Silver.
WASHINGTON, Dec. 29.—A final conclusion with respect to the Dockery resolution providing for an investigation of charges that representatives and senators were interested in a silver pool may probably be reached by the full committee soon after the holidays are over. The committee when the last business was considered, discussed the advisability of summoning a few witnesses to be interrogated under oath before deciding what report to make to the house on the resolution.

Deep Harbor Bids.
GALVESTON, Texas, Dec. 29.—Government bids were opened here Saturday for completion of the jetties. Five bids were received, the lowest being that of John H. Moore and A. M. Newton, of New York. The total cost of sandstone and railway, \$5,602,870; total cost of granite and railway, \$4,629,680. The bids received were for the entire work it is intended to construct, the new jetty out to about twenty-four feet of water and the south jetty to the outer coast of the bar where the depth is twelve feet. Then, if necessary, both jetties will be continued to a depth of thirty feet of water in the gulf.

States Can Fix Rates.
LANSING, Mich., Dec. 29.—The last Michigan legislature passed a bill known as the Chapman graded fare bill. It reduces railroad fares, fixing the basis of rates on the amount of passenger earnings per mile. The Chicago & Grand Trunk, which was one of the roads whose passenger tariff was cut down by this law, refused to accept its provisions, and a test case was carried to the supreme court, the company holding that the law was unconstitutional. In a decision handed down to-night the court unanimously holds that the law is constitutional and valid.

Revising Kansas Laws.
TOPEKA, Dec. 29.—The committee appointed at the last session of the legislature to revise and modify the existing laws of Kansas has completed its labors and rendered its report to Gov. Humphrey this evening. The following are the most important changes proposed: Providing for free public school text books for a state board of public works; for the election of railroad commissioners; a state board of charity; a sweeping reduction in the salaries of county officers; the taxing of actors' values of property and limiting the privileges of state banks. The lesser changes involve lower prices for printing; the codification of school laws; the consolidation of the state library and historical society; the reduction of prison expenses; a lunatic asylum at Hutchinson; the revision of the laws governing the agricultural department and a reduction in the number of judicial districts.

Bank Failures.
DENVER, Dec. 29.—A special from Greeley, Colo., to the Republican says that Hunter & West, bankers, made an assignment to D. B. Sanborn. The firm's liabilities are placed at \$33,000; the assets \$95,000. It is believed that the creditors will have a hard time getting their money.
San Antonio, Texas, Dec. 29.—The Maverick bank of this city has been compelled to close its doors after a run of three weeks duration with liabilities of \$844,164, and assets of \$1,789,915, as shown by the schedules of assignment. The assets while more than double the amount of the liabilities consist largely of real estate and securities which can not be realized on immediately without a sacrifice, and the policy of the assignee will be to avoid sacrificing the interest of the creditors by hasty action.
The Alamo brewery, Maverick Printing house, San Antonio Paint company and Alamo insurance companies, in all of which Mr. Maverick has large interests, are not affected by the bank's closing and are being conducted uninterruptedly and without any change of management.

ROUND ABOUT TOWN.
Among those who spent a few days last week in this city none were more welcome than D. L. Miller, of Los Cerillos, N. M. He is an old time New Mexico miner, and the owner of valuable producing coal property in Santa Fe county. Of course the Bulletin office was his headquarters during his stay.—El Paso Bulletin.

A Santa Fe man picked a mess of green lettuce out of his open garden yesterday and in some sheltered places the swelling of lilac buds indicates that winter is nearly gone. Truly, Santa Fe can boast the finest climate on earth.

Letters to the Las Vegas Stock Grower indicate that there will be a very large attendance at the meeting of stockmen on January 7 at Santa Fe.

FRANK SPERLING MURDERED.

A Terrible Tragedy at Magdalena—Details of the Dark Deed.

Special to the New Mexican.
SOMOCORO, N. M., Dec. 28.—Last evening about 11 o'clock Frank Sperling, of Sperling Bros., of this city, was murdered in his store at Magdalena by two Mexicans whose names are not known, but who are understood to be.

It seems Mr. Sperling discharged a Mexican he had working for him who had been caught stealing. It was Mr. Sperling's custom to stay in the store late at night to close up the day's work. For a several evenings this Mexican had crept into the store, and his conduct excited Mr. Sperling's suspicion. Last evening when the clerks went out they asked Mr. Sperling if they should lock the store. He said no he would close it when he came out; this was the last seen of him alive. When Mr. Barnes went into the store this morning he found Mr. Frank Sperling lying just outside the railing of his desk, with his throat cut from ear to ear, in fact his head nearly cut off, the back part of his head crushed in by a heavy blow; a knife-cut in the mouth and three of his teeth lying beside his dead body. He had evidently been caught by the wrist and had a student lamp in his hand, as the flash on his wrist was torn off in his evident struggle to get away. The lamp was broken and water had been thrown on it to put it out. The store was robbed and his watch taken. From the store tracks were followed to the Mexican's house where boots and clothing covered with blood were found. The Mexicans were arrested and are now in the hands of the officers.

Mr. Sperling was one of our best men, in fact, had not an enemy in the city. The murder has cast a gloom on our entire community, as no one stood better or was more respected than Frank Sperling.

Confident of Their Merit.

Miss A. M. Peters, Montclair, Ala., writes under date of September 22, 1888: "Enclosed please find \$1 for which I send its value in Brandreth's Pills. I would like to have them at as early a date as possible, as there is a considerable yellow fever scare in this part of the state. In Decatur, Ala., about twenty-five miles from this place, fifteen cases are reported. I intend to try your pills on any case that may appear in my family. I have full confidence that if they are taken in time they will cure it, and almost any other disease."

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me no little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

Notice of Sale.

Notice is hereby given, that whereas, Nestor Roibal and Maria B. de Roibal, his wife, did, on the 23rd day of February, 1889, execute, acknowledge and deliver to Charles Haspelmath their mortgage deed, which deed is duly signed and acknowledged by the said Nestor Roibal and Maria B. de Roibal, his wife, and recorded in the office of the probate clerk

and ex-officio recorder of the county of Santa Fe, in the territory of New Mexico, in book "E" of mortgages, at page 450, on the 1st day of March, A. D. 1889, conveying to the said Charles Haspelmath all the following described lots, tracts and parcels of land and real estate, situated, lying and being in the county of Santa Fe and territory of New Mexico, and more particularly bounded as follows, to wit: A parcel of land situate in Canoncito, in the county of Santa Fe aforesaid, on the public road leading from the city of Santa Fe to San Miguel, near the entrance of the Canon de los Apaches, and being a part of the ranch known as "El Rancho de Nuestra Señora de la Luz," being one-third of the 1,000 acres of land measured from north to south, and bounded on the north by Canon de los Apaches, and on the south by lands pertaining to aforesaid Ranch; on the east by the road leading to Canoncito, and on the west by the lands of De la O, known as the Canales de los Alamos. Also, the homestead of the said Nestor Roibal and wife, in Canoncito aforesaid, bounded on the north by government lands, on the south by the Manzanares tract, on the east by the Manzanares grant and on the west by government land. Also any other and we may have in Canoncito aforesaid, and whereas, said mortgage deed was made to secure the payment to the said Charles Haspelmath, or his order, one certain promissory note of even date with said mortgage deed, for the sum of eleven hundred and fifty-one dollars and fifty cents (\$1,151.50), payable eighteen months after its date, with interest at the rate of 12 per cent per annum, from date until paid, and the said mortgage deed authorized and empowered the said Charles Haspelmath, or his agent or attorney, in case of the failure of the payment by the said Nestor Roibal and wife, their heirs, executors, administrators or assigns of the said sum of money, in said promissory note specified, when the same should become due and payable, together with all interests that may have accrued thereon, to take possession of said granted premises and real estate, and after having given notice of the time and place of sale, by notice published in some newspaper printed in the county of Santa Fe, and territory aforesaid, at least ten days prior to the sale, to expose and sell said property at public auction, to the highest bidder for cash, and to execute and deliver to the purchaser or purchasers thereof, a good and sufficient deed or deeds therefor, and to apply the proceeds arising from said sale to the payment of said note, and the accrued interest thereon, having first paid out of the proceeds the costs of said sale, and the residue, if any should remain, to be paid over to the said Nestor Roibal and wife.

And whereas the whole of said indebtedness, together with \$106.57, interest thereon, is now due and unpaid, and will on the day of sale hereinafter mentioned, amount together with principal and interest to the sum of twelve hundred and fifty-eight dollars and seven cents (\$1,258.07). Now, therefore, I, the undersigned, the party of the second part and mortgagee in said mortgage deed, by virtue of the power and authority vested in me, will on Saturday the 10th day of January, A. D. 1891, at the front door of the Santa Fe county court house, in the town of Santa Fe, N. M., at the hour of 12 o'clock noon on said day, expose and offer said premises and real estate for sale to the highest and best bidder for cash.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, DECEMBER 29.

A CHANGE of the fee system ought to be had; the tax payers so demand.

A CALL has been published for a meeting of cattle raisers to be held in this city on the 7th instant. The call is signed by several reputable cattle men and yet this territory has a Territorial Cattle association fully organized, and one that has done much good in the past; of this Col. J. W. Dwyer, of Raton, is president and Col. Rynerson vice president. It strikes the New Mexican that the Territorial Cattle association is the proper medium through which to lay before the legislature the desires of the cattle growers of New Mexico for needed legislation. Is the Territorial association dead or is it not? If not, why does it not start in and do its legitimate work?

JUDGE SEEDS IS ALL RIGHT. Judge Seeds acted promptly and justly in the matter of the Taos county officials, who showed contempt for the writ of his court. It was well that these men were given to understand that the court's orders must be obeyed and its dignity respected. All law abiding and well meaning citizens will pay due heed to the court's orders anyway and the lawless portion of the community must be made to obey the orders and respect the dignity of the court. The sooner this is fully and clearly understood the better for the people, the court, and the administration of justice. The good and decent citizens of New Mexico approve the course of Judge Seeds in these matters fully; in fact a little of this course applied to some of the law breakers and their legal advisers in this county would prove very wholesome and of benefit all around.

THE EDITOR OF THE NEW MEXICAN VS. THE BALLOT BOX THIEVES AND BALLOT BOX STUFFERS.

The attention of the editor of this paper has again been called to the fact that the blackmailing Santa Fe Sun of recent date contains another installment of lies, slanders and false statements and foul and dirty language about him. The editor of this paper has already publicly branded J. H. Crist, who is presumed to edit the blackmailing sheet in question, as a cowardly, dirty and unscrupulous liar, who runs a blackmailing sheet in the interest of a gang here that has robbed the tax payers of this county, has stolen ballot boxes and is guilty of worse and darker crimes. As stated before the fellow has absolutely nothing to lose; he has no character, no standing, no manhood and decent people do not associate with him. He might be brought to account in the courts, but as the fellow has nothing to lose, and as the laws of the territory concerning slander and libel are insult-

cient and unsuitable, there would be not much use in that. His cowardly hide is not worth a breath of the peace, and no man, who is a man, could become himself by a personal encounter with him, unless the fellow makes the first break, which he is hereby asked to. In the meantime the editor of this paper can not be harmed by the lying, blackmailing and cowardly assaults in the blackmailing sheet by this cowardly liar or the still more cowardly liars behind him. The editor of this paper has the respect and good will of the best portion of the people of New Mexico; as for the animosity of the ballot box stuffers and the lawless and law breaking element generally, the editor of this paper thinks it an honor to have gained it. We will be found at this same old stand doing good for the people of New Mexico, for the county and for the city of Santa Fe, and upholding right, law, order and justice in spite of all the blackmailing sheets and all the cowardly liars like Crist and his fellows. And we will have the good will and respect of the good and honest people for all that and in all that.

CLIMATIC CURE AND CONGRESS.

A scandal is growing up around Prof. Koch's "lymph" and its manufacture and application, and the bottom seems likely to fall square out of the professors' booming consumption cure. The wholesale manufacture of the article has proven a failure. Congress should therefore go slow in taking favorable action on Senator Platt's resolution to appropriate \$100,000 for the purchase of a supply of this remedy. It is entirely too precious; better wait until some cures have really been effected. Congress, however, might very appropriately take action looking to the establishment of a national sanitarium somewhere in the Rocky mountain region where the cure of pulmonary diseases from the effects of the climate constitute the rule rather than the exception. Or better still, appropriate \$100,000 to enable a national medical commission to carry on a series of experiments looking to the selection of, say, three points within the boundaries of the United States where all the conditions—location, altitude, dryness, purity of atmosphere, temperature, water, etc., etc.—combine best for the cure of lung troubles in its various stages. Three points are suggested because a climate that will benefit, if not completely cure, one patient is said often to be detrimental to another. Medical science is quite at sea on this subject, as it is regarding the effect of altitude upon the action of the heart. Again the "climatic cure racket" has been worked to death by town lot boomers, irresponsible physicians and penny-a-line pamphlet writers. Figures purporting to give statistics on the subject are twisted and facts garbled to such an extent that reputable men in medical science have in many cases been misled into advising their patients as to the benefits to be derived from a residence in a certain locality, and thus has nature's own wonderful cure for consumptives—the pure dry air of the Rocky mountain region—been brought into odium.

Not alone in Germany, but even in the United States, a comparatively new country, do more people die annually of lung troubles than all other diseases combined. This is a startling revelation and shows how plain is the duty of congress to take some hand in an attempt to arrest such mortality. No better beginning could be made than by the appointment of a commission learned in medical science which shall carry on a series of investigations and provide something like accurate data on the subject over its official seal for the benefit of a suffering humanity. We respectfully submit the matter to the press and people of the west and to congress.

THE LEGISLATION THEY WANT.

Necessary Amendments. There will be a general demand upon the next legislature for a repeal of the three hundred dollar exemption clause in the tax law, and the demand should be heeded. The repealing act ought to be passed without a dissenting voice—not that we would impose any burdens of taxation upon those who are not able

to bear them, but because we would close the door to fraud against those who take advantage of the exemption clause to evade taxation upon thousands of dollars worth of property. The man who owns but \$100 worth of property would only be required to pay a dollar or two every year toward the support of the government, but it is as much his duty to pay that one or two dollars as it is the duty of the rich man to pay his \$200 or \$300 a year. The true theory of Republican government is that there should be no favored class, but that the burdens of government should be imposed upon all classes equally, in proportion to their ability.—Albuquerque Citizen

Sticks to the Fee System.

Several of our exchanges are raising a howl about the fee system for the compensation of officers. However pernicious the fee system may be, the public will find that it is better served under it than it will be under a salary system, and besides it appears to be the only way in which the compensation of an officer can be fairly adjusted to the services rendered.—San Marcial Reporter.

Wants an Incorporation Act.

There seems to be a general demand throughout the territory for a law that will permit towns to incorporate whenever a majority of the citizens of a town desire to assume such responsibility. In the event of the passage of such a law by the incoming legislature, Raton will doubtless give its citizens an opportunity to say whether or not we will incorporate.—Raton Range.

Is After the Railroads.

Is it not about time that the railroads of New Mexico were paying their just proportion of the territorial tax?—Albuquerque Citizen.

THE LEGISLATION THEY WANT.

There are a few blackmailing papers of alleged Democratic tendencies in New Mexico that ought to be made decent and that is the way to make them decent. The people would be the gainer thereby.

WHAT AILS YOU? You feel tired—Do you know what it means? You are nervous—Why? You cough in the morning—Do you realize the cause? Your appetite is poor—What makes it so? You seem like a changed person to your friends—Do you know what is the matter, or has the change been so gradual it has escaped your notice?

You have Consumption!

We do not say this to frighten you, but it is true. These are the sure symptoms of this terrible disease. There is one thing which will check it and that is

A RELIABLE FAMILY NEWSPAPER.

That is the Character Almost Universally Given to

THE WEEKLY INTER OCEAN.

So great is its popularity that for years it has had the LARGEST CIRCULATION of any Chicago weekly newspaper.

It is able and carefully edited in every department with a special view to its usefulness in THE HOME, THE WORKSHOP, and THE BUSINESS OFFICE.

It is a Consistent Republican Newspaper.

But discusses all public questions candidly and ably. While it gives fair treatment to political opponents, its bitterest OPPOSED TO TRUSTS and MONOPOLIES is antagonistic to public and private interests.

THE LITERARY DEPARTMENT of the paper is excellent, and has among its contributors some of the MOST POPULAR AUTHORS of the day.

THE FOREIGN AND DOMESTIC CORRESPONDENCE, SERIAL AND SHORT STORIES are the equal of those of any similar publication in the country.

The Youth's Department, Curiosity Shop, Woman's Kingdom, and The Home ARE IN THEMSELVES EQUAL TO A MAGAZINE.

In addition to all this THE NEWS OF THE WORLD is given in its columns every week. In all departments it is carefully edited by competent men employed for that purpose.

THE PRICE OF THE WEEKLY INTER OCEAN IS \$1.00 PER YEAR.

THE PRICE OF THE SEMI-WEEKLY INTER OCEAN IS \$2.00 PER YEAR.

to bear them, but because we would close the door to fraud against those who take advantage of the exemption clause to evade taxation upon thousands of dollars worth of property. The man who owns but \$100 worth of property would only be required to pay a dollar or two every year toward the support of the government, but it is as much his duty to pay that one or two dollars as it is the duty of the rich man to pay his \$200 or \$300 a year. The true theory of Republican government is that there should be no favored class, but that the burdens of government should be imposed upon all classes equally, in proportion to their ability.—Albuquerque Citizen

Sticks to the Fee System.

Several of our exchanges are raising a howl about the fee system for the compensation of officers. However pernicious the fee system may be, the public will find that it is better served under it than it will be under a salary system, and besides it appears to be the only way in which the compensation of an officer can be fairly adjusted to the services rendered.—San Marcial Reporter.

HISTORICAL

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico.

trade center, sanitary, archiepiscopal see, and also the military headquarters. An Indian pueblo had existed on the site previous to the 13th century. Its name was Opat-ho, but it had been abandoned long before Coronado's time.

The Spanish town of Santa Fe was founded in 1605, it is therefore the second oldest European settlement still extant in the United States. In 1891 came the first venture into the territory of the present day Santa Fe.

WOMEN AND MICE.

The reason why a woman is afraid of a mouse is a profound mystery. Indeed, it has never been very clearly proven that she is. But some women are constantly in such a nervous, irritable condition that the slightest thing annoys and startles them. The cause of this unfortunate state of affairs is usually some functional derangement; some disturbance of the regularity of the system, some derangement of the reproductive organs, or some other cause. From whichever cause it may arise, Dr. Pierce's "Favorite Prescription" is a positive remedy. In every case, it cures results that its manufacturers sell the giving satisfaction. In every case, it cures results that its manufacturers sell the giving satisfaction. In every case, it cures results that its manufacturers sell the giving satisfaction.
