WASHINGTON MATTERS.

WASHINGTON, Feb. 20.—The senate proceeded to the consideration of the substitute for the house bill to provide for the adjudicating and payment of claims arising from Indian depredations. Mr. Edmunds moved to strike out section 3 of the substitute which prohibits the allowance of any claim made by any Indian on the testimony of any witness of the Indian race. The vote was taken on Mr. Edmunds motion to strike out the third section and it resulted, yeas 22, nays 22, lacking one of a quorum.

HOUSE.
The conference report on the fortification appropriation bill was agreed to in the house.

The house then went into committee of the whole on the Indian appropriation bill. Mr. Curtis (Montana) offered an amendment, which was adopted, appropriating \$946,000 to carry out the agreement with the Crow Indians of Montana. An amendment for carrying out certain treaty agreements with the Sisseton and Wahpeton and other Indians was agreed to.

Mr. Holman (Ind.) offered an amendment, which was adopted, providing that the Cherokee nation may negotiate with the secretary of the interior for the sale of the Cherokee strip.

The committee then rose, reported the bill to the house and it passed.

Arizona Town in Danger.

CLIFTON, A. T., Feb. 20.—The Frisco river is booming and threatens to wash the town away. The river is rising a foot per hour, continuing six hours at that rate the town is doomed.

Speaker Reed Ill.

WASHINGTON, Feb. 20.—Speaker Reed is confined to his room at his hotel by a severe cold, which however, shows signs of improvement, for this reason the house has been compelled to elect a speaker pro tem.

Looks Like Foster.

COLUMBUS, Feb. 20.—A special from Fostoria, Ohio, says ex-Gov. Foster who is mentioned as the probable successor of the late Sec. Windom was yesterday called to New York by telegraph from President Harrison. Foster left for the east last night.

Brice's Project.

CHATTANOOGA, Tenn., Feb. 20.—Senator Calvin S. Brice and a distinguished party of western railroad men spent yesterday here. They are interested in working up trade with South America. Brice and they expected to establish thirteen lines of steamers from Brunswick and Mobile for South America.

Colorado Snow Slide.

DENVER, Feb. 19.—A special from Ouray, Colo., says: Ed. Miller is just in from the Lout mine and reports a snow slide there which took away the boarding house and six men, three were rescued and three perished in the slide. The names of the killed are Billy Nohlar, Tom Kendall and Wm. Kares. When Miller left they had just come to the hand of one of the men sticking up through the snow.

The Illinois Dead-Lock.

SPRINGFIELD, Feb. 20.—In the joint assembly the F. M. B. A. men once more cast their three votes for Streeter, their regular candidate for United States senator, but the Republican steering committee could not give him an undivided support. The 102d ballot resulted as follows: Palmer, 101; Streeter, 58; Oglesby, 17; Hunter, 4; Lindley, 3; Longnecker, 1. In the subsequent ballots some of the Republicans ranged about promiscuously, there being again a number of new candidates, among them the name of Judge Gresham.

ADDITIONAL LOCAL.

Albuquerque's Population.
For the information of the enterprising people of Albuquerque the following official announcement is published:

TERRITORY OF NEW MEXICO,
Office of the Secretary,
Santa Fe, Feb. 18, 1891.

I, Benjamin M. Thomas, secretary of the territory of New Mexico, acting under the provisions of, and in part compliance with the requirements of section 1071, Compiled Laws of New Mexico, 1884, do hereby certify that the governor, auditor and secretary of the territory, have this day ascertained and declared upon official information from the superintendent of the eleventh census of the United States, dated February 10, 1891, and now on file in this office, that the population of the town of Albuquerque is three thousand seven hundred and eighty-five (3,785), and that the said town of Albuquerque, is therefore entitled to become a city.

Witness my hand and the great seal of the territory, at Santa Fe, the capital, this 18th day of February, one thousand eight hundred and ninety-one.
BENJAMIN M. THOMAS, Sec'y.

RAILWAY WRECKS.

A Close Call on the Santa Fe Southern—
—Into the Bravo—Fainting Females
on the A. T. & S. F.

The soft weather and continuous rain having undermined the approach of the narrow gauge bridge over the Rio Grande, the north bound train yesterday had a very narrow escape. Engineer Blanchard felt the bridge give as his engine approached it, and he pulled the throttle wide open, hoping to bound over the structure before the crash came. This move prevented any loss of life. The engine broke away from the tender and sped across to terra firma; the tender and baggage car went through the bridge into the river, but strange to say the passenger coach stopped stock still before it reached the break, the engineer having thoughtfully put on the air brakes when he saw what was coming. Mail agent Schenck was in the mail car at the time it went down, and after rattling around in his apartment for a few seconds he was literally dumped out of the end door and fell into the water. He was uninjured and swam out. The mail was rescued and the passengers and mail transferred to Espanola by means of a D. & R. G. train. A force of men is at work repairing the break and trying to raise the mail car and tender from their muddy bed.

There is also some delay on the main line of the D. & R. G., no trains having come south of Alamosa yesterday, hence no Denver mail.
The A. T. & S. F. is also a little out of shape to-day. A broken rail between Sulzbacher and Bernal caused the west bound train to jump the track last night and the trucks of the engine and two or three coaches bumped along on the ties at such a rate as to frighten nearly everybody out of his wits, while as for the lady passengers, half a dozen of them fainted and the greatest confusion reigned. On this account the eastern mail did not arrive until 6 o'clock this morning, and the mail from the south was abandoned altogether.

Later report says that the north bound train is delayed by a burnt bridge below San Marcial. It is also current on the streets this afternoon that a very disastrous wreck occurred this morning on Ketchikan pass.

A Correction.

SANTA FE, N. M., Feb. 18, 1891.—I observe in notice of the decision of the court upon the plea in abatement interposed to the indictments against Frank Chavez, Romulo Martinez and others, in your issue of Monday last, that credit is given me for a part taken in those proceedings to which I am in no wise entitled. The argument upon those pleas was made almost entirely by Mr. Neill B. Field, of Albuquerque, who may justly claim the full credit of presenting the views taken by the attorneys for the defendants with such persuasive and convincing force as resulted in their adoption by the court, and expressed in an opinion to which I think there can be no successful answer. Very truly yours,
HENRY L. WALDO.

Everybody Knows

That at this season the food is filled with impurities, the result of months of cold weather, and February, these impurities, such as cholera, dysentery, salt rheum, or other diseases may be expelled by taking HENRY'S SARSAPARILLA, the best blood purifier ever produced. It is the only medicine of which "100 doses" is true.

ROUND ABOUT TOWN.

Invitations were sent out to-day for an entertainment to be given by the students of St. Michael's college on Sunday next in celebration of Washington's birthday. The entertainment takes place in the spacious college hall beginning at 7 p. m. The official reception by Gov. and Mrs. Prince last night was a brilliant affair, largely attended. Details in to-morrow's social column.

The wind and rain have played sad havoc with the capitol flags. It is in order to secure a couple of new ones.

The flag on the U. S. building is flying at half mast in honor to the memory of Gen. W. T. Sherman.

The Santa Fe mountains presented a magnificent scene of wintry beauty this afternoon.

All the hotels, including the Alamo have done a fine business during the past month.

Home grown radishes and lettuce have already made their appearance in the market.

In the district court a few U. S. cases of minor import are on hearing to-day.

The sun shines warmly to-day and the mud will soon be gone.

The New Mexican has facilities for doing first-class job work of all kinds and as cheap as can be had in any city in the country. There is no excuse for sending such work out of town, to Denver, Kansas City, Philadelphia or any other point. Keep the money at home.

Army Orders.

By direction of the secretary of war, the following changes in the stations of troops serving in this department are ordered:

Headquarters, lieutenant colonel, staff and band, 10th infantry, are relieved from duty at Fort Marcy, and will proceed to Fort Stanton and take station.

Company D (Duggan's), 10th infantry, is relieved from duty at Fort Marcy and will proceed to Fort Wingate, and take station.

Major E. W. Whittemore, and companies C (Davis') and H (Drum's) 10th infantry, are relieved from duty at Fort Union and will proceed to Fort Wingate and take station.

Major Richard Combs, and companies A (Bowman's), and F (Russell's), 9th infantry, are relieved from duty at Fort Wingate, and will proceed to Whipple barracks, A. T.

From a Leading N. Y. Florist.

C. F. Klunder, of No. 907 Broadway, New York, is one of the best known florists in America. Florists, like other persons, are subjects to the ills of life, notwithstanding the fragrance surrounding their calling, but like other persons they can be cured of their ills. Mr. Klunder writes:

"I cordially recommend Allcock's Porous Plasters. I have found them after ten years constant use, wonderfully efficacious in coughs, colds, pains in the side, back and chest. As chest protectors and shields against changes in the weather they are invaluable. My household men use a great many, and I and family are never without this never failing external remedy."

An eastern investment company of good standing and repute would like some man of integrity and push to represent them as general agent for New Mexico. To the right party a good offer will be made. Our bonds have a par value of \$100 and sold upon a payment of \$5, and monthly installments thereafter of \$2, maturing at an average cost of about \$40. FRIDAY, FEBRUARY 20.

ANNIVERSARIES.

February 20th.

BORN: David Garrick, 1716.

Voltaire, 1694.

DIED: Joseph Hume, 1855.

James I of Scotland assassinated, 1437.

The Republican council is doing well.

Pass the bill for the protection of New Mexico's horticultural industry.

Gentlemen of the house, if you do not care to pass the appropriations bill and provide for the expenses of the territory for the coming two years, upon you and your party will be the responsibility.

Arizona's legislature not only wants all the women in the country to enjoy the elective franchise, but insists that all foreigners shall vote after procuring their first papers. Rather rushing things.

Gentlemen of the house, pass the bill suppressing public gaming; the bill is for the benefit of the people and in the interest of gentlemen, and do what is right and fair in this matter.

Governor Prince and the law officers of the territory should take prompt and earnest measures to straighten out this muddle in the affairs of Santa Fe county; precious time is being lost and the thing gets worse from day to day.

The representatives of the people in the council will stand firm and act for the best interests of the people, of the tax payers and of the honest and law abiding citizens of New Mexico; they will hew to the line and let the chips fall where they may.

The venerable Hannibal Hamlin, vice-president of the U. S. under Lincoln, has been enjoying extraordinary courtesies in New York and Brooklyn, and in the latter city, when asked for his autograph he expressed a sentiment that will touch a responsive cord in the heart of all Americans. He wrote: "Let the birthday of Abraham Lincoln be made a national holiday."

The New Mexican has advocated the passage of a good American common school law; it was passed; it advocated the passage of a bill creating the office of county surveyor; it was done; the New Mexican urged the passage of an act taxing national bank shares; it was passed; we fought for the passage of a high license bill, and the bill went through; we are fighting for some more beneficial measures and we think they will go through; it will.

The Democratic house committee on the investigation of the books of the treasurer and auditor, although it tried pretty hard, could find nothing whereupon to charge the Republican treasurer and auditor with dishonesty or corruption. Very good that for the auditor and treasurer and for the Republican party; stripping the bombast and partisan rot

THE PENITENTIARY REPORT.

The report of the committee on penitentiary affairs failed to find any evidence that any corruption or dishonesty or extravagance existed in the management of the penitentiary during the past two years; when one compares the record of the institution during that time with the record made under Ross and Gable, if he is honest and fair minded, he will come to the conclusion that the present record is a clean and commendable one, whereas under Gable and Ross it was dark, rotten and bad. There is not much use talking about the report of the Democratic house committee on penitentiary; just such a report as was made, was expected; decent and sensible people will not believe it, and pay no attention to it. Democratic politicians and those interested on account of personal grievances and actuated by partisan and personal hatred will believe it and that is all there is of it.

CALIFORNIA AND NEW MEXICO COAL.

California has been having a very rough experience of late with its fuel supply, and the press on the coast seems at last to have come to the conclusion that it is better to patronize home institutions and seek to meet the emergency with New Mexico coals rather than longer depend upon the mines of Australia and other foreign countries. They have been a long time getting around to it, but this certainly is the sensible thing to do. There is no reason why the price of coal in California should be from four to five times greater than it is in New Mexico. This territory abounds with coal districts that as yet have scarcely been touched. The demand for coals in California is a large and reliable one, which can not decrease but must always advance as the state is settled up. Is it not time then that California capitalists were looking toward New Mexico with a view to investments that would prove mutually beneficial to this territory and the Pacific coast people? The field is an inviting one.

A SAVING OF ONE-HALF IN PENITENTIARY EXPENSES.

According to the report of the investigating committee of the penitentiary under Wardens Gable and Burnett it cost to maintain the prisoners per day the sum of \$1.08 each; and during the first year of the Republican administration 85 cents per day; and during the second year 74 cents per day; that is pretty good in itself coming from that committee; but as a matter of fact it cost under Warden Gable \$1.05 per day for the maintenance of the prisoners each, and under the Republican administration the first year 85 cents and the second year 74 cents per day each; under the Republican administration the expenses were reduced fully one-half or from about fifty-six thousand dollars per year during 1886, 1887 and 1888, to about \$28,000 per year during 1889 and 1890. That is a record the Republican party and the Republican administration need not be ashamed of and are not ashamed of; as to the Munich of a convict, of bad conduct of a couple of employees with one of the female prisoners, the great and glorious Democracy is welcome to all the party capital it can make out of the tale; it is not worth talking about by decent people; and if that is the worst that the report could do, the more copies of it there are published and circulated the better; the Republican party can not be hurt by it and the Democratic party can not be benefited by such trick.

What They Say About Matters Before the Legislature.

Turn the Territory into an Armed Camp.

Will the territorial legislature move, and move quickly and to the purpose, in dealing with White Capism? It is capable now of action that will stamp out this infamy. While the body is in session at Santa Fe White Cap notices of fearful import are still being posted in San Miguel county. Rather than to permit of such things, the territory should be turned into an armed camp. The militia—yes, the U. S. troops, should be ordered out and no end of treasure spent rather than this infernal infamy should not be stamped out.—Las Vegas Optic.

Drastic Measures Necessary.

The White Cap infamy in San Miguel county is no sudden nor sporadic growth. It has been a crime of notorious publicity for months and years. True, its growth has been slow, but traceable. This alone should speak with tremendous force of the thoroughgoing methods that are needed if this barbarity is to be ended. It would seem to the Optic that the most immediate and drastic action is necessary

WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that.

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that

DR. ACKER'S ENGLISH REMEDY

for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma, and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & CO., 46 West Broadway, New York, for book.

The White Cap Element.

Trustworthy reports from parts of San Miguel county are that the damnable and damaging White Cap element is again getting in its deadly work. Private improvements on property, the title to which is as clear as any mountain stream, will perhaps have to be stopped, unless speedy and effective remedies are applied; improvements that will cost many thousands of dollars and give steady and remunerative employment to hundreds of men.—Las Vegas Optic.

Dissolution Notice.

The firm of Dudrow & Hughes, freighters and dealers in coal, lumber, etc., is this day dissolved by mutual consent. C. W. Dudrow will continue the business, settle and collect all accounts. A continuance of the patronage and business of the patrons of the old firm is respectfully solicited. Persons indebted to the old firm will please settle up the earliest possible moment.
