser and in favor of Randall receiver, upon his claim against Probert. The intervention of Martin was determined against him. The plaintiff, Fraser, appealed to this court, as likewise did the intervenor, Martin.

Syllabus by the Court.  
1.—The court is only required to find the facts in controversy, raised by the issues in the case, and is not required nor is it proper, to set out the evidence upon which it relies in determining such ultimate facts.

2.—Findings are not to be construed with the strictness of special pleadings. It is sufficient if from them all, taken together with the pleadings, the court can see enough upon a fair construction to justify the judgment of the trial court, notwithstanding their want of precision and the occasional intermixture of matters of fact and conclusions of law.

3.—Where the trial court hears all the witnesses testify and is thus able to observe their manner and demeanor while testifying, the appellate court will not review the evidence further than to determine whether or not the findings are supported by substantial evidence, in the absence of such overwhelming weight of evidence against such findings as would clearly show that the trial court erred in its conclusions drawn therefrom, and, in an equity case, where the court hears the witnesses as aforesaid, there is no reason for a departure from the rule.

4.—Where parties to a contract construe it as having created a partnership relation, and not upon such construction, the court will not, after rights have accrued thereunder, by reason of such construction, give to the contract a different construction, which would be at variance with the understanding of the parties to it.

Mr. Meyer, as the gallant captain of the Pinaro, will make a hit.

Busy shoppers, get your home cooking at the Congressional Bazaar today. Hotel Combs cafe room.

# We Are Receiving

quantities of new goods daily; will tend to make your shopping easier during the Holiday Season.

We don't carry over old goods; every item in our store is new stock, bought to sell, and is sold. If you want good, fresh goods, we have them at prices that are right.

## JUNKS SELECTS TOO FAST FOR WIZARD FIVE LAST NIGHT

Bowling Match at Drummer Alleys Sees Good-Sized Score Registered; Vegas-Albuquerque Game Monday.

The Junks Selects easily defeated the crack Wizard five last night on Drummer alleys by a score of 2472 to 2168. Deschler, of the Junks team, rolled the most steady game and scored a better total, although Landin, of the Wizards, by his spurt in the final game, rolled only five pins less, consequently rolling the high game of the evening.

The Junks did not bowl up to their standard, as just previous to the match game, four of them rolled two games and averaged over 200.

These four men with the addition of Landin, will roll a match game with the Las Vegas Elks next Monday night. The Vegas team will roll on their home alleys, as will the Junks. The score at the end of each game will be exchanged over the long distance telephone and read at both ends.

Spectators are cordially invited to be present at this novel match. Everything points to some star bowling on the part of the Junks. Landin, if he rolls, will make an attempt to rub the alley record of 245, which he now holds.

Next Thursday evening the Wizards and the Junks will play a return match as the Wizards claim they were not on their metal last night.

The composite score of last night's games follows:

Junks Selects.			
Higgs	157	175	181
Deschler	137	139	135
Lathrop	137	135	151
Deschler	137	145	192
Jungbluth	134	144	179
Total	853	808	829

Wizard Five.			
Landin	153	146	210
J. Wilson	147	141	148
Maddox	149	141	148
P. Wilson	146	119	127
Hamstead	119	135	143
Total	698	711	757

\*Wedding rolled last two games for Hamstead.

**How to Bankrupt the Doctors.**  
A prominent New York physician says: "If it were not for the fact that the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia, but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effective and is pleasant and safe to take. For sale by all dealers.

Full weight and satisfaction guaranteed when ordered from the New State Coal and Wood Yard. Phone 35. C. E. Kunz, Proprietor.

## TIME TO HAVE GIFTS LAID ASIDE FOR CHRISTMAS—

## FLAGSTAFF HAS TWO BOXERS WHO WANT TO FIGHT HERE

Danny Matthews, Lightweight, and Middleweight, Name Not Mentioned, Ready to Meet All Comers.

The sporting editor of the Journal is in receipt of a letter from George W. Black, Jr., of Flagstaff, Ariz., in which he asks for a fight with Danny Matthews, an undefeated 132-pound boxer, and a middleweight, name not mentioned, who Blake claims can "clean" Al Smallding or any other man at 155 pounds, ringside. The letter from Blake, which best explains itself, and which will be interesting reading for local fans, follows:

Flagstaff, Ariz., December 4, Sporting Editor, Morning Journal.

Dear Sir: We have written your promoter, Mr. Mark Levy, regarding a boy that we have here that would like to meet any 155-pound boy that you have in your city, and we would like to make it known to the readers of your paper that it is no bluff.

We have not received any reply from Mr. Levy, and think that he takes us for a lot of rubes, and that we are easy, but if he will give our boy (Danny Matthews) a chance, he will show the people of Albuquerque, and this neck of the woods that he knows the game to the Queen's taste.

Not only will we stop at this, but we have a man that will clean Al Smallding or any other man that you can get at 155 pounds, ringside.

We want you, for the good of the game, to give your readers this challenge, and we will greatly appreciate it.

Yours very truly,

GEORGE W. BLAKE, JR.

## WALTER CAMP PASSES OPINION ON FOOTBALL IN EAST AND WEST

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Chicago, Dec. 5.—Walter Camp, Yale's celebrated football authority, commenting here today on the most question of superiority between eastern and western football teams, criticized mildly the open or western game, at the same time saying "eastern coaches had overdone this year the development of their defense."

"As to the game as played in the east and west, I think each section (could) itself a bit this year," he said. "The east ran a little too much on the defense and the west on the offense. I look for the time when it even up."

Speaking of the proposition to number players, he said: "There is much in favor of numbering the players, and it looks as if the practice were bound to become general in time."

## INJURY ROBBED "DOC" CORNISH OF PLACE ON ALL-AMERICAN ELEVEN

That the injury suffered by Gillette (Doc) Cornish, of this city, qualified him for the Yale eleven, was sustained a broken jaw in the game between Yale and Colgate the latter part of the 1912 football season, robbed Cornish of a place on the all-American eleven as selected this year by Walter Camp, was the assertion made by that football authority to Dr. P. G. Cornish, who returned last night from an extended eastern trip.

Cornish was by far the star quarterback of the eastern big college eleven this season. The honor for the all-eastern eleven quarterback fell to Wilson, who succeeded Cornish at quarter when the latter was injured, and Wilson, as a matter of course, is accorded this position on the all-American team this year.

According to Dr. Cornish, the injury suffered by his son is now entirely healed and he will suffer no permanent ill effects or disfigurement. This will be good news to "Doc's" numberless friends in this city and throughout the state. These friends will share with Cornish his disappointment at being robbed by an injury of a place on the all-American football eleven of 1913.

## "SOLD HERE FOR LESS."

## PHILADELPHIA HAD BEST FIELDING CLUB IN 1913

Doolin's Team Led National League With Percentage of .968; St. Louis Second, Although Last in Race.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
New York, Dec. 5.—The Philadelphia club carried off the fielding honors this year in the National league with a percentage of .968. The St. Louis Cardinals, though they finished last in the pennant race, were second in team fielding with a percentage of .965. Pittsburgh was third with .964 and the other teams finished as follows: New York, the pennant winners, fourth with a percentage of .961; Cincinnati, .951; Brooklyn, .951; Chicago, .949 and Boston, .957.

The St. Louis club had the star first and second basemen, so far as percentage were concerned. Ed Konetchy, first baseman, was the best fielder in this position in the league, having a mark of .985. Konetchy played in 140 games, had 1,412 putouts, 91 assists and 7 errors. Miller Huggins, also of St. Louis, second baseman, topped the league in this position with a percentage of .977. Huggins played in 115 games, had 246 putouts, 233 assists and 14 errors.

John Phil Lobert, of Philadelphia, led the third basemen with a percentage of .974. Lobert played in 145 games, had 181 putouts, 225 assists and 11 errors.

Joe Tinker, manager of the Cincinnati club, led the shortstops, his percentage for the season being .968. Tinker played in 101 games, had 223 putouts, 229 assists and made but 18 errors.

While E. L. Booe, of Pittsburgh, outfielder, has a perfect fielding average, he played in but 22 games, so the honors for the outfielders go to Thomas Leach of Chicago, who had a percentage of .970. Leach played in 122 games, had 271 putouts and 15 errors.

Among the pitchers, Whaling of Boston, started, he having a percentage of .990, though he played only 2 games. "Old" Killefer of Philadelphia, was the real star among the catchers with a percentage of .988 in 126 games. Killefer had 579 putouts, 166 assists and made but 9 errors. He had 5 passed balls.

Grover Alexander, of Philadelphia, was the best fielding pitcher, going through the season without an error in 47 games and figuring in 10 putouts and 82 assists. Other pitchers were Fromme, of Cincinnati and New York; Russell, of Philadelphia; Crandall, of New York; McQuillen, of Pittsburgh, and Burk, of St. Louis.

## SILVER CITY NORMALS AND A. B. C. FIVES TO PLAY DOUBLE-HEADER

The two Albuquerque Business college basketball teams, boys and girls, will open the local season in earnest next Friday night, December 12, when they meet the two fast five representatives of the Silver City Normal school, in the National Guard armory. The first game will start at 8 o'clock. After the game, following the regular custom, a dance will be given in honor of the victors.

The local school has a great deal of quality material this year, and as a result of constant practice under the direction of Coach Ellis, will have two star teams on the court against the Normal. However, the Silver City fives also are in excellent condition for the contest.

Tickets for the games and dance are being sold by students of the business college.

## GOVERNOR TENER HAS ORIGINAL PLANS FOR PROMOTING BASEBALL

Here are the six cardinal views of Governor John K. Tener, of Pennsylvania, who has accepted a five-year term as president of the National league at a salary of \$25,000 per year, upon the great national game.

The game must be kept absolutely clean.

Baseball needs no doctor. If everything else were as healthy as baseball physicians would go out of business. Present-day players are no better than the old time players, but they give more attention to detail.

Matthewson should not be allowed to quit the game. A man who has his ability to hold up the high standard of the game should get a club franchise when his playing days are over.

Umpires should rule the field, but at the same time should consider the public.

I am proud of having been a professional baseball player.

Allen Defends His Title.  
Kansas City, Mo., Dec. 5.—Benjamin Allen, of Kansas City, retained his title as national pocket billiard champion tonight, when he won the last block of a six hundred point match from Charles Weston, of Pittsburgh. The match was divided into three nights' play, two hundred points being played each night. Allen won each block, the final count being Allen 600; Weston 411. In tonight's play, Allen ran the two hundred points while Weston was making sixty-eight. Allen's high run was thirty-six and Weston's ten.

Des Moines Saloons Open Again.  
Des Moines, Ia., Dec. 5.—Every one of Des Moines' eighty-six saloons opened today after having been closed since November 22, as the result of a supreme court decision that they had been operating under an insufficient consent petition. The action came today after Judge Creation, of the supreme court, had granted a hearing in the case and a stay of execution.

To Investigate Indian Service.  
Washington, Dec. 5.—Secretary Lane of the interior department, today designated his personal inspector, W. B. Linn, to take charge of a rigid investigation of certain alleged irregularities in the Indian service.

Lutheran Endeavors' Xmas Sale and Lunch, 118 S. Fourth street, Saturday, day and evening.

Mr. Christian is smiling steadily. As Dick Deadeye, he is the real thing.

## IMPORTATIONS OF ARMS BY ULSTER PROHIBITED

British Cabinet, by Royal Proclamation, Takes First Formal Notice of Preparations of Unionists for War.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Dec. 5.—The British cabinet, by a royal proclamation promulgated tonight prohibiting the importation of arms and ammunition into Ireland, for the first time grasped the nettle of the revolution in Ulster which it had hitherto ignored, although the followers of Sir Edward Carson for months have been advocating their military preparations in every possible way and daring interference with them.

Almost at the time of the publication of the proclamation, Premier Asquith made the longest step towards the reconciliation of the Ulsterites that the government has taken by announcing his acceptance of the principles for the basis of a settlement which Sir Edward Carson suggested in his last speech.

These suggestions are:

First, that the agreement must not be degrading or humiliating to Ulster.

Second, England's treatment of Ulster must not be different from that meted out to other parts of the United Kingdom.

Third, Ulster must retain full protection of the imperial parliament.

Fourth, the home rule bill must not be such as to lead to ultimate separation of Ulster from Great Britain.

Thus the government extends to the signers of the Ulster covenant the olive branch of reconciliation, prohibiting the importation of arms and ammunition into Ireland which King George signed at a meeting of the privy council Thursday and which was published in the Royal Gazette.

Tonight was milder than rumors had anticipated it would be. Instead of reviving the Irish crises act, so odious to the old time home rulers, against whom it was directed, which prohibited the carrying of arms and gave drastic power of search for arms, it invoked the customs consolidation act of 1874. The only reason given in the proclamation for taking the step is the statement, "whereas, it is expedient that the importation into Ireland of arms of ammunition and other goods hereinafter mentioned should be prohibited, therefore, and the proclamation proceeds to specify all articles intended for or capable of being used for military purposes as being under the ban. It contains, however, arms and explosives destined solely for sporting or mine uses.

Premier Asquith's pronouncement was made in an after-dinner speech before the reform club at Manchester. It was in this same city on a similar occasion, that Sir Edward Carson, in a speech, said that it would appear that the negotiations for a settlement of the Irish controversy were taking the course of informal public debate.

Premier Asquith said he was sure Sir Edward Carson must agree that the statement that there could be no settlement worthy the name that would be humiliating or degrading to the Irish people.

On the second point Mr. Asquith said he supposed Sir Edward referred to what formerly was called "home rule all around." Ireland's case, he added, was a case of urgency and must be decided first. It could not be delayed until the government has gone through the complicated process of adapting the principle of home rule to all the different parts of the United Kingdom.

The premier said he agreed that there must be no ultimate separation of Ireland from Great Britain. The real and effective authority, supreme and unquestionable, he said, must be retained by the imperial parliament.

In concluding his speech Premier Asquith said:

"I am hopeful that discussion freely and frankly carried out on the lines I indicated at Ladybank and on the lines Sir Edward Carson indicated, may lead to a cessation of the long embittered controversy and a settlement which will command the consent and good will of all parties concerned. I agree with Sir Edward Carson that we have to consider carefully and sympathetically the case of the Irish minority, but equally we must keep in mind the case of the majority, who, after a struggle extending over more than a life time, now seek their goal actually in sight."

Mr. Asquith's speech comes at an hour when the newspapers of both parties considered that attempts at a settlement had reached the stage of deadlock and were taking the gloomy view for the future. If the compromise is consummated the agitation over the army, which in the last week has grown bitter, will be one of the strongest reasons for it. Sir Edward Carson and several prominent unionists, notably Lord Lansdowne, Lord Alfred Bunsell, Lord Bunsell, suggested in speeches that the officers should resign and the soldiers refuse to fire if ordered to fight fellow Protestants.

The leaders of the labor unions called these proposals "the present" and asked indignantly why Sir Edward Carson was permitted to advocate such a policy when Tom Mann was recently imprisoned for a speech in which he advised soldiers to refuse to fire on strikers. The present labor situation is so delicate that the conservatives apparently have begun to fear the influence of their words.

Even Sir Edward Carson had declared that the first duty of the army is to obey orders.

A Dublin newspaper said today that Secretary of War Seeley had demanded the resignation of Major Crichton, of the horse guards, a son of Viscount Crichton, for his connection with the Ulster volunteers. Thereupon eight officers of the horse guards threatened to resign and the secretary of war withdrew his demand.

The comment of the Ulster leaders is to the effect that the king's proclamation comes too late. They say there already are 85,000 serviceable rifles, most of them quite modern weapons, and millions of rounds of ammunition in the possession of the Ulster volunteers.

They also argue that it is easier to issue a proclamation than it is to prevent secret importation of rifles. They claim there is nothing to prevent the starting of a gun factory in Belfast, that the proclamation gives no power to search for arms and that the government's belated action will serve no purpose beyond the making of the blundering admission of the seriousness of the situation in Ulster.

Sir Edward Carson, in an interview at Nottingham, said the proclamation

# The Perfect Scotch Whisky is . . .

## Alexander Stewart & Son of Dundee's

### "Cream of the Barley"

As distilled for the Royal Palace of Westminster and to H. M. the King of Spain.

VERY OLD MATURED IN SHERRY CASKS

Founded A. D. 1821.

## SILVER CITY BOY IS STARRING AS PLAYWRIGHT

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Silver City, N. M., Dec. 5.—Robert Strain, Jr., son of Mr. and Mrs. Robert Strain, of Silver City, who is a student at Princeton, has attained unusual distinction in having accepted by the University of the Pacific club, an organization given to the production of light musical comedies, his play entitled "The Pursuit of Priscilla."

The New York Times of recent date gives quite an extended synopsis of the play, which will have its first performance at the Hotel Astor, New York, on December 30. Following this the company will tour the country, appearing in Washington, Chicago, Pittsburgh, Philadelphia, New York and other cities.

The music for the play was written by two undergraduates of the university, and in fact everything down to the designation of the costumes, the scenery and the light effects is done by the students. Sheldon Pitney and John B. Pitney, son and nephew, respectively, of United States Supreme Court Justice Mahlon Pitney, will be seen in leading roles in the play.

Cured of Liver Complaint.  
"I was suffering with liver complaint," says J. A. Smith, of Point Blank, Texas, "and decided to try a box of Chamberlain's Tablets, and am happy to say that I am completely cured and can recommend them to everyone." For sale by all dealers.

## TOO MANY CHILDREN

are pale and frail—backward in studies—with pinched faces and poor blood—their minds and bodies are actually starved because their regular food does not nourish.

Such children need **Scott's Emulsion** above everything else; it contains nature's rarest life-giving fat; it is essentially food value—blood-food and bone-food, free from wine, alcohol or harmful drug.

Scott's Emulsion often builds many times its weight in solid flesh—its medicinal, tonic and nutritive properties make all good food do good.

It is NOT A PROP, BUT A FOUNDATION FOR STURDY GROWTH.

Every Druggist Has It. Avoid Substitutes.

## FIGHT ON SLAVERY MAY GET AID FROM U. S.

Formation of American Society to Relieve Oppressed Natives Is Earnestly Urged by Prominent Bathers.

London, Dec. 5.—Following closely the important memorial to Premier Asquith, in which the government was urged to take more action to suppress the alleged modern forms of slavery by such notable signatories as Earl Cromer, Lord Curzon and ex-Ambassador Bryce, it is learned that a committee of the Anti-Slavery and Abolition Society has decided to take immediate steps to create a sister organization in America to co-operate with the English society in watching all questions where joint

## SHE OFTEN PRAYED TO DIE

But Friend Comes to Rescue With Some Sound Advice, Which Was Followed With Gratifying Results.

Nottingham, Ark.—"My troubling date back five years," says Mrs. Mary McPherson, of this town, "I was first taken with awful pains in my right side, headache, and backache. The pains from my side seemed to move down my right limb, and settled in the right knee. Then it would move back and forth, and I would almost die with pain.

"I was told I had tumor, and would have to undergo an operation at once. I just seemed I could not submit to it. I often prayed to die. It seemed that nothing would give me the desired relief, until finally, I was advised by a friend to try Cardui, and it is undoubtedly, curing me. I have only used three and a half bottles, and it is a pleasure to tell of the beneficial results.

"I shall ever spread the good tidings of what Cardui has done for me, and will do for other suffering ladies, if they will only try it."

You can depend on Cardui, because Cardui is a gentle harmless, vegetable tonic, that can do you nothing but good.

Prepared from herbal ingredients, Cardui has a specific effect on the womanly constitution and puts strength where it is most needed.

Try Cardui.

Dr. J. C. Williams, Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

## SUNNY BROOK THE PURE FOOD WHISKEY

The Inspector Is Back Of Every Bottle

The next time you feel "out of sorts," try a little Sunny Brook—The Pure Food Whiskey—Almost instantly you will note a delightful change—You will work harder and Earn More—you will feel better and Enjoy Life More. No other tonic acts so promptly and satisfactorily. That's why today—after fifty years—Sunny Brook—The Pure Food Whiskey—can point with pride to a legion of Loyal friends, who recognize that, on account of its exquisite flavor, its mellowness and high tonic properties, Sunny Brook is justly merited its proud title—The Pure Food Whiskey.

Each bottle of Sunny Brook is sealed with the Green Government Stamp—a positive assurance that every drop is natural, straight whiskey—scientifically distilled and carefully aged by the largest distillers of fine whiskey in the world.

SUNNY BROOK is now bottled with our own patented "Twister" stoppers. One twist secures an airtight seal in the bottle. No Need for Cork Screws.

## PROGRESSIVES MAY ORGANIZE NEW ALLIANCE

Party Insurgents, With Roosevelt's Approval, Plan Formation of Anti-Democratic Party.

NEW YORK, Dec. 5.—George W. Perkins and Controller William A. Prendergast, the latter just back from a vacation in Europe, are expected by politicians to withdraw from the progressive party here and lead a movement to form a new anti-democratic party. It will be composed of men in both the republican and progressive parties who are dissatisfied with the leadership in both.

It is believed Roosevelt is aware of what is being done and will announce his sympathy with the new idea and perhaps assume leadership of the amalgamation in 1916.

Neither Mr. Prendergast nor Mr. Perkins would talk on the subject today. It is known, however, that Mr. Prendergast is dissatisfied and disappointed, and has been for nearly six months, with the local leadership of the progressive party. When it became apparent in the recent campaign that Francis W. Bird, progressive county chairman, and other local leaders were influenced by a desire to put the republican party out of business, the controller made his disapproval known within the party's committee.

The job hunting proclivity of the progressives is another detail that has annoyed the controller.

Mr. Perkins is coupled with Mr. Prendergast by politicians because of the close friendship that is known to exist between the two. In this connection Mr. Perkins' views are identical. He said, with those of Mr. Prendergast.

Sources said to be hostile to the leadership of Samuel S. Koenig, as head of the republican organization in this city, are reported responsible for a story circulated today that Mr. Koenig would be appointed city chamberlain by Mayor Mitchell and that, as a result, Mr. Koenig would retire as head of the republican organization.

Friends of Mr. Koenig said the county chairman had not conferred with Mr. Mitchell as to a place for himself, and that if the pressure to have him appointed city chamberlain had its motive in a desire to get Koenig out as chairman, that Mr. Mitchell would be unwise to take part in it.

As city chamberlain, Koenig could not continue as county chairman and the chairman's friends today said he would not give way to another man as head of the republicans.

## DR. HELENE KNABE'S OFFICE GIRL TESTIFIES

Shelbyville, Ind., Dec. 5.—Miss Katherine McPherson, office girl for Dr. Helene Knabe, for whose murder Dr. William H. Criss, now in a trial here, was placed on the witness stand by the state late today. The witness described the finding of Dr. Knabe's body, the condition of the flat and her employer's home.

Miss McPherson testified that she had seen Dr. Criss in Dr. Knabe's apartments twice and had seen him bring her employer in his automobile to the house several times.

Dr. Knabe's known, which the state attempted to get before the jury yesterday and which was found in the possession of an Indianapolis undertaker, was shown to Miss McPherson. She testified that the last time she had seen the garment was on the Saturday before Dr. Knabe's death when it was hanging in a closet of the room where the doctor met death.

"Then it was a pretty navy blue," the witness exclaimed, "and now it looks like a faded rag."

The state contended that the garment was washed with chemicals to take away blood stains, after it had been carried away from Dr. Knabe's office.

## DYNAMITE USED IN EXECUTION OF REBEL

San Antonio, Tex., Dec. 5.—A modification of Chamberlain's Table in the papers in the muzzles of cannon and blowing them to pieces, was employed today by the federalists north of San Luis Potosi.

A captured rebel, supposed to have been one of the band which recently dynamited a troop train at Carmona, was given a summary trial by court martial and sentenced to death. He was tied to the ground and a dynamite bomb placed beneath his body and exploded, tearing him to pieces.

**Fit His Case Exactly.**

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by all dealers.

## ENGLISH CLERGYMEN FAVOR SUFFRAGISTS

LONDON, Dec. 5.—At a large meeting of Anglican clergymen, presided over by the Bishop of Kensington, held in Queens' hall tonight, a resolution was adopted protesting against forcible feeding.

Six hundred bishops and clergymen sent letters expressing sympathy with the movement, but many of them, including the bishop of London, are still attempting to secure suffrage. The reading of the bishop of London's letter and remarks by speakers to the same effect led to serious interruptions by a large body of militant suffragettes.

## SUITS FILED AGAINST CHINAWARE DEALERS

NEW YORK, Dec. 5.—Attorney H. Snowden Marshall, for the government, brought four additional suits today against persons engaged in the importation of limoges china to recover penalties aggregating more than \$500,000. The defendants and the amounts sued for are:

Herman C. Kupper, \$126,948; A. Lauterbach & Co., \$71,838; L. Bernhardt & Co., \$140,514; and A. Pongrat & Co., \$44,181.

The government claims irregular entry of china from France at the customs house. The penalty suits brought in the last few days against importers of limoges china aggregate more than \$5,000,000.

## Much Wool Comes Into Country.

Springfield, Mass., Dec. 5.—Under the new tariff act which went into effect December 1, and which allows wool to be imported free, there were released here today 468,000 pounds. It is estimated that 4,000,000 pounds are held here awaiting the change in tariff.

## NEW MEXICO FAILS TO MAINTAIN RECORD FOR STEADY GROWTH

Santa Fe, N. M., Dec. 5.—A comparison of the school census figures for the past seven years shows that New Mexico has failed to maintain its former pace of growth in population for the past four years, but that previous to that, the increase was very marked. In fact, had it not been for the growth the last year of Albuquerque and that the county superintendent of San Juan county included almost 200 Navajo Indians in his returns, the commonwealth would show a decided loss in population during the past year. The school census figures for the last seven years are:

1915.....	102,250
1914.....	102,842
1913.....	100,910
1912.....	99,520
1911.....	98,602
1910.....	92,815
1907.....	84,894

## PARTIAL DECISION IN IMPORTANT SUIT IS RENDERED BY COURT

Santa Fe, N. M., Dec. 5.—The case of the E. M. Bligg & Sons Co. vs. The Arlington Land company, which has been on trial before Judge H. E. Reynolds, sitting in the place of Judge E. C. Abbott, has been partially determined by the court, which held that the timber cutting contract between the Bligg company and the Chama Valley land company was not the act of the Arlington Land company.

This leaves for trial and determination the value of the timber cut, a large part of which has been paid by the Bligg company, and also leaves for determination how much, if any, of that value shall be paid to the Arlington company, and how much, if any, to certain intervenors.

Judge John H. McPhee has been appointed referee to hear the evidence and find the facts and the law on such accounting as between the Bligg company and the Arlington company, and between the Bligg company and T. D. Burns.

Judge Reynolds could not remain to hear the evidence on this feature of the case, and as a matter of convenience, it was referred.

## YOUNG LAS VEGAS LAWYER SECRETARY OF COMMERCIAL CLUB

Las Vegas, N. M., Dec. 5.—Levi M. Tipton, a young attorney, was elected secretary of the Commercial club this week at a meeting of the directors of that organization. Mr. Tipton will receive a monthly remuneration of \$50 and the use of an office in the club rooms in the Masonic temple. He will be required to give the club practically all of his time, keeping his office open from 9 o'clock in the morning until 5 o'clock in the afternoon and being at the service of the organization at all other times when occasion demands. Mr. Tipton is a native Las Vegas and has a wide acquaintance throughout the state. He is college bred and is expected to make a capable secretary and booster for Las Vegas. He will assume his duties Tuesday night of next week when the directors will hold their regular monthly meeting.

## UNITED STATES PAYS \$6,700 CLAIM OF STATE

Santa Fe, N. M., Dec. 5.—A withdrawal of \$6,700 came to the state or rather its public schools today. When the state paid something like \$6,000 into the state treasury. Years ago, the United States by inadvertence, cut some timber on school sections or parcels of such cutting. Land Commissioner H. P. Dwyer put in a claim for the timber cut but was informed by the department of the interior that as New Mexico did not become a state until 1912, it had no right to the timber cut on school sections prior to that. But to be fair, Uncle Sam agreed to pay the state its proportion of money derived from timber sales, the proportion being determined by the area of school sections as compared with the entire forest reserve area.

## WHY FAMOUS PASTRY COOKS USE KC BAKING POWDER

The patrons of our first class hotels and restaurants are exacting—they demand the best. Women go where the pastry and cakes are noted for their excellence. Men are attracted by hot bread and biscuits—when fresh and moist and light.

The pastry cook with a reputation uses K C Baking Powder because he knows that results are certain; every time everything is as good as his best.

Then, too, with K C Baking Powder he can mix the various kinds of batter before the rush of the meal begins and bake as needed so that every order goes to the table fresh and hot, yet the last he bakes are just as good as the first.

The reasons behind these reasons is that K C is really a blend of two baking powders. One commences to give off leavening gas as soon as moistened. The other requires both moisture and heat to make it active. Dough or batter will remain in a partially leavened condition for hours, and when put in the oven, will come up as light as if mixed a moment before.

For cookies, pancakes, doughnuts and the like, which cannot all be baked at once, K C is indispensable. For all baking the doubler makes doubly certain.

Follow the example of the professional cook and your baking will be equal to his.

## SAVING HUMAN LIFE.

There is a movement in the Gulf  
states to eliminate the mosquito and  
make that country free from malaria  
as Gorgas freed Havana and Panama  
from yellow fever.

It has been shown by science that  
a mosquito does not wander more  
than two miles from its breeding  
place. The plague spots of the American  
continent now are the lowlands of  
Louisiana, Alabama, Florida and  
Texas. In those states the traveler  
sees the fences and trees along the  
highways lined with advertisements of  
patent medicine remedies for malaria.  
"Black draught for chills and fever,"  
has been wonderfully exploited in  
those states.

Now it is proposed to take part  
of the money expended for patent medi-  
cines and exterminate the cause of it  
all. Furthermore, it has been found  
that the expense of it all will not be  
so great as people have imagined. A  
barrel of crude oil with a faucet so  
arranged that it will drip slowly on  
the waters of a swamp pond, or  
wherever stagnant waters are found,  
will do the work for a vast area and  
destroy billions of mosquitoes.

The greatest benefit science now is  
conferring on the human race is pre-  
vention, not cure. Every cure is be-  
ing taken for the preservation of life,  
the span of it having been materially  
increased by minimizing the ravages  
of smallpox, diphtheria, meningitis and  
scarlet fever. Typhoid fever has been  
expelled completely from the United  
States army and can be avoided in  
the entire human race merely by the  
exercise of a little forethought and  
common sense. The plan now is to  
prevent the extravagant waste of life  
and strength.

The progress of civilization inevi-  
tably checks human fertility. The  
prudent check on marriage is rein-  
forced by the less worthy check  
caused by the desire of the rich to  
avoid children because they would in-  
terfere with selfish pleasures. In this  
age of emancipation of women, the  
tendency is for them to invade the vo-  
cations heretofore monopolized by men  
and keep them single.

In every country of Europe, except  
Russia, the birth rate is declining  
steadily. Even in Germany and Eng-  
land, the prudence of the poor and the  
luxury of the rich are reducing the  
birth rate dangerously near the level  
of France, where for many years the  
birth rate has been lower than the  
death rate.

No anti-race suicide propaganda  
will check it. It is the testifying of  
race decay, such as ended the domi-  
nance of the classic world. The only  
corrective is to save the increase in  
the United States. Science has done  
wonders to protect infants from the  
lightful mortality which prevailed  
not many years ago and to prevent the  
neglect of them by incompetent moth-  
ers. Also, it has done wonders to pre-  
vent mortal infections among adults.

## THE HIGH PRICE PROBLEM.

There is a disposition among con-  
sumers in the United States to criti-  
cize the Wilson administration because  
it has not reduced the cost of living.  
Before the last election, the Journal  
pointed out repeatedly that such re-  
duction could not be hoped for ex-  
cept through widespread depression  
and the throwing out of employment  
of millions of wage earners, thereby  
reducing the purchasing power of the  
masses and thus creating an unde-  
sirable surplus from under-consump-  
tion.

Resides, nine months is not a long  
time in which to get policies of reform  
into active operation. The president  
has done his best to reduce the high  
cost of living as far as lowering duties  
can do it and at the same time main-  
tain the necessary revenues of the  
government. The heaviest reductions  
of the tariff are on foodstuffs, cloth-  
ing and farm machinery. These were  
planned to reach the "market basket."

But it is unjust to blame the presi-  
dent if retail prices have not yielded  
at once. There may be some criticism

of his pre-election promises, but there  
can be none regarding his efforts to  
put into effect policies which he and  
others had long contended would  
bring down prices. Prices are a long  
way from the point of tariff collec-  
tion and the middleman must be con-  
sidered.

During the hearing by the ways and  
means committee of the house in 1912,  
it was shown that a hat made in Italy,  
costing seventy cents there, would pay  
an import duty of twenty cents, and  
would cost the importer, laid down in  
New York City, less than a dollar. Yet  
that hat retailed for five dollars. No  
blame could attach to the tariff for  
four dollars and eighty cents of the  
price paid by the consumer.

The protected manufacturers en-  
couraged the public when they were  
fighting the reductions to believe there  
would be substantial decreases on  
price lists. They know better than  
the public is beginning to know  
better now.

The trouble with Mr. Wilson was  
that he promised things that could  
not be done by him or by any other  
man in the world without widespread  
ruin to American industries, which  
was not contemplated by him.

## GERMANY'S AMBITION.

Press reports carried the informa-  
tion, a few days ago, that Denmark  
would like to trade Greenland to the  
United States for Mindanao, in the  
Philippine islands. At the outset, it  
looked like a good bargain. But a  
few days later in the European news  
of the metropolitan papers there was  
explanation of the real inside of the  
suggestion.

It was said that if Denmark could  
acquire title to Mindanao, Germany  
would trade Schleswig, taken by Prus-  
sia from Denmark in 1864, for the  
Pacific island.

It is known that Germany wanted  
to acquire the Philippines from Spain,  
having an idea that Manila would  
make a good German Hong Kong. The  
misfortunes of war placed the Philip-  
pines in the hands of the United  
States.

Germany now would like to make  
a trade by which she could acquire  
Mindanao, which lies directly west of  
the Caroline islands, owned by the  
kaiser's country, and enroute from  
them to New Guinea, also owned by  
Germany.

This position would be of strategic  
importance to Germany because of  
the proximity to Dutch East Indies,  
which she hopes to acquire at some  
time and by some means. Such is the  
story from the European correspond-  
ents.

It now is seriously proposed that  
we evacuate the Philippines. In many  
particulars, it would be wise for this  
nation to do so. But under the  
treaty of Paris we are bound to main-  
tain order in those islands and to pro-  
tect there the interests of other na-  
tions.

W. Cameron Forbes, former gov-  
ernor general of the Philippines, speak-  
ing in Boston, declared that evacu-  
ation of the Philippines would mean  
the making of a second Mexico. But  
the disorders incident to indepen-  
dence would not be all. If we  
were to evacuate the islands tomor-  
row with a neutrality agreement with  
other powers, how long would it be  
until, upon some pretext, Germany  
and Japan would have a working  
agreement for partition of the islands?

The United States would then have  
to back down or fight at a disadvan-  
tage a war in which there would be  
no glory. This is a time for the ad-  
ministration to go slow with its Philip-  
pine policy. It is probable that for-  
mer President Taft and former Gov-  
ernor General Forbes know a little  
more about conditions there than is  
known by Mr. Jones, of Virginia, who  
has read of those islands in his geo-  
graphy.

## ADVANCE IN SURGERY.

Little note has been taken of one of  
the most marvelous advances in sur-  
gery. It was demonstrated at the re-  
cent clinical congress at Chicago that  
a means has been found for practi-  
cally abolishing pain. Nerve connec-  
tion between the brain and any other  
part of the body may be completely  
shut off, so there is no shock to the  
brain from an operation.

It is now believed that soon the  
most difficult operation may be un-  
dertaken without use of a general an-  
esthetic. Patients may be able to  
watch operations upon themselves  
without experiencing painful sensa-  
tions. Also, the shock to the heart in-  
cident to the use of ether is avoided.  
Whether that danger is to have an-  
other substitute in the new process is  
not clear, though nothing of the sort  
is indicated.

By the old way, the anesthetic  
merely switches off the consciousness  
of the brain for a limited time. The  
new way makes a complete disconnec-  
tion for any necessary length of time.  
It is said that neuritis may be com-  
pletely eliminated, which is of itself  
an unmitigated blessing to the human  
race, if it can be successfully accom-  
plished, as claimed by Professor Har-  
vey Cushing, of Harvard university.

The weather bureau hints that the  
Indian summer is about over and the  
white man's winter is about to begin  
in earnest.

The one thing which seems to worry  
Huerta is that if he does not come to  
terms Bryan will continue to hold up  
one finger at him.

The postoffice department is facing  
a grave crisis. There probably will  
be a large surplus this year.

The women of the country are hint-  
ing that cold storage has given the  
housewife a cold deal.

## PUBLIC SCHOOLS OF VALENCIA COUNTY IN SATISFACTORY SHAPE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Santa Fe, N. M., Dec. 5.—The pub-  
lic schools of Valencia county do not  
make a bad showing at all, as com-  
pared with the statistical returns  
made to the department of education  
by other counties. Valencia is one of  
the counties where the women teach-  
ers average higher salaries than the  
male teachers. The annual average  
for the forty teachers is \$422.61; for  
the male teachers, \$394.46, and for  
the female teachers, \$429.31, or al-  
most twice as much as the average  
in Curry county. The monthly aver-  
age of the women teachers is \$35.28  
and for the men teachers \$32.71.

The average length of school term  
is 7.29 months or almost fifty per cent  
longer than in Curry county. There  
are twelve schools that have nine  
months school, one has eight and one-  
half months, seven have eight months,  
six seven months, and nine six  
months; four have five months and  
one has three months.

One district, Belen, has seven  
rooms, nine have two rooms and five-  
teen have one room. There is one  
seven-room school house in the coun-  
ty, seven with two rooms and nine-  
teen with one room.

Of the teachers, one has a five-  
year professional, seven have first  
grade, thirteen second grade, and  
nineteen have third grade certificates.  
Three teachers receive less than \$20  
a month, eighteen get \$20, one \$25,  
one \$27.50, one \$28, eight \$30, one  
\$32, six \$35, and one \$40 a month.  
One has less than \$200 a year, six get  
\$200 to \$300, six get \$300, four \$300  
to \$400, three \$400, six \$400 to \$500,  
eight \$500 to \$600, two \$600, two  
\$675, and one \$700.

The census shows 4,491 persons of  
school age, of whom 2,114 are en-  
rolled. The average daily attendance  
was 1,180. The kindergarten enroll-  
ment was 197, the first grade 783,  
second grade 446, third grade 261,  
fourth grade 174, fifth grade 129,  
sixth grade 51, seventh grade 22,  
eighth grade 17, ninth and tenth  
grades 8.

Three school libraries with 150 vol-  
umes valued at \$145 were reported.  
Eighteen of the school houses are  
owned, eight are rented and one is  
framed, twenty-one adobe, three are  
timber. Two are of brick, two are  
in excellent condition, four in good  
condition, ten in fair and ten in poor  
condition.

## FAST FARM TO BE CONVERTED INTO COUNTRY ESTATE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Carlsbad, N. M., Dec. 5.—The lower  
Hagerman farm forms today the largest  
and most improved tract under way  
in the Carlsbad district. W. H. Har-  
rison, bought this farm some months  
ago for a family estate and a vast es-  
tate it is, stretching across two town-  
ships and reaching back over the hills  
east of the Pecos river. It has a right  
to water from the river for about 3,  
200 acres. The farming lands are in  
three divisions. The upper was im-  
proved long ago, being about the oldest  
in the valley. Mr. Harrison has  
given the second division his atten-  
tion first and has planted about 750  
acres to alfalfa. The lower part, a  
beautiful flat pushing back among the  
hills, is still untouched. Mr. Harrison  
has also made application for a power  
project. Carrying the water about a  
mile in his canal and dropping it back  
into the river channel he can develop  
50 horsepower without any further  
cost except for machinery and build-  
ing. Hogs and alfalfa will be the  
main business at first. He thinks well  
of the red hog and has about 300  
registered hogs on the place now.  
About 200 are bred to come in during  
the winter. Part of the stock was  
bought in the valley and a car was  
shipped in.

## ASSISTANT TO GENERAL MANAGER F. C. FOX

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Topeka, Kan., Dec. 5.—Announce-  
ment is made from the general offices  
of the Atchison, Topeka & Santa Fe  
railway in Topeka of the appointment  
of E. A. Goeldner as assistant to the  
general manager of the western lines  
of the road with headquarters at  
Amarillo, Tex. This position, recently  
created, is in the office of F. C. Fox,  
general manager.

E. A. Goeldner was at one time sec-  
retary to Mr. Fox when the latter was  
general superintendent of the eastern  
lines of the Santa Fe with headquar-  
ters in Topeka. He was here several  
years in this capacity and left in 1910  
when Mr. Fox was promoted to gen-  
eral manager. He was made chief  
clerk in that office, which position he  
has held until this time.

This promotion gives the Santa Fe  
assistants to the general managers of  
both the eastern and western lines.  
H. B. Lutz has been assistant to the  
general manager of the eastern lines,  
with headquarters in Topeka, many  
years.

## SIXTEEN TONS OF WOOL SHIPPED BY GRANT COUNTY FIRM

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Silver City, N. M., Dec. 5.—W. E.  
Brewer, manager of the Boulevard &  
Kno warehouse, shipped last Satur-  
day a straight carload of wool which  
had been stored in that warehouse for  
the past six months. The total weight  
of the wool was in excess of sixteen  
tons. The wool came from the goat  
ranch of Pat McCreedy, near Silver  
City. Mr. McCreedy is one of the most suc-  
cessful goat and wool men in this sec-  
tion of the southwest.

## The Day in Congress

### SENATE.

Met at noon.  
Ratification of democratic currency  
bill program delayed.  
Consideration of Hetch Hetchy bill  
resumed.  
Interstate Commerce commission  
postponed consideration of trust bill.  
Recessed from 6 p. m. to 8 p. m.

### HOUSE.

Met at noon.  
Hearings on La Follette seaman's  
bill continued.  
McGill-Dyer election contest set  
for hearing on December 15.  
Debated southern omnibus claim  
bill without reaching a vote.  
Adjourned at 4:50 p. m., until noon,  
Saturday.

## WHITEWATER-TYRONE RAILROAD BEING USED BY FREIGHT TRAINS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Silver City, N. M., Dec. 5.—Work  
trains over the El Paso & Southwest-  
ern railroad are now running from  
Whitewater to Tyrone and it will not  
be very long before passengers and  
freight will be delivered at the latter  
place.

The Phelps-Dodge people have had  
a very large town or camp surveyed  
and laid out and within some two or  
three months Tyrone will be a bust-  
ling town and by the end of next  
year, it is asserted, it will be a much  
larger mining camp than Santa Rita.  
The delivery of machinery for the  
concentrator to be erected at Tyrone  
will begin soon and the erection of  
the mill will probably begin some  
time in January. The tunnel connect-  
ing the Chemung mine at Tyrone with  
the mine at Leopold is receiving its  
finishing touches and will soon be  
ready for the building of the electric  
railroad through it which is to be  
used to convey ore from the Leopold  
mine to the concentrator which will  
be located at Tyrone. The tunnel is  
a little over a mile long and the ore  
cars will be operated by over-head  
wire the tunnel being nine feet high  
and about eight feet wide. The  
Phelps-Dodge store at Tyrone, it is  
understood, will be a large affair and  
will do a wholesale as well as retail  
business.

There has been talk that the com-  
pany may extend the railroad from  
Tyrone to the Mogollon mountains,  
thence to the coal fields owned by the  
Phelps-Dodge company. The line for  
this road was surveyed about ten  
years ago by the company's engineer,  
J. V. Bergen, who carefully estimated  
and fixed the grades and made a  
map of the entire line. The line, it is  
said, crosses the Mogollon range of  
mountains about seven miles so as to  
avoid the tremendous mountains among  
which Mogollon is situated.

Just now the Mogollon mountains are  
full of miners doing assessment work,  
one company having forty men at  
work.

The chief engineer and general  
manager of the Phelps-Dodge com-  
pany, E. M. Sawyer, who went to New  
York some three weeks ago to be  
married, has returned to Tyrone, and  
the bachelors out at Tyrone, Friday  
night, will tender him and his bride  
a reception and dance. The affair will  
be held at The Pines, a spacious and  
handsome building which is to be the  
headquarters of the big company.

## SAN JUAN COUNTY HAS CO-OPERATIVE CANNING FACTORY

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Aztec, N. M., Dec. 5.—San Juan  
county has a new co-operative can-  
ning factory in the Rose Hill Manu-  
facturing company, of Hood. This  
company is composed of Rev. D. E.  
Furney, of this city, L. J. Ciolek and  
J. H. Overholser of Farmington and  
James Chandler of Hood, on whose  
ranch the plant is located. Last season  
this company shipped in a quan-  
tity of cans and put up peaches, pears  
and grapes in this form, and in addi-  
tion made up apple butter and pas-  
teurized apple cider and grape juice.  
An attractive label is placed on all  
the products of the company, which  
are guaranteed pure and of the best  
quality. The coming season a plant  
on the order of the one at Hood will  
be installed at Aztec by this com-  
pany, which has a greater demand for  
the finished product than it can fill.

W. H. Chrisman, who represented  
San Juan county in the last state leg-  
islature, left Saturday for Washington,  
where he will be a delegate to the  
convention of the National Anti-Sal-  
oon league, which meets at that city  
on December 10th. The twentieth an-  
niversary of the founding of the  
league will be celebrated at the above  
named time, and Mr. Chrisman will  
support the movement to urge upon  
the national congress the adoption of  
a prohibition amendment to the con-  
stitution of this country.

On December 8th the election ac-  
cords at Aztec as to whether the town  
shall be "dry" under the provisions  
of the state law passed at the recent  
session of the legislature. There have  
been no saloons in Aztec since 1907,  
when by ordinance the town prohibi-  
tion was established. It is intended that  
Aztec and Farmington as well as San  
Juan county shall be legally "dry" ter-  
ritory so as to come under the opera-  
tions of the Webb law. This law,  
however, provides that the state must  
have prohibitory laws before it can  
be invoked, and the law of New Mexico  
has not got at this time.

## SANTA FE MAY HOLD PROHIBITION ELECTION

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, N. M., Dec. 5.—An or-  
dinance providing for a prohibition  
election in Santa Fe is being prepared  
and will be laid before the city coun-  
cil at its next meeting or in the very  
near future. A lively fight is antici-  
pated and the question is to be set-  
tled before the regular city election.  
R. L. Baca, speaker of the house and  
president of the city council, predicts  
that prohibition will carry in the cap-  
ital and that the Ancient City will be  
dry after April next.

## 500 FEMINE COPS ON NEW YORK FORCE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
New York, Dec. 5.—The "femine  
cop" is now doing voluntary police  
duty in a quiet way throughout this  
city. Many of the girl "cops" are still  
in school. Their efforts are being di-  
rected to the prevention and suppres-  
sion of vice, crime and ignorance.  
Several of them are very young—their  
ages ranging from 12 to 18. They  
wear badges and are divided into  
"beats." Each girl is responsible for  
her own district and reports any ir-  
regularity to the head of the organi-  
zation, who sends in a report to the  
city official. Before a girl be-  
comes a member of the force she  
signs a pledge in which she promises  
to help in maintaining sanitary con-  
ditions in the streets and in the homes.  
They are pledged to be on the alert  
for violations of the building law,  
keep fire escapes free from rubbish,  
and to be on the lookout for conta-  
gious diseases. They are instructed  
to prevent any of their weaker sis-  
ters from straying from the path  
called "straight." In fact, they are  
to report any crime or evil conduct  
they see. One of the most important  
duties, and one in which they are  
of great assistance to the various re-  
scue societies, is their work in dance  
halls, moving picture theaters, ice

cream parlors and similar centers of  
amusement. Through the older girls  
who attend the dances the organi-  
zation is able to furnish police officials  
reports that will supply the latter  
with evidence enough to clean the  
dance halls of the vicious element.  
If the "police" girls prove as success-  
ful as the "police boys," an organi-  
zation that has been in operation for  
some time, it is believed that the  
entire city will be greatly benefited.

## GERMAN BARON ON WAY TO CONFER WITH VILLA

Von der Goltz, Friend of Ma-  
dero, in Albuquerque on  
Way to Chihuahua to Meet  
Rebel General 'on Business'.

Baron Von der Goltz, a German  
whose name has appeared several  
times in press dispatches from Mexico  
as a Maderista and afterward as a  
revolutionary sympathizer, arrived  
here yesterday afternoon from Los  
Angeles on his way to Chihuahua for  
a conference with General Francisco  
Villa. He left at 12:25 o'clock this  
morning on the El Paso train.

The baron has been in Los Angeles  
for several months as the guest of  
General Del Campo. He was wounded  
last June in the battle of Mapula be-  
fore Chihuahua and found on the  
field by Colonel Lopez. Von der Goltz  
was sentenced to be executed, but  
friends in the federal army assisted  
him to escape.

Von der Goltz then made his way  
to the border. When he reached Los  
Angeles he was in a serious condition,  
with the bullet wound in his abdomen  
and fever. He recovered recently.

Von der Goltz was secretive in re-  
gard to his mission to Villa. He said  
only that he was going to see Villa  
'on business,' and further than that  
nothing more explicit.

The German nobleman went to Mex-  
ico shortly after Francisco I. Madero  
took up arms against President Diaz.  
He was in Mexico when Madero was  
killed—'murdered,' Von der Goltz  
says.

Von der Goltz believes that social  
conditions would improve in Mexico  
if Carranza and Villa gain control of  
the government. The greater part of  
the constitutionalist armies is made  
up of Mexicans who have come in  
contact with foreigners in Sonora,  
Chihuahua and Coahuila, and they are  
fighting to secure for their children  
the educational and social advantages  
of other countries, according to the  
German. He takes an idealistic view  
of the purposes of the rebels in war-  
ring with President Huerta.

"Observe that the revolution is con-  
fined to northern Mexico where Mexi-  
cans have met aliens," he said con-  
vincingly. "Some foreigners say the  
Mexicans are indolent. That is not  
their fault. If you knew that no mat-  
ter how hard you worked you never  
would be able to escape debt perhaps  
you, too, would sit in your adobe and  
smoke cigarettes."

## "THE ROSE MAID" AT ELKS THEATER TONIGHT

"The Rose Maid," the up-to-the-  
minute new comic opera which comes  
to the Elks theater tonight, is real  
genuine comic opera. There are frisky  
and pettie brouhahas, bewitching me-  
dium and stately show girls galore.  
In fact, it is a veritable roachden  
den of girls—each one of the peach  
variety, but the pleasing feature of  
this attraction is that it does not de-  
pend upon the girls to capture the  
hearts of its audiences. There are  
many other things in it worth while.  
Bruno Granichstaedten, the composer,  
has supplied an evening of music sure  
to make an opera popular. The  
Smith Brothers have supplied a full  
quota of comedy, while the original  
librettists have written a book full  
of pleasing romance. What more  
could one ask except for a clever  
cast? This Frank C. Payne has sup-  
plied together with one of the most  
pretentious scenic equipments seen in  
comic opera in these many days—the  
result is a real success.

### NOTICE.

To our friends and patrons. It hav-  
ing come to our ears that certain par-  
ties are soliciting and doing cleaning,  
pressing and dyeing in the name of the  
Coffield Dry Cleaning Co., we hereby  
give notice that we have no solicitors  
nor representatives other than our-  
selves.

## TRIAL OF DECEMBER DOCKET BEGUN BY JUDGE RAYNOLDS

Evidence in Case of Chavez  
Against Field, as Adminis-  
trator, Taken; Arguments  
to Be Heard Later.

With the taking of evidence in the  
case of Tiffilo Chavez against Neil B.  
Field, executor of the estate of Solo-  
mon Luna, Judge H. F. Reynolds, of  
the district court, yesterday morning  
began the December docket of cases  
set for trial without jury.

The evidence in this case was com-  
pleted, but it was continued for argu-  
ment by the attorneys. Judge Ray-  
nolds did not set the date for hearing  
the arguments. Chavez asks judg-  
ment for \$2,000, alleging that amount  
is due him for work performed while  
in the employ of Mr. Luna.

In the case of Mary Lester Field  
against Clarence A. Hudson, Judge  
Raynolds approved the report of com-  
missioners appointed by him to make  
a partition of property.

The A. T. & S. F. Railway Co. was  
granted permission in an order, signed  
by Judge Reynolds, to file an amend-  
ment to its complaint in its case against Isaac  
Barth.

Lewie Frank McCoy received a de-  
creed of divorce from Mrs. Dora Witt  
McCoy. He charged her with aban-  
donment. The defendant failed to en-  
ter appearance.

In the case of the Albuquerque Car-  
riage company against Frank Acker,  
Judgment was rendered by Justice W. W.  
McClintock's court, judgment was  
granted by default for the company.

The court found that the defendant  
was indebted to the plaintiff in the  
sum of \$22.52.

Judgment in pursuance of the ver-  
dict recently returned by a jury was  
granted in the case of H. C. Preston  
against Felipe Silva, in favor of the  
defendant. Silva is to recover costs.

In the matter of the estate of Alice  
A. Phillips and Isaac Barth, adminis-  
trator de bonis non, against Frank  
B. Phillips and Norman Phillips,  
Judge Reynolds issued an order for  
the sale of real estate. The defend-  
ants agreed to the sale, according to  
the order. Senator Barth was or-  
dered to sell the west 142 feet of lot  
2, block 8, Lewis & Simonds addition,  
for not less than \$1,900 and to satisfy  
claims against the estate out of the  
proceeds.

## VIOLATION OF SEWER ORDINANCE, CHARGE AGAINST 6 PERSONS

The police yesterday served six  
warrants, charging violations of the  
sewer ordinance. Police Judge George  
R. Craig issued the warrants upon the  
complaint of F. M. Morgan, assistant  
building inspector. The persons named  
in the warrants are Nick Metz, Ben  
Sanchez, A. Viviani, E. H. Dunbar,  
John Newlander and Ramon Salas.  
They are to appear before Judge Craig  
this morning.
