Administrators' Notice.
The undersigned having been appointed by the probate court in and for the county of Santa Fe, N. M., administrators of the estate of Jane Koen, late of the said county, deceased, and having duly qualified as such hereby give notice to all persons having claims against the said estate to present the same to them as such administrators within the time required by law.

Dated Santa Fe, N. M., April 4, 1891.

A Card to the Public.
We have been suffering with gout and rheumatism for years, and have used everything that was recommended without getting any relief, until we used the XXX Liniment. After two applications we were relieved of all the pain and had a better night's rest than for years. Sold by C. M. Creamer.

Harry C. Stultz, who is a good barber and in fact an artist in his line, has severed his connection with the St. Julien barber shop and has opened an establishment in the Delgado building over Wunsche's insurance office. Give him a call.

Telegraphic Tidings

A. T. & S. F. March Settlement.
BOSTON, April 13.—The March statement of the Atchafalpa system including St. Louis and San Francisco gives aggregate gross earnings (approximated) at \$3,175,874, increase \$75,135.

Colorado in a Muddle.
DENVER, April 13.—A list of bills that passed the legislature on one reading only has been presented to Governor Routt. It is claimed that this irregularity of the legislature will invalidate all such measures. Attorney General Maupin holds this opinion.

The New Treasurer.
WASHINGTON, April 13.—It is now practically settled that Mr. E. H. Nebeck, of Indiana, will succeed Mr. J. N. Hinton, of the same state, as United States treasurer. The latter is now in Washington city and has had several conferences with the president.

Have Shut Us Out.
WASHINGTON, April 13.—The secretary of state has received information from the United States minister at Santiago, Chili, that the government of Chili has declared closed the ports of Chantai, Taitai, A. of fogata, Oculpa, Iquique, Colchagua, Juncal and Pisagua. The minister also states that all vessels attempting to trade with those ports are liable to confiscation.

Chicago's Big Political Fight.
CHICAGO, April 13.—Chairman Nye, of the Republican campaign committee has submitted the evidence which he has gathered in regard to irregularities at the late election to State Attorney Longnecker and the same was laid before the grand jury today. The names of the persons accused and the exact nature of the offenses charged are withheld.

The Standard Cell.
SPRINGFIELD, Ill., April 13.—In the house Saturday a bill was introduced to prevent discrimination being made in future contracts in favor of or against the standard gold or silver coins of the United States and to make said coins joint legal tender for all indebtedness hereafter contracted in the state of Illinois or outside of said state when collection by process of law is sought in the state of Illinois.

An Awful Record.
NEW YORK, April 13.—The total number of deaths in the city for the week ending at noon yesterday was 2,129 as against 1,100 for the preceding week. Eighty-three of these were due to bronchitis as against sixty last week, and 229 to pneumonia against 224. The total mortality for the twenty-four hours ending at noon was 174 including twenty-two where la grippe was the contributing cause of death. One hundred and eight persons died from the la grippe in conjunction with other maladies as against forty last week.

Land Office Business.
WASHINGTON, April 13.—Land Commissioner Carter is fast bringing order out of chaos in the General Land Department. To-day he is notifying all divisions that every business must be transacted in all quarters. He is desirous of having all work in local land offices, so far as is practical, brought up to date by June 1 next. Where necessary additional clerical hire is to be given to accomplish this result.

In harmony with this policy, purely technical, unnecessary and exacting requirements in the general land office are being dispensed with by instructions given by the commissioner from day to day, and from telegraphic advices received by the commissioner it is apparent that with the assistance proposed to be given business of all kinds, the office will certainly be brought up to date by July 1.

To Fight the Church.
St. Louis, Mo., April 13.—A special from San Antonio, Texas, says: The first annual meeting of the State liberal association was held Saturday. One hundred delegates from thirty-two cities attended. The president said that humanity had been too long dominated by the churches and ridden by the priests. It was the association's object to unshackle the human mind and allow it to face problems unclouded by superstition and intimidated by chuckling threats of a ridiculous hell fire. The secretary's report showed rapid growth. Five powerful series have been organized in cities of Texas. Five field, five preachers have been met in public debate and 17,350 free thinking books and pamphlets had been distributed. The delegates were all very enthusiastic and claim to be making much headway against established religion. They will be in session several days.

ITALY'S FRESH DEMANDS.
Uncle Sam Must Speak His Peace by Tomorrow or Suffer Annihilation.

Rome, April 13.—Several newspapers of this city say that they are able to confirm the report that if the United States government does not answer the Marquis Rudini's last note by a certain date, the United States Minister Hon. A. G. Porter, will be requested to leave Italy, and that the Italian legation in Washington will be recalled. Italian interests being left in charge of the British Minister. However, it is now asserted by the newspapers that the Italian government has given the United States government until Tuesday, April 14 in which to make reply.

If by Tuesday no reply is forthcoming from Secretary Blaine then, the papers declare, diplomatic communication between the two countries is to be wholly suspended. As a result of the newspaper assertions the report is given credence by many who at first regarded it as utterly without foundation.

The believers in Italian self assertion and a vigorous foreign policy are elated; the original source of the report seems to give it the best plausibility. This, it is learned, is a prominent member of the chamber of deputies who is an ardent supporter of Marquis di Rudini and who is believed to share his confidence. Whether or not the premier has actually decided already upon the extreme course indicated, it is unquestionable that this course is under discussion in high government circles, and meets with favorable comment. It may be the deputy who started the report supposed a decision had been reached when the subject was really only being considered, and it may be that the report was only given out to test public opinion before the cabinet should commit itself to so grave a step. Despatches from America hint that Secretary Blaine has already prepared his answer and that it is thought likely that the has already sent it to Rome instead of through Marquis Rudini. If that is the case he must have dispatched it by the post as it is certain that no reply has yet been received.

THE NEW LAWS.

ADMISSION OF CHURCH RECORDS IN EVIDENCE.
Section 1. Hereafter all church records purporting to show the date of the birth and baptism, marriage or death of any person shall be received as prima facie evidence of such facts so shown therein, in all the courts of this territory. Provided, that such records shall be first more than thirty years old; second, shall come from the proper custody; and third, shall be examined and inspected by the court, and upon such examination and inspection shall be found by the court to be free from all suspicion of fabrication, alteration or fraud of any kind: And provided further, that evidence shall be admitted or allowed in rebuttal thereof.

Section 2. This act shall be in force and effect from and after its passage.

Approved February 10, 1891.

SCHOOL BOOKS FOR THE INMATES OF THE TERRITORIAL PENITENTIARY.

Section 1. The sum of one hundred dollars, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the territorial treasury not otherwise appropriated, for the purchase of school books for the inmates of the territorial penitentiary. Provided, the warrants shall cause such books to be read to be instructed in the principles of reading, writing, and arithmetic.

Section 2. The Auditor of the Territory is hereby authorized to draw his warrant on the treasurer of the territory for the purposes and amount specified in this act, or so much thereof as may be necessary, upon the written request of the governor of the territory: Provided, that the board of penitentiary commissioners shall be authorized to purchase the books and deliver them to the superintendent of the penitentiary.

Section 3. This act shall take effect and be in force from and after its passage.

Approved February 10, 1891.

IN RELATION TO THE ELECTION OF JUSTICE OF THE PEACE.

Section 1. That section 1 of an act entitled "An Act in relation to the election of justices of the peace, and for other purposes," being chapter 113 of the session laws of 1889, be and the same is hereby amended to read as follows: "Section 1. That section 1 of an act entitled 'An Act in relation to the election of justices of the peace, and for other purposes,' being chapter 113 of the session laws of 1889, be and the same is hereby amended to read as follows: 'Section 1. That section 2 of the act mentioned in the foregoing section and the same is amended to read as follows: "The term of office of justices of the peace, constables and school directors elected to their respective offices on the second Monday of January, A. D. 1891, shall expire on the 1st day of February, A. D. 1893."

Section 3. All acts and parts of acts in conflict herewith are hereby repealed, and this act shall be in force and effect from and after the 1st day of May, 1891.

Approved February 10 1891.

TERRITORIAL TIPS.

The New Mexico Tool Manufacturing company is getting ready for business at San Marcial.

White Oaks Item: Since our last issue the Old Abe had another clean-up, creditable to it and flattering to its owners, who now propose putting in a first-class stamp mill.

The Columbia Building & Loan Association, of Denver, under the management of Mr. Wyckoff, has organized a most excellent board for Raton and is now ready for business.

John S. Isgrig, formerly of the Iconoclast of North Percha, and a retired drug man, is superintendent of the Graphic mine of Cook's Peak, of which he is part owner.—Hillsdale Advocate.

The Socorro Advertiser says that never before in the history of mining in the Magdalena mountains has there been such activity as at present, and that the boom there bids fair to eclipse that of Leadville in its palmiest days.

The car shops at Raton are to be largely increased in capacity soon. More machinery of various kinds is to be placed in position, and preparations made for doing all work necessary, thus dispensing with sending to Topeka.

The conference between the grant claimants has been fixed for Monday night. It is very important that all should be present; and that this matter of exempting city property from the petition for a partition, should be made as soon as possible.—Las Vegas Optic.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla, do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was right in the heart, satisfied with it, and did not want any other.

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOFF, 61 Terrace Street, Boston.

Roswell has another artesian well at the depth of 180 feet, and the water rises twelve feet above the ground. This is encouraging and we would like to see some one try for the same article in the Cimarron valley.—Palo Alto Springs Metropolitan.

Grant county note: Carlisle camp has followed fortune's wheel around the circle many times and is again coming on top. The late discoveries made there are astonishing, and there is more absolutely high grade ore in sight there than in any camp in the county, while for low grade ore there is enough to keep several "Carlisle mills" running.

During the past six months, sixty-three families have moved into Raton; and but nine families have moved away. The majority of these nine families are those of railroad men who have been transferred. This does not look as though Raton was dying away. It there is a town in the territory that can show a better record than this, it has not been heard from.—Raton Range.

Albuquerque Citizen: For the past few weeks the real estate market has not been very active. This was no doubt caused from the excitement over the election, and a majority of our citizens seeing a prosperous year for the "first city" of the territory, dropped real estate for the time being and worked diligently for the election of a Republican mayor and a Republican council. There were, however, a few transfers among local Mr. A. M. Tenney, of Colonia Diaz, Mexico, has taken the contract for the grading of the North Mexican Pacific Railway from a point nine miles south of Palomas to Corralitos, a distance of ninety miles, to be completed by September 15th next, and will in a few days have one hundred teams at work. Mr. Tenney is a responsible and experienced contractor, and will be on time with his contract. The construction of the road will be under the immediate superintendence of Mr. J. Fawcett Smith, as chief of construction. Mr. Smith comes here with large experience and very high endorsements as a practical engineer and railway constructor.—Deming Headlight.

MONDAY, APRIL 13.

ANNIVERSARIES.

April 13th.
BORN: Jean Pierre Crousaz, 1663.
Dr. Thomas Beddoes, (writer), 1793.
James Buchanan, 1791.
DIED: Handel, 1759.
Sir Henry de la Beche (geologist), 1855.
Samuel F. Randall, 1890.

Fort Sumter captured, 1861.
Edict of Nantes, 1598.

Boston is nothing if not original. The latest thing in Boston is a Chinese laundry trust.

This familiar advertisement, "Twenty pounds of granulated sugar for a dollar," says the Globe Democrat, will make a fine "In hoc signo vinces" for the Republican party in 1892.

This little state of Maine has been taught a lesson in political economy that makes the west laugh. Maine declined to receive silver certificates in payment of its direct tax quota due from the national treasury, but Secretary Foster quoted the law on them. "Take the certificates."

Reports from the Nicaragua canal are encouraging, notwithstanding the failure of congress to give the work United States guarantee. Efforts are now being made to secure private capital in this country and Europe. The complexion of the new house of representatives gives little hope of any legislation next winter for the pushing of American interests at home or abroad.

Since it became noised about that the Republican leaders were quite inclined to bring forth President Harrison and unite upon him as their standard bearer again in the next campaign, what an ominous silence pervades the ranks of the Democratic organs. The harmony prevailing among Republicans seems to have hit the rain-bow chasers very hard.

The American hog is steadily rooting his way into Germany. The Cologne Gazette, his most pronounced opponent, now favors letting him in for sundry most excellent economic reasons, all of which are equally referable to the prospect of shutting German sugar and textiles out of American markets. Thus again is shown the strength of the present administration in dealing with all interests of Americans both at home and abroad.

Wheat reports from Europe are bad, except in the east of Hungary. The Indian season has also been unfavorable. The American crop is likely to be in demand. As has been repeatedly said in these columns, there is no good reason why New Mexico should not in a few years be a large exporter of wheat, also rye and barley, these cereals thriving even better here and yielding larger returns per acre than in California or other western states.

Speaking of profitable business enterprises in the west, and the advice especially holds good here in New Mexico, a Pacific coast business man makes this observation which many a man will do well to cut out and paste in his hat: "Buy forty acres of land and put it in fruit. It

will surely make a man rich. Other methods might make him rich, he might be made poor by the same business that made him rich. But forty acres of fruit, with fairly intelligent labor and ordinary frugality, will make any young man rich."

From the fact that the International smelter at El Paso, Texas, says the Denver Republican, has been blown in, and that the company will soon erect large sampling works, it would seem that the lead tariff is not hurting this particular smelter very much. The truth is that the tariff would be a good thing for El Paso if it should cause the owners of smelters in that town to send out prospectors in search of lead ore on the American side of the line.

PRESIDENT HARRISON and party will cross southern New Mexico one week from to-morrow, Tuesday, en route to the Pacific coast. It is sincerely hoped that he will not be permitted to enter this territory without receiving some sort of proper recognition. All New Mexico is indebted to his administration, more than to that of any other president, for the splendid service he has rendered in bringing about the passage of the land court law. A correspondent's suggestion that a delegation of representative citizens wait upon him at Deming, would seem to be a very proper thing to do under the circumstances.

NEW MEXICO'S COMING INDUSTRY.
According to a bulletin just issued by the census office upward of \$100,000,000 is invested in truck farming in the United States. The annual product reaches a value of over \$175,000,000. The industry is carried on on 534,440 acres and employs 216,765 men, 9,254 women and 14,874 children, aided by 75,886 horses and mules and \$8,971,206 worth of implements.

These facts are of more than passing moment here in New Mexico, because in no section of country is truck farming destined to make greater strides in the next few years than in this territory. Every facility for it is at hand; the market in particular offers inducements that exist nowhere else. There can never be a surplus of production. The mining camps and stock ranches stand ready to take all products at prices that would make the eyes of the average western farmer bulge out with amazement.

ITALIAN BLUSTER AGAIN.
The fact that further diplomatic negotiations between the United States and Italy over the New Orleans affair is being conducted with the utmost secrecy, gives the sensational press a very excellent opportunity to print almost anything on the subject it likes. These reports, however, must be taken with "some salt." Italy may do some very foolish things before this business is settled, but it is in every respect doubtful if any harm to American interests will come of it.

Italy's finances are in a wretched shape; her people are ground to death by taxation to maintain a grand navy, which, no doubt, the other members of the "triple alliance," namely, Germany and Austria, are maintaining, and altogether the country is by no means in shape for war; but should it come, should the Mafia hot-heads precipitate trouble through hasty action, through their influence with the controlling powers, the United States, despite her inefficient navy, will show them a trick or two in modern warfare that will serve as a valuable lesson to other nations of the earth.

ANOTHER WESTWARD RUSH.
Kansas papers state that crops in many parts of the state will again be a failure, for the fourth consecutive year, and that many farmers and their families are freezing, and in some cases almost starving. In Nebraska the condition of things is quite as bad; in some parts of Iowa disaster has year after year followed the attempt to produce crops, and in some sections of Dakota there has also been suffering, and would have been more but for the fact that the Sioux Indian scare was worked up by a shrewd lot of politicians with a view to having Uncle Sam's forage trains kept there all winter. And what is the result of this long suffering on the plains of honest men who were induced to go there by land boomers and locate their homesteads? Why, those who are alive and well to-day, and who have the means, are skinning out of the country as fast as they can. They are simply flocking to the mountain valleys.

The rush began last year, it is on now and it will continue. Irrigation is what they are after; they are just clamoring for lands under ditch, and Colorado, Wyoming, Montana, California and New Mexico are beginning to feel their presence. New Mexico, however, not so much as the other states named, because of a penny-wise and pound-foolish policy that dominated the partisan members of the late legislative assembly and cut down the immigration literature fund to a mere pittance; but New Mexico is getting some of them and these, struck by our many advantages, will bring others. But to California they are swarming. Every train on the northern and central roads is said to be crowded with them, seeking homes in California's fertile valleys.

WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that.

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & CO., 46 West Broadway, New York, for book.

FOR SALE BY A. C. IRELAND, JR., SANTA FE.

Well, by-and-by, when the facts as to New Mexico's native resources, her splendid water facilities and her never failing market, can be told and retold as they should, through a just and an adequate expenditure of the public funds, long since demanded by the tax payers, perhaps some of these coast-wise rushers will find they have made another mistake by crowding into already crowded California, and they will come back to make their homes and prosper in sunny New Mexico.

EDITORIAL COMMENT.

Ah, There it is!
Ah, there, Ah! Evidently you are not running the governor's office as in days of yore.—Silver City Enterprise.

Well, Now, This is Unkind.
The Gallup Elk, a Democratic paper, has the following unkind fling at W. B. Childers: "He's the Democratic war horse in Albuquerque who ran the last campaign on mud and unfulfilled promises in this section of New Mexico.—Albuquerque Citizen."

First in the New Mexican and Copied by Other Papers, Including the Black Range.

"The New Mexican and the Citizen are now publishing the important laws passed by the 29th legislative assembly for the information of the people, and this does not cost the tax payers a cent."—New Mexican.

There are other papers in New Mexico that are furnishing the patient people and the tax payers the same information, at the same rates, and are not howling themselves hoarse over their gross generosity.—Chloride Black Range.

Trying to Make Light of It.
Blake, of Las Vegas, is running Chairman W. B. Childers a pretty close race for the United States senatorship from New Mexico when this territory comes in as a state. Why not take both and thus unite the contending factions?—New Mexican.

Unite and have two of a kind, ha, ha, but wouldn't Childers kick, and Blake swear. Senators from New Mexico! Why those fellows will be dead and forgotten when New Mexico becomes a state.—Socum Chieftain.

THE CLIMATE

New Mexico is considered the finest continent. The high altitude insures purity (especially adapted to permanent cure of pulmonary complaints as hundreds will be witness), and tending from point to point almost any temperature may be enjoyed. The following are some of the principal points in New Mexico as follows: Santa Fe, 7,047; Albuquerque, 5,890; Las Vegas, 4,745; Glendale, 3,587; Taos, 6,950; Las Vegas, 4,745; Alamosa, 6,480; Bernillo, 5,704; Albino, 4,918; Socorro, 4,655; Las Cruces, 3,910; Santa Rita, 5,940; Ft. Stanton, 5,800; Lordsburg, 4,800. The government at Santa Fe, for the years named as follows: 1874, 48,929; 1875, 48,617; 1876, 48,137; 1877, 48,3; 1878, 47,012; 1879, 46,840. The government is uniformity. The death rate in New Mexico is the lowest in the union, the ratio being as follows: England, 25; Minnesota, 14; Iowa, 13; New Mexico, 3.

A GRAND WAR PICTURE.

One of the Attractions Which will Represent New Mexico at the World's Fair.

Col. Edward Haren was in town yesterday and brings word that a prominent Kansas City artist, Mr. E. G. Ruggles, will soon visit Santa Fe with a view to painting a grand picture of the battle of Glorietta which will be exhibited at the world's fair as a part of this territory's display. Negotiations to this end have been in progress for some weeks and through the kindly offices of Col. Haren and other old Santa Feans at Kansas City Mr. Ruggles has accepted the invitation of Carleton Post, G. A. R., set forth in the appended resolutions recently adopted by the post:

Whereas, Information has reached this post, through our friend, Col. E. H. Haren, that Mr. E. G. Ruggles, of Kansas City, Mo., a promising young American artist, intends, at his own expense, to paint a scenic and historic picture of some one of the battles of the late war in New Mexico, to be exhibited at the World's Fair, to be held in Chicago in 1893, and, Whereas, It is the desire of this post that the subject of the said painting should be the battle of Glorietta, in which several of the members of this post bore a conspicuous part; it is therefore moved that Comrades Hiram Crampton and James E. Gregg, now sojourning at Kansas City, be requested in company with Col. Edward Haren to call upon Mr. E. G. Ruggles, the artist, and submit to him the wish herein expressed, and to assure him that the members of this post will individually take pleasure in aiding him to obtain all reliable necessary data within their reach for the purpose of enabling him to make the said picture true to history.

Farmers Coming.

Mr. H. W. Phillips, late of Sibley, Iowa, and a practical farmer whose long residence in Iowa has made him friends there by the score, came in to-day from his new farm in the Rio Grande valley, in northern Santa Fe county. He paid this office a pleasant call and left the names of some twenty odd Iowa and Kansas farmers for whom he is looking up a location, and to these copies of the pamphlet issued by the Bureau of Immigration go out in to-night's mail. Mr. Phillips is delighted with his new home above Espanola, where abundance of water, the soil and climate combine to make it attractive, and he will engage extensively in the raising of fruits, alfalfa and blooded stock, both horses and cattle. He said to-day that he expected to have a little colony of forty or fifty sturdy Iowa farmers located in that region before many months roll around.

Depleted and Worn Out.

The Hon. Albert Daggett, writing from the Senate Chamber, Albany, New York, says:

"I have used Alcock's Porous Plasters for the past 10 years with marked results. I have found them especially effective when depleted and worn out from weeks of incessant labors in political campaigns; the application of them to my chest and spine gave me great relief when my voice had become hoarse and worn down from speaking in the open air. They seemed to act as a tonic to the whole system, curing the soreness consequent from over-exertion and restoring the tone of the system more readily than any remedy I have ever found. I have also used them for rheumatism with very beneficial results."

Wanted for Murder.

A requisition for the transfer of Thos. Kelley, wanted at Denver for murder, was granted by Governor Prince to-day and the prisoner will be taken from the Albuquerque jail to-morrow and escorted back to the scene of his crime. Kelley gave himself up to the Albuquerque police authorities on Thursday night. He said that he was a barber, and that down on Golden avenue, in Denver, on the preceding Saturday night, a quarrel occurred between a friend of his and John Harvil, a printer, and that he shot to scare Harvil, the ball unfortunately striking and mortally wounding him. His claims to have been drunk when he committed the deed.

How To Make It.

A question is sometimes well answered negatively. Growing does not make a town; want of faith does not make a town; want of general clearing of all the old municipal affairs. And last of all, speak always cheerfully of the town. Men have died because of being told they were ill, and towns die when their citizens become prophets of evil.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

OFFICIAL WAIFS.

The fence law passed by the 28th legislative assembly was repealed by the 29th. Stock men should take notice and govern themselves accordingly, or they may have to pay dear for feed for their stock.

Governor Prince has appointed Carl W. Widenstein, of Watrous, a member of the territorial insane asylum board to succeed J. B. Watrous, resigned. The directors of this institution meet at Las Vegas to-day.

W. F. Blanchard has been appointed county surveyor for Lincoln county. He gave bond in the sum of \$5,000, with G. B. Barber and Jose M. Montano as sureties, when he qualified and entered upon the discharge of his duties.

In case of the conviction of the man, Manuel Bismarck, now on trial for murder, in the district court at Las Vegas, against whom the circumstantial evidence

is said to be very strong, the governor will probably pardon him out of the penitentiary for the lesser offense of cattle stealing.

By an act of the last legislature the law prohibiting the carrying of firearms and the shooting up of towns was made much more binding and effective. The gay and festive youth who takes delight in shooting holes in the midnight air is liable to come to grief.

Col. James A. Lockhart, the efficient sheriff of Grant county, got in from the south last night, bringing several thousand dollars tax money for the territorial officers. From Santa Fe Col. Lockhart goes on a flying trip to Kansas to look after his live stock shipments.

Judge Thornton left last night for Socorro to attend the meeting of the board of regents of the New Mexico school of mines to-day. At this meeting the contract for the erection of a \$25,000 building will probably be closed with Messrs. Berardinelli & Palladini, of this city.

The board of county commissioners, having no official notification of the new liquor license law, but learning from news F. Immigration bureau, is at the Palace. Hon. Demetrio Perez, territorial auditor, has gone to Las Vegas to attend the Sala zar-Lopez wedding.

Antonio Lucero, one of Las Vegas' brightest and most progressive young men, registers at the Palace.

M. Berardinelli, the successful Santa Fe contractor and builder, returned yesterday from a trip to Albuquerque and Socorro.

G. W. North is up from Cerrillos on business to-day. He says the industrial outlook for south Santa Fe county is simply gorgeous.

J. R. Sherer, of Chicago, a friend of A. T. Grigg, the popular furniture man, is taking in the sights of the historic city to-day.

At the Exchange: H. H. Carson, Trinidad; John Ballard, Alamogosa; W. H. Given, Las Vegas; J. W. Harrison, Glorieta; F. G. Smith, Las Vegas; Fred B. Harris, Paraja; I. N. Stone, Glorieta.

At the Palace: Edward Haren, Kansas City; James A. Lockhart, Deming, N. M.; J. C. Johns, Baltimore; Wm. Harrison, Duluth, Minn.; T. E. Young, Kansas City; J. W. Cooper, Pecos; J. H. Dickey, Kansas City; W. Walpi, Dubuque, Iowa; Antonio Lucero, Las Vegas; S. Pincus, New York; Jas. Johnston, St. Louis; Jno. J. Leyden, Denver; Jno. Brockman, Silver City.
