Telegraphic Tidings

Twenty Years for Murder.
El Paso, Tex., May 22.—W. G. Caldwell, who, on the night of July 2, 1890, shot and killed Joe Brown, a telegraph operator, in cold blood, in this city, has been found guilty of murder in the second degree. The jury placed his punishment at twenty years in the penitentiary.

In Favor of the Lottery.
New York, May 22.—Bond Broker Edward H. Homer, of 88 Wall street, and his agents, Edmund Furst, Isaac Hersch and Jacob Franko, who were arrested several months ago in connection with the sale of certain Mexican lottery bonds, have been discharged by Justice Hogan, in the Tombs police court.

Good Appointments.
Chicago, May 22.—At the meeting of the board of directors of the World's fair, Director General Davis submitted for confirmation the name of J. F. V. Skiff, of Colorado, to be the chief of the bureau of mines and mining.

Some Big Figures.
WASHINGTON, May 22.—A census bulletin just issued shows the indebtedness of the United States in 1890 to have been \$915,962,112, a reduction of \$1,006,555,253, or over 50 per cent since 1880. The indebtedness of foreign nations was \$25,635,975,840, an increase of \$2,354,503,655 since 1880. The per capita indebtedness of the United States was \$14.48, against \$116.35 in France, \$87.79 in Great Britain, \$70.84 in Austria-Hungary, \$76.06 in Italy, \$63.10 in Belgium and \$95.50 in the Netherlands. The per capita indebtedness in the United States was reduced from \$35.93 in 1880 to \$14.48, in 1890. The state indebtedness in the United States during the decade decreased \$67,000,000, county indebtedness increased \$17,000,000.

Harmony That Pays.
Chicago, May 22.—The activity of the Republicans in starting the canvass of '92 is a thorn in the side of ex-State Senator Henry Westfield of South Carolina, and unless the Democrats bestir themselves similarly the McKinleyites will by next fall be so far ahead, he says, as to defy all powers.

"Why, since the convention of the Republican league in Cincinnati, the Republicans have been working like beavers down our way organizing clubs," he said at the Palmer house yesterday. "They are what count. They did the business in '88 and will in '92 if the Democrats don't wake up. Sooner or later the banquet of last fall still lies heavy on the Democratic stomach. And instead of the leaders doing anything to enlist their followers in the fight they are occupying themselves with backbiting one another."

The Trans-Mississippi Congress.
DENVER, May 22.—The time of the Trans-Mississippi congress was chiefly taken up yesterday in discussion of the next place of meeting, Omaha, New Orleans and Wichita being the chief contestants. No decision was reached, however, and the silver question, the regular order of business, was taken up and is still under discussion. On the question of defraying the expenses of the convention, Denver came to the front, through volunteers, to liquidate all bills. This was greeted with cheers.

A. C. Fisk, of Colorado, offered resolutions endorsing the Nicaragua canal, Henequin canal, urging the early admission of Arizona and New Mexico into the union and favoring restriction upon immigration, recommending amendments to the naturalization laws, favoring free coinage of silver. It was also resolved to raise plenty of money for the purpose of sending a strong delegation to Washington to secure desired legislation next winter.

THE THIRD PARTY IN IT.
Synopsis of the New Platform—They Will Nominate a Presidential Ticket.
CHICAGO, May 22.—Nationalists have adopted a resolution endorsing the formation of a People's party. Robert Schilling, of Milwaukee, and M. C. Crandin, of Terre Haute, were designated secretary and treasurer of the executive committee. Their platform endorses the platform of the platform adopted at St. Louis, Mo., in 1889, Omaha, Neb., in 1890 and Omaha, Neb., in 1891, by the Industrial organizations there represented. It demands the free coinage of silver; prohibition of alien ownership of lands; that taxation, national state or municipal, shall not be used to build up one interest or class at the expense of another; that all revenues, national state or county, shall be limited to the treasury expenses of the government, economically and honestly administered; a just and equitable system of graduated tax on incomes; the government, ownership of railroads and telegraph; the election of president and vice president and United States senators by direct vote of the people.

Additional resolutions, not a part of the platform, were presented. They recommended favorable consideration of universal suffrage; demanded the treasury notes to pay soldiers equivalent to coin; favored eight hours a day labor; condemn the action of the World's fair commission with reference to wages.

It was decided to call a national convention not later than June 1, 1892, for the purpose of nominating candidates for president and vice president.

Hailed "Hen's Eggs."
St. Louis, May 22.—A special from Moberly, Mo., says: A most destructive wind and hail storm passed over this place Wednesday. Hail stones as large as eggs fell, completely demolishing crops

of every description. The wind blew a perfect tornado. The hail fell in such quantity as to completely fill fields, drowning small stock during the storm, which lasted about an hour. The darkness was truly appalling. It is believed that the damage in this vicinity will reach \$300,000. Fortunately, no lives were lost. All telegraph wires were torn down.

CONDENSED NEWS.
Phoebe Cousins lost her World's fair suit in the U. S. court.
At San Francisco the mining stock of Consolidated Virginia fell from \$14.50 to \$9 and carried down with it all cheaper stocks. It brought ruin to hundreds of speculators holding on narrow margins.
Henry Six, of Noblesville, Ind., is affected with the same disease that killed Henry Welch, who turned black and died in New York on Sunday. Six is turning blacker every day and begins to look like a negro. His physicians are baffled and say that the trouble comes primarily from the liver.

THE NEW LAWS.
ISSUING OF PROCESS.
Section 1. That hereafter whenever any writ or process issued out of the district courts shall be served within a less time before the return day thereof than is required by law, it shall not be necessary to sue out alias or subsequent process and have the same served, but the process so served shall be held returnable to the next succeeding term of the court out of which the same issued; and the party against whom such process runs shall be held to enter his appearance at the next succeeding term, and default upon failure so to appear may be entered and prosecuted to final judgment, as in other cases.

Section 2. That all laws and parts of laws in conflict with the provisions of this act be and the same are hereby repealed, and this act shall be in force and take effect on and after its passage.
Approved February 21, 1891.

RELATIVE TO THE CRIME OF LARCENY.
Section 1. That section 742 of the Compiled Laws of the territory of New Mexico be and the same is hereby amended so as to read as follows:
"Every person who shall commit the crime of larceny, by stealing of the property of another any money, goods or chattels, or any bank note, bond, promissory note, bill of exchange, or other bill, order or receipt, or any books of accounts or for or concerning money or goods, due or to become due, or to be delivered, or any deed of writing containing a conveyance of land or any other valuable contract in force, or any writ, process or public record, if the property stolen shall exceed the value of \$20, shall be punished by imprisonment in the county jail or territorial prison not more than two years nor less than three months, or by fine not exceeding \$5,000."

Section 2. When the property stolen shall be an order, certificate, books of accounts or for or concerning money or goods due, or to become due, or to be delivered, or any deed of writing containing a conveyance of land or any other valuable contract in force, or any writ, process or public record, it shall not be necessary to allege or prove any value of the same.

Section 3. All acts and parts of acts in conflict with this act are hereby repealed, and this act shall take effect and be in force from and after its passage.
Approved February 26, 1891.

An Engineering Problem.
The Rio Grande is reported rising again to-day, the recent heavy rains having offset the effect of the chill weather in the mountains and set the streams to boom. ing once more. Larkin G. Read, who came down from Taos a few days ago, says it is a mistake to say that the river has thus far this season touched the high water mark of 1884. It lacks several feet of it at Embudo and other points in Taos and Rio Arriba counties, and here the most accurate estimate can be made because the walls and bottom of the stream are of solid rock and do not vary from year to year.

The damage in the lower valley, therefore, is caused chiefly by the changes in the stream, its constant wearing away, cutting here and filling there. The river might not be so high in the upper country this year as last. In 1884, yet in the lower valley more damage might result. For this reason the improvement of the Rio Grande so as to protect the lower valley lands from flood will long present a very difficult engineering problem.

Sealed Proposals.
Will be received at the office of the Secretary of the Board of Directors of the New Mexico insane asylum for the erection the construction of one wing of the New Mexico insane asylum in accordance with the plans and specifications adopted and approved by said board. Said building is to be erected by virtue of an act of the legislative assembly of the territory of New Mexico, entitled, "An act to establish and provide for the maintenance of the University of New Mexico, the agricultural college and agricultural experimental station, the school of mines, and the insane asylum, and for other purposes." Approved, February 28th, 1889.

And an act of the legislative assembly of the territory of New Mexico, entitled: "An act making an appropriation for the construction of a suitable building for the territorial insane asylum of New Mexico. Passed at the 29th session of said legislative assembly, and duly approved by the governor."

All bids must be sealed, addressed to the undersigned, and must be accompanied by a certified check for \$500, which the successful bidder hereby agrees to forfeit should he fail upon three days' notice to enter into contract and bond with good and sufficient sureties for the full amount of the contract price, for the prompt and faithful performance of said contract.

THE ST. LOUIS REPUBLIC.
Twice a Week for One Dollar a Year.

The unprecedented success of the new "Twice-a-week" edition of The St. Louis Republic shows that this original, enterprising and liberal departure is thoroughly appreciated. The weekly Republic has long been recognized as the leading and representative Democratic paper of the west and south-west. By making it a semi-weekly, its field has been extended, and its circulation phenomenally increased everywhere. It is a six page paper, issued on Tuesdays and Fridays, for only \$1 a year. Special editions are printed for Missouri, Illinois, Texas, Arkansas and Kansas; also a general edition for other States. Local agents wanted at every post-office. Send for sample copies and premium catalogue. Address The Republic, St. Louis, Mo.

Apology to Mr. James Dorsey.
The undersigned herewith publicly acknowledges that he was wrong in his suspicion of the above named gentleman and herewith begs his pardon.
MAX. BRENSTEIN.

Attention, G. A. R.
It is a long time yet before you will have your knapsacks packed for the great encampment to be held at Detroit, Mich., but some of you are even now inquiring as to the best route.
If you will ask any ticket agent, or hotel clerk, for a folder containing a map of the great Wabash route and will examine that map, you will see that this line of offers inducements unequalled. For instance you will see that the Wabash can take you from either Kansas City, or Council Bluffs, by way of St. Louis and Chicago, or Toledo, or via the direct air line straight to Detroit without change of cars.

Write to me for full information and valuable folders.
C. M. HAMPTON, Com'l Agent,
1227 17th St., Denver, Colo.

All kinds of legal blanks, deeds, justice of the peace blanks, note books, etc. all stock at the NEW MEXICAN office.

Insertions in "Round About Town" column 2 cents a line, each insertion.

Preferred local ads per line first insertion and a cent per line each subsequent insertion. Legal advertising \$1 per inch per day for first six insertions, 75 cents per day for next six insertions, 50 cents per day for subsequent insertions.

All contracts and bills for advertising payable monthly.

All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to NEW MEXICAN PRINTING CO., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, MAY 22.

ANNIVERSARIES.

May 23d.

BORN: Alexander Pope, 1688.
Richard Wagner, 1818.
DIED: Constantine, 337.
Robert Vernon, 1849.
Durbin Ward, 1886.

Henry VI murdered in the Tower of London, 1471.
First creation of baronets, 1611.

New Mexico is right side up with care at the Denver Commercial congress.

The streets of New York are dirty, so are the streets of Santa Fe; mystery likes company.

The slushy statesmen, in session at Cincinnati, are trying very hard to get up a new third party circus.

New Mexico is not represented at the third party convention at Cincinnati; one fool thing New Mexico failed to do, and that to her credit.

New Mexico is a great and rich territory, but with a united effort her people might bring about more substantial prosperity than exists here at present.

More railroads, more school houses, more people and more unity are needed in New Mexico. And they must be had, if this territory is to advance.

Is there anything being done to make the meeting of Republican clubs at Albuquerque on the 25th of July next a success? If so, what is it? And who is doing it?

The silver men carried the day during the session of the Commercial Congress at Denver. Silver to the front, whether or not the Wall Street gold bugs like it.

Organization and work win. Therefore, the sooner the Republicans of New Mexico organize and go to work in an intelligent and efficient manner, the surer they will be of victory.

The law has been asleep in the murder case of Faustine Ortiz in Santa Fe county. Will the law be asleep also in the murder case of Sandoval, killed by Pablo Herrera, at Las Vegas a few days ago?

The Lord bless the Chilian controversy, the Etata, the Charleston and the Esmeralda. The newspapers have had something to talk about for a week, and that is enough blessing for the time being.

The several express companies of the country ought to be placed under the operations of the inter-state commerce law. If the inter-state railroads can be controlled by federal authority, why can not inter-state express companies?

The arid lands should be turned over to the several states and territories where located. The people of these localities know what they want and can handle the subject with benefit to themselves and the country at large.

The people of the Rio Grande valley should prepare for the June rise of the Rio Grande. Unless proper, speedy precautions are taken, it is more than likely

that greater damage, than has already been brought about by the floods of the river, will occur. A ditch in time in this case will save nine in the future.

On to-morrow the New Mexican will publish an article descriptive of Eddy county and of the work the Pecos Irrigation & Improvement company has done in Chavez and Eddy counties. Verily wherever and whenever possible the New Mexican does good, solid and first-class work for the territory in general and every part of it in particular.

The fraudulent board of county commissioners of this county is trying to exercise all kinds of powers from issuing bonds to the amounts of \$178,000 to declaring elections, and so on. The fake business, however, will come to an end one of these days, and the fellows who have played at county commissioners business, will wish they had not, when it comes to being held accountable for their doings.

WASHINGTON dispatches indicate that President Harrison will announce the judges of the new land court at an early date; the sooner the better, Mr. President. Among the names mentioned are those of ex-Congressmen Louis F. Payson, of Illinois, and Peters, of Kansas. Good men both. Let us have the court; let it be organized and let it get to work; the people of New Mexico have waited forty-five years for adjudication of their land titles.

This wings of the oil monopoly buzzard must be cut by the coming legislative assembly of New Mexico; hoodie put into the Democratic-White Cap house of the 29th legislative assembly killed a bill passed by the Republican council of that body for the protection of the people from the exactions of the Standard Oil and Continental Oil companies during that session. But at the coming session this matter will be watched and the rights and the interests of the people will be protected.

AN UNCALLED FOR INSINUATION. The territorial laws, enacted by the last legislature, have at last been issued at Santa Fe. Send there for copies, not even the newspaper offices having yet been supplied with them by the publishers.—Las Vegas Optic.

The laws of the last session of the legislative assembly have been published; they are now being distributed; they are not two months earlier than they have ever been before. The United States pays for their publication; the secretary of the territory is charged by law with their distribution, and they are to be given out first to the territorial officials, to the members of the legislature and then the counties for use of county officers. The newspapers as such are not entitled to any copies of them, although Secretary Thomas will very likely furnish them copies as a matter of courtesy, should there be any left after supplying what the law declares shall be supplied. It seems, with certain men and papers in New Mexico, that the more an official does his duty honestly and efficiently, the less it suits them. The Optic is welcome to all it can make out of flings like the above.

SOME SURPRISES.

Two rather surprising incidents have thus far characterized the sessions of the Trans-Mississippi congress of Denver. The first lies in the fact that there should have been so close a vote and so long and earnest a contest over the point whether or not the congress should choose as its chief presiding officer a man outspoken in favor of the free and unlimited coinage of silver. We are pleased to see that they did this, and feel gratified at the active part the New Mexico delegation displayed in bringing it about; but the surprise is not one whit less that a set of delegates, western men, in such a gathering should have for an instant faltered in their plain duty "to put none on guard" but the friends of silver, and we very seriously doubt if they were western men; more likely they were political trimmers from Mississippi, Texas, Arkansas, Kansas and Iowa who led the fray in favor of choosing an out-spoken anti-silver man. Happily, the solid silver western delegate was too numerous for them.

The other surprising thing was the hard fight made within the Colorado delegation's caucus to prevent the adoption of a resolution declaring Colorado in favor of congress donating the arid lands to the western states and territories upon condition that they reclaim them. Here the Colorado political trimmer showed his hand; showed how ready he was to injure the whole irrigation empire to gain a petty point for his party. But the right men were in the majority. After a bitter fight the resolution was carried, and Colorado will go into the congress standing side by side with New Mexico in her demand upon the national government to turn the arid lands and their reclamation over to the states and territories interested.

RECIPROCITY TO THE FRONT.

To the Editor of the New Mexican.
SANTA FE, May 20, 1891.—The ink had hardly been dry on the Brazilian treaty when our special envoy to Spain returns

WHY DO YOU COUGH?

Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that.

"IT STARTED WITH A COLD."

Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that

DR. ACKER'S ENGLISH REMEDY

for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time. "You can't afford to be without it." A 25 cent bottle may save you \$100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 46 West Broadway, New York, for book.

FOR SALE BY A. C. IRELAND, JR., SANTA FE.

bringing the gratifying news that he had negotiated a treaty with Spain granting reciprocal trade between ourselves and the Spanish Antilles, and though the full text of the instrument has not been made public we are assured that in return for the free entry to the United States for Antilles sugars, molasses, coffee and hides America will obtain exemption from duties on most of her raw and manufactured products, and a reduction of the tariff on cereals and flour.

It was quite natural that Spanish merchants who enjoyed a monopoly of trade with their West Indies colonies should use all the influence in their power to prevent the signing of a treaty which would sweep that profitable business out of their hands. For instance the duty on American flour was actually prohibitory and of course the said merchants reaped the entire benefit. Under this arrangement the Cubans were compelled to pay about \$12 per barrel for flour, and they consumed some 500,000 barrels per annum. A protracted resistance was offered to this clause of the treaty by Premier Canovas, but Cuba had spoken in such unmistakable tones in favor of liberal trade with us as to present the alternative of reciprocity or revolution. Thus a treaty of some kind became a necessity, and Minister Foster declared that no treaty would be negotiated which did not grant the free admission of American cereals, then Senor Canovas assented to such a reduction of the tariff as will place American flour on an equal footing with the Spanish product. On this basis American flour can be laid down in Cuba for about \$6 per barrel. Spanish merchants openly declare that this will crush out Spanish flour in the Antilles, and that owing to the enormous reduction in the price of the article and the great number of people who can afford to use it now who could not at the Spanish price, the consumption will soon rise to 1,000,000 barrels yearly. So without taking any notice of the other cereals the single article of flour will bring us \$6,000,000 per annum, the largest part of which will go into the pockets of our American farmers. We are thus given an almost free market with nearly 3,000,000 people at our door step without making a single cent of sacrifice in return. A writer in the New York Press says:

"Under the new convention America will obtain a kind of Zollverein with the Spanish Antilles. Her wheat, beans, flour, lard, petroleum, manufactured products and machinery will enter practically free of duty. Among other Spanish exports olive oil will be replaced by American lard, and beans, now exported to Cuba in large quantities, will cease to be sent. The advantages resulting in Cuba will be great, but it is impossible to estimate the injury to Spanish trade."

Of course it is in order for the Democrats to sneer at and belittle these (the beginning of) the magnificent results of two years of President Harrison's administration, backed up by a Republican congress, but they will have some trouble in convincing their dear farmer friends that the throwing open the ports of 45,000,000 of people to the free sale of their products is a trifling matter to them. I might ask some Democratic statistician this question: As we consume about 98 per cent of our entire agricultural product, as we will soon have reciprocity treaties with all Spanish-America, as 3,000,000 of these people will buy 1,000,000 barrels of flour per annum, how long will it be until the 2 per cent of said agricultural surplus will disappear entirely? More anon. A. L. MORRISON.

The Celebrated French Cure,

Warranted to cure

Is sold only at

The Daily New Mexican

FRIDAY, MAY 22.

Announcement.

Any person receiving a copy of the New Mexican with a pencil mark at the top of the first page, will find that it has been sent by special friend or other persons interested in having them make a careful examination of the reading matter and its terms of subscription, in order that they may avail themselves of its inducements and attractions as the best newspaper published in New Mexico, and if living east, may become acquainted with the advantages and attractions of this the most wonderful valley in the world.

Mining Pumps.

We have in stock a full line of all sizes mining pumps, both hand and electric, and station pumps, single and duplex pattern, all made from new and improved patterns. Call and see them.

DEAN STAM PUMP CO.,
1710 Blake St., Denver, Colo.

Pure artificial ice, manufactured from double distilled water, clean and wholesome, delivered by the Fisher Brewing company at the lowest market price. Orders by mail promptly attended to.

Grave Stones.

J. W. Franklin, dealer in monuments, grave stones and iron fencing. Write for prices—116 West 5th St., Pueblo, Colo.

BUSINESS NOTICES.

WANTS.

OFFICIAL GOSSIP.

School directors will be named by the local Republicans for the two city precincts on Wednesday afternoon next, the primaries to take place at the district school houses. It is every tax payer's duty to be on hand at these nominations.

The English copies of the new acts by the 20th legislative assembly having been printed and bound and got out of the way, the New Mexican will on Monday next set a large force of men at work getting out the Spanish copies of the laws. They'll be ready before many weeks.

An order has been issued by the post-office department for the discontinuance of the exchange of through registered mail pouches between Salida, Colo., and Santa Fe. Under the present arrangement of trains it is just about the same to have this registered pouch go via Albuquerque, leaving here at 7:25 in the evening and to have it lay all night here and go out at 8:25 in the morning for Salida.

In the contest of the Santa Fe county clerkship the attorneys for Delgado will try and induce the self-constituted Creamer board of county commissioners to tamper with the ballot boxes at 2 p. m. tomorrow. The attorneys for Lopez, the contestant, insist that the Creamer board, which has never qualified, and is in no manner recognized by the courts or the people as having any official rights whatever, shall keep their hands off.

The school law authorizing the collection of poll tax was passed during the closing hours of the last legislature and under it there are absolutely no exemptions. It repeals all prior laws on this subject. The "binding" clause reads: "Total poll tax of \$1 shall be levied upon all able bodied male persons over the age of twenty-one years, for school purposes. It shall be the duty of the county assessor to make out separate lists of all persons liable to pay a poll tax in each district, and certify the same to the clerk of the several school districts, whose duty it shall be to collect the same, and said clerks shall receive 10 per centum of all moneys collected from poll taxes. The district clerks are hereby empowered to bring suit in the name of the district for the collection of the same, if not paid within sixty days after said lists have been received by the treasurer."

200 Miners out at Gallup.

At Gallup the other day the coal miners in the Aztec, Sunshine and Catalpa mines, numbering nearly 200 men, asked the general manager of the Aztec company to remove John James, the mine superintendent, but giving no reason for the request except that he was distasteful to them. The demand was ignored and the men quit work.

A rousing meeting of miners was held at Gallup and a resolution passed that the miners in the other mines would donate half their earnings to assist the strikers to win their cause. The company contends that Mr. James suits them and it is claimed that three hundred more men threaten to quit work and join the strikers.

ROUND ABOUT TOWN.

And still the great flow of waters in the Rio Santa Fe continues to go to waste. What a delightful cool and refreshing spot is the plaza grove these bright days. Blank declarations and powers of attorney in Indian depredation claims, for sale at New Mexican office.

A span of mules and a team of horses for the use of the penitentiary arrived today from Col. J. W. Dwyer's ranch. Charlie Catron's "Kid Nine" beat the St. Michael's college Browns at a game of ball yesterday afternoon; score 13 to 12.

A fine lot of flowers, tokens of regard from sorrowing friends, accompanied the remains of Rev. T. J. Glynn to Albuquerque last night.

Three car loads of the celebrated Golden pressed brick have arrived via the A., T. & S. F. route for the Webster block and are being carefully unloaded today.

Enough water to irrigate hundreds of thousands of acres of fine fruit lands has thus been lost to Santa Fe this season. When will it be stopped?

Santa Fe will vote on the question of incorporation June 2. The people of the capital city will undoubtedly vote in favor of the measure.—Albuquerque Citizen.

The Mue residence on Hillside avenue, injured by an overflowing ditch the other day, has been fully repaired and placed in better shape than ever. Precautions against all further accidents of this kind have also been taken.

Santa Fe county owes the Water company for three years' water service, and is said that the mission of Gen. Carr, president of the company, now here from St. Louis, is to enforce collection of the money, by suit if necessary.

Four public spirited citizens are wanted to become members of the Historical society and aid in placing the Cole collection of relics on exhibition at the society's rooms. Four additional members at \$25 each will do it.

The second dance given under the auspices of the Glee club took place last night; 100 couples danced till 3 o'clock this morning. The next dance will be given under the management of Ned Gold.

W. S. Clark, correspondent of the Ontario (Cal.) Record, is looking over Santa Fe today. He comes from a fruit country and he is surprised to see what Santa Fe can do in the fruit production line.

The Sayle brothers, of Lamby, failed to overtake the thieves who got away with their mules and pony at the coke ovens the other night. They suspect certain parties and one of them is in town to see about it.

E. C. Manning, of Washington city, who lived in Santa Fe ten years ago, is here to-day and is taking a view of his realty holdings under the guidance of Mr. Webster. Mr. Manning expresses gratification at seeing Santa Fe getting on a modern move.

According to the opinion of many of the local attorneys, no qualified voter is exempt from paying his poll tax, not even the firemen, many of whom contend that active membership in a hose or hook and ladder company exempts them from payment of this tax. The law exempting them from jury duty may hold good, but the payment of poll tax is a thing that makes all men equally liable.

David Williams, a native of England, who has been an invalid at St. Vincent's hospital for two years, suffering from

paralysis, is to be sent to his home in North Wales in a few days. Agent Smith, of the Santa Fe, has arranged it so that the sufferer will go through to New York under the care of the several conductors and an agent of the Santa Fe route will receive him and transfer him to a steamer bound for Queenstown. Wealthy English relatives foot the bill.

Twenty Years' Experience.

C. D. Fredricks, the well-known photographer, 770 Broadway, N. Y., says: "I have used Alcock's Porous Plasters for twenty years, and found them one of the best of family medicines. Briefly summing up my experience, I say that when placed on the small of the back Alcock's Plasters fill the body with nervous energy, and thus cure fatigue, brain exhaustion, debility and kidney difficulties. For women and children I have found them invaluable. They never irritate the skin or cause the slightest pain, but cure sore throat, coughs, colds, pains in side-back or chest, indigestion and bowel complaints."

PERSONAL.

E. B. Seward has gone to Pecos town. Hon. H. C. Pickles, receiver of public moneys at the Folsom land office, left last night for a visit to Albuquerque.

H. H. Wyckoff, manager of the Fidelity Building & Loan association of Denver, goes to Las Vegas to-night to close a loan there for his company.

Wm. Nathan, Denver; R. E. Harris, Louisville, Ky.; G. W. Jones, T. Gifford and Frank Smith, Trinidad, are at the Exchange.

Hon. Pedro Perea, the wide-awake president of the First National bank and a leading Republican of the territory, is here from Bernalillo to-day on business.

At the Palace: Bernard Reinken, St. Louis; D. J. Holze and wife, Cleveland; A. W. McFarland, wife and child, Humboldt, Iowa; E. C. Manning, Washington; D. W. Turner, W. A. Wilson, Kansas City; H. T. Britton, Chicago; W. T. Caylor, Denver; John C. Landen and wife, Toronto, Ont.; Thomas Seldon and wife, Ingersoll, Ont.

John S. Barnum and wife are here and will hover about until June 1, when Mr. Barnum may resume business at the old stand at Lamby, and again he may not. It all depends. Mr. Barnum has just returned from a pleasant visit to Chicago, where he has a brother and that boy of his, a bright lad who is attending college.

What It Costs.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commands itself with special force to the great middle classes, because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said "100 Does One Dollar," and a bottle taken according to directions will average to last a month.

Mr. Catron Interviewed.

Says the Denver News: Hon. T. B. Catron is the chairman of the New Mexican delegation. He is one of the legal lights of that territory, and when asked about the course New Mexico would follow in the present meeting he said:

"We are in favor of appropriations for the improvement of the whole western country. We believe in the government building levees and in making deep water harbors. We will also call attention to the fact that among all the appropriations made New Mexico was not included, and we need government aid for internal improvements. On the arid land question, we take the position that these lands should be ceded to the state. The east hawks frantically against a dollar being expended for the improvement of western lands, forgetting that there was no opposition when they laid around and question came up for eastern benefit."

Know when these swamp lands were sold at a 'bit' an acre, and some of them are now worth \$40 or \$50 an acre. The government re-claimed these lands and the same should be done now in the matter of arid lands. We have not been noticed at all by congress, but we propose to be in the future. The only thing that was ever done looking forward to the reclamation of the lands, was to send out special agents who didn't know as much about the subject as a Missouri rascal. They laid around and appointed assistants and got mixed up in territorial politics. They never made a report and their hardest work was drawing their pay, therefore, the territory never got anything and we are here to protest."

NEW MEXICO MINES.

Considerable St. Louis capital is going into Grant county mines.

Little news this week from the mines of Socorro and Lincoln counties.

The Cash Entry-Central company at Cerrillos has largely increased its working force during the past two weeks.

The Lincoln-Lucky mine at San Pedro is too rich in massive galena and lead carbonates to lie idle. Smelters want that class of ore.

Hon. T. B. Catron has had a force of men constantly at work on mines near San Pedro for a year and a splendid piece of development is the result. The pay in sight is said to be very encouraging.

At Lake Valley Finch and Standish have sold the Miles Standish mine to G. A. Hammel for \$15,000. The Silver Mining company paid a dividend of 5 cents a share last Thursday. This makes \$75,000 this company has paid in dividends this year.

Silver Creek echo from the Sentinel: The Last Chance mill building is completed. In the mine a cross-cut was made in the tunnel about seventy-five feet from the mouth, which showed the vein to be twenty-two feet wide at that point and to average \$12 a ton all the way across. A tunnel so far has averaged over \$20 a ton.

According to statistics, Pueblo, Colo., last year received 13,694 cars of ore, or say 200,000 tons. During the same period 1,083 cars of smaller products were shipped away, to say nothing of what was shipped by express. It would be interesting to know what amount of this was furnished by New Mexico.

Cerrillos Rustler: Everything is going along nicely so far as the mining works are concerned, and the outlook for the summer and fall is unusually promising. Everything is getting down to a rock-bottom basis however, and from that kind of a foundation must gradually build up. The boom does not belong to this country. Steady, continued prosperity is what we want.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

Yesterday evening we glanced on an exchange and read the item, "but little coal is now being shipped from Cerrillos." Our eyes wandered from the paper to the side track in front of the office and counted 13 cars, loaded and loaded ready for the day's shipment. The coal trade at Cerrillos is good all the year around.—Rustler.

Of the theory that placer gold emanates from quartz ledges, Col. Harris, a well known mining man of Kingston, says: "Placer gold is often found above instead of below the quartz ledges. Well, you must remember that the formation of this country was not always the same, and placer gold has been subjected to distances—tossed up and down for hundreds of years."

The secretary of the Colorado Mineral Palace company left Pueblo recently on a tour of the leading mining camps and cities of Colorado, New Mexico, Utah, Arizona, Montana, Idaho, California and the entire west, for the purpose of collecting mineral facts for this exhibition, which will be opened to the public on July 4. New Mexico mines should not fail to make liberal displays on this occasion.

Another great find has been made on the Young America mine in the Magdalena mountains. A vein has been found going down in the mine that is fully six feet wide. The ore runs fifty-six ounces in silver and is growing richer as depth is attained. This new discovery makes the Young America one of the greatest mines in New Mexico. No wonder "Jonah" Nelson wanted to take out his naturalization papers.

Albuquerque Citizen: M. Mammoth, book-keeper Mandell Bros. & Co., and Pedro and Juan Sandoval, who quickly left the city a few weeks ago ostensibly to recreate in the Jemez mountains, but in reality to look up an old abandoned Spanish mine in the Gallinas mountains, about 100 miles south of the city, returned last night. Among the papers of the father of the Sandoval boys, now deceased, was recently found a deed to a mine in the Gallinas mountains, giving a description of it and its exact location. The old mine was really discovered and the gentleman did assessment work on it for the present year.

The development on the "Confidence" mine at Silver Creek Grant county, steadily progresses. Already upward of \$75,000 has been expended by Posey and Crawford (of Denver) on this important group of mines and the ore in sight will measure up nearly 75,000 tons. The ore which has just been struck is worth nearly \$800 per ton and the vein is about four feet in width. It is the largest strike yet made in the Silver Creek district and goes to prove that Silver Creek is destined to become one of the leading camps in the territory.

New Leadville is the name of a new town laid off in the Carpenter district, this county, which gives promise of soon becoming a camp of great importance, thanks to the extension of Mexican lead. Mr. O'Neal, of Kingston, recently purchased a mine in that district for \$40,000, and now has a force of men developing the property. Roads are being built to the mines, which will be the outlet for the mines. Sheba Hearst, whom Mark Twain celebrates in "Roughing It" has laid off a town of 2,400 lots in Metre-gor park, which is enjoying quite a boom. A good deal of prospecting and development work is going on in the district. New urban improvements. On the arid land question, we take the position that these lands should be ceded to the state. The east hawks frantically against a dollar being expended for the improvement of western lands, forgetting that there was no opposition when they laid around and question came up for eastern benefit."

A great mining suit is occupying the attention of the district court at Silver City. It is a suit in ejectment brought by the owners of the Calamity mine at Kingston, against the Illinois Mining company, and was brought here on a change of venue from Sierra county. The suit is to determine whether the Illinois company has been following a vein which dips, and crosses the side line of the Calamity mine, or whether they have been following a series of pockets. It is claimed by the Illinois company that they have been following a clearly defined vein, and that it is almost certain that the case will be appealed to the supreme court of the territory. A complete plaster model of the entire workings of the Illinois mine has been made to assist the jury in understanding the testimony.

THIS PAPER is kept on file at R. C. Duke's advertising agency, 64 and 66 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

Job printing, binding and ruling, first-class and at prices to suit the times at the New Mexican printing office.

BOOK PUBLISHING

Every description of Book and Pamphlet work promptly and neatly executed. Estimates furnished on application. If you have manuscript write to Santa Fe, New Mexico, to the NEW MEXICAN PRINTING CO.
