Telegraphic Tidings

Big Money in It.
SAN FRANCISCO, May 15.—The opium
smuggler Halcyon has arrived from
Japan with \$1,000,000 worth of opium on
board.

Tie-Up in St. Louis.
ST. LOUIS, May 15.—The scenery of the
Emma Juch Opera company has been at-
tached at the Union depot, to satisfy an
old claim of former musicians for \$2,500.

The Charleston and Etala.
SAN FRANCISCO, May 15.—The Chroni-
cle posts a bulletin that the Charleston
and Etala had been sighted at sea off the
Mexican coast, both heading for Acapulco.

Manderson Will Remain Senator.
LINCOLN, Neb., May 15.—Governor
Thayer denies that there is a sensational
deal between himself and Lieutenant-
Governor Manderson and Senator Manderson.
He says Manderson will stay in the senate.

Forest Fires.
BIG RAPIDS, Mich., May 15.—The forest
fires on the lower peninsula are still
burning from Manistee to Huron. The
loss from these conflagrations is already
estimated at \$2,000,000 or more, with a
probability that it will be doubled unless
checked by rain.

Texas Will do Her Part.
FORT WORTH, Tex., May 15.—Nearly
1,000 delegates participated in the Colum-
bian exposition convention. It is a pro-
nounced success. The Chicago delegates
were present and were well received. A
banquet has been tendered them. The
convention will raise at least \$300,000 by
forming a stock company at \$5 per share.

Refers Gold.
ATLANTA, Ga., May 15.—The Atlanta
Journal publishes a letter from General
Palmer of Illinois, in which he says em-
phatically that he is not a candidate for
vice-president or president, and that a
political dissertation from him would be
very much like an impertinence. General
Palmer says: "Speech is silver, but
silence is golden," and though I favor
the liberal coinage of the white metal, I
have, at present, at least a preference for
the yellow."

No Engagement Between the Vessels.
SAN FRANCISCO, May 14.—Rumors that
the cruiser Charleston had overtaken the
steamer Etala and had fired upon that
vessel are regarded here as having no
foundation. The Charleston passed San
Diego Monday on the run to Acapulco,
and was steaming at the rate of twelve to
fifteen knots and was seen to be moving
out of her course to inspect passing ves-
sels, and though pushed to the highest
point of speed she could not reach Acapulco
before to-morrow, and therefore any
news of her operations could not be re-
ceived through Mexican sources before
her arrival there to-morrow.

Third Party Movement.
CINCINNATI, May 15.—The so-called Na-
tional-Union conference in this city, next
week, is a new political party, promises
to draw a large crowd to Cincinnati. It
will be a heterogeneous gathering, and
every known lam in the country will have
its advocates here. There is no more
chance of harmony among the delegates
than there is of an alliance between
Christians and Mohammedans.

The officers of the National Alliance or-
ganizations tried as hard as they could to
discourage the conference, but the affair
is now beyond their control, and many of
them have decided to be present and do
what they can in a quiet way to prevent
the formation of a third party at this time.

Pension Money.
WASHINGTON, May 15.—Commissioner
Raum of the pension bureau has written
a letter to Secretary Noble calling atten-
tion to the very material decrease in pay-
ments on account of pensions during the
present fiscal year. The entire payment
for army pensions during the present fis-
cal year will not exceed \$116,000,000.
The total appropriation for this service is
\$125,000,000. It now seems probable
that there will be left of this appropria-
tion at the end of the fiscal year \$9,700,000.
The allowance of a great number of
claims under the act of July 1890, has so
reduced the amounts on pension certifi-
cates as to bring about this favorable re-
sult.

Southwestern Enterprise.
DENVER, May 15.—The Colorado-Texas
Oil, Gas & Mineral company have com-
pleted their organization, fixing the cap-
ital at \$1,500,000. It is one of the largest
concerns formed in Denver for operating
a foreign field. The objects of the com-
pany are to drill for oil and gas, build
railroads, lay pipe lines, street railways
and electric lines, and to buy and sell
mineral and agricultural lands.

The officers are W. H. James, presi-
dent; H. S. Prentice, vice-president; A.
C. Dake, treasurer; F. C. Slaughter, sec-
retary; S. R. Blouger, superintendent.
The first operations of the company will
be confined to Brownwood, Brown county,
Texas, where they have secured 50,000
acres of land, upon which wells will be
sunk. Several of the wells have already
tapped flows of oil, which was exhibited
yesterday.

New machinery has been shipped to
the fields.

Flip of a Copper.
BOSTON, May 15.—There was a story of
gambling extraordinary in the trial of the
case of Annie B. Everett vs. John Stet-
son. Mrs. Everett is suing to recover
\$45,000, which is three times the amount
she alleges was won at the gaming table

The Albuquerque Academy.
A pamphlet of forty pages has been is-
sued by the Albuquerque academy, the prin-
cipal feature of which is the address de-
livered by Hon. W. C. Hazledine on the
occasion of the dedication of the struc-
ture December 30 last. It is not at all
necessary to say that Judge Hazledine's
address was an eloquent one, delivered in
a style as to do full justice to the occasion.
It is worth a great deal to a community
to boast of such a man as Judge Hazle-
dine as one of its foremost citizens.

A Valuable Find.
To the Editor of the New Mexican.
EDDY, N. M. May 11, 1891.—The arte-
sian well borers who have been at work
here for some weeks encountered, on Sat-
urday last, at a depth of 520 feet, a stratum
of pure salt, which proved to be forty feet
thick. This is one of the most important
discoveries ever made in the Pecos valley,
as a plant will doubtless be put in at an
early day, to mine this valuable material.
Eddy is destined to become the salt
market of the southwest.

FRIDAY, MAY 15.

ANNIVERSARIES.

MAY 15th.

BORN: Alberoni, 1664.

DIED: Daniel O'Connell, 1847.

Edmund Keene, 1833.

E. H. Davis (archaeologist), 1888.

Mary Queen of Scots marries Bothwell, 1567.

Opening of the Erie railroad, 1851.

This territory needs more railroads.

A little more peace and a little less murder would be a good thing for New Mexico.

The flat has gone forth that the capital of New Mexico must neither be a village nor a town, but an incorporated city. Santa Fe has need to be moving if she would prosper with other sections of the territory.

Too much lawlessness, not only in San Miguel county, but throughout this territory, the "lifers" look more closely to the enforcement of the law and toward preserving the public peace.

If Governor Campbell, of Ohio, gets the Democratic nomination and then beats Major McKinley, he will be a very strong man for the nomination for president on the Democratic ticket; but there is the rub, if?

CONCERNING the debt of this Santa Fe county, a good portion of which is fraudulent, the best thing for the people and tax payers to do, is to let the fellows who hold or claim to hold the bonds, etc., of this county, worry and try and make collections.

Quite too many killings in New Mexico, gentlemen of the jury; quite too many. The newspapers that come to us this week from all sections of the territory show that crime is on the increase. Let justice awaken and take a hand in righting this matter.

The press along the Rio Grande valley has now an opportunity to distinguish itself if it will buckle down and show Congress how necessary it is that the national treasury should do something toward improving the Rio Grande. What they do it?

The laws compelling express companies to pay taxes and to observe decent rates must be carried out; the several prosecuting officers of the territory should bear in mind that these laws are upon the statute book and that, under their oaths of office, they are to look closely after their enforcement.

A FUNNY COUNTRY.

The German Reichstag has appropriated the magnificent sum of \$25,000 for a German exhibit at the World's Columbian fair at Chicago; great is Germany; about as great as New Mexico. Mighty little money in Germany for a display of the peaceful occupations of the country, but millions upon millions to keep up a standing army of a million men in order to enable one man to say "I alone am master here." Funny country that.

WHY SHOULD HE APPOINT DEMOCRATS?

The Democrats are not very modest, all they want is four out of the nine new circuit judgeships. And why should they have them? Did anyone ever hear of Grover Cleveland, while president, for instance, appointing a Republican to an important judgeship? Not President Harrison was elected by Republican votes; let him make his appointments from the ranks of the Republican party, as long as that party contains the proper material. Soft soap and smooth talk ought not to count; helping the enemy helps no one but the enemy; and here is a pointer for other federal officials as well.

IS THIS MURDER TO BE FORGOTTEN ALSO.

In all human probability and judging from the past, the provoked murder of Sandoval by Pablo Herrera, ex-member of the legislature, elected by the People's party in San Miguel county, like the atrocious and cowardly murder of Faustino Ortiz in this county, will be a three days wonder and then through lapse of time will be forgotten. The appearances are that way. Hence it behooves the good and honest citizens of this territory to bear this thing in mind and to see that the guilty persons are brought to justice. If the judiciary and the peace officers will not do their plain and sworn duty, what is the matter with the people taking a hand?

A LITTLE FARM.

The statistical information lately given the public through the efforts of the census bureau relative to the number, acreage and value of irrigated farms in New Mexico and Arizona was too much toward breaking down that impression prevailing in many sections of the western agricultural belt that irrigated farms are not all that has been claimed for them; that they represent a primitive method that must eventually go to the wall. There never was greater error. In the irrigated farm is the future of western agriculture and horticulture. Slow-coach people may postpone, through obstinacy and a refusal to listen to reason, the day when this fact will be verified, but they can not stop its certain coming. It is just as sure as that "a little farm well tilled," beats a big one badly managed.

EDITORIAL COMMENT.

Very Serious Indeed.

The base ball trouble between Harvard and Yale is very distressing to all earnest advocates of higher culture.—Baltimore American.

It was a Democratic Legislature.

The Ohio legislature adjourned without leaving the state treasury in a bankrupt condition. This is regarded as a political miracle by the Buckeye tax payers.—Washington Post.

Pay Italy What They are Worth.

Only two of the Mafia prisoners who were shot at New Orleans were subjects of Italy. If Humbert insists on receiving an indemnity for those fellows most any patriotic American citizen would be willing to pay out of his own pocket all that the two things really were worth.—Chicago Mail.

No Eight Hour Day for Secretary Blaine.

What with the Barundia case and the Behring sea controversy and the Italian row and the Haytian coaling station and Canadian reciprocity scheme and the Chilean pirates, Secretary Blaine is fully earning his salary. There is no eight hour day for Mr. Blaine just now and he doesn't get a bonus for extra work either.—Chicago News.

Good Advice to Republican Editors.

Republican editors would do well to allow their Democratic brethren to do the discussing as to the next Republican nomination for the presidency. The convention will be held more than a year from now, and nothing is to be gained by championing the cause of this or that candidate at present. In all party matters Republicans are disposed to be a little "too previous."—Cincinnati Commercial.

Will Not Affect the Exposition.

The New York Sun takes the trouble to reassert that "the reason why the World's fair is to be held in Chicago and not in New York, is that the Republicans in Congress would not allow it in New York because New York is a Democratic city." Chicago is overwhelmingly Democratic as everybody knows who is candid enough to admit the truth, and the Sun's opposition is the meanest type of municipal jealousy, which, fortunately, will in no way militate against the success of the exposition.—Kansas City Star.

the free traders of the United States." All kinds of legal blanks, deeds, justice is very embarrassing to have a reputation just before election, when you are trying to forget it. Mr. Cleveland has discovered that free trade will not be a good card to play next year, and many Democrats are now trying to change the issue until after the election, but it won't work. The next presidential campaign will be fought on tariff ground, with the Democratic party on the free trade side.—Chicago Inter-Ocean.
