Mexico: January Trade Results

by John Neagle

Category/Department: General

Published: Tuesday, April 18, 1989

According to a report by the National Statistics, Geography and Informatics Institute (INEGI) released April 17, in January Mexico's trade surplus totaled \$99 million, after four months of trade deficits. The INEGI attributed the surplus to a 19.9% increase in non-petroleum exports. The largest increases in non-oil exports were recorded in the chemicals, machinery, rubber, paper, and minerals and metallurgy categories. Exports totaled \$1.763 billion, compared to imports valued at \$1.664 billion. (Basic data from Notimex, 04/17/89)
