is now selling here at \$10 a bushel, Mexi-
can money, or about \$7.50 American
money.

Vandyke, pastor of the Second Presby-
terian church, Brooklyn, dropped dead
at 10 o'clock last night at his residence.

Call Gets There.

TALLAHASSEE, Fla., May 27.—Fifty-four
votes were cast in the joint session of the
legislature yesterday, of which Cal re-
ceived fifty-one and was declared elected.

O'Shea's Divorced.

LONDON, May 27.—A decree of divorce
was obtained by Capt. O'Shea from his
wife, Mrs. Kitty O'Shea, on account of
alleged adultery with Parnell, was yester-
day made absolute.

A Democratic Victory.

LANSING, Mich., May 27.—The governor
has sent to the house his veto of the G.
A. R. bill, which appropriated \$30,000 for
the entertainment of the G. A. R. at De-
troit next August. It is thought the bill
will be passed over the governor's veto.

A Fatal Blow.

LYNN, Mass., May 27.—James Burns,
of Lynn, late of Marlboro, who was
knocked out in an eight round battle with
Harry Tracy, of Cambridge, before the
Lynn athletic club Monday evening, died
yesterday. The knock out blow broke a
blood vessel in his brain. Tracy is under
arrest.

Express Company Robbed.

MARSHALLTOWN, Ia., May 26.—A Times
special from Carroll, Ia., says two men
entered the American express office there
last night, bound and gagged an employe
named Matthews, robbed the money box
of \$5,000 and escaped. The only description
which Matthews in able to give is
that one of the men is tall and the other
short.

Harrison's Hit.

WASHINGTON, May 27.—Representative
Owen, of Indiana, in an interview to-day
said: "I think that no public man ever
met with a more flattering reception
through the line of his travel or made
more friends than the president. There
was not a mistake by him, and he grew
in the estimation of the public when he
went, and through his speeches be-
came better known to the country at
large. Men who had some doubts about
his future no longer hold them. He is
certain to be re-nominated. Blaine will
not oppose him, and when the conven-
tion meets it will be found practically
unanimous for him. I think the Demo-
crats will nominate Cleveland. It will be
the old ticket, Harrison against Cleve-
land."

"The third party movement puts an
element of uncertainty into the campaign
for both parties, but Harrison has grown
in strength wonderfully."

The Land Court.

WASHINGTON, May 27.—The Post has
this: "Ex-Congressman Payson, of Illi-
nois, it was said last night, has been
named the chief justice of the new land
court. He is, perhaps, the best in-
formed man in the country on public
land legislation and stands exceedingly
well with his party."

The appointments for this court will
likely be announced in a few days. It
will be composed of three Republicans
and two Democrats. The Republicans
have been chosen. An announcement of
the full court would have been made but
for the fact that a hitch occurred over the
Democratic selections. This part of the
work was supposed to have been finished,
but at the last moment it was discovered
that the Democrats who have been named
were not qualified. The discovery caused
a postponement. Fresh timber was called
for. As soon as the president can pick
out two acceptable Democrats the full
court will be announced. The members
will be asked to qualify and organize for
work.

Besides ex-Congressman Payson, the
Republican members of the court are said
to be ex-Representative Thompson, of
Ohio, and a Kansas man, but not ex-Rep-
resentative Peters, as was at one time
reported. In giving two of these five
judgeships to the Democrats, the presi-
dent has been more liberal than they ex-
pected. The south will get one, and per-
haps both of the places if available candi-
dates are presented. The president is,
however, insisting on high-class material
from which to make the selections.

Strained Conditions of Currency.

LONDON, May 27.—The Statist in re-
viewing the financial situation, expresses
surprise at the wonderfully cool manner
in which Americans have faced the tremen-
dous drain of gold from New York, and
says that it is perhaps the most remark-
able circumstance connected with the
finance of the world. The Statist goes into
figures, and states that on last Wednes-
day \$65,000 in gold were shipped from
New York, and that during the two pre-
vious weeks over \$3,000,000 were drawn
from the same quarter. Since Wednes-
day \$300,000 additional have been order-
ed, making a total of \$4,350,000 within
three weeks, and since the beginning of
the present year Europe has drawn from
the United States over \$10,000,000.

Peculiar

Many peculiar points make Hood's Sas-
aparilla superior to all other medicines.
Peculiar in combination, proportion,
and preparation of ingredients. Hood's
Sarsaparilla possesses the full curative value of the
best known remedies of the
vegetable kingdom.

Peculiar in its economy—
Sarsaparilla is the only medi-
cine of which a single bottle
will cure a case of blood
poison.

Peculiar in its medicinal merits,
Hood's Sarsaparilla accomplishes cures hith-
erto unknown, and has won for itself
the title of "The greatest blood
purifier ever discovered."

Peculiar in its "good name"
home—there is now
of Hood's Sarsaparilla more
sold in Lowell, where
than of all other blood
purifiers.

Peculiar in its phenomenal record of sales
abroad, has no other preparation
ever attained such popular
favor, and retained its popularity
and confidence among all classes
of people so steadfastly.

Do not be induced to buy other preparations,
but be sure to get the Peculiar Medicine,
Hood's Sarsaparilla.

WEDNESDAY, MAY 27.

ANNIVERSARIES.

May 27th.

BORN: C. Vanderbilt, 1794.
Jay Gould, 1836.
Dante, 1265.

DIED: Noah Webster, 1843.
Calvin, 1564.
Paganini, 1840.

First telegraph line in U. S., 1844.

Come now, who wants any funding done? If anybody wants anything of the kind, let him hurry up? Time flies.

As we said, every-thing action by the self-constituted so-called Creamer board of county commissioners is utterly in the soup and the soup will be very warm before the board gets through eating it.

The Standard Oil company, the Pullman Palace Car company and the Wells-Fargo Express company are three monopolies, that must be controlled by stringent legislation and in the interest of the people. Put a pin right here and remember this.

The Rio Grande Republican has finished the eleventh year of its existence. The older it becomes, the better a paper it gets to be. Success and prosperity for all time to come to the Rio Grande Republican, published at Las Cruces, is the wish of the New Mexican.

The Denver papers are agitating closer rail connection between New Mexico and Colorado; the most feasible and best route would be the extension of the Denver & Rio Grande via Santa Fe south. This extension must come and may come sooner than expected.

THE REFUNDING FANE.

The boodle that has been put out in that little fake refunding scheme of \$175,000 worth of alleged bonds and coupons claimed by a road called the Texas, Santa Fe & Northern railroad or Santa Fe Southern or whatever, has gone glimmering; the scheme will not work; sorry for the road! awfully sorry.

THEY WILL HAVE TO SETTLE.

It stands to reason that the action of Judge Seeds in firing John H. Sloan and Teodoro Martinez for contempt of the orders of his court will stand, and these two men will have to step up and settle. Law, order and the lawful mandates of the courts must and shall be carried out, in spite of the gang in Santa Fe county, that says no.

PRESIDENTIAL ASPIRANTS.

Our friends, the enemy, seems to be badly chopped up over the presidential outlook. The splendid harmony that prevails all along the line of the Republican party, and the utter failure of the Democratic press to break this line by the publication of the most sensational reports shows only too clearly the drift of things. In contrast with the situation in the Republican camp, there are a multitude of aspirants springing up ambitions to knock out Cleveland and Hill. There are Gorman and Horizontal Bill Morrison; Carlisle, of Kentucky; Patterson, of Pennsylvania; and McPherson, of New Jersey, all getting to the front with their faction of followers, and a right lively time they promise to have of it during

the next year. Under the circumstances the prospects for the unfettered getting together are not very flattering.

REMOVE THE U. S. SUPREME COURT.

By the Great Jehosophat, the supreme court of the United States has had the temerity and impertinence to decide against the shining lights of the Santa Fe bar, who advised defiance of the lawful orders of the district court and of the supreme court of this territory; the judges of the U. S. supreme court must be daft to hold against such very eminent? and learned? counsel? as appeared for Delgado in his wilful and wicked disobedience to the lawful orders of the district court and of the supreme court of New Mexico. The easiest way for these so-called lawyers to get out of the scrape is to charge that the supreme court of the United States was bought up by the Santa Fe ring. Be this as it may, hauling up a few of these gentry and fining them for contempt of court or disbarring them for certain of their illegal and unlawful actions and for advising clients to disobey the lawful orders of the court would have a very salutary effect upon all concerned.

TOURIST TRAVEL AND RAILROADS.

The western railway lines have very wisely cut the tourist rate from Missouri river to Colorado competing points from \$20 to \$25 for the round trip. The Colorado people demanded a rate of \$20, and a compromise resulted in the above rate. The tourist business has grown remarkably of late years and the Rocky mountain resorts are becoming famous the world over for their attractions both for those who annually travel for pleasure as well as for health. As long as New Mexico is without railway competition just as long will she be compelled to forego this source of profit. It is not now possible to get near so good a rate to New Mexico points as to Colorado points and our neighbor on the north is largely the gainer thereby.

It is a fact not generally known that several millions of dollars are annually brought into Colorado through this source. The president of the Sportsman's association of Colorado lately estimated that not less than \$2,500,000 yearly was expended by pleasure seekers in that state among the mountain farmers and ranchmen. Bye and bye, when New Mexico secures its several new systems of railways, this is also to prove an element of wealth for us that few now take into account. It merely serves to again show that we should all strive for the building of additional railroads. We must have them, and to the end even "railroads on paper" are still in order, for it is the province of the newspaper to outline these projects and thus draw toward them the attention of capital, energy and brains. For our part we have not the least sympathy for those who sneer at those who build "railroads on paper." These latter are the pioneers of civilization and progress. They blaze the way for the real builders. Who will undertake to say how many new lines Colorado or Kansas or Nebraska has received through the influence of the press in this matter? But of them all Colorado has the greater variety of resources to justify the building of new short lines, and this tourist traffic is one of its most important ones. In this respect New Mexico is quite the equal of Colorado and in time her tourist traffic must prove an item of no small profit to her railways.

EDITORIAL COMMENTS.

Certainly Such Should be the Case. Colfax county ought to have several Republican leagues. Raton can have, and there is no good reason why we haven't, as large and as effective a league as any town in the territory.—Raton Range.

Let us Have Closer Rail Connection Between Colorado and New Mexico.

The delegates from New Mexico were especially interested in Colorado and Denver. The larger portion of New Mexico is naturally tributary to Denver and its people are very anxious to secure proper communicative facilities. Denver should be stirring in the matter.—Denver Times.

The Wells-Fargo Company Should be Forced to Abide by the Law.

The New Mexican claims that the Wells-Fargo company is not paying the slightest attention to the new law, regulating rates in the territory. The new law was not half strict enough. The Wells-Fargo company has always been a monopoly whose business methods bordered close onto robbery. The company should be forced to recognize the new law.—Silver City Enterprise.

More and Faster Trains Between New Mexico and Colorado are Needed.

Gentlemen of the Santa Fe and Denver & Rio Grande railroads, give us a local train on each road between Denver and New Mexico points, leaving here in the morning. This much the people of Colorado and the territory south of us have a right to ask at your hands. Denver's mail and Colorado's travel into the territory ought to get there twenty-four hours in advance of that of Missouri and Mississippi river cities.—Denver News.

The Range Talks Sound Sense.

The Kansas importation who presides over the Farmers' Alliance organ, the Liberty Banner, at Lincoln, N. M., repudiates the solemn treaties between the United States and Mexico and ignores the rights of innocent purchasers and honest owners of land grants, whose titles have been verified by the highest courts in this country. His wild and reckless ravings on this section of the territory are wholly gratuitous. Colfax county will go right along and develop its resources, regardless of the cranks who attempt to obstruct our advancement.—Raton Range.

The New Land Court.

The five judges of the land courts, created during the late session of congress, will probably be appointed soon. These courts have been established chiefly for the settlement of the difficult and embarrassing questions growing out of the old Spanish and Mexican land grants, which were recognized by the United States government in the treaty of peace which closed the Mexican war. If good men are appointed to the judgeships, they will be able to bring much of material benefit to New Mexico, Arizona and other sections of the country acquired from Mexico. They need to be men who will decide not only rightly and justly, but also promptly.—Denver Sun.

Talks From the Shoulder About the San Miguel White Caps.

The Herrera brothers, the leaders of the White Cap movement in San Miguel county, one of whom was elected to the legislature last fall, are in very serious trouble. They quarreled over political matters with the Sandovals (father and son) with the result that the son was stabbed to death and the father lies in a critical condition. The White Caps then made their usual raid into Las Vegas, defying the officers of the law and threatening to liberate the Herreras. The sheriff telegraphed the governor for arms, which were promptly sent. The Herreras are still in jail. The people of San Miguel county deserve very little sympathy as a spirit of anarchy has reigned in that county for some time, and no organized effort has as yet been made to put it down. The White Cap organization of cut throats and murderers has been allowed to defy the law with impunity. Men have been shot down in cold blood and property destroyed to the extent of many thousands of dollars, and yet, in the face of this the law abiding citizens, and we presume there are some left in the county, are either powerless to stop this reign of terror or for some unexplainable reason have failed to make an earnest attempt. The White Caps of San Miguel have done great damage to the whole of New Mexico, and especially to the residents of that county. It is high time that such an organization be put down, and its leaders strung up.—Silver City Enterprise.

Then he clasped her with emotion, drew the maiden to his breast, whispered words of true devotion. The old, old tale, you know the rest. From his circle arms upspringing, with a tear she turned away. And her voice with sorrow ringing, "I shall not see my bride day."

This dramatic speech broke him up badly, but when she explained that her apprehensions were founded on the fact of an inheritance, he calmed her fears, bought a bottle of Dr. King's New Discovery, and she is now the incarnation of health while they are unconscious of their ailments. The "Golden Medical Discovery" has cured her. But it must be taken before the disease is too far advanced in order to be effective.
